History Shows That Americans Got Billed Every 20 Years

WASHINGTON, Mar. 10.—(AP)—Every 20 years the United States gets billed at Germany.

It has been going on for about 20 years. Now we are at another peak of anger. The cause is approximately the same as before.

If you can look at the thing in the philosophic light of 20 years it may help to keep your temper down.

We had our first stiff with the German empire over the Samoan Islands. The Samoan Islands are the Bahamas of the South Sea.

Things ebbed along for about 20 years with the Germans not caring much whether we took the islands or left them alone.

By 1875 the Samoan business had advanced far into diplomatic waters and we hickored back and forth with Germany until 1899 before reaching an agreement to divide the islands.

Partly out of sympathy for Spain and partly to restrain the United States, Germany tried valiantly to keep the country from going to war.

At the point Admiral Dewey and Admiral Diederich virtually squared off for battle right there in the harbor.

After that Germany too began to see that she might need a friend across the Atlantic and became more friendly.

But just at that time England was in need of a new friend and did a good turn by showing her feet to Germany.

Germany was a necessary ally in the Spanish-Germany threatened to destroy Germany's grip in order to collect a debt.

Germany's ally was a necessary ally in the Spanish-Germany threatened to destroy Germany's grip in order to collect a debt.

Three Hurt When Twister Strikes At Daytona Beach

\$10,000 Damage Results From Winds; Another Storm Hits Near Jacksonville

By Associated Press
Snow fell in upstate New York today while Spring tornadoes in Florida added their toll to that caused by widespread storms of the previous 48 hours.

Three persons were injured when a twister struck Daytona Beach this morning. Property damage was estimated at about \$10,000.

Four negroes were killed and several injured last night in a tornado at Dinwiddie near Jacksonville.

Meanwhile the death toll of the flood near Vicksburg, Miss., where nine automobiles plunged through a washed out bridge, mounted to 13. Two persons were still missing.

Most of the south was clear today but rains fell from New Orleans, N. C., to New York, Pennsylvania and New England.

Snow was reported at Buffalo, N. Y., and Montreal, Canada.

The twister rumbled below the Ohio river during the night but reached the freezing point only at 10 o'clock.

A blizzard of snow covered northern Vermont yesterday with a slight fall at Portland, Me., and also in Boston.

Rain, which was general from Georgia north into Michigan and New York, continued along the coast of Massachusetts, Rhode Island and Connecticut.

Spring tornadoes struck widely scattered sections of the South in the wake of slanting rains that turned streams into torrents of menace to life and property.

There were injuries and property damage from the twisting whistlers that whirled through Alabama and Georgia. And at least seven were dead in a swirling river near Vicksburg, Miss., where nine automobiles plunged through a washed out bridge in the night in single file procession.

Eight were hurt there.

At Brewton, Ala., a store building and five dwellings were destroyed and two women were injured by a tornado. Three persons were destroyed and two persons hurt of Lenoirville, Ala. Tops of houses were blown over a mile-wide by a twister that struck Arlington, Ga. Three negroes were injured.

The train carrying President Roosevelt to Warm Springs, Ga., was forced to stop at several places because of high water Wednesday night as it crossed through Georgia. Rain caused flooding of the Georgia coast.

When cleared in the upper reaches yesterday relieving the lower.

At West Point, Ga., however, the Atlanta Weather Bureau predicted a crest of 25 feet on the Chattahoochee River. Flood stage is 27 feet.

The Weather Bureau said the water would likely reach flood stage at Columbus, Ga., today.

At Marietta, Ga., today the water of the river was 25 feet, but not enough to reach flood stage.

At Marietta, Ga., today the water of the river was 25 feet, but not enough to reach flood stage.

At Marietta, Ga., today the water of the river was 25 feet, but not enough to reach flood stage.

Seminole Growers Endorse Proposed Citrus Statutes

Forward Re-Elected President Of Growers Association

Full endorsement of the legislative program of the Florida Citrus Growers, Inc., was given by the Seminole County Citrus Growers, Inc., a member organization, according to an announcement by officials of the organization who also said Fred Forward of Forest City has been re-elected president of the organization for the ensuing year.

