

Citrus Committee Advocates Internal Quality Standards

ORLANDO, Sept. 23.—(AP)—Use of internal quality standards to regulate shipments of oranges outside Florida was advocated today by witnesses who testified before Senator Claude Pepper's senate agricultural subcommittee.

E. D. Keene of Orlando president of the United Growers and Shippers Association said he believed "that the present market in agreement is operated wrongly by attempting to eliminate fruit by outside appearance and size only."

"This eliminates people who grow fruit with inside quality," Keene who was the second shipper in Florida to use the color added process, said that he considered it might be as well to do away with the whole process.

"The elimination of 'inside' color-added would stop shipments of early fruit that consumers do not like," he said. "It would also tend to decrease the size of the crop by as much as 20 percent by causing growers to use less fertilizer so that their fruit would develop natural color earlier."

Keene also called for the establishment of minimum quality grade for both fresh and canned citrus, requiring that the grade be stamped on each piece or can of fruit.

Amendments to the marketing agreement were also advocated by Ralph Melner, Zellwood shipper, who said "it should be extended to the eradication of cans as well as fresh fruit by means of juice quality."

Senator Holland was present as a spectator at today's hearing.

TEST PILOTS FROM THE North American Aircraft Company plant at Los Angeles, Nicholas G. Pickard (left), 31, and George W. Krebs (right), 30, were killed when their four-jet B-45 bomber exploded in mid-air near Visalia, Cal. Shown at top is a sister-ship of the ill-fated experimental craft. The B-45 is one of the nation's newest aerial weapons, the first of the Air Force 500-mile-an-hour all-jet bombers. (International)

Hurricane Damage

Continued From Page One

rainbow marked its end at Miami. The Weather Bureau said the storm still packed winds of 100 miles an hour or more near the center. Gales extended outward 200 miles. Winds diminished along the Florida coast.

The hurricane was expected to pass about 500 miles east of Jacksonville and away from the busy Atlantic coastal shipping lanes.

The ponderous storm needed 30 hours to travel through Florida on a 240-mile line from Key West to Jensen Beach, attended by thrashing winds up to 160 miles an hour.

A preliminary survey at Fort Pierce today indicated there may be a possible 25 per cent loss in grapefruit and five per cent in oranges in the Indian River citrus belt because of the hurricane.

Tomato growers said their plants were "pretty badly battered," but they hoped they would straighten out. The harvest, however, will be delayed slightly since some fields still have water. The fate of the crop will depend largely on whether conditions the next few days.

Property damage at Fort Pierce was negligible. There was some road damage but it was not heavy. Official rainfall there from the hurricane amounted to 6.10 inches, and the highest wind velocity was 78 miles an hour.

Tremendous property damage was reported at Key West in the choice Indian River citrus area and to vegetable crops along the southern and eastern rim of Lake Okechobee.

Key West alone estimated loss at one million dollars, principally in its waterfront and shipping. More than 100 pleasure and commercial boats were sunk. Many were smashed to pieces. A 200-foot dock was swept out to sea and the city's two principal commercial docks badly damaged.

Power and telephone lines were hard hit. The island's sponge and fishing fleet was practically wiped out. Damage to boats alone was estimated at more than \$300,000.

All schools on the island sustained some damage. About 1,000 trees were uprooted in Key West alone. Ten inches of rain fell there. Some navy boats and installations were damaged but no official figures were available.

Extensive damage was reported along the Overseas Highway and fishing camps in the keys were hard hit.

The Greater Miami area was buffeted by gale winds for more than 30 hours and eight inches of rain flooded the streets. Nearly 18,000 telephones in Miami were out of order and electric service disrupted in many sections. Miami Beach reported only minor damage.

Grapefruit was stripped from trees in the area hit by the storm and some of that left on was scattered or burned.

Argent C. B. Kimes of St. Lucie county estimated 10 per cent of the grapefruit there had been knocked to the ground. No estimate was received from Indian River county, where some of the state's choicest oranges are produced.

Fields of growing vegetables in the "land" bowl, section around Lake Okechobee were under water and pasture lands were flooded. "It's going to be hard on cattle," one grower said.

The wind and tides battered beaches and brought damage to cottages and shrubbery.

Marshall Speech

Continued From Page One

mental freedoms."

Delegates of the United Nations' 68 member countries should renew our determination to develop and protect those rights and freedoms," Marshall said.

"The people of the world," he added, "must not be misled by those who in the name of revolutionary slogans would prevent reconstruction and recovery or hold out the illusions of future well-being at a price of starvation and disorder today."

