GERMANS ARE ORGANIZING GENERAL STRIKE AT HERNE; FRENCH TANKS TO SCENE

GERMANS ARE BOYCOTTING FORCES OF OCCUPATION THROUGHOUT DISTRICT

FRENCH TAKE

Over the Work of the German
Police and Boycott Will
Extend to Essen

(By The Associated Press)
LONDON, Feb. 12.—Central News
despatches from Berlin say that two
French soldiers and one German were
killed in a clash at Gelsenkirchen in
Ruhr this morning when German sol-
diers halted a motor car containing
French soldiers.

DUSSELDORF, Feb. 12.—Reports
that the Germans are organizing a
general strike at Herne, not far from
Bochum, have led to the dispatch of
French tanks to that place. The Ger-
mans are boycotting forces of occupa-
tion throughout the Herne district
and the French have been obliged to
take over the work of the German po-
lice. The boycott in fact, is becoming
more popular throughout the Ruhr
and the Germans have decided to ex-
tend it to Essen, beginning today.

PARIS, Feb. 12.—Metal and other
manufactures from the Ruhr and the
Rhineland will not be permitted to
go into unoccupied Germany after
midnight tonight. French and Belgian
officials served notice today on Ger-
many that in consequence of the ef-
forts of the Germans to create diffi-
culties for the occupational forces
this further embargo is to be placed
on exports from the two regions. An
identical note handed the German
charge d'affaires in Paris and Brus-
sels reads as follows:

"Because of orders given by the
German government to its functionar-
ies in the Ruhr basin as well as
disorders of all sorts which the Ger-
man government is trying to excite
there, the French and Belgian govern-
ments have decided to no longer allow
to be exported into unoccupied Ger-
many, beginning Feb. 12, 1923, metal-
lurgical and other products manufac-
tured in the occupied territories."

BERLIN, Feb. 12.—Dr. Haenisch,
Prussian minister of education, was
arrested and expelled from Wiesbad-
en last Saturday. He recently was ap-
pointed government representative at
Wiesbaden but had been unable to
assume office owing to the Rhineland
commission having vetoed his appoint-
ment.

Dr. Haenisch was attending a con-
ference of officials when he received
an order to visit the French represen-
tative in the Ruhr. He refused to
comply, whereupon he was arrested.

DUSSELDORF, Feb. 12.—"Just
one month ago today I gave orders to
my troops to enter the Ruhr, and nev-
er, until Germany makes adequate set-
tlement for the frightful wrongs and
damages inflicted upon my country,
will I order them to withdraw," said
General DeGoutte, the French com-
mander, to the Associated Press.

"Right and might are ours," Gen-
eral DeGoutte continued, "and we
shall win. We occupied the Ruhr
without shedding a drop of blood. We
have allowed the population full lib-
erty; we are not crushing the coun-
try under requisitions, but we want to
get paid, and we shall be paid."

We are getting ahead in organiz-
ing the region. The Germans may
sneer, but we can stand an idle Ruhr
longer than they can. The world
must realize what a stupendous un-
dertaking is the organization of the
intricate network of railroads, indus-
tries and mines. Even you in Amer-
ica with your tremendous capacity for
organization and your great resources
of men and money, might have found
it difficult to complete such a work
in a month. We shall carry on."

"Chancellor Cuno," said General De-
Goutte, "declares our aim is the econ-
omic destruction of Germany. Our aim
is much simpler. We want redress;
we want Germany to honor her sig-
nature. The economic ruin of Ger-
many would prevent her from pay-
ing us. Germany, by fomenting
strikes, is responsible for the present
situation prevailing her own ruin."

The chancellor's reference to Ger-
many being too weak to resort to
physical resistance brought forth this

DR. O'HIGGINS ASSASSINATED YESTERDAY

FATHER OF KEVIN O'HIGGIN,
FREE STATE MINISTER OF
HOME AFFAIRS

(By The Associated Press)
DUBLIN, Feb. 12.—Dr. Thomas
O'Higgins, of Maryborough, father of
Kevin O'Higgins, free state minister
of home affairs, was assassinated at
his home last evening. The victim
was a brother-in-law of Timothy
Healy, governor general of the free
state.

LONDON, Feb. 12.—President Cos-
grove of the dail circann, in a state-
ment to the Daily Mail, declared he
was ready to agree that Eamonn De-
Valera should advise his followers to
surrender their arms on condition
that the question of a republic or a
free state should be left to the elec-
tors.

DUBLIN, Feb. 12.—The first official
reports of a surrender under the
government's new amnesty decree has
been received from county Cork, where
a number of irregulars, accompanied
by their leader, delivered up their
arms and ammunition at the New
Market military barracks, and entered
into an undertaking not to fight
again against the Free State govern-
ment.

At a meeting of the Sinn Fein at
the Mansion House yesterday, Dr.
Kathleen Lynn, who presided, said
that DeValera desired that the organ-
ization should be kept in being.

Mary MacSwiney, in an uncompro-
mising Republican speech, made refer-
ence to Liam Deasey's "abject sur-
render."

Prisoners in the Waterford and
Clonmel jails have issued an appeal
similar to that from Limerick—that
they be allowed to release delegates
on parole to influence Republican
leaders toward a peace settlement.

At Clonmel yesterday when the
members of a congregating were
leaving mass they were fired on by
irregulars with machine guns, from
neighboring hills. Twenty soldiers
who attended the mass were the ob-
jectives, but none of them were hit.
One civilian was killed.

The Laten pastorals of the bishops
were read in the churches throughout
Ireland yesterday. They were solemn
and impressive peace appeals and de-
plored what the bishop of Galway
characterized as "unnatural and un-
Christian warfare between old com-
rades and brothers."

Bank of Baker, In Santa Rosa Released Today

(By The Associated Press)
TALLAHASSEE, Feb. 12.—The
Bank of Baker in Santa Rosa county
probably will be released from re-
ceivership within the next two weeks
according to Comptroller Amos who
returned today to the office from a
visit in connection with negotiations
that end bank with a capital of \$15,-
000 was placed under receivership
about one year ago.

ROTARIANS GATHER IN TAMPA TODAY FROM ALL THE WORLD

(By The Associated Press)
TAMPA, Feb. 12.—Headed by the
President, Raymond Havans of Kan-
sas City, all the members of the di-
rectorate of the International Rotary
clubs except Alex Wilkie of Stosland
and Mario Nunez of Cuba began a
four day session.

rejoinder from the French com-
mander.

Germany will never fight unless she
is stronger, or believes she is strong-
er, than her adversary. The moment
she feels an opponent is more power-
ful, she surrenders. She pleaded and
begged for an armistice under cir-
cumstances in which the Allies would
have considered they had just begun
to fight. We did not quit after Sed-
dan. We fought to the finish: we lost
and we paid.

TASK OF REMOVING BODIES FROM THE DAWSON MINE NOT COMPLETED THIS WEEK

Fifty Bodies Remain to Be Found, Seventy Hav- ing Been Taken Out

DAWSON, Feb. 12.—The task of re-
moving the bodies of those who died
in the explosion of Dawson Mine No.
1, owned by the Phelps Dodge Cor-
poration, probably not be completed
for a week according to Manager
Brennan. Fifty bodies remain to be
found, two living and seventy dead
having been taken out thus far. Of
the bodies recovered all but one has
been identified and many of them
were buried yesterday.

DAWSON, N. M., Feb. 12.—The
shattered depths of Dawson Mine No.
1 had given up seventy dead last
night. Within the subterranean tomb
fifty miners still remain. It is more
than a reasonable certainty that all
have perished, according to officials.
Bathed in the warm rays of a daz-
zling sun, Dawson set about the task
of burying her dead yesterday. Thru-
out the morning and afternoon rough
pulp boxes carrying the bodies of
those whose lives were snuffed out in
Thursday's disaster were borne thru
the main street of the town, out along
the winding rustic trail to the peace-
ful, cross-beaked hill sides, the last
resting place.

A small group of men idled about
the entrance to the mine early yester-
day morning, waiting for more bodies
to be brought out. When the sun
reached its zenith a huge crowd sur-
ged against the ropes which barred
them from the mouth. In the crowd
were many women and children. As
in the other days since the blast, they
were dry-eyed, unemotional and quiet.
Touching scenes were enacted in
the Catholic church of Dawson and at
the graveside, however. It was there,

apparently, that the full realization of
the enormity of their loss smote for
the first time many of those who have
been too stunned by the explosion to
betray their sorrow. In a few brief
words of comfort, Father Couerier
was visiting priest sought to assu-
rage the pain of the people left behind,
as the last rites of the church were
administered.

In Protestant homes, the rites were
simple. The Rev. J. S. Russell, pas-
tor of the Unitarian church, left Daw-
son yesterday with the body of his
son-in-law, W. R. Holmes, one of the
first taken from the ground, who will
be buried in Roy, N. M.

