NUMBER 293

CITY MILLAGE AND VALUATION TO BE REDUCED

Commission Lops Off Two Mills And Prepares To Cut Assessments By One Third

Tax relief in the form of a substantial reduction in both millage and assessment valuation has been afforded city property holders for the coming year, according to action taken by the City Commission.

The valuation will be cut 33 1/3 per cent and two mills will be lopped off the annual levy. The assessment valuation last year was \$16,000,000. This year it will be approximately \$11,000,000, representing about \$5,000,000 on real estate and \$2,500,000 on personal property. The millage last year was 70, making a slash of ten per cent for the year ahead.

A tentative budget, approved by the Commission but withheld for final adoption because of the possibility of several minor changes, will effect a saving in practically every department for making no provisions for this purpose is covered in the following excerpt from the minutes:

"This budget is set up for the purpose of covering the expenses of the City for the next fiscal year. No provision for the bonded indebtedness was considered at this time as the City was unable to meet its financial obligations in July and the bond holders were promptly notified and asked to submit a plan that in their opinion would be fair to them and the City. Not hearing from them, the Commission decided to await the adjustment of the debt before making the tax levy."

"The complete budget will be presented to the public for adoption by the City on August 27th. It was tentatively decided to make a drastic reduction in the valuation and a variable cut in the millage, but to provide that in the event of a local disaster as much relief as possible, according to the conversation of the Commission in an informal discussion of the matter. With these slashes in the budget, it is believed that enough inducement had been held out to the taxpayers to guarantee a large increase in the percentage of tax payments for the coming year.

All of the Commissioners voted in general agreement to refer to the public, which they pointed to as being practically mandatory under present conditions.

\$100 PER MONTH TO BE SAVED ON CITY LIGHT COSTS

Commission Buys Car Of Pipe To Furnish Water For Cemetery

The city commission yesterday afternoon signed a supplemental agreement with the Florida Power and Light Company, whereby a saving of \$100 per month will be effected in the City's bill for lighting.

Under the terms of the contract a number of white water lights on the lake front, at the intersection of Park Avenue and East First Street will be cut out. None of the lights in the downtown business section will be cut out, it was announced. Clyde A. Boyd, local manager of the utility company in the negotiations.

Purchase of a carload of three-inch galvanized iron pipe was ordered by the Commission the price of Lee Brothers for \$25.00 per 100 feet less freight. The total of the bill will be \$2,425.10 for a 280 feet. The pipe is to be used to furnish water to the Municipal Cemetery. The shipment will arrive in about 10 days and will be laid by city forces under the supervision of James H. Houghton.

Request of the numerically small public address system from the bond holders to the City Commission was ordered by the City Commission. It was pointed out that contracts given last winter could not be heard satisfactorily from the bond holders because of the late hour. Under present plans the bond speaker will be placed in the cupola of the City Hall and when weather permits contracts will be broadcast to an audience on the property in front of the building. In disagreeable weather the contracts may be shifted to the auditorium.

In anticipation of the council this fall, the Commission discussed plans for placing benches in front of the City Hall at points where the musical programs are contemplated.

City members, which formerly were placed on First Street for the accommodation of three shoppers, are to be placed now on the sidewalk but none on the main thoroughfares according to the plan. The benches were recently removed entirely from the business section but protests were said to have been registered in such a number as to cause the Commission to reconsider the action.

Sanford Man Files \$50,000 Alienation Suit In Atlanta, Ga.

John F. Rogers, a locomotive engineer living at 511 Oak Avenue, has filed suit in an Atlanta court against C. C. Arnold, loan broker of that city, asking \$50,000 for alleged alienation of affections of his wife, according to telegraphic advices received here.

Papers filed in the suit declare that Mrs. Rogers refused to come to the Sanford home of her husband, which she claimed did not agree with her. She is said to have met Arnold shortly before Mrs. Rogers came to Sanford in 1923.

When Mrs. Rogers refused to join her husband here, Mr. Rogers, the suit declares, became suspicious and went to Atlanta to investigate. On the evening of Aug. 10, the bill of complaint alleged police found Mrs. Rogers and Arnold in her apartment. It is alleged that both were intoxicated.

Mr. Rogers declined to discuss the case today, saying the matter was in the hands of his attorneys. He has been residing here for the past six years. He and Mrs. Rogers have two daughters one 13 and the other 11.