Mr. Forward was renominated head of the growers' organization at a meeting of the recently elected board of directors at the Court House Tuesday night. Other officials are: W. H. Pope, re-elected vice-president; Endor Curlett, second vice president, and W. B. Richardson, secretary-treasurer. Other members of the board of directors are: Benjamin F. Haines, V. E. Douglas, Mrs. Emma Lyman, P. D. Anderson, H. H. Pattishall, John G. Leonard, J. F. McCalland, Amos Tingley, George H. Bridge Jr., and W. J. White.

Legislation against shipment of green fruit, was claimed by the citrus growers to be one of the most necessary laws included in the growers' legislative program. Extensive studies are being made by state committees, it was pointed out, to arrive at an effective green fruit law.

Another law which has found opposition in the industry is proposed legislation eliminating present practices of coloring fruit which are said to be harmful to the fruit and unnecessary expense for the growers.

Increase in bonds for, and stricter rules governing buyers were favored by the Seminole County group. Drafting plans for a program to discourage new plantings was also discussed.

Visitors at the meeting of the Seminole County group included J. J. Banks of Orlando, and Mr. Rex and Mr. Whitehair, also of Orlando.

Plans for a membership and fund raising campaign were discussed, proceeds from which will be contributed to sponsor the proposed legislation for the industry and also to help defray the costs of publishing a monthly periodical known as the "Citrus Grower."

Collection Of Taxes Good During March

Jenkins Says \$33,214 Is Paid In 30 Days; Taxes Become Delinquent On Apr. 3

Although tax collections have been "remarkably good" during the month of March, Tax Collector Jno. D. Jenkins warned taxpayers today that only two more days remain for payment of the 1938 taxes before the taxes become delinquent. All taxes are delinquent if not paid by Monday, Apr. 3, he said.

During the first 30 days in March, the tax collector reported that \$33,214.15 has been paid, making a total of \$185,426.21 collected on the tax roll for 1938 since the taxes became due last November. Discounts granted for early payment amounted to \$3,331.51 making a total of \$180,094.73 in cash collections.

Collections in March last year were \$36,570.88, or approximately \$3,000 less than collections for a 30 day period in this month.

Regardless of the large collections during the past month, Mr. Jenkins declared that \$145,485.53 remains unpaid on the current tax roll of \$320,911.77, and this amount will become delinquent if not paid on Monday.

Regarding the payment of all valorem taxes before they become delinquent, Mr. Jenkins stated the law provides if taxes upon any real estate are not paid before the first Monday in April of any year, the tax collector "shall advertise and sell the same and upon unpaid personal property taxes, the tax collector shall levy upon, seize and sell the goods and chattels for the unpaid taxes."

DEATH ON THE HIGHWAY

The camera records a vivid lesson on traffic safety. On the spot a few seconds after an auto skidded into a bus on a rain-swept Los Angeles street, the cameraman caught the tragic hour of accident. All seven occupants of the car are dead; some of the victims have been thrown to the pavement. In the front seat of the automobile are bodies of a man, woman, and baby.

Citrus Exports Are 400 Percent Greater Than '37

Great Britain Largely Responsible For Increased Shipments

LAKELAND, Mar. 31.—(AP)—Exportation of oranges from the United States to foreign countries in 1938 was nearly four times as great as in 1937, according to a report just issued by the foodstuffs division of the Bureau of Foreign and Domestic Commerce in Washington.

Grapefruit also showed a healthy increase, but did not equal the gain of oranges. Exports of oranges in 1938 totaled 8,069,412 boxes, compared with 2,476,865 boxes in 1937 and 4,241,281 boxes in 1936. Grapefruit exports jumped from 670,154 boxes in 1937 to 1,142,697 boxes in 1938.

Great Britain was largely responsible for the increase shown by oranges and grapefruit. Exports to the United Kingdom in 1937 were almost negligible, amounting to 19,866 boxes of grapefruit and 30,656 boxes of oranges. In 1938, however, the United Kingdom bought 297,948 boxes of grapefruit and 2,718,410 boxes of oranges. Canada continued to be one of the best customers for both oranges and grapefruit, using 736,207 boxes of grapefruit in 1938 and 3,406,676 boxes of oranges the same year.

The government figures are not broken down to show what proportion of these exports came from Florida, California or other areas in the United States.

BOMB USED

Looking at dynamite cap-and-wires left by John Thornberg, "walking bomb" bandit of First National Bank at Canute, Minn., in Towatch, Chamute city attorney. Thornberg forced bank to accompany him to bank, obtained \$2,800 by threatening to blow up building with explosive strapped to his body unless money was delivered.

