## Warning Seen In Decline On Citrus Market

Celery Growers May  
Face Loss Unless  
Pact Is Signed,  
Official Declares

## Orange Price Off Over Dollar A Box

## Grapefruit And Tange- rines Also Take Big Price Tumble

Unless celery growers sign the new marketing agreement they will soon face the same disastrous situation that now confronts producers of citrus fruits, Charles H. Pickett, of Sanford, secretary of the celery control committee, stated today. The situation as affecting citrus growers is shown in today's dispatches as being serious, but celery producers are in danger of also suffering heavy losses, Mr. Pickett believes. If they delay signing the marketing agreement, or put off such sign-ment until too late.

Market reports show that within the last three weeks the price of oranges has dropped \$1.07 per box, the price of grapefruit has fallen off 62 cents per box, and the price of tangerines is 40 cents lower.

The plight of the producers of citrus fruits should be a warning to celery growers, Mr. Pickett said, "for celery producers will face the same situation unless they get together on the control agreement."

The proposed celery control agreement for the 1935-36 season was tentatively approved by Secretary of Agriculture Wallace H. Hargis, and it has been approved by 67 percent of the growers of celery in the State of Florida. Copies of these agreements were delivered to all growers yesterday, and it is expected that unless they are signed promptly and returned either to the office of the Celery Control Committee in Sanford, or sent direct to Washington, it will be impossible to put the agreement in force to be of beneficial effect to growers and shippers this season.

"We are well along into the month of December right now," Mr. Pickett said, "heavy celery shipments will probably start in January. After the agreements are signed, they must again be gone over by the secretary of agriculture and definitely approved by him before they become operative. It therefore follows that time is an important factor."

The case of the citrus fruit grower whose produce is being broken down in price on the markets is shown in the following dispatches from Leland and Orlando:

**Citrus Men Want Control**  
TAMPA, Dec. 7.—(AP)—Renewed appeals for a federal marketing agreement to control citrus shipments were made by industry leaders yesterday after reports of an alarming drop in citrus prices in the last three weeks.

Growers were quoted at a drop of 10 cents below prices three weeks ago, grapefruit at 63 cents a box less with tangerines off 40 cents. The resulting loss to growers was estimated in the hundreds of thousands of dollars.

C. C. O'Connell, general manager of the Florida citrus exchange said the principal cause

## "One-Armed Bandit" Is Stolen By Bandit

Some father or mother, as yet unknown to the police, are not worried over the loss of the one-armed bandit, called "one-armed bandit" by some, was stolen last night. The machine was in the office of the Golf filling station at First Street and French Avenue. The robbers smashed a window and thereby gained entrance to the office, and then opened the door and walked out with the machine together with its contents, estimated at \$20. They then returned the cash till of about \$100 in pennies and helped themselves to two gallons of oil.

## Delegation Is To Tell Wilcox Of Canal Need

Many Are Going To  
Orlando Confab To  
Insist On Consider-  
ation Of Project

Unless Congressman J. Mark Wilcox gives some definite assurance that consideration will be given to the proposed canal connecting the St. Johns River at Sanford with the Intra-Coastal canal, Seminole County will vote "thumbs down" on the Cape Canaveral proposed harbor im- provements, H. M. Papworth, president of the Seminole County Chamber of Commerce, declared today.

Mr. Papworth said that he is assured a "strong" delegation will be going to Orlando next Friday to meet the congressman who has called a meeting to discuss the Canal project and also to discuss legislation having to do with control of bondholders' committees. Those who have agreed to attend the confab, Mr. Papworth said, include John McEachron, Sr., chairman, and Charles Durn and C. B. Searcy, members of the Seminole County Board of Commissioners; H. J. Lehman, member of the Sanford City Commission; Benj. F. Haines of Albemarle Springs, vice-president of the Chamber of Commerce; Joe Marentette, S. D. Highleyman, Ralph Bagley, W. H. Tunnicliffe and H. H. Coleman. City Engineer Fred T. Williams said today that he also intends to go to the Orlando conference, and will take with him the government's maps of the route selected for the proposed canal.

City Attorney Fred R. Williams said that he and a number of City officials will go to Orlando next Friday, at Congressman Wilcox's invitation, and confer with him on the proposed bond legislation.

## Noted Detective Won't Talk About Hauptmann Case

MT. HOLLY, N. J., Dec. 7.—(AP)—E. H. Parker, chief of Burlington county detectives, conducting an investigation into the Lindbergh kidnaping said today: "I have my own personal opinion of this case which I don't intend to express at this time because the case is on review before the United States Supreme Court and perhaps will come up before the board of pardons. It would be unethical for me to speak at this time."

## U.S. Has Done Its Share For Peace, Says Roosevelt

## Agrees With Bishop Nation Should Not "Let World Down"

WASHINGTON, Dec. 7.—Replying to a letter from Bishop Ashton Oldham of the Episcopal Diocese of Albany, N. Y., President Roosevelt said today that this country has already done its share toward the restoration of peace.

In his letter to the bishop the President called attention to the steps this government took prior to the outbreak of hostilities between Italy and Ethiopia, and signed to bring to bear in the interest of peace the weight of this country's moral influence as a co-sponsor and signatory of the pact of Paris.

"The failure of the world of fort to preserve peace, however, placed us before a new situation. War had become a reality the fire had broken out.

"Faced with this fact, it became incumbent on me to give first thought to the unquestioned mandate of our people, expressed in recent legislation and in numerous other ways, through the press, through public gatherings and through petitions and public letters, that, save all the United States should not be drawn into the conflict."

"That while shaping our nation's policies to the prevention of bounding the fire from its shores, I did not for one moment lose sight of the truth that the best guarantee against such a calamity would be the smothering of the fire itself."

"Hence, the measures that the government has successively adopted have served the twofold object of keeping us out of war and of confining and shortening hostilities."

"You state that the efforts of 52 nations may come to naught if the United States stands aloof. I submit that, for firm standing aloof, we have, in the various steps we have taken to date, done our share toward the restoration of peace and in a number of respects, have gone far beyond the actions so far taken by other nations."

The President assured Bishop Oldham that "in continuing closely to follow every development abroad, I shall have steadily before me that dual purpose I have attempted to set forth above."

