

# League Leaders To Play Here Sunday Afternoon

## From the Sidelines

With 119 other baseball days which to choose, J. Phyrus... the season and of all... the Florida State League... did not make the wad... in prospect because of the... was cut to 1,032 (but a high... in the league at that) and... admissions amounted to 966-... did the day been bright and... the figure might easily... been doubled.

Thursday's game on Sanford Field was the first to be rained out in the Florida State League this season. Games were played at other towns of the circuit, and the Lookouts and G-Men struggled through most of nine innings in a drizzle on wet grounds here, only to be prevented from finishing a contest which had the makings of a Lookout victory. This game between Sanford and Gainesville will be played off at a later date, either on some open field, or as a double-header some time when the two teams meet again either in Sanford or Gainesville. The next vacant date is a week from next Monday, June 1 but Gainesville plays in Sanford week from today and Sanford goes to Gainesville a week from tomorrow, and it is probable the Thursday's game will be played off on one of those dates.

Next week's "ladies days" will be in Palatka, where the Lookouts will play on Friday, and in St. Augustine and Gainesville. The attendance of the fair sex at the game in Sanford yesterday, "ladies day," was not any too good, but the inclement weather had something to do with it.

In the opinion of the Gainesville Sun "the biggest mystery of the season to date" is how the ever-happened to summon up sufficient luck to win that 1-0 16-inning game in Sanford several weeks ago.

There will not be a day of rest in the Florida State League circuit until a week from next Monday, as games are scheduled for every day next week and for a week from Sunday. The Lookouts play at home four days next week—against Daytona Beach tomorrow, St. Augustine on Tuesday, Palatka on Thursday and Gainesville next Saturday.

Since tomorrow is Sunday there is a possibility the Lookouts may win. They defeated Palatka, 7-3, last Sunday and won over Gainesville, 14-9, the Sunday before. The score against the Lookouts is 1 to 1-20 games lost and 10 won.

In line with the old proverb that "merry loves company," there might be some comfort for the Lookouts, who have lost 20 out of 30 games played, in the fact that the St. Louis Browns of the American League have lost 22 games out of 33 played.

This columnist wanted to say something some weeks ago about some of the umpires and some of their decisions, but didn't. The questionable decisions continue, however, not only on Sanford Field but elsewhere. The St. Augustine Record reports that fans in the Ancient City a few days ago "all but mobbed Umpire Sheffield," when the Saints played the Daytona Beach Islanders, and in commenting on that occurrence the Gainesville Sun says that Sheffield "hasn't been back to Gainesville since the third game of the season here (Think Goodness), and we were sincerely in hope that during the interim he had improved with experience and that he would be able to offer congruous decisions for the change. Which reminds us, by the way, that the local club has had some luck—first Campbell and Campbell have been here most of the time."

Discussing umpires in general, in particular, Sam Butts says in his column in the Jacksonville Times-Union: "We'd be interested in seeing local baseball fans enthused about the game enough to want to do bad things to an umpire. We do not wish to see any bad luck, at least. They're good guys but try to get along. But when the umpire's volubility desires... from here to..."

## Who's Who

## Among The LOOKOUTS

Gardner Barnes, a 19-year-old boy, plays left field for the Lookouts, but he is playing like a veteran. Up to including May 30, Barnes has got 33 hits in 96 times at bat, which gives him a percentage around .340. He has scored seven runs, and in all the games he has played he has made only five errors.

Gardner (some of the fellows call him Duge) started his baseball career while he was attending High School in Bridgeport, Ala. His home in 1932 and 1933 he played independent ball for Bridgeport in the Tennessee-Alabama League, the youngest player in the League, batting around .300 the second year. The next year (1934) he played on the Alexander City, Ala. club of the South Alabama League, but last year saw him back with his home town club etc. He was chosen to play centerfield on the all-star team that year of the Tennessee-Alabama League. This all-star aggregation played in a tournament in Chattanooga, won, and then played at Chattanooga's entry in the mid-west tournament.

Barnes lacks a half inch of being six-foot tall, and weighs 158 pounds. His weight helped when he was in High School, and he won a position on the all-state football squad.

He was sent to the Sanford Lookouts by the Chattanooga Lookouts with which the local club has a working agreement.

George Zumonville's single with the bases loaded and two away in the eighth drove in two runs and gave the Lookouts a 2-1 victory over St. Augustine here yesterday.

