LONGWOOD, Dec. 23.—(Special)—With the opening card out of the way, Sanford-Orlando Kennel Club settles down to its 90-day racing routine tonight at the plant located midway between Sanford and Orlando on U.S. Highway 17.

Tonight's feature race will be a futurity sprint with a field of eight fast-breakers scheduled to match strides in the ninth event of the night.

Four of the eight are familiar to Central Florida's fans. They are Lucky Mack, Sunflower Chef, Eric and Grand Sis. The four newcomers are Susie Kay, Calumet, Rex Paddy and Officer Andrew.

A secondary feature is the eleventh race, the quinella. Much interest will be displayed in the debut of Lumber Jack, a dog which raced with success earlier this season at Hollywood. Lumber Jack has the jump in training on most of the other dogs and can be counted on to supply most of

### Tropical Park Will Feature Two Events

MIAMI, Dec. 23.—(Special)—This week of competition at Tropical park at Miami will be headlined by the running of two \$2,500 features. First of these will be the Orange Bowl Handicap, set for decision on New Year's morning. It is a mile and a sixteenth text. The other is the six furlong winter handicap, which will be run on Saturday. Judging from the manner in which the meeting's features have filled thus far, both should attract good fields, with harsh seasoned by action during the first seven best favored.

Following the custom inaugurated in 1939, the racing on New Year's day will start at 10:00 A. M., so giving horsemen, visitors to this resort and natives an almost continuous day of sports as the Orange Bowl game, which this year has drawn Georgia and Texas Christian, starts shortly after the conclusion of the racing program. At the writing, the most prominent prospects for the Orange Bowl Handicap are The Chief and Benefactor, the two gaining such consideration through excellent efforts in the Christmas handicaps.

### Joe Louis Kayos Training Partner

GREENWOOD LAKE, Dec. 23.—(P)—Joe Louis caught Deo Amos with a vicious right cross Sunday and sent the 200-pound New Yorker off to a 10-minute nap as the champion opened the final two weeks of training for the title match with Buddy Baer on Jan. 9.

Louis worked four rounds in all, boxing against Don Monroe, Amos, George Fitch and George Nicholson in that order. After the drill his weight was down to 200 pounds and the champion announced he would take a vacation for a couple of days.

Baer also displayed his best form in the preparations, hurting both Jim Robinson and Eiza Thompson with hard rights. The challenger went three rounds against each.

### Select Selections

By RALPH WARNER

Its Duke over Oregon State by 14 points, Missouri over Fordham by 13 points, Georgia over Texas Christian by 14 points, and Texas A. and M. over Alabama by one point.

The key game is the Sugar Bowl clash between the power-laden Tigers of Missouri and New York's more versatile, flashy Ram. In 90 percent of the meetings of this type, power will overshadow flashiness, and the old hunch rests strongly with Missouri. The Tigers perhaps pack more straight away power than any college club back as far as the era in which Pittsburgh powerhouses, under Jack Sutherland, dominate the grid scene. Though weaker in other departments, Missouri should handle Fordham by 20 to 7.

The Rose Bowl anglement over at Durham, N. C., offers many possibilities, not the least of which is the chance of a Heaver victory due to their determined fight coupled with Duke overconfidence. However, as the actual strength of the two outfits, The Blue Devils should be rated on top by 13 or 20 points.

Georgia should jump on Texas Christian. The Bulldogs have superior all around strength, and while Christian's main hope lies with its fine back, Kyle Gillespie, Georgia can counter with All-American Frankie Sinkwich. This Orange Bowl battle gets a duplicate rating with the Rose Bowl

 The little folk are tall folk:  
 They grasp the lightning's fork  
 their sight  
 is strong and shrewd as the

 through storm-swept areas of  
 night  
 their song a song of old desire  
 for God, for country, for warm  
 hearts' fire!

The little folk are stout folk:  
 They stem the flood tide at its  
 crest;  
 Their hearts from out the very  
 breast  
 are freely flung on altars blest  
 by faith in all of man's desire  
 for God, for country, for good  
 hearts' fire!

The little folk are proud folk:  
 Their cities burned, their homes  
 in dust  
 stand trampled by the conqueror's  
 breast  
 under their sing as sing they  
 must  
 amid the ruin and bloody mire,  
 O God, of country, of bright  
 hearts' fire!

