

Ten Fast Events On This Evening's Boxing Program

Show Will Be Put On By Boys' Club In 4th Street Arena

Ten events, advertised as fast ones, are on the card for tonight's boxing show in the Fourth Street Arena, put on by the Seminole Boys' Athletic Club. The first bout is scheduled for 8:00 o'clock. Tonight's card is as follows:

Glenn Cochran vs. Paul Moore.
Jack Emanuel vs. Billy Harrison.
Edward Crosby vs. Theodore Klieker.
Marvin Smith vs. Billy Hoolehan.
Laurence Barrineau vs. unnamed opponent.
Edward Smith vs. Stanley Re-Char.
Henry Lee Moore vs. Earl Peirce.
H. C. Tippins vs. Duane Tillis.
Eugene Tippins vs. Clarence Barrineau.
Charles Cameron vs. Ray Edge.

Crooms-Bronson Tilt Is Won By Sanford

Crooms Academy of Sanford defeated Bronson High of DeLand on the football field by the decisive score of 14 to 0. During the first quarter the Crooms squad received 10 points for safety, and then with their linemen as a stone wall of defense Patrick clattered a touchdown. Rosier made a 30-yard run at the start of the second half and Earl made a 15-yard gain through center, ending the third quarter.

Bronson High cheered Quarterback Peters for a 40-yard run. After losing the ball to Crooms, Rosier ran for 30 yards, and then Crooms lost to Bronson, and Peters gained 35 yards. Linemen on both teams battled from the start.

Crooms intercepted a pass in the last few seconds of play, and a perfect touchdown was the outcome.

Gators Defeated By Tulane, Score 19-7

By SAM MURRAY
NEW ORLEANS, La., Oct. 14.—Fighting back at Florida with its own gun, Tulane's Green Wave bombarded the visiting Alligators from the air Saturday to overcome a first quarter touchdown deficit, and drove on to a 19 to 7 victory before a sunny day crowd of 10,000.

Floyd Christian, the big Florida right end, scored the Alligators' touchdown, standing in the end zone to bring in a long pass from Captain Chase which was made from Tulane's 24 yard line.

Al Hickland supplied Florida's extra punt from placement and Dick Page made a perfect kick for the unit after Tulane's first touchdown.

Fast Stetson Squad Beats Oglethorpe, 7-6

ATLANTA, Oct. 14.—Stetson's eleven came from DeLand last Saturday and defeated Oglethorpe, 7 to 6. The visitors played defensive football until the third period when they launched an offensive porged on a combination of end sweeps to come from behind and nose out the lighter Oglethorpe team.

First downs were at premium and most of the game was played out of the danger zones. Oglethorpe held the edge in first downs, five to four.

In the see-saw battle, punt exchanges were frequent, with some lanky booting turned in by Luston, Stetson quarterback and Leslie, Petal halfback.

Both lines presented a solid front during most of the game. Stetson twice repelling goal line charges, and Oglethorpe repeating the performance.

Black - Draught And Good Health Year After Year

"I have never had a bad sick spell and for years I have taken Black-Draught for the least symptom of upset stomach or sluggish feeling," writes Mr. W. F. Fulliam, of Galeswood, Mo. "I am a very hearty eater and sometimes I eat too much. If I feel uncomfortable, I just take a small dose of Black-Draught and soon feel all right. I feel I owe my good health to use of this reliable vegetable medicine, Black-Draught."

Where constipation is at the bottom of such troubles as Mr. Fulliam mentions, take a good laxative.

Thousands of men and women have given Black-Draught credit for having helped them to avoid serious developments of constipation troubles.—A.P.

Myer, American, Vaughan, National, Lead Batters In Big Baseball Leagues

NEW YORK, Oct. 14.—Floyd Vaughan, of Pittsburgh, who led the batters most of the season, finished with a mark of .385, topping his nearest rival, Joe Medwick, of St. Louis, by 31 points for the undisputed batting championship of the National League.

Vaughan made 192 hits in 499 trips to the plate and drove in an even 100 runs. Medwick made 224 hits in 633 times at bat and drove in 124 runs.

Billy Herman, of the champion Chicago Cubs, made most hits, 227, while his teammate, Galan, scored most runs, 133, one more than Medwick. Herman also made most two-base hits, 57. Wallis Berger, of the lowly Boston Braves, rapped out most home runs, 34, and drove in most runs, 127, though he batted only 297.

Bill Lee, of Chicago, is the leading pitcher with 20 games won and only six lost for a mark of .769. J. Dean, of St. Louis, won most games, 28, and pitched more innings than any other pitcher, 325. Dizzy also was top in strikeouts with 190.

