## Teenage Girls Object Of Hunt

Information has been sent to all law enforcement officers in the area to be on the lookout for a late model black car with a Forest City tag reported to have picked up three Longwood teenage girls near a Sanford drive-in theater last night.

The girls, Melissa Owens, 14, Teresa K Owens, 15, and Lanette Frickers, 15, have been missing since 5:50 p.m. Sunday. They cupied by two men said to be in their late 20s. The Owens sisters are the daughters of Mr. and

Lanette is the daughter of Mr. and Mrs. M. H.

Longwood Police Chief Eddie Sweat told The Any further information about the teenagers

DIAL 322-2611

At least one aspect of the population expresion in Florida, especially as reflected by the numbers of mature persons seeking to put roots down and grow, is one which has not been emphasized.

This is the vast treasure in human resources which comes along with every family and needs to be unpacked along with the household goods. Our Sunshine State has had diverse allurements which attract such a wide variety of folks that his alone would bring about the current phenomena.

Tourism; agriculture - with a deep bow to our citrus groves; industry - which has found the natural assets quite persuasive in retaining steady employment; and, of course, the space program with its mustering of technological and scientific personnel not found elsewhere, are the magnets.

Every region in Florida has this important and unusual migration to call on with its vast reservoir

of human resources. Here in Seminole County considerable attention has been paid to and comment made about the extraordinary population growth, especially along the southern half, with quite proper emphasis given to the need for our county to provide facilities to

Developers and custom builders have been hard on the trail of the newcomers with houses, designed for Florida living, apartments and condominiums ready to be made into homes by occupancy.

But much as the newcomers can and do provide in the way of persons to be employed, or new business ventures to be started there are the welcome personal skills which come along.

For this migration into Florida has been and is the healthy and happy step into such activities. The being made, in a very large part, by those whose success has permitted a change in location and, as statistics show, by many whose skills have allowed them to be in a position to live wherever they want-

ed in their senior years. We urge that every one who comes into our county take time, right now, to unpack all the cumulative experience which has been theirs and see where it can be put to good purposes in their new Our county has a real and unsatisfied demand

for citizen involvement in almost any direction whether it be in civic clubs, churches, school-allied bodies, cultural associations, chambers of commerce, or hobby groups. Especially is it rewarding to the ones who take

field of action here is broad. The pace of growth is fast. No need for a long wait to see whether one's skills are effective. Human resources in the truest sense are the resources which, if properly exploited, determine the

character of a nation, a region or a community. Thus the very solid base which has been created in our county in the past half-century by the "human resources" who saw the possibilities and came here as pioneers is something which every newcomer, who decides to be more active than critical, will discover for himself.

Seminole can field an unbeatable team if the combination of these two great "human resources" -the new and the old-will meld into the vigorous body the 1970s demand.

### Ladies "Beef!"

The housewives' revolt against skyrocketing meat costs is gaining momentum across the country and murmurings of a beef boycott are even heard in Seminole County.

As every shopper knows, however, in many cases an informal boycott has already been in effect for some time by those who simply cannot afford today's high prices for beef. This rise has also spread to other meat items including the lowly hot dog.

A familiar sight these days is that of shoppers scanning the meat counters in the local supermarkets for something they can build their meals around at a reasonable cost. They shake their heads in disbelief, exchange complaints about high prices, and often walk away empty

What's a mother to do? Caught between her desire to please her husband and children and keep them well fed and rising food costs she is in the middle of the dilemma.

burger instead of steak, but what about the harried homemaker, who has already taxed her ingenuity and stretched her budget inventing a thousand and one ways to serve hamburger only to discover her old staple now masquerading under steak prices.

they have enten so much chicken they are be-We have noted with interest and dismay the

Perhaps one solution for those participatinging in the boycott to find meat substitutes will be to go back to the land like our "cracker" ancestors. Our own Doris Williams might even come up with some helpful hints and recipes for such gourmet items as fillet of rattlesnake. possum with yams, fried gopher, armadillo although, alligator steak is a "no, no."

mondine, or catfish casserole. Don't forget If you are thinking all this rebellion by the fair sex is only an exercise in futility, remember those immortal words, "Never underestimate the power of a woman!"