Sisalein of the Ascleas and Schneider of the Saints tied up in a scuffling mound duel. The Palatka hurler gave up seven hits while the Saints' southpaw gave eight.

Palatka pulled three double plays and St. Augustine one to kill rallies. Fulcher, new Palatka second baseman, figured in the three double killings.

Zumonville drove in all of the Ascleas runs. He singled Brockelman home in the fifth. With the score knotted at 1-1 in the eighth Whire singled and Brockelman doubled. With two down Manager Emerson was purposely walked to get Zumonville and the Palatka shortstop single to left to score the two winning runs.

The Saints score came in the seventh when Russell Turnham's long triple scored Langstrom from first. Bryant Bonner collected two hits for the Saints while Whire and Zumonville duplicated the feat for Palatka.

## Lookouts Blanked By Reds In Game On Sanford Field

## Visitors Put Three Men Across Plate In Fourth Inning

The Lookouts failed to get one solitary score in their game on Sanford Field against the DeLand Reds yesterday, while the visitors sent seven men across the home plate. The two teams played in mist and drizzle most of the time.

Rebelling, the visitors' right fielder, was the batting star of the game, securing two hits out of as many times at bat, scoring one run and taking in two.

In the fourth frame, DeLand scored three runs on three hits, sacrifice, walk and a fielder's choice and added one more in the sixth. McGowan, who took up the hurling duties for Sanford in the eighth frame, gave up four hits which were good for three runs.

Overstreet pitched the first seven innings and allowed seven hits, while McGowan, who pitched the last two innings, allowed two hits.

## Game Against Saints Was Pitchers' Duel Until Eighth Frame

ST. AUGUSTINE, May 22.—George Zumonville's single with the bases loaded and two away in the eighth drove in two runs and gave the Lookouts a 2-1 victory over St. Augustine here yesterday.

## First Contest In 'World Series' Taken By Pirates

## Defeat Seminoles 9 To 6 On Wet Field Friday Afternoon

The Pirates defeated the Seminoles yesterday in the first game of the "little world series" of the Lions League. The score was 9 to 6. The Seminoles, with Billy Iren, an pitching, started off with a rush with two runs in the first inning, followed by two more in the third, while the Pirates failed to connect in the first three innings. But in the fourth inning the Pirates scored five runs, another in the sixth and three in the last inning. The Seminoles also scored two runs in the last frame.

Glenn Cochran was the winning pitcher, with George Willis behind the bat. Roland Floyd caught for the Seminoles. Eddie Bender umpired the game. The score:

