THE WEATHER

Cloudy with showers and windy in Tallahassee area, otherwise partly cloudy to cloudy with widely scattered showers and little change in temperature through Thursday.

Married Men To Be Included In Draft Soon

House Okays Bill To Provide Allotments Of From \$85 To \$165 For Families Of GIs

WASHINGTON, Aug. 31—(AP)—The Senate today upheld President Truman's veto of a bill to grant pay increases to World War II veterans in the postal field service. The vote was 48 to override the veto. Two-thirds was needed to override. The House previously had voted 213 to 72 to override the veto.

WASHINGTON, Aug. 31—(AP)—A House Appropriations subcommittee decided informally today to postpone action on President Truman's request for \$139,800,000 to move some key federal agencies out of Washington as a precaution against enemy action. Chairman Thomas (D-Tex.) said the committee took no positive action, but he predicted it would recommend that the entire matter be referred to legislative committees for study.

WASHINGTON, Aug. 31—(AP)—Chairman Vinson (D-Ga.) of the House Armed Services committee said today the draft soon will be extended to married men with dependents.

Without taking fathers, Vinson told reporters, draft boards will not be able to meet future calls to increase the size of the Armed Forces.

Vinson made the statement just after the House passed a bill providing for allotments of from \$85 to \$165 a month for GI families.

"This means," he said, "that Selective Service now can broaden its calls to include men with children who are within the draft age."

"That is the purpose of the allotment act, to make financial provision for the families of such men."

Meanwhile the House passed (Continued On Page Three)

Passenger Train Leaves Rails In Deep Texas Gully

LAMPASAS, Tex., Aug. 31—(AP)—A Santa Fe passenger train left the rails in the pre-dawn darkness early today. At least 16 persons were injured, none seriously.

"We were awfully lucky no one was killed or critically hurt," a spokesman for the railroad said. The diesel-powered train, making its regular run from Los Angeles to Houston, derailed in rolling country about 12 miles west of this central Texas town about 3 A.M. (CST) (4 A.M. EST).

Fifteen injured were hospitalized. Several received only first aid treatment.

The injured were under treatment at Rolland Brooks Hospital here and at the railroad's division headquarters hospital at Temple, Tex.

The injured mainly were from Texas. Only non-Texas listed was Arthur Moody, 32, Oakland, Calif.

A Santa Fe spokesman said the train, No. 76, was in Houston at 7:14 A.M. (CST) with a reasonable rate of speed "at the time of derailment."

He said three sleepers left the (Continued On Page Three)

German Youth Joins U. S. Air Forces

NEWARK, N. J., Aug. 31—(AP)—A youth who soldiered for Hitler in World War II has realized his "two wildest hopes"—to be an American citizen and to serve Uncle Sam's Air Force.

Karlens Waldman, 23, was rushed from a German officer candidate school to the front lines on the Rhine when he was just 18 years old. But during seven weeks as a prisoner of war in the United States he became impressed with the American way of life.

Back in Germany, he wrote to an uncle, Joseph Mohler of Belleville, N. J., and asked to live with him.

His final citizenship papers were granted July 7. And yesterday he was sworn into the Air Force "with the opportunity to become a pilot—my boyhood dream."

JACKSONVILLE, Aug. 31—(AP)—Alexander Williams, 23, was taken to the city prison farm Tuesday for being a Communist, today was released on \$500 bond pending outcome of his suit attacking the validity of Jacksonville's anti-Red ordinance.

St. Louis Miss In Kingly Favor

EGYPT'S PLAYBOY MONARCH, King Farouk, is reported from Deauville, France, to be "hearts and flowers" over 16-year-old Mimmi, skilled horse-woman, and daughter of the wealthy William Medaris of St. Louis, Mo. Mimmi's parents whisked her to Biarritz, where she posed for the news cameramen, to get her away from the roving eye of Farouk, whose suitors have continued to keep him in the headlines. Jaycees Seeking Brunt Of Gulf Storm Slashes North Florida

Federal Spending Here On Defense

MIAMI, Aug. 31—(AP)—A new hurricane—fourth of the season—whirled over the Atlantic toward the northern fringe of the Florida peninsula where hurricane warnings flew today. Black and red warning flags were up from the British island of Dominica in the French and Dutch islands of St. Martin and nearby Anguilla. Other warnings were lower for northwest storm warnings at Martinique and St. Lucia. The new tropical hurricane, already a big one with winds exceeding 100 miles an hour near the center, was 1,600 miles southeast of the Florida coast. It appeared to be moving northward or west-northwestward about 10 to 12 miles an hour. Its center was about 110 miles east of Guadalupe. It originated in the same area where another hurricane started 10 days ago. That storm moved inland on the Gulf coast last night.

Volie Williams announced that there is a movement in the state to extend the police power of the State Highway Patrol and to diminish that of local or county officers. State Jaycee President J. Francis Orlam proposed that the Jaycees debate the issue at a later meeting.

Stanley Brumley, accompanied (Continued On Page Three)

FWW Unanimously Elects Charles Ralls

CHICAGO, Aug. 31—(AP)—Charles C. Ralls of Woodinville, Wash., today was unanimously elected commander-in-chief of the Veterans of Foreign Wars.

Ralls, a member of a Seattle law firm, was elevated without opposition from his former post of senior vice commander-in-chief of the Veterans of Foreign Wars.

Before today's elections the encampment, with only a few of the 4,000 delegates dissenting, urged President Truman to discharge two members of his cabinet—Secretary of Defense Louis Johnson and Secretary of State Dean Acheson.

Jaycee Fish Rodeo Is Declared Success Despite Heavy Downpour

Heavy showers yesterday afternoon dampened the clothing but not the ardor of more than 200 children who participated in the Fish Rodeo staged at Lake Charm, Oviedo, yesterday afternoon by the Jaycees, the Sanford Recreation Department and the Fish and Game Commission. About 75 adults were present.

By catching a one pound, two ounce cat fish, Andrew Aulin, Oviedo, won the boys' grand prize, a rod and reel. Jane English, Sanford, won the girls' grand prize with a six ounce bream catch.

Ray Lundquist, Sanford, won the Junior grand prize by snagging a 12 ounce black bass, and Jane Williams, with a four ounce bream, won the girls' junior prize.

Randall Reynolds, Sanford, received a hunting knife prize for the most fish caught. Joan Winn, Oviedo, and a half, got a doll as the youngest fisherman. Peter Michael, three, of Geneva, the youngest fisherman, got a fish prize.

Kenny Russell, Sanford, got the smallest fish; Edward Olson, Oviedo, the longest caught by boys, and Sandra McKinney, Sanford, the longest fish snared by girls. Other prize winners were: Kenneth Malcolm, Sanford, Lawrence Howard, Sanford; Donald E. King, Geneva; James Morgan, Oviedo; Bobbie Williams, Sanford; Jack Sternman, Casselberry; and Tommie Wilkie, Wagner.

Serving as judges were Porter L. Loring, John Galloway, Clifford McKibbin, Jim Fields, B. F. Gans and George Moffat.

The police and bait were passed to the children by Bill Johns, R. L. Longene and B. F. Reeves, wildlife officers, and with Ralph Hubbard and Benny Fernald assisting. (Continued On Page Five)

Louis Johnson Suggests Foes See President

Defense Secretary Defends Acheson In Surprise Move In Reply To Critic

WASHINGTON, Aug. 31—(AP)—Louis Johnson says that he is now on anyone who wants him to resign as secretary of defense should take his complaints to President Truman.

And that goes for critics of Secretary of State Acheson as well. Johnson told a congressman who had asked him to step out.

Releasing his reply to the House member, Rep. Tauriello (D-N.Y.), Johnson broadened the audience for a defense of his stewardship to include "many American people" who have "been misled by misinformation" about the Defense Department.

At about the time he was giving newsmen copies of his letter yesterday, the Veterans of Foreign Wars encampment in Chicago called on Mr. Truman to replace both Johnson and Acheson. Johnson, a veteran of the first world war, is a former national commander of the American Legion.

That the Secretary should defend his own regime was not unexpected. He has done so before. But he gave added emphasis to his statement by indicating in Acheson as a target of what he declared are politically-inspired attacks.

The State and Defense Departments have frequently been reported at odds on high policy issues.

President Truman recently told a news conference that both Acheson and Johnson will remain in the cabinet as long as he is in office.

In his letter to Tauriello, Johnson blamed the coming congressional elections for many of the attacks on him and Acheson.

He said he realized such attacks were aimed at "the Administration generally" and are (Continued On Page Three)

Russo-German Red Peace Treaty Is Reported Agreed

BERLIN, Aug. 31—(AP)—The West German newspaper Die Welt said today the Russians and the Communist government of the Soviet Zone have reached agreement on a peace treaty.

The term would be used as a new lever to pry the Western allies out of Berlin, the newspaper said.

Die Welt, established in the British zone and in West Berlin, is frequently well-informed on East German subjects.

The report of the treaty negotiations could not be confirmed in other quarters. U. S. intelligence sources said they had no knowledge of it.

Die Welt said the pact was prepared in Moscow by the Soviet Council of Ministers after a year's work under the leadership of (Continued On Page Five)

Heavy Rainfall Is Recorded In Sanford

Yesterday with 3.22 inches of rain, was the heaviest recorded here since Christmas when 3.11 inches of rain was recorded, said E. J. Moughtin, Jr., Sanford weatherman, this morning.