WILLIAMS AGAIN DELAYED

ANNAPOLIS, Md., Aug. 24.—(INS)—Unfavorable winds operated this morning to prevent the start of the race for the Navy cup. The race was postponed until tomorrow, when the wind is expected to be favorable.

Navy Flier Killed As Plane Crashes

EUGENE, Ore., Aug. 24.—(INS)—Lieutenant J. J. Denshok, 32, navy flier of squadron No. 2 from the airplane carrier Langley stationed at San Francisco, was instantly killed today when his plane crashed at the Eugene Airport while taking off. Denshok's plane was heavily loaded with gasoline and when he pulled into a sharp turn at an elevation of 100 feet, his engine stalled and his craft went into a spin. The plane was demolished and burst into flames after striking the ground. The Lieutenant was wearing a parachute and was in the process of making a flight from San Diego to Seattle and return.

MARTIAL LAW IS PROCLAIMED IN JERUSALEM

Action Follows Fighting Between Jews And Moslems When Numbers Are Killed

LONDON, Aug. 24.—(INS)—Martial law has been proclaimed at Jerusalem as the result of fighting between Moslems and Jews, said a Central News dispatch from that city this afternoon. According to the same source the dead are believed to number 20. More than 100 have been wounded. British warships have been ordered to Palestine from Malta by the Admiralty.

Following an announcement by the Admiralty that the battleships Barham and the cruiser Sussex have been ordered to Palestine, Central News dispatch from Malta said that the aircraft carrier Courageous was proceeding to the same destination.

According to the Central News the remainder of the British Mediterranean fleet is under orders to keep in readiness for sailing instructions. Cairo dispatch to the evening newspapers said that both British and Italian troops are being sent to Palestine.

The Central News dispatch referred to the Jerusalem situation as a "revolt." Several Christians are believed to have been wounded during the rioting begun, the Central News said.

Defendants from they are said to be "harmless" and are being held in custody. The Central News states that vigilantes were ordered to guard over the city and to prevent the Jews from returning to their homes in the Ghetto and Arab quarters, occupied by Jewish refugees. A curfew law has been proclaimed effective at 8 P. M.

British secret officials in Jerusalem have been instructed in a special police order.

Jews and Arabs in Jerusalem have long been in dispute over the Walling Wall. The controversy arises from the fact that the wall separates the "Ghetto" of Jewish people, it is also an integral part of the Mosque of Omar, a shrine sacred to all Moslems.

The Arabs own the land on which the wall stands, and refuse to sell it at any price. They do not deny the historical right of the Jews to wall up the wall, but they charge that of late the Jews have endeavored to extend their sphere of rights in connection with the shrine.

Kotiel Masrasi, an orthodox Jew, call the Walling Wall, is according to tradition, the last remnant of the temple built by Solomon 3,000 years ago. It is the symbol of sorrow over the departure of ancient Jewish glory.

Conflicts within the shadow of the wall have been frequent and severe. The mandatory commission of the League of Nations has been asked to settle the controversy, but efforts to reconcile the antagonistic views of the followers of the two different faiths have been unsuccessful.

Farm Column To Be Published In Herald

Beginning with today's issue, The Herald will publish each Saturday an agricultural column prepared by Alex H. Johnson, head of the vocational Agricultural Department of the High School.

Mr. Johnson is devoting considerable attention to farming problems of the County, and as a part of the work carried on his department, he is planning a community-wide program for the assistance of local growers. In his column, Mr. Johnson will discuss questions that are of interest and importance to agricultural activities in Seminole County.

Club To Give Away 300 Potted Plants

Potted plants of 300 Dahlias or Mountain Glory trees are to be given away Tuesday and Wednesday afternoon by the Sanford Garden Club through its horticultural committee, headed by Mrs. Harry Hagen, according to an announcement today by Mrs. Henry Wright, President.

The plants are to be given away by Mrs. Hagen in front of Mrs. Lady's Shoppe. Those who desire the trees must agree to plant them, this being the only condition of the offer, according to club officials.

Miss Hurt Receives Scholarship Award

Miss Rose LaVerne Hurt, daughter of Mr. and Mrs. J. I. Hurt of this city, has been awarded one of the 40 scholarships announced today by the State Board of Education.

The scholarship is for four years and is for attendance in the Teachers' College at the Florida State College For Women at Tallahassee. Examinations for the place were held on Aug. 5. Miss Hurt was a popular member of this year's graduating class of the Seminole High School.

