

LBJ Asks UN To Try For Peace

WASHINGTON (UPI) — President Johnson called for an immediate meeting of the United Nations Security Council in a new effort to bring the Vietnam war to the conference table.

The Chief Executive made the request during a brief, televised report to the nation on his decision to resume U. S. bombing raids on Communist North Vietnam.

Johnson said the resumption of the raids, which had been suspended since last Christmas Eve, was necessary because of continued Communist aggression.

He said the United States and others working for peace had met only continued violence and continued aggression.

Speaking of the Hanoi government, Johnson said, "It is plain that there is no readiness to talk on readiness for peace—in that regime today."

"The end of the pause does not mean the end of our pursuit of peace," Johnson said. "That pursuit will be as determined and unremitting as the pressure of our military strength on the field of battle."

Then he added: "I have instructed Ambassador Arthur J. Goldberg to ask for an immediate meeting of the United Nations Security Council on the Vietnam situation. I will be responsive to the spirit of the renewed appeal of Pope Paul, that appeal has our full sympathy."

But the President said that in view of continued Communist violence against South Vietnam and American forces, any further extension of the U. S. bombing pause might lead to a greatly increased loss of lives.

He also said he ordered the resumption of bombing only after lengthy consultation with his chief advisers, including the military Joint Chiefs of Staff.

"These advisers tell me that if continued immunity is given to all that support North Vietnam aggression, the cost in lives—Vietnamese, American and allied—will not be greatly increased," he said.

U. S. Bombers Resume War On North Vietnam

SAIGON (UPI) — The United States today ended the 37-day pause in the air war against Communist North Vietnam.

U. S. Navy Air Force jets bombers struck coastal supply routes north of the 17th Parallel on orders from President Johnson.

Navy A4 Skyhawks from the 7th Fleet carriers USS Hanger and USS Kitty Hawk struck the coast of North Vietnam since 10 p.m. Dec. 21, start of the 30-hour Christmas cease fire.

Dong Hoi is about 50 miles north of the 17th Parallel dividing North and South Vietnam.

"There had been no raids against North Vietnam since Dec. 12, start of the 30-hour Christmas cease fire," Johnson said.

He also said he ordered the resumption of bombing only after lengthy consultation with his chief advisers, including the military Joint Chiefs of Staff.

"These advisers tell me that if continued immunity is given to all that support North Vietnam aggression, the cost in lives—Vietnamese, American and allied—will not be greatly increased," he said.

Mrs. Beebe Dies At Lake Mary

Mrs. Bessie W. Rouns Beebe, 82, of Lake Mary, Fla., died Friday morning at her home.

A resident of Lake Mary for the past 10 years, she was a member of Community Presbyterian Church, Lake Mary.

Survivors are a daughter, Mrs. Joseph Smathers, and a grandson, William Smathers, both of Lake Mary.

Funeral home in charge of arrangements.

New Stroke Victim

SAFORD (UPI) — Former U. S. Open champion Ken Venturi was asked what he was doing on the sixth green when he had a stroke.

"I was in the middle of a putt," Venturi replied.

Honor Rival

LOS ANGELES (UPI) — Dr. Franklin D. Murphy, chancellor of the University of California at Los Angeles, will receive an honorary law degree from the University of Southern California.

The two schools are bitter cross-town rivals.

Fight To Save Navy Base Joined By County Officials

Give \$\$\$ In Support Of Battle

By Paul Houshore

A special appropriation of \$10,000 was authorized today by the Board of County Commissioners to support the fight to retain Sanford Naval Air Station.

The board took the action after appearing before the commission of John Krider, executive director of the Seminole County Chamber of Commerce, and Sen. Mark Cleveland Jr., chairman of the chamber's armed services committee.

"We are not in a position to assume the full cost of our efforts to keep the base open," Krider told the commission. "This project is costing considerable time and money."

Cleveland told the board that the base has not been declared surplus as some people think.

"They may be unaware of the fact that the installation could be used for something valuable to us if the Navy leaves," Cleveland declared.

Krider said the battle to retain the Navy base, which had been under way since early December, may cost the chamber several thousand dollars.

Commissioner John H. Pittpatrick made the motion to authorize the appropriation, saying: "We are all aware of what the Navy means to the entire county."

The motion was seconded by Commissioner W. Lawrence Crawford and was passed unanimously.

In other action this morning, the board authorized construction of a fence around the perimeter of the proposed Lake Jessup park at the end of Sanford Avenue.

County Engineer William H. Blythe said the fence would be necessary to keep cattle and adjacent property owner out of the park when it is opened.

The fence is expected to cost about \$200 to \$300 and will be for about a half-mile.