The rain brought the August total to date to 7.20 inches or 10 inch above normal. This has been the first month, said Mr. Moughtin, with the exception of April when normal rainfall has been recorded.

Three separate showers soaked the ground thoroughly, and this will prove of much benefit to growers, said Dr. R. W. Ruppert of the Central Florida Experiment Station.

The rain also soaked more than 350 young fishermen and about 75 adults attending the Fish Rodeo at Lake Charm yesterday.

GAMBLING STOPPED JACKSONVILLE, Aug. 31—(AP)—Duval county officials closed down about half the casinos along the boardwalk here yesterday.

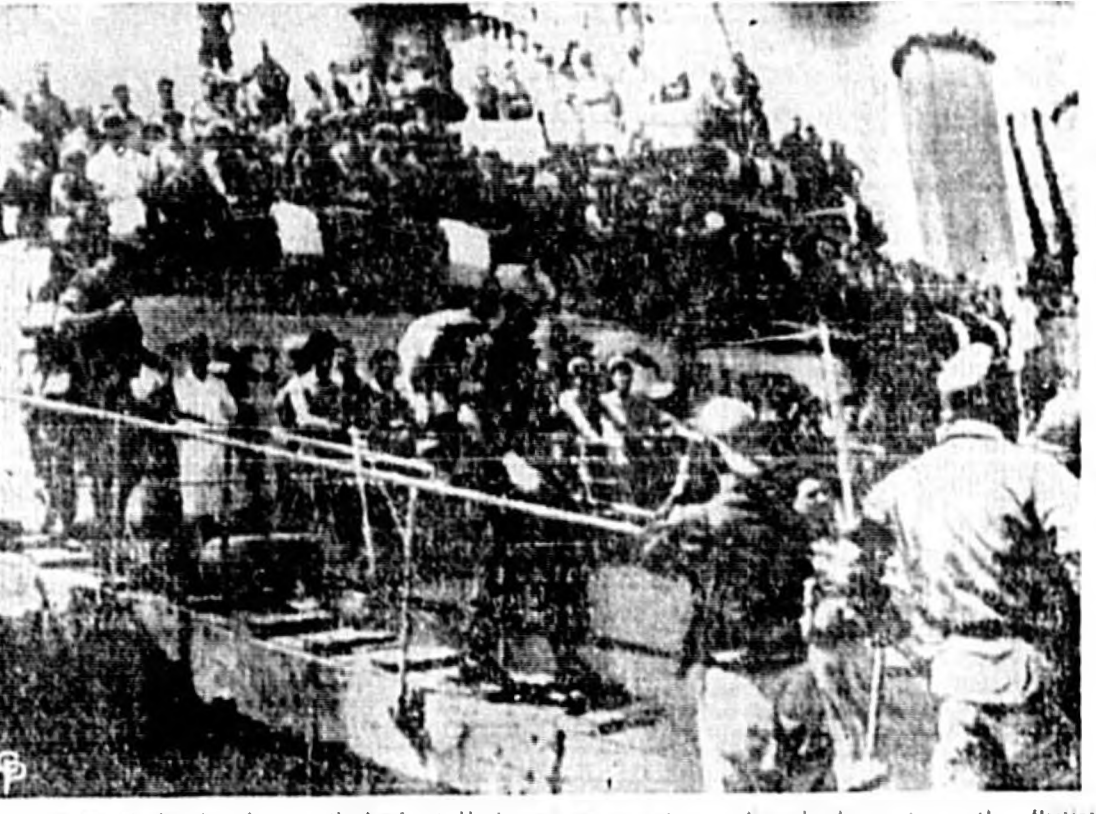

H. M. Shelley, president of the Boardwalk Association, said the shops effected were those which offer prizes in games of skill or chance and which involved money.

He said the shutdown would "ruin the boardwalk and just before Labor Day. It will put us in the hole for the season."

Shelley said Mayor H. A. Priddy had no comment on the shutdown. He said he and other slot owners were ordered by Gene Griffin, chief of criminal investigation in the sheriff's office, and Constable Frank Brunson to close up.

Reds Launch Major Assault In South After Offensive Against Pohang Bogs Down

First British Troops Land In Korea

Members of the Argyle and Sutherland Highlanders are shown disembarking from the British cruiser Curlew at Pusan, South Korea, after a voyage from Hong Kong. They are the first British ground troops sent to reinforce the United Nations troops in South Korea. They brought their bar pipe band (U. S. Army Radiophoto from International Radiophoto)

Marion Harman Tells Kiwanis Of Safety Work

Council Organized To Assist In Preventing Auto Accidents

Formation of the Seminole County Safety Council has helped in a measure to reduce traffic accidents within the county, Marion Harman, chairman of the Council, told fellow Kiwanians yesterday.

The council was formed this summer because of the increasing toll of lives and the property damage due to accidents on the streets and highways, he said.

An initial meeting was held on June 8, at which Judges J. G. Shuman and Douglas Stenstrom and law enforcement officers were present, in order to plan the council.

At a larger meeting on July 13, 21 which 36 were present, J. Harman was elected chairman of the Council. At a recent meeting and J. Q. Galloway was appointed a board of directors was chosen vice-chairman and E. J. Moughtin, Jr., treasurer.

The Seminole County Safety Council is trying to find some solution to the problem of an auto safety through education, said Mr. Harman, and he asked Kiwanians to cooperate in this campaign.

Another meeting of the Council will take place Thursday night, Sept. 7, and a membership drive to enlist as many Seminole County citizens as possible will be started, he said. A constitution and by-laws will be adopted. A special committee will be formed to reach and teach safety to younger citizens. Plans are pending (Continued On Page Five)

Americans In Korea Are About To Be Captured By Korean Children

KOREA—(AP)—The American Army here is being captured—almost against its will—by a younger and more numerous force. It is slowly becoming the prisoner of the children of Korea.

In every country in which the GI has fought he usually makes fast friends of the kids first. To them he is a military Crusoe with endless stores of chewing gum, chocolate bars and candy mints. And few could withstand these magic bribes lavishly dealt out.

They made the GI the hero of childhood from Calcutta to Casablanca in the last World War. It wasn't altogether generosity on the part of the GI, although he was and is notoriously soft-hearted to children. But he learned quickly that through the kids he could win his way into favor with their families—generally with pretty daughters.

And before long GI Joe was a one-man post exchange. He gave his gum to the kids, his bag of laundry soap to their mamma, his cigarette ration to their papa.

But the formula hasn't gone so far in Korea. Few have found either temporary or permanent girl friends and most have taken no part in the life of the country. The frank truth is that most Yanks came here to do a disagreeable duty that has taken them longer than they hoped and they want to leave as soon as it is (Continued On Page Three)

Americans Turn Back Reds Push Down Sea Of Japan Coast As Deadline Expires

TOKYO, Friday, Sept. 1—(AP)—The Korean Reds threw a major two-day assault against the U. S. 24th Division in extreme North Korea today.

There were fragmentary reports that the Reds also were heavily attacking the U. S. Second Division farther north along the Nakdong River.

An Correspondent Stan Swinton reported from the southern front just west of Misan that the North Korean invaders struck before dawn at 15 points, after a heavy preparatory barrage.

Fighting was raging today all along that front in what might be the start of a new general Red offensive, Swinton reported.

The new Communist onslaught, which had been long expected but had been delayed, followed stalling of Red efforts to crack the United Nations defense lines on the northern and eastern fronts.

The new assault came as American and South Korean forces on the east anchor of the defenses buried the Reds back north of the post of Pohang.

The enemy had tried for two days to crack through to Pohang along the east coast road but General MacArthur's post-noon summary said they had been driven back within 500 yard, of their starting point about four miles north of Pohang.

They moved from three to four miles north of the city beyond the spot where an enemy roadblock (Continued On Page Five)

Florida Fashions Requests Help In Getting Workers

George Touhy, personnel director of Florida Fashions, today requested aid of the Industrial Development Committee of the Seminole County Chamber of Commerce in securing specially trained people to do statistical analysis and actuarial work at the mail order house. Until recently there has been little demand for this kind of help in the local labor field, he stated.

Mr. Glinson, merchandise manager, pointed out that styles, sizes, colors and trends in preference of the fashion-minded American girl are of utmost importance to the leading mail order company dealing exclusively in this type of merchandise.

Because of the need for this particular research experience, the company executive expressed the opinion that talent may have to be imported from outside the state. He added that possibly someone in Sanford has a friend or relative who has had experience in this work, and who would welcome the opportunity to live in Seminole County if they but knew of the chances to follow their chosen vocation here.

Robert Rumbley, manager of the local U. S. Employment office and chairman of the labor section of the Industrial Committee, declared today that Florida Fashions is the only firm calling for this type of personnel, and added that he has no names of persons on file who might even come close to filling the demand. He urged that anyone equipped to handle the task confer with him or Mr. Touhy.

Draft Extension

(Continued From Page One) without opposition a bill aimed at preventing sneak air attacks. The measure already has passed the Senate, but must go back for consideration of minor changes made by the House.

The legislation would give the Civil Aeronautics Administration power to require identification of aircraft and advance notice of flying areas important to national defense.

The FAA now requires such clearance for some traffic on coastal regions and near atomic plants, but it looks likely to demand them as a defense measure. Its authority is limited to safety factors.

