

Light Heavy Title Goes To Gus Lesnevich

NEW YORK, Aug. 27.—(AP)—Ring experience on a left hand like a ton of bricks won sole right to the world light heavy-weight championship for Gus Lesnevich last night and turned back the challenge of the Bronx kid, Tami Mauriello, in a 15-round fight at Madison Square garden. Lesnevich weighed 176, Mauriello, 170.

But the rugged Russian from Jersey won undisputed possession of the title by only the barest margin. He floored the baby-faced kid from the Bronx in the second round, cut his face open with a straight shot and was out to front when Tami came down the stretch like Whirlaway to all but pull the decision out of the fire.

The officials decided that Lesnevich's early edge, when he used a left hand like Babe Ruth used to use a ball bat, was enough to give him the verdict which clears up the question that has troubled the light heavyweight throne since Billy Conn abdicated.

Alexander Takes Qualifying Medal Of National Meet

OMAHA, Neb., Aug. 27.—(AP)—Edward (Skip) Alexander of Burlington, N. C., won the qualifying medal in the National amateur golf tournament Tuesday with a 36-hole card of 144.

His 37-40-77 was 10 strokes off his record tying 67 in the first round Monday, but a high wind which blew across to duifers' figures, kept his rivals safely behind him.

Sixes and sevens were as common as fours and fives on the cards of the hopefuls, with most of the trouble due to a fierce wind which caused usually straight-shooters to hook or slice.

Johnny Burke of Chicago, second to Alexander Monday, had a bad back nine and finished second with 36-41-77 for a total of 141.

Not a player in the field of 138 equalled the club's par 72 and there were plenty of scores in the high 80's.

All scores of 158 and better and a few 159's, were good enough to land one of the 64 berths for today's opening rounds of match play.

Two 16-hole rounds will cut field to 16 by tonight.

Casualties among the better known players were heavy. Foremost of the non-qualifiers was W. B. (Duff) McCullough, who lost to Dick Chapman in the finals last year. McCullough wound up with 73-83-153.

Gus Moreland of Peoria, Ill., medalist in 1928, Tom Sheehan, Northville, Mich., medalist in 1907, and Frank Stranahap, 18-year-old Trans-Mississippi champion from Toledo, Ohio, all had 160, a stroke too much.

Former champions Marvin (Bud) Ward of Spokane, Wash., and Johnny Goodman, Omaha, were tied for fourth at the end of the first round, moved into third place with 75's today for a total of 145. Ted Bishop, Auburndale, Mass., added a 77 to his early 72 for a 149 and tied at 150 were Ellsworth Vines, Jr., San Gabriel, Calif., and Lynn Lardner, Jr., Oconomowoc, Wis.

Johnny Fischer of Fort Thomas, Ky., national champion in 1934 can't back with a 39-54-78 after firing a 78 and landed in a tie at 181 with Lou Jennings, Portland, Ore., 78-76, and Bob Cochran, Normandy, Mo., 74-77.

Bracketed at 162 were defending champion Dick Chapman, Mamaronck, N. Y., Mario Gonzalez, Brazilian amateur champion from Rio de Janeiro, John (Doc) Rapido, Iowa; Skeg Riegel, Glendale, Calif.; Otto Grainger, Towson, Md.; Neil White, East Port Chester, N. Y.; Ted Gwin, Tulsa, Okla.; Harold Stewart, Detroit; Richard Durkin, Portland, Ore.; Eugene Dahlbender, Atlanta; Neil Cronin, St. Louis; Robert F. Riegle, Houston, Texas; and Richard Allman, Philadelphia, landed in the match play bracket by scoring fours on the first hole.

Grid Players May Turn 'Military'

ORLANDO, Aug. 27.—(Special)—Football players' uniforms will sport military insignia to denote the position played on the team, if coaches throughout the nation adopt suggestion of Francis Whitfair, DeLand member of the selective service board of appeals for the fifth congressional district.

According to his suggestion, team captains would rate as captains, quarterbacks as lieutenants, the centerfield and linemen would rank as sergeants, and so on.

Whitfair believes such insignia would help make American youth more "defense conscious" and stimulate interest in national defense.

Thalifax's name, changed from Siam in 1919, means "land of free people."

Rosetown Is Fastest Filly In Saratoga Race

SARATOGA SPRINGS, N. Y., Aug. 27.—(AP)—Widener's front-running filly Rosetown, had all the early speed in a field of five here Tuesday and as a result captured the Diana handicap and a \$2650 purse. Opposing a quartet of slow-starting fillies, Rosetown opened up a six lengths early in the race and lasted to beat Royce Martin's Dorimar, the favorite, by a scant half length. Dorimar had six lengths over Fairy Chant, the top-weighted entry from the Foxcatcher farms.

Dorimar made her bid in the last quarter after Fairy Chant of a 10-man playoff of 159 shooters. Art Femy, Detroit, and Bill Scott of Miami and Ralph Blank of West Palm Beach will be co-managers of the 1941 University of Florida varsity football squad.

Coach Tom Lieb announced the appointments Tuesday and said they would report this week-end to make ready for the opening practice of the 1941 Gator squad Monday.

Rosetown ran the mile and an eighth in 1:53 2-5 over a muddy track and paid \$8.70.

Emanuel's omission, favorite in a three-horse field, trimmed Widener's Overdrawn in a thrilling finish to take the day's second feature, the \$5000 added Naushon handicap by a head.

E. S. Moore's Battle Colors was three lengths back. Omission, who timed in 1:12 3-5 for six furlongs and paid \$2.50.

Gator Football Managers Named

GAINESVILLE, Aug. 27.—(AP)—Bill Scott of Miami and Ralph Blank of West Palm Beach will be co-managers of the 1941 University of Florida varsity football squad.

Iran To Seek Armistice In Four-Day War

Cabinet Decides On Move In Order To Halt Bloodshed In Invasion Of Allies

Two Countries Continue Push

London Announces It Intends To Expel Nazis From Persia

The new Iranian (Persian) cabinet has decided to seek an armistice to avoid further bloodshed in the four-day-old invasion by British and Russian troops. It was reported today, as Anglo-Soviet columns struck deeper into the oil-rich Middle East kingdom.

There was some question, however, whether the Allies would accept operations immediately.

London asserted they would continue until they had established a supply corridor to the U. S. S. R. and expelled all Nazis from Iran.

The cabinet of Premier Ali Akbar, at war with Britain and Russia, resigned today and Reza Shah Pahlavi, ruler of Persia, ordered the ministers to continue their tasks until another cabinet is formed.

The undersecretaries also were ordered to remain at their posts until their successors were chosen.

The cabinet resigned two days after Iran was reliably reported to have delivered to the British and Russian ministers a plea for an armistice and a guarantee that all German soldiers in Iran would be quartered in a few in indispensable technical posts would be quartered within a few days.

The British and the Russians had demanded the ouster of the German, holding that they were a danger to the Allies.

(Martin Agrinsky, NBC correspondent in Ankara, Turkey, in a broadcast to the United States said that the German government reported the new premier yet to be chosen, would announce that the taken resistance on up by Iran showed the country's desire for independence and that she was bowing to British-Russian force.)

(There was no immediate indication as to who might head the new government.)

Williams Funeral Services Will Be Friday Afternoon

Funeral services for Ralph O. Williams, known to many friends as "Ray", will be held at 3:30 o'clock Friday afternoon at the Erickson Funeral Home with the Rev. W. P. Brooks, Jr., officiating. Burial will be in Lake View Cemetery.

Mr. Williams, who was born in Sanford and had lived here all his life, died suddenly yesterday at his home, 501 West First Street. He was born on Jan. 25, 1886, and was a veteran of the World War.

He was employed by the Hill Hardware Company, where he handled fishing tackle and other supplies. He was widely known as an expert on the subject of fishing.

Survivors include his mother, Mrs. E. E. Williams of Sanford; two brothers, J. Brock Williams of Sanford and Brock Williams of the United States Navy; two sisters, Mrs. W. H. Williams of Sanford and Mrs. J. L. Williams of Winter Garden; and two grandsons, Mr. Eddie Williams of Sanford and Mr. Bill Williams of Sanford.