It was also added that "nearly all" of the tomatoes, peppers, cucumbers, squash, sweet corn and pole beans were destroyed.

NEW STORM GATHERING

United States International A new winter storm gathered over the Southern Plains today, spilling snow by conditions and winds through the Mississippi Valley.

The death toll from the storm's onslaught of snow and cold on Dixie and the East continued to climb.

Late Dixie continued to be reported in Syracuse and Oswego, N.Y., where snowdrifts towered 14 feet high and state police made three rounds on snowdrifts.

At least 167 persons, 99 in the county, have been reported dead or died in weather-connected incidents since the violent storm made its way westward from their Surrey (Va) home found his 11-year-old son clinging to his three sisters. Two of the girls, seven-year-old twins, were frozen to death.

Pennsylvania Gov. William W. Scranton declared "state of extreme emergency"

Ag Officials Mark Time In Assessing Crop Loss

Extent of freeze damage to Seminole County's citrus and vegetable crops still is too nebulous to pinpoint, officials said this morning.

"It will be another day or so before the trouble will be known to show up," the State Market News Service reported. "It's all up to the weather. If it continues cool, fine."

Casselberry Has Hassle Over Officials' Salary

By Barry Lawes

A proposed city budget item of \$3,000 for salaries for the mayor and city council members under heavy attack Monday night, as Casselberry held a public hearing on the proposed 1966 budget.

The item, included in a total \$3.2 million "other administrative functions" would pay the five council members and the mayor \$25 per month and not for any money.

Bates said the members did deserve some stipend, but they were only \$25 per month.

Mayor L. E. Woodhams, who presented the proposed budget, defended the salaries, saying: "This is based on the janitor's salary of \$15 a month, and we thought everyone on the council was doing as much, if not more, than the janitor."

Clarence J. A. Stenstrom proposed the \$3,000 be struck from the budget and used for other items, which the present council voting salaries for succeeding councilmen.

Following the budget presentation, Councilman Arthur Lego outlined what he called "long range capital investments," listing such items as utilities company, storm drainage and road construction items as the "only things which will need a real estate tax to finance."

"The maximum this tax will be," Lego said, "is five mills." There was no discussion on this tax would become a reality, however.

Sunland Estates May 'Go Dark'

Street lights may be turned off in Sunland Estates.

Unless the citizens of the area band together or some other person volunteers to pick up the tab, the street lights in Sunland may go dark on March 1.

On that date, Bailey Odham, developer of the residential area, will cease to pay the electric bill for the illumination.

"It's up to the residents to get together and work it out," said Odham, who has been paying the approximately \$200 a month tab for eight years.

"There's no real problem," said Scott Burns, manager of Florida Power and Light Company.

"We've already been talking with some people out there and feel it will all be worked out satisfactorily, with everyone paying his fair share, if they want to keep the lights," said Burns.

Odham, who recently sold his water distribution system to the City of Sanford (see related story on page 3), has not paid the bill for the system, now has no authority to discuss the Vietnam question. It said if the issue is to be discussed at all it should be done by the Geneva Conference.

The broadcast said the North Vietnamese foreign ministry made the declaration in a statement issued in response to the request made by the United States to have the Security Council discuss the issue.

Hanoi Rejects UN Intervention

TOKYO (UPI) — Communist North Vietnam today rejected as "invalid" any United Nations Security Council action to settle the war in Vietnam.

(See related story on page 3)

A Hanoi broadcast monitored in Tokyo said the United Nations has no authority to discuss the Vietnam question. It said if the issue is to be discussed at all it should be done by the Geneva Conference.

The broadcast said the North Vietnamese foreign ministry made the declaration in a statement issued in response to the request made by the United States to have the Security Council discuss the issue.

Ginderville Fire District Is Muller Over

To organize or not to organize a fire district is the question being mulled over by members of the Ginderville Volunteer Fire Department. The fire department board of directors met last night to discuss the pros and cons of the question. The fire department board is headed by James H. Miller, president, and includes members of the Ginderville Volunteer Fire Department. The board is currently divided on the issue of whether to incorporate as a fire district.

'USA Salutes USO' On 25th Birthday

All enlisted men at the Sanford Naval Air Station and Marine Barracks have been invited to attend a steak cook-out at the Sanford USO building, corner of First Street and Sanford Avenue, beginning at 6 p. m. Friday. The steak dinner is being sponsored by Campbell-Lewis and is a special treat for the men. The USO is celebrating its 25th anniversary on Friday.

Navy Training Center Planned

ORLANDO (UPI) — The U.S. Navy plans to open a recruit training center here to train up to 4,000 men a year. The site is located on the former site of the Sanford Naval Air Station. The Navy is currently in the process of acquiring the land and constructing the facility.

