## MANY BUSINESS CHANGES IN SANFORD CIRCLES CITY GROWING RAPIDLY

### New Buildings Mean Many Changes In Stores

### MUCH DEVELOPMENT

**BUSINESS BLOCKS BEING  
PURCHASED AND MADE  
OVER AND MERCHANTS  
ARE MOVING.**

The many business changes being made in Sanford is a sure indication of the change in the city's condition as more business and better business means more changes. There is no doubt in the mind of the visitor to Sanford these days that this city is on the eve of one of the greatest developments in its history—not a business boom—for booms are usually punctured; but a steady growth that is remarkable to those who saw the city a few years ago. It is freely predicted by the local capitalists and the capitalists who are coming here to invest their money that Sanford offers more to the investor at this particular time than any other city in the south.

The many sales of business property in which at least a half dozen fine business blocks were sold to local people to be placed in first class condition have caused the removal of many firms and business locations are almost as scarce as dwelling houses here.

The Stone-Gove block recently purchased by the Sanford Furniture Co., and C. F. Williams is being made over and the Chero-Cola, Mrs. A. Simon and the Lee Brothers were forced to take up new quarters. The Chero-Cola Co., is now located in the new Symes-Douglas block, Mrs. Simon has moved to Sanford Avenue and Lee Bros., are looking for a new location.

Messrs. Stokes and Millitzer of Cincinnati have purchased the meat market and grocery in the Hines block recently owned by John Stember and John has purchased the Rapp property farther west on First street and opened a meat market and grocery store.

The Yowell Co., have taken over the second floor of their building on First street and the professional building will be made over for the use of the Yowell Co., made necessary by their greatly enlarged and increased business. The occupants of the second floor are looking for offices and have a difficult time finding them.

W. C. Hill and R. A. Newman recently purchased the DeForest building on the north side of First street, the store rooms occupied by Perkinat & Britt and Edward Betts and while the new owners will probably hold it for rental purposes realizing the increased property values in this city.

The Elks were forced to leave the Stone-Gove building and are now over the Seminole Bank.

There are many other business changes taking place every day, new buildings going up, new buildings contracted for and new dwellings and Sanford is moving towards that goal that spells the great city that nothing can retard in the forward movement.

**Dr Hyman At DeLand**  
One of the most intensely interesting and helpful addresses ever heard in DeLand was that given by Chaplain George Hyman, of Sanford, at the Baptist church last evening the occasion being the annual educational sermon to the students of Stetson University. The several other churches of the city, united in the service and the attendance was almost beyond capacity.

Dr. Hyman's subject was "Playing the Big Game." He handled it in a unique manner. The "Big Game" was the game of life, and as a basis and way of illustration he used a baseball game—the great national sport.

He said that when we are born into this world, we are coming "to bat" and our first thought and job is to

get to first base, and if we are permitted to live we all get this far. Once, on first, we immediately think of taking the next step in life, or getting to second. The most scientific way to reach second base is to "sacrifice". Dr Hyman here brought out a strong point in that many parents sacrifice in order that their sons and daughter may secure an education, thus preparing them to play the "big game" to win.

At second base the runner is half way round the circuit and consequently on the home stretch. The speaker here brought out the fact that it was essential for the runner to watch his captain on the bench and obey the signals which he received and also to watch every opportunity to advance. In the game of life Christ is our captain. At third base the task is to reach home.

Dr. Hyman said that one of the saddest things in the life of a baseball player is to die on third, and so it is in real life. We are at third base the "captain sends in a "pinch batter" which is "redemption", and it never fails.

Dr. Hyman, during his address, gave several of his experiences while in the service as Chaplain. He was cited for bravery.—DeLand News.

## DeCOTTES WINS BIG LAW SUIT

### HARD FOUGHT CASE IN OKEECHOBEE COVERS SANFORD BOYS WITH GLORY.

Hon. George DeCottes of this city won a most important case at Okeechobee and one that is bringing him many congratulations from his friends in south Florida. It was the case of the Pahokee Packing Co., of which B. A. Howard, formerly of this city was the president, vs. The Standard Growers Exchange and culminated in the tomato movement of last year in which the Pahokee section making drafts on the Standard Exchange for same and upon receipt of the tomatoes the Standard Co., turned down the drafts leaving the Pahokee Co., to hold the bag.

John Murrell of Okeechobee assisted Mr. DeCottes and the case was hotly contested from start to finish being remarkable from the fact that court was in session continuously for four days and nights from eight in the morning until six at night and night sessions every night the verdict finally being rendered at 10:30 Saturday night.

The verdict was in favor of the plaintiff for the sum of \$11,791.80 and was a great victory for plaintiff and the attorneys and also established a basis for claims of this kind in the future wherein growers and buyers in Florida are protected from this method of shipping and having the drafts turned down at the other end and violating a bona fide contract.

Mr. DeCottes is a candidate for State Attorney in the Seventh Circuit and while in this case was forced to leave his campaign and missed several meetings but his record on this important case will go a long way toward electing him as the people of Okeechobee who heard the case say George is just about the best thing in the legal line that has ever fought a case in their section.

**Spend-The-Day Party at Beach**  
Guests of Mrs. John Leonard for a motor trip and all day party at Daytona Beach on Wednesday were Mrs. M. Theodore Langley, Mrs. Stella Arrington, Miss Annie Helms, of Tampa, and Mrs. Clarke Leonard of Osteen.

Mildred Holly has joined a house party in Orlando of which Miss Lydia Yowell is hostess.