## Laura LaRoche Buys Home In Dreamworld

The property is the present site of the Hill Lumber & Supply Yard. The price was given as \$10 and other valuable consideration.

## Will Be Just As Terminated 1 Year From Now Premier Tells Deputies

## Bombs Rained On Selassie's Palace

## American Hospital In Dessye Is Hit And 55 Persons Killed

ADDIS ABABA, Dec. 7.—(AP)—Premier Mussolini of war-torn Italy defied the 52 "sanctionist" nations trying to free his hand toward even as Great Britain addressed a new appeal to him to end gunfire in East Africa.

Avoid stormy applause in the Chamber of Deputies, which met coincident with the second air bombing of the Ethiopian emperor's field headquarters at Dessye, the Italian dictator said his nation would not relent in its fight against penalties imposed on it by the League of Nations.

"When we have reached 365 days of siege we will have the same will, the same courage, the same determination as the first day, Mussolini proclaimed.

At the war front four Italian bombers swung over Dessye and the palace of Emperor Haile Selassie, giving leaden voice to the determination of the Italian dictator to convince his campaign of occupation in Ethiopia. No casualties were announced. Yesterday 55 persons died, more than 300 were injured and the American hospital was damaged by bombs.

Referring to the peace appeal made to him this morning by Sir Eric Drummond, British ambassador, in his speech to the Chamber of Deputies, he said: "In these last few hours there has appeared a slight improvement in the atmosphere, but I must put you on guard against excessive or premature optimism." That appeared to answer renewed conversations in Paris where French and British sought a peace formula almost on the eve of the Geneva meeting to consider strengthening sanctions with an oil blockade.

Today's forecast rain of death was directed at points in the area already devastated by yesterday's bombing.

PARIS, Dec. 8.—(AP)—After French and British officials heard that Mussolini had maintained a firm attitude against sanctions in his speech to the Italian Chamber of Deputies, Sir Samuel Hoare, British foreign secretary, and Premier Laval of France went into conference with experts today for discussion of further sanctions, including the proposed oil embargo.

Mussolini's speech was interpreted in official circles as leaving no choice but further sanctions.

Malaria

Malaria, a disease which has been held to be practically eradicated by any community willing to make the effort, has been increasing on a considerable scale during the past few years in the southeastern part of the United States. Since 1931 there has been an alarming increase in malaria mortality in each of the 13 states in this area. It continues in spite of the fact that the application of the principles laid down by General Gorgas in his work in Cuba and the Panama Canal Zone more than 30 years ago, would substantially reduce, if not eliminate the disease.

These facts are brought to light by the statisticians of the Metropolitan Life Insurance Company, who in a study on this disease report that "mortality from malaria, since 1931, has shown increases which range from 24 percent in Missouri and Arkansas to 140 and 169 percent in Louisiana and Mississippi respectively. Between these extremes Florida reported an increase of 95 percent, Tennessee 80 percent, and the rest of the 13 states increases of between 33 and 43 percent.

"This situation calls for immediate action," the statisticians comment. "In two states, Arkansas and Mississippi, malaria in 1934 ranked 8th in numerical importance among all causes of death; in Florida, 10th; and in Louisiana and South Carolina, 18th. During the year 1933 malaria caused one death out of every 20 from all causes combined in Arkansas, and one out of 25 deaths in Mississippi."

The malaria mortality record shows that in 1934, out of the 4,520 deaths in the entire United States ascribed to malaria, 4,375 occurred in 13 states, all of which, with the exception of Missouri, are in the South Atlantic, East South Central or West South Central divisions. This, according to the statisticians, does not portray the seriousness of the malaria problem, since it has been estimated on reliable authority that only one out of every 200 cases of malaria in the general population ends fatally.

"If this is a true estimate," the statisticians state, "then the 4,250 deaths recorded in 1934 indicate a malaria prevalence of at least 900,000 cases in the United States at the present time. Since each case is a potential focus for additional cases, it can readily be seen how threatening is the malaria situation at the present time. Consider, for example, Mississippi, where 688 deaths were attributed to malaria in 1934. On the basis of 200 cases for each of these deaths, this means that at least 138,000, or about one out of every 15 inhabitants of the state, were afflicted with malaria."

SANFORD TWENTY YEARS AGO

A most enjoyable cycle tea was given by Mrs. R. R. Deas last Wednesday afternoon with a larger number of guests present than usual. Cards and needlework whiled the hours away and pleasure ruled the afternoon. Those present were: Mrs. Frank L. Miller, Mrs. F. J. Gonzalez, Mrs. George Speer, Mrs. O. W. Brad, Mrs. D. L. Thrasher, Mrs. W. F. Strogan, Mrs. Henry Wright, Mrs. Hal Wright, Mrs. S. E. Barrett, Mrs. Henry Ward, Mrs. A. P. Connelly, and Miss Allie Traf-

ford. The Bath Woodruff of Orlando was in the city yesterday and reports the Five County Fair as progressing. They expect a record-breaking crowd in Orlando in February and the fair will be bigger and better than ever. The Boy Scouts of Troop One, Sanford, are anticipating a jolly good time and plenty of appetizing eats at their chicken supper

on Dec. 14 at the Baptist Temple. The Scouts are live wires and an organization of much credit, not only to the Baptist Circle within which they move but to the town at large. One of the most delightful and altogether enjoyable church affairs of the season was given at the home of Mr. and Mrs. W. W. Abernathy on Friday evening last when the "milk boxes" were opened and subsequent fun and frolic quickly followed on the heels of the more serious business of the evening. A splendid program of music and drama was rendered by Mrs. J. T. Brady, Mrs. E. F. Lane, and Miss Muriel Harold.

A delegation of Sanford men composed of Hon. Forrest Lake, A. F. Connelly, R. J. Holly, L. A. Brumley, and Schelle Welnes will leave here tomorrow for Gainesville. The New Deal threatens American business with continuing high taxes and possibly increasing deficits unless business itself provides employment for the jobless. "It's as simple as that," said Major George L. Berry, 1st lieutenant, Roosevelt's co-ordinator, for industrial co-operation, in a carefully worded interview last night. "The country's 11,000,000 unemployed must be fed and clothed. If industry will not do it by providing them work, then the government must do it with relief appropriations. "Business foots the bill in either event and there is no other answer."

