

THE SANFORD HERALD

IN THE HEART OF THE WORLD'S GREATEST VEGETABLE SECTION

VOLUME XI

SANFORD, FLORIDA, FRIDAY, DECEMBER 26, 1919

NUMBER 19

Coming to Our Census Work to Start Jan. 2nd Every One Must Help

Will Be Big Job For
Census Takers
MUST BE RIGHT

AND CITIZENS SHOULD LEND
THEIR ASSISTANCE TO THE
GOVERNMENT

So far as the Fourth district of Florida is concerned, preparation for the taking of the decennial census, next month, is well advanced. Commissions of appointment as enumerators are now in the hands of all the 200 appointees, most of whom have already taken the prescribed oath of office, which, among other things, enjoins strict secrecy as to results of their work.

As usual with all appointments, a few applicants have shown dissatisfaction in not being assigned to some other district. Supervisor J. J. Emery has, however, selected the enumerators with great care, taking into consideration the best interests of the service together with equitable distribution of the territory, some of it desirable some otherwise. Instructions and supplies are being sent out to each of the appointees as fast as each qualifies and is sworn for the service, and each will have ample time for studying all the points concerning correct census service.

Mr. Emery is now in the south end of the district, on the last trip before the actual work of the census begins, less than three weeks hence. Beginning in Key West, he will hold a series of so-called instructional meetings at the county seat of each of the larger counties. At these meetings all the enumerators will be expected to be present, excepting those in most remote country districts. It is expected that the meeting will develop a spirit of the service which will quicken the interest of every census employee in the work of collecting the true facts and all the facts required about the growth, resources and population of the eastern section of Florida.

All the census supervisors in the Southern States are summoned to meet William C. U. Hunt of Washington chief statistician of the census, in Atlanta December 22. The four Florida supervisors are expected to attend this instructional meeting and get final pointers for carrying out what is expected to be the most complete census of the United States ever taken. Even remote parts of the Everglades and the camps of the Seminole Indians are being arranged to be covered by the census of 1920, and the changes taking place in most sections of Florida make the census returns a subject of special interest in this state.

Agriculture—Population
A new feature also in the fact that in most of the counties the regular enumerators will be instructed to enumerate not only the agriculture and population, as heretofore, but also the manufacturers. The latter cover a range of industries of considerable breadth, even in Florida, which is not essentially a manufacturing state. It will also add to the earnings of enumerators already in most cases raised to the highest rates permitted by the census law.

Enumeration Begins Jan. 2 1920.
The census is required every ten years by the constitution of the United States and by act of Congress. The date named for beginning the 1920 census is January 2; census day is January 1.

In cities the population enumeration will be completed in two weeks. The enumeration of farms will be completed within thirty days. The census manufacturers, mines and quarries, oil and gas wells and forestry and forest products will, as a rule, be taken by special agents and by correspondence and not by enumerators.

The census is the means by which the government ascertains the increase in population, the statistics concerning agriculture, and the vital information concerning the resources of the nation. **Census for Statistical Purposes Only**
The census inquiries are defined by act of Congress. The information gathered is strictly confidential, made

so by law. Census information cannot, under any circumstances, be used as a basis for taxation, nor can it be used to harm any person or his property. It has nothing whatever to do with detection, arrest, prosecution or punishment of any person for any violation of any law.

Important Questions Asked of All
Age last birthday.

Each person ten years of age and over will be asked whether he is able to read or write. Each person will be asked his birthplace, as well as the birthplace of his father and mother.

If foreign born, the date of coming to the United States will be asked, and if naturalized, the date of becoming a citizen; also the mother tongue or native language. Each head of a family will be asked whether his home is owned by him or rented. If owned, whether

(Continued on page 4)

CRIPPLED CHILDREN CARED FOR

CHILDREN FROM ALL PARTS
OF FLORIDA BEING CURED
OF DEFECTS

Jacksonville, Dec. 26.—Twelve kiddies from as many parts of Florida have found cures for their physical defects in the Orthopedic department of the State Board of Health at St. Luke's hospital. Five of the children have gone home and seven are still in the hospital under treatment.

Three of the children were crippled from paralysis of one or more of their limbs, brought on by infant paralysis. Two were lame from club feet and two had pus infections of the bone, causing lameness. Another of the kiddies had cancer of the bone, another a cleft palate and hairlip and a third paralysis caused by a fibrous tumor pressing on a nerve.

The youngsters in the Orthopedic department during the holidays had their own Christmas celebration with Mrs. Ralph N. Greene, wife of the state health officer, arranging a tree and a shower of gifts for them. Attaches of the State Board of Health entered into the spirit of the celebration and the children were kept busy opening an exciting assortment of packages Christmas day.

The Orthopedic service is for the indigent crippled of the state and the children are treated and cared for at St. Luke's under the direction of the State Board of Health with Dr. J. Knox Simpson, orthopedic surgeon, directly in charge.

ANGUILLAR TO RESUME HIS DUTIES

AS SECRETARY OF THE FOREIGN
RELATIONS OF
MEXICAN GOVERNMENT

Mexico City, Dec. 26. (By Associated Press) General Conrado Aguillar will resume his office as Secretary of the Foreign Relations January 2, it is stated on good authority here. Aguillar arrived here today after spending several months in Europe on a special mission.

Dollars Being Melted
Philadelphia, Dec. 25.—Ten millions of dollars, all in silver, are being melted into silver bars at the United States mint here. Later the bars are turned into dimes, quarters and half dollars. The government finds it cheaper to melt the dollars than to go into the market and buy silver, now selling at the highest price in many years.

POLITICS SIMMERING IN FRANCE

PREMIER CLEMENCEAU WILL
BE PRESIDENT WITHOUT
ANY SERIOUS OPPOSITION

Paris, Dec. 26. (By Associated Press) President Poincaré's successor will be elected January 17th, according to the inference generally drawn by the Parisian press from Premier Clemenceau's statement in the Chamber of his Cabinet that he would definitely resign on that date. It is also deduced from the Premier's declaration that he will be a candidate for the Presidency which means he will be elected virtually without opposition. Speculation regarding Clemenceau's successor as head of the cabinet is eclipsing the discussions as to the next president of the republic. Alexander Millerand governor of Alsace-Lorraine seems to have a great lead as far as predictions are concerned.

WILSON WITHHOLDS ANY ACTION

ON McNARY SUGAR BILL
EXTENDING EQUALIZATION
BOARD POWER

Washington, Dec. 26. (By Associated Press) The president is withholding action on the McNary Bill extending the life of the sugar Equalization Board until the board files a memorandum concerning the measure. It was said at the White House today that the Board requested a delay. No indication of what the Board's action on the bill would be.

FUGITIVE FROM LAW DECORATED

HAD STOLEN MONEY AND
ENLISTED IN MARINES
MAKING GREAT RECORD

Boston, Dec. 26. (By Associated Press) How Arthur Abbott, long wanted as a fugitive for the theft of fifteen thousand dollars from a local trust company enlisted in the Marines and as Sergeant William Haskell was cited for bravery and brilliant war service was disclosed today when it was announced that he had been set free on probation by the District Attorney and that he had received the French Croix de Guerre officially under his right name. Abbott was in the Sixth Regiment and was one of forty-four men left of the famous thirteen hundred Marines who went through Argonne Forest.

WORLD WORKER ASKED TO AID STOP KILLING

OF COMMUNISTS AND SOCIALISTS IN
HUNGARY
SAYS APPEAL

Berlin, Dec. 26. (By Associated Press) Appeals to the World Workers asking their governments to take steps to stop the alleged "slaughter" of communists and socialists in Hungary are being sent out by the Austrian Social Democracy.

Flying Circus Tomorrow Opens Aviation Day of Dixie Aero Company

CONFERENCE WILL BEGIN NEXT WEEK

BETWEEN ALLIED AND GERMAN
DELEGATES ON
PEACE TREATY

Paris, Dec. 26. (By Associated Press) Conferences will begin here next week between Allied and German delegates on measures preparatory to putting the peace treaty into effect it was announced today. The Supreme Council did not hold a session today but announced a meeting for tomorrow.

No Autos Allowed

Hamilton, Bermuda, Dec. 26.—A vigorous effort to raise the ban on motor cars has failed. The House of Assembly voted 17 to 15 against it. For at least another year Bermudians and visiting tourists will continue to walk, ride a bicycle or drive a horse as of yore.

Since little Nantucket capitulated to the forces of progress this colony has held an almost unique position in its opposition to the use of automobiles

PASSENGER SHIPS GIVEN TO ENGLAND

SHIPS OF IMPERATOR GROUP
ARE TO BE DELIVERED
ACCORDING TO PEACE
TERMS

Washington, Dec. 26. (By Associated Press) By direction of the president the former German passenger ships of the Emperor group, now in New York harbor are to be delivered to Great Britain the Shipping Board announced today. The vessels are those assigned to the United States after the armistice for the repatriation of American troops and designated by the Interallied Naval Council to be turned over to Great Britain under the armistice terms already delivered to Great Britain.

