As we jogged along all through the night Upon the S. A. L., I thought of a little incident That I should like to tell.

One time while passing through the state (We rame, that time).

Some northern men were on the train Joking along the way: 26

Made fun of Florida's white sand And of her ways and medua; They speke of raising celery, And cucumbers and brens.

And one who had a lot to say, Baid, "If you want to raise them You must plant nine in a hill."

Immediately we asked him why;
"De tell us why, my man."
"Why, three to push and three to pull,
And three to grow if they can."

It makes no think of former years And of Now Jersey'd semi-Of the fruits and segments now That are raised upon those lands.

And then lier unterprining towns
And cities on the coast;
Rier noble Christian gentlemen,
A leyal, royal, host.

And then the rolling prairies, And the descrit of the west. Have been made to blomom as At busy man's beheat.

And Florida needs just three things. That have been used disowhere; Labor, and brains and capital, They're mouded everywhere The shillful hand to do-

I note with great pleasure that the city council at least intends to get fully awake and will endeavor to take up the matter of bulkheading the lake front. Now this is about the greatest thing that has happened in the history of Sanford and I hope that the council will go into the matter fully and most comprehensively and will leave no stone unturned until the actual work has been started. Bulkheading the lake front means that a tourist hotel will be started at once and Sanford will be on the map sure enough. With all the new buildings going up, the brick streets, the beautiful sandy street Sanford next full sure enough:

The average person should drink more in the summer than in the winter, to supplant nature's efforts to wash the

body through the pores of the skin. What should be the summer drink?

Water, ice water if you want it and don't drink it to Excess. Most of the soda water beverages are palatable and DR. HOWARD H. CUSTIS harmless, but with the average person any drink that contains a flavoring of aweetness is a thirst producer rather than a quencher, so after all, water, just plain, clean, cold water is about the best of all summer drinks.

The great and only danger from ice water is its excessive use. To persons who are overheated or who work in high temperatures, ice water ismeriously dangerous. It produces congestion, better known as cramps in the stomach. Acting on the nervous system, it has a tendency to bring about paralysis. Men working before the furnaces in rolling mills or as stokers in the holds of steamships, soon learn the danger of ice water, although some lose their lives in learning.

Excesses of all kinds should be avoided. It goes, therefore, without saying that the over indulgence in alcoholic drinks should be shunned in summer or winter. This is not advised from the temperance standpoint, but from that of the best physical welfare.

While all those nice brick streets are being laid in the city proper it would be nice for the city council to try and make a better street through Sanford Heights. If the city of Sanford cannot take care of this thriving suburb they should never have taken it into the city. People do not care enough for the privilege just has no lights, city water, fire protection, yas or sewerage and yet the people are muleted for taxes just the same. THE GOOD ROADS BILL The good roads bill is dead. This ure was killed by the politicians, mpite the fact that it was drawn by the brightest minds in the state. It was indefinitely postponed last Weddone, both in and out of season, by the

most progressive citizens of Florida.

This is the most disheartening bit of news that has come over the wires from The state capital since the present jingo session of the legislature began. The truth is that very little was expected of the men gathered in the classic halls at that even this legislature would realize the fact that Florida is to go forward and not backward.

The State Chamber of Commerce, the State Good Roads Association, the trade bodies in the different cities, and the united powers of the press of the commonwealth were all behind the good roads bills. In fact, all intelligent people and organizations were brought to realize that Florida must have roads terhood of States. NEGROES IN PULLMANS

There has been much agitation recently, especially in South Carolina, of the question of negroes riding in Pullman cars in which there are white passingers. The South Carolina law prohibits, as does that of Florida, the occupying of negroes of the same cars as white passengers. But the claim is made by the company that they are engaged in interstate commerce and that as the federal law does not forbid the carrying of Congress from Connecticut, that one has whites and negroes in the same cars they practice so much condemned in the

Tariff For Revenue Only Will Be Given A Chance By The Present Administration

Washington, June 6.- Chairman Simmons, of the senate finance committee. after a conference with President Wilson today, said that he believed when the tariff bill is ready for consideration by the Democratic caucus next week, rattle, wheat, meats and flour very probably will be on the free list.