Dawson's soldier dead were buried
with such military services as were
possible in the emergency. The cof-
fins of the men who had served in the
world war were wrapped in the stars
and stripes.

Regular shifts of more than fifty
men worked all day inside the mine.
The work now has progressed to the
last crosscut on each side of the main
entrance. In these unexplored depths,
officials expect to find the bodies of
most of the men still unaccounted for.

In several instances, bodies have
been found to be so deeply buried in
debris that it will be impossible to
remove them for many hours. Others
are visible behind piles of rocks and
coal and will be brought up as soon
as passageways have been cleared for
the stretcher bearers.

Daniel Harrington, supervising en-
gineer of the United States bureau of
mines, after a journey through the
damaged mine, declared his search
had revealed nothing to indicate what
was responsible for the blast.

Seminole County Exhibits Sent Out To Orlando Today

Bring Your Vegetables Tomorrow to
Store of T. J. Miller & Son

The exhibits from Seminole county
went forward to the Subtropical fair
at Orlando this morning and County
Agent Benjamin Whitner wants the
farmers to know that the replace-
ments of fresh vegetables for tomor-
row must be left at the store of T. J.
Miller & Son, corner of Magnolia and
Second, as he will be busy at the fair
the balance of the week and will not
be at the court house to receive the
vegetables. Mr. Whitner has worked
hard to get the entire county repre-
sented but as usual at the last minute
several sections of the county failed
to get in with their varied industries
and the exhibit will not be as large or
varied as it should be. Celery and
other vegetables will predominate as
usual but the citrus fruits will have a
large place in the Seminole county
both and the displays will be as good
as far as they go. It seems that ev-
ery time the fair comes round the
folks in Seminole county are too busy
to arrange for a display of the many
varied crops of fruits and vegetables
and they either wait too long or for-
get about the fair altogether or do
not want to go to the expense of time
and trouble to make an exhibit.

However, they may get the spirit
today and tomorrow and come in for
a much larger display than is expected
at this date.

And remember that if you have any
fresh fruits and vegetables for the
balance of the week to leave them at
Miller's store and they will be taken
to the fair in order to keep the dis-
play fresh and up-to-date every day.

JUDGE MACK OF NEW YORK OPENS COURT

AT TAMPA THIS MORNING FOR
SOUTHERN FLORIDA, FED-
ERAL DISTRICT

(By The Associated Press)
TAMPA, Feb. 12.—Judge Julian
Mack, of New York, opened the Feb-
ruary term of the federal district
court here this morning, the trial of
civil case being scheduled for the first
week and the criminal trials begin-
ning February 10th.

Debt Question In The Senate Up This Week

MAY BE LAID ASIDE FOR SHIP SUBSIDY BILL

(By The Associated Press)
WASHINGTON, Feb. 12.—Approv-
ed by the finance committee 8 to 3,
the bill passed Saturday by the House
giving congressional sanction to the
British settlement agreement was re-
ported formally to the senate. Chair-
man Mcumber indicated that it was
his intention to call the measure up
the middle of the week, but whether
it would be possible to displace at that
time the unfinished business of the
senate, remained to be developed.

A brief hearing on the bill was
held by the committee behind closed
doors, Senator Smoot, Utah, a mem-
ber of the American debt commission,
going into some details of the negotia-
tions with the British commission. He
declined to answer a number of ques-
tions put by several senators on the
ground that information was of a
highly confidential matter.

Some committee members thought more
information than that supplied by
Mr. Smoot should be obtained before
the committee acted, but they were
outvoted. Senator Walsh wanted the
record of the negotiations brought
before the committee while Chairman
LaFollette sought to summon Elliott
Wadsworth, assistant secretary of the
treasury, and secretary of the com-
mittee.

Senator Smoot was reported to have
told the committee that the agree-
ment entered into was a modification
of the original American proposal,
which contemplated a flat interest rate
of 3 1/2 per cent over the entire peri-
od of the loan was to run. This was un-
acceptable to the British government
and the terms finally agreed upon, 3
per cent for the first ten years and
3 1/2 per cent thereafter, were then
proposed.

At the request of Senator Reed,
Democrat, Missouri, Senator Walsh
asked that the committee vote be de-
ferred until Tuesday, when Senator
Reed expects to return to Washing-
ton, but Republican leaders wanted
to get the measure on the senate cal-
endar immediately. They did agree,
however, not to call it up in the sen-
ate until Senator Walsh returned.

Committee Democrats opposing the
legislation agreed not to resort to ob-
structive tactics during Senate con-
sideration of the bill and Republican
leaders were hopeful of getting a vote
after debate for one or two days.

Rehabilitation Hospital Dedicated to Service at Tuskegee Today

Vice-President Coolidge and Other
Notables Speak

(By The Associated Press)
TUSKEGEE, Ala., Feb. 12.—On the
spot made memorable by the life and
works of Booker T. Washington the
government of the United States to-
day formally dedicated to service its
heroic sons rehabilitation hospital
costing two million dollars. Vice-
President Coolidge, Gov. Brandon and
a long list of other public and private
citizens attended the opening of the
hospital. America stands unchange-
ably committed to principle of right
to individual freedom made plain and
clear by Abraham Lincoln Vice-Pres-
ident Coolidge declared in dedicating
the hospital.

Oddly enough, nearly all the men
who borrow fountain pens think the
art of writing consists in putting
weight behind it.

ARMY BILL LAST MEASURE ON CALENDAR

(By The Associated Press)
WASHINGTON, Feb. 12.—Confers
on the army bill, the last of the
big appropriation measures began to-
day the task of smoothing out the dif-
ferences between the senate and house
drafts on the legislation. Only min-
or questions are in dispute, the sen-
ate and house both having adopted the
rivers and harbor fund of \$56,000 and
agreed to continue army of hundred
and twenty-five thousand men and
12,000 officers.

THREE DAY EXTENSION ON TURKISH ULTIMATUM TODAY WILL NOT CHANGE SITUATION

CALIFORNIA AND FLORIDA SHOULD AGREE

Belief that co-operation between
California and Florida citrus fruit
growers and shippers would result in
benefit to both states was expressed
last night by George C. Roeding, a
member of the California party now
visiting Orange county. Mr. Roeding
is proprietor of the largest citrus
nursery in the world.

Taking the admitted facts that
Florida excels in production of grape-
fruit and that California's citrus pro-
ducts are on the market at times when
Florida offers no competition as a
basis for his statement, Mr. Roeding
pointed out several ways in which
California and Florida might be mutu-
ally benefited.

He suggested that Florida special-
ize on grapefruit, although he did not
recommend abandoning the culture of
oranges. He said that the peninsular
state's growers should increase the
grapefruit field and that California
should practically leave the field en-
tirely to Florida. Then he added
that California would do well to spe-
cialize on its valencies, sending them
to the markets at times when Florida
fruit is not being shipped in appre-
ciable quantities.

A conference of Florida and Cali-
fornia growers with the object of
reaching an agreement along the fore-
going lines is Mr. Roeding's recom-
mendation.

"We can't begin to grow grapefruit
like Florida's, but we can specialize
on our valencia and market it when
your crop is still waiting the harvest
season. Why can't the two states get
together and agree on some kind of
a schedule like this, which is bound to
prove beneficial to both?" Mr. Roed-
ing asked.

The nurseryman explained why the
Florida oranges are considered sweeter
than California's by declaring that
when the Peninsula's late crop is on
the market California is just begin-
ning to move a new crop and much of
it is not fully matured. The old story
of green fruit all over again, which
seems to be just as much of a prob-
lem in California as it is here.

Mr. Roeding said that California
has 225,000 acres in grove and that it
shipped 22,000,000 boxes of fruit last
season. This, he said, was a poor year
on account of the well known visit
which Jack Frost paid to the Pacific
coast. Normally, the crop is estimat-
ed at approximately 30,000,000 boxes
or nearly twice the production of
Florida.

More than 2,000 acres of groves are
owned by the members of the Califor-
nia party now visiting here, Mr. Roed-
ing said.—Orlando Sentinel.

Shipping Bill and Debt Fund Take Time Today

Senator Jones Proposes Time For
Both Bills

(By The Associated Press)
WASHINGTON, Feb. 12.—Joint
consideration of the administration
shipping bill and the British settle-
ment legislation during the morning
hours, and former during the remain-
der of the day of session, was prop-
osed by Senator Jones as a solution for
the senate legislative problem. Sen-
ator Jones made the proposal with
the approval of other Republican lead-
ers after Senator Williams blocked
unanimous consent agreement for a
limitation of debate on the shipping
bill.