Berry's remarks were particularly significant coming less than 24 hours after 1,500 of the most powerful and wealthiest business men in the nation concluded a four day session at which they pledged themselves to fight the New Deal in next year's election. Charging that employment is not even beginning to keep pace with this year's industrial pickup and deploring the action of some industrialists in lengthening working hours, Major Berry predicted that "unemployment will increase in staggering proportions" unless the trend is reversed.

THE COMPASS

The Real Issues in Louisiana By Arthur Dean

NEW ORLEANS, La., Dec. 7. —But they'll not steal it while we have red-blooded men in Louisiana who will say: 'You'll not steal my wife and sister's votes and as long as I can pull a trigger you'll not steal mine.' These words, according to the local press, were spoken at a political gathering the other evening by Cleveland Dear, congressman from Louisiana, and candidate for governor on the anti-Long ticket. Such outbursts reveal that the political atmosphere in this state is uncharged with potential bloodshed. At the same time they suggest a real issue.

In a previous article I wrote: "In the United States there can be no justification for assassination of public officials. No fair method of government can be devised that which gives to each citizen one vote. Everyone intelligent enough to realize he is subject to the law should have an equal voice in making or changing the law."

This statement carries two implications—(1) the voter must be free to exercise his suffrage without coercion—(2) his ballot must be counted. Failure of either means destruction of self-government and invites violence and force. Votes are bought and sold in every state in the Union. It requires venality on the part of both buyer and seller. Coercion is a different matter. It is a form of pressure as powerful as physical force. Persons whose credibility is beyond question have been subject to it. A school teacher told me he was warned that unless he permitted a Long worker at the polls to enter the booth and help him mark his ballot, he would suffer.

His supervisor a few days later moved him to an inferior position in another parish, stating he had received orders to do so from higher up and didn't dare disobey. "It is not likely that Huey personally knew anything about this," my informant said, "but I know of his followers using similar pressure on others."

Some legislation jammed through by Huey unquestionably carries with it great opportunities for the application of pressure. By it the power over city departments, including police and fire, was transferred from the Mayor of New Orleans to state boards controlled by the governor. To make this palatable, the same act created a 3-mill tax to increase the salaries of officers and men under them.

Likewise, in all parishes (counties) the school budgets and appointments of teachers must now be approved by a state board. When the depression threatened to reduce the school session to three months, Huey maintained the customary nine months by causing the state to assume three-fourths the cost of education. He contended it was the governor's duty to know that the money was being properly spent.

The State Board has not thus far rejected the selection of any teacher by any parish. But the potential power now of the state machine over the city and school set-ups is tremendous. It is easy to bite the hand that can snatch food from you.

A more serious result is the destruction of local self-government. Special legislation adopted last September deprives the Mayor of New Orleans of power to spend money or to appoint anyone to any office without approval of another state board. He is now just a figurehead—cannot appoint even his own secretary. It may be contended that there is nothing unconstitutional about this procedure. Every city is the creature of the state. Its charters and powers are granted by the state. Certainly in some commonwealths, such as Georgia, the state dips deeply into the affairs of its municipalities.

There isn't much shadow for a city machine, usually as bad as a state machine. But if the city machine misfires, its citizens can remove their officials, whereas it takes the people of the whole state to oust a state machine, and it is difficult for the voters of any one city to arouse the rest of the state. A free ballot—a fair count—local self-government are real issues. It is a pity they cannot be fought for on their merits, without threats of violence or fear of election frauds on either side.

IDEAL MOUNTAIN

By FRANK ANDERSON

Rube Garden sent us a prospectus for his Ideal Mountain Company. It was so interesting that we were reading it aloud to the family in the evening. A lot of fine ideas. Ideal Mountain to be located on some pasture land of Rube's in Levy county adjacent to the proposed canal. Ought to be God's gift to Florida. Stop all this running away to the North Carolina mountains. In summer; save millions of dollars yearly in transportation, alone for mountain-craving crackers.

Utilize the dirt to be removed from the canal, too, and permit it becoming an asset rather than a liability. Just think, a real 1,600 foot mountain. The one thing Florida has lacked. Besides the plans so interesting and practical. The first made-to-order mountain in history. All the advantages, and none of the disadvantages, of the ordinary or garden variety of mountain which manking from time to time has tried to adapt to its uses.

A real corker road from bottom to top with each easy grade that grandmothers may make it on roller skates. All traced to avoid the waste land of an ordinary mountain, and to permit a maximum number of building lots and garden plots. Pick your location, southern exposures or north front. Select your own preferred altitude. Choose your own view.

Full view, too, of four of those great ten-million-dollar bridges that it is said will bring hundreds of thousands of intending suicides to Florida to make use of the wonderful facilities provided by the tremendous spans. Thousands of building lots, each fronting on the main road. A predestined architectural ensemble, under supervision of a Presbyterian architect, to avoid clash between Italian villas and Dutch Colonial cottages so frequently found in summer colonies.

Thousands of beautiful summer homes, and each to be self-supporting through its own 4.5 acres of garden plot to be devoted to not raising hogs. It looked as if Rube had thought of almost everything. Then the carefulness of the set-up of the board of directors of the company to be composed wholly of very prominent deceased persons. Certainly it would be beyond criticism.

The financing: So simple. And easy. Only necessary to purchase a certain amount of stock. Borrow the money from any bank if necessary, for each stockholder to be allotted an amount of inverted Bonds equal to the stock subscription. The company to pay immediate cash to the amount of these inverted Bonds to each subscribing bondholder.

The proposed leasing of the be termed the encouraging way the nation's railroads were cooperating in getting rid of unprofitable branch lines and surplus trackage.

WARM SPRINGS, Ga., Dec. 7. —Queried on several matters of moment, President Roosevelt was last night asked to comment on the "strike" of utility holding companies against registering with the SEC. He replied that the chief will decide but further than that declined to go. The President had nothing to say about Cordell Hall's inferential warning to the Japanese for their movement toward separating rich Chinese provinces from control of the Nanking government, except that he had not seen or heard of the State Department action.

