Isabella would never have pawned her jewels if she had not known that an investment in a NEW FRONTIER is the one which promises the greatest and quickest reward. And the Alleghany Mountains would still be the western boundary of the United States if hard headed, horny handed pioneers had not realized that no price is too great, physical suffering and mortal danger not excepted, if only a man can get his hands on a piece of NEW LAND in the direction of a nation's travel.

to penetrate the frontiers of olden days. Yet it possesces natural adyantages such as no previous pioneering has evideaced. A playground for millions-both of men and oi money.
Even though it might héstripped of its obvious atiractions as a place in which it is a joy to do no more than simply live and lusurinte, it would still be a land of surpassing endowments.
For, even to the man who can think of nothing but MATERIAL things,
there is no land like Florida.
Add it up in terms of potentialities, in oranges or grapefruit, or ba hanas, or potatoes or whatever crop you will-and there is no state in tho Union which can offer one so great a return for so smail an investment in
Here one gets more harvests per year, larger harvests per acre, greater value per unit, be that unit in bushels, or tons or square miles.
And in Florida the harvest-time is all year round. While one crop
is being marketed another is being matured. Harvest-time is NEVED is being marketed another is being matured. Harvest-time is NEVE followed by a season of ice and snow. Between reaping and planting ther is no pause.

But Florida's greatest crop today and tomorrow and every day is AAPPINESS.
and Florida's other greatest crop during this present era of pioneering is PROFITABLE INVESTMENT!

Look back over the recent history of real estate investments in Flor id inn't it true that the GREATEST increases in value have been mado the highest prices?
Isn't it true that the pioneer, today as always-MIGHT HERE IN FLORIDA-is the one who is SUREST that his profit will be GREATEST?