Lawyer Bears Huger May Want Back Sea

Sanford, Aug. 27.—(AP)—Lawyer Charles Huger, who is believed to be in the Pacific fleet of the United States Navy, will be in Sanford on Friday to visit his mother, Mrs. W. H. Williams, who is recovering from a long illness at the home of her daughter, Mrs. J. L. Williams, in Sanford.

New Excise Tax Schedule Drawn

WASHINGTON, Aug. 27.—(AP)—Senate Finance Committee today drew a new schedule of excise taxes which members would add about \$400,000,000 to the \$2,400,000,000 tax bill.

These taxes are those imposed on manufactured articles.

HOUSE TO CLOSE

Sanford, Aug. 27.—(AP)—The Sanford House will close its session today at 5 p. m. after a session of 54 days.

The Gateway To Iran

Mt. Demavend, in the Elburz range, lies between Teheran, capital of Iran, and the Caspian Sea, which has the Soviet on its opposite shore. This is the kind of mountainous terrain the Red troops have to traverse to join forces with British forces in their invasion of the oil-rich country.

Wolfe Leads Gun Club Marksmen With 100, 298 At Weekly Match

Jasper Wolfe, with a 100 in the slow fire and 298 out of a possible 300 in the match course, was high man at the regular weekly shoot of the Seminole Gun Club yesterday afternoon at the range on the lakefront.

Other good scores were made by members in the slow fire matches on the pistol range. Scores were:

NAME	SCORE
Ned Smith	94
J. V. Jones	94
Jim Allenby	93
A. L. Myers	93
E. W. McCall	93
G. G. Darty	87
Charles Shaffer	87

Match scores were as follows:

NAME	SL	TIM	RAP	MATCH
J. V. Jones	100	92	92	298
G. G. Darty	87	94	94	275
C. Shaffer	87	94	94	275
A. Myers	90	88	90	268
J. Allenby	83	89	90	262
N. Smith	94	84	83	261
E. McCall	79	83	81	243

Others who took part in the match were A. C. Yonally of DeLand, and Victor Check.

75 Orlando Soldiers Hold Gun Match Here

Over 75 soldiers from the Orlando Air Base came to Sanford today to receive pistol instruction and participate in practice matches at the range of the Seminole Gun Club on the lakefront.

It was the second time this week that a delegation had come here from Orlando, because there is no suitable firing range at the air base.

Chief of Police Roy Williams, a member of the Seminole Gun Club, went to the range to assist the men in getting the targets set.

The examining committee decided it would accept applications placed in the mails before midnight of Aug. 24, the deadline date. Written examinations will be conducted here Sept. 8.

Parole commissioners will be paid \$6000 a year. The commission will select investigators and other employees.

Watson Gives Opinion On Railroad Taxation

TALLAHASSEE, Aug. 27.—(AP)—Attorney General Watson today gave his opinion on a bill which would increase the tax on railroad property.

He said the bill would be unconstitutional because it would tax the same property twice.

He also said the bill would be unconstitutional because it would tax the same property twice.

East Will Get 15 Percent Cut In Gas Supply

Actual Shortage Of Fuel And Heating Coordinator States Oil Faces Nation

WASHINGTON, Aug. 28.—(AP)—Acting Petroleum Coordinator Ralph K. Davies announced today that gasoline supplies for filling stations in the east would be reduced 15 percent in September, compared with July.

Davies, at a Senate investigation of threatened oil shortages, asserted the eastern coast faced an actual shortage of both gasoline and oil for heating and industry this winter.

Davies flatly disputed rumors that the shortage "is being played up to foster war psychology, and that a shortage has been created artificially to assure the passage of a pipeline bill."

He added that officials hoped to avoid a rigid rationing plan if possible.

The Senate Finance Committee voted yesterday to eliminate house-approved provisions of the pending \$3,500,000,000 defense tax bill which would have imposed taxes on soft drinks, radio time sales and corporations which do not have to pay excess profits taxes.

These actions, together with other deletions voted by the committee cut nearly \$100,000,000 from the bill's estimated yield. It would still be in approximately \$3,500,000,000, however, because of increases approved earlier in the week.

The committee eliminated these levies:

- "Soda-pop"—one-sixth of a cent on bottles, costing 10 cents apiece, less one-third of a cent on bottles costing between 11 and 20 cents, and one-half cent on bottles costing more than 20 cents.
- Estimated yield of this provision was \$22,000,000.

A 10 percent tax on corporations which are not reached by the excess profits levy, estimated to yield \$3,000,000.

A graduated tax on radio time sales estimated to yield \$12,500,000; but it ordered a substitute to try to work out a substitute "franchise" levy.

A tax on outdoor advertising, estimated to yield \$7,000,000.

The committee approved, 13 to 4, the house bill's "use tax" on all motor vehicles and boats.

It revised the House telegraph tax rates, which called for a tax of five cents on each 50-cent message, and substituted a flat 10 percent levy on all radio, cable and telegraph messages.

The committee approved the House bill's provision for a 7 percent manufacturer's excise tax on automobiles, after rejecting a motion to raise the levy to 10 percent.

It also voted to increase from 5 percent, as approved by the House, to 10 percent the tax on leased wire talking and teletype services, with an exemption for general news, ticker and burglar alarm services.

It approved the House rates on long distance telephone calls and on a variety of miscellaneous items including playing cards, luggage, electric signs, business and store machines, sporting goods, electrical appliances, rubber articles, optical equipment, transportation, jewelry, furs and toilet articles.

286 Persons Apply For Parole Group

TALLAHASSEE, Aug. 27.—(AP)—Last-minute applications received here Wednesday brought to 286 the number of persons seeking appointment to the new three-member Probation and Parole Commission.

The examining committee decided it would accept applications placed in the mails before midnight of Aug. 24, the deadline date. Written examinations will be conducted here Sept. 8.

Parole commissioners will be paid \$6000 a year. The commission will select investigators and other employees.

Wallace Exhibits New Cotton Socks

WASHINGTON, Aug. 27.—(AP)—Vice President Wallace proudly exhibited Wednesday a pair of cotton socks designed for men who are used to silk hose.

Black and white ribbed, the socks he was wearing had the glossy appearance and fine texture of silk.

"They haven't forgotten the man who is working on Topsy here," he said, "and I'm sure they won't forget the man who is working on Topsy here."

Her Home Blown Apart By Freak Jersey Storm

A white-haired woman prints a pathetic picture as she salvages a curtain from wind-blown wreckage of her home in Woodbridge, N. J. Her home was one of many caught in the path of a freak storm which struck New Jersey last night and injured scores.

Licenses For Drivers Ready September 2nd

Judge Ware Outlines Requirements For '42 Applicants

With state driver's licenses ready to be issued on Sept. 2 Judge H. W. Ware today issued a list of important conditions vital to persons applying for licenses. A few of the regulations have been changed for the 1941-'42 licenses.

One of the most important regulations to be noted by persons who have had their licenses suspended for a new one is that they bring their old license with them as the law requires that the serial number of their old license be put on the application for a new license, Judge Ware stated.

Licenses for minors between the ages of 14 and 16 years will be issued only with the signature of both parents, make before a notary public, the Judge said.

Drivers of common carriers, school buses and taxi cabs must bring a certificate from their employer stating the driver has had one year or more experience at driving and has been given a job by the person signing the application.

Anyone from out of the state who has not had a 1940-'41 license must take an examination given by the State Highway Patrol, Judge Ware declared. Any state resident who has not a driver's license from the last year must take a driving examination before a license will be issued.

One important law for drivers in the state which must be observed at all times is one concerning a driver involved in an accident. Judge Ware emphasized.

The law is as follows: "Section 13, Chapter 20578, of the Laws of Florida, Acts 1941, requires the operator of a motor vehicle involved in an accident resulting in injury to or death of any person or where property damages sustained is \$50 or more to make a written report within 24 hours after such an accident to the Department of Public Safety, Tallahassee, Fla."

Over 300 Frenchmen Placed In 'Custody'

VERSAILLES, German-occupied France, Aug. 27.—(AP)—Authorities of German-occupied France made a sweeping roundup of enemies of the regime today in the wake of the Pierre Laval-Jacques' Deal announcement attempt and by mid-afternoon had placed more than 300 persons in "protective custody," some from the very ranks of the newly mobilized anti-Bolshevik legion.

In Paris, the first of three so-called Communists, convicted by special courts, were executed. They were condemned to death yesterday for alleged misdeeds not connected with the Laval shooting.