The President then was asked as to the status of the transportation co-ordination program and he expressed pleasure over what

Example In Decorating Their Streets For Holiday Season

Sanford street decorations during the Christmas season last year were so attractive that the Chamber of Commerce has a big file of newspaper clippings telling about them. These decorations are going to be repeated this year, only made better if possible, according to members of the commercial committee of the trade body. But Sanford will not be the only Florida city where Christmas decorations will be placed on the streets.

The Sarasota Herald says that Sarasota and winter visitors will have the approach of the Christmas season called to their attention in excellent electrical displays, the Merchants' Association having arranged for the displays at a recent meeting. Gaily lighted trees will be placed at the intersections of Main and Palm; Five Points; Main and Lemon and Main and Orange and will be gentle reminders to residents of this city that another Christmas season is just around the corner. Arrangements have been made with the Florida Power and Light Company and decorations will be installed at the four street corners.

Over in Pensacola, the Journal of that city reports, cash prizes and merchandise totaling more than \$50 are being offered by the Pensacola Lion Club Christmas tree lighting contest this year. It was announced yesterday. Judging of trees will begin, on the night of Dec. 19 and continue through the night of Dec. 23. Prizes will be sent to the winners Dec. 24. Christmas eve. Lva decorated trees will be given preference, the chairman of the committee said.

Prizes to be awarded are: First prize, \$25 in cash; second, \$10 in trade; third, \$7.50 in trade; fourth prize, \$5 in tokens; fifth prize, one box of Christmas Cheer. The Daytona Beach News-Jour-

nal reports that the city has paid \$2,000 for Christmas lighting decorations and that the project is sponsored by the Daytona Beach Merchants Association and is identical with a "goodwill" campaign which was carried out last year during the holiday season. The Daytona paper also reports that a contract has been awarded for stringing thousands of colored lights which will give the city a festive appearance, and according to arrangements worked out in detail, the business section of Beach street will be a mass of many-hued lights.

Other sections that are to receive a concentration of lights are Ridgewood and Second Avenue, Ridgewood and Madison Avenue (Northend), Atlantic Avenue and Main street on the peninsula, and Fairview and Beach streets.

Regarded as one of the most ambitious projects undertaken by the club during its entire history, Kiwanians have assumed the task of assuring St. Petersburg a brightly illuminated city during the Christmas holiday season, according to the St. Petersburg Independent. The papers state that huge Australian pine trees along the waterfront will be decorated, street lights will be colored red and green, downtown stores will brighten up their display windows and residents will follow a beautification program designed to make the holiday season, from Dec. 19 to Jan. 2, the most colorful the city has ever known.

Cash prizes, to promote interest, have been offered by the club to any civic or other organization having the best lighted and decorated tree on the waterfront. Prizes are \$50, \$30 and \$20. Outdoor decoration, particularly in residential sections, will be urged and every resident will be requested to have at least one light in the window of his home.

Bible Verse For Today

HEAVENLY ADORATION: And all the angels stood round about the throne, and about the throne, and about the elders and the four beasts, and fell before the throne on their faces, and worshipped God, saying, Amen: Blessing, and glory, and honour, and power, and might, be unto our God for ever and ever. Amen.—Revelation 7:11, 12.

THE BOY SCOUTS GIVE A PIN

to a girl among my trinkets you will find

A metal pin no larger than a dime.

No doubt you'll gaze at it with puzzled mind

And wonder why I've kept it all the time.

You won't remember how it came to me

And so today I write its story down

That you may know how such a thing would be

Charished above bright medals of renown.

Some twenty kids who made a Boy Scout troop

Paid me a visit on a summer's day.

Upon the lawn we made a merry group

And, as at last they turned to go

A bright-eyed youngster detained back to me

Smiling and smiling and with mainly all

Said: "But the boys have voted you to be

The best of campers! Here's the pin to wear."

"The best of campers!" I repeat the phrase

Because all day it rang within my ears.

To me it seemed the ultimate of praise

Which any man can gather through the years.

I wondered if those boys could understand

And took the tiny token from his hand

Prouder, I'm sure, than he had ever been.

Just what those words, "the best of campers," mean,

Some day when you shall find this trinket small

Among my few possessions, as you will,

You'll think me queer to value it at all.

And yet it brought to me my greatest thrill.

And since this world is but a field of wheat

We must not camp for long or linger here,

Negroes Banned From Meet Of Townsend Clubs

ORLANDO, Dec. 7. —The negro question confronted Townsend Club delegates assembled here Friday for their first state convention when approximately 35 delegates from the negro clubs appeared but were denied admission to the regular business sessions. Arrangements were made during the afternoon for accommodations for the negroes to hold their sessions in one of the small rooms at the auditorium at 10 o'clock Saturday morning. They were expected to select their own speakers for the occasion. They will also be allowed to attend the mass meeting scheduled for the auditorium Sunday afternoon with a special section being reserved for them.

The 206 registered delegates, representing a total membership of 32,500 in the state, as pointed out by officials, held a preliminary session on the second floor of the San Juan Friday afternoon and heard a number of short talks by enthusiastic workers of the organization. Among the speakers were T. M. Jenkins, Ft. Pierce, the Rev. O. H. Gest, Lakeland; Preston Bird, Homestead and E. H. Whitson, Hollywood, Fla.

"The Townsend Plan is nothing more than the spirit of Jesus Christ and I would have every preacher in the United States know that is not foolish, that is proper and feasible in every respect," the Rev. O. H. Gest of Lakeland, principal speaker, told 400.

The purposes of this organization were explained by Judge Oba P. Coode of St. Augustine. There are about 60 species of jumpers. The principal of 2122, an Indian state, was founded in 1793, and recognized by the Royal emperor in 1798.

Business Warned To Provide More Jobs Or Pay Tax

WASHINGTON, Dec. 7. —The New Deal threatens American business with continuing high taxes and possibly increasing deficits unless business itself provides employment for the jobless. "It's as simple as that," said Major George L. Berry, 1st lieutenant, Roosevelt's co-ordinator, for industrial co-operation, in a carefully worded interview last night. "The country's 11,000,000 unemployed must be fed and clothed. If industry will not do it by providing them work, then the government must do it with relief appropriations. "Business foots the bill in either event and there is no other answer."

