LIBRARY ASSOCIATION HOLDS THEIR ANNUAL MEETING ELECTS OFFICERS FOR YEAR

Association Doing Great Work Here

BUY NEW BOOKS

HAVE BEEN ADDED AND SANFORD LIBRARY IS ASSET TO THE CITY

The annual meeting of the Sanford Library Association was held on Feb. 6th in the library room.

The following were elected as trustees for the year, S. O. Chase, L. R. Phillips, B. F. Whitner, Rev. Charles Brower.

Rev. A. S. Peck was re-elected president, Mrs. C. Brower as vice-president, Mrs. D. A. Kelly secretary and A. R. Key treasurer. Mrs. A. D. Kelly was appointed as Librarian for the coming year.

The treasurer's report for past year was encouraging, showing a steady increase in funds, which before many months will be sufficiently large to allow the erection of a library building.

For a small library with no financial help from the city and only one gift of ten dollars to swell the fund for current expenses and books, the report of Librarian was equally gratifying. Through purchase 234 vols. were added during the year, 19 of the best magazines published were subscribed for, at a cost of \$1500 to the library. In addition to these donations sent in from time to time donations of one and more volumes and magazines, for which the association and patrons feel grateful.

The non-fiction card which is now given to every holder of a borrower's card (with no additional expense to the borrower) is a move for increased usefulness on the part of the library. Children especially are urged to carry home their two books, we, knowing that they will soon find out for themselves that stories of real people and real things are as interesting and sometimes prove as exciting as Oz book or Robinson Crusoe.

In the following list are books of biography, some history and travel and other classifications that have been added during the year.

Junior
Mustafa, Egyptian Boy, Light-foot; Dogwood, Mabel O. Wright; Henry Ford's Own Story, Rose Lane, Real Story of a Real Boy, Henry Shute; Hope—The Child-Dwellers, Martha Jewell; Nature Myths and Stories, Flora Cook; Story of King Arthur, Mara Pratt; Jean of Arc, Kate Carpenter; Legends of Nonesuch, Mara L. Pratt; Bear Stories, Carter; Myths from Many Lands, Eva Tappan; Stories from the Classics: Legendary Heroes; Stories and Poems; Adventures and Achievements; Poems and Rymes; Stories of Nature; Sports and Pastimes; Modern Triumphs; Wonders of Science; Out-of-door Book.

The last ten volumes are part of a set published under "How to Teach Children Through Stories" and as edited by Eva Tappan are highly recommended by parents and teachers.

The Girls of Dickens, Anon; Child's Story of the Bible, Anon; Life of the Caterpillar, Henn Taber; Days of Alfred the Great, Eva Dyer; Magellan, Ober; Pizarro or Conquest of Peru, Ober; DeSota, or Invasion of Florida, Ober.

Non-fiction for older readers—
"Home Life in Germany, Mrs. Sidwick; Naval History of United States (2 vol) by Willis J. Abbott; Clemenceau, H. M. Hyndman; Autobiography, Marion Harland; Poland of Today and Tomorrow, Nevin O. Winter; Memories and Daily, Samuel Pepys; Autobiography, Anthony Trollope; James Fenimore Cooper, Charles Dudley Warner; Charlotte Bronte, T. W. Reid; Murillo, M. F. Sweetser; Titian, M. F. Sweetser; Durer, Sweetser; Autobiography, (2 vol.) Lew Wallace; Florida-Land of Enchantment, by Nevin O. Win-

ter; My War Diary, Mary King Waddington; Gunner Depew, Albert Depe; Poems (2 vol.) Thomas B. Aldrich; The Alligator and Its Allies Reese; Belgium, Land of Art, W. E. Griffin; Rubalyal, Omar Khayyam; Mental Suggestion, Lring Batten; A Cathedral Pilgrimage, Julia C. H. Dorr;

Three interesting Dramas:
1. The Melting Pot by Israel Zangwill; 2. The Servant in the House by Charles Kennedy; 3. Everywoman, Morality Play.

Common Sense, How to Exercise It, Yorotomo-Tashi; Influence-How to Exert It, Yorotomo-Tashi; Persistence-How to Develop It, H. Bessor; Character-How to strengthen it-D. Starke; Practicality-How to acquire it R. Nicolle.

Before the adjournment of the annual meeting a motion of thanks was carried and ordered printed. "To the friends who contributed money, books, magazines and services, especially the ladies who assisted the president and librarian in the total work of cataloging and exchanging books; and also the City Utilities Company for the year's lighting of library room."

M. E. KEY Librarian.

SUFFRAGE AMENDMENT IMPORTANT

QUESTION IN WEST VIRGINIA LEGISLATURE SPECIAL SESSION

Charleston, W. Va., Feb. 27 (By Associated Press) The ratification of the suffrage amendment is the most important question taken up by the West Virginia legislature which began a special session today.

RAILROAD STRIKE ON IN FRANCE

WILL TIE UP ALL SUBURBAN TRAFFIC IN PARIS

Paris Feb. 27 (By Associated Press) Railroad men at the Eastern station struck here this morning and the strike became worse in the Northern station. Railroad service to suburban points is still further diminished. The cabinet decided today to seek legislation authorizing the requisition of automobiles.

TO STUDY BOLSHEVIKS.

Strasburg Form Commission For That Purpose

Strasburg Feb. 27 (By Associated Press) Proposals for the establishment of a commission of the theoretical and technical experts to study the "realization of the proletarian republic of soviet" has been laid before the National Socialist Congress in session here.

Schools To Re-Open Next Monday March 1st.

All of the Sanford schools will re-open next Monday, March 1st, at the usual time, unless further notice is given.

T. W. LAWTON, Supt.

FAMINE IN FALSE TEETH REPORTED

FALSE TEETH WORKERS STRIKE FOR HIGHER WAGES IN NEW YORK

New York City, Feb. 27 (By Associated Press) The city faced the possibility of a false teeth famine today when five hundred members of the Dental Workers Industrial Union struck for higher wages and shorter hours.