A Senate House conference committee met a final conference on broad anti-aircraft legislation. Members expressed confidence the bill would be passed before the President's hand before his talk to the nation tomorrow night.

One problem still to be worked out is the bill's effect on the morning session. Senator MacMahon (I-Vt.) said he would like to see the bill passed before the President's address.

The bill is expected to pass the House in the next few days. A similar measure passed by the Senate made the expiration June 30, 1951.

The bill is expected to pass the House in the next few days. A similar measure passed by the Senate made the expiration June 30, 1951.

50, 1952

Maybank, the conference committee chairman, told reporters that W. Stuart Symington, who heads the Security Resources Board, telephoned him this morning to ask that representatives of his agency and the Army be heard on the question.

Both Symington and Army spokesmen have urged a two-year law in the past.

Maybank said he did not know whether the military committee would take another vote on the issue but that the members had agreed to Symington's request for further consideration.

The House voted last year to let the government go about its business with defense programs covered by a \$10,000,000 appropriation bill still pending in Congress. This is a \$200,000,000 extension of the bill.

The House last year passed a bill to start spending an appropriation of \$100 million for the defense program.

The bill is expected to pass the House in the next few days. A similar measure passed by the Senate made the expiration June 30, 1951.

Train Derailment

(Continued From Page One) rails but did not overturn, and that the chair car, diner, lounge car and "Big Crow" car (which carries Negro passengers) left the rails and overturned.

The engine, mail car and baggage car did not leave the rails and proceeded to Temple.

There were about 40 passengers on the train, the Santa Fe official said. So far as he can learn, none suffered more than cuts and bruises.

Several passengers who received first aid at a Lamson Hospital were sent by bus to Temple to be transferred to another train.

Deputy Sheriff Henry Cunningham said the accident occurred in a sag of earth where the roadbed had been built up at least 15 feet above the ground.

New Jersey, called Washington the most vulnerable of all American cities, the nerve center of the nation.

Rep. Edward I. Miller (R-Md.) said the money would be used to "save the hides of some 40,000 government clerks."

Rep. Fred D. Ellis (D-Ill.) said the money would be used to "save the hides of some 40,000 government clerks."

Rep. Wayne L. Baker (D-Ohio) said with Ellis, declining.

"The heat of August has affected the thinking of some people," he said.

Gambling in Florida

Governor Warren explains to the people of Florida in a radio broadcast that illegal gambling in Florida has reached a new 25 year low during his administration. There has always been gambling in Florida, he says, no other governor has ever succeeded in stopping it, and he has tried harder than most to secure enforcement of anti-gambling laws.

Most Floridians will agree that this state has always been peculiarly plagued with gambling activities of one kind and another, especially since it became widely known as a tourists' playground. Whether or not there has been less gambling during Warren's administration is another matter. The Governor's unsupported statement does not seem to square with the revelations of the Kefauver Crime Investigating Committee's report, nor with the casual observations of the average citizen.

But the principal bone of contention in the present anti-gambling crusade was neatly sidestepped by the Governor. It is not so much whether there is more or less gambling now, as it is whether there is more corruption of public officials by gamblers; not so much whether gambling is widespread and engaged in by the public generally, but whether it is controlled by northern racketeers operating in national and international syndicates.

The record shows that Governor Warren's campaign was financed, at least in part by Chicago gamblers who had connections with the Capone mobsters. It shows that after he became Governor, this same gang muscled in on the gambling racket in Florida, and that other nationally known racketeers like Costello and Erickson also became interested in the Florida scene.

For the first time in the history of Florida, a United States Senate committee found it advisable to make an investigation of crime conditions in this state, and indisputable tie-ups with the criminal underworld of our metropolitan cities were disclosed, while the leading law enforcement officers of some of our larger counties were shown to be making fabulous sums from partnerships in gambling operations.

The Governor may not be able to see the difference between a quiet poker game in a second floor room overlooking a back alley, and a book-making ring that forces its way into luxurious hotels, bribing public officials, beating up competitors, and occasionally liquidating those who get in its way, but the public can. And sooner or later, the public will demand an accounting.

Mike Fink

"I'm half wild horse and half cock-eyed alligator, and the rest of me is crooked snags and red-hot snapping turtle." This was the battlecry of Mike Fink, king of the keelboat men who, early in the nineteenth century, poled heavy-laden rafts up and down the Mississippi River. He has lately been brought to memory by the movement to have his body, now buried at the mouth of the Yellowstone, where he met his death, transferred to his birthplace in Fort Pitt Park, Pittsburgh.

Mike's feats would seem fabulous if they were not so well attested. He and a companion would fill a tin cup with whiskey, place it by turns on each other's head, and shoot at it with a rifle from 70 yards away. The cup was always bored through without injury to its living support.

This sounds like an American version of the William Tell and the apple, but Mike was a real personage, born in 1770 and killed in 1823. Paul Bunyan, on the other hand, the hero of the logging camps, is purely mythical. The new interest in both adds to our list of folk heroes, and enriches the American heritage.

Better Routes

An express highway, when considered solely as a means of expediting traffic and carrying more of it, seems like a simple proposition.

There are several angles to be considered when planning one of these arterial roads, however. Bottlenecks at each end must be avoided, so that already over-crowded streets or roads may not be still further burdened. A long look ahead is necessary to calculate an increase in traffic which may require the addition of several more lanes.

Changes are made in real estate values, too, resulting sometimes in larger and sometimes smaller tax returns. These problems are eminently worth solving, however, when one considers the benefits to motorists and the public in general. Travel by express highway is cheaper and safer, involving less mental strain for driver and passenger, and truck shipments are speeded up, reducing costly delays.

Travelers who make use of the express highways strongly advocate more of them. The contrast between the free flow of traffic on these roads and the constant delays caused by slow-moving vehicles on conventional highways of two or three lanes is glaring. Bottlenecks, or no bottlenecks, prefer to go express.

Boyle's Column

(Continued From Page One) There are fewer comforts in Korea than in Japan and life generally is on a lower level. The GI has shown little interest in learning just what kind of people the Koreans are, although he has developed a great respect for their ability as soldiers.

But slowly the Korean children are winning him over. I suppose it is their plight that has touched him. At first they were as strange and furtive as their parents, peering out fearfully from their crude mud-walled huts when the troops rolled by. Then they learned to wave and salute and say "Ella," and it is a great game for them to stand in the dust saluting and yelling "Ella, 'ello, 'ello," like little birds that have only two notes in their song.

They are happy, handsome children—those in good health—and as courteous and polite as the children of France. But many have legs and arms covered with sores, and heads so patched with disease the hair looks as if it had been burned out by red hot quarters held against the skull.

As the war goes on, more lost prizes of a war they don't understand, drift into the cities and beg and homeless children, paying the price of a war they don't understand. It hurts your heart to see these tiny ragamuffins stretched sleepily all alone on a filthy path.

The children know that the troops generally get their ration in the evening. They gather at dusk near the billets, peering at the soldiers. The boys are usually dressed in ragged, tattered clothing, and the girls are in simple, worn-out dresses.

They are afraid not many will be aware of these provisions, they are so dull and uninteresting, until the government agents come around next year, and then they will be able to get the money they need to buy the necessities they lack.

black hair makes it look like a kingfisher. The children bring gifts of apples in their hands. And it is a tough GI indeed who doesn't shower down with his candy and chewing gum then. Many a soldier saves these tidbits for the appearance of a particular child he has picked out as his personal mascot and given a nickname like "Smallbone" or "Little Jughead."

Perhaps as they get to know these children better the troops may learn the people here are not so different from him as he thinks. No land and no people can remain pretty in a civil war.

Jaycee Meeting

(Continued From Page One) by Miss Ollie Rees Whittle, was applauded for his singing of "Give A Man A Horse He Can Ride," "Tramp, Tramp, Tramp," and "Mother McCre." He was introduced by Tim Crawford.

Following the request of President W. H. Stemper, the Jaycees voted to abandon the weekly jackpot drawing, which had been designed to stimulate membership, and to turn money already set aside for the purpose into the club treasury.

Sheriff P. A. Mera, a member of the Jaycees, commended the group on its action. "I have been on the spot, am doing my job the best I can, and appreciate the stand you are taking," he said.

Reggie Moffat, state treasurer of the Jaycees, urged members to do all in their power to promote safety on the highways on Labor Day.

President Stemper told the Jaycees that the Fish Roads of which they were co-sponsors, had resulted in a "very good but wet time," and that men there who had attended the great at Lake Champlain, Green, yesterday.

THE NATION TODAY

By JAMES MARLOW

(Editor's Note: This is the eighth of a series explaining the big changes being made in the Social Security program. They can't be done in a single article because they are so many and so important. It is suggested that readers follow this series in the individual stories, if possible in the successive stories.)

WASHINGTON, Aug. 31—(AP)—The Social Security program has been broadened to let these three large groups of employees—kept out of it until now—come under its protection: 1. Domestic servants. It's compulsory for anyone in this group to be in the program, if he meets the requirements.

2. Employees of non-profit organizations. It's voluntary for them. They and their employers can choose to get in or stay out. 3. Employees of state and local governments if they're not already covered by an old-age pension system. This is voluntary in part; unless the state and local governments want these employees under Social Security, they can't get in.

