LITVINOFF IN GENEVA TALKS DISARMAMENT

Commissar Believed Also To Be Seeking Soviet's Entry In League Of Nations

GENEVA, May 18.—(A.P.)—Maxim Litvinoff, Russian Commissar for Foreign Affairs, arrived here unexpectedly today to consult with the League of Nations leaders on the question of disarmament, and possibility of the Soviet Union's entry into the League.

Meanwhile, a proposal to clamp an embargo on arms shipments to Paraguay and Bolivia was referred to jurists of the League council today after a Bolivian representative had vigorously opposed its application to that country.

Belief that world public opinion will demand that the world disarmament conference openly discuss its failure was expressed last night in League of Nations circles.

The entire disarmament situation continued in apparently unbreakable deadlock, with nothing on the horizon, despite recent hopeful views expressed by individual nations, to say it.

A proposal to treat the fate of the conference, called for next May 29, upon a decision of the League's of Nations council was causing acrid, although secret debate.

The prevailing view was that open confession of failure would be better accepted by the world than an attempt to hide it by reporting the conference back to the council.

Vincent Astor Denies Using Friendship With Roosevelt To Get Anyone Federal Job

WASHINGTON, May 18.—(A.P.)—Vincent Astor, President Roosevelt's yachting companion, yesterday denied, flatly and crisply, to a Senate committee, that he ever used his friendship with the President to get or try to get anyone a job.

Particularly, he denied such effort had been made by either himself or his guests aboard his yacht, the *Nourmahal*, while the President and the Astor party cruised off Florida or Long Island.

The President's cousin, Kermit Roosevelt, likewise declared no messages relating to shipping business or the shipping board personnel had come to him while a member of the Presidential yachting party.

In effect, the testimony of the two was a reply to statements in the Senate by the Republican Indiana senator, Arthur Robinson, that there had come to him reports that messages of this nature had been radioed to the *Nourmahal* while the President was aboard.

The testimony of the two came during the course of the special Senate committee's inquiry into ocean and air mail contracts. Astor is a director of the International Mercantile Marine, Roosevelt's vice president of the company.

Chairman Black, (D., Ala.), asked Kermit Roosevelt if he had reports of an "offer" to give Joseph Daniels, Woodrow Wilson's secretary of the Navy, the "dictatorship of the shipping board."

Roosevelt said he had heard Daniels had been offered the job and that "we wondered about it."

CROSS-STATE HOUSING BILL CANAL STUDY OPPOSED AS SAID ORDERED UNWORKABLE

WASHINGTON, May 18.—(A.P.)—The office of Senator Park Trammell said yesterday W. J. Douglas of New York had been appointed by President Roosevelt as "non-interested" engineer on a board to study the different estimates of Army and Public Works engineers of the cost of a Gulf-Atlantic ship canal.

Other members of the board will be two Public Works engineers and two Army engineers. Trammell said recently the President had informed him three would be Clarence Nicholson and C. D. Fowler, representing the Public Works, and Major Hannum and Major Breton Sumnerville, for the Army.

Public Works engineers were reported to have estimated the canal cost at about \$115,000,000 while Army engineers set the figure at about \$200,000,000.

An application was pending before Public Works for funds to build the canal, which it was set forth would be self-liquidating.

Elks Will Play Part In Cracker Day

Nineteen members of Sanford Elks Lodge No. 1241 which is assisting in staging second annual Cracker Day celebration in Sanford on Saturday, May 26 will play an active part in the affair, it was announced this morning.

They are: G. W. Spencer as chairman of the Elks committee, F. C. MacMahon, Mike Wilson, Frank H. Powell, Rex Packard, E. E. Brady, Joe Ludwig, Peter Thurston, F. J. Dornier, Arthur Yowler, W. H. Schindler, John Weaver, John Leonard, H. J. Lehman, F. H. Bartholomew, Frank Bousch, H. H. Coleman, John Zimmerman, and Bill Shelby.

Cash prizes will go to the winners of the various runs and Cracker events that will be run off starting at 2:00 o'clock and to the winners of the filling contest that will start at 7:30 o'clock.

Mayo Warns All Employees Of Agriculture Department To Stay Out Of Politics

TALLAHASSEE, May 18.—(A.P.)—All employees of the State Department of Agriculture were cautioned yesterday by Commissioner Nathan Mayo "against expressing by word of mouth or letting their opinions and preferences which show bias for or against any candidate for office in Florida."

