

Neckline That Plunges Too Low Is In Bad Taste For Young Teenager

By VIVIAN BROWN
AP News-features
In carefree spring, the dance is the thing, tra-la, tra-la.
Every age has used the dance as an expression of joy or sorrow. Romans and Greeks cavorted in rhythmic cadence at spring festivals. Indians have whooped and hollered through the centuries. Adam and Eve probably indulged in "The Big Apple."
The goddess Terpsichore is every girl's special queen during the spring dance season.
Is there any wonder then that the U. S. mails are loaded with queries from musical muses? Here are some of the social puzzles and May Queens want solved before

they step into their dancing shoes:
Question: What is the proper way to wear a corsage?
Answer: The flowers always should be worn heads up—whether roses, chrysanthemums or orchids.
Q. I like a certain boy who never has spoken to me. I am planning to have a buffet party before a school dance, and I am inviting some of his friends. May I invite him?
A. Why not get his friends to invite him along in a casual way. Then he may not suspect that you have a crush on him.
Q. What kind of jewelry should I wear with an off-shoulder gown?
A. Pearls are youthful and sweet with most dainty formal

clothes. Other alternatives are precious stones, rhinestones, French Paste Jewelry.
Q. Is it correct to wear a low-cut gown to a dance?
A. There is a limit to the plunge of neckline that a young girl may wear within good taste. An off-the-shoulder gown is feminine and enchanting providing the dress fits securely. A neckline that dips too revealingly is in the worst possible taste.
Q. How old should a girl be before she wears lipstick?
A. The 16th birthday seems to be the go-ahead signal in many households for such famous firsts

as girdles, lipstick, powder, occasional dates, and party-time high heels.
Q. What hours should a girl have to be home after a dance?
A. A pretty plastic question depending upon many factors posed by parents. If the boy is known to the family, if the dance is the girl's special school group, or if a late supper is held at the home of a family friend, chances are the girl will be given a later-than-usual curfew. But if the boy is a new friend and the dance was at the boy's invitation, then perhaps the 12 o'clock curfew should be invoked.

FORMER PRESIDENT Harry S. Truman chats with Marine Sgt. Ernest Smith, of Paw Paw, Mich., at the annual convention of the Reserve Officers Association in Philadelphia. Truman, in his first major address since leaving the White House in January, challenged the Eisenhower Administration's defense budget cuts. He told the delegates that "those who talk about our defense program being too big may be letting their pocketbooks obscure their judgment." (International Soundphoto)

Lili St. Cyr Plans To Shed Husband

HOLLYWOOD — Lili St. Cyr, noted for getting rid of her clothes, plans now to shed her second husband.

The blonde strip-tease dancer, presently completing a movie role, said yesterday she will obtain a Nevada divorce from Armand Orsini, New York restaurateur, whom she wed three years ago. "We get along well enough, but Armand wants to stay in New York and operate his Italian coffee shop," said Lili. "I guess we just drifted apart."

Her first husband, actor Paul Valentine, obtained a divorce in

1919, complaining that "everyone in the country saw more of her than I did."

Strike in St. Louis Makes People Walk

ST. LOUIS — A strike by AFL maintenance and operating employees of the St. Louis Public Service Company virtually left this city of 350,000 without bus and street-car service today.

The company also operates vehicles in the populous suburbs in addition to the city proper. Company and union officials termed it a wildcat strike. The walkout began as negotiations were still in progress on a new contract.

Western Auto RED TAG SALE!

Now! Hundreds of Values For Home, Car and Recreation! 2 More Days

SALE ENDS FRIDAY JULY 3rd

IT'S A WIZARD

WIZARD Outperforms Them All

VOLUME XLIV

Established 1908

BY CHARLIE SOMERBY

Al Wilson, intellectual chairman for the Sanford Club, is only today starting to recover from the rule toll he received yesterday at Groveland during a joint meeting in that community. The story as we received it is that Charlie Morrison, who presented a quiz program at the session, had just got through introducing himself when the Groveland chief of police burst into the gathering to state that he had been notified that a dangerous criminal by the name of A. L. Wilson was in their midst. Al, visibly shaken, was looking for the nearest exit when laughter from the Sanford delegation which consisted of the two already mentioned and Bill Dawson, Nery Oriol, Harold Kastner, and Forrest Breckenridge tipped him off to the fact that he was not Al Wilson. Kiwanian Kastner had rigged the plot. The ride back to Sanford in Harold's air conditioned car helped Al cool off a bit.

Germans Balk Over Paying France Debts

Bitter Outbursts Mark Parliament Meet

BONN, Germany (AP)—The West German Parliament today refused to approve repayment of German debts to France, declaring the French had "robbed" the Germans during the postwar occupation. In a bitter burst of anti-French sentiment, the Bundestag (Lower House) rejected a bill providing repayment to France of \$11,840,000 under the 1948 London Debt Agreement signed last February. The vote was 148 to 133, with 45 deputies abstaining. It was the sharpest anti-French action ever taken by the four-year-old parliament. It followed by a few hours bitter attacks against the French over the disputed Saar territory. Numerous speakers accused the French of leaving away this coal-rich territory from Germany and virtually annexing it in violation of international agreements. The Bundestag declared it considers the Saar territory as an inseparable part of Germany and that it wants the Saar's "de facto separation" by France abolished.

Sabres Surprise Red Tanks, Drop Mass Of Bombs

SEOUL, S. Korea (AP)—Sabres jet fighters surprised 30 to 40 Communist tanks in a camouflage valley just behind the Western Front today and saturated the area with 100-pound bombs. Black smoke filled the valley, making an accurate count of wrecked tanks impossible. The Fifth Air Force said. Not since early in the war has a comparable concentration of Red armor been spotted so near the front in Korea. The Eighth Army, meanwhile, reports that heavy fighting cost the Reds 38,000 killed and wounded last month—the equivalent of about three Red divisions.

Former Fugitive Is Heading Back To Family, Job

CHARLESTON, W. Va. (AP)—A 27-year-old fugitive, whose conviction was pronounced last year for heading back to his family and job in New Rochelle, N. Y., with the blessing of probation officer Shannon E. Apter found that William M. Beard would be "a credit to any community" and set him free. Beard walked into the county jail here Sunday and told deputies "Let me in, I've had enough." He had been sought for four years on a probation violation charge. In 1948, he was given three years probation on a charge of breaking and entering. Beard, who then lived at St. Albans, W. Va., reported regularly to probation officers for one year and then vanished.

Postoffice Solves Transport Question

SYRACUSE, N. Y. (AP)—A federal agency wanted a truck to deliver its letters to the postoffice, but instead a mailman will walk across the street for them. As a rule, carriers collect only from mail boxes a Postmaster Myron J. Parkinson said yesterday. But the postmaster general's office has instructed him to make an exception in this case. The Production and Marketing Administration, an Agriculture Department agency, had sought bids for "covered vehicles" to take mail from its office here to the postoffice loading dock—a few hundred feet away.

Social Security Agent To Visit City

A representative of the Orlando Social Security Office will be at the County Court House in Sanford on Friday, July 3, and Friday, July 17, between the hours of 9:00 a.m. and noon. He will take claims of retired persons, their dependents, and survivors of deceased workers and distribute informational literature explaining phases of the Social Security Act.

Un-Wooling Husband Kills Ardent Wife

SAN JOSE, Calif. (AP)—Police today probed the story of a middle-aged farmer who reported shooting his wife after she told him to stop banging out the laundry and "make love" first. Joseph L. Gauger, 31, told police he wandered about his farm for a day before deciding to fire himself up and tell her he killed his wife Debra, 40, with a shot from a .25-20 rifle.

The ruins of the 20-year-old Altamonte Springs Hotel were still smoldering today while a pumper from the Altamonte Springs Fire Department kept patch to prevent any fire from the big blaze which destroyed the main portion of the building early yesterday morning. An abson in the above picture, the three-story frame structure was leveled by flames, although several adjacent buildings remained standing. The hotel was built in 1933 and was a favored spot for a quiet winter vacation. Staff photo.

