Road Financing Not On Agenda

By JIM PURKIS
Associated Press Writer
TALLAHASSEE, Fla. (AP)—A special legislative session, to be called around Dec. 1, won't take up road construction financing unless Gov. Claude Kirk produces some specific and workable proposals, Senate President John Matthews said today.

"You've got to have a government giving cooperation," the Jacksonville Democrat said in an interview.

Kirk, a Republican, has already blasted legislators for failing to produce funds for building roads in Florida, and failing to implement the \$6 billion, 16-year roadbuilding program, advocated by the State Transportation Department.

Legislators in turn have said that all Kirk has to do is present them with a specific program, pledge to support it himself—including gasoline tax increases if necessary—and they'll continue and consider it.

"If the governor really comes out with a program and calls the legislators, I think you'll get something," Matthews said.

Matthews stated Wednesday that he and House Speaker Fred Schultz, D-Jacksonville, have agreed to call a special session for "about Dec. 1" with the legislative agenda revolving the question of when to hold the 1970 primary elections.

Under the present action, the primary would be held at the same time the regular 1970 Legislature would be in session.

Matthews, in response to a question, admitted that the Senate is on a tight budget because it mistakenly requested less funds than it needed for 1969-70 operations, but said he felt the special session would not break the budget.

"Costs will be minimal," he said, "but we anticipate any additional clerical help. Most senators are not using their \$300 per month expense account and we have some extra there," Matthews said.

Osborne has already been asked to call a special session for "about Dec. 1" with the legislative agenda revolving the question of when to hold the 1970 primary elections.

Under the present action, the primary would be held at the same time the regular 1970 Legislature would be in session.

Osborne Rebukes Bafalis

JACKSONVILLE, Fla. (AP)—Helping to a prediction that he would be dropped from the Republican ticket next year, Lt. Gov. Roy Osborne said Wednesday it's up to the governor to pick a running mate and Osborne himself will be asked.

The prediction came from State Sen. L. A. "Skip" Bafalis, who said Osborne won't be paired with Gov. Claude Kirk next election.

The remarks came after both men made separate appearances here.

Saying he had no inside information but based his opinion on observations Bafalis said he believes Osborne will strike out on his own and seek another office.

Osborne shied away from revealing his plans for 1970. He said it is up to Kirk to ask if he wants him as a running mate and they haven't discussed it.

Asked about other offices, Osborne said he isn't the type who sends up tall balloons and wouldn't speculate along that line.

Striptease

BUDAPEST (AP)—How does one become a striptease dancer in one of Budapest's half-dozen night clubs?

By producing a certificate of a dancer.

A decree published by the cultural department of Budapest metropolitan council, said to perform a striptease act in public the artist has to produce a valid permit entitling her to operate as a solo dancer.

Officials Ask Question

Do You Want To Pay Transport Costs?

By JOHN VAN GIESON
Associated Press Writer
TALLAHASSEE, Fla. (AP)—Do parents joining the swelling chorus of complaints about the two-mile school bus limit, education officials have this answer:

Do you want to pay the cost of transporting your children to school in shoe leather or in increased taxes?

"Almost any route you take in a solution, you always come back to money," said Posey Baird, director of the State Department of Education transportation section.

Statistics prepared by Baird last year show that it would cost something like \$4.4 million to cut the limit to a mile. The total cost of school bus transportation in Florida is presently about \$16 million.

Proponents of the two-mile limit, however, are mounting.

When classes opened last week, 16 Turkey Creek mothers were arrested for obstructing traffic along a highway they said was dangerous for their children to walk.

Parents also marched in Miami and in Tallahassee television stations crusaded against overcrowded buses in Leon County.

Gov. Claude Kirk was inspired to write a letter of protest to Education Commissioner Floyd Christian, an old rival.

Christian has ordered his staff to study the two-mile limit with a view toward reducing it for younger children. If the limit is not changed many five-year-olds will have to walk up to two miles to school when kindergarten becomes mandatory in 1971.

"With the coming of kindergartners it seems that we should give some consideration to reducing the walking of small children," Christian said.

The two-mile limit was established by the Legislature in the late 1930's, Baird said.

Burglars Get \$400 In Sanlando Safe

A heavy metal safe, containing approximately \$400 in cash and employee payroll checks, was removed last night from Sanlando Springs office by thieves who broke a lock to open the door to the park office building.

Investigator L. J. Kriz has been assigned to the case after the burglary was reported early today.

Ted Weber, park manager, said actual amount of money in the safe was undetermined and the payroll checks would be re-issued today by the firm's Orlando office.

Chief Deputy Duane Harrell and Sanford Detective Ralph Russell yesterday returned from Tallahassee with information gathered during the investigation of the death of Bobby Thompson, Sanford fireman.

Harrell said both city and county had forwarded evidence to the State Crime Laboratory following the arrest of Frances Thompson, the dead man's wife, on murder charges.

These items and laboratory findings will be used during the trial to begin Oct. 20.

Area Schools Packed

Five teachers will be added to the staff at English Estates after it was determined that overcrowding exists and the primary classes could be resolved by moving and afternoon sessions.

To ease the overflow at Lake Mary School, some pupils will be transferred to Pine Crest School and two classes will occupy the Lake Mary auditorium.

Four portable units will be added to Altamonte and three at Spring Lake to handle over-crowding. Caseberry will place classes in the library and receive two portables.

Two secondary schools are also receiving more students than had first been thought.