Berry's remarks were particularly significant coming less than 24 hours after 1,500 of the most powerful and wealthiest business men in the nation concluded a four day session at which they pledged themselves to fight the New Deal in next year's election. Charging that employment is not even beginning to keep pace with this year's industrial pickup and deploring the action of some industrialists in lengthening working hours, Major Berry predicted that "unemployment will increase in staggering proportions" unless the trend is reversed.

Norris Pledges His Support To Roosevelt

WASHINGTON, Dec. 7.—(AP)—Senator George W. Norris, Nebraska, Independent Republican, has pledged support of Roosevelt next year, but announced that he himself will "not seek re-election." Norris declined to comment on the National League of Women's Suffrage, which he has long supported. President Roosevelt desires re-election and I expect to support him actively, re-election of party consideration.

To raise the Sanford Woman's Club funds for the Federation Foundation Fund, the Past Presidents of the Sanford Woman's Club entertained with a subscription bridge party Friday afternoon at the home of Mrs. E. M. Galloway, Sally Ray Farm.

Guests were received by Mrs. E. A. Douglas, president of the Past President's Club, and Mrs. Walter L. Cooper, president of the local Woman's Club. Mrs. Galloway escorted them to their places in the spacious living rooms which were decorated with an abundance of gladioli, lilies, and other colorful flowers.

Mrs. W. T. Langley, Mrs. Ralph A. Smith, and Mrs. R. E. Tolar divided the guests into three groups and each served as a hostess for a group. Many and varied prizes, including potted plants, flowers, linens, and Christmas food delicacies, were given to Mrs. Robert R. Lytle, Mrs. H. E. Morris, Mrs. T. L. Sullivan, Mrs. Harry Weeks, Mrs. L. P. Boyle, Mrs. Charles Niblack, Mrs. S. F. Doodney, Mrs. F. S. Lamson, Mrs. Walter L. Cooper, Mrs. Augusta Covington, Mrs. J. S. Wilson, and Mrs. A. M. Phillips. Grand prize for high score in the three groups, a linen luncheon set, was presented to Mrs. Hal Wight.

When the bridge games had been completed the guests were invited into the garden where refreshments in the Christmas colors were served. Mrs. Henry Wight and Mrs. W. T. Langley poured from the tea table which was overlaid with a lace cloth. Others assisting were Mrs. Galloway, Mrs. A. M. Phillips, and Mrs. E. A. Douglas.

## Bible Class To Hear "Prison Evangelist"

The Rev. W. H. Cook, better known as "Bill Cook the prison evangelist," will address the Men's Bible class of the First Methodist Church Sunday morning at 9:45 o'clock and in the Baptist Church at the 11 o'clock service. He has spoken in 10,000 churches, telling the thrilling story of his life and conversion, and for many years has devoted his time to helping inmates in jails and prisons. He spoke in Sanford churches five years ago.

The Rev. Mr. Cook was converted 21 years ago when he traded his gun for a Bible.

## Mrs. Margaret Louck Honors Bridge Club

Honoring the members of her bridge club, Mrs. Margaret Louck entertained with a luncheon party Tuesday afternoon at her home on Pinehurst. Brazilian peppers in the holiday colors were used as decorations.

High score prize among the club members, a bath towel, was awarded to Mrs. J. F. Tenhet while high score prize among the other guests, linen handkerchiefs, went to Mrs. R. F. Monalvatge. Refreshments were served by the hostess, assisted by Mrs. Arthur Brann and Mrs. J. F. Tenhet. Those present were Mrs. J. L. Ingley, Mrs. Ralph A. Smith, Mrs. Arthur Brann, Mrs. H. W. Rucker, Mrs. J. M. Stinecropher, Mrs. J. E. Tenhet, Mrs. Martin Brann, and Mrs. R. F. Monalvatge.

## Bronnie Mae Duggar Wed To William Neel

Lovely in its simplicity, was the marriage this morning of Miss Bronnie Mae Duggar of this city, daughter of C. E. Duggar of Whigham, Ga., to William Perry Neel, Jr., of Tallahassee, son of Mr. and Mrs. William Perry Neel. The ceremony was performed at the home of the bride's sister, Mrs. J. P. Bates, West First Street, at 10:55 o'clock by the Rev. A. H. Cole, pastor of the First Methodist Church, in the presence of a few relatives and intimate friends.

Attractive arrangements of yellow chrysanthemums and asparagus fern, developing a color scheme of green and yellow, adorned the living room where the wedding took place.

The bride was dressed in a dawn blue freemanship crepe dress with a high neckline trimmed by two silver and blue ornaments matching the buckle of the belt. The full lace sleeves, embroidered in silver, fastened with a tight band at the wrist while the skirt was modeled to the figure and the blouse was sheered at the waistline. Black accessories and a shoulder corsage of sweetheart roses and swansonia completed the outfit.

Miss Margaret Duggar of Tallahassee was maid of honor while E. P. Jones of Jacksonville served as best man.

Immediately after the ceremony Mr. and Mrs. Neel left for West Palm Beach, Miami, and other points in the southern part of the state. On their return they will be at home at 602 South Duval Street, Tallahassee. Mrs. Neel traveled in a brown ensemble with matching accessories.

The bride is a graduate of Seminole High School and lived here for a number of years. She has been attending business school in Tallahassee. Mr. Neel was graduated from the Amory High School at Amory, Miss. He is assistant manager and advertising director of the Sparks Theaters at Tallahassee, is a member of the Lions Club, the Motion Picture Managers Round Table Club, and Alpha Sigma Lambda Fraternity.

Among the social courtesies extended Mrs. Neel prior to her marriage was a surprise musical program at the home of Mrs. A. J. Peterson on West First Street with Mrs. Peterson and Mrs. J. P. Bates as hostesses. Many gifts were presented to Miss Duggar and refreshments were served.

## Miss Elizabeth Airth Weds L. I. Shear

The marriage of Miss Elizabeth Airth, daughter of Dr. and Mrs. H. F. Airth of Live Oak, to Leonard L. Shear formerly of Daytona Beach, now of Sanford, was performed Friday evening at the First Methodist Church. Only a few relatives witnessed the ceremony.

The bride was born in Live Oak and has lived there all her life. She was graduated from the Florida State College for women with the class of 1932. Her father is a former mayor of Live Oak.

