Nixon's Cambodian Decision: A Fateful Act

Ever since President Nixon made his startling announcement that American armed forces were entering Cambodia, a state of confusion, alarm and grave forboding has existed.

As this is written on May 4, the reaction by the North Vietnam forces is yet to take definite shape. The initial hope of destruction of the Cambodian "sanctuaries" and the command complex from which the Communists staged their attacks on the American and South Vietnamese armies has apparently failed of realization.

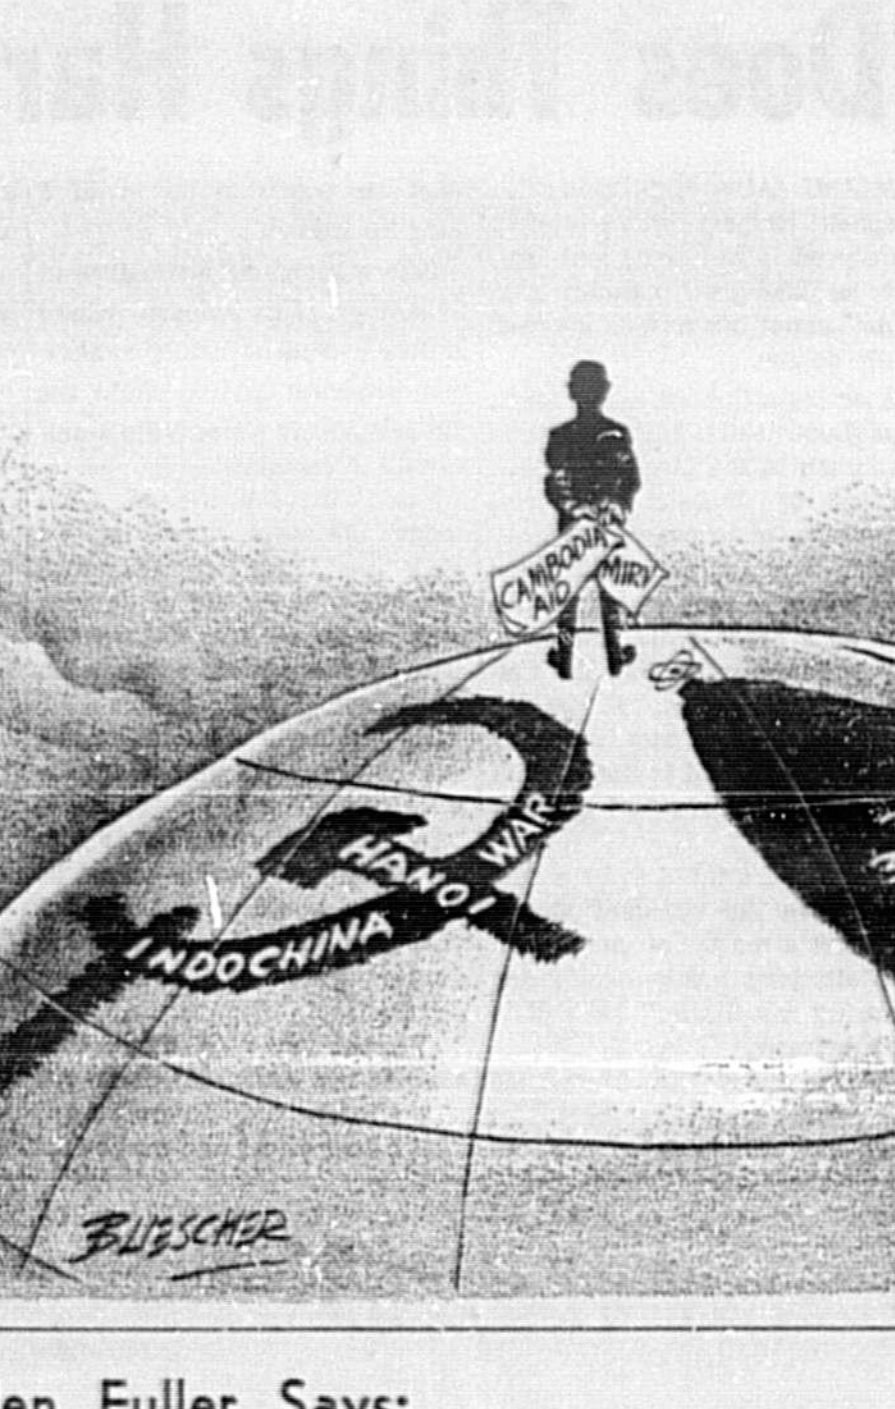

We are grateful that some have been alert enough to write us and we are happy to publish the letters. Not that we enjoy harsh words. But we know that the letters — pro or con — are the fruit of thought. And this is a time when thought is most desirable.

Of course this controversial decision is not a single development. That it came out of an atmosphere when most Americans felt that the Nixon drive to withdraw troops, to Vietnamize the combat forces so that we would have "Asian boys" doing what "American boys" used to do, has been successful.

Catfish Status

Long before Erskine Caldwell created shiftless Lester Leetcher, "catfish farmers" was an opportunity for men who plowed and harvested with the fishing poles. Kim Hubbard described such men: "It's no disgrace to be poor, but it might as well be."

Backmun Vote Due By Senate

By JOHN CHADWICK
Associated Press Writer
WASHINGTON (AP) — With unanimous support in the House, a bill to confirm Judge Harry A. Backmun's nomination to the Supreme Court came to a vote today in the Senate Judiciary Committee. Committee approval means early Senate action on confirmation of the 61-year-old Rochester, Minn., judge, who has been a member of the 8th U.S. Circuit of Appeals since 1959.

A draft committee report on the nomination was filed today in the Senate Judiciary Committee. Committee approval means early Senate action on confirmation of the 61-year-old Rochester, Minn., judge, who has been a member of the 8th U.S. Circuit of Appeals since 1959.

Backmun is President Nixon's third nominee to fill a high court vacancy created by the resignation of Abe Fortas a year ago. The Senate rejected Backmun's nomination in 1969, but the committee put off a vote on the nomination after he was "thoroughly qualified" and found no impropriety in his participation in four cases in which he had a stock interest.

Water Rates Upped By Altamonte

ALTAMONTE SPRINGS—Altamonte Springs City Council passed on first reading a utility rate ordinance which amends the existing ordinance. This will affect water rates alone and makes no reference to sewer rates.
Basic change will be in the minimum used by single family dwellings, which will be \$3.10 for the first 4,000 gallons, as opposed to the present \$3.60 minimum.
Commercial users will pay the bulk rate minimum of \$3.60 for the first 4,000 gallons. The rates will be effective with the June billings. Rates outside the city limits for single family dwellings will be \$3.60, but these users will not pay a utility tax.
Also passed on first reading was a utility tax ordinance, which amends the present utility ordinance. The basic change in this ordinance is that the 10 per cent tax is limited to a maximum of \$1 for individual users. A bulk rate of a flat 10 per cent will be charged to commercial users. This ordinance will also go into effect in June. Churches will be exempt from the utility tax.
Both ordinances will be presented for second and final reading at the next council meeting on May 19.