CHICAGO, Oct. 14.—The American League individual batting championship goes to Charles Myer, of Washington, who during the last four games of the 1935 season lambasted 10 hits in 16 times at bat to beat out m.k. of Cleveland, by point. Myer's winning reads 349 and was made hit in 616 times at bat.

Greenberg, Detroit, dr runs for the top in this ment and tied Fox, of Philadelphia, for home runs with 2 of New York, who in for was always a top honor departments, salt honor among the batter son by scoring most Werber, of Boston, stole base than Lary, of St. according to the unoff ords.

Elden Auker, of Detroit leading pitcher h game lost, with 18 wins s losses for a percentage Wes Ferrell, of Boston, games, 25, and pitched nings, 322.

Ralph Wight Sees Banner Year For 1936 Oldsmobiles

"I've seen the 1936 Oldsmobiles. I've heard about the 1936 plans. I've been told of the great production expansion. And so I want to say that I am confident that 1936 will again see all records for production and sales of Oldsmobile broken."

This was the enthusiastic statement today of Ralph Wight, Oldsmobile dealer in Seminole County, after returning here in one of the 1936 model Oldsmobiles from a dealer meeting at Jacksonville.

"The country knows Oldsmobile as 'the car that has everything,'" he said, "and the new 1936 cars have everything plus. There is a definite advance in style leadership, keeping Oldsmobile far in front in graceful streamline design."

"The 1936 cars are big, new automobiles, beautifully designed, roomy and comfortable, and possessing all those features which have made Oldsmobile famous."

"When the cars were shown to the dealers of the area, and plans for the coming year were outlined, unanimous approval of both cars and program was expressed by the dealer organization."

Popularity of the 1936 Oldsmobiles was so great that when the factory was closed at the end of the 1935 production season there still remained on hand a large number of unfilled retail orders. Mr. Wight pointed out. This condition is unprecedented in the industry.

CITRUS NEWS FOR THE GROWER

Auction Prorating Would Raise Price, Gentle Says

If Florida can prorating the movement of citrus fruit to the auctions and keep the prices in general on citrus fruit will average considerably higher, Lawrence Gentle, general manager of Tree-Gold, pointed out at a recent growers meeting. He explained that auctions serve as a "barometer" of prices and that private, or J. S. H. sales are made largely on the basis of auction averages.

"It would not be necessary to regulate the private sale movement of fruit into, say New York," Mr. Gentle declared, adding: "what we must do is see that too much fruit is not sold at auction. If auctions get only the proper quantity of fruit then prices will be higher. What is the result? Private buyers will pay what the auctions are averaging. Why? Where else can they get the fruit? It is all very simple. Regulate the auctions and everything else will pretty well take care of itself as far as prices are concerned this season."

Pratt Estimates New Crop At 22,000,000 Boxes For All Fruit

An "average" estimate of the new citrus crop has been prepared by A. M. Pratt of the Associated Citrus Growers and Shippers of Florida, after sending a questionnaire to some hundred members of this organization, asking for information on crop conditions and the prospective yield of fruit in the 1935-36 season.

Shippers and growers who filled out the questionnaire varied considerably on their estimates, for the low forecast was for only 22,500 cars and the high estimate called for 63,450 cars.

The "average" figure, however, set the new crop at an estimated 43,350 cars, compared with 75,574 cars last year. These figures in each case include all fruit sent out of the state by rail, boat and truck, as well as fruit canned.

According to Mr. Pratt's statement the average figures may be broken down as follows:

THIS SEASON (cars)			
Oranges	Grapefruit	Tangerines	Total
25,280	20,233	2,836	48,350
LAST SEASON			
34,990	36,375	4,209	75,574

In figuring prospects for the new crop in boxes, Mr. Pratt asserts that it is his opinion that there may be around 22,000,000 boxes, all citrus. He states, however, that many shippers' estimates are for a somewhat smaller crop. "With the wonderful growing weather we have had, I wouldn't be at all surprised to see us ship out of the state in fresh condition and in cans 22,000,000 or possibly a half to a million boxes more than last year. Of course, we don't have any more disasters in the way of wind and freeze," was the way the Associated's manager summed up the situation.

Yothers Leaves Department To Enter Private Business

W. W. Yothers was for 20 years connected with the department of agriculture, U. S. D. A. For the last 27 years he has been in charge of the agricultural experiment station in Orlando which serves the central section of the state. During this entire period he has been interested in the citrus industry, specializing in insect control, the use of spray materials etc. He also specialized in bringing back run-down groves and groves which have received improper care.

While he is one of the leading entomologists in the country he has expanded this knowledge by making a study of fertilizers and their uses. He has recently set himself up in business specializing in pest control and other citrus problems.

7000 boxes, all citrus. He states, however, that many shippers' estimates are for a somewhat smaller crop. "With the wonderful growing weather we have had, I wouldn't be at all surprised to see us ship out of the state in fresh condition and in cans 22,000,000 or possibly a half to a million boxes more than last year. Of course, we don't have any more disasters in the way of wind and freeze," was the way the Associated's manager summed up the situation.