In a form letter to department employees throughout the state, Mayo said, in part:

"While it is the duty of every good citizen to pay his poll tax and vote in the nomination of a candidate of capable officials, you are reminded that as employees of the state government, it is highly desirable for you to refrain from active participation in personal or factional politics."

"Series of good men are offering themselves for office and it is the privilege of all of us to make our personal selections. No man, however, who is employed by the State Department of Agriculture should forget his duties and neglecting his duties and bringing criticism upon himself and the department by taking sides in the political struggles which do not affect him or his department."

"You may, as citizens of this state, exercise your franchise without the slightest interference from me, but I take this method of cautioning you against indiscretions that would involve you in controversies and ill feeling that sometimes precede political campaigns."

"Let us remember that the shoe-maker should stick to his last. It is, therefore, the part of wisdom and prudence for all employees of the State Department of Agriculture to give consistent and undivided attention to their official duties."

San Martin Faints After Triumphant Entry Into Havana

HAVANA, May 18.—(A.P.)—Overcome by a huge demonstration greeting his return to Cuba today, ex-president Grau San Martin fainted as he entered his home here, and was carried to his bedroom.

U. S. MOVES TO SILENCE GUNS IN CHACO AREA

WASHINGTON, May 18.—(A.P.)—The United States moved today on fronts to silence guns that for 50 years have boomed between Bolivia and Paraguay.

Under State Department instructions, American envoys in Argentina, Brazil, Chile, and Peru are seeking the support of those governments in a plan for joint action to bring an immediate end to the blood-drenched dispute over the jungle empire.

At the same time President Roosevelt began drafting a message in which he indicated he will ask Congress for quick passage of an arms embargo bill.

This would permit the United States to join with 16 other nations manufacturing nations in declaring an international and impartial embargo on all shipments of war supplies to belligerents.

The President hopes to send the message to Congress late today in munitions, which is generally expected to recommend an embargo on arms shipments to belligerent nations.

Before assuming the reciprocal tariff debate, senators had a chance to see the 1934 version of the "bonus" march.

STONE APPROVES IDEA OF LENDING MONEY FOR WORK

JACKSONVILLE, May 18.—(A.P.)—Approval of a plan providing loans to cities facing loss of work projects because they cannot furnish materials was sought yesterday by Julius F. Stone, Jr., Florida Emergency Relief Administrator.

In a letter to Carrington Hill, assistant federal administrator, Stone explained why money the cities could put up would have to be included in the budgets, usually drawn up in October.

"Meanwhile," he added, "we need some money now to help with other labor expenses and still labor on the large number of good unfinished projects in this state."

"I have explored the matter somewhat and I believe that many of these towns will be glad to sign a memorandum of legislative agreement through a responsible official that they will include in their next year's budget the amount lent."

"It is virtually impossible for any of the local governments here to borrow from banks or to issue certificates of indebtedness. They are financing themselves on a pay-as-you-go basis, strictly budgeted."

"We need the money now if some good finance man, or anyone agreeable to you would approve such legislative programs would you be inclined to provide the money to finance them until taxes actually are collected?"

JAX DRY CLEANER PLANS TO FIGHT FEDERAL CHARGE

JACKSONVILLE, May 18.—(A.P.)—The federal government filed the first of several suits contemplated against publicly known violators of minimum price provisions of the NRA in the United States district court here yesterday.

The defendant promptly took up the assault by declaring for a finish fight.

Test of the constitutionality of the National Recovery Act was indicated by Charles F. Johnston, president, his Public Cleaners, Inc., who were named in an injunction proceeding filed by District Attorney Holland.

The suit seeks to enjoin Johnston and Public Cleaners from violating the code of minimum prices for the cleaning and dyeing industry, setting out that Johnston and his company violate the interstate commerce provision of the Recovery Act as well as intricate provisions.

The complaint alleges Johnston and his company charge 20 percent less for cleaning and dyeing than is charged under the code for this district, which embraces several counties in north Florida and several in south Georgia.

"Price wars, the bill contends, lend toward racketeering and promote sweatshop conditions by working employees long hours for small pay."

"I will fight the case through every court in the land," Johnston declared, "if it costs me every thing I have."

FOOD SHORTAGE CITY'S ACTION AGAINST DISEASE GIVEN APPROVAL

MINNEAPOLIS, May 18.—(A.P.)—The city's action against disease given approval by the city council today.

Engagement of the city's recent decision to enforce the ordinance limiting the public activities of persons suffering from any form of communicable disease and an implied intention of cooperation was announced at the City Hall this afternoon following the receipt of a letter from Seminary County Medical Society which met for a discussion of the problem early this week.