Franco May Be Used As Wedge In New World

Nationalist Regime Will Be Screen In Germany, Italy Deals

WASHINGTON, Mar. 31.—(AP)—Officials, carefully studying the effects in Latin America of Franco's complete victory in Spain, are firmly convinced that Germany and Italy will seek to better their position in the southern part of the Western Hemisphere with Franco as their driving wedge.

They are agreed that Franco's victory may have far-reaching consequences among Spain's former colonies in the Western world. It will serve, they think, to augment appreciably the influence of the European Fascist nations.

Officials read with great interest today dispatches from Rome quoting the influential Milanese newspaper, Corriere Della Sera, as saying of Franco's victory: "The event also will have enormous repercussions in South America and is most likely to contribute to exalting the spirits of those Spanish-speaking countries while proportionately reducing the artificial and harmful influences of the Anglo-Saxon powers."

"A new equilibrium is thus created on the two shores of the ocean. The consequences cannot be favorable to the spiritual expansion of Italy and Fascism."

Economic experts here look for Germany to seek triangular barter deals, using Spain as the spring board for dealing with American republics.

In the political field officials expect both Germany and Italy to proceed with great circumspection in their dealings with Latin America behind the screen.

Fall In Stocks Caused By War Scare In Europe

NEW YORK, Mar. 31.—(AP)—A mystifying outburst of selling in the last hour of trading yesterday bowled over leading stocks for losses of \$1 to \$4 and dropped the market generally to the lowest level this year.

Wall Street, nervous since the latest German drive to the east began, became more tense as rumors spread along the gossip grapevines of an impending showdown between Germany and Poland. News from Berlin and Warsaw during the day failed to substantiate the gossip.

Against this background of uneasiness, gossip mongers spread the story a market prognosticator talking with a broker, had predicted a storm was about to break loose on the stock exchange. The yarn ran quickly through brokers' boardrooms and was cited by some brokers as having been a factor in precipitating the late selling wave.

United States steel lost nearly \$2 at \$62.25. Bethlehem stock \$4 at \$62. Chrysler \$3.25 at \$70.52, duPont \$4.12 at \$148.25 and General Motors \$2.63 at \$43.77.

Polish Opposition Rallies Against Nazis

WARSAW, Mar. 31.—(AP)—Opposition political leaders yesterday gave the Polish government assurances which reliable sources said were a pledge of cooperation against any German attempt to "trample on Polish rights."

The Polish press was instructed to inform its readers tomorrow that, contrary to "widespread rumors," Poland had received "no German demands having the character of an ultimatum, nor has any German pressure been exercised."

The press instructions said further that "in view of the fact German circles may be inclined to apply the same methods of surprise to Poland that have been applied to other countries, it is quite natural that the Polish government must take a vigilant stand."

It was reported 20 Ukrainians had been arrested at Lwow, in southeast Poland, and other Galician towns charged with fomenting unrest among Poland's Ukrainian minority.

Sources close to the government have charged in the past that independence movements among the 3,500,000 Ukrainians in Poland were supported by Nazi agents.

City News Briefs

The rummage sale which was scheduled for Boy Scout Troop No. 14 tomorrow has been cancelled. Scoutmaster W. E. Kader said today.

A delegation of Kiwanis left late this morning to attend a meeting of the Orlando club to return a visit paid by an Orlando group recently.

The annual Spring entertainment of the Sanford Grammar School will be presented in the school auditorium tonight at 8:00 o'clock. The public was extended an invitation to attend by R. E. Kipp, principal of the school.

Negro schools in the county were dismissed today for the meeting of the Orange Belt District Association held today in Green's Academy. Among the speakers were Prof. H. E. Kipp of the Sanford Grammar School and Superintendent of Schools T. W. Lawton.

The regular monthly business meeting of the Board of Directors and committee chairmen of the Rotary Club will be held at 7:00 o'clock this evening at the J. L. Ingley home, 702 Oak Avenue, Dr. A. W. Epps announced today. A buffet dinner will be served following the meeting.

Visiting in Sanford Tuesday for the first time in many months was H. G. Smith of Oviedo, prominent citrus and celery grower of that part of the county. Mr. Smith is not so optimistic over the citrus outlook, but he says the Oviedo

Bar Association Condemns Proposal To Permit \$500 Police Court Fines

Disapproval and condemnation of the proposed amendment to the City charter which would authorize the imposition of fines up to \$500 and imprisonment up to six months for violation of City ordinances was voiced in a resolution passed by members of the Seminole County Bar Association in the offices of George A. DeCortan, president, yesterday afternoon.

