

Veale Hurls Sanford To Double Win Over Palatka

Lookout Pitcher Gives Azaleas But Nine Hits; Swindell Poles Homer

Locals Take Initial Fray, 1-0; Win In Nightcap By 10-4; Play Here Today

PALATKA, June 10.—History repeats. And not to be outdone by history, Frank Veale also repeated.

The Sanford hurling ace yesterday chose the Azaleas ball park to perform one of those rare feats of baseball and pitch both ends of a doubleheader, winning them both by respective scores of 1 to 0 and 10 to 4.

The Lookouts today were scheduled to meet Gainesville in the local ball park. Jack Gaddy, youthful, recent southpaw addition to the hurling staff, was to have the call. Tomorrow Sanford meets Gainesville there.

Walking off with two games in one day should have been enough for Veale, but he further heaped glory onto himself by limiting the Palatka team to nine hits in the entire 16 innings of baseball played.

The second game was more or less a listless affair, since Sanford took the lead from Palatka in the second and never was headed. Swindell's four-base swat was the outstanding feature of the fracas. The right-fielder also smashed a single.

Batting almost as they pleased, the Lookouts nicked Slaalein and Andrews for 11 safeties in the nightcap.

The box scores:

FIRST GAME		A	B	R	H	E	O	A
Sanford	1	0	0	0	9	0	0	0
Palatka	0	0	0	0	9	0	0	0

Loop Leaders Fall As St. Augustine Sends Fralicki To Bench

ST. AUGUSTINE, June 10.—Bunching five hits for four runs in the fourth frame, the St. Augustine Saints roared to a 4 to 2 victory over Daytona Beach yesterday in the Florida State League behind the southpaw fling of John Schneider. It was the third time this season at Lewis Park that Schneider mastered the league leaders.

The Saints sent Moose Fralicki to the showers after four innings with six hits and four runs against him. Bill Kinsel finished the game and limited the home team to three hits for the remaining four innings.

Singles by Owens, Langston, Bonner and McGowan and Zupanic's double stood out in a four-run St. Augustine rally in the fourth frame.

Bartosch's single gave Daytona Beach a 1-0 lead in the opening frame and the Islets made a strong bid to escape defeat in the closing frames. A walk to McNally and successive singles by Hostalki and Andersen accounted for the second run in the eighth. In the ninth the visitors loaded up the sack with two away but failed to rally.

Both the visitors hoped for nine blows but received errorless support afield and was always the master with men on bases. Manager Jerry Fitzgerald led the Saints with a double and a pair of singles while the nine Daytona hits were divided among as many players.

Sooner or later the old weight problem is going to give Joe Louis something to worry about. It is natural for a 22-year-old youngster like Louis to grow and put on weight, but the Brown Bomber is inclined to become slightly blubbery at even a short layoff.

In the few weeks between his fight with Charlie Retzlaff and the time he began to prepare himself for his date with Max Schmeling, Louis put on about 20 pounds. His handlers thought he weighed about 216 pounds when he opened his camp at Lakewood. But that was merely a guess—no one had seen him on the scales. If anything, they were conservative in their estimate, for he appeared heavier than that.

John Roxborough, senior partner of the firm of Roxborough & Black, dealers in Joe Louis Pugilistic Enterprises, Inc., pointed out that the fighter was growing up, while he did have a few extra pounds, they would come in handy when the training grind got underway. Furthermore, he argued, the extra pounds meant added punching power. He didn't say just what the Bomber would do with a heavier sock than he displayed in pounding Baer, Corbett, Levinaky, Retzlaff, and others to the canvas.

It has been our observation that added weight does add power to the punch, but it does so at the expense of speed. And speed has been one of Joe Louis' greatest assets. The lightning speed of his blows, beating the other fellow to the punch—that's the explanation of Joe Louis' phenomenal ring success.

Slow the Bomber down to a walk, and it is my guess that you would have a very ordinary Nice business, eh?

'Doc' MacKenzie Ready To Defend Auto Race Crown

Eastern Champion Is Eying '37 Classic Grind In Indiana

PHILADELPHIA, June 10.—George "Doc" MacKenzie, 1935 Eastern American Automobile Association champion, is back in his native Pennsylvania today concentrating his efforts toward holding the racing crown now settling on his modest brow.

MacKenzie was nicked by many to win the 1936 running of the Indianapolis Memorial Day 500-mile speed classic, the first major event in which he drove the inaugural 250-mile road-beach race at Daytona Beach, Fla., last March.

However, "Doc" struck a streak of misfortune which forced him to relinquish the wheel of his sleek machine to Kelley Pettilo, 1935 Indianapolis champion, and his dream of winning the 500-mile classic was temporarily set back.

MacKenzie, son of a Pennsylvania physician, will make a goodly portion of his bid to retain his eastern championship on the Langhorne Speedway where he roared to so many triumphs last season.

"Doc" probably will be closely followed by "Red" Call, a friend of the "Doc," but MacKenzie's main enemy when the cars begin going round and round. Both the drivers are known for the devil-may-care races they drive. Both the men are fatalists.

MacKenzie could gladly rip open anybody's outside race track wall and never move again if only once he could capture the Indianapolis prize. It will be to-ward conditioning for winning that blue ribbon of racing that he will direct his utmost while trying to retain his eastern crown this summer.

Oddly enough, MacKenzie believes that his end will come while sitting in the cockpit of a racing car. "But what'll happen?" he asks. "In a few years, I've seen nearly 50 of my intimate friends go that way. Why should I flinch?"

MacKenzie could gladly rip open anybody's outside race track wall and never move again if only once he could capture the Indianapolis prize. It will be to-ward conditioning for winning that blue ribbon of racing that he will direct his utmost while trying to retain his eastern crown this summer.

Bill Rogers Is Selected To Manage Sanford Club; Takes Control Saturday

Press Agents Fail In Long Attempt To Build Up Max

NAPANOCH, N. Y., June 10.—Down the sports trail to the foot of the Catskills where we find Maximilian Siegfried Adolph Otto Schmeling, the Teuton Schlager, as he drills for his apparently hopeless struggle against Brown Bomber Joe Louis.

Contrary to Max's fighting fame has spread around the world and the story of how he arose from a \$5 preliminary boy to world's heavyweight champion and then fell is an interesting one. Yet, the press agents who try to build him up as a man of sports color admit they have failed. The truth is that Max is unlike John J. Sullivan, Max Baers, Jack Dempsey and Mickey Walkers. He's more like an industrious Park Avenue clerk as he goes about his business of drilling and his routine of life.

Fighters, training for their big shot, train hard and live a careful life. Not so with Schmeling. Even in training, he lives the natural life. He sleeps, walks, talks, eats, and drinks as he would in the night of June 18 when he is left in solitary under calcium lights of Yankee stadium to face the devastating blows of the Brown Bomber.

Max has no bad habits. He doesn't smoke, drink or chew. He eats all German food if he can get it, buying very expensive imported German sausage, cheeses and mineral water. Even his surroundings are as Teutonic as possible. When the newspapermen ask him to play along with them—to fish, hunt or play golf—he says simply: "I want to be alone." He has his own trap shooting outfit with him and shoots well. He reads German newspapers almost exclusively and takes long walks through the woods accompanied only by two companions, Trainer Max Machon, and Otto Petrie, an old pal who gained fame as a six-day bike rider. He lives in his own cabin about two miles from the fight camp and a policeman watches over him, refusing to disturb his long slumbers. His training program consists of six miles of road work every other day, six rounds of sparring working. Every night after a workout, he cables his German film actress wife, Anny Ondra. Twice a week he calls her by long distance telephone at \$40 a call.