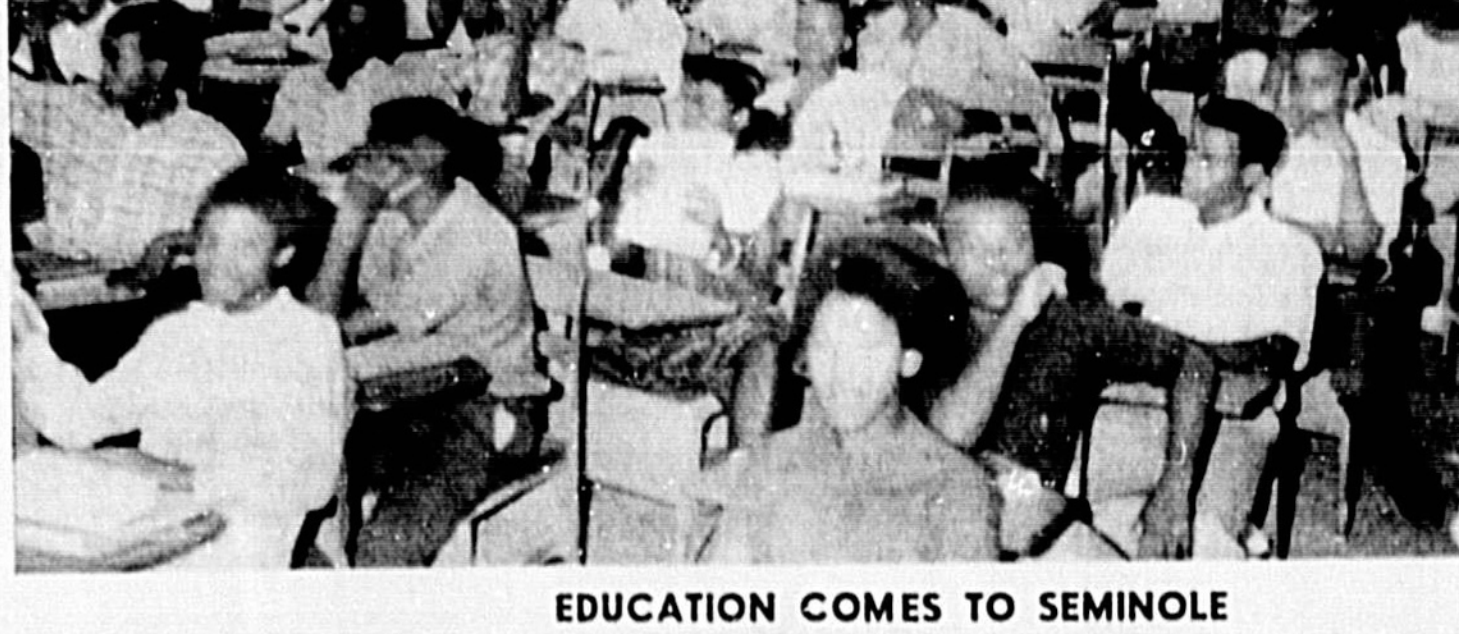

Stewart Gatchell, assistant superintendent for instruction, reported four more teachers are needed at Lyman High and South Seminole Junior High. This would involve two proposed teachers not needed at Seminole High to Lyman and making other reassignments from Lake-view Junior High to the south county junior high.

School attendance has now climbed to 29,814 students including kindergarten, Andrew Bracken, school aide, informed this was 904 more than first day expectations. On the first day of school, Bracken said enrollment figures showed 15,419 white and 1,902 black students. Figure now is 15,886 white and 1,332 black pupils.

Investigations from 11:45 a.m. to 2:00 p.m. in Cameron City and Lake Char areas were present at the meeting to protest this year's busing changes made by the board in line with the freedom of choice school plan.

Supt. John Angel in an effort to resolve the complaints took leave of the meeting to go into a "skull" session with parents.

Later, Angel told The Herald that problems had been solved with requests to provide transportation being handled in conjunction with the school's transportation department.

Altamonte Springs Seeks \$\$ Rec Area, Civic Center Eyed

By DONNA ESTES
Proposals from architects on development of the municipal recreation area and the quest of still more federal funds for construction of a civic center were major topics of discussion at the continued news press conference.

Occasionally in the news profession along comes a person gifted in the field one known in the profession as a "newspaperman's newspaperman." There are reporters and then there are reporters. Some learn how to handle the news that appears before them but there are others who also know how to dig it out or make it happen.

Donna Estes is the latter, a "newspaperman's newspaperman" (not to be confused with a newswoman or duff reporter) but an honest newspaper reporter. Donna came into The Herald as a "stringer" and a proofreader. She is leaving our midst today for more lucrative fields as one of the very best newspapermen in the state of Florida. Good luck to you, Donna.

City Manager W. E. Knowles wanted no time getting the Sanford Airport deed recorded at the Seminole County courthouse.

Knowles took the former Navy base title for recording after the 3 1/2 acre ceremony yesterday and last night mailed a certificate back to the Atlanta General Services Administration office.

The city manager said it was a "standard deed" with a reverter clause in case of a national emergency.

Remember all of the hoopla we printed on last year's State JC Basketball Championships? You know it . . . Sanford's one-and-only S.J.C. Raider basketball team, coached by Joe Sterling, Glens when they're practicing . . . in Orlando, that was where Seminole High's gym is being reactivated. Cronus '80 is being reactivated. Cronus '80 is being reactivated. Cronus '80 is being reactivated.

The Jewish tradition holds that God created the world on this day and all men pass in review before the all-seeing eye of God now.

Solemnity marks the services for this day. The ram's horn is sounded to remind Jews to look within and repent and that because of their faith they will be protected during the year from all its tribulations. But festive joy follows. It is the belief of the rabbis that on Yom Kippur the celestial book of accounts will be closed and judgment reached.

On Yom Kippur, also, the story of the sacrifice of Isaac is read aloud in the Synagogue. This is to commemorate the faith that Abraham had in God as he was willing to sacrifice his son, Isaac, to the Lord.

The Day of Atonement is a fast day instituted by Moses during the wandering in the wilderness to remind the people that they had worshipped the golden calf.

On the even of this day candles are lit and the cantors in the synagogue sing the Kaddish supplication while the congregation sings after him.

Altamonte Has \$\$ Problem

Altamonte Springs' financial problems were temporarily solved by the City Council last night at least for another month with transfer between accounts to allow the city to continue its operation until Nov. 1.

Hope was expressed that a windfall will be forthcoming by the city to allow the municipality to continue its function until beginning of the new fiscal year, Jan. 1.

The city government has found itself in the predicament of having only \$1,000 in the general account after payment of the bills on hand and the payroll for this week.

Mayor W. Lawrence Swofford brought to Council's attention last night that he had warned the board months ago that the budget was tight and expenditures not budgeted should be curtailed. "I made the statement then that we would be broke in September of October," he said.

"Why should we be so low in September," Sabbathse asked, and was answered by Councilman Keith Nixon "because we spent the money."

Swofford listed unbudgeted amounts spent included \$1,000 for a car kept instead of being traded in another \$1,000 for a truck and \$1,000 for Hwy. 215 tons in load from O'Brien Lake Elementary, it without black students.

Three out of six formerly black schools are now without integration. These include Goldsboro, Midway and Rosewald elementary schools.

Previous black school with white enrollment this term include Hopper and Jackson Heights elementary and Crooms High school.

Because of bus zones implemented this year by the board, there has occurred a marked increase in desegregation in an effort to eliminate a dual bus system for black and white students.

(Cont. On Pg. 1B, Col. 4)

Shofar Will Sound

By CHARNER LEONE
The claxon call of the ram's horn, the shofar, will summon Jews to look within and begin their Season of Repentance this weekend.

