

At The Capitol

TALLAHASSEE, July 17.—I never will be able to understand why it is, when we are in an awful rush to get through with the business before us, the House and Senate also will vote to adjourn over the week-end. It seems to me to be against the wishes of a majority, yet when the vote is taken it almost always carries.

Things very quiet again today. Most House members have gone home, or to some nearby resort, and the Senate is working with a bare quorum. It appears doubtful if it will have that many for the afternoon session.

The Senate is working today on the license tax measure bill. It is a longer drawn out affair over there than it was in the House, but it is a question whether it will pass or not even after it is amended like many of them want it.

If the House could ever get the legislative machinery down to actual work, and stop all these investigations, resolutions and other distasteful tactics, we would get somewhere. A great deal to do yet, and only one week left to do it. I will not mention what is in my mind, but folks, take it from me, and EXPECT THE WORST.

The passage of our Circuit Court redistricting bill was at one time pretty well assured, but things seem to have changed some, and the chances are slipping. The Senate's action in killing a similar bill evidently had something to do with this condition.

I have not seen a single person from Seminole County on this way during the present session. I do not blame them, however, for it is certainly very monotonous now.

### Final Rites Paid To Pioneer Resident Who Died Saturday

Funeral services for Mrs. E. L. Brown, pioneer Sanford resident, who died at St. Vincent's Hospital, Jacksonville, Saturday afternoon, were held this afternoon at 3:30 o'clock from the home of her daughter, Mrs. G. C. Sperring, Mayfield.

The Rev. Jno. B. Cullpepper, Sr., of the First Methodist Church of Bunnell, was the officiating clergyman. Burial was in Evergreen Cemetery with the Erickson Funeral Home in charge of arrangements.

The honorary pall bearers were: T. P. Adams, J. H. Cowan, W. M. Colbert, W. P. Fields, S. R. Graves, and J. C. Hutchinson. The active pallbearers were: R. A. Cobb, H. H. Laing, B. W. Goodspeed, John Ludwig, J. H. Tillis, and J. C. Littlefield.

Mrs. Brown's death followed an illness of several months' standing. Six weeks ago her condition became critical and she was removed to Jacksonville. Last Thursday she layed into a coma from which she never awakened. Her husband, four daughters, and one son were at her bedside when she died.

She was born the daughter of W. T. and Nannie C. Collier, in Talbot County, Ga., Dec. 14, 1859. Following her marriage to E. L. Brown, more than 40 years ago, she moved to Florida in 1905, coming to Sanford in 1906, where she has resided since.

She is survived by her husband, E. L. Brown, four daughters, Mrs. G. C. Sperring, Sanford; Mrs. W. T. Mitchell, Sanford; Mrs. E. A. McMichael, Atlanta; and Mrs. M. J. McDaniel, Bunnell; one son, Collier Brown, Sanford; three grandsons, Mrs. G. T. Rowell and Mrs. W. J. Allen, Woodland, Fla.; Mrs. E. C. Brown, Columbia, Ga.; and two brothers, W. T. Collier, Sr., Atlanta; and C. A. Collier, Daytona, Fla.

HALKMAN—Two very noble animals to be bred by Eastern Air Transport Co. on W. W. 7th St. near 34th Ave. and will be used for head to back communication.

## STATESMEN OF WORLD GATHER AT BIG PARLEY

### Most Significant International Conference Since War Is Convened In London

LONDON, July 20.—(A.P.)—Statesmen of seven great powers assembled here today for the most important international conference since the meetings at Versailles wrote war into the economic and political map of the world. They were charged with the task of reconciling conflicting national interests, and at the same time of lessening the financial stress throughout the world.

At the end of the series of conferences in Paris last night it was announced the German and French ministers had agreed on the principles on which financial relief might be extended to the Reich and that the conferences would be resumed in London today.

A wave of householders' buying struck Germany Saturday, prompted by fears of a fall in the value of the mark, and yesterday the streets and cafes thronged with people anxious to get the news from Paris.

Belgian newspapers yesterday generally condemned the overtures toward Germany and denounced the policies of the United States and Great Britain.