**News Of The Year**

Whatever 1942 may be, 1941 was a most eventful year. Probably the most sensational happening, from the point of view of the newspaper headlines, was the bombing of Pearl Harbor, even more sensational in fact than the declaration of war on Japan, for after Pearl Harbor, war of course was inevitable.

But there were other sensational developments in 1941. Have you forgotten the gallant Grecian rout of the Italians in the early months of the year, or the ultimate Balkan conquest by the Germans? Have you forgotten the spectacular battle of Crete or the Italian debacle in Libya which preceded it? And then there were the sensational sinkings of the British battleship Hood followed closely by the destruction of the German Bismarck.

In any ordinary year the flight of Rudolf Hess to England would have been sufficient for the Number One news story of the year, but this time it is almost forgotten. The public doesn't know even yet for an absolute certainty just what moved this top ranking Nazi to steal an airplane and make an unexpected dash to England, but it preceded the German attack on Russia.

This violation of a solemn treaty between two leading world powers a decade ago would have been a startling development of unbelievable magnitude. But today we take it in our stride. It was of course one of Hitler's greatest mistakes, and perhaps his first, and in that respect it retains its importance. Otherwise the double crossing of a former ally is no longer of any importance.

Last January President Roosevelt was inaugurated for his third term in office. That was the first time in over 150 years of United States history that a man had held office for more than eight years. George Washington, Thomas Jefferson, Abraham Lincoln, Woodrow Wilson, had not faced a crisis where they would run for a third term, or where, probably, they could have been elected if they had.

But there were other things of even greater importance to some people. The Dodgers won a pennant but lost the Series to the Yankees, and in Brooklyn scarcely anyone knew anything else was happening anywhere else in the world. Whirlwinds made history at Churchill Downs, breaking all records for 67 years. There were strikes galore, and threats of more strikes, and finally a capital and labor truce.

But perhaps the most sensational story of the year was the marriage of Gloria Morgan Vanderbilt, the "poor little rich girl," to a Hollywood squire; or was it the controversy over Gen. Ben Lear's "Yoo-hoo" boys?

**Blackout Rules**

What does a motorist do when he suddenly finds himself caught in the middle of a blackout? The Florida Safety Council has issued a set of safety rules to meet just such an emergency. The Council rightly points out that "More people have been killed and injured in traffic accidents during blackouts in cities in England than have been killed or injured by bombings."

- Here is the set of rules:
1. When you first get in your car, sit there a few minutes until you get your eyes accustomed to the dark before starting.
  2. Drive only about ten miles an hour. On bright moonlight nights you can drive a little faster.
  3. Do not pass traffic. A blackout is no time to hurry and you may hit a pedestrian on the road.
  4. Keep about 150 feet from car in front of you.
  5. Use brakes as little as possible. They cause rear lights to flash on.
  6. In driving at night, do not gaze at one spot. Gazing causes drowsiness; shift your gaze.
  7. If you intend to stop, wave your hand up and down. This can be seen better than a still arm swung out.

**FAULTY HUMAN NATURE** has done badly enough with the light that has been given it, but progress has been made and some remarkable things have been accomplished. It is to preserve those things, including the hard-won freedom so many people enjoy, that nations, which stand for the rights of the individual to liberty and the pursuit of happiness, are carrying the banner against those nations which would rule by greed and might. — St. Augustine Record.

## Social Calendar

**TUESDAY**  
The installation of officers of the Seminoles Chapter, O. E. S., will take place in the Masonic Hall at 8:00 P. M. with Mrs. Glenn E. McKay, past grand master of the grand chapter of Florida, as the installing officer. The public is invited to attend.

**WEDNESDAY**  
Girl Scouts are invited to meet at the Little Home at 8:00 o'clock for a "Blumber" party. Each scout is asked to bring two sticks of wood, nose bags for supper and breakfast, cot and blanket.

The Board of Deacons of the First Baptist Church meet at the church at 7:30. There will be no mid-week prayer meeting.

**FRIDAY**  
The first regular meeting of the Sons and Daughters of the Territory of Florida will be held at the home of Mr. and J. G. Sharon, 220 Magnolia Avenue at 8:00 P. M. It is expected that there will be a full attendance at the first meeting of the year.

The E. W. Ware Class of the Methodist Church, formerly the 44-50 Bible Class, will have its regular meeting at the church annex at 7:30 P. M. with Mrs. Essie Price and Mrs. G. H. Fucum as hostesses.

Workers Council of the First Baptist Church meet at 8:00 P. M. Supper will be served and all who have made reservations.