RED ENVOY IN NAPLES TO CONFER

SPECIAL MISSION FROM SOVIET
REPUBLIC TO ITALIAN GOVERNMENT

Rome, Dec. 26. (By Associated Press) The Soviet Republic envoy charged with a special mission to the Italian government has arrived at Naples according to a Rome despatch.

TO IMPROVE JERUSALEM

Professor Geddes Has Planned Big Things

London, Dec. 26.—Professor Patrick Geddes, town planner, who has in hand projects for the improving of Jerusalem for the Zionist Organization aims at making the changes without destroying the historic and romantic aspects of the ancient city, according to a statement which he has given to the Zionist Bulletin.

Professor Geddes states that one of his first tasks will be in connection with the Hebrew University, and he hopes to begin on that next year, utilizing buildings already erected. Research laboratories for chemistry will be a feature of the school. Dr. Weizmann, the Zionist leader, who has been reader in bio-chemistry at Owen's College, Manchester, will be in charge of the research work.

Professor F. Geddes says he hopes also to start a Palestine museum and suggest that nothing more of historical and archaeological interest should go out of the country.

Prohibit Cotton Exports

Tokio, Dec. 26.—The Japanese government has decided to prohibit the exportation of cotton yarns and tissues in order to check the advance of prices. Owing to the shortage of supply against the ever increasing demand, the price of raw cotton has gone up 197 percent.

It is alleged that this is in part due also to speculative dealings of cotton yarn brokers, who have taken advantage of the buoyant market and the fast falling supply to deal in futures. The government has decided to exempt from customs duty cotton yarn and cotton tissue imported from abroad. Several large spinners in Osaka and elsewhere have ordered cotton yarns from the United States and China and many Japanese cotton mills will augment their manufacturing capacity with spindles and other machines imported from the United States.

GERMANY GRAVELY CONCERNED

OVER THE RECEPTION GIVEN
TO VON HINDENBURG AND
OTHER GENERALS

Berlin, Dec. 26.—Germany is gravely concerned over the military demonstrations which attended the recent arrival in Berlin of Field Marshal Von Hindenburg when he came to testify before the committee of the National Assembly.

The pan-German newspapers loudly rejoice over the fact that a lion company of the national defence troops was called out to stand guard around the railway station when Hindenburg entered the city. They tell with joy how Hindenburg and Ludendorff received the company and how the crowd pressed around the two former military leaders kissing their hands and clothing.

On the other hand the Vorwarts, the socialist newspaper, denounces the whole affair as a political demonstration with a Pan-German coloring. The paper blamed Major General Reinhardt, commander of the Berlin troops, for "executing this trick" and criticized the government for allowing him to do it. General Reinhardt has since been ordered to retire from the army.

Baron Von Richthofen, addressing the democratic assembly at Lankwitz said: The latest events in Berlin have not been increased abroad the belief in Germany's democracy and the stability of the new German republic. The militaristic demonstrations cannot possibly induce the English and especially the French to leave us the docks and cranes which we need for the reconstruction of our economic life."

Woman's League

London, Dec. 26.—"The success of the League of Nations idea is dependent upon the intelligent co-operation of the women," says Miss A. Helen Ward in an article in the League, a periodical.

The writer suggests the organization of a Women's Bureau of the League of Nations and that the women should be appointed for their general fitness for the purpose of the league, rather than merely as experts in what are known as "women's interests."

OLD ALCOHOL KILLS MEN CHRISTMAS

DRANK WOOD ALCOHOL AND
SIX ARE DEAD AT HARTFORD,
CONN.

Hartford, Conn., Dec. 26. (By Associated Press) Six men are dead here and three are dying from the effect of liquor the police believe was wood alcohol containing coloring matter.

Aviation Field Opened Saturday

THRILLING STUNTS

STUNTS OVER CITY AND PASSENGERS CARRIED UP AT
AVIATION FIELD

Tomorrow will be a big day in aviation circles as the Dixie Aero Company will open their aviation field here with a flying circus in which Owens, known as the Daredevil of the Air will do a lot of stunts and try to get killed just as a hair raiser. Owens will be remembered here as the first man who a few years ago did the triple parachute drop at the Ostrich Farm and other places in the state. He has not given up the parachute business but during the war invented the aviator's parachute that fastens on the shoulders of the aviator and allows him to drop more gently to the ground when his plane falls. Owens will walk on the wings of the plane while it is going one hundred miles an hour and do other stunts over the business portion of the city. At the aviation field which is located south of the city in the Sanford Orlando road Owens will make a parachute drop from his plane while it is 5000 feet in the air.

At the field the passenger service of the Dixie Aero Service will be inaugurated and passengers will be carried on short flights for \$15 per flight and Saturday will be a big day in many respects opening as it does the new aviation era, that of aeroplane service used in a commercial way. Lieutenants Lowell and Langley have been here for some time getting up the Dixie Aero Company and have enlisted many of the business men of Sanford, Eustis, Okeechobee City and other points in their company and the aeroplane to be used as a passenger carrier has come to stay and Sanford is fortunate to be chosen as one of the stations and as the principal headquarters of the new company. All the business men of Sanford have arranged for the big flying circus here tomorrow and it is expected that a large crowd will be here to witness the thrilling events. The merchants will arrange for the crowds and will have many tempting bargains for the shoppers and Saturday should be a gala day in many respects.

While the aviation field is some distance from the city the ships will do all their stunts over the business portion and those who make flights from the field will be taken over Sanford that they may see their homes and friends one more time before they drop into Lake Monroe and the sight of lovely Sanford and the surrounding farms is one of the most beautiful sights in Florida for the aviators say. Remember the big day is tomorrow and the events will start promptly at 2 O'clock and the events will take place over the city.

AMERICAN SAILORS IN MEXICAN JAIL

BEING HELD ON CHARGE OF
BEATING UP A CITIZEN OF
MAZATLAN, MEXICO

Mexico City, Dec. 26. (By Associated Press) Eillard Medina, in charge of the Mexican Foreign office declared today in answer to the question about the arrest of American sailors as follows: Two American sailors were arrested at Mazatlan for assault upon Mexican citizen were as far as the Foreign Office knew still held there under the provisions of the Mexican common law.

Taking Art Treasures

London, Dec. 26.—The House of Commons has been informed that large numbers of works of art have been leaving this country recently for America and elsewhere. The Chancellor of the Exchequer, Austin Chamberlain, said there was no export duty on works of art but "there was much to be said in favor of imposing such a duty."

CATES CRATE COMPANY, THE BIG FEED HOUSE

RUSSIA STARVES UNDER RED RULE CONDITIONS AWFUL

ALLIED BLOCKADE SLOWLY STARVING RUSSIANS TO DEATH IN THE CITIES

Helsingfors, Finland, Dec. 17. (By Associated Press) The only bread of the majority of the residents of Petrograd have been able to obtain for months had been the so-called "duranda" made from flaxseed skins from which the oil has been pressed. M. Saponen, a Petrograd art dealer who recently succeeded in escaping from Bolshevist Russia to Finland, who discloses this situation says the bread is highly irritating and causes stomach trouble.

M. Saponen expressed the opinion that, if the Allied blockade continued the worst months for Bolshevist Russia would be March and April. He stated that, though unemployment was general in Petrograd, it was difficult to hire workmen owing to their weakened condition. An apathy among the Russians, who are not allowed food rations, get nothing except what they manage to buy surreptitiously by selling their furniture and other possessions.

"Bartering is extensively practiced in Petrograd and Moscow as well as in the country" continued M. Saponen. "No one may legally possess more than 5,000 rubles. When people have nothing more with which they may trade they must join the Communist party in order to get work. That is difficult however, for the bourgeoisie. All the educated people try to move into the country where conditions are better."

Last March, foreigners, who up to that time had enjoyed special privileges, became the objects of persecution, declared M. Saponen. This gradually increased until June when foreigners, especially the English were attacked wholesale.

"The Germans after the Brest-Litovsk conference could do as they liked, but a change came with the German revolution. The German diplomats were badly treated and after June 1 all Germans shared the fate of other foreigners."

There has been little home life in Petrograd since July 1, M. Saponen stated, when parents were ordered to take all meals in the communal eating houses. This order has not yet been extended to Moscow.

EXPRESS EMBARGO LIFTED

Great News For Florida Growers And Shippers

Washington, Dec. 17.—Embargo on shipments fruit, vegetables from Florida be lifted today officials American Railway express announced.

The L. Allen Seed Co.

Will Lay Views Before Congress

Washington, Dec. 16.—Under plans of officers of the American Legion in session here congress will be called upon to hasten legislation favorable to veterans of the world war. Senators will be asked why they did not concur in the house action on the Sweet bill the extend the benefits of the war risk insurance act. The delegates have tentatively decided to urge congress to combine under one head, the war risk insurance bureau, the public health service and the federal board of vocational education, claiming that under this system state legion officers could better co-operate with the government in the interest of ex-service men.

