NUMBER 34

CAPITOL REMOVAL MEET AT ORLANDO WEDNESDAY WAS WELL ATTENDED

Permanent Organization Was Formed and Plans Formulated

WILDER PRESIDENT

NEXT MEETING WILL BE HELD AT PALATKA WHERE CAMPAIGN WILL REALLY START

(By The Associated Press)
ORLANDO, April 6.—Colonel Thomas J. Appleyard, state printer, did not invite the Capitol Removal Association here yesterday to attend the laying of the corner stone of the new addition to the capitol at Tallahassee in the near future as reported. Appleyard didn't address the convention but was in the city and mingled with the delegates outside the convention hall. George H. Wilder, of Plant City, was elected president of the permanent organization and headquarters will be at Plant City. Next meeting will be held in Palatka.

ORLANDO, April 6.—Permanent organization of the Florida State Association for Capitol Removal was effected at a meeting here yesterday with the election of George H. Wilder, of Plant City, as president and the formulation of plans to place the executive committee composed of one representative from each of the interested counties on a working basis at the earliest possible date. The meeting was attended by more than two hundred boosters interested in the problem confronting the people of South Florida. It did not develop a discussion of the proposed site of the capitol if it should be removed to a more central location.

After temporary Chairman J. G. Strozier, of Winter Garden, called the meeting to order and introduced Mayor Duckworth, who delivered the address of welcome, the constitution and by-laws were adopted and President Wilder took charge of the meeting. Mr. Wilder declared that the association was organized for the purpose of righting the wrongs that had been imposed on South Florida for years and asserted that the capitol should be moved to a point as nearly equidistant from the boundaries of the state as possible. The president's address was greeted with prolonged applause.

The principal discussion of the meeting centered about the organization of the executive committee and the county auxiliary associations. President Wilder expressed the belief that the county organizations must carry on the most important work of the campaign and urged that their organization be perfected immediately. After considerable discussion a motion was adopted instructing the secretary to write each chamber of commerce in the interested counties, calling upon them to name one representative to attend a county meeting on a given date for the purpose of electing a county vice-president to direct the campaign locally and serve on the executive committee.

Lake and Dade counties named their vice-president yesterday, the former being represented by Carl Lehmann and the latter by W. S. Williams. N. P. Yowell, president of the Orlando Chamber of Commerce responded for Orange county when the list was read, stating that the appointment would be taken up here at the county meeting to be called following the issuance of the instructions by Secretary Hart, of Palatka.

Although the meeting failed to exhibit the signs of enthusiasm expected it disclosed the fact that South Florida is intensely interested in the movement. There were humorous moments, but underneath it all a spirit of earnestness, which indicates that the association will push its claims until the removal of the capitol is achieved, was manifested.

No mention of the proposed location of the capitol, if it is removed, was made, although one speaker declared that he understood four cities were interested in obtaining the capitol and suggested that each of these be permitted to name a member of the executive committee. This declaration,

however, failed to provoke a discussion of this admittedly delicate subject and no action was taken on the suggestion.

Palatka was selected as the next meeting place, the time of meeting to be determined by President Wilder. At the Palatka meeting it is expected that the executive committee will report and the various county organizations will tell of the progress being made in the campaign.

It was erroneously reported yesterday that Col. Appleyard, of Tallahassee, addressed the meeting, inviting the delegates to attend the dedication ceremony of the capitol extension. Col. Appleyard did not address the meeting.

Ocala sent the largest delegation to the meeting, a motordade of nearly a hundred boosters, but representatives were present from nearly a dozen counties, including Lake, Dade, Orange, Marion, Palm Beach, Seminole, Volusia, Hillsborough and Hardee.

The following preamble to the constitution, fully explains the plans and purposes of the association:

The people of the State of Florida: Realizing the necessity of placing the seat of government of the state in such location as to make it more easily accessible to all parts of the state; and realizing further, that the development of the state of Florida and the growth of said state have carried the center of population thereof to the central portion of it; and realizing that immediate steps should be taken to remedy the situation which now exists, namely, the location of the capitol of said state at a point inaccessible to the greater portion of the population thereof, and inaccessible from the portions of the state which have been and are being developed, built up and populated, and that the center of population of the state of Florida has moved southward to a point near the geographical center of said state; hereby organize themselves for the purpose of removing the capitol of said state of Florida to some point which will be more easily accessible to the majority of the people of the state of Florida, and which will be more nearly equidistant from the boundary lines of said state.

The organizers of said Florida State Association for Capitol Removal believing that capitol removal is not feasible or possible without the united effort of all of those people in the state of Florida who believe in the fairness, justice and righteousness of the aforesaid purposes, do further band themselves together for the purpose of accomplishing capitol removal without reference to the proposed future location of said capitol, but solely for the purpose of accomplishing the removal of said capitol to some point which will serve to the best advantage the people of Florida; and with this end in view, the organizers of said association pledge themselves to the purpose of this organization disinterestedly and without reference to any proposed place for the future location of said capitol.

Said organizers heretofore realizing that capitol removal is a political issue which can be accomplished only by relieving the progressive and rapidly developing portion of the state of Florida from the political yoke which has been imposed upon it by that portion of the State of Florida which lies west of the Suwannee river; and realizing that the political domination of West Florida can be broken only by a complete, just and fair political reapportionment of the state of Florida, and a fair and just representation of all of the people of the state of Florida equally in the law-making body of said state, do further organize themselves for the purpose of accomplishing the necessary changes in the state senatorial and representative districts for the purpose of obtaining a fair, equal and just representation in the law-making bodies as aforesaid.

For the accomplishment of these purposes and for the government of this organization, the delegates and representatives of the people of the state of Florida promulgate this, the governing instrument of their organization, and pledge themselves for the accomplishment of the purposes hereinbefore set forth.

MRS. WHITTINGTON ACQUITTED WITH HER DAUGHTER TODAY OF MANSLAUGHTER CHARGE

Physician in the Case Released on \$10,000 Bond Until October

(By The Associated Press)
BUSHNELL, April 6.—Mrs. Ida Whittington and her 16-year-old daughter, Irene, charged with manslaughter in connection with the death of an infant girl alleged to have been the child of Irene were acquitted by the jury in the circuit court here today on instructions from Judge Bullock. The infant's body badly mutilated was found in a pond near here several weeks ago. The case of Dr. D. H. Seymour, physician, under indictment for murder in the first degree and manslaughter in connection with the death of the infant was continued until the October term of court and the physician released on \$10,000 bail.

WILL DEPORT ALL ALIENS WHO VIOLATE PROHIBITION LAW —HOUSE PASSED BILL YESTERDAY

By Vote of Three to One Prohibition and Anti-Narcotic Law Will Be Strengthened

(By The Associated Press)
WASHINGTON, April 6.—By a vote of more than three to one, the House late yesterday passed and sent to the senate a bill authorizing the deportation of aliens convicted in state or federal courts on charges of having violated the narcotic and Volstead acts.

Described by prohibition advocates as a step toward better law enforcement, and characterized by Representative Graham, Pennsylvania, ranking Republican on the judiciary committee, as "a monstrous piece of legislation," the bill as presented by the immigration committee stood up against all attacks.

A motion to recommit so that the provision relating to conviction in state courts might be eliminated was defeated and the measure was put through as framed, 222 to 73.

Representative Walsh, Republican, Massachusetts, a member of the judiciary committee which wrote the original Volstead act, and who offered the motion to recommit, declared

he believed now as then that the enforcement law was made too drastic at the start.

Warning was sounded to prohibitionists by many members, including Representative Mann, Republican, Illinois, a veteran of the House, that they were going too far, that there was danger of disrupting the whole system of law enforcement, and that jurors would be unwilling to convict those who ought to go to jail if it also meant deportation.

There were many references to the Anti-Saloon League and Wayne B. Wheeler, its general counsel. Representative Hill, Republican, Maryland, charged that "the American bootleggers' union" and the league were standing hand in hand and fighting under one banner to get the alien bootlegger out of business. Mr. Walsh said that Mr. Wheeler could not be classed by the bootleggers as an enemy since "he is the man who has made it possible for them to ply their trade."

OVIEDO

Mrs. Appleton and children, of Atlanta, Ga., are visiting Mr. and Mrs. Wm. Kennedy this week.

Six large trucks of the firm of Snyder and Maul arrived in Oviedo Sunday night. Work on the Oviedo road will begin as soon as the balance of the equipment arrives which will probably be Monday of next week.

Besides this road building many other improvements are going on in Oviedo. O. P. Swope has been making many improvements at his residence, both interior or exterior, a new roof having been put on the house, the second story finished, a water plant installed, new well drilled and concrete walk laid.

R. W. Lawton is having some interior improvements made at his home and will install a water plant very soon.

B. F. Wheeler has just had electric lights put into his home while E. A. Farnell and Frank Norris are painting their residences on the exterior. L. H. Gore's residence is going up rapidly and J. B. Jones has started a new packing house just back of the post-office, which is expected to be ready for the tomato and pepper season.