Rosh Hashanah, the Jewish New Year, will begin on the penultimate season Saturday, Yom Kippur, the Day of Atonement, will begin the season to a climatic close 10 days later.

According to the book, "A Pictorial History of the Jewish People" by Nathan Aschold:

This season of repentance was designed to "soften the erring heart of man" with contrition for his misdeeds. Thus, it comes to wholehearted repentance by the time that Yom Kippur arrives. Jews all over the world will spend much of the 13th month of the Jewish calendar, Orthodox Jews celebrate it for two days instead of one to where they celebrate for some overlapping period with Jews around the world.

The Jewish tradition holds that God created the world on this day and all men pass in review before the all-seeing eye of God now.

Solemnity marks the services for this day. The ram's horn is sounded to remind Jews to look within and repent and that because of their faith they will be protected during the year from all its tribulations. But festive joy follows. It is the belief of the rabbis that on Yom Kippur the celestial book of accounts will be closed and judgment reached.

On Yom Kippur, also, the story of the sacrifice of Isaac is read aloud in the Synagogue. This is to commemorate the faith that Abraham had in God as he was willing to sacrifice his son, Isaac, to the Lord.

The Day of Atonement is a fast day instituted by Moses during the wandering in the wilderness to remind the people that they had worshipped the golden calf.

Republican Drive In Florida A Challenge!

Editorial Comment

If there were any politicians in Florida who were not for the GOP drive in 1970, they ought to know it now.

Witness to this is the Republican pov-vow in Orlando where national strategists are gathering for the kind of assessment of strengths and weaknesses which augur well for a continuing increase of the political power which generates directly from the White House.

Life & Living

A lot of people are talking about the problems of aging. In Washington, the Eighth International Congress of Gerontology turned up some new hopes and old fears. At the United Nations, the gaudy of international problems — Tim Malta — asked that a panel of experts assess "medical advances which can retard the problems of aging." The United States Senate Special Committee on Aging has heard from a group studying the aged poor that "millions of the elderly in the United States are living today in poverty, and most did not become poor until they became old."

Crane's Worry Clinic:

Love - Marriage Dialogues

By PHIL D. M. D. **CASE 1-806:** Squire Dushnell directs the "Contact" show on WBTV at Boston.

Via television recently invited me to fly to Boston for another appearance under the name of WBS-TV at Boston.

On the Jerry Williams show is on from 8 to 10 each morning. Squire informed me.

"And we want to focus attention on problems of love and marriage, so you immediately came to mind."

"Could you please hop a plane and be with us again for Friday?"

After Jerry Williams and I had discussed various aspects of love and marriage for 15 minutes, we then began accepting telephone calls from women viewers.

In fact, the switchboard was jammed! Many calls came from irate women who resented my warning them that cupid seldom shoots his arrows at female.

You regular readers will recall my standard "needing" of let me give you for 10 minutes and then when they look like waddling walrus — as they jiggle down the street, they produce laughter but not romantic notions in men.

And if their delectable husbands finally try to revive some of the courtship memories that have been in cold storage for maybe 20 years, and thus hold their wife on their knee, it is like balancing a baby hypothesis.

Or, if he struggles to steer her across the dance floor, it is like waddling with the GOP elephant!

And some of the viewers grow inward because I warned them that cigarettes retarded their allure.

"Dr. Crane," one college woman primly announced, "I have never yet seen my husband show any dislike of my smoking."

To which I replied that a husband is too pallid or else too intimidated by his shrewish wife to tell her the plain truth.

But these men will tell you

Hal Boyle Says:

By HAL BOYLE **NEW YORK (AP)** — Have you given yourself a prestige checkup lately?

If not, why not?

Millions of Americans now get some kind of annual medical checkup. This is good as far as it goes, but it doesn't go far enough.

A medical checkup only determines the state of your physical health. It lets you know how much need of annual medical checkup. This is good as far as it goes, but it doesn't go far enough.

A medical checkup only determines the state of your physical health. It lets you know how much need of annual medical checkup. This is good as far as it goes, but it doesn't go far enough.

Political Notebook:

Key To Age's Dilemmas? You!

By RAY CHOMLEY **NEA Washington Correspondent** — This reporter has come across a "most amazing cover-up" of government and Congress. Space agency men behind their communities and hiding these aid projects as though they were invisible.

Or illegal (which some of this help is, the sending and the projects not having been authorized by the President, the Congress or the National Aeronautics and Space Administration top officials).

To understand this crazy, mixed-up situation, consider the bitter irony of this nation's space scientists, now that they have succeeded so brilliantly in landing on the moon.

On the one hand, the space scientists are beset with local public and congressional enemies. The politicians claim to want the exciting space program to help now. The space scientists' income is so small that the aid they want is just a few hundred dollars a year.

But all this takes time — sometimes years.

The time it takes to get aid is just not the aid they want to help now. The time it takes to get aid is just not the aid they want to help now.

Global Comment:

Slow Burn In White House?

By DAVID POLING **The Washington Post** — What is happening in the Middle East — many in Lebanon and the Arab states is a "hot" conflict. You read reports of bombing raids, communique skirmishes and new plans for a major defense by either side.

