Survey of Problems Designed To Place Of America In Post-War World

WELLS CONDUCTS GROUP'S RESEARCH

Of Raw Materials

WASHINGTON, May 4 (AP)—Along with the State Department's intensive survey of problems of essential European goods, it was disclosed today that private groups of business men, bankers, and professors are studying America's place in the post-war world.

Several hundred persons traveled to Washington last week for the purpose of attending a conference on the subject of raw materials.

The study is being conducted by the National Resources Planning Board, which is headed by Walter Dill

Confidence Game Ends Arrest Of 2 Men

JACKSONVILLE, May 5.—(AP)—Paul Maritaca and Larry J. Johnson will be arraigned in New York today on charges of using confidence to operate a horse race betting confidence game in Jacksonville.

Maritaca, 35, was arrested at Jacksonville on May 4. Johnson was arrested at Jacksonville on May 4. Both men were charged with operating a confidence game in Jacksonville for the past several months. They were charged with receiving bets of \$1,500 for Maritaca and \$2,500 for Johnson were conducted this morning at a hearing before U. S. Commissioner Carl H. Hays.

The two men surrendered to a New York U. S. marshal here several days ago after they had been arrested by a New York Federal grand jury along with 37 other persons.

 TAKES PLEASURE IN ANNOUNCING
 THAT IT WILL GIVE COMPLETE

RE-ELECT CHARLES O. ANDREWS

A record of results built on cooperation and diplomacy—common sense handling of important problems and issues—has gained for Senator Andrews the confidence, good will and respect of his colleagues in the United States Senate, and the heads of governmental departments in Washington.

His high standing on top-flight committees like Naval Affairs, and his other activity for a program of adequate national defense, already has proven valuable to our nation in Pensacola, Tampa, Key West, Banana River, Eglin Field and the new multi-million dollar base at Jacksonville, the expansion program at Miami, and other work soon to be authorized.

Senator Andrews' position on the Interstate Commerce Committee is helping us to get reduced freight rates—new air routes. (He took the lead in bringing air transportation to all parts of Florida and beyond—routes served by Eastern Air Lines and the National Air Lines.)

He is also a member of such other important committees as Immigration, Public Lands and Surveys, Public Buildings and Grounds, and the general Committee on Plans.

Senator Andrews can be depended upon to continue his vigorous work for old-age security, for Labor, for Public Works and Relief—for Veterans and their dependents. His record is 100 percent—Ask any Service Officer.

J. M. LEE Requests The Privilege Of Continuing To Serve As Your COMPTROLLER. His Platform Is His Record Of Service To The People Of Florida. Here is the Record YOU Helped Make Possible: The Comptroller's office issues 1,500,000 checks in a year - 10,000 old funds and 30,000 unexpended receiving social security checks can tell you how promptly they receive their checks each month. We have not had a bank failure in Florida since the comptroller approved their financial set up and authorized their reopening following the moratorium. We have paid state appropriations for school teachers and school bus drivers which have increased from less than five million dollars per year to more than twelve million per year. Funds have been administered totaling nearly four million dollars per year to be matched by almost an equal Federal money to provide subsidies for our aged and for our dependent children. Our tax money has been distributed promptly and in accord with the law of Florida as interpreted by the Supreme Court. We have taken such action as was required by the Federal government to insure continued Federal aid for highway building more than six million dollars to the state and making possible the construction of more than 150 miles of the highest type of roads. By a fair and impartial administration of our tax collection laws, as far as is in the power of this office, we have restored the faith of taxPAYERS in their state government. Where we have found errors by taxpayers or efforts to evade or avoid tax payments we have recovered more than five million dollars of evaded taxes for the State of Florida plus costs of investigation, prosecution and recovery - and approximately a million dollars of this money would have gone to other states had not our aggressive procedure of Florida's claim. We have established for the first time in Florida's history a policy of a fair deal for the taxPAYER, and whenever a court upsets a tax law the state now returns any money which may have been collected from those who did not question the statute. Our auditors check for overpayments as well as under-payments, and when over-payments are discovered the taxpayer gets his money back.