BOLSHEVIK ADVANCES ON CHINA

NORTHEASTERN TURKESTAN AND DEMAND RUSSIAN CONSUL

London, Feb. 27 (By Associated Press) Russian Bolsheviki forces advanced to the Chinese frontier in northeastern Turkestan and it is reported demanded that the Chinese governor of the Sin Kiang province give up the Russian consul and all the refugees and allow the appointment of Bolsheviki consuls. They threatened to occupy Sin Kiang if the governor does not comply.

SANFORD IS BUILDING MANY FINE HOMES AND BUSINESS BLOCKS CITED

The Pico Block Will Be Most Modern Building

SEVERAL NEW HOMES

AND NEW GARAGE TO BE STARTED IN NEXT FEW WEEKS

In keeping with the progressive spirit of Florida Sanford is forging ahead as never before and property is changing hands daily many great improvements being made and not only new buildings being erected but in the business portion of the city especially the older brick buildings are being remodelled and being made into up to date and modern office and apartment and business blocks. The new Valdez Hotel was the first building to be made into one of the finest and most up to date buildings in the state and this was such a wonderful transformation that one of the men responsible for it in the person of E. A. Douglass looked around for more worlds to conquer and found the Pico building waiting the magic touch of the contractor's hand and together with Roy Symes purchased this block that fronts on First street and extends 117 feet back on Railway Way to Commercial street. A small army of men under the supervision of C. T. Hollman are now busy remodeling this block. The second floor will be made into apartments making 21 apartments that will be modern in every respect and contain all the up to date wrinkles in compactness and convenience and will be the last word in apartment life. The first floors are also being made over in up to date store buildings and the work is expected to be finished about June first. The entire exterior of the building will receive the stucco finish and when finished will be one of the finest buildings in the state in equipment and in appearance. The owners Messrs. Symes and Douglass will spend about \$40,000 in repairs. In the residence section many new homes are being built or are contemplated for the spring building boom. Among these contracted for are two bungalows for immediate occupancy. One is for George Huff at the corner of Second street and Laurel avenue and another one is for John Abrams on Sanford Heights. Still another on which work has already started is for F. E. Roumillat on Palmetto avenue. Price & Collier are the contractors.

There will be at least twenty-five homes built during the summer months as the prospective purchasers are now looking for locations. Among the real estate deals today are that of the purchase of the Crowder home on Park avenue by Dr. Langley one of the most desirable homes on this fine residence street.

The Cook Auto Co., of Orlando has purchased from T. E. Wilson forty feet on the lot between the Wilson building and the Harrold building on Park Ave on which an up to date brick garage will be erected for W. J. Thigren the local agent of the Buick cars. This building will be 117 feet long and will be modern in every respect.

SYMPHONY ORCHESTRA UNIONIZED

UNLESS THEY CAN BE RECOGNIZED THEY WILL FORM NEW UNION

Boston Feb. 27 (By Associated Press) Unless the Boston Symphony Orchestra players are recognized by the union they will form an orchestra themselves under union affiliation according to a statement by the committee of players today. Ninety per cent of the members have joined the union and financial backing for the proposed new orchestra has been offered it is said.

Card of Thanks

For the many kindnesses and acts of friendship shown us during the recent illness and death of our little son and for the beautiful floral remembrances, we extend our warmest thanks and appreciation. Mr. and Mrs. B. G. Methvin

RADICALS ROUNDED UP AGAIN

CLEVELAND REDS RAIDED AND WILL BE DEPORTED

Cleveland Feb. 27 (By Associated Press) Ten alleged radicals were arrested today in raids by the Federal agents marking a renewal of the government's fight to stamp out radicalism and send the agitators to their native lands. Several wagon loads of radical literature were taken.

Weather Report

For Florida fair tonight killing frost in north, light to heavy in central portion and light frost about the 27th parallel. Saturday fair with rising temperature. Gentle north winds becoming east Saturday.

THE CITY COMMISSIONERS GIVE SOUTHERN UTILITIES COMPANY SIXTY DAYS GRACE

Must Get Beer And Wine

Washington, Feb. 21.—Amendment of the Volstead prohibition enforcement act so as to permit the states by referendum, to authorize sale of 2.75 per cent beer and 10 per cent wine was proposed in a bill introduced today by Representative Minahan democrat, New Jersey.

"My bill," said Mr. Minahan, "merely provides for a sane, reasonable, and logical method of enforcing the prohibition constitutional amendment.

SAVE CHILDREN CONGRESS

Held In Geneva Has 29 Countries Represented

Geneva, Feb. 27 (By Associated Press) Twenty countries were represented at the "save children" Congress in session here. Farmer Murphy was the American delegate and German representatives predominated.

OFFICIAL CIRCLES STIRRED

OVER THE REPLY FORTHCOMING TO WILSON NOTE TO ALLIES

Washington Feb. 27 (By Associated Press) Official circles awaited with much interest the reply of the British and French premiers to the president's latest Adriatic note. The response is due tonight or tomorrow.

Washington—The reply will not be made public until after the president has had an opportunity to study it.

AMERICA AND FRANCE TO COMPETE

IN AERO INTERNATIONAL AVIATION CONTEST IN SEPTEMBER

New York Feb. 27 (By Associated Press) The Aero Club of America today challenged the Aero Club of France for an international aviation trophy which will be contested in France in September. Three American entries have been received. The United States won two out of five international contests before the war.

BELGIANS BUY SHIPS

Said To Have Purchased Ten Ships From America

New York Feb. 27 (By Associated Press) Purchase of ten three thousand ton steel steamships from the United States Shipping Board is announced by Lloyds Royal Belge of Antwerp.

Dinner Party

Mr. and Mrs. W. S. Thornton delightfully entertained at a dinner party Wednesday evening in honor of Mr. D. S. Babbitt's birthday. Covers were laid for six. The table was beautifully decorated and the center held the large birthday cake which was an eye of beauty. There being one—Well when a man passes a certain mark in life—there usually remains only one candle, to be seen.

The Sun Dance committee received one thousand dollars from the Krause carnival, which played one week's engagement in Palm Beach for the benefit of the dance.