SETS SCRAP PRICE

WASHINGTON, Aug. 27.—(AP)—The Office of Price Administration and Civilian Supply Wednesday set a price of \$14 a gross ton for No. 1 heavy melting steel for scrap shipped from Tampa and Jacksonville, Fla., to New Orleans and Lake Charles, La., for Arthur Beaumont, Louisiana, and Corpus Christi, Texas.

LOCAL WEATHER

Considerable cloudiness tonight and Friday; scattered thunderstorms Friday afternoon and along the northern coast tonight.

Supply Line To Leningrad Said Severed

Rail Route To Black Sea Naval Base Also Cut Off, Say German Authorities

Russians Resist Nazis' Assaults

Two Red Mechanized Divisions Are Reported As Crushed

The Associated Press reported today that German forces storming toward Leningrad were reported to have cut off the supply line to the city from the Middle East and to have destroyed the rail route to the Black Sea naval base. The report also stated that two Red mechanized divisions were reported as crushed.

The Associated Press reported today that Russian forces were reported to have resisted German assaults on the Leningrad front. The report also stated that the Red army was reported to have inflicted heavy losses on the German forces.

The Associated Press reported today that the Red army was reported to have inflicted heavy losses on the German forces. The report also stated that the Red army was reported to have inflicted heavy losses on the German forces.

Improvements At Farmers Market Will Be Resumed

Work on a new market building and an additional parking lot at the Sanford Farmers Market will be resumed today. The work was suspended last week because of the delay in the lumber shipments, but it is expected to be continued next week.

Lehman Pleased That Gas Ration To Be Adjusted In State

Work on a new market building and an additional parking lot at the Sanford Farmers Market will be resumed today. The work was suspended last week because of the delay in the lumber shipments, but it is expected to be continued next week.

Teacher Is Named For Oviedo School

Appointment of Miss Virginia Balken as teacher of home economics at Oviedo, to take the place of Mrs. Louise Rowley, who resigned, was announced by County School Superintendent T. W. Lawton today.

R. A. F. Bombers Attack Germany

LONDON, Aug. 28.—(AP)—Royal Air Force bombers battered German defenses and other targets across the Channel last night and were believed to have struck at enemy shipping in the Straits of Dover.

Pioneer Floridian, 90, Dies In Miami

MIAMI, Aug. 28.—(AP)—Melville Evans Spencer, 90, South Florida pioneer who once sold ocean-front property at Palm Beach for \$30 an acre, died here yesterday.

Seminole Woman Is To Receive Degree

DELAND, Aug. 28.—(Special)—Mary W. Foltz of Lake Monroe will be one of seven graduates to receive degrees here Saturday from Stetson University, officials reported today.

Power Connection Is Ordered For States

WASHINGTON, Aug. 28.—(AP)—The Federal Power Commission Wednesday ordered an interconnection between the Florida Power Corporation and Alabama Power Company, through facilities of the Gulf Power Company, in a move to meet electric power shortages in the southeast.

Daytona Hears Of Unusual Merger

DAYTONA BEACH, Aug. 23 (Special)—Mergers are nothing new in the world of business but it is unusual to hear of the type of merger recently affected by F. C. Usina and W. I. Drysdale when they purchased

the city zoo and incorporated its stock of birds and animals with their privately owned Alligator and Ostrich Farms at Anastasia Beach and at Daytona Beach. The menagerie, formerly housed at the Daytona airport, includes many types of fowl and wild game, bears, lions, deer, tigers, and a large collection of unusual monkeys.

THE SOUTHERN GARDEN
By Camilla Bradley
EDITOR OF
HOME GARDENING MAGAZINE

As the South is passing through a summer with more than average rainfall, it is well to pause in our garden work to study the effect of this excessive moisture on individual plants. Trees and shrubs, washed clean and shiny, are responding to the depth of water that no garden hose can supply. Vines are growing rampant and must be controlled by pruning to keep them in bounds. This applies particularly to watermelon and cucumber vines. Naturally, Rosa Montana, clematis, or other fall-blooming vines, should not be cut back until after they have flowered.

Lawns are greener than usual for this time of the year and should be encouraged by a good feeding. While the grass is wet, or preferably just before a shower, apply 2-4 pounds of a good commercial fertilizer per 100 square feet of lawn surface. This treatment will enhance the beauty of your summer lawn and at the same time develop vigorous root systems that will help prevent winter-killing. The use of manure is not recommended because it invariably introduces weed seeds. However, if you have access to very well rotted manure, that is another matter.

While we are on the subject of lawns, let me remind you to get the blade of your mower high. Never mow a summer lawn closer than two inches to the ground be-

cause sturdy top growth shades and protects shallow grass roots from the burning sun.

Abundant rainfall is the extreme test of any drainage system. It will reveal low spots, in a lawn, poor grading, or heavy soil that is incapable of absorbing and distributing moisture evenly. Low foliage often indicates poor drainage and is nature's signal to set the plant higher or to install artificial drainage under it.

Hot, humid air provides ideal conditions for the development of a number of insects and fungus diseases. Iris rhizomes should be carefully checked for any evidence of borers or root rot. In contaminated areas, cut the fans back, give rhizomes a good remove and destroy all soft spots along the rhizomes. Soak the remaining portions in a solution of bichloride of mercury 2 tablets to a quart of water, in the right proportion for about 15 minutes. Pour the used disinfectant over the contaminated soil or, in extreme cases, change the soil entirely. After the rhizomes have been cleaned, wash them with two replant them parallel to the ground and almost on its surface. Never completely cover them.

For answers to your questions on gardening problems send a self-addressed, stamped envelope to the Service Department, Home Gardening Magazine, 610 Bienville St., New Orleans, La., or care of this newspaper.

British May Receive Tanks From Florida

DUNEDIN, Aug. 23 (Special)—Amphibian tanks being made at the Dunedin Food Machinery plant may soon see service with the British army in

the Near East if reports accepting through rigid Navy censorship at the plant are correct. It is known that two British army officers have been watching the tanks go through exhaustive tests, and it is alleged they were exceptionally well pleased with the performance of the tanks invented by I. S. and

Roehling, Clearwater. Reports are that two of the recently completed tanks will be sent to the British army for use in the Near East for further tests under actual battle conditions. Inasmuch as Britain has no contract with the builders, the tanks will be shipped under lease lend act provisions.

Stewart Says:

Japan's Envoy Is Well Liked in Washington

By CHARLES F. STEWART
Central Press Columnist

ABCD is another new alphabetical combination. Admiral Kichisaburo Nomura, Japan's ambassador in Washington, is given credit for conceiving it. It stands for America, Britain, China and the Netherlands East Indies, the powers engaged from Tokyo in the Pacific.

Of course, ABCD is not the correct spelling in Japanese. In the Japs' own language, the spelling naturally means "United States, America, Britain, China and the Netherlands East Indies, plus a few other words, with spaces between 'em, in a dozen or 15 letters. ABCD, though, fits in very conveniently.

We may not overly like Japan at present, but Ambassador Nomura personally is a good scout. He a d d l i n e writers acknowledge their obligations to him.

Since he gave "em his original suggestion, ABCD has been transformed into ABCDR, to provide for Russia, which now is said to be included in the international encirclement outfit. ABCDR, however, quite ABCD's perfect alphabetical continuity, has "D's" no "R" for it. Russia can't be omitted.

I probably wouldn't enjoy being DETAINED in Japan, like those 130 Americans whom the Japs' government wouldn't allow to sail for home on the steamship President Coolidge, but the Imperial Hotel is no bad hostelry to inhabit in Tokio in normal times. When my wife and I dwell there, in pre-World War No. 1 days, we liked it.

Almost a Killing

In that era it wasn't necessary for a visiting American even to have a passport. But I'd been in China. Civil war was in progress then, and I'd considered it inadvisable to tote a pistol, a .45-caliber Colt automatic, then the very latest pattern of shooting iron. Landing in Yokohama, bound for Tokio,

I deemed it desirable to report at police headquarters that I possessed the weapon. Accordingly I handed it over. The Japs are just that playful.

As a foreign correspondent I had a desk in the main office of the Nippon Denpo Tsushin Sha (Jap Telegraph News company). It was equipped just like the office of any American news agency, but the staff all wore kimono and elder and things. Gosh! but they looked funny, editing news, so attired.