Chairman Stone of the United States farm board announced at (Continued On Page Four)

### E. J. Meyer Returns Home After Visit In Eastern Section

Declaring that Sanford, Seminole County, and Florida are the three choicest spots in the country at the present time, E. J. Meyer, well-known young celery grower in this section, returned yesterday from a month's vacation spent in New York City and at Scranton, Pa.

Although he said he spent a busy and interesting time, the unbearable heat, stories of hard times, evidences of the depression, and a desire to get back into harness again made him glad to get away from the city.

Mr. Meyer spent a week in and about Scranton with John Hiltner, his family, former residents of Sanford. While there he said he enjoyed visits to adjoining lakes and wooded spots where, despite warm weather, he was able to completely relax and rest, after three weeks of New York life.

In New York Mr. Meyer spent his time visiting relatives, Sanford friends, viewing the sights, enjoying baseball games and horse races, and generally enjoying himself as "a country boy in the big city," as he expressed it.

He urges all persons who contemplate visiting New York City in the near future, to visit the new 103-story Empire State building, and the new and magnificent Daily News building. "Those two spots were worth the trip alone," he said, "and a trip to New York City would be incomplete without a visit to either."

### Link Kennedy Finds Animal, Stranger In This Part Of Globe

Leave it to Link Kennedy, well-known local sportsman, to dig up interesting and unusual evidences of Florida's wild life. As an ardent fisherman, Mr. Kennedy has often visited The Herald office with stories and proof of unusual catches made in the waters of the surrounding section's many lakes. As an equally ardent hunter, Mr. Kennedy has often bagged types of every known Florida wild animal, and his home is literally cluttered with stuffed pits, deer horns, and the like.

This morning Mr. Kennedy visited the Herald office bearing an eight pound armadillo, apparently full-grown, which he said he had found crawling near his home. Dogs chased it under his home and killed it before he was able to make a capture, he said.

Just how the animal became a resident of South Sanford Avenue was Mr. Kennedy lives, is an open question. Armadillos are animals which are native to Central and South America. While several of their species have been found in parts of Texas, armadillos have never before been found in Florida.

## U. S. Naval Balloon Lands At New York State Town To Win Elimination Race

AKRON, July 20.—(A.P.)—A United States navy balloon piloted by Lieutenant Settle today won the national elimination balloon race coming to earth at Marilla, New York. It traveled 25 miles further than the Goodyear Zeppelin bag which landed at Steyngsville, Ont. Official distances gave the navy entry a distance of 215 miles. The two bags earned the right to represent the United States in the international Gordon Bennett race.

Four of six free balloons entered in the annual national elimination race floated north-eastward last night through threatening skies which had seen the descent of two of the contestants.

The U. S. Army balloon No. 2, heaviest of the six 80,000 cubic foot gas bags competing, gave up to the combination of hot gas and rain after sailing about 15 miles in 25 minutes. About half an hour later the Del-Mar-Va ran into a heavy rainstorm about four miles north of Havana and about 20 miles from Akron Airport where the race started late yesterday and came to earth.

Natural gas was used as a lifting medium yesterday for the first time in the national races. Previously hydrogen, which has three times the lifting power, was used. Observers expressed the opinion that the change may have been responsible for the sudden descent of Army No. 2, because of gas losses.

Ed J. Hill, veteran balloonist and pilot of the Detroit "WJH" said he expected the new gas to materially cut the distances.

Gusts of wind and a few drops of rain swept the field at the start. Meteorologist reports indicated thunderstorms, low ceiling and poor visibility lay ahead of the balloons. The storm area centered in the St. Lawrence Valley.

The Goodyear-Zeppelin entry "Goodyear VIII" held a technical advantage as its record of 28 continuous hours in the air was the best of any of the six entries. Its pilot, Frank Trotter, and his aide, Roland Blair, won the national eliminations last year.

The Goodyear blimp pilots who are participating in their first free balloon event, were in (Continued On Page Four)

### FASCISTS SCORED BY INFERENCE IN PRAYER OF POPE

ROME, July 20.—(A.P.)—Pope Pius XI yesterday prayed for a miracle to "make the blind-est of the blind see."