Must Get Plant Ready By That Time Or Else

PEOPLE WAKING UP

COMMISSIONERS COULD HAVE DONE THIS SIXTY DAYS AGO AVOIDING MUCH TROUBLE

The City Commissioners are beginning to realize that the people of Sanford will not stand for any more foolishness from the Southern Utilities Co., and they have sent the following letter to that company which listens well but it should have been sent the first week in January and we would have results now. However it demonstrates that the City Commissioners are waking up. Following is the letter:

Feb. 25, 1920
Southern Utilities Company
Sanford and Palatka, Florida.
Gentlemen:

You are of course familiar with the unsatisfactory service that your Company is furnishing the City and citizens of Sanford.

You must realize that proper and dependable electric service cannot be furnished until a new unit is installed. For the past five days the citizens have been entirely without electric current, twice without gas and water—in view of these aggravated conditions the City Commission demands immediate action, and definite advice as regards new installations your Company contemplates.

Time is the essence of this communication. Unless within sixty days from this date your Company furnishes satisfactory service to the City and the citizens of Sanford, in accordance with your contract and franchise that you now hold, we will take such legal steps as may be necessary to cancel your contract and to set aside, annul and revoke the franchise under which you operate in the City of Sanford, and to do whatever else may be necessary for the proper protection of our City.

We sincerely trust that by diligent effort such progress may be made by you in your construction and new installation work, and satisfactory service furnished so that it may not be necessary for us to pursue the legal remedies as indicated in this letter.

DOMESTIC QUESTIONS IN TREATY

RESERVATIONS WILL BE CONSIDERED BY THE SENATE TODAY

Washington Feb. 27 (By Associated Press) Domestic questions in the reservations in the peace treaty will be considered today in the Senate following the adoption yesterday of the reservation regarding the man-datories.

BRITISH PLANES LOST

Think They Have Fallen Into Irish Sea

London Feb. 27 (By Associated Press) Three British aeroplanes which left for Dublin Saturday on a three hour trip are missing. The aeroplanes are believed to be one of the three that were seen to fall into the sea.

Fire At Miami

Miami, Fla. Feb. 21.—Twenty thousand dollars damage was done a fire which early this morning destroyed one of the view from buildings in the business district. Plans have been made for erecting on the site a 12-story building for the First National Bank.

SANFORD BALL CLUB MEETING

Will Put First-Class Team in Field

DeCOTTES PRESIDENT

PROMISES SOME REAL BASE BALL AGAIN THIS SEASON

Friday morning the Base Ball Club met at the office of Geo. DeCottes, at which time officers for the coming season were elected and plan for a real base ball club were gone over. This meeting was well attended and it was the unanimous feeling of the entire crowd that Sanford again be represented in the Florida State League for this coming season.

The season opens May 15th. It is the intentions of the organization that by May 1st the 1920 team will be on the ground for two weeks of training and practice so that they will all be in first class shape at the time the cutin goes up.

Last year the Club was backed up strong by the fans and there is no doubt but what it will be repeated this year. This, together with the fact that Sanford always was known as a real Base Ball town, assures the new organization that the club this year will be a success, financially and otherwise.

The brand of Base Ball to be turned out this year is of the kind that will gladden the hearts of the fans. No squabbling or quibbling, just clean base ball, and already contracts have been mailed to the old players, as well as to new players expected to play here. In a few days the name of the manager for this season will be known, and taking all in all, after this season has passed and Sanford has again won the pennant, no one can question our right to it—not even Orlando.

The following officers and directors were elected: Geo. A. DeCottes, president, Arthur Yowell, Vice-President, C. L. Britt, Sec'y-Treas., and DeCottes, Yowell, Britt, Spencer, Henry, Householder, Stevens, Lake Bower, Melch, McCuller, Newman and Davison directors.

THE BALL HARDWARE COMPANY

DOLLAR IS NOW WORTH 43 CENTS

PURCHASING POWER SHRINKS MORE THAN HALF IN SIX YEARS

Washington, Feb. 19.—The man with an income of \$2,000 is now actually drawing \$870, upon the basis of dollar value in 1913. This startling fact is brought out plainly in a statement to congress today by Harold N. Lawrie, a nationally known economist for the American Mining Congress. The purchasing value of the ounce of gold which, under statute cannot bring more than \$20.67 has, Mr. Lawrie shows, shurken through inflation of currency until it is no longer possible for gold to be profitably produced. The expansion of the national credit has lowered the purchasing power of a dollar through increasing all commodity prices. Based upon the pre-war prices of 1913, these prices gradually advanced from 100 per cent in 1913 to 223 in October 1919. Each increase in credits has been absorbed by a corresponding increase in commodity prices and has resulted in placing the nation upon an artificial plane of living. The gold producer finds the actual purchasing power of his ounce of gold is now \$9.00 instead of \$20.67.

Gold mines of the United States are being closed down at an alarming rate. Many of these can never be reopened owing to prohibitive costs of re-timbering and unwatering. Cripple Creek the greatest American gold camp is taking on the appearance of a city of dead hopes. Great drainage tunnels, monster underground workings, vast areas of expensively constructed plants, whole cities of homes are being deserted and thousands of skilled miners are being forced to seek new camps because gold—the basic monetary metal of the United States—can not be longer produced at a profit.

DIED AT MONROE

Henry Miles died at his home at Lake Monroe, Sunday morning after a lingering illness of Bright disease and other complications. The funeral will be conducted from the Catholic Church Tuesday morning after which the body will be sent to his old home in Kentucky where it will be interred by the side of his wife who preceded him to the grave nine years ago.

Deceased was one of our most popular citizens. For the past six years he had been in partnership with Mr. J. E. Pace and was found honest and faithful in the discharge of his duties. He was noted for his great generosity and his kindness of heart and his untimely death has come as a great shock to our community where he numbered every man, woman, and child as his friend.