Fight . . . A sharp, smart man in this Teuton, who may surprise the world after all. Not only has he earned most of the money he has saved in the ring, but he refuses to mention Louis' name, realising well, probably that repetition leads to reputation—and fear.

McCrone May Remain As First Baseman; Team To Sign New Outfielder, Hurler

Press Agents Fail In Long Attempt To Build Up Max

"Raw Meat" Bill Rogers, a baseball manager with a vast store of Southern League experience, will arrive here Saturday and take the reins of the Sanford Club.

Charles F. Wert, president of the Lookouts, today said the managerial shift was being effected in an effort to lift the club out of its apparent doldrums.

Stuffy McCrone, who now directs the ball players' activities, will be retained as first baseman if he desires to remain with the outfit, according to Mr. Wert.

Jim Beck, Chattanooga Lookout scout, will accompany Rogers here and bring several players among whom will be definitely listed an outfielder and a pitcher. Mr. Wert was unable to name the positions of the other athletes.

Mr. Rogers, according to Mr. Wert, has tasted success in a managerial role. Formerly he was with Chattanooga and has managed a club in Des Moines, Iowa. He has had other Southern League connections.

The new manager will take control of the Sanford club immediately on his arrival.

Constitution Crys Rapped By Roosevelt

President Challenges Critics To Fight In Speech Before 40,000 Arkansans

Address Is Seen As Reply To GOP Louisiana Purchase Is Used To Defend New Deal Actions

HOUSTON, Tex., June 11. (AP)—President Roosevelt arrived here today to attend the Texas Centennial after a Little Rock, Ark., address last night in which he challenged the opposition to fight it out on the constitutional question. He lashed at critics and pledged a march forward to New Deal objectives.

Pledging attainment of the goal by means within the structure of the Constitution, the president told a cheering Arkansas audience that the great charter "is intended to meet and fit the amazing physical, economic and social requirements that confront us in this generation."

To political observers who were looking for a mild address dealing with the development of Arkansas as a state, the President's remarks came as a surprise. They were interpreted as a sweeping reply to republican charges by some and to a formal declaration that the Democratic campaign was on with the issue out in the open.

Touching briefly on the historical background of the State of Arkansas, Roosevelt drew from his history to support his assertion that his program fits under the broad purposes of the nation's charter.

The very acquisition of the Louisiana purchase from which Arkansas was carved was accomplished by Thomas Jefferson despite the warnings of members of the legal profession that the purchase was illegal, he said.

"He was told by some of his closest advisors and friends that the Constitution of the United States contained no clause authorizing him to purchase or acquire additional territory, and that because specific authority did not exist under that great charter of government, none could be exercised," Roosevelt said.

FRED CONE

The Lake City candidate for governor launched his campaign in Seminole County to win the runoff election from Judge Raleigh Pettaway this afternoon in an address delivered in downtown Sanford where he discussed the issues on which he seeks the voters' approval on June 23rd.

Britain Feels Alarmed Over Lifting Bans

Proposal To Abolish Italian Sanctions Arouses Alarm In Circles Of London

LONDON, June 11. (AP)—British sanctionists expressed serious alarm today over the declaration of Neville Chamberlain, chancellor of the exchequer, that war penalties against Italy should be lifted. Chamberlain told the Nineteen Hundred Club last night that the proposal to continue sanctions against the Fascist nation for the invasion of Ethiopia is "the mid-summer of madness."

LONDON, June 11.—Youthful British Foreign Secretary Anthony Eden today had warned Japan to cease alleged connivance in wholesale smuggling of drugs into Northern China.

Commons, Eden said the British government has made further strong representations of Japan complaining about the North China smuggling situation.

As a result, Eden said, a Japanese foreign ministry official has been sent to investigate the smuggling.

"However, no specific assurance has been received that Chinese customs officials on sea and land will in the future not be prevented from carrying out their duties without hindrance and without limitation of arms which they carry for that purpose," he said.

Best Play Of '36 To Have Sanford Actor In Its Cast

Scot "Nat" Farnworth, a graduate of Seminole County High School in 1930, has been assigned a role in "Winterstet," 1936 Pulitzer prize winning play, according to his mother, Mrs. Maude Farnworth, who is visiting here.

After leaving Sanford young Farnworth studied in the University of Colorado and later at the University of North Carolina. Further, he was under the instruction of Prof. Koch, prominent in the activities of the North Carolina Players.

The former Sanford youth will play his first "stand" in the prize-winning play with several members of the original cast, according to Mrs. Farnworth.

Judge Brown Accuses City Of Vote Fraud

KEY WEST, June 11.—(AP)—Circuit Judge Jefferson B. Brown told the grand jury which convened Monday "a stupendous fraud" had been perpetrated in connection with absentee primary ballots and charged it to "find the guilty parties."

"Not since the Republicans in 1876 fraudulently caused the vote of the Third Precinct in Key West to be thrown out by the canvassing board at Tallahassee, thereby electing Rutherford B. Hayes as president of the United States, has such a stupendous fraud been attempted against the voters of Monroe county," Judge Brown declared.

Mr. Justice was "evident that there was a conspiracy" from pre-arranged candidates which certain candidates received in the absentee votes. It stated the gubernatorial contest in which William C. Bradley was high man in the county as a whole but received only 6 percent of the 600 absentee votes which were counted.

School Board Plans To Buy New Vehicles

Transportation Units May Be Replaced By All-Steel Buses In July; 23 Needed

Seminole County school children next term probably will ride in new, all-steel modern buses, according to school board contemplations announced today by T. W. Lawton, superintendent of schools.

Tentative plans call for the scrapping of all buses now in use. Next year's contracts would demand that only all-steel transportation equipment be acceptable to the county board.

The school superintendent said that a number of firms already have requested forms on which to submit bids for the contract to furnish buses. July 8 is the date on which contracts will be awarded according to the schedule made public today.

Mr. Lawton pointed out that the county does not own its own buses. Consequently the contractors who will have the advantage of purchasing their equipment in a large number and probably at a cost lower than could be had if the transactions were made singly.

The county bus schedule now in operation boasts 18 routes and calls for the utilization of 23 vehicles to adequately handle the traffic.

From the 1935-36 report made by drivers it is shown that an average of 718 miles is covered on school days by all buses, while nearly 1300 students are accommodated.

Routes to be considered in replacement or equipment are as follows: Sanford West, Sanford South, Sanford East, Upsala, Golden Lake, Forest City, North Longwood, Aventura, Bay, Lake, Oviedo, Chuluota, Oldham-Geneva, Paola (Smith), Sanford colored, Altamonte-Longwood colored, and Lake Mary.

Scout Executive Is To Be Chosen In Orlando Today

A successor to Henry Brown, resigned scout executive of the Central Florida Council, will be chosen this afternoon at the Orlando headquarters. It was announced today by Arthur Branan, local member of the council's executive board.

Mr. Brown's resignation was accepted last week so that he might accept an appointment to a scout executive position in Hattiesburg, Miss.

In another statement today Mr. Branan announced that a Boy Scout court of honor is to be held at Camp Wows on June 19 and 20 and July 8 and 10. Scouts throughout the entire district are invited to attend.

Because of the general court of honor, all other similar sittings in the Central Florida Council have been suspended between June 12 and Aug. 1, according to a bulletin received by Mr. Branan.

