NUMBER 21

LEGISLATURE'S FOURTH WEEK WILL BE ROUGH SAILING WITH BLOCS IN THE HOUSE

FACTIONS MUST BE BROUGHT TOGETHER BEFORE LEGISLATURE CAN WORK COMMITTEES BUSY

Measures Are in Both Houses That Will Throw Them Into Turmoil

(By The Associated Press) TALLAHASSEE, April 23.—The legislature entered its fourth week this afternoon with indications that the hitherto heralded smooth machinery of both houses had sprang some loose bolts. On the lower side there are reports of blocs and secret night sessions, and the actions on the floor indicate that there are too many groups to make any one of them effective for anything except obstruction. Before anyone hopes to accomplish any legislation the reported movements to bring some of the groups together into a strong faction, must take better shape, observers say.

Neither house has done much in the way of the big things other than have their committees labor over them. On the other hand there are measures in both houses, which if taken seriously may throw the membership into a turmoil and tie up things generally. The house is facing the reconsideration of a resolution designed to restrain the teaching of Darwinism and like subjects in the public educational institutions, while the senate has an Anti-Ku Klux measure before it. The house gave its endorsement to the Darwinism resolution at first but some of the members claim that its full import passed over their heads at the time and if it comes back to the calendar they promise to oppose it vigorously.

The senate ordinarily will get to reappointment early in the week, a committee having sent out a plan of 38 senators to be distributed according to population without bothering county lines, and a house of three members each for the five most populous counties, two for the next 18 and one each for the remainder. It is freely predicted here that this plan with a few minor alterations will go through both houses and on to the voters next November in the shape of a proposed constitutional amendment. South Florida delegations may make some noise for something better, but it is believed they are in the mood to accept the proposed solution.

The house at the outset must go back to its batch of prohibition bills. It still has before it the first of lot prescribing the procedure in the issuance of search warrants. There are 13 of the temperance measures in all, and while the lower body may run through the majority of them fastly, there are two or three slated for considerable opposition, particularly the one providing for the disenfranchisement of liquor law violators. Another that would make jail sentences compulsory on bootleggers will bring on some wrangling, it is predicted.

The house will have before it too, a measure passed by the senate providing for the abolition of the county convict lease system, that is, insofar as permits of leasing prisoners to private firms or individuals. The house has a measure of its own, now perfected after a batch of amendments, and which goes much further than the senate measure, in one particular, it states it provides that county and state convicts cannot be worked or housed together. It also prohibits the whipping of county prisoners.

The senate, however, has a measure coming up for special consideration Friday which would abolish corporal punishment in all camps, both state and county.

There are indications that the committees and others concerned have about agreed on something in the way of tick reduction. It would not be surprising if a bill is not reported out during the week which would effect the modification under a system of zones, providing for dipping here and pasture rotation there.

The joint appropriations committee will have the budget with it for the

WHISKEY CASE IN ILLINOIS IN INVESTIGATION

(By The Associated Press) WASHINGTON, April 23.—Acting Prohibition Director Andrews, of Illinois, was suspended today by Commissioner Haynes, pending an investigation into case of Grommes Ullrich Distillery. In Grommes Ullrich case liquor valued at \$5,000 was distributed among the stockholders as a result of dissolution of firm. Andrews was in charge of prohibition enforcement during the dissolution proceedings.

Trial of Rev. Tikhon Postponed Indefinitely Was Set for Tomorrow

(By The Associated Press) MOSCOW, April 23.—The trial of Rev. Dr. Tikhon former Patriarch of all Russia, on charge of treason and hindering the carrying out of the Soviet orders has been postponed indefinitely. The trial had been set to begin tomorrow.

MOSCOW, April 23.—On the eve of the commencement on Tuesday of the trial of Rev. Dr. Tikhon, former patriarch of all Russia, on a charge of treason and hindering the carrying out of Soviet orders, the Soviet press today is filled with a reputed confession of the prelate. An alleged "confession" indicates that Dr. Tikhon must have undergone numerous preliminary examinations. Not one word in his defense is found in the newspapers. On the contrary, the dispatches of the official government agency from the provinces tend to show that meetings of working men are demanding Tikhon's execution as a counter revolutionary.

Dr. Tikhon will go before the Soviet court, admitting that he is an implacable foe of bolshevism.

MARJORIE DAW WEDS CHAPLIN'S DIRECTOR

LOS ANGELES, April 23.—Marjorie Daw, motion picture actress, and Albert Edward Southland, screen director, were married last night and were back at work making pictures today.

The Rev. Neal Dodd, rector of the Episcopal church of St. Mary of the Angels, known of Hollywood's Little Church Around the Corner, performed the ceremony. Mary Pickford was matron of honor and Charles the license Miss Daw gave her name as Marguerite E. House and her age as 21. The bridegroom, who is Chaplin's assistant director, gave his age as 20.

CONFERENCE IS CALLED TO FILE PROTEST

AGAINST DEPARTMENT OF AGRICULTURAL REPORT

(By The Associated Press) ST. MATTHEWS, S. C., April 23.—Proposal for a national conference of "representatives of agriculture friendly interests" to meet in Washington to protest against the Department of Agriculture report on probable acreage of principal crops made in telegram sent Norman Mayer & Co., New Orleans, by J. S. Wannamaker, president of the American Cotton Association, made public here today.

remainder of the week and then turn it to the floor.

Measures relating to the state road department, increased revenues and the like, some measure inimical to the department, others helpful, are still in committee.

Committees investigating charges against officials suspended by the governor still have work set out for them, but it is within the realm of possibility that some of them may report the coming week.

ORLANDO BOY WAS KILLED BRUTALLY IN MICHIGAN PRISON, POST MORTEM EXAMINATION

Shows Three Large Fractures on the Skull Made By a Club

(By The Associated Press) ORLANDO, April 23.—The examination of the body of Frank Patterson, the Orlando youth who it is alleged in letters to his parents by inmates of reform school at Ionia, Mich. That he died from the effects of a whipping received at the hands of a guard was indicated according to Undertaker Hand who examined the body declared the youth had been beaten to death. Three large fractures were found on the skull, the principal wound being on top of the head which it was said by those examining the body which reached here yesterday did away with the theory that the boy died as the result of a fall on the floor during a riot in the institution.

There were three other minor wounds on the forehead, plastered over by the Ionia undertaker with a substance resembling rouge to cover up scars, it was stated.

GERMANY WILLING TO LISTEN TO REPARATIONS QUESTION WITH VIEW OF SETTLEMENT

German Government is Ready and Willing to Negotiate

(By The Associated Press) LONDON, April 23.—The Berlin correspondent of the Central News says he learns on good authority the German government is preparing a positive offer to the Allies. Government hands will declare its readiness to negotiate questions of reparations and guarantees.

QUESTION OF OIL FIELDS IN NEAR EAST IS UP TODAY BEFORE LAUSANNE CONFERENCE

Allied and Turkish Delegations Meet in Another Effort for Peace

(By The Associated Press) LAUSANNE, April 23.—The question of the Near Eastern oil fields especially those covered by the Chester concession is in the foreground today as the Allied and Turkish delegations meet in another effort to draft peace treaty acceptable to both sides. Whether the general subject of concessions before the conference formally seems to depend on the success of direct negotiations between the British and French concession holders and the Turkish government who were advised by Allies when they agreed to detach easement questions from treaty delegates here. It is understood the United States representative Joseph C. Grew will continue the present open door policy.