William Henry Miles was born at Bradstown, Ky., Sept. 28, 1872, a son of the late H. A. Miles, one of the pioneer settlers of that state. He was educated at St. Joseph College at the same place and Dec. 31, 1896, married Miss Mary Emma Wilson. Six children were born of this union, five of whom are living. They are Mary, Linda, Henry, Philip and William Miles. He is also survived by his mother Mrs. Eliza Miles, and the following sisters: Mrs. Peter Ahern of Ft. Pierce, Fla.; Mrs. Frank Papalardo, of Ashville, N. C.; Mrs. Hunley Rodgers and Miss Lilly Miles, of Louisville, Kentucky.

CLOSED FOR ANOTHER WEEK

All public Gatherings Toboed by Mayor's Orders

The churches, Schools, Theaters, and other Public gatherings places are ordered to remain closed for another week.

All public meetings, conventions, entertainments, lectures and parties should be postponed until March 1st or after, due to the prevalence of the epidemic.

By order of H. R. STEVENS, Mayor, Sanford, Fla.

MILITARY TRAINING APPROVED

Reorganization Bill Will Contain the Clause

GENERAL TRAINING

SHARP DEBATE AND VARIED OPINIONS AMONG THE MEMBERS

Washington, Feb. 23. The principle of universal military training as a part of the nation's future military policy was approved today by the house military committee by a vote of 11 to 9.

This means that the committee's army reorganization bill will contain a general training provision. Details have not yet been worked out, but it was decided that the training proposal would become effective on July 22 1922.

Final action by the committee followed a three-hour executive session in which debate at times became very sharp. So varied were opinions as to the details of the plan, even among its supporters that none were worked out.

The preponderant view of the supporters however, were said to have favored the training of all youths of 19 years for a period of three or four months.

Finally the committee decided that the details would be left to a sub-committee, composed of Representatives Kahn, Anthony, McKenzie, Greene, Dent, Fields and Caldwell.

By its actions the committee revived the universal training question apparently dead since the recent democratic cause went on record as opposed to any training plan. The committee action made certain that the training fight would be carried into the house, as well as into the senate.

Bank Has Special Right

There is only one national bank in the United States which does not have "National" as a part of its name. It is the Bank of North America, in Philadelphia. A special act of congress is required to permit a national bank to operate as such without indicating the fact that it is a national bank in its name.

No Shoes for Traveling

A few of my friends and I went to a station nearby to camp and pick blueberries. On the first day, while travelling through some swamp land our feet became wet. That night I built a fire and placed my shoes and socks on a log near the fire, intending to watch them until they dried. I fell asleep and my footwear burned. The next day I went home on the train barefooted, to the amusement of all the passengers.—Chicago Tribune.

Oldest Law School

England today has no law school in existence. Harvard's Law school is not only the oldest existing law school in the United States, but it is the oldest existing academic law school in the English-speaking world. They have a professor of law at Cambridge and a professor of law at Oxford, in England, but they do not teach law in the manner of a professional school. They simply lecture upon law, or endeavor to give a scientific preparation for the profession of law, but do not give a scientific, professional training. And, more and more the tendency is to recognize that that is the ideal along with other features of instruction at Harvard, to keep up with in American law schools.

COMMISSION MANAGER FORM

Tallahassee Adopts New Form Government

Tallahassee, Feb. 19.—In the general city election held here Tuesday Messrs. A. P. McCaskill, Guyte P. McCord and J. Stuart Lewis was elected commissioners under the new commission-form of government recently adopted by the city. Mr. McCaskill received 100 of the 116 votes, Mr. McCord, 99 votes and Mr. Lewis, 64 votes. Under the provision of the new charter, Mr. McCaskill as the high man is elected for a term of three years, Mr. McCord as the next high man for the term of two years, and Mr. Lewis for one year. The city council will meet on Wednesday to officially canvass the returns and declare the result, and the new commission-manager form of government goes into active effort on Friday the twentieth.

The new commissioners, it is learned, have chosen as city manager, Mr. J. W. Greer, who has been for several years the very successful manager of Bryan, Texas. Mr. Greer was not an applicant for the position, but accepted the tender of the position by the commissioners and will arrive Wednesday with his family to take charge of the city affairs. He comes with the most glowing endorsement not only as manager of Bryan, Texas but for splendid services for twenty years previously as manager of privately owned utility plants that state, and the Commission feel that the city is very fortunate having been able to secure his services.

On Thursday evening at the Mohouse the chamber of commerce will hold a big annual rally, the principal features of the program being an address by the new city manager. Short talks will be made by other prominent citizens, and the interest man feated in the meeting assures a splendid attendance.

Picturesque New Zealand

New Zealand is a land of mountains, gorges, rivers and fjords. The higher peaks of the south island are eternal snow capped and the glaciers of its southern Alps rival those of Switzerland. The surrounding seas are too cold for corals. Among the mountains of the north island volcanic fires are still active and the geysers and hot springs are little less impressive than those of the Yellowstone park.

Not Decorative

We often think that woman sets too much store on mere appearances and she, as we always refer to her without further designation, now announces with some little bitterness that spaghetti with tomato sauce shall never again darken our threshold, merely because she does not think it looks well on one's shirt front.—Ohio State Journal.

Moosing Time for Moose

Moose drop their antlers from December 15 to January 15, as a rule, though a few aged ones may retain these ornaments until February. Old hunters say that they could go out in the woods to certain spots favored by the moose at horn-shedding time, and pick up a buckrack of fine antlers in a few days. In 30 years ago, though they have not been so plentiful of late. The moose antlers will keep for an indefinite period when housed and removed from moisture, but they fall to pieces very fast when left in the woods. Those shed in the winter remain firm until spring, but as soon as warm weather arrives a small borer gets into them and reduces them to a fine powder in a few weeks. Though thousands of antlers are dropped in the forests every winter, few hunters ever find one the next summer.

DONATION FOR HOSPITAL

Masons and Odd Fellows Come Across To Help Out Hospital.

Donations for the T. W. Lawton Memorial Hospital continue to come in, and are highly appreciated by the officers and all friends of the hospital.

