### FRIDAY, FEB. 23, 1951. TODAY'S BIBLE VERSE

He always will if we commit ourselves to him. Hitherto hath the Lord belped me. 1 Samuel 7:12.

A recent letter from Julian Stenstrom reveals that he is stationed at Hard Army headquarters at College Park, Ga. and recently had a vint from Jim Rivers, founder of Sanford radio Station WIRR.

The destructive effects of inflation are felt once more in Sanford as city employees are given a 5 percent raise which ultimately must be paid by the taxpayers. But the 5 percent increase in their salaries dees not begin to compensate them for the loss in purchasing power which they have suffered since the Korean war began. Thus, everyone loses through inflation, those who get the raise, and those who have to pay it.

State Comptroller C. M. Gay. who should know something about it, says that the State Welfare Department "is on the way to wrecking the finances of Florida." In 15 years since its formation this one department has grown into a colossal spending agency dissipating \$50,000,000 of public funds and asking for \$66,000,000 for the coming year. And what do we get for all this money? Well. Comptroller Gay says, "It is con!

Ninety school children narrowly escape death as an automobile crashes into the side of a school bus near Ginderville the other day. Had the bus been smashed or turned over, local citizens would have had a lesson in the value and importance of adequate hospital facilities which they would never have forgotten. Sometimes it is necessary to learn such lessons the hard way, but it is smarter to anticipate the possibilities of catastrophies before they happen. No community is properly supplied with hospital facilities which does not have an excess of beds over percent. It is folly to build a 50 bed hospital in a city which keeps 50 beds occupied all the time. What would we do with the child-ren in a bus accident if every bed in the hospital were already oc-

That question was settled definitely when presidential secretary Joseph Short announced at the White House that Mr. Truman had.

And, as the Benators finally pinned the details down, the ac-tual delivery of the papers was to Donald Dawson, the side the subcommittee has accused of ap-parently influencing RPC loans. That accusation was made in a subcommittee report to the Sen-ate. The report was drafted lar, y on the hasts of closed doors

The President described the report as apparently intended as a reflection on himself. At the time of his news conference discussion Feb. 9, he pointed to some papers on his desk and remarked that the report made no mention of RFC loan applications in which Congress members had interest-

But names of persons close to Mr. Truman have run all through the committee's hearings. Brought into it, one way or another, in addition to Dawson have been re-ferences to William M.