For all three groups, Jan. 1, 1951 is the start date. Domestic servants—Who is a domestic servant? It's anyone employed fairly regularly in a home. For example: A cook, a maid, a housemaid, a nursemaid, a washerwoman and others. Here's the test:

1. He or she must have worked for you, full time or part time, on 24 days out of a calendar quarter, a three-month period. 2. And he must have received from you at least \$50 in pay in that quarter.

If your servant meets both requirements, then he's covered by the law and he gets credit for your quarters' coverage. When he gets a certain minimum number of quarters' coverage he can get a pension at 65 or, if he dies, benefits for his survivors.

And—if he meets those two tests, a 3 percent tax must be paid on the first \$3,600 of his yearly pay. Under the law an employer can, if he wants, pay the whole 1 1/2 percent of her \$50 (75 cents) add 75 cents of your own, and turn it into the government.

Remember: An employer is responsible for turning this money into the government. How will the employer do it? For such employers the government will issue a special tax return form. It will be due at the end of each quarter. The government will announce details on this before the program starts on Jan. 1, 1951. The first return won't have to be filed until April 1, 1951, after the first quarter of 1951.

Suppose a cook works 34 days for you and earns \$50; then works 24 days for someone else and earns \$50; and then works still another 24 days for a third person and earns \$50; all in one quarter.

Who then pays the tax? Each employer must pay the tax on the wages of an employee who works at least 21 days a quarter for him and earns at least \$50 in that quarter. And unless the employer pays the whole tax himself, in that case the domestic is taxed, too.

But suppose such a domestic working for several people, found at the end of the year she had earned more than the taxable \$3,600 and was taxed on more than \$3,600.

By asking Social Security, she can get a refund on all the tax taken from her above the taxable \$3,600. But the employers, who add each paid a tax on only part of \$3,600 or more.

Suppose a cook or a baby-sitter works for you part of two days a week for three months—eight (three-month period) and earned from you at least \$50. Would she be considered a domestic servant under the new law? Yes.

Because the new law says a week for three months—eight days a month—came to 24 days in the quarter.

Non-profit organizations—Now for the first time employees of non-profit organizations—charitable, scientific, literary—organizations can get under Social Security.

Example: The employees of a Society for the Blind, the Jaycees, Crumley to Children or Animals; employees of the Red Cross, employees of a university, such as professors or janitors; employees of a religious organization, such as lay bookkeepers, gardeners, and so on. But—

Note: Ministers, priests and others who are members—not employees—of religious organizations are also excluded.

But the employees of a non-profit outfit don't just automatically get under Social Security, starting Jan. 1. Before they can get in these are the steps:

1. The organization itself must be willing—since it's going to have to share the Social Security tax with them—for them to get under Social Security. They can't get in if the organization says "No." But if it says "yes," then—

2. The employees must decide on whether they want to get in. None can get in unless two-thirds say "yes." Then—

3. The two-thirds or more who wanted in, get in and start paying their part of the tax. They who said "No," still don't have to get in. But suppose later after the two-thirds decision most get in. State and local government employees already under a retirement plan, already under a

Air Crash

(Continued From Page One) Two passengers were Indian nationals en route to a United Nations meeting in Paris. Another passenger was the Egyptian movie star Lilliane Cohen, whose screen name is Camelia. She is known as "The Lana Turner of the Middle East."

The Americans listed aboard included Aubrey William Schofield, 52, a native of San Antonio, Tex., who has been living in New York. He has been manager of the east coast hemisphere foreign production division of the Gulf Oil Company. Recently he has been filling in as manager of the Kuwait Oil Company.

Another American was listed as William C. Gist, son of Justice Erwin Gist of Lake City, Ia. The senior Gist is administration services and transportation officer at the U. S. embassy in Cairo.

Three other Americans on the passenger list were identified as from the U. S. Air Force: Melvin G. Dhabhan, Saudi Arabia. The name were listed as Melvin Hanson, Davis Owen William and Harry Richard Woods. No addresses were given.

The Paris office of TWA listed the crew as follows: Capt. Walton B. Webb, a 10-year veteran of TWA, pilot; Hal don Hammit, first officer; Harold H. Barrett, navigator; Melvin G. House, flight engineer; Herbert J. Stiles, radio operator; Jose J. G. Bernard, purser, and Jeann Claire Lorenzie, hostess.

TWA said another of its pilots was aboard as a passenger, on vacation with his wife and two children. They were identified as Francis Pope, his wife, Helanita; a daughter, Mary Louise, and a son, Paul F. Their home addresses were not given.

The plane left Cairo for Rome at 1:30 A.M. local time, today (6:30 P.M. EST.) and was last heard from at 1:57 A.M. First indication that it had crashed came when it was reported overdue at Rome five hours later. An air search began immediately, and a TWA plane located the wreckage 22 miles southwest of Tanta, between Cairo and Alexandria, the line reported.

Investigators were dispatched to the scene at once, by the airline and the Civil Aviation Department. The Civil Aviation Bureau in Washington also dispatched two investigators to the scene.

The loss of 56 lives would make the crash one of the most disastrous in world commercial aviation history. The heaviest death toll in American commercial aviation was exacted last June 24 when 58 persons died in a Northwest Airlines plane crash in Lake Michigan. The heaviest toll in commercial airline history was on March 12 this year, when 80 persons died in the crash of a British plane, bound from Bombay, India, to Rome, were Americans.

The other two were French, English and the 48 passengers were Americans, and the remainder represented 11 other nationalities.

Many have pension system for their employees. For example: Numerous cities have retirement plans for their policemen, firemen and school teachers. But there are exceptions. And where that happens the employees face old age without any pension.

To help them, the new law says they can come under Social Security but—and it's a big but—only if the state or local government approves, since it's going to have to pay half the tax.

In every such case no employee can get in without (1) approval by the state legislature for the plan and (2) an agreement worked out between the state and federal governments.

Government Orders Striking Canadian Trainmen To Work

By ASSOCIATED PRESS

Striking Canadian trainmen returned to work last night under orders from their government. Full resumption of train service, which has been tied up for one day, was expected within 24 hours.

After a stormy session last night, Parliament enacted a law ordering an end to the strike within 48 hours. It took only two hours for the strikers to begin their return.

Under the new law, the workers will get a four-cent raise. They will continue to work a 48-hour week, pending a final settlement. The union had first asked a 40-hour week, with pay for 48 hours, plus a seven-cent hourly raise. But strike leaders said they had won "district gains" through the emergency law. They said new amendments introduced during the day guaranteed that the back-to-work conditions could not be reduced, even by arbitration.

In Massachusetts, the CIO International Union of Electrical Workers called a strike against the General Electric plants in Lynn and Everett.

Five pickets were injured, none seriously, in picket line violence last night.

All five plants were closed, halting production of airplane instruments and jet engines for military aircraft. Some 19,000 workers were idle.

Union officers protested that the company was "stalling" in national contract negotiations in New York. They requested rejection of ten cent hourly raise offered by GE.

In Syracuse, N. Y., striking CIO United Steelworkers are considering a labor dispute that has closed the Crucible Steel Plant. About 2,000 production workers went on strike Aug. 15 to protest company-ordered shift changes to put the melting department on a seven-day work week.

At Tell City, Ind., about 1,400 television tube workers went back to work at the General Electric Corporation Plant. The walkout had caused layoff of 3,300 workers in the GE plant in Syracuse, N. Y.

The CIO Electric Workers accepted last night a company ultimatum for continuance of the ten-hour day. They had sought a 40-hour week. The union said difficulty of transporting workers on eight-hour shifts was a consideration in accepting the ultimatum.

In Pittsburgh, the CIO United Railroad Workers asked the Pittsburgh and Lake Erie Railroad for a 30 percent wage hike. The line, a New York Central subsidiary, hauls coal and iron ore between steel mill cities and Lake Erie ports.

A railroad source said the unionish transport near Cardiff, Wales. Pilot Webb, 46 on Aug. 25, was a native of Philadelphia, husband of the former Marion Louise Giddens of Lawrence, Kans. His permanent address was listed as Alton, Pa. His wife and an adopted son, John Robert Webb, were in Cairo with him when he was based there.

First Officer Hammit, 31, a native of Baylis, Ill., is the husband of the former Hammon Branson of Wichita, Kans. They have no children. The Hammit's permanent address is Camdenton, Mo.

Record Holiday Auto Death Toll Expected

CHICAGO, Aug. 31—(AP)—The National Safety Council said today there may be a record toll of 435 highway traffic deaths over the Labor Day weekend.

The Council's prediction was for the 78-hour period from 6 P.M. Friday until midnight Monday. It was made with the expectation that 36,000,000 cars will jam the nation's streets and highways over the long weekend. And, the Council said, the usual critical minority of drivers will show unreasonably symptoms of great hurry, gross inattention or helpless confusion.

Traffic fatalities last Labor Day weekend totaled 410, eclipsing the previous high of 310 for the Labor Day holiday period in 1937. In all types of accidents last Labor Day, 550 persons were killed, a record for the holiday. Included were 53 drownings and 97 deaths from miscellaneous causes. The previous high was 425 in 1937.

Personals

Mr. and Mrs. W. A. Morrison have returned from a weekend in Clemson, S. C.
Mr. and Mrs. Lee Draper have returned to their home after being here for the Lee-Gettelle wedding.
Rev. and Mrs. A. G. McInnis and children returned Saturday from a vacation spent in the Carolinas.