He mentioned no names, but he talked at length of those who caused his "hours of debilitation" in an address celebrating the virtues of the venerable Caterina Laboura.

These unnamed people were also advised by the pontiff not to speak of "that which they do not know," and not to pronounce judgment upon that of which they are ignorant.

There was no doubt that the pontiff referred to the fascists. It was considered significant here that his tone had changed from one of a reproving critic to that of a compassionate father. The address was interpreted as indicating that he will rely upon a providential change of fascism instead of drastic measures such as a severance of diplomatic relations or a denunciation of the treaties.

The more quiet tone Premier Mussolini adopted recently also contributes to the theory that the church and state controversy will be settled peacefully, if it is settled at all, or else will drag out for generations, as did the previous strained relations between the Vatican and the government.

The pope continued to play upon the theme of fascist "blindness" throughout his address. He led up to the subject of miracles, which, he said, are greatly needed "in a moment when the whole church suffers, when its head suffers, which sorrow when its head suffers, which is struck when one of its most precious parts is struck."

"The whole world knows this (Continued On Page Four)

LOANDA, Portuguese West Africa, July 20.—(A.P.)—Two hundred parrots were injured, 20 fatally, in the collapse of the cable railway during high seas in the church of Nossa Senhora de Carmo yesterday.

## SIGNS BRIGHT FOR AVERTING GERMAN CRISIS

### Optimistic View Telephoned By Stimson To Officials In U.S. As Parley Starts

WASHINGTON, July 20.—(A. P.)—An optimistic view the London conference of ministers would succeed in solving the stringent emergency financial situation in Germany was telephoned to Washington yesterday by Secretary Stimson in Paris.

Acting Secretary Castle of the state department talked by telephone with Stimson and immediately telephoned the secretary's view to President Hoover at his Raritan camp.

Coming on the eve of the London meeting and particularly after the United States and Great Britain had rejected France's proposals in connection with the proposed \$500,000,000 loan to Germany, the favorable turn in events cheered Washington officials.

The chief executive was so favorably impressed with the situation that he decided to remain at his camp.

With the rejection of the French loan plan, which included financial and political demands in which the United States and Great Britain would not participate, attention today was centered on the prospects of a compromise at the London session.

France, in suggesting the loan, suspended a demand that it be guaranteed by the principal interested creditors of Germany. The United States objected to this on the grounds the government could not loan money to itself or involve its funds in guarantees without congressional approval.

The French political demands were based on two points. These were the maintenance of European political status quo for 10 years and the keeping of the German military budget at its present level for a similar period.

President Hoover has made clear to Secretary Stimson in connection with the whole situation his position that the United States cannot inject itself into political involvements.

America's representatives will (Continued On Page Three)

### Masonic Degree Will Be Given Tomorrow

At the next regular communication of Sanford Lodge No. 62, F. & A. M., which will be held in the Masonic Temple tomorrow night starting at 8 o'clock, the "Entered Apprentice" degree will be conferred.

Although the "Entered Apprentice" degree is the first or preliminary degree in masonry, intended to prepare the candidate for the succeeding degrees, it has a wonderful background, according to James Moughton, local Masonic official, and is replete in its lectures with historical information.

James O. Huff, worshipful master, has extended an invitation to all members and visiting Masons to be present Tuesday night.

### Military Units of Sanford Return From Camp Foster In Jacksonville

Reporting one of the most successful encampments a Sanford military unit has ever had, the 110 officers and men of Sanford's three military units in the 124th Infantry, Florida National Guard, returned to Sanford yesterday afternoon from Camp Foster in Jacksonville. They did not officially disband until they had assisted in storing machines, guns, saddles, rifles, camping gear, and other paraphernalia in their armory building, before before dark each man became a civilian again.

Besides lanced bottles and stor-bags of good times, the boys Company was brought back with them a "silver" while each of the units was having cup won by the First Battalion while engaged in going through tall for having the most milk-routine work of camp life, their appearing group of men in no reported an unusually the colored men's parade held during training period. The men of Company D stressed and was reviewed by all the important camp officers, with minor detachment were almost idle them and related men taking this as a chance, pains, and the roles ordinarily assigned to them were unusually light, and the majors and captains. At the head of the Headquarters staff, it proved to be one of Company had little but drilling the most interesting features of camp life.