It was a hot day, they'd no hesitation about being everything off, and going on with their editing in a pair of clogs alone. Neither did it make any difference if there chanced to be some girl stenographer around. In fact, the girls were liable to peel off also. There was nothing immoral about it, it was just the custom of the country. I was regarded as a guest and nothing was too good for me. If I wanted an interview with some mogul, such as a cabinet member, it was fixed for me in about order. Those guys certainly can be nice to you if they feel like it.

Japanese Drama

One evening my wife and I went to the Imperial theater. It was as modern as anything Broadway has to offer. The actors, though, don't do any talking. They ACT, but the play's purport is recited by a chap in the background.

Women Hold Some Of Biggest Jobs In Uncle Sam's Defense Program

By ADELAIDE KERR
Mrs. Oreta Culp Hobby, wife of the publisher of the Houston Post, has one of the biggest women's jobs in Uncle Sam's defense program.

As head of the Woman's Division of the Army's Bureau of Public Relations she has tackled the tall task of answering questions of American wives and mothers about the food, health and recreation of the boys in camp.

Mrs. Hobby, who is executive vice president of the Houston Post, an active executive of radio station KPRC, a lawyer and mother, is bringing her past experience to play in her new job. Her office in the Munitions Building in Washington will answer women's letters and prepare press releases on the army news of interest to them. She also is said to have envisaged a radio program to give news of the camp.

Jacqueline Cochran, America's woman air ace, who recently flew a bomber to Britain, is assisting Colonel Robert Olds, head of the

army's airplane ferry command, in a survey of American women pilots with a view to listing those who have at least 200 hours in the air. The survey falls in line with Washington reports that army air force officials are considering using experienced women pilots to ferry training planes from factories to training centers.

Use of women pilots would release army airmen who have been ferrying the planes.

The Women Flyers of America recently completed a membership survey which revealed 29 women pilots, between the ages of 21 and 40, who have from 200 to 1,000 flying hours.

Mrs. H. J. Heims of Pittsburgh expects to tour the country by plane this fall to speak before members of the General Federation of Women's Clubs on requirements and training for women pilots.

The American Women's Voluntary Services' New York office plans to train 10,000 women in its autumn courses on air raid precautions, communications, first aid, home nursing, mobile kitchen feeding, motor corps repairs, physical training and map reading. New courses will include small boat piloting and navigation.

The Philadelphia Advertising Women's Club recently gave a "joint party" at which members donated a pint of blood for Red Cross Reserves.

Thousands of women are at work in defense industries throughout the country. In the General Motors plant at Meriden, Conn., more than 1,000 are fitting ball bearings in a hole of an inch in diameter in tiny bearings for aviation instruments and equipment. Company representatives say women are preferred to men for the job because of the smallest and dexterity of their fingers. They wear rayon smocks

OUT OUR WAY

which don't give off lint, work in fine kid gloves and handle the tiny balls with tweezers to avoid leaving perspiration stains on the bearings.

Hundreds of other women are winding coils for motor generators at the Westinghouse plant in Easton, Pa. Girls in the General Motors products division at

Congress Nowadays Is Eager To Get Opinions From Electorate

WASHINGTON, Aug. 28.—(AP)—Congress has gone a-polling. According to the longest memory of the oldest inhabitant, there never was a time when the congressmen were so eager to get the pulse of the electorate. Many of them have been away from their districts for a year or more. Public opinion is changing from week to week. Election (1942 for all representatives and

now may mean political disaster. A third of the Senate is just around the corner. A majority of Congress, unable to get home and mend those political wounds is resorting to the poll.

Back in the very earliest spring, I wrote a story on one of the first congressmen to go a-polling. It was William F. Swift, representative of New York's sixteenth district. Dropping into his House seat when the fight on the Lend-Lease bill was at its hottest, Mr. Pfeiffer sent letters to one out of seven members of his district. He explained that he couldn't poll everybody but asked each recipient to pass the letter on to as many persons as possible who had not one in the letter, he asked the voters to write him their opinions on the pending bill. The letters received guided the freshman representative in

Republican with a passion for governmental economy he strung along with the Democratic administration.

It was a lesson that hit Congress between the eyes. Since then, the number of polls taken by members of both houses couldn't be listed in this short space.

Not the least of these sentiment soundings has been Representative Hamilton Fish's poll of his district. Mr. Fish reported back that his constituents didn't like war. Representative Paul Shafer, Michigan Republican, recently told the house that in his district, 93 percent of the folks were against entry into the European war.

In a way, Senator Burton K. Wheeler's late letter to the public is general, asking that they write the President their opinions on whether he should go into the war (or stay out) was nothing but a poll. The furor that the senator's plea caused in Washington gave rise to a wholesale campaign of "franking privileges" as well as charges, counter-charges, and a couple of apologies.

Now comes Stephen A. Day, Republican representative at large, from Michigan. Congressman Day's poll is probably the most ambitious undertaken by any member of either house to date. He addresses his inquiry to every member of "Who's Who" in Michigan. He asks the letter in a penny-prepaid postcard. On it is the question: "The United States should: (1) enter the war (2) stay out of the war." Following that is a space for name and address, with an explanation that the signature is optional.

"This is not done," says Mr. Day, in his letter, because I have changed my views. They are the same as they were. I merely want to know how American leaders stand."

Mr. Day's poll, like Mr. Wheeler's, went out postage free, under the privilege of "official business."

Aside from the consternation about the part of constituents to find out what the public thinks, the story would hardly

Vladivostok Is "Open Door" To Soviet Russia

By Associated Press
Just a tough word to pronounce to most Americans, Vladivostok is growing in world importance as the Far Eastern open gate through which will flow Uncle Sam's lease-lend aid to embattled Russia.

The other water outlets of the U. S. S. R. are limited to the generally icebound ports of the north and the internationally shared Baltic and Black seas. Now parts of the war zone in the west, Vladivostok is ice-free except for a short period in winter and ice breakers then permit continuous open passage. It is about as far north as Boston.

High surrounding hills and a winding channel entrance from the sea of Japan adapt the city readily to fortification. Back of the city a ring of fortresses stud the ridges and in 1932 a Soviet "Maginot line" of concrete pill-boxes four-deep was reported complete. Vladivostok is also a naval and air base.

Founded only 80 years ago, Vladivostok is situated at the end of a narrow hook of land that bends south from the main body of Siberia. To the west in Manchoukuo and to the east the sea. San Francisco is 5,270 miles away by the most direct shipping line. Moscow and Leningrad are 5,000 miles to the west.

Now a city of more than 200,000 persons, Vladivostok first

boomed with completion of the famous trans-Siberian railway in the early 1900's.

Air service links Vladivostok with northern Soviet centers. An automobile highway paralleling the railroad line into the west is a third route over which war supplies may move.

Shipping bound for Vladivostok for the most part must move in from the Pacific to the Sea of Japan through Japanese territorial waters. The shortest route is between the southern portion of Sakhalin island and the northernmost point of Japan's second largest island, Hokkaido. Seven hundred miles south by air line is Tokyo.

In years of industrial prosperity patent applications average about 100,000 annually, the Department of Commerce says.

BIBLE VERSES FOR TODAY

THE FOUNDATION OF THE
HOUSE OF SIN IS UNSOUND.
THE STRUCTURE CRUMBLES:
The house of the wicked shall be
overthrown; but the tent of the
upright shall flourish.—Proverbs
14:11.

ECHOES
I set some words out in a verse
And have thought again
How far their airy sounds would
go.

Incidentally it is the same moon
that shines over Silver Springs
and Cypress Gardens as over
Miami.

Another good thing about a
night's sleep is that it will
be sure to give you a
fresh start on your income tax.

In future cases of spitting on
people, why not leave
the spitting to the other
party? We have an
idea that about 90 out of 100
would stand for it.

With the Kearny Shipbuilding
plant making warships again
after a 19-day layoff. When the
history of this period is written,
one of the most difficult
problems for the students of the
war will be to understand why
the world intelligent people
would tolerate so deplorable a
condition at such a critical time.

The schools ought to abolish
geography until the maps little
more than a glorified
Clermont Press. Would
you abolish history until it's all
written in Times Union. Might as
well quit arithmetic until congress
is talking in Billings-Fort
Worth News Press. If arithmetic
isn't busy and catch up with
congress, new appropriations will
be figured by calculus.