Delegates also agreed to recommend revision of the Sweet bill to create 48 state directors for the war risk bureau instead of 14 regional directors, as provided in the measure.

FORD RUNS A FACTORY

Owner Hooks Flyver Up to Pulley and Operates on Auto Power

Plant City, Dec. 17.—A. H. Williams, who, a few months ago lost his broom factory in this city by fire when several buildings on Canal street were destroyed, has just turned out what may prove a revolution when it comes to supplementing the electric power. It is the Williams Autopower Pulley, and, attached to a Ford truck yesterday demonstrated what can be done with it. All the machinery in the Burney Lumber Company's mill was operated at one time, the engine of the Ford, through the pulley attachment, taking the place of the twenty-horsepower motor for a few minutes.

Big Dance and Oyster Supper

Among the social functions announced for the Holiday season is the Dance and Oyster Supper to be given by the fellows of the Senior Chapter of Saint Andrew at the Parrish House, Tuesday night, December 30th. 45-0tp.

Origin of Popular Flavor. Vanilla flavoring is obtained from the fruit of an orchid.

EAST COAST RAILWAY HAS WRECK

TWELVE CHINESE ENROUTE TO CUBA ARE BADLY BRUISED

Miami, Dec. 24. (By Associated Press) Twelve Chinese enroute to Cuba under guard were badly bruised when the south bound Overseas Limited for Key West on the F. E. C. Railway collided with a northbound freight at Jensen near here early today. It was said that the Limited ran by the meeting point.

Mummies Found in Steam-Heated Cave; Vault Kept Warm by Volcanic Fires

The mummified remains of 13 Aleutians were found in a steam-heated cave on Raganil Island recently, and 11 of them have been taken to the National museum at Washington. The cavern that served as a burial vault was kept warm by volcanic fires. The mummies were wrapped in skins and nets, and were completely dried up. It is supposed that the ancestors of the present island natives mummified their dead because they did not wish to part from them, and not for any religious reason. Their method was to wrap the bodies in the skins and intestinal membranes of sea mammals, place them in a squatting attitude on wooden trays, and hang them up in dry caves. Many of them found are undoubtedly very ancient, but of the origin and history of the race little is known. The Aleutians spoke the Russian language when the islands passed into the possession of the United States, along with Alaska, in 1867. Then until 1884 they were left to govern themselves. They have now forgotten the Russian tongue, and are becoming Americanized. Most of them live in clean wooden houses and wear American clothes. The women wear wonderful fabrics of grass, so finely plaited that they resemble silk.

Word "Nothing" Defined as Meaning Something

Words, says an authority, have an elastic meaning, according to the sense in which they are employed; much also depending on how "nothing" is defined. As sometimes used, "nothing" means something very insignificant, but still something that really exists. For instance, you pick up an empty bottle and say: "There is nothing in it"—but there is air in it. When a person is taken ill he may say: "It is nothing;" but it may turn out to be something that will result in his death. Then again the expression, "It began life with nothing," means that he began with very little. "I have done nothing all day" means that I have accomplished little, not that I have actually done nothing, for that would be impossible. Such uses of words are proper, according to common sense as well as authority. Dryden wrote: "Tis nothing, says the fool; but, says the friend, tis nothing, sir, will bring you to your end."

THOUGHTS OF WISE MEN

Discontents arise from our desires oftener than from our wants. Getting on is largely a matter of getting up each time you are knocked down. Sorrow does not really change people; it only develops what is already in them. That which they bring to it they will reap from it. The mood in which we begin a day makes us a discordant note or helps the harmony of every circle in which we find ourselves.

NO THE WAR HASN'T STARTED AGAIN

It's just the new tire that cost a bunch of money blowing out miles from nowhere. But never mind—stop worrying, Mr. Motorist. Our tire vulcanizing will fix you up in great shape. We'll save you money and make your tire better than ever.

DAREDEVIL STUNTS TO BE PULLED

OWENS WILL WALK ON WINGS OF AEROPLANE AND JUMP OFF IN PARACHUTE.

The business men of Sanford will pull a big stunt here Saturday, having engaged the Dixie Aero Service to feature Daredevil Owens who takes an aeroplane and flies upside down, walks on the wings of the planes, makes a parachute jump from the aeroplane 5,000 feet in the air and does all kinds of stunts over the business section of Sanford.

He will do all of this on Saturday starting at two o'clock and it will be some stunts, the like of which has never been seen here before. Remember the date, Saturday afternoon at two o'clock.

NO CHANGE IS GIVEN

Mexican Merchants Refuse to Make Small Sales.

Silver Coins Are So Valuable They Are Being Hoarded and Sold for Their Metal.

Mexico City.—The most persistent phrase encountered by the buying public in Mexico at present is "No hay cambio," "there is no change." The silver in the Mexican peso, 20 cent piece, and the smaller coins is worth more than the face value of the coins, so this money has been hoarded by many persons and sold for their silver content.

The result is that "cambio," or change, has disappeared, and persons who buy or sell are forced to pay from 4 to 7 per cent for silver pieces from brokers. Most merchants refuse to make small sales if they are forced to give change, asserting they would lose money in the transaction.

The "azteca," or Mexican 20-peso piece (gold) is practically useless as money in stores or cafes when the purchase is for a small amount.

"I might as well be broke as have an azteca," complained an American who was hungry and could not find a cafe to change his gold. Later he hit upon a unique scheme. He deposited the "azteca" with the cafe proprietor and proceeded to eat at intervals until he had no more credit, which, with prevailing prices, was not a long time.

HEADS ARMY CHAPLAINS

This photograph shows Bishop Hayes, who is soon to go to France as head of the American army chaplains. He will go as a civilian, having declined a commission.

Caring for Food Chopper.

My food chopper always left two dark, ugly marks on the drainboard when I used it. Finally I resorted to adhesive plaster. I covered the clumps with small strips of the adhesive plaster, and I find that it not only prevents the marks, but stands any amount of washing. — Good Housekeeping.

"Amen Corner"

The phrase "amen corner" is said to have originated in London, where at the end of the Paternoster row, the monks at one time finished their recitation of the "Pater Noster" as they went to procession on Corpus Christi day at St. Paul Cathedral. They began in Paternoster row with the Lord's prayer in Latin, continuing it to the end of the street, and then said "amen" at the corner of the row. As used in this country the phrase describes the corner of a church where the elderly members sit at intervals.

Wight Tire Co

Great Holiday Season Sanford Merchants Busy Have Had Fine Business

Stores Were Filled With Shoppers

DESPITE HANDICAPS

AND NEW YEAR BRINGS GREAT PROMISE TO BUSINESS ALONG EVERY LINE

Despite the loss of lights on nights when they were needed and the inclement weather and other drawbacks that mitigated from the holiday spirit the merchants of Sanford report one of the best trades in their experience in Sanford.

They have had a fine business for the month of December but the cool weather coming late this season kept back the winter trade in woolen goods and heavier clothing until December. However the trade for the month has been exceptionally good and it means that from this time forward the business men of Sanford can depend upon a good trade not only from Sanford but from the surrounding territory.

The merchants of Sanford have also decided that due to the uncertainty of the prices that may prevail after the first of the year when the government states that all prices will come down for the manufactured goods that they will not carry anything over and our merchants will

make a strong bid for trade during the post holiday season for they will inaugurate some big sales that will tempt the buyers to come to Sanford and take advantage of the prices on all seasonable goods.

With the advent of the daily paper in Sanford every line of business has taken on new life and the merchants have been such liberal advocates of newspaper advertising as to cause most favorable comment from other parts of the state and the visitors to the city are most favorably impressed with the push and go of the business men of this city and the fact that they are supporting a live daily.

With Christmas here and bright prospects for the spring and summer season and the opening of the new hotels Sanford looks ahead to the future with high hopes and aspirations.

TELL OF VIENNA STARVATION

Viennese Physicians Describe Conditions in City Before Meeting in London.

London.—Description of starvation conditions in Vienna were given by two Viennese physicians, Herr Schlessinger and Herr Hertz, at a meeting held here under the auspices of the fight the famine council.

The latter declared Vienna was virtually blockaded on all sides and suffering from lack of coal. He declared the industries of the city were going to pieces.

Dr. Schlessinger said food conditions in Budapest were less serious than in Vienna because farmers are selling their cattle, rather than risk seizure by the Roumanians. He asserted, however, that this was only a temporary expedient and that unless help was forthcoming, widespread suffering in Budapest was probable.

POINTERS ON ELAPSED POLICY

Not Necessary to State Physical Condition at Reinstatement in Three Months.

Washington.—Under modification of conditions governing reinstatement of elapsed policies announced by the war risk insurance bureau, no statement as to physical condition will be required within three months after discharge from the service, but after three months a statement declaring the policy holder to be in as good health as at the time of discharge will be required, together with a written request for reinstatement and two months' premiums. Policies may be reinstated within eighteen months after discharge upon payment of two months' premiums, and all lapsed policies may be reinstated until next Dec. 31 regardless of the length of time since a premium has been paid.