A semi-annual tournament of the Florida Traffic Golfers' association was held Sept. 23 at Orlando Country club with a good turnout.

Marketing Agreement Needed To Stem Tide Of Low Grade Citrus

Volume Pro-Rate Essential, Industry Leaders Say—Control Agency Sought

Growing conditions for the new citrus crop have continued favorable right up to the present hour and now that the cool season is at hand the fruit will soon start to color on the trees. Cool nights and bright, sunny days will also sweeten and mature the fruit, as well as coloring it. As the new crop ripens there is, of course, plenty of activity on the part of those people who are associated with the citrus industry.

A new marketing agreement, for instance, is in prospect. Already, early in October, a committee of Florida fruitmen had started negotiations with the AAA at Washington in line with placing a new control plan in effect and at the moment the outlook is for an agreement before much more time has passed.

Negotiations have been carried on over a rough draft for a new agreement which document provides for prorating shipments from Florida in such a manner that the control board would have just about 100 per cent control of the citrus coming to market. The draft provides for prorating shipments to auctions (to one or more auctions), or by volume, by grades and class, varieties, etc. It was learned from fruitmen associated with the move. Details of the proposed agreement have not been made public, of course, but it is known that any auction prorating would be carried out through allotments based on past performance of shippers. The proposed agreement would run for only one year.

Want Appointive Power
Floridians negotiating for the new plan state emphatically that they shall insist on the right to "write in" the names of eleven men who shall constitute the control committee. This means that the fruitmen working up the control plan would designate the members of a new control board. There is some talk to the effect that the plan is to name the eleven citrus committees in the Florida Citrus Commission, a state group, into the new control committee—that is, the eleven men would serve as both state commissioners and federal-state control board members. An attempt to negotiate this plan in under-stand to be well under way and it would surprise no one who has his ear to the ground if the plan was actually put into effect.

Included in the committee named to consider at Washington the proposed marketing plan were Sen. John S. Taylor, Large, I. C. Edwards, Tampa; L. P. Kirkland, Auburndale; Bernard Kilgore, Clearwater; J. R. Orschfield, Pittsburgh; and A. M. Pratt, Lakeland. The plan was also negotiated for Florida citrus growers in general, it was announced, but it is believed the real reason for the trip to Washington was to investigate chances for the new marketing agreement plan already named or laid definitely forth. It is known that a great many shippers who opposed the old control plan are now in favor of a new agreement—and "industry" agreement—and even some of the old die-hards are being swung into line at the right rate.

If Washington can see the point of view of the group that is negotiating for citrus control—and the greater portion of the shippers seem to be inclined—it is safe to predict that citrus control will be in effect before long. Whether international which would prevent the cheap state citrus commissions from being eleven federal-state control board members can be passed out remains to be seen.

THIS NITROGEN has those VITAL IMPURITIES

It is the Natural Product—Safe for your Truck
Crops—the logical Nitrogen for Citrus Fruits

NATURAL Chilean Nitrate is the nitrogen fertilizer with hidden values—those elements over and beyond its nitrogen—which are so important in today's new knowledge of citrus fertilization.

Nature herself created Natural Chilean Nitrate. Because of this natural origin, it contains at least thirty of the rarer elements. These are the hidden values—minute quantities of such elements as zinc, copper, boron, magnesium, manganese, iodine, potassium, calcium and many others. Not only are these rare elements present in Natural Chilean, they are present in Nature's own wise blend and balance.

Natural Chilean Nitrate helps to keep your trees in good condition. It insures fruit and truck of better quality. It means larger, more profitable yield. It is just good business to use this nitrogen with the vital impurities.

Be sure you specify Natural Chilean when ordering. That is the way to make sure.

Natural CHILEAN NITRATE THE OLD ORIGINAL SODA

Ethylene Colors
FRUIT EVENLY HELPS IT SELL FOR TOP PRICE

Top-price for all your fruit, that's what you want. Ethylene coloring helps you get it. How do we know? Because thousands of growers and shippers of fruit have used Ethylene coloring and are getting top-prices for their fruit.

Here's what Ethylene Color does. It colors your fruit in 1/4 of the time that it takes by other methods. Then, too, it colors all of your fruit evenly... no other method does that. And, better yet, it allows you to color your mature fruit when you want to... that is at the time when it will "sell" top-price.

Does it cost much? No. Ethylene Color does these things at a cost of only a few cents a full carload of fruit. Get the full story of Ethylene Color from the FREE book, "Talk, too, with your Neighbors."

Send for your free copy today!