Miss Nancy Pitts, whose final announcements are being made today for her marriage to Joseph Clingenpeel Jr., Apprentice Seaman USN, is the niece of Miss Ruth Hand of this city.

Miss Caroline Lee And Charles LeGette Married At Holy Cross Episcopal Church

In a beautiful candlelight setting at the Holy Cross Episcopal Church, Miss Caroline Lee, daughter of Mr. and Mrs. Alfred Williams of this city, became the bride of Charles Ernest LeGette, son of Mrs. Jane LeGette and the late Mr. LeGette of Louisville, Ky., last night at 8:00 o'clock with Rev. H. Lytle Zimmerman officiating.

The church was decorated with tall baskets of white gladioli against a background of fern and palms. White tapers in graduated candleholders cast a soft glow over the scene. Sprays of white gladioli, lilies and carnations with white satin ribbon marked the family pews.

Prior to the ceremony, Mrs. Roy Symes, organist, rendered a program of nuptial music including "Perfect Love" by H. T. Burlingame and "The Lord's Prayer" by Alfred Hay Malotte. The traditional wedding march was used and during the exchange of vows soft nuptial music was played by Mrs. Symes.

The bride, given in marriage by her father, was lovely in a gown of imported satin organza with a sweetheart neckline and short sleeves. The neckline and the hemline of the ballerina skirt were finished with very fine embroidery. The skirt was carried with soft unpressed pleats. The bride wore a close fitting cap of illusion with a cluster of orange blossoms on one side, from which fell a fingertip length veil of French illusion. She carried a wedding ring arrangement with three white orchids and showered with tube rose streamers.

Miss Nelle Baughan of Jacksonville Beach, cousin of the bride, who served as maid of honor, wore a gown of sheer blue organza over soft blue tulle. The dress featured an off-the-shoulder neckline with a cerise satin sash. She wore a cerise hairband with a cluster of asters on one side and carried a crescent arm bouquet of cerise asters blending into shades of pink. The bridesmaids, Miss Jean Sayer, Miss Lillian Boyle, Miss Louise Clark, Miss Nancy Williams, Miss Jean Perrine of Kentucky and Miss Patsy Futrell of Louisville, wore gowns identical to that of the maid of honor, but in pink organza. Their bouquets were also identical. Miss Linda Lee of Titusville, cousin of the bride, served as junior bridesmaid and was gowned identically like the bridesmaids.

Performing the duties of best man for Mr. LeGette was Bill Davis of Kentucky, and ushers were Tommy Vaughan, Kenneth Lettler, Billy Gray, Ed Fielding, John Brumley, George Chapman and Bill Ludwig.
Mrs. Lee, mother of the bride, was gowned in an aqua crepe dress with matching accessories. Her carriage was of brass and oak. Mrs. LeGette, the groom's mother, was also gowned in an aqua crepe dress and her carriage was of pink sweetheart roses.

Immediately following the ceremony, a reception was held in the garden of the home of the bride's parents. Receiving the guests were Mrs. Edmund Meisch and Mrs. E. S. Baughan, and presiding over the bride's book were Mrs. Mason Wharton of DeLand and Mrs. Lee Draper of Lake Wales. Presiding over the punch bowls were Mrs. Dorothy Corradi, Mrs. L. F. Boyle and Mrs. Volie Williams, Jr.
The bride's table was covered with a new cloth and centered with arrangement of tube roses and fern. At one end of the table was a four-tiered wedding cake, which was served by Mrs. Herzy Brumley. The bride and groom were served from a crystal bowl at the other end of the table.

Others assisting were Mrs. E. Roumillat, Mrs. H. A. Williams, Mrs. H. N. Sayer, Mrs. William Brumley, Jr., Mrs. John Clark, and Mrs. Wight Kirtley. Joe Prindergaste of Atlanta played the organ throughout the evening.
Following the reception, the couple left for a short wedding trip. For traveling Mr. LeGette wore a brown organza dress with matching hat. Her accessories were white and at her shoulder

Miss Nancy Pitts To Wed Mr. Clingenpeel

Final plans for the wedding of Miss Nancy Pitts, niece of Miss Ruth Hand, to Joseph Clingenpeel Jr., Apprentice Seaman, USN, are being announced today.

The wedding will take place Saturday at the First Methodist Church with the Rev. J. E. McKinley officiating. No formal invitations are being issued but all friends of the couple are cordially invited to attend the wedding.

Miss Dorothy Ann Whitner will serve as Miss Pitts' maid of honor (Raymond DePiper, Seaman First Class, USN, will act as best man). Mrs. Edward McKean will render a program of nuptial music. A reception will be held at the home of Miss Ruth Hand at 1301 Park Avenue for the family and out-of-town guests.

Fish Rodeo

Continued From Page One
Tens of thousands of 'swiggy' worms were used as bait. The children enjoyed ice cream and soft drinks.

Richard had charge of the fishing ground preparation, drinking water and sanitary facilities. Among parents who assisted in the program were J. V. Haynie, Bob Williams, W. H. Stemper, Robert Howell, Harris Folds, Homer Stitzer, Ray Lundquist and John Fitzpatrick.

Contributors who made the Jaycee Fishing Rodeo possible were Bettye Fishing Inc., Schneiders Dairies, Southern Dairies, Rockey's Tire Shop, the Music Box, the Radio Hospital, McGarry's Standard Oil Co., Al Cole Ball Co., the Game and Fresh Water Fish Commission, the County Schools with buses, and the Coca Cola, Nehi, Vim, Punch, and Seven up bottling works.

Miss Lulu Kibler, nurse of the Seminole County Health Unit, had charge of the first aid station, but had no patients.

President W. H. Steamer of the Jaycees today stated that he wishes to thank all of those who helped to put the Fish Rodeo over in a big way.

Red German Treaty

Continued From Page One
Gregory Maximovich Pushkin, ambassador to the East German Democratic Republic.

The newspaper's informants said the Russians had written into the treaty the following terms: Soviet troops today withdrew behind the Oder River in the east within six months after the signing.

Approval of a "request" by the Socialist Unity (Communist) Party of East Germany that the Western Allies quit West Berlin. Abolition of the west mark in Berlin three months after the pact is in force.

The terms amount to a move by the Russians to liquidate West Berlin as an Allied bastion in exchange for an on-the-surface withdrawal of their own 250,000 troops from the east zone.

The treaty is to be regarded as valid for all Germany, an agreement that completely disregards the existence of the Allied-sponsored Republic at Bonn.

About three fourths of U. S. maple syrup and sugar is produced in Vermont and New York, says the National Geographic Society.

Big Blow

Continued From Page One
Heavy rain was reported heaviest at 11:00 p.m. about 45 miles west of the city between midnight and 2 A. M.

One cottage destroyed was Governor Fuller Warren's weekend retreat. Most cottages suffered wind and water damage, while homes in the city were damaged by falling trees.

Water was knee deep in the five points. The cross was then sighted, with streets flooded. The municipal pier was badly damaged and 250 feet of St. Andrews Lane from which fishing parties boarded boats for trips into the Gulf of Mexico, were washed away, leaving but 50 feet.

The nearby town of Lynn Haven suffered \$150,000 damage mostly from high tide.

A State Road Department crew worked through the storm all night to save a 4 1/2 mile long Bailey Bridge by sandbagging its approaches. The bridge is open to light traffic.

Tides pushed seven or eight feet higher than normal flooded along the coast. Highway 98 to Port St. Joe is washed out. Approaches to bridges along the Choctawhatchee River leading from Highway 98 to the town of Freeport are under water.

John McMillen, editor of the Panama City News-Herald, said he got the front of the storm. There is considerable damage to exposed properties, but no severe losses resulted in the city.

Meanwhile in its last advisory on the hurricane, the New Orleans Weather Bureau said the winds had dropped off to a maximum 35 miles an hour and the weakening storm was centered about 120 miles northwest of Birmingham, Ala.

The advisory, issued at 9:30 A. M. (CST) was centered near latitude 35 and longitude 88 or about 120 miles northwest of Birmingham, Ala. Strongest winds have now decreased to a maximum 35 miles an hour and rain is occurring over a wide area in the Ohio, Tennessee and lower Mississippi valleys. This rain will spread to the north and east and cover most of the north and middle Atlantic states, the Ohio valley and the lower Lake region by Friday morning.

"As there are no longer dangerous winds accompanying the disturbance, no further advisories will be issued."

Korean War

Continued From Page One
Thursday had made it impossible for Army photographer Ray Turnbull of Miami Beach, Fla., to report the road reappeared. He accompanied American tanks and infantrymen north of the post city and returned to Taeju, main Allied bastion west of Pohang later in the day.

The Reds had moved their target deadline last night for driving the United Nations forces out of Korea. It was set by Red Premier Kim Il Sung.

Deep of the south coast at the other end of the 120-mile long peninsula, South Korean Marines reported the capture of large amounts of enemy material and the killing of 500 Reds in two weeks.

The Pohang action highlighted the Thursday activities on the war front.

Allied planes continued to hammer targets with a fury that gradually was eliminating Communist rolling stock, industrial plants, ammunition dumps and material stockpiles.

The North Koreans were reported losing 1,000 men a day in the drive on Pohang mounted by 20,000 men.

The Air Force estimated it killed 1,200 North Koreans in strafing and bombing attacks on the frontlines at Pohang. Seven hundred Red dead were counted in one sector and 500 more in another.