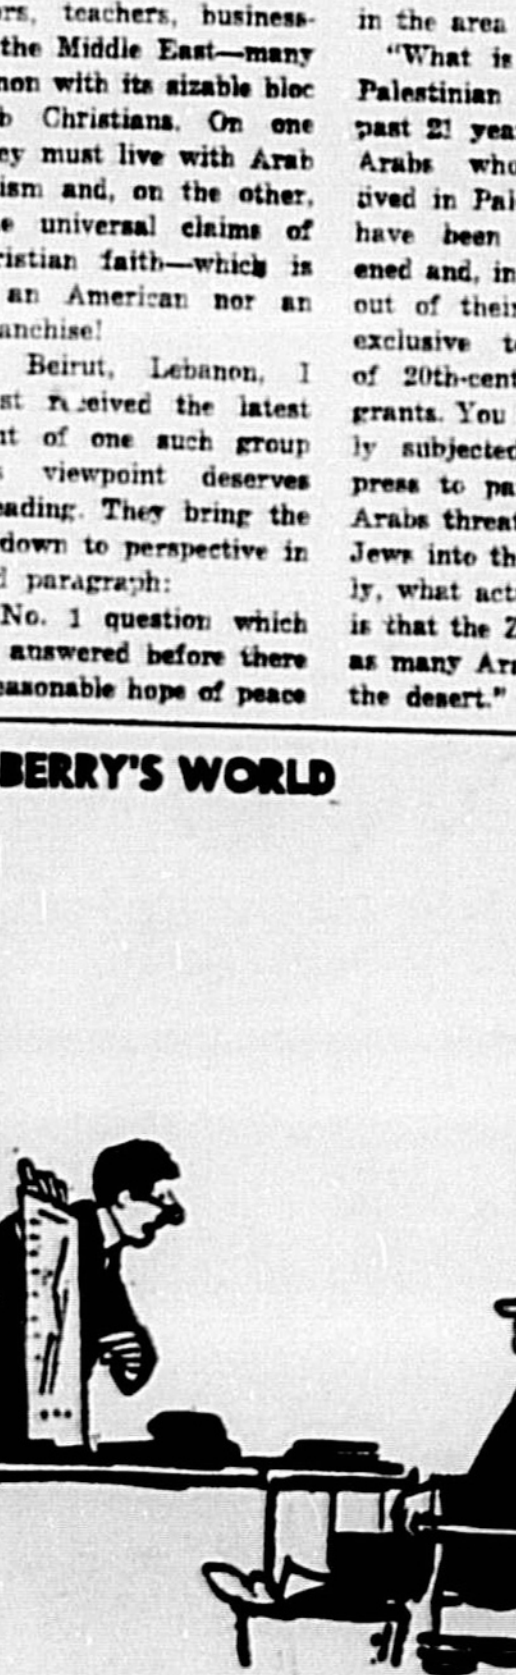

The four-point talks have not gained any significant ground in the search for peace in the Holy Lands. The United Nations resolution of Nov. 22, 1967, still stands unimplemented.

A high United Nations official told this writer there simply was no solution to the war as long as the position of the United States was in absolute support of Israel. He was especially critical of the Jewish community in America and its influence on Washington policy.

All of this makes for confusion and uncertainty within the Christian community. As we have written before, a small but vocal group in the Christian community sees the Israel victory of June, 1967, as the fulfillment of biblical prophecy. To their thinking, God's victory over the evil, unbelieving world rides on the tracks of a Sherman tank and is signified by the Zionists have taken as many Arabs as possible into the desert."

BERRY'S WORLD

Obviously, funds for domestic programs, after space in Vietnam, would be available to the U.S. to help complete rebuilding North Vietnam.

Obviously, funds for domestic programs, after space in Vietnam, would be available to the U.S. to help complete rebuilding North Vietnam.

Students 'Cool It' With OK

MIAMI (AP) — Classes on the grass and carbide lectures were the order of the day at Florida Junior High Wednesday.

Some 1,800 pupils and their teachers took to the lawn after Principal Walter Young decided the school had become a sweltering greenhouse. It was a matter of 80 degree temperatures and no air conditioning.

The school's air conditioning system failed last Friday, Monday and Tuesday were hot and Wednesday promised more of the same.

"I just couldn't take it any longer," Young said. Some of the rooms in the Intercoast Parkway don't have windows. "It wasn't awfully hot — 85 degrees or so — but you put a lot of hot bodies in a closed room and it gets stuffy, to say the least."

Young's decision was popular with the pupils, who he said had very well, under the circumstances. "It really impressed me, how much learning we got done," he said.

The only damper cropped up when Young got soaked moving the lawn sprinklers away from the middle classrooms. "I suppose the kids got a kick out of that," he said.

That, on relief, in light from the suboptimal temperatures, Young lifted the school's ban on Bermuda shorts. "Anything below the waist was OK," he said, "as long as it's in good taste."

Classes will continue on the lawn the remainder of the week, he said, and field trips to the beach were included on the approved agenda.

"The cooperation from the kids and the community has been good," Young said. "Now, if only it doesn't rain."

In fact, the switchboard was jammed! Many calls came from irate women who resented my warning them that cupid seldom shoots his arrows at female.

You regular readers will recall my standard "needing" of let me give you for 10 minutes and then when they look like waddling walrus — as they jiggle down the street, they produce laughter but not romantic notions in men.

And if their delectable husbands finally try to revive some of the courtship memories that have been in cold storage for maybe 20 years, and thus hold their wife on their knee, it is like balancing a baby hypothesis.

Or, if he struggles to steer her across the dance floor, it is like waddling with the GOP elephant!

And some of the viewers grow inward because I warned them that cigarettes retarded their allure.

"Dr. Crane," one college woman primly announced, "I have never yet seen my husband show any dislike of my smoking."

To which I replied that a husband is too pallid or else too intimidated by his shrewish wife to tell her the plain truth.

But these men will tell you

Hal Boyle Says:

By HAL BOYLE **NEW YORK (AP)** — Have you given yourself a prestige checkup lately?

If not, why not?

Millions of Americans now get some kind of annual medical checkup. This is good as far as it goes, but it doesn't go far enough.

A medical checkup only determines the state of your physical health. It lets you know how much need of annual medical checkup. This is good as far as it goes, but it doesn't go far enough.

Love - Marriage Dialogues

By PHIL D. M. D. **CASE 1-806:** Squire Dushnell directs the "Contact" show on WBTV at Boston.

Via television recently invited me to fly to Boston for another appearance under the name of WBS-TV at Boston.

On the Jerry Williams show is on from 8 to 10 each morning. Squire informed me.

"And we want to focus attention on problems of love and marriage, so you immediately came to mind."

"Could you please hop a plane and be with us again for Friday?"

After Jerry Williams and I had discussed various aspects of love and marriage for 15 minutes, we then began accepting telephone calls from women viewers.

In fact, the switchboard was jammed! Many calls came from irate women who resented my warning them that cupid seldom shoots his arrows at female.

You regular readers will recall my standard "needing" of let me give you for 10 minutes and then when they look like waddling walrus — as they jiggle down the street, they produce laughter but not romantic notions in men.

Global Comment:

Slow Burn In White House?

By DAVID POLING **The Washington Post** — What is happening in the Middle East — many in Lebanon and the Arab states is a "hot" conflict. You read reports of bombing raids, communique skirmishes and new plans for a major defense by either side.