Elks To Formulate Plans Of Flag Day

Sanford Elks will perfect plans for a Flag Day ceremony on June 15 during their regular weekly meeting tomorrow night, according to Fred P. Dorner, exalted ruler of the lodge here.

Mr. Dorner urged that all officers and members attend the Friday session, since rehearsal of the exercises will be held after regular business of the fraternity is completed.

Other discussions for tomorrow night will center around sponsorship of a PWA band here, and plans for a boat trip which is to be made in the near future.

Rivals Yield To Landon As Delegates Draft Platform; Hoover Denounces New Deal

Ex-President Urges That Republicans 'Stop The Retreat, Lead The Attack'

Tells Method Of Assuring Peace Administration Has Delayed Recovery, Hoover Declares

CLEVELAND, June 11.—(AP)—In a sharp exhortation of the New Deal before the Republican national convention, Herbert Hoover last night compared it with the "march of socialist and fascist dictatorships" in Europe and called for the American people to enter upon a "holy crusade for liberty."

Addressing "Republicans and fellow Americans," the former president and titular leader of his party concluded his address: "Stop the retreat... lead the attack to retake, recapture and remain the citadels of liberty."

"Thus can America be preserved. Thus can the peace, plenty and security be re-established and expanded. Thus can the opportunity of the inheritance and the spiritual future of your children be guaranteed. And thus you will win the gratitude of posterity and the blessing of Almighty God."

Declaring that the European dictatorships and their destruction of liberty did not set out with guns and armies, Hoover described what he termed "their activities and added: "If there are any items in this stage in the march of European collectivism that the New Deal has not limited it must have been an oversight."

"But at this point," he continued, "this parallel with Europe halts—at least for the present. The American people should thank Almighty God for the Constitution and the Supreme Court. They should be grateful to a courageous press."

Asserting that the New Deal has delayed recovery, he contended that if continued its policies will result in "the tears and anguish of universal bankruptcy and distress."

He paid his respects to what he called "Mother Hubbard economics," "the economic middle" and declared that "the gospel of class hatred has been preached in the White House."

"The little prophets of the New Deal," he said, "have produced proposals which have enabled the New Deal to take a few hundred thousand earnest party workers to the promised land."

"It takes the rest of us for a ride into the wilderness of unemployment," he added.

Telling his listeners that "you have the duty to determine the principle upon which the Republican party will stand," he said "the immediate task is to set the country on the road of genuine recovery" from the paths of instability.

Court Test Will Be Made Of Chain Tax

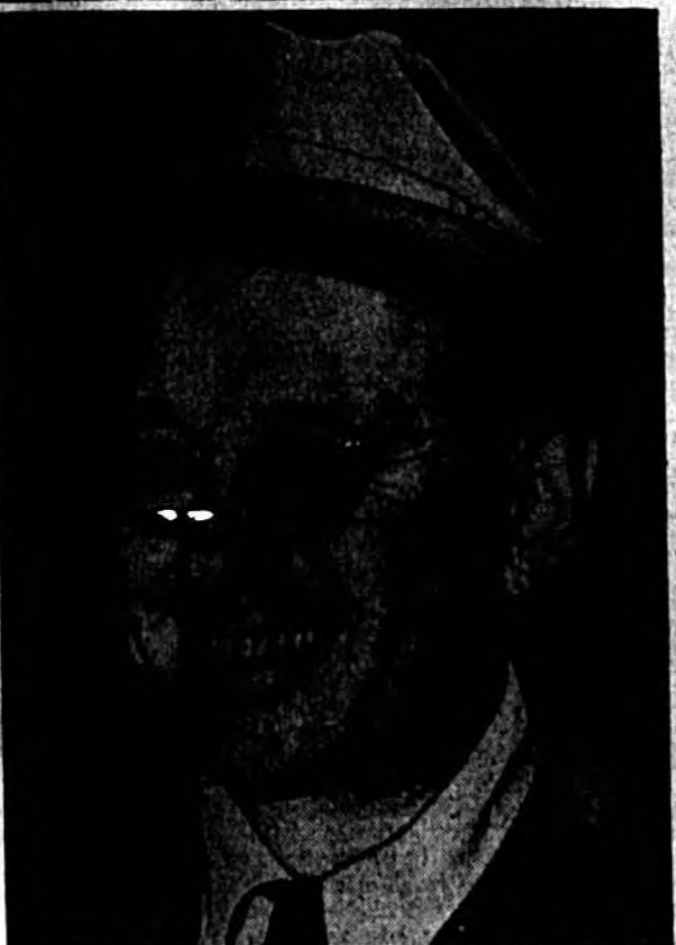

WASHINGTON, June 11.—(AP)—The Supreme Court was asked Wednesday to pass on the constitutionality of the Florida chain store law, which imposes new types of taxation, according to a flat tax to the member of retail stores under a single ownership.

C. E. Simpson, tax collector of Seminole county, 974, requested from a decision of the Florida Supreme Court which approved a flat tax, he said tonight in a letter transmitted on the same date.

RECK TOPS CHINA BUYING

WANKING, June 11.—(AP)—Although China is the largest of the cotton producing nations, the military spends more money for raw cotton than any other country. From 1928 to 1934, the military spent \$100,000,000 for cotton.

ASSURED OF NOMINATION

Gov. Alf M. Landon, of Kansas, today was certain to obtain the Republican nomination for the presidency as his leading opponent withdrew their names from the race. Gov. Landon was accorded almost every request he made regarding platform changes.

New Strike Hits Paris As Hotel Employees Quit

PARIS, June 11.—(AP)—A new and near-general strike hit Paris cafes today as the Leftist cabinet, pushing a broad scheme of social-economic reform, decided to ask parliament for immediate power to free political prisoners. While cafe, restaurant and hotel employees paraded the streets to enforce a union walkout order and a Versailles employer shot one of his workers, the cabinet determined to seek amnesty power pending discussion of a bill for the same purpose.

The ministers tabled a bill to reform the Bank of France for further discussion, but approved the texts of three other measures to grant political amnesty, prolong the period of compulsory education, and lower the retirement age of government employees.

Communists contended there are thousands of political prisoners in jail or "rearing Europe like tracked animals." Conservatives dispute the claim and say there are but few.

Badoglio Is Named Italian Army Head

ROME, June 11.—(AP)—Premier Mussolini appointed Marshal Pietro Badoglio chief-of-staff of the Italian Army today, and Fascist sources predicted the conqueror of Ethiopia would be appointed to command all the defense forces of Italy. Marshal Rodolfo Graziani, who won the Italian campaign in Southern Ethiopia was made Viceroy of Ethiopia succeeding Badoglio.

Bell Explains Suit Against Townsmites

ARCADIA, June 11.—W. D. Bell, defeated candidate for Congress in the first Florida district who filed a suit for \$60,000 against the Old Age Revolving Pensions, Ltd., or Townsend organization, on June 8, said Wednesday the basis for the suit was the alleged circulation of a letter purporting to give the Townsend endorsement to J. Hardin Peterson, his opponent for Congress and winner of the primary nomination.

Bell charged the letter was circulated with the knowledge and consent of the Townsend group, and that agents of the organization took no steps to prevent the further circulation of the letter, which was being distributed before the first primary.

Senator Vandenberg Advocates Knox As Running Mate For Kansas Governor

Platform Meets Borah's Approval

Republicans Ask For 'Sound Money' But Omit Gold Usage

CLEVELAND, June 11.—(AP)—With the nomination of Governor Alf M. Landon of Kansas conceded on all sides, the Republican convention struggled into late hours today in an effort to propose platform differences, name the ticket and get back home.