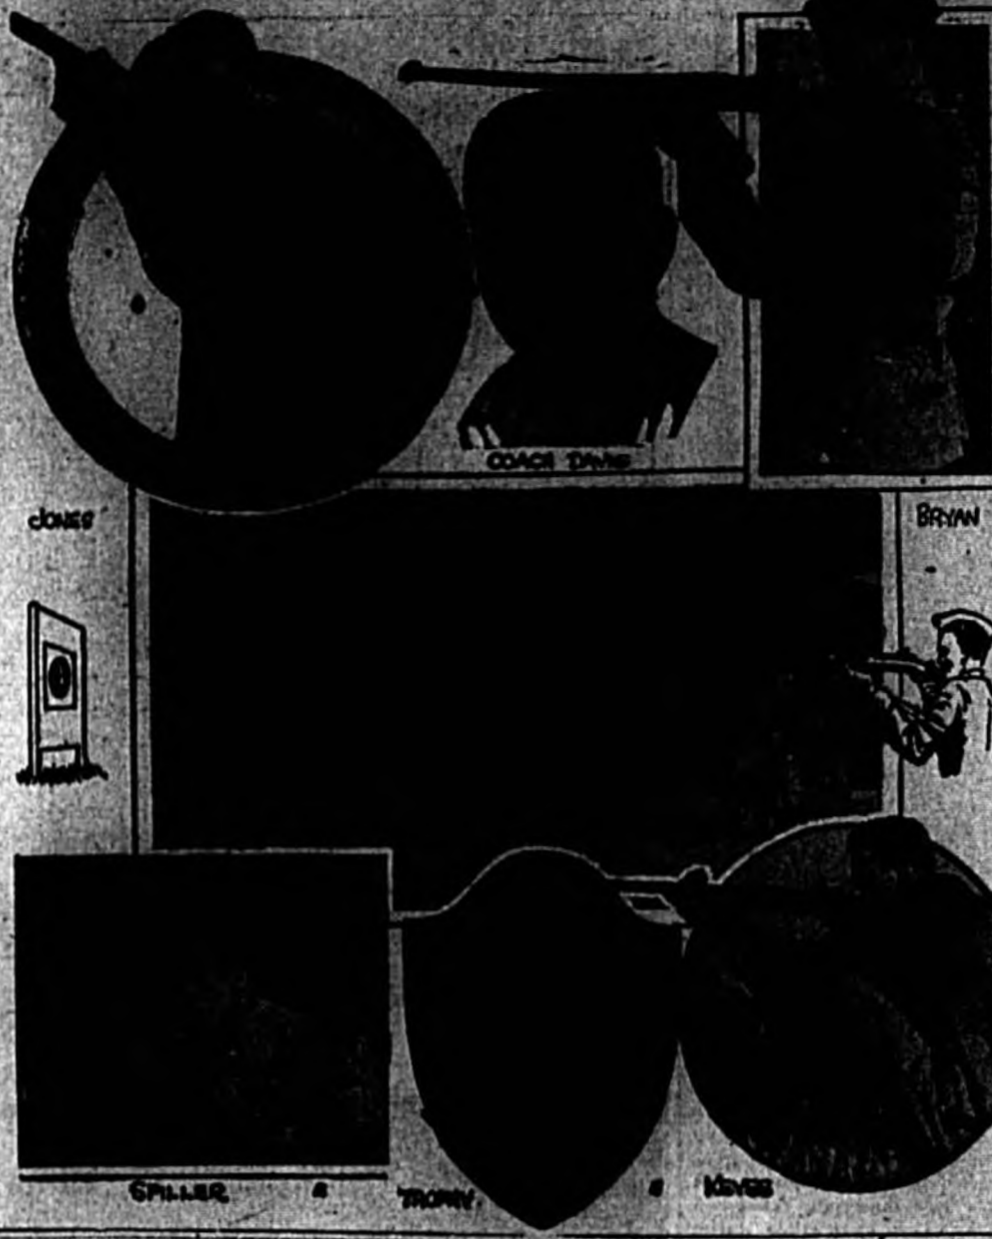

Pirates ..... 9 0 0 5 1 0 3 - 9  
Seminoles ..... 3 0 2 0 0 0 2 - 6

The Lions League championship is to be decided three games out of five, and the schedule calls for games next Monday, Wednesday and Friday afternoons—unless it should so happen that the Pirates win Monday and Wednesday and thereby end the series. The Lookouts of the Florida State League will be away from home on those days and therefore members of the Lions Club which sponsors the little "world series" hope many fans will witness these "world series" games next week. More than 100 saw Friday's contest.

Games in the Legion Junior League are also scheduled for the same days next week. The Cherokees and Reds play Monday, the Senators and Panthers on Wednesday, and the Panthers and Cardinals on Friday.

Legion Junior League games are played on the Ninth Street diamond between Laurel and French Avenues, and the Lions League games are played on the Grammar School grounds on Seventh Street between Laurel and Elm Avenues. Games in both leagues begin at 6 o'clock.

## University of Florida Wins Rifle Championships

## 95 Of 100 Matches Are Won By Florida Sharpshooters In Spectacular Competition

Out of 100 matches against teams throughout the country, the Gator sharpshooters won 95, and never met defeat in any competition in the South. They annexed the Fourth Corps Area title and the Hearst Trophy for their sensational string of triumphs against Dixie colleges and universities.

## League Schedule For Next Week Is For Daily Games

## Lookouts Will Play At Home Four Days Beginning Sunday

An unbroken schedule with games every day is the order in the Florida State League next week. The usual Monday holiday will be skipped, and the players will not get another day's rest until Monday of week after next.

The Lookouts will play at home four days next week. Daytona Beach will play against them on Sanford Field tomorrow, St. Augustine comes Tuesday, Palatka will be here for a Thursday half-holiday game, and then Gainesville will be back here next Saturday when it is possible that a double header will be played.

The Islanders came tomorrow smarting from their defeat by the G-Men yesterday, and an interesting contest is in prospect. Tomorrow's game will begin at 3 o'clock.