## SANFORD LIBRARY ASSOCIATION

### NEW BOOKS RECEIVED AND DONATED TO AMERICAN LIBRARY ASSOCIATION.

The following new books have been received since the last report: "Romance of American History," by Edwin Markham. A blending of romance and history which will interest and create an enthusiasm for the real story of our nation's life and the men and women who have helped to make its history. "Theodore Roosevelt's letters to His Children". This has been pronounced to be the most worth while American book of the year for readers of every description and of every age.

"Florida", by Nevin O. Winter. Every loyal Floridian greets with delight any addition to our literature that brings some new description of our state and its resources. To be written up by Nevin O. Winter is no small compliment and this volume is not disappointing.

**Fiction**  
"The Light in the Clearing", by Irving Bacheller.  
"The Re-creation of Brian Kent", by Harold Bell Wright.  
"Bab, a Sub-Be", by Mary Roberts Rinehart.

**Junior**  
"Bluebird", for children. It has been arranged by the author's wife Georgette Le Blanc. The story is delightful and in this form is as fascinating to the younger readers as any of the Oz books.

The Sanford Library is looking forward with interest to the forty-second annual conference of the American Library Association, to be held June 2 to 7 at Colorado Springs Colo. The yearly gathering, which draws attendance from four thousand librarians members and from the public, college and institutional libraries of the United States and Canada, will have special significance next month, as it will occur at the height of the Association's "Books for Everybody" movement, which it is hoped can be concluded July 1.

Librarians of the nation, following the conclusion of their war work of providing library service for the fighting forces, to which the local library contributed by raising money and collecting books, realized more than ever the extreme need for library extension throughout large sections of the United States, emphasized by requests for assistance from ex-service men who had turned to home communities without public libraries. Plans for the Enlarged Program of the A. L. A. were first formulated at the 1919 conference at Ashbury Park, N. J., and have since evolved into a broad project for making public library service a vital influence in every American community and an institution through which self-education will be possible for every American.

Friends of libraries throughout the country are now assisting in raising the "Books for Everybody" fund of \$2,000,000, without resort to an intensive drive. It is expected that substantial progress will be reported at the Colorado Springs conference.

At the forming of the Florida State Association at Orlando in May, the Sanford Library took its place as one of the charter members. Recognizing its first duty to be one of cooperation in the raising of the fund for the "Books for Everybody" movement, the Sanford Library pledged \$50.00, the amount assessed this library by the State director of the association. In helping others we ourselves will be helped in gaining for the Sanford readers many technical books called for, but not at present on our shelves.

**M. E. Key, Librarian.**

**Card of Thanks**  
The family wish to express their sincere appreciation and thanks for the many kindnesses shown us during the illness of our loved one also for the warm expressions of sympathy and the beautiful floral offerings.

Mr. M. E. Smith and children Mr. and Mrs. J. M. Lord and family.

**No Gasoline Relief**  
Washington, June 1.—Recent advances in the price of gasoline and other petroleum products were ascribed more to varying conditions of supply and demand in the light of emphasized and pessimistic statements as to the future supply than to a combination in restraint of trade," by the Federal Trade Commission tonight in a report to congress.

Strong demand is the primary cause of the higher prices, the commission said, adding that conditions in the oil trade now appear to be greatly improved with respect to production and imports.

The commission said it was unable to say whether the prices of the refined products were "disproportionate" to advances in crude oil prices and likewise impossible to report on the companies' profits for the current year, though in 1919 "the profits of many of the large oil companies, whether producers, refiners or distributors of oil, were large."

**SEMINOLE AT STETSON**  
Two of Our Boys Win Honors At University At DeLand

At the commencement exercises at Stetson University on Tuesday of this week two of Seminole County's young men won honors. Among the candidates for the degree of Bachelor of Arts appears the name of William A. Pattishall who is the son of Mr. and Mrs. Pattishall of Geneva and Bert as he is familiarly known here is also a graduate of Sanford High School and a youth of great promise.

Among those in the graduating class at Stetson receiving the degree of Master of Arts is Tenny Ingalls Deane, son of Mr. and Mrs. William Deane of this city and a Sanford boy of great promise also one who was reared here.

Both of these young men are among the brightest and best in our county and both of them at the call of their

## BIG PUBLIC MEETING FOR OUR CANDIDATES ON TOMORROW NIGHT

country left college and joined Uncle Sam's forces. Bert Pattishall went into the army and obtained a lieutenant's commission in France and Benny Deane joined the navy and rose to Ensign's rank and saw service in foreign waters going as far as Russia.

Their many Sanford and Seminole county friends take great pride in these young men and in all of the boys and girls who covet a good education and who have made good in this endeavor and we expect to hear from them in the future when they have taken up their chosen field and profession. We understand that Bert will take up law and Tenny will go into the ministry.

**Installing New Clock**  
The first National Bank has taken the clock down that adorned the corner of the bank and will install a new one that will have four faces three for the street and one on top for the use of aeroplanes flying over the city at night. In other words the First National believes in looking ahead and getting ready for the time when aeroplanes will be as thick in the air as automobiles now are on earth. The new clock will also have louder chimes that can be heard six blocks away.

## PROFITEERS IN SUGAR ARRESTED

### TAMPA AND ORLANDO CON- CERNS SELL 13 CENT SU- GAR FOR 28 CENTS.

Charging profiteering in sugar, in exacting 100 per cent. or more profit, it being alleged they sold thirteen and fourteen-cent sugar for twenty-eight cents, which was followed by thirty-three-cent sugar for consumers in Tampa and South Florida, Wiley B. Coarsey, prominent Tampa business man, C. J. Early, Paul T. Davis and A. H. McRae, prominent Orlando men will be arrested today or tomorrow on warrants sworn out yesterday before U. S. Commissioner H. L. Crane. Mr. Coarsey is general manager of the Sub-Tropical Product Company, Tampa and the latter three are president, vice-president and sales manager respectively of the Eastum Products Company of Orlando. Both concerns are canners and preservers.