Crooms-Bronson Tit Is Won By Sanford

Crooms Academy of Sanford defeated Bronson High of Deland on the football field by the decisive score of 14 to 0. During the first quarter the Crooms squad received 10 points for safety, and then with their linemen as a stone wall of defense Patrick clinched a touchdown. Rosier made a 30-yard run at the start of the second half and Earl made a 15-yard gain through center, ending the third quarter.

Bronson High cheered Quarterback Peters for a 40-yard run. After losing the ball to Crooms, Rosier ran for 30 yards, and then Crooms lost to Bronson, and Peters gained 35 yards. Linemen on both teams battled for the start.

Crooms intercepted a pass in the last few seconds of play, and a perfect touchdown was the outcome.

Gators Defeated By Tulane, Score 19-7

By SAM MURRAY
NEW ORLEANS, La., Oct. 14.—Fighting back at Florida with its own game, Tulane's Green Wave overcame the visiting Alligators from the air Saturday to overcome a first quarter touchdown deficit, and drove on to a 19 to 7 victory before a sunny day crowd of 10,000.

Floyd Christian, the big Florida right end, scored the Alligators' touchdown, standing in the end zone to bring in a long pass from Captain Chase which was made from Tulane's 24 yard line.

Al Hickland supplied Florida's extra point from placement and Dick Pate made a perfect kick for the unit after Tulane's first touchdown.

Fast Stetson Squad Beats Oglethorpe, 7-6

ATLANTA, Oct. 14.—Stetson's eleven came from Deland last Saturday, and defeated Oglethorpe, 7 to 6. The visitors played defensive football until the third period when they launched an offensive pegg on a combination of end sweeps to come from behind and nose out the lighter Oglethorpe team.

First downs were at premium and most of the game was played out of the danger zones. Oglethorpe held the edge in first downs, five to four.

In the see-saw battle, punt exchanges were frequent, with some lucky booting turned in by Louren, Stetson quarterback and Leslie, Petal halfback.

Both lines presented a solid front during most of the game. Stetson twice repelling goal line charges, and Oglethorpe repeating the performance.

Black - Draught And Good Health Year After Year

"I have never had a bad sick spell and for years I have taken Black-Draught for the least symptom of upset stomach or sluggish feeling," writes Mr. W. F. Pulliam, of Galveston, Mo. "I am a very heavy eater and sometimes I eat too much. If I feel uncomfortable, I just take a small dose of Black-Draught and soon feel all right. I feel I owe my good health to use of this reliable vegetable medicine, Black-Draught."

When constipation is at the bottom of such troubles as Mr. Pulliam mentions, take a good laxative.

Thousands of men and women have given Black-Draught credit for having helped them to avoid untimely developments of constipation troubles.—P.M.

Myer, American, Vaughan, National, Lead Batters In Big Baseball Leagues

NEW YORK, Oct. 14.—Floyd Vaughan, of Pittsburgh, who led the batters most of the season, finished with a mark of .385, topping his nearest rival, Joe Medwick, of St. Louis, by 31 points for the undisputed batting championship of the National League.

Vaughan made 192 hits in 499 trips to the plate and drove in an even 100 runs. Medwick made 224 hits in 633 times at bat and drove in 124 runs.

Billy Herman, of the champion Chicago Cubs, made most hits, 227, while his teammate, Galan, scored most runs, 133, one more than Medwick. Herman also made most two-base hits, 57. Wallie Berger, of the lowly Boston Braves, rapped out most home runs, 34, and drove in most runs, 127, though he batted only .297.

Hill Lee, of Chicago, is the leading pitcher with 20 games won and only six lost for a mark of .769. J. Dean, of St. Louis, won most games, 28, and pitched more innings than any other pitcher, 325. Dizzy also was top in strikeouts with 190.

CHICAGO, Oct. 14.—The American League individual batting championship goes to Charles Myer, of Washington, who during the last four games of the 1935 season lambasted 10 hits in 15 times at bat to beat out Mike, of Cleveland, by point. Myer's winning reads .349 and was made hits in 616 times at bat.

Greenberg, Detroit, drove runs for the top in this event and tied Fox, of Philadelphia for home runs with 5 of New York, who in former was always a top more departments, with honor among the batters on by scoring most Werber, of Boston, stole base than Lary, of St. according to the unoffords.

Elden Auker, of Detroit, leading pitcher game lost, with 18 wins a losses for a percentage .369. Wes Ferrell, of Boston, games, 25, and pitched nings, 322.

