

# Typhoid Carrier Hopes Surgery Will Bring Freedom

RIVIERA BEACH, Fla. (UPI) — Tiny Robinson has a hard time believing that her healthy body, which has endured 64 years with only one serious illness, harbors an infectious disease that can track people she loves or just meets — or never even sees — with fever and pain.

But Mrs. Robinson — like "Typhoid Mary" Mallon — is a carrier of typhoid fever, a virulent intestinal disease common to the tropics but rare in the United States, the Miami Herald reports in today's edition.

In the past two years, Palm Beach county health officials have tracked six cases of typhoid fever to Mrs. Robinson, the newspaper says. She has been banned from working in restaurants or even babysitting — the ways she made her living. She now subsists on \$170 a month from Social Security.

Today, she enters the hospital for surgery health officials hope will "cure" her. Surgeons will remove her gall bladder, where typhoid germs breed. Health officials, who have tried since 1978 to persuade her to undergo the operation, say it will keep her from seeking a quarantine order that would keep her away from other people.

At the same time, a suit filed by Jeannette Primack of Palm Beach, who caught the disease from her while eating at a restaurant in which Mrs. Robinson worked, will go to trial, the Herald reports.

Officials first discovered that Mrs. Robinson was a typhoid carrier after Mrs. Primack and another Palm Beach woman, Jane Scheel, contracted typhoid fever after eating separately in a restaurant where Mrs. Robinson worked part-time as a salad chef.

# Paulucci Reveals New Building Plan

## 3 High Rises Downtown

By DONNA ESTES  
Herald Staff Writer  
If the multimillion dollar dreams of entrepreneur Jeno Paulucci become a reality, the Sanford-Lake Mary area will experience a major economic uplift.

JENO PAULUCCI  
... multimillion-dollar dreams

And Sanford City Commission at a 10 a.m. workshop today gave its unanimous endorsement to plans revealed by the Duluth, Minn., and Sanford Industrialist to become personally involved in creating a major development in the north end of Seminole County.

As requested by Paulucci, the commission also unanimously approved the extension of sewer service to a 25-acre parcel on Rantoul Lane in Lake Mary where the industrialist plans to construct a 200-unit townhouse community.

Estimated value of this complex is \$10 million to \$12 million.

The three high rises in downtown Sanford will be joined by an enclosed overhead crosswalk with a parking ramp tied in with the crosswalk. This concept was used in a Duluth, Minn., downtown development project in which Paulucci was involved.

## Sanford Goes After Projects

Sanford city officials meet to discuss the development plans submitted by Jeno Paulucci. From left are city manager Warren "Pete" Knowles, commissioners Eddie Keith, Julian Stenstrom, John Morris and Mayor Lee Moore. Commissioner David Farr, not pictured arrived a little later.

The city of Sanford began today the pursuit of federal and state money for a variety of projects in the downtown area and in the southwestern section of the city.

Spurred on by the offer of assistance from entrepreneur Jeno Paulucci in gaining state and federal funding, the commissioners authorized City Manager Warren Knowles, Mayor Lee P. Moore and Commissioner John Morris to go with Paulucci and his staff to an April 3 meeting with Gov. Bob Graham in Tallahassee.

The commission decided that its first move would be to prepare a grant application to the federal government for a detailed study and planning effort for the community.

Paulucci has told the city commission that he has discussed with officials of the U.S. Department of Housing and Urban Development (HUD) his plan to buy the present hospital when it is closed and converting it into a nursing home.

Paulucci said the U.S. Economic Development Administration (EDA) will send a representative to Sanford to work with the city in revitalizing the downtown. He made it clear, at the same time, that what the "Paulucci family does privately does not hinge on what the community does."

Paulucci said, "is that we do have some plans that, hopefully, will materialize that have to do with our greatest asset here in Sanford, and that is that it's a marvelous place to retire for the Golden Age of people's lives," he said.

Paulucci added, "However, on the other hand, let's not forget that those of us who reach that Golden Age also have children and grandchildren so it becomes a Mecca... not the place for people to just sit around in retirement."

## Burroughs Plans Plant For Area

OHLANO, Fla. (UPI) — Burroughs Corp., one of the nation's largest manufacturers of computers and electronic office equipment, has picked a site west of Orlando for construction of a plant.

James Berend, staff counsel for the company, confirmed Wednesday the company bought 118 acres "with the intention of a manufacturing capability in the future."

Some 500 workers are expected to be employed at the plant initially.

## Angered Worker To Challenge SCC

By DIANE PETRYK  
Herald Staff Writer  
A Seminole Community College (SCC) counselor will have her grievance against the recent employment procedures of SCC weighed by a state hearing officer April 10.

JoAnne Howe, a counselor at SCC since 1971, filed a grievance in August charging that the newly appointed dean of student development filled his former position and created a new one and filled it without advertising the openings.

In addition, Mrs. Howe said, the positions were filled without adhering to other steps in the college's employment procedure policy.

SCC Personnel Director Frank Gore said the administration's position is that the jobs in question were filled by transfer of SCC employees, not new hires.

## Students Can Stay, Says Board

Commissioners excluded pursuit of federal dollars for an \$11 million storm water drainage project after Knowles said drainage projects are not being approved at this time for funding.

In addition, Knowles pointed out that if federal funds were available for drainage, those funds would cover no more than half the costs, leaving the city to finance the balance.—DONNA ESTES

## Weldon To Chair New Hospital Board

Earl S. Weldon, president of Seminole County College, and Janice R. Springfield, president of the Greater Sanford Chamber of Commerce, have been elected chairman and vice-chairman of the new board of trustees of Seminole Memorial Hospital.

Hospital Administrator James D. Fearr was elected secretary and treasurer of the board in accordance with Hospital Corporation of America (HCA) policy.

HCA, a private corporation, now owns Seminole Memorial and has begun drawing up plans for an 18 million replacement facility to be built in west Sanford overlooking Lake Monroe.

"We're looking forward to obtaining the Certificate of Need so we can begin construction," Weldon said Thursday. A Certificate of Need is required from state and federal officials before any new hospital is constructed.

**RESCUE WORKERS AID MOTORCYCLIST**  
Rescue workers place temporary splints on Gordon Deans of Sanford, following a collision which threw him from his motorcycle at Deans, 21 of 412 W. Crystal Drive, was in fair condition this morning at Seminole Memorial Hospital with a broken arm. The injury was suffered when Deans collided with a pickup truck driven by Carl Keith of Osteen, police say. Deans was heading east on 20th when the westbound pickup apparently made a left onto French across his path, police said, adding charges are still pending investigation.

## Weldon To Chair New Hospital Board

Earl S. Weldon, president of Seminole County College, and Janice R. Springfield, president of the Greater Sanford Chamber of Commerce, have been elected chairman and vice-chairman of the new board of trustees of Seminole Memorial Hospital.