NEW FARMER BANKS OPEN CREDITS TO FARMERS IN MAY

Washington, April 23.—The Federal Farm Loan Board announced today that May 1 had been fixed as the date for the formal opening of the twelve new intermediate farm credit banks, all of which have been chartered and will be prepared to consider applications for loans as provided under the new agricultural credit law. A uniform discount rate of 5 1/2 per cent has been fixed by all the banks, guaranteeing to farmers credit at not exceeding 7 per cent with the possibility of slightly lower interest charges.

With the announcement that the government's part of the program for extending new loaning facilities to the farmer is ready, the problem now appears to be one of organization among those who will seek government money. Certain provisions of the law required that the producers individually shall not obtain funds direct from the loan bank but must first group themselves into one of several kinds of organizations through which the producers' obligations may be rediscouted and passed on to the credit banks. Among these organizations are co-operative market associations, livestock and loan companies, and agricultural credit corporations, each with certain limitations and restrictions upon its powers to handle paper for the farmers.

The farm loan board is optimistic although Commissioner Lobdell said today the development of the system necessarily would be slow during what he termed the experimental stage. The commissioner predicted the new facilities would be readily grasped and the opportunities presented would be accepted by those for whom they were designated.

For starting the banks, the treasury has turned over one million dollars to each of the twelve institutions, although the law allows each a maximum of five millions. Members of the loan board expect that nothing like the maximum capital

permitted will be required for many be ready should emphy emphyemfwe months. The money, however, will be ready should call for it be made.

MICHIGAN PARTY IS REPORTED RESCUED FROM LAKE ISLAND.

(By The Associated Press) CHICAGO, April 23.—Eight men and one woman who had been marooned on South Fox Island in Lake Michigan, John Miller, the pilot of an airplane which went to their rescue and was wrecked and two Chicago newspapermen were taken off the island at 4:30 p. m., today by a car ferry leased from the Ann Arbor railroad by Thomas E. Wilson, the packer according to wireless messages from Manistique, Mich. The ferry which left Frankfort Sunday morning arrived at Fox Island at 2:30 o'clock this afternoon. It carried a physician and a trained nurse as one of the woodmen on the island was reported suffering from acute appendicitis.

Six airplanes in all have taken part in the effort to rescue the woodmen on the island since reports reached shore that they were straying.

Poincare Compares German Apathy and Sacrifices of French

TOURNEUSE, France, April 23.—Premier Poincare speaking before thousands of residents of the Meuse department assembled in the town of Vaud at the unveiling yesterday of a monument to the war dead, reiterated emphatically that France's essential conditions to approach with Germany are now as always, "reparations and security." The premier in a speech which was remarkable because it contained only a few casual references to the Ruhr, drew a parallel between the earnest and successful efforts of the French to pay indemnity and liberate their territory after 1871 and Germany's apathy, refusal and resistance in the matter of paying after 1918. Replying to the speech recently delivered in the reich-

TEXAS DANCER SETS NEW RECORD ON ENDURANCE

(By The Associated Press) DALLAS, April 23.—R. J. Newman, local athlete, world war veteran, quit the dancing floor here at 3:52 o'clock this morning, having set a record of one 107 hours and two minutes' dancing. He was allowed fifteen minute rest period each four hours of his endurance test which started 4:46 o'clock last Wednesday.

On the basis of fifteen minutes rest every four hours Newman had a total respite of about six and a half hours of a hundred and seven total.

Six contestants started Wednesday but five, including three girls dropped out after about the sixtieth hour. Physicians pronounced Newman in "fairly good condition" when he quit.

JAIL STORMERS ARE ARRAIGNED IN BRADFORD

CHANGE OF VENUE WAS GRANTED MEN CHARGED WITH ATTEMPT MURDER

(By The Associated Press) PALATKA, April 23.—Nine men charged with an attempt to commit murder in connection with the storming of the Putnam county jail March 24 were arraigned in Bradford county circuit court at Starke this morning under a change of venue granted when the men were put on trial at Palatka recently. Five tentative jurors were in the box when special venire of thirty-six men were exhausted. The court recessed until nine o'clock tomorrow when another special venire will be called.

RECOMMENDATION WILL BE MADE BY LEGISLATURE

TO ABOLISH CONVICT LEASE SYSTEM AND CORPORAL PUNISHMENT

(By The Associated Press) TALLAHASSEE, March 23.—Recommendations will be made by a joint legislative committee investigating reported abuses of convicts in Florida to abolish the convict lease system, corporal punishment, immediate removal of Sheriff Jones of Leon county and establishment of merit system, these recommendations will be made as the result of the first phase of its inquiry with the death in private camp of Martin Tabert of North Dakota. Announced charges of brutality growing out of alleged cruel treatment administered Paul White, of Washington, in convict camp at MacClenny will be taken up next. The committee is making rapid progress toward bringing the Tabert phase of the investigation to a close this afternoon.

Daily Herald on sale at Joe's Smoke House, Mobley's Drug Store and Hunt's Pharmacy.

stage by Marion von Rosenberg, J. M. Polner said:

"Germany's minister of foreign affairs pretended that we entered the Ruhr without sufficient cause and that we rejected in January, 1923, an offer of thirty billion marks made to the Allies jointly. This offer was invented for the occasion; it was never made, and if the figure thirty billions is named now it is doubtless an attempt to please the German Socialists who suggested it.

But let us admit for the sake of argument that Baron von Rosenberg told the truth. What would follow? That Germany after formally admitting her indebtedness of 132,000,000,000 marks in May, 1921, and after having obtained in return for this admission the concession that the Ruhr should not be occupied, deigned in January, 1923, to offer the Allies less than a quarter of the sum promised by her and fixed by the reparations commission. And at what price would she have us pay for this strange concession? She asked us for a moratorium of three or four years, and consented to give neither tangible security nor guarantee.

COUNTY COMMISSIONERS MET IN SPECIAL SESSION TODAY WITH CITIZENS' COMMITTEE

TITLE CASE IS REOPENED AT MIAMI TODAY

(By The Associated Press) WASHINGTON, April 23.—Rehearing of case involving title to eighty acres of land near Miami was set today for May 10 by the department of interior. The property lies in the vicinity of Bayou Bisayne and situated along the beach front in exclusive residential district. Recent decisions by the department was favorable to claim of Francis S. Whitten, but opponent of Whitten appealed and secured rehearing.

Governor to Act In Case of Leon County Officers

(By The Associated Press) TALLAHASSEE, April 23.—Prompt action in the cases of County Judge G. H. Willyis and Sheriff J. R. Jones, of Leon county, whose names have appeared prominently in the legislative investigation of the death of Martin Tabert, of Munich, N. D., will be taken by Governor Hardee, it was learned in an authoritative quarter today.

The names of the two officials have run through the course of testimony given to the legislative committee since it began its inquiry and was topped yesterday with a startling narrative of alleged ill practices in their offices given by Jerry M. Poppell, former jailer. Poppell described a boom in the business of arresting vagrants, which he said occurred directly after the sheriff had contracted with the Putnam Lumber Company, in whose camp Tabert died from alleged brutal treatment, to receive \$20 a head for every prisoner he delivered. He declared the county's law enforcement machinery was so set up as to furnish a continuous supply of labor. The sheriff's entire force and the county Judge were habitually drunk, he testified.