W. T. Dodd and Miss Marjorie O. Drawdy, of Oviedo, were married in Sanford Wednesday at the court house. T. W. Lawton officiating, Andrew Aulin and Miss Alce Powell being the witnesses. Taking with them the congratulations of their friends, Mr. and Mrs. Dodd left on Thursday morning for Georgia where they will visit for several weeks with Mr. Dodd's relatives. They will go directly to Athens to visit for several days with a brother, F. P. Dodd, who is attending the University of Georgia. From Athens they go by auto to Buford, Ga., to visit Mr. and Mrs. J. A. Dodd, parents of the groom. Mrs. Dodd is the daughter of W. A. Drawdy of Oviedo, having recently moved here from Augusta, Ga.

Mrs. W. B. Englett and baby left Thursday for a visit to Mr. Englett's parents in Atlanta, Ga. Clean-up day at the cemetery was

observed Wednesday. A large crowd was on the grounds early to begin work and much was accomplished through the day. The work was done under the auspices of the U. D. C. with L. E. Wright as director of operations. At noon the workers and their families were rewarded by a splendid picnic dinner and fish fry prepared by the ladies. It is the desire of the U. D. C. ladies to put down a well at the cemetery so that flowers may be grown successfully there.

Mr. and Mrs. S. W. Swope, Mrs. C. S. Lee and little daughter Dorothy May and Francis Swope spent Saturday in Oviedo.

W. B. Williams spent the week end with his family last week. Edward McCall, of Stearns University, spent the week end with his parents, Mr. and Mrs. H. B. McCall last week.

Defense Ends in Arbuckle Case Offering Evidence

Court Will Decide on Admitting Evidence

(By The Associated Press)
SAN FRANCISCO, April 6.—Defense counsel today neared the completion of offering of evidence in the "Fatty" Arbuckle case. Counsel today looked for decisions from court as to admissibility of evidence contested from time of its introduction.

NO IMPORTANT PAPERS STOLEN IN MAIL ROBBERY IN FRANCE YESTERDAY

(By The Associated Press)
LONDON, April 6.—No important British government documents were in the mail bags stolen in yesterday's sensational train robbery in France, it was authoritatively stated.

SPECIAL CALL FOR OFFICERS TO TAKE TRAINING

(By The Associated Press)
WASHINGTON, April 6.—A special call for officers to take flying training at Pensacola Naval Flying School was issued by the Bureau of Navigation to the entire naval service today. The training to start July first and last until about December 30.

MODERN STEAM LAUNDRY WILL OPEN IN THIS CITY ---BUILD NEW STRUCTURE

ASSAILS FORD AT RAILROAD WAGE HEARING

UNION LEADER DOES NOT FANCY HENRY'S PLANS FOR HIS WORKERS

CHICAGO, April 6.—Henry Ford, Detroit automobile manufacturer, was declared responsible for advancing specialization in factories and accused of "conferring a curse on his workers" before the Railroad Labor Board yesterday in the wage hearing at which 204 railroads are seeking a ten per cent wage reduction.

Edward J. Evans, vice-president of the International Brotherhood of Electrical Workers, attacked the railroads which he said, were tending toward too great specialization in shop work. "Henry Ford may have conferred a blessing on many people, those who own automobiles, but he conferred a curse on his workers. They sit at their benches, half dead, doing their bits of work mechanically over and over," the union leader declared.

High specialization was asserted by Mr. Evans to be the worst crime against humanity. The railroads, in seeking a sliding scale of rates, according to the work done by different shop men, were tending more and more toward specialization, he said.

Replying to testimony by the railroads that outside industries paid much lower wages than the roads to shop craft employes, union officials told the board that the carriers had not presented a true summary of the situation in their wage hearing evidence.

Hurry Carr, vice-president of a machinists' union, told the board that John G. Walther, representing eastern roads, had named 47 establishments in Cincinnati which paid lower rates than railroads paid.

"Every one knows that a strike in Cincinnati two years ago lost everything for these men and that they now are forced to take what they can get," Mr. Carr said. "That is not a fair example."

"Mr. Walther cited wages in six firms in New York. I wonder if that was all he could find and why he did not mention the Hoe Printing Press Company, which pays shops craftsmen 90 cents an hour, municipal shops which pay \$1.12 1/2, or the Black and White Taxicab Company which pays 80 cents, as compared with the 77 cents now paid railroad shopmen."

WEATHER AND CROP CONDITIONS IN FLORIDA FOR THE WEEK ENDING APRIL 4.

Temperature: The temperature was from 2 to 5 degrees warmer than the seasonal, although temperatures were rather too low on the 2nd and 3rd. During the warmest days temperatures were well up in the 80's.

Precipitation: Except local heavy rains over portions of the northwest and extreme west the rainfall was light and mostly unimportant. No rain was recorded over the greater portion of the section; more moisture is needed over the peninsula, but west of the Apalachicola River the soil is in good condition, except that lowlands are still rather wet in some localities. The heaviest rain reported was 2.30 inches at Pensacola.

Condition of Crops: Much sunshine and moderate temperature enabled farmers to make good headway with work, which is from 10 days to two weeks in advance of the average, although the soil in much of the peninsula is quite dry good progress was made planting the last of the cotton crop, working corn, truck, melons, and citrus trees. Oats are mostly good, but some fields are damaged by rust. Digging Irish potatoes has begun in the north central counties, extending in a small way to some northern districts. Many fields are in splendid condition, but blight is complained of by some, and the dry weather has unfavorably affected the crop in some localities. The truck crop has suffered seriously from drought in the south, and dry weather

New Building Will Be Erected on Palmetto Avenue

A MODERN PLANT

BURMAN & NIGFULL WILL ERECT BUILDING AND OPERATE FIRST CLASS LAUNDRY

The Chamber of Commerce, after numerous attempts to interest capital to build a steam laundry in Sanford, announces that I. N. Burman and J. N. Nigfull, Jr., proprietors of the Orlando Steam Laundry, have consented to build and operate a modern steam laundry here. The laundry will be located on Palmetto avenue between the Wight Grocery Co., and the Sanford Furniture Company. Mr. Burman was here this week completing final arrangements for the purchase of this property. He plans to construct a modern brick building and install in it the latest style equipment that can be secured. This equipment will include a water-softener to provide suitable water necessary in a plant of this kind. Mr. Burman has assured the Chamber of Commerce that when the plant is completed, it will be one of the most modern in the state, and something the people of Sanford can be proud of. The Chamber of Commerce, on the other hand, in inducing Mr. Burman to come here, advised him that the people of Sanford and Seminole county would give him their patronage and fullest cooperation to insure the success of the laundry.

Mr. Burman is anxious to have the building completed and equipment installed so that operations can begin by early fall.

This institution will be known as the Seminole Steam Laundry and the original investment will be \$35,000.

The Seminole Steam Laundry will maintain an office at Raffell's Department Store to take work which will be done by the Orlando Steam Laundry until such time as the plant of the Seminole Steam Laundry is completed.

Both Messrs. Burman and Nigfull are practical laundrymen, and the work that they are turning out at Orlando has brought them the favorable comments of tourists from the large northern cities. Mr. Burman is one of the successful business men of Orlando, and is highly thought of in the business and financial circles of that city.

The people of Sanford can be assured that Mr. Burman will live up to his statements and give the city a modern laundry in all that the term implies.

RAIL CAUSES BRICK BUILDING TO COLLAPSE

MILLEDGEVILLE, Ga., April 6.—The south end of the negro boys' dormitory, a three-story brick building at the Georgia Training School for Boys, collapsed during a hail and rain storm yesterday afternoon. Other buildings were flooded when the hail broke the windows. Shade trees in the city and crops at the state farm were badly damaged. The storm was violent for ten minutes.

OLIVIA STONE'S CASE GOES TO JURY TODAY

(By The Associated Press)
NEW YORK, April 6.—The case of Olivia Stone, charged with the murder of Ellis G. Kinkaid of Cincinnati, went to the jury today at 11:28 o'clock.

PRISONERS' FLIRTATIONS WILL BE CENSORED IN COUNTY WORKHOUSE

(By The Associated Press)
WILMINGTON, Del., April 6.—Flirtations between men and women prisoners at Newcastle county workhouse has reached such a point that Warden Plummer, rather than have them exchange notes secretly, has established a jail postoffice and censorship for love letters.

was unfavorable on uplands in the central and northern counties. Citrus trees are in good condition, as a rule, but rain is needed.

Pay Less and Bank the ...Difference...

Why D. L. Thrasher is doing more business than in 1921? Because the buying public knows the same merchandise can be bought for less money at the store that sells for cash only.

EASTER IS DRAWING NEAR

We are prepared to take care of your needs. We invite you to our store because we want your business and if you accept, we feel confident that our prices will convince you of the truthfulness of our claims that it pays to pay cash. We have the most complete stock of Men's, Women's and Children's Shoes at lower prices than since the war began. Ranging in prices in Men's and Women's Shoes from \$2.25 to the very best stocks at \$7.50.