Mr. Shear was formerly connected with the Florida Power and Light Company in Live Oak and now holds a position with the company at their plant at Phoenix. The couple plan to make Sanford their future home.

Out of town guests included Mr. and Mrs. Alfred Airth and William Airth of Live Oak.

## FALL HIKE RECIPE

The camper who likes eggs and has no utensils in which to cook them might try these recipes.

Remove portion of shell and membrane from the small end of the egg. Set in hot oil or ashes for a few minutes. The length of time required to cook the egg will depend on the amount of heat.

Remove enough of the center of an onion to make room for an egg. Break the egg into the onion shell, season, set in the coals and bake. The shell may be lined with a strip of bacon or lay a piece of bacon across the top.

## BOOKS WANTED

A request was made this morning for the donation of old school books for the use of students enrolled under the Educational Project of the WPA. Those having text books which they desire to give to this purpose may send them to T. W. Lawton's office at the Court House or notify Mrs. Jean Foulton at the WPA office, Room Four, Humbley Building.

## Warning Seen In Decline On Citrus Market

(Continued from page 1) of the decline was the lack of regulation on shipments leaving the state.

"I don't know any way to remedy the situation except by a federal marketing agreement to regulate shipments," Commaner said. "Plain sense tells that the continued flooding of eastern markets forces prices downward. With an agreement, markets could be protected from over supplies and the general level of prices could be held higher."

"Three weeks ago oranges averaged \$2.60 a box in New York. Today they are down to \$1.62, a drop of \$1.07. Grapefruit has dropped to a low average of \$2.11 in New York, 63 cents below the average of three weeks ago. Tangerines are down to an average of \$1.36 or a decline of 40 cents."

"Only a federal marketing agreement can remedy this situation. Here we are with a shortage of good prices. The citrus industry is good state regulations, confidence, advertising help and the business public has more money with which to buy."

"In view of all this it seems that the shippers of the state are only kidding themselves and deceiving the growers when they fail to take advantage of the offer by the federal government not only to set up a marketing agreement to regulate shipment but also to enable this state to take advantage of the export market for the assistance of agriculture."

The weekly statistical report of the citrus exchange showed that rail and boat shipments out of the state totaled 1,392 cars for the week ending Dec. 7, compared with 1,561 cars the preceding week, or a decline of 169 cars.

Oranges totaled 760 cars, grapefruit totaled 541 cars and tangerines 177 cars. 71 by rail and 183 by boat. Truck shipments the same week amounted to 115 cars consisting of 296 oranges, 87 grapefruit and 27 tangerines.

Florida citrus sales in all northern markets totaled 888 cars as compared with 748 cars the preceding week, with all varieties declining in price.

ing about \$1 per box. Certainly the use of advertising space was expected to maintain that price, or increase it. Uncontrolled flow of citrus fruit to the northern markets has defeated the purpose for which the advertising money is being used.

"We urge that all advertising expenditures cease, conserve the funds and use it only at a time when it can be supported by controlled distribution to the northern markets."

## Federal Court To Be Held In Fort Pierce

FORT PIERCE, Dec. 7. (AP) The first term of federal court to be held in Fort Pierce will open Feb. 1 for cases originating in Martin, Indian River, and St. Lucie counties.

The federal congress at its last session passed a measure authorizing an annual term of district court here. Federal Judge Hal B. Rice of Miami will preside.

The city of Canton, China, in one year reported more than \$1,000,000 worth of citrus and over a million packages of the bulk of the imports coming from the United States. The newspapers are used in China chiefly for wrapping purposes to small merchants.

# South Leads Other Sections On '35 All-American Team; Dixie Lands 4 Men On Roll

## Balance Of Power On Gridiron Swinging From Middle West

Pictures of this year's All-American football team will be found on Page 6 of this issue of The Herald.

By ALAN GOULD

NEW YORK, Dec. 7.—(AP)—The balance of power in American college football as reflected today in the eleventh annual Associated Press All-American selections as well as by the evidence otherwise at the end of a sensational season, has swung slightly but nevertheless distinctly in a south-by-southwesterly direction.

For the past few years it has been tipped toward the Middle West by the general all-around strength of Big Ten teams, led by Minnesota, but there has been no mistaking the trend in Dixie meanwhile. Up to now Alabama has been the No. 1 standard-bearer for the old South's pigskin parade, known far and wide for its exploits in the Rose Bowl. Moving deeper into Dixie this year, we find Louisiana State combining with neighboring Texas teams to contribute some of the outstanding accomplishments and players of the thrilling 13-event aerial program, was Harold Neumann, national air racing champion by virtue of his victories at the National Air Races last September. With him is Gordon Mungen, flying upside down, fier, who is Neumann's stunt team-mate. Other celebrities scheduled to appear include Clem Sohn, world-famous "human bat," who is returning to the scene of his first conquest of flight through the air under his own power. Sohn started the world last February when he first glided through the air like a bat on wings of his own design strapped under his arms and a web between his legs. His sensational feat is to be duplicated at the dedicatory air show.

Along with Sohn, is Major Williams, only American winner of the International Schneider Trophy race and his 1,000 horsepower pursuit-type plane; Art Davis and Bob O'Dell, National Air Race stunt team; Neumann; and other noted aces.

Air racing, stunt flying, sky-writing, dog-fighting, parachute jumping, formation flying, and balloon-bursting contests are included in the demonstrations for Sunday's dedicatory. Menuebers by the Goodyear "Blimp" will augment the program.

A record-breaking attendance of 25,000 persons is expected by Hugh Thomasson, who is directing the show for the city.

## Stunts In Air At Dedication Sunday Of Sholtz Field

### Airport At Daytona Beach Is To Be Formally Opened

DAYTONA BEACH, Dec. 7.—Some of the foremost racing and stunt fliers in the United States will take part in the air show tomorrow, dedicating the municipal airport at Sholtz Field, in honor of Florida's governor who is a former resident of this city.