HARRY PAPWORTH HERE

Mr. and Mrs. Harry Papworth of
New York city are here for a visit to
Mrs. Papworth's father, Mr. M. F.
Robinson. Harry Papworth is one of
the pioneer residents of this city and
has many old friends who are always
glad to see him and his charming
wife. Mr. Papworth was a leading
spirit in the days of old Sanford and
was head of the Fire department and
had a big hand in the many enterpris-
es of the city of Sanford some thirty
years ago.

POSITIVE STAND TAKEN BY FRANCE AND ENGLAND HOLDS GOOD

TURKISH MINES Have Been Laid in Smyrna Har- bor and Something May Break Loose

(By The Associated Press)
PARIS, Feb. 12.—The three-day ex-
tension of the Turkish ultimatum de-
manding withdrawal of the Allied bat-
tleships at Smyrna, is not expected to
modify the positive stand taken by
France and Great Britain and so far
as known the orders to naval com-
manders to defend their positions if
attacked still holds good. Press des-
patches confirm the reports which al-
so reached London that the Turks last
Saturday declined to await another
three days for withdrawal of the war
craft.

CONSTANTINOPLE, Feb. 12.—It
is definitely known that the Turks
have begun the laying of mines in
Smyrna harbor. The foreign warships
have received tow more orders to de-
part.

While the situation is tense, the
fact that no incident has occurred is
regarded as a hopeful sign.

Rear Admiral Mark L. Briston, who
was one of the American representa-
tives of the Lausanne conference, has
arrived here and conferred with Brig.
General Harrington, commander of
the allied forces.

LONDON, Feb. 12.—A Constantino-
ple despatch to the Exchange Tele-
graph company says the Turks have
extinguished all the lighthouses in the
gulf of Ismid, access to which is for-
bidden at night.

CONSTANTINOPLE, Feb. 12.—The
latest advices from Angora, the Turk-
ish capital, are to the effect that the
Kemalists are pursuing a policy of
calm and moderation. The allies here
however, have taken military meas-
ures to meet any eventuality.

SMYRNA, Feb. 12.—Mustapha Ke-
mal Pasha, the Turkish nationalist
leader, has arrived here. Calm prevail-
ed throughout the city. No additional
warships have entered either Ismid or
Smyrna harbors.

CITRUS MARKET REVIEW

ORLANDO, Fla., Feb. 12.—The
weekly citrus review by F. L. Skelly
as issued from the office of the Amer-
ican Fruit Growers, Inc., says:

Oranges: The market has contin-
ued strong in practically all sections
with a wide demand. The relative
lightness of the California navel
shipments, due to rains there, un-
doubtedly has influenced the orange
market considerably. The smaller sizes
now are in undoubted strong posi-
tion. Yet with the California ton-
nage in sight there is no indication
of any extreme prices on mid-season
oranges unless upon a relatively
small amount of fancy stock.

Grapefruit: While the demand has
broadened considerably toward the end
of the week there has been no marked
recovery on grapefruit of ordinary
quality. The high prices paid for fine
grapefruit have continued, but ordi-
nary or low quality grapefruit does
not yet show strength.

Tangerines: Those full of juice are
obtaining very excellent prices. Puffy
and dry stock has, of course, been
heavily discounted in the markets.

Severe weather has made market
conditions unfavorable over much of
the north recently. As this has been
clearing up, there has been, however,
a noticeable increase in inquiry from
many sections. If shipments from
Florida continue within reasonable
limits there is apparently no reason
to expect any depression of the pres-
ent price levels on citrus fruits.

Second Trial Growing Out of Herrin Miners' Killings Begins Today

MARION, Ill., Feb. 12.—The second
trial growing out of the Herrin riots
of last June which resulted in the
deaths of three union miners and 21
non-union workers, is scheduled to be-
gin today in the little red brick Wil-
liams county court house.

SOCIETY

MRS. FRED DAIGER, Society Editor
Phone 217-W

If you have any friends visiting you and you are seeking anywhere of coming home, or if you are entertaining, with a social card in this department, giving details, or telephone the item. It will be greatly appreciated.

SOCIAL CALENDAR

Saturday—Mrs. L. P. McCuller will entertain the members of the Every Week Bridge Club.

Monday—Mrs. Zeb Ratliff will entertain in honor of Little Mary Wyatt Ratliff, at her home on Magnolia Ave., at 3:30 p. m.

Monday—St. Agnes Guild will meet at the home of Mrs. Ben Coleman at 3:30 p. m.

Monday—Pipe Organ club will meet at the home of Mrs. Kent Rossiter on Celery Avenue at 3 o'clock.

Tuesday—Bridge Luncheon for Social Department of Woman's Club at Parish House.

Tuesday—G. I. A. meets at the Masonic hall at 3 p. m.

J. W. Fudger and W. G. Dodson, of Jacksonville, were in the city yesterday attending to business.

Mrs. W. D. Lees and Mrs. I. G. Robertson spent the day yesterday in DeLand.

D. G. Hoy, of Crestwood, Yonkers, N. Y., arrived in the city yesterday and is stopping at the Montezuma.

Mr. and Mrs. D. L. Thrasher spent the day in Eustis yesterday the guests of the latter's parents, Mr. and Mrs. E. L. Ferran.

Miss Mattie Ball, of Davenport, Ia., and Miss Sara Ball, of Thomasville, Ga., are the guests of their brother and family, Mr. and Mrs. J. G. Ball.

Mrs. J. G. Ball has returned home from Kissimmee where she accompanied her little granddaughter, Willa Steed.

Miss Carolyn Spencer is spending today in Lakeland, the guest of Miss Gladys Adams, who is attending Southern College.

Mr. and Mrs. F. Wausser, of Mt. Vernon, N. Y., were among the arrivals here yesterday and will spend a short time here enroute to other points of interest in the state.

Mrs. Robert Wilson and little daughter, of Orlando, are the guests of her parents, Mr. and Mrs. J. C. Aycocke at their home on Myrtle avenue.

Fred Walsman, "Pop", Wilson, Harry Heeren, Al Crandall and Herman Huhn, of Pittsburgh, motored to Tampa to enjoy the festivities of Shriners Day.

Miss May and Ruth Paddison and Lydia Moore and Mrs. Paddison, of Eau Gallie, were the guests of Miss Cora Lee Tillis yesterday en route home from Tampa where they attended the South Florida Fair.

Mr. and Mrs. Harry Heeren have as their guest Clarence Barbour, of New York, a wholesale jeweler. This is Mr. Barbour's second visit to Sanford and he is very much pleased with the City Substantial.

Mrs. L. Bishop, of Titusville, arrived in the city last evening to pay her daughter, Mrs. Joseph Lee, a visit. Mrs. Bishop was accompanied by Charlie Nelson and Attorney Smith and wife from Titusville. The party came by way of automobile.

Misses Cora Lee Tillis, Olive Newman, Ruth and Anna Kanner, Gladys Wilson, Dorothy Cameron, Mildred Holly, Maude Carroway, Lucile Echols, Edna Stiles, Jean Maxwell and Mrs. A. E. Hill motored to Ocala today where the Sanford High School basketball team will play against Ocala this evening.

The Daily Herald, 15c per week.

MOTHERS CLUB

Mrs. George Paxton entertained the members of the Mothers Club most delightfully yesterday afternoon at her home on Myrtle avenue.

The rooms were bright with baskets of early spring flowers and potted plants.

The afternoon was passed quickly with several contests, and puzzles, those having the most correct answers were given potted plants.

After the contest the hostess, assisted by Mrs. R. R. Deas, served ice cream topped with crushed strawberries and cake.

The next meeting of the club will be the second Friday in March at the home of Mrs. M. Minarik and all the members are most cordially invited and urged to come, as plans are being made and work prepared for this year.

FLORENCE GILBERT HANSCOM
On Thursday evening at the High School, Florence Gilbert Hanscom, a well known entertainer, will give an entertainment, under the auspices of the Parent-Teachers Association.

This high class entertainment you will not want to miss, the price is only 50c and tickets can be obtained from the members of the Association, later they will be placed on sale down town. Tell your friends about this and come out yourself, you will feel fully repaid.

The following is a clipping from the St. Petersburg Independent where she recently gave a series of entertainments:

"The Pianologue and Musical reading given by Florence Gilbert Hanscom, of Boston, Mass., showed her to be thoroughly professional and the Old Fashioned Garden (Porter) in costume, was a charming bit of work. As an encore she gave 'The Dusty Road' (Joe Cave). She is not only an artist in her work but possesses great personal charm which wins her audience from the first."

Importance of New Building at State University

"What are the citizens of the state willing to do for the boys who leave their homes to attend the State University?" is the question asked by a group of business men of this state, organized to raise \$250,000 for a student activities building for the University of Florida.