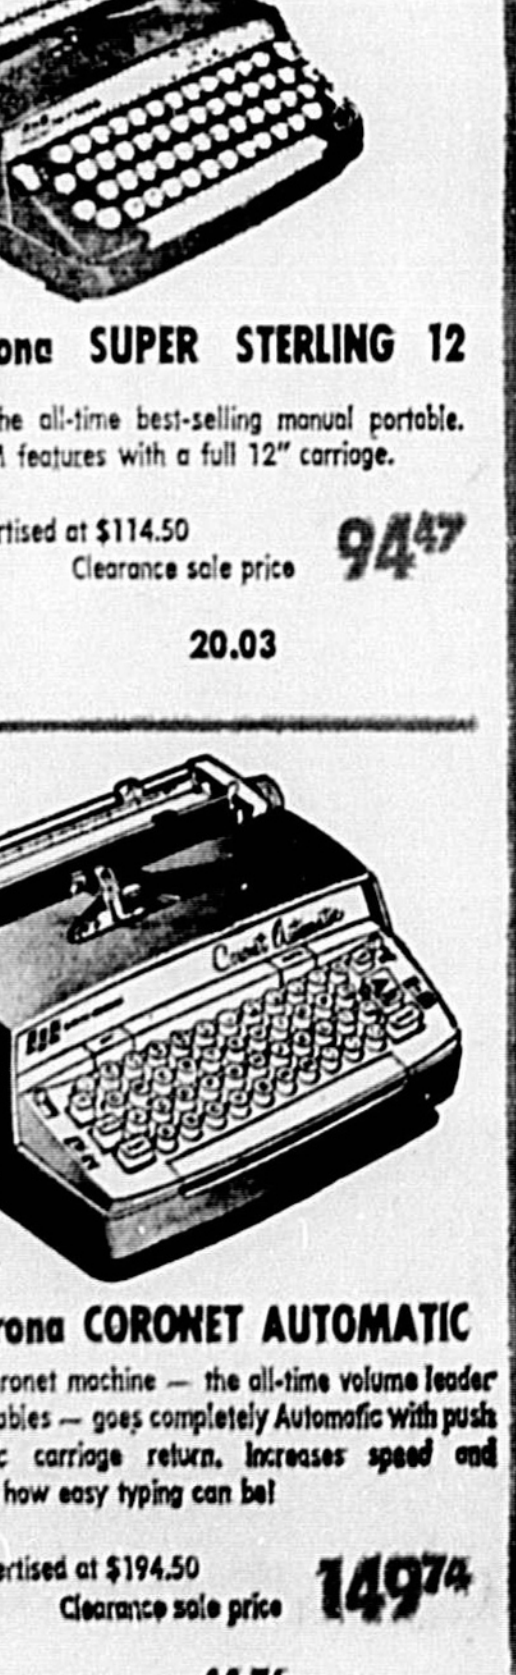

The four-point talks have not gained any significant ground in the search for peace in the Holy Lands. The United Nations resolution of Nov. 22, 1967, still stands unimplemented.

A high United Nations official told this writer there simply was no solution to the war as long as the position of the United States was in absolute support of Israel. He was especially critical of the Jewish community in America and its influence on Washington policy.

All of this makes for confusion and uncertainty within the Christian community. As we have written before, a small but vocal group in the Christian community sees the Israel victory of June, 1967, as the fulfillment of biblical prophecy. To their thinking, God's victory over the evil, unbelieving world rides on the tracks of a Sherman tank and is signified by the Zionists have taken as many Arabs as possible into the desert."

BERRY'S WORLD

Obviously, funds for domestic programs, after space in Vietnam, would be available to the U.S. to help complete rebuilding North Vietnam.

Fictitious \$1 Million Puzzles

By F. T. MACPEERY, Associated Press Writer JACKSONVILLE, Fla. (AP)—A fictitious \$1 million asset listing of the Florida Insurance Exchange of Orlando has legislative investigators puzzled.

They wonder how it could have escaped attention of so many persons involved, including the state insurance commissioner, before the company went into receivership in 1967.

At a meeting of the Exchange's advisory committee, Kearsse said Laird Legg Jr., who ran the company, reported he had permission of the state insurance department to include the \$1 million under assets without supporting it in his ability during reorganization.

Kearsse, who sat in on this and other meetings to protect the bank's \$700,000 loan to the Exchange, testified he told bank board chairman Clarence Gay about it.

"This bank report the false entry to the insurance commissioner," asked Rep. Jerome Pratt, D-Palmetto, subcommittee chairman.

"No," Kearsse replied. "It might not have proved to be a false entry."

Pratt asked Harry Landrum, assistant state insurance commissioner, if the entry was authorized by the state.

"No, sir," Landrum replied. Rep. Kenneth Mackay, D-Ocala, asked whose job it would be to check the 1965 annual statement on which it appeared.

Landrum said it would be the chief examiner's responsibility. Kearsse asked why the advisory committee hadn't questioned the entry, replied "The advisory committee was too small."

A member of the advisory committee who later became acting attorney for the Exchange, Tom Mitchell of Daytona Beach, said he knew nothing about the insurance business and found its bookkeeping baffling.

Three Men Replace Ford Prexy

By LOWELL MCKIRGAN, Associated Press Writer DETROIT (AP)—Henry Ford II has named a three-man team to oversee the operations of the Ford Motor Co. after firing Simon E. Knudsen, who has been president of the big auto firm since February 1968.

Ford also indicated he would maintain a closer watch on the company's operations. He is chairman of the board and chief executive officer.

With the firing of Knudsen, announced Thursday, Ford also eliminated the post of Ford president.

Ford would not smile on his statement that Knudsen, advised of the decision Sept. 2, was leaving because "things did not work out as I had hoped they might."

Knudsen, 56, said his dismissal came as a complete surprise. He said the company had prepared under his direction and Ford agreed with that evaluation.

"During the time that I was at the Ford Motor Co., Mr. Ford concurred with every important decision I made," Knudsen said.

Knudsen joined Ford in February 1968 after resigning as fourth-ranking executive at General Motors Corp. He quit GM after being passed over for president in favor of Edward N. Cole, who holds that post today.

Knudsen signed a five-year contract which would pay him \$200,000 a year. He will receive \$16,666 a month for the remaining 41 months of the contract unless he takes another job in the industry or otherwise breaks provisions of the contract.

Knudsen stated Thursday that he would resign GM. The three Ford executives named to replace Knudsen as heads of operational divisions were: Robert J. Hampton, 52, president of Packard and Lincoln Operations; Robert E. Stevenson, 55, president of Ford International Automotive Operations; and Lee Iacocca, 45, president of Ford North American Automotive Operations.

Even before its official publication date of Nov. 5, it is a status symbol. For the first time Random House has limited its distribution to a certain number of copies for each city.