"At the regular monthly meeting of the Society," the letter read, "a motion was adopted to request the city to enforce the ordinance limiting the public activities of persons suffering from any form of communicable disease and an implied intention of cooperation was announced at the City Hall this afternoon following the receipt of a letter from Seminary County Medical Society which met for a discussion of the problem early this week."

Truck Drivers Refuse To Haul Products; Business Crippled

An outstanding development in the labor welfare across the country Thursday was the blow aimed at the food supplies of Minneapolis by striking truck drivers.

All commercial truck transport services were tied up, the Minneapolis city reported, with some pickets on the streets, and many essential distribution services seriously hampered. Bread supplies will be exhausted in 24 hours, gasoline stations closed for lack of deliveries, produce farmers complained.

England Held Not Pledged To Save Integrity Of China

LONDON, May 18.—(A.P.)—Sir John Simon, British Foreign Secretary, declared today that Great Britain is not pledged to "preserve" the integrity of China, and will not participate in direct sanctions against Japan or any other power in other parts of the world unless the United States gives its full cooperation.

He intimated that Great Britain was willing to participate in an international policy of sanctions, that is, reprisals against treaty violations in specific cases, should the United States and other nations interested agree to it for a time.

Truck Drivers Refuse To Haul Products; Business Crippled

MINNEAPOLIS, May 18.—(A.P.)—An outstanding development in the labor welfare across the country Thursday was the blow aimed at the food supplies of Minneapolis by striking truck drivers.

All commercial truck transport services were tied up, the Minneapolis city reported, with some pickets on the streets, and many essential distribution services seriously hampered. Bread supplies will be exhausted in 24 hours, gasoline stations closed for lack of deliveries, produce farmers complained.

Medical Society Will Assist In Drive To End Grave Epidemic

Engagement of the city's recent decision to enforce the ordinance limiting the public activities of persons suffering from any form of communicable disease and an implied intention of cooperation was announced at the City Hall this afternoon following the receipt of a letter from Seminary County Medical Society which met for a discussion of the problem early this week.

"At the regular monthly meeting of the Society," the letter read, "a motion was adopted to request the city to enforce the ordinance limiting the public activities of persons suffering from any form of communicable disease and an implied intention of cooperation was announced at the City Hall this afternoon following the receipt of a letter from Seminary County Medical Society which met for a discussion of the problem early this week."

Giant Flying Boat Goes To New Height

BRIDGEPORT, Conn., May 18.—(A.P.)—Capt. Boris Sergievsky piloted the S-42 giant flying boat, to an altitude record with a payload of 21,000 feet carrying 11,023 pounds yesterday.

On Apr. 26 the S-42 soared to 10,156 feet with a payload of 16,608 pounds which broke the altitude record of 6561 feet with a payload of 14,220 pounds made by Steindorf in Germany in 1929.

Yesterday Sergievsky reduced his load about 3,000 pounds and reached 21,000 feet.

Dillinger Reported As Leader Of Band That Robbed Bank

FLINT, Mich., May 18.—(A.P.)—Machine gun bandits who may have been led by John Dillinger, carried out a carefully planned raid on the Glenwood Avenue branch of the Citizens Commercial Bank this morning and made off with a consignment of between \$25,000 and \$30,000 in currency that had just been delivered in an armored car.

Witnesses said there were six men and a woman in the robber gang, and that one of the three men who entered the bank "looked like Dillinger." He carried a machine gun.

The bandits escaped in two automobiles despite prompt police action in answering an alarm.

It was inadvertently stated in a front page Herald news story Thursday that Alex Foster had planted 14 acres of celery on the old American Fruit Growers, Inc., "100" on the West Side "against the advice of A. P. G. Inc. officials who told him he wouldn't be able to produce such celery" on the tract.

Bankrupt Florida Not Able To Complete Projects, He States

JACKSONVILLE, May 18.—(A.P.)—Approval of a plan providing loans to cities facing loss of work projects because they cannot furnish materials was sought yesterday by Julius F. Stone, Jr., Florida Emergency Relief Administrator.

In a letter to Carrington Hill, assistant federal administrator, Stone explained why money the cities could put up would have to be included in the budgets, usually drawn up in October.

"Meanwhile," he added, "we need some money now to help with other labor expenses and still labor on the large number of good unfinished projects in this state."

"I have explored the matter somewhat and I believe that many of these towns will be glad to sign a memorandum of legislative agreement through a responsible official that they will include in their next year's budget the amount lent."

