IMPORTANT CHANGE INPOLICY

CTUDEBAKER herewith announces the discontinuance of the custom of presenting a new line of automobiles each year. Instead of bringing Studebaker Cars dramatically up-to-date once in twelve months, we shall keep them up-to-date all of the time—with every improvement and refinement made available by our great engineering and manufacturing resources. This policy not only directly benefits present Studebaker owners, but it also enables purchasers of new cars to obtain models that are always modern—without the necessity of waiting for annual changes, and without the danger of their new cars becoming obsolete.

A buyer is needed to make a sale possible

There is no doubt that, in Sanford or Seminole county there are people who need almost any particular article at all times. If an article is not a general necessity, there are few buyers, but a market can be found every day for anything if the proper effort is made to locate that market.

engineered and manufactured and so eminently satisfactory in the hands of owners, that drastic annual changes are not required.

Improvements and refinements will be made from time to time. New features will be added. When our engineering department (maintained at a cost of more than half a million dollars a year) devises an improvement in any model, it will be made without regard to the calendar.

As in the past, we shall continue to pioneer vital betterments that have proved their merit through practical use. Alert, aggressive, receptive to new ideas, resourceful in executing them, guided by scientific research and spurred by imagination, the Studebaker organization proposes to build better motor cars than

Now you may buy a Studebaker on any day of the year with the confident assurance that the sturdy, thrifty, one-profit car you drive away will not be stigmatized by any act of ours as a "last year's model." Sanford will get her share of homeseekers

"THROUGHOUT the entire United States people are talking about Florida. Every newcomer to Sanford who comes into our office tells about some neighbor or someone in his home town who intends to come to this state this summer or fall. Some—who have heard so much about Florida that they want to see what it is like.

THE Sanford Chamber of Commerce has been the means of giving Sanfor much desirable publicity throughout the northern States. This coupled with Sanford's natural advantages will bid for a larger portion of homeseekers and tourists this season.

INVESTMENTS in Sanford are fast becoming the choicest in the State and indications are that by fall Sanford will be recognized by all as the most desirable city for both homeseekers and investors.

Miami Shores Property values will be very similar to the present values in the city of Miami.

And 50,000 people will live at Miami Shores sooner than you or we now imagine.

IF YOU COULD HAVE BOUGHT in the city limits of Miami a few years ago at the then-prevailing prices, which were similar to those today at Miami Shores, you know perfectly well that you would now be absolutely independent.

MIAMI SHORES TODAY position to do for you, as an investment of today, what Miami did in the early days for those who had faith and vision then.