Leading the van of fliers scheduled to participate in the thrilling 13-event aerial program, was Harold Neumann, national air racing champion by virtue of his victories at the National Air Races last September. With him is Gordon Mungen, flying upside down, fier, who is Neumann's stunt team-mate. Other celebrities scheduled to appear include Clem Sohn, world-famous "human bat," who is returning to the scene of his first conquest of flight through the air under his own power. Sohn started the world last February when he first glided through the air like a bat on wings of his own design strapped under his arms and a web between his legs. ## JUNIOR HIGH SCHOOL NOTES

By ELIZABETH KELLY Sports Editor

Girls' Sports: This week of play brings to a close the girls' basketball play of this six weeks' period. The girls have proved themselves exceedingly well and will be ready to present several well organized teams soon. The cold weather has in some cases hindered practices but all in all Miss Takach is satisfied with her girls for this six weeks' period.

Written tests were given the girls in basketball this past Monday and Tuesday. Miss Takach has not announced the result of these tests yet, but it is believed the tests will be satisfactory. The girls' basketball play these rules Miss Takach has stressed repeatedly for weeks.

Girls' Athletic Club: Tournament play starts for the girls in the Athletic Club this coming Monday. The girls have been practicing these past few weeks in basketball, so now the tournament will be held. The girls of the club ask that all members turn out so that the tournament will be a big success. Hand tennis also comes in for its share of play. A tournament will commence in this girls' sport on Monday also. Estelle Hunt is managing director for the teams in hand tennis.

Girls' Sport Briefs: Play was dropped completely this past Monday in both grades, but, believe it or not, singing was the "excuse" for some fun, ch girls. Seems that Carolyn Dague, Hazel Lodge and June Hysan carried away the honors on the basketball team. "Kiss your girls, don't you girls." Really, Mary Frances Wells, you can't

Tuesday brings us Louis O'Bar and Dial Rowe's entertainers. These boys have arranged several surprises. There'll be music, singing, and dancing, and more, too. Sanford's newly organized dance orchestra has been secured for the program. The "Noctambulaters" these boys call themselves.

"Major Boles and his Amateurs" are booked for Thursday's chapel program. Any pupil in school may compete in the Major's contest. Cash prizes will be awarded the winners. Ask Mildred Claus for a chance to compete for these prizes.

On Friday, last but by no means least, we'll see the long-awaited for play, "Old Maids' Convention."

This play concerns a bevy of real old maids who spend all of their time in gossip and in finding a little in tatters. Account of Adjustment allowed will sell this stuff next week at \$22.00 per ton. ## In Sanford Letter Part Of Next Week

Some of the best horseback riders, broncho "busters," call ropers and rope throwers are to be seen in the Sanford rodeo the last of next week in addition to a large delegation of cowboys from Kissimmee country and the famous Cowart Brothers of Seville, Joe Welsh and Vic Blackstone of national rodeo fame will be here, the committee announced today.

Welsh is now riding instructor at the Indian River Ranch School at New Smyrna, but he is also a Madison Square Garden rodeo prize winner. Blackstone now hails from Arcadia, but he rode the ranges in Texas for years and won the all-around championship at the Philadelphia rodeo. Incidentally, he is wearing the \$25 hat he won in that event. Blackstone will defend his title in the Sanford rodeo.

All events will be for prize.

# South Voting For, But East And West Balloting Against Digest's "New Deal" Poll

An analysis of the first ballot of 2,000,000 votes from California shows a division of 57.96 per cent against the New Deal to 42.04 per cent for it.

The initial tally of Kentucky indicates that 58.21 per cent of the 1,000,000 vote from there are in support of the Roosevelt policy. South Dakota, which gave the President better than a 2 to 1 plurality in his 1932 election, now indicates 53.12 to 2 against the New Deal.

The count of the first 100,000 votes from Virginia is divided 52.15 per cent for and 47.85 per cent against the New Deal.

The eighteen states in the week's report represent 47 per cent of the total population of the United States and the same states cast over 50 per cent of the total vote which Roosevelt received in his 1932 election.

As a possible indicator of the increased interest of the electorate in the subject of the New Deal, the magazine's recent poll has been received on the West Coast and Kansas, two western states in the final returns of the New Deal referendum on the same subject.

The Kentucky poll was provided a check upon the probability of the success of the New Deal, the magazine states in its current issue.

"Only last month, A. B. Chandler, Governor of the Blue Grass state in an election that was considered as the pivot issue of the Roosevelt campaign."

The covered 58.21 per cent of the official popular vote. The approved percentage for the New Deal in the Literary Digest poll was 42.04 per cent.

"Critics of the poll have stated that insufficient replies have been sent to Roosevelt supporters."

The return in the poll shows that 58.21 per cent of those who voted for Roosevelt in 1932, do not per cent voted for Roosevelt in the present poll. For others, 42.04 per cent did not vote in 1932, do not vote in the present poll.

The official vote in the 1932 election resulted in about the same percentage, 57.96 per cent for Roosevelt and 42.04 per cent for Hoover.

"It is interesting to note that the Literary Digest poll shows that it is in the main of another great poll, that there are in support, nearly a flood of criticism."

"Read with it a plenty of news for the Literary Digest and the poll which are often the result of election results accurately."

"In every poll the Literary Digest has conducted it has been the same. Changes of address and particularly change of name on the poll are well started. We are glad to note the criticism, leaving it to the judgment of the public whether the Literary Digest has actually based itself on traditional policy of responsibility and honor a political position."

"What of the criticism in the present poll centers around the question of the question on the ballot. Do you approve the New Deal and policy of the Roosevelt New Deal to date?"

"In the 1932 poll the question was 'Do you approve of the Roosevelt policy and policy of the Roosevelt New Deal to date?'"

"The phrase 'in the whole' was the target of many glibly used epithets, descriptive of the New Deal."

"The same in the Presidential Ballot, in fact, the Literary Digest learned long ago that it is impossible to frame a question in a form that will satisfy everybody."

"The only poll The Literary Digest has gone steadily ahead despite the clamor, confident that its polling system remains the same."

"As for the reasons for changing the form of the question in the 1933 ballot, it may be well to quote from a letter to one of our readers:

"The phrase 'in the whole' was omitted in this present referendum in order to clarify and simplify the question because in the previous (1932) poll thousands of voters, and a number of newspapers, interpreted this one phrase into a variety of different meanings which apparently caused confusion in the balloting."

"The New Deal is approved by five states in the South and disapproved by thirteen states mainly in the West and East, according to the third tally of The Literary Digest's 17,000,000-vote national poll, which appears in the current issue of the magazine.