During his service under Sheriff Jones, he declared he had known that official to observe the law twice in the destruction of confiscated liquor. On one occasion, he testified the sheriff substituted water for moonshine contents of a jug and then called a court attaché to witness his destruction of it. Another time, the sheriff was drunk, he stated and fell down and broke a jug filled with whiskey.

Governor Hardee kept in close touch with the investigation as it progressed yesterday and it was learned that he was prepared to act promptly. With Poppell's testimony causing much comment in legislative circles, the Pensacola News, owned and edited by State Senator John P. Stokes, chairman of the investigating committee, published today a demand on Governor Hardee that "Sheriff Jones of Leon county should be removed."

"North Dakota has not compelled Florida to abolish the system of leasing county convicts, and it is a lie on the people of Florida for anyone to say so. The good people of Florida made up their minds long time ago that the last vestige of human slavery under legal sanctions had to come to an end in this state and the legislature now in session in Tallahassee is but registering the will of their constituents." The editorial referred to the senate's action in voting last week to abolish county convict leasing.

"The developments before the joint committee of the senate and house charged with the investigation of the convict lease system in Florida," the editorial continued, "evidences a condition of rottenness in the office of the present sheriff of Leon county unparalleled in the history of Florida and should result in the prompt removal of J. R. Jones, the incumbent of that office."

"The eyes of the people of the United States are upon Florida, and Florida's governor," the editorial said "and prompt and vigorous action is required to show to the world that the citizens of Florida do not approve the conduct of Sheriff Jones in the

AND REP. LAKE ON MATTERS OF IMPORTANCE TO COUNTY

PASS SEINING BILL

Thro House and is Now in Senate Where it Will Pass Without Any Trouble

The Board of County Commissioners held a special session today for the benefit of many citizens of the county and to meet with Representative Lake to find out just what was wanted in regard to the various bills which he has for the county. The bill to prohibit cattle running at large in certain precincts in the county was the first question and after hearing from several representatives from various precincts it was decided to allow the bill to stand with the amendment put on by Senator Overstreet making the date for getting all the cattle out the prescribed districts July, 1924, instead of the bill as passed the house making the date October 1st, 1923. It was ratified by the county commissioners with this amendment with the exception of Commissioner Curlett who stated that his people were divided on the subject and he wanted them to have a chance to vote on the measure.

The question of the laws regulating the size of trucks on the county roads and also the bulkheading of Lake Monroe was brought up and it was decided by the board to send their attorney, George A. DeCottes to Tallahassee to frame those bills so they would be absolutely constitutional and to assist Representative Lake on all the bills that the county wishes to have passed.

The question of Seminole county paying out any more money on the eradication of the cattle tick was brought up and since Seminole has already spent about \$40,000 on the eradication of the tick without success it was decided to instruct Mr. Lake to vote against any measure for the eradication of the cattle tick in the state that would make it incumbent upon Seminole to stand the expense and let the state stand in the future.

The bill prohibiting seining in the waters of Seminole county came up and a petition was brought up signed by several hundred names asking that the bill be amended to include certain open and closed seasons for fishing. There was much discussion pro and con on this bill and the board finally moved that the bill as presented and that has already passed the house be allowed to stand with only one dissenting vote, that of Commissioner Curlett who explained that many of his constituents fished for a living and it would injure the industry. Judge Dickinson wanted an amendment allowing shad seining but the original bill was allowed to stand as written and it is certain to pass the senate and become a law and all seining in Seminole waters will be prohibited as soon as the bill becomes a law.

Several minor matters were discussed and the meeting adjourned.

MOSQUITO ENGINEER TO DRIVE PEST OUT OF OCALA, FLORIDA.

OCALA, April 23.—This city is the first in Florida, and so far as is known, the first in the United States, to have a municipal mosquito engineer, who will give his full time to prevention of mosquito breeding. The office has been created as a feature of Ocala's participation in the statewide mosquito eradication campaign.

office which he holds. This is not a matter in which Leon county alone is interested; all Florida, equally with Leon county, is upon trial, and all Florida is interested in proving to the country that the citizens of this state are not in sympathy with the action of the sheriff of Leon county which made possible the horrible death which befell young Tabert.

Eight witnesses will appear before the committee tomorrow in an attempt to substantiate Poppell's testimony.

SOCIAL CALENDAR

- Monday—Pipe Organ Club meets with Mrs. A. M. Phillips and Mrs. W. D. Gardner, at the Welaka Lobby at 3:30 p. m.
Monday—Westminster Club meets at four o'clock at the home of Mrs. L. I. Frazier on Celery Ave.
Tuesday—Mrs. George Knight will entertain the members of the Tuesday Duplicate Bridge Club at 3:30 P. M.
Tuesday—St. Agnes Guild will have special meeting at the home of Mrs. Claude Derby, on Magnolia Ave., at 8 P. M.
Friday—Peter Schaal will give a script dance at the Valdez from 9 to 1 P. M.

G. I. A. MEETING

The monthly social meeting of the G. I. A. to the B. of L. E. will be held at the home of Mrs. W. G. Ferguson at Lake Mary, April 26th at 6:30 p. m. All members cordially invited.

The hostesses this month are: Mrs. Ferguson, Mrs. Walker, Mrs. Grayman and Mrs. Bourier.

D. COMPANY CLUB

The non-commissioned officers of Co. D, 154th Inf, F. N. G., met last evening in the office of A. P. Connelly & Sons and organized a club for the purpose of furthering the interests of Co. D, to try to increase the Company to full strength, and to strengthen the morale.

The following officers were elected: Top Kick Bill Runge, president; Mess Sergeant Bill Rumpel, treasurer; Corporal Skinny Whitcomb, secretary. After the election of officers Lily Connelly passed around the cigars and the meeting buckled down to business.

Several matters were under discussion and it was decided to hold a get together banquet in the near future to try and get the business men to understand what the National Guard means to the city and to get them behind the movement.

Several committees were appointed and instructed to get busy and have a number of new men for the Company before Tuesday night.

The people of Sanford should realize that it means something to be rated as the third largest military post in the state and it is the purpose of this organization to show them.

HONORING PRESIDENT OF THE U. D. C.

In honor of Miss Agnes Person, of Orlando, president of the Florida Division U. D. C., the Jacksonville chapter United Daughters of the Confederacy entertained at a beautiful reception yesterday afternoon at the home of Mrs. W. R. Harney.

Beautiful in its appointments, perfect in detail was this lovely compliment to an honored visitor, Miss Agnes Person.

The spacious and hospitable home of Mrs. W. R. Harney was opened for this auspicious event and the rooms lavishly decorated in spring blossoms artistically placed.

Receiving the guests as they entered were Mrs. F. C. Skinner and Mrs. W. V. Hull, members of the Jacksonville chapter, the hostess chapter in the receiving line with Miss Person were the presidents of the chapters, Jacksonville, Mrs. J. L. Medlin and Annie Perdue Sebring, Mrs. H. L. Niven, who with Mrs. W. R. Harney received the number of

guests that came to honor their state president.

Miss Person is a woman of charming grace and personality, and made a lovely picture gowned in orchid georgette with black picture hat, and carrying in her arms a huge bouquet of red and white carnations tied with red and white tulle, the flowers the gift from the Martha Reid and Annie Perdue Sebring chapters.

During the afternoon a delightful musical program was given by Miss Ethel Mouser, who played beautifully a sonata by Grieg and a prelude by Chopin. Mrs. Lawrence Adams, who always delights her hearers, sang "At Dawning," by Cadman and "Vale" by Russell.

