

CARDINAL RATTI ELECTED POPE THIS MORNING WHILE GREAT CROWDS AWAITED

Archbishop of Milan Was Dark Horse in Election TAKES NEW NAME WILL BE POPE PIUS THE XI AND IS PROMINENT IN CHURCH

(By The Associated Press) ROME, Feb. 6.—Cardinal Achille Ratti, Archbishop of Milan, was elected Pope this morning. He has taken the name of Pius the Eleventh. Thousands were waiting before St. Peter's for the wisp of smoke which would tell of the new pope or failure of the Sacred College to reach a decision and gave a mighty shout at 11:33 when a thin wisp came from Sistene Chapel chimney. Cardinal Deacon Bialelli announced the election from the Central Balcony of St. Peter's.

Cardinal Achille Ratti, Archbishop of Milan, was for several years Papal Nuncio in Poland where his discharge of important ecclesiastical functions when the Polish question became acute earned for him the esteem of Benedict XV and the gratitude of the Vatican authorities. It was because of this service that the red hat was conferred upon him on June 16, 1921, when a similar honor was bestowed on Cardinal Laurenti.

Cardinal Ratti was born in Italy on March 31, 1857. For many years he was librarian of the Ambrosian Library and archivist at Milan. Later he became librarian of the Vatican. In this position he remained until the new republic of Poland established official diplomatic relations with the Vatican at which time Ratti was appointed archbishop and was assigned to Poland as the representative of the Holy See.

That country was then torn with the estrangements from religion brought about by the Communistic propaganda from Soviet Russia and Archbishop Ratti counteracted the spread of radicalism. He also won the esteem of Polish Catholics by his efforts in behalf of destitute children orphaned by the war.

Cardinal Ratti was the Archbishop of Milan presides over one of the most important archdioceses in Italy. The city being a great industrial center, one of its main requirements is that the Cardinal shall possess a thorough knowledge of political and social problems. He is big physically and is reputed to have liberal tendencies.

LONDON, Feb. 6.—Ratti was elected Pope by receiving 38 votes says a Central News Rome dispatch.

CORONATION GOWN STOLEN AT TAMPA AT THE TOWNE HOME

(By The Associated Press) TAMPA, Feb. 6.—Gown valued at four hundred dollars designed to be worn at Coronation Ball Gasparilla tomorrow night among two thousand dollar lost taken from the home of J. Mack Towne Saturday night was learned today. Burglars examined a cammo pin and threw it aside as worthless. It was valued at six hundred dollars.

OBENCHAIN TRIAL ON CALENDAR TODAY AT LOS ANGELES

(By The Associated Press) LOS ANGELES, Feb. 6.—Trial of Mrs. Madalyn Obenchain accused of the murder of J. Belton Kennedy, former sweetheart, on calendar superior court today. Woman charged conspired with Arthur C. Burch to slay Kennedy. Burch trial last November resulted in disagreement by the jury which stood ten to two for conviction.

PROBITION AGENTS WILL WORK UNDER COVER SAYS DIRECTOR HAYNES

WASHINGTON, Feb. 6.—Haynes announced today that prohibition agents in the future would work under cover and appointments federal prohibition agents in various States not be announced.

ATLANTA GIRL NEICE OF UPSHAW, ANOTHER VICTIM OF KNICKERBOCKER THEATRE COLLAPSE AT WASHINGTON RECENTLY

(By The Associated Press) WASHINGTON, Feb. 6.—Miss Caroline Upshaw, of Atlanta, niece of Representative Upshaw, of Georgia, died today of injuries sustained when the Knickerbocker Theatre collapsed here. She has been at the point of death since the accident, one leg being crushed off and the other badly mangled.

Police Are Working On Clue to Taylor's Identity and Life

Another Scandal in Movie Life in Los Angeles

(By The Associated Press) LOS ANGELES, Feb. 6.—The police today began re-checking Taylor's papers in an effort to obtain a better clue to the identity of his slayer. Tales come to the police of an alleged possession by Taylor of women's silken lingerie, one piece of which was a pink night robe, reported missing since the body was found. One witness is said to have stated the night-gown bore the embroidered initials of an actress. Also report police are searching for drug peddler who it is hinted had sought through Taylor to make a delivery of drugs to actress who found it difficult to make her purchases direct. Initials of actress connected with this phase of case said to be the same as those on the night robe.

THE WONDERFUL STORY SOUTH FLORIDA'S GROWTH

The South Florida fair, which opened in Tampa Thursday, is the greatest in the history of that section, judging by the report of counties represented and exhibits displayed, there is no reason why this should not be true.

South Florida is a blooming garden of possibilities, in which nature has buried some of its richest treasures and on which illimitable blessings have been showered. Search the world over from one end to the other, and no section will be found wealthier in resources and prospects for the future; compare the section with other fertile sections, in the northern countries and in the tropics, and you will find it has the composite qualities of all; analyze the section, strip its asserts from the whole and study each in the true light of facts, re-assemble these asserts and you will find South Florida.

But no section, state or country is greater than the people who are developing it. Human energy is the great consideration in the estimation of a land. The Indians who roamed the forests and lands now bending to the touch of the human hand entertained no visions of the future; they were content to erect their wigwams on pleasant sites and live on the bounties of the soil from day to day; second thought was not given to the welfare of those who were to come after. It is difficult with the race of people that inhabits South Florida today.

The people of South Florida believe in the natural things which abound on every hand and are striving to improve, to develop and to utilize them. This spirit is the real glory of the section.

In the course of a very few years South Florida has forged to the front, has presented its story to the world with striking vividness and admirable sincerity, and already the world is fascinated by it. It is difficult for the average person to conceive all the chapters in the story, so wonderful is the theme—and this is one of the great benefits of such a fair as is being held in Tampa. It affords the general public an opportunity to see with its own eyes what has been done, and vision the mighty things planned for the future.—Jacksonville Metropolitan.

ST. JOHNS IS MATCHLESS IN ITS BEAUTY AND ITS USEFULNESS TO FLORIDA

Those Who Live Within the Shadow of Nature's Great Creation are Last to Appreciate It

By Moses Falsom in Jacksonville Metropolis

It is a common observation that men living in the shadow of some great creation of nature are the last to appreciate its wonders. What to others is something worth circumnavigating half the globe to see, is to them a trite sight of daily occurrence. It is said that the Swiss peasants, living high up on the superb mountainsides which are the glory of all Europe, spend their leisure hours in dark, ill-kept huts from which all view of the glorious surrounding prospects is entirely shut out.

In this connection it may be well to remind the citizens of Jacksonville, and other cities along the banks of the matchless attributes of the broad St. Johns river flowing past their doors. It is wondered if we all appreciate the importance of the great fluid highway? It gives Jacksonville one of the largest and safest harbors in the United States. It is free from ice, snow and cold winds in the winter, and that is not true of the harbors of the North Atlantic coast. With concerted effort Jacksonville should be made the port to handle the sugar coming to the United States from Cuba, the coffee from Brazil, the bananas, chocolate and other tropical products coming to us from the countries south of us, to which countries we are nearer than any other port in direct connection by rail with the principal cities of the country.

This great river, too, gives us opportunity for water trips unequalled anywhere in the country under as safe conditions. The resident has grown to accept the scenic beauties of this peerless stream as a matter of fact. But it takes a visitor from some northern state, who enjoys for the first time, the steamer trip from Jacksonville to Sanford, where the winter greens, celery and lettuce comes from, to really go into ecstasies. The wonderful trees and plants which line the close-pressing banks of the river's upper reaches are all new to him. The Spanish moss hung in gay festoons, as if for a holiday, adds an indescribable note of beauty. The strange and interesting birds and animals, not forgetting the characteristic alligator, are a treat in themselves. With the coming of night, the scenery is viewed by pale moonlight or its man-made substitute, search-light, and seems too beautifully fantastic to belong outside the magic world of the theatre spotlight.

GOVERNOR OF MISSISSIPPI CHARGED WITH SEDUCTION, DAMAGE SUIT IS FILED

Said to Have Seduced Former Employee In His Office

JACKSON, Miss., Feb. 6.—(By The Associated Press).—\$100,000 damage suit charging Governor Lee M. Russell, with seducing Miss Frances C. Birkhead, a former employee in his office, was filed against Russell today in the United States court here. The plaintiff, now a resident of New Orleans, in a bill of particulars, declared her reputation, character and health were ruined as a result of the governor's alleged misconduct.