Everglades Growers May Increase Their Planting To Celery

Crop Should Prove Satisfactory If Good Weather Conditions Prevail

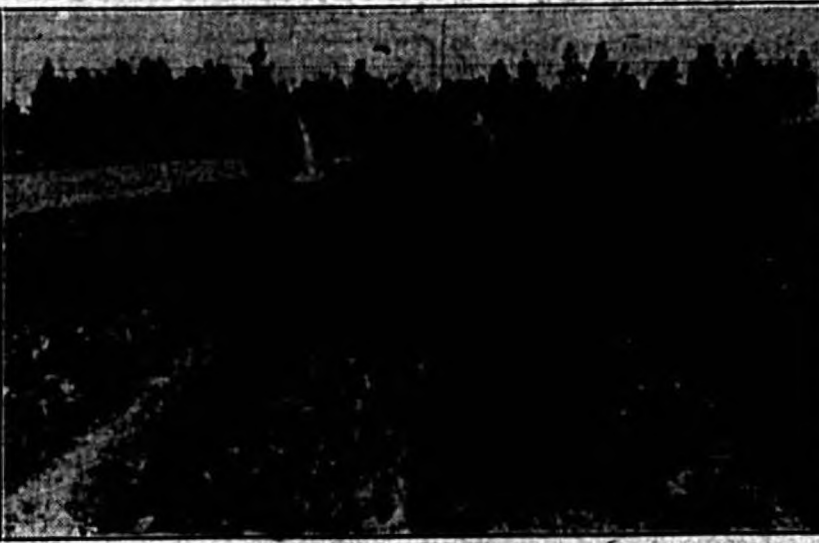

Celery crops in the late states such as New York and Michigan are relatively light this year and should be cleaned up somewhat earlier than usual. As a rule they carry over into the season for early Florida but this year because of light yields and smaller acreages they will probably be finished before Florida starts.

There will be strong competition from California unless the northern California district has a freeze because of the large acreage. Growing conditions have been good thus far and the outlook is for an active movement from California until about February. The shipping season starts in November.

Apparently there will be a slight increase in the acreage of celery in the Everglades but this has not been determined definitely as yet. Sanford can be depended upon for about the usual acreage.

Celery is one of the vegetables that seems to be gaining in popularity and one year with another works out quite satisfactorily as a truck crop. It should prove satisfactory again this season for growers in sections where the soil is suited to the rather exacting requirements of this crop.

Home Market Truck Growers Plan Crops

Growing of vegetable crops for home markets is becoming quite a new industry in Florida, as winter markets demand a constant supply of "green stuff" for their tourist and regular trade. See story on opposite page.

Markets Can Handle 30-40 Cars Romaine, Big Boston

A very small acreage of lettuce has been planted in New Jersey for this fall and the crop should be cleaned up quite closely by the time Florida early lettuce is ready. For several years New Jersey has had only indifferent success with the fall crop and acreage has been cut down.

As a rule the Florida movement starts early in November and then runs at a moderate rate during the winter. Demand for the Big Boston and Romaine types of lettuce is not so great as it used to be but so long as shipments are kept down to 30 or 40 cars a week they can be marketed quite successfully.

An 85-acre tract on Sarasota bay on Cortez road has been purchased by John N. McClure which he will clear for planting peppers and tomatoes this fall.—Palmetto News.

Cucumber Competition Expected From Louisiana

Northern cucumbers will clean up a little earlier than usual this season but Florida may get more than the usual amount of competition out of Louisiana. A big acreage has been planted in Louisiana and the crop has made fine progress so far. The Louisiana crop will continue in market until after the first of the Florida fall crop is ready, but this state has fruits

Liberal Supplies Of Cabbage In Prospect For Early Marketing

No Storage In Late States This Year But Carryover Will Be Smaller

By A STAFF WRITER
There will be no shortage of cabbage in the late states this season but the carryover may not be so large as it was last year. The total crop is slightly smaller and a larger proportion of it is in the early or domestic type of cabbage.

New York state is the kingpin in the late cabbage deal and in New York the growing conditions have improved during the past two or three weeks. The prospects are good in most of the sections and production will be only slightly less than last season. Domestic production is about the same as last year but Danish or late cabbage is slightly less.

Similar conditions prevail in Wisconsin. The crop has made fair to good progress and there is enough cabbage so that shipments will probably continue well into January.

Until the end of November it is quite probable that northern markets will be heavily supplied with cabbage. Last season the growers in Wisconsin and New York were able to place a great many cars of early cabbage throughout drought areas in the middle west. This season these sections have more home grown cabbage and have not drawn on Wisconsin and New York to any extent this far.

As a result shipments from these states have been considerably lighter and they appear to have more cabbage on hand than they should. Another factor that complicates the domestic cabbage deal is the light purchasing so far by the kraft mills. Ordinarily the kraft mills take much of this cabbage as they prefer it for kraft but the demand for kraft is light. High prices for pork have hurt the kraft mills and they would rather doubt that the kraft makers will take as much domestic cabbage as they did a year ago.

Michigan has a much lighter cabbage crop this season and Minnesota the next light crop. Possibly the competition from these states will be less than in 1934 when they were quite a factor.