This week two generous donations came from two Sanford's secret orders. The Odd Fellows handed in a check for FIFTY Dollars, and the Masons another for Thirty-Seven Dollars and fifty cents, both to be used for the purchase of furniture apparatus for the institution. Such donations are an indication of the high esteem in which the institution is held by the best people of the city and county, and the spirit that prompts these gifts is the spirit that is needed to make the hospital the success that it is bound to be.

T. W. LAWTON, President.

Cat and Rat Friendship

The strange story of the rat that made friends with a cat, is told by W. H. Hudson in his "Book of a Naturalist." The rat first thrust itself and its friendship on a village woman in Lehnst, West Co. of England. It not only greets familiar with the woman, but even with her cat, which appeared to know intuitively that it (the rat) was there as a privileged guest, while the rat, on its part, seemed to know, also by intuition, that it and nothing to fear." The friendship deepened; cat and rat seemed pleased to be together, and would even drink milk from the same saucer, and sleep bunched up together!

What Makes Corn Pop

A grain of "popcorn" is filled with tightly-packed starch grains. The inside of the grain is divided into a large number of cells each of which may be likened to a tiny box, the walls of which are sufficiently strong to withstand considerable pressure from within. Upon the application of heat the moisture present in each little box is converted into steam that finally escapes by explosion. The grain of corn thus literally turns inside out and is transformed into a large mass of snow-white starch.

Vegetable Leather

The Japanese grow a plant which furnishes a sort of vegetable leather. It is a pretty shrub called the "mitsumata," and its inner bark, after going through certain processes, is converted into a substance as tough as French kid, so transparent that one can almost see through it, and as smooth and soft as cat skin.

J. E. SPURLING

RED TAPE DON'T SUIT SOLDIERS

Boys Want Results for Disabilities

WAIT FOR YEAR

FOR PAPERS AND FILE OF CLAIMS
THAT COULD BE SETTLED
AT ONCE

The Hastings Herald tells the following story showing how the government is a stickler for a stamp.

"On January 16 a Hastings ex-soldier, suffering from injuries received in the military service, mailed to the government officials in Atlanta, who have been authorized to handle such matters, a complete file of papers setting forth his claim for a certificate of disability. On January 20 the entire file was returned to him. The envelope containing it stamped "refused." Naturally incensed at such action, he took the matter up with the authorities and in due time received the explanation. The reason why his claim had been returned was because in weighing the envelope for mailing he had made an error of a fraction of an ounce and the file was sent back because postage of an amount of two cents was due on it. The authorities explained that they have no funds or authority to pay postage and are compelled to refuse to pay same."

More than fifteen months ago another soldier boy was honorably discharged from service, after a term overseas. He was given his papers, and allowance for railroad fare to his place of enlistment, which happened to be Orlando, in this state. He bought his ticket from the government's railroad agent, paying the price, plus war tax, that the agent demanded after figuring it out. Last week he received a long formal document from the railway administration office setting forth the fact that he had bought such and such a ticket of given serial number, initials and other car-marks, and quoting section and paragraph and page of year of issue of instructions to agents, and a lot more of high impressionability language and data, and winding up in the end with the statement that the agent had miscalculated the fare and the government is thirty cents short, and is holding up settlement with its railway agent because it cannot allow him to make good that shortage since congress declares that such undercharges in fares for soldiers

must be paid by the purchaser of the ticket, and would not be please relieve the embarrassment of the agent and remove the shortage of the government by remitting at once thirty cents?

And insurance claims, and allotment checks, and insurance policies on which payment was made while in service, are still being begged for by soldier boys and their mothers and their wives and their families, and we wonder why when a boy gets out of the army he lifts his hands to heaven and says "Never again!"

Quarantine Oriental Fruit

Washington, D. C. Feb. 23.—Florida fruit growers and nurserymen who suffered through the importation of citrus canker some years ago will be particularly interested in the official announcement that a quarantine is contemplated against fruit stock from the Orient.

In order to prevent the entrance of a number of plant diseases and injurious insects from the Orient, the United States department of agriculture proposes to prohibit the importation of fruit stocks, cuttings scions and buds from Asia, Japan, the Philippine Islands and Oceania. The secretary of agriculture has called a hearing to be held in the offices of the Federal Horticultural board in Washington, at 10 o'clock, March 9, at which interested persons may be heard, either in person or by attorney. The diseases and insects that the department seeks to exclude by the quarantine include Japanese apple canker, blister blight, the rusts, the Oriental fruit moth, the pear fruit borer and the apple moth.

Noske Defends Strong "War Measures."

Berlin, Feb. 19.—Gustav Noske, minister of defense speaking at Bremen Tuesday, said that much that appears to the allies to be criminal were purely general war measures ordered by superiors which Germany never would acknowledge to be a crime. It would be premature therefore to assume that Germany would be free of any further serious difficulties and possibly reprisals. "I do not know," continued the minister, "how far differences exist between French and British."

PLENTY OF SNOW NORTH

And Sanford People Would Like to Be In Sunny Florida.

Mrs. T. S. Huff, who is in New York city, writes the Herald about her paper, and says among other things:

"We have had a dreadful winter up here. The snow is piled up for six feet. None of the surface cars have been running for two weeks now and the side streets are impassible for automobiles. We expect to return to Sanford to live next fall."

TRAMMELL SOLVES COST OF CLOTHING

FLORIDA SENATOR TELLS WASHINGTON PEOPLE HOW TO DRESS CHEAPLY

The New York Sun recently carried the following story about Senator Trammell of Florida:

"Sartorially speaking, Senator Park Trammell of Florida is perhaps the best dressed man in the senate. Possessed of a magnificent physique, he wears his clothes like a tailor's model and is the envy of all the other senators who take a pride in their dress, but who sometimes find that projecting abdomens and other things interfere to prevent their appearing at their best, even though their clothes are the finest that can be bought and are fashioned by the highest priced tailors in the highest price city in the United States.

"But even though he does put up this splendid appearance Senator Trammell probably spends less for clothes than any of his colleagues and less perhaps than some of the underpaid and underworked employes of the senate.