Spiced raw apples are rich in vitamin C.

## Young People Will Sponsor Service

The young people of the First Methodist Church are sponsoring a Water Night Service at that church Wednesday evening from 7:00 to 12:00 o'clock. It will take the place of the regular prayer meeting, and all adults are urged to attend.

Miss Clara Ferguson will have charge of the music; there will be a brief message from Dr. Eshman, and slides of the Christmas Story will be shown. A cordial invitation is extended to all visitors.

Responding to President Roosevelt's proclamation, the people of the various congregations are called to a special prayer service at the First Baptist Church on Thursday at 11:00 A. M., under the auspices of the Sanford Ministerial Association.

The service will be a silent prayer service and those who attend may go at will. There will be no set program. The attendance is being sponsored by the Women's Ministerial Union of the First Baptist Church and the public is cordially invited to attend.

## Social Fraternity Has Annual Dance

Featuring Tussy Branam and his orchestra of Orlando, the annual Yuletide dance of the Alpha Tau Omega fraternity was held in the Orlando Country Club last night. Centering the interest in the decorations was the large ATO emblem of gold and blue placed at one end of the ballroom. Other decorations were in the colors of gold and blue.

Those from Sanford attending were: Miss Marjorie Cogburn, Miss Erma Doudney, Miss Mary Marthe Emerick, Miss Dorothy Wiggins, Miss Mary Wright, Miss Jessie Darden, Miss Madelyn Trulock, Miss Louise Perkins, Miss Elizabeth Whigham, Miss Helen Hutchison, Miss Catherine Hurt, Miss Estelle Hurt, and Miss Bette Wathen.

Also, Mr. and Mrs. Guy D. Wood, Dr. and Mrs. O. L. Barks, Mr. and Mrs. Fred H. Williams, Mr. and Mrs. W. M. Phillips, Dr. and Mrs. L. A. ## Tolar Home Is Scene Of Holiday Affairs

Ralph Tolar entertained with a party at his home on East Tenth street last evening preceding the Alpha Tau Omega dance which was held in the Orlando Country Club.

A red and white color theme predominated in the decoration of the Tolar home with red, white, white chrysanthemums and glass oil being used throughout the rooms which were opened amply for the occasion.

In the dining room Miss Marjorie Cogburn poured punch from a silver punch bowl into tall crystal cups. The lace colored table was centered with a silver bowl holding red roses, balanced on each side by lighted white candles in silver candelabra. Fruit cake sandwiches were served from a large silver tray.

The host was assisted in caring for his guests by his mother, Mrs. J. N. Tolar and Mr. J. E. Cogburn.

Those enjoying the party were: Miss Cogburn, Miss Erma Doudney, Miss Joyce Ann Whiddon, Miss Mary Martha Emerick, Miss Dorothy Wiggins, Miss Mary Wright, Miss Jessie Darden, Miss Madelyn Trulock, Miss Helen Hutchison, Mr. and Mrs. Fred H. Williams, Lieut. and Mrs. T. F. McDaniel, Mr. and Mrs. B. Cogburn, Mr. and Mrs. Phil Granhoff, Dr. and Mrs. O. L. Barks, and Dr. and Mrs. J. N. Tolar.

Also, Leroy Cooper, William Leffler, Dub Epps, Bob McDonald,

## Former Resident Of Sanford Is Honored

Mr. Willis Hay Heald, a former resident of Sanford, who for the past year has been making her home in Alexandria, La., was the honored guest at a family reunion held recently in Heflin, La. The following excerpt was taken from an Alexandria newspaper:

"A family reunion was held in the home of Mr. and Mrs. Oscar Russell near Heflin on Sunday, Oct. 20, honoring Mrs. Willis Hay Heald, daughter of the late Mr. and Mrs. Needrum Smith.

"Mrs. Heald was born near Fryburg, La., on Aug. 10, 1878. She married Sam Hay of New Berda, where they lived until his death, after which she married Mr. Heald of Sanford. Since Mr. Heald's death she has been making her home with her niece and nephew of Alexandria.

"The sixty-six years of Mrs. Heald's life have been gay and joyful. Being one of the popular belles of the nineties, she relates there is not so very much difference between this and her generation of girls. She is still very active, is organist of her church and a social worker. She is known as a composer of poetry and musical carvers."