"It is virtually impossible for any of the local governments here to borrow from banks or to issue certificates of indebtedness. They are financing themselves on a pay-as-you-go basis, strictly budgeted."

"We need the money now if some good finance man, or anyone agreeable to you would approve such legislative programs would you be inclined to provide the money to finance them until taxes actually are collected?"

The Administration has pressed local governments to aid in finishing projects and beginning others by furnishing materials and in some cases skilled labor with the PERA bearing most of the labor expense.

Elks Will Play Part In Cracker Day

Nineteen members of Sanford Elks Lodge No. 1241 which is assisting in staging second annual Cracker Day celebration in Sanford on Saturday, May 26 will play an active part in the affair, it was announced this morning.

They are: G. W. Spencer as chairman of the Elks committee, F. C. MacMahon, Mike Wilson, Frank H. Powell, Rex Packard, E. E. Brady, Joe Ludwig, Peter Thurston, F. J. Dornier, Arthur Yowler, W. H. Schindler, John Weaver, John Leonard, H. J. Lehman, F. H. Bartholomew, Frank Bousch, H. H. Coleman, John Zimmerman, and Bill Shelby.

Cash prizes will go to the winners of the various runs and Cracker events that will be run off starting at 2:00 o'clock and to the winners of the filling contest that will start at 7:30 o'clock.

The program is being sponsored by the County Federation of Women's Club, the Sanford Elks Lodge and its Auxiliary.

Soviet Guards Deny Killing Manchukuan

MOSUW, May 18.—(A.P.)—The Soviet government denied official by radio today that its border guards fired on a Manchukuan (Japanese) steamer, killing one sailor and wounding another.

The Soviet account of the incident on May 12 on the Amur River differed materially from that given in Japanese reports. Instead of firing directly on the boat, official dispatches from Khabarovsk, Siberia, said, the guards fired blank shot bullets into the air to warn the steamer to halt.

Lockhart Hanged For Murdering Young Girl

SHREVEPORT, May 18.—(A.P.)—Fred Lockhart was hanged here today for criminally slaying and murdering Griffin, 16-year-old school girl in April. The trap was sprung at 12:11 A. M. Lockhart once was saved from a mob.

Torrential Rain Brings Estimated Loss To Oviedo Growers Of Nearly \$150,000

Damages estimated as between \$100,000 and \$150,000 are reported from the rich Oviedo much lands being producing area as the result of a torrential downpour which fell on seven hours before ceasing at about 1:00 o'clock yesterday morning.

The estimate was made by several growers and shippers after a survey of an area which in sections was two feet under water. Some of the water had subsided at noon today, and promises of more rain served to bring a redoubting of frantic efforts to remove all available celery from the area before worse damage resulted.

Growers who worked frantically yesterday as well as during the night, decided the 18 inches of rain fell during the floodburst.

Negro laborers standing knee-deep in mud and water pulled celery out of the earth by the roots, while other workers, some of them carrying the celery on their shoulders, carted it to higher ground where it was stopped before being sent on to washhouses and packed for market.

Almost every grower in the Oviedo area suffered, particularly those operating in the much larger section south of the city. Acre after acre of celery was under water, with only an occasional section of a row showing above the waters.

That the rainfall was the worst ever recorded in the section during May was an opinion of C. T. H. Mack, grower and merchant, who reported that not since he had moved to Oviedo, had as much water fallen at one time during May. Loss of a portion of the crop at this time is calamitous to Oviedo growers who had been holding the crop in anticipation of higher prices. Only a week ago a 10 acre tract brought \$500 in the field and many reports were heard that growers were turning down \$1500 cash for a single acre of celery.

Bankers Discuss New Clearing House Plan

Bankers representing 16 Central Florida counties met at Leeward yesterday afternoon, it was reported by Arthur Brannan, cashier of the Sanford-Atlantic National Bank, and took preliminary steps toward the creation of a Central Florida Clearing House Association.

Meeting to discuss the proposed code of ethics that may be put to effect in this action, the bankers represented Zones Five and Six of the Regional Clearing House Association of the Florida Bankers Association. Mr. Brannan is secretary of Zone Five.

Eight men were named as a committee which is to investigate the proposed Clearing House Association plan, and to report at a next meeting of the two zones.

These men are: Lee Graham of Gainesville, G. O. Ware of Leesburg, L. A. Perkins, Jr., of DeLand, L. H. Gudge of Kissimmee, R. P. Edwards of Daytona, V. J. Perkins of Williston, W. E. Hill of Ocala, and George J. White of Mt. Dora.