City's New Land Fill Method Told At Jaycee Meeting

City Commissioner Denver Corbett explained that the city's new land fill way of disposing of garbage is a better method than the old incinerator burning scheme, in discussing City government before the Junior Chamber of Commerce at the Yacht Club today. Mr. Corbett said "By packing the refuse down and covering it with dirt, we eliminate millions of flies. In five years time we also will have filled in the waste swamp land making it worth something. It will be ideal for industrial building when the fill is complete." He also explained that the City purchased Oldsmobiles in place of any other make since the Oldsmobile agency could bid others. Commissioner W. A. Stepmoer said at the present rate of \$100,000 annual budget the bond indenture retirement of the City's \$1,500,000 debt could not be reached on the projected 1952 deadline. Commissioner John Kater stated that the interest rate of two percent was the lowest obtainable and that by having a good record of payments in the last six years, Sanford can procure lower interest bonds in the future at a low rate. Forrest Breckenridge, president and President Cliff Able, presided.

Tech Pays Respect To Former Head As Classes Close

ATLANTA, Ga. (AP)—Georgia Tech suspended classes today for the remainder of the week in honor of Dr. Marion Luther Brittain, 87, president emeritus, who died yesterday. Dr. Brittain suffered a stroke a week ago and had been critically ill since. Flags on the Tech campus will be flown at half staff for a month in memory of the educator who retired in 1941. Dr. Brittain continued active in behalf of the school after his retirement. He wrote a history of Tech and helped supervise construction WGST and the Human estate, school properties.

Jaycee Membership Drive Is Now At 117

Nearing the end of the second week, the Seminole County Junior Chamber of Commerce membership drive has hit the 117 total mark at the end of the current drive, announced today by Gordon Sweeney, chairman. Mr. Sweeney's committee is planning a party for the members at the end of the current drive. Each membership card will entitle the holder a free ticket to the party at Blandford Springs.

German Sentenced On Spying Charge

REGENSBURG, Germany (AP)—Herbert Gold, 43-year-old German, was sentenced to seven years in prison today for spying for Communist Czechoslovakia. His wife received a suspended two-year term. The Golds pleaded guilty to the espionage charge before a U. S. district court here.

Eisenhower Affixes Name To Freedom Declaration

WASHINGTON (AP)—President Eisenhower affixed his signature today to a solemn declaration that "the heritage of freedom which we cherish as Americans is from God." The signing of the large leather-bound measure touched off a year-long "March of Freedom" sponsored by the National Association of Evangelicals "to emphasize the fact that freedom depends on faith in God." Earlier, the President issued a proclamation calling on Americans to observe July 4 as a day of penance and prayer. "Today, as he signed the freedom declaration, Eisenhower remarked, 'This is the kind of thing I am glad to do.'" He added, in reference to the document, "The fundamental ideas expressed here are the foundation stones of our country. This is a deep, profound and simple idealism most great truths." The declaration, to be signed later by other leading government officials, cites the seven "divine freedoms" guaranteed in the 23rd Psalm—freedom from want, from hunger, from thirst, from sin, from fear, from enemies and, finally, the freedom to live abundantly. Asserting that "the forces of evil in the world are bent on destroying our religious freedom as guaranteed by the Constitution," the declaration says America needs to be reminded of its great spiritual heritage and its responsibility to almighty God as its sovereign ruler.

U. S. Envoy Will Come Home Regardless Of Korea Truce Outcome

Time Bomb Blast Coincides With Royal Visit To Northern Ireland

REPAF—Northern Ireland (AP)—Irish extremists time-bombed a rail road bridge and Belfast's power supply went dead today, apparently in protest against Queen Elizabeth's state visit to the British held northern part of divided Ireland. A bomb on a rail bridge, used the southern leader, killed and mangled traffic between Dublin and Belfast for several hours. It was an apparent attempt to stop special trains bringing southern Irish to see a Queen, but the excursionists went through on time. Hours later trouble at Belfast's main powerhouses brought street cars and trams to a halt. Thousands were delayed coming into the city to watch Queen Elizabeth II and the Duke of Edinburgh in a royal procession. The royal party arrived yesterday for a three-day visit as part of the Queen's coronation celebrations.

Frances Moore Goes To Reach As Jaycee Entry

FRANCIS MOORE, Miss Moore, the 29-year-old home-broke of Sanford, is expected to reach the city to compete in the 4000 ft. "Miss Moore" beauty contest. Miss Moore earned the right to enter the title by placing second in the Fiesta of Five Flags held in Pensacola last month. "Books" just returned from a Cuban cruise as part of her duties of the "Miss Florida" title. Miss Moore, who has been sponsored by the Seminole County Junior Chamber of Commerce in the Miss Florida Pageant, International Festival and the Fiesta of Five Flags, is also being sponsored by the Jaycees in Daytona.

107 Employees Of U. S. Are Dropped As Poor Security

WASHINGTON (AP)—A House committee learned today that 107 state Department employees have been fired this year as a result of investigations concerning homosexuality or questionable security. The information came from R. W. Scott McLeod, State Department security officer, in a letter to the House Government Operations Committee. It was made public by Rep. Brewster (R-Ill.), who sought the report recently. McLeod also said in reply to a direct inquiry that the department does not have any record identifying the 107 persons who were referred to by Sen. McCarthy (R-Wis.), Communist, in a February 1952 speech. McLeod said he realized by an error, not completely responsible, that the fact was, he said, a search of all files has failed to disclose such a list.

Mass Meet Seeks To Get Strikers To Run Streetcars

ST. LOUIS (AP)—A mass meeting of AFL operators "to persuade the men to return to work" was scheduled today in an effort to end an unauthorized strike which cut off St. Louis' mass transit facilities. The walkout, which came with no warning, began at midnight Tuesday. Union President Arthur J. Conroy said today's meeting was called "to persuade the men to return to work" and to ensure to them the Public Service Company refusal to resume regular operations as long as the strike is in progress. More than 500,000 passengers ride the transit company's buses and streetcars daily in St. Louis and surrounding suburbs.

Torrential Rains Flood Manila Area

MANILA (AP)—Torrential rains and high tides flooded large areas of Manila today as a roaring typhoon skirted the island cluster off the northern Philippines. The huge storm with winds of 145 miles an hour at its center was headed toward Formosa.

Pope Pius Receives Adlai Stevenson

VATICAN CITY (AP)—Adlai Stevenson, 1952 Democratic candidate for president, was received by Pope Pius XII today. The special audience lasted about 20 minutes.

Typoid Epidemic In Sweden Takes Lives

STOCKHOLM (AP)—Typhoid fever killed 20 persons and sickened more than 2,500 others in an epidemic in Sweden during the past two weeks. After investigation, authorities today blamed the epidemic on infected meat and contaminated large stocks. In Kronoberg province, southern Sweden, supplies of imported meat have also been confiscated.

Nationalist Troops Sent To Formosa

SAIGON, Indochina (AP)—About 30,000 Nationalist Chinese soldiers, interned near here since 1949, have been shipped to Formosa to join Chiang Kai-shek's forces, it was disclosed here today. Evacuation of the Chinese troops began in greatest secrecy May 24 and the last convoy left June 22.

Talks Temporarily Stalled By Rhee

SEOUL, S. Korea (AP)—President Eisenhower's envoy will leave for home within two days whether or not he is successful in his efforts to win South Korea over to a truce, informed sources said today. The U. S. South Korea "little talks" were temporarily stalled today by President Syngman Rhee's upping prices for an American U. S. assistance of a unified Korea. The sources said the departure of Assistant Secretary of State Robert A. Lovett would set in motion the final decision on a U. S. South Korea truce alliance. They said Rhee apparently would have to show a real change of heart if he were to stay any longer. The sources said Rhee knew there was no more assistance to be had before a truce is signed if he doesn't agree with the truce.

Maddy Quizzed In Food Probe Of Foundation

HANNOVER, N. H. (AP)—The Food Foundation center at Lake Umbagog County, N. H., is being probed by Kelly today for the cause of an outbreak of food poisoning at the center. Kelly, who is in charge of the center, was quizzed today concerning a reported food shortage and stated that he had no idea of the cause of the poisoning. Kelly said he had no idea of the cause of the poisoning.