Warships and tank units added heavily to the enemy losses during Thursday, when the North Korean drive gained only about four blocks on the outskirts of the No. 2 southeast Korea port.

Along other fronts of the box-shaped defense perimeter, there were these developments: At Changsong, 25 miles south west of Taeju, the U. S. 2nd Infantry Division repulsed enemy attempts to cross the Nakdong River.

Outside of Wengang, 12 miles northwest of Taeju, U. S. 1st Cavalry Division troops in small numbers moved capturing a 1,700-foot hill by 200 feet. They were repulsed by a small force of Communist tanks.

All was quiet on the extreme southern front. A patrol of 100 men was sent to the front.

Kiwanis Meeting

Continued From Page One
ing to erect signs to impress ratings on motorists, he added.

Edward F. Lane revealed that the authors of the mysterious musical manuscript of "Foot Matilda" that is presented to Kiwanians last week and which was added to O. P. Herndon's historical collection, were by Kiwanis Pianist Harry Wester, and Willard Connelly, reporter, and wished the authors success with the song.

Kiwanians got a good laugh out of the hour, following Mr. Lane's explanation of the "1862" on the tattered manuscript as a telephone number. Harry Wester had made it very wrinkled to appear old. Secretary F. Hasky Wright, who was in on the secret, had mimeographed words printed for use by the Kiwanians, and Dr. H. W. Rucker who led in singing it, had carefully rehearsed the song with Mr. Wester the night before.

Joel Field, vice-president, had charge of the meeting in the absence of Ralph A. Smith, president.

General MacArthur's leadership of the soldiers was frankly marveled by the sudden fall in the fighting around Seoul, Pusan and other points.

One intelligence officer suggested "maybe we are both sitting back in defensive positions waiting for the other to make a move."

However, intelligence reports continued to tell of a three-division buildup opposite the U. S. 25th Division on the southern front where an enemy offensive was expected.

At Kurye, 110 miles northwest of Pohang, South Korean troops held their positions outside of the Red-held town under a storm of artillery and small arms fire.

The South Koreans controlled an east-west highway to Taeju. In two sectors to the west but coordinated with the coastal operations, the South Koreans last night ground later they countered an attack near Chidong immediately south of Uihung, 22 miles north of Taeju.

The marshal was identified as a man with extensive Communist political experience but lacking in military background.

The Reds were stopped within a mile and a half of Pohang Thursday by fire from U. S. tanks and warships.

They were far behind their or

Sanford And Daytona Rained Out; Orlando Gets Flag

President Earl Buss-ey Rules Against Daytona And Giants Afternoon Game

The Orlando Senators, with another break in their favor clinched the pennant last night when the scheduled game between the Sanford Giants and the Daytona Beach Islanders was postponed because of wet grounds.

The Senators, who lost to the Gainesville G-Men last night by a score of 8 to 0, lead the Islanders by one and a half games. If the game hadn't been called last night, and the Islanders had won, they would have trailed the Senators by only one game.

Daytona manager Red Ruffing appealed to league president Earl Buss-ey last night to pass a ruling allowing the game to be played this afternoon.

President Buss-ey ruled this morning that the game cannot be played as it would be contrary to the league constitution and by laws. Thus, Orlando clinches the 1934 pennant regardless of the outcome of tonight's regular scheduled games.

A similar situation occurred in the 1932 season when the Sanford Giants needed only 3 percentage points to grab the flag and were denied the right to play a game with Daytona which had been rained out in order to get the 3 points.

Tonight the Giants journey to Leesburg to meet the Packers in the last scheduled game for the Giants and Packers this season. Mr. Ed Levy hasn't named a mound choice for tonight, but it may be his new rookie Charlie Tejedo.

Tejedo, one of the outstanding rookies of the league with a 12 and 8 record, would be out for No. 20 if he should be Levy's choice.

PALATKA-LEESBURG
PALATKA, Aug. 31—(AP)—The Palatka Azules came from behind to win their last game of the season to be played in the Azules Hotel as they edged the Leesburg Packers, 6-5.

Gus Ramos with two for three and Vogt with two for five were the leaders in the nine hit attack against four Parker pitchers.

DELAND-SAINTE
DELAND, Aug. 31—(AP)—The Deland Red Hats, playing their final home game of the regular season, were shut out here last night 4 to 0 by St. Augustine. Saint manager Nick Sitarista was credited with the win. His teammates belted four Deland hurlers for 15 hits. Joe Simonian leading the attack with four for five, including a triple.

Deland executed five double plays. The game was delayed 35 minutes because of wet grounds.

ORLANDO-GAINESVILLE
GAINESVILLE, Aug. 31—(AP)—Knowing they were the pennant winners regardless of what happened the Senators went out and lost an 8-0 decision to Gainesville last night and about the only thing that happened of passing interest was that the G-Men won just about as they pleased.

The Senators raked Don Lequart for 11 hits but by the same token left a like number of

Yankees Sweep Doubleheader From Cleveland As Stengel Plays Hunch

By JOE REICHER, Associated Press Sports Writer
If Casey Stengel fell into a city sewer he would probably come up owning an oil well.

The plucky pilot of the New York Yankees, who incidentally owns several oil wells, is one of the cautious managers in the business. He also is a great guy for lunches.

Base runners stranded which tells the story.

The G's jumped Jim Rimes for seven runs, chasing the right-hander in the seventh with a four-run outburst. Ed Dunn came in and finished up, pitching three-hit ball the rest of the way.

Dunn's pitching choice, Magr, Ermer's pitching choice.

Coach McMullen Of Stetson Gives His Opinions Of Squad

DELAND, Aug. 31—(Special)—Head Coach McMullen mopped his brow, moved over into the shade of a cabbage palm on Huley Field and recapitulated the first week of practice. Would the Stetson Hatters of 1935 and the season with a better record than the 4 wins, five losses and one tie of 1934?

Members of the Deland Quarterback Club who do their football at buffet suppers each Monday night, during the season when they use the needle on the coaches for their Saturday performances were of the opinion the team was a week in advance of last year in training.

McMullen, himself, admitted he had fair backfield prospects but produced the well-known crying towel when mention was made of the line.

"The biggest tackle we have is only about 200—that is those who expect to see much service. There's Martin Padgett, of Clearwater. He weighs 250 but has never played any football.

"We will have to play at least

two freshmen in the line and probably three in the backfield. The backs are of good size and are fairly fast. There is some depth. But in the line—no depth, no depth. Just call them McMullen's Midgets."

As McMullen expressed a considerable amount of pride in his trio of quarterbacks—Ron DeLilla, Bill Johnson and Frank Singletary, someone asked how many were likely to be called to the service. McMullen shrugged when he saw that both DeLilla and Singletary are I-A. Other I-A's are Fulmer Armstrong, Walt Nichols and Mighty Martin Padgett.

McMullen admitted that the team was off to a pretty good start practice-wise. Even Trainers Bert Kurland and Jim Jenkins were pleased as there were no injuries.

The 1935 Hatter schedule is

Joe Padgett of New Smyrna Beach, Florida's famed handless fisherman, gave a demonstration of his amazing skill with rod and reel at the Seminole County Fish Rodeo for children which was held and frequent showers at Lake Chassahoucho, yesterday afternoon. He is shown unspooling a backfish, a difficult enough feat for people equipped with the normal complement of hands.

GRAND TOUR—VIA BICYCLE
PEORIA, Ill.—(AP)—Gersh TH. "I expect it to be sort of rough going," the Bradley University graduate said. "But it will be fun."

Hunch No. 2 came in the eleventh inning of the first game. Eddie Ford, the little lefthander, was shaken up in a collision with Cleveland's Luke Easter.

Stengel thought Ford was favoring his right side. He promptly replaced Ford with Tom Ferrick. The veteran reliever proceeded to stop the Indians cold the rest of the way as the Yankees broke a 3-3 tie in their half of the eighth.

Hunch No. 3 came in the same bottom half of the eighth. Mize had walked. Stengel sent in Jim Collins as a pinch runner. After Hank Bauer filed out, Collins stole second. That necessitated an intentional pass to set up a possible double play. Casey went in Herrick as a pinch hitter, and he singled to score Collins with the winning run.

Stengel didn't need to resort to Kinnear in the second game as Eddie Lopat throttled the Tribe with six singles. It was Lopat's fifth straight over Cleveland this season.

Coach McMullen Of Stetson Gives His Opinions Of Squad

DELAND, Aug. 31—(Special)—Head Coach McMullen mopped his brow, moved over into the shade of a cabbage palm on Huley Field and recapitulated the first week of practice. Would the Stetson Hatters of 1935 and the season with a better record than the 4 wins, five losses and one tie of 1934?

Members of the Deland Quarterback Club who do their football at buffet suppers each Monday night, during the season when they use the needle on the coaches for their Saturday performances were of the opinion the team was a week in advance of last year in training.

McMullen, himself, admitted he had fair backfield prospects but produced the well-known crying towel when mention was made of the line.

"The biggest tackle we have is only about 200—that is those who expect to see much service. There's Martin Padgett, of Clearwater. He weighs 250 but has never played any football.

"We will have to play at least

two freshmen in the line and probably three in the backfield. The backs are of good size and are fairly fast. There is some depth. But in the line—no depth, no depth. Just call them McMullen's Midgets."