**Students Can Stay, Says Board**  
Last week a motion to allow the students to stay at Lake Brantley High School failed 2-3. Board Member Robert G. Feather was absent.

# WORLD IN BRIEF

## Iran Revolutionary Council Rules Out Hostage Custody

By United Press International  
Iran's ruling Revolutionary Council, citing the ailing shah's move from Panama to Egypt, has ruled out any possibility of it taking custody of the 50 American hostages from the militants occupying the U.S. Embassy in Tehran.

## DeBaake Visits Ailing Shah

CAIRO, Egypt (UPI) — American heart specialist Dr. Michael DeBaake, said to be in a "race with survival" to save the ailing shah, visited the ex-monarch today in the military hospital where he is to undergo surgery to remove a cancerous spleen.

## 20 Dead In Africa Mine

JOHANNESBURG, South Africa (UPI) — A mine elevator cable snapped, plunging about 30 miners more than a mile to their deaths today at the bottom of the world's deepest and largest gold mine.

## Soviets Could Drop SALT

MOSCOW (UPI) — The Soviet Union cannot be expected to abide by the terms of the SALT II agreement unless it is ratified by Congress, a Soviet politician says.

## Yanks Leave Embassy

SAN SALVADOR, El Salvador (UPI) — All U.S. Embassy dependents were evacuated out of fear the assassination of the "people's monarch" Archbishop Oscar A. Romero could unleash massive violence in the strife-ridden Central American nation, an embassy source said.

## Guerrillas To Release 4?

BOGOTA, Colombia (UPI) — Leftist guerrillas may release four more hostages, but they are not expected to include any of the 19 diplomats being held at the Dominican Embassy, government sources said today.

## Principal Not To Run

Lyman Principal Carlton Henley said his responsibilities as Lyman administrator and time and expense required to run a campaign preclude his running at this time. But he is "at least positive" he will be a candidate for the post in 1981.

## Minister To Be Installed

Sanford Mayor Lee Moore will give the welcome Friday at 7:30 p.m. installation service at Sanford Alliance Church for the new minister, Pastor Charles J. Parmenter of the Alliance Church, which will be installed by Dr. Paul McCarty and Dr. Charles Deane of the Southern District of the Alliance Church in Orlando. The service will be open to the public.

# Iranians Discover It's Easy To Get Into U.S.

WASHINGTON (UPI) — Despite FBI warnings terrorists from Iran may be trying to enter the United States, thousands of Iranians are being admitted under a policy that limits inspections and clashes with presidential claims of close scrutiny.

A United Press International investigation into the processing of Iranians has uncovered what amounts to an unwritten but real policy of avoiding any incident that might provoke Iran and endanger the American hostages in Tehran.

Since the Nov. 4 seizure, more than 11,000 Iranians have been admitted to the United States, presumably with visas issued before the embassy takeover or visas issued in other countries. The number grows at the rate of about 50 a day. In the four previous years, 11,079 entered.

While projecting an image of cracking down on Iranians in this country, government officials point to "secondary inspections" as proof of vigilance.

Those examinations, which follow an initial check by INS agents, are ridiculed by the inspectors.

Last Sunday, at John F. Kennedy International Airport in New York, a young man with a student visa issued at the U.S. Embassy in Tehran, dated before the Nov. 4 takeover, was admitted after such a secondary inspection.

During that check, the inspector found a military-like field manual that told how to make bombs and mines, fieldstrip the Israeli Uzi submachine gun, and use a wide range of other weapons.

But County Judge Harold Johnson told the man giving him the name as John Marshall that he will be freed today if computer checks show the man is not wanted for any crimes.

According to arrest records, Marshall told deputies his Ohio driver's license had been stolen from him in Daytona Beach, but that he had not yet reported his loss.

But the date of birth Marshall gave was not the same as the one listed with Ohio. He was jailed on charges of giving an officer inaccurate information.

While Marshall claims he "didn't want to be drafted" and feared having any information about him put in a computer of any kind, deputies list him as "fitting the description of a man wanted in Daytona Beach."

While the records do not indicate the nature of the crime Marshall may be wanted for, Johnson said he did not want to release Marshall Wednesday and then find out he had released a suspect, possibly even someone wanted in the kidnapping and murder of a Daytona Beach woman. But court officials dismissed the possibility Marshall had anything to do with that crime.

# Thieves Fill Car With Man's Property

A Geneva man's neighbors thought a slow-moving station wagon seen outside his home Wednesday was loaded with relatives or friends.

But deputies now believe it was carrying a group of thieves and \$1,825 of Richard Morris's property.

Morris told deputies his home at the corner of State Road 46 and Cochran Road was burglarized sometime between 9 a.m. and 4:10 p.m. Wednesday by persons who forced open the door leading from his garage into his kitchen.

The thieves took two rifles, two shotguns, cash and jewelry, deputies say. Neighbors told deputies they saw a station wagon parked near the house at 12 p.m., but believed they were friends or relatives of Morris.

A Sanford man is in jail following an attempt to steal cash from a convenience store, faked by three 16-year-olds, police report.

Richard Lee Taylor of 2856 Gale Place, Sanford, was arrested just after midnight Wednesday in front of the LLI' Champ store at 2000 S. Sanford Ave., police say.

Taylor is charged with stealing a bank bag with \$370 from the grocery, with the help of another man, then running down Sanford Avenue.

But three Sanford youths, Randall Hanson, 1003 E. 25th St., Timothy Shepard, 2428 Yale Ave., and Kenneth T. Fillingier, 2225 Magnolia Ave., save the fleeing man and grabbed Taylor, recovering the cash, police say.

FALSE INFORMATION CHARGED  
A 22-year-old man who says he has been traveling around the country since his Ohio family "disintegrated" nine years ago spent Tuesday and Wednesday nights in the Seminole Jail on a charge he gave phony information about himself to deputies.

But County Judge Harold Johnson told the man giving him the name as John Marshall that he will be freed today if computer checks show the man is not wanted for any crimes.

According to arrest records, Marshall told deputies his Ohio driver's license had been stolen from him in Daytona Beach, but that he had not yet reported his loss.

But the date of birth Marshall gave was not the same as the one listed with Ohio. He was jailed on charges of giving an officer inaccurate information.

# NATION IN BRIEF

## Carter Promises No Cuts In Major Social Programs

WASHINGTON (UPI) — President Carter, evoking his favorite 1976 campaign theme of competence and love, has promised not to cut Social Security, Medicare, meals on wheels and federally assisted housing construction in his budget pruning.

Carter drew applause at a reception Wednesday from the congressional Democrats only twice — when he said not one American soldier had been killed in combat during his administration, and when he said, "I am determined that we will win in November."

## Mayers Oppose Tax Ceiling

TALLAHASSEE, Fla. (UPI) — Gov. Bob Graham is sticking with his program to keep property taxes from going up even though the mayors of Florida's big cities oppose it.