Death Of Senator Tyson Is Mourned By His Colleagues

WASHINGTON, Aug. 24.—(INS)—The death of Senator Lawrence D. Tyson of Tennessee, caused general regret among his senatorial colleagues today. Although a fire termor, the white-haired Tennesseean was widely known and popular.

Senator Tyson was one of the few members of Congress who was a West Point graduate. Throughout his long life of 68 years he was actively interested in military affairs and took a prominent part in promoting legislation for relief of war veterans. He was himself the veteran of two wars, serving as a colonel of volunteers in the war with Spain, and as a brigadier general in the 70th Division in France during the World War.

After his graduation from the West Point academy, he served in the regular army for 12 years, and then resigned to enter the practice of law. He was born in Greenville, N. C., on July 6, 1861. His only son, Charles McChesney Tyson, was killed in an airplane crash during the war. The widow and a daughter survive.

White House Applies Its Brakes On Talk Of Naval Accord Being Near At Hand

PICKING JURY TO TRY STRIKERS IS TO BE DIFFICULT

WASHINGTON, Aug. 24.—(INS)—President Hoover and executive publicity have established more than one international undertaking. President Hoover doesn't want his proposed naval agreement with Great Britain imperiled by a premature disclosure.

It is for this reason, largely, that the White House has applied the brakes to the talk of an Anglo-American agreement being near. Instead, the country "starvation" news has been made in the Press. MacDonald's resignation in London, but there is a long road ahead before there can be a complete accomplishment.

Administrative officials have recently been ordered to prevent any disclosure of the proposed agreement. The only disclosure of the proposed agreement was made by a letter to the committee by Chairman E. C. Callaway of the Republican committee at a meeting of the patronage committee here today.

Mr. Callaway of the Republican committee of Florida will not have any future official connection with the committee and in his letter to the committee he disclaimed any official connection with the committee. "You are a committee member and you are not a member of the committee," he wrote.

Mr. Callaway's letter was forwarded to the committee by Mr. William H. Callaway, Secretary of the committee, who is in charge of the committee's work.

The committee's work is to select a jury to try the 10 Gastonia strikers for the murder of Police Chief O. P. Abbott, slain in a police raid on the Gastonia strike headquarters at Gastonia last June 7.

This was indicated today when it was learned from the Sheriff of the State that a venire of 200 will be called for the trial of the militant strikers and strike organizers, which begins in Gastonia tomorrow night. Monday morning it was believed that most of the venire will be taken up with the 10 Gastonia strikers. The remainder of the venire will be made up of other persons.

The venire of 200 will be called for the trial of the militant strikers and strike organizers, which begins in Gastonia tomorrow night. Monday morning it was believed that most of the venire will be taken up with the 10 Gastonia strikers. The remainder of the venire will be made up of other persons.

FLORIDA G.O.P. COMMITTEE IS SCORED TODAY

Calloway Denounces Patronage Group In Letter Sent Them At Orlando Meeting

ORLANDO, Fla., Aug. 24.—(INS)—Bitter denunciation of the Republican patronage committee of Florida named at the suggestion of Postmaster General Walter E. Webb, Walter Newton and James Francis Butler of the National Republican Committee was made in a letter to the committee by Chairman E. C. Calloway of the Republican state committee at a meeting of the patronage committee here today.

Mr. Calloway of the Republican committee of Florida will not have any future official connection with the committee and in his letter to the committee he disclaimed any official connection with the committee. "You are a committee member and you are not a member of the committee," he wrote.

Mr. Calloway's letter was forwarded to the committee by Mr. William H. Calloway, Secretary of the committee, who is in charge of the committee's work.

The committee's work is to select a jury to try the 10 Gastonia strikers for the murder of Police Chief O. P. Abbott, slain in a police raid on the Gastonia strike headquarters at Gastonia last June 7.

REPORT REVEALS INDUSTRY SHUNS AGEING WORKMEN

American Federation Of Labor Finds 45 To Be Ageed Line

By William S. Neal, International News Service Staff Correspondent.

WASHINGTON, Aug. 24.—A nationwide survey by the American Federation of Labor into the problem of employment for older workers, made public today, disclosed that 45 years is the dividing line for employment in thousands of industrial plants throughout the country.