Children's Shoes from\$1.50 to \$3.50
 Women's and Children's Hose at about 1/2 price of last season
 Men's Spring Suits for\$14.00 to \$25.00
 Blue Serge Suits\$25.00
 Men's Hats from\$2.00 to \$4.00
 Men's \$1.50 Suits Underwear at\$1.00
 \$2.50 and \$3.00 Dress Shirts at\$1.50 to \$2.25

BIG EATERS GET KIDNEY TROUBLE

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACKACHE

The American men and women must guard constantly against kidney trouble, because we eat too much and our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy; full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will be freed. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

PAOLA POINTS

Mr. and Mrs. Guy Stafford and mother, Mrs. E. Stafford, of Monroe, were visitors at the home of Mr. and Mrs. N. B. Stafford Sunday.

There will be baptizing Sunday. Mrs. Traylor and daughter, Myrtle Traylor left Monday for Richmond, Va.

The school is going to give an entertainment the 7th of April for its benefit. We hope every one will come and help us out.

Mr. and Mrs. Burnett and children were visitors at Geneva Sunday.

We were very glad to have two new pupils enrolled Sunday and there were eight visitors present.

Mr. Bona, of Orlando, spent the day with his father and mother-in-law Sunday and was also a visitor at the Sunday school.

Flonor Stafford spent Saturday and Sunday with her aunt, Mrs. E. Stafford at Monroe.

Mrs. C. C. Pearson and children spent the day with her mother, Mrs. B. W. Smith Monday.

Monday afternoon as Mr. Austin, the section foreman, was coming home from work, a dog belonging to Mr. Walker, ran out in front of the motor car, and before Mr. Austin could possibly stop he had hit the dog, killing it instantly. The car was turned over and one of Mr. Austin's men was bruised pretty badly and a bad cut over one eye. Mr. Austin and the rest of his men were bruised a little, but we are glad to say that none were hurt seriously. Although had he been going very fast it is probable that some of them would have been killed.

A jolly crowd of young folks surprised Mrs. Bessie Stanstrom Tuesday evening. We think they enjoyed themselves fine.

GENEVA

Will Brown is thinking of trying the stock business in connection with the turpentine business as he is on a deal for the J. F. McClelland stock. From what we can hear Mr. McClelland is tired of the cattle business and has decided that farming is good enough for him.

The Misses Elexia Meis, Helen Moran and Ralph Geiger and D. D. Moran spent Sunday at Daytona Beach. Mr. and Mrs. Hodges and Miss Leslie Howard, sister of Mrs. Hodges, spent Sunday evening with Mrs. McFarlane.

Will Prevatt of Moore's Station spent Sunday in Geneva, visiting his brother, T. W. Prevatt and his mother Mrs. J. M. Prevatt. Mr. Prevatt reports good truck crops at Moore's Station and good prices for vegetables shipped out.

Captain W. E. Stover and wife, of Sombra, Ontario, spent several days last week with their cousin, Mrs. Fred McFarlane. Captain Stover is captain of the steamer, Thos. F. Cole, of the Pittsburgh Steamship Co., and has been on their line of boats twenty-six years. This is their first trip to Florida and they were so delighted with it that they have purchased a home at West Palm Beach. Mr. Stover and wife left Monday morning for Canada via Daytona where they will spend a day or two before leaving for home.

Mrs. John Leonard, of Sanford, gave a very interesting talk at the town hall on Wednesday in the interests of the Florida Federation of Women's Clubs. A good many attended and a large number of the Geneva ladies joined.

Mr. and Mrs. T. W. Prevatt called on Mr. Prevatt's uncle, Rube Laffles Sunday evening.

Mrs. Eugene Mathis, of Eau Gallie and children spent a few days with her mother, Mrs. J. M. Prevatt last week.

Mrs. William Kilby was taken to the Fernald-Laughton hospital in Sanford Tuesday morning to undergo an operation for appendicitis. Mr. Kilby told us on his return from Sanford last night that Mrs. Kilby stood the operation fine and was resting well. Her many friends hope for her speedy recovery.

Jap Nicholson, Jr., Roger Brooks and the Misses Madge Phillips, Lorrana Phillips and Helen Parkerson of Osteen, were guests of Mr. and Mrs. Prevatt Sunday.

Jasper Nicholson, Mose Taylor and T. W. Prevatt spent last week on the St. Johns river shearing sheep.

Mr. and Mrs. Troz Proctor, Mose Taylor and Mrs. Mark Taylor spent Sunday on the St. Johns river.

Mr. and Mrs. Morris left Wednesday for her home in Rodi, N. Y., after spending the winter in Geneva.

Mr. and Mrs. Morris took dinner with Mrs. Hart Sunday.

Mrs. Gilla Sykes is the proud recipient of a new player piano, which was the gift of Mr. Sykes.

George Peters has purchased a new Ford roadster.

Mrs. Ender Curlette called on Mrs. Sheldon Tuesday afternoon.

Mrs. F. M. McFarlane and Mrs. T. W. Prevatt called on Mrs. Hodges and her sister, Miss Howard Tuesday afternoon.

Mrs. R. B. Franklin, Miss Goodbard and Mrs. Goodbard called on Mrs. Sheldon Tuesday evening.

The Geneva Community Club met Monday afternoon to hold installation of officers.

WIRE TAPPERS HAVE A SCHOOL TO TEACH TRADE

JOSEPH JONES, STATES ATTORNEY, SAYS THEY GIVE CERTIFICATES AT GRADUATION

(By The Associated Press) ORLANDO, March 30.—State Attorney Jones returned here from Fort Lauderdale where he assisted in the prosecution of wire tappers, said today he discovered that the confidence men have a college in Denver, Colo., for teaching their trade and when a student graduates he is given a diploma.

VEBER TO GET LIFE FOR INDIAN MURDER

(By The Associated Press) MIAMI, Fla., March 30.—A verdict of guilty of first degree murder, with a recommendation for mercy, was returned at 7:30 last night by the jury in the trial of Charles Veber, accused of killing Jack Tigertail, Seminole Indian, after an argument over the purchase of plumes, about a month ago. The verdict automatically carries with it a life sentence.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food. To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.—Adv.

PERSONAL NOTES

It is rumored that a new steam laundry will be built in Sanford shortly and that the deed for the lot is now being made ready.

Get some of those beautiful Easter cards, Easter remembrances, and birthday cards at the Herald office. Nothing like them at the price.

Bandmaster E. A. Ball celebrated his removal to Lake Mary this morning by taking a seven pound trout out of Crystal Lake, falling overboard while in the act, but hanging onto the fish.

Edward Meisch had a fractured splinter of bone taken out of his leg at the Fernald-Laughton hospital yesterday, Dr. Langleg performing the operation, and the patient is resting easy today. Some time ago Ed fractured the bone playing football and it had been hurting him since.

JACKSON, Miss., March 30.—Gov. Lee M. Russell yesterday vetoed the state salary bill revising the salaries of all state officers, employes and members of the judiciary and which sought to place the state revenue agent and attorney general on a salary basis. An attempt in the house to pass the bill over the veto failed by a vote of 64 to 63, a two-thirds majority being necessary.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.—Adv.

SAGE TEA DANDY TO DARKEN HAIR

ITS GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.

"I feel twenty years younger," is what thousands have said after Tanlac restored them to health. Try it.—Union Pharmacy.—Adv.

CATES CRATE COMPANY IN NEW BUILDING QUOTE YOU PRICES

In this issue of the Herald is the advertisement of the Cates Crate Co., who have recently moved into the new building on West First Street at the corner of Oak avenue. The Cates building is one of the best buildings recently erected in Sanford and contains four stores all occupied by the Cates Crate Co., and Mrs. Cates with groceries, dry goods, feeds, etc., and the advertisement today gives you prices on all kinds of feeds for chickens, horses, cows and all kinds of live stock. This space has been contracted in the Weekly Herald and will be filled each week with interesting store news.

The new Cates building is also filling a long felt want in the apartment line having the entire second floor made for up-to-date apartments and the new building is a great asset to the growing city of Sanford.

Visit the Cates in their new building and have them show you over the property and get a line of the prices of all kinds of feeds, groceries, crates, farmers' supplies, dry goods and notions. They have the goods and the prices.

Tanlac builds up the weak, runs down system and makes you feel strong, sturdy and well, as nature intended.—Union Pharmacy.—Adv.

THIRTEEN WAS UNLUCKY NUMBER

INDIANAPOLIS, April 4.—Isiah Moore, confessed spouse of thirteen wives, was sentenced to serve from two to fourteen years in the state reformatory yesterday on a charge of embezzlement, and was fined \$1,000 and costs, disfranchised for five years.

He was also sentenced to serve two to five years on a charge of bigamy.

Moore, according to the police, is said to have obtained more than \$2,700 from his wives. In each case after he had been wedded a week he disappeared.

GLASS OF SALTS CLEANS KIDNEYS

IF YOUR BACK HURTS OR BLADDER BOTHERS YOU, DRINK LOTS OF WATER

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

JAPS SCRAPPING RUSSIAN TROOPS

(By The Associated Press) TOKIO, April 4.—Special dispatches from Vladivostok report a severe clash between Japanese troops and forces of the Chita government when 800 of the latter attacked the Japanese near Spansk, 100 miles from Vladivostok, following a demand by the Japanese to disarm. Eighty Chita soldiers were reported killed.

Later, Chita troops attacked in force with field guns and fighting continued along the Ussuri railway, the reports said.

HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of those irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath, or have colds, indigestion, ill-humors, constipation or sour, acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

LEWIS GIVES REASONS FOR COAL STRIKE

SIMPLY WAITING RESULT OF PEACEFUL NEGOTIATIONS FOR WAGE SCALE

WASHINGTON, April 4.—Discussing before the House labor committee yesterday reasons why 600,000 anthracite and bituminous coal miners stopped work last Saturday in the United States and Canada, John L. Lewis, president of the United Mine Workers of America, and official leader of the strike, declared that the anthracite workers had gone out merely to await the results of a peaceful negotiation with their employers over a new wage scale, but that the bituminous workers were out indefinitely, if need be, to obtain the signing of a basic wage contract.

The bituminous workers, Mr. Lewis declared before the committee, which is considering the Bland resolution to direct appointment by the president of a commission to investigate the coal industry, are out to "stay indefinitely if need be, until the operators of the central competitive field of Ohio, Indiana, Illinois, and western Pennsylvania, sign up a basic wage contract according to their pledge, on which the other coal mining districts of the United States can settle."

In reply to questions by Representative Black, Democrat, Texas, as to why the union would not settle with operators in states and districts where work could be resumed under satisfactory conditions, Mr. Lewis said that competition would not permit the operators to fix wages locally without a knowledge of the wage scales their competitors would have.

"Even if the operators of Illinois, for instance," he added, "are willing to sign up a new scale for themselves, without regard to their competitors, the United Mine Workers are unwilling to have its members in Ohio, Western Pennsylvania, Indiana and West Virginia, dragged into the suffering of a long strike while the Illinois mine owners take the markets."

Although holding that a national wage scale was the first essential, Mr. Lewis told Chairman Nolan that if congress or anybody else could get "a representative number of operators from all central fields into conference, those controlling a substantial tonnage, I shall advise the United Mine Workers—and I think they will take my advice—to negotiate with them for a new contract."

Short of this step, he added, miners and operators conferring by districts would "just be talking—doing no good." In speaking of the conditions of the industry, Mr. Lewis referred for the most part, to bituminous matters in view of the wider scope and importance of that industry as compared with anthracite. Although the United Mine Workers stood for "nationalization of mines with adequate assurance to property owners, involved," he classed "Government ownership as impossible at this time."

"Miners know that they can't hope to get more than 215 days work a year, as things stand," he declared, "and that part time operation tends to increase its scope year after year. Loath as some people may be to face difficulties, and hazards, if private industry cannot work out this problem, regular employment and stabilize outputs, it may be necessary for government to assume the burden. I believe congress could well set up a tribunal or a bureau to investigate, at least, and give the facts which might determine a policy."

Mr. Lewis paid his respects to what he termed "a general financial demand for liquidation of labor and deflation of wages," by declaring that there was "nothing constructive in the business viewpoint today, and depression cannot be overcome by cutting wages and further lowering the purchasing power of labor." The non-union operators, especially those of West Virginia, he said, were "fishmales of industry whose hand is against industry, who are fomenting industrial difficulties that they may get high prices."

"Be sure that if this do-nothing policy of business leaves the issues to be fought out," he said, "with the government standing aside as a neutral observer, the public will have to foot the bill."

A GOOD MOVE IF CARRIED OUT

(By The Associated Press) OKLAHOMA CITY, April 4.—Prediction that the American Legion and the American Federation of Labor "will be found working hand in hand through all the years to come for the benefit of all their members and the good of the country" was made here last night by Sanford McNider, national commander of the American Legion.

SAYS FLORIDA TRUCK RIVALS WEST COAST'S

SHIPS CAR LOAD OF PRODUCE EVERY EIGHT MINUTES IN THE YEAR

The New York Times of April 2 says: Herschel H. Jones, director of the New York office of the State Department of Farms and Markets, who has just returned from a vacation in Florida, said yesterday that Florida was booming agriculturally as well as rivaling California, he said, as the winter garden of the country.

"So rapidly is the acreage of winter truck crops, including strawberries, being increased," he continued, "that only high transportation costs will keep the big markets of the North from having as cheap fresh vegetables and fruits all the year around as from nearby truck farms in the flush of the season."

"I. M. Rhodes, director of the Florida State Marketing Bureau, said that Florida was now shipping out of the state an average of a carload of produce every eight minutes in the year. It has 2,300,000 acres in farms and about 17,500,000 acres more available for cultivation.

"The most rapid growth is in production of citrus fruits, of which hundreds of new groves are being developed, and in production of early winter vegetables and strawberries. Early cabbage was so plentiful this year that hundreds of tons were left in the fields in Florida because the price offered in Northern markets would not pay the freight.

The estimated acreage of early Irish potatoes alone in Florida this year is 24,800 acres, an increase of virtually 50 per cent, over last year. The shipping season already has begun with a total of nearly 100 cars in excess of the number shipped to the same date last year. These already have had a decided effect on the market for old potatoes. Omitting Long Island from consideration, Florida now sends more potatoes annually to New York than does New York state.

Florida is a very important factor in making the food supply of New York City one of the most varied and healthful in the world. Even the average wage-earner here is now able to have fresh green vegetables as abundantly in winter as in summer. The heaviest carlot receipts of lettuce in New York City, in the year, for example, are in the period of December to March inclusive, when the supply is almost entirely from Florida and California. More tomatoes, cabbage and lettuce came here in 1920 from Florida than from any other state.

"One of the things that impressed me most in Florida was the opportunity for poultry raising. The demand for eggs in the state all the year around is much in excess of the local supply, and conditions, in some respects at least, seem to be ideal for egg production there. In the winter time trainloads of eggs must be brought in to supply the enormous temporary population. The Florida Market Bureau says the market for eggs last year in Florida was a cent a dozen higher on an average than in any other state in the union. The Florida State College of Agriculture at Gainesville and the State Marketing Bureau are encouraging the development of commercial henneries and instructing farmers through the county farm bureaus in up-to-date methods of egg production and marketing.

"The farmers in Florida have learned from the example of California that efficient and economical marketing of their products can be accomplished efficiently only through co-operative marketing associations. Such associations are rapidly increasing in numbers and strength. Their aim is to build up a reputation for quality and uniformity of their products through standard grading and packing. The best they produce is shipped to Northern markets, and a big outlet for odd sizes and quality unsuited to shipping is to be found in the enormous winter population of the state. There is much the New York farmer can learn from these more distant producing sections that have found how to overcome the difficulties of remoteness from market through co-operative organization."

ANOTHER APRIL FOOL JOKE.

(By The Associated Press) TAMPA, April 4.—Municipal Judge Edmund Worth was almost responsible for a death here last Saturday morning when upon conviction of Marguerite Parish, a negro, for drunkenness, he announced that the fine would be \$1,000 and costs. When the judge concluded passing sentence Marguerite roared, invoked the help of the Deity and nearly fainted. "April Fool!" exclaimed His Honor. "I meant \$15 or fifteen days." "That's better," said Marguerite, as she recovered her composure.

SUSPECT MARINE OF MURDER OF NORFOLK BRIDE

HUSBAND MISSING AND BELIEVED ON TRIP AROUND THE WORLD.

NORFOLK, Va., April 4.—A United States marine is being held under observation at the barracks here in connection with the death of Mrs. Ruth Mercer, whose body was found on the beach at Ocean View Sunday. No arrest has yet been made, but Norfolk detectives have visited the barracks and after securing a partial identification of him as the man with whom it is claimed the young woman was last seen, it was requested that he be not permitted to leave the reservation. His name could not be learned from the police.

The body was positively identified this morning at the morgue by Mrs. Alice Wilson, who lived in the same house with the dead woman.

Whether Mrs. Mercer was assaulted and thrown into the bay or took the plunge after a quarrel is not known. It is certain, though, that the body had not been in the water more than ten hours. She was last seen Saturday night.

While Mrs. Mercer's body is in the city morgue, her young husband is mysteriously missing from their home. He left Friday morning and has not been seen or heard from since. It is reported he left Friday night for Baltimore and his mother, Mrs. Betty F. Mercer, believes that he shipped on some foreign steamer for a trip around the world.

RIVER FALLING IN MEMPHIS VICINITY SAY ENGINEERS

MEMPHIS, April 4.—A fall of six-tenths of a foot from the crest stage of 42.6 feet in the Mississippi flood at Memphis is expected today, according to the weather bureau here, and the rate of fall is expected to become more rapid for several days, as the flood water is reported receding at all points between Cairo and Memphis.

With the exception of additional sloughing for seventy-five feet at the upper end of the cave-in in the front levee at Old Town, Ark., no trouble was reported during the day at any point in this river district.

HELENA, Ark., April 4.—E. M. Allen, cotton belt levee official, said at 8:30 a. m. yesterday the new slough in the levee occurred on the upstream end of the old cave-in and was about seventy-five feet long. At 9 o'clock last night a high wind began blowing and levee engineers expected additional sloughing. Preparations were made for bracing both ends, and the additional sloughing made little difference in the general situation. Officials in charge are confident of winning the fight, Mr. Allen said.