The essential facts charged are admitted by the men against whom warrants have been sworn out, according to United States Attorney Herbert S. Phillips, who has been instructed by the attorney-general to prosecute the cases vigorously.

It is charged that the Eastum people sold 24,500 pounds of sugar that cost thirteen cents for twenty-eight cents, a profit of more than 100 per cent., while Mr. Coarsey is charged with selling 40,000 pounds of sugar that cost fourteen cents for twenty-eight cents an even 100 per cent. profit. The government has been allowing one cent a pound profit on sugar, though Mr. Phillips has announced that wholesalers will be allowed 10 per cent. profit from now on.

The wholesalers have been declaring the Lever act unconstitutional and there have been a number of instances of almost open defiance, but apparently a string of recent convictions has changed their minds, for Mr. Phillips announces they have agreed to accept his allowance of 10 per cent. profit.

**Wearing Apparel Next**  
Mr. Phillips has also written asking the department if a special staff of investigators will be sent here to look into the dry goods, shoes and clothing prices, as has been done in other places, or if the department desires him and Agent A. V. French to conduct the probe.

Special Agent French conducted the investigation that produced the evidence upon which the department

## County Candidates Will Address Voters Here

### COME AND HEAR THEM

AT THE CORNER OF FIRST  
STREET AND PARK AVENUE  
AT EIGHT O'CLOCK.

The county candidates will speak at the corner of Park avenue and First street tomorrow night beginning at eight o'clock and continuing until they are exhausted. The candidates for County Judge, the Clerk of the Court candidates, the sheriffs, county commissioners and constables and all of them who want to speak will have the opportunity. If any of the candidates do not desire to speak, or if any group of candidates for the same office do not desire to have their office represented at the meeting make your wishes known to R. J. Holly and you will be relieved of the awful strain of getting up on the platform and facing the thousands of people who will be gathered there to hear you. The meeting has been arranged for Saturday night because for many years it has been customary for the people of Seminole County to gather on the corner of Park avenue and First street to hear from the county candidates and this night has been set aside by common consent for the local candidates to tell about themselves.

The meeting will be a friendly one as all of the candidates realize that good humor and sympathy catches more votes than bad humor and vinegar and the meeting Saturday night will be for the purpose of allowing the voters to see all of the candidates and the candidates will thank them for the votes that they think they are going to receive.

Everybody come out and hear the candidates. They will be allowed ten minutes each and the meeting will not be tiresome as all of them will have new stories and many of them have already changed their life history three times or more since the campaign began.

Saturday night at eight o'clock.

**Miss Eichner Honored**

On Friday May 14th the ladies of Geneva gave a very enjoyable luncheon at Lake Harney for Miss Emma Eichner whose marriage to Mr. Roland Read of Bloomington, Ill. will take place June 9th at the home of her sister Mrs. Eador Curlett of Geneva.

The large table was very attractive with bouquets of flowers. Covers were laid for twenty-four.

On the place cards were linked together miniature heart shaped photos of Miss Eichner and Mr. Read. A rose bud being tied to each card with white ribbon.

At the conclusion of a delicious five course luncheon, Mrs. W. A. Whitcomb as toastmistress, in a few well chosen words, presented to Miss Eichner, in behalf of the ladies of Geneva a set of sterling silver butter spreads, as a token of the love and esteem in which she is held.

has ordered the sugar prosecution. The facts were submitted to the attorney-general several days ago and the order to prosecute was received yesterday morning by Mr. Phillips. He immediately had warrants sworn out on affidavits filed by Agent French.

The warrant against the three officers of the Eastum company charges that on May 1 they "knowingly made unjust and unreasonable profit in handling and dealing in a certain necessity, sugar, by selling to R. C. Woodberry Company, Orlando, 24,500 pounds of sugar at twenty-eight cents per pound, said sugar having cost only thirteen cents per pound. The profit, fifteen cents per pound, amounts to 113 per cent. Tampa Tribune.

JOHN E. PEACOCK

CANDIDATE FOR STATE ATTORNEY

Seventh Judicial Circuit of Florida. WHO HE IS:

Born, reared and educated in Volusia County and Stetson University.

Practiced law in DeLand for past eight years.

Nominated County Solicitor of the Criminal Court of Record of Volusia County in 1916 by overwhelming majority.

Volunteered and served in U. S. Marine Corps during recent world war.

Removed from office by the Governor while in service of his country, at the instigation of the wire tappers.

Unanimously reinstated by the Senate in special session of 1918.

Presented from serving his full term of office as County Solicitor by the autocratic abolishment of the Criminal Court, without the knowledge or consent of the people of Volusia County, and at the instigation of the notorious Confidence Gang.

Bill abolishing Criminal Court introduced and slipped through the Legislature by the man defeated for the office of County Solicitor in 1916, without referendum attached, and without the people of Volusia knowing such was contemplated.

WHAT HE STANDS FOR: 1. Fairness and justice to all, special privilege to none. 2. Courts for prosecution, and not for persecution. 3. Courts for the protection of society, and not for the protection of criminals. 4. Courts as tribunals of justice, and not for the political or commercial machines. 5. The annihilation of the notorious Confidence Gang, the greatest menace to our public institutions, who openly and disgracefully rob and plunder without fear or hindrance under our present administration. 6. A strict enforcement of the penal statutes relating to adulterated fertilizers and feedstuffs. 7. The apprehension and conviction of the automobile thieves, a well organized branch of the whippersnappers. 8. Full measure of honest, faithful and efficient service. Respectful solicits your support.