"A total of 1,000,000 votes are reported of which 579,150 or 57.91 per cent are marked 'yes' and 420,850 or 42.09 per cent are marked 'no' as voted in answer to the question: 'Do you approve the Roosevelt New Deal to date?'"

"Last week's percentage for the New Deal was computed as 44.11 which indicates a fractional gain for the administration policy in the present balloting.

"Initial returns are reported this week from California, Massachusetts and North Dakota, which are voting against the New Deal, and Kentucky, Tennessee and Virginia, which show opposition in favor of the Roosevelt acts and policies.

"The first returned returns from Massachusetts register nearly a 2 to 1 vote against the New Deal, the majority negative vote of any of the eighteen states reported.

"Georgia, the home state of Hoover, registers a 2 to 1 vote against the Roosevelt administration, to show more than a 2 to 1 vote for the New Deal. Tennessee ranks next with more than a 2 to 1 majority for the administration's policies.

"The current balloting shows more of the twelve states reported in that week's tabulation with a fractional to four gains in their respective voting against the New Deal.

"The final returns for the entire country in a similar poll which the Literary Digest conducted in the spring of 1932 indicated that more than a 2 to 1 majority favored the New Deal. This is a comparison of the present poll returns and the official popular vote for Roosevelt in 1932 in states a fairly large percent appears in all eighteen of the states from which are tallied with the exception of Kentucky, Oklahoma and Florida, each of which gave the President nearly a 2 to 1 plurality when he was elected, and indicates a majority of their voters are opposed to the Roosevelt acts and policies.

"Minnesota voted nearly 2 to 1 for Roosevelt in 1932. The vote there now is more than 2 to 1 against the New Deal in the magazine's poll, a similar reversal by the same ratio is indicated also in Nebraska.

"Germany, The Netherlands, Austria and Hungary in their earlier and Digest's leading poll conducted in 1932, when 54,184,000 votes were reported, bringing a total of 58,21,000.

"West Palm Beach, Fla., recently observed the 61st anniversary of its founding.

"'New Deal' is the name of William ('Grand') and 'Little') of Astoria, Oregon.

## Not for Swimming!

For the sake of something different in "bathing suits," the Orlando, Fla., beauty hit upon the idea of using festoons of Spanish moss. But there's a catch in it. Moss comes apart in water, so there can't be much swimming (Associated Press Photo)

## OLD PEOPLE find way to keep breath wholesome

Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant.

Either because of stomach disturbance, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). No wonder others consider them a nuisance.

But now Listerine has found that the regular use of Listerine will often overcome offensive mouth odors due to the fermentation of tiny bits of food on mouth, teeth, or dental plate surfaces.

This safe antiseptic and quick deodorant works quickly. It cleanses mouth, teeth, and gums thoroughly. It kills germs and prevents infection, a major cause of odors, and then counteracts the odors themselves.

Try using Listerine every two or three days. How much more wholesome it leaves your mouth. How it restores your breath. Listerine Pharmaceutical Co., St. Louis, Mo.

## EMPTY STOCKING FUND

By Capt. F. S. FERRIS

Here is a family of eight. Father not strong and was unable to get work. Moved onto a better painted potatoes and got down to a few dollars in his pocket. He had to go to work for a few days for Christmas. The four small children were looking for something to do for their father. We believe in the citizens of Seminole County, Fla., that the empty stocking fund is a good thing and that it is a good thing to have a fund for the poor.

## President Defends AAA As Supreme Court Opens Case

### Political Profiteers Trying To Stir Up Strife Are Accused In Chicago Speech

COURT TO RULE ON LEGALITY OF ACT

CHICAGO, Dec. 9.—(AP)—President Roosevelt declared today that "political profiteers" are seeking to stir up city people in opposition to the New Deal farm program which he defended at almost the same hour that it approached a crucial test in the Supreme Court. The program was aimed, he said, "to stop the rule of lout and class that three farmers virtually bankrupted by turning their fields into weeds."

## Prize-Winning Fruit Display Being Planned

### Committees Working On This County's Contributions To Orlando Exposition

Laying their plans early, committees in charge of the Seminole County exhibit at the Central Florida Exposition in Orlando next February are confident of making such a display of fruits and vegetables from this section that this county will win first prize. They plan to profit from last year's experience and place the exhibits in such a manner that the judges will be impressed with the excellence of the products shown, rather than to make the display simply one of esthetic beauty, though attractiveness will not be sacrificed.

## Plan For Reducing Navy Armaments Rejected By Japan

### Hauptmann's Plea For Review Denied By Supreme Court

Almost last Avenue Of Escape Closed By High Tribunal

WASHINGTON, Dec. 9.—(AP)—Almost the last avenue of escape from electrocution was closed by Bruno Richard Hauptmann today when the United States Supreme Court refused to review his conviction of the kidnapping and murdering of the Lindbergh baby.

### Equality With Both Britain And U. S. Demanded By Delegate From Nippon

Present Treaty Expires In 1936

LONDON, Dec. 9.—(AP)—The United States today proposed a 20 percent reduction in the world's great Navies, but Japan immediately rejected the plan. Its representative, announced by Admiral Nagano, chief Japanese delegate, who said such a cut of existing treaty tonnage would only prolong the ratification system by which Japan is limited to the three-fifths naval power maintained by either the United States or Great Britain and therefore not acceptable to Japan.

While the President addressed the American Farm Bureau Federation here, the Supreme Court at Washington opened oral arguments in the House Bill case in which the constitutionality of the AAA is challenged and defended. Evidently striking at his opponents' contention that the AAA is unwarranted encroachment of federal power into the domain of the states, the President said that if states acting separately are powerless to attain balanced agriculture, putting the whole American economy as a "swimming pool." He declared higher farm prices conferred "net benefits" on consumers, although he hit many retail prices as too high.

From here the President went to Notre Dame University at South Bend, Ind., where an honorary degree was to be given him late this afternoon.

Several conferences have been held by J. G. Wagner, chairman of the exhibit committee for the Seminole County Chamber of Commerce, and C. R. Dawson, county agent, and they plan to meet with the entire committee the latter part of the week and then get down to cases. As the latter pleased it, and began definitely to build the expected prize-winning exhibit. They have gone over their plans and measure costs and suggested models to which are being prepared.