Old Man Plays Ball.

Berlingame, Cal.—Celebrating his one hundred and fourth birthday by playing baseball with youngsters in the neighborhood, Daniel McClane, a miner of Lassen county, visiting his daughter here, said he "just wanted to have a little sport before returning north." McClane attributes his longevity to temperate habits and plenty of exercise.

The Main Point.
"Your society was formed to decide a number of questions of great scientific importance?" "Yes. We arranged to consider the manifestation of the psychic impulse in protoplasmic life and the molecular energy developed by the piezo-metric translation of light waves and kindred topics." "And have you done so?" "No. We've only been in session a week. We haven't yet decided the question of who is to be chairman."

On the Pike.
The old national pike, that stretches cent road that used to run from Maryland to Illinois, witnessed some sharp brushes of fast driving and many an adventure of travel. The New York Tribune tells one story about Henry Clay, who was sometimes called the "Father of the Turnpike." He was traveling along the pike in a coach, when the horses ran and spilled him out headlong into the dirty road. "No harm done," he said when the driver rushed to pick him up. "Only a poor mixture of Pennsylvania sand with Kentucky clay!"

FERTILIZERS—SPRAYING MATERIALS—SPRAYERS
H. HAROLD BUME, Pres. W. P. SIMMONS, Vice-Pres. D. A. MORRISON, N. See'y & Treas.
The value of a fertilizer depends upon the quality and proper blending of the materials entering into its composition, and the care used in manufacturing. We use high grade materials and our fertilizers are backed by more than thirty years experience in their use and manufacturing. Quality is placed first and our prices are in line with quality and composition.

CATES CRATE COMPANY, THE BIG FEED HOUSE

FIVE KILLED BY TRAIN AT JACKSONVILLE

MRS. W. B. TALLEY AND FOUND OTHERS KILLED SUNDAY AFTERNOON AT CROSSING

Jacksonville, Dec. 24.—Five were killed and another fatally injured at 4:40 o'clock yesterday afternoon when the Atlantic Coast Line railway passenger train No. 85, southbound, crashed into a seven-passenger automobile at the railroad crossing at the old Orange Park road, in St. Johns Park, about five miles southeast of this city.

The dead are:
Mrs. Nellie Talley, wife of W. B. Talley, a well known architect, 215 West Seventh street.

Ralph McMillan aged 14 years, son of Dr. H. McMillan, Springfield boulevard and Silver street.

Herbert Simmons, aged 14 years, 1221 Perry street, son of A. B. Simmons, who conducts a meat market at 50 Main street.

James Selby, aged 13 years, son of James Selby, 1846 Hubbard street.

Roberta H. Cravey, aged 12 years, stepdaughter of H. W. Purcis, superintendent here for the Seaboard Air Line railway, of 17 West Seventh street.

Sarah Talley, 13 years old, daughter of Mrs. Talley, who was killed was taken to the Riverside hospital in a dying condition.

The automobile, a large Mitchell car, was driven by little Herbert Simmons. The party had been in the woods gathering holly and Christmas evergreens and was returning to the city when the tragedy occurred.

Due to inclement weather the storm curtains were up on the automobile, and this fact undoubtedly obstructed the view of the occupants of the automobile. In fact it is extremely doubtful if any of the party saw the on rushing train until it was upon the closed car.

The automobile was struck with a terrific crash and was splintered to pieces, some of the wreckage being dragged some distance from the spot where the machine was struck.

The engineer instantly applied the emergency breaks and stopped his train as soon as possible. The last car of the train stopped about two hundred feet from the crossing.

The bodies of Mrs. Talley and Herbert Simmons, who occupied the front seat of the automobile, were scooped up on the pilot of the engine together with parts of the wrecked car.

Both were dead when they were removed from the pilot. A long ragged cut entirely laid open the face of the boy, his neck was broken and his body was badly bruised.

Mrs. Talley's skull was fractured and she was also badly bruised about the body.

The bodies of Ralph McMillan and James Selby were found pinned under the burning chassis of the

wrecked automobile. Both sustained broken necks besides other injuries.

Roberta H. Cravey was alive when she was lifted up, but in a dying condition, and she died shortly after arriving at the Riverside hospital.

Sarah Talley, suffering from a fractured pelvis bone and internal injuries, was also rushed to the same sanitarium. An examination disclosed the fact that she was fatally injured and that her death appeared to be only a matter of hours.

She regained consciousness at the hospital and asked "what was the matter." The tremendous shock she sustained also greatly mitigated against her recovery. It seemed evident that she did not know of the approaching train, and did not even know what caused her injuries. It is highly probable that the other occupants never saw the train at all.

Train No. 85, southbound for Tampa, left the local yards at about 4:25 yesterday afternoon, being ten minutes late in clearing the terminal station here. It was due to arrive at the crossing fifteen minutes later.

The train was in charge of Conductor Wallace A. Kelsey, of 233 West Fourth street. Engineer, near T. J. E. Wells, of 1932 Walnut street, was at the throttle. The train after stopping at the scene of the accident, where the crew and passengers rendered every possible assistance to the injured people, proceeded towards its destination, stopping at Yukon, a few miles south of Ortega, and reporting the accident to officials of the railway company at Sanford the facts being relayed to Jacksonville by telephone.

Brazil's Richest Mineral Zone in Heart of Republic in State of Minas Geraes

The richest mineral zone of Brazil lies in the heart of the republic, in the state of Minas Geraes. But throughout the central and northwestern provinces there abounds a wealth of gold, silver, iron, manganese, diamonds and other precious stones, says the Scientific American. At the present time, however, only a small portion of the valuable beds of mineral is being worked. Doubtless existing unsatisfactory mining laws, as well as lack of fuel and transportation facilities, are responsible for this condition. Practically the only deposits being exploited at the present time are those of manganese situated near the railroads. The largest of these is the Mina do Morro, which played a prominent part in American life during the war, large quantities of this mineral being required in the manufacture of steel. Over a road ballasted with the valuable manganese ore, the train bearing the visitor climbs to the top of a mountain of manganese, where the actual process of mining is carried out in the open air. This appears to consist of literally nothing else than the digging or dynamiting off of a hillside and the carting away of the fragments.

Showcase and Weighing Machine. Chiefly for restaurant use is a recently invented combined showcase and weighing machine.

DEPORTATION EXPLAINED TO NATIONS

IN ORDER THAT SAFE CONDUCT OF RADICALS CAN BE PROCURED

Washington, Dec. 24.—Explanation of the deportation of the 219 Russians on the transport Bufort, was cabled by the state department today to "various foreign capitals." The message said precaution had

been taken to request for them safe conduct and humane treatment at the hands of the authorities through whose jurisdiction they will pass enroute to Soviet Russia.

The message made public follows: "There are being deported from the United States to Soviet Russia about 250 citizens of Russia who are undesirable here. There are persons while enjoying the hospitality of this country, have conducted themselves in a most obnoxious manner and while enjoying the benefits and living under the protection of this government hold heretories which are antagonistic have plotted its overthrow. They are a menace to law

and order. They to the modern processes of modern civilization. They have indulged in practices which tend to subvert the rights which the constitution of the United States guarantees to its citizens. They are arrayed in opposition to the government, to decency, to public food. They are friends of violence in derogation of the law. They are anarchists; they are persons of such character as to be undesirable to the United States of America and are being sent whence they came. Their deportation is in accordance with the law.

"Steps have been taken to request for them safe conduct and humane

treatment at the hands of authorities under whose jurisdiction they will pass enroute to Soviet Russia."

Succumb to Lottery's Temptation. Lotteries for raising public funds are of unusual in Central and South America, and every now and then an alert postal authority brings to light the fact that many a subscriber lives north of the Rio Grande.

The Happy Ending. "Marguerite, can you cook?" "No Perceval; can you afford to keep a limousine?" "No, dear." So they did not marry and they lived happily ever afterward.

Examples of ingenuity are never wanting in building construction.

Look, here is a common carrier problem easily solved Have towed only for a test, on brick, sand and shell road.

A MISPRINT?

NO, INDEED! IT IS A FACT!

Not simply "One of the good ones," Nor yet is it just "One of the best."

You know how it is when you ask a farmer about hauling anything, he generally answers: "Sure, that's one of the Good Ones," but when he saw the Tin Lizzie and the Trailer loaded and going some, "It is the best I ever saw."

Every trailer made has features of particular worth, but this one has EVERY feature of particular worth built right into it; it has the sturdiest form of practical, dependable and economical cross-country transportation.

The hardest work that a Tin Lizzie, Anno 1917, and a Trailer is ever called upon to perform is the work required of it by a farmer. No other trailer made has a better, cleaner record than this one.

If the police traffic regulation allows me I will haul three tons any day.

Built by a farmer for other farmers to use.

The city is filled with people.

And they are patronizing the home
merchants as never before.

It is probably the best holiday season
in the history of Sanford.

The Herald continues to come out
regardless of the poor service in the way
of lights and power.