Their statement, signed by William Jennings Bryan, chairman, and Frank C. Groover, vice chairman, follows: "With 1252 men on the campus and constant increases to the student membership, there is imperative need of a place where these young men may satisfy their social needs and receive the religious training and the inspiration that they require—a need that the state cannot supply by appropriation.

They are away from home and without the sacred influences of the fireside, and are passing through the most critical age—the period during which they decide the trend of their lives and lay the foundation of their character. Whether the intellectual training which they receive at the University will bring to them the greatest value and to society the maximum of good will depend very largely upon the ethical standards which they adopt and the ideals which they may choose.

These young men are preparing themselves for leadership in all the affairs of the state. The parents of these students have entrusted them to the University as a priceless treasure which lays upon the educational authorities a responsibility impossible to exaggerate. These authorities feel that they are justified in their appeal to the general public for the money necessary to provide religious and social environment which these young men need. They are confident that the people of Florida will respond liberally as soon as the facts are known.

The amount desired from the state of Florida is \$250,000, a sum admittedly small when compared with the largeness of the work and the incalculable good that is to be done."

THE WEATHER

Local rain Saturday and Sunday; warmer in extreme north portion Saturday.

WOMAN'S CLUB COLUMN

CALENDAR

Tuesday—Social department, bridge luncheon, at Parish house, at one o'clock.

Wednesday—Music department business meeting and election of officers.

The members of the Social Department will have a bridge luncheon on Tuesday at the Parish house, at one o'clock. All members are entitled to have one guest, price \$1.25 each. There is no charge for the department members. All those expecting to attend or have guests, are requested to phone Mrs. R. A. Newman, not later than Saturday, Feb. 10, as no reservations will be made after that date.

There will be an important business meeting and election of officers of the music department, Wednesday afternoon at 3 o'clock at the club house. Every member is urged to be present. After the business meeting the club chorus will practice.

The regular monthly business meeting of the club was held Wednesday afternoon at the club room, with the president, Mrs. K. E. Tolar, presiding. Reports were made by various officers, and especially interesting was the report given by Mrs. Henry Wight on the lunch rooms.

Mrs. Tolar, also spoke of the State Board meeting which will be held here March 12 and 13, with the Sanford club as hostess, and she urged the co-operation of the club members to make this a success, and asking their help, for the committees.

After the business had been transacted, there was a very delightful social hour, Mrs. George Fox and Mrs. Fields acting as hostesses. They served refreshments of tea and wafers.

Wednesday, at the regular business meeting Mrs. Henry Wight gave an interesting report from the lunch rooms, part of which is as follows:

During the month of January the Lunch room committee took charge of the lunch rooms at the South Side primary school. This lunch room was planned and equipped by the school board and with the help of volunteer service it feeds from 125 to 140 children each day.

The lunch room at the grammar school is being maintained along similar lines of last year, with paid service, with the exception of Mrs. Morse. The two lunch rooms feed between 375 and 400 children daily.

The domestic science equipment has been installed and Mrs. Zachary has an interesting class of more than 40 girls. The club has co-operated with the high school and helped them to bring about this department. The high school started this movement, and with the help of the Woman's club, it has been realized.

The Sanford Woman's Club is entertaining the State Board of the F. W. C. March 12 and 13.

There will be several prominent speakers on the program, and all the state officers, the presidents of the different clubs and chairmen of the different departments will be in attendance.

There will be three meetings, Monday afternoon, Monday evening, and all day Tuesday. On Tuesday lunch will be served.

Mrs. Ed Higgins is chairman of the Transportation committee, and all those who will lead their cars, are asked to phone her.

Fifteen cars are needed.

Mrs. Forrest McAllister, chairman of Entertaining committee, asks all those who can entertain one or two guests, to please phone her. If you can not entertain the guests in your home and wish to pay their room at the hotel, you may do so.

Other committee chairmen are: House chairman, Mrs. A. M. Phillips; Lunch Committee, Mrs. Fred Williams; Music committee, Mrs. W. L. Henley; Reception committee, Mrs. R. A. Newman.

It is earnestly desired that every member will at least attend one of these meetings, and it is assured that each one will surely get some good out of it.

Trunks, suit cases, parcels or packages, delivered on short notice. Call 408. 260 Thu-Fri-Sat-11c

CHURCHES

THE FIRST METHODIST CHURCH

Rev. Dr. Chenault will fill the pulpit on Sunday morning. Dr. Chenault is a speaker of great ability and will instruct and inspire his audience. The pastor will preach at the eight service.

Our choir is now functioning in fine style. Come and hear them sing. The Epworth League will meet at 6:30 p. m.

On Monday afternoon at 3 o'clock Miss Mable Howell, member of the Woman's Council of the Board of Missions, will address the citizens on the great Centenary theme. She has traveled much and is an accomplished speaker.

Monday night at 7:30 Bishop W. F. McCurry D. D., will fill the pulpit. Bishop McCurry is one of the great men of the south who has made a record for efficient administration surpassed by none. He is charming and interesting speaker, a preacher of great power. It is a rare opportunity offered to the people of Sanford to hear this truly great man.

CONGREGATIONAL CHURCH

We cordially invite tourists and visitors in our city to worship with us. You will find a genial and homelike atmosphere among us. Our pastor will speak at the morning hour on the important subject of "Satisfactory Service and Rewards." Men are invited to our Men's Bible class, meeting at 9:45 a. m. with the Bible school. It is growing in numbers and interest. If you enjoy fine discussions you will enjoy this class. At night we shall have four reels of the "Story of Joseph" and a short address on "Elements that make character and Build True Lives." Do not forget our C. E. that meets at 6:45 p. m. Come and enjoy these good things with us.

FIRST BAPTIST CHURCH

Sunday school at 9:30 a. m. Morning worship and sermon at 11 a. m. Subject "An Imperative in Successful Living."

Baptist Young People's Unions, at 6:30 p. m. Baptismal service 7:30. Evening worship and sermon follows. Subject "The Governor's Decision Upon a Supreme Important Question—Is He Correct?"

Sunbeam Band Monday p. m. 3:30. Bible study and prayer meeting on Wednesday evening, 7:30. Subject "In a Deciding Conflict With the Worst Enemy."

ALL SOULS CHURCH

Tomorrow, Quinquagesima Sunday, and during the week, divine services are as follows: Sunday School, as usual, at 9 a. m. Lps mass at 10:30 a. m. Announcements and sermon on the gospel.

Benediction of the Blessed Sacrament. Ash Wednesday, commencing of Lent, low mass at 7 a. m., when ashes will be blessed and distributed.

Friday evening at 7:45, Way of the Cross and sermon on Catholic doctrine.

Masses during the rest of the week at 8 a. m. Confessions Tuesday evening and Wednesday before mass. Strangers cordially invited to church services. Seats free.

PRESBYTERIAN CHURCH

The Boy Scouts will worship at the Presbyterian church Sunday morning in celebration of the anniversary of the Scout Movement.

Special emphasis is to be placed on the Sunday night services for the next few weeks. Services Sunday as follows:

9:45 a. m., Sunday School. 11 a. m., preaching. 2 p. m., Junior C. E. 3 p. m., Intermediate C. E. 6:30 p. m., Senior C. E. 7:30 p. m., Preaching. Monday, 3:30 p. m., Westminster Club. Monday, 7:30 p. m., Gleaners class.

CHRISTIAN SCIENCE SERVICE

SUNDAY, FEB. 11, 1923. Subject: "Spirit."

Church Service 11:00 a. m. Sunday School 10:00 a. m. Woman's Club Bldg., Onke Ave. ALL ARE WELCOME.

The Scrap Iron class is going to have a big meeting tomorrow morning. Everybody welcome and everybody come. We meet at the Princess Theatre at 9:50 a. m.

TALLAHASSEE, Feb. 10.—The organization of an aerial transportation between Tampa and Miami has been provided for in a charter issued by the secretary of state to the Tamiami Air Line, capitalized at \$100,000.

Despatches say Sugar is going up higher. Well, let it. We can do without sugar.

And we can do without gasoline if it comes to a pinch. What this country needs is a "Do-Without Club" for a few days.

The South Florida Fair at Tampa came to a most successful close Saturday night. The South Florida fair and the Orlando fair are two of the best in the state.

The Gainesville Sun in speaking of the governor's race says, "Frank Clark is not supposed to be a candidate, he is a candidate." Yes, we suppose so.

Lady from Montana lost for five days in New York, was found in the wilds of Brooklyn where she was visiting relatives. Her husband was searching frantically for her all that time. Just like husbands.

The finance body of the senate has approved the debt agreement and as far as we can tell it is probably all right. We will never know until we get the income tax rates for next year.

The Gridiron Club exposed the "Public Gougers" at the meeting of the club in Washington Saturday night. The club could probably do a good business in other cities besides Washington.