Both Col. Frank Knox and Senator Arthur Vandenberg were mentioned as the most likely for the vice-presidential nomination, although Vandenberg has repeatedly said he would not accept. He urged that Col. Knox be the candidate.

Both Knox and Vandenberg, together with the other rivals of Governor Landon, decided not to have their names presented for the presidential nomination.

Senator Borah, who has been a big figure in all proceedings, would not disclose whether he would campaign for the Republican ticket. He seemed pleased with the platform draft as it stood before the convention, but cryptically "the candidate is the platform."

The fifth session had to be recessed until mid-afternoon before the long-awaited platform was ready. It finally emerged at noon from the resolutions of the convention. (Continued on Page Seven)

Pettaway Club Meet To Be Held Tomorrow

Out of deference to the Rotary and Kiwanis clubs which are holding their annual picnic at San Lando Springs this evening, the scheduled organization meeting of the local "Pettaway for Governor" club at the City Hall tonight, has been postponed, according to L. F. Hagan, who has been named as temporary chairman.

In making this announcement, Mr. Hagan stated that the meeting will be held tomorrow night at 7:30 o'clock at the City Hall and urges everyone interested in Judge Pettaway's election to attend. He also said that Judge Pettaway will deliver an address this evening over a statewide radio hookup beginning at 7:15 P. M.

New Allocation Is Made Florida Schools

TALLAHASSEE, June 11.—(AP)—The Department of Public Instruction announced Wednesday allocation of \$307,000 in state funds to the 67 county school systems bringing to \$19,975,431 the amount of money contributed by the state to the public schools this fiscal year.

The announcement said another allocation of state funds would be made shortly after June 30, under the 1936 Legislature's provision of \$19,500,000 from the state to the county schools this fiscal year.

Mark Wilcox has introduced a new Municipal Bankruptcy Bill and this time it may stick.

We saw where W. D. Bell who was defeated by Representative Johnson of Lakeland for United States Congress, has filed suit for \$50,000 against the Townsend Club. Must have failed to deliver.

We understand that the reason no new homes are being constructed in Sanford and that no money is being lent locally for such construction is our bonded debt situation.

Earl Lehmann told the graduating class at the high school that it costs the taxpayers a thousand dollars to educate a boy and girl in school. There were 30 students in this year's graduating class at Seminole High. At the rate of a thousand dollars a piece, that would amount to \$30,000 for the class. We wonder how many of them realize this?

Gov. Sholtz says he is going to be the next Grand Exalted Master of the Elks, and he is going to run for the Senate at the same time. One of the lessons which some of our local candidates learned was not to run for two offices at the same time, and to keep out of the other fellow's race.

Florida's aged will not get their pensions beginning July 1st as had been anticipated. According to Coprod Van Hyning, only 33 of Florida's 47 counties have completed the federal provision under the Social Security Act, and unless they all do, none can receive pensions. We are proud to say that Seminole County is one of the 33 which have completed.

Learn To Swim

The old time mother's advice to her venturesome offspring, "Yes, you may go swimming, my dear, but don't go near the water," has some element of sound, common sense in it when one stops to consider the enormous number of persons who have been going in "swimming" for years and yet who have never really learned to swim.

The first thing which anyone should do when he starts going "in swimming" is to learn to swim. The idea of going in the ocean or in pools time and time again, month in and month out, year after year, without ever taking the trouble to learn to swim (as is actually the case with lots of people) is simply the height of the ridiculous, or something or other.

That is how serious accidents occur. Someone is "in bathing" in the ocean, or is wading close to the shore, suddenly he steps into a hole, where the water is over his head. He cannot swim, and he promptly gets excited. Eventually, he is hauled out on the beach, and frequently the pulmonator arrives too late to do any good.

It is so easy to learn to swim. A few instructions from someone who knows how, a little effort on the part of the "learner," a little practice, and any one can swim without any difficulty, perhaps not with any great speed or endurance, but sufficiently well to take him safely through the ordinary experiences of the ocean and pool.

Outside of those dunces who try to swim across the Atlantic, or who go in immediately after eating a hearty picnic "lunch," or who like to try themselves out during hurricane weather because the breakers are so high, there are very few drownings recorded among those who know how to swim even moderately well. It is almost always those who go "near the water" without learning to swim, who get into trouble.

As the summer season is fast coming on when the weather alone drives hundreds of thousands of people to our beaches, and since June 22-28 is "Swim for Health Week" when it is expected to be emphasized that swimming is one of the best forms of exercise there is, we venture this suggestion that no one who has not yet learned to swim, allow this summer to go by, without finding out how it is done.

An Ounce Of Prevention

Smallpox in the United States. With the number of smallpox cases reported last year reaching a figure nearly 50 per cent greater than in 1933, the United States suffered a setback that removes it still further from the group of civilized nations which have succeeded in making this disease practically a minor health factor," says the Metropolitan Life Insurance Company.

The incidence of smallpox was not evenly distributed, however, showing marked concentration in the more sparsely populated regions of the Northwest, the company reports, while seven Eastern states were completely free from the disease. In comparison with Canada, the United States had a particularly poor record in the fight against smallpox, for only 37 cases were reported in the entire Dominion last year, as compared with 8,021 in the United States, a figure almost half again as great as the 5,386 recorded for 1934.

"This means," a report from the company states, "that only three persons in every 1,000,000 inhabitants of Canada contracted smallpox during the year, whereas in the United States there were 63 cases per 1,000,000 of population. In practically all of the Eastern states and Provinces the disease is almost nonexistent, a condition sharply in contrast with that which prevails in the western half of the continent. None of the states east of the Mississippi, except Wisconsin, experienced sickness rates in excess of three cases per 100,000 of population during 1935. Seven states—Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, Pennsylvania, and Rhode Island—actually had no smallpox last year. In 10 others, less than one case was reported for every 100,000 inhabitants.

"West of the Mississippi and, roughly, north of the Missouri, a far different picture is presented. Here sickness rates of 65 and more per 100,000 are not uncommon. A distinct belt of high smallpox prevalence within this area starts in the extreme northwestern corner of the United States and runs obliquely southeast to a point just north of Oklahoma."

It is unfortunate that smallpox is showing such an adverse trend in this country; particularly in view of the fact that it is so easy to prevent by the simple process of vaccination.

IN THE ABSENCE of unforeseen developments, W. J. Steed will go into the second primary with Little Joe Hendricks. We of Osceola are proud of the part we have played in his selection. Coming out from behind, Steed's votes continue to pile up to the point where his possibilities are almost assured. The large count given him in this county indicate the confidence and trust Osceola people put in him. His ability to break into the Townsend vote here does much to establish his reputation. Should Steed maintain his lead and go into the second primary, we believe without doubt he will be the new Congressman from Florida.—Kissimmee Gazette.

SANFORD TWENTY YEARS AGO

Absolute figures in the race for the presidency are as yet impossible to obtain as the work of canvassing around the water is yet in progress in Hillsborough County and returns from Osceola and Washington counties have not been received. Both Catts and Knott are showing the advantage and it will probably require the advice of the voters of the county to determine the result.

FLORIDA HIGHLIGHTS

LOCATED originally near Biscayne Bay and the banks of the Miami River, OLD PORT DALLAS has since been removed from its original site to Lumus Park. The body of the PORCUPINE FISH is covered with stiff, movable and erectile spines. This fact, together with the rotundity of the fish has earned for it the name of Globe Fish, Prickly Globe Fish and Sea Hedge-hog in addition to the Porcupine Fish. This queer looking creature has the unusual faculty of being able to inflate its body with air until it floats on the surface of the water, under side up. It attains a length of about two feet and six inches.