We can probably live through it
but we will not look like anything for
some time afterward.

We have been promised better service
but hell is also paved with good intentions
and has no electric light service.

Anyhow we cannot hold any ill feelings
during the holiday season and if
we can get a nickel's worth of light and
power we will print.

The editor of the Herald had an attack
of heart failure on the street the other
day. A friend told him that Sanford
would soon have a white way. The
joke almost killed him.

But just wait old friend, Sanford
will have a real utility plant some day
and it will belong to the city and when
the time comes we will have a white
way and everything.

The Herald wishes to commend the
city of Sanford on the neat appearance
of the streets and the parks. They
look fine and show the fine Italian
hand of some of our ladies.

FORGIVE AND FORGET

One thousand nine hundred and
nineteen years ago a child was born,
of a virgin mother. Throughout the
years which have flown since this memorable
event we have celebrated the
birth of that child. The halo which
surrounded its little head has remained
fixed in our memories through all the
centuries of time, and will continue
to be with us until time ceases to be.

This child was the Christ—the son
of God—as a man, was nailed to the
cross, and forgave his enemies who
crucified him there. Another year is
drawing to a close, and the lesson learned
from this good man are again brought
forcibly to our minds at the Yuletide
season of our rejoicing.

As Christ forgave his enemies, so let
us forgive ours, and forget the injustices
which they have done us. The harboring
of ill will does good to no one. It
may do harm to many. But the great-
est harm of all is that which springs
from a mind of hate and poisons the
heart in which it finds lodgment. It
kills the joy of life and fills the road
to eternity with impassible barriers, be-
yond which only the fit in mind and
heart may go.

At the Christmas of 1919 let us all
forgive and forget, and begin the New
Year with joy in our hearts and good
will toward all people. For Christ
was the teachers of teachers, and his
lessons are indelibly stamped upon the
pages of time.

IT IS NOT SO

The usually correct seeing and
speaking Sanford Herald says: "Col-
lectively speaking the American eye
is slowly closing to the path of honor
and right and justice. To the one
of greed, it is a flaming magnet which
seeks to draw everything of value
within its grasping fangs. The insane
desire to get rich quickly has dead-
ened the pulse of the nation, until
civic and commercial virtue possess
about the potency of a long dead
jellyfish. This is especially true since
the country plunged headlong into
a sea of wild speculating and pro-
fitsteering following our entry into
the world war."

It is not true. Suppose the war
has made a million new millionaires,
are there not still a hundred and
nine million "who have not bowed
the knee to Baal?" Suppose there
are profiteers in this, that, and the
other thing, are there not also pa-
triot and devoted lovers of country
and right, everywhere?

Suppose there are 249 unworthy
foreigners who have to be deported
because of attempts to injure the
country, are there not several mil-
lions worthy foreign born left, who
are helping us undo what the few
have tried to do?

"Collectively speaking," the Amer-
ican eye is fixed on honor, and right,
and justice. Individually there are
a few who have turned to the glare

of greed. The insane desire to get
rich has deadened the pulse of but a
few.

The Herald spoke without con-
sidering what it said. The great
American heart is collectively as
sound and as pure as the heart of
of a god. So long as the body politic
is clean and healthy, "gangrenous
spots" can do no further harm than
make painful sores, for the clean
blood will send its healing into the
places where healing is most needed
and the wounded member becomes
again whole and sound. — Tampa
Tribune.

We are right, Sir John, regardless
of the fact that there may be a
faithful few who are not imbued with
this rapacious spirit the idea of get-
ting it while the getting is good is
predominant. We can easily see how
an editor would think otherwise
if any man would but you might
just as well get round to the fact
that the majority of the people in
the world today are money mad and
are doing everything in their power
to get money by fair means or foul,
by profiteering or by plain stealing
from the people by raising the prices
of those things which are essential
to life. Without being pessimistic at
all we can say that such is the case
although the world is convalescing
and the government of the United
States intends to give the profiteers
a good dose of castor oil after the
first of the year and the future looks
much brighter. We do not say there
are no good people, good patriots,
devoted lovers of country. There
are a few of them left, but mighty
few, brother, mighty few.

CAN WE STAND ANY MORE?

The Southern Utilities Co., plant
was laid out again all day Saturday
and Saturday's Herald did not come
out and in order to give the advertisers
a square deal this issue has been cut
out. The Herald loses a day's adver-
tising and there is no telling how much
business in other ways that have been
lost. Saturday night the lights were
cut off the streets and all the residences
and a weak current was turned on for
the business houses and they attempted
to do business by the flickering fire-
flies that was called current and the
best night in the year for the merchants
went down into history as one of the
poorest on account of the broken down
plant that has been giving a rotten ser-
vice for many months here.

The current was off Saturday night
and all day Sunday and Sunday night
and the city was in total darkness for
this time. The company said it was a
lack of fuel and that as soon as they
could get a tank of oil they would turn
on the current. Monday morning
they turned on the lights but the power
plants were cut off and the Herald plant
was laid out all morning. We came
out in abbreviated form and are trying
to give the people a daily service with
this shoe string service. We hate to
shut down the plant for it means a dis-
continuance of the daily altogether
and a probable discontinuance of the
printing business for several months
which would really mean that the Her-
ald plant would go out of business.
The Southern Utilities Co., has irrepar-
ably ruined our business.

The holiday season is the best adver-
tising season of the year and we have
lost this business. The merchants
have been very kind in this delinquent
and have kept up their advertising
right along and up to last Saturday
we never missed an issue operating our
plant under difficulties but but few
printing plants have ever had to suffer.
We have an up to date plant equipped
with individual motors and there is no
possible chance to operate with any
other kind of power without buying
thousands of dollars worth of new ma-
terials that would be thrown away
should Sanford ever get a first class
power plant.

Every plant in the city that uses
current and every business firm in
the city has lost money by this utilities
plant that has the nerve to collect
money for this service and that has cut
out every consumer that failed to pay
his bill promptly. They have assumed
a high and mighty attitude toward
the people of Sanford ever since they were
allowed to purchase the plants here
and were given a franchise. They have
forfeited every right and every fran-
chise that they may have had in this
city and the good name of Sanford has
suffered a loss from which it will take
years to recover.

If the company had suffered a break-
down through no fault of their own
we would be willing to suffer the loss
with them. If they had met the peo-
ple of Sanford half way at any stage of
the game the people of Sanford would
have met them in the same spirit. But
they had a broken down plant at this
time last year and had the entire sum-
mer to make repairs and get ready for
the heavy load of the winter busi-
ness. They made no attempt to re-
pair the plant, made no attempt to
hire competent engineers at the plant,
made no attempt to place the plant in
any kind of shape and that they are
now endeavoring to replace the worn
out parts of the plant and make the
people suffer while this is being done
is the reason that the merchants and the

ALL 'ROUND THE STATE

NEWS OF THE GREAT STATE OF FLORIDA

Compiled in Tabloid Form For Busy Herald Readers

The formal opening of the Windsor
Hotel in Jacksonville, Monday night
was a brilliant affair. The event was
made a Yuletide affair, and the com-
bination of Florida's tropical plants
added much to the decorations. The
Japanese garden was the center of
quite a number of dinner parties.

Building permits were issued in
St. Petersburg this week for new
residences to cost a total of \$20,000
several of the houses being large and
attractive bungalows. The building
started there this week has been less
than usual, but after the new year
it is expected that considerable work
will be started.

A mandamus against the centen-
nial commission to require them to
assemble and select a site, or to
show cause why such action should
not be done, will be the next step
agreed upon by the Pensacola mem-
bers of a delegation who went to
Jacksonville, and who heard the com-
mission make the announcement that
despite the opinion of the attorney
general to whom the question was re-
ferred the resolution providing for
four small fairs instead of one great
exposition would not be rescinded.
This action was announced after a
9-hour session of the commission
and it was stated that Commission-
ers John B. Jones and McWilliams of
St. Augustine, were as a unit in
fighting the resolution. — Times Union

Capt. S. S. Saunders, who lives

above Dunedin, came in the Sun office
the other day with a large
sample bag of the Florida cranberry,
or roselle. He explained that this
fruit was not cooked entire, as are
cranberries, but the bottom is first
cut off, the seed bulb removed and
then the red husk cooked in the same
manner cranberries are prepared.
When boiled before sugar is added
the resulting sauce cannot be dis-
tinguished from cranberries. This
Florida cranberry unknown to too
many people, is a perfect substitute
for the northern cranberry, and there
seems to be no reason why it should
not be more commonly grown. Capt.
Saunders grows the roselle for mar-
ket, and always has enough for his
friends. He has one of the finest
winter gardens in this section. In it
are now growing beets, onions, cab-
bage, turnips, rutabaga, cauliflower,
radishes, garden peas, sweet peppers,
and some green pumpkin, and big
tomatoes. His only fertilizer has been
fish scrap, which he procures himself
mixed with seaweed. — Clearwater
Sun.