NEW ARRIVALS

Mr. and Mrs. Jesse Milan of Umatilla, formerly of Sanford, announce the birth of a daughter on Monday Dec. 22, at the East Florida Hospital.

Dip cooked, peeled sweet potatoes in thick maple syrup, arrange in greased baking pan brush with melted butter and sprinkle with salt and white pepper. Bake or boil until well browned.

## Mr. and Mrs. Priest Have Family Reunion

Mr. and Mrs. C. C. Priest entertained at a family reunion at their home on South Sanford Avenue Sunday at which their six children and five grandchildren were present.

Those enjoying the occasion with Mr. and Mrs. Priest were: Mr. and Mrs. George Sims and children, George, Jr. and Clarence Earl, Mr. and Mrs. R.E. Kipp and children, Flora and Robert, Mr. and Mrs. Randall Priest, Jr., all of Sanford, and Mr. and Mrs. Vernon Priest of Anthony, Mrs. Clyde Brocman of Pensacola and C.P. Priest of Murphreesboro, Tenn.

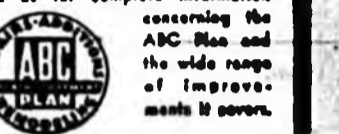

## CORRECTION

The Herald regrets that the names of Miss Dorothy Wiggins and Miss Mary Evelyn Rabun were omitted from the list of Sanford persons who attended the Pi Kappa Alpha fraternity dance which was held in Orlando Saturday evening.

**We pledge ourselves to this cause**  
A Statement by  
**The Great Atlantic & Pacific Tea Company**

We make this pledge publicly to our national government and to the people of the United States:

- That we will cooperate unwaveringly in every effort of authorized government agencies to prevent unwarranted rises in prices of foods.
- That we will continue our efforts to reduce the spread between prices paid to the grower and prices charged to the consumers.
- That to this end we will continue to do everything in our power to assist the farmers and growers of America in the orderly marketing of their products at the fairest possible prices to them.
- That we will make every effort to hold our inventories at the lowest point consistent with good service to our customers because hoarding, whether by wholesalers, retailers, or consumers, will cause higher prices.
- That we will endeavor to continue to pay our employees the highest wages and to give them the best working conditions in the grocery business generally.
- That we will make every effort to continue to sell food at retail at the lowest gross margin of profit in the history of the retail grocery business.

Today we are providing food for our customers at the lowest gross profit rate in the history of the retail grocery business. This means that we have achieved efficiencies in the distribution of food never before attained. More of your food dollar goes for food and less for overhead expenses than ever before. No other great retail business in the United States in any field is operated with such a low cost of distribution.

No one in the food business can control the wholesale price of food. Only the government of the United States has power to do this, and for the protection of our people this power in the government is now a necessary power.

Today, with the nation at war, we believe that no private interest has any rights in conflict with the general public interest.

The armed forces of the United States are today receiving more and better food than ever before in our national history. It is equally important that all of our people working and living behind the lines, men, women and children, shall be better fed and better nourished than ever before in our national history.

# THE RUBBER SITUATION AND HOW IT AFFECTS TIRES FOR YOUR CAR

With the declaration of war between the United States and the Axis powers, the long-threatened danger of our principal sources of rubber supply has become an unpleasant reality. From Malaya and the Netherlands East Indies comes 75 per cent of the world's rubber and these two countries are now under attack by our enemies. Today, Japanese troops are attempting to penetrate southward through the jungles of Malaya and to land by parachute on the island of Sumatra in a desperate effort to occupy these vital rubber-producing areas and thereby slow the wheels of American industry.

**"RUBBER IN MODERN WARFARE"**

Rubber is indispensable in modern warfare. Airplanes and scout cars, tanks and trucks, barrage balloons and gas masks are only a few of the many essential war materials that require rubber.

**"THE RESERVE SUPPLY OF RUBBER"**

Keenly aware of this strategic importance of rubber and anticipating the day when the United States might be cut off from the far east, our government, in co-operation with the rubber industry, began more than two years ago to build up a reserve supply. After Pearl Harbor it became necessary to take drastic steps to protect this precious store of rubber; and on December 11 our government issued an order prohibiting the sale of tires and tubes to anyone not having a priority rating of A-3 or better. These temporary restrictions will end on January 5, and they will be superseded by new regulations which are now being formulated.

How long such restrictions will remain in force will depend upon the course of future events. Naturally, when our Allied forces are victorious in the far east, shipments of rubber to the United States will be resumed. But in the meantime, steps are being taken to relieve the present situation.