"I have frequently heard of the scheme to bring a suit of this character against me," Russell declared to a representative of the New Orleans Item last week when asked about the report that a damage suit charging seduction was to be brought against him. "Charges in that connection are damnable lies and an attempt by my enemies to blacken by character" the Governor continued. Since filing the suit today no statement was made by Governor Russell.

NEW ORLEANS, Feb. 6.—Miss Birkhead charged Governor Russell with seduction under promise of marriage according to the bill of particulars filed in the damage suit, says special dispatch received by New Orleans Item from staff representative in Jackson.

POSSIBILITIES OF THE SOUTH INADEQUATELY ADVERTISED

The statement published elsewhere in this issue quoting from Mr. J. E. Ingraham, Vice President of the Florida East Coast Railroad, as expressing his surprise that the Federal Government whether under Democratic or Republican control, has never seemed to appreciate the advantages of Florida and therefore has never taken an active part in reclamation work or in kindred activities which would have enormously developed that State for the good of the entire country, prompts the suggestion that with the exception of the East Coast Railroad the railroads of Florida have never adequately appreciated Florida. If they have done so, they would have spent ten times as much money on making known the advantages of Florida as they have done.

If Canadian railroads or California roads had had tributary to their lines a State such as Florida, with its limitless possibilities as health and pleasure resort, and as a State of vast potentialities for the creation of wealth for the production of foodstuffs; and for industries of many kinds, they would have spent annually ten times as much money upon publicity work as the railroads entering Florida have ever spent upon making known the resources of that State.

We think that one of the reasons, perchance, that the National Government never paid much attention to Florida's development is that the railroads have never adequately made known Florida's resources. These railroads, which haul out of the State 50,000 carloads or more, of fruits and foodstuffs annually, paying an enormous rate of freight, and which are taxed sometimes to their full facilities for carrying health and pleasure seekers into the State in the winter, and out of the State in the spring, could have doubled and trebled their passenger travel and their freight business by an adequate publicity campaign in behalf of Florida.

Florida is unique among the states of the Union. It is largely populated by Southern born people. There are many from other sections living in Florida, but the large bulk of its population is of people born in the State or born in other Southern States. It has for nearly half a century commanded the attention of men like Sanford, and Plant, and Flagler, and other men of great wealth, who in early days laid the foundation for the prosperity which it now enjoys. But since Plant passed away many years ago his railroad interests went into other hands, they have never adequately joined in the development of the State or in its publicity work.

The Seaboard Air Line has done some good work, worthy of all commendations, as have all the roads. But none of them has spent one-tenth as much upon making known the resources and advantages of Florida as they should have done. Here they have a gold mine indeed; a mine worth more than any gold mine on earth. It is a mine of vast resources from which they can dig freight without end, a gold mine of passenger travel which can be increased in its wealth-making work to an unlimited extent. They have not worked the passenger travel business as a gold mine, nor the re-

(Continued from Page One)

LAST SESSION CONFERENCE CALLED TO ORDER TODAY HEAR FAREWELL ADDRESS

CONDUCTORS ORGANIZED HERE YESTERDAY

PRESIDENT SHEPPARD MADE INSTALLATION—PROMINENT HEADS OF ORDER PRESENT

Sanford Division No. 682, Order of Railway Conductors, is the newest division of that order—organized here yesterday with seventy charter members.

L. E. Sheppard, of Cedar Rapids, Ia., general president of the O. R. C., installed the new division. President Sheppard was assisted in the installation by S. J. Brooks, of Richmond, Va., general chairman O. R. C., for the Seaboard Air Line Railway; J. A. Dadds, of Portsmouth, Va., general chairman O. R. C. for the S. A. L. Portsmouth Division and by G. F. Dickens, general chairman O. R. C. for the Florida East Coast, Miami.

The organization took the better part of the day, each officer of the local division being inducted into his office and given the obligation separately, and the way it was handled by President Sheppard and his assistants made the installation very impressive.

At one o'clock the charter members present filed out of their lodge room and down to the Valdez Hotel where Mine Host Campbell had arranged a magnificent spread for the occasion. More than fifty conductors sat down at the table with Commissioner Forest Lake and Judge Schelle Maines, representing the City of Sanford as official visitors. Commissioner Lake offered thanks and the party did justice to the tempting viands.

During the luncheon Commissioner Lake spoke, commending the conductors on their organization and the splendid manhood represented at the luncheon, and dwelt for some moments on the spirit of co-operation, and in closing assured the new division of the backing that it could expect by both the official and unofficial Sanford. Mr. Lake was followed by President Sheppard, who in a few well chosen words expressed his appreciation of the reception accorded him in Sanford, and on behalf of the great Order of Railway Conductors and of the new division thanked the commissioner and the people of Sanford in general for the interest manifested in the organization.

After coffee and cigars the party returned to the lodge room and completed the installation. At the lodge room each of the visitors were heard from in splendid talks and great good was obtained from their discourses. The Division was deemed organized in due form at four o'clock and after a talk from the Chief Conductor, W. J. Wolfe of the New Division, and several talks from other officers, the lodge closed and the Conductors attended the band concert in Central Park.

Other visitors, prominent in the organization, present, were W. H. Cowart, R. L. Calhoun and W. R. Garnett, of Tampa, and E. M. Little, A. T. Anders, L. H. Causey, E. K. Anders and J. R. Mathews of New Smyrna.

The New Division at Sanford was deemed advisable because there are more than seventy-five conductors operating out of Sanford, and while most of them are already members of a division, the fact that they lived in Sanford made it well night impossible for them to attend meetings of other divisions without losing time from their regular runs, and with the Division here, at the Railway Division headquarters, the members can keep in close touch with their organization.

Remaining Treaties To Be Signed Before the Session Adjourns SHANTUNG SIGNED

ON SATURDAY AND PRESIDENT DECLARED CONFERENCE HAD BROUGHT GREAT GOOD

(Continued on page Four) WASHINGTON, Feb. 6.—The final session of the arms conference called to order just after ten o'clock this morning to hear the farewell address by President Harding and for signing the remaining treaties. The final session brought the largest crowd of conference. Scores sat in aisles and stood around the walls. After the announcement by Secretary Hughes that the Shantung treaty was signed Saturday, delegates began signing other treaties. President Harding arrived shortly after the treaties had been signed. The president declared the conference had wrought great achievement and that "faith plighted here today, kept in national honor, will mark the beginning of a new and better epoch in the human progress." He spoke at length on the gratification of the United States and personal gratification at work of the conference.

ANNUAL MEETING TO BE HELD IN APRIL

Literary Contests Won't Score But Are Awarded Medals

GAINESVILLE, Feb. 4.—The state high school track meet, one of the biggest athletic events held in the state of Florida, will be staged on Fleming Field, at the University of Florida, April 7 and 8. It is expected that President G. Elmer Wilbur will call the annual meeting of the Florida High School Athletic Association for the forenoon of April 8.

Both the Drew and the Knight & Wall cups of Jacksonville and Tampa, respectively, are at stake in this tournament just as the V. E. Jacobs cup is to be played for in the basket ball tournament. Besides there will be the individual medals given by the University of Florida.

No longer will the declaration and essay contests count for points in the track and field meet. The declaration contests and the essay contest will be held as formerly but they will be separate events. Medals will be offered for the winners, but no points will be counted as has been the case in former meets. The declaration contest will be held Friday night, under the direction of Dr. James M. Chapman. The essay contest will be under the supervision of Dr. J. M. Farr, head of the department of English.

The actual running of the meet will be handled by a committee consisting of track coaches Ira E. Ryder and J. H. Atkinson, coach W. G. Kline, assistant coach Major J. A. Van Fleet, Dr. R. G. Manchester and Prof. P. L. Reed. Secretary George E. White will answer questions relative to accommodations and eating places. A committee consisting of A. N. Sollee, W. J. Bivens and J. O. Cox will have charge of the program. E. C. Beck, Judge Cockerell and Dr. J. M. Leake will receive the eligibility lists and number the entries. Professor Beck will also be responsible for the business matters relating to the event.

Little need be said of the eligibility of entries. All schools entered will be members of the Florida High School Athletic Association. If the principal will certify that the entry is eligible according to those rules the entry is accepted. Only high school pupils may compete, and special permission to use grammar grade boys in other branches of athletics does not hold for the state track meet.

POLICE OFFICERS ATTACHED BY INDIANS AT CHAURI, INDIA

(By The Associated Press) LONDON, Feb. 6.—Mob of a Thousand Indian Nationalists Volunteers and villagers attacked police officers at Chauri Saturday and killed entire staff of officers, watchman and eight armed policemen who were sent as reinforcements says cable received today at Indian office.