THE KEY POINT IN EUROPE

NEW YORK HERALD TRIBUNE

The situation depicted in the dispatches from France—Paris chart of 1900, with scanty transportation and without newspapers, while elsewhere whole industries have been shut down and the country half paralyzed by the "gravest labor straits in the history of the Third Republic"—is comparable only to the general strike in Great Britain ten years ago this spring. If Americans were as sensitive to French affairs as they are to those in Britain, and if they were less preoccupied at the moment with domestic politics, they would hardly take so calmly a development obviously implying a possibility of the most serious consequences. The British strike was launched in a time of relative stability; it had the character, moreover, of a planned coup, with a central direction which could be seen and combated. Its collapse was swift; its after effects slight. The French strike seems to be a far more spontaneous movement of working-class restlessness. They are directed by no national head. And they are precipitated into a Europe unstable on every front—political, financial and diplomatic.

sense the future structure of Europe is still to be decided, and as the strike wave in France reveals the tenacity of the strain at the key point, French affairs take on a serious significance for the more than a merely diplomatic world.

STEED VS. HENDRICKS DAYTONA BEACH SUN RECORD

Volusia county has a peculiar distinction in the coming second primary race for the nomination of the first congressman to represent the new fifth congressional district.

It has two favored sons in the race. W. J. (Frank) Steed spent his early youth in DeLand, where he attended the grade schools, the high school and was graduated from Stetson University. "Little Joe" Hendricks, the other candidate, has lived most of his life in the Volusia capital.

Steed stood second to Hendricks in the Volusia county vote in the first primary, just as he did in the total vote of the district.

It is likely that in the second and deciding primary the Volusia county vote will be a plum for which both will battle.

However, it would appear from the analysis of the vote made by most political "wise-men" that Steed will have very much the edge in the second race.

"Little Joe" was the candidate of the Townsend club which went to him with their full voting strength.

Other candidates in the race lost definitely to the Steed forces rather than to Hendricks, according to a survey of the newspaper comment in the district.

Hendricks is a reputed protegee of Congressman Lee Green and was an ardent campaigner for Dave Sholtz four years ago. He also was graduated by Stetson University.

How Steed is regarded in his home county of Osceola, where he moved from DeLand to start the practice of law some 18 years ago, was made apparent.

He was the Kissimmee Gazette during the first primary campaign. The Gazette comment follows:

"Mr Steed has proven his ability in the state Legislature and is therefore, no experiment. We know he is able, honest and conscientious, from our past experiences in electing him to the

Harvard Professor Tells Dry Goods Industry That NRA May Be Rejuvenated

CHICAGO, June 11.—The N. R. A. is showing signs of returning to life through Administration efforts despite the fact that real business recovery data from the Supreme Court's invalidation of the act. Professor Malcolm P. McNair, director of research of the Harvard Graduate School of Business Administration, said here.

Professor McNair spoke at the opening session of the four-day convention of the National Retail Dry Goods Association. Six groups are present at the convention, the Retail Delivery Association, Controllers Congress, Store Management Group, Personnel Division, Credit Management Group and Traffic Group.

The question of the association's affiliation with the American Retail Federation, which has been studied for several months, will not be acted on at this convention. Such action would require approval of the directors and no meeting of the board is planned for the present convention.

Professor McNair spoke on the "Economics of Price Control Legislation." Another speaker was James Palmer, professor of marketing at the University of Chicago, who discussed "What the Consumer Co-operative Movement Means to the Retailer."

Real business recovery in this country dates from the decision of the Supreme Court invalidating the N. R. A. Professor McNair said. "It is, therefore, not a little discouraging to observe that on the first anniversary of this momentous decision the corpse of the N. R. A. is showing distinct signs of returning to life. The N. R. A. was primarily an effort at managed recovery by regimentation and price raising, with the consumer bearing the burden and the retailer placed on the spot.

"Thwarted by the decision on the Schechter case, the Administration, with the backing unfortunately of certain business interests, now appears to be proceeding toward these same ends of regimentation and price raising. Among these methods is the Wheeler-Rayburn bill, which proposes, briefly, to increase the powers of the Federal Trade Commission and give it license, upon its own initiative, to investigate the business conduct, business practices, and business management of any concern engaged in inter-state commerce. Under the terms of this bill, the Federal Trade Commission is empowered to conduct investigations to discover unfair and deceptive acts and practices without regard to their bearing on competition.

S. G. Gray Is Named As Firm's Director

S. G. Gray of Sanford has been named to the board of directors of the American Fire and Casualty Company, according to information received here today from Walter L. Hays, president of the firm.

Mr. Gray is the third prominent Floridian to be added to the company's directorate in the last few months.

The others are George Kraft, Winter Park banker, and Randall Chase, official of Chase and Company, which operates in various capacities over Florida.

Mr. Gray is a member of the firm of Pentland, Gray and Moore, accountants, and has specialized in insurance accounting and in income tax accounting.

He has been instrumental in much of the organization process of the American Fire and Casualty Company, and has installed many plans and setups in its underwriting department.

HAVE PICNIC

Members of the Seminole High School Orchestra and their friends held an all-day picnic at Sand Springs Wednesday. Swimming and dancing were enjoyed during the day. Among those present were: Mr. and Mrs. Julius Takach, Mrs. W. T. Jackson, Mrs. Robert Herndon, Mrs. J. O. Ames, the Misses Doris Jackson, Elizabeth Thelington, Ruth Strzeme, Arlene Richter, Doris Dornay, Donna Morgan, Daphne Takach, Marjorie Wright and Lewis Wright, Robert Strzeme, Mrs. Herndon, and Henry Tamm.

FUZZ PROTECTS PEACHES

MACON, Ga., June 11.—(AP)—The fuzz that annoys peach eaters is useful to the fruit. The U. S. Department of Agriculture has discovered that rubbing off the fuzz makes it easier for the organisms which cause brown-rot to enter through the broken hair sockets and start decay of the fruit.

Elizabeth Whitner Honors Miss Nix

Miss Charlotte Nix, whose marriage to Henry Elliot, Jr. of DeFuniak Springs will take place this afternoon at 5:00 o'clock, was honor guest at a bridge party given last Friday afternoon by Miss Elizabeth Whitner at her home, 719 Myrtle Avenue.

Bridge games were enjoyed and prizes were awarded to Miss Margaret Griffin and Miss Frances Morrow. Miss Griffin won high score prize, silk hose, and Miss Morrow was given low score prize, linen handkerchiefs. Miss Nix, as honor guest, received a linen luncheon set.

At the tea hour refreshments were served by the hostess, assisted by her mother, Mrs. B. F. Whitner. The rooms were decorated with bowls of chrysanthemums and red roses.

Those present were: Miss Charlotte Nix, honor guest, and the Misses Carolyn Collier, Margaret Griffin, Rebecca Stevens, Elizabeth Turnbull, Frances Morrow, Carmita Barber, Mildred Nix,

Mrs. B. L. Perkins Gives Bridge Party

Mrs. B. L. Perkins entertained the members of the Wednesday Club with a bridge party Wednesday afternoon at her home on Magnolia Avenue. High score prize, silk lingerie, was awarded to Mrs. W. A. Pitts.

At the tea hour a salad course was served by the hostess, assisted by Mrs. M. B. Wiggins. Zinias in bright shades were used as decorations.