As McMullen expressed a considerable amount of pride in his trio of quarterbacks—Ron DeLilla, Bill Johnson and Frank Singletary, someone asked how many were likely to be called to the service. McMullen shrugged when he saw that both DeLilla and Singletary are I-A. Other I-A's are Fulmer Armstrong, Walt Nichols and Mighty Martin Padgett.

McMullen admitted that the team was off to a pretty good start practice-wise. The first scrimmage three days after practice began caused faint traces of enthusiasm in the faces of not only McMullen, but in assistants Jay Patten and Carl Simmons. Even Trainers Bert Kurland and Jim Jenkins were pleased as there were no injuries.

House Passes Control Bill By Voice Vote

Also Approves Bill To Draft Doctors; Vinson Says Draft Age To Be Raised

WASHINGTON, Sept. 1.—(AP)—Congress today passed a bill giving President Truman broad powers to control prices, wages, credit and strategic materials. Both the Senate and House passed the compromise measure on voice votes. The House acted first. President Truman is expected to approve the bill shortly, but not before his fire-side chat to the nation tonight on the Korean war situation emergency.

WASHINGTON, Sept. 1.—(AP)—The House gave quick approval today to a bill giving President Truman broad powers to control the domestic economy and curb war-borne inflation.

There was no roll call on passage, only a shout of "Ayes." Before that vote, a motion to send the bill back to committee was defeated 155-59-20 on a standing vote.

The House action sent the bill on to the Senate where leaders aimed to get it to President Truman before nightfall when he is scheduled to deliver an address to the nation on home front mobilization.

The House also passed a bill to permit drafting male doctors and dentists through the age of 50 years who are not in the reserves.

The action came on a voice vote shortly after Senate and House conferees agreed on a compromise. The bill now goes to the Senate.

In addition to doctors and dentists, the bill applies to four categories of "allied specialists"—veterinarians, optometrists, pharmacists and osteopaths.

Chairman Vinson (D-Ga.) said the House Armed Services Committee in January will consider raising the age for the draft from 25 to 35 years.

He said the committee also will consider extending the draft to veterans, especially those who are single.

At present veterans with 90 days active service are exempt. Vinson said yesterday that fathers up to age 20 would soon be drafted on Page 8B1

Average Old Age Pension Will Be Increased To \$46

Increase in Social Security benefits of 65 to 100 percent will result from the signing by President Truman of the 1950 amendments to the Social Security Act, and will affect 6,578 persons in six Central Florida counties, Seminole included.

Beneficiaries in the area under the jurisdiction of the Orlando Field Office who under the former law would have received \$113,000 during September, will receive about \$234,600 or an immediate increase of some \$121,600 in the area, said Paul K. Weaver, Social Security administrator.

These automatic increases for September are scheduled to reach local beneficiaries during the first week in October.

As an example, said Mr. Weaver, the average primary benefit of approximately \$26 a month for a retired worker will be increased to about \$46. A widow with two children who had been receiving \$58 a month will now receive about \$110 altogether.

Any individual now 65 or more who has at least six "quarters of coverage", roughly a year and a half, may be immediately eligible for monthly benefit payments.

Under the new law the amount of earnings which a beneficiary may make in a month, and still accept his insurance payment for that month, is raised from \$14.99 to \$60. This applies to beneficiaries under 75. After reaching 75 he may have any amount of earnings and still accept his insurance checks, Mr. Weaver stated.

Stores To Close During Labor Day

Members of the Sanford Merchants Association have recommended that stores remain closed all day Monday during the Labor Day holiday, and to also observe the regular Wednesday afternoon closing.

It is also suggested that the store be closed on Monday in order to permit employees to have a half holiday.

The Trumans Attend Ball Game

PRESIDENT AND MRS. HARRY S. TRUMAN are photographed with Clark Griffith, president of the Washington Senators, as they watch the Senators-Detroit Tigers game in Washington. This was the Chief Executive's first visit to the ball park since the opening day game. The local players won by a score of 5 to 4.

Hurricane Could Affect Labor Day Weekend Holiday

Normal Weather And 20 MPH Winds Are Expected Sunday

MIAMI, Sept. 1.—(AP)—Planning a long Labor Day weekend? Then keep in touch with Weather Bureau hurricane advisories.

That's Chief Norton's advice. Norton is chief storm forecaster in the Miami Weather Bureau.

"Florida's weather through Sunday will be about normal, with showers and fresh winds of about 20 miles an hour. That much of the Labor Day weekend should be all right for outings."

"Persons planning longer trips should keep in mind the fact that a dangerous hurricane is about 1,400 miles off the coast with no intention of spreading alarm, but merely as a matter of good common sense, this storm should be watched."

"I am not warning Florida against the hurricane at this time. It is too far away. But I cannot say which direction the storm will follow. It could begin to affect Florida weather Monday or Tuesday."

"Persons who will be at beaches or camps in exposed areas should be prepared to keep themselves informed of Weather Bureau hurricane advisories. I suggest they carry a radio and be prepared to take necessary precautions should the occasion arise."

Norton said the pressure setup (Continued on Page 8B1)

Boy Convicted In Holdup Killing Case

LONG BEACH, Calif., Sept. 1.—(AP)—Eighteen-year-old Truman Cook, who told of planning crimes in notes passed in a classroom stands convicted today of second degree murder in the slaying of a liquor store proprietor during an attempted holdup.

Cook testified that his girl, Peggy Hyman, and Muriel (Pickles) Downs, 18, were his confederates. The two girls are awaiting action by juvenile authorities.

A jury of 11 women and one man returned the verdict last night after deliberating nearly 11 hours. Cook also was convicted of attempted robbery and of armed robbery. Second degree murder and robbery carry a sentence of five years to life and attempted robbery one to 20 years. Cook will be sentenced next Tuesday.

Mrs. Pauline Catania, mother-in-law of the slain man, Dominick Calarco, screamed in the courtroom.

"He should have gone to the penitentiary for life! He killed my boy!"

SALES TAXES
TALLAHASSEE, Sept. 1.—(AP)—Florida's collections from its 3 percent sales tax started back on the increase last month after a mid-summer slump.

Comptroller C. M. Gay said August collections on July sales totaled \$2,367,267, just about what had been anticipated.

July collections on June sales were only \$2,305,425—the lowest since the first month of collections.

August collections brought total receipts for the nine months since the tax became effective last November to \$20,915,867.

State tax experts predicted the levy would produce \$46,000,000 a year.

GASOLINE TAXES
TALLAHASSEE, Sept. 1.—(AP)—The State collected \$4,312,008 from its tax on \$1,000,127 gallons of gasoline sold during July.

August collections were the lowest since those of December, but was a big increase over the same month a year ago when receipts totaled \$2,660,921 on \$2,298,569 gallons sold.

July collections on June sales of \$2,411,180 gallons totaled \$4,308,783.

August, September and October collections are normally the lowest in the year.

Haman, 35 Miles From Pusan, Falls As Reds Climb Over Dead To Advance

Malik Returns To UN Group As Jebb Takes Over

New President Asks South Korean John M. Chang To Attend

LAKE SUCCESS, Sept. 1.—(AP)—Botswana's Sir Glibweye Jehb took over the presidency of the U. N. Security Council today but Jakob A. Malik came back to continue his anti-American propaganda campaign as Russia's delegate.

The Soviet representative, who completed his month as president last night, had refused to say in advance whether he would continue to attend the Council meetings or resume his boycott which he ended to take the presidency.

The answer came a few minutes before today's session when he showed up with his advisers.

Asked how he felt to be coming back as the Soviet delegate and not as president, he said:

"I have finished my job. I have no obligations. He then was asked whether he intended to speak this afternoon. "We will be having discussions," he said, "and I am not a believer in silence."

The Council convened at 2:46 P.M. (EST).

The Council quickly adopted its agenda without discussion and Jehb then invited South Korean Ambassador John M. Chang to take a place at the table. Malik immediately challenged the chair.

It was this question of Korean representation that snarled the Council in a month-long procedural wrangle during Malik's presidency.

Malik had initially proposed that representatives of both North and South Korea must be invited. The non-Communist countries contended that North Korea was detaching a "free, free-fire" order and, therefore, was not entitled to be invited.

Malik said the United States and "those who play the same game" are making a monstrous distortion of the U. N. Charter by not asking both North and South Korea to send representatives.

He insisted that the government of the United States is the aggressor in Korea and "thus the aggressor is here but the victim (North Korea) is not here."

The Council chamber again was jammed to capacity as it was called to order for the past month at all meetings. (Continued on Page 8B1)

These Yanks Bring 'Em In Alive

NEGRO TROOPS of the U. S. Army keep a close watch on a Red prisoner captured during a skirmish in South Korea. He says the enemy has pinned itself against retreating weapons, the prisoner's upper clothing has been removed as a precautionary measure. (International)

Many World War II Vets Fight Again In Battle Against Reds

By DON WHITEHEAD (Our Hal Hooke)

WITH THE 27th REGIMENT, Korea, (AP)—Combat is a cruel test of endurance, courage, and sanity which no man should be called on to endure more than once in his lifetime—and even that is too much for many veterans of World War II now facing the test again in Korea.

Most of them went into the war as a young man from high school or the college campus, some between Pearl Harbor and the end of the war they had that youth. They were young idealists.

When peace came they found they had learned a lesson that they could not forget. The job employer who placed only value on the college degree and the money which had trained them. And as they stayed in the Army, they learned to fight.