One reason why the world persists in wickedness is because the reformers look so darned unhappy.

Post Cards at the Herald Office.

SOCIETY

MRS. FRED DAIGER, Society Editor, Phone 217-W

If you have any friends visiting you—if you are going anywhere or coming home, or if you are entertaining, write a postal card to this department, giving details, or telephone the item. It will be greatly appreciated.

Miss Clara Phillips has returned from a four days visit to Atlanta, Ga., where she attended the Photographers convention.

Mrs. Homer Williams (formerly Miss Ruby Roy), of Orlando, is spending the week end here with her father, A. L. Roy, and aunt, Miss Bazelle.

Mrs. Donald Smith and little daughter Evelyn, have returned to Sanford from Sarasota, and are at home to their friends at the home of Mrs. Lovell on Palmetto avenue.

Mrs. George Rice and her guests, Mrs. Charles Bliss and Mrs. Arthur Fiske, of Worcester, Mass., leave tomorrow for Daytona, going from there to Miami and other places of interest on the East Coast. They will also visit Cuba before returning to Sanford.

BOOK-LOVERS CLUB

The members of the Book-Lovers Club were delightfully entertained yesterday afternoon by Mrs. R. J. Holly at her lovely home on Park avenue.

The afternoon was pleasantly spent discussing late books and reading chapters from a late book. Late in the afternoon Mrs. Holly served delicious refreshments.

Those enjoying the cordial hospitality of this charming hostess were: Miss Annie Hawkins and her house guest, Miss Little of Commerce, Ga., Mrs. Henry McLaulin, Mrs. J. E. Pace, Mrs. Stella Arrington, Mrs. Harry Ward, Mrs. E. P. Morse and Mrs. L. P. Hagan.

NELLIE TURNER CIRCLE

The Nellie Turner Circle met with Mrs. Emma Johnson on Wednesday afternoon with a goodly number present. A short business meeting was held at which many plans for raising

funds were discussed with enthusiasm. It was decided to give a Valentine Tea on February 14th at Mrs. Whites on French avenue.

The Circle meets with Mrs. Edson Freeman next Wednesday afternoon at 3:30 at 406 Myrtle Ave.

IN CELEBRATION OF BIRTHDAY.

Mrs. Frank Meisch entertained at a children's party at her home "Sunny-Side" honoring her sister, Miss Irene Brandt, who celebrated her 14th birthday anniversary on that occasion. The dining room was beautifully decorated in pink and green. The dainty color motif being carried out with streamers of crepe paper, flowers and greenery. The favors were little Kewpie dolls dressed in pink and green, carrying out the color scheme of the decorations. At five o'clock the guests were invited into the dining room, where delicious refreshments were served, consisting of candy, cream, cake and hot chocolate. Several games were indulged in. In the guessing contest, first prize was won by Miss Gladys Stemper; consolation falling to Dorothy Thurston. Mrs. Frank Meisch was assisted in looking after the pleasure of the guests by her mother, Mrs. Fred Brandt, and Mrs. Joe Meisch. Miss Irene was the recipient of many beautiful presents.

LOVELY BRIDGE PARTY.

Exquisite in every detail was the bridge party given yesterday afternoon by Mrs. George Rice at the home of her daughter Mrs. Raymond Key, complimenting her guests Mrs. Chas. Bliss and Mrs. Arthur Fiske, of Worcester, Mass. There being seven tables and a number of tea guests.

The dainty colors of pink, green and lavender were used in the decorations. In the living rooms and on the sun porch, baskets and crystal vases of pink roses, Dombia and sweet peas in pastel shades were effectively placed. On the card tables were pink bon baskets decorated with lavender flowers and blue birds, these were filled with dainty candies.

The score cards were also in keeping with the lovely color motif, and the hours passed quickly in the unusually interesting game of bridge. The first prize, a lovely basket, was won by Mrs. G. F. Smith, the low score, a

basket of sweet peas, was won by Mrs. G. F. Smith, the low score prize, a basket of sweet peas was won by Mrs. Tom Frazer. In cutting for the consolation prize, which was a large box of candy, Mrs. G. I. Loucks, was the fortunate one. The honorees were presented with dainty pieces of silk lingerie.

Refreshments consisting of salad, olives, antines, strawberry ice cream served in tiny flower pots and decorated with sweet peas, individual cakes led in pink and coffee were served at the conclusion of the card game.

Invited to meet these charming honorees were Mesdames A. M. DeForrest, Tom Frazer, E. D. Mobley, W. J. Thippen, Jonathan Peck, Forest Lake, E. F. Housholder, G. D. Bishop, S. Puleston, A. P. Connelly, G. F. Smith, T. L. Dumas, E. M. Galloway, S. O. Chase, B. F. Whitner, W. D. Holden, Deane Turner, G. I. Loucks, John Leonard, A. Vaughn, R. A. Newman, Julian Schultz, Harry Wilson, L. C. Stringfellow, C. M. Vorce, Ernest Krupp, L. R. Phillips, C. J. Rumph, Fred Daiger and Miss Hume.

HON-TON BRIDGE CLUB.

The members of the Hon-Ton Bridge Club were most pleasantly entertained yesterday afternoon by Miss Esther Miller at her home on Magnolia avenue, there being two tables of players and several tea guests.

Quantities of flame vines and ferns were artistically used in the rooms where the card tables were arranged. In the interesting game of bridge played high score was made by Mrs. Ben Caswell who was awarded a set of cut glass salt dishes.

At the conclusion of the card game the hostess served a delicious salad course and coffee.

Substitutes for absent club members were Miss Lottie Caldwell, Mrs. Percy Mero and Mrs. Roy Chittenden. The club members present were Mrs. J. D. Woodruff, Mrs. Robert Hines, Mrs. Ben Caswell, Mrs. Joe Chittenden, Miss Fern Ward, Mrs. C. R. Kirtley and Mrs. Ed Betts.

BRIDGE PARTY FOR VISITORS.

Mrs. J. G. Sharon was the charming hostess at bridge Thursday evening at her home on Tenth street honoring her house guest, Mrs. Frank Winthrop, of Tallahassee, and Mrs. Walter Wight of Cairo, Ga., the guest of Mrs. Henry Wight. There being three tables of players.

Of exceptional interest was the game of bridge, the high score among the ladies was made by Mrs. Forest Lake, who was awarded a dainty hand

made handkerchief, while the men's prize, a deck of cards, was won by Forest Lake. Mrs. Wight was presented a card table cover and Mrs. Winthrop was given a lovely candle stick and candle.

Following the awarding of prizes the hostess served a tempting salad course and coffee.

Mrs. Sharon's guests included Mrs. Winthrop, Mr. and Mrs. Walter Wight, Mr. and Mrs. Forest Lake, Mr. and Mrs. J. G. Ball, Mr. and Mrs. R. J. Holly, Mrs. W. T. Langley, and J. J. Dickinson.

Save money by buying your season ticket to the Lyceum Course. \$2.00 for the season or 75c for each admission. 200-tfc

MISTAKE IN ADVERTISEMENT BUT CHURCH. WELL WAS GAME

In an advertisement one day this week for the Churchwell Co., the Herald made the price of colored Indian Head 20 instead of 49 cents per yard and when the customers came into the store Churchwells were game and sold the Indian head at 29 cents just the same. Fortunately very few were in that morning and the firm did not sell for more than a hundred yards of the goods otherwise they would have charged it up to the Herald. It shows that people read the advertisements and shows that Churchwells stand by their advertisement regardless.

"THE POWER OF BEAUTY"

Dr. George Hyman, Pastor of the Baptist Temple will speak on next Sunday at The Temple using the subject, "The Power of Beauty." Dr. Hyman will use two of the finest characters of the Bible in presenting the subject. You are invited to The Baptist Temple. Always Good Music. Good Sermon. Polite Ushers. "We've Saved A Place For You."

WIRE TAPPERS ARE IN FLORIDA WORKING AGAIN

FT. LAUDERDALE IS THE OPERATING BASE SAY THE OFFICIALS.

(By The Associated Press) FORT LAUDERDALE, Feb. 4.—Thirteen alleged wire tappers were arrested here yesterday in a raid conducted by Sheriff's forces as the result of an investigation ordered by Governor Hardee.

The band is said to have been active in confidence schemes in this section for several weeks.

A building occupied by the men and which was equipped for elaborate wire tapping operations as well as other confidence games was raided by the officials headed by Deputy Sheriff R. H. Shackelford, of Jacksonville, sent here to conduct an investigation. Deputy Sheriff Shackelford deputized private citizens to assist him in the raid.