Those present were: Mrs. C. R. Kirtley, Mrs. E. F. Housholder, Mrs. Ralph B. Wright, Mrs. Floyd A. Palmer, Mrs. Walter S. Coleman, Mrs. W. A. Leffler, Mrs. W. A. Pitts, and Mrs. M. S. Wiggins.

Meeting Is Held By Orphanage Club

Members of the Sarah Parker Orphanage Club held an all-day meeting Wednesday at the Methodist Church annex to make quilts for the Benson Springs Orphanage. Luncheon was served at the noon hour.

Mrs. P. D. Parker presided over a short business session and Mrs. John Vaughan led the devotional. Those present were: Mrs. J. Brodie Williams, Mrs. Georgia Hart, Mrs. G. A. Radford, Mrs. T. E. Wilson, Mrs. W. E. Wells, Mrs. E. M. Kirchhoff, Mrs. Tom Williams, Mrs. W. L. Clark, Mrs. W. S. Thornton, Mrs. J. K. Metinger, Mrs. P. D. Parker, Mrs. E. L. Shinholser, Mrs. John Vaughan, and the Misses Lena Evans, Joseph Whittell, and Nell Vaughan.

Mrs. Francis Bolz Gives Buffet Supper

Mrs. Francis E. Bolz entertained with a buffet supper party Wednesday evening at her home on Park Avenue in honor of Miss Charlotte Nix, whose marriage to Henry Elliot, Jr. of DeFuniak Springs, will take place this afternoon at 5:00 o'clock at the First Baptist Church. Guests included members of the bride party and immediate families of the couple.

Supper was served from the dining room table which was centered with a miniature bride and groom used by Mrs. Bolz when her engagement to Mr. Bolz was announced. Garden flowers in pastel shades and lighted candles further added to the attractiveness of the table.

The hostess was assisted in serving by Mrs. A. K. Rosetter, Mrs. L. P. Boyle, Mrs. Joseph A. Metach, and Mrs. Glenn Lingle were luncheon guests Wednesday of Mrs. Linton E. Aken at her home in Orlando.

Mrs. Elizabeth Slaughter and Miss Rebecca Scott of Nashville, Tenn., who are spending some time at Daytona Beach, were here today with friends.

Miss Kathleen Cherry of Orangeburg, S. C. is expected to arrive tonight from Orangeburg, S. C. to visit Miss Martha Bishop at her home on Magnolia Avenue.

J. O. Laney returned Wednesday from Duke University at Durham, N. C. where he attended commencement exercises when his daughter, Miss Gene Martin Laney, received her A. B. degree. Mrs. Laney is visiting friends in Tallahassee and Miss Laney is the guest of friends in Mississippi.

Pensioners Feel Urge To Forward Townsend Fight

Leaders Emphasize That Movement Is Party-Free Plan

PORT LAUDERDALE, June 11.—(AP) —Townsendites are far from discouraged by the results of the June 2 primary, declared Col. Geo. G. Matthews, president of the Fort Lauderdale Townsend Club, "and will continue our fight for adequate old-age pensions."

Colonel Matthews said the strength of the Townsend movement was plainly indicated by the vote for A. P. Cannon, who campaigned solely on a Townsend pension plan, in the possible combination of thousands of Republicans in the Democratic ranks, and the thousands of "old guards" Republicans who still maintain party affiliations.

Street Parade At Noon Friday

Townsend Will Unite With Wealth Sharers

BALTIMORE, June 11.—(AP) —Dr. Francis E. Townsend said Wednesday his old age pension organization would co-operate with the share-or-wealth organization and the Lemke Farm Union Party in the November congressional race.

"Where ever possible, we will endorse and vote for the same men to the end that Congress may be taken out of the control of the party," Dr. Townsend said in a statement.

The statement said the coalition was agreed upon after a conference with Rep. William Lemke, of North Dakota. Dr. Townsend conferred yesterday with the Rev. Gerald K. Smith, leader of the wealth-sharing organization built up by the late Senator Huey P. Long.

Varied Activity On Schedule For Women's Contab

Daytonan Is Chairman Of 1936 Conference In Florida Capital

TALLAHASSEE, June 11.—Florida clubwomen who plan to attend the second annual Women's Party Conference in Florida State College for Women will find their crowded program of talks, conferences and round table discussions supplemented by up to the minute exhibits on subjects ranging from motion pictures to cancer control.

Organizations co-operating in furnishing displays include: The American Society for the Control of Cancer, the National Safety Council, the General Federation of Women's Clubs, Pictorial Review Magazine, and the Motion Picture Producers and Distributors of America, Inc.

Sponsoring the institute, which is expected to attract several hundred women leaders, are the Florida State College for Women, the Florida Congress of Parents and Teachers with Mrs. C. P. Parvin, of Manatee, as president; the state home demonstration council of which Mrs. Lucias Rawls, of South Bay, is president; and the Florida State College Alumnae Association with Mrs. E. L. Beson, of Groveland, as president.

Mrs. J. Ralston Wells, of Daytona Beach, first vice president of the Florida Federation of Women's Clubs, which inaugurated the institute last summer, is chairman of the institute this year.

Fleet Of Brand New Fords Will Ride The Folies Beauties Through Sanford

Led by a brand new Lincoln Zephyr a fleet of new Ford V-8s from the Strickland Motors will carry 30 beautiful girls of the Folies de Pारे through the business section and parts of the residential area of Sanford tomorrow morning beginning at 12 o'clock (noon).

Included in the parade will be Hofmann's motor truck which will broadcast continuously with music and special announcements concerning the show and the advertising sponsors. The regular master of ceremonies, the Folies girls will do the announcing throughout the trip through Sanford.

Advance reports from the management of the show state that in all cities where the girls have paraded they were met with much enthusiasm by the spectators.

Frank Polhamus, who will do the announcing through the sound truck, declared Wednesday night in a special interview with a Herald representative that "I am satisfied that the people of Sanford will agree with me that our girls are the most beautiful ever seen on a stage in this section."

When asked if he would furnish cars for the parade Rupert Strickland, of the Strickland Motors said, "We have 25 new cars on our floor and you can have as many of them as you like, we are glad to co-operate."

Modeling At Yowell's 11 A. M. Friday

Yowell Urges Customers To Meet, See Girls In Store

A. E. Yowell, owner and manager of the Yowell Company, today extended an invitation to all customers and friends of the store, to attend a brief fashion show, Friday morning at 11:00 o'clock when six of the most beautiful girls of the Folies de Pारे will model the latest in bathing suits and beach wear. The modeling will take place on the floor of the Yowell Company and will last for about one hour.

The management of the show, gladly consented to send six beautiful girls to the Yowell Company so that the public might meet and see them off stage. "We are pleased to recommend Mr. Yowell's store in Sanford," declared Frank Polhamus, of the Folies de Pारे, "and we are happy to meet the girls who will participate in the modeling are: Miss Louise Rawls, of Manatee, Mrs. C. Wheat In Kansas Transforming To Harvest Of Gold

TOPEKA, Kan., June 11.—(AP) —What is turning from green to gold on the Kansas plains and hillsides is the "best harvest" in years. With harvest only a few weeks away, farmers look for a crop of at least 100,000,000 bushels. Not that 100,000,000 bushels would be a bumper crop. Farmers still remember the big 1931 yield of 220,000,000 bushels—the largest on record.

Yet, 100,000,000 bushels would be a bumper crop, say agricultural leaders, following the low crop years of 1932-35. In four consecutive years an average of less than 50,000,000 bushels of wheat was raised in the United States. Last year's yield was only 59,000,000 bushels.