Mayors of 14 cities asked Graham Tuesday to scrap the 5 percent ceiling on increases in city and county property tax revenues including his "TRIM" Truth in mortgage package, saying it would lead to reductions in critical local services, especially in light of the cuts in federal revenue sharing money being made by President Carter.

## Execution Abuse Denied

TALLAHASSEE, Fla. (UPI) — A prosecutor assigned by Gov. Bob Graham says there is "no evidence" to support a former prison employee's charge that guards shouted raucous taunts at John Spunklin shortly before his execution last May.

State Attorney Eugene Whitworth said in an 11-page report released Wednesday that interviews with former Florida State Prison medical technician Bernard Gemmill and 22 present and former prison personnel found nothing to back up Gemmill's allegation Spunklin "suffered" verbal abuse or taunts the morning of his execution.

## Candidates Asked To Quit

TAMPA, Fla. (UPI) — Democratic senatorial candidate Jim Miller says Insurance Commissioner Bill Gunter and Sen. Kenneth H. "Buddy" Mackay should resign their state offices now to avoid any hint of a conflict of interest.

Gunter, who announced Monday as a candidate for the senate seat held by Democrat incumbent Richard Stone, has said he will not resign and Mackay has said he will resign after the 1980 legislative session which begins April 4.

## Friends Leave For Funeral

DAYTONA BEACH, Fla. (UPI) — Friends of a teenage Ohio girl kidnapped from a beachfront motel room and left dead in a drainage ditch have decided to shorten their vacation and leave today for her funeral.

Authorities have had little luck tracking the dimpled girl's killer. They hope the promise of a \$10,000 reward will lead them to the man who told Carol Barrett, 18, he was only taking her hostage, then killed her.

Her half-nude body was discovered Monday morning along Interstate 95 near the Jacksonville airport. She had been shot once in the back of the head.

## Bundy Trial Motion Denied

LAKE CITY, Fla. (UPI) — Circuit Judge Wallace Jopling has denied a motion for a new trial for convicted murderer Theodore Bundy in the death of 18-year-old Kimberly Leach.

Jopling denied the motion Wednesday by defense attorney Victor Africano, who had contended that a state rebuttal witness may have hazarded the jury.

## Weather

NATIONAL REPORT: The country's midsection reported now in the Northern Plains and the upper Mississippi Valley, showers in the Central and Southern Plains — and some fog and drizzle there in for good measure.

Parts of Louisiana got 1 to 2 more inches of rain during a 24-hour period Wednesday and combined with last week's heavy rains, kept the ground nearly saturated. A flash-flood watch for the state was extended through today.

Wednesday's high temperature was reported in Orlando, Fla., where the thermometer hit 84 degrees. Milwaukee and Detroit tied for the lowest with 28.

AREA READINGS (9 a.m.): temperature: 75; overnight low: 61; yesterday's high: 84; barometric pressure: 30.06; relative humidity: 74 percent; wind: Northwest at 9 p.m.; wind gust: 14 mph. A few showers north portion.

FEDAY TIDES: DAYTONA BEACH: high, 5:34 a.m.; 6:15 p.m.; low, 11:28 a.m.; 11:56 p.m.; PORT CANAVERAL: high, 5:46 a.m.; 6:07 p.m.; low, 11:19 a.m.; 11:47 p.m.; RAYPORT: high, 11:20 a.m.; 12:17 p.m.; low, 6:08 a.m.; 6:23 p.m.

BOATING FORECAST: St. Augustine to Jupiter Inlet, out to 30 miles: Winds easterly around 15 knots today and tonight becoming southeast Friday. Sea increasing to 3 to 5 feet today and tonight. Partly cloudy. A few showers north portion.

AREA FORECAST: Partly cloudy through Friday with a slight chance of showers. Highs mostly in the low 80s. Lows tonight in the 60s. Wind easterly 10 to 15 mph. Rain probability 30 percent today, tonight and Friday.

# Senate Passes Oil Windfall Tax

WASHINGTON (UPI) — The Senate, ending a long and bitter legislative battle, today passed the \$22.7 billion oil windfall profits tax — the heart of President Carter's energy program.

The legislation, approved earlier this month by the House, now goes to the White House. Carter has said he will sign it into law.

Passage came after the Senate defeated efforts by Sens. Robert Dole, R-Kan., and David Boren, D-Okla., to recommit the bill to the Senate Finance Committee for five days to study

the impact of the tax on independent producers and royalty owners and on domestic oil production.

Sen. Henry Bellmon, R-Okla., who canceled his own effort to recommit the bill to the Senate Appropriations Committee, called the windfall profits tax "an enormous blunder. Once Congress gets looked on these revenues it is virtually certain they will never be repealed."

Boren urged the tax be sent back to the Senate Finance Committee "where it can be exposed as the fraud it is."

Carrier called for the windfall tax when he ordered the gradual decoupling of oil prices on April 5, 1979. He envisioned a tax that would be used to help low-income families pay higher fuel bills and finance public transportation construction and the development of alternate energy sources.

The \$22.7 billion windfall revenues are raised by applying different tax rates to major oil companies and independent producers who do not have their own distribution and marketing facilities. The independents would pay \$22.5 billion, with major oil companies paying \$26.2 billion.

# Crime's Rapid March Florida Major Crime Rate Rockets By 12%

TALLAHASSEE, Fla. (UPI) — Major reported crimes increased by 12 percent in Florida last year with the biggest jump in non-urban areas.

The Department of Law Enforcement said Wednesday the number of arrests also climbed during 1979, increasing at a rate just below that of major crime.

Police Commissioner James York called the figures "alarming."

There were 1,084 murders in Florida in 1979, a jump of 14.2 percent over the previous year. Robberies increased by 24.8 percent to account for the biggest jump of all categories, while non-violent crimes, the biggest increase came in car thefts, up 14.7 percent.

Crime was up more in non-urban areas than in the cities and suburbs. Most of the increase in non-urban areas, however, was attributed to nonviolent incidents. In rural areas major crime was up 19.2 percent.

Other highlights of the report included: — Arrests for major crimes were up by 10.2 percent. — Four law enforcement officers were killed in the line of duty, the same number as in 1978. — The value of stolen property increased 36.2 percent to a total of \$341 million, 25.1 percent of which was recovered.

To put the \$341 million major crimes in perspective, the FDLE calculated that one major crime occurred in Florida every 52 seconds last year and there was one for every 14 residents.

The seven major crimes measured by the FDLE include murder, forcible rape, robbery, aggravated assault, burglary, larceny and car theft.

## 4 Shot Dead In Miami Despite Tight Security

MIAMI (UPI) — Police are still unsure about why two gunmen shot and killed three men and a woman in various parts of a well-kept home protected by such security features as a fence, barred windows and a peephole in a solid wood door.

There was speculation that the murders involved drugs or gambling, but police spokesman James Babb said Wednesday there was no evidence that was the case.