Mrs. G. A. Wood the general chairman of the lovely affair, then introduced Miss Person, who made a particularly splendid address. Miss Person touched on the activities of the Daughters and spoke entertainingly of their work and her vision in regard to the future work of the organization. She dwelt at length on the educational plans and spoke of the sixteen scholarships that are now in use, and that they had fifty applications. Eight scholarships are placed at Tallahassee, five at the University and three sons of heroes are being educated by the chapters. She spoke of the different memorials. The Jefferson Davis memorial to be erected at the birthplace of the president of the Confederacy of Kentucky, which will be the second largest monument in the world the memorial at Stone Mountain and others. Miss Person told of the smallest chapter which is composed of eight people located in Paris, France, from the president of which she had just received a letter endorsing Mrs. Amos Norris for president general. Miss Person urged all chapters of the state to bend their energies toward making Mrs. Norris the president general as she is fitted for the position from every point of view.

The convention from which the president general will be elected will take place in Washington the third Wednesday in November, and Miss Person hoped that a large delegation would be in attendance.

After the address delicious refreshments were served, ice cream and frosted cakes with coffee, saled nuts and mints. The bevy of attractive young girls serving with Mrs. G. A. Wood were Isabelle Warriner, Ethel Mouser, Mary Preston, Mrs. Henry Parr, Mrs. Frank Morrow. Pouring coffee Mrs. Howard Dexter, Mrs. J. C. Murchison, Mrs. J. C. Twyman, and at the table were Mrs. C. B. Rudisill and Mrs. Fons Hathaway. The reception was a lovely compliment to the state officer, and it is estimated that over a hundred and twenty-five women called during the afternoon which proved a most delightful occasion. Mrs. Harney is a charming hostess and the affair was thoroughly enjoyed.—Jacksonville Times-Union.

TROOP 3, BOY SCOUTS.

The regular meeting was held last night with twenty members present. Patrol Leader Booth started the meeting with the salute to the flag. Dick Maxwell took the oath and was welcomed as a tenderfoot. Dan Hansel was taken in as active member of the crew patrol.

It was agreed to hold a field meet on May --, to prepare for big time on the Fourth of July, when we expect to invite several troops to join us in a field day.

The shadow that has been hanging over us has passed away and our beloved Senior Patrol Leader is with us again, looking as if he would burst the buttons off his clothes.

According to the ruling made recently eight boys were dropped from the rolls. We are sorry to do this but believe they have had a fair chance. Now for a summer's work. Get ready. Get set. Go.

CHURCHES

CHRISTIAN SCIENCE SERVICE SUNDAY, APRIL 22, 1923. Subject: "DOCTRINE OF ATONEMENT" Church Service 10:45 a. m. Services will be held in the Palm Room of the Valdez Hotel. All are WELCOME.

HOLY CROSS CHURCH Church Services for 3rd Sunday after Easter will be: 7:30 a. m.—Low celebration. 9:45 a. m.—Sunday school. 11:00 a. m.—Morning service. 8:00 p. m.—Vespers. Wednesday, the 25th inst., is Feast Day of S. Mark, Evangelist, the church service will be at 7 a. m.

FIRST METHODIST CHURCH W. J. Carpenter, Pastor. The pastor will occupy the pulpit at both services on Sunday. At the morning service the subject will be: "Our Responsibility to the Generation That Now Is." In the evening a sermon will be preached on: "What is Involved in Being a Son of God." The Sunday school is busy getting ready for Sunday School Day, which will be an event of great importance to the school. The Epworth League will have charge of the prayer meeting this week. It will be fine.

FIRST BAPTIST CHURCH. Sunday School 9:30 a. m. Morning worship and sermon 11 a. m. Subject, What Shall We Make Our First Consideration? J. B. Y. P. Unions; 7 o'clock. Evening worship and sermon 8 o'clock. Subject, The Irresistible Charm of a Great Personality. At the evening hour a report will be made of the Memphis meetings. Prayer meeting Wednesday evening 8 o'clock. Sunbeam Band, Monday 3:30 p. m.

The action of copper sulphate on residual asphalt (that used in paving mixtures) can be regarded from two different angles.

First, the copper acts as a catalytic agent, as substantiated by the fact that the sulphate can be recovered only by the electrolytic process, unaltered in nature or amount at the end

of the re-action with the asphalt. 2nd.—We find that the addition of a copper salt to colloids in residual asphalt greatly alters the physical properties of the colloids giving them greater resistance to water, an increased toughness, greater resistance to loads when mixed with mineral aggregates (sand or stone) and a longer life. The writer attributes these increased physical characteristics of the action of copper sulphate to residual asphalt to the two causes combined.—Industrial Testing Laboratories, Dr. Henry C. Kayser.

This statement is the result of three years experimenting with the Willite process in direct comparison with straight sheet asphalt and Dr. Kayser's report shows that sheet asphalt (standard City of Los Angeles specifications) has a compressive strength of 281 pounds to the square inch. While Willite has a compressive strength of 568 lbs. to the square inch, or more than 100% in favor of Willite. The Richmond Testing Laboratory experiments show that sheet asphalt has a tensile strength of 56 while Willite has a tensile strength of 111. They also state that while Willite has increased the toughness of the mixture nearly 100%, it has at the same time lessened the brittleness. Add to this that Willite is non-skid (and consider for a moment how many accidents you know of as the result of skidding on wet pavement and you will demand that the pavement put down in front of your property be Willite.

J. M. Lowe, president of the National Old Trails Road Association in speaking of Willite on the Nigger Slough road says: "Willite is carrying 10,000 tons of traffic per day, more than is carried on any other stretch of road of like distance in the U. S. Extravagant as it may seem, traffic really seems to improve it. No other road in the U. S., no matter what material has been used in its construction, could stand up under any such traffic as this. More than that, no other road could carry this traffic and live six months. Yet Willite is carrying it and has done so for the past three years over 15,000,000 tons and is as smooth and uniform as the day it was first laid. And mark the prediction, although not a prophet and not even an engineer, the time will come even though it may be delayed for some years when this N. O. T. road from beginning to end will be constructed of Willite pavement as will every other worth while road."

In the face of such proof can we afford to experiment? Let us have the best in roads and save money on our maintenance.

NOTICE! The short order lunch room will be open for business Monday night under the management of Harry Herberger, corner of Palmetto Avenue and Second street. 20-1tp

BANANAS, APPLES

Carload of the finest bananas and apples has just arrived, and will be sold from the car at the cheapest prices. Bananas sold by bunch or dozen; apples sold by bushel sack and half sack. Also finest Florida tomatoes sold at cheap prices.

"WORSE THAN PAIN"

Louisiana Lady Says She Has "Never Found Anything Better Than Cardui for a Run-Down Condition."

Morgan City, La.—"It would be hard for me to tell how much benefit I have derived from the use of Cardui," said Mrs. I. C. Bowman, of 1319 Front Street, this city.

"Some one told me of Cardui, and I decided to use it. I was thin. I had no appetite. Could not rest or sleep well. I was so weak, and so very nervous, I was no pleasure to myself.

"I suffered some pain, but the worst of my trouble was from being so weak and easy to get tired and out of heart.

"This nervous condition was worse than pain. One one told me of Cardui, and I decided to use it. I was thin. I had no appetite. Could not rest or sleep well. I was so weak, and so very nervous, and began to eat and sleep, and grew stronger and was soon well.

"I have never found anything better for a run-down condition."

