Some sources said the government would stand firm and would even permit hostilities to resume before accepting the terms which are regarded as too severe.

Two Senators Denounce Bill To Aid British

Taft, Capper Assert
Measure Will Confer
Too Much Power
Upon President

WASHINGTON, Feb. 22—(AP)—The Administration's British aid bill was denounced by two of its opponents in the Senate today as a measure which would confer upon President Roosevelt the power to plunge the United States into war.

Senator Taft (R-Ohio) asserted "we are asked to give one man the power to take the United States into war."

An assertion that "complete war making powers" would be granted the President was made by Senator Capper (R-Kan.) who also said Roosevelt would gain "complete control over our domestic economy if the measure were enacted."

President Roosevelt's suggestion yesterday that newspapers, radio and news agencies voluntarily refrain from disseminating vital military secrets given to Congress in confidence, drew from Senator Wheeler, Democrat, Montana, the charge he was attempting to "muzzle everybody who is not for war."

Wheeler, a leader of the Senate non-interventionists fighting the Administration's British aid bill, saw in the White House suggestion an attempt to "muzzle the press, the senators and everybody who is not for war."

"It is much easier to trick us into a war secretly than it is when the people know the facts," he said.

Senator Clark, Democrat, Missouri, another foe of the aid measure, protested that the "American people have all they should have all the pertinent facts."

"Every day every American citizen will know them in time, anyway," he said.

But, Chairman Sheppard of the military affairs committee, argued "the President is absolutely right in his regretful opinion."

He said the committee had been revealed, purportedly by one of its members.

Nazis Assert Display Of Flag Should Be Of Grave Concern To This Government

R. A. F. Repulses
Nazi Air Thrust

English Troops Held
In Africa Anticipating
Balkan Clash

The German High Command asserted today its "naval forces" in the Indian Ocean had sunk an armed Canadian merchant ship which was flying a United States flag and which had the stars and stripes painted on its hull.

The Germans identified the vessel as a T178-ton errand named the "Canadian Cruiser" out of Montreal and observed that the reported display of the American flag should be of grave concern to the United States government.

It was indicated that if every ship flying an American flag is to be suspected of being actually British, "a most unfortunate incident" might occur.

The Canadian naval headquarters retorted it was "without any information whatever" regarding the Berlin claim that Nazi sea forces had sunk the British merchant ship "Canadian Cruiser" flying United States colors.

The British warships reported increased aerial activity both on the defensive and offensive fronts. They said R. A. F. fighters drove back a Nazi air thrust over Kent today.

The German naval base at Wilhelmshaven and a shipbuilding center at Emden West on the German-held French coast last night.

Head of rumors stirred the belief that Britain and Germany might soon be locked in combat in the Balkans. German postmen bridges were reported already in readiness for a dash into the Balkans through Greece.

A Budapest report reaching Budapest said that since noon yesterday Nazi troops had been stationed on the Danube.

Maxim Litvinoff
Is Removed From
Soviet Committee

WASHINGTON, Feb. 22 (AP)—A new house cleaning by the Communist party last night removed Maxim Litvinoff, the former foreign commissioner, off the party's central committee and removed Paulina K. Zhornitskaya, wife of Vyacheslav Molotov, present premier and foreign commissar, as a candidate for the same group.

Litvinoff and three others were accused of "falling in their duties." No explanation accompanied the dropping of Zhornitskaya, as he is known in the U. S. S. R.

Litvinoff, ardent supporter of the League of Nations and the idea of collective security, was removed as foreign commissioner on May 3, 1937, and supplanted by Molotov, who in that year negotiated the non-aggression pact with Germany which preceded the present war.

Litvinoff dropped almost completely out of the public eye, although in December of 1939 he was reported to be engaged in preparing digests of foreign policy for Molotov and Joseph Stalin.

Molotov's wife in recent years has been successively head of the Soviet perfumery trust, vice commissar for the food industry and commissar for the fish industry, but she was removed from the latter post late in 1939, and very little has been heard of her since.

In 1938 she visited the United States and was a White House guest.

Litvinoff himself came to the United States in November of 1933 and negotiated with Franklin D. Roosevelt the resumption of United States-Soviet diplomatic negotiations.

Increased Business
Activity Anticipated

ST. PETERSBURG, Feb. 22—(AP)—Continued European war probably will mean an increase of at least 10 percent in business activity for 1941, James R. Hancock, of Boston, president of the American Institute of Finance, predicted in a talk to a civic club here yesterday.

"Foreign aspects, plus increasing reorganization of business," Hancock said, "have been sufficient to explain the persistent weakness in the stock market in the face of rapidly rising business. Now, however, it is nearing levels where a bullish position is warranted."

Edwin Granberry Is Installed In Bachelor Chair

mated Magaine and vice president of Rollins College, Dr. Edwin O. Grover, then introduced the honor guest of the occasion, Dr. Edwin Granberry, as a "pioneer in literature."
In a semi-humorous talk the professor of the new chair debated the question whether writing can be taught. "There are two kinds of writing," he pointed out, "utilitarian and creative. Words, Grammar and syntax are the tools for both, but the difference is in how they are put together—whether for writing the minutes of a meeting or as used by Keats, Thomas Hardy, or Sigrid Undset."
"To stir the senses, and to evoke the emotions is the supreme characteristic of creative writing," he emphasized, "and in one can teach creative writing."
"The function of the professor, believe it or not, is to encourage the student which comes, then feed it and direct it. Such a teacher is not a counselor, but seldom an instructor."
"The trouble with the young writer," Dr. Granberry explained, "is that he is too concerned before he learns the scales. But even hot air can be carried without a bag to put it in. In the most profound law we know in the universe, and a writer can escape it."
"Character revelation" he declared is the end of a story. "A writer needs a plot—form—hold the reader's attention while he is turning the mind and out of the character inside out."
The guests were seated at six round tables, with the following as poets: Professor Willard Sattler, Charles Hyde Pratt, Mrs. Rose Anderson, Dr. Joseph C. Lincoln, editorial, Dr. Albert Shaw; history, Dr. Sidney Ingomer.
Mrs. Nina Oliver Dean and Mrs. Martin Anderson received the guests at the door.

"Mind" is the subject of the Lesson-Bermon which will be read throughout the world on Sunday, February 23.
The Golden Text is: "It is God which worketh in you both to will and to do of his good pleasure" (Philippians 2:13).
Among the citations which comprise the Lesson-Bermon is the following from the Bible: "Who hath directed the Spirit of the Lord, or being his counsellor hath taught him? Hast thou not known? Hast thou not heard, that the everlasting God, the Lord, the Creator of the ends of the earth, fainteth not, weary is he not, neither is there any overthrowing of him" (Isaiah 40:13-14).
The Lesson-Bermon also includes the following passage from the Christian Science textbook, "The Science of Health with Key to the Scriptures" by Mary Baker Eddy: "There can be but one Mind because there is but one God, and if mortals claim to be other Minds, they are not other Minds, but are the same Mind. If that one is infinite" (Ibid. 17-18).