It is now apparent that the fight must continue for a week longer, and preparations have been made with that end in view.

The level of the water in the river is estimated at between twelve and fifteen feet above the surrounding land, and the triple barriers have been erected with the view to holding even more than fifteen feet in case of a still greater rise in the river.

TO DARKEN HAIR APPLY SAGE TEA

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store, all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two your hair becomes beautifully dark, glossy, soft and luxuriant.—Adv.

MILITARY MAN SHOT TO DEATH BY OIL OPERATOR

(By The Associated Press) OKLAHOMA CITY, April 4.—Lieutenant Colonel Paul W. Beck, attached to the aviation section at Fort Sill, was shot to death here early today in the fashionable residence of Jean P. Day, a widely known oil operator. Day is held at his home in custody of a deputy pending an investigation.

Beck was a close friend of the Day family and had attended a card party at the home. Day took the other guests home and according to friends returned and saw his wife struggling in Beck's arms. He got a pistol and struck Beck over the head, the pistol exploded and Beck fell dead. Beck was commandant of the post field at Fort Sill. He went there from Carlstrom Field, Arcadia, Florida, July last.

CLAIMS IT WAS FOR THE GOOD OF THE SERVICE

(By The Associated Press) WASHINGTON, April 4.—The recent dismissal of twenty-nine officials of the bureau of engraving by President Harding involved no desire to reflect upon the character of any government employee, it was said today by Secretary Christian.

10 PER CENT CUT ON WATERMELONS FROM THIS STATE

WASHINGTON, April 3.—Senator Park Trammell has been advised by the Interstate Commerce Commission that a reduction of 10 per cent in the freight rate on watermelons and canteloupes has been authorized by the railroads.

Senator Trammell some time ago took up the question of obtaining this reduction for the growers of his state and is gratified that favorable results have been accomplished, especially in time for the 1922 crop of melons.

No member of the senate or house has been more active in behalf of freight rate reductions than Senator Trammell. He was among the first to attack in the senate the high rates and has not relented in his efforts to get a reduction of transportation charges for the people of Florida. By his fight and agitation he had a large part in bringing about the 10 per cent reduction in freight rates on citrus fruits and farm products which went into effect last January. Now the reduction applies to watermelons and canteloupes.

Proof of the pudding is in the eating thereof. Thousands praise Trammell. So will you.—Union Pharmacy.—Adv.

CONVICTS IN BIRD GANG WANTED BIBLES

TAMPA, April 3.—The Salvation Army here has received a request for a Bible from a source which for Tampa is unusual. Army officials said various persons and organizations had requested copies from time to time but on this occasion prisoners in the county jail want one.

The request was made in the following note to Capt. Brazeale:

"Dear Captain: We, the undersigned victims of Satan, whose corral is located at 1308 Jefferson street, respectfully request that our comrades of war send up a Bible. We will readily admit that had we given more time to the Lord's teaching when we had more of an opportunity we could never be here today. Do not know of anything so uplifting or as inspiring as are the Sunday services which you render. Trusting you will grant our request and thanking you, we beg to remain, respectfully yours,

Jesse T. Burns, L. H. Culppepper, M. E. Murphy, Nick Sagonias, Hallie Ellis, J. E. Lillenthal, W. H. Young, Jr.

"P. S.—Care Cage No. 6."

COUNTY CLERK IS FOUND GUILTY OF EMBEZZLEMENT

BRISTOL, April 3.—S. I. Revels, clerk of the circuit court of Liberty county, was sentenced to three years imprisonment by Judge Love of the second judicial circuit as a result of conviction of the embezzlement of county funds. A considerable shortage was discovered in 1920 by State Auditor J. Willyon. The jury was out all night before the verdict was reached. Revels was clerk for many years, being first elected in 1902.

CLAYTON PRESIDENT OF NEW BANK, TO BE LOCATED AT MIAMI

MIAMI, April 3.—Application for the incorporation of the Commercial Trust Company, to be located here, with C. M. Clayton, until recently vice president of the Miami National Bank, as president, has been granted at Tallahassee.

The concern is chartered to do a banking and trust business and is capitalized at \$100,000. Other members are A. H. Ramsey, T. E. Donovan, T. B. Cox and W. L. Harris. Clayton resigned from the Miami National Bank this week, following a hearing last week in which he was charged with conspiracy to violate the Volstead law, the case revolving around the sale of 100 cases of liquor to a prohibition agent. Clayton, it was charged, wrote the agreement and held in escrow the \$4,050 for the purchase of "commodities." The court held that there was not sufficient evidence to show that Clayton was aware of the nature of the transaction and discharged him.

Tonia overcomes rheumatism by toning up and invigorating the vital organs, thereby enabling them to eliminate poisons from the system.—Union Pharmacy.—Adv.

RABBIES IN TAMPA.

TAMPA, April 3.—Dr. J. R. Harris, city health officer, is preparing data on the prevalence of rabies in Tampa and is including in this work an investigation of the reports in the office of Dr. W. P. Link, veterinarian. Dr. Link's records show that 120 calves and dairy cows had died of the disease in the last two years. Dr. Harris declares that an unmistakable sign of rabies in cows and goats is that these animals when affected will chase chickens, a thing they never do when in normal health.

Many owners of dogs in Tampa are vaccinating the canines to immunize them against the disease.

THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys Sanford residents recommend Doan's Kidney Pills. Read this sanford statement.

Mrs. J. W. Barrett, 318 Palmetto Ave., says: "I have used Doan's Kidney Pills off and on for years. I had attacks of kidney trouble when I suffered from severe pains through the small of my back. I tired easily and felt out of sorts and not a bit like myself. My kidneys acted irregularly but I always use Doan's Kidney Pills when these attacks come on and they soon relieve me. I have great faith in Doan's."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Barrett had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

FLORIDA TRACTOR DISTRIBUTORS ANNOUNCE IMPORTANT PRICE REDUCTION.

\$200 Cut in Cletrac Model "F"

A second and drastic reduction in the price of the Model "F" Cletrac this year was made public today by McDonald & Burgman, Daytona, Florida distributors for the popular crawler line made by The Cleveland Tractor Co.

The slash from \$795 to \$595 f.o.b. Cleveland for the standard Model "F" is claimed to put this machine in a class by itself for it is not only the lowest priced crawler tractor built but it is also the only two plow tractor of any type which will do the general run of farm work and cultivating as well, thereby displacing animal power completely.

McDonald & Burgman state that this price cut is in no way an attempt to enter the tractor price fight which has so confounded the farmer of late but is based upon the increasing volume of Model "F" business that has been enjoyed here and in all parts of the country since the introduction of this new tractor in September last year.

Commenting upon the many unique features of Cletrac "F" Mr. Leo Burgman of the head office at Daytona stated that the extensive use of pressed steel in place of castings had done much to keep the price low for it saves material and construction costs and appeals to the farmer by giving him an 1860 pound tractor with all the power and working capacity of an ordinary machine weighing 3000 pounds. The saving in operating expense is very apparent.

Mr. Burgman is confident that farmers will welcome Cletrac "F" as the solution of their power needs and is planning an extensive demonstration tour this spring to show local agriculturists how it can be made to produce profits for them.

GOVERNMENT ASKS FOR RETURN OF MONEY PAID FARMERS FOR LOSSES

MIAMI, April 3.—The federal government has exploded a bombshell here with its request that \$17,000 paid to farmers in this vicinity and the local chamber of commerce, to compensate them for losses during the war in producing castor oils, be returned. The beans were produced in order that castor oil for use in lubricating airplane motors might be manufactured from them. The request received by the chamber of commerce gave no reason for the government's action in asking that the money be returned other than that an adverse decision had been made concerning payment for losses. The chamber of commerce, which is withholding action until more details can be obtained from Washington, has no plan for collecting the money from the farmers. They were paid some time ago.

THE LIFE OF A HEALTH OFFICER IS ONE DARN THING AFTER ANOTHER—FINE LIFE

TAMPA, April 3.—The lot of a city health officer is not a pleasant one, according to Dr. J. R. Harris, who holds that position in Tampa. Dr. Harris has related a few of his experiences the last few days.

Wednesday morning an irate citizen entered his office, declared he was the victim of injustice and explained that regulations had been made which would require him to sell his horse and cow. Investigation showed that the man's place was kept as a public nuisance and that complaints of the neighbors were unanimous. As Dr. Harris was relating the incident his telephone rang and an undertaker said:

"I have a body here but I cannot bury it."

"Why not?" asked Dr. Harris.

"Doctor who attended the case won't sign the death certificate," was the reply. "Says the family hasn't paid his bill."

The doctor arranged to examine the body and issue a burial permit.

The night previous, Dr. Harris said, he had been called out of bed to inform an inquirer whether it was true the body of a negro had been found in the city water reservoir.

WORK ON DIXIE HIGHWAY.

OCALA, April 3.—The Marion county commissioners will open bids April 11 for the surfacing of State Road No. 2 from the Lake county line to Belleville, a distance of approximately fifteen miles. This road is the Dixie Highway and the clearing and grading of the right of way is progressing rapidly. The gang of convicts doing the work is now operating between Lake Weir and North Lake.