If you suffer as this Louisiana lady did, you, too, should find Cardui helpful for your troubles. Get a bottle of Cardui, today. NC-144

Thirty Texas ministers are "flaying the dance Marathons" says dispatch in the papers.

A newspaper man at Daytona Thursday landed an eighty pound shark with his bare hands says statement in paper.

The legislature is afraid they cannot abolish the convict leasing system until next January on account of the leases running that long.

A drug addict in Jacksonville tells the Journal that he knows where he can get the dope any time he wants it and he will tell the Federal authorities "where."

And now that long distance dancing has struck Florida and they will try it in Jacksonville.

THEY SAY.

Dr. Brownlee at the Presbyterian yesterday preached a sermon that should be printed and scattered broadcast over the land.

5,000 CARS OF CELERY THIS SEASON.

According to the market report of the government bureau on Saturday there have been 4,652 cars of celery shipped from the Sanford section this year and there is much to follow.

SELL YOUR REAL ESTATE WHEN U LIST IT WITH US

Want to Borrow Some Money on Your Real Estate? See Us - We Have It

Maxwell & Britt REAL ESTATE AGENTS. Fire, Casualty, Auto Insurance 106 W. First St., SANFORD, FLA.

season. On the other hand the growers should get together, find out how much they want to grow, get the proper seed and agree to ship only good stuff under a standard brand.

And then without any reference to the prices of celery the Herald would like to remark that 5,000 cars of celery from one part of the state is SOME CELERY.

CONVICT LESSEES ARE TO BLAME.

In the majority of the cases or it might be safe to assert all the cases of brutality practiced in the Florida camps are due to the equality with which the lessees viewed the treatment of the convicts.

"In all the controversy which has raged over the convict camp atrocities, it has been tacitly assumed that the state of Florida has been to blame, that it has condoned, if it has not justified the inhumanities and barbarities to which the prisoners have been subjected.

"To show that the state has not been unmindful of the welfare of its prisoners, and that the cruel and unjust punishment inflicted have been in direct violation of the law, we submit that section of the code relating to order and punishment. It follows: '6249-(1139)-Order and punishment.-All necessary means shall be used by the superintendent, and such punishment as may be needful shall be adopted, to maintain order, enforce obedience and discipline, suppress insurrection, prevent escapes and compel the performance of labor, but no CRUEL or INHUMAN punishment shall be inflicted upon any prisoner, and no PUNISHMENT INJURIOUS TO THE MIND OR BODY OF THE PRISONER shall be permitted, nor shall any prisoner be compelled to labor without food.

The above section was repeatedly violated at the Putnam camp, in fact, almost daily, and sometimes several times in one day, but Commissioner of Agriculture McKee, in whose charge the convicts are, has wired the Times that "all violations of the law and rules and regulations reported to this department have been promptly and carefully investigated."

Another section provides for the separation of white and negro convicts in working, eating and sleeping, and this too was disregarded at the Putnam camp. In fact, that company, through its little deal with Sheriff Jones, seemed to have had a regular supply of convicts, whom it worked at its own sweet will without let or hindrance from the law.

MY DEAR MAN, IF YOU EXPECT TO DO A GOOD BUSINESS AROUND HERE CUT OFF THE FIRST SEVEN TESTIMONIALS FROM YOUR LIST OF EIGHT. I'M NOT THE ONLY ONE THAT KNOWS THEM. REGARDLESS OF WHETHER AN ARTICLE HAS MERIT OR NOT THEY WOULD WRITE ANYTHING TO SEE THEIR NAMES IN PRINT!!!

- 1.—A new Library Building in the center of the city.
2.—Extension of the present bulkhead on the lake shore.
3.—The new pier and boat basin finished before January, 1924.
4.—A big Auditorium that will seat at least 5,000 people.
5.—New home for the Campbell-Lossing Post, American Legion.
6.—A Community Chest out of which all funds will be drawn.
7.—Two mill tax for publicity purposes.
8.—Municipal ownership, starting with water works and soft water.
9.—Systematic mosquito campaign and cleaner city.
10.—Ten thousand people here one year from today.

HERALD COLLECTIONS

The Herald carries manage and control their routes, pay in advance for all papers drawn, and absolutely depend upon their collections for their running capital and profits.

Subscribers who do not care to pay the carrier each week may pay the Herald two or more months in advance and they will pay the carrier each week from this fund.

This system of delivery is known as the INDEPENDENT CARRIER PLAN and is used by most of the larger newspapers of the country and has proven beyond doubt to be the very best plan of delivery.

The Herald earnestly requests its subscribers not to discourage these boys in this, their first business venture, by refusing to pay promptly each week for their newspaper.

THE SANFORD DAILY HERALD.

WORKING NEWSPAPERS FOR FREE PUBLICITY.

There appears to be no cessation of the requests daily received by all newspapers of the state for free publicity.

Yesterday this office received a long article from the directors of a rubber concern; an essay on the underproduction of arsenic, but it was believed that sufficient was on hand to kill off all the fool publishers who would run the two columns for nothing; and article telling how much state had been mined during the year; a five-column apology from the anthracite coal operators over the price of coal; a four-column address delivered by the president of the New York Stock Exchange telling how there was listed on the exchange stocks claimed to be worth more than sixty billions of dollars; five columns of tabulated work telling how many freight cars had been loaded and unloaded the past week; several columns of clippings which are "released for credit;" and about a dozen small things.

A PRACTICAL AND FAIR PLAN FOR REAPPORTIONMENT.

The problem of reapportionment over which so much verbiage has been expended, and to solve which so many intricate and more or less complicated plans have been proposed, is after all, just as simple as a. b. c., or the simplest problem in arithmetic, provided the wise legislators go about the right way, with a determination to solve it in justice and fairness to all parties and all sections.

The constitution defines the exact number of which both the senate and house shall consist, and provides that the population as given by the last federal census shall be the basis of representation. There you have all the data for the job, and it would be a very simple matter to work it out. Just follow out the straight lines marked out by the constitution. Surely there is intelligence enough in the legislature to divide the population of the state by 32, the number of senators limited by the constitution. The quotient would give the basis of representation for each senator. Then all the legislature would have to do, would be to arrange the state in 32

Advertisement for 11 4 more cigarettes for 24 for 15. Includes image of a cigarette pack and the American Tobacco Co. logo.

districts, as nearly as possible corresponding in population to the basis as shown by the division. We know of no sufficient reason, why every county should have a senator. It is not done in other states. It is not even done in Florida.

The house of representatives should be apportioned in the same way as the senate, so much population to have a representative, as might be found by dividing the entire population by 68, the number in the house named in the constitution.

PUT THE TAXES WHERE THEY BELONG. Taxes we have with us forever, and the tax question is as old as the hills. It is not so much a question of high taxes but a question of putting taxes where they belong and they do not belong on the residence of the man who wants to improve his home-place and takes a certain pride in living in a decent home.

PEOPLES BANK OF SANFORD

Sanford, Florida

"While we pride ourselves on having a well conducted Chamber of Commerce, second to none in the state, pro rata to population, we must recollect that the tail cannot wag the dog."

"It would be useless to bring people here from all over the country, for business and residential purposes, unless the building campaign be not only up to expectations, but in excess of present plans."

"Vacant lots, on which owners will set no price, represent a barrier to a greater Leesburg. Unless the owners will build, they should sell to those anxious to obtain sites for homes or business locations."