Dr. Haywood says he was misquoted on his address on the Ku Klux Klan. The Klan seems to have a bad time in quoting and misquoting these days. The best thing for the Klan to do is to say nothing and saw wood.

The members of the Associated Dairymen of Florida are thinking about taking a trip to Cuba and having their meeting on the boat going over and coming back. They might meet going over but not coming back.

The fate of the shipping bill is still in doubt, says the latest despatches from Washington. They will kill it probably and we shall again see the embarrassing spectacle of other nations hauling American goods to the four corners of the earth and our only excuse will be "the rottenness of the government institutions forbid the granting of any rights to American shippers and ship owners." What a big nation we have to be so useless.

This is the week of the Sub-Tropical Mid-Winter Fair at Orlando—one of the best fairs in the state of Florida—and Seminole county is going down there with an exhibit that will capture many of the prizes and we hope it will take the first prize. While not a part of Orange county any more geographically, Seminole county is a part of the old county in spirit and since we have no county fair of our own we have a deep interest in the Sub-tropical fair and intend to do all we can to make it a big success.

U SELL YOUR REAL ESTATE WHEN U LIST IT WITH US

Maxwell & Britt AGENTS REAL ESTATE Fire, Casualty, Auto Insurance 105 W. First St., SANFORD, FLA.

Lon Burton, formerly of Live Oak, and who edited papers in Georgia for many years, has purchased the controlling interest in the Okeechobee News and is making a fine paper out of it. Okeechobee City is destined to be one of the greatest centers of industry on the east coast in a few years and a good town and a good newspaper man have met for the mutual benefit of all concerned. Mr. Burton is a cousin of Robert Deane, of this city, and is a town booster from way back, being a former secretary of commerce bodies, a leader of bands and a town builder who will make his impression felt on the big lake.

COLD STORAGE

A visitor from California asked the question a few days ago: "Where are your cold storage houses?" And we had to admit that they were still in the airy state. Much talk and nothing done.

This Californian said that producers of fruits and vegetables in his state would not know how to get along without cold storage, that millions of dollars had been saved to the growers by the use of cold storage. And without it, he stated, the cattle industry would have failed long ago. The meat of the state is preserved in California storage.

There has been much talk of cold storage in Florida. There are some few localities where cold storage has been installed in a small way. But the demand is so great and the possibilities so large, that companies ought to be organized on a county-wide basis to erect storage houses big enough to accommodate the business of a given territory.

Sanford is wisely making a move toward cold storage facilities for its own large output of vegetables. Orlando and Kissimmee have had several conferences and the time is ripe for action. The beef industry could be made a profitable industry in these two counties if a large cold storage house were built jointly to take care of the carcasses in the summer when the cattle are fat. The Florida supply of meat could largely come from within the state if we had storage facilities. We should thus save the two-way freight. —Orlando Reporter-Star.

FOR YOUR UNIVERSITY

The subject of a recreation building for Florida University is an important one to every citizen of Florida. Dr. Murphree, the president, in a letter says:

No university in America, in an equal period of time, has achieved more remarkable development than the University of Florida. Within the last ten years the enrollment has increased twelve fold, and is now 1252, representing every Florida county, twenty states and four foreign countries.

The State Department is carrying one million seventy-eight thousand dollars of insurance on the buildings and personal properties of the University. This, necessarily, is less than the actual value of the buildings and equipment, and does not include the value of six hundred thirteen acres of land in the University domain. Obviously, in the light of this marvelous growth, the demand for more academic buildings and dormitories and the need of more teachers have increased and become urgent; but the most crying need now, and the great need of the past years, a need that stands out above all the rest is a religious-social building for religious instruction of University students—a building dedicated to God and to social service—a place where the Holy Bible shall be a text and eternal truth inculcated, a place where social hours games and recreation of young men may be enjoyed under companionable supervision. Here, student pastors may come to rooms provided for them, for personal work and conferences with the men of their respective faiths. This building must be outstanding amongst all the rest, for it will be devoted to that phase of character training that is fundamental and the most important of all.

Since such a structure with such functions, cannot, in the nature of the case, be obtained by state appropriation, the University and her twelve hundred boys must go to the people for funds with which to construct this house devoted to these noble ends. Surely every forward-looking citizen of Florida will desire to have a part in this undertaking.

AN UNJUST PROVISION

The Florida State Game and Fish Protective association met in Tampa last week and adopted a draft of the new game and fish law which will be presented to the legislature in April and its enactment urged by the legislative committee of the association. In the main we approve of the proposed measure, but there is one provision to which we object seriously. The committee proposes a resident hunting license of \$10, good all over the state, which proposal, if it becomes a law, will bring the entire statute into disrepute and in effect, nullify the measure. Nowhere else in the United States is a resident required to pay ten dollars for the

privilege of hunting. This provision may sound good to the man of money and leisure, but is manifestly unfair to the man of moderate means who only finds time to hunt a few days in his own county. And, again, there are only a few counties in the state where game remains in any quantities, and if this license system is adopted hunters from all over the state will take out a license in their home counties and then flock to the other counties to hunt. The result will be that the counties where the game is found will get only a small fraction of the license money and will shortly be as barren of game as hell is of icebergs. The license system as it now stands may not be perfect, but it is infinitely better than the one proposed by this committee. It behooves every sportsman who believes in fair play to see his senator and representative before the legislature convenes and register his disapproval of the measure in terms that cannot be misunderstood or ignored. A square deal is all the average sportsman wants. He is the true conservationist; he preaches and practices conservation, but the proposed license fee of ten dollars for a resident hunter would breed contempt for the entire bill, which in the main is a good one, and in the end would defeat the purpose it was designed to obtain.—Eustis Lake Region

SPACE IN HOUSES

A writer in the Country Gentleman recommends building the house now rather than waiting for a better market. He advises, instead, "ketch shopping" for materials. The builder, he says, "is entitled to pick and choose and get the best possible bargain." With this there can be no quarrel. When he begins to advocate cutting down inside of the house there may be a dissenting view.

It is true that there used to be a good deal of waste space which can be eliminated in the modern home to great advantage. Big halls, oversized bedrooms, clumsy pantries and such excrescences can well be forgotten. But there is a point at which compactness makes more trouble than largeness can.

When the front door opens into the living room with no protective entry, the casual business stranger has to be admitted into the family life. When the kitchen is too small, the housewife has to move things around in working. When there is no place to wash hands on the ground floor save the kitchen sink, and children come in from play while the salad is being prepared, certain casualties to lettuce and to temper are inevitable.

In these days of labor saving machinery, most women would gladly clean one more room for the sake of having a place sacred to quiet. But women say the small "withdrawing room" with its desk and couch and sewing machine is a life saver. For mother's rest hour in the afternoon, for the child's home work in the early evening, for father's accounts or business conferences, it is invaluable.

Besides the practical considerations there is the spiritual factor. Space in a house may be like rests in music—a silence which enhances beauty. Better save a little money on touches which can be spared or added later, and preserve the feeling of restfulness which nothing but space can give.—Jacksonville Metropolis.

WAGE EARNER BEARING BURDEN OF INCOME TAX

Uncle Sam is mailing to all his nephews and nieces those little pamphlets headed dismally "Income Tax Return." For several years now Uncle Sam has been doing this early in each January and demands that those who have made a certain amount of money during the year preceding deliver up to him a share of it, whether they have any left or not. If you are married and made \$2,000 or if you are single and made \$1,000 net income, Uncle Sam wants to know about it.

There is as in everything else having to do with taxation, a catch in this income tax return business. That is, that the man with the little income is the man who is paying the tax. The big income man has found a way to escape his, He always does.

Mr. Little income seldom has anything to invest. He depends for the \$2,000, \$3,000 or more dollars he receives on wages, and hence is taxable. Mr. Big income has a better scheme. Under the constitution there are many investments, bonds of municipalities, road or school districts, and the like, for instance, that are free of the income tax provisions. The clipping of coupons from these is attended by no dire thoughts about how much of the money received as interest must be paid to the government.

Therefore Mr. Big Income has gone in strongly for these tax-free securities. He is going in stronger every year. Mr. Little income, while this is going on, finds that his burden is becoming heavier. It is estimated that 7,000,000 persons pay ALL the income tax of the country. That is, about one person in every eight pays income tax; the remaining seven, part of whom probably receive larger incomes

than the one taxed; escape paying any thing. Most of those who are thus freed of the tax burden are men and women who never did anything to earn the money they receive. Their incomes are derived from interest on fortunes some one else created and invested safely where the income could not be touched.

The theory of the income tax law was fine. It supposed that every citizen would pay his share in proportion to the amount of his net receipts of money for the year. Actual practice is showing, however, that is far from a fine thing. It is saddling a burden on the wage and salary earner and allowing capital to get off with light payments if there are any made at all.