Seven of the arrests were made by E. M. Keley, a newspaper man. In addition to the large quantity of wire tapping paraphernalia seized a tin box containing \$6,000 was taken in charge. Counterfeit money presses and large quantities of spurious currency in various denominations were found.

According to Deputy Sheriff Shackelford, the band came here about a month ago and leased a fashionable residence in the heart of town overlooking the New river. The building, a two story affair, was equipped on the order of a club on the first floor while the second story was fitted as a "brokerage" office. The familiar blackboard, bearing the caption "The Consolidated Exchange" was in place.

According to Deputy Sheriff Shackelford the alleged confidence men had operated in virtually every department known to Envy street. Stylishly dressed at all times and with the men of prosperous business men they plied their trade among the gullible winter visitors. Spurious market transactions and "sure things" on horse races were features of their operations, he said. Fort Lauderdale is a small wintering place on the paved highway between Palm Beach and Miami.

Mrs. Francis Sellers was not placed in jail but held under surveillance at a local rooming house.

INDICTMENTS RETURNED AGAINST CITY OFFICERS, OF THE WINDY CITY

(By The Associated Press) CHICAGO, Feb. 4.—Indictments returned by special grand jury against seven officials and former officials of Chicago today charging violation of the civil service law through sale of subscriptions to political newspaper backed by the city administration and tickets to picnic given by faction headed by Mayor William H. Thompson.

CYLINDER GRINDER HERE FOR YOU SOMETHING NEW

Among the many new innovations for Sanford is the Heald Cylinder Grinder recently installed by the Sanford Machine & Foundry Co. Mr. Gibbs of this firm says that this machine means more to the owners of cars than anything that has been brought to Sanford in many years. In other words the owners of cars can now have cylinders ground out in the right manner and in such complete and finished form that old cars are really better than new ones when they come from the factory. It means much to a car to have the cylinders ground perfectly and with this new machine the Sanford Machine and Foundry Co., can give you a real job on your car. See their advertisement in this issue.

TAMING THE SHREW

The play the Taming of the Shrew put on last night by the Woman's Club was written up for this issue but was crowded out and will be printed in Monday's issue.

The High School Boys basketball team of this city went over to DeLand last night to conquer the DeLand High School team but were conquered instead although the game was very fast and very close. The DeLand team were victorious to the tune of 28 to 20.

Melville's Comelians will open a week's engagement here commencing Monday night. They have been here before and have always delighted the large audiences. They return with an entirely new repertoire and promise to give the people a better show than ever. Watch the Daily Herald for the program for the week's performance.

RADIOPHONE REPORTS TO START FOR FARMERS

Beginning on Tuesday last week farmer's market reports will be sent out twice a day by radiophone of what is happening in the wholesale markets of this city. Arrangements to serve the farmers of New York, New Jersey and Eastern Pennsylvania with these reports were completed last week between the State Department of Farms and Markets and the Westinghouse Electrical and Manufacturing Company.

MEMBER THE ASSOCIATED PRESS

Cardinal Achille Ratti is the new Pope. Luckily he will now change his name to Pius Eleventh.

Stealing autos should be put in the same category as stealing horses in days gone by. Hanging was the penalty and it stopped horse stealing.

The Weekly Sun, of DeLand, is among the new papers in the state and will bear the name of C. A. Allison as manager. The first issue has not come to us as yet and we await the same.

Editor Holly of the Sanford Herald and Editor Felkel of the St. Augustine Record are two of the three judges to award Bungalow Beautiful in New Smyrna to the author of the winning essay on Feb. 22.—Titusville Advocate.

New York woman worth a million marries a youth of twenty, a Russian, and they are away on their honeymoon the New York papers devoting yards of space to the event. It is no one's business who these ultra-millionaires marry and no one's business whether they have brains or not.

Willis Powell, secretary of the Lake County Chamber of Commerce says he don't want any "sure-things" over there. They write in about Florida and want a "sure thing" before investing. As Willis says, Florida was not built by "sure-things," the pioneers took a chance and everyone will have to take the same chance. Bread does not grow on bread fruit trees in Florida any more than it does in the states north of us.

Sanford needs more advertising and this spring and summer is the time to do it. The Chamber of Commerce should receive the support of every citizen of Sanford. It has worked wonders for this city during the past year or more and it is up to you to keep it going strong. The Chamber of Commerce is putting on a strong advertising campaign for the ensuing year and it will bring results in thousands of new people.

Next Tuesday, the 7th inst., the freeholders in the Mims district west of the Indian River will vote on the proposition to authorize the board of county commissioners to issue \$30,000 in time warrants for the purpose of building a hardsurfaced road from Mims to the west county line, Brevard county's link in a hardsurfaced road from Titusville to Sanford via Southmere and Geneva.—Titusville Advocate.

The Sanford Herald tells that the new fire engine, pumper and auxiliary chemical combination has arrived in that city and will be tested and worked to show the commissioners its possibilities. "The new engine will pump 750 gallons of water a minute and carries a thirty-five gallon chemical tank and 1,000 feet of hose and is ready to fight fire at any time and in any place," remarks the Herald. The new apparatus is the latest in detail of fire-fighting machines and will undoubtedly be of value to the city. It is a good asset even though there may seldom be need for using it; the feeling of security that comes with ample provision for fighting fires is worth a great deal to citizens.—Times Union.

PROTECT YOUTH IS WICHITA PROGRAM.

Wichita, Kansas, is one of the cities where the serious misbehavior of the young people has alarmed the older generation, but Wichita, unlike many another town, has not taken its alarm out in talk and complaint. Wichita has gone to work to improve things. The first step was the calling of a mass meeting by the League of Women Voters, with every civic and religious organization of women in the city answering the call. The W. C. T. U., by virtue of its seniority, presented a program of social protective measures, prepared with the aid of Mrs. Martha F. Falconer of the American Social Hygiene association, and it was adopted. The first suggestion of all concerned wholesome recreation

which Mrs. Falconer considers indispensable to right living on the part of young people. It called for the use of high school and intermediate school gymnasiums as recreation centers for girls where, under adult supervision, they can romp off their high spirits. This, with mental and physical tests for school children to protect all of them providing women physicians for schools and special teachers for boys and girls in detention homes, was made the part of the board of education in improving conditions. The W. C. T. U. undertook for its part, to plan classes to fit parents to give their children early and proper sex education, and agreed to provide instruction by means of literature, lectures, films and other means, for girls in industry or in school, whose parents have shirked their duty. The Y. W. C. A. took the responsibility of looking after housing conditions by establishing a hotel for working girls and young women, and other organizations agreed to work for a woman's bureau in the police department, for a regulation raising the age limit for girls brought into the juvenile court from 16 to 18, for the patrolling of county roads and the control of road houses and for the securing of women to be "big sisters" to girls who come under the jurisdiction of any court.

"What has been done in Wichita can be done elsewhere," Mrs. Falconer says in discussing the program. "It is necessary to know the local situation first before trying to make plans for the prevention of sex, delinquency among people during that active and difficult period from adolescence to marriage. It is all a community responsibility and successful work must be based on an understanding of the factors involved. No community plan will succeed that does not take into account the need for better education, improved home life and wider provision for the right use of leisure."—Tampa Times.

WHERE IS THE TROUBLE?

Newspaper men who are natural-born boosters have a hard time finding the trouble with their towns since they find so many people prone to stand back and knock everything instead of boosting. The newspapers go ahead and publish the stuff free and give away everything except their shirt and never get anywhere while the fellow who does nothing to help his town is usually the one that kicks the most at the Chamber of Commerce and other kindred organizations that are trying to make the town greater and usually make the kicker greater thereby. The newspaper men usually look on with amazement and then hold the bag for most of the fun while they are looking on. The Leesburg Commercial sums it up in the following:

"Somewhere there is a divergence of opinion among the people of Leesburg regarding the proper methods of putting out best foot foremost and to save their lives the fellows who have been shouldering the bulk of the burden are unable to find out where that divergence lies.

"The Commercial may get a little censure for airing the private affairs of the community but it is accustomed to censure and a little more or less will not seriously bother us. The important thing is to locate the thing that lies between willingness to work and the work itself on the part of the great majority of our citizens and if we can get out from under cover that hidden reason or excuse for so many falling to assume their share of civic responsibilities, we will have accomplished a great deal.