"Failing to do either, the assessments thereon should be raised to a figure representing the actual worth of the property. Owners will soon decide that paying taxes on vacant lots is not increasing incomes and will build to save money."

"When rentals afford anywhere from ten to twenty per cent on an investment, in addition to the speculative increase to realty as time passes, it is too good an opportunity for a business man to neglect it."

"There are always those who seek to profit by the labor of others. If

they could hold out, seeking to benefit by the upbuilding of progressive men, they would. The only way to even up matters is to impose a tax on this type, which will lessen the burden of a builder, and increase the revenues of the city in addition."

That island in Lake Michigan where people cannot get off when they want to should be advertised extensively. We did not know that there was such a place in the United States.

For quick results, try a want ad.

RELIEVES BACKACHE

"Have had kidney trouble and backache for many years and I tried several doctors but got only temporary relief. A friend advised me to try Foley Kidney Pills, and before I used two boxes I was entirely well," writes A. C. Perkins, Summer Shade, Ky. Kidney and bladder trouble requires prompt treatment. Foley Kidney Pills give quick relief. Refuse substitutes. Insist upon Foley's. Sold everywhere.—A. D.

CHANGE POTENTIAL TO OBTAIN SIGNALS

Way in Which This May Be Done With Three-Electrode Vacuum Tube.

For every filament current there is a definite plate potential that will give the strongest signals. When using fairly hard tubes—high vacuum—bringing out taps from the individual cells of the plate of "B" battery will give variations that are fine enough. For very soft, gaseous tubes, low

vacuum, a finer regulation of "B" battery potential is required and is most easily obtained by means of an "A" battery potentiometer. Fig. 14 shows how an "A" battery potentiometer is connected in the circuit of a three-electrode vacuum tube to give fine variations in the plate circuit potential. The resistance of an "A" battery potentiometer should be between 200 and 500 ohms. By moving the slider on the "A" battery potentiometer a variation of plate voltage equal to the "A" battery, or about six volts, can be secured. If the tube contains gas, too high a plate voltage will cause the tube to "buck-over"—that is, the gas is ionized and becomes a conductor, al-

lowing an excessive current to flow to the plate circuit which will destroy the elements. In using a vacuum tube circuit for the first time, always check the circuit to see that "A" and "B" batteries are connected to their respective terminals on the socket. The markings on the socket are plain and cannot be mistaken. Interchanging the plate fil-

Peonage System In Convict Camps Should Be Stopped

TALLAHASSEE, April 21.—Amos E. Pinchot, Washington attorney and a brother of Governor Pinchot, of Pennsylvania, will like "hundreds of others" seek other fields of sport and "pledge himself never to wet a line or fire a shot within Florida's borders" unless the state goes to the bottom of the convict brutalities and cleans house, according to letters sent by Mr. Pinchot to prominent club women in this state, including Miss Elizabeth Skinner, president of Florida Federation of Women's Clubs, and Mrs. W. S. Jennings, chairman of the legislative circle of Florida.

"My reason for writing you is perhaps a peculiar one," Mr. Pinchot says in a letter some 3,000 words in length. He says he has for years visited the state with his son and has spent many happy days in what "seemed to me, perhaps the most beautiful part of America."

"Therefore, to me as to many other Northern sportsmen with whom I talked, the disclosures of the Florida peonage camps have come with an ugly shock. For all Florida sportsmen, I think the peonage disclosures have clouded the skies and darkened the waters of their old hunting and fishing grounds." He says that he believes the injustice can readily be seen of blaming the murders and "bestial floggings" on men "like Higginbotham."

Neither Higginbotham, the camp guards nor any other such officials are actually guilty parties, he charges; they are merely the instruments through which the guilty parties committed their atrocities. "They are the logical products," he adds, "the first monstrous victims of Florida's penal laws and regulations."

The people of Florida should single out the men who put the peonage laws and regulations on the statute books, he wrote, and especially "they should drag to the bar of public opinion, and if the facts warrant, of justice, the legislators and officials who have not acted to repeal those laws and regulations because while they listened to the voices of turpentine and lumber companies they at the same time remained blind and deaf to the drama enacted in the forests, swamps and stockades," above all, he continues, being the director and officers that lease the convict labor.

"Creditable as has been the swift action of the legislature," he said, "let us not imagine that there will not be stiff opposition to the abolition of the peonage and flogging laws." Certain motions may be gone through in order to pacify public opinion, but a loop hole will be left in the finished product unless the legislators are watched, he said.

WEEKLY WEATHER REVIEW. ORLANDO, Fla., April 23.—The weekly citrus review by F. L. Skelly, as issued from the office of the American Fruit Growers, Inc., says:

Improved weather conditions coincident with the diminishing California naval supply has served to stimulate the inquiry for Florida oranges and grapefruit of good quality and the auction market closed much stronger than a week ago. Offerings of off size ordinary quality fruit, however, continue to meet with an indifferent reception at the hands of the trade. Oranges: Valencias of standard sizes under well advertised trade names reached new high levels, with indication of a continued and gradually ascending demand. Large sizes continue to lower the averages, however, the discounts do not seem so heavy as earlier in the season. Grapefruit: The latter part of the week witnessed a much more healthy inquiry for well packed medium sized fruit, the trade apparently having realized that the supply is not inexhaustible and that storage stock would consume a large percentage of the remaining crop. With moderate shipments and judicious distribution grapefruit should continue in active demand for the remainder of the season. The movement of strawberries having been retarded by weather conditions with prices remaining a high level, coupled with relatively tight supplies of storage apples will undoubtedly reflect favorably toward remaining citrus supplies.

BEAUTIFUL LINE OF HAND-PAINTED NOVELTIES AT THE QUALITY SHOP. 20-2tc

HOGS SELL AT LOWEST PRICE. KANSAS CITY, April 23.—Hogs sold on the Kansas City market this week at the lowest level since last November, says the weekly livestock review issued today by the market news service of the United States department of agriculture. The price was \$7.55 against \$8.20 a week earlier. Receipts were the largest of the year, \$8,000; a week ago 47,033.

BUCKET SHOP WOULD BE BANNED BY LAKE TALLAHASSEE, April 20.—Prohibition of the maintenance of a bucketshop, office, store of other place wherein pretended buying and selling of shares of stocks of bonds is conducted or permitted, is the aim of the measure introduced in the house of representatives Wednesday morning by Representative Forrest Lake, of Seminole county, which was reported favorably Thursday by the committee on Judiciary "C."

The rapidity with which the committee prepared its favorable report with a few slight amendments is said to indicate a similar disposition on the part of the house membership as a whole in endorsement of the measure. Its supporters, following the unofficial announcement of the committee's decision, were predicting the measure's passage at an early date. The measure is of particular interest to Jacksonville as it has the endorsement of many interests there.

The bill would prohibit the maintenance of a bucketshop, office, store or other place wherein is "conducted or permitted the pretended buying and selling of shares of stock or bonds of any corporation, of petroleum, cotton, grain, provisions, or other produce, either on margin or otherwise, without any intention of receiving or paying for the property so bought or of delivering of the property so sold. The maintenance of such offices or agencies would be declared a misdemeanor, punishable on conviction by a fine not exceeding five hundred dollars or by imprisonment in the county jail not exceeding six months, or by both fine and imprisonment.

A lawful and enforceable contract for the purchase and sale of stocks, bonds and other "brokerage" wares is defined in the act as are also the rights of brokers, agents and merchants.