Hobby Case Being Argued Today In Circuit Court

Sanford Judge M. B. Smith is today arguing in circuit court in Sanford a case in which Seminole County is suing the defendant, but by the noon intermission only Sheriff J. L. Hubbs' mandamus suit against the County Commissioners to force payment of a bill for operating his office had been considered. That hearing appeared to be far from complete as Judge Smith was still in court at 1:30 p.m. and cont of the case as presented by Ernest Housholder, attorney retained by Sheriff Hubbs, and County Commissioner David E. Rhee, representing the County authorities.

Free Movie Will Be Shown In JC Safety Program

The growing Seminole Junior Chamber of Commerce movie safety program will sponsor a free movie for children at 4:30 p.m. "Book of David" will be shown at the theater. It was announced this morning by Don Biles, chairman of the movie safety committee. The movie, sponsored by the Junior Chamber, is being shown at the theater in order to reach children in the area. The movie is being shown at the theater in order to reach children in the area.

Peggy Wright Named To Girls State Post

Peggy Wright, a Sanford girl, has been named to the Girls State Post. She will represent the Seminole County Junior Chamber of Commerce at the Girls State Post. She will represent the Seminole County Junior Chamber of Commerce at the Girls State Post.

Winnwood Homes Added To City Rolls

The new homes being constructed in the Winnwood Subdivision were added to the City's rolls today. The homes were added to the City's rolls today.

Dulles Will Spend 4th At Summer Home

WATERTOWN, N. Y. (AP)—Secretary of State John Foster Dulles arrived here by plane yesterday to spend the July 4 week end at his summer home on Main Duck Island in Lake Ontario. He was accompanied by Mrs. Dulles.

Movie Time Table

Table with movie titles and showtimes: "Split Second" 1:27 - 3:25, "MOYLAND" 7:31 - 9:10, "Hill King of Women" Opens 7:50 Feature - 8:25

De Bary Doings

By KAY HENNINGER

At the meeting of the DeBary Home Demonstration Club last Thursday afternoon in the W. G. Miller Building, the members discussed the making of lamps from jugs and bottles. A second topic of discussion was that of pattern alteration. The subject of the condition of the pine trees in DeBary was also discussed and the secretary was instructed to write to the Forestry Service for advice.

Beginning July 6, the DeBary Post Office will be closed every day from 12:30 to 1:30 p. m. for the lunch hour.

Some of the DeBary young people are enjoying their vacation from school in places away from their homes. Elsie Faxon is in Long Island, N. Y. for the summer with relatives and friends.

Robert Stroud is in the YMCA Camp in Plymouth for two weeks or longer.

Joseph Roth is in Good Counsel Camp for two or three months. While he is there, his mother, Mrs. Margaret Roth is paying a visit to her father in New York.

Mrs. Carl A. Smarling of Seventh Street is in Hempstead, N. Y. where she is spending two weeks with relatives and friends.

Mrs. Gus Rappich has gone to her summer home in Bretton Woods, N. J. where she will remain until September. Lakewood Court and Coffee Shop will remain open all summer.

Mr. and Mrs. George Butler and their daughter, Lorraine, are in DeBary hoping soon to move into their new home on Ginn Lake. They came from Belleport, Long Island.

Mrs. Thomas Garrity, her son, Thomas, and Miss June Wiegand all of Bergenfield, N. J., and Miss Stanley Gromelski of Newark are visitors in the home of Mr. and Mrs. William Stripp, Thomas and Miss June will be here for two weeks. Mrs. Stripp's sister, Mrs. Gromelski, will stay on for an indefinite length of time.

Mr. and Mrs. Oscar Robinson, who are in Teaneck, N. J. for the summer, celebrated their silver wedding anniversary on June 27. They gave a dinner party for 25 guests at the home of Mrs. Robinson.

Mr. and Mrs. Carl Mueller of Catalina Drive have gone to Detroit for a year. They rented their home to John K. Wille.

Betty Faxon is back home from the hospital but is still on the sick list.

Mr. and Mrs. R. Roy Becker of Atlanta moved into their home on July 1. They bought the Volkamer house and Mr. and Mrs. Fred Volkamer moved back to New York to be with their family.

After about a year in Detroit, Mr. and Mrs. Edward Moyle have returned to their home on Bayona Drive. They brought Miss Mary Valeri back with them for a visit.

Mr. and Mrs. Edward Healey are spending a few weeks with their family in New York.

Mr. and Mrs. David MacFarlane spent their month's vacation monitoring. They traveled 8500 miles, going as far west as California. Their trip took them through 20 states and they took some very interesting pictures of the flooded

EMMY KELLEY was selected as the prettiest nurse at the Los Angeles General Hospital. At left is Julia McCall, the runner-up. Miss Kelley will compete with representatives of other California counties on August 30th for the state beauty title. (International)

Spanish Moss Has Valuable Wax For Commercial Uses

GAINESVILLE (Special) Spanish moss contains a valuable wax, which may soon become commercially important in the manufacture of floor and furniture waxes.

This discovery was just announced by Dr. Lauretta E. Fox and Sheldon F. Ford, of the College of Pharmacy, University of Florida, who report their findings in the journal, Science.

The wax content of freshly gathered moss amounts to five percent of the plant's weight. It is soluble in various organic solvents, easily purified, and imparts a hard, glossy finish to woodwork and waxes.

At present, the commercial source of wax is the more expensive carnauba palm from South America. The wax producing part of the moss plant is now a waste product, which is discarded as the moss is cured for upholstery filler.

In view of the abundance of Spanish moss, the proximity of the supply and the economy of utilizing the waste material from the processing of upholstery fillers, it may prove profitable for some industrial organization to investigate this plant as a possible source for a hard, natural wax.

Research on moss by this scientific team began in 1910 with a goal of finding profitable use for a Florida plant that grows so abundantly.

The "Mosquito Coast" of Central America derives its name from the Mosquito Indians and not from mosquitoes, says the Nation Geographic Society.

Sections of Louisiana and Texas and the tornado devastated areas of Indiana, Iowa, Ohio and Michigan.

Mr. and Mrs. Charles Duppelman of Cincinnati, guests of Mr. and Mrs. Ray E. Peck have returned to their home.

After a week in DeBary Miss Josephine Brennan of Miami has returned home.

Personals

Dr. and Mrs. Walter Haynes Jr. arrived Tuesday from Boston to visit Dr. Haynes' parents Mr. and Mrs. Walter Haynes Sr. They will leave Saturday for a trip to California.

Mr. and Mrs. A. L. Skinner, Carol and Sunny left today for Hendersonville, N. C. where they will spend the summer.

Miss Dial Boyle, daughter of Sen. and Mrs. Lloyd F. Boyle, has left for Camp Farwell, Wells River, Vt. where she will spend two months as a counselor.

Miss Zeta Davison has returned to Winston-Salem, N. C. after spending two weeks with her foster parents, Mr. and Mrs. J. B. Davison of West First Street. Miss Davison, formerly of Sanford, is a Presbyterian Home Missionary, engaged in Winston-Salem Presbytery as a church extension worker.

Mrs. W. C. Hutchison Jr. left yesterday for Jacksonville where she will stay over the Fourth of July weekend. Mr. Hutchison will join her there tomorrow.

Miss Kay Ivey, daughter of Mr. and Mrs. John Ivey, will leave tomorrow by plane for Washington, D. C. to spend several weeks with her aunt Mrs. J. P. Brannon.

Mrs. Joe Cameron is recuperating nicely in the Halifax Hospital in Daytona Beach. As soon as she is able to make the trip, her daughter Mrs. Henry Russell will bring her back to Sanford.

Mrs. F. W. Jones of Enterprise returned from Boston where she was the guest of Mrs. Robert Weldon. Linda Weldon returned with her for a several month's visit.

Dr. and Mrs. L. Munson have as their guests Mrs. Munson's sister, Mrs. Sam Shain and son, Ricker, of New York City.

The Messes Betty Ann and Barbara Munson have left for Camp Espingawing at Harrison, Maine, to spend the summer.

Mr. and Mrs. Clark Moore and son Michael of Jacksonville will arrive tomorrow to spend a week's vacation with Mr. Moore's parents, Mr. and Mrs. W. D. Folds of 306 East 21st Street.

Mrs. B. F. McWhorter, Carl McWhorter, and Bobby Busson will leave tomorrow for Murray, Ky. where they will attend the wedding of Mrs. Boyle McWhorter. They will visit Mrs. W. D. Folds of Eaton, Ga. en route home.