Central Florida should feel
proud of the movie,
'Moon Over Miami.' Although
the entire plot revolves around
the rather scandalous goings-on
of the university and gold-diggers
who had to come to Central
Florida to Cypress Gardens and
Silver Springs, particularly, for
their best shots.

There has recently been warned
the United States, Britain and
France to discontinue her
aggressive moves. If she now strikes
at them, Singapore, the
Philippines, India or the
Philippines, she will have all three
nations declared against her.
She will have nobody to
stand by her. She can't say
she hasn't been warned.

Overthrowing Hitler, no
doubt, is the U. S.
policy. He thinks the
American people are
going to help. He also
thinks the American
people would
overthrow Hitler. He
thinks the American
people are going to
help. He also thinks
the American people
would overthrow
Hitler.

Gasoline Rationing

That no great hardship will be worked upon Florida
during the winter tourist and agricultural season as a
result of federal gasoline rationing was indicated today when
Senator Pepper and Governor Holland revealed plans
which take into consideration conditions peculiar to this
state. Here gasoline will probably be rationed on a seasonal
basis instead of July sales as will be the case in the
rest of the eastern seaboard.

One filling station operator told us the other day
that in July of last year he had sold only a little over a
thousand gallons of gasoline. If the rationing plans as
proposed by Secretary Ickes had been in effect then, that
would have meant that he could have sold less than a thousand
gallons each month for the remainder of the year
and throughout the winter. As a matter of fact he
actually sold up to 12,000 gallons by December and as high
as 14,000 gallons during the winter.

It is the fluctuation in this filling station's business
may be exceptional, nevertheless the trend is generally
the same with all of them. Almost any filling station
will sell two or three times as much gasoline in winter
as in summer. This is due not only to the fact that many
of our citizens leave the state in the summer for their
vacations, but also to the large number of tourists who
come here in winter and to the fact that the greatest
production, industrial as well as agricultural,
takes place during the winter.

In the case of this particular filling station, last year
it sold approximately 100,000 gallons of gasoline. If the
Ickes' rationing plan had been in effect, it would have
been permitted to sell less than 20,000 gallons, a cut of
80 percent in its actual sales. Filling stations in the north
are being asked to reduce their sales by no more than ten
percent, and even this is considered by some to be excessive.

What this would mean to the State of Florida in loss
of revenue from gasoline taxes is shown by the fact that
on the sales of this one filling station the State would
have lost no less than \$6,000. What would the loss to the
State be from all the filling stations in Florida? What
would be the effect upon the school funds? Where would
the money come from with which to pay our school teachers?

Obviously such a condition could not be permitted to
exist. Senator Pepper and Governor Holland are right in
going to bat on the problem now. Undoubtedly this is something
which had never occurred to Secretary Ickes when
he devised his rationing plan. It is encouraging to learn
that something may be expected to be done about it in
the very near future.

A Warning To Tax Bodies

The fate of the Gilchrist County tax roll millage levy
at the hands of Comptroller Lee should serve as a warning
to county commissions throughout Florida that the
new tax laws mean what they say and the Comptroller
means to hold tax-making bodies to the letter of the law.

Gilchrist County's roll was the first to reach the
Comptroller's office. It was returned to the Gilchrist
Commission with a letter from Comptroller Lee stating that
he Commission had failed to track the law, which requires
that tax millage shall descend in measure as assessment
rolls are increased. The Commission had levied a total
of twenty-one mills. Colonel Lee ordered that this be cut
to sixteen mills. The County Commission says it will
obey, but it will have to do as ordered.—Bradenton Herald.

"Not A Shot"

Not a shot has been fired by the U. S. Navy in carrying
out the President's order to keep the sea lanes clear
to Iceland, says Navy Secretary Frank Knox.

Rumors, which have become almost popular belief,
have been current in the East that navy airplanes have
been taking pot shots at Nazi submarines. Mr. Knox's
statement was aimed at these rumors.

"Not a shot" has been fired. We'll take the word of
the Navy Secretary for that.

After the meeting of Mr. Roosevelt and Mr. Churchill
at sea we wonder how long Mr. Knox can make that boast.
—Miami Herald.

WASHINGTON DAYBOOK

WASHINGTON, Aug. 28.—(AP)—
As the world unconquered by
Hitler shrinks, the diplomatic
world in Washington expands.

PLEASE TO EXCUSE AGAIN, YES?

Six Midgets Get Roles In Defense Of Their Country

CORAL GABLES, Aug. 28.—(AP)—
Six Russian-born midgets, retired
trouper who reside in a
settlement of doll-like houses on
the fringe of the Everglades,
have been assigned roles in the
defense of the United States.

Their tiny settlement has been
designated as an observation post
in the nation-wide air raid warning
system.

Proud of the duty assigned
them, the midgets eagerly
demonstrate how they could perform.

John Welikavoff, 48-year-old
jack-of-all-trades, grabbed a mixture
set of binoculars.

and commissions various civil
service officials from London
have been brought over to supervise.

I have counted the different
commissions and agencies now
representing Great Britain here.

Long ago, the busy British
Embassy on Massachusetts Avenue
was filled to overflowing
and when the British Purchasing
Commission dumped its duffel
here, they had to take over floors
in the Willard Hotel. That lasted
less than a fortnight. Official
Washington had hardly caught
its breath before the English
took over the swank apartment
house where the late Andrew
Mallon once lived.

Since then, it has been touch
and go and the English now are
scattered through half a dozen
other buildings.

Oddly enough, all of this vast
expansion in the diplomatic
corps has been attended by a
great decline in diplomatic
social activity. In the first place,
the folks from abroad are too
grimly busy. In the second, it's
so difficult to tell whether the
friend of today might be the
enemy of tomorrow—or vice
versa.

It is ordinarily a quiet, sleepy
neighborhood, but not any more.
Stopping in at a little house a
few hundred yards away, I was
informed by the "landlady" that
she would like to ask me in, but
that all her rooms were occupied
and in order to take care of the
tenant boom, she had established
her own quarters in the basement.

Midnight Show SAT. 11:30 P. M.

WHITE CAPTIVE!

Mary Tamm Honored With Linen Shower

Miss Mary Tamm, whose marriage to Robert Washburn will be an event of the early Fall, was honored at a linen shower given by Mrs. H. M. Hamby Tuesday evening at her home on Myrtle Avenue.

The party rooms of Mrs. Hamby's home were attractively decorated with pink roses, asters and sinias, and Miss Tamm was presented the shower gifts from the dining-room table which was overlaid with a lace cloth and centered with a shower arrangement of sweetheart roses.

The color motif of pink and green was further accentuated by the hostess in refreshments of a sweet course. Mrs. Hamby was assisted in serving by Mrs. R. A. Cameron, Jr.

The hostess' gift to the bride-elect was a set of bath towels. Prizes for bridge and Chinese checkers were given to the following: Mrs. R. A. Cameron, Jr. for high score at bridge; Mrs. Henry Richter for screen; and Mrs. E. B. Taylor for high score at Chinese Checkers.

Those invited were: Miss Tamm, honor guest, Mrs. Frank Melick, Mrs. H. B. Pone, Mrs. R. A. Cameron, Sr., Mrs. Lena Pezold, Mrs. R. A. Cameron, Jr., Mrs. R. E. Roumillat, Mrs. E. B. Taylor, Mrs. Julia Ludwig, Mrs. J. E. Gracie, Mrs. Henry Richter, Mrs. C. T. Estes, Mrs. Mary Church, Mrs. H. N. Tamm, Mrs. R. B. Wight, Mrs. Ellen Hey, Mrs. Luella G. Washburn, Mrs. J. A. Peckham, Mrs. W. R. Edenfield, Mrs. J. M. Leinbert, Miss Freida Grefe and Miss Aranka Takach.

Personals

Miss Jane Sharon returned Tuesday from Jacksonville where she has spent the summer visiting relatives.

Mr. and Mrs. H. N. Tamm have as their guests for a few days, Mrs. Freida Grefe, and her family, Mrs. J. E. Gracie, of Savannah.

Friends of W. C. Hill will be glad to know that he is able to be out after being ill for several days.