"Do you see this overcoat?" asked Senator Trammell the other day. "I paid \$19.75 for it last year. It is the second winter for this overcoat and I intend to wear it again next year."

"Before I tell you look at this suit I have on," replied Senator Trammell. "It is last year's suit. I paid \$21.75 for it last year and it is a pretty good looking suit you'll admit."

"It certainly is," was the ready answer, "but how do you do it?"

"Now this morning," went on Senator Trammell, ignoring the query. "I went down town and bought a new suit for \$25. With some alteration it will fit me perfectly and I will wear it the rest of this and all next winter."

"I bought the suit this morning at one of the half-price sales where they dispose of their season's stocks. I follow that practice every year and watch for the sales at the close of the winter and summer seasons. When other people are buying spring clothes for the rest of this winter and clothes I am buying winter clothes for the rest of this winter and the whole of next. When they buy fall clothes I buy summer clothes for the next of the summer and all of the next.

"As a result I get the advantage of much lower prices than others. Then too I do not hesitate or fear to take hand-me-downs. Any size forty two can be made to fit me perfectly and if the clothes are kept properly pressed as they should be they will not lose their shape nor

wear out any sooner than clothes that cost three times as much."

Senator Trammell admits that the highest of living does not worry him much. "I always manage to find clothes at a reasonable price," he says. "My idea is that half the responsibility for present high prices rests with people who having the money, are willing to buy anything at any price."

Regular "Medicines."

Those who criticize the prevalence of "patent medicines" of various compositions in these days should be interested in recalling the quaint nostrums of the past, which if they did not outnumber those of today at least far surpassed them in ingenuity of composition. For example, says the New York Herald, there was dried food, which was reputed to be an unfailing cure for fever. Those of squeamish palates will be relieved to know that it was, happily, for external application only, being placed in the armpit of the fever patient. Dried and powdered fox lung was, however, for internal administration and was held to be certain remedy for lung and throat troubles.

POLITICAL ANNOUNCEMENTS

For State Attorney
To the Democratic Voters of the Seventh Judicial Circuit of the State of Florida:

I hereby announce my candidacy for the office of State Attorney of the Seventh Judicial Circuit of the State of Florida, subject to the action of the coming Democratic Primary.

Should I be favored with this nomination and subsequently appointed by the Governor, I will at all times endeavor to discharge the duties of this important office faithfully and to the best of my ability, without fear or favor to any person or persons.

GEO. A. DECOTTES.

For The Legislature
I hereby announce my candidacy for the position of Representative for Seminole County subject to the decision of the Democratic primary. If elected to this high office it will be my duty to serve all the people of my county as their public servant.

F. P. FORSTER.

ELDER SPRINGS WATER

THOMAS D. BAKER, Ph. D.
Analytical and Consulting Chemist - Professional of Natural Science
Emeritus, Rollins College, Florida
Private Laboratory of Rollins College
Winter Park, Fla., Nov. 28th, 1918

Mr. T. O. Charles
Sanford, Fla.

Dear Sir:

I have completed careful chemical analysis of the sample of water that you brought me early last week, and have obtained the following results:

Color	Clear	Chlorine	1.78 parts per million
Reaction	Neutral	Total solids	2.00 parts per million
Free Ammonia	00 parts per million	Hardness	22.02 parts per million
Albuminoid Ammonia	Trace	Nitrates	Trace

The absence practically of free and albuminoid ammonia in this water and its very small amount of chlorine indicates its excellent quality for household purposes. In addition to the good quality characteristics of superior household water, it possesses special features of much value, especially those of excellent nature, aeration and L.W. degree of hardness.

The bacteriological analysis, resulting in an average total count, in four samples of the water, of 2 bacteria per cent., and in finding no coliform or other harmful bacteria, fully confirm its good quality indicated by the CHEMICAL analysis.

Of the many waters of this and other regions that I have analyzed, I have found none superior in all good qualities to that of the "Elder Springs Water."

Yours very respectfully,
(Signed) THOMAS D. BAKER

BAINBRIDGE COLBY APPOINTED SECRETARY TO SUCCEED LANSING

Announcement Comes As Great Surprise COLBY OF NEW YORK

WHO WAS ONE OF THE LEADERS OF THE PROGRESSIVE PARTY UNDER ROOSEVELT

Washington, Feb. 25.—Bainbridge Colby, of New York, who was one of the leaders in the progressive party under Roosevelt, will succeed Lansing as secretary of state. Announcement of his selection by the president was made today at the Whitehouse. Colby's selection came as a surprise, most officials assuming that Frank L. Polk, acting secretary, would be the president's choice. The first inkling that the president was to appoint some one outside the official family came when Colby visited the Whitehouse early today with Raymond Baker, director of the mint. Colby was taken to see the president and a few minutes later formal announcement of his selection was made. His nomination is expected to be confirmed by the senate within a day or two.

Florida League Players Go To FASTER COMPANY

The Florida State league made good last season and many of its players will be seen in faster company this year. Manager Moore, of the Orlando club, will manage the Danville team in the Piedmont league, and will make an effort to gather a few of the old Gator State players under him up there. The Bradentown club sold J. F. Burroughs and Oren E. Roberts (Luke Angel) to the Petersburg, Va., club and another Manatee boy to go up is Stewart, pitcher. He has been purchased by the San Antonio club of the Texas circuit, and late rumors say the Detroit club recently secured him. There are others, and it stands to show that even in the first real season of the league that it managed to develop some faster circuit material.

Barcelona's Medieval Tint

Despite its disorders and its modernism, Barcelona retains many relics of those mellow times when Cervantes made it the setting for Don Quixote's later adventures. There still are church processions, lottery ticket sellers, policemen with red coats and helmets, flower stalls and caged bird vendors. Folklore embellishes the story of the gishly martyr, Saint Eularia, whose ashes lie in the Barcelona cathedral, perhaps the darkest of all great churches, and among the most beautiful in Spain. Cool fountains play in the cloister garden, among oleanders, and orange and lemon trees, and pools disclose geese, not violators of the medieval sanctity, but contributory to it, when one learns they are descended from the birds feverishly used for surgery.