### JOHN J. RASKOB AND DAUGHTER

John J. Raskob, Democratic leader, is pictured above with his daughter while on a vacation in Paris.

### FAVORABLE LOOK OF GERMAN CITY ONLY BOLD FRONT

BERLIN, July 20.—(A.P.)—Berlin, the capital of distressed Germany, today presented a picture of prosperity to the strangers strolling its wide boulevards and shopping thoroughfares.

The coffee houses, bars and sidewalk cafes were crowded. Motion picture theaters were filled. Well dressed men and women thronged the sidewalks.

By buying a newspaper, the stranger might begin to understand that something was not quite what it seemed. The prosperous scenes before his eyes.

The earnestness with which the people read the newspapers told part of the story. The Paris newspaper, regarded by Germans as the nation's history for better or for worse, were being followed with intense interest and anxiety. It was difficult to buy a paper on the streets, so quickly did the news vendors sell out their editions.

Most of the crowding on the sidewalks and in the cafes was principally because the worried citizens felt the need to talk and to get the viewpoint of their friends and acquaintances on the question of what the outcome is to be.

In conversation with some of these people, one was impressed by the anxiety.

The government continued to emphasize that the present crisis is one of deflation, not inflation. Nevertheless, those citizens who went through the inflation period and lost their life savings in it have not been able to entirely banish fear from their minds.

As a result there has been much buying during the last few days by those who still have money or credit. It has been aimed at safeguarding the buyers from possible depreciation of the mark.

Many householders for supplies of food staples which will still be good months from now even if the fear of inflation proves groundless. Drygoods merchants and others who deal in necessities which are easily preserved over a long period of time are doing a rushing business.

The fact that such buying is possible when banks are restricting payments to depositors is explained by the fact that many depositors withdrew the savings of years before the banks closed last week. Another explanation is that many workers, instead of putting their money into savings banks, have acquired the habit of investing their spare funds in cooperative shares which constitute a credit against which they can draw.

### LEAVE FOR MOSCOW

PARIS, July 20.—(A.P.)—Joseph Leibiz and Marcel Dorot, French fliers who attempted non-stop flight from Paris to Tokyo failed last Tuesday. Leibiz was taken to the hospital and Leibiz's wife, who was accompanying him, was taken to the hospital.

They were leaving there yesterday for Moscow.

### GERMAN BANK SUSPENDS

BREMEN, Germany, July 20.—(A.P.)—The J. F. Schroeder bank suspended payments today. The bank was founded in 1820 by Johann Friedrich Schroeder, well known shipping and industrial magnate.

## BILL ADOPTED BY HOUSE TO CUT CIRCUITS

### Measure Passes Sixty To 22 And Would Reduce From 43 To 30 Number Of Judges

TALLAHASSEE, July 20.—(A.P.)—The House today adopted 60 to 22 a bill to re-district the judicial circuits of the state reducing the number of circuits from 28 to 21 and the judges from 42 to 30. The bill was heavily laden with amendments before it received final approval.

The Senate spent the morning considering the House approved occupational license tax bill accepting or rejecting a number of amendments.

The House refused to permit the introduction of a bill by representatives of Duval to divert a million dollars of State Road Department money to the schools until the revenue, provided by the measure passed at the first extra session, becomes available.

The House adopted a resolution to appoint a joint House and Senate committee to work out a plan of ad valorem tax relief for counties and cities and send it to the Senate for approval. The latter body did not take final action.

Florida merchants invaded Tallahassee yesterday to make their last defense against the passage of cigarette, general sales, and luxury tax bills now before the Legislature as a desperate administration bloc strives during the closing days of the second extra session to raise revenue sufficient to finance the state government and eliminate the ad valorem property tax.

With the cigarette tax bill scheduled to come before the Senate today at 2 o'clock and the Senate Finance committee (Continued On Page Three)

### Senior Division In Tennis Tournery Is Holding Spotlight

That the crown as city tennis champion, senior division, for 1931 will be won by a real champion is indicated in the results of first round matches, some of which had been completed at an early hour this afternoon.