Friends of Frank L. Woodruff will be glad to learn that he is improving at his home on Oak Avenue.

Mr. and Mrs. J. W. Lyles have as their guest Mrs. Elizabeth, mother, Mrs. J. H. Taylor, of Norman, Okla.

George and Jack Spencer, sons of Mr. and Mrs. L. E. Spencer, are spending this week in Miami as guests of Harry and Gordon Milley.

Miss Dorothy Mitchell returned yesterday from Laurel Falls Camp at Clayton, Ga., where she has spent the summer as an instructor.

Miss Eugenia Muller and Miss Louise Muller left today for Asheville and other points in North Carolina where they will spend a two week's vacation.

Mr. and Mrs. Henry Nicholson and daughter, Elizabeth, of Valdosta, Ga., who are the guests of Mr. and Mrs. G. D. Bishop, spent today at Coronado Beach.

Mr. and Mrs. George H. Altman and children, Barbara Ann, and George, Jr., will leave today for a vacation of 10 days which they will spend visiting in New Smyrna and Avon Park.

Mrs. Maude Miller and her daughter, Miss Margaret Cox, have returned from Auburn, Maine, where they have visited during the past two and a half months.

Mrs. A. R. Meriwether and sons, Addison, and Upham, returned yesterday from a two month's vacation in North Carolina and Virginia.

Mr. and Mrs. R. W. Rierbacher, and G. T. Holody of Brunswick, Ga., are expected to arrive Saturday to attend the wedding of Miss Marian Estridge to Richard Livingston Gillespie on Sunday afternoon, Aug. 30.

Mr. and Mrs. J. E. Rietta of Jacksonville, who have spent the past several days with Mrs. Rietta's parents, Mr. and Mrs. W. R. Edenfield, left today for a trip through the Great Smokey Mountains, and a vacation in Bowling Green, Ky.

Last Bridge Party Is Given By Club

The last in a series of five bridge parties given by the Woman's Club, the benefit of which is to keep the club house open through the summer for the Red Cross sewing room, was held on Tuesday afternoon.

Prizes were awarded to the following: Mrs. J. R. Adams, for high score at bridge; Mrs. Cornelius Kelly, for second high at bridge; Mrs. C. R. Dawson, for high score at rummage and bridge.

Many summer flowers in pastel shades were used to decorate the arrangements throughout the club room. Refreshments of sandwiches and punch were served to the guests by the hostesses, Mrs. E. J. Nelson, Jr. and Mrs. R. M. Burns.

Miss Olive Chapman Will Give Recital

Miss Olive Chapman will be presented in her graduation piano recital by her father, Mrs. Frances A. Hickson, on Friday, Aug. 29, at 8:00 P. M. at Mrs. Hickson's studio at 1119 Myrtle Avenue.

Miss Chapman will be assisted on the program by Miss Grace Schree, soprano; Miss Mabel Chapman, flutist; and Miss Virginia Chapman, violinist.

The numbers rendered will include selections from Beethoven, Bach, Bachmannoff, Debussy, Grieg and Spengleroff. Friends are invited to attend.

Dinner Meeting Is Held By Pilot Club

A dinner meeting of the Pilot Club was held on Tuesday evening at the Valdez Hotel with 15 Sanford members and seven Orlando members present.

Mrs. Margaret Lawrence, Director of District No. 12 of the State Welfare Board, was guest speaker at the meeting. It is reported that Mrs. Lawrence gave a most interesting talk on the different phases of State Welfare work including Old Age Assistance, Blind Assistance and Aid to Dependent Children.

Boom In Crabmeat Canning Is Seen

BRADENTON, Aug. 28.—(Special)—Predicting that President Roosevelt's recent order increasing import duties on Japanese canned crabmeat will open a new industry in Florida, Congressman Peterson Wednesday called upon fishery interests of that Atlantic and Gulf states to organize for conservation and perpetuation of the important supply.

Peterson, who was one of those called for higher duties to protect American fisheries from foreign competition, said new capital already is coming into Florida and plans announced for a new fishing plant in operation on St. George Island, near Palm Beach.

BIDS TO BE OPENED
TWO FAIRBURY BIDS, Aug. 28.—Bids will be opened Sept. 10 for construction of a \$2,000,000 naval section base from which small craft will operate on patrol service two months later.

BIBLE VERSES FOR TODAY

**THE FOUNDATION OF THE
 HOUSE OF HIM IS UNSOUND,
 THE STRUCTURE CRUMBLES.**
 The house of the wicked shall be
 overthrown; but the tent of the
 upright shall flourish.—Proverbs
 11:11.

ECHOES

I set some words out in a verse
 And never thought again
 How far their airy sounds would
 go.

And whitherso, and when;
 And up from here and out of
 there
 Their echoes came; and then
 I knew the airy sounds
 Were singing on again.

O for my words and thoughts
 and deeds
 Be careful how they go
 Their quivers full of love and
 cheer.

O singing, singing so,
 Let love be swift, and glad, and
 true,
 And kindness be the bow,
 And every shaft a thing of light
 And may it softly go.
 —Ellen E. Larson

Incidentally it is the same moon
 that shines on Silver Springs
 and Cypress Gardens as over Mil-
 ann.

Another good thing about a
 swimming pool, it is a
 good place to cool off
 after figuring out income tax.

In future cases of spitting on
 hall floors, why not leave
 it up to the other privates to
 handle the situation? We have an
 idea that about 90 out of 100
 privates stand up to it.

Well, the Kearny Shipbuilding
 plant is making warships again
 after a 18-day layoff. When the
 layoff of this period is writ-
 ten, one of the most difficult
 problems for the students of the
 future to understand will be how
 the world intelligent people
 would tolerate so deplorable a
 condition at such a critical time.

The schools ought to abolish
 geography until the maps settle
 down.—Clement Press. Would
 you abolish history until it's all
 written.—Times Union. Might as
 well quit arithmetic until congress
 quits talking in billions.—Fort
 Worth News Press. If arithmetic
 counts heavy and catch up with
 congress appropriations will
 have to be figured by calculus.

Central Florida should feel
 proud of the movie, "Over
 Miami." Although the picture
 plot revolves around
 rather scandalous goings-on
 in the gold coast, the picture
 had to come to Central
 Florida to Cyprus Gardens and
 Springs, particularly, for
 best shots.

Florida has recently been warned
 by the United States, Britain and
 France to discontinue her aggres-
 sive policy. If she now strikes a
 blow, Singapore, the
 East Indies or the Philip-
 pines will have all three
 against her. If an air fight
 is declared against her,
 she will have nobody to
 help herself. She can't say
 she hasn't been warned.

Overbrook makes no
 sense wanting the U. S.
 to leave. He thinks the Amer-
 ican flag is not in the world
 and he is a fool. He also
 thinks that production would
 be increased if we
 were at war. And
 things, he says,
 are going to be
 different.

Overbrook has
 been making a
 lot of noise.

Gasoline Rationing

That no great hardship will be worked upon Florida during the winter tourist and agricultural season as a result of federal gasoline rationing was indicated today when Senator Pepper and Governor Holland revealed plans which take into consideration conditions peculiar to this state. Here gasoline will probably be rationed on a seasonal basis instead of July sales as will be the case in the rest of the eastern seaboard.

One filling station operator told us the other day that in July of last year he had sold only a little over a thousand gallons of gasoline. If the rationing plans as proposed by Secretary Ickes had been in effect then, that would have meant that he could have sold less than a thousand gallons each month for the remainder of the year and throughout the winter. As a matter of fact he actually sold up to 12,000 gallons by December and as high as 14,000 gallons during the winter.

While the fluctuation in this filling station's business may be exceptional, nevertheless the trend is generally the same with all of them. Almost any filling station will sell two or three times as much gasoline in winter as in summer. This is due not only to the fact that many of our citizens leave the state in the summer for their vacations, but also to the large number of tourists who come here in winter and to the fact that the greatest amount of production, industrial as well as agricultural, takes place during the winter.

In the case of this particular filling station, last year it sold approximately 100,000 gallons of gasoline. If the Ickes' rationing plan had been in effect, it would have been permitted to sell less than 20,000 gallons, a cut of 80 percent in its actual sales. Filling stations in the north are being asked to reduce their sales by no more than ten percent, and even this is considered by some to be excessive.