These are the men who form the real backbone of the American Army fighting to hold off the North Korean Reds until a United Nations peacekeeping force is sent to their aid. They had the guts to put up a fight against the Reds until a United Nations peacekeeping force is sent to their aid.

As an example, there are Capt. Paul A. Buchanan of Newport, Ky., and Maj. Harry K. Waage of Lexington, Ky.

Buchanan is a lean, thin-faced man, but his face is drawn with wear and tear. He fought with the 45th Infantry Division in Sicily, through the rugged mountains of Italy and across southern France.

In long months of combat, he was sent to hospital at one time on the Italian front, and at another time on the German front.

It was two months ago that the grand jury seized a bulky group of records of the notorious Miami Beach S. & G. Bookie Syndicate which does a \$24,000,000 a year bookie business at Miami Beach.

The grand jury is believed to have been pressing a thorough investigation of the S. & G. Syndicate's unlicensed operations at Miami.

The grand jury also has seized the records of the ABC News Agency, the Tepee Club and Club 86.

About today's indictments given today, "There should be no excuse for the prosecution of these cases to be successful. The indictments are based on strong cases against each individual mentioned."

The indictments now go to the county solicitor's office where information will be prepared for the grand jury. The solicitor's office presumably will prosecute the cases in criminal court.

Each count carries a maximum penalty of three years in jail and a \$5,000 fine.

CHINESE QUAIDS
HONGKONG, Sept. 1.—(AP)—Quaids were born to a Chinese woman here Wednesday and was reported healthy and well today.

The mother is Mrs. Lau Tsai-Ki, a vegetable hawker and wife of a constable.

The quaids were born at five-minute intervals—three boys and a girl. The boys each weighed 3½ pounds, the girl 3½.

"We have no money to buy food which they need most," Mrs. Lau said. "Will some kind person come forward and adopt them?"

In the 15 years they've been married, the Laus have had six other children. Only one survives.

VFW CITY
CHICAGO, Sept. 1.—(AP)—The Veterans of Foreign Wars today chose New York City for their 1951 national convention. The dates are Aug. 26 to 31.

The VFW convention time and place committee had recommended the California delegation, however, withdrew the bid, saying a sampling of opinion among this year's delegates showed most favored New York for 1951.

Andrew Carraway Agency Moves Into Its New Location

The Andrew Carraway Agency has moved next door to the new and attractive headquarters at 114 North Park Avenue.

It is located at the former site of Frank's Tavern, and the structure has been completely rebuilt by Fred Dixon, contractor.

Established here in 1940, the business has been located in the Pappert Block. During the three years Mr. Carraway, present mayor of Sanford, was away in service as a lieutenant in the Navy, Mrs. Carraway operated the agency. She still assists in the business and is an agent in her own right.

A. B. Peterson, operator of the St. John Realty Co., has moved with Mr. Carraway to the new location, and his desk is located in the large front office. Mr. Peterson established the company soon after finishing his work as a coordinator for the Seminole County Defense Council.

Mrs. Carraway has her desk in the front office, together with Mrs. Charles Ward, secretary. Mr. Carraway occupies an inner office. The new office, (Continued on Page 8B1)

Josh White Hits Pro-Red Stand Of Singer Robeson

Nathan Witt Refuses To Tell Committee If He Is A Commie

WASHINGTON, Sept. 1.—(AP)—Josh White, Negro ballad singer, and today's Tammy Faye Robeson, "an innuendo" by his statement that Negroes wouldn't fight for their country against Soviet Russia.

"I stand ready to fight Russia as my enemy of America," White declared in a statement to the House Un-American Activities Committee.

Robeson, he added, "kidding himself" when he tries to speak for all fellow Negroes.

He said he admires Robeson as an actor and singer but "I feel as if the help he's been giving the people who despise America."

White told the committee he has been played for a sucker by Communist groups he entertained before learning of their political beliefs.

He said he learned "the hard way" that it is easy to be fooled because "there are good words in their jargon, but they cover up bad intentions. But for simple folk who don't know the art of turning words inside out, it takes time to catch on."

"That's what the singer is 'the voice of conscience,' and as such he tries to put in words and music the feelings of all who suffer in justice."

That's what's not Communist, even if Communists try to use it for their own foul ends," he added.

Nathan Witt, former government official, refused to tell the committee whether he is or has been a Communist. He also refused to answer most other questions put to him.

Witt was named by Lee Press, Miami Beach, as a Communist fellow worker as a sometime fellow member of a Communist cell in Washington.

Two years ago, after he had been named as a Communist by White's ex-Chairman, Witt also refused to answer questions. (Continued on Page 8B1)

Water Carnival To Be Held Saturday

Red Cross swimming certificate will be given to the winners of the water carnival which will be held Saturday morning at the Municipal Pool in connection with the Water Carnival which begins at 10 o'clock, Mrs. P. J. Single, instructor, announced today. The classes were sponsored by the Red Cross and the City Recreation Department.

Events at the carnival will include races in four divisions, and ribbons will be awarded to winners.

A swimming and diving exhibition will be given by Alvin Peterson, Mrs. Hoffman and Gillon Ward. Some slapstick clowning will be done by David Heater, Cecil Koons, Walter Graham and Gillon Ward. A group of beginners will give a swimming exhibition.

Music and a speaker system will be furnished by the Radio Hospital. Activities will be directed by the City Recreation Department.

Six Year Old Child Amazes Piano Tuner With Sense Of Musical Pitch

A little six year old Sanford girl with an uncanny sense of musical pitch recently amazed a piano tuner by telling him that he was not tuning her piano to the same pitch as the piano of her music teacher, Miss Margaret Davis.

The little girl, Allison Cecil Lee, is the daughter of Mr. and Mrs. J. L. Lee, 1108 Park Avenue, and the piano tuner is Harry Weston, well known pianist and composer.

"It is true that I am not tuning the piano to 440 pitch as in older pianos it is dangerous to stretch the strings too much or they will break, and therefore most tuners place the pitch of such pianos a half tone lower," said Mr. Weston.

Little "Dee" as she is nicknamed, amazed Mr. Weston with her ability to play correctly on the piano and place the pitch of such pianos a half tone lower," said Mr. Weston.

"I first found out that she had an absolute sense of musical pitch about a year ago," Mrs. Lee declared to Mr. Weston. "Her little sister was hitting notes at random on the piano and she was off playing in the hallway. She called to Josie to hit the note (C) and she hit the wrong note, and baffled when she got him to correct her."

operate in playing her favorite game, naming any note struck on the piano while she was over in a corner of the room with her back turned to the piano. No matter where the note was struck, or in what octave, she named it correctly, although she prefers white notes to black.

THE WEATHER

Warm and partly cloudy through Saturday with local showers and thunderstorms southeast coast and in extreme south portion and elsewhere in afternoon.

Entire Front Blazes With Taegu In Danger As Final Offensive Is Begun

TOKYO, Saturday, Sept. 2.—(AP)—South Korean Reds, crumpling past mounting heaps of their own dead, hammered on a 122-mile front in American Second Division defenses near the southern end of the Korean front today. Grim young Americans dug into high ground east of Yongson during the night and waited for Saturday's renewed onslaught. Sixteen miles farther southwest, with moving U. S. tanks and 25th Division Infantry troops, they launched Haman Inter-Friday in a slashing counterattack that temporarily blunted the Red's massive assault on that southwest corner of the defense beachhead in Korea.

TOKYO, Sept. 1.—(AP)—Storming forward over piles of their own dead, Korean Reds today knifed two links out of the chain of American defenses in a continuous massive assault. It is their greatest attack of the Korean war.

Haman, 35 miles west of the United Nations lifeline port of Pusan, fell to wildly shouting Red infantry. The North Koreans advanced behind Russian-made tanks in the teeth of a mass Allied aerial and artillery counterblow.

That was on the extreme south end of the front. It thundered into Haman at midnight Thursday on a 10-mile stretch from the winding Seokong River west of Legu to the sea. Three U. S. divisions were locked in battle on the central sector.

General MacArthur's intelligence officers said a second major Red offensive against another portion of the beachhead was still possible. He added that the largest mass of enemy infantry still is presumed to be in the Wargwan area.

Sportsmen's Assn. Protests Ruling In Every Day Hunt

Members of the Seminole Sportsmen's Association at a meeting at the Tourist Center today voiced objection to a new regulation of the Fresh Water Fish and Game Commission which would prohibit hunting in the Fifth District, as well as throughout the state.

President Peter Lansing told the members that so far had attended the meeting, and voted on the matter, that the district had not a fight against every day hunting through loss of strength.

Mr. Lansing stated that the Commission had voted on a recommendation of John P. Deane, chief of the biologist, to allow commercial fishermen to be allowed to take speckled perch, bluegill, and other fish, a report that had resulted in much protest among the sportsmen.

He declared that the Commission would not act on this report until it had been studied by a 14-man committee representing all branches of sport and commercial fishing.

Mr. Lansing urged members to attend a meeting Saturday and Sunday at the Florida Wildlife Federation at the Tourist Hotel, Daytona Beach. A number of speakers will talk on many items vital to sportsmen, he said.

It was voted to request the permit table, benches, and the Park Lumber had been torn from buildings there by persons wanting to make fires. As a result signs will be placed prohibiting fire or about the people grounds. Other signs will point out available overnight camping grounds.