ACL Net Income \$18.4 Million

JACKSONVILLE (UPI) — The Atlantic Coast Line Railroad had a net income of \$18.4 million in 1965, an increase of 17.6 per cent over the previous year. The railroad reported that its operating revenue increased by 17.6 per cent, while expenses increased by 12.7 per cent.

Seminole Road Projects Will Be Aired Feb. 10

By Paul Brookshire
Willard Peebles, fifth district State Road Board member, will meet with the Seminole County Chamber of Commerce's long-range planning committee Feb. 10 to discuss county road projects. Douglas Stenstrom, committee chairman, said the meeting will be held at 7 p. m. at the Lookout in Fern Park. Also invited to attend are Richey Green and William Benedict, of the State Road Department's Deland office; members of the Seminole County Board of Commissioners and William (Bill) Bush, county engineer. Projects to be discussed at the meeting include:
1. A new Osteen Bridge and replacement of SR 414 into SR 45.
2. Lake Mary Boulevard interchange at I-4.
3. SR 46 improvements from 1-4 to the Wekiva River.
4. SR 436 from Ovidio to Goldenrod.
5. SR 427 from Longwood to Goldenrod.
6. Report on progress of SR 436 south to Orange County line.
7. Status report on Seminole County's secondary road fund.
"Mr. Peebles has one of the most difficult jobs in state government," Stenstrom said. "He has the responsibility for primary and secondary road building for 12 Florida counties in one of the fastest-growing areas in the nation. We are deeply grateful that he is coming to meet with us on Seminole County's road problems."
"Our committee will continue its 18-year policy of working closely with our elected county officials and leaving the matter of priorities up to the county commission," Stenstrom said.
"It was 10 years ago this month that our committee initiated the four-year of 1952-53, the biggest road project in the county's history. Much has been accomplished but much remains to be done," Stenstrom declared.
"For example, I am hopeful that some definite progress can be reported in the next 60 days of achieving agreement between state and federal governments on the height of the new Osteen Bridge spans," Stenstrom said. Stenstrom said the question of height held up the Osteen Bridge project in 1961 and it since has been dormant.
"We can't be ready to fight for the actual construction of the bridge until there is agreement how it is to be built. With the proper effort I believe we can get this agreement," he added.

WILLARD PEEBLES

Florida Tech Name Of U

Florida Tech, name chosen for the new state university near Ovidio, won unanimous approval of the Seminole County members of the advisory committee for the new college.
Florida Tech will be located on SR 520 in Orange County three miles south of Ovidio. The Seminole County Board of Commissioners approved the name at a meeting held at the Cape Kennedy missile complex.
"We can't be ready to fight for the actual construction of the bridge until there is agreement how it is to be built. With the proper effort I believe we can get this agreement," he added.

Youth Charged In Auto Theft

Charles Griffin, 18, of 1921 Greenville Avenue, in San Jose, is charged with auto theft and a string of other offenses, following a minor traffic accident Tuesday morning.
Griffin, being held for Volusia County officials, apparently took a bus to Deland Monday, stole a car there that night and drove to Sanford. A high school was found in his pocket when he was arrested.
About 11:45 a.m. Tuesday, police said, Griffin, in the stolen car, sidestepped a city truck at the intersection of Sixth Street and Pinesh Avenue. The truck was driven by Arnold Hood. Griffin sped away from the scene of the accident.
Shortly after, police found Griffin sitting in the stolen car parked behind a Cadillac Brower Court apartment.
In addition to the auto theft charge, there are charges of leaving the scene of an accident, failure to have a vehicle under control, no driver's license and reckless driving pending with Sanford police.

Loss Of Power Poses No Threat

By Donna Estes
The loss of electric power occurred Monday evening in the city of Longwood and surrounding areas poses no threat to residents of the city as far as protection is concerned, Council Chairman Perry White has announced.
Many residents were concerned about the power loss of 30 minutes in some parts of the city and more than an hour in others Monday, which resulted in shutdown of the city's water service.
The storage tank is currently not in use while aeration facilities are being installed and so water is being pumped directly from the well water. Water was restored in 20 minutes and most factories quit in staggered intervals to ease the utility burden.
The University of Kentucky closed and at Frankfort a skeleton crew of lawmakers went into session to keep the Kentucky Legislature from being dissolved under state statutes. Nearly all schools in northern Kentucky were closed, some until Friday.
Bellefonte, Ill., had 12 inches of snow, Cincinnati, Ohio had 15. Dayton had 10 and Evansville, Ind., had nine.
The new storm promised more difficulties in the East before it blows out to sea. The mayor of Otago, N.Y., with 100 inches of snow on the ground, pleaded for state aid.