What this would mean to the State of Florida in loss of revenue from gasoline taxes is shown by the fact that on the sales of this one filling station the State would have lost no less than \$6,000. What would the loss to the State be from all the filling stations in Florida? What would be the effect upon the school funds? Where would the money come from with which to pay our school teachers?

Obviously such a condition could not be permitted to exist. Senator Pepper and Governor Holland are right in going to bat on the problem now. Undoubtedly this is something which had never occurred to Secretary Ickes when he devised his rationing plan. It is encouraging to learn that something may be expected to be done about it in the very near future.

A Warning To Tax Bodies

The fate of the Gilchrist County tax roll millage levy at the hands of Comptroller Lee should serve as a warning to county commissions throughout Florida that the new tax laws mean what they say and the Comptroller means to hold tax-making bodies to the letter of the law. Gilchrist County's roll was the first to reach the Comptroller's office. It was returned to the Gilchrist Commission with a letter from Comptroller Lee stating that he Commission had failed to track the law, which requires that tax millage shall descend in measure as assessment rolls are increased. The Commission had levied a total of twenty-one mills. Colonel Lee ordered that this be cut to eighteen mills. The County Commission may not like that but it will have to do as ordered.—Bradenton Herald.

"Not A Shot"

Not a shot has been fired by the U. S. Navy in carrying out the President's order to keep the sea lanes clear to Iceland, says Navy Secretary Frank Knox. Rumors, which have become almost popular belief, have been current in the East that navy airplanes have been taking pot shots at Nazi submarines. Mr. Knox's statement was aimed at these rumors. "Not a shot" has been fired. We'll take the word of the Navy Secretary for that. After the meeting of Mr. Roosevelt and Mr. Churchill at sea we wonder how long Mr. Knox can make that boast.—Miami Herald.

THE UNITED STATES Circuit Court of Appeals in New Orleans, dealing with a wage and hour case, has observed that the time necessary for newspaper editors and newsgatherers to work is "very unpredictable." And the Christian Science Monitor adds that the court has taken judicial notice of a point on which newspapermen's wives long ago could have furnished expert testimony.—Titusville Star-Advocate.

WASHINGTON DAYBOOK
 By JACK STINNETT

WASHINGTON, Aug. 28.—(P)
 As the world unconquered by Hitler shrinks, the diplomatic world in Washington expands. Not only that but the Russians have taken over another sprawling old mansion on Military Road, just off Rock Creek park, and it too is brimming with activity as well as rattling with a couple of radio towers that stretch skyward to bring the latest news and diplomatic code from Moscow.

It is ordinarily a quiet, sleepy neighborhood, but not any more. Stopping in at a little house a few hundred yards away, I was informed by the "landlady" that she would like to ask me if that all her rooms were occupied and in order to take care of the tourist boom, she had established her own quarters in the basement.

But the increases in the Russian, Norwegian, Greek, Albanian, Chinese, French and other delegations are only a drop in the bucket compared to a Great Power.

British employees, both American and British, now working in the Chinese, and in the French, and in the Japanese, and in the International Agency, and in the United Nations, and in the various

PLEASE TO EXCUSE AGAIN, YES?

Six Midgets Get Roles In Defense Of Their Country

CORAL GABLES, Aug. 28.—(P)
 Six Russian-born midgets, retired troopers who reside in a settlement of doll-like houses on the fringe of the Everglades, have been assigned roles in the defense of the United States. Their tiny settlement has been designated as an observation post in the nation-wide air raid warning system. Proud of the duty assigned them, the midgets, especially demonstrate how they could perform.

John Welkanoff, 48-year-old lack-of-an-iron, grabbed a midget's arm and binoculars, and said: "Two turkey buzzards flying

They landed at San Francisco in 1931, toured this country with carnivals and sideshows, and were naturalized in 1933. The other small people are Mrs. Anna Sanderlin, 44—whose husband is naturalized; Basil Pillin, 48; his sister, Miss Mary Pillina, 45; and Miss Paula Valikanova, John's sister. The Normal-sized persons in the

service officials from London have been brought over to supervise. I have counted six different commissions and agencies now representing Great Britain here. Long ago, the huge British Embassy on Massachusetts Avenue was filled to overflowing and when the British Purchasing Commission dumped its duffel here, they had to take over floors in the Willard Hotel. That lasted less than a fortnight. Official Washington had hardly caught its breath before the British took over the swank apartment house where the late Andrew Mellon once lived.

Since then, it has been touch and go and the English now are scattered through half a dozen other buildings.

Oddly enough, all of this vast expansion in the diplomatic corps has been attended by a great decline in diplomatic social activity. In the first place, the folks from abroad are too grimly busy. In the second, it's too difficult to tell whether the friend of today might be the enemy of tomorrow—or vice versa.

WHITE CAPTIVE!

Mary Tamm Honored With Linen Shower

Miss Mary Tamm, whose marriage to Robert Washburn will be an event of the early Fall, was honored at a linen shower given by Mrs. H. M. Hamby Tuesday evening at her home on Myrtle Avenue.
The party rooms of Mrs. Hamby's home were attractively decorated with arrangements of pink roses, asters and zinnias, and Miss Tamm was presented the shower gifts from the dining-room table which was overlaid with a lace cloth and centered with a shower arrangement of sweetheart roses.
The color motif of pink and white was accentuated by the hostess in refreshments of a sweet course. Mrs. Hamby was assisted in serving by Mrs. R. A. Cameron, Jr.
The hostess's gift to the bride-elect was a set of bath towels. Prizes for bridge and Chinese checkers were given to the following: Mrs. R. A. Cameron, Jr. for high score at bridge; Mrs. Henry Richter, for screens; and Mrs. E. B. Taylor, for high score at Chinese Checkers.
Those invited were: Miss Tamm, honor guest, Mrs. Frank Meisch, Mrs. H. B. Bone, Mrs. R. A. Cameron, Sr., Mrs. Lena Perzold, Mrs. R. A. Cameron, Jr., Mrs. R. E. Roumillat, Mrs. E. B. Taylor, Mrs. Julia Ludwig, Mrs. J. E. Gradick, Mrs. Henry Richter, Mrs. C. T. Estes, Mrs. Mary Church, Mrs. H. N. Tamm, Mrs. R. B. Wright, Mrs. Ellen Hoy, Mrs. Luella G. Washburn, Mrs. J. A. Peckham, Mrs. W. R. Edenfield, Mrs. L. M. Leinhardt, Miss Freida Grefe and Miss Aranka Takach.

Marian Estridge Is Given Party

Miss Marian Estridge, Sanford bride-elect, was honored at a party given in Orlando last evening by the Misses Betty Browning and Isabel Duncanson at the home of the latter on Woodward Avenue in Orlando.
Bridal and other games were enjoyed during the evening and refreshments of hors d'oeuvres, sandwiches and coca-cola were served by the hostesses.
Miss Estridge's gift from the hostesses, a bouillon spoon of her chosen silver pattern was presented in a novel way, the honor guest being the recipient of a treasure hunt of the reception rooms by various card directions presented her.
The guests were: the Misses Jane Sharon, Doris Hall, Lenora Wheldon, Margaret Bell, Mrs. H. B. Odham, Jr., and Mrs. Herbert Meares, all of Sanford; Miss Margaret Vernay of Washington, D. C.; Miss Betty Wynn of Miami; and the Misses Jane Powell, Ann Dickson, Ruth Elvey, Mrs. Mercer Henry, and Mrs. Keene Lamborn of Orlando.
A booklet issued by the Department of Commerce outlines purchasing procedures employed by Government agencies.

Personals

Miss Jane Sharon returned Tuesday from Jacksonville where she has spent the summer visiting relatives.

Mr. and Mrs. H. N. Tamm have as their guests for a few days, Mrs. Freida Grefe, and her father, Harry Grefe, of Savannah.

Friends of W. C. Hill will be glad to know that he is able to be out after being ill for several days.

Miss Olive Chapman Will Give Recital

Miss Olive Chapman will be presented in her graduation recital by her teacher, Mrs. Frances A. Hickson, on Friday, Aug. 29, at 8:00 P. M. at Mrs. Hickson's studio at 1119 Myrtle Avenue.
Miss Chapman will be assisted on the program by Miss Grace Schree, soprano; Miss Mahe Chapman, flutist; and Miss Virginia Chapman, violinist.
The numbers rendered will include selections from Beethoven, Bach, Rachmaninoff, Debussy, Grieger and Spengler.
Friends are invited to attend.