**"FACTS ABOUT SYNTHETIC RUBBER"**

The first of these is the expansion of facilities for the manufacture of synthetic rubber. There are a number of large plants now under construction, and the one for which we are responsible will be ready for production in the first part of 1942. Nearly ten years ago, our organization began experimenting with various types of synthetic rubber, and in May, 1933, we produced the first synthetic rubber tires ever manufactured for U.S. Army's armed forces. As more synthetic rubber became available, we consistently increased our production of synthetic rubber tires. The most important elements needed for the manufacture of synthetic rubber are butadiene and styrene, both by-products of petroleum, which commodity the United States is fortunate in having available within its borders in unlimited quantities.

**"BRAZILIAN RUBBER AVAILABLE"**

Another possible emergency source of rubber is the valley of the Amazon River in South America. From that area, 45,000 tons were shipped in 1919 and it has been estimated that perhaps as many as 500,000,000 wild rubber trees exist in this region. These are not being tapped at the present time because the price of rubber is lower than the price which would be paid for the latex by the natives to whom the trees belong. In addition, there is a possibility that some rubber can be obtained from Guayule shrubs, which can be raised in this country and Mexico.

**"AMERICANS SHOULD PRODUCE THEIR OWN RUBBER"**

In this critical hour, when rubber assumes a position of prime importance to our national welfare and to our ultimate victory, I cannot help thinking of the statement made by my father more than 20 years ago when he declared that "Americans should produce their own rubber." To him the dependence of this country upon a single, concentrated area for any basic raw material was economically unsound and it was his premonition of difficulties in the future that led to the establishment of the Firestone rubber plantations in Liberia, which are now being worked to the very limit to produce every possible pound of rubber for our country.

**"HOW TO MAKE YOUR PRESENT TIRES LAST LONGER"**

Naturally, it is going to take time to develop these additional sources of rubber. In the meantime, it is the patriotic duty of every loyal American to help conserve the present supply by making the tires that are now on his car last longer. You can add as much as 50 percent to the life of your tires by observing such simple precautions as keeping them inflated to recommended pressure; driving slowly and avoiding quick starts and sudden stops.

**"NATION-WIDE SYSTEM OF FACTORY-CONTROLLED RETREAD PLANTS"**

For a number of years, the Firestone organization has been working to develop a nationwide system of retreading tires, and as a result, we have built up a nation-wide system of 152 retread plants, strategically located, to provide retreading service for our dealers and stores and their customers. To meet the present emergency, these plants are operating 24 hours a day, 7 days a week. By the process of retreading which we have developed, as much as 80 percent of the mileage built into the original tread is added to the life of the tire and the quality of workmanship and material is such that we are able to extend our life-time guarantee to every Firestone retread.

**"NEW VICTORY TIRE"**

Still another step which we took some years ago and which will serve our country well today, was the establishment of extensive facilities for reclaiming scrap rubber. Today the Firestone organization has the largest rubber reclaiming capacity in the world and we have the advantage of long experience in developing products made from this material. One of these is a new type of tire made from reclaimed rubber, which will give reasonably satisfactory service when driven at moderate speeds. We have named this product the "Victory Tire" and it is now in production in our factories. We also have in work a new type of tractor tire made from reclaimed rubber to help agriculture continue to play its vitally important part in the war effort.

**"THE PATRIOTIC DUTY OF EVERY CAR OWNER"**

In the laboratories of the Firestone organization, our scientists and engineers are working night and day to find ways of using to best advantage the present rubber supply. Specially designed tires for the successful conservation of rubber in the transportation of American war materiel, such as tanks, trucks and jeeps, are being developed. It is to get the maximum benefit of service out of these tires that we urge you to use them.

Buy Firestone tires and retreads. They are the best. They are the most. They are the most. They are the most.

## Allied Strategy Calls For Strong Singapore Defense

### Malayan City Valuable To British As Base To Launch Attacks On Japan

### Martial Law Has Been Proclaimed

### Four Nipponese Air Raids Are Made On Far Eastern Town

(By Associated Press) SINGAPORE, Dec. 31.—(AP)—Ottawa—Prime Minister Churchill today said he did not have much hope of Italy falling out of the war soon, adding "I'm afraid the organ grinder has the monkey too firmly by the collar."

He expressed confidence Singapore would be held against the Japanese.