Many manufacturing plants, it was found, refused to employ men over 45 years, and in some cases it is reported to be a "strong tendency to discharge workers because of age."

The laborer's reports submitted by more than 1,000 plants submitted to the survey are being compiled by the executive committee of the federation, which ordered the survey made. The information will be laid before the annual convention in New York next month.

The survey also advanced the proposition of certain workmen's organizations to limit the age of men to 45 years, and to limit the number of older men to 10 per cent of the total work force. The survey also advanced the proposition of certain workmen's organizations to limit the age of men to 45 years, and to limit the number of older men to 10 per cent of the total work force.

Women Aviators In Derby Race Depart For Next Station

WASHINGTON, Aug. 24.—(INS)—Taking off from the airport here at 10 o'clock, Blanche Compton, a woman aviator, departed for the next station on her flight to Kansas City.

She was followed by two other women aviators, Miss Mary May and Miss Mary May. The women aviators are competing in a race for the \$30,000 prize.

Union Offers New Names As Arbiters In Transit Strike

NEW ORLEANS, La., Aug. 24.—(INS)—The carmen's union today advanced two other names as arbiters in the long New Orleans street car strike.

The names are William Green, president of the American Federation of Labor, and a public service official, such as Preston S. Aronson, of Atlanta, president of the Georgia Power, Light and Railway Company.

This for the proposal has not been mentioned on by officials of the Public Service Inc. who have previously favored the city's proposal.

The union's proposal is to have a jury of five members, three from the union and two from the city. The jury would be selected by a committee of five members, three from the union and two from the city.

\$30,000,000 Needed To Continue Fight On Fly, Is Estimate

JACKSONVILLE, Fla., Aug. 24.—(INS)—Approximately \$30,000,000 will be required to continue the fight against the house fly, according to a report made by the Florida Fly Commission.

The commission's report is based on a survey of the fly problem in Florida. It is estimated that the fly problem costs the state \$30,000,000 annually.

Sanford Hotel Will Reopen Soon Under New Management

The Montezuma Hotel, closed for the past several months, will reopen Sept. 1 under the management of C. L. Sullivan, formerly of C. L. W. Sullivan, who has been operating the hotel since its closure.

Mr. Sullivan is a hotel man of 20 years' experience. Recently he has been operating the Blumont Hotel in Sanford and before that managed hotels in High Point, N. C., and Alton and Camden, S. C.

Under Mr. Sullivan's management, the Montezuma will be operated on both the American and European plan. The hotel is at present undergoing extensive renovations in preparation for the opening.

GRAF ZEPPELIN ROARS ONWARD OVER PACIFIC

Giant Craft Is Moving Toward Fog Bank After Successfully Flying Thru Storm

TOKYO, Aug. 24.—(INS)—Plunging over the broad Pacific toward the fearsome fog belt south of the Aleutian Islands, the giant round-the-world dirigible Graf Zeppelin, enroute from Tokyo to Los Angeles, today was nearing the 2,000 mile mark of the longest sustained trans-oceanic flight afloat.

On the basis of fairly frequent reports from the dirigible telling of steady progress over the Pacific, it was computed that at 7 P. M. on Aug. 23, New York Daylight Saving Time, the Graf was fast approaching the unmarked spot in the ocean which would mean she had left 2,000 miles of storm-tossed waves behind her in the trail of her flight across the Pacific expanse.

Messages flashed from the dirigible, which was flying at a height of 5,000 feet, told that the weather was good and that the dirigible was making good time. The Graf was expected to arrive in Los Angeles tomorrow.

Death Of Senator Tyson Is Mourned By His Colleagues

WASHINGTON, Aug. 24.—(INS)—The death of Senator Lawrence D. Tyson of Tennessee, caused general regret among his senatorial colleagues today. Although a fire termor, the white-haired Tennesseean was widely known and popular.

Senator Tyson was one of the few members of Congress who was a West Point graduate. Throughout his long life of 68 years he was actively interested in military affairs and took a prominent part in promoting legislation for relief of war veterans. After his graduation from the West Point academy, he served in the regular army for 12 years, and then resigned to enter the practice of law. He was born in Greenville, N. C., on July 6, 1861. His only son, Charles McChesney Tyson, was killed in an airplane crash during the war. The widow and a daughter survive.

BOY SCOUT DIES

ROCKWOOD, Tenn., Aug. 24.—(INS)—Jack Tarwater, Jr., 15, the first boy to be rescued when seven boys were drowned in the Spring flood here, died today at his home from meningitis.