Miss Conna Compton is spending a month's vacation at Coronado Beach.

Mr. and Mrs. J. R. Jones are entertaining over the holidays Mrs. Jones' brother-in-law and sister from El Lauderdale.

Mr. and Mrs. E. F. Crenshaw are entertaining guests over the holidays.

Mrs. Baxter Bowen has just returned from Pennsylvania where her brother died recently.

Mrs. Alfred and Horace Bowen are entertaining Mrs. Alfred Bowen's daughter, grandson and granddaughter for the summer. They expect to return to their home on Randolph Street early in July.

David Jewell, son of Mrs. John Jewell, has sold his home in Wadswell, Conn., and will live in Sanford with his family.

Mrs. D. T. Travis and son David, of Wyoming are in DeBary tomorrow to spend some time with their parents, Mr. and Mrs. R. D.

Dorothy Kay Jones Becomes Bride Of Robert Cullum

Miss Dorothy Kay Jones, daughter of Mr. and Mrs. B. Jones of Ocean Grove, N. J., became the bride of Robert Cullum, son of Mr. and Mrs. Merwyn L. Cullum, at the Cullum home on 208 South Elliot at 3:00 o'clock yesterday afternoon.

The Rev. A. G. Melonis of the First Presbyterian Church officiated at the double-ring ceremony held before the fireplace. Baskets of gladoli and asters were used in decorating and on the mantle was a candle cascade backed with fern and jasmine. The background of the improvised altar consisted of palms.

The bride was beautiful in an ankle-length gown of white net over satin. The steepled fitted bodice was trimmed with rhinestones and had a full bouffant skirt. Complementing the outfit was a lace mantilla which fell to her shoulders in a stole-like effect, a thin-strap necktie and white satin slippers. Centering her bouquet was a white orchid on a Dague of Beardsall Avenue.

Miss Sally Chase accompanied by her aunt and cousin, Mrs. Frank W. Chase and Miss Luceta Chase of Wintermere, have left for Camp Winemont, N. H. to spend two months.

Mr. and Mrs. E. B. Stowe left today for Miami and Key West to spend about ten days.

Dr. and Mrs. William White and daughter Kay have returned to Atlanta after spending some time at their cottage on Golden Lake.

Mr. and Mrs. Ed Shindler will leave tomorrow for a week's vacation to points in Kentucky.

Mr. and Mrs. Harry Kuttell of 2422 Palmetto Avenue have returned after spending last week with Mr. Kuttell's brother Howard and family in Miami.

circled with stephanotis and white roses.

The maid of honor, Miss Betty Cullum, wore a white organza ankle-length gown over pink tulle. The neckline was square and the sleeves were tied at the shoulder with pink velvet ribbon. On the skirt was a wide panel of embroidered organza at the hemline. She carried an arrangement of carnations and pale pink roses.

Porter Lansing served as best man.

Mrs. Cullum chose an aqua linen dress with tapers embroidered at the bodice. Her corsage was of yellow roses.

An informal reception was held from 4:00 to 8:00 p. m. The rooms were decorated with beautiful arrangements of carnations and pumpkins. Crystal appointments were used on the bride's table which was covered with an imported embroidered linen cloth. Slender lighted tapers were on each side of the three-tiered wedding cake which was encircled with orange blossoms and carnations. Tosses which also decorated the guest stand.

Mrs. L. T. Bess and Mr. H. B. Crumley cut the cake and the punch was served by Mrs. Howard.

Cool Canadian Air Ends Heat Wave

By The Associated Press

A cool air from Canada and the Pacific brought relief to Northern Midwest areas today but hot and muggy weather continued in most other parts of the eastern half of the country.

The cool air moved eastward and southward and there were indications the North Central states might get some relief tonight and Friday. The refreshing breezes early today extended from the upper Mississippi Valley southwestward through Eastern Nebraska to Western Kansas.

3-Year-Old Travels 5,000 Miles Alone

MORGANFIELD, Ky. (AP) — Six-year-old Shiraz Kymbles Wayne traveled 5,000 miles alone by plane during the past three days with visions of getting some of Grandma's biscuits.

She came from Augsburg, Germany, where she had been living with her stepfather and mother, Sgt. and Mrs. Bobby Segers. A family friend met her in New York. She will start school here in September.

The Next Ten Years

Not many years ago the South was certainly looked upon as a country cousin by other parts of the country which offered so much more in the way of industrial and civic development. But the tide has changed and the southern states are now the envy of the rest of the nation which is witnessing down here a commercial renaissance scarcely equalled in the history of any other area.

While some people may think it overly optimistic to hope that predominantly agricultural Sanford will benefit by this phenomenal industrial trend, it is interesting to note what the Asheville Citizen has to say about the future of us folks below the Mason and Dixon Line.

"Gazing in the crystal ball," writes the Citizen, "is an occupation for the occult and not one (you would think) to beguile chambers of commerce executives in convention assembled. And so when Director H. McKinley Conway of the Southern Association of Science and Industry told a Chapel Hill gathering the other day that 3,000 multi-million-dollar industrial plants would come into the South in the next 10 years, the prophecy doubtless provoked some exclamations.

"But Mr. Conway, a student of regional trends, didn't stop there. He went on to say flatly that the South 'will employ an additional 10,000 professional scientists, with many beginning their careers in the South because of increased opportunity here; that in the search for new industrial products and processes the region will add 1,000 major research laboratories' and that 'continued technical and industrial expansion for 10 years will at last bring the South up to the national average in per capita income.'

"These are no pipe dreams. The 10-year projection of Southern development is based not on guesses but on the established trends of the last few years. In 1951 and 1952 the South added one new multi-million-dollar factory each working day. So multiply the average yearly gain of 366 by 10, and there you have 3,660. It is as simple as that.

"Make no mistake, the New South is on a spiral staircase of economic progress. Regional gains in ratio to the gains of other regions and to the national average are striking. The June issue of the Manufacturers Record reports, for example, that in the 'trade sector the South is showing to moderately better advantage than the nation as a whole, and also in construction the South continues to pace the nation.'

"Comparisons like this would have been incredible 20 years ago. Yet they are real today."

Situation Behind Iron Curtain

The situation for those who live behind the Iron Curtain grows worse every day. Even men who hold the highest standards of patriotism and devotion to duty are deserting and seeking political asylum in free lands. One such refugee is Captain Jan Cwiklinski of the Polish liner Batory, who left his ship in England in the hope of escaping the Communists. He last figured in the news when his ship helped the Communist Gerhard Elder escape from the United States.

He said that his ship was a floating nest of Communist political officials who are constantly on the alert for anything that can be reported to their masters. He feared that he was to be arrested and charged with espionage if he returned to Poland so he walked off his ship and asked for asylum. The fact that he sometimes mixed with English and American passengers aboard his ship, was considered by the Communists as evidence of his guilt.

Police activity has struck terror into the hearts of all Poles. Captain Cwiklinski said, but the spirit of resistance is still alive and many Poles listen to the anti-Communist radio broadcasts emanating from Free Europe.

To illustrate the plight of his countrymen he told the following grim joke: "A Pole who had just fled to the West met another Pole who asked him why he fled.

"But why the milkman?" the escapee said.

"Because when he knocks at the door early in the morning I am afraid he is not the milkman."

New Era For U. S. Business

"We intend to meet foreign competition in the market and not in the halls of the Tariff Commission." These are the words of Henry Ford 2d, who thus announces his willingness to see abolition of the present 10 per cent duty on European automobiles.

This remark is one more evidence of the growing realization among businessmen that our prosperity depends upon the prosperity of our customers, and that, as President McKinley, long a high-tariff advocate, put it half a century ago: "The age of exclusiveness is past."

Ridiculed Red Expert On Genetics States Idea Was Wholly Stalin's

WASHINGTON (AP)—The man credited with establishing the Soviet theory of genetics, ridiculed outside the Iron Curtain as political puppetry, now says the whole idea was Joseph Stalin's.

Prof. T. D. Lyenko labeled his statement a "silly" to the disgraced Russian Premier.

But the statement published today by the magazine Science might be interpreted in the West as an attempt to get off the scientific book.