A great deal will depend on just how active and successful Texas growers are with cabbage this season. During the late winter and early spring the size of the Texas crop has an important bearing on prices. Texas normally plants 50,000 to 60,000 acres of cabbage but the crop is usually because of destructive frosts. Last season, for example, Texas had enough cabbage planted to break the market but a succession of killing frosts cut the crop down to one-fourth of what it would have been. This made a fine market for Florida and South Carolina.

Florida growers should also bear in mind that round types of cabbage are becoming somewhat more popular than the pointed types. In periods of heavy supply there is often some advantage in having the round type to sell.

Green Peas Become More Popular Each Season, Brown Says

By COLONEL L. BROWN
Few vegetables have increased in popularity as rapidly as green peas and a good reason is given for this in this season. In fact prices throughout the past few months have been satisfactory when compared with practically any other vegetable.

California had a large acreage of peas for fall shipment and these are now moving in market at a normal rate. There will continue for another month or six weeks after which the Imperial Valley will supply a good part of the late fall crop. Peas are in a peculiarly favorable position in the Imperial Valley as available and the deal is always a little uncertain because of frosts in winter shipments. However, the Imperial Valley has been lighter for the past two seasons because of stronger competition from California and Florida.

It is probable that Florida will be able to market quite a large quantity of peas this season. There are some sections in Florida where there are some very good peas and these are now being marketed.

Growers should bear in mind that consumers are willing to pay a substantial premium for peas that are green and well shelled. The quality of the peas is very important and the quality will depend on the weather and the soil. It is well to get a good variety of peas at low prices because of the fact that peas are poor graders.

CITY BRIEF

(Continued from P. 5)
WPA board on education used by R. L. Glenn this. The main purpose of the Mr. Glenn said, is to organize the city.

Weather forecast: Clear night and Tuesday with light showers in the afternoon and near the E. side.

The congratulations of Briefer are extended to Mrs. H. B. Odham who celebrating their 25th anniversary, and to H. Odham, Jr., who is celebrating his birthday anniversary.

Work in the Master League is announced by L. L. worshipful master, day evening's meeting, Sanford Lodge of the M. Temple at 7:30. Refreshments served.

Officers for next year: Post No. 3282, V. Foreign War, will be a meeting of the veteran Legion Hut tonight, at the importance of the to be attended to C. Harry Kent said he member of the post will attend. The post meeting is 8:00 o'clock.

Mayor T. L. Dumas that the City Commission meeting will figure out some way in more finances for municipality to offset loss of exemption of homestead tax. The city budgeted expense. The mission meeting will be City Hall at 7:30.

Mr. Sunderland of Mass. has returned to home on Lake St. and in race horse to Seminole the winter.

The Women's Mission of the Baptist Church, day afternoon at 4 p.m. program was presented in the Banner for Youth.

Ralph Wight Sees Banner Year For 1936 Oldsmobiles

"I've seen the 1936 Oldsmobiles. I've heard about the 1936 plans. I've been told of the great production expansion. And so I want to say that I am confident that 1936 will again see all records for production and sales of Oldsmobile broken."

This was the enthusiastic statement today of Ralph Wight, Oldsmobile dealer in Seminole County, after returning here in one of the 1936 model Oldsmobiles from a dealer meeting at Jacksonville.

"The country knows Oldsmobile as 'the car that has everything,'" he said, "and the new 1936 cars have everything plus. There is a definite advance in style and styling, keeping Oldsmobile far in front in graceful streamline design.

"The 1936 cars are big, new automobiles, beautifully designed, roomy and comfortable, and possessing all those features which have made Oldsmobile famous.

"When the cars were shown to the dealers of the area, and plans for the coming year were outlined, unanimous approval of both cars and program was expressed by the dealer organization.

Popularity of the 1936 Oldsmobiles was so great that when the factory was closed at the end of the 1935 production season there still remained on hand a large number of unfilled retail orders. Mr. Wight pointed out this condition is unprecedented in the industry.

LONGWOOD

The primary department of the Baptist Sunday School had a picnic with all kinds of entertainment at the home of the superintendent, Mr. L. W. Entamint, on Greenwood Lake, Wednesday afternoon. Games, swimming, boat-rides and refreshments were enjoyed. Teachers present were: Mrs. L. C. Cramer, Gladys Stone, Mrs. Clyde Whitehead and Miss Carolyn Lewis.

The P. T. A. singers of Lyman School met as usual for rehearsal Tuesday night at the home of Mrs. Hallie LaVigne and Miss Alda Lavigne.