"They're still not really sure. There's nothing concrete to that effect," he said. "Of course with something like this the first thing you do is drugs."

Two of the victims were tentatively identified but their names were withheld pending notification of relatives. The other two were not identified.

Police also withheld identification of a third armed man in the Miami area. His identification was being withheld until until police arrived.

Daisy McKinney, 34, who lives close by, said she heard a volley of shots followed by a 10-second pause, then two more shots.

She said she ran out of her house and saw a 1975 or 1976 Chevrolet Malibu speed away. As she turned to go inside her house to call police she saw a third man with a handgun.

Neighbors said the victims who had lived in the house were newcomers and had installed the safety features.

"They look to themselves and seemed to come and go," he said. "I saw them in the house. Sometimes they'd be out of the house and there'd be cars lined up all up and down the block."

## High Crime Cities

TALLAHASSEE, Fla. (UPI) — Among the state's largest cities, Tallahassee had the biggest crime increase in 1979 with a 27.7 percent hike. The only city reporting a decrease was Pensacola with a drop of 1.8 percent.

Other percentage increases were: Jacksonville — up 8.5 percent; Miami — up 7.7 percent; Tampa — up 17.4 percent; Fort Lauderdale — up 15.4 percent; Hollywood — up 17.7 percent; Orlando — up 7.9 percent; Daytona Beach — up 12.2 percent; Clearwater — up 10.3 percent; Gainesville — up 1.1 percent; Robertsdale — up 1.1 percent; Miami Beach — up 19.3 percent; Panama City — up 1.1 percent; Sarasota — up 13.4 percent; Tallahassee — up 27.7 percent; West Palm Beach — up 14.8 percent.

## 2 Men Brutally Killed In Fort Lauderdale

FORT LAUDERDALE, Fla. (UPI) — Two men were brutally stabbed and shot to death Wednesday night in an apparent drug-related slaying in a heavily fortified home, police said today.

Police said one victim was Horace Walls, 24, of Fort Lauderdale and the other was a man about 30 years old from the Miami area. His identification was being withheld until until police arrived.

Police said a quantity of a white substance that could be heroin or cocaine was found on a table and on the floor of a kitchen where Walls' mutilated body was found.

## Delegates Remain Big Prize

By United Press International  
Sen. Edward Kennedy's campaign morale has been rescued and his money problems will be eased by contributions in the wake of the New York and Connecticut victories. And President Carter's people are re-thinking strategy.

But only the approaching primaries — beginning with Wisconsin and Kansas Tuesday — will tell whether this week's upsurge results are "a dip in the road," as Carter's campaign chairman Robert Strauss says, or a real turning point for the president, as the Kennedy people hope.

The real name of the game is delegates. Carter has a big enough lead that it is all but impossible for Kennedy to overcome without huge landlides in most remaining primaries, caucuses and state conventions.

The same statistics loom over the Republican race, where Ronald Reagan has a clear majority over all his opponents and uncommitted.

So if Carter should lose, it could mean his support in the North would be cut off shortly after he entered the race last fall.

## Coppola To Direct Brown On TV

MADISON, Wis. (UPI) — Francis Ford Coppola, director of such films as "Apocalypse Now" and "The Godfather," will direct a half-hour live television special on the Capitol steps starting California Gov. Edmund G. Brown.

Coppola said Wednesday he was volunteering his time in an effort to revive Brown's sagging presidential campaign. He said others involved in the extravaganza, to be filmed Friday night, will be paid by Brown's campaign committee.

The special, called "The Shape of Things to Come," will be broadcast Saturday at 10 p.m. EST by a number of NBC affiliates.

## Alleged Killer Named In Will Of Tarnower

WHITE PLAINS, N.Y. (UPI) — Slain doctor book author Dr. Herman Tarnower bequeathed \$20,000 in his will to Jean Harris, the prep school headmaster charged with shooting him to death in Westchester County.

But authorities said, if Mrs. Harris is convicted of killing Tarnower, 60, author of "The Complete Scarsdale Medical Diet," state law would bar her from getting any of the money.

The will was dated Jan. 31, 1980, seven weeks before Tarnower was shot four times in Park Ridge, N.Y., estate with a .25-caliber revolver. Police said Mrs. Harris owned the gun.

Will We Support Ally El Salvador?

The State Department has finally admitted the obvious: Cuba is working to overthrow the pro-American government of El Salvador.

In statements issued this week, the State Department and the Pentagon charged that Cuba is sending weapons to leftist terrorists in El Salvador through the neighboring country of Honduras.

Communist agitators in El Salvador are known to be closely linked with Cuban dictator Fidel Castro.

While the tiny nation of El Salvador is torn by civil war and terrorism, the Carter administration has waffled on the question of military aid and public support for the Salvadoran government.

This week's official statements out of Washington are an encouraging sign that perhaps the waiting is over and that President Carter and Congress will stand up for at least one ally in this Hemisphere.

The assassination Tuesday of Archbishop Oscar Romero and the rash of terrorist bombings that followed are further evidence the Salvadoran government will not long survive.

Cuban subversives and communist agitators have been active in Central America for years and are increasing their terrorist activity now that victory is in sight.

The current Iranian crisis should have taught us that failure to support our allies forthrightly and quickly leads to disaster.

President Carter has retreated from long-time positions of American strength around the world. El Salvador is a chance for him to show he's learned something from his mistakes, before Communist Cuba teaches him yet another hard lesson on how the world works.

The Illegal Aliens

Some practical advice was given recently to the President's Select Commission on Immigration and Refugee Policy.

It came from Doris Meissner, deputy associate attorney general who has made a study of immigration law.

"I'd also like to see the commission deal as thoroughly as possible with the illegal alien problem — to confront the issues of employer sanctions, our relationship to Mexico, and the whole question of a secure work force," she said.

Then she added a caution that goes to the heart of the problem.

"In doing so, the commission must keep in mind that changing the status quo with regard to illegals is going to be very difficult. While no one likes the present situation, it has become institutionalized, and it is unclear where the political constituency lies for changing it."

The toughest part of the alien problem is the fact that American employers of alien labor and the Mexican-American community in the United States have a keen interest in the status quo and tend to defend it.

On the other hand, the people who feel most strongly that the present situation is intolerable are the officers of the Border Patrol, who are charged with enforcing the immigration laws and who see the laws being violated on a grand scale. These officers have little political influence.

And the great majority of Americans are ignorant of the problem, or care little about it, and do not form a political constituency for change.

That view of the situation is not meant to condone the widespread violation of immigration law. It is simply an attempt to confront political reality and explain why nothing has been done.

BERRY'S WORLD

"I just hate cocktail parties where complete strangers tell you the most intimate details of their personal lives."