Discontent with the income tax is growing. It will continue to grow as long as the unfairness of its administration is continued. It is difficult to see just what the lawmakers are going to do about it. The constitution of the land absolves certain attractive investment securities from income tax payments and the constitution is difficult to change.

Meantime bonds of cities, school districts, road districts, and the like become increasingly easy to market. The bonds of corporations, railroads and utilities become more and more difficult to dispose of. Big concerns that represent the real earning power of the country are forced to curtail operation and service because they cannot market bonds that must pay tribute from their earnings to the government. The money that should be used by them in improving service and increasing productiveness is tied up in various public works, where it earns nothing at all, and an additional tax must be levied from an already overtaxed public to pay the interest on these improvement bonds.—Arcadia News.

OUCH!

Dear Editor: Did you know that Dr. Leggo is a dentist at Owatonna, Minn. There's really nothing in a name. He won't. I just know he won't. They're all alike.

HOWEVER, HE MAY HAVE SOMETHING TO SAY AT THE INQUEST

(From the Panu, Ill., Palladium) At the hospital the wounded man refused while alive to make any statement concerning the stabbing affray or to give out the name of his assailant. He made no postmortem statement, it is said.

STAN SAYS The finest way to succeed in this

Agnes Alvers in the Garamont Picture 'A Daughter of Luxury' At the Princess Tuesday

life is to get ahead of ourselves—not so much to get ahead of the other fellow.

It is said that from England comes the novelty for women called the "spiral puttee," which is said to wind from ankle to knee and is worn with spats. "Indian squaws wear the same thing around the ankle but that is as far up as our knowledge ascends." Mr. Xerxes.

Never mind the higher education, Mr. X.

MARRIED MEN, ANSWER

The love of a woman I never have won; I never have made maiden sigh; There's no one to care when I go or come. Now ain't I the lucky guy? Knight.

Yeh, verily, Bo!

An editor was reading an article in a newspaper the other day when he happened to jump to the feature page of "hints to women" when to his astonishment he read that a woman in a certain town kneads bread with her gloves on. He thought to himself, "that's nothing." We need bread with our shoes on, with our socks on, with our shirt on, with our hat on, with our coat on, with our vest on, with our pants on and if folks round these parts don't come in and pay up, we'll need bread without a darn thing on.

THE FABLE OF THE RADICAL

From the far off land of Loup-Whiskers, and Lew Bathis, came a youth who had a mission in life, and a funny name. His mission was to preach the gospel of Equalism—which in plain United States means to drag the other fellow down to your own level, no matter how low that may happen to be, and his name was Bombsky.

Somehow or another he managed to get by the eagle-eyed officials by means of a bum passport, and having been provided with plenty of kopecks, or their equivalent, he proceeded to hire a hall, and expound his latest theories.

Now other birds, such as Einstein, have travelled over the briny to these hospitable shores and spread their stuff with remarkable success. We are always willing to listen, and learn if there is anything to get wised up on. But having become slightly fed up on this old line of bunk about red flags, and chaos, the authorities sought to curb this young fellow's fiery speeches. In other words the limbs of the law, laid violent hands upon this disciple of ruin, and he landed in the local lockup.

Of course this gave him a chance to pose as a martyr, and everyone falls for that martyr gag. Bombsky was hailed with approbation upon his release, and his followers multiplied even as the sands upon the sea shore.

The minions of the law were plainly stumped. Every paper in the country was giving prominent space to the speeches, and actions of the now famous Bombsky, and matters began to look blue for the welfare of the country at large.

In vain they arrested him, and placed him in Durance Vile. Each time he was released his power over the masses grew in proportion, and it began to look as though we were about to experience a reign of free-for-all rough house.

Then one of our leading legal lights had an idea, quite unusual we will have to admit, but it was a life-saver. This brilliant person got next to Bombsky and greased that worthy's paw with much bullion, with certain provisions.

Without Palaver, or Warning Bombsky departed silently, and with haste. The country was saved.

Moral: Things often look altogether different, when viewed from another angle.

Judge Knapp, Judge of Appeals, Fourth Circuit

Died at His Washington Home Today After Short Illness

(By The Associated Press) WASHINGTON, Feb. 10.—Judge Martin A. Knapp, of the Court of Appeals, of the fourth circuit, died at a hospital here early today after an abdominal operation to which he submitted last Saturday. He was 79 years of age. He had been assigned to Fourth Judicial Circuit comprising Virginia, North and South Carolinas, Maryland and West Virginia and his home was in Washington.

NOTARIES PUBLIC RECENTLY APPOINTED

(By The Associated Press) TALLAHASSEE, Feb. 12.—The following have been appointed by the governor to be notaries public.

Tyner, Crestview; S. Pigell, Carrabelle; James T. Nelson, Daytona; Roy M. Blitch, Quincy; C. W. Prother, DeLand; Miss Hazel G. Swartmont, Vero; C. L. Felton, Ybor City; A. Y. Milam, Jacksonville; Miss Laura Reid, Punta Gorda; Harry C. Lichlyter, Tampa; Ethel Johnson, Orlando; Charles H. Overman, Bagdad; J. M. Elliott, Jacksonville; Albert E. Lounds, Crescent City; Floyd E. Pullen, Miami; Florence E. Thrower, of Tampa; Myrtle E. Freeman, Daytona, and S. J. Hewitt, Jasper.

"ROBIN HOOD"

Producers of shows with "Million Dollar Chorus" and other girly lures might profit if they could get May Valentine's formula for the selection of participants in their theatrical activities, for aside from its superb singing her "Robin Hood" chorus is exceedingly good to look upon. "Tis said, however, that good looks unsupported by a voice of distinctive quality, ample volume and engaging personality, will not win the coveted contract from Miss Valentine, who personally selects every member of her company. The second act of "Robin Hood," in Sherwood Forest, where the entire chorus appears as archers in Robin's band, is not only a scenic gem, but contains more thrilling singing than is contained in dozens of comic operas that have proceeded and followed Mr. De Koven's greatest contribution to the lyric stage.

Miss Valentine personally directs her own orchestra at all performances. "Robin Hood" will be at the Princess February 20th.

BURGLARS DOPED FAMILY AND TOOK THE LOOT

(By The Associated Press) TAMPA, Feb. 10.—Twenty members of the family of P. Soto were rendered hors du combat recently when burglars entered their home and apparently diffused an abundant quantity of chloroform. The score and one Sotos either of that name or kin, slept soundly through while the intruders ransacked every room in a large house and made away with \$100 in cash, a gold watch and other valuables. Effects of the drug were felt by the family for two days.

FOR SHIP SUBSIDY

WASHINGTON, Feb. 10.—A final drive by administration forces under way yesterday for enactment of the Harding Lasker ship subsidy bill before the adjournment of the present congress.

The subsidy measure, stor mcenter of one of the senate's most parliamentary battles, was slung back into debate and administration leaders announced they would keep it before the senate until they obtain the decision asked by President Harding.

The legislative pathway of the bill was strewn with stumbling blocks. Members of the farm bloc and independent Republicans have joined forces to either defeat the measure or to prevent a final vote on it until after March 4 when the present congress expires.

Democratic leaders, headed by Senator Harrison, Democrat of Mississippi, announced they would support the independent Republicans in preventing a final vote on the bill in the present congress "unless the lame ducks are deprived of a vote."

The power of suggestion is all right in its way, but it won't do a darned thing for a furnace fire in the morning.

Everglades Drainage Will Be Taken Up By U. S. Engineers

Modification of Permit Given in Connection with Work of Control

(By The Associated Press) TALLAHASSEE, Feb. 12.—A hearing will be held at Moore Haven February 27th by Lieut. Col. Gilbert A. Youngberg, districted United States engineer, on the petition of the Everglades drainage authorities for a modification of a War Department permit of May 29, 1912, given in connection with the work of controlling the waters of Lake Okeechobee.

The War Department in its permit of that date approved the lowering of the level of the lake to 16 feet above mean low water in the Gulf of Mexico and required the construction of a lock and dam with control works at each of the several points of connection of the drainage canals with Lake Okeechobee.

The trustees of the Internal Improvement Fund and the Board of Commissioners of the Everglades Drainage District have petitioned for a modification of that permit "in such particulars as will provide for a more advantageous regulation of Lake Okeechobee for conserving the best general interests of drainage, of navigation, and the development of adjoining areas." An elevation of 15 feet has been suggested.