Bids for the surfacing will be received on bituminous macadam, bituminous concrete, sheet asphalt and plain concrete, the surfacing to be laid on a concrete or crushed stone base.

TRUCK

By a Sanford Celery-fed Man

April is the month of showers. The sky is the limit.

A business man is often surprised to find that an employee who comes from one of the "best families" is as valuable as an appendix, while one whose family started housekeeping in a box car gives indications of soon owning the business.

Newspapermen have to know something about everything and this editor evidently knew a whole lot about doctors.

(From Benton, Ill., Evening News) He was shot in the pit of the stomach at 8 o'clock Sunday night by Ava Lee. Drs. Austin and Vice operated upon him, and, strange as it might seem, it is said he has a chance of recovery.—Billy Crane in St. Petersburg Times.

I wonder, yes I wonder, what the officers do with all the booze they seize. You never even hear about any of the raids but you hear about the booze they captured. Who gets it?

The garage people say their business has fallen off some since the joy riders have quite joy riding.

The women are making a campaign for the people to drink more milk. No need for that. We would all drink more milk if we could get it. Better make a campaign for more milk and cheaper milk.

A perplexing problem: When is Judge Malnes going to quit growing? Along his equator, I mean.

Ought to Can It

Analysis shows Moore Haven muck soil worth \$12.50 per ton for fertilizer, screechheads the Moore Haven Times. Gosh, brother, what might the price per ACRE be, say, from M. H. clean down to China? Never stick a plow into that land; it's too precious. Put it on the market in gallon and half gal. containers for use in Sanford and other arid portions of our fair state.—Philosopher in Tampa Times.

We are not arid, old sport. We have moonshine, grapefruit and orange wine, bottled in bond and bottled in the wood shed, celery tonic and other kinds of hair tonic.

They now have a kissograph which is a machine to register the "kiss" in a kiss. Don't you think it all lies in whose wife you happen to kiss? I ask this in all fairness of some of the Sanford Lotharios. Honestly I would like to know.

Women can blame Eve for most of their faults but they can hardly blame her for holding the phone for two hours talking about the neighbors while the busy man waits for the lines to be cleared. You know what I mean.

Heard a man say yesterday that he merely wanted to stand up for his rights when in reality I think he was lying down on the job.

An optimist is one who expects to receive twelve dollars a crate for his celery and a pessimist is the one who sold his early in the season for \$1 per crate.

Mr. Chase is the president of the new Sanford Golf Club, which is a good name for a golfer.—St. Augustine Record.

A couple of white men were talking about an acquaintance who had been going through some severe trials and business losses. Prosperity had seemingly forsaken their friend. A very philosophical negro was working nearby who had worked for their friend and one of the men knowing the negro had worked a long while for him said: "Joe, don't you think it is too bad for Mr. Blank to have such bad luck?" Joe looked up, rubbed the sweat off his forehead, and said, "No, Sah, Ise don't. Dat man has no reason to spect prosperity." The white man seemed surprised and said, "Why not?" Joe replied, "You see, sir, dat man is one of dem fellahs what totes two faces under one hat."

FELL 1,000 FEET; SLIGHT INJURIES

PENSACOLA, April 3.—Lieutenant J. P. Adams of the United States Marine Corps fell 1,000 feet in a seaplane here several days ago and received only minor injuries to his face. His escape is regarded by officials at the naval air station as miraculous. Adams was making a solo flight and just off the station the machine went into a tall spin and fell into the bay. It was demolished.

TAMPA MAN KILLS NEGRESS ON THE STREET

TAMPA, April 3.—Chester E. Logan, Jr., son of Dr. E. Logan, for many years a practicing physician of Sutherland, was arrested about one o'clock this morning by Patrolman Thompson at No. 1108 Ashley street on the charge of killing an unidentified negress in an alley near by a few moments previous. A .38 caliber revolver with three cartridges discharged was found in his possession, according to the police.

Quizzed at the police station by Lieut. Nipper and Detectives Stancell and Jones, Logan, as he staggered about the room, freely admitted shooting the negress. He did it, he said, when the woman, accompanied by another negress, grasped his arm and attempted to lead him up the alley. He was unable to state how many times he had fired at the woman, he said.

Patrolman Thompson, who was but a block and a half away from the scene of the shooting at the time it occurred, hurried there at the shots and found the negress lying in a pool of blood in a vacant lot next to No. 1108 Ashley street. Logan was loitering on the corner, according to the patrolman, and Thompson placed him under arrest after searching him and finding the revolver in his possession. Three unfired cartridges were found in the yard, apparently ejected from revolver.

At the station, Logan, who was slightly under the influence of liquor, seemed chiefly concerned about "having done a good job of it," repeatedly stating that "no 'shine' could take him by the arm and get away with it." According to his story, consistently repeated to the officers he had returned from West Tampa and was walking down Ashley street when the woman accosted him at the alley and requested him to accompany her. The negress was accompanied by another woman, Logan stated, who he claims also grasped him by the arm, endeavoring to draw him up the alley. The second woman disappeared promptly at the shooting, according to the police investigation.

"Just tell me this one thing, chief," Logan asked repeatedly: "Did I do a good job of it or not? There isn't any chance of me waking up tomorrow and finding that she's still living, is there? No 'shine' can hold me up and get away with it."

Logan also contends that the woman attempted to search him for money.

"She says, 'Honey, ain't you got any money?' and runs her hand down my pocket," he stated to the officers. "The she and the other woman tries to draw me up the alley. No honest white man would stand for that, so I shot her. If I was in the same fix I'd do it again," he stated.

According to Logan's story he had never seen the negress before. He is being held in the city jail pending an investigation of the killing.

We judge by his willingness to be stung that the accent of the Russian mzhik is placed on the "hik."

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Adv.

MARION COUNTY IS BIG SHIPPER OF CITRUS FRUITS

OCALA, April 3.—Marion county had shipped more than 410,000 boxes of citrus fruit this season up to March 15, and the returns f.o.b. shipping points are estimated to have been approximately \$1,450,000. These figures do not include less than carload shipments by express.

It is estimated the county's total crop for the season will be somewhere between 425,000 and 450,000 boxes, with the returns f.o.b. shipping points between \$1,500,000 and \$1,600,000. Prices have been good, hundreds of cars bringing an average of \$4 to \$7 a box. The county ships mostly Florida Brown and Pineapple oranges. The citrus groves are in the northern part of the county on Orange Lake, around Citra especially, in the section around Lowell, Fairfield and Irvine in northwest Marjon, near Sparr, Ocala, Belleview, Candlor, Summerfield an don and around Lake Weis. There are a number of groves in the lake region on the eastern side of the Ocklawaha river, and along the river, including a new development of several hundred acres on Lake Bryant.

Entered as Second Class Mail Matter August 25, 1904, at the Post Office at Sanford, Florida, Under Act of March 3, 1879.

There are many beautiful towns and cities in the state of Florida but when it comes right down to real business none of them look like Sanford.

State Senator McWilliams will be a candidate for congress from the Fourth District and he is already going over the district and says he will make a systematic and most vigorous campaign.

When all the new orange groves that have been set out and being set out in south Florida and especially in the ridge section get to bearing there will have to be a wider range of distribution of fruits to get the thousands of boxes of new fruit into new markets.

Col. T. J. Appleyard attended the capitol removal meeting at Orlando yesterday and invited the people to the laying of the corner stone of the new wings on the old capitol.

We wish to call the attention of the republicans of Florida to the fact that the democrats have been trying to get another federal judgeship in this state and that the democrats were willing to have Judge John M. Cheney take the place.

To our mind the most important phase of the bond issue to be voted on Tuesday, April 11th, is the fact of the new bridge to be built across the St. Johns river at Osteen ferry.

VOTE FOR BONDS ON THE 11TH.

Property owners of Seminole county will, on next Tuesday, April 11th, have the opportunity to decide whether they desire the county to be bonded in an amount of \$100,000 for repairs to roads which, when originally built, cost them a great deal of money.

to time in this paper and the voters given sufficient opportunity to acquaint themselves with what this bond issue will cover. The county commissioners from time to time in the past have been repeatedly beseeched and petitioned to improve different sections of Seminole county roads and after a careful consideration and study of the subject this efficient body unanimously agreed on a number of improvements as most urgent, and decided on holding an election for the authorization of bonds to defray the expenses of these repairs.

This bond issue must be carried for two very important reasons, viz: To safeguard the original investment for good roads and to keep Seminole county roads up to as high standard as maintained by those counties which pride themselves on good roads.

The Seminole county commissioners have profited by the experience of other sections and with the support of the citizens will see that Seminole county roads will be kept in the same condition as they were when they were first laid.

The county commissioners have done what the majority agreed was the proper thing to do, and have washed their hands of the situation. We are confident the vote will be almost unanimous in the affirmative.

IS BRYAN ELIGIBLE?

Ocala Star: The question has arisen, "Will Bryan run for the Senate?" and the peerless modestly says he will if he is "called." We all know what that means.