Commencement Snap Shots

Seventh Grade girls acting as ushers for the Eighth Grade graduation were Maad Lake, Doris Hand, Sarah Williams, Mildred Holly, Grace Gillon and Mary Elizabeth Puleston. Eleanor Herring is the original composer for the 1920 Commencement exercises, whose compositions were sung at the Class Day program and appear in this issue of the Herald. Miss Herring is one of the "sweet girl graduates."

One less you'll see in the teacher's part for she was struck by Cupid's dart. Guess which!

The musical setting to the "Ode of the Passions" was composed by Mrs. Fannie Stenbridge Munson. Henry McLaughlin Jr. is already on his way to Chicago where he will take a course at the school of optics.

Five of the girl graduates leaving shortly for the University of Florida to take a normal course preparatory to becoming teachers are Cora Lee Tillis, Helen Terwilliger, Carolyn Spencer, Ruth Gillon and Winnie Strong. Sanford High is doing good work.

The class of '20 have made two commendable gifts, two hundred dollars for purchasing books of reference for the High School library, and a large cash donation to the Ferris Loughton Memorial Hospital.

Teachers Vacation Plans

Mr. Claude Ogilvie, principal of the High School has returned to his home for a visit before leaving in July for an extended trip in Scotland.

Miss Pauline Gordon and Miss Liz Gray of the High School faculty left on Saturday for a week end visit with Mr. and Mrs. C. W. White in Ocala. Later they will return to their respective homes in Kingstree, S. C. and Chicago, Ill.

Miss Marion Clarke will return to Steubenville, Ohio for the summer.

Miss Sara Murie has returned to her home in Jacksonville.

Mrs. Geo. Dickenson will spend her vacation in Jacksonville and the mountains of North Carolina.

Miss Emma Lee Over has joined her parents in Chicago and later in the season will go to North Carolina.

Mrs. Francis Byrnes and Miss Edna Ayres, grammar school teachers left this week for Pomona after a visit there they will return to their home in Danberry, Conn.

Miss Ruth Hanner expects to enjoy her vacation in North Carolina, while Miss Ruth Hand will remain at home and join a camping party during the summer.

Miss May Fields returns this week to Oxford Junction, Iowa, where she has accepted a position in the school at that place.

Miss Gertrude Little will spend the summer in Asheville, N. C.

Teachers who will take the teachers training at the University of Florida are Miss Winnie Brown and Miss Bedford.

Miss Helen Bergman is spending a few weeks at Windermere with her mother and will leave later on for Beaumont, N. Y.

Miss Bobby Burns left Wednesday for her home in Kansas City.

Mrs. Stella Arlington will attend Chautauque at Chautauque Lake, N. Y. late in the summer.

Miss Nettie Malone will be married June the third to Mr. Thomas J. Moore and reside at Milton, Florida.

Mrs. James Moughton left on Wednesday for Indianapolis for an extended stay of several months. Saturday some teachers will be Mrs. R. C. Maxwell, Miss Clara Miller, Mrs. D. S. Babbitt and Mrs. R. A. Howard.

Cleaning the Oil Stove.

To clean the wicks of either oil lamps or stoves turn them fairly low, so that only the charred part is visible. Then take a small piece of soap and rub over the top of the wick carefully on both sides, if possible. After this operation the flame will burn evenly without smoking, giving you with the small amount of time expended in cleaning the wick.

Lovers' Communication. When the petals of the great laurel magnolia are touched, however lightly, the result is a brown spot, which develops in a few hours. This fact is taken advantage of by the South American lover, who pulls a magnolia flower, and on one of its pure white petals writes a motto or message. Then he sends the flower, the young lady puts it in a vase of water, and in three or four hours the message written on the leaf becomes perfectly visible, and remains so.

## WANTS SQUARE DEALS G. W. SPENCER ACTS

There are several Citizens of Sanford that have stated that they will take an affidavit to the fact that Umpire Monohan was given instructions by Mr. Rose to go to Sanford and "tamper with" according to Monohan's own statement, Sanford can't be blamed by either Mr. Rose or Mr. Monohan. We want just a fair deal, that's all. And while our team is on the road we want just what is coming to us and no more and believe us we are going to get it.

Just what Mr. Rose meant by "tampering Sanford" we don't know, but we do know that Mr. Monohan stated that Mr. Rose informed him that he was going to a "hard" town when he hit Sanford and for him not to weaken a bit but "watch 'em". All we have to say about the matter is that it seems that Mr. Rose has got "too much watch Sanford" on his mind and not enough watch some one else.

Sanford has been given the little end of the deal in every respect this season as far as umpires go and we take from what Monohan has said in his own case that other umpires have been told the same. The dirty cowardly way that Jimmy Burns was treated in Tampa, and nothing said about it by the Tampa papers, is one of the worst things handed us and all through the fault of the league. In St. Petersburg the fans of that town hunted his Umpire on the streets the night after the game, for the way he grabbed one from Sanford. With two men on bases the batter drove the ball a long fly to right field and the player dropped the ball and Umpire Monohan called him out, knocking Sanford out of two runs, enough to have won the game.