Next week's schedule in the Florida State League is as follows:

Day	Home Team	Away Team
SUNDAY	Daytona Beach	at Sanford
	Palatka	at DeLand
	St. Augustine	at Gainesville
MONDAY	Sanford	at Daytona Beach

Deputy Sheriff Jack Hickson and M. C. Gordon said that Ward was driving south and Gayle was driving north when the cars, both traveling at high speed, met about 150 yards north of the Ratliff wrecking yard about 9 o'clock. Reits was riding on the front seat of Gayle's car and Tillis was asleep on the back seat. The wreckage of the cars was practically complete, so much so that one of them was hoisted to the wrecking yard as being beyond repair.

## Wilcox Municipal Bankruptcy Act Is Unconstitutional

### Preference Given Floridians Killed By Supreme Court

Can't Collect From Defunct Company Ahead Of Others

WASHINGTON, May 25.—(P)—The 1933 Florida law giving residents of that state priority over other states and the federal government in the payment of claims against an insolvent surety company from a \$75,000 deposit required for doing business in the state was held unconstitutional today by the Supreme Court.

The legislation was challenged by the federal government which contended it had priority over all others in the collection of such debts.

A unanimous decision was delivered by Justice Brandeis. It reversed a ruling by the Florida Supreme Court.

A \$75,000 deposit was made in Florida in 1930 by the New Jersey Fidelity and Glass Plate Company. It was placed in the hands of New Jersey officials for liquidation in May, 1932.

### 2,063 Seminole Families Helped By Welfare Board

The State Board of Social Welfare, District No. 18, furnished surplus commodities valued at \$14,558 to 2,063 families during March, and 204 families in Seminole County received these surplus commodities during March.

The State Board of Social Welfare also grants these commodities to families assisted by the Seminole County Welfare department.

The State Board of Social Welfare hopes to be able to extend this work with the schools so that by next fall more rural schools will be able to open lunch rooms.

In many cases the Board of Social Welfare does not give any relief to a family, but offers services which are worth more than relief. The work with the Boys and Girls Industrial schools does not include any relief but means much to the community. Most boys and girls leave the industrial school with the intention of "going straight" but all too often their home life is so unsatisfactory that they drift back into the old bad habits.

Effective at noon Saturday, a special police permit was required for motorists.

### 5 To 4 Decision Of Supreme Court Is Against Law Proposed By Floridian

### Act Contested By Bondholders

### Claimed Confiscation Of Property Without Due Process

WASHINGTON, May 25.—(AP)—The 1934 Municipal Bankruptcy Act, passed by the New Deal Congress, was held unconstitutional today by the Supreme Court. A 5 to 4 decision delivered by Justice McReynolds concluded: "Challenge to validity of the statute must be sustained."

Justice Cardozo, Chief Justice Hughes and Justices Brandeis and Stone asserted that "the statute is unconstitutional." The majority differed with a ruling by the Fifth Circuit Court of Appeals upholding the legislation.

The law was challenged by certain bondholders of Cameron county, Texas, Water Improvement District No. One. They contended the act took property without due process of law and violated state's rights.

The legislation was intended to aid cities, counties and other political subdivisions to reduce their indebtedness through federal bankruptcy courts. Bondholders attacking the law owned approximately one-tenth of \$500,000 in bonds outstanding. They said they were offered only 40 percent of the face value of the obligations under the reorganization plan.

The Southern Texas Federal District Court held the act invalid and dismissed the debt refunding plan. It required a \$400,000 loan from the Reconstruction Finance Corporation. Under the legislation, an agreement had to be approved by the Federal Court and a majority of the creditors, ranging under certain conditions from 66 2-3 per cent to 75 per cent.

The act was recently extended to 1940. It was introduced by Representative J. Mark Wilcox, of Florida.

## Religious Educational Program Is Planned

MRS. W. E. WATSON, General Director of the Sanford Religious Educational Program, announces the opening of the program for children between the ages of four and 11.  
The Sanford Ministerial Association called a group of women together forming an executive committee for the purpose of perfecting this movement. Miss Anne Van Devanter, director of religious education of the Presbyterian Church of Florida, met with the committee to assist with suggestions for the development of the session to be held beginning June 22 through a period of two weeks, closing with a program by the students.  
Superintendents of three departments are appointed as follows: Mrs. Lizzie P. Turnbull, beginners; Mrs. N. O. Gayer, primary; and Mrs. S. H. Maker, junior. These superintendents will appoint a full faculty for the functioning of their individual departments.  
Registration of children will be taken at the First Baptist Church on the Friday preceding the opening of the school, registration date, June 19, mark it on your calendar. Children will then be placed in the department from which they will derive the best development.  
There will be a committee of transportation for children living at a distance within the city limits that is difficult for their regular attendance. On the day of registration parents will please make known this need.  
This Vacation School is open to every church in Sanford and at this time it is interesting to note that in the last session of 1934, 82 students were of two year attendance and 28 of these had perfect attendance records. A total enrollment of 144 students. We urge all parents, of church affiliation, and more, especially those without this privilege to have their children attend.  
This is a splendid opportunity to have your children well placed through this two week period of morning sessions where their lives will be so enriched they will be able to bring to you a helpful, kindly, living as can only a Christian influence radiate in your homes. We are doing all we can to help, please share with us the joy of helping our "little people."