Almost Anything Will Go At Daytona Beach

DAYTONA BEACH, May 18.—(A.P.)—You can roll down that beach, but you've got to put on a bathrobe, a raincoat or something over them when you stroll the streets. Such was the edict of Chief of Police Harvey yesterday in announcing summer regulations for the beach.

Formerly stripping to the waist was forbidden to bathers here—for men as well as women. But of late the sunbathing cult has become so strong the practice of going nude to the beach is general, that Chief Harvey proclaimed the old regulations obsolete.

Candidates To Speak At Altamonte Tonight

Acting postmaster R. J. Holly, Sr. will preside over the political rally which is to be staged at the Altamonte Springs Community Building tonight at 8:00 o'clock under the auspices of the Seminole County Democratic Executive Committee.

The Conservation Camps

One of the most beneficial pieces of legislation which have come out of the New Deal is the C. C. C., or the Civilian Conservation Corps. It is not alone that this branch of the alphabet soup has put something like \$500,000,000 a year into circulation through the medium of jobless youngsters and their impoverished parents. The best features of the program are entirely aside from any efforts to restore the country to a prosperous basis.

Out of the ranks of aimless adolescents have been recruited the actors for numerous gangster roles. Reaching an age when they feel they must do something for themselves; unable to find work; hitch-hiking their way around the country; thrown into close contact with hardened criminals; they fall a ready prey to easy money schemes. Thrown upon the world at a time when energy and courage are at their peak, and judgment at its lowest ebb, their misdemeanors, or their crimes, may be nothing worse than the letting off of steam.

The C. C. C. has rounded up three hundred thousand of these youngsters and has taken them into the woods where under expert guidance they are taught—not so much to plant trees, but—to be good citizens, to respect their country and what it is doing for them, to live right, and to cultivate strong and healthy bodies, to contribute from their meager earnings to the support of their parents, and to do their part in general toward the world in which they live.

From scanty tables at home or the ash cans of the highways, they have gone to vigorous bill-of-fares of the woods' camps. From poorly ventilated tenement districts, or the filth and squalor of squatter colonies, in many cases, they have gone to these outdoor camps where fresh air and sunshine are the order of the day. Hard work, with a generous intermingling of physical culture and general recreation, is making real men out of these boys.

As time goes on, and business picks up, they will be discharged into the ranks of regular workmen, fully equipped, mentally, physically, and morally, to do a man's job in the world. How much better for them, and for their fellow citizens with whom they must live, than passing through this stage in life in exasperating idleness at home, or "thumbing" their way around the country from one hobo's camp to another.

Many of the agencies of the New Deal will pass into history as the emergency which created them is overcome, but it seems to us that there should always be a place in our scheme of things for the C. C. C. There will always be times when youngsters just reaching the age of manhood find themselves unable to go to college and with no immediate prospects for a job. A six months' tour in the woods under the tutelage of Uncle Sam would do them a world of good.

The Practice Of Preserving Junk

Isn't it funny how many people have a perfect mania for saving utterly worthless odds and ends of all sorts. We can understand the business man who keeps an elaborate file of all correspondence in the hope of some future reference to it. We can even sympathize with the sentimental eccentricities of the antique collector. But we cannot appreciate that peculiar psychological characteristic which manifests itself in never throwing anything away.

We suppose it is some exaggerated hangover from the "waste not, want not" days, or that period of juvenile hoarding which finds in the pockets of every small boy the sum total of his worldly goods, from the little piece of blue beach string to the rubber band off the top of the marfanade jar which some day may become an important part of a sling shot.

At any rate, some people are followed by this characteristic from the cradle to the grave. How often have you seen men with great bundles of letters in their pockets. As a boy we used to think such men must be very important, street car conductors or fishing boat captains, at least, in order to get so much mail. How little did we know that most of those letters were advertising circulars or notices of lodge meetings, which the holder thereof simply couldn't bring himself to throw away.

And then there is the housekeeper—it is a weakness which women have too—who persists in saving literally everything. Newspapers, paper bags, boxes, cans, jars, bottles, everything under the sun which comes in either through the front door or the back door, are carefully collected and put away until the closets and shelves and cupboards and every catch-all about the place are absolutely overwhelmed with their burden of things for which there will never be any earthly use.