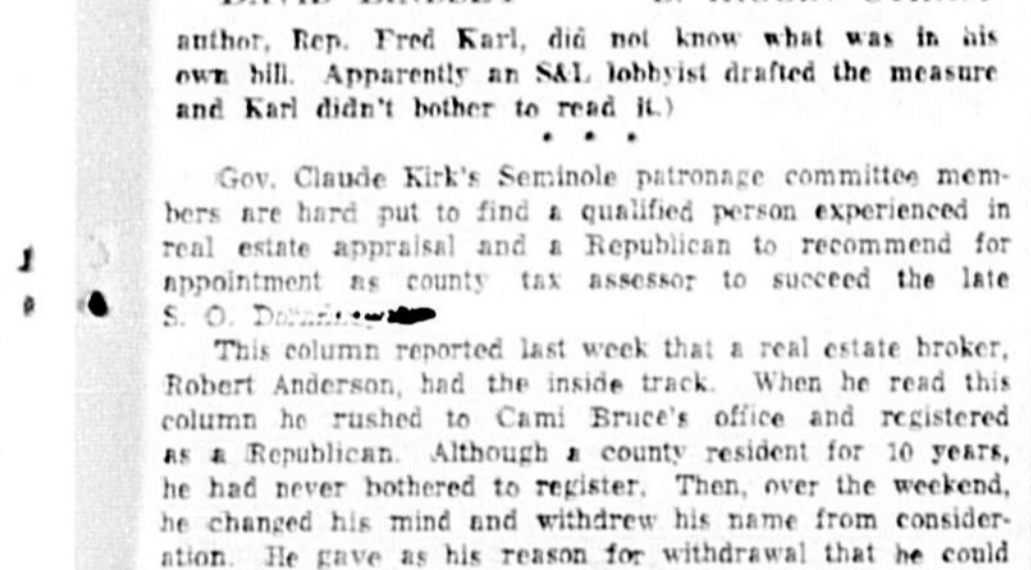

The Friendly Season

By: Fred Van Felt

Secretary of State Tom Adams must have a red face. Earlier this week he garnered front page publicity through out the state with his proposal that schools be operated on a 12-month basis.

Some times times wonder just what goes on in the Legislature, that so many bills can slip through and become law with apparently only a few knowing about it. (In the case of the tax-saving savings and loan law, even the

DAVID LINDSEY E. HIGGINBOTHAM

Gov. Claude Kirk's Senate patronage committee members are hard put to find a qualified person experienced in real estate appraisal and a Republican to recommend for appointment as county tax assessor to succeed the late S. O. Dornier.

This column reported last week that a real estate broker, Robert Anderson, had the inside track. When he read this column he rushed to Cami Bruce's office and registered as a Republican.

Several Republicans now are being considered for the post but at this writing there has been no decision by the committee.

Tom Wilson, the Republican nominee who was defeated for the post last November by Dornier, a Democrat, wrote a letter to County Commissioner Greg Drummond and withdrew his name from consideration and recommended Mrs. Dornier be appointed to fill the position.

Sidney L. Whisen Jr. also has pulled his name from consideration. He plans to run again for the county commission.

Indians Opposing Jetport

By ERIC SHARP, Associated Press Writer JIMMY TIGER'S VILLAGE, Fla. (AP)—A proposed Everglades bypass means progress to his white proponents, but the Miccosukee Indians say they think it means the end of their way of life.

The 300 Miccosukee who live along the Tamiami Trail, U.S. Highway 41, are the descendants of a tribe that fought a long, bloody war against American settlers and soldiers in the first half of the 19th century.

Most of the advantages to meeting out with a month ago, economic crisis, he mentioned the following.

Legislative sides and negotiators could remain at the legislator's home office as he could wait until the weekly session ended before utilizing their services.

Legislators would not have to leave their families to Tallahassee.

B52 Bombing Raids Cancelled In Peace Overture To Hanoi

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — Acting on orders from Washington, the U.S. Command cancelled B52 bombing raids scheduled for Thursday night and today in a peace overture to Ho Chi Minh's successors, military sources said. It was not clear if President Nixon's conference in Washington today with his top diplomatic and military advisers on the Vietnam situation.

Meanwhile B52 attacks continued during the three-day cease-fire this week for Ho's funeral although they were suspended over South Vietnam. There was speculation that the new suspension was accompanied by diplomatic moves elsewhere. A South Vietnamese source said there "will be some peace moves soon."

Military sources said B52 missions scheduled for Thursday night were suddenly cancelled without explanation.

"Part of the schedule was cancelled on orders from Washington," said one source. "We had missions scheduled for the 1st and 2nd Corps, but they were cancelled. I don't know why, I don't know the interplay in Washington. Vietnamese government had no immediate comment."

Sources also reported that the weekly average of sorties the U.S. Air Force's fighter-bombers had dropped 38 per cent since the beginning of the year because there was "less ground action and less call for support."

There was no indication, however, the B52 suspension would remain in effect. There was speculation that the raids would be resumed on an on-and-off basis geared to the intensity of the fighting.

The meeting, which was called several days ago, took on added significance in the light of reports that the U.S. Command had halted B52 bombing raids across South Vietnam.

"It's a gesture of de-escalation, a political move," one Saigon source said. "There is a new leadership in Hanoi."

A French official, a senior French diplomat in Paris, and a U.S. State Dept. spokesman also commented on the move.

ABANDONED BY HIS COMRADES, this wounded North Vietnamese soldier was found with three other men when Marines discovered an enemy hospital complex in South Vietnam. The four were evacuated by helicopter to an Hoa combat base for treatment.

Israelis Kill Eight Guerrillas

By THE ASSOCIATED PRESS
An Israeli army patrol reported killing eight Arab guerrillas in a clash 25 miles north of the Dead Sea Thursday night as rival claims mounted in the wake of the big Israeli-Egyptian air battles over the Sinai Desert earlier Thursday.

A military spokesman in Tel Aviv said the Israeli patrol intercepted an 11-man Arab guerrilla squad near the Damria Bridge which spans the Jordan River. He said there were no Israeli casualties. Three guerrillas apparently escaped, but several rocket attacks from Lebanon and Jordan on Israeli settlements during the night but said they caused little damage.

Israel claimed that in the air battle over Sinai Thursday, it downed 11 Egyptian planes—seven MIG-21s, three Sukhoi T-7s and one MIG-17. Israel said one of its planes was shot down. A spokesman said Israeli casualties as a result of the Egyptian attacks were one dead, three wounded and one pilot missing. The pilot was seen parachuting into Egyptian territory after his Mirage jet was hit.

A senior Israeli staff officer said "dozens of Israeli planes were in combat" against an estimated 40 to 70 Egyptian planes. He said it was an "extremely successful day" for Israel's air force, but said: "I don't rule out the possibility of the Egyptian aircraft testing something else tomorrow. Even though tomorrow is the eve of our new year, we must keep our powder dry and our planes ready for any surprise attack."

A military spokesman in Cairo claimed the Egyptian planes shot down six Israeli jets and only two Egyptian planes were lost.