"Despite the cooperative action of most nations to rebuild peace and well-being," Marshall continued, "tension during the past year has increased. The leaders of other nations are creating a deep rift between their countries and the rest of the world community. We must not allow that rift to widen any further and we must redouble our efforts to find a common ground."

"We are confronted with the need to save not only succeeding generations, but our own," Marshall said.

"The elementary requirement for cooperation between nations, the American said, "is that international obligations be respected and that relations among states be based on mutual confidence, respect and tolerance."

He promised that the United States would do everything in its power to reach "a constructive, peaceful settlement to political controversies which contribute to the present tension and uncertainty."

"Trade between nations must be expanded, but 'international' organizations cannot take the place of national and personal effort or of local initiative and individual," Marshall said. "International cooperation without a maximum of mutual help among close neighbors."

The secretary obviously referred to the European reconstruction program and Western Europe's efforts to federate.

He called for early peace settlements with Japan and Germany so those nations "may exist as separate and peaceful nations subject to safeguards against the revival of military or economic aggression and so they may, in due course, demonstrate their qualification for admission to membership in the United Nations."

"In Austria," he said, "our aim is restoration of its political and economic freedom with its 1937 frontiers and its immediate admission as a member of the United Nations."

Marshall advocated admission to the United Nations of Israel and Jordan, two combatants in the Palestine war.

"The United States," he said, "is a Palestine free from the threat of strife, both Jews and Arabs assured the peaceful development endorsed by the action of the general assembly and the security council."

Two days ago Marshall endorsed the Falks-Bernadotte report on Palestine.

Marshall also called for adoption of an international system for the control of atomic energy and a program of reduction of armaments to avert a world-wide disaster.

"The world problems are not new," he said, "New hope would come among men and new confidence among the nations of the world only with such a system as we have said, 'Can be made to prevent war, or imperialist expansion, or disorder and strife.'"

FORMALLY OPENING his campaign with a major speech at Des Moines, Iowa, GOP Presidential nominee Gov. Thomas E. Dewey pledges to key America's foreign policy to "the firm belief we can have peace." The New York Chief Executive promised that on the day he hopes to enter the White House as its resident there will begin "the biggest unraveling, unravelling, unfastening operation in our nation's history." (International)

AFTER BEING HELD by the Russians for several hours, Allyn Baum, of Chicago, a cameraman in Berlin for International News Photos, reports his experiences to Capt. James Dixon, Altoona, Pa. Baum was nabbed by two Russian soldiers as he was taking pictures near the United States-Russian zonal boundary at Tellow. (International Radiophoto)

Bob Green, former Villanova College pitching star now with the Toronto Maple Leafs of the International League, will continue his education after the diamond season.

Bucky Walters is the fourth pitcher to assume the role of playing manager with the Cincinnati Reds. Will White, Clark Griffith and Christy Mathewson were the others.

EVERGLADES, Sept. 23.—(AP)—This fishing village of 700 persons was waded deep in water today after the torrential rains of the hurricane whose center passed closely.

Winds estimated at more than 100 miles an hour swept over the seawalls protecting the town, and winds whipped the top off the city's water tank, ripped the roof off a 75-foot porch and caused a building to cave in.

Part of the road leading from the Tamiami Trail to Everglades was impassable except on foot. Few were trying to walk the seven-mile distance because of submerged power lines.

Heaviest damage was done to the Gulf Oil Company's storage plant near the entrance to the city. Big 1,500 gallon fuel drums were not damaged but roofs protecting them were blown in.

State highway patrolmen said townspeople reported it was the "worst blow they had ever experienced."

WASHINGTON, Sept. 23.—(AP)—A drastic reorganization of the nation's armed services was recommended by nine members of Congress today to the Hoover Commission on reorganizing the federal government.

It was learned that the lawmakers proposed:

1. A tighter fusing of the Army, Navy and Air Force than now exists under the year-old unification plan.
2. A cutback in the increasing costs of expanding and maintaining the armed services, which have been running at about \$15,000,000,000 a year.

WASHINGTON, Sept. 23.—(AP)—A drastic reorganization of the nation's armed services was recommended by nine members of Congress today to the Hoover Commission on reorganizing the federal government.

It was learned that the lawmakers proposed:

1. Increase its reserves from 14,000 to 75,000 officers and men, exclusive of 17,000 enlisted sailors now in the Royal Fleet Reserve.
2. Recruit a new royal marine volunteer reserve with an initial force of 1,500 officers and men. This is "likely to be increased considerably," an admiralty spokesman said.
3. Build up a Royal Naval Volunteer Wireless Reserve of 1,250 officers and men.