Authoritative London quarters declared, "Allied strategy requires the defense of Singapore, with all the means at our disposal, so that it might serve as a base for a mighty offensive against Japan."

On the Malayan front only slight activity was reported.

Martial law was proclaimed throughout the Singapore territory last night after four heavy Japanese air assaults were beaten off with only 11 casualties and machine damage to this big British base last night.

The British command here decried the "unprecedented" Japanese air assaults last night as "damaging" and "disturbing."

The only four casualties were reported.

An instant of high natives were being singled out by head-quarters which reported that a large labor force present at a railway station was mistreated by Japanese planes "behaved with great violence."

British aircraft meantime were busy, but the details of action were not disclosed.

Japanese ground gains about Ipoh apparently were made possible through infiltration and clearing of the coast of enormous losses, a report of a British correspondent at the front showed.

### Holland Predicts Rubber Substitute

TALLAHASSEE, Dec. 31.—(AP)—Governor Holland Monday predicted American scientists would produce quick substitutes for rubber supplies now cut off by war in the Pacific.

Because of this confidence in meeting the present emergency, he said he was not disappointed about effects of the admissible tax reduction upon the state's revenues from gasoline tax receipts from the total about \$22,000,000 annually.

"I realize, of course, there will be some curtailment, but I have full confidence in American inventive ingenuity in making up any deficiency of this kind that we would just sit down and take it without working out some form of substitute," he said.

"The long-range curtailment of the state's petroleum would be a serious blow to State revenues," the Governor said, "but I believe it would be a hearing upon the increasing capacity of the state to produce gasoline substitutes."

## Russian Troops Recapture Two Crimean Towns

### Black Sea Fleet And Caucasus Success Imperil Nazi Army

BERLIN, Dec. 31.—(AP)—Adolf Hitler, in a New Year's order to his troops today declared the Russian Winter counter-attack "Must and will be frustrated," and that year 1942 would see Soviet power broken completely.

He asserted that 1941 "was a year of heaviest fighting and the most sanguinary fighting," but predicted "it will be known in history as the year of the greatest victories of all times." Just one year ago Hitler declared "The year 1941 will bring completion of the greatest victory in our history."

Russian gains continued today on both the southern (Caucasus) and Moscow fronts.

The British reported further heavy damage to Axis forces south of Adegabia Libya.

Red troops of the Caucasus and the Black Sea fleet have stormed and recaptured the Crimean towns of Kerch and Feodosiya in smashing new success which imperil the entire Nazi army on the Black Sea peninsula. It was officially announced yesterday.

Premier Joseph Stalin immediately sent a message of congratulation to General Kozlov, commander-in-chief on the Caucasus front, and to Fleet Admiral Obyedkov, commander of the Black Sea fleet which participated in the recapture of the towns.

In Libya the cornered Axis army has lost 43 of its remaining tanks in a rash and costly effort to break out at the growing British pressure in the Western sands of Cyrenaica, British Middle Eastern headquarters announced yesterday.

## Main Red Cross Committees And Duties Analyzed

"It must be borne in mind that the operations of the Red Cross for which funds are required and financial statements issued do not include the value of the services rendered to the Red Cross by the vast number of volunteers who participated in this work," Mrs. Roy Mann, publicity chairman of the local chapter, said this morning as a preliminary statement in analyzing the main divisions of the war fund program.

The first division is "services to armed forces" which includes production through volunteer workers of surgical dressings and articles of clothing, work for the men in hospitals during convalescence, shipment of deerskins in procuring blood plasma and the securing of medical technology for the Army and Navy.

"Disaster and civilian emergency relief" grows with their direct amounts of money meet the emergency needs for food, shelter, clothing and medical attention of the victims of disasters whether such catastrophes are from natural causes or the result of belligerent action," she said.

"Civilian defense services" administered by Red Cross members include an organization of health and educational activities, such as the teaching of dress aids and the conducting of normal programs of emergency drills. The committee will have large number of sub-committees, education, training, motor corps, etc. has been recently organized in Sanford by Mrs. F. E. Spence, local president, who served Mrs. Walter P. Brown as chairman of the main division.

Frank Stetson is the "Service and maintenance" chairman. He is in charge of the "Service and maintenance" division. He is in charge of the "Service and maintenance" division. He is in charge of the "Service and maintenance" division.