The following letter was written by Mr. Spencer to the Mayor of Tampa, regarding the policemen's actions at Tampa last week:

Hon. B. D. McKay  
Tampa, Fla.  
Dear Sirs:

As a citizen in the state of Florida and Vice-president of the Sanford Base-ball Club, I wish to enter my protest to you about the treatment accorded to the manager of our club while playing ball in Tampa on last Friday afternoon and in making this protest I wish to say to you that it is not done in a hot headed manner over a game of ball. It is done believing that your policeman was certainly in error and is guilty of a misdemeanor and should be punished for same. You understand that the manager or captain of a base ball club has a right to do all the kicking to the umpire when he feels that he is getting a raw deal and the umpire being perfect right to put him out of the game if he feels that he is too earnest. He further has a right to have him removed from the park by a police officer should he feel that he is kicking too strong, but certainly Mr. Mayor a big burly policeman has no right to crack him in the mouth with a billy because he asked him to let him go by the bench and get his shoes. And for that matter he has no right to hit any man under any circumstances while making an arrest under the laws of the state of Florida unless he feels that his life is in danger. And certainly it was not in this case and I want to protest against his dirty cowardly actions, and all the manhood there is in me ask you as an officer of the law to give this dirty coward what is coming to him.

Yours very truly,  
G. W. SPENCER,  
Vice-president Sanford B. B. Club

## MGR. BURNS RESIGNS

Jimmy Burns is on his way to Meriden, Conn. all through with his experiences in the Florida State League. Whether or not he was a good manager or whether or not he was with us long enough to prove it one way or the other there is one sure thing we can remember about him and that is that no ball player ever played for Sanford that was any more of a gentleman than Jimmy and he has made a host of friends in his short time with us that are sorry to see him leave.

Jimmy may have made a failure

of his club but at that he had many things to contend with that the ordinary manager does not have. He had every umpire in the League on his neck and in many cases giving him no show whatever. And worse than that he was given a right hand uppercut by the snake that calls himself a policeman at Tampa because he wanted to go by the bench to get his shoes.

But now he is gone and all the fans wish him luck in whatever he undertakes in the New England States.

## CELERY SEED

By CHAS. L. BRITT

Well maybe these Sanford fans didn't get a big crop worth anything the games yesterday.

In the games played between San-

ford and Orlando we are now one on them.

Twenty four innings yesterday and we gave up but one run.

And maybe that man Olesky doesn't look good in the outfield. And he looks better yet at the bat. That three base hit brought home the bacon yesterday morning.

St. Pete says she won't give up the keys to her cellar so guess it is up to us to go the other way a min.

Sanford, like Daytona, picked Olesky to break the losing streak on. It into is some good in the league after all.

Daytona don't lose. She is on her way, and we will catch her yet.

Sanford is protesting against Tampa using class men. We couldn't do

it last year and they can't do it now. Weed out some of those class men and there will be a different story.

Umpire Monohan needs a few new pairs of glasses. St. Pete says he is a burglar and Tampa don't want him back at their place and here is hoping that he never comes to Sanford again.

Jimmy Burns had trouble with the umpires just because he happened to have a little too much Base Ball in his head to suit them. They can't afford to have that they know less than a player.

## Sanford Scores for the Week

Friday at Tampa 5, Sanford 2  
Saturday at Tampa 8 Sanford 4  
Monday at St. Pete 4 Sanford 3  
Thursday at St. Pete RAIN

Thursday afternoon at Orlando 1, Sanford 1-15 innings.

No Change in Fish Hook Design.  
Fish hooks have been made on exactly the same design for 2,000 years.

Beware of Lost Minutes.  
"In the dynamics of human affairs," said a learned man, "two qualities are essential to greatness—power and promptitude. The former is often the fruit of the latter. A man or woman who is impressed with the value of time will make every minute count to such purpose that his or her life will inevitably bear the stamp of power."  
—Orison Swett Marden in Chicago Daily News.

## PRES. ROSE SHOULD INVESTIGATE TOO MANY CLASS MEN

It is Sanford's turn now. Last year that was all that we heard every time Orlando played against us. Now we will do it. And we have a right too with Tampa playing the class men that she is and Mr. Rose, that same Mr. Rose that is forever harping about "for the good of the league," is doing nothing. Or if he is he has kept pretty quiet about it.

If it were some local matter that should have no-one's attention but the local authorities Mr. Rose would have stepped in and lined and suspended and gave his reason as "for the good of the league." But a small matter like playing class men goes without an investigation. He may be investigating and agains we may be wrong, but any way we want to know.

The following is a letter written Mr. Rose by Vice President Spencer of the Sanford Club:

May 31, 1920.  
Mr. W. W. Rose,  
Orlando, Fla.  
Dear Sir:

The Sanford Base Ball club wishes to enter protest against the Tampa Club and request that all games played between them and that club be thrown out on the following grounds:

That the Tampa Club is playing more than three class men against the rules of the Florida State League and charge the following players with being class men, Humphries, Leach Sr., Leach Jr., LaMotte, Felix and we would also like to have Workman investigated as he played at Southern College as a ringer and you cannot tell who these tringers are. And certainly Doc Nance is a classman.

Yours truly,  
G. W. SPENCER,  
Vice President Sanford B. B. Club

## Death of Richard Howard

Richard Howard, the little son of Mr. and Mrs. Claude Howard died yesterday afternoon after an illness of several weeks from inflammatory rheumatism. Richard was a bright youngster, the joy of parents and relatives and friends and was taken with rheumatism while at school in Jacksonville. As he grew worse it was thought best to bring him home where everything possible was done for him but death ended his sufferings and he was not spared to his parents to brighten their lives in the days to come.

The funeral will occur this afternoon from the residence on west Third street. The sympathy of the many friends goes out to the sorrowing father and mother in the loss of their only son.

## Whitcomb Was There

In the write up on the Legion Minstrels last week the Herald left out the name of the principal in the organization of the minstrel show mainly because his name did not appear on the printed program.