Repeal of several sections of the revised general statutes relating to dealing in futures or margins, unlawful contracts, prosecution of parties to unlawful contracts, persons in this state becoming party to contracts made out of state, persons not excused from testifying and to use of evidence, prima facie evidence of such contract, establishing an office where are posted prices, construction of the said sections, and penalties for violation of sections.

Aquatic Sports Will Be Held at Rollins College

(By F. R. Bridges, Jr.)
ROLLINS COLLEGE, WINTER PARK, Fla., April 23.—(Special)—Winter Park in general and Rollins College and Lake Virginia in particular will be the scene for the Florida High School aquatic enthusiasts on Saturday, April 28, for an inter-scholastic Aquatic Meet which will be held on the placid waters of Lake Virginia, using the Rollins College official swimming course.

Nineteen boys teams and twelve girls teams are entered in the meet, according to the statement issued by Ray Greene, director of the meet, to the press this morning. The boys teams registered represent the following high schools: St. Petersburg, Hillsborough (Tampa), George Washington Junior (Tampa), Woodrow Wilson Junior (Tampa), Lakeland, Kissimmee, Orlando High and Orlando Junior, Sanford, Daytona, St. Augustine, Duval, Leesburg, New Smyrna, Winter Haven, Winter Park, Fort Myers, West Palm Beach, Miami, and Deland while girls teams representing St. Petersburg, Hillsborough, George Washington Junior, Orlando High, Orlando Junior, Duval, Winter Haven, Winter Park, Fort Myers, West Palm Beach, Miami and Deland high schools will be in the coming events. Remembering the fact that only fifteen boys teams and nine girls teams were entered in the 1922 meet and thirteen boys' teams and nine girls' teams participated in the 1921 meet and eight boys teams and six girls' teams swam in the initial state meet, staged in the spring of 1920, it can readily be seen that interest among Florida High School "fishes" in the annual event is increasing as the years roll by. In fact there is such a large entry list for this year's classic that the width of the Rollins course is now being added to in order to properly care for the entries.

Fifteen hundred dollars worth of silver loving cups are at stake at the meet. This fact, inasmuch as the Florida State Inter-scholastic Aquatic Trophy case contains more cups than any other case in the south, enhances the interest taken in the annual meet, for naturally the possibility of winning a cup or two for their high school increases the interest taken in the different events by the participants. Besides the cups, gold, silver and bronze medals are offered for the win of first, second and third place respectively in each event.

The manner of the scoring of points in the various events, first in swim, plunge or dive, 5 points; second in swim, plunge or dive, 3 points; third in swim, plunge or dive, 1 point; first in relay races, 10 points; second in relay races, 6 points; third in relay races, 2 points. Judges shall independently award points up to the maximum of ten for each dive according to the following scale—for promptness of dive, 1 point; for form on stand, 3 points; for form in the air, 3 points; for form on entering the water, 3 points. In case of a tie in score, the team or individual having the greatest number of "first" places shall win. If the team or individual is still tied, the greatest number of "second" places shall decide the tie. Then if necessary "third" places shall be considered and as a last resort the team or individual shall draw for the position of first place.

Athletic Meet For Orange County Boys Is Being Planned

ORLANDO, April 23.—At a meeting of the Orange County Y. M. C. A. committee Saturday in the rooms of the Orlando Chamber of Commerce it was decided to arrange for a county-wide athletic meet among the schools of the county to be held in Exposition Park April 28th.

The question of two buildings in the county, one in Orlando and the other some place in West Orange, was discussed by the committee, and it was the unanimous sense of those present that the time is now ripe to take up the matter of providing for the needs of the young men and boys of the county.

Eugene G. Duckworth, county chairman, presided over the meeting and those attending were: Joe Petris, of Oakland, S. W. Goodrich, William Bingham, A. R. Douglass, S. Kendrick Guernsey, E. J. Miehman, A. R. Harber and Karl Lehmann.

Orlando Swimming Fan Donates a Cup For the State Meet

WINTER PARK, April 23.—In a statement here Saturday, Ray Greene, director of the Florida State Inter-scholastic Aquatic meet to be held in the waters of Lake Virginia, this city April 28, stated that A. R. Douglass, Ford agent, manager of Orlando, will present a beautiful sterling cup to the boy winning the largest number of points in the coming meeting. This cup is to take the place of the one offered last year. Mr. Douglass has become very much interested in the inter-scholastic aquatics of Florida, and in order to aid in the development of interest in that type of high school athletics has given this cup to be added to the fifteen hundred dollars worth of trophies now offered.

RADIO

CIRCUIT WITH GRID LEAK RESISTANCE

Takes Place of "C" Battery—How Impedance of Flow Is Determined.

Fig. 13 shows a set of curves for a three-electrode vacuum tube circuit containing a grid leak resistance as shown in Fig. 11 instead of a "C" battery with the same symmetrical alternating difference of potential applied to the grid circuit.

There being no "C" battery potential applied to the grid, the grid in Fig. 11 is normally at zero potential with respect to the filament. As the positive half of the first cycle of the alternating difference of potential is impressed upon the grid circuit—see Fig. 13—the grid is made positive

with respect to the filament. Being positive with respect to the filament, it causes a certain number of electrons, which are negative charges, to be attracted and caused to give up their negative charges to the grid. During the next or negative half of the cycle of the applied grid potential the grid is made negative with respect to the filament but does not lose the electrons again. Thus a negative charge is built up on a grid during the positive portion of each cycle, the cumulative effect of which is to produce a decrease of the plate current, during the period that the alternating difference of potential called a wave train is applied to the grid.

Leesburg Will Not Be in Orange-Lake Counties League is Reported

Will Play Independent Ball the Coming Season

LEESBURG, April 23.—Feeling the need of a baseball team for Leesburg this season a number of players and fans recently perfected their plans for an organization. As the Lake-Orange League had its quota of teams made up it was found impossible for the Leesburg team to affiliate with that organization so the local club will play independent ball this season. As was stressed in the announcement of the meeting last week there will be no hired players in the personnel of the club but all will be home boys.

FORT MEADE, April 23.—At a meeting of the Fort Meade baseball club this week Eddie Stevens was made working manager of the club, to take the place or assist the nominal manager, Harman Head, who was elected to this position at a previous meeting. Eddie is an old ball player. He was given the task of looking after games, seeing the grounds are in good shape, and paying off the players, etc., and he has accepted the task and already gone to work.

OCALA, April 23.—The Lake City "Robinsonites" turned tables on the Ocala "Wildcats" here Saturday afternoon in the third game of the series and won by the close score of 6 to 5.

Score by innings:
Lake City 100 000 230—6 10 2
Ocala 003 000 020—5 9 3
Batteries: Robinson, Cox and Robinson; Williams, Rodenbough and Overtstreet; umpires, Bush and Youngblood.

would soon collect a sufficient negative charge to reduce the plate current to zero and the tube would cease to function.

A grid leak having too low resistance will not allow a sufficiently high negative charge to collect on the grid, resulting in a very small plate current reduction and weak response in the telephone receivers.

On the other hand, if the grid leak is of too high resistance, too high negative charge will collect on the grid and the condition of no grid leak will be approached.

In any electrical circuit that has a difference of potential applied to it, the current that will flow depends upon the "impedance" of that circuit; just as in the flow of water through a pipe, the quantity of water that will flow when any given pressure is applied depends upon how much the flow through the pipe is impeded by the friction of the particles of water against the sides of the pipe and against one another.

transposing this equation the impedance is equal to the applied voltage divided by the current. The impedance of a vacuum tube plate circuit, internally between the filament and the plate, when the grid is at zero potential, is an important constant of a vacuum tube and is called the internal plate impedance.