Boom In Crabmeat Canning Is Seen

BRADENTON, Aug. 28.—(Special)—Predicting that President Roosevelt's recent order increasing import duties on Japanese canned crabmeat will open a new industry in Florida, Congressman Peterson Wednesday called upon fishery interests of that Atlantic Gulf coast to organize for conservation and perpetuation of the industry.
Peterson, who was one of those working for higher tariff protection, said new capital investment is coming into Florida with plans announced for a new fishing boat plant at Apalachicola. He predicted other new plants would come there as a result of the new plant in operation at Seaside Island, near Tallahassee.

BOATS TO BE OPENED

Books And Authors

By MRS. IRVING FEINBERG

China, though its undesired association with Japan, is considerably in the news these days and the American public, as a rule, wishes to read good books about China and the present condition of affairs there...

The story is of the former Ling Tan, and his wife and sons and daughters. The scene is outside and inside the walls of Nanking, the capital city where the author lived for seventeen years.

Summer sun and wind play havoc with hair and skin and hands! Your beauty deserves the care that our operators are able to give it.

AND AVIATION
THE IRVING THRENTON

Though its intended audience is the general public, as a rule, the most interesting and best of the present condition of aviation is that it is a source of information printed in the most interesting and of the most interesting kind. And of the most interesting kind to gather information and news in the most interesting way to take it in the most interesting way. Large numbers of people will be interested in looking forward to the publication of this volume of two volumes in this category.

"A Leaf in The Storm", by Irving Threnton, is the first novel of China in the present series. First, Threnton writes about the mood and vein of the "Great Earth" and "The Great People". Like these two classic novels, this one has a plot of plain, simple, and direct to the point, but it is a well told story by the author.

The story is of the former of the two and his wife and son, who are in the city of Hankow and inside the walls of Hankow. The city is a city where the people have been for seventeen years. The story begins just before the fall and runs of the city, the life and the people under

sun and wind have with hair and skin and hand. Our beauty deserves the care that our shop is able to give it.

the heels of a beastly master who rules but cannot conquer. Many books have been written about "Free China", where the gallant battle goes on. This is the first novel of the occupied regions.

Georgina, ardent boy and girl students, the merchant who stays to do business with the enemy, the young and strong who run away to fight, the peasants forced to grow opium, soldiers, puppet officials, courtesans - scores of

moving picture shows the pattern of the novel not that of war, but that of the lives of people going on in their several ways, whatever the odds may seem. At its core lie the deep, stubborn thoughts on the madness of those who make war, driven by a shrewd common sense out of his long acquaintance with the large simplicities of earth and sky and human destiny.

"A Leaf in The Storm", the second novel by the great Chinese author, Liu Tsing, begins where his "Museum in Peking" left off, soon after the outbreak of the war in China. Not a novel, it does however carry forward the lives of some of the characters we came to know in the previous story. Pura is the face of this new tale, which covers about his romance with the beautiful and mysterious Maria. The author

will include a history of the African colony, as well as the complete analysis of its present importance in world politics, and a forecast of likely developments in that part of the world. The final chapter will deal with other danger spots in the same part of the world.

In order to save time and the production of "Duke" the publishers are sending the manuscript to the printer during the chapter. The present schedule calls for Mr. Langford to finish the manuscript by September 10th and for actual copies of the book to be on sale on the 15th of October.

A contract has been signed with the British Book Co. for the publication of her novel, "The Earth, which is this year's of the Avery Howard Award, conducted by the University of Wisconsin, for the best novel published in 1934.

"Museum in Peking" is the author's first book, but there is resemblance to the "Museum in Peking" novel, which is the story of a girl of Peking, and her life in the city.

Miss Hsu is a native of the State New York and a graduate of the University of Chicago. With the war she has been in the United States, and has been around the world. Her novel is a story of a girl in Peking, and her life in the city.

One of the most interesting and best of the present condition of aviation is that it is a source of information printed in the most interesting and of the most interesting kind. And of the most interesting kind to gather information and news in the most interesting way to take it in the most interesting way. Seeded Players Move Right Up In Girls' Net Meet

PHILADELPHIA, Aug. 28.—(AP)—The four top-seeded players moved into the semi-finals of the National girls' tennis championship tournament Wednesday with defending champion Louise Brown of Beverly Hills, Calif. scoring the most impressive victory.

Expenditures this year on new construction will total about 10 billion dollars, the Department of Commerce reports.

Six persons were burned to death and a seventh died on the way to the hospital when this Albany-New York bus crashed into three cars at Saddle River, N. J., and burst into flames. Thirty-three passengers on the bus escaped, but six persons, including a mother and her baby, were trapped in one of the burning cars. The seventh person died of injuries sustained when he was hurled from his machine by the impact. The cars were stopped at a traffic light.

Romping Home Cops Feature At Saratoga

SARATOGA SPRINGS, N. Y., Aug. 28.—(AP)—William Ziegler Jr.'s Romping Home won her second stake of the Saratoga meeting Wednesday by romping home with the 39th running of the Adirondack handicap for two-year-old fillies by a length. The chestnut, who boasts the

blood lines of Espino, favorite of Ziegler's breeding theories, caught the leaders at the eighth pole and came bounding in under Johnny London's stretch urging, while Breckinridge Long's Equipt and P. M. Burch's Horn chased her to the wire.

First favorite of the day to click, Romping Home covered the six furlongs of dried out going in 1:13 3-5.

THIS YEAR? By Jack Sord

RAY WAS TWICE RUNNER UP IN THE AMATEUR BILLIARDS... MAYBE THIS IS MY YEAR!

Stetson Coach Directs Several Teams This Year

DELAND, Aug. 28.—(Special) Coach Brady Gowalt, who is signing accepted the position of professor of health and physical education and director of men's intramurals at Stetson University, announced here today that a completed program for intramural athletics is a readiness for the Stetson opening in September. The collegiate football mentor, when 17 years of active coaching experience ended last Spring with Stetson's abandonment of the inter-collegiate sport, is preparing here for a season that will find a host of teams under his direction instead of one.

Under the former grid mentor's supervision and with the assistance of Carl "Doc" Johnson, intramural intramurals for Stetson men, a schedule including eleven separate sports has been outlined for the 1941-42 season. Intramural athletics always has been Cowart's energetic sideline and the popular coach said here today, "One would be foolish to think that I will not feel a loss in my own life when a football team is concerned, but I do feel that there are necessary compensations in directing an intramural schedule such as we are outlining for the season."

Seniors To Carry Load For Gator Pipskin Crew

GAINESVILLE, Aug. 28.—(Special)—It's no secret that Tom Lieb is counting heavily on his seniors to play good football this fall.

Most of the gridiron success of the "Fighting Gators" over the 1941 season hinges on the performance of some 13 members of the squad who have had two campaigns in varsity experience to their credit.

Florida - Georgia Cattle Sale To Be Staged Soon

GAINESVILLE, Aug. 28 (Special)—Florida dairymen will have an opportunity to purchase 27 females either fresh or about ready to fresh when the Florida-Georgia Guernsey sale is staged at Lake City, Sept. 23, according to Hamilton L. Brown, dairyman with the State Agricultural Extension Service and secretary of the Florida Guernsey Cattle Club. Since there is a big demand for milk in the state now, it is anticipated that the offerings will be eagerly taken.

These females and three registered Guernsey bulls have been selected from the best Guernsey herds in the Carolinas, Georgia and Florida. Brown is interested in seeing more good dairy animals come to Florida herds, and hopes that most of these will be bought by Florida dairymen.

The sale will begin at 1:00 p. m. and will be held at the State farm warehouse on the Valdosta highway just out of Lake City. The Georgia Guernsey Cattle Club, Gainesville, Lake City Chamber of Commerce and Florida Brown are cooperating in staging the auction.

Tom McCord of Montgomery will be the auctioneer.

TAKE AIR COURSE

SAN ANGELO, Tex., Aug. 28 (AP)—Three Floridians are taking the air corps' intermediate six-weeks basic training course at Goodfellow field here. They are Joel M. DeValentine of Coral Gables, Arthur H. James of Miami and Murray M. Schott of Daytona Beach.