The outlook for the approach- ing harvest looked dark indeed early in the spring. The driest three-month period on record had passed and farmers' hopes were low. Then rains came in April and May to revive the grain and start it growing.

J. C. Mohler, secretary of the state board of agriculture, and H. L. Collins, statistician for the U. S. Department of Agriculture, predict a yield of 114,000,000 bushels on the basis of May conditions.

Last year at the same time they predicted 67,000,000 bushels. Similar optimism is expressed by Dr. W. M. Jrline, secretary of agriculture under President Coolidge. Referring from a tour over much of the state recently he predicted a harvest in excess of 100,000,000 bushels.

"Taking the state as a whole," he said, "crop conditions are as good or better than they have ever been during the past five years." The greater part of a large wheat harvest in central Kansas, Dr. Jardine expects a harvest averaging 30 bushels an acre.

Professor Pleas For Devaluation Of French Franc

PARIS, June 11.—An urgent plea for devaluation of the franc to enable French industry to pull itself out of the depression was made today by Professor Charles de Broqueville, mayor of Paris and a prominent French monetary expert.

"It is long an outstanding problem in this country of financial orthodoxy, now demands 'religiosity of the franc with the pound and the dollar if France is to avoid either industrial stagnation or inflation."

The opinions of Ritz carry more weight than those of any other commentator on such matters. His conclusions, expressed Monday in an article in "Le Petit Parisien," are that maintenance of the franc at its present parity will make impossible resumption of industrial activity since it could only be achieved by exchange restrictions which would accentuate the present distress.

In an earlier article, Ritz had pointed out that the maintenance of the franc at its present parity would cause a rise in prices of imported raw materials. "It pointed out that it would not be so great as the amount of possible resumption of industrial activity since it could only be achieved by exchange restrictions which would accentuate the present distress."

Senator Vandenberg Advocates Knox As Running Mate For Kansas Governor

(Continued from page 11)
Senator Vandenberg's sub-committee after a number of changes had been made at the request of Gov. Landon.

Sub-committee members said the governor had been given almost everything he had asked for in changes of the original compromise except the plank for constitutional amendment to permit a minimum wage legislation by states. Two of Landon's high command said this plank will be carried to the full committee which meets this afternoon.

Hope was expressed that the platform will reach the convention floor tonight. Some platform revisiting asked by Landon was said by the committee to be chiefly a matter of phrasing. Among the discussions were significant demands of the platform to pledge civil service status for U. S. government employees below the rank of the cabinet.

There was a reinstatement of the plank for control of interstate public utilities and a revision of the plank condemning the New Deal reciprocal tariff law and demanding that trade treaties be handled by the Senate. Landon's program to finance social security was accepted finally by the sub-committee after some being rejected. As it emerged from the sub-committee the platform came close to conforming to the demands of Senator Borah. Landon leaders said it was near enough to the Senator's views to have his support for the ticket in November.

Gainesville Shells Lookouts To Take 7-1 Victory

G-Men Earn 2 Runs; Sanford Scores In The Last Inning With One-Bagger

By E. H. CULLUM
The Gainesville G-Men shelled the Sanford Lookouts, 7 to 1, in a long drawn out and listless game here yesterday. The locals today are playing a doubleheader in the University City.

Sanford's Lookouts are scheduled to meet DeLand in a doubleheader at the local park tomorrow. Game time has been set at 2 P. M. Chob officials said today's day would be served.

With one out, Cates singled, Barnes hit to Shortstop Bevill who fumbled. Cates went to second base. The bases were loaded to score Cates.

Sanford's other three hits came in the first, fifth and seventh.

Red Sweeney, who pitched the first game against Palatka Monday in a 10-inning, 3-2 loss, was on the mound for Sanford and was nipped for 12 hits which, coupled with five errors, were good for seven runs. Only two of the Gainesville runs were earned.

The G-Men were unable to score until the fifth inning when they put over two runs, both of which were unearned. Colmer hit to Clary at short who booted the ball. McDougal sacrificed and McNamara struck out. Adair then batted his third hit of the day, a single, and Colmer scored. McMullin followed with a two-base blow and Adair crossed the plate.

In the sixth inning, Gainesville put over the third run on one hit and an error. The G-Men added one more in the seventh on two hits. In the ninth errors by Krider, who had replaced Swindell in right, was responsible for two of the three tallies in the final frame.

Sensational fielding by Bray, Gainesville center fielder, was the feature of the game. In the fourth he robbed Swindell of a sure triple by going into deep center to snag the ball. Also, he robbed Blatru in the fifth and Overstreet in the seventh.

The box score:
Senators, 1.

Olympics Will Be Held Despite Europe's Crisis

Nazi State Fails To Extend Invitation To Soviet Russia

BERLIN, June 11.—(AP)—Neither recurrent crises in Europe's diplomatic affairs nor organized and sometimes violent opposition by labor and pro-British elements in several countries, have yet seriously threatened the success of the 1936 Olympic Games in Berlin. A general feeling has grown up throughout Europe that the Olympics are something apart; that only a catastrophe can interfere.

A survey by the The Associated Press shows that every European nation, excepting Russia and Lithuania, is training athletes and laying financial plans to some sort to participate in the great August carnival of youth and ability.

Only two other members of the European cauldron are on the sidelines. At this time—Spain and France—both are likely to be there on the afternoon of Aug. 1, when Chancellor Adolf Hitler leads the grand parade into the stadium and the Olympic fire is kindled. It is not as likely as expected—any important negotiation among the rank and file of the French people.

Strangely enough, the hottest anti-Olympic campaign has been waged up north, in Sweden, Norway and Denmark, but now all three appear to be safely in the fold, much to the relief of German Olympic officials. For a time it was touch-and-go, particularly in Sweden, where organized sports within an arm of having an official Olympic boycott declared.

An interesting sidelight is the fact that Norway, winner of the recent winter Olympics at Garmisch, came near missing on the summer games. "If we make a best showing at Berlin, the world will forget completely our brilliant record at Garmisch," was the serious argument of one die-hard.

Holland, its Olympic coffers already overflowing from private contributions, its women swimmers expecting to sweep the tanks, probably is the most enthusiastic nation of the lot.

Germany, as you might have suspected, is in line. The Fatherland will have between 400 and 500 competitors in its own games.

The local Jewish Base of Leavenworth will be discontinued after Friday. It was announced today by Edie Rawson, director of the circuit.

The decision was reached yesterday when a meeting was held between the Senators and Cardinals was called off because neither team could produce sufficient players to round out a regulation outfit.

Mr. Rawson said a team will be picked to represent the American Legion in the series which will open in July.

Getting A High One Emerson Hurls Azaleas To Win Over Islanders

Palatka Chief Sets Loop Leaders Down In Return To Game

Al Simmons, White Sox outfielder, shows you how he plays the outfield. Here the camera caught the veteran American League ball player as he went up in the air to grab a hot and high line drive.

Saints Take 5-4 Bow As Reds Get Into Action Late

DELAND, June 11.—A DeLand uprising which started in the eighth and carried over into the ninth enabled the Reds to defeat the St. Augustine club, 5 to 4, in a Florida State League game here yesterday. The Reds tied the score in the eighth, and McFarlane's double, with one out and two on, broke up the game in DeLand's half of the last frame.

Carl Wetzel, youthful Saint hurler, held the Reds to four hits up to the eighth. In that inning, he was nipped for three hits, gave up a base on balls, which, coupled with an error, drove DeLand three runs and trotted the count. Bill Rutland replaced him with one away and two on and a fast double play stopped the Red rally.