"There isn't any lack of desire on the part of our people to see Leesburg go to the front and to have Leesburg stay there, so we can dismiss at once the excuse that the people as a whole are uninterested. The baseball park that is being built proves that so fully that we need go no further, though we might give other recent instances if they were necessary. But it remains just as true that twenty Leesburg men are the sole support this year of the Chamber of Commerce and all the efforts of that twenty have been insufficient to get the others back into harness. Why?

"That 'why' is the puzzle. Honestly and frankly, if those who have 'carried on' in the face of discouragement have made any colossal mistake, they do not know about it. If they have, they should be told what it is. Lacking any information of that character, they can only deplore and plot and the fellow who bears up under such a civic burden as that is not fit for his best work for the good of himself or the community.

"Not very long ago a call for a mass meeting was made and the Dodgers declared that a 'strike' was imminent. That was literally true. The bunch that has been doing the civic work wanted to tender its resignation and let others take up the work and see if it could not be done in such a manner as to satisfy those who must be dissatisfied with the present plans and efforts, else they would not withhold themselves and their support in such

frigid dingy. But the mass meeting did not materialize. About forty people came to the door downstairs and made inquiries and passed on. Three came upstairs and waited for the crowd to appear.

"Now the Commercial has not been asked to present this case. We are doing it upon our own responsibility for two reasons. One is that the editor happens to be one of the twenty. Another is that this corporation has extended credit to the Chamber of Commerce to rather more than Dunn or Bradstreet would advise was good business. We did this in view of our knowledge last year of the amounts that had been subscribed for the upkeep and maintenance of the body. Many of our citizens who bear good reputations for paying their obligations have failed utterly to come forward with the funds they subscribed. Among others, we are holding the bag and paying 8 per cent interest for the privilege.

"Those who have taken an active part in the work of this civic body have put forth honest effort and they have contributed of their money besides. For instance, notwithstanding the account owing to us, you will find that the Commercial and its editor last year paid in cash their subscription of \$200 for the work of the organization. We are not alone in this but we feel more at liberty to tell our own experience than we do the experiences of our co-workers. Now we feel that it is up to those who have permitted their obligations to stand unfulfilled to first come across with their money and square up the back debts, then to voice their feeling regarding the way they think the organization should be conducted and take their place in the organization and help conduct it that way. We assure these men that they will find the Commercial ready to help them accomplish everything they set out to do for the good of the community.

"We hope this will stir up some argument. We hope that some one or more of those whose names stand on the unpaid list of last year will come forward, pay up and 'print a piece' in the Commercial setting us right or setting us down, which ever they prefer. Let's get at the bottom of this deadlock and take a fresh start. Let's either clean out the bunch that is running things now and put in some fresh blood or get behind those who are in and push. Leesburg is lagging and for no reason on earth but that there is some difference of opinion that is being hidden under a bushel and nursed in secret."

IN SOME TOWNS MERCHANTS DO NOT ADVERTISE

When we pick up some bright little newspaper and find it bereft of advertisements from the stores of his home town, and wonder why he stays there.

Cobwebs on the windows, dust on the car goods, faded streaks in the shelf-worn calico and a down-in-the-mouth, out-at-the-elbow merchant standing in his sagging doorway—weeds in the street, cows browsing in the public square—sand ankle deep near the old hitching post.

And the newspaperman boasting, boasting, boasting the sorry place he calls his town.—Miami Metropolis.

GRASS AND LEAVES LIFE OF SOIL—DON'T BURN THEM

Have you ever seen a plowman burn off a field of grass or straw? That man didn't stop to consider the value of the grass or straw to the land he was tilling. If he had, the grass would not have been burned, but would have been plowed into the soil, providing that man owned the farm. Millions of dollars worth of soil humus in the form of grass, straw and beans, a thing terribly and sadly

lacking in Florida soils, a burned every year in our state. Investigations show that the farmer who preserves the material which grows on the land and turns it back into the soil, is more wealthy and independent than is the man who carelessly destroys it. This applies also to the forest and woods. Grass, straw and leaves, especially leaves, should never be burned, since they become the very life and strength of the soil when made a part of it. "The man who burns the woods should be arrested for arson," is the way one old and experienced man of the soil put it.

In discussing this subject the Progressive Farmer said let's remember these two big facts:

"1. When you burn a ton of forest leaves or a ton of broomstraw, you have done just as much harm as if you have burned or destroyed a ton of horse manure.

"2. If you have 100 tons of forest leaves in some piece of weeds near you, and neglect to put it on your land, it is the same as if you had 100 tons of cow manure or horse manure or 12 tons of 3-2-2 fertilizer out there and neglect to haul it up and use it."

HELPING THE FARMERS

According to the Washington agricultural conference the marketing problem is the most serious one facing the American farmer. Until the farmer has mastered the technique of this phase of the agricultural game, at least as well as he has mastered other phases, marketing will continue as his most baffling problem. But this is being done.

County Agent J. J. Sechrest, of Hamilton County, has reported that the farmers of his county have come seven hundred tons of fertilizers. His report added that about four dollars a ton on the entire order was saved to the farmers. Isn't that solving the farmer's marketing problem?

Again County Agent C. E. Matthews, of Suwannee County, reports the farmers of his county as buying seed potatoes of better varieties in carload quantities. And in another report he states that the farm bureau of Suwannee is ordering the farmers' fertilizers, saving them from \$3.50 to \$6 a ton. Isn't that solving the farmer's marketing problem?

Certainly it is solving the buying end of it. And we confidently believe that county agents like the two referred to above, if given the chance, will come very near to leading their farmers to the correct solution of the other end of the marketing problem—that of selling.

NET PROFITS FROM 11 CITIES WITH MUNICIPAL OWNED PUBLIC UTILITIES

Under municipal ownership and operation the net profits for 1921 in the following cities of Florida and Georgia as specified were as follows:

- Lakeland, population 7,062, water and electric plants, \$39,113.
- Savannah, Ga., population 83,252, water plant only, \$35,000.
- Tifton, Ga., population 3,005, water plant, only, \$6,604.
- Tallahassee, Fla., population 5,637, water and electric plants, \$52,987.
- Jacksonville, Fla., population 91,543, electric plant only, \$497,727.
- St. Petersburg, Fla., population 14,237, water plant \$10,570, gas plant, \$11,005.
- Macon, Ga., population 52,555, water or plant only, \$170,000 (estimated).
- Fort Myers, Fla., population 3,678, water plant only, profit, but figures await auditors' report.
- Live Oak, Fla., population 3,103, water plant only, \$7,500.
- Thomasville, Ga., population 8,106, water and electric plants, \$18,000. No profit from water plant.
- Fitzgerald, Ga., population 6,870, water and electric plants, profit, but figures incomplete.

These cities have made profits from their municipally owned and operated public utilities plants.

If the privately owned Orlando water and electric plants made a net income of \$18,000 in 1921, is there any reason why they cannot continue to show a profit under municipal operation?

If Lakeland, Savannah, Tifton, Tallahassee, Jacksonville, St. Petersburg, Macon, Fort Myers, Live Oak, Thomasville and Fitzgerald make a profit with lower rates than now exist in Orlando is there any reason why Orlando, a city of 9,282 population, with 20,000 in winter, cannot make a profit in proportion?

Is there less faith in Orlando than in these other cities? Less brains? Less nerve? Less business initiative? Less vision? Your answer will be awaited on February 21.

**TOURNEY RULES
FIXED BY BOARD**

Champs Must Have Perfect Record;
Two Defeats Eliminate

GAINESVILLE, Feb. 4.—The board of Control of the Florida High School Athletic met today and decided upon regulations for running the first annual state high school basketball tournament to be held at the University of Florida, March 2, 3, and 4. This will be the basketball classic of the state.

The execution committee has previously decided upon the method of choosing the competing teams. Through vice-president W. D. Wilson, of Fort Myers, the Board of Control will select the two best teams from each congressional district and two teams from the state at large. These ten teams will complete for the championship title of the state on the University floor.

The playing schedule has been so arranged for this tourney that each team entered must be defeated twice before it is eliminated. That means that if a quintet happens to lose its first game it is not out of the running. The winner of the state title will have finished without a loss, and the Board will be able to rank the four best teams in the state at the close of competition. Sixteen games will be played during the three days. Two of these will be scheduled for Thursday night, and the games to decide the championship and to decide third and fourth places will be staged Saturday night. The other games will be played Friday morning, afternoon, and evening and Saturday forenoon. A dummy schedule will be made with the teams indicated by numbers one to ten inclusive. On the second of March the captains of the

various team will be allowed to use more tourney number, and the team may then be substituted for the number on the schedule.