Declaring that "this body proposes to use such influence as it may possess" to prevent the passage of the proposed amendment at the approaching session of the Legislature, the association instructed its secretary, Sidney T. Nix, to send a certified copy of the resolution to the Mayor and City Commissioners of the City of Sanford, and to each member and representative of the Legislature of 1939.

Charging that "it is the opinion of this body that the said proposed amendment is in violation of the constitution and laws of the State of Florida," the resolution also instructed its secretary to send a copy of the resolution to the Governor and the Attorney General of the State of Florida.

WARRANTS ASKED

WASHINGTON (AP) The Comptroller of Currency today called for the condition of all national banks as of close of business on Mar. 28.

Chamberlain Warns Hitler Against Any Polish Aggression

Waste Charges Hurlled At WPA In Funds Fight

WASHINGTON, Mar. 31.—(AP)—A crucial fight on the question of additional relief funds for this year began yesterday on the house floor, where critics taked WPA with charges of "waste and extravagance" and defenders of the agency declared it must have \$150,000,000 to put "more food on the tables of the undernourished."

At first leaders believed they might obtain a vote on the question tonight, but later decided to recess the house and put the showdown over until today.

The President had asked \$150,000,000 to carry WPA through June but the house appropriations committee cut the figure to \$100,000,000. While most Democratic members of the "economy bloc" appeared ready to vote for the \$100,000,000, Representative Taber, Republican, New York, declared that if WPA would eliminate waste no further appropriation for this year would be needed.

Debate on the bill was preceded by a stormy battle over the procedure to be followed. The rules committee proposed that there be four hours general debate and that amendments be restricted to changes in the amount of the appropriation.

Representative Martin, Republican, Massachusetts, the Republican leader, spoke angrily of "arrogant egotism." No deal was also objected vigorously to certain phases of the suggested procedure on the ground it would not permit a record vote on the question of increasing the appropriation.

From Representative Woodrum, Democrat, Virginia, a leader of the economy bloc, came a frank admission that the procedure was "stringent" and might even be termed "gag rule," but he said that such procedure frequently was good for the country. In the end the rules committee suggestions were approved.

Taber charged that WPA increased its rolls "so that they could turn people down just as we were approaching consideration of this bill."

"They went back six years and picked up people who had been dickered relief six years before because they couldn't qualify and had never applied for it since," he said.

Asserting the WPA theater project had paid on 1215 shows at a cost of \$10,000 each, he asserted "money is being wasted."

Nazis Told France, Britain Will Fight To Preserve Independence Of Poland

Der Fuehrer To Reply Tomorrow

WASHINGTON, Mar. 31.—(AP)—Prime Minister Chamberlain of Great Britain told the House of Commons and the world today that the British and French would fight to preserve Poland's independence in the current European crisis. Chamberlain did not mention Germany but everyone knew he intended the words to be a warning to Hitler whose march to the east has drawn dangerously near to Poland's border.

In Warsaw, Poland hailed the British pledge as a check to any plans Hitler may have for taking Polish territory. High sources indicated Poland may try to negotiate with Germany over the latter's desire for the status of Danzig.

In Berlin Germans declared Hitler will have "plenty to say" in reply to Chamberlain's speech. Hitler will make an address tomorrow.

In Rome Fascists said they believed the British-French backing will stiffen the Polish stand against German demands.

France signed a commercial accord with Romania designed to check German influence in southeast Europe.

Premier Mussolini, speaking at Reggio, Italy, said his country was "ready to wait for the fulfillment of her colonial claims against France."

In Tokyo Japan announced she had assumed jurisdiction over the strategic Spratly Islands which France claims as hers. This brought Japan still closer to the Philippines.

Hungary announced Slovakia had agreed to negotiate the frontier dispute which has kept their troops fighting for some time.

The nationalist cleanup of Madrid and other former republican cities in Spain continued. More than 100,000 arrests have been made since Franco's army won the civil war.

In Warm Springs, Ga., where President Roosevelt is spending a ten-day vacation, sources close to the White House asserted there was a general fear in the world that Germany might extend her "domination" of other races to other continents and that the current British and French actions appeared to seek an end of that danger.