It states that Stalin dictated to Lyenko how he was to present the theory that acquired characteristics of a plant or animal may be passed on to offspring, a violation of Mendel's explanation of heredity, developed during more than 20 years of work by scientists throughout the world.

The theory that acquired characteristics of a plant or animal may be passed on to offspring, a violation of Mendel's explanation of heredity, developed during more than 20 years of work by scientists throughout the world.

Many American and other scientists denounced Lyenko as a tool of the Communist party and ridiculed his paper when it appeared.

WASHINGTON (AP)—The cost of the Boeing B47 bomber—without its six jet engines, its spares and its complete electronic equipment—is \$4,100,000.

This figure was marked official by the Defense Department today. Air Force testimony in Congress has listed the current average price of a B47 at \$5,370,000. Gen. Hoyt S. Vandenberg, retiring chief of staff, also testified the 145 (triple version, or TB47), ordered in the budget for the new fiscal year would have cost about \$3,500,000 each.

A Boeing spokesman said these figures included all the government-owned, furnished equipment which goes into the completed airplane, plus the \$1,100,000 figure is the bare cost of the plane itself, plus the cost of installing equipment.

Cost cuts grow best on land which is of little value for other purposes.

Expensive monuments first begin to appear where about the 10th cen-

This Afternoon

TODAY'S BIBLE VERSE

Some think it is right to defraud the rich. We can defraud no one without robbing ourselves. Thou shalt not tempt thy neighbors landmarks.—Levit. 19:14.

Excellent results were obtained recently from a classified ad in the New York Times by a man who lost a tie clasp with his initials. He got back two tie clasps with his initials, which is a pretty good average in any league.

A 78-year-old grandfather took his 11-year-old grandson riding on a motor scooter recently. Both wound up in a hospital. The child was too young to know better, and the old man was probably too old to care.

Bank assets in the United States are placed at 103 billion dollars and before you get excited about how much you'd have if the money was divided up equally, it might be well to point out that your share would be less than a thousand dollars.

Actress Eleanor Parker says she and her husband simply can't get along and have decided to separate. "Our difficulties are personal ones," she says. We can't imagine impersonal difficulties making up a family.

A representative in Congress, who lured Justice Douglas to an Oregon divorce case, admits he was wrong. He may not have had a good case even on the impeachment matter, but he certainly weakened his bluff when he injected a personal smear that couldn't hold water.

Carpenters in Weston, Va. have included in their union agreement a provision for a daily "coffee break" of five minutes. The trouble with most coffee breaks is that they are usually extended first to 10 minutes, then to 15, and then finally to a half hour or more, not to mention the break in the afternoon.

Competitive television receivers have undergone tests recently where it was found that one failed to survive a 30-foot fall and another was "not affected by the drop." Judging by some of the recent infidelity, the first model is the one to buy in case you become distracted to the point you want to pitch it out the window.

The nation's educators are told at their meeting in Miami Beach that the average layman wants the best possible teachers for his children and the best obtainable buildings, all at the very least expense to the taxpayers. This is a logical wish but if we are to have the best teachers and the best buildings, we are going to have to pay the freight.

A Miami wife is seeking a divorce from her husband because he dyed his hair green. This sounds like reasonable grounds for legal action, but we are moved to wonder whether the color scheme was real or whether it was the figment of some imaginary factor superinduced by too close association with things that cause the imaginary factor.

What's new in a heat wave, what else could be new? Anyway, what small talk is just hot air, and hot air is what you are trying to escape from.

When you come home, take off your shoes and shirt, and stretch

New Head Of Kiwanis International Is Prominent Publisher From Ohio

Delegates attending the 36th annual convention of Kiwanis International in 1952, elected Donald T. Forsythe, a prominent publisher and publisher of the Carthage Journal, Carthage, Ill., to succeed Walter J. L. Stee, of Chatham, Ont., an attorney, and John H. Wright of Lakeland, a realtor.

Donald T. Forsythe, one of the few Kiwanis leaders who has a national reputation, is a prominent publisher and publisher of the Carthage Journal, Carthage, Ill., to succeed Walter J. L. Stee, of Chatham, Ont., an attorney, and John H. Wright of Lakeland, a realtor.

Women Know How To Beat Heat Waves

NEW YORK (AP)—Summer's big test problem is heat waves. If you are coming your way, don't get nervous. Keep cool. You should treat a heat wave like an ocean wave. Ride with it—don't fight it.

Women know best how to deal with heat waves. They simply pull down the shades, peel off most of their clothes, and lie down and manufacture their fingernails until better weather comes along. The only exceptions are the 10 million ladies who have outside jobs and can't stay home.

But how can a mere male outwit a heat wave? Well, here are a few tested recipes a thoughtful fellow can use to beat the heat:

1. Imitate the girls. Strip down until all you have on is the least the law allows in public. If 10 men in every city had the courage to wear shorts to work, soon every man in America who wasn't knocked out would follow suit.

2. Clean out your pockets. This will cut the average guy's weight down five pounds. All you really need to carry in summer is your keys, your bow fare and your social identification card. Remove every extra ounce you pack heats up your blood.

3. If you don't wear a collar, you can't get hot under it. If you work in a high class place where you have to wear a jacket, strap an ice bag under each armpit. This will do wonders for you, and you can get ice cube refills from the nearest drugstore. You'd be amazed to know how many men of distinction wear ice bags under their armpits these days.

4. Avoid useless remarks like, "What's new in a heat wave, what else could be new? Anyway, what small talk is just hot air, and hot air is what you are trying to escape from."

5. When you come home, take off your shoes and shirt, and stretch

JAMES MARLOW

Proposed Bricker Amendment To Constitution Faces Rugged Path

WASHINGTON (AP)—In view of what has already been said, it will be quite an achievement if the Eisenhower administration and the senators supporting the Bricker amendment work out an effective and satisfactory compromise.

Even if they do, it is doubtful this proposed amendment to the Constitution can be passed by both Houses of Congress this year. If approved there, it has no assurance of House blessing.

This amendment, named after Sen. John Bricker, Ohio Republican, would in brief restrict the treaty-making power of the government. Under the Constitution now, the president can make treaties provided two-thirds of the Senate approve.

A great difference of opinion among constitutional lawyers over whether such an amendment is needed. Sixty-three senators, Democratic and Republican, sponsored the amendment. Yet the Eisenhower administration—particularly through Secretary of State Dulles and Atty. Gen. Brownell—has opposed it.

The House of Delegates of the American Bar Association approved a proposed amendment similar to Bricker's. But many members of the Bar Association were in disagreement. Just what would it do? It would require both Houses of Congress, not just two-thirds of the Senate, to approve a treaty.

And even when the president tries to make an executive agreement—such as at Yalta—Congressional approval might be necessary.

No one at this time can flatly say how far-reaching such an amendment would be, since a number of cases eventually would land in the lap of the Supreme Court for interpretation. Thus, the full meaning and extent of the amendment might not be known for years.

Why such an amendment at all? Bricker says he has no fears that Eisenhower or the present Republican-controlled Congress would approve a treaty damaging to this country's traditions or institutions, such as free speech. But he adds: "No one can be sure that future presidents or future senators will not deliberately, or unwittingly, make a dangerous treaty."

For example, some agreement with the United Nations or some other international body giving it jurisdiction over the rights of American citizens at home—was an agreement to set up compulsory medical care.

Although Dulles and Brownell, said Jim Brownell, the President's chief counsel, said last Wednesday he would support a constitutional amendment, it would quiet fears in this country, to make it clear that no treaty can constitute or supersede the Constitution.

But Eisenhower said he would never agree to anything that interfered with the constitutional and traditional separation of powers between departments of government.

Since Dulles and Brownell already have said the Bricker amendment would hamper the President, Eisenhower's most recent statement on the subject could be interpreted as meaning he would not object to a constitutional amendment on treaty-making so long as it did not interfere with treaty-making.

Brownell has been in consultation with his fellow-Republicans in the Senate, trying to find a compromise solution. But he said Dulles previously seemed to have said it plain they couldn't see how a compromise could be worked out.

In his testimony this year before the Senate Judiciary Committee, Brownell said: "No one has yet succeeded in devising language to amend the Constitution to guard against such a hypothetical treaty provision as that might invade on American domestic affairs, which does not also jeopardize the federal government's necessary and proper treaty-making power."