A bulletin from the office of Col. Youngberg in Jacksonville, sets forth any change in the existing permit must be considered in the light of the varied interests concerned, and enumerates the following as some of the interests that may be affected by the proposed change:

Maintenance of navigation on Lake Okeechobee; maintenance of navigation on the canals leading from Lake Okeechobee to the east coast of Florida; maintenance of navigation on the Caloosahatchie river; preservation of navigation on the Kissimmee river; necessity for the closing of the control works at the head of the drainage canals, in order to conserve navigation on the lake; drainage of lands adjacent to the lake; irrigation of land adjacent to Lake Okeechobee; the inflammability of the soil, which may be caused by the lowering of the ground waters adjacent to the lake; further subsidence of the soil around the lake, which lowers the overlevel elevation of the lake; flooding of islands in Lake Okeechobee and the destruction of crops on these islands and the lands adjacent to the lake; ownership of lands reclaimed by the

WEST FLORIDA HIGH SCHOOL BASKETBALL TOURNAMENT PLANNED

(By The Associated Press) PENSACOLA, Feb. 12.—Plans being made for a West Florida school basketball tournament to be held here. Physical Director Alexsen, of the Y. M. C. A., and Coach Hub Barks who have the undertaking in hand report that the movement of the meeting of quintets has to warm response throughout the region and they look for no difficulty in financing it. The tournament probably will be participated in by teams from Pensacola, Century, Molino, 1 ton, Warrington, Gonzales, Crestview, Defuniak Springs, Bonifay, Chip Graceville, Vernon, Marianna, Blount and Apalachicola.

HILLSBOROUGH HIGH SCHOOL TEACHERS WANT MORE MONEY

(By The Associated Press) TAMPA, Feb. 12.—Teachers of the Hillsborough County High school have applied to the county school board for an increase in salaries. A committee representing the high school faculty presented statistics designed to show that of the cities of between 25,000 and 100,000 in population in the United States those of Florida ranged fourth in the scale of teachers' salaries. A general average for the country was given as \$1,352, and the average annual salary at Hillsborough High school was said to be only \$765. The increases sought by the teachers range from \$500 annually upwards.

SANITARY OFFICER FOR TALLAHASSEE MOSQUITO CONTROL

(By The Associated Press) TALLAHASSEE, Feb. 12.—The city has employed Ford L. Thompson as sanitary officer. In his general clean-up Mr. Thompson will keep eye especially open for mosquito lairs. Measures looking to the eradication of the pest were taken at a recent meeting between local officials and George W. Simonds, state sanitary officer.

Montanans Want Jack and Tommy Gibbons to Mix

(By The Associated Press) GREAT FALLS, Mont., Feb. 12.—In reply to an offer from the Toole County American Legion Boxing Association of Shelby, Montana, to guarantee a \$200,000 purse to Jack Dempsey and \$50,000 to Tommy Gibbons of St. Paul for a 15-round fight at Shelby July 4 next with a \$50,000 forfeit posted to guarantee the contract, L. A. Sampson, of the Legion Association yesterday received a telegram from Jack Kearns in New York stating if the association would guarantee protection for the bout from the authorities and post \$100,000 forfeit, instead of \$50,000 he would be interested in taking up the offer. Gibbons has not yet replied to the offer.

There's always a darker side. Jackie Coogan's parents can't use him as an income tax exemption.

"Muddy" Ruel Traded to Washington, Red Sox Getting 3 Players

(By The Associated Press) WASHINGTON, Feb. 12.—The trade of Howard (Hank) Shanks, veteran utility player; Val Pienich, catcher, and Eddie Goebell, youthful outfielder, by the Washington baseball club to the Boston Red Sox for Harold (Muddy) Ruel, catcher, and Allen Russell, pitcher, was announced here Saturday night by Clark Griffith, manager of the Nationals. No cash consideration was involved. Boston got both Russell and Ruel in trades with the Yankees.

The trade gives Washington a first string catcher in case Pat Gharriety, Washington veteran who injured his arm last season, is unable to play regular this year. Shanks has been with Washington since 1912 playing the outfield for many years and for the last two seasons at third base. Pienich came here in 1918 from the Atlanta Club of the Southern Association. He has caught practically all games pitched by Walter Johnson. Goebell came to the Nationals in 1921. He was farmed out to the Reading club in the International League and returned again last year. He is an outfielder and recognized as the fastest runner on the local club. Griffith also announced that Geo. Mogridge, the Nationals' southpaw, had signed a contract for this year.

Battling Siki Now to Be Forgiven as Heads Ooze Charity

(By The Associated Press) PARIS, Feb. 12.—Battling Siki is to be restored to good standing in the boxing game and be reinstated with all the titles taken from him as a result of his various escapades, when the French boxing commission celebrates its twentieth anniversary today, according to Siki's attorney, M. de la Mott. Upon recognition of his client again as heavyweight champion said M. de la Mott the various suits brought by Siki as a result of his disqualification will be dropped.

SALLY LEAGUE WANTS EIGHT OR TEN CLUBS, JAX IN

(By The Associated Press) COLUMBIA, S. C., Feb. 12.—Possibility that the South Atlantic Association of the baseball clubs, commonly known as the "Sally" League will be enlarged to eight clubs developed here today when it became known that President W. H. Walsh, of Charleston had been in Savannah conferring with interested parties there. League officials are favorable, according to a statement by President Walsh to the addition of two cities to the present

OCALA WILDCATS EASILY DEFEAT CELERY CITY LASSES—35 TO 13

The Sanford girls motored to Ocala Saturday, met the Ocala Wildcats and lost to the tune of 35 to 13. This makes the second loss to this team this season, and the girls, although not discouraged entirely, feel that the Wildcats have some team, in fact one of the best team of girls in the state and the loss to them is no disgrace by any means.

CELERY SEED

Sanford girls lost to Ocala Saturday night. But Ocala has some team, and then the Sanford girls had a long ride in autos getting there that had some effect on their play. Sally League would have eight or ten clubs in their league. That's good dope. A ten club league is just the proper size. The home town doesn't see the same teams so often.

JACKSONVILLE, Feb. 12.—Baseball officials here were not enthusiastic in regard to the report that Jacksonville may be tendered a berth in the Sally League. The local club lost something near \$10,000 as a member of the Florida state league last season and there is a judgment of \$2,400 standing against the territory due the award of salary to Dominick J. Mullaney, manager of the club in 1921.

FOR THE MOVIE FAN

Clara Kimball Young in "Enter Madame" at the Princess tonight. Also "The Week End Party" a two part comedy. Tomorrow night, Agnes Ayres, in "A Daughter of Luxury," followed by Snub Pollard comedy.

STOP COUGHS AND COLDS

Neglected coughs and colds lead to influenza, in grippe, asthma and bronchitis, and the old method of "letting it run its course" is rapidly giving way to preventive treatment. Three generations of users have testified of the quick relief given by Foley's Honey and Tar from coughs, colds, croup, throat, chest and bronchial trouble. Contains no opiates—ingredients printed on the wrapper. Refuse imitations and substitutes. Sold everywhere.—Adv.

A SHABBY HOUSE OR A SHABBY MIND

Haven't you been in houses where lovely flowers stood all about, and everything was spick and span, and the library table was strewn with papers and magazines of the trashiest description? Is it a good thing to have the furniture of the house the best that money can buy and to furnish the mind with silly and disreputable things in the way of reading? Better by far have a shabby house than a shabby mind. The shabby furniture can be burned or sold, but what can be done for the shabby mind? Use the Youth's Companion to furnish your mind, and wherever you are—in plain but immaculate rooms or amid splendors and palaces—you will be at home. Try the Companion for a year and see.

FISH & GAME PROTECTIVE ASSOCIATION TO MEET COURT HOUSE FRIDAY NIGHT

The Seminole County Fish & Game Protective Association will hold a most important meeting at the court house Friday night, Feb. 10, at eight o'clock. Every member of the association and those who are not members but are interested in the preservation of the fish and game of Seminole county are urged to be present at the meeting. The question of the prohibition of seining in Seminole county will be taken up at this meeting.

Lumber Buying Continues Active In All Sections

CHICAGO, Feb. 12.—From every section of the country there continue to pour in reports of brightening building prospects, expanding manufacturing operations and increasing

lumber buying, says the American Lumberman, Chicago. Retailers in city, town and country are buying heavily for current requirements and for stock, and are sending out sizable inquiries with a view to their prospective spring needs. That these will be extensive is practically assured by the enthusiastic reports from architects and contractors, which are almost unanimously to the effect that they were never busier than now figuring on the home and other construction. Industrial demand is voluminous and pressing, especially from the railroads, oil industry, automobile, furniture and box interests, as well as from factories connected with the building trades, such as those manufacturing flooring, interior trim and sash and doors. There is also heavy export trade in southern pine, Douglas fir, redwood, oak and gum.