Around

The Clock

By JANE CASSELLBERRY

Two of my favorite people are "Mom and Pop" Krohns (Mr. and Mrs. Walter J. Krohn Sr.), who have lived on Fairy Lake near Longwood since 1947 when they moved from Sanford. Mom and Pop don't get out much anymore, but they have some fantastic memories of the days when the sky was the limit for the adventurous pair.

They were married in Liberal, Kan., on March 22, 1916, and when the bride arrived on the train for the wedding she was met by the city fire truck and given a noisy ride about town before being delivered to her waiting groom. Their two children, Walter Jr. (Wally) and Emmajean, were born in Liberal before the family moved to Pop first became interested in gliders while living there and was a pioneer in the field. His name is engraved on a plaque in the glider Hall of Fame in the Smithsonian Institution in Washington, D.C.

After Pop and Wally came to Sanford in 1946 they renewed their soaring and gliding skills at a soaring school at the Sanford Airport, where Wally worked as a flight instructor.

A real estate developer in California, a silver and gold miner in New Mexico, a trailer home business operator in Texas, and more than 20 years in agriculture in Central Florida, Pop has had a varied career. Through it all Mom has been by his side.

More than 6,000 University of Central Florida graduates in Orange and Seminole counties will be the targets in the annual UCF Alumni Association phonathon. Nearly a dozen student organizations and alumni volunteers will man

telephones for four evenings, beginning April 7 with a goal of raising at least \$12,000, according to alumni coordinator Mark Glickman.

Speaking of UCF graduates, a just-released poll of persons awarded degrees from the university between August 1978 and June 1979 reveals 91.3 percent are either employed or attending graduate schools. The average salary of those surveyed with bachelor's degrees is \$12,422; those with master's degrees averaged \$15,391, overall a jump of 10 percent over last year. The unemployment rate is down from 2.5 percent in 1978-79. 10.1 percent in 1977 and 10 percent in last year's poll. Engineering grads reported an average starting salary of \$17,928.

ROBERT WALTERS Ultimate Abuse Of Trust Fund

WASHINGTON (NEA) — The Senate's leading authority on aviation issues, Sen. Howard W. Call, D-Ill., describes it as an "irresponsible proposal" — one that sacrifices safety improvements needed to reduce fatal air crashes in the future.

One of the few licensed pilots in the House, Rep. Barry M. Goldwater Jr., R-Calif., describes it as "the ultimate abuse" of a supposedly sacrosanct trust fund that has been mismanaged throughout the past decade.

They're both talking about President Carter's unprecedented proposal to bleed \$3 billion from the Airport and Airways Trust Fund during the next five years to help defuse the perilous state of the government's finances.

Carter's predecessors during the past 10 years have been content to merely thwart expenditures from the trust fund for needed safety improvements, thus allowing it to accumulate a bloated balance currently estimated at \$3 billion.

A UAW spokesman said smaller shops aren't necessarily being asked to meet the pattern — particularly in view of the U.S. auto industry's current depressed state and bleak short-term prospects.

All told, the UAW this year must bargain with at least 81 companies that employ more than 1 million workers.

The list also includes American Motors Corp., whose contract with 10,000 UAW-represented car assembly employees expires in September, and White Motor Corp., the truck builder with 1,500 workers whose contract expires in May.

Agreements have been reached with such large-scale original equipment and automotive aftermarket suppliers as Budd Co., Dana Corp., Eaton Corp., Eltra Corp., the Hayes-Kelley Co., Rockwell International and Champion Spark Plug Co.

Those companies employ more than 30,000 UAW members.

Among other companies with UAW contracts regarding this year are Bendix Corp., Borg-Warner Corp., Clark Equipment Corp., Colt Industries Inc., Ex-Cell-O Corp., Gould Inc., Hayes-Alton Corp., Lear-Siegler, Leeds

and Northrup Co., Monsanto Co., Robertshaw Controls Co., A. O. Smith Corp., Sundstrand Corp., TRW Inc., Teledyne Inc., Tenneco Inc. and White Consolidated Industries.

An exception to the generally peaceful talks thus far was Budd, one of the largest auto industry suppliers and among the first to challenge the GM pattern. Budd manufactured a variety of stamping assemblies, chassis and wheel and brake products.

Contract talks between the UAW and Budd stalled early in January, and UAW Vice President Martin Carter led nearly 10,000 workers on a 26-day strike, the first between the two in their 22 years of collective bargaining.

Gerber accused Budd of trying to take advantage of deteriorating economic conditions and thus forcing a strike.

"We had no choice," he said as demands walked out. "If we had accepted the demands of this profitable company, the Budd workers would be worse off than the Chrysler workers."

A tentative agreement was reached Feb. 2 based on the GM pattern. It was overwhelming support for the UAW.

GM workers won substantial increases in pensions and other benefits, a 3 percent annual wage hike, an improved cost-of-living formula, and a 10 percent increase in health and dental benefits.

With minor variations, the UAW said its settlements thus far with the major auto suppliers have run true to the pattern.

That is a typical statement, the union told its Rockwell employees that their new contract "provides for substantially increased job security, pension improvements, wage increases and other economic and non-economic gains patterned after the recent settlements at General Motors and Ford."

GM workers won substantial increases in pensions and other benefits, a 3 percent annual wage hike, an improved cost-of-living formula, and a 10 percent increase in health and dental benefits.

WILLIAM STEIF There Is No Start To A Trip

American Airlines flight 621 landed at St. Croix in the U.S. Virgin Islands at 4:32 p.m. Air-BVI flight 150 was scheduled to fly to the U.S. in the British Virgin Islands at 5:32 p.m.

"I'm booked on your flight 150," I said to the woman at the Air-BVI counter. I showed her an American Airlines ticket dated Feb. 8.

"That flight was canceled Jan. 25," she snarled.

"When's the next flight?" I asked. "Tomorrow at 2:32 p.m.," she said. "You'll have to arrange a hotel room overnight."

"Will you pay for it?" I asked. "No," she said. "That's up to you."

"Don't I have any recourse?" I asked. "Check with Air-BVI over there tomorrow," she said.

I did. Air-BVI's administrative manager, Edison O'Neal, said the big airline acts as Air-BVI's passenger agent in the United States, and that the little airline had notified American Airlines and all other carriers on Jan. 7 that the St. Croix-Beef Island flight would be canceled effective Jan. 25.

When I returned to St. Croix I phoned Stephen Boyd, American Airlines' local manager, and asked him to reimburse the \$4.32 hotel bill and \$18 in taxi fares.

"Write me a letter with the details," he said. "Include copies of your receipts. I'll try to get Air-BVI to refund your expenses."

"That's your responsibility, isn't it?" I asked. "Air-BVI notified you on Jan. 7 that it was canceling that flight as of Jan. 25."

"It takes three months for notifications to move through the system," he said. "Write me a letter."

It seemed to me there must be a way to get my money back. There is, and you should consider it, too, if you have a complaint about an airline.