With the junior title safely tucked away by Clay Williams, all interest among the tennis fans of Sanford is now centered upon the senior aspirants to the title.

This morning Homer L. H. Went down before the first play of the Johnnie Terwilliger. Terwilliger won by scores of 6-1 and 6-1.

At 8:00 o'clock P. M. Schirard swept R. C. Steele off his feet by scores of 6-1 and 6-1. It was the most hotly contested of the four morning rounds.

Charles Miller disposed of Olla Greenhaw, in less than half an hour after that match got under way at 9:30 o'clock. Miller won by scores of 6-1 and 6-2, featuring a well balanced attack featured by speed, and plenty of it. Miller will meet Schirard in quarter-final play tomorrow morning, in what is expected to be one of the most interesting matches of the tournament.

Clifford Howell was extended in winning his matches from Eugene Estridge, who gave Howell a tough battle before going down under 6-6 and 7-5 scores.

Roy Symes had to go the limit in defeating Jack Aycock, who lost by scores of 6-3, 3-6, and 6-4. Howell and Symes will meet tomorrow morning at 10:00 o'clock in quarter-final play.

Four matches were scheduled to be played this afternoon, starting at 2:00 o'clock. Dr. H. W. Hucker, Roy Holler, and Roy Britt, were the favorites to win their matches, while the William Morrison-Ray Harrison match was termed toss-up.

### Rains Bring Relief To Dixie Drought Areas

ATLANTA, July 20.—(A.P.)—The cotton belt drought ended today as rains over the week-end brought relief to virtually every southern state. The weather bureau forecast additional showers for tomorrow. With the rains came storm conditions that cost several lives and did considerable damage.

# YEAH?

By Peter Schaal

The already tangled Central Florida League second half race was tied up a little more after yesterday's game as played, with the exception of a triple tie for first place.

The undefeated Cocoa Indians will stay home and play the St. Augustine Saints who come to Sanford to tackle the yet-to-win Cardinals, and the Packers move on to Daytona where they meet the first place champs, A. DeLand, St. Augustine and Winter Park win would give those three clubs in a tie for first place. However, the Cocoa outfit will be depended upon to make the DeLanders hustle, and the chances are good that Mudrock or Joiner will put a crimp into the batting ability. The Reds are due for a win. Their new talent is slowly but surely settling into place, and a powerful machine should be the result. The Islanders ought to be able to knock off any club, especially Winter Park, although Joe Chubb has plenty of good chunks left in his sturdy right arm.

The Cards and Robins ended their four-game series yesterday by being exactly where they were when they started, as far as standings are concerned. The Robins won, 4 to 1, evening the series. Laque and Quinn kept the Cards at a distance all the way, for in only one frame were they able to get more than one hit. Meanwhile, the Robins knocked 12 hits out of Flint Bunch's system. Lefty O'Doul got four hits in four trips, repeating a performance of three days ago.

The Giants finally won a game from the Cubs. It was a 7 to 0 affair, pulled from the fire by a three run rally in the seventh. It put the Giants back into second place by a bare margin of half a game. The winners got 16 hits off three hurlers, while three Giant pitchers allowed but six hits all the way.

After taking four straight, the Pirates dropped the final game of their series with the Phillies by a 4 to 1 score. Jumbo Elliott held the Pirates to four hits, and a double, Whitney, Brickell and Friberg did the heavy hitting for the Phillies since Klein and Arlett were stopped cold.

Red Lucas, in his old time form, blanked the Braves 5 to 0, holding them to five scattered hits. That made the series stand even, with the Braves taking a slight edge because they outthrew outfielder and outsmarted the Reds. Mack and Hendrick got two for three for the Reds, to steal batting honors.