He said Mrs. Schiff discovered the loss early in the evening but waited to report it until she had checked whether her daughter or servants had put the jewels away for safekeeping.

Police said the burglars apparently entered the apartment by breaking a window in French doors opening on an outside terrace on the 5th floor of the 6th St. building.

Authorities said the jewels were fully insured.

LOS ANGELES (AP)—Former President Herbert Hoover says, "Nobody in the country knew more fully than I the way the new administration had to take over. After all, I spent three years investigating it."

"I think we're steadily making progress," he added, "and will clean up the situation once and for all during this administration."

The 76-year-old former chief executive arrived by plane from New York yesterday for a West Coast visit of a month or two. He carried his fishing rod in a suitcase and his golf bag in a suitcase in Southern California.

'Mob Rule' In Georgia City Is Charged

ATLANTA, Ga. (AP)—A business spokesman charged "mob rule" after a tear gas bomb was tossed into one of the company's buses.

Six persons were sent to the hospital yesterday in the aftermath of a bombing from a strike of bus drivers. The bomb fell into the lap of Sarah Lee Bryant, 26-year-old Negro. She suffered burns on the hip and an injured arm.

Five other passengers, all Negroes, were treated for shock and illness caused by the bomb.

Roy V. Harris, secretary of the Augusta coach company, commented: "It looks like mob law has taken over the city."

Trade Agreement Bill Is Facing More Battles

WASHINGTON (AP)—President Eisenhower's requested one year extension of the reciprocal trade agreements law now has passed the House and Senate, but a fight still is likely before it reaches his desk.

The Senate, in passing the measure late yesterday, knocked out of the bill a House provision which would add a seventh member to the Tariff Commission so as to give the Republicans a four-to-three edge.

This provision was put in originally to persuade key Republicans on the House Ways and Means Committee to let the measure go to the floor.

Several of these Republicans favor higher protective tariffs. They did not expect to look kindly on the Senate's rejection of the plan to boost the commission size.

Heir To Fortune Ordered To Leave

LOS ANGELES (AP)—John A. Kerr 41, heir to a glass jar manufacturing fortune, has been ordered to move out of his home in Los Angeles.

Kerr has continued to share the \$35,000 North Hollywood home with his estranged wife, Flora, 40, although they haven't been speaking.

She requested the eviction yesterday pending trial of her divorce suit. She told the court that Kerr often drank to excess, struck her and, until May 28, followed her from room to room "harassing and harrassing me," sometimes until 4 a.m.

Kerr said he'll lose his membership on the 4th State Assembly District Republican Committee if he moves out of the district. Judge H. S. Farrell suggested he finish an apartment.

He directed him to pay Mrs. Kerr \$500 monthly for support of herself and their children, Flora Ann, 2, and Joanne, 6 months.

Burglars Break In Publisher's Duplex

NEW YORK (AP)—Burglars broke into the duplex apartment of Mrs. Dorothy Schiff, publisher of the New York Post, late last night and stole jewels valued at \$25,000, police reported.

The 76-year-old former chief executive discovered the loss early in the evening but waited to report it until she had checked whether her daughter or servants had put the jewels away for safekeeping.

Police said the burglars apparently entered the apartment by breaking a window in French doors opening on an outside terrace on the 5th floor of the 6th St. building.

Authorities said the jewels were fully insured.

Roller Coaster Plunge Fatal

CLIFFSIDE PARK, N. J. (AP)—A powerfully built, 220-pound man catapulted 58 feet to his death from a speeding roller coaster at Palisades amusement park last night.

The hurtling body of the unidentified man, about 25, glanced off a woman, injuring her, and landed on the concrete pavement of the park's midway to the horror of scores of people.

The man was pronounced dead by Dr. Moses Sandler, park physician, at 7:15 p. m., about five minutes after he fell from the extreme top of the thrill ride known as "The Cyclone."

The woman, Mrs. Rachel Frawley, 61, of Franklin Lakes, was taken to Englewood hospital in fair condition suffering from bruises and shock.

Police Capt. John McAvoy said two girls seated just in front of the man said he pulled their hair, cracked jokes and continually annoyed them during the ride.

"He was there one minute and gone the next," he quoted one of the girls.

Jack Rosenthal, park operator, said it was impossible for anyone to fall from the ride unless he took off his safety belt.

Petty Officer Is Commended For Athletic Record

Gerald E. High, AF3, Photographic Squadron 62, Naval Auxiliary Air Station, was presented a commendation Wednesday morning at a special meritorious mast held by the commanding officer of the squadron, Commander Herbert S. Klenk.

The award was presented to High in appreciation of the interest which he has taken in squadron athletics and particularly for his recent wins in the Sixth Naval District track and field championships held in Jacksonville.

Commander Klenk also presented him with two medals which he won while participating in the track meet. The first was won for taking second place in the high jump, while the second was for winning the 440 yard dash.

He was then congratulated by the commanding officer who stated that "I'm sure your shipmates are as proud of you as I am. Good luck in future competition."

High has been an outstanding athlete during his entire time in the squadron. He was a member of the squadron intermural football team in Jacksonville and the squadron basketball team which came in second in the Central Florida Invitational Basketball Tournament. In this tournament he won the trophy presented to the most outstanding player of the series.

Before entering the Navy, High attended Oklahoma Baptist College where he played basketball and lettered on the track team participating in the high jump and half-mile events.

At the Drumright, Okla. high school he won a three year letterman in football, basketball and track. At the high school his main activities in track were in the high jump, half mile and also the one mile relay.

For thousands of years, honey was almost man's only source of sweetening.

Colored Church Notices

FIRST SHILOH BAPTIST CHURCH
The Vacation Bible School will begin Monday, July 6, at 9:00 a.m. Friday, July 3, will be Preparation Day. It is expected that a large number will be registered on that day. The hours for registering will be from 9:00 a.m. until noon. As in the past we will handle Department Four, ages 4-16. We are asking the parents to give us your best cooperation, furnishing the child's full name, date of birth, year, month, and day, correct address, name of church and Sunday School, parents name, name of church, as well as church member.

Remember that the Vacation Bible School is for three classes of children. First—children of the church sponsoring the school; second—children not attending any church school; third—as many from other churches as can be cared for. Remember, mothers and fathers, that you owe it to your children to see that they attend the Bible School once each year.

This school will run ten days and there will be class at night for adults.

Mrs. Alberta McClain, Principal
Mr. A. Bentley S. Supt.
Rev. S. M. McDaniels, Pastor

Seixas Is Victor In Wimbledon's Tennis Finals

WIMBLEDON, England (AP)—Vic Seixas of Philadelphia overpowered Denmark's Kurt Nielsen today to win the All-England men's singles tennis championship, 9-7, 6-3, 6-4.

This was the sixth Wimbledon victory for an American player in the last seven years.

The 22-year-old Seixas, captain of the 1932 U. S. Davis Cup team, had never before won a major tennis title.

America's Doris Hart and Shirley Fry, the world's top feminine doubles team, trounced the British combination of Helen Fiechter and Mrs. Jean Rinkel, 6-0, 6-0, to gain the title.

Ex-Grid Star Is Shot While Fleeing Cops

MIAMI (AP)—Richard Gerald (Jerry) Fields, 22-year-old former high school and college football player, was in "fair" condition in a hospital today after being shot while fleeing Miami police.

Fields was felled at short range in the Dade County courthouse Tuesday when Police Officer H. L. Griffin, 24, shot him down. Fields was being held as an armed robbery suspect.

SPEED-KILLER NO. 1

Out of 35,000 lives lost in traffic accidents in 1930, 26,700 were sacrificed on the altar of carelessness. Speed—excessive, killing speed—accounted for nearly half that number. Speed, claiming 13,300 dead and 475,000 injured victims in a single year, is the nation's Killer No. 1.

Why do drivers race so heedlessly to destruction on the highway? Hardly to save time. Scorching at 70 is an invitation to disaster. Over any distance, 50 m.p.h. takes only a few minutes longer and offers a better chance of a safe arrival.

When you start out with your family or friends, discount speed before you take off. Give yourself and others in your car an extra margin of safety by leaving earlier and holding your speed within bounds. It's your responsibility to them and to others on the road.