The announcement that the avia-
tion field at Arcadia is to be main-
tained by the government as a per-
manent institution is evidence that
a field located where year round fly-
ing is possible holds out many ad-
vantages in the development of avia-
tors. Florida might well make a
concerted effort to have this State
made the location of all the winter
flying schools. — Palatka News

SOME LUCKY FINDS

Priceless Art Treasures Dug Up
in Odd Places.

Recovery of Long-Lost Old Master's
Have Not Infrequently Made the
Fortunes of Their Fortunate
Discoverers.

The recent discovery of a long-lost
Raphael in an old curiosity shop in a
Paris slum recalls many a story, no
less dramatic, of treasure trove in
art, says a London Tit-Bits writer.
It is not long since a stolen canvas
by Raphael of the "Holy Family" was
found in the cottage of an Italian
peasant, where it was serving the sor-
did purpose of stopping a broken win-
dow; a Correggio which had vanished
from the walls of the Dresden gallery
and been lost to sight for generations
was recovered from the recesses of
a Saxon hayloft, and priceless tapest-
ries, designed by Raphael for Pope
Leo X., were rescued from the hands
of a Paris Jew after he had burnt two
of the pieces in order to extract the
gold and silver contained in their
texture.

Raphael's pictures, indeed, seem to
be peculiarly ill fated. Only a few
years ago his "La Belle Jardiniere"
was picked up at a second hand shop
in Paris for 44 francs. His Vatican
"Adam and Eve" was found—hung
aside in the corner of a picture deal-
er's shop in the Rue St. Lazare, by an
artist who paid a hundred francs for
it, and sold it a few days later for
80,000, and for a modest 50 centimes
a Parisian art amateur purchased
Raphael's original design for his great
picture, "La Disputa Sacramento,"
for which he would willingly have
paid 20,000 times as much.

More romantic still is the story of
the great master's famous picture, "The
Massacre of the Innocents," which was
recently discovered in the cottage of
a poor widow at Como. Originally
owned by Cardinal Luigi d'Este, it had
somehow come into the possession of
a priest, who had paid the equivalent
of a sovereign for it, and who gave it

"U.S." Boots—made in all sizes
and styles, red, black and white

Easy on your feet —
extra thickness where the wear comes

At the nets, pitchforking the
catch, washing out the
scuppers, cleaning fish
for hours at a stretch—the
hardest work you do is made
twice as hard if your boots go bad.

rubber boot, made for fishermen.
Every U. S. boot is backed up
with extra thicknesses of pure rubber
and good strong duck where the wear
is hardest.

Every pair has plenty of room at
the toes and is shaped so as not to rub
up and down at the heel.

Go to the store and see for yourself
these U. S. boots for fishermen—any
length you want—the Half Hip, the
Hip, the Knee Boot. Ask for U. S.
Rubber footwear—it means solid wear
and long service for your money.

It's cold, wet feet if they leak—
blisters, chafed skin, and aching
muscles for hours if they don't fit.

A real fisherman's boot—strong and
tough at every point, made on a good
comfortable last—that's the new U.S.

JEW OF LEMBERG HONOR PRESIDENT WILSON

The Jews of Lemberg, Galicia, recently paid a great tribute to President Wilson by placing his name in the Golden Book of the Jewish National Fund, which will be placed in some building in Jerusalem. It contains the names of those who have rendered some great service to the Jews. The photograph shows the certificate issued to Mr. Wilson.

CROP ESTIMATES COVER WIDE AREA

Functions of Important Government Bureau Explained.

GATHER FACTS ABOUT CROPS

Scope of Information Contained in Reports of Bureau of Crop Estimates Covers Cereals, Forage, Fruits, Vegetables, Live Stock and Miscellaneous—Reports Made at Various Times in Year on Condition of Crops.

(Prepared by the United States Department of Agriculture.) While the public has some idea of the functions of the bureau of crop estimates of the United States department of agriculture, inquiries frequently received indicate that many persons still have little conception of the great field covered by the bureau. The scope of information contained in several crop reports of the bureau may be indicated under the following heads: Cereals, forage (grasses), fruits, vegetables, live stock, and miscellaneous.

In the case of many of the subjects listed below, the bureau undertakes to estimate crop condition several times during the season. Thus from May until October the condition of from 20 to 30 products is reported on monthly. In December more than a score of final estimates, including acreage, production, and values, are issued, and on the majority of the products the prices are supplied each month throughout the year.

Under cereals the bureau furnishes a great mass of information at various times in the year concerning the condition of barley, buckwheat, corn, oats, rye, and spring and winter wheat. The estimates regarding forage crops include alfalfa hay and alfalfa seed, clover hay, clover seed, field peas, timothy hay and wild hay, grain sorghums, etc., meadows, millet, pastures, and timothy hay. The subproducts under fruit are even more numerous, there being 16 in all, including apples, cantaloupes, grapes, lemons, oranges, pears, prunes. Ten different vegetable products are reported on at various times of the year, namely, dry beans, lima beans (California), callalagos, cauliflower (California), celery (California), field beans, onions, potatoes, sweet potatoes, and tomatoes. The live stock estimates include in most cases the condition of the stock, losses from diseases, losses from exposure, the number of animals, and prices at certain seasons. Figures are compiled regarding horses, mules, milk cows, and other cattle, sheep, lambs, swine, and colonies of honey bees.

THERE may be problems connected with your return to civil life that are difficult to solve.

There may be places where our advice will help, where the assistance we can give will be all that is necessary to help you on. We invite you to come to us freely. We pledge you our aid to the extreme limit of sound banking practice.

TRACT ADDED TO NATIONAL FORESTS

1,116,000 Acres in Thunder Mountain Region of Idaho Set Apart.

HAS LONG BEEN A MENACE

Recurring Forest Fires Have Endangered Adjoining Portions of National Forests—Great Tract is Difficult of Access.

(Prepared by the United States Department of Agriculture.) Washington, D. C.—In accord with almost unanimous sentiment in Idaho and in response to considerations vitally affecting adjoining national forests, congress has set apart 1,116,000 acres of land in Idaho known as Thunder Mountain region, as national forest lands. This great tract, difficult of access and having not over 1 per cent of its area suitable for agriculture, has for years been the scene of destructive fires and devastation due to overgrazing. It is now to be added to the Payette national forest which adjoins it on the south and west, and the Idaho national forest which adjoins it on the north and west. The area lies approximately 100 miles northwest of Boise. Because uncontrolled, it has been a recurring menace to the adjoining national forests by reason of fires that have gained great headway in its vast unpatrolled regions. Swept by Forest Fires. What has taken place in the Thunder Mountain region, according to officials of the forest service, United States department of agriculture, is typical of what would have taken place in most of the national forests had these areas not been protected. Three hundred thousand acres, or approxi-

MISHAP TO AUTO STIRS SLAVONIA

Soldier Cuts Telegraph to Make Repairs and Results Are Astonishing.

HAS DIPLOMATS WORRIED

Ties Up Railroad Traffic and Results in Congestion That Takes Month to Straighten Out—Week to Restore Wires.

Szabadka, Slavonia.—When a wheezing little automobile of American make, driven by a Serbian soldier, broke down on a country road 40 miles from here, it started an international tangle which rolled up until it had the diplomats of four countries worried. Here are some of the things that began to happen: Three hundred cars of French merchandise bound for Roumania piled up on the four switches of the railroad yards here and congested things until not a wheel could move. A Red Cross supply train of 30 cars, bound for Bucharest, came up behind the French trains and completed the tangle of communications. Ten Americans were marooned for nine days on board the Red Cross train. Sends Train to Investigate. Roumanian merchants who were relying on the prompt delivery of the French goods sent a special train from Bucharest to investigate the delay. Szabadka, an important town on the frontier between Hungary and Serbia, was cut off from all communication with the outside world. The Serbian soldier who was the innocent cause of all this trouble was driving his car merrily northward one day when the steering gear went wrong. He stopped, found the cause of the difficulty and decided that he needed a piece of stout wire to repair the damage. He reached up to the long-hanging, single-wire telegraph line and cut off a generous section. Having fixed his car, he drove blithely on. The wire gave out presently and he renewed it twice, thrice, four or five times, from the telegraph line beside the road. Meanwhile the trains of French merchandise had begun arriving at Szabadka. Official sanction was necessary for the cars to proceed. The frontier officials framed the proper sort of telegram, and it was duly countersigned and presented to the operator. Trains Congest Yards. He reported that the wire was "not working." So the frontier officials decided to wait until it began to work. They waited two days, while more and more trains drew into the congested yards. Szabadka was cut off from wire communication. Mails go only once a week, and then only if trains are running. The telegraph officials finally decided to send out a line-repairing party. The party returned after another day's delay, with the announcement that so many breaks had been found their supply of spare wire had given out. Meanwhile, congestion in the yards increased and the appeals from the French conveyors, the American conveyors and the Roumanian merchants became more urgent. It was a full week, however, before the wires had finally been restored and the official views obtained. By that time the blockade had become so complicated that it will probably take a month to put Szabadka back on a normal basis.