Another question, the answer to which should be more immediate and simple, is "Is Bryan eligible?" Section 20 of Article XVI of the Constitution of Florida says:

The United States government recognized the constitution of the state of Florida thirty-six years ago. The constitution of the state of Florida conflicts with the national constitution on one point. The state constitution says a man to obtain the office of senator must be a citizen of the United States for ten years; the national constitution says he must have been a citizen of the United States for nine years.

zen of Florida for five years. We have seen it expressly stated by lawyers of high degree that the states possess any legal right that the constitution of the United States does not prohibit them from possessing.

If Mr. Bryan is a Democrat, and believes in state rights, he will not try to have the constitution of the state of Florida set aside to favor his personal ambition. Other friends of Mr. Bryan have been parading the argument, or rather making the threat that the national constitution says "Each house shall be the judge of the elections, returns and qualifications of its own members."

How would Mr. Bryan and his friends like that? They would denounce the senate, of course. But the senate would be no more law-breaking, no more given to setting aside principle for political expediency, than the people of Florida will be if they "call" Mr. Bryan and Mr. Bryan accepts.

Another argument of theirs is that other prominent men have practically done the same thing, and got away with it. Two or three wrongs do not make one right, and if the people expect the law that should protect all to be respected, they must discourage those who would set it aside to suit their personal or partisan convenience.

Why should Florida set Park Trammell aside to favor the man who has been the most conspicuous failure in American politics? We do not consider Mr. Trammell as the highest type of a statesman, but we doubt that there is any man of his age in the United States Senate who has done more efficient and faithful public work.

Mr. Bryan has not been a citizen of Florida for two years. He was a citizen of Nebraska in the last presidential election. If he is nominated and receives a majority of the votes, our state officers cannot give him a certificate of election without breaking the law they have sworn to uphold.

"But," says Mr. Bryan's friends, "the constitution of the United States imposes no such qualifications; therefore, Mr. Bryan is not bound by it."

Apply Ballard's Snow Liniment to joints that ache. It relieves bone ache, muscle ache and neuralgic pain. Three sizes, 80c, 60c and \$1.20 per bottle. Sold by Union Pharmacy.

THE EASTER BAZAAR of the Pipe Organ Club will be held at Dr. Moore's Optical Parlors, Saturday, April 8th. 33-2tc

GOOD ROADS BRING PEOPLE AND PROSPERITY. SEMINOLE COUNTY IS AFTER BOTH. 8-5td and 1t-w

LAKE MONROE

The prolonged drouth is effecting the crops considerably in this section. The plants are growing slowly and the most of the pepper is filled with aphids. Farmers are fearful that the crop will produce only about a half yield.

Quite an attractive little playlet "The Health Fairies" was staged at Monroe under the auspices of Mrs. Ora Layton, secretary of the Health Crusade in this section.

Miss Webster, who represents the "Drink More Milk" campaign also visited the school Wednesday and encouraged the children and community in the use of plenty of clean, wholesome milk.

Neighbors and friends surprised Mrs. F. E. Wainwright Tuesday evening the occasion being the celebration of Mrs. Wainwright's birthday. Quite a number of useful presents were received by the gracious hostess among them being canned fruit, linens, kitchen ware, dishes, etc.

Mr. and Mrs. Dorcas and little daughter, Lucille, left for their home at Palmyra, Pa., Thursday morning in their car.

C. P. Rabun has moved from the Campbell place on First street to his own home near his father's place.

T. E. Wainwright and son Joseph, who are employed at Chuluota, were at home Tuesday evening to attend the birthday party of Mrs. Wainwright.

Bartow Mann, one of our hustling farmers, has purchased the ten acre farm of Mr. and Mrs. Dorcas.

LONGWOOD

Mr. and Mrs. E. E. Hardy entertained the people of Maine who are spending the winter in Longwood at their beautiful winter home in South Longwood on the evening of March 28th.

Quite a number of people were present at the party who left the next day for Maine. The veranda was decorated with pink and blue crepe paper roping and lights covered with pink paper, also beautiful flowers were everywhere.

C. H. Corn and Miss Ruth left for their home in Franklin, Tenn., after spending two months in their winter home in West Longwood.

Mr. and Mrs. Edwin Dinkel motored to Daytona Beach Sunday.

Mrs. Fain and daughter, Fern, spent the week end in Orlando with relatives.

Mr. Smally and Mr. Tyler, who have been spending the winters here for the past few years, left Thursday.

Tired
"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—
CARDUI
The Woman's Tonic
... I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."
Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.
At all druggists. E. 7

Among some of those taking in the Water Carnival were C. H. Carn, Miss Ruth Corn, Miss Olive Dinkel, Mr. and Mrs. J. S. Dinkel Mr. and Mrs. Edwin Dinkel.
Mr. and Mrs. Wilkinson and little daughter have returned to Sanford to make their home, after spending the winter with Mrs. Wilkinson's parents, Mr. and Mrs. Bill Allen.
Dr. Kerr Boyce Tupper will preach at the Baptist church Sunday evening at 8 o'clock.
The Longwood Civic League held their regular monthly meeting Tuesday, April 4th.
Mr. and Mrs. Rankin of Wagner have moved into the house formerly occupied by the Parrish family.

Children who have worms are pale, sickly and peevish. A dose or two of White's Cream Vermifuge will clear them out and restore rosy cheeks and cheerful spirits. Price, 35c. Sold by Union Pharmacy.

YOU WILL HAVE NO MORE KICKS ON POOR ROADS IF YOU VOTE FOR \$100,000 COUNTY BOND ISSUE. 8-5td and 1t-w

Ask Your Soldier Boy How "Cooties" Got Such a Hold

He'll tell you that the battlefronts of Europe were swarming with rats, which carried the dangerous vermin and caused our men misery. Don't let rats bring disease into your home. When you see the first one get RAT-SNAP. That will finish them quick. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

The mild cathartic action of Herbol is well liked by ladies. It purifies the system without griping or sickening the stomach. Price, 60c. Sold by Union Pharmacy.

TALK BONDS AND WORK TO PUT OVER THE COUNTY BOND ISSUE. 8-5td and 1t-w

Luke Rielly Says, "The Rat Died Before Reaching the River."

"Since moving near the river 2 years ago, we've always used RAT-SNAP. Watched a vicious water rat, nibbling at RAT-SNAP outside the house. About 15 minutes later he darted off for the water, to cool his burning stomach, but he died before reaching it." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

Blue Goose American Fruit Growers, Inc. Blue Goose

"The Premium Marketing Agency For Sanford Celery and Peppers"

The BLUE GOOSE went over the top last week with one hundred and five cars of celery, and advanced the price one dollar in one week

After due consideration of all of the factors involved, we concluded that the growers were entitled to higher prices than they were getting; and we took steps to remedy the situation. The plan was to arrange to ship at least 75% of the best blocks of celery in the district under the **BLUE GOOSE LABEL** and then advance the market.

During the week of March 20th, the necessary tonnage was secured and the campaign for higher prices was started at the end of that week.

Remember

That we have representatives in over one hundred and sixty markets, and each of these work the outlying towns in his particular district, making a total of over 2,500 markets in which **BLUE GOOSE** products are sold. This gives us a tremendous selling power, and explains why we are able to obtain the "HIGH DOLLAR" for Sanford Celery and Peppers.

When we were ready to go, we told the American Fruit Growers representatives what the price was to be from day to day, and they went out and got it.

On Saturday, March 25th, Celery was selling at \$2.50 f. o. b.

Our schedule of prices for the week beginning, March 27th was as follows:

MONDAY	\$2.75 F. O. B.
TUESDAY	2.75 F. O. B.
WEDNESDAY	3.00 F. O. B.
THURSDAY	3.25 F. O. B.
FRIDAY	3.50 F. O. B.
SATURDAY	3.50 F. O. B.

This is an advance of exactly \$1.00 in one week from Saturday to Saturday, and the **BLUE GOOSE** did it. On Saturdaynight, April 1st every car of **BLUE GOOSE** Celery was sold. On Monday and Tuesday the market on **BLUE GOOSE** Celery was \$3.75 f. o. b. but we will not attempt to forecast the market for the remainder of the week.

Don't you think it would be to your advantage to consult the American Fruit Growers before marketing your products.

CHAMBER OF COMMERCE NOTES

LARGE CITY VS. SMALL CITY PROBLEMS

It has often been questioned whether a commercial organization in a small town is expected to meet problems as the one in a large town and whether their aims and ambitions are identical.

The answer to this question is that the problems of the small community are practically the same as those of the larger community—as far as concerns the problems themselves—the distinguishing difference between the two being the sizes of issues involved. In a larger city the problems are larger but not more numerous.

The Chamber of Commerce in a smaller city is perhaps confronted with greater difficulties in its attempt to find a solution for local problems on account of many reasons, a few of which are herewith enumerated. In small cities men know one another so well that they often fail to harmonize.

More direct service is required of the Chamber of Commerce in a smaller city.

Large cities have large problems unknown to small cities; small cities have many problems which large cities have already solved. The work of a secretary is easier in a large city. The large city must employ heroic measures to correct evils resulting from lack of city planning when they were small; small cities must give citizens vision enabling them to prepare for the big city of the future. Finance is also a great difference; the little city usually lacks the big fellow who will invest and await results. The lethargic attitude of the membership to the organization is unfortunately a failing found too often in the small city. The machinery for working out the solution of a problem is obviously more limited in the small city. The knocker's knock is not so keenly felt in large cities as in small. Large cities place emphasis on the word BETTER—small cities on the word BIGGER. In large cities the duties required of a commercial organization are specific and definite, while in the small city they are variable and general. The small city problems are more personal.