Each team will be allowed an entry list of seven players. And no team will be allowed to use more than seven different players during the series of games. This will give distant teams the same advantage as nearer teams, and it will follow high school tournaments.

The officiating of the tournament will be done by Coach J. G. Kline and Mr. R. G. Manchester. Both of these men are experienced referees.

Non-transferable season tickets good for all the tourney games will be offered to the public the last week in February. The ticket will sell for one dollar. These may be obtained from Secy. G. R. White, of the University Y. M. C. A.

1922 CALENDAR PADS

There is nothing quite so handy, quite so useful, quite so indispensable for the busy office man as the calendar desk pad. It helps you to remember, it gives you the day and date, it gives you just what you want and when you want it. 1922 Calendar pads just received from the factory—the second shipment—the first shipment was exhausted in one week. Get a 1922 Calendar pad before they are all gone. Desk stands for the calendars if you have none.

The Nellie Turner Circle meets with Mrs. Edison Freeman next Wednesday afternoon at 3:30 at 406 Myrtle avenue. 270-3tc

When looking for something good to eat, well cooked, well served and perfect satisfaction. Invest 50c at the Lincoln House. 271-2tp

**ST. JOHNS IS MATCHLESS
IN ITS BEAUTY AND ITS
USEFULNESS TO FLORIDA**

(Continued from Page One)
The river in places widens out like a lake, five to ten miles wide, and one feels like being at sea. Side trips can be taken on the Oklawaha, the crookedest stream in America, to Silver Spring, the largest in this country, the outlet of which is ample in size to float a steamboat, and Crescent Lake, a gem body of water, lined with orange groves can be visited. Large steamers are available, with accommodations as fine as any in all the country.

This La Riviere de Mal of the Frenchman, this Rio de San Juan of the Spaniard, and this St. Johns river of the American is not as wide as the Amazon, as deep in its bed as the Colorado, as shallow as the Platte or Arkansas, as long as the Mississippi, as clear as the Uruguay, as muddy as the Missouri, as mighty as the Niagara, as broken with islands as the St. Lawrence; not frigid as the Red and the Mackenzie; not battle-stained as the Isar or the Tiber; not fed with mountain snows as the Columbia or the Fraser; not dense with population as the Thames and the Seine—yet, for all that, the St. Johns river cuts something of a figure in the Western Hemisphere, and the possibilities of its development are endless.

The St. Johns is several hundred miles long, and with tributaries gives Jacksonville not less than a thousand miles of inland navigable waters. It is a placid stream, as a rule, and tidal from the ocean to Lake George, ninety miles south of Jacksonville—safe everywhere for the smallest craft. It never overflows its banks, and big fish from the sea, which run up our way, with native tribes, contribute to the income of a considerable number of people and supply our tables with most excellent food.

The St. Johns runs northward a greater distance than any other stream on earth except the Red, the Mackenzie and the Nile. The latter is its counterpart in fertile belongings, with the advantage on the side of the American stream which has no desert to run through, but a naturally productive land, where there is no stony soil to provoke and hinder the farmer's plowshare or no long-continued droughts to impoverish and wither his crops.

Tributary is a region possible of supporting a million people, with plenty to spare to feed other millions in less favored parts of the earth; but the population is not yet here. Nature's inimitable grace has touched the river with a lavish hand, and it presents to the traveler an ever-varying panorama of which the eye never tires. In its domain strawberries ripen at Christmas-time and flowers bloom when the north is held in thrall by snow and frost.

When Ponce de Leon searched its banks for the fountain of perpetual youth, he was convinced that if such a blessing existed anywhere on earth, it must be in this sun-kissed land, the health and salubrity of which have stood the fullest test.

Over it is a sky as blue as that of Italy; at night as bright with stars as the Chaldean plains that gave birth to astronomy. Nowhere does the moon seem nearer. It has a summer air that never depresses; a winter air that invigorates but never destroys; over it the wind carries in its wings the vivifying health of the sea. Its banks never experience the long spells of miserable, muddy roads common in the eastern and most of the southern states. It has along its banks and tributary standing timber in variety and quantity sufficient to keep a multitude of workmen busy for many long years fashioning it into form for human use. At Palatka, the Gem City, is the largest cypress saw mill in America, and near by and in sight from the river, the only camphor plantation in the United States.

Under its benign skies every month can be made to provide something for the table from garden, field and grove, nor does it demand heavy clothing and blazing fires for warmth during the winter season. It has no competitor in the United States for climate. Along its banks there is room for hundreds of splendid homes, surrounded by orange groves, rose gardens and fields, which provide a good living and delightful surroundings.

You have not enjoyed one of the most delightful experiences in all Florida until you have taken this trip, including of course the trip on the Oklawaha, and a visit to Silver Springs and Crescent Lake.

This water jaunt can be incorporated in a rail-water journey south to any of the popular resorts, of which there are so many in the south part of the state.

.. Employment Bureau..

The vocational committee of the Business and Professional Women's Club requests all young women desiring employment to register at the First National Bank.

AGNES G. BERNER, Chairman

JAFFA GETS HARBOR

Jonah's Home Town to Be Important Sea Port.

Plans Under Way for Modern Roads for Old City, Famous in Bible Times—Italian Syndicate to Back Project.

Jaffa, Palestine.—If Jonah the prophet should return within the next few months to this little atavistic port, whence he set sail some 2,000 years ago on his tempestuous voyage, he probably would be amazed at the metamorphosis.

After all these centuries, modernism, in the form of a Twentieth century harbor, is about to make its commercial encroachments upon this banking seashore, whose name was Joppa when Jonah knew it.

For some years, and particularly since the British occupation, a harbor for Palestine has been talked of, but only now is this dream of easy ingress and egress to and from the cradle of Christianity about to be realized.

An Italian banking syndicate, having satisfied itself that great commercial possibilities are wrapped up in new-old Palestine, has offered to advance the necessary capital, subject to adequate governmental guarantees, and the actual work is expected soon to begin.

The plans as drawn call for the expenditure of a sum not to exceed \$7,000,000, to be retired with interest within thirty years.

The harbor is to be located directly opposite the section of the old city of Jaffa, making the present custom house a central point from which the extension will be made northward and southward. It is to comprise three sections, one devoted entirely to freight and passenger ships, one to shipbuilding and repairing and one to fishing.

Lack of proper harbor facilities has been one of the greatest impediments to commercial development of Palestine, and, consequently, the inhabitants are looking with keen anticipation upon the time when large ships can dock easily on Palestine's shores. When the weather is stormy and the sea rough, it is now practically impossible for boats to come even within three miles of land, where even in mild weather all ships have to be landed and unloaded with the aid of small, obsolete craft. Thus it is estimated at least \$1,000,000 a year can be saved on the loading and unloading item alone, to say nothing of the inevitable effect better shipping facilities will have on the cost of living, which is now excessively high.

Commensurate with harbor improvement, the city of Jaffa itself is making plans to come out of its lethargy and reap rich rewards. Independent commercial interests already are laying plans to develop four miles of waterfront, intending to build storehouses, restaurants, hotels and private homes for the benefit of traders and tourists.

WILD DUCKS BLOCK STEAMERS

Canvasbacks and Other Water Fowl Dispute Channel With Them, River Pilots Say.

Port Deposit, Md.—Stories of abundance of ducks and other water fowl are being told about the mouth of the Susquehanna.

On the "flats," one sportsman reports "there is a fowl for every blade of grass." Steamers sailing these waters tell that the canvasbacks are disputing the channel rights with them. Wild geese have come from the North and are in elegant shape, one pair shot weighing 20 pounds.

Swans, protected by federal and Maryland laws until 1922, are digging up wild celery. In spots white beauties huddle so close that acres of the "flats" resemble fields covered by snow. This is the sight that is seen by passengers on the Pennsylvania.

Gets Old Witness Fee.

Smith Centre, Kan.—When John Sawyer went back to his old home in Pawnee City, Neb., a few days ago for a visit, the clerk of the District court there telephoned him that he had some fees due him, and to call and get them. Sawyer did so and was astonished to learn it was witness fees due him in a trial 20 years before. The amount was \$4.20.

Prehistoric Bone Unearthed.

Sioux Falls, S. D.—What is thought to be a mastodon rib, which had probably been buried in the same place for from 20,000 to 30,000 years, has been unearthed by Philip M. Hull, in West Sioux Falls.

Bad Luck Comes From Horseshoes

San Francisco.—The novel allegation that her husband scolded her because she did not shoe her horse properly is contained in the divorce complaint filed by Mrs. Cecelia Bernal, expert horsewoman at several rodeos, against Elmer Bernal, also a horseman. While she was shoeing her horse at the couple's Livermore ranch, Mrs. Bernal avers, she was called away from the task and later her husband berated her for her neglect of the animal.