The Tourist Club members held their fortnightly luncheon Wednesday at the home of the president, Mr. Daniel Lighton, and Mrs. Daniel Leighton. Those present from Orlando: Mr. and Mrs. Elmer S. Hall, Mrs. S. Watson, from Longwood: Mr. and Mrs. Hayes, Mrs. B. R. Grey, Mrs. Gertrude Williams, Mr. and Mrs. Tanner and Mrs. Munger. The next luncheon will be held at Sanlando Springs.

The Civic League Sewing Club will meet next Wednesday afternoon at the library with Mrs. Ernest Harris and Mrs. Sarah Yarnall as committee.

Mr. and Mrs. Jack Hayes who spent the past year in New England, have returned to Longwood.

WHAT YOU DO IN THE FALL DETERMINES WHAT YOU HAVE IN THE SPRING

CITRUS trees will soon be entering a "resting period"—the ideal time for the Fall Fertilizer Application. This application will largely govern the extent and nature of your spring bloom, for it enables the roots to store up energy, so that your groves will come through winter in healthy condition.

When you make Armour's Big Crop Fertilizer available to your trees, you assure them a well-balanced ration of the major plant foods plus minor and secondary plant foods, elements that are essential to plant growth just as vitamins are to humans. An invitation for our representative to call and analyze your grove fertilizer requirements will place you under no obligation.

Vegetables—your fall and winter vegetables—must be properly fertilized. Please consider that Armour's fertilizer with the Seven Active Plant Foods, is made right here in Florida, to meet Florida crop and soil conditions, and that there are Armour formulas and analyses to meet every need. Your inquiry is cordially invited.

Snap Bean Crop May Escape Competition Of Early Fall Area

Late Planting Will Give Florida Producers Shipping Advantage

Because of late planting the Florida snap bean deal will probably escape the stiff competition it sometimes gets during the fall months. If reports are reasonably correct, there will be very few cars of snap beans loaded out of Florida before November and by that time other sections will be finished.

So far as the Atlantic coast states are concerned, it looks as if they would clean up a little earlier than usual. Most of them have smaller acreages also. The New Jersey fall crop, which runs until frost time, is lighter than usual because of poor weather for growth. Rains at planting time were injurious and now the weather is too cool and dry for best growth. The eastern shore of Virginia planted the usual acreage but was hurt by weather conditions similar to those in New Jersey.

A small acreage was planted in the Norfolk, Virginia, district and this crop is now moving to market in limited quantity and will be heaviest in early October. North Carolina lost most of its crop in floods and will have relatively few beans for fall shipment this season.

Conditions are somewhat better in South Carolina although the crop will not be exceptional by any means. There will be a few cars for October shipment but not a great many.

However, one of the states that is an exception is Louisiana. The acreage was increased and conditions have been very favorable for growth recently. Louisiana will probably ship quite heavily during October and may possibly overlap with the Florida deal at the outset.

Tennessee and Mississippi have rather light crops for fall shipment and they are usually eliminated by frost ahead of the Florida season.

Small Truckers Busy Planting Vegetables For Home Markets

Many September Plantings Rotted In Ground—Home Trade More Profitable

With the arrival of October the thousands of small truckers—as differentiated from the various big growers—became as busy as bees throughout the northern and central areas of Florida. These truckers grow all kinds of vegetables, and some flowers, in truck gardens ranging in size from less than half-an-acre to two or three acres. The produce is usually sold in nearby cities and towns. Quality stock usually brings profitable prices.

Around such cities as Tampa, St. Petersburg, Jacksonville, Pensacola, Gainesville, Orlando, Daytona Beach, Cocoa, New Smyrna, etc., the gardeners have been planting practically every variety of cool season vegetables lately, including English peas, cabbage, cauliflower, broccoli, radishes, beets, turnips, various "greens", escarole, spinach and a host of other vegetables. These plantings of plants in the field have done well in practically all sections, excepting of course the areas where the September storm hit early plantings.

Seedmen in practically all sections of Florida report a brisk business this fall and most of them say their business is considerably ahead of last season at this time. Growers seem optimistic over general conditions and appear to have plenty of money to spend on seeds, fertilizers, etc. The business of the seedmen has been increased considerably by purchases of home gardeners who are now active. There will be as many home gardens in all parts of the state as usual and some merchants seem to think there will be more.

Fertilizers, garden tools and insecticides have all been selling well. Growers and gardeners have learned that it is poor economy to try to grow anything without ample fertilizer, while the up-to-date garden tools save much labor and expense. Bugs which in former seasons gave gardeners considerable trouble are easily controlled if proper equipment is used.

Alert vegetable growers everywhere are taking the advice of crop authorities who urge SEMESAN treatment of seeds to control seed rotting and damping-off.

In return, many of them are getting larger yields, improved quality, often even a better price at market because their crops mature earlier.

SEMESAN is easily applied, either as a dust or liquid. It does not injure the seed. And it costs so little that every grower can afford it! Just 1/4 to 1/2 will treat one pound of seeds, depending on their size and whether SEMESAN is used as a dust or liquid.