In larger cities the man of large affairs takes an active interest in the work of the cities commercial organization. Practically all his business affairs are in the city in which he lives, and he is, therefore, interested in its commercial problems.

In the smaller cities, the same type of men do not give the same attention to local affairs, and, as a result, the work of the commercial organizations in such cities is left very largely to men who cannot be properly classed as commercial leaders. This is due to some extent to the fact that the men of big affairs in these smaller cities are more deeply concerned in the affairs of larger communities near at hand and they consider the civic and commercial problems of their own community too unimportant to be worthy of their attention. This statement is, of course, not true with respect to every big man in small cities, but it is true with respect to many. As a natural result the large city organization has the advantage of the advice of the most successful business men of the city; men of ripe experience and sound judgment; men who have the means to properly finance the projects which are determined to be for the best interest of their organization or community. The small city organization on the other hand is often obliged to be content with the advice of men of limited ability, experience, and means. These men may have large ideas, but they often lack the influence and means through which to translate their words and plans into deeds. It is a pretty well established fact, however, that the efforts, aims and ambitions of commercial organizations in small cities cover the whole field of Chamber of Commerce work.

STATE NEWS

Moore Haven will soon have another modern new business building, with stores on the ground floor and hotel above.

The packing plant at Chipley, which has been closed down for a short time, has reopened on a much more extensive basis.

The Sumter County officials will award contracts very shortly for about \$30,000 worth of pavement for the streets of Bushnell.

Wauchula has let contracts for a two unit electric plant. Heretofore the current has been bought from a local manufacturing concern.

The contract for the erection of the laboratory building at the tobacco station near Quincy has been awarded to the Southern Construction Company, of Pensacola. The bid was around \$10,000.

Telling that Lake County realty has been changing hands at a lively rate the past few weeks, the Eustis Lake Region explains that the principal activity has been in citrus groves. "There has been no great speculation in groves in Lake County, and prices have never reached the peak."

In Starke the recent cool spell retarded the ripening of strawberries somewhat, but now the market is active again and many berries are being brought in. The Telegraph says that at least a carload is being sent out daily from Starke and that the price ranges from \$8.50 to \$10 a bushel. Truckers who raise strawberries are busy, and there are several buyers on hand to secure the berries as soon as they come to town. The movement from Starke is increasing every day.

The DeSoto County News, published at Arcadia, says that the secretary of the chamber of commerce is negotiating with a man who has plans for the construction and operation of a vegetable packing house at Arcadia. "The secretary believes that this handling of truck products in Arcadia and vicinity will bring about greater uniformity in pack and grading to the inestimable benefit of growers. The Arcadia Chamber of Commerce is doing much to encourage and assist the farmers of that section, and urges encouragement of the man who offers to set up a packing house."

The Yowell-Drew Company, which recently purchased the Orlando Pottery plant, is planning to extend the factory, and will make pottery on a large scale. Pottery is being made from Orange county clay, which is understood to be as fine as any used. Machinery has been ordered which will greatly increase the facilities of the plant. This industry is new in Florida, at least comparatively new, but great possibilities appear to be opening for the making and selling of Florida pottery.

Some idea of the importance of Winter Garden as a vegetable growing center can be realized by counting up the number of carloads of these products shipped from the immediate neighborhood each day. Statistics have never been gathered to show the exact amount of vegetables and citrus fruits grown here, nor any record of the large sums of money they bring into this section. But a record kept in a casual way shows that during the past week, which is about a normal one for shipments, that upwards of twenty-five carloads of lettuce and cabbage alone went out from here each day. One day recently seventeen carloads of lettuce alone were shipped from Winter Garden.

The Palatka News tells that the Hotel Martin, Palatka's newest hotel, will soon be opened to the public, and

seems pleased to make the announcement. "This will be one of the most modern hotels in this part of the state," declares the News. The Hotel Martin is not very large, having only forty-eight rooms, but it is modernly finished and equipped, and will be greatly appreciated by the traveling public. "The safe will be a special feature," adds the News. "Mr. Martin has already a reputation here as a caterer and the place is bound to be popular."

POTATO PRICES HIGHER AT HASTINGS NOW

Potato prices f.o.b. Hastings today showed a slight increase for No. 1s, \$7.50 per barrel being paid. Second grades were quoted at \$5 per barrel. Up to last night fifty cars had been shipped from Hastings proper. Figures on other shipments have not yet been assembled.

Some of the growers are clamoring for rain while others say that any increase in production now will mean a corresponding decrease in price, so that sentiment is divided as to whether or not a good rain is really desired, some assuming that it would hold up harvesting.

INTERESTS OF THIS SECTION FLORIDA TO BE GUARDED

Immediately following the good roads conference in this city yesterday, representatives from the East Coast and South Florida sections organized the East Coast and South Florida Good Roads Association, with S. M. Tatum of Miami as president and R. W. Pearman of Sanford as secretary.

It was decided that the organization should hold its first meeting in Daytona on April 8th, during the State Press Association meeting in that city and the State Roads Department will be invited to send representatives. The purpose of the organization is to gain recognition for the southern and eastern section of the state, which has not been getting its share of attention, it is generally conceded.—St. Augustine Record.

A FEW COMPARISONS FOR FLORIDIANS TO STUDY

Here is something for you to think about:

TRAMMELL
Mayor of Lakeland, 1899-1901.
Legislature, 1902-1904.
State Senator, 1904-1908.
President State Senate, 1905.
Attorney-General, 1909-1913.
Governor of Florida, 1913-1917.
U. S. Senator, 1917-1923.
Forty-six years old.
Has voted in Florida.

BRYAN
Congressman, 1891 to 1895.
Defeated for Senator, 1894.
Defeated for President, 1896.
Defeated for President, 1900.
Defeated for President, 1908.
Resigned from President Wilson's cabinet July 9, 1915.
Sixty-two years old.
Has never voted in Florida.
Senator Trammell has had a successful public career. Mr. Bryan has been thrice defeated for the presidency and once for the United States senate. In the midst of the world war he resigned from President Wilson's cabinet. Senator Trammell is a youthful giant of Florida, while Mr. Bryan is sixteen years his senior and, like former Governor Catts, has only resided in Florida a short time. Senator Trammell has risen with his state. Mr. Bryan has been defeated with his state and by his countrymen. Surely Mr. Bryan is not going to try, for the fourth time, to be president of the United States, but in order to have his senatorial defeats balance his presidential defeats it appears that he will offer himself as a candidate at the June primary. After his coming defeat he can then run against Senator Fletcher and complete his slate of defeats and resignations.—Orlando Sentinel.

With a feeling of spring in the air, it becomes more and more difficult to sympathize with the army of unemployed.

BUSINESS REVIVING BUT REHABILITATION WILL PROVE GRADUAL

Commerce Department Warns Against Overexpansion.

WASHINGTON, April 3. — Although business continues to make progress in its recovery from the depression of 1921, as indicated by figures received by the department of commerce since March 20, the department warned in a review of conditions made public yesterday, that rehabilitation "needs to be cautious that it may be built upon a firm foundation."

Some backsets, the statement declared, "may be expected for all of the lesions caused by postwar overexpansion have not healed."

While in most lines, the review added, "prices have been relatively stable for the past six months, distributors still remember the disaster caused by overstocked shelves in 1920."

"Although the recent marked increase in the price of farm products has been a big effect upon the morale of the agricultural districts, not much of this has so far been translated into increased business," says the review. "Most of last year's crops had left the farmers' hands before the rise came; the increase is, therefore, chiefly a promise of better things to come."

Activity of woolen and worsted machinery showed a "significant improvement" the first of this month, the review said, while that of cotton spindles decreased, the latter due somewhat to the New England strikes. Knit underwear production increased although shipments and orders fell off. Imports of raw silk in February decreased to the lowest figure since March a year ago.

Exports of iron and steel last month fell off from January, in part due to the shorter month, according to the review, and copper exports likewise decreased, but imports of tin and zinc increased as did sales of structural steel. Petroleum production decreased 2,000,000 barrels below January, but was greater than any month in 1920, and was exceeded by only two months in 1921. As against this, however, consumption of crude oil fell to 40,611,000 barrels, while stocks on hand passed 200,000,000 barrels, a new high record.

Have you seen that new chic fountain we just got in? It fits any **NASON JAR**, can't leak or overflow. **CHICKS** can't get wet and **CHILL**—it saves baby chicks. It and **PURINA** keeps them healthy and growing. We are giving them free with a sack of **PURINA CHICK CHOW**. Tell your neighbor. Call and get yours.—If not listed ask us for it. Will give one sack Old Beck Sweet Feed or Purina Molasses Feed with every \$10.00 purchase. For your garden and flowers phone us for fertilizer. We know the kind you need and furnish any amount. Phone us your wants—if we haven't got it will get it for you... Thanks!