## Home Owners Rally To Nominatc Hodges In First Primarv

Strength of 100,000 Florida Home Owners to Play Important Role

## 'HOMESTEAD BILL' HODGES THE HOME-OWNER'S CHAMPION

One hundred thousand Home Owners, whose homes became tax free largely through the intensive efforts and campaign on the part of Wm. C. Hodges in the referendum election of November, 1934 are again rallying to the banner of their champion, "Homestead Bill" in an effort to nominate him Governor in the first primary and thereby insure their "tax free" homes against the big interests who desire to shift the tax burden back to the home owner.  
The Home Owners, whose chief interest is the preservation of the Homestead Exemption, also point to their champion, "Homestead Bill," as the bulwark of protection against sales and millage taxes and as an open advocate of old age and mothers' pensions.  
"Nominate Hodges in the first primary" has become the battle cry of these one hundred thousand Florida home owners together with the slogan "Hodges is a past performer and not a political premier!"

## Loyal Democracy Of Candidates Is Doubted By Cone

(Continued from page 1)  
"We can never get out of debt unless they lower the taxes, and that can be done without levying more taxes. We can't decently spend the money we have now," he declared.  
Mr. Cone served eight years in the state Senate and was president of that body in 1907. That year, he said, he had seven helpers at a cost of \$6,300; last year there were 333 that cost \$92,600. The Senate in 1907 had four stenographers, last year it had 200, "more than all the business houses in Sanford will require in the next 25 years." In 1907 one disabled Confederate veteran was doorkeeper, the last Senate required 16 doorkeeper.  
He wants "real money" for the schools, not chain stores, slot machine, race track and other "illegal" taxes. "If we've got to educate our children on gambling money let it lose its identity," he said.  
Mr. Cone said he is for the Townsend Plan, for living wages, organized labor, tariff on citrus fruits and vegetables, \$5 automobile licenses, tax exemption for homes, and is against poll tax.

# Convention Preliminaries Crowd Political Arenas As Nomination Dates Approach

By SIGRID ARNE  
WASHINGTON, May 25.—(AP)—Involved political machinery is grinding away at the job of selecting more than 2,000 men and women to represent the major political parties at their national conventions.

The delegates are being chosen according to state laws, at primaries, in state conventions, or by state central committees. Their actions at the national gatherings are being determined to some extent by the expressed majority will of party members.

Their numbers and the ratios allotted to the different states are determined variously in the two parties. There will be 1,001 votes cast when the Republicans meet in Cleveland June 9, and 1,100 ballots count when the Democrats meet at Philadelphia June 23.

How long the sleepless, perspiring, gesticulating, speech-hurrying men and women stay in the two cities will depend on the fights which develop. But the Republicans are expected this year to hold the longest session. Their loyalties are divided among several candidates, and that may mean hours of balloting before the candidate is chosen. The Democrats are expected to renominate their leader in the White House on the first ballot.

Besides the official delegates more than 2,000 alternates, who attain voting rights only when and if the regulars drop out, will attend the conventions. There will be political camps for the various candidates, and lobbies with representatives of various organizations lobbying committee members with pleas for special planks in the party platforms.

Convention business actually begins months before the final gathering. It starts when the national committees, 48 men and 48

women in each party, meet to name the convention city. At a later gathering they name the temporary chairmen to open the conventions.

More pre-convention work starts when the delegates are named. Most of the delegates and alternates pay their own expenses. They like the excitement, and if they are politically ambitious, serving as delegates helps to spotlight them in party affairs.

When the convention date nears, state delegations and various candidates open camps in hotels near the convention hall. State delegations in caucus name one person each for convention committees, of which the most important are the committees on rules, credentials, and resolutions.

The first establishes the rules under which the convention works. The second approves the delegations, and in cases where the personnel is contested, determine the delegates who may cast their state's votes. The third writes the party's platform.