Chou And Kosygin Meeting 'Useful'

By ANTHONY COLLINGS
Associated Press Writer
MOSCOW (AP) — The Russians said Premier Alexei Kosygin's surprise meeting with Chinese Premier Chou En-lai in Peking Thursday was "useful" but they gave no indication if anything was achieved.

After the first top-level conference between the two Communist giants in 4 1/2 years, the Soviet news agency Tass said in a 150-word announcement: "The two sides openly explained their positions and held a conversation useful for both sides."

Peking's New China News Agency issued a 62-word statement in Tokyo saying the two premiers had "a frank conversation," but it also gave no further details.

It was assumed that Kosygin and Chou discussed the border along their long Asian border, but the words "frank and useful" in Communist communications usually indicate disagreement. It was thought the two leaders also discussed aid

Nixon Eyes War Move

By LEWIS GULICK
Associated Press Writer
WASHINGTON (AP) — President Nixon called in his highest diplomatic and military advisers today for a broadscale look at Vietnam strategy as reports from military sources in Saigon pointed to a new U.S. peace effort.

The meeting, which was called several days ago, took on added significance in the light of reports that the U.S. Command had halted B52 bombing raids across South Vietnam.

"It's a gesture of de-escalation, a political move," one Saigon source said. "There is a new leadership in Hanoi."

A French official, a senior French diplomat in Paris, and a U.S. State Dept. spokesman also commented on the move.

Studied By County Food For Indigent

Some decision is expected by the Board of County Commissioners following a conference on Sept. 30 with state official E. Lee McCubbin on whether the county will continue to pursue a food stamp plan or surplus food commodities or both in an effort to feed the hungry the better part of the year.

McCarthy is chief of the Bureau of Commodities Distribution of the Florida Department of Family Services.

The bureau chief in a telephone interview with the Sanford Herald earlier this week from his Jacksonville office estimated it would take some 90,000 days to implement a food commodities program. On the other hand the food stamp plan could not be implemented until some time after Jan. 1, owing to fact Congress must yet fund the program.

McCubbin said foods available under the commodities program includes beans, canned butter, cheese, corn meal, flour, oatmeal, lard, canned pork and beef, dry milk, peanut butter, dehydrated potatoes, scrambled eggs and other items, 21 different items in all.

Under the food stamp plan, stamps are sold and bonus coupons given on a sliding scale according to income. The coupons and stamps can be redeemed at area grocery stores for food items only.

Longwood Water Loan Is Approved

Short-term loan for some \$125,000 for improvements of the Longwood water system, drilling of a new well and extension to the system has been approved by the Board of County Commissioners.

County Clerk Onnie R. Shomate reported unanimously adopted an ordinance on the matter and authorized Mayor Ken Brown and City Clerk Onnie R. Shomate to execute necessary loan documents. The loan is backed by pledge of water revenues with secondary pledge of utility tax on water bills.

City Supt. Ralph Fisher, Councilman James Brown and Mayor Ken Brown and Councilman B. H. Ferrell were named as a committee to work with City Engineer A. E. O'Neal on proceeding with work on the improvement.

Fisher was authorized to obtain bids on providing fire hydrants at Lyman Meadows Brothers and the new Meadows Brothers apartment complex.

Public hearing on creating a business district (B1) on Sandalwood Springs Drive from SR 47 to Grand Street was set for 7:30 p.m. Sept. 30.

City Attorney S. Joseph Davis, Jr. was instructed to look into the zoning of Webb's Drug Store, Winn-Dixie and the Texaco Gas Station, all on Hwy. 17-92 near SR 49.

GI Club Probe Widens

By FRED S. HOFFMAN
WASHINGTON (AP) — Post-grad sources indicate an investigation of financial irregularities in military service clubs is widening. "The investigators keep turning up new leads," said one source.

He described the problem as appearing most acute in Veterans Affairs (VA) military service clubs, goods and services also is suspected in clubs in West Germany and the United States as well.

The inquiry centers on the way club managers used funds available to operate the facilities.

South Seminole schools next year as there is no degressive zone problems in the 13 schools located there.

Stenstrom indicated he would have the school board vote on a plan to divide the county into districts to treat unfairly if funds were cut off from them in an effort by the governmental agency to shift the southern portion of the county.

This has brought about a modified form of zoning which is actually done away with "choice" plan.

Coupled with this is the right of the administration to move students from one school to another in order to bring about capacity school enrollment.

Stenstrom today revealed a plan to keep federal funds for

Mayors, Solons Are Unhappy Urban Renewal Bids Frozen

By G. C. THILEN JR.
Associated Press Writer
WASHINGTON (AP) — Some 300 mayors and their allies in Congress are growing angry with the Nixon administration's four-month freeze on all applications for stepped up urban renewal assistance.

Officials of the Department of Housing and Urban Development maintain they are working feverishly to lift the freeze and have the Neighborhood Development Program—NDP. But they have yet to develop a spending formula that satisfies the President's inflation-conscious Budget Bureau.

As a result, by one congressional count, some 47 applicant cities and counties stand to lose renewal credit this month for \$24 million in improvements already made. Hundreds of others are losing construction time awaiting a decision from the administration.

Lawrence M. Cox, assistant HUD secretary for renewal and housing assistance, said in an interview "it is most likely" that the freeze will be lifted.

Some 400 cities and counties are in the process of preparing applications for the NDP. The freeze has caused a great deal of frustration among city and county officials who are waiting for a decision on whether to proceed with their projects.

GI Club Probe Widens

By FRED S. HOFFMAN
WASHINGTON (AP) — Post-grad sources indicate an investigation of financial irregularities in military service clubs is widening. "The investigators keep turning up new leads," said one source.

He described the problem as appearing most acute in Veterans Affairs (VA) military service clubs, goods and services also is suspected in clubs in West Germany and the United States as well.

The inquiry centers on the way club managers used funds available to operate the facilities.

Mining's Biggest Recovery Starts

By NILES JACKSON
Associated Press Writer
FARMINGTON, W. Va. (AP) — Work begins today on one of the largest recovery operations in coal mining history, the reopening of a mine sealed last November after explosions that killed 78 miners.

Massive air seals of concrete and steel were to be removed from ventilation shafts to Consolidation Coal Co.'s No. 9 mine as experts watched the operation apprehensively. It was expected to take months.

John Abshera, West Virginia state mine director, told newsmen "Never before in the mining industry has such a hazardous undertaking been attempted with so many unknowns."

The unknowns are so varied officials refuse to set a timetable for the several steps in the recovery operation.

Rescuers will first remove

 82nd Year, No. 16 Price 10 Cents

City, State Parley On Polluted Lake

Sanford Mayor Lee P. Moore, City Manager W. E. Knowles and City Attorney William Hutchison are in Tallahassee today conferring with officials of State Water and Air Pollution Board over this city's lack of a secondary sewage treatment plant.