I went to see Patricia Kennedy of the Civil Aeronautics Board's Bureau of Consumer Protection. She said I should write Gene Dieringer, head of the consumer office, American Airlines, P.O. Box 61616, Dallas-Ft. Worth Airport, Texas 75261.

Her advice about writing a complaint letter:

Keep it short. "Folks who see a 10-page letter throw it to the bottom of the pile, and if it's not businesslike, they'll put it in the crumple file."

In the first paragraph tell all the pertinent details. Next, tell what you want, as succinctly as possible. Never send originals of anything to anyone, only copies. Include names of persons you deal with and if they were nice or not.

Make sure your letter goes to the airline's office of consumer complaint. All big airlines have them, but not all have them. You can get their names and addresses from airline reservation offices.

Patricia Kennedy says first try to get your refund at the airport. Only if you fail there should you write the airline.

Clear warnings that American personnel in Tehran might be taken hostage as a result, the shah's foreign minister said in a statement to the shah's Fahri Foundation and the shah, as required by law.

Finally, Hansen charges that Rogers may have played "a major part in a series of events" that eventually led to the fateful decision to admit the shah to the United States.

Palestinian State Issue Clouds U.S. Talks With Israelis

TEL AVIV, Israel (UPI) — The peace treaty between Egypt and Israel that is one year old today may have trouble reaching its second anniversary if the two sides fail to agree on the future of Palestinian Arabs.

The trick is compromise, a feat achieved through vague wording in the 1978 Camp David peace accords that appeared to give something to everyone.

President Carter on March 15 announced he will meet separately in Washington with Israel's Prime Minister Menachem Begin and Egypt's President Anwar Sadat in an attempt to break the deadlock over Palestine.

Part I of the peace accords have been adhered to scrupulously. But in the year since the treaty signing in Washington, little measurable progress has been made toward meeting the second provision of those accords — giving self-rule to the 1.1 million Palestinians in the occupied West Bank and Gaza Strip that Israel captured in 1967.

"The reason Israel staunchly opposes the establishment of a Palestinian state in those territories, Israel argues such a state would be controlled by its arch foe, the Palestine Liberation Organization, and dominated by the Soviet Union.

Complicating the peace process has been the spread of Jewish settlements in the West Bank, the Delaware-sized region that is home to 600,000 Palestinians plus 10 million Jews on 64 outposts. The settlement issue has angered the United States as none other in its relations with Israel.

The anger, frustration and energy expended on the Palestinian problem in the last year has by far overshadowed the monumental achievement of the first peace treaty between Arab and Jewish states.

"The treaty has been criticized by nearly every quarter — from Arab shocktroops to the industrial powers of the West that depend on Arab oil.

Former Foreign Minister Abba Eban called the reaction of United Nations member states to the peace treaty "intellectually grotesque. The major operative feature of the peace treaty, Israelis learned how to shift their tanks into reverse gear.

They are having a more difficult time with the settlement issue has angered the United States as none other in its relations with Israel.

Former Foreign Minister Moshe Dayan, credited as the great compromiser at Camp David, is as opposed to creating a Palestinian state as is his previous boss, Menachem Begin.

He said at a recent symposium he "would sign the treaty again today just as I is," because: "The treaty gave Israel recognition in the Arab world as a legitimate state."

—Egypt as a result now is in the U.S. and not the Soviet camp.

Sadat's visit and the subsequent peace treaty overtook much of the 1973 October war. The 15-day conflict that bled both sides led to the 1974 and 1975 troop disengagement pacts engineered by then-U.S. Secretary of State Henry A. Kissinger.

The Sinai and Sinai II agreements set precedents for phased military pullbacks, the major operative feature of the peace treaty. Israelis learned how to shift their tanks into reverse gear.

Tribe Takes Lake Howell 7-4

Seminoles Slow Silver Hawk Express

By SAM COOK

The Lake Howell Silver Hawks lost a feather in their flight toward the Five Star Conference Championship Wednesday when Seminole defeated the Hawks best wing — right hander Bryan Murray — 7-4 at Lake Howell.

The loss was the second this week for Howell, who had run of 14 wins during a "Silver Streak" after dropping a season opening tournament game.

Twin setbacks this week dropped Coach Birt Benjamin's team to 7-2 in conference and 14-3 overall. "A couple days ago I thought we could run away with it," said Benjamin about his team's then unbeaten Five Star record.

One couldn't blame Benjamin for his outlook. Just last Friday Lake Howell knocked off its nearest contender — Deland — 9-8. The Bulldogs lost again Monday to Lyman.

After Wednesday, Deland along with Apopka is now back in the race with a 6-3 record. Lyman lost its chance to move within a game when they lost to Spruce Creek 6-6 in the bottom of the seventh. The Greyhounds stand at 5-4.

"It's anybody's race now," contended Benjamin. "We're just not playing with enthusiasm."

A team playing with enthusiasm is Bobby Lundquist's Seminole. The Tribe received a jolt last week when Terry Hanlett was declared ineligible and Seminole had to forfeit each game he played. Since his departure they have won three out of four.

Wednesday the Fighting Seminole did a little jolting of their own as they got to Murray for seven runs and 10 hits. The Hawks' right hander pitched with some common wisdom as he walked six batters. He had passed only nine in his first 36 innings.

"No control," Murray bemoaned about his first bad outing of the year. "I didn't have anything."

Murray walked Juan Dealto to open the game. Bobby Wells followed with a line drive to right, which "Mo" Smith made a nice grab off, but couldn't stop Dealto from moving to third. He had stolen second a pitch earlier.

Mike Link then walked and moved to second on a wild pitch. Shortstop Walt Law, a .362 hitter, stayed alive by fouling off two diving foreballs with two strikes.

After the count went to 2-2, Law ripped a fastball to right scoring Dealto with Link stopping at third and Law moving to second on the throw.

Hawk Center fielder Darryl Ely then prevented further damage with a great jumpout on a bloop fly ball by George Porzig. Outfielder Alton Davis though, played the final two runs with a slash single to right for a 3-0 Sanford advantage.

"I think Bryan was trying too hard," said Benjamin shaking his head about the wildness. "You can't find any better control pitcher around this area than him."

After the Sanford lead grew to 4-0 on a Wells' one-hop off the wall double scoring Terry Walker in the second, Howell attempted to bounce back.

Catcher Frank Reinold opened the inning with a walk from Tribe stopper Walker. Mo Smith then struck out, but Barry Stockwell singled and Jerry Winterhalter walked to lead the

Off to the races. Tribe first baseman Glenn Stambaugh guards the bag for the pickoff play as Silver Hawk base runner Jay Drivas makes a break for second base.

in the seventh when Glenn Stambaugh missed a squeeze bunt attempt — but so did catcher Reinold — as Davis trotted in from third while Reinold ran down the ball.

"If you can't throw strikes you can't get strikeouts," a philosophical Murray said while watching his record drop to 5-2.