Three-Fold Effort For World Peace Is Advocated By Hull

Ethiopian Troops And Town Of Alaji Bombed By Planes

Mass Concentration Of Warriors Along Front Is Ordered

By The Associated Press
Italian bombing planes rear across northern and eastern Ethiopia today.

At Geneva the League of Nations sub-committee for economic sanctions decided in principle to recommend an embargo against the shipment to Italy of "key" products—materials used in the manufacture of war munition.

Hull's speech, regarded as of much significance, was delivered by radio on the program of the New York Herald Tribune's annual forum on current affairs.

His declaration that war cannot achieve the hopes of people for a "less difficult and more rewarding" destiny, comes at a time when Italian spokesmen are declaring that Italy's need for expansion is one of the justifications for the Ethiopian campaign.

General British abruptly cancelled the cruise of her Grand Fleet to Greek waters, and military quarters believed it would be kept a secret until a later date.

W. Howard Taylor, attorney for the defense, said that the defense attorneys will be heard in the trial on Oct. 22.

Maxon Dumas said he saw a whole truck load of slot machines being unloaded in Tallahassee a few days ago.

Speech Delivered By Secretary Of State Is Regarded As Of Great Significance

War Can't Cure Economic Ills

Simultaneous Action Needed To Rebuild International Trade

WASHINGTON, Oct. 15.—(AP)—Declaring that the "obsolete and bloodstained instrument" of war cannot cure the world's economic ills, Secretary of State Hull today advocated a three-fold international effort for peace and prosperity. He called for "simultaneous action of many countries" for:

1. A vigorous rebuilding of international trade.

2. A gradual restoration of international monetary stability.

3. An international agreement upon the organization and principles which will assure that the all-important raw materials will become available on reasonable terms whenever they are needed.

Hull's speech, regarded as of much significance, was delivered by radio on the program of the New York Herald Tribune's annual forum on current affairs.

His declaration that war cannot achieve the hopes of people for a "less difficult and more rewarding" destiny, comes at a time when Italian spokesmen are declaring that Italy's need for expansion is one of the justifications for the Ethiopian campaign.

Hauptmann Given Opportunity To Appeal His Case

TRENTON, Oct. 15.—(AP)—Bruno Richard Hauptmann's execution was stayed indefinitely today when the Court of Errors and Appeals granted him the opportunity to appeal his conviction in the Lindbergh kidnap murder case to the Supreme Court of the United States.

The order which would have returned the case to Supreme Court Justice Thomas W. Trevelock, the trial judge, for re-fixing of the execution date, was stayed by the Court of Errors and Appeals, but will automatically take effect on Nov. 14 if the appeal is not perfected by that time.

Seven Sentenced On Drunkenness Charges

Judge J. G. Sharon in County Court today sentenced seven men to pay fines of \$5 and costs or to spend 60 days in jail, each on charges of drunkenness. The costs in each case are \$5.

Potato Situation Is A Problem Even With Light Crop Forecast

Consuming Public Turning Away From Spuds in Favor Of Other Foods

NEW YORK CORRESPONDENCE
Eastern states have a much lighter potato crop than last season but for the country as a whole the crop is slightly better than that of last season. Most signs would indicate that a conservative policy would be best with this crop.

From the standpoint of Florida competitive conditions are better than they were last season. Maine has a much lighter crop and the same is true of New York and Pennsylvania. Last season all three states had such bumper crops that potato prices were depressed all through the season and affected the prices of Florida new potatoes adversely.

Reports from Maine indicate that the potato crop this season will be only about 80% of last season's. The New York crop is very spotted and the big potato section in the southern part of the state has only a half crop. This will reduce the earliest shipments materially.

Another factor that complicates the potato deal is the new potato law known as the Warren act. This puts certain limitations on the marketing of potatoes and no one knows what the attitude of growers will be toward the law. It may be to reduce plantings and that seems to be the case in south Florida. Also, there is some uncertainty about its enforcement. The law itself seems worthy of a trial as it has some features that should work to the benefit of the potato industry.

WHEN YOU ORDER FERTILIZER PER BAGS

FERTILIZER

CUSHION-STITCH CLOSURE
The unique Bagpak cushion stitch will not tear out. No fertilizer can leak from this closure, yet it opens easily.

EASY TO HANDLE
The bag that spares your back. This 100-lb. bag can be easily handled by one man.

NO SIFTING
Four separate thicknesses of heavy Kraft paper make the Bagpak bag tough, moisture-resistant, sift-proof.

Save time, money and labor on fertilizer handling this fall. Have your fertilizer delivered in convenient 100-lb. Bagpak paper bags. Clean, durable, easy to handle—these sturdy bags will be a revelation to you.