Legionnaires Urged To Attend Meeting

A full attendance of legionnaires was requested by Commander George Weinstein today for the last meeting of the Campbell Legion Post before the convention at Fort Lauderdale. The meeting will be held in the Legion Hut on the lake front Monday night at 8:00 o'clock.

Plans for local representation at the state convocation Apr. 12-15 will be made at this meeting as well as final plans for sending the Sons of the Legion Drum and Bugle Corps to the convention city for participation in competition with other corps from over the state, Mr. Weinstein said.

President Speaks At Alabama Institution

WARM SPRINGS, Ga., Mar. 31.—President Roosevelt began a 10-day vacation at his Pine Mountain cottage here yesterday after asserting in one of four speeches in nearby Alabama that the south faced the economic problem of getting "out of hock to the north."

From an automobile rostrum before gray-clad cadets on Alabama Polytechnic institute's Bulard Field, the President again took cognizance of affairs in this part of the country, which was termed in a New Deal report the "nation's economic problem number one," and asserted: "I don't believe the South is so broke that it cannot put its own capital into the establishment of its own enterprises."

Declaring when he first came to Warm Springs nearly 10 years ago he had to buy milk and cream, apples, meat and shoes that originated in the North and West, he went on to say there "wasn't very much change in that system of dependency until about six years ago. It was then we began to talk of 'self-sufficiency.' Why is all this necessary?"

Zinn Beck Begins Return Trip North

Zinn Beck, scout for the Detroit Tigers, left this morning with his wife, starting north on a tour scheduled to cover some 53 college campuses in search for baseball talent for the Navin Field management.

Mr. and Mrs. Beck have spent the past four winters in Sanford, and Mr. Beck stated that unless there is some unforeseen change in their plans they will return next winter.

Hitler Threatens End To Naval Pact With Great Britain

Poland Is Given Indirect Warning In Nazi Leader's Reply To Chamberlain

British Frontier Is Now In Battle

Military Aid To Poland Is Pledged By England, France

WILHELMSHAVERN, Germany, Apr. 1. — (AP) — Reichsmarschall Hitler yesterday warned Britain that if she was headed for war with Germany he would not hesitate to cancel her naval accord of 1935.

The address was delivered to 60,000 people gathered to hear the speech in which he replied to the British-French pledge of aid to Poland.

He warned Poland indirectly by saying: "He who is willing to pull chestnuts out of the fire for others must expect to get burned."

Of the naval treaty he said: "once I concluded a naval treaty with Britain, I was animated by a fervent desire that we might never again have war with England. If, however, that war does not exist on the other side then the practical preconditions for concluding such a treaty have vanished."

Great Britain yesterday extended her military frontier from the Rhine to the Baltic, announcing that Britain and France will rush armed aid at once if Poland is forced to fight in defense of her independence.

The revolutionary reversal of British foreign policy was announced by Prime Minister Chamberlain in a tense but calm house of commons whose members realized that Britain was embarking on perhaps the boldest peace-time commitment in her history.

It was a direct and blunt warning, backed by nearly 9,000,000 men at arms in three nations, against any attempt by Adolf Hitler to stage another Nazi grab in Europe.

Chamberlain made it clear that British and French fighting strength would be rushed to Poland's aid, however, only if the Poles fight back.

The government spokesman said the military guarantee might apply to any Nazi thrust at Danzig or the Polish corridor. (Continued on Page Three)

Petitions Ask Recall Of Mayor Way Of Orlando

ORLANDO, Apr. 1. — (AP) — Petitions asking the recall of Mayor Samuel Y. Way were circulated yesterday by citizens who said more than 200 persons already had signed.

Sam E. Murrill, attorney who drafted the petitions, said he would hand them to Governor Clegg Tuesday if the required 324 signatures have been obtained by then.

The petitions declare Mayor Way, who is president of the Florida League of Municipalities, has been a party to "waste and extravagance of city funds" and has "disregarded the will of the people."

Murrill said he was not included in the recall petition campaign as the representatives of a group of prominent businessmen and others in Orlando.

Mayor Way, who recently shortened his seventh term, was installed in office Jan. 1, 1936, and his term runs to Jan. 31, 1940.

PANTS TOO SMALL

His pants were wrapped in a blanket, Nick Theophanis brought in Chicago court after arrest for creating disturbance in relief station. Police said Nick was handed a pair of size 36 trousers, threw them back at clerk, demanding size 42. The court couldn't see that Nick's pants size was excuse for his behavior.