While Murray was having his troubles, Walker was retiring Lake Howell's second man retired him after the fourth with a 4-3 lead.

Sanford's Mickey Forziga for single runs in the third, sixth and seventh innings to bolster its lead. Link had RBI singles to score Wells in the fourth and Dealto in the sixth.

The Tribe scored while hitting only one ball out of the infield against him before he gave way to Luis Tiant in the fifth.

The game was enthralling by a shouting match between Tiant and Chicago Manager Tony LaRussa.

Five Toronto pitchers combined on a six-hitter and Rico Carly hit a two-run homer — Glen Hubbard's three-run double off Doug Blair in the ninth inning wrapped up Atlanta's triumph.

Chicago's eighth-inning homer, Sprungstad and Jim McLean all intervened to prevent a fight.

In other games, Toronto blanked Kansas City 1-0. Atlanta dumped Cincinnati, 4-0. Philadelphia Texas clubbed Montreal, 6-3. Philadelphia outlasted the New York Mets, 4-4. Houston defeated Boston, 4-3. Oakland belted Chicago, 7-3. Cleveland edged San Francisco, 3-2. The Chicago Cubs slugged

drove in three runs with two doubles and a fly ball with two out in the fourth inning, enabling Los Angeles to score the run that gave the Cleveland Indians a 2-0 lead.

Steve Garvey, Pete Guerrero and Gary Thomasman drove in two runs apiece in a nine-run Los Angeles rally in the sixth inning.

Geoff Zahn turned in 6 2/3 innings and designated hitter Joe Morales slugged two doubles and a single to pace Minnesota ... Steve Kemp drove in five runs with a homer. Steve Kemp drove in five runs with a homer. Steve Kemp drove in five runs with a homer.

chance to win, they suddenly started using the more, as much as three-four times a week. I was pitching in important games and began losing again. When I did well, I got my confidence back. All I ask is to be allowed to pitch.

Trout Beats Guidry, Chisox Take Yanks

By United Press International

It's only spring training, but Wednesday's game in Sarasota, Fla., had the ingredients of a "real" contest — good pitching, clutch hitting, and even a verbal confrontation.

The White Sox beat the Yankees, 14-0, on Glenn Borgman's eight-inning homer.

Borgman hit his homer off Yankee reliever Tom Underwood with one out in the eighth to make a winner of Trout, who checked New York on six strikes and was aided by late-inning double plays started by Kevin Bell and Harry Chappas.

Guidry started for the Yankees, retiring all 11 batters he faced. Only two Chicago relievers were able to get the ball out of the infield

against him before he gave way to Luis Tiant in the fifth.

The game was enthralling by a shouting match between Tiant and Chicago Manager Tony LaRussa.

Atlanta's Mad Hungarian Happy In Shangri-La

WEST PALM BEACH, Fla. (UPI) — By the simple act of signing his name on a piece of paper, Al Hrabosky, the not so "Mad Hungarian," set himself up for the rest of his life.

That's what everybody's saying about the contract he was given by Ted Turner. Hrabosky isn't pitching for the Atlanta Braves, they keep telling him. He's pitching for the Shangri-La All-Stars.

"If we can control the inflation, it's Shangri-La," says the Braves' bearded reliever.

And if the inflation can't be controlled, Al Hrabosky isn't going to go hungry, either.

The contract he signed with Turner was a five-year one for \$2.3 million or \$6.9 million over 30 years. He will receive a salary of \$90,000 a year guaranteed for the first five years, part of which will be deferred each year at 18 per cent interest, and the total will be paid right through the year 2013 at the rate of \$178,000 a year.

Hrabosky's contract has been called a "30-year marriage" between Turner and him, but he looks at it a little differently.

"It's a five-year contract with a payoff of 25 years," he says. "I'm not something new for me. When I was with St. Louis and Kansas City I had a provision where I'd be paid 10 years after my contract expired. What it comes down to is I stay here for five years, after which I receive the remaining portion over the next 25 years."

Before signing with the Braves, Hrabosky spent the past two years with Kansas City. He considered offers from the Atlanta Braves and Florida Marlins, but he chose Atlanta.

"I'm not a young chick. I think the management will do everything in its power to win. If we can turn this season or two around, I'll never have a Pete Rose or a

chance to win, they suddenly started using the more, as much as three-four times a week. I was pitching in important games and began losing again. When I did well, I got my confidence back. All I ask is to be allowed to pitch.

At Hrabosky has come to the right place for that.

Plans Changing For U.S.?

DES MOINES, Iowa (UPI) — U.S. Olympic Committee member Robert Heilmick, one of the staunchest supporters of President Carter's proposed Moscow Olympic boycott, now says he's not sure the boycott is a good idea.

Heilmick, 63, says he finds it increasingly likely the committee will ignore the president and send American athletes to Moscow this summer.

"I think the impression that the need of the country and the mood of the U.S.C. is changing because of the lack of support from other countries," Heilmick said.

"It's been a very difficult personal decision for me," he said. "I felt we should give the president the opportunity to see if it would work. I think the athletes are willing to give up participation in the slightest way it will help our world peace."

Heilmick accused President Carter of "not being consistent" in his statements on the boycott effort.

"We don't like the posture of the White House that it's a decision of the private sector and, at the same time, telling us the decision has already been made. It would be quite appropriate to simply have the president make a pronouncement, he is forbidding U.S. citizens from going to Moscow."

Heilmick noted he is troubled by the decision he has already been made. It would be quite appropriate to simply have the president make a pronouncement, he is forbidding U.S. citizens from going to Moscow."

Heilmick noted he is troubled by the decision he has already been made. It would be quite appropriate to simply have the president make a pronouncement, he is forbidding U.S. citizens from going to Moscow."

## Try Games, Poems For Memory Loss

DEAR DR. LAMB — I'm writing to you in desperation. To put it plainly, I can't remember. I am serious. I can't. I've gone to writing things down. At times I say, "Oh, I won't forget that," but I do. I would be embarrassed to go to my doctor. He would probably snicker anyway. My husband becomes perturbed with me. I am young and on no medication. What can I do?

DEAR READER — You're right. I'm writing to you in desperation. To put it plainly, I can't remember. I am serious. I can't. I've gone to writing things down. At times I say, "Oh, I won't forget that," but I do. I would be embarrassed to go to my doctor. He would probably snicker anyway. My husband becomes perturbed with me. I am young and on no medication. What can I do?

## Commission May Add 133 Senior Meals

By DIANE PETRYK Herald Staff Writer

For \$3,382 in matching funds, the Federation of Senior Citizens Clubs of Seminole County could accept an additional \$30,438 from the federal government earmarked for providing daily meals for the elderly and shut-ins. The money would provide about 133 additional meals per day this year.

Seminole County has the amount needed available from another program for the elderly that is delayed, but County Commissioner Sandra Glenn said the commission is concerned about next year.