Post Commander Donald Whitcomb helped to organize the Legion post here and was active in the organization of the minstrels just as he is very active in all that pertains to the Legion and the soldier boys. He was a member of the Legion Quartette and was great help to Howard Lyman the director in many ways. We had no wish to leave Mr. Whitcomb out and he probably never noticed this omission but it was brought to our attention by some of his friends and we take this occasion to give this young man the credit that his service deserve.

## A True Sport.

Women have been accused of lack of sportsmanship; yet was a woman ever known to beat a carpet when it was down?

## Punctuality Valuable Asset.

Many of young men have failed of promotion or lost good positions because of the lack of punctuality. There is no more desirable business qualification than this and no other so indispensable to a man of affairs, or to any one who would save his own time and that of others. "If a man has no regard for the time of other men," said Horace Greley, "why should he have for their money? What is the difference between taking a man's hour and taking his \$5? There are many men to whom each hour of the business day is worth many times \$5."—Chicago Daily News.

Now is the time to save money by reading the Herald and noting the many sales that are being staged in this city. The merchants are offering exceptional values in seasonable goods at twenty and thirty per cent of the regular price and it behooves the people of this and adjoining counties to watch the Herald and come to Sanford to trade. This city is offering you better goods at lower prices than many of the largest cities of the country. Look at the prices quoted in this paper and take advantage of these great sales.

PRAISE FOR SCHOOL CHILDREN
Sanford Schools Raised Fine Sum For Children's Home
Marcus Fagg superintendent of the Children's Home Society at Jacksonville has the following to say about the contributions of the Sanford school children in the Times Union of Sunday last:

Three cheers for the school children of Sanford and Mrs. R. J. Dickinson, the principal and all the other teachers who were responsible for the largest contribution that any school in Florida has ever sent in to help our society provide for the homeless and needy little ones of Florida. And a great big thank you to every other school pupil, teacher and principal in the state for all the other contributions sent in, whether they were big or small. We really appreciate every penny, nickel and dime a whole lot, and we want every child and teacher that aided even a penny's worth to accept our gratitude for every little bit helps a whole lot in our great work.

The Sanford school children sent us in \$100 last week and it isn't that long ago that we were told that we had all these fine Sanford school children who were so generous and so kind and so helpful.

by Mrs. J. C. Hutchinson.  
The "Dairy of my Life" featuring the various stages of life from cutting one's first tooth to the honeymoon, and signed by the initials of each guest created a diversion much enjoyed.  
A "file for receipts", a gift to the guest of honor, was filled by choice receipts from the house-keeping experiences of the guests and each receipt was signed by the contributor.  
The "Wool's Wash" was brought in by two little ragged specimen of darkie childhood, cleverly impersonated by Dorothy Haynes and Juanita McMullen wearing and wearing "rags and tatters." Contrary to the weekly custom however, "de clothes" were delivered in a beautifully adorned basket in pink and white, the large assortment of useful and ornamental gifts concealed in daintily "done up" packages. The same little darkies rendered very sweetly springtime songs, while Mrs. A. M. Phillips delighted with two vocal solos, "A Kiss in the Rain" and "Tis All That I Can Say".  
The victrola also furnished music for the entertainment of the guests. Assisting Mrs. Haynes serving refreshments were Mrs. J. C. Hutchinson and Miss Lila Johnson.  
**Shower for Bride-Elect**  
For Miss Annie Mae Cameron whose marriage to Mr. Robt. Merriweather took place on Tuesday evening, Miss Katherine Wilson entertained with a lovely shower last Thursday afternoon.

A humorous vegetable contest afforded much pleasure and gales of laughter greeted the various recipes for cooking vegetables. The prize being awarded to Miss Ruth on her excellent recipe for preparing "onions," to whom a basket of vegetables was presented. The shower of gifts were brought in by George Wilson in a bushel vegetable basket decorated in green. Refreshments were served in the dining-room where the wedding colors of pink and green were tastefully carried out in the table decorations and repeated in the refreshments. A beautiful wedding cake centered the table and when cut, the dime fell to Miss Cameron; Miss Julia Laing cut the (Continued on Page 8)

**Changes Eliminate Vibration In Lexington Motors**

Although little that is revolutionary in engine construction was in evidence in 1920 car models displayed at the New York and Chicago automobile shows, a marked improvement in motors that should make them more satisfactory to owners, was apparent.

Take the motors in the new Series "S" line of the Lexington Motor Co., of Connersville, Ind., for example. Vibration in this motor has been practically eliminated. Crank shafts have been made so much larger that they cannot whip.

These changes for the betterment have been made possible largely as the result of pressure oiling systems which amply take care of bearing surfaces.

In the Lexington motor, four bearings instead of three are provided. Bearings are bronze, lined with babbitt. This combination has resulted in the practical elimination of "whip" and it has advanced the vibration point so far that it is negligible. The result is a smooth, responsive, quiet motor, remarkable for its fund of reserve power owing to the Moore Multiple Exhaust System and the Lexi-gasifier, gas distributing machine.

The lubrication of the motor is by high pressure through leads from the gear pump to the main bearings, then through oil leads in the crank shafts to connecting rods. Oil thrown off the rods lubricates cylinder walls and piston rings, giving perfect lubrication for all moving parts.

The crank case is of aluminum. To it is attached the cylinder which has a detachable head, making valves and pistons readily accessible.