Canal Is Upheld Recognition To In Testimony By Franco In Spain War Department Is Given By U. S.

WASHINGTON, Apr. 1. — War Department witnesses upheld the \$300,000,000 Florida ship canal yesterday as a safe, sound, and useful project.

Committeemen failed to get an expression of opinion from Major General Julian L. Schley, chief of army engineers since 1927, who explained he had not been called upon to make an independent study.

His predecessor, Major General E. M. Markham, retired, defended his two-year-old report recommending the canal. He said interest of Gulf traffic in recent years had made the canal more potentially useful than ever.

Markham said he had been "more conservative than I need to be" in his 1937 statement of canal benefits.

Questioned closely by Senator Vandenberg (R-Mich.), canal foe, Markham refused to concede (Continued on Page Two)

Seminole Sentinel Suspends Publication

The Seminole County Sentinel, a weekly publication founded in 1923 by R. J. Holly, Jr., suspended publication today with announcement by its present owners that "sound business judgment" could not be maintained in the continued operation of the paper in an enterprise that fails to show reasonable promise for the future.

The reasons for suspension of the Sentinel were listed as the "inability of the present owners to obtain adequate financial resources" and the "inability of the present owners to obtain adequate financial resources."

The meeting was attended by W. A. Laffer, S. G. Gray, Paul Allen, Dr. R. W. Ruppert, H. E. Page, J. H. Calkins, Walter Brown, Randall Chase, Rev. Louis Brown, George Rollins and J. A. W. Ross.

Following the business meeting, the business meeting of the members of the Board of Directors and committee chairman of the Rotary Club was held at J. L. Ingley's home at 7:00 o'clock last evening.

The meeting was attended by W. A. Laffer, S. G. Gray, Paul Allen, Dr. R. W. Ruppert, H. E. Page, J. H. Calkins, Walter Brown, Randall Chase, Rev. Louis Brown, George Rollins and J. A. W. Ross.

Lehman Favors New System Of Raising Taxes

Valorem Levy Considered Unjust And Obsolete By Legislator For Seminole

Declaring that the people of Florida are making a great many demands on the Legislature which cannot be met by the present system of raising taxes, Seminole County Representative H. J. Lehman, declared in an interview with a Herald reporter that he considered the present system of raising taxes "unjust and obsolete" and favored giving the people an opportunity to vote on a change in the system in a referendum.

Favoring a readjustment of the present "antiquated" tax system, Mr. Lehman stated that a plan which he favored is an ad valorem levy not to exceed five mills on real estate (in addition to the levy for debt service), a tax on all incomes over \$5,000 a year, and a sales tax not to exceed three mills to be distributed equitably among the State, county and municipality.

Seminole County's senior legislator also went on record as favoring proposed changes in the laws affecting the citrus industry and also legislation creating a driver's license, the revenues from which would be used to maintain a State safety patrol.

Mr. Lehman declared that he favored a 10 percent with Gov. Fred D. Cook in his economy efforts. He added that in his opinion the cost of government could be reduced considerably if the members of the Governor's cabinet would reduce the salaries of some of their high-salaried appointees.

The Seminole House member said he anticipated an extra session of the Legislature this year since it is apparent that there will be more bills introduced than the year 1937. He said that if last session, all legislators will be required to spend much (Continued on Page Two)

Kiwanis Members Stage Program For Club In Orlando

A delegation from the Kiwanis Club, headed by President H. D. Caswell yesterday returned the recent visit of Orlando Kiwanians, taking Seminole County Superintendent of Schools T. W. Lawton as speaker on the program which was given for the Orlando club.

The program, which was in charge of Fred M. Wilson, included Superintendent Lawton's address on "Streamlined Education," musical numbers on the violin by Miss Doris Jackson accompanied by Mrs. Arthur Stranahan, who also played for Miss Elizabeth Pippin's vocal solo.

Other members of the delegation included Karl Nordgren, club secretary, John Leonard, M. E. Ross, R. G. Lent, the Rev. J. J. Kelleghan, W. H. Zachry and J. W. Hall.

The supper will be followed by a short business session and a social hour. Plans are being made to make the supper-meeting a monthly affair for the lodge.

Citrus Industry Representatives Agree On Program For Legislature

LAKELAND, Apr. 1. — (AP) Representatives of five Florida citrus industry groups yesterday agreed on a program for submission to the State Legislature.