The convention opens with the key-note speech by the temporary chairman. Then the permanent chairman is elected by the convention, and the rules and credentials committees report. Over the findings of the credentials committee very often, the first battle of the meeting develops. Protesting delegates are heard, and the official personnel of the convention finally established.

Next on the program is the report of the platform committee. The proposed course of the party for the next four years is read, argued, and a plan adopted.

Then begins the real show. The balloting for candidates starts. The roll of states is called, "Alabama, Arizona, Arkansas—," and so on. Each answers, "So many

## RECEIVE ALUMNAE MEDALLIONS

TALLAHASSEE, May 25.—Florida State College for Women graduates who received "alumnae medallions" Saturday for "distinguished achievement" since their graduation are shown in the above picture. Not in the picture are Miss Shirley Long, English instructor at Hunter College, New York, and Miss Mary Bailey Sloan, deceased, who attained prominence in the profession of medicine.

Mrs. Olson, who has held key positions in the Florida Education Association including that of president of the Florida Classroom Teachers, and who is connected with P. K. Yonge laboratory school at Gainesville, was awarded the medallion for achievement in the field of education. Mrs. Haun, a singer, who has filled engagements in this country and Australia, and who now is appearing in a Gilbert and Sullivan opera in Philadelphia, received the award for musical distinction. Mrs. Van Doren, editor of the York Herald Tribune's Sunday literary supplement, and former advertising manager and literary editor of The Nation, received the award in liberal arts and literature. Miss Longshore, associate professor of English at the state college here and former president of the Florida Education Association, was awarded the medallion for her service to the college. Mrs. McCollum, a former president of the Florida Federation of Women's Clubs and the Florida State College Alumnae Association, who now is on the State Board of Social Welfare, received the award for civic service.

Both sides of the medallion, which is being awarded for the first time, are shown in the above picture. The Gustav Bohlands, of Miami, nationally known sculptor, created and executed the design. A close study of the portraits and towers of the Administration building at the state college are shown on the obverse side of the medallion. The three torches, the insignia of the institution, are shown on the reverse side. The wreath of plant life represents beneficent productiveness.

## Borah's Anger Bolsters Idea He Might Bolt

By PRESTON GROVER  
WASHINGTON, May 25.—(AP)—Associates of Senator Borah have expressed some amazement at the wrath generated in Idaho by his Republican primary tilt.

They find him still rankling at the conduct of the Ohio campaign, his fire only partly assuaged by the percentage of the Republican vote he received.

Those in the party who would like to see him come into the convention, put his ideas into the platform as fully as his foes will permit, and then "go down the line" for whoever is nominated, are of the opinion he may not do that.

Some associates have expressed belief that Borah considers Governor Landon as harmonizing with the factors in the party he would like to drive out.

Borah has announced his intention of speaking again about June 1. He brushes aside questions as to whether at that time he will discuss Landon.

There is still scattering debate as to just how badly Borah was beaten in Ohio. He won only five delegates of the 52, but on the delegates-at-large, involving a state-wide vote, he accumulated about 35 per cent of the Republican votes cast. His backers argue that he actually may have received more votes than any other candidate.

Their argument is based on the presumption that he was compelled to contest "against the field," including not only Robert A. Taft, the "favorite son," but other principal candidates.

Their displeasure was heightened by receipt from an Ohio friend of a printed card which they assumed was one of a number distributed before the primary. It stated it was "issued by the Republican state primary cam-

aign committee, Ed. D. Schorr, chairman."

At the top of the card was printed: "If you favor Governor Alf M. Landon of Kansas, or Colonel Frank Knox of Illinois, or Senator Arthur H. Vandenberg of Michigan, or Senator L. J. Dickinson of Iowa, or any other person excepting Senator William E. Borah, for the Republican presidential nomination, mark 'x' before each of the following names."

Then were listed the candidates pledged to Taft as a "favorite son."

## Janitor Work Done By School Students

CHICAGO, May 25.—(AP)—Twenty-five young men and a girl are working their way through the Art Institute of Chicago by mopping floors, dusting stoves or flicking specks from prized paintings.

Once a day the students leave their palettes or molding boards, pick up mops, brooms, dusters, water pails and ladders and scurry to work as janitors. Nor does this menial labor submerge their artistic sensibilities, for now they have on display at the institute more than 20 paintings and pieces of sculpture.