Knowles drove up Sunday and Moore and Hutchison on Monday morning for the confrontation with the state agency over whether the city is pouring polluted effluent into Lake Monroe.

City officials were requested to advise the state on plans to construct a secondary plant in a letter received by the city a year ago but did not do so due to the lack of \$1,750,000 needed to construct the secondary stage.

Several months ago, Moore, Knowles and Hutchison were informed by letter to appear at Tallahassee today for a hearing on what plans city has for installing the secondary stage.

The state board is required under the new federal guidelines to enforce anti-pollution of lakes, streams and air, and is under the State Board of Health.

A city hall spokesman said the officials are expected back in Sanford late today or tonight but could give no information on what might be required of the city to install the secondary treatment.

City has no money allotted in the new budget, approved for fiscal year beginning Oct. 1, for adding another stage.

Touhy: Seminole Needs Attraction Area Tourist Impact Pictured

By MARION BETHA

Tourist expenditures will total \$700 million annually in East Central Florida by 1975, as compared to the current level of \$277 million. These figures were expressed by Austin Anderson, project leader for the consulting firm of Economics Research Associates, of Los Angeles, before the East Central Florida Regional Planning Council.

By 1983, according to Anderson, the tourist expenditure figure will have increased to \$1.15 billion per year, more than four times the level in 1968.

Anderson described the existing situation in East Central Florida, with data compiled on tourist visitation and length of stay to various levels of spending, construction of new facilities and employment generated by tourism in this area.

ERA's projections for hotel, motel expenses, gasoline sales, food and beverage sales, increased construction and amusement expenses reveal an increase in tourism that will most

Brevard and Osceola Counties. The report places Seminole County at the bottom of the East Central Florida counties as far as distribution of impact in 1983 is concerned. For example, needed hotel-motel rooms, Seminole 407 and Volusia 14,080; food beverage seating, 928 and 24,000; total employment, 2,082 and 22,808, and total facility investment, \$8.7 million in Seminole and \$22.4 million in Volusia.

George Touhy, president of Seminole County Chamber of Commerce, said today that Sanford and Seminole County should consider any tourist attraction competing with Disney World must be of a quality nature, enough to entice tourists to leave Interstate 4, or else they would quickly lose interest.

Promotion is being stressed, Touhy added, upon the natural resources which abound in the East Central Florida area, especially the Lake Monroe Park greatly affect Orange, Volusia, development. The park is expected to entice tourists to

leave I-4.

The growth in facilities necessary to handle the 17.2 million visitors expected in East Central Florida by 1983 will create an increase in local employment over 1968 levels of 101,720 new jobs.

The population supported by this increase (at 27 persons per job) will be 2,746,000 — the total employment at Disney World alone is expected to reach 41,330 by 1983. An example of the impact on hotels and motels is shown below.

New hotel and motel rooms supported by growth in tourism to East Central Florida by 1983 show a total of 41,109. At Disney World 8,720; Brevard 4,129; Indian River 2,120; Lake 1,214; Orange 6,492; Osceola 1,145; Seminole 503; and Volusia 8,885.

Details on such additional facilities as restaurants, night clubs which can be supported by the growth include an additional seating capacity of over 10,000 in an estimated 880 new establishments. With Walt Disney World setting the standards, an increase of tourist expenditures of over \$60 million is expected at attractions alone between 1970 and 1983.

Factors of interest to local governments, which will be sharing sales and other tax revenues, include over 50 million gallons more gasoline to be pumped in the area and an increase of over \$300 million in other retail sales.

Within each county, it must be emphasized that the ultimate distribution of tourist activity within the region will to a large extent be determined by each locality's success in developing facilities that enhance, rather than destroy, the natural environment.

Schools Eye Policy On Insurance

By BILL SCOTT

Board has on the advice of Douglas Stenstrom, school attorney, not allowed use of property without proper insurance coverage since July, 1969, effective date for removal of the immunity law.

A spokesman in the office of State Insurance Commissioner Broward Williams today warned school boards to require all clubs and groups meeting on school property to have insurance to cover the problems that might come up under a new act passed by the Legislature that did away with the sovereign immunity against personal law suits.

The spokesman said the effect on school buildings after class activity got little attention when it cleared the Legislature.

Here in Seminole County, the School Board has been looking into the problem and only last Thursday discussed whether to allow private use of school facilities after hours with the users paying the cost of liability insurance.

Milwee Elects

There will be a combined meeting of the Milwee Junior High School Parent Teacher Association and Booster Club at 7:30 p.m., Monday in the school auditorium for the purpose of electing officers. The Boosters will introduce the members of the football team and cheerleader squad to the audience.

Milwee Elects

There will be a combined meeting of the Milwee Junior High School Parent Teacher Association and Booster Club at 7:30 p.m., Monday in the school auditorium for the purpose of electing officers. The Boosters will introduce the members of the football team and cheerleader squad to the audience.

Water Skis to College

LIZ ALLAN has skied her way from Winter Park to Seminole Junior College. The world's woman champion water skier, who has enrolled at SJC, was nominated this last weekend by Florida AAU for the national James E. Sullivan Award for outstanding amateur athlete in the United States. Final decision will be announced at the national AAU convention in December at Miami.

PILES of garbage like the one shown in the picture above litter the one-quarter mile long entrance road to the Seminole County landfill at Sanlando despite the signs placed announcing that the county dump is only a short distance away. The garbage is apparently discarded along the road when the patrons find the dump closed and entranceway chained off. The signs now read the more dignified "landfill" instead of dump. (Donna Estes Photos)

'Rats!' Complains Longwood Woman

By JANE CASSELLBERRY

night the council refused to act.

Mrs. G. E. Strickland of 329 E. Orange Ave., Longwood, complained to The Herald today that hordes of large rats from the vacant lot next door are invading their garage and that the Stricklands requested that the council enforce the city ordinance requiring owners to maintain their property or the city will have it done and sent them the bill. The 50 ft. lot in question is the property of Sam Hodge and is reportedly overgrown, providing shelter and breeding place for the rodents which, according to

Mrs. Strickland, number in the hundreds.

According to Mrs. Strickland, the owner of the property has refused to clean out the weeds and wooded area unless all other owners are required to do likewise.

Mrs. Strickland stated, "We are very upset at the attitude of the mayor and council, as taxpayers, we are entitled to help and we were practically insulted."

"I have to keep my dog on a leash," she added, "why can't they enforce Ordinance 207, Sections One and Three?"