HOMES FOR U. S. MEN

Coblentz Provides Apartments for Families of Yanks.

United States Army Officers' Wives and Children Get Modern Homes Built by German City—To Relieve Crowding.

Coblentz.—Apartment houses built by the municipality of Coblentz, aided by the German government, were opened recently for accommodation exclusively of officers of the American forces in Germany and their families.

The purpose of the houses is to relieve the crowded condition of the city, which has been a problem ever since the allied troops reached the Rhine.

There are 82 apartments of five rooms each, and all modern conveniences in the new buildings now being taken over by the American families.

Allied army officers say that the population of Coblentz perhaps has been harder pressed by the army requisition of quarters than any other occupied city.

In Coblentz there are about 3,000 rooms under requisition by the American army, the general policy of billeting being similar in all the zones as occupied by the French, British and Belgians.

Generally, when a house or apartment has been taken over, the Germans have been permitted to take their furniture and personal belongings with them.

NEW FASHION IN EARRINGS

CENTRAL FLORIDA UNION

The members of the Central Florida Union were delightfully entertained on Thursday evening by the Kissimmee Epworth League.

Flame-vine tastefully used in decorating the spacious rooms of the cottage lent a festive air.

Pres. Thomas G. Bird of Orlando opened the meeting by expressing his appreciation and thanks for being elected to such a responsible office, and pledged his utmost ability to God's work.

The devotional meeting, under the leadership of Hamilton Jones of Winter Garden, was opened with words of prayer from Dr. W. A. Cooper of Orlando.

A beautiful banner was presented to the Union by the Orlando League. This banner to be presented to the League having the largest percentage in attendance at each meeting.

The president appointed the following committees: 1. Constitution: Byron Ames, Clarence Eby, Hamilton Jones.

It was then voted that the Cabinet Officers of the Hillsboro County Union meet with the Central Florida Union at the next meeting.

A motion was made by Beatrice Heath that the present office hold their offices until the annual election in May.

While delicious refreshments of salad, sandwiches, and hot chocolate were served, the guests were entertained with music and readings.

At a late hour, after all had enjoyed the most delightful of evenings, and realized more than ever that the Epworth League must be "All For Christ," the guests bade farewell to Kissimmee.

"TAMING OF THE SHREW"

Was Great Success and Made Nice Sum of Money

"The Taming of the Shrew" staged Friday night at the Princess Theatre was a whirling success, Sanford's local talent showing up like Broadway stars, throughout the entire program.

The characters in the play were: Petruchio, a gentleman of Verona, Edward Waldmann; Baptista, a rich Italian merchant, Clarence Mahoney; Hortensio, Bianca's lover, Wesley Wicklander; Grumio, Petruchio's comic butler, Robert Herndon, who was a scream; the clownish servants, Nathaniel, Walter and Gregory, Bryon Stevens, Glen Whitcomb and Thomas Egan; an eccentric music master, Thomas Egan; A Stuttering Tailor, Reginald S. Holly; A Blustering French Cook, Thomas Merodith; Katherine, the Shrew, Miss Dorice Wingrove (Mrs. Wildmann) an actress of New York; Bianca, her sister, in love with Hortensio, Mrs. A. V. McGuin; Curtis, the comic housekeeper, Mrs. D. D. Newberry; the maids to Baptista, Blondelle and Pedra, Miss Ora Williams and Mrs. Seth Woodruff; the comic maids, Isabelle, Josephine and Matilda, Misses Ruth Gillon,

Allie Gillon and Edna Chittendon; an Opera Singer, Mde. Triguaza, Mrs. Julius Takach. The guests: Miss Hormine Lehman (solas), Mrs. Seth Woodruff, Miss Ruth Spencer, Miss Edna Chittendon, Miss Mae Holly, Miss Ruth Gillon, Miss Allie Gillon, Miss Mary Howard, Miss Gertrude Lee, Miss Margaret Zachrey, and others also a number of flower girls.

There was a fine crowd out, and everyone enjoyed the entertainment. We owe the success of the play to Mr. Waldmann, who supervised the production of the entire play with the help of Miss Wingrove.

The play was put on under the auspices of the Woman's Club of Sanford—Mrs. B. J. Starling being chairman of the committee on entertainment.

The Woman's Club wishes to extend thanks to all who took part in the play and to the ones that saw the performance, and hope to again entertain you with other attractions.

ROYAL NEIGHBORS MEET

The Royal Neighbors Of America, met Thursday evening in The Masonic Hall in spite of the inclement weather.

The new installed officers for the Oracle—Lucy Foster. Vice-Oracle—Mary Mitchell. Recorder—Clara Stemper. Past Oracle—Margie Tillis. Chanteller—Eva Ward.

After the Camp Fire was extinguished the Neighbors were ushered to the dining room, where delicious refreshments of chocolate and cake awaited them.

All R. N. A. be present at the next regular meeting.

Save money by buying your season ticket to the Lyceum Course. \$2.00 for the season or 75c for each admission.

CLASSIFIED ADVERTISING COLUMNS OF THE DAILY HERALD

LIKE GREAT, THROBBING MARTS OF TRADE ARE THE CLASSIFIED ADVERTISING COLUMNS OF THE DAILY HERALD

Strange—what an immense amount of goods and services are bought and sold day after day through the classified section of this paper.

In the throbbing marts of the East one could buy, sell or exchange almost anything that has any kind of value; in Sanford an increasing number of people are using the modern mart—the classified section of this paper.

Many a family has more comforts—even luxuries—through taking advantage of the chance to buy things for a half or less from the advertisers.

Whether it be a job, a service, a business or an article advertised for sale—each want-ad represents a human desire with a hope for its fulfillment. He who responds profits equally with him who has sent out the call, for it is always "something for something," with the honors even on both sides. Study the classified section of—

The Daily Herald

SANFORD'S TEMPERATURE

Cloudy again and threatened rain but we should worry. It is summer time in Sanford and everything is sitting pretty and we are at the top of the world. Crops are looking mighty fine and business is good and prospects for development are bright. The old bulb is going over the 84 mark here in the middle of February and the water is warm enough for the balloon girl to drop in the lake and never take a chill.

THE WEATHER

For Florida: Local rains tonight, cooler in north and central portions tonight. Tuesday and Tuesday night generally fair and cooler.

PERSONALS

Weather report says rain.

But business continues as usual.

Some good articles about Florida in this issue. Send a copy of today's Herald to some of your friends.

Mr. and Mrs. N. J. Lillard and Mr. and Mrs. H. A. Neel visited Winter Park, Orlando and Eustis yesterday.

E. W. Williams the live wire secretary of the Eustice Chamber of Commerce was a visitor to the city today bringing over a party of tourists. Mr. Williams reports Eustis as being on a big building boom and hundreds of tourists spending the winter there.

The many friends of Capt. E. Von B. Fatjo are glad to see him in Sanford for a short visit. Capt. Fatjo lived here for many years being interested in farming and fruit growing and still owns eighty acres of land south of the city. For the past four years he has been living in New Mexico where he has an apple orchard and sheep ranch.

J. C. Duss of New Smyrna and prominent on the east coast where he has a winter home at Coronado was here today accompanied by his friend Mr. Turner of Tampa but formerly of New Smyrna. Capt. Duss came over to consult with the editor of the Herald about the Bungalow Beautiful essay Contest soon to be decided in New Smyrna the judges to be J. C. Duss, R. J. Holly and Herbert Felkel, editor of the St. Augustine Record. Capt. Duss is a former band leader and known all over the United States and his visit to Sanford was greatly enjoyed by his friends here.

THE LAKELAND GIRLS WON BASKETBALL GAME

The Lakeland High School girls won from the Sanford girls in the game at Lakeland Saturday night. The Sanford visitors report a fine time at

Lakeland. The game was written up by Red Davis, sporting writer of the Jacksonville Metropolis and formerly with the Herald of this city and a well known umpire of the Sandspur League of the early days. Red had the following in the Lakeland Star:

Sanford and Lakeland both displayed good inside knowledge on the cage game—a young lady playing forward by the name of Hamilton was the "whole rage" she caked baskets better than most boys know how to sphere them and to say she has a rival is misrepresenting the facts.

Miss Hamilton caged every field goal the locals secured, while two foul goals sent through the hoops by Miss Redgrave constituted all the points for the locals. A good word for the guarding of the Misses Reddick and Adams for the locals should receive hearty recognition in the line of fame.