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days... I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go... I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me.

One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle... I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. E 78

Death of Mrs. Lena Lee Lossing

Mrs. Lena Lee Lossing, beloved wife of Frank Lossing died at the home at 1011 Frech avenue Thursday afternoon after a short illness a complication of influenza and pneumonia being the cause of her death. Mrs. Lossing had been a resident of this city and this section for many years and had a host of friends who loved her for her many good traits. Bereaved several years ago by the loss of her first husband she had married Frank Lossing last summer and settled in their new home the couple were just commencing to enjoy life when the dread summons came and it seemed that nothing that doctors and nurses could do would stay death's hand. Mrs. Lossing lately sent for her four children to make their home here and this second blow takes away their mother just when they were beginning life in the new home.

It is one of the sad deaths in which this community has shared in the last few months and the sympathy of the community goes out to the husband and children left alone without wife and mother.

Mrs. Lossing leaves four younger children and a married daughter, a husband, a sister here, Mrs. J. L. Miller and a sister in Tampa to mourn her loss.

The funeral will occur from the late home on French avenue tomorrow afternoon at three o'clock. Dr. Hyman of the Baptist church officiating.

STILL WAITS FOR RESCUE

Unromantic Ohio Sheriff Foils Bright Scheme of Fair Maiden.

"When the clock in the steeple strikes 1, bring a letter, a saw and a file, come for me." This appeal, written on daintily scented pink note paper, fluttered from a window of the woman's section of the county jail at Tiffin, Ohio.

Three youths passing rescued it from a snowdrift.

"I'll pay you well, if you'll only get me out of here," the writer promised.

It was from a girl who is held for alleged forgery. The three youths were debating whether to take the risk of a rescue when Sheriff Charles J. Mutchler pounced on them, materially adding them in coming to a decision. The "clock in the steeple" struck, but there were no signs of rescuers.

THIS CAT A SHOPLIFTER

California Tabby Found With a Nest Full of Stolen Articles.

Tootsie, a tabby-cat of San Bernardino, Cal., has been proved to be a shoplifter.

She is the pet of a lunchroom proprietor and she lives in his lunchroom.

He saw her entering the lunchroom early one morning with a shaving brush in her mouth. He watched. She carefully deposited it in her own special corner. In the "nest" were found more than a dozen other shaving brushes.

The owner of a nearby drug store identified the brushes as his property.

The theory has been advanced that Tootsie thought the brushes were kittens, which would account for her great care in removing them from the drug store to her "nest."

"NERO'S HORSES" IN VENICE

Famous Bronzes Returned—Were in Rome for Wartime Safety.

The four bronze horses which adorned the facade of St. Mark's cathedral have again been put in place after an absence of more than two years, due to their transfer to Rome, where they had been kept to avoid capture by the Austrians or destruction by air bombs. The horses are regarded as the finest specimens of ancient bronzes and according to tradition, graced the triumph arch of Nero.

Music Turns Itself.

Stopping to turn a stubborn page, the musician not infrequently finds the effect of his performance spoiled by an awkward pause. From France now comes an invention which will obviate this annoyance, says Popular Mechanics Magazine. The music is printed, not on pages, but on a long strip, as is the practice with music for the player piano. Placed on a motor-driven table, the music passes before the eyes of the player at any desired speed. The controlling lever is conveniently placed at one side.

Value of Salt.

You can clean your teeth with it, keep your eyes bright and strong by daily salt baths, gargle with salt water to strengthen your throat, throw a handful of common salt into your bath for toning up the system generally, and bathe your feet in salt water to prevent chilblains.—London Tit-Bits.

MICHIGAN COUNTY REVOLTS ON PROHIBITION QUESTION WHILE TROUBLE IS AVERTED

Iron County Takes Law Into Hands

REFUSED TO OBEY

THE MANDATES OF PROHIBITION COMMISSIONERS AND DECLARED OPEN REVOLT

Washington, Feb. 25.—An investigation of the prohibition controversy in Iron county, Michigan, will be made by the Bureau of International Revenue, Commissioner Roper announced today. The deputy commissioner leaves tonight for Grand Rapids and Iron River City to take up with the authorities there the controversy which led District Prohibition Commissioner Dalrymple at Chicago to declare the county in "open revolt."

Expensive Leather.

The finest and most expensive leather goods are produced at Chuan-Chan-Foo, in China. The leather is made from lizard, shark, dolphin and snake skins, which are very strong and durable. These skins are used for cases, pipes, purses, pocketbooks, etc.

Our Country's Motto.

"E Pluribus Unum" was first suggested as the motto of the United States by Benjamin Franklin. John Adams and Thomas Jefferson, in August, 1776, they having been appointed a committee to choose a design for the great seal. It is claimed by some that the motto was suggested by a similar inscription used by the Godemans Magazine, a popular publication of that time. It first appeared on coins in New Jersey in 1780 when copper money was issued by that state.

Grand Master Here

Grand Master Arthur Brown of the I. O. O. F. of Florida was here Monday night and visited Sanford lodge giving the members a fine talk. Mr. Brown was formerly the editor of the Ft. Pierce News but of late years has been postmaster and while owning stock in the News has given up active newspaper work. He paid the Herald office a pleasant call while here.

Magellan's Famous Vc

On the 27th of November, 1520, Ferdinand Magellan, the Portuguese navigator, entered the Pacific ocean through the straits which bear his name. He navigated the ocean for three months and twenty days without finding a single island. During the voyage the weather was so foul continually that he gave the ocean the name of Pacific.

Million Packets Of Flower Seed Free

We believe in flowers around the homes of the South. Flowers brighten up the home surroundings and give pleasure and satisfaction to those who have them.

We have set aside more than one million packets of seed of beautiful, yet easily grown flowers to be given to our customers this spring for the beautifying of their homes.