DOCTOR KILLS HUGE BEAR

Finally Settles Long Feud Between Two Medicos.

THREE SUCCESSFUL P'S.

Pluck, Push and Perseverance. In the starting and maintaining of a bank account these good attributes will become bywords with you. Unlike some who are first in Pity and last in help we urge you to cultivate Pluck—Push—Perseverance.

Cordova, Alaska, population 400 in winter and 2,000 in summer, which boasts of being the ore shipping center of Alaska and of being the port where the ships to the outside stay the longest when they put in every eighth day, finally considers as settled a long feud between the two medical men of the community. Since the days of the Klondike the medfocs of Cordova, Dr. W. W. Council and Dr. W. H. Chase, have been rivals, not so much in the practice of their profession as in the gathering of bear pelts. By this time each has bagged enough pelts, so Cordova people say, to pave a block of Market street. And each time one gets one bigger than usual he throws out his chest and considers himself the champion bear hunter of the community. But the championship seems to have been settled when Doctor Chase recently bagged a brown bear measuring a trifle more than twelve feet from tail to snout. Coney Preparing for Cold. The coney has confirmed the wild duck's prediction of a long, cold winter. The coney is a species of rabbit that inhabits the higher rocky areas, feeding on "timberline" vegetation, according to Webster, but Ed Tangen, Colorado mountain climber, says he's only part rabbit. "He looks like a rabbit," avers Ed, "but barks like a prairie dog, hibernates like a bear and is as bushful as a beaver. And is a real weather prophet." Aged Woman Gets Homestead. Mrs. Anna M. Scott, ninety years of age, who has just proved up on her homestead near Saugas, Mont., is believed to be the oldest homesteader in the country. She is active and strong, does not use spectacles and has all her teeth. She herself did much of the work necessary to obtain title.

Florida Truck Growers Plan State Organization Taking Every Section

Met At Plant City On Thursday FINAL PLANS MADE

SIX ORGANIZATIONS HAVE JOINED THE NEW LEAGUE WITH MORE TO FOLLOW

The truck and fruit growers of Florida are without doubt making rapid and permanent strides toward organization. For several years in almost every section, local vegetable growers organizations have existed and have prospered, but there has been an absence of cooperation among the various sections in distribution, uniform quality and pack these factors—the most important in the marketing of produce have handicapped one section against the other.

In order to meet and overcome these obstacles, a large state truck growers organization has been formed with the following initial membership who have already subscribed for the stock in the state association, Sanford Truck Growers, Inc. of Sanford, Manatee County Growers Ass'n. of Bradentown, Plant City Truck Growers Ass'n. of Plant City, Leesburg Truckers Ass'n. of Leesburg, Citrus Truckers Exchange, of Center Hill.

The organization of a state association is not a hurried affair, but comes after a years quiet work among the associations named. The initial meeting of these organizations was held at Sanford, during November, with a second meeting at Plant City, Thursday, Dec. 18th, when final arrangements were consummated and the state wide organization was opened and capitalized and incorporated affair by the

organizations represented becoming stockholders in the names of their respective associations.

The state wide organization will have Jacksonville as its headquarters where a general sales manager and agency will be maintained. Jacksonville was selected because of the fact that the big majority of Florida's produce passes through that gateway and for the many advantages offered, was chosen as headquarters. It is proposed to maintain representative selling agents on the principal eastern and western markets and so surround and handle business as to insure all benefits possible for the hundreds of growers and the many sections in the state who are advocating a state-wide co-operative organization that will specialize in all perishable fruit and vegetable products except citrus fruit.

At a recent meeting of the stockholders of the Sanford organization, unanimous consent was voted for this organization to affiliate with a state-wide association and representatives were appointed to act with power. The same conditions existed with the other sections named and as a consequence, five of the largest producing sections in the state having an aggregate membership of around one thousand individuals growers, are banded together and will carry out the idea of progressive farming and marketing of their produce.

Attending the meeting at Plant City and as a guest of all the associations present, Hon. L. M. Rhodes, Commissioner of the State Marketing Bureau, delivered an able address favoring the move. His reference to co-operation in every other calling except farming was forceful and true. He stated that his time was that of the public and he and his office were always ready to serve in furthering such efforts.

The meeting and final arrangements for organization was attended by about

fifty representatives from the various sections. Attending from Sanford, were Messrs. G. C. Chamberlain, Rex Packard, H. G. Deiterich and D. C. Marlowe. The Plant City meeting was presided over by F. E. DeVane, President of the Plant City Association, with D. C. Marlowe, Secretary-Treasurer of the Sanford Truck Growers, Inc. acting as secretary. After the various organizations present had subscribed for stock in the state wide organization subject to the call of the executive board, a committee as follows was appointed to draft a constitution and by-laws to represent the state association: F. C. W. Kramer, Leesburg; Chairman, D. C. Marlowe, Sanford; H. T. Bennett, J. M. Archibald, Center Hill and C. C. Wiggins, Plant City. This committee will complete their work as early as possible and will present it to the members at a general meeting to be held again at Plant City, in the near future.

At the next meeting, Col. N. D. Wescott, General Council, for the Eastern Shore of Virginia Produce Exchange, of Onley, Va., and Hon. L. M. Rhodes, Commissioner, State Marketing Bureau, Jacksonville, will each deliver an able address of co-operative marketing and the benefits of farmers organizations and the public generally will be invited to hear them. Mr. Rhodes, is too well known to require detail mention, while Col. Wescott, of Virginia, is not well known in Florida, it might be well to say that he is recognized as the leading attorney of the eastern shore of Virginia but has all but retired from active public practice on account of his connection with the largest farmers organization in the United States. It is planned also to have Messrs Rhodes and Wescott address the growers at Sanford and Bradentown while on their tour and if possible other sections who might be interested.

At the close of the meeting, it voted unanimously that the Florida Citrus Exchange be endorsed as one of the greatest benefits to growers of citrus fruits in the state and that in organizing the truck growers under a separate lead, was anything but antagonistic to the Exchange, on the other hand it was determined that the truckers organization would lend at all times, all their influence toward the upbuilding of the great citrus organization.

After adjournment, the visiting growers, were the guest of the Plant City organization, for dinner composed of a home grown spread and without doubt there is no section that can surpass the Strawberry City on such an occasion.

KIDNEYS WEAKENING? LOOK OUT!

Kidney troubles don't disappear of themselves. They grow slowly but surely, undermining health with deadly certainty, until you fall a victim to incurable disease. Stop your troubles while there is time. Don't wait until little pains become big ones. Don't trifle with disease. To avoid future suffering begin treatment with GENUINE MEDAL HAARLEM OIL CAPSULES now. Take three or four every day until you are entirely free from pain. This well-known preparation has been one of the national remedies of Holland for centuries. In 1906 the government of the Netherlands granted a special charter authorizing its preparation and sale.

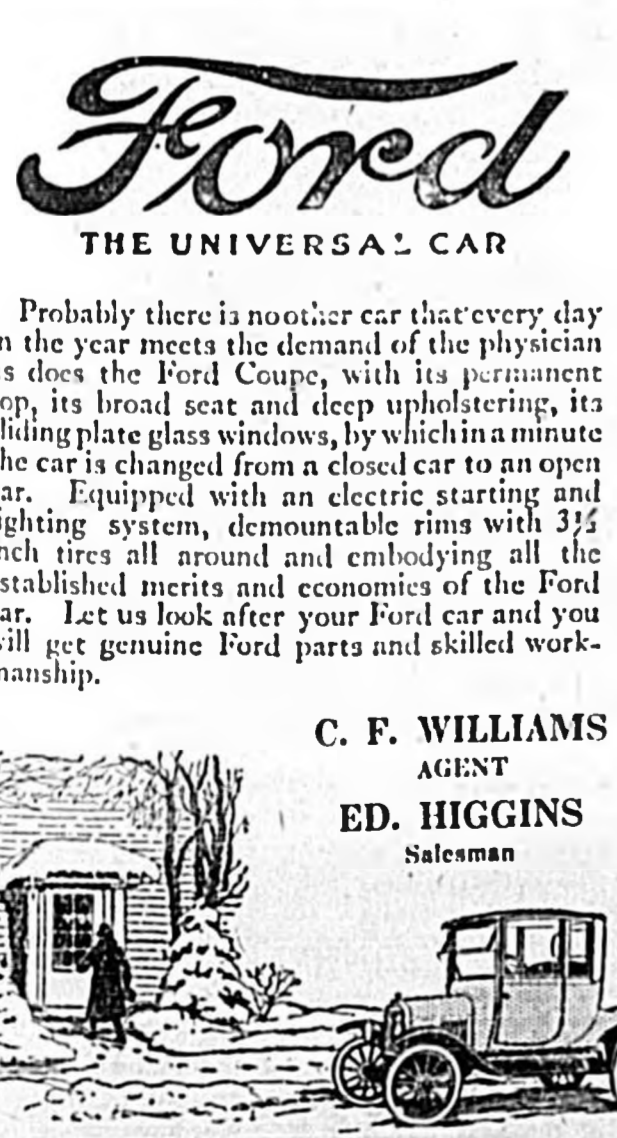

The housewife of Holland would almost as soon go without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL HAARLEM OIL CAPSULES. They restore strength and are responsible in a great measure for the sturdy, robust health of the Hollanders.