This heavy business is establishing new records in the lumber industry. Subscribers to the Southern Pine Association during the week ended Jan. 19, booked the greatest volume of orders in history, amounting to 983,899 feet per mill, compared with the former record of 804,985 feet made in 1916. Orders during the week mentioned were 52 per cent above normal and 69 per cent above production—doubly remarkable when the earliness of the season is considered. Shipments also were above normal. Production was still below, though increasing. Stocks consequently are being steadily reduced, and many mills are now withdrawing from the market. Prices also were continued strong upward trend, especially on building items.

In the Douglas fir industry also, previous records were broken during the same week, 135 representative mills booking orders for 143,000,000 feet and shipping 109,000,000 feet, thus greatly exceeding even the high records established during the foregoing week. Cargo business continues to feature the fir trade, 61 per cent of the above mentioned orders being for water delivery, an unprecedented total. A strong upward turn in the California trade is largely responsible for this showing. The Atlantic Seaboard immediately absorbs all the western lumber offered, and export business severely restricts the amount of fir available for the middle West, despite the attractive prices offered.

Other softwoods are likewise strong mill bookings being far above production. Prices are advancing steadily. Hardwoods show great activity and values are mounting as consumers outbid each other for the little dry stock offered. The movement of green stock is increasing on account of this shortage.

erate statements, steam tracs, barke and other boats, buy, sell and otherwise deal in cattle and all other live stocks. 6. To manufacture, buy, sell and deal in ice. To buy, sell, store, import and export fruit in its raw, butter, milk and all kinds of food and dairy products whether animal or vegetable. 7. To carry on the business of building, erecting, repairing, altering, enlarging, public or private buildings, of electricity and to supply light and heating power for the carriage of passengers and goods, either by land or water, and for such purposes to lay, construct and maintain cables, lines, conduits and maintain cables, lines, conduits and all necessary appliances and apparatus. 8. To construct reservoirs or water towers, erect and operate pumping machinery, the laying of water mains, pipes, valves and hydrants. 9. To furnish and sell water to manufacturing, public and private establishments and individuals for the production of power, electric, and domestic use and to collect payment or rentals for the same. 10. To operate and maintain stores, buildings, warehouses, depots or wharves, or to carry on any of the aforesaid lines of business. 11. To purchase any and all other business, and to do any and all other acts and things, and to exercise any and all other powers which may be necessary, expedient or convenient in connection with, or in addition to the business and businesses hereinbefore specified, which a natural person or a corporation of this character may lawfully do and exercise and to do any and all other acts and things, (herein mentioned either alone or in combination. 12. It is the intention that all the objects and powers specified in all clauses of this Charter shall be deemed to be included in the Charter, unless otherwise expressed in said Charter, and no power, privilege or authority shall be deemed to be conferred by this Charter upon any person or persons, or by the Directors of said Corporation, in any matter not herein provided for, until after the meeting specified in Article III.

Article III. The amount of the authorized capital stock of this Corporation shall be the sum of one hundred thousand dollars, of which (50) Thousand Dollars shall be issued in Common Stock and Fifty Thousand Dollars shall be issued in Preferred Stock to be divided into Five Hundred Shares of One Hundred Dollars each, and said Preferred Stock to be divided into Three hundred shares of one hundred dollars each, all of said stock, both Common and Preferred, shall be paid for in cash, and the amount thereof may be paid for in property, labor or services at a just valuation to be determined by the Board of Directors of said Corporation, or by the Directors of said Corporation at a meeting called for such purpose. Said Preferred stock shall be entitled to a dividend of eight per cent per annum, beginning on the first day of June, 1923, and payable annually on the first day of June, each year thereafter, out of the surpluses of said Corporation for the preceding fiscal year.

Article IV. The Corporation shall have the option of retiring said stock, per cent cumulative Preferred Stock, either in whole or in part at any time after January 1st, 1924, and so long as time thereafter as per, in addition to cumulative dividends thereon at the rate of eight per cent per annum from the date of said stock to the date of the redemption thereof, after deducting dividends previously paid thereon. No dividends shall be paid upon the Common stock until dividends cumulative or current, at the rate of eight per cent per annum, have been paid upon the said stock, per cent cumulative Preferred Stock, or any part thereof, outstanding, for the full period of time running from the date of issue

Article V. The names and addresses of the subscribers incorporating, together with the number of shares of the authorized capital stock subscribed for by each, are as follows: E. B. Mendenhall (Real) Winter Park, Fla. 20 shares. J. A. Vans Ainsworth (Real) Winter Park, Fla. 20 shares. Article VI. The highest amount of indebtedness or liability to which the Corporation may at any time subject itself shall be Two Hundred Fifty Thousand dollars.

Article VII. The names and addresses of the subscribers incorporating, together with the number of shares of the authorized capital stock subscribed for by each, are as follows: E. B. Mendenhall (Real) Winter Park, Fla. 20 shares. J. A. Vans Ainsworth (Real) Winter Park, Fla. 20 shares. Article VIII. It is known that before me, the undersigned Notary Public in and for said County and State, personally appeared E. B. Mendenhall, J. A. Vans Ainsworth, and J. A. Vans Ainsworth, the individuals described in, and who subscribed their names to the foregoing proposed charter and articles incorporated therein expressed. Witness my hand and official seal at Winter Park, Fla., County and State aforesaid, this 7th day of February, A. D. 1923. RHEA M. PETER, Notary Public State of Florida in and for said County and State. Dec. 14, 1923.

Has Been Secretary of State Since Year 1899

(By The Associated Press)
TALLAHASSEE, Fla., Feb. 12.—H. Clay Crawford, dean of Florida's cabinet, both in years and point of service, is a natural born secretary of state. He entered the department when still in his 20's while his father was secretary of state and since the death of his father, John L. Crawford in 1902, has been secretary of state.

Mr. Crawford and his father have held the office for more than 40 years which is longer than the time served by their 10 predecessors altogether. The present secretary's father held the office from 1881 to 1902. Mr. Crawford entered the state department as his father's secretary in 1899. Since his father's death and his accession to the head of the department he has been returned in every succeeding election.

Through his long tenure of office Mr. Crawford has become of be personally acquainted with every old time resident of note in the state, and the list might be lengthened to take in a vast field of those of lesser note. It is tradition around the capitol that hardly ever visits the capitol either on business or otherwise but that he pays the venerable head of the state department a call. This is especially true of the older residents of the state. Mr. Crawford's office is in one sense gives the impression that he is always holding "open house." There is no door between his private office and that of his department, while the door leading to the corridor appears never to be closed during the day. The furnishings of his office and his department seem to carry out the general demeanor of things. Mr. Crawford's desk and chair are those used by his father and the other fixtures bear mute witness to their long service. Virtually the only wall adornment is a large picture of the late John L. Crawford, which looks down over the present secretary's desk.

Mr. Crawford, who is now 66 years old, has one hobby—hunting. The third generation of Crawfords—H. Clay Jr.—is also taking to the secretarial duties. He is now a clerk in his father's department.

Government Forestry Research Office Established at Starke, Fla.

Will Ascertain Best Way to Chip and Handle Pine Tree Products

The Florida Development Board is pleased to announce that following several months effort to secure a government forestry research office in the state, a branch of the Southern Forest Experiment Station with its headquarters in New Orleans, has been established at Starke, in charge of Lenthall Wyman, associate silviculturist.

A cooperative agreement has been made between the United States Forest service and R. H. Smith of Hawthorne, Fla., covering a five year period, to work some of his timber located on Sampson Lake, seven miles west of Starke. This tract was selected by government officials, after a careful study of other regions, because it is the center of abundant supplies of pine gum growth. The principal object is to ascertain the best way to chip and handle pine trees for a maximum production of gum with a minimum of damage to the timber. Since this is young, second growth pine it presents the timber of the future. Other activities will include tests for damage, effect of thinning timber and some cutting methods in that vicinity. Efforts are now being made by the Florida Development Board to get the state and government to cooperate in some reforestation and grazing experiments on a portion of the state farm near Raiford.

Getting a camel through a needle's eye is child's play compared with getting a progressive idea through a conservative's head.

Our Annual Violet Brand Sale

We have found from our experience that the people of Sanford and surrounding territory expectantly await this yearly feature.

Because they, in turn, have found that as a result of our experience and the care and attention we give to this occasion, this event means much to them.

It means that every item is a combination of beauty and quality, particularly priced for this sale.

Then, too, there is a growing appreciation of quality in merchandise on the part of the buying public, that brings us the keenest pleasure in observing.

We have felt that nothing but the best was good enough for those who place their confidence in us—for every sale and purchase is indeed one of confidence—confidence on your part that you are getting the worth of your money—confidence on our part that we, as far as our most earnest efforts can avail, are giving you the best that can be had for the price. It is indeed a source of gratification on our part to note this growing appreciation and we can conceive of no condition or circumstances that could induce us to violate in any way this happy state of confidence which we have so long and earnestly tried to build both for your benefit and for our own.