**Joseph G. Ball Hardware-Developer**  
Nestling on the banks of the St. Johns river, Sanford, which is rapidly becoming the celery capital of the world, was an important point in Florida even before the narrow-gauge "two-streaks-of-rust" railroads gave the southern and central section of the state a chance to breathe and come to life, being a stopping point

before the Civil War for river boats that connected with ocean-going vessels of the Atlantic—and no Florida city has had a more interesting history. Coupled with this history is the fact that since the vegetable growing movement really began in 1907 the lands of the locality have become the world's greatest agricultural profit-makers; Sanford is now reaching out

for the tourists, with one magnificent tourist hotel already erected and ad even more pretentious one assured and is moving ahead along every other line.

Among the pioneer firms of the old days—one which has stood the competition tests of thirty years—was the Fernald Hardware Company, organized thirty years or more ago by Tuxberry & Fernald and then conducted for years by the late George H. Fernald. Today, however it is known as the Ball Hardware Company, having been reorganized and renamed in 1919 by Joseph G. Ball, who is known and esteemed in every section of Florida, and a magnificent retail business having been established, it is now reaching out into central and southern Florida for wholesale patronage. Occupying three stories of its self-owned three-story brick building, the business reflects the character of Mr. Ball and his associates—and there is no better illustration of what it was fifteen years ago.

Three years ago while with the Knight & Wall Company of Tampa Mr. Ball was induced to take the management of the Fernald Hardware Company. Appreciating the demand for increasing the scope of the business, he reorganized it under the name of the Ball Hardware Company of which he is president, and his associates are men of the type of E. L. Lunter, Osceola Cypress Company, vice-president; John Meisch, capitalist treasurer, and R. S. Sims, secretary. These gentlemen, with B. S. Squires, H. W. Barr and G. H. Smith, constitute the directorate is a big business men.

Then came the buying of the handsome home building, the taking on of new lines and the gradual bid for the jobbing trade. The store is one of the largest in Florida, none between Jacksonville and Tampa doing a greater volume of business.

"In addition to reorganizing this company, he has sold its old warehouses to Chase & Company, who are erecting a handsome building on the site; another piece of property has been sold by him to L. W. Phillips & Sons of Orlando, who will erect a large garage thereon, and, last but not of all, he bought and sold the site of the old Sanford home on which a tourist hotel costing between five hundred and a million is to be erected. Some newcomers to some sections have made better three-year records, but I haven't heard of them."

And as is usual with men of his type, Mr. Ball has done this work without hunching.

Mr. Ball is a Florida Cracker, hav-

ing been born at Quincy, in 1867. After attending the schools of Gadsden county he worked for his brothers, W. L. Ball, owner of hardware stores at Thomasville and Blackely, Ga., and T. J. Ball, a successful banker of Thomasville, Georgia.

While the Spanish-American war was on he served at Tampa and was greatly responsible for the late Gordon Keller, for years one of Tampa's most beloved citizens, locating in the Cigar Metropolis. It was in Tampa also that he secured his bride, marrying Miss Mary Vaughn, niece of the late Mrs. Judge H. L. Crane, there twenty-seven years ago.

For a long time Mr. Ball traveled Florida for the old C. B. Rogers Company of Jacksonville, which later became the Consolidated Grocery Company. Later he engaged in the naval stores business. At the time mentioned, however, he found his way to the "Celery City"—and there he expects to spend the remainder of his days.

Five children have come to bless the union of Mr. and Mrs. Ball, these being Catherine, who is Mrs. W. J. Steed, wife of the mayor of Kissimmee; Joseph Hodgson, who left Washington & Lee university to serve in France as a private; Henry Crane, who is named for Judge Crane Tampa's oldest citizen by name of residence, and who is with Lewis & Hodgins of Tampa; Mary Francis and William.

"When I think of the friends I've had and have, and of the wonderful development of my state in recent years," said Mr. Ball, "I'm truly glad that I was honored with birth as a Florida Cracker."—Frank Huffaker, in Tampa Times.

**No Advance in Prices**

In this issue of The Herald is a half page of the Nitrate Agencies Co. regarding their prices on fertilizers calling attention to the fact that the prices have not been raised and giving the formulas and prices. In the advertisement of last week there was a mistake in figures but the advertisement is now correct and should be read by the growers of this section. W. I. Lyman is the agent and he has an office with the A. P. Connelly Real Estate Office in this city.

**Money-Making Called Obsession.**

Big money-making is like drink—it's a habit. At first you want money. Later you think only of the game, and the money becomes the mere symbol of success. Last stage of all, you play because you cannot stop.—Walter E. Weyl in Saturday Evening Post.

### Extension Telephone Service In the Office

Extension telephones, for connection with your present service in office or home, are now available.

There is still a shortage of switchboard and of cable which prevents the installation of new telephones in some sections of the city, but this does not affect extension telephone service, on existing lines.

Many offices have expanded so that additional extension telephones are needed. The time saved more than pays the small monthly charge.

In the home there is no greater convenience than an extension telephone on the other floor or beside the bed.

Call the manager's office today and arrange for this service.

**Elisha A. Douglass, Seminole's Servant**

"I have no opponent in this race for re-election, have never had an opponent, and never expect to have one. I have had friends as running-mates, have one at present and expect to have others if I stand for election in the future. I refuse to recognize such a thing as an opponent, however, and that shall be my policy the rest of my days."

How's that for a political campaign speech of an unusual type—one which stands for principle instead of personality, and one which is tinged with its full share of the essence of the Golden Rule? If every candidate from the presidential aspirants down, adopted the same method of approach to the public—and adopted it because he felt that way and was not playing a hypocritical role—wouldn't this be a good old world? Wouldn't politics be—well, almost the opposite from what it is today? "We'll all say it would."