Remember—more than one out of every three fatal accidents is due to speed.

Street Cars And Buses Run Again In St. Louis After Two-Day Strike

ST. LOUIS — Streetcars and buses ran again today after union officials ordered an end to a two-day "wildcat" strike of motormen and drivers.

Some transit vehicles began operations just before the rush hour last night, but service was irregular as some operators failed to show for work.

Public service company spokesmen said later "things look pretty good."

Arthur J. Carroll, president of Local 788, AFL Amalgamated Street Electric Railway and Motor Coach Employees union predicted the service would be normal.

Police rode prowl cars and buses to prevent interference. They arrested several men last night on peace disturbance charges. Police said two streetcars and some buses were halted by groups of men reporting for bus service this morning would determine if the strike was over.

Employees who stayed on their jobs said they didn't want to work the contract pending a new agreement until they had a contract. The union and the company employes sought to get together on the contract between the union and the company employes to turn in company equipment.

Workers left their jobs Wednesday morning, although union officials had agreed to extend the contract pending a new agreement until they had a contract. The union and the company employes sought to get together on the contract between the union and the company employes to turn in company equipment.

Squirrels Driving Spine People Nuts

LOS ANGELES — Some squirrels are driving the Pacific Telephone and Telegraph Company slightly nuts.

The squirrels cost the company about \$30,000 last year in the San Fernando Valley, and the squirrel population is doubling every year.

Jittery squirrels—ill, adolescent, just plain nervous—chew holes in the protective lead sheathing around telephone cables, allowing moisture to interrupt service.

Dick Reager, in charge of his company's fight against the squirrels, said today:

"The gnawing seems to be seasonal—only in warm temperatures. Healthy adult squirrels chew on cables. The only effective defense 'tape armor' cable is in short supply and expensive."

Police rode prowl cars and buses to prevent interference. They arrested several men last night on peace disturbance charges. Police said two streetcars and some buses were halted by groups of men reporting for bus service this morning would determine if the strike was over.

Sanford Legion Beats Orlando For 6th Straight Win

"Pee Wee" McCall Hurls Locals To 11-6 Victory In Orlando

By RAM JACOBSON

The Sanford American Legion Junior Baseball machine rolled to its sixth consecutive victory as the "Baby Birds" overpowered an Orlando Legion squad 11 to 6 yesterday in Orlando. Thus, Sanford has now won three in a row from the Orange County boys whom the pre-season sages had tabbed as the team to watch.

The contest, which might be classed as an experimental encounter with Coach Al McMillan shuffling and then reshuffling his lineup, definitely established the locals as "the team" in sub-District Five play, and moved them to within a step of definite assurance of berth in the coming district tourney. As things stand now, any combination of an Orlando loss and a Sanford win would wrap it up for the Balmisles.

It was with an eye toward the later tournaments that McMillan entered yesterday's game. Before the tilt the "mustachioed" mentor commented, "I just want to play around a little here, shift my line-up, try a couple of plays, generally find out what kind of a team we really do have. But principally, I'm looking for a left-handed pitcher."

For that reason, he started southpaw outfielder "Pee Wee" McCall on the mound. And then his search proved surprisingly fruitful when "Robbie" Samuel, another portlander, pitched each two innings. Both boys, although needing a little help from ace Jim Hawkins, turned in creditable performances and with some additional coaching should prove quite handy later on.

The Birds jumped off to a quick start in yesterday's game picking up a swift first inning marker on "Cubs" Hisebee's screaming rightfielder, which drove Hawkins home from first. The Orlandoans jumped right back, though, with one of their own. McCall, a little nervous at the beginning, pitched the first four men to face him on base. Then he settled down and worked his way out of the jam, giving up only an unearned run.

After presenting Sanford with a single run on three errors in the first half of the second inning, the home team scored two more times on their part of the frame. McCall again walked three of the initial four batters. But this time he didn't fare as well as in the previous inning, because the next man up, opposing hurler Lou Bangert lashed out a sharp bangle to make the score 3-0. Then John Clarke led off the third round for Sanford with a single. He stole second, but it looked as though he was going to die there as Randall Reynolds flew out and "B-Shirt" Katz whiffed. Then the roof caved in on Bangert.

Ross Peeler boosted Jimmy Wade's grandeur to set it off. McCall and Jimmy Hisebee, who had base on miter, which allowed Clarke and Wade to score. "Luscious" Larry Bates pulled a single into right field, and when the dust cleared, four runs were in and the locals led 6-2.

McCall struck out the side in order in the Orlando half. But in the next frame, he tired and surrendered two runs and Hawkins had to be called from centerfield to Pee Wee's rescue.

The "Baby Birds" staged another four-run outburst in the fifth. Peeler again started things off, by bobbling Wade's slow bouncer. "Delaware" Davis came through with his first run of the season and both runners crossed the plate when Butler's lined single scooped past the leftfielder. Bates followed with his second of three one-basers and then with the count at one-and-two Hawkins cranked out a tremendous 300-foot triple to account for the final run. The metropolitan boys rallied weakly in the sixth and seventh innings against Samuel, but the slight freshman held on and needed Hawkins for the final two batters.

DIAMOND DUST: Junior Mattie and Jack Kilder were missing from the Sanford lineup yesterday, but will be back for the next game. . . . And that next game, by the way, will be at 3:30 Monday afternoon at the old ball park when the Sanford "Birds" meet the FABRON squad. . . . Larry Bates' three-for-five performance yesterday hiked his batting average to .425. . . . Hawkins' two and two-thirds shutout frame stretched his scoreless innings claim to 21.

City Tennis Tourney To Commence Friday

Registration is under way for the annual City Tennis Tourney to begin next Friday. It was announced today by Tommy Stringer, summer recreational director.

Anyone interested in participating can register with Fred Ganas at the High School between 9:00 a.m. and noon, or by calling Ganas at 770-11.

The all-court tournament will be subdivided into groups after all registrations are in. Stringer stated, Ganas will direct tourney play. Last year T. M. Taylor capped the City men's title for the third successive year, beating Clay Williams in a grueling two-day overtime match.

Georgia-Florida Football Game Is Complete Sellout

GAINESVILLE (Special)—The marked increase in season ticket sales to University of Florida football games has combined with a similar demand for single game tickets to exhaust all East and West sideline tickets to the Florida-Georgia game in Jacksonville on November 7th.

This is the first time that all sideline tickets to the Florida-Georgia game have sold out four months before the game is to be played.

Percy Beard, general manager of athletics, said today indications are that the unprecedented demand for season tickets will exceed the number of season ticket books printed for both the Gainesville and Jacksonville games.

Fans still have until July 15th to purchase season tickets, he said, and it looks now as though we will have to make up season ticket books from individual game tickets. People who plan to get season tickets to either the Jacksonville or Gainesville games should do so immediately. Time is getting short.

The University of Florida offers one season ticket book for the four games (Georgia Tech, LSU, Tennessee and Stetson) in Gainesville and another for the two games (Georgia and Citadel) in Jacksonville.

"There is no doubt," Beard said, "that season tickets for individual games will take up all of the East and West sideline tickets for this game before the season ticket sale ends on July 15."

Charles "Chuck" Wilson makes good in Canada.

Sanford Negro Is 3 Short Of Homer Record In Canada

Charles "Chuck" Wilson, Sanford colored baseball player, is making good in an independent Canadian League, according to reports from Brandon, Manitoba. The 24-year-old outfielder has batted eight homers in the first 24 games and was only three short of the all-time circuit mark as of June 24.

Wilson, who is the grandson of Mrs. Julia Richardson, had his name spread across the headlines recently for hanging home six runs on a single, double, triple and home run. It also gave him the distinction of being the first player to hit for the cycle in the Canadian loop this year.

Wilson received \$24 recently for pounding a 380-foot homer over the centerfield wall in Brandon. Playing for the Brandon Greys this year, Wilson is a veteran of five years in the United States. He has played for not only the local Sanford Giants, but the Tampa Rockies and the Indianapolis Clowns, the same team from which Larry Doby went up to the majors.