The internal grid impedance of a vacuum tube used in a radio set as a detector determines the impedance of the telephones that will give best results when connected in the plate circuit of that particular tube.

It is then not only the resistance of a pair of telephones, but also the inductance and the distributed capacity of the winding that cause the maximum current to flow in the telephones for a given change in grid potential. The internal plate impedance of a vacuum tube varies only slightly with different plate voltages. It is more an inherent characteristic of the tube which is determined by the design.

Her Revised Grammar.
Teacher was endeavoring to make clear to the youngsters the grammatical tenses. "My father had money, she pointed out, 'is in the past tense. Now, Grace, what tense would you be employing if you should say, 'My father has money?'"
"That would be pretense," said Grace, very soberly.—Exchange.

...MAGIC NAMES...

The influence of advertising is apparent in every turn of my daily life. I find I cannot disregard it. It is always with me, guiding me in my pleasures and in my duties, telling me what I should eat, wear, and use and what I should buy for my family.

I find that there is on the tip of my tongue a multitude of names the mention of which will bring from some shelf nearly everything that I can use in my daily life and in the daily life of my family.

In every instance that name means a very definite promise and assurance of something substantial and which will make me feel completely satisfied about having exchanged my money for it.

Let me say a few things which these names—these old friends of the newspaper and magazine pages—mean to me.

They mean good taste. For certainly I desire to do the thing that I believe discriminating people have judged best.

They mean convenience. It is not necessary to describe the thing I want. Even the most intimate articles may be purchased without embarrassment since the advertisers have given us handy names.

They mean assurance in shopping. There is no indecision. Even before I enter the shop I know what I want to buy.

And certainly they mean satisfaction. For the advertiser whose product is not good cannot continue to advertise. The fact that I have seen a name repeated over and over again assures me that it stands for a product of quality. In speaking that name to the clerk I know I am asking for the best.

I am a more judicious shopper because I buy advertised goods. I patronize the shop that sells them.

Blueberry Rapture. Both these splendid varieties of berries (high and low growth), which are probably the best berry growing on bushes in the world, are a free gift of God to the people of New England. Beautiful in its white or slightly rose-tinted, beautiful in leaf and habit, the bush is, of course, most lovely when laden down with its cerulean berries—large, round and plump, dusted over with a fine soft fuzz or bloom, and packed full almost to the point of bursting with a juice which is more delicious than any known nectar. The ripe, rich, woody flavor of the perfect New England blueberry is indescribable. In it are the perfume of the wild rose and of the clover; in matters of the palate the savor of the blueberry is precisely what the bell-like note of the woodthrush is in the domain of sound. Esthetically, as well as in habitat, the two are closely associated. Both sensations are inefable, and quite without parallel in nature.—"Nesnad" in Boston Transcript.

New Attraction. A man who had been engaged to write a circus poster suddenly found himself at a loss for a fresh adjective. "See here," he said to his employer. "I don't know what to say about this panther. Have you a thesaurus?" The manager of the circus looked at him with suspicion. "No, sir, I have not," he said, "and I don't think I shall do anything about getting one this year. I never heard of a circus having one, either, and I've known some good shows. Where are they raised, anyway, I'd like to know?" —Pittsburg Dispatch.

ASKING SEVERAL VERY SILLY QUESTIONS.

Would the average citizen ask to his reception a guest with the blood of a murdered victim on his hands? Why is Senator T. J. Knabbs, of Macclenny, allowed to sit with his fellows until the affidavits made against him shall have been cleared away? If the legal hours for a laborer are set at eight hours each day, how can the state say that convicts shall work ten hours a day? Is that not what may be termed "personal legislation?" If convicts may be illegally worked for a turpentine camp at the rate of ten hours a day, why is it that they are forced to labor eighty-four hours a week in place of sixty? If a sheriff admits that he has been getting a rakeoff of twenty dollars for every convict he can create, how does he split with the court and the police? Shall he be allowed to make a hog of himself and take the whole bit? If Higginbotham is convicted on the charge of murder now lying against him can there be found a jury of women who will add to their verdict a "recommendation to mercy?" If a prison inspector knew as much as a split bean, would he not know about the abuses which have been carried on for years? What amount have these "magnificent state officials" been receiving to place a silver seal on their lips? Will any member of the present legislature who even hints at glossing over or whitewashing any of these various forms of awful cruelty be entitled to the term "Honorable" when he gets back among his own people? What sum does the Putnam company donate each Sunday for "foreign missions?" Also for "home missions?" Also for "lumber missions?" And how could that corporation, with Higginbotham as its self-starter, be in any way posted regarding a "Christian funeral?" Will the present legislature start something that it cannot finish? If so, who'll be the first man to pull "hell" out of "hellishness?" —Palatka News.

THE BLUE AND THE GRAY

At the meeting of the Confederate Veterans in New Orleans, Dr. George Harding, father of President Harding, expressed the hope that there might be a joint reunion of the Blue and the Gray in Washington next year. A little later, a Confederate delegate introduced a resolution which if adopted would make joint annual reunions the rule from now on. It is said the suggestions were not received with remarkable enthusiasm, but it may be that later a different feeling will prevail. Nobody will blame the soldiers who fought on the Southern side for wishing to retain their identity and their traditions, nor the soldiers of the North for feeling the same way, yet they would set a needed example by meeting in amity. The North and the South, even these fierce old patriarchs of the opposing causes, have come to see that they have more in common than they have in difference. They have come to see, as the years rolled by, that "bravery, and honor and friendliness exist on each side in spite of differences of opinion on certain subjects, and that there are matters of common good which are bigger than any factional feeling. If the Blue and the Gray meet together hereafter, for the sake of the things which they have in common and show the world that it is possible for men to be tolerant and generous even about things on which they are divided, wouldn't it help to promote peace in this sore, bickering world as truly as if these old men brought their wisdom to the conference tables?" —St. Augustine Record.

Misunderstood.

He was in his first week at college, and when he went to the stationer's to buy a fountain pen he felt dejected that the young woman who waited on him should know that in spite of his youth he was no high school boy. When she handed him a sheet of paper he wrote on it, with many flourishes, in a large, bold hand, "Alma Mater, Alma Mater," eight or nine times. The clerk watched him with a smiler, and at last she spoke. "Why don't you let her try it herself," she suggested, "and then if it doesn't suit, of course, we'll change it." —Milwaukee Journal.

Gold Found in Nova Scotia.

Consul McEma at Yarmouth, N. S., says it is reported that rich gold-bearing quartz has been struck on property at Malaga Barrons, Queens county, in the Yarmouth consular district. The preliminary development was concluded recently, and quartz is now being taken out and crushed. It is also reported that a rich strike has been made in areas on the "South Tabbit" lead, Malaga Barrons, and that there have been eleven men employed on the workings since early spring. On July 26 a shot fired opened up a five-foot lead of quartz showing rich gold specimens.

"You've Put That Engine In Fine Condition-Thanks"

We're proud to give efficient service to the car owner because of his cordial appreciation for work well done.

Our modern machinery and equipment enables us to take care of a car whether it needs complete overhauling, or rebuilding, or merely some slight adjustment of brakes or carburetor. Our methods of doing business and the very reasonable charge we make for high class work has won us high reputation among motorists.