The Saints were unable to score in their half of the ninth. Dirlakos singled when DeLand came in bat, and Jim McGloin, DeLand hurler, collected his third hit of the day to put two on.

McFarlane's double down the third base line brought in winning tally, and resulted in Rutland being charged with the loss although he pitched only two-thirds of an inning.

Saint Augustine made its four runs in the sixth inning when the club rapped McGloin, hard for five hits, with an error occurring in the scoring. Turblon led the White Sox batting attack, getting three for four.

Emerson Hurls Azaleas To Win Over Islanders

Palatka Chief Sets Loop Leaders Down In Return To Game

PALATKA, June 11.—Manager Jeff Emerson celebrated his release from a three-day suspension at the Azaleas Bowl here yesterday when he blossomed forth as a full fledge pitcher to gain an 8-6 victory over the league leading Daytona Beach Islanders.

Although Emerson was nipped for an even dozen blows he dominated but one walk. Gornicki, left hander, pitched to eight hits and a like number of runs. The latter struck out nine and walked three during the eight frames he was on the hillcock.

Gornicki also contributed materially to the Islanders' scoring with a pair of home runs over the right field fence.

Truller 5-3 when the last of the eighth inning arrived, the Azaleas combed Gornicki for four hits and six runs to take a commanding lead, which they maintained until the end. Jolie White's double with the bases loaded provided the punch needed for the final win when he scored late in the ninth.

Andrews, with two doubles in four tries, and Casular, with a triple and sing's in three attempts, assisted White in scoring the local markers, while Morton Field Gornicki in five times at the rubber.

CHICAGO, June 11.—(AP)—Lane Tech high school, which sent Phil Cavaretta to the Chicago Cubs, has another youngster with all the early marks of a major league prospect. He is Frank Dasso, 18-year-old right-hand-ed pitcher.

Dasso, 5 feet 10 1/2 inches tall and weighing 175 pounds, has dominated the Chicago Little League school baseball league this season by as great a margin as Cavaretta did a few years ago. Possessed of unusual speed, and an excellent curve, this young man of Italian-German parentage, has already won attention from major league scouts.

He has won eight games for Lane, including a no-hit, no-run masterpiece against Roosevelt high, and a one-hitter against London High. Five of his victories were shutouts.

Only four runs were scored off him in the seven full games, in which he fanned 111 batters and walked only five. In the eighth game he was called in from the outfield in the ninth inning with the bases filled to protect a one-run lead. He responded by striking out the third man on four club rapped McGloin, hard for five hits, with an error occurring in the scoring. Turblon led the White Sox batting attack, getting three for four.

Mickey Cochran, manager of the Detroit Tigers, may not be able to lead the American League All-Stars in their annual game against a similar aggregation from the National League. Illness may force him to lay aside his mask and chest protector for the July 7 game.

Jimmy Walsh Is Named As English Prize Ring Hope To Succeed Jock McAvoy

LONDON, June 11.—(AP)—With the Jock McAvoy bubble blown askew by John Henry Lewis, British hopes of gaining an American-held world title are now planned brightly on Jimmy Walsh, the Chester "Blasher."

As English lightweight champion, Walsh is now seeking a title bout with Tony Canzoneri, in New York.

Walsh is considerably younger than Canzoneri, and his list of conquests includes Maurice Holtzer, the French champion; Carlo Orlandi, European title-holder; and Wes Ramsay, who beat Tony Canzoneri in a non-title boxing match.

McAvoy's thumping at the hands of Lewis was bitter tea to the light fans over there. They figured that Britain, the original home of the Marquis of Queensberry's "wally art of self-defense," had at last produced a hard-hitting sensation.

London sports columnists gloved over his spectacular string of kayo victories in the United States this winter, and hailed him as a "miracle man" who would wipe out the stigma of Britain's reputation for producing horizontal pushovers.

But McAvoy, roundly trounced by Lewis, came home to disappoint his boosters again by losing to gawky Jack Petersen, the British heavyweight champion, in a sorry spectacle of hugging and mauling that drew earnest booing from the clients for 15 straight rounds.

Petersen's failure, with a 14-pound advantage, to stop McAvoy and McAvoy's will-o-wisp refusal to mix, combined to sour the customers, critics and even the promoter of the fight, who declared:

"I have no doubt Petersen did his best. But his best is not good enough. He is a shaming boy, and a nice boy to deal with, but we've got to find someone to beat him."

Floridian Sets Pace In South's Net Tournament

Lakeland Boy Shows Top Form Whipping Tennessee Veteran

MEMPHIS, Tenn., June 11.—(AP)—A rainstorm which flooded Memphis Country Club courts during a large part of the day did not prevent favored racket swingers in the Southern Tennis Tournament from taking the courts late yesterday and advancing to the quarter-final round.

In the upper bracket, second seed Arthur Hendrix of Lakeland, Fla., was forced to pull out his best shots to eliminate Kimbark Peterson, Nashville veteran, by a 6-3, 7-5 score.

William Westerfield, Jr., New Orleans star, second fifth, won the right to meet Hendrix today in the quarter-finals by ousting Elley Martin of Memphis, 6-4, 4-6, 7-5.

Ernie Suttler of New Orleans, ranked fourth, and Hugh Shelton of Columbia, Tenn., captain of Sewanee's net team, also gained the quarter-finals in the upper bracket.

Suttler was an easy winner over Billy Gillespie of Atlanta, 6-3, 6-3. Shelton, the dark horse of the tournament who Tuesday upset Kenfall Crain of Nashville, former Southern doubles tiddler, overwhelmed a former Southern singles king, Dan Murray, Jr., New Orleans, 6-2, 6-1. In the lower bracket, top seed and highly favored Charlie Harris of West Palm Beach, Fla., swept aside Ed Fuller of Salem, Mass., 6-1, 6-1.

Today he will meet Frank Gernsey of Orlando, Fla., seeded fifth, who won from Dunlap Cannon, Memphis, 9-7, 6-2.

Other results:
Men's doubles: First round—Mel Tarpley, Tampa, and Russell Bobbit, Atlanta, defeated John Hendrix, Lakeland, Fla., and Bob Decker, Miami, 6-3, 7-9, 6-3.

Sanford Dog Seeks Fourth Win In Show

Hundred Of State's Best To Be Seen In Kennel Club Event On Schedule Today

Phitopholes Jouyous Jake, owned by W. C. Hill of Sanford and three-times winner of the Best Dog in the Show, today will try for that title the fourth time as canines' blue ribbon members will be exhibited at the Fourth Annual Bench Show of Florida Field Trial Association at the Sanford-Orlando Kennel Club this afternoon.

Paul Biggers, another Sanford resident, is one of the judges. Colonel Bowstead of Chicago will be the other judge.

More than 100 of the state's highest bred dogs will be seen at the show. They will come from the kennels of Tom Addison and Frank Cummins, trainers of dogs for many Missions; from Post Lake where Dr. B. E. Ewing's setters rank among the finest; and from Winter Haven, Winter Garden, Tavares, Tampa and other cities.

Best dog is to be awarded a trophy by Dr. Jerry Ruble. A silver best pointer dog, owned by Bob Graham, is another prize. Silver bread trays will go to the best setter and best pointer under one year old. Trophies are from Mr. Graham.

The Boyce Williams trophy is to be the prize for the best dam with two of her progeny.

The first four placed dogs in each class are to be awarded blue ribbons.

Following the show, plans will be made for a winter field trial circuit climaxing a championship trial for the state title.