No aspects of note were reported from the junior loop. The Senators pounded White Sox hurlers for a 13 to 7 decision, getting 20 hits; Lefty Grove won his 19th game of the year when he beat the Tigers 6 to 3, giving up nine hits; Ferrell pitched and batted the Indians to an abbreviated 2 to 1 victory over the Yanks, his home run in the seventh providing the winning punch after the Babe had tied the score with a homer in the fourth, and the Browns made four out of five by beating the Red Sox 6 to 2 in a game featured by long-distance hits, including Kress' homer.

**CORRECTION:**  
Through oversight the name of the Seminole Cleaners was omitted in yesterday's article as one of the donors of the new diamond ball uniforms. E. H. Cullum regrets this oversight and takes this means to correct same.

## Georgia Continues To Ship Melons At Profitable Prices

MOUNTAIN, Ga., July 18.—(A.P.)—Georgia is still shipping melons at the rate of approximately 400 cars a day, according to figures given out by the office of the Federal-State marketing service here. The markets absorbing them at prices which growers confess are the most profitable they have seen in several years.

South Georgia, which is doing most of the shipping, has the major portion of the watermelon crop that goes forward, is beginning a sharp drop in loadings. The crop is maturing rapidly on the state and the marketing service is predicting a bumper crop.

## Orlando Team Whips Sanford All-Stars In Diamond Ball Contest

By E. H. CULLUM

Once again a Sanford Diamond ball team has gone down to defeat at an Orlando team, this time to the Florida Times-Union team of Orlando, who defeated Sanford last night 10 to 6.

Kinlaw started for Sanford and for three innings held the Orlando boys to two hits for one run. In the third inning, Kinlaw weakened and Orlando hit him with everything except the barn door. Four hits in this inning, coupled with three errors and a sacrifice counted for six runs, giving the Orlando team the lead by a margin of one run.

Johnny Hodge, a southpaw, relieved Kinlaw in the fifth, and for the remaining five innings practically had the Orlando team eating out of his hand. However the Orlando team managed to get three hits off him, and this, together with a walk and one error, counted for three runs, bringing Orlando's total to ten for the evening.

Williams started for Orlando. The Sanford boys jumped on him from the start and for the two innings and part of the third the Sanford team knocked his offerings all over the lot, chalking up six runs while he was in the box. With none out in the third, Payne Murray, who, by-the-way is the star hurler for one of the leading City League teams of Orlando, relieved him, and from Sanford, the Sanford team getting then on it was goose eggs for only one hit off his delivery, Bobbie Knight managing to get a single in the 8th inning. During the seven innings he was in the box he struck out 15 of the Sanford players.

Summary: 2-base hits: Gielow; H. Tillis. 3-base hits: Murray, B. Eunice. S. Kinlaw, Home Runs: H. Tillis. Bases on Balls: Kinlaw 2, Hodge 2, Williams 2, Murray 6; Struck out by Kinlaw 5, Hodge 6, Williams 3, Murray 15; Hits, off Kinlaw 6 in 4 innings; Hodge 3 in 5 innings; Williams 5 in 2 innings; Murray 1 in seven in seven innings. Winning pitcher: Murray, losing pitcher, Kinlaw. Umpires, Miles, Lake, Bender. Ravenel. Time of game 1 hour 15 minutes.

## TEACHERS TO LEAVE

**HAVANA, July 18.—(A.P.)—**A group of Cuban teachers will leave Havana today, aboard the Peninsular and Occidental steamer, to spend four days visiting Florida.

early next week. The Federal-State Market service will move its office from Moultrie to Macon Saturday.

Through Thursday a total of 8783 cars had been shipped from Georgia. This compared with 9870 cars moved by the same date a year ago. The price situation has been much better than it was in 1930 for the reason that South Georgia has practically had the field alone for a month, while a year ago all of the main producing areas were pouring melons into market at the same time. As a result on several heavy days the carlot movement averaged above 1500 cars per day.

## BRUENING AND CURTIUS REACH PARLEY SCENE

(Continued From Page One)

that any loan must be guaranteed by German customs receipts, and some sort of international controlling committee must supervise Germany's expenditures.

The plan presented at yesterday's three-cornered conference had been worked out by the French, but was agreed to in its final form by Secretary of State Stimson and Foreign Secretary Henderson. In main outline it calls for an immediate loan to the Reichsbank of \$500,000,000.