The body of the committee will be held on Wednesday, Jan. 1, at 8:30 A. M. at the College Ave. Club. It is a "night" will be held at the country club during the weekend. ## Dutch Say Allied Aid Is On Way To East War Grounds

Allied reinforcements were reported by Dutch newspapers last night to be en route to the Pacific for theatre operations. The Gen. Hein Ter Poorten, the Dutch Commander-in-Chief, urgently called for more members, fighter planes and anti-aircraft guns, as well as other supplies in a radio broadcast at Dutch soil.

At the same time there were press reports from Sydney that British Prime Minister Churchill had advised Australian Prime Minister John Curtin that Britain and her allies had decided upon a definite plan of action in the Pacific which would enormously improve allied striking power against Japan.

The Indies newspapers asked the public to be patient. They said help was on the way, but stressed that "anomalous difficulties" remained before a general allied offensive could be started.

The general said Japanese fleets roaming the South Pacific were a "very real" target for bombers operating from New Guinea and the East Indies bases—a fact already proved by the hard-hitting Dutch airman and submarine crews who have so many extended and vulnerable areas to defend.

"Such material support," the general said, "if given with the least possible delay, could even hold off a large-scale Japanese landing attempt."

It was stated officially that no Japanese troops thus far have landed on Dutch territory. There thus still was no official confirmation that Japanese paratroopers had landed in the Medan area of Sumatra on Sunday.

Checks were mailed today in payment of the semi-annual dividends by the First Federal Savings and Loan Association, Secretary James Higgins of the association, said today. The dividend was made on the basis of a four percent per annum payment and is the largest amount paid by the association since it was organized in 1924.

Mr. Higgins declared the association has shown a steady growth during 1941 and for the first 11 months, resources of the group have increased 40 percent. Its object is to promote thrift and provide for financing of homes, and it is under the supervision of the government.

Florida received \$1,481,250 for regular federal aid, \$200,000 for secondary or feeder roads and \$1,281,250 for elimination of hazards before that date.

## Armies Forced Back Under Overwhelming Jap Forces On Two Battle Fronts

### Invaders Are Six Miles From City

### Tokyo Dive Bombers Control Roads And Have Aired Units

An attempt to evacuate 800 seriously wounded Americans from Luzon Island was apparently foreshadowed in the last stages of the 25-day-old battle of Manila today as Gen. Douglas MacArthur's armies fell back under an assault of overwhelming Japanese infantry, tanks, and dive bombers.

An attempt to evacuate 300 seriously wounded Americans from Luzon Island was apparently foreshadowed in the last stages of the 25-day-old battle of Manila today as Gen. Douglas MacArthur's armies fell back under an assault of overwhelming Japanese infantry, tanks, and dive bombers.

Dispatches from Shanghai said the invaders are only six and one-fourth miles from Manila. Simultaneously, an Associated Press correspondent reported that the southern battle line is only a 30-minute drive by automobile from the capital this morning.

Gen. MacArthur's field headquarters announced: "The enemy is driving in great force from both north and south. His dive bombers practically control the roads from the air."

The Japanese are using vast quantities of tanks and armored units.

"Our lines are being pushed back."

An Army bulletin said an attempt to evacuate the seriously wounded in Luzon was made on a ship flying U. S. and Red Cross flags. No other details were given.

The War Department today said American and Philippine troops continue "strong resistance, and are inflicting heavy losses on the enemy" in the fierce battle for Manila.

From Tokyo, Domei reported today that Japanese forces had thrust to less than 20 miles from Manila from the southwest, and were pushing Gen. Douglas MacArthur's troops back to the lines in a drive from the north.

## War Leads All Other Florida News In 1941

Florida's tax revision, divorce racket, financial comeback and administration changes—prime news for state papers in an ordinary year—ran poor seconds to war in 1941.

Lacking the lustre of public emotion and dimmed by a storm of far greater magnitude, some of the state's most significant legislation of recent years was pushed to inside pages while national affairs and world conflict took over page one.

Florida, of course, had its proportionate share in the war and preparations for war with its brilliant array of Army and Navy installations and its hero of the first days of Japan's attack, Capt. Colin P. Kelly, Jr.

For strictly Florida news, Gov. Spessard L. Holland's virtually complete control over State matters and his far-reaching program for revising the tax structure stand out among the events of 1941.

Holland, serving his first year as Governor, dominated the State Legislature and received nearly everything he asked of it. His supervision was apparent in nearly every instance of a major Florida event involving politics, taxation, public finance, law enforcement, defense or disaster.