"If we grant the money (\$3,382 in matching funds) so more people get meals this year, how is it going to be funded next year?" she asked. "Will these people have to be cut off?"

The county has scheduled a work session on the matter for April 7. The federation is working on the problem.

"We will have to show the county how we can continue to serve those meals next year," said Joseph Maher, project director for the federation.

"The commission has said we can't expect increased funding next year," he said. "But there's a good possibility of getting funds from other institutions in the county."

The federal government doesn't care who puts up the matching funds, Maher explained.

This year, Congregate Meals, a program which serves about 100 hot meals a day to elderly citizens at five locations within the county, and Meals on Wheels, a program which delivers a hot meal to shut-ins, are budgeted at about \$154,000 with federal funds accounting for \$119,000. To get federal funds, localities must put up a 10 percent match, with 5 percent in cash and 5 percent in related services.

The additional funds for this year become available due to a federal government ruling disallowing the state government from withholding federal money for a year before handing it out to counties.

Last year the federation was using 1978 money and the federal government has ruled the delay must stop.

Edward and Beverly Salkaus stand with their son Jamie in the filled-in foundation which was to hold their dream home. The incomplete foundation is all that remains of their plans for a \$35,000 log home in Altamonte Springs.

## Couple Lost Dream Home, Now May Lose Their Lot

By DAVID M. RAZLER Herald Staff Writer

An Altamonte Springs couple who failed to get their dream home from a company now under investigation by the state's attorney, may also lose more than \$10,000 when a bank which paid out part of their loan to the contractor forecloses on their unpaid mortgage.

Edward and Beverly Salkaus of Altamonte Springs came to Seminole County in August 1978 with hopes of building a home for themselves.

But instead of living in a custom log cabin-style home, they are living in a nearby apartment.

The Salkaus are one of three families in Seminole County who allegedly contracted with Timberline Log Homes for construction of prefabricated dwellings, but received, at most, a pile of logs insufficient to build the promised structure.

"Timberline, its owner John Anderson (now missing and wanted on grand theft auto charges) and Anderson's father, Clifford, of Tennessee are under investigation by the 18th Circuit Court state's attorney and other state law enforcement agencies for allegedly defrauding many central Florida families by taking partial payments after signing contracts, but failing to deliver the promised homes."

But the Salkaus stand to lose more than just the \$3,722 deposit they gave John Anderson on Sept. 18, 1978, as well as a \$33,000 home. They may soon face foreclosure on their mortgage from Florida Federal Savings and Loan.

A month after the Salkaus paid their deposit, Florida Security Act and 30 daily meals to persons who do not meet federal guidelines but are locally determined to need the service. These are funded locally.

Yaher said there are about 10 people currently on the waiting list for Meals on Wheels.

## Silver Sends Stock Market Down And Up

NEW YORK (UPI) — The Hunt brothers of Texas, one of the nation's richest families, won a \$100 million showdown Thursday, but rumors they wouldn't make it caused a drop in silver and gold prices and sent the stock market charged up roller coaster rides.

Before it was over, silver prices fell more than \$4 an ounce, gold dropped \$32 and silver and gold prices and sent the stock market charged up roller coaster rides.

The average price of a NYSE share was off \$1.18 and the Dow Jones industrial average 28.33 at the depth of selling so heavy it put reporting tickers 15 minutes late. By the close, the NYSE was off only 34 cents and the Dow 2.14.

"I don't think it's any secret that we like silver," Herbert Hunt, in a typical understatement, said in a recent telephone interview.

Herbert declines to say silver prices forced the Hunts to come up with the cash because the silver futures were bought on the market form of credit known as "margin."

Herbert Hunt was unavailable for comment Thursday.

The turmoil spread to the stock market with rumors major brokerage houses were in trouble because their customers, including the Hunts, were unable to come up with additional rates necessary to maintain their liquidation of the market.

Then the Securities and Exchange Commission ordered trading suspended in stock of Bache Group Inc., one of the nation's largest brokerage firms, because of "events relating to commodities futures trading accounts maintained by customers with the firm."

Bache, in its first official comment, a statement by Chairman Harry Jacobs Jr. late in the day, said the Hunts had met about \$100 million of an undisclosed amount of margin and he said their collateral in stocks and bonds was adequate to cover the rest.

"This would be done privately by ourselves," he said in the letter. "What the Paulucci family does privately later on does not hinge on what the community does," he said. "All I am telling you is that we do have some plans that, hopefully, will materialize that have to do with our greatest asset here in Sanford, and that is that it's a marvelous place to retire for the Golden Age age of people's lives."

## Prime Rate Jumps

NEW YORK (UPI) — Citibank, the nation's second largest lending institution, today raised the prime rate charged top corporate customers to a record 19 1/2 percent from 18 percent.

Other banks are expected to follow suit because the institutions have had to pay large interest rates themselves for their worst cash. Banks recently have had to pay 21 percent for certificates of deposit, a major source of funds.

The increase also was sparked by the Federal Reserve's March 14 decision to restrict credit and increase reserve requirements. There were indications recently the Fed might have tightened credit again, but money watchers were not certain.

Herbert Hunt was unavailable for comment Thursday.

The turmoil spread to the stock market with rumors major brokerage houses were in trouble because their customers, including the Hunts, were unable to come up with additional rates necessary to maintain their liquidation of the market.

Then the Securities and Exchange Commission ordered trading suspended in stock of Bache Group Inc., one of the nation's largest brokerage firms, because of "events relating to commodities futures trading accounts maintained by customers with the firm."

"All I am telling you is that we do have some plans that, hopefully, will materialize that have to do with our greatest asset here in Sanford, and that is that it's a marvelous place to retire for the Golden Age age of people's lives."

"We are going to have to come up with some kind of cost estimates if we are to accept his philosophy," said Mayor Leo P. Moore.

And the city commission went to work Thursday morning in a one-hour meeting setting some tentative plans and some guidelines for Knowles to follow in preparing applications for federal and state money first was the concept of an application for federal assistance for planning for the downtown area.

Knowles warned that some of the projects might require matching local funds. He noted that Economic Development Administration (EDA) grants can be for 100 percent of a project, for 75 percent or for 50 percent, with the city expected to put up the difference.

The idea of seeking money for a citywide storm-drainage system was discarded after Knowles said the best the city could get in federal grants for storm drainage would be 50 percent of the costs with the city to fund the difference.

He noted some sort of tax would have to be levied and pledged for the difference and that the people of Sanford in two separate referendums turned down a request from the city for taxing authority that the storm drainage project which would have cost \$3 million nine years ago would cost about \$11 million today.

Next topic was the possibility of a Golden Age Center which would allow local social service agencies such as a social security office, Medicare office and other federal, state and county facilities.

Knowles said the city's share, aside from federal and state funding, could be financed through the rental of space in the facility. Moore said rental space