This sum would be advanced in the same manner as the \$100,000,000 which was lent last month by the bank for international settlements, and was extended last Monday. The participants in that loan the bank for international settlements, the Bank of England, the Bank of France and the Federal Reserve Bank. Italy and Belgium would be expected to participate in the new loan.

## 2 Hungarian Fliers May Return To U.S. By Means Of Plane

BUDAPEST, Hungary, July 18.—(A.P.)—Refreshed after one trans-Atlantic flight, Captains Alexander Magyar and George Endras considered flying back to New York from Budapest in their monoplane Justice for Hungary.

Among the many congratulatory telegrams that have arrived, mostly from America, Captain Endras said, were offers of financial backing from undisclosed enthusiasts for a return flight.

"The plan to fly back from Budapest to New York with the Justice for Hungary appeals to me as I hope it will appeal to the world," Captain Endras said.

All day crowds of sightseers stood around the Justice for Hungary, which came down last night from the village of Biscke, 14 miles from Budapest, after a non-stop crossing of 2220 miles from Harbor Grace, N. F.

As a reward for their exploit, the two fliers were informed by M. Gombos, Hungarian minister of war, that he had recommended that the highest order, the service medal, first class, carrying the title of excellency, be conferred on them at the official reception Monday.

## Removal Of Tax On Property Is Declared Vital

by every department over which I have had executive control. The large savings made have made it possible for the state to carry on during the last two year years.

New sources of revenue, the governor insisted, must be found if the Legislature completes its task.

"We might as well admit," he said that "sometimes alone will do the job. New revenue must be found to meet the requirements of the state and, at the same time, lift the state and nation. In my opinion, no greater disaster could come to the state at a time when recovery is evident than for the state to be unable to meet its obligations and at the same time continue its excessive burden on real property, which as a matter of fact, will not produce the necessary revenue."

A reduction in the property tax, the governor said, would prove the greatest boon that could come to Florida at this time.

"The people little realize the significance of this one item, not only to the tax-paying public but to the citizens everywhere interested in Florida real estate," he added. "Only last night I received a telephone call from New York inquiring as to the possibilities of relieving our property tax."

The governor's views on the necessity of cutting 14 mills from the state tax rate have been embodied in the report of the select committee of the House with its series of bills providing sufficient revenue to eliminate the millage and meet the demands of the government.

Several members of the Legislature, however, believe a reduction of 10 mills would satisfy the majority of property owners if such a cut can be made without the imposition of luxury or nuisance taxes.

"The present millage," Senator

Ball of Gainesville said today, "is the result of many Legislatures. I believe it would be unwise to remove all of it at this session. If we can eliminate 10 mills, we will have gone a long way in relieving real estate."

The attitude of many members of the House was rejected in the opinion expressed by Representative Lee, of Highlands.

"Even a five-mill cut," Lee said, would satisfy our constituents. Sufficient revenue already has been raised to accomplish this."

finals by defeating Braxton Payking and Harry Bower. The scores were 7-5 and 6-1. In their match with Williams and Smith they put up a battle which extended their rivals, but was not good enough to bring victory.

Herman Morris, general secretary of the Seminole County Y. M. C. A., this morning announced the pairings for the senior division first round play which starts Monday morning at 6:00 o'clock.

At that time Homer Little will meet Eugene Terwilliger, to be followed by the following pairings: Peter Schirard versus B. C. Steele at 8:00 o'clock; Charles Miltner versus Olin Greenhaw at 9:00 o'clock; Clifford Howell versus Eugene Estridge at 10:00 o'clock; Roy Symes versus Jack Aycock at 11:00 o'clock; Roy Holler versus Wallace Phillips at 2:00 o'clock; Roy Britt versus Frank Dulose at 3:00 o'clock; William Morrison versus Roy Harrison at 4:00 o'clock; Dr. H. W. Tucker and Jim Hayes at 5:00 o'clock, and Walter Barb versus George Mays at 6:00 o'clock.

First round play will extend into part of Tuesday, owing to the fact that 32 entries have been received. On Tuesday play begins at 8:00 o'clock when Louis Blate