More Trouble For The Newlyweds

New York, Feb. 19.—More trouble for the newlyweds. If hubby and wife have been both working prior to the date of the wedding, Uncle Sam wants his rake-off on both incomes. "According to the law," said Internal Revenue Collector Edwards today, "the one income of the bride and bridegroom for the year must be considered even if it was all spent on trousseau, diamonds, wedding trim and honeymoon. The fact that they were married before December 31, 1919, joins them for the whole year so far as income tax is concerned."

Cleaning White Paint.

Spirits of ammonia used in sufficient quantities to soften the water and ordinary hard soap will make a white painted surface look white and clean with half the effort of any other method. Care should be taken not to have too much ammonia.

TOO LATE

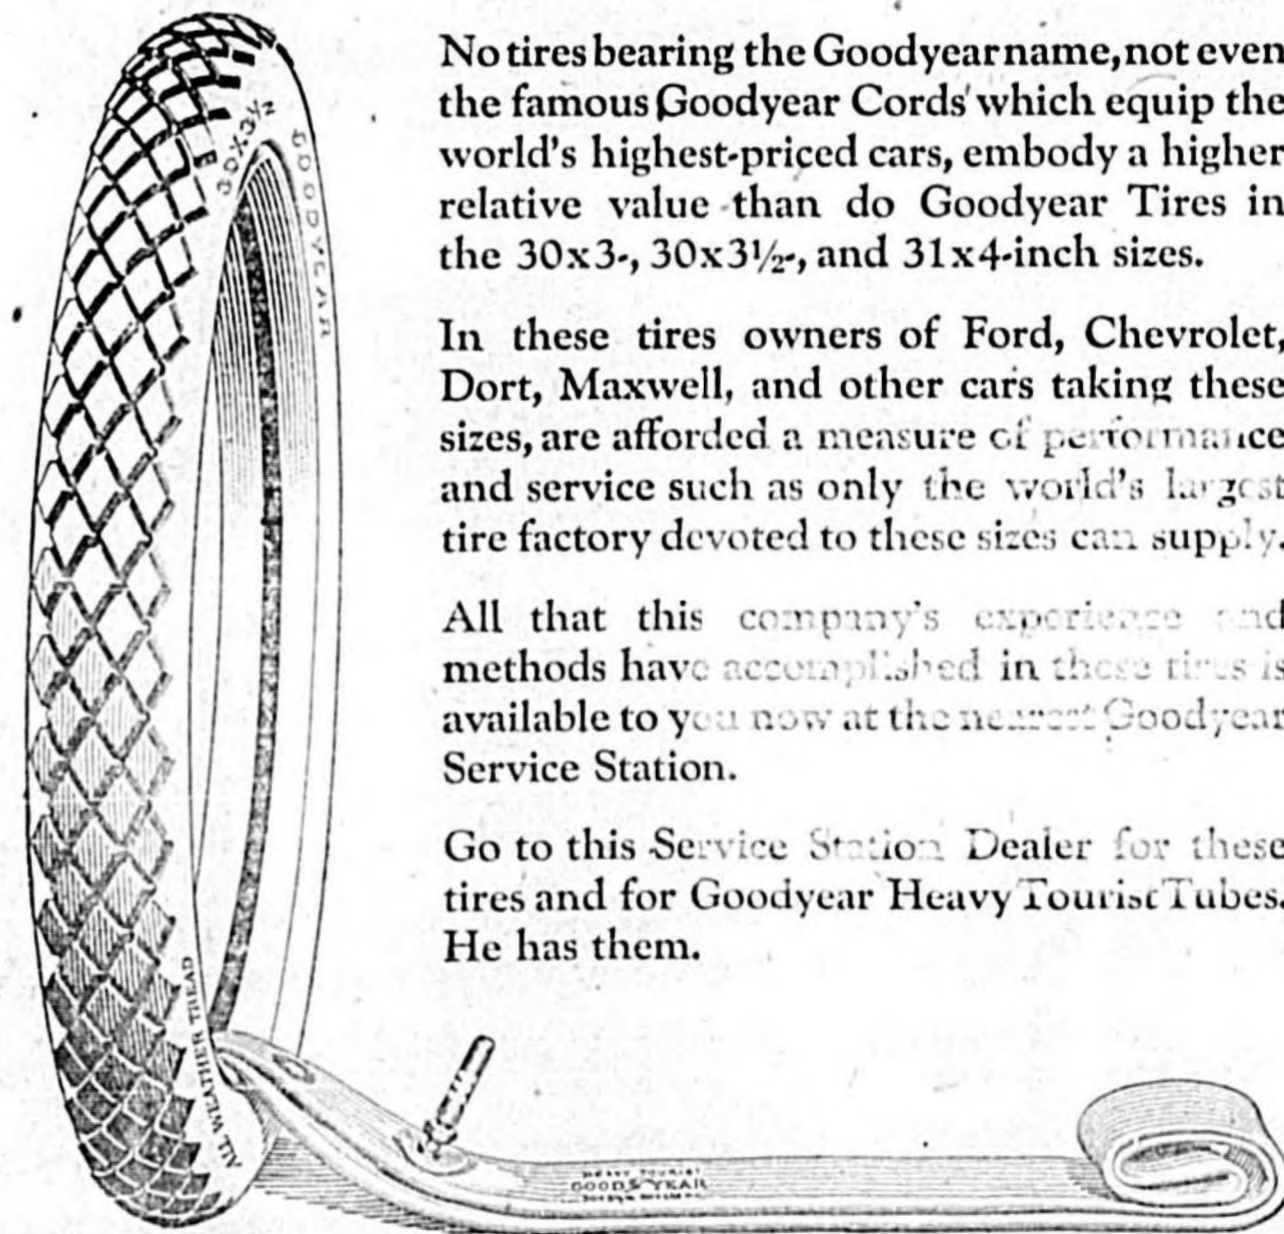

Death only a matter of short time. Don't wait until pains and aches become incurable diseases. Avoid painful consequences by taking

The world's standard remedy for kidney, liver, biliousness and uric acid troubles—the National Remedy of Holland since 1826. Guaranteed. Three sizes, all druggists. Look for the name Gold Medal on every box and accept no imitation.