Well, that's the attitude E. A. Douglass, of Sanford, clerk of the circuit court of Seminole county since Seminole was born, in 1913, when he asks the people for support on the hustings; that's his attitude when talking to friends and strangers in his private office—and that's the attitude, combined with unusual ability plus interest in the public, that bids fair to keep him in office until he gets tired and quits.

You all remember the legislative fight which resulted in Seminole being born from the "womb" of Methuen-Orange don't you? Well, before that fight was on Mr. Douglass made two tours of the state for the purpose of interviewing legislators-elect, and a result had practically a winning lineup when the real battle was under way. And, just to show that they had

no ill feelings, Orlando friends of Mr. Douglass, who had fought division, called on him to assist them four days later in defeating a defective green fruit shipment bill—and it was defeated. Funny thing about Douglass is that although he never aspires to legislative honors, has never fought for a bill that was defeated or against one that passed. His only legislative experience was as sergeant-at-arms of the senate in 1911. And when he happens to assist in winning a victory the "other feller" never gets sore about it. E. A. just refuses to recognize an enemy the same as he refuses to recognize a political opponent—and if they aren't one and the same thing, what is?

Mr. Douglass was born in Bradford county, February, 28, 1866, but moved with his parents to Orlando in '74. His father, dying when he was only 14 E. A. got very little "schooling," being forced to hustle for the support of a widowed mother and several sisters. His first work was a carpenter at 25 cents a day, but in his seventeenth year he became a foreman, held that position seven years and then began contracting for himself. Then he engaged in the cattle business for twelve years, sold out, entered the real estate game and met with success until 1913—when he was appointed court clerk of the new county, which job he has held with a death-clutch ever since.

How does he manage to "repeat" when he goes before the people against strong contenders? Here, in his own words is one reason:

"If, in my position as clerk, I couldn't do something in behalf of the public other than look after the duties prescribed by law—if I couldn't save them more money than my fees or salary amount to in this way—I wouldn't think I was entitled

to their support. Therefore I make it a point to watch every odd and end of business coming into my office and this refers particularly to tax matters—and do what I can in the line of reformation when reform is needed."

Illustrating the character of his work in this connection, Mr. Douglass is the author of senate bill No. 7 which pertains to the disposal of tax sale certificates, and which is one of the best yet placed on the Florida statute books. As a result of its operation—the bill was enacted in 1919 he has to date turned in more money to the state comptroller than he did throughout last year entire. Clerks of other counties have had similar experiences. The bill, in brief, provides:

That all tax certificates held by the state in 1917 and prior thereto should be redeemed or purchased by paying the face of the oldest certificate and all unpaid taxes for the year 1916 and prior thereto with interest at the rate of 8 per cent. from April 1, 1918, and interest on all unpaid and omitted taxes for 1917 and subsequent years at the rate of 25 per cent. for the first year and 8 per cent. thereafter. In other words, where there is more than one certificate all others are cancelled.

If there is a better illustration than Mr. Douglass of the argument in favor of having practical business men in office than person hasn't been unearthed in Florida.

Sanford has for years suffered from the need of a real hotel. In November, 1918, he inaugurated the movement for erecting the handsome Valdez and acted as chairman of the building committee until it was completed.

Then Sanford needing even more housing accommodations, he began remodeling the old brick hotel built years ago by the Plant Investment Co., for railroad officers, and when the next season opens he will have a practically new structure with eleven stores on the ground floor and twenty one nicely fitted apartments above.

"On every hand," he said, "I hear people complaining because they can't get hotel and apartment housing accommodations in central and southern Florida. Therefore, I'm determined that Sanford shall meet this need, and on this account my friend, J. G. Hall, and I recently sold the old Sanford house with the expectation that one of the largest and finest hotels in Florida will be erected thereon."

Mr. Douglass has also established and is manager of the Seminole Abstract Co., "and all my work has been done on borrowed capital for I had little money of my own," said he.

And that's why Elisha A. Douglass clings to his winning habit. "He profits most who serves best."—Frank Huffaker in Tampa Times.

GOSH BUT that trolley.  
WAS ALMOST as packed.  
AS IF they'd squeezed.  
ALL THE candidates.  
FOR PRESIDENT in.  
WHENEVER THE car swayed.  
I SAT on the lap.  
OF A pudgy lady.  
MY BRAND new derby.  
WAS BUNK without a trace.  
AND A garlic breath.  
BLEW DOWN my neck.  
AND MY foot went to sleep.  
AND THE rest of me.  
ENVIED MY foot.  
AND I was sore.  
YES, GOOD and sore.  
AND THEN a chap.  
WHO CAUGHT my eye.

CHEERED ME up.  
WITH A jolly grin.  
AND SAID to me.  
"NO GROUCHES Now."  
AND HONEST, I felt better.  
IT WAS an ad.  
OF A cigarette.  
BUT I'LL say this.  
IF THE ad alone.  
CAN CHASE a grocer.  
THE CIGARETTES.  
THEMSELVES MUST do.  
WHAT THE car card said.  
"THEY SATISFY."  
I'LL SAY they do.

The boys are hustlers and know their business and they are turning out first class jobs in every particular. They wish to see every auto owner that see's any top repairs, new tops or anything in this line and they are to be congratulated upon bringing this new factory to Sanford.

**Years Growth of a Pine Tree.**  
Mr. H.P. Lockmaster at Buckhorn, Ont., experimented with a pine tree to determine improved growth which may be secured by proper care. Fifteen years ago he pruned all the lower branches off a four-inch white pine sapling, removing other saplings from its vicinity, dug up the earth around it and applied manure to its base. It is now nineteen inches in diameter at its base and has a long, clean pole. Thus, during the fifteen years the growth in diameter has averaged one inch annually.—From the Conservation.