Brandon is in the same circuit as Winnipeg, Carmen, Manitoba, and Minn. N. D. The hard swinging leftfielder has played no favorites, hitting over-the-fence drives in each one of the five loop parks.

He joined the Greys this spring after serving two years in the Army. Wilson, born and raised in Sanford, is a field hand in the winter around Sanford.

Cards Play Jax Beach Here Tonight On Ladies Night

Old Timer Selects 7 Cardinals On All-Time Sanford Ball Club

By THE OLD TIMER

Well, I been asking around what goes on over the Glorious Fourth of July around here, and all I can hear is about them beetles what's gonna carry on some high jinx over at the Beach and their handball what's gonna get into, or else down at the Silver Spurs. Roden at Kasmir. That leaves no excitement for the locals staying home from their places.

Even our bowl club is going "on the road" to play, which is just as well, because some home fans elsewhere will get a chance to see their boys wins. But that still leaves us without excitement.

This situation has got to be changed somehow, either we get to

John Callahan, John Imbra, Buddy Lake, Price Westbrook

These selections are made without benefit of record book, and are limited to players the Old Times has seen and remembered, and that's the reason you won't see fellows like Herb Chapman, Tom Holt, Floyd Palmer, Huddie Burdick, Pop Walker, Hugh Wheeler, Heinie Ball, Morris Senezer, Joe Harper, Earl Higgins, Rube Elrod and a host of others as near of from time to time.

This team has eight pitchers. They are: Hudson, Jetter, Pinder, Wynn, Lake, Stevens, Schultz and Leffield. Tom Leonard, Catcher—Livingston, Red Lane. First Base—Westbrook. Second Base—Horton. Rightfield—Silverthorne. Third Base—Batty. Shortstop—Clay.

The stage is all set for an argument. Why not Ed Levy or Dale Alexander on first? Why not Jones on third? Why not Imbra on second, and so on far into the night.

Butler Leads Legion Offensive With Robust .444 Batting Mark

Jimmy Butler, shortstop and lead-off man for the Sanford American Legion Junior Baseball Team has posted an early season .444 batting mark to jump off to a quick lead in the race for "Bible Bird" offensive honors. In second place are "Luscious Larry" Bates and Jim Hawkins, each with a .400.

Actually, however, the leading batsmen are "Freddie" Katz with an astronomical .750 average and Jack Kilder at .500, while Jimmy Wade is pushing them with his .400 record. But each of the trio has played in only ten games.

Butler, meanwhile, has been the club's big gun all along. He picked up the only safe rap in one game and leads the squad in the hit department with 8—largely through his 3-0 performance against Orlando here Tuesday. He also is

Dove Season Split Will Be Advocated

TALLAHASSEE (Special)—Members of the Game and Fresh Water Fish Commission adopted a resolution requesting the U. S. Fish and Wildlife Service to provide a split dove shooting season for Northwest Florida and a single season for the rest of the State at a meeting here.

Last year there were two dove seasons—the first two weeks in October and the last two weeks in December throughout the entire State.

Sportsmen in Northwest Florida, particularly in the areas of Franklin, Wakulla and Leon Counties, asked that the same system be used again this year because they get an early flight of birds. They added that most of these birds left by early November.

However Central Florida hunters protested the early season because they said it encourages violations by the killing of other game before the opening of the regular season.

Sanford Loses To Jax Beach, 4-2; Dunn Hits Homer

By KENT CHETIAIN

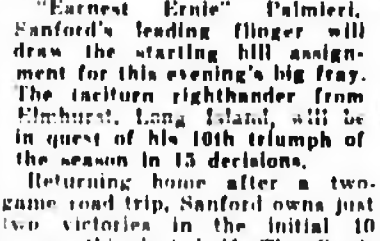

Tonight, the Sanford Cardinals will be entertaining the Jacksonville Beach Sea Birds on Ladies Night at the Memorial Stadium. After last night's 4-2 loss in Jax Beach to the Sea Birds, the Cardinals will be seeking to gain their second two-game series split in a row.

"Earnest Ernie" Palmieri, Sanford's leading fliker will draw the starting bill assignment for this evening's big fray. The taciturn right-hander from St. Petersburg, Long Island, will be in quest of his 10th triumph of the season in 13 decisions.

Returning home after a two-game road trip, Sanford owns just two victories in the initial 10 games of the last half. They have won both encounters on the road and have lost all four games at home as well as four more already.

This gives the Redbirds a .333 mark away from home, equalling the 11-22 record of the first half. However, the loss percentage at home is a far cry from the .666 stringency clip maintained in the initial phase of the season.

Cocoa Ties Islets On One-Hitter By Rookie Daviault

By The Associated Press

Rookie Ray Daviault stopped Daytona Beach on one hit Wednesday night in give Cocoa a 5-1 victory and put the Indians back into a tie with the Islanders for the Florida State League lead.

Daviault struck out six and walked six in pitching his fifth victory of the season. He lost a shutout when the Islanders scored an unearned run in the third inning. Barrios leby got the only hit off him, a single in center in the sixth.

The defeat broke Daytona's winning streak at six.

Other action saw Orlando protect its hold on third place with a 5-3 victory over Leesburg. DeLand whip Lakeland, 7-3, and Jacksonville Beach take Sanford 4-2.

Sanford manager, Jim Hisebee, had a seventh inning home run with one on base to break a 3-0 lead. Ray Brink set Sanford down on seven hits and was in complete control except when the Cards scored on an error in the fourth and Manager J. C. Dunn's homer in the ninth. Jacksonville Beach decided the issue in the first inning with Don Reimer scoring on Sid Hatfield's fly and Red Foster singling in Angle Pompella and Jim Huseber.

DeLand's Jack Cade yielded Lakeland 12 hits but received fine backing in the form of 17 blows and four double plays. The Red Hats chased Gordon Scargle with a four-run attack in the fourth inning, and in the fifth Fred Kierman got a two-run triple off Manager Chuck Aliso.

Mantle Leads Poll As Deadline Nears

CHICAGO (AP)—Balloting will end at midnight tonight in the 1953 poll to name the National and American League lineup for the 20th annual interleague baseball game in Cincinnati on July 14.

In the latest tabulations of returns at the Chicago Tribune's balloting headquarters, the 16 starters retained their positions. The poll started June 12.

Mickey Mantle, New York Yankees centerfielder, still led the individual vote getting with 670,850 ballots. Ted Kluszewski, Cincinnati Reds first baseman and the hero of last night's triumph over the Milwaukee Braves, is the second highest individual vote-getter with 667,204. Kluszewski is far ahead of Brooklyn's Gil Hodges in the race for the first base starting job.

Bradley Sees No Change In Red Threat

General Is Mum On Korean Situation

WASHINGTON — Gen Omar N. Bradley, who will soon step out as chairman of the Joint Chiefs of Staff, said today he saw "no change" in the long range Soviet threat to the United States. He also said he saw no change in the Korean situation or in the chances of an armistice in the Far East.

Bradley made this comment at a news conference at which he announced he would be chairman of the Bulova research and development laboratories when he leaves the Pentagon Aug. 18.

The veteran soldier declined comment on the Korean situation or on the chances of an armistice in the Far East.

But in reply to questions Bradley cautioned against over optimism as a result of the reported troubles behind the Iron Curtain. He said it was possible that such disturbances in Soviet satellite countries could actually contribute to a united Communist effort if the Reds could make it appear the outside world was trying to interfere in their family quarrels.

Race Track Cash Is Turned Over To 67 Counties

Seminole County race track devotees who may be wondering what happened to the flood of cash they pushed through the pari-mutuel system last season should know that each one of the 67 counties in Florida received \$120,000 as its share.

County Clerk O. P. Hendon said that money received by this county was one of the few in the immediate vicinity of this city which quite a number of local residents went to Daytona Beach for the Dixie Follies there, while others saw the Silver Spurs Riders at Kalamoogee. He said the money was turned over to 67 counties.

Iron Hand, Soft Glove Used To Quell Rioting

BERLIN — East Europe's Soviet masters displayed both the iron hand and the velvet glove today in their attempts to quell riots and outright rebellions by their discontented peoples.

The soft approach was on in Rumania, where Red leaders, fearful of anti-Communist revolts, ordered additional rations of bread, flour, potatoes, vegetables, sugar and oil distributed to the people.