It had been reported that the subcommittee in charge of the agricultural schedule had determined to put a nominal duty on meats and flour in order to equalize them with the free listing of cattle and wheat, but Mr. Simmons declared after his talk with the President that he expected bith the raw material and the finished product to be free listed. He declined to say whether the change had been made at the instance of the President or senators. He said that the bill would be considered by the senate caucus all week, and be reported out of committee the following week:

Bund Concert Last Sunday

The Sanford Military Band rendered one of their fine concerts in the Seminole to a host of people in South Florida. Perk last Sunday that was greatly enjoyed by the many people who took advantage of the shady walks and enjoyed a social half flour listening to

one of the best amateur bands in the state. Amateur is said advisedly, for while all the members are good musicians the band is not a professional organization as they never play, for money-no money having ever from offered them. The Sanford band will give these concerts during the nummer months, probably two each month. Prof. Harvey had charge of the con-

May Was Cool

The accumulated excess of heat since heat Sunday.

Jan. 1, however, is 523 degrees, while the average daily excess is 3.5 degrees.

The precipitation during May was below normal, which hardly explains the fact that the temperature was lower than the average. The rainfall record showed 1.49 inches, while customarily May has 2.92 inches.

Rain fell only 8 days in the month, according to the tabulation, with 19 day's clear, 8 partly cloudy and 4 cloudy. Though there were but three rainy days there were eight thunderstorms during the month.

The maximum temperature was 89, and the minimum, 59. The wind movement-was 4,844 miles, with an average hourly velocity of 6.5 miles, and a maximum velocity of 27 miles per hour, occurring May 8. The prevailing direction of the winds was northeast.

Orlando's Sewerage All Right When it became known that a bill was

sending in the legislature which would prohibit the drainage of sewerage into ang underground stream, it looked like a blow had been struck at Orlando's sewer system which is to drain through deep wells into the subterranean stream. The city council quietly got together, and got busy and sent Mayor Reynolds, Engineer Ramsey and Alderman J. B. Walker to Taliahassee to show up our sewer plans and save it if possible from death blow. When our plans were made known, no objection was or could be made to it for the city disposal plant takes care of all impurities and sends no impurities whatever through the drainage well. The bill had passed the senate and had had its first reading in the

When our committee reached the Capital City, they immediately sought out the men who were furthering the bill and acquainted themselves with it and rom a throough investigation they felt satisfied that with a prudent Board of, Health, the bill would be a very proper one and that Orlando's sewer system would not come under the han of the law and they came home well pleased, Yesterday afternoon they received the following telegram:

Herbert Phillips Appointed Washington, June 5 .- Herbert S. Phillips of Tampa was today nominated

United States attorney for the Southern Florida district. This office has been held by R. I

Marks of Jacksonville. Mr. Phillips is one of the best known and most popular men in Florida. He was for several years prosecuting attorney in the district which then included Polk county, and made a most able and conscientions oflicial. In the last congressional campaign he was a candidate against Hon, S. M. Sparkman, and it was only the prestige of the latter won in many years of the service in Congress and his position as chairman of the rivers and harbors that kept Mr. Phillips from realizing his ambition. The news of his appointment will be very gratifying

Congregational News

Rev. J. D. Langley, pastor of the Congregational church left last Tuesday for the noath, much to the regret of his people. It is their earnest hope and prayer that his health may be much improved and that he may return in the Tall and take up his work again.

Meanwhile the church will be served by Rev. Frank T. Strong, who comes lust now from northern Florida but only two years ago from Kamas. Rev. Strong and family are occupying the parsonage, Rev. Waldren and family summer. Mrs. Strong and children.