BOY TO REFORMATORY

Emmet Robertson, Glendeville youth, recently arrested on a charge of larceny in connection with the theft of a pistol, and sentenced by Judge James G. Saron to serve a year in the state reformatory at Marianna.

The boy was arrested on the charge of larceny in connection with the theft of a pistol, and sentenced by Judge James G. Saron to serve a year in the state reformatory at Marianna.

Chicago Authorities Are Endeavoring To Put Skids On Racketeering Industry

BY PIERRE JOHN HUSS
International News Service Staff Correspondent

Chicago, Aug. 23.—Authorities here are once again endeavoring in a wholesale way to put the skids under the racketeers and take them for skids to the pen. Success will mean relieving married Chicago business men from those who, by threatening strikes, bombing of even modest amounts, "shake them down" for millions of dollars.

The first arrest—predicted to be that of many—has already been made. Pat Roche, chief criminal investigator for the state attorney's office, has declared he will not rest until he has squashed the "shakedown octopus," and expects to lay evidence before the grand jury soon which will involve a number of the "big shots" in the Chicago racketeering game. He pointed out that under a statute recently put on the books racketeering is made a penitentiary offense, carrying with it a penalty of from one to ten years. Reinforcing this, Roche is hoping to put a number of the leading racketeers on the rock pile.

Clean-Up Drive
The present clean-up drive Roche explained is a preventive step against the expected increase in "shakedown" that occurs annually with the fall and winter business boom. He has warned local business houses to anticipate renewed extortion attempts and has advised them to hold out and cooperate with the police in stamping out the evil.

Illustrating the usual procedure of the racketeers in extracting their pound of flesh, Roche related in detail to International News Service about the arrest previously

mentioned.
"The first concern of which this victim is principal owner recently erected a new plant close to the Loop. About two weeks ago the new building was ready to receive some of the machinery from the old plant. The regular workmen of the box company were used for the moving and installing of equipment.

Pointed Out Mistake
"Just about then the victim was told by a 'business agent' for a labor union that a mistake had been made in not using union men in the job, and that 'trouble was to be expected. The victim paid no heed but in a few days found that the electricians and glaziers working on the new building were out on strike.

"The 'business agent' thereupon reported that \$1,000 was needed to settle the trouble. Ordinarily the tribute would have been paid but they had picked on the wrong guy. This intended victim sent a letter to the state attorney's office reminding him that he had campaigned into office on the pledge that racketeering in Chicago would be stopped. That's where my office came in. I gave the box manufacturer \$1,000 in bonded bills and placed a detective near the factory office. The 'business agent' called in person, and as soon as the money was delivered in him, pointed out that the strike would be called off immediately. My man of course walked in and grabbed him with the goods.

Shakedown Popular
"The 'shakedown' through strike threats has always been a favorite method with dishonest labor union leaders. They use their unsuspecting members to coerce money out

of the business men. The case I gave is an example. I intend to stamp out this practice among unscrupulous agents if I can get the cooperation of the business men of this city.

"The members of unions should be interested in stopping such practices and should help us in these prosecutions. The honest laboring man is in some cases, nothing more or less than a sucker for smart business agent, who wants to enforce blackmail demands."

Employers and business men already have signified their willingness to lend a hand to the clean-up effort. Instructions and information about the practice have been broadcast to the heads of business and labor firms.

Joseph Nielsen, chairman of the Employer's Association, which bears the brunt of Chicago's labor problems, is discussing the racketeering situation with International News Service, brought out estimates which showed that the city last year footed a racketeer's bill amounting in all to \$134,000,000. The figure, he said, was arrived at as follows:

Levy Assessments
It was found that each garage owner belonging to the garage racket, for example, was assessed one dollar per month per car in the garage. In return he was guaranteed against competitors entering his neighborhood and offering motorists lower rentals.

In the cleaning and dyeing industry the thousands of articles dyed or cleaned on the same agreement. A similar system was used in each case where the racketeers had "organized" the industry.

Nielsen stated that at present there were 94 organized rackets in Chicago, 94 of them each (but their "dues" or "fees" from business men and putting up the prices in the public. His success here, he pointed out, caused its rapid spread to other large cities.

SOUTH BAY—Contract awarded for erection of school building, to cost \$21,572.