Former Spy

Continued From Page One

written to Miss Bentley demanding "a satisfactory public retraction" no later than noon, Sept. 30.

Meanwhile the House Un-American Activities Committee said it has found no evidence "at all" that there has been any spying in this country since the war.

While Rep. Hebert (D-La.) told that to a radio audience the committee itself reported it is "progressing nicely" in its investigation of wartime atomic espionage.

Committee members have said frequently that their work was being hampered by President Truman and Attorney General Clark, who have refused to let them see government loyalty records. The same charge has been made in the senate.

Hebert told newsmen yesterday that he wrote to both GOP presidential candidate Thomas E. Dewey and States Rights candidate J. Strom Thurmond, asking their views on the matter.

He said Thurmond answered that if elected he would "most certainly lend every possible assistance." Dewey had not answered, said Hebert, adding: "We know where President Truman stands."

Campaign Speeches

ry's regime in the state is "an example of the most extravagant and inefficient government in the nation."

Dewey had promised last night to cut federal expenditures if elected and Fitzpatrick reported,

Nation's Draft

Continued From Page One

step A. V. Alexander told the House of Commons that the nation's rearmament program is moving so swiftly in both men and material that the government has not been able to count the cost.

All men and women who served in Britain's wartime armies, Alexander explained, are subject to recall until the "state of emergency" brought on by World War II is over.

BELLE GLADE, Sept. 23.—(AP)—Luther Jones, Belle Glade Red Cross disaster chairman estimated the water in the Everglades today is approximately two feet lower than it was during the heavy flood of last year.

L. M. Johnson, Everglades drainage district engineer, said the water should drain off in three weeks if there are no more heavy rains in the meantime.

Jones, who also is a prominent grower, said "We are not nearly as bad off as last year. To begin with, we did not have the standing water as we did before the 1947 storms."

He said some farmers were reporting there would be no early bean crop because of the hurricane, "but someone always seems to be able to produce beans."

Belle Glade was without power last night and a mobile generator furnished current for the town's water system.

So you want your room MODERN

Start with these modern lamps

There's a decidedly modern flair in these new styles, with graceful proportions that make them at home with almost any other furnishings. They're hardwood or Walnut finish combined with brushed brass and crystal ball insets. Shades are a rough weave modern fabric in a choice of "living modern" colors, set off by a heavy cord collar trim. Thrilling beauty to help your room go modern!

LEFT: Modern table lamp with brass finishing. \$29.95

ABOVE: Spectator table lamp. Three-way. Brass. \$19.95

RIGHT: School arm chair lamp to put the light right where you need it. Three-way lamp. \$29.95

From where I sit... By Joe Marsh

Nicest Compliment I've Had

One of the nicest comments I've received about this column was from an editor in the Middle West I called on. And while I don't like to give myself credit, I think it illustrates a point.

"You," he said, "it so happens I don't agree with everything you say, but I always like to run your column. Because it gets down to earth and talks about the right things."

And from where I sit, that's the important thing: not whether you share another person's taste or point of view—but whether you recognize the right to exercise a free opinion.

MR. CITRUS GROWER Do You Know

You may still join the Central Florida Growers Cooperative—if you groves produce quality fruit!

The capacity of the processing and packing facilities has not yet been reached so you may join—if you apply for membership now!

The Central Florida Growers Cooperative requires no investment in expensive plants or equipment... a minimum overhead. Your fruit will be marketed with other quality fruit so you will not be handicapped.

Many plans have been made and plant facilities and marketing system are ready to go—but all plans are subject to vote of the members... one vote for each member regardless of the size of his production.

So, apply for membership today. The quota will soon be filled. Join us and make this the finest Co-op in Central Florida.

Secretary Marshall, British Foreign Secretary Bevin and their envoys to Soviet Russia conferred for an hour in Paris, official British sources said. The presence of the envoys indicated the Berlin crisis was discussed. The informants offered no explanation why French Foreign Minister Robert Schuman was not present. However, an aide to Bevin said the British minister would meet France's minister of national defense, Paul Ramadier, within a few days. Meanwhile South Africa charged the great powers broke faith with the small nations and threatened to reconsider her membership in U.N. if there is not a change. E. H. Louw, South African minister of economic affairs, told the general assembly that "if the organization of the United Nations continues on the road it followed during the past two years, the question will later have to be faced whether consideration in our own national interests is compatible with continued membership in the organization."

WASHINGTON, Sept. 24—(AP)—The United States has accused the Communist government of Bulgaria of "unlawfully" curtailing democratic freedom in that country. In doing so, the U. S. said the Communists there have resorted to use of "involuntary servitude, banishment, concentration camps, imprisonment, torture and execution."