Two proposed bills presented by G. L. Reeves, attorney for the Florida Citrus Association, reported to the committee to place industry standards where they were last year, having Florida would thousands of boxes of grapefruit, into the middle west before Texas obtained a license.

The proposed Florida standards were higher than those of Texas, which is the only State that has a license for grapefruit. The standards were higher than those of Texas, which is the only State that has a license for grapefruit.

House Member Favors Change In Citrus Laws

John G. Leonard Opposes Citrus Law Favoring State Safety Patrol

Favoring several proposed changes in laws affecting the citrus industry of Florida, John G. Leonard, made final preparations today for his trip to Tallahassee where he will represent Seminole County in the House of Representatives during the 30-day session of the Legislature which convenes tomorrow.

In an interview with a Herald reporter, Mr. Leonard went on record as opposing the present "color-added" law and said he favored repeal of the law prohibiting the growers from selling their fruit direct from the groves. He also pledged his support to a driver's license law and a safety patrol, a program sponsored by the Florida Chamber of Commerce in Tallahassee.

When asked about his attitude on a sales tax, Mr. Leonard stated "I am in favor of a sales tax on luxuries providing, however, that it is levied not just on another tax, but is levied to relieve the present ad valorem taxes. If it is just another tax, I will be against it," the Seminole County House member asserted.

Declaring that he is interested in any local bills which may be introduced, Mr. Leonard declared (Continued on Page Two)

Hitler Said To Have Naval Base On Coast Of Peru

PHILADELPHIA, Apr. 1. — (AP) — Dr. David Epton, executive secretary of the Committee for the Americanization of Poland and Social Reform yesterday declared that Hitler has established a naval base on the coast of Peru and Italian planes dominate Brazil and other South American countries.

The Rome-Berlin axis already has planned "eventual conquest of sections of Latin America," he declared.

Dr. Epton displayed four maps on which parts of Brazil, Argentina and Uruguay were classified as "Antarctica Germanies."

The maps, he said, were being circulated in South America.

"In Brazil," he continued, "are 20 landing fields controlled by Syndicate Condor, an air service subsidiary of the German Luftwaffe."

He declared Malabrigo, a Peruvian port on the Pacific and a few hours by air from the Panama canal, was a German naval base.

German sugar interest acquired a concession on the port in 1934.

"Now," Dr. Epton said, "German warships and submarines guard the concession area."

Orlando Minister To Speak At Service

Dr. Fred Turner of the Orlando Methodist Church will be the featured speaker at the 12th Annual Holy Week service to be held at the Orlando Methodist Episcopal Church Sunday night.

The service will be held at 7:30 o'clock and will feature a special service of the Holy Week.

The service will be held at 7:30 o'clock and will feature a special service of the Holy Week.

Giant Cypress Tree Tumbled By High Winds

3500-Year Old Forest Monarch Is Victim Of Storm

Plans for the construction of a path surrounding the largest and oldest cypress tree in the United States was just so much wasted effort today after the storm which struck Orlando and vicinity late yesterday afternoon brought the 3500-year-old monarch of the forest crashing down.

Apparently a small portion of the storm, which yesterday struck Daytona Beach, falling three persons and doing an estimated \$10,000 worth of damage, hit Longwood late yesterday afternoon, toppling buildings and flattening small buildings, although no one was reported injured.

The great tree proved to have been suspected in some quarters to be hollow, the probable cause of its fall in yesterday's heavy wind, according to State Forestry Department officials who visited Longwood this morning.

The storm came only a short time after the clearing of an apple orchard in the construction of the park. The apple orchard was near the Daytona Beach district WPA office early last week on the first definite step in securing the project.

The tree measured approximately 107 feet in circumference, and stood 125 feet tall, the oldest and largest cypress tree in the United States and was equipped with its own assembly of ancient lightning rods to prevent electrical strikes.

The tree was a victim of the storm which struck Orlando and vicinity late yesterday afternoon, toppling buildings and flattening small buildings, although no one was reported injured.

Argentine Seek Authenticity Of German Claims

BUENOS AIRES, Apr. 1. — (AP) — Argentine officials yesterday sought to establish the authenticity of German claims to the Falkland Islands, a group of islands in the South Atlantic.

The Argentine government, which claims the islands, said it had received information from a German source that the islands were being used as a base for German submarines.