Graf Leaves Tokyo Bound for America; Hits Severe Storm

(Continued From Page One)
which delayed the take-off and caused the Graf to sustain the first setback its timetable schedule has suffered since the start of the round the world flight, eased the ship from the hangar with exquisite care, and the dirigible came out on the field without so much as scraping her silver sides.

A few moments later, Dr. Eckener gave the command which started the dull throbbing of the Graf's powerful engines, and then came the long-awaited order to take off. The ground crew released the mooring ropes, which were immediately hauled up through hatchways in the under side of the dirigible and as the engines pounded out a symphony of power, the zeppelin slowly got under way.

Enthusiastic cheers rose from the throats of the thousands of spectators as the Graf slowly lifted itself from the earth in the afternoon sun gleaming on its glistening sides. The zeppelin school and re-echoed as the ship drew further away, mounting ever higher, while in the

main gondola the 18 passengers, their faces pressed close against the glass, waved hands and handkerchiefs in an aerial adieu to the flowery kingdom.

When half a mile from the field, the zeppelin turned back to describe a majestic circle over the hangar, and then, with its engines roaring in deeper pitch as the throttles were opened wider, the great ship headed out toward the east, away from the sun and toward the vast expanses of the Pacific.

In spite of the long delay attending the start and the general inclination as to the exact time the take-off might be accomplished, there was not the slightest diminution of interest among the people of Japan in the Graf's latest venture, and they turned out in wholesale quantities to bid the air monarch a fitting farewell.

All through the morning hours this and had milled about the hangar watching with interest the final preparation for the long-awaited start.

When word was given out that the take-off would be made about three P. M., the crowd increased as if by magic, thousands more flocking to the field from Tokyo and from nearby towns where a goodly portion of Japan's population had taken up temporary residence during the Graf's so-

jour at Kasumigaura.

A few minutes before the zeppelin was nosed out of the hangar, there was a brief ceremony in the main gondola of the ship, during which Dr. Eckener, expressed his sincere appreciation of the reception which had been accorded the Graf and its complement of passengers and crew while in Japan.

Following the departure from Kasumigaura, Dr. Eckener planned to follow a course which would take him north along the east coast of Hondu, the main island of the Japanese empire; along the Kurile Island to Cape Lopatka at the southern end of Kamchatka, and thence southeast and northeast along the Aleutian Island chain following the route of the United States Army world flight.

After reaching Unalaska, the nose of the dirigible will be pointed toward Vancouver, and from that point the ship will follow the coastline of the United States, passing over Seattle and San Francisco to Los Angeles. This course may be varied in the event of storms off the coast of America. But Dr. Eckener is anxious to pass over Seattle if possible. If he is prevented from doing so, he will touch land first at San Francisco.

Nine-Tenths Preventable
Nine-tenths of all the diseases of the American people can be traced directly to crooked doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and expense. Buy, therefore, the good old vegetable cathartic, and prevent constipation in a natural, easy and pleasant way. Get a bottle today from

Sanford Drug Co., Laney Drug Store, Roumillat & Anderson, Union Pharmacy.

Klim (spell it back-ward)
is pure, fresh milk with only the water removed. It is a light snowy powder with all the nourishing elements, including the vitamins of fresh liquid milk. Always ready for drinking or cooking.

Your tongue tells when you need

Coated tongue, dry mouth, bad breath, muddy skin, groggy nerves and sour stomach suggest its use.

AC SPARK PLUG COMPANY... FLINT, MICHIGAN... Economical Entertaining... A LIMITED budget shouldn't be an excuse for a poor party... AC's are known as the better spark plugs because of their patented one-piece gas-tight construction...

Don't Let Your Dollar Become a "Bo!"

THERE is a difference in dollars. There is the "tramp" dollar-the dollar that is spent away from home. Then there is the home dollar with its home circulation-home benefits, home profits. Though both of these dollars are marked One Hundred Cents, the home dollar continues to multiply itself-at home-for here community interests are mutual. The success of this City contributes to the success of everybody in it. A prosperous city rests on individual prosperity.

Not so with the "Tramp" dollar-once spent it is gone forever.

The advantage to you of spending your dollar at home is greater than the tramp dollar can possibly buy-if it bought you one hundred cents' worth-which it cannot possibly do, because the other fellow must make a profit.

There is a big truth in this worth your serious thought.

*It Pays
to Trade
at Home!*