Do not delay. Go to your druggist and insist on his supplying you with GOLD MEDAL HAARLEM OIL CAPSULES. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

2,000 NEW STAMPS ARE OUT IN EUROPE

Postal Issues Galore on the Continent Since December 1918.

MOST FOR THE NEW STATES

Fifteen Hundred of the Number Are Accounted for by the First Stamps of New European States Whose Autonomy Was Guaranteed.

London.—The total number of new postage stamp issues since December, 1918, is now approaching 2,000. Of these nearly 1,500 are accounted for by the first stamps of the new European states whose autonomy was guaranteed by the Paris conference. Poland, once represented in the stamp album by a single label, has produced since the armistice more than 400 separate and distinct postage stamps, while the Ukraine ranks second with approximately 175 varieties of either a provisional or permanent description. Jugo-Slavia and Czechoslovakia account for something like 150 specimens each and the debatable territory of Fiume for 75.

The average for the remaining is between 30 and 50 stamps, while the shortest series thus far recorded is that of the Transcaucasian republic of Georgia, comprising up to the present four values only. The highest stamp issuing "record" hitherto achieved was in the year 1914, when 1,250 new postage stamps were produced throughout the world, mainly due to the change in the watermark of the British colonial issues.

Unfiled Series for Serbs. One important step toward finality in the philatelic affairs of new Europe is the issue of unified postage stamps for the kingdom of the Serbs, Croats and Slovenes, instead of the separate issues for Croatia, Slavonia, Bosnia and Serbia. They bear the likeness of the veteran King Peter I as overlord of Greater Serbia and are inscribed in both Latin and Cyrillic char-

acters. Meanwhile from Agram (Jugo-Slavia) comes news that the Croatian national postage stamps issued on January 10 this year have been obsolete since May 27 and that in the interim the Slavonian types printed at Lelbach have been used by the Croatian post office pending the appearance of the new general series, which was to have come into use on August 1.

Czecho-Slovakia, having been admitted to the Universal Postal union, is about to modify the colors of certain of her current postage stamps in conformity with the requirements of that body. In future the five hellers stamp will be printed in blue green instead of yellow green, the ten heller in yellow green instead of red, the 20 heller in deep red instead of green, the 25 heller in violet instead of deep blue, the 50 heller in deep blue instead of violet and the 20 heller newspaper stamp in blue instead of violet.

Monaco Has War Charity Stamps. Monaco has just put forth a somewhat belated set of war charity stamps intended, so the inscription informs us, to assist the orphans of France in the guerre. A view of the bay and rock of Monte Carlo from the sea constitutes the main feature of the design, inset with a picture of a widow and a child, and each stamp is sold at a premium upon its postal value, which goes to the French national fund. As usual, the printing of the stamps has been carried out by the French government printing establishment in Paris, the designer and engraver being Messrs. Eurnand & Jarraud.

Italy has issued a new fifty-cent stamp, printed in state as before, but in the type of five centesimal and ten centesimal in place of the Mitchell design previously employed for this value. Presumably the instruction issued last month respecting the discontinuance of British colonial war tax stamps only applied to specific cases, or else it was delayed in transmission. At any rate, a new local and provisional printing of the Turin island penny war tax stamp reached London last week, and having been set up in movable type, is more than ordinarily prolific of varieties. The overprint is in two lines of large and small Roman capitals, with the word "War" widely spaced.

Simple Diet.
The late pope is said to have lived on a very simple diet, as simple as that of the poorest tradesman. In the morning he drank a cupful of coffee, at noon he took a little soup and meat and for supper vegetables and meat. His favorite food was the Italian national dish, polenta.

Her Preference.
Emily was eating at a restaurant with the family and had finished an order of waffles. She was still hungry and her father asked her if she would have something more—a sandwich, perhaps. She said: "No, I would rather have another set of these than anything else."

Floor 160 years Old Still Good.
When an old house in Pike county, Pennsylvania, was torn down it was found the floors of pitch pine, 160 years old, were still good, says the American Forestry Magazine of Washington. The size-named the carpenter, for the planks were two feet wide and an inch and a quarter thick.

W. F. Bartlett
Oakfield, Ga., May 10, 1917.
Old Kentucky Mfg. Co., Paducah, Ky.
Please allow me to state that I have sold your hog cholera remedy for one season and have ordered more for this season. Last year I sold it to 12 or 15 men who raise hogs. I told each of them to take the remedy, feed it to their hogs and if they lost a single hog from "chance of any kind not to pay me a cent for the remedy, but when they began to sell cotton every man came in and paid me for the medicine and every one of them told me that it was the best hog medicine they ever used. One man paid me for the small package and bought \$5 worth more and said it was the best that he had ever tried.

Yours very truly,
W. F. Bartlett.

In The Circuit Court Seventh Judicial Circuit in and for Seminole County, Florida, in Chancery
Pearl Smith, Complainant,
vs.
J. E. Smith, Defendant.
Order of Publication
To J. E. Smith, Victoria, Alabama: It is appearing from affidavits filed in this cause that you, J. E. Smith, are a resident of a state of the United States other than the state of Florida and that you are now a resident of the state of Alabama and that there is no person in the state of Florida the service of a subpoena upon whom would bind the defendant and that you are over the age of twenty-one years.
This is therefore to command you, J. E.

Smith, to be and appear before this Court on the fifth day of January, A. D. 1920, to answer the bill of complaint exhibited against you by Pearl Smith or said bill, with or without a confessor.

It is further ordered that this order be published in the Sanford Herald, a newspaper published in Seminole County, Florida, once a week for four consecutive weeks.
WITNESSES my hand and official seal at Sanford, Seminole County, Florida, this 23rd day of November, A. D. 1919.
E. A. DOUGLASS,
Clerk of said Circuit Court.
By V. M. DOUGLASS, D. C.
Solicitor for Complainant
W-15-5c.

Notice of Application for Tax Deed Under Section 533 of the General Statutes.
Notice is hereby given that John Brauer, purchaser of Tax Certificate No. 116, dated the 4th day of June A. D. 1917, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: NE 1/4 of NE 1/4 of NW 1/4 Section 27, Township 21, S. Range 30 E., 20 acres. The said land being assessed at the rate of five dollars per acre. Said certificate shall be redeemed according to law, tax deed will issue thereon on the 6th day of January A. D. 1920.

Notice of Master's Sale
Notice is hereby given that under and by virtue of a final decree of foreclosure and sale made and entered by Judge James W. Perkins, Judge of the Seventh Judicial Circuit Court of the State of Florida, in and for the County of Seminole, County, dated November 14th 1919, in Chancery, in that certain cause therein pending, wherein Messrs. Monroe Roberts as Administratrix of the Estate of G. G. Monroe, deceased, complainant, and H. B. Monroe defendant, G. A. DeCotter, as Special Master, will offer for sale at public auction, on Monday the 6th day of January 1920, the following described land and property, to-wit: The Northwest Quarter of the Southeast Quarter of the Northwest Quarter of Section Two (2), Township Twenty-one (21) South, Range Thirty-one East (31 E.), said land to be sold to the highest and best bidder for cash to satisfy said decree and costs; purchaser to pay for title.

Notice of Sale of \$26,000.00 Jessup Drainage District, District Drainage Bonds.
Notice is hereby given that sealed bids will be received by the Board of County Commissioners of Seminole County, Florida, at the Court House, Sanford, Seminole County, Florida, on or before 11 o'clock A. M., on the 6th day of January A. D. 1920, at which time said bids will be opened for purchase of \$26,000.00 Jessup Drainage District Bonds, a special drainage district of Seminole County, Florida. The district bonds being of the denomination of Five Hundred (\$500.00) Dollars each and bearing date November, 1st, 1919, and bearing interest at the rate of six per cent per annum, payable semi-annually, numbered from one (1) to fifty-two (52), inclusive, and maturing and becoming due and payable as follows to-wit:

- Bonds numbered one and two to mature and become due and payable five years after date.

EXPERIENCE Great Storage Facilities

In Ideal Formulas, we offer you Experience dating from the very beginning of commercial production of Florida crops. This experience shows not only the value of proper materials correctly proportioned as to advisability, but the need of perfect physical condition at time of application. To secure this condition, the fertilizer must be made long in advance, batched and, and reground. This calls for enormous store house capacity. Acres of flooring are necessary to insure goods being thoroughly cured, seasoned, blended, before sending them out to you.

Labor is high and difficult—many other expenses and problems are to be met—hold fast to all the sure things that make your success. By choosing Ideal Fertilizer you have eliminated the fertilizer problem. Over a quarter century of profitable field results back of them. Why take unnecessary chances?