Sanford presented, in Maude Lake, at one of their guard positions, a terror from Seminole county that Bob Holly should see to it that praise is given to her in his up-to-date Sanford Herald—Miss Lake in the term of the medical profession was outright arsenic.

Another Celery fed player that looked good from the side lines was Mildred Holly, this "little chap" was very conspicuous around the court all thru the game, often Lakeland's guards finding her a "tough bird" to handle.

Below is the summary:

Lakeland 18	Sanford 8
Hamilton (16)	F. Holly (2)
Redgrave (2)	F. Spencer (6)
Swindell	C. Styles
Pope	C. Whelen
Reddick	G. Lake
Adams	G. Marshall

GRAPES RIPEN IN STUDIO.

Players in "Miss Lulu Bett" Enjoy Highly Novel Treat

They transplant some grape vines for an arbor in the stage setting of "Miss Lulu Bett", William De Mille's Paramount picture production which comes to the Star Theatre Tuesday. These vines had some near ripe grapes. In the warmth of the studio are lights the fruit matured and soon became ripe and luscious. When the picture was completed, the members of the cast hastened out and ate the studio-ripened fruit with much relish.

"It was another touch of realism," remarked Lois Wilson, who plays the title role. "Miss Lulu Bett's" will be seen at the Star Theatre tomorrow. Lois Wilson and Milton Sills are in the leading roles.

Balloon Ascension With Double Drop Saturday Afternoon

Second Flight Was Watched by Many People

Miss Stella Jaeger made another balloon ascension Saturday afternoon and the second flight was a double flight in which Miss Jaeger and her assistant Prof. Walter Raub made the ascent, Miss Jaeger cutting loose first and making a fine parachute leap that carried her in the cold waters of Lake Monroe. Prof. Raub waited longer and he also took a cold plunge. The launch of W. T. Donnelly picked up Raub and the balloon and the parachutes and another launch picked up Miss Jaeger. Both of the flights Saturday were very successful and demonstrated that Miss Jaeger is one of the best in the business. The perverse winds bothered her here for two days but she stuck to the task and showed the people here that she wanted to fulfill her contract in every respect. The balloon ascension and parachute leaps brought many people to Sanford for while this is an old attraction it is also a new one and Miss

Jaeger makes it a thrilling one in every respect. She will remain here until Wednesday when she will go to Orlando where she will make some flights for various events and also for the Sub-Tropical Fair.

"MISS LULU BETT" PRIZE WINNER AS PLAY

"Miss Lulu Bett," William de Mille's Paramount production, coming to the Star Theatre tomorrow night is the screen version of the play which won the Pulitzer prize of \$1,000 as the best American play produced during the 1920-21 theatrical season. The play ran on Broadway and was a decided hit. Zone Gale, an American novelist, is the author.

The story is typically American and deals with a side of small town home life not yet uncovered. The principal character is the seemingly unattractive spinster sister-in-law of a small town Justice of the Peace and dentist. She has to depend upon him for support and shelter, and thus she automatically becomes the unpaid family servant. Later, romance enters into her life, only to increase her troubles. After several hillter experiences, however, everything clears up for Lulu and happiness and love are her reward.

Milton Sills is leading man and Lois Wilson plays the role of the girl. Theodore Roberts, Helen Ferguson, Mabel Van Buren and others of prominence are in the cast.

The Quality Shop has a new advertisement in this issue calling attention to the new spring hats now coming in and many that are being made here—tailor made—and they have the breath of spring in every particular. Go and see them, at the Quality Shop and read the advertisement in today's Herald.

Note the advertisement in today's issue for the Schlecht Sliding Gap Plug for motors. They are the great-sold by Bryan-Wheeler Motor Co., and Frank Akers Tire Co. Get a demonstration from them.

NOTED BICYCLE RIDER HERE. WILL STAGE RIDE TUESDAY AFTERNOON AFTER SCHOOL.

Fred St. Onge the best known cyclist in this country has arrived here for the purpose of stimulating the interest in this great out door exercise. Mr. St. Onge represents the Cycle traders of America. He has nothing to sell and takes nothing away. His chief mission will be the preaching of good cycling. If arrangements can be made he will visit the school during the recess periods to give demonstrations in right and wrong methods of riding and deliver a short talk on road department.

He has with him a bicycle 36 years old but in such excellent condition that it has the appearance of one recently built. The wheels are one with the big wheel in front and the little wheel trailing behind. He will ride about the city on this machine and no doubt it will be a great reminder of Happy Days to the old-timers. It surely will be a novelty for the youth of today to see one of the old time wheels in action.

It was Mr. St. Onge who taught the wonder woman of the world to ride a bike, Miss Helen Keller, deaf, dumb and blind was the pupil of Mr. St. Onge and he takes great pride in showing a personal letter from Miss Keller wherein she states what a great benefit cycling was to her.

Ache?

When you're suffering from headache, backache, toothache, neuralgia, or pain from any other cause, try Dr. Miles Anti-Pain Pills. One or two and the pain stops. Contain no habit-forming drugs. Have you tried Dr. Miles' Novoline? Ask your Druggist.

F. P. RINES

105 Palmetto St., Sanford, Fla.

As a climax to Mr. St. Onge's campaign he will stage a sociable ride tomorrow afternoon starting from Park Ave. at Second Street about 3:30 sharp this will give the youngsters a chance to ride along side the high wheel and will show them that there is pleasure to be had from cycling when properly done. Mr. Byron of the Sanford Cycle Co., will assist Mr. St. Onge and all riders will receive pennants and books on cycling free. Every one with a bicycle will be welcome. Last Friday in Daytona St. Onge held a run with 226 riders in line. During the past two years he has ridden with over 60000 bicycle riders.

POSSIBILITIES OF THE SOUTH INADEQUATELY ADVERTISED

(Continued on Page Five) adures in soil and climate, as a gold mine, to one-tenth the extent they should have done. A James J. Hill, with his empire building vision, or a Harriman with perhaps an even broader vision than Hill, has been needed for Florida's development. Flagler matched either of them in his vision, in his creative power and in the achievements made for Florida; and the traffic which his road is carrying, and the amazing development along a great stretch of territory which before a great stretch of territory which before his day was almost an unexplored wilderness, its testimony to his achievements. But even his road could today do many things which it is not doing.

We are not unmindful of the financial needs of railroads, but even at the time when the railroads were earning money most of them had throughout Florida stations which were a disgrace even for the sanitary point of view. These roads bring into the State hundreds of thousands of tourists, and at most places they dump them out into the mud if it should happen to be raining, or into stations unfit from every point of view for tourist travel; or, indeed, for any other kind of travel.

It is time for the Florida railroads to wake up; time for them to do a broader work than they have ever done except in the days when Flagler and Plant and Sanford were laying a deep, broad foundation for the work which their successors should be carrying out on a scale as much greater than were able to carry out, as are the wealth and population of America greater than they were in Flagler's day.

Indeed though controlling the transportation of an empire in extent, with greater resources for development work on the face of the earth, the railroads of the whole South have been niggardly, beggarly, penurious and nonprogressive in their publicity and development work as compared with the imperial possibilities of this region.

We do not blame the officials of these roads, but we put the blame where we believe it belongs, upon the owners of the roads because they should have said to the officials, "push out to a development of the South to the limit and will back you financially in the work."

With an aggregate of about 91,000 miles of roads, Southern railways dominating a section so limitlessly endowed by nature a section rich beyond the power of words to express in potentialities for the creation of freight and travel and prosperity, annually expend in the aggregate for publicity work in behalf of the South less money than any one of a dozen or more private business concerns, patent medicine manufacturers, or other individual interests, spent in making their products known. Think of it for a moment. That these individual concerns, each having only one product to advertise, spend money annually in publicity work than all the railroads of the vast area from Maryland to Texas, rich beyond compare in resources, richer in potentialities than any other equal area in the world, spend in the development of the wealth which lies unutilized, undeveloped, and as a New York financier once said with "billions of wealth beneath our feet" not availed of.

Would that these railroads, or the owners of them, had the vision and the power to portray before the world the wealth of Southern opportunities which is possessed by dozens of individual advertisers who make somebody's crackers, or somebody's cigarettes, or somebody's patent medicines, the reason for spending more money in advertising than all the railroads of the South spent for advertising a region having nearly one-third of the total area of the United States, one-third of its population, and far, far more than one-third of its natural resources, all awaiting the touch of increased capital and increased population to become the greatest wealth-creating center of the world.—Manufacturers Record.