One particular abomination is the burned out electric light globe. Now if there is anything in the world which has served its purpose and in all fairness deserves a decent burial in the bottom of the ash can, it is a burned out electric light globe. And yet for some reason, they are never thrown away. When they go out, they are carefully unscrewed and gently placed on the closet shelf where they accumulate until there is no room for anything else. And busted light fuses! They have a way of piling up until the furniture has to be moved out of the living room to make a place for them.

For people of this type a splendid panacea has been recommended by the American Museum of Natural History, also a collector of some note, which after extensive investigation has found that more worthwhile things are lost among the useless things saved than are ever thrown out through an error in judgment. Its advice is brief: "If in doubt, throw it out. If you don't you can't find it anyway."

SANFORD, TWENTY YEARS AGO

General Huerta has authorized the Mexican mediation delegates to submit his resignation in case such a course is necessary to a settlement in peace negotiations. According to the information received from Mexico City, Huerta at first authorized the delegates to discuss only the question of the Tampico conflict leading to the American occupation of Vera Cruz. Later the Mexican dictator, it was explained, came to recognize the necessity of a broader settlement, and then conveyed to the delegates the assurance that he was prepared to step down should this course be found necessary by them.

Food Shortage In Minneapolis Due To Strikes

(Continued From Page One) planned that goods were spoiling. Taxi drivers, totaling 900, took advantage of the situation to declare a strike of their own.

Truck drivers in St. Paul joined the ranks of strikers today bringing motor truck transport in the Twin Cities almost to a standstill.

School teachers in Old Forge, Pa., tugboat operators in Buffalo, and at four ports on Lake Erie, and 12,000 Pacific coast longshoremen also were on strike.

A Chicago teamsters' strike marked by violence and threats ended after three days when employees of the Wilcox Coal Company voted to join a new union, affiliated with the A. F. of L.

In Minneapolis, several bakeries were closed and stocks ran low in grocery stores as truck operations ceased, threatening the city's food supply.

Another major development was the indication that the longshoremen's strike might eventually include seamen at many ports in the Great Lakes. At Houston, Tex., where the strike began, a ship's crew struck, after four had been beaten and the marine transport workers' union posted handbills calling on the A. F. of L. to join the dock workers. At San Francisco, 7000 seamen were called out by the sailor's union, to join the 12,000 longshoremen and 700 cooks and stewards voted a walk out.

At Buffalo, N. Y., the Hand & Johnson line's 12 tugs were tied up, with their crews of strike, despite plans of the National Labor Board to remain at work pending arbitration of their wage dispute. Cleveland boatmen voted to work another day pending negotiations. Six were hurt and one kidnapped in two outbreaks of violence in League, Tampa, Fla., Hastings, East Coast towns and Orlando.

T. K. Bates has just returned from Chululuta where he saw the active preparations going on for the big barbecue and political meeting next Thursday. The barbecue will be held at the school house at Chululuta and there will be plenty of shelter provided and everyone made most comfortable. Good old-fashioned barbecued beef pork and mutton will be served and the ox will be one long to be remembered.

MacArthur Files Suit Against Communists

WASHINGTON, May 18.—General Douglas MacArthur, chief of staff of the Army, has filed a \$1,000,000 libel suit in the District of Columbia supreme court against Drew Pearson and Robert S. Allen, authors of the syndicated column "The Daily Washington Merry-Go-Round," and the Washington Times Company, in which it is published here.

MacArthur cited seven instances in which he claimed he was libeled, and asked \$250,000 damages for each.

MacArthur cited seven instances in which he claimed he was libeled, and asked \$250,000 damages for each.

The impasse at the Wilcox & Co. coal yards in Chicago, brought about when truckmen, willing members of a union called "outlaw," were ordered to join one affiliated with the A. F. of L. and sponsored by the state's attorney, ended when the "outlaws" surrendered under police pressure and the clubs and fists of "approved" pickets.

At Los Angeles, Walter Hannefeld, 42, was arrested on suspicion of murder in the killing of Richard Parker, 29, in a longshoremen's strike riot Monday.

At Des Moines, efforts to settle a strike of 700 workers of the Iowa Packing Company continued in debates over wage increases and better working conditions.

At Hammond, Ind., 2500 employees of oil refineries were planning to take a strike vote at a mass meeting; they ask a 20 per cent wage increase and union recognition.

Soviet Union Derided By Chancellor Hitler

BERLIN, May 18.—(AP)—Chancellor Hitler derided the Soviet union recently for importing talent and machinery and compared it with a man wandering through a swamp clinging to the hand of a capitalist on a solid road beside him.

"If they were put on their own feet," he declared of the Russians, "and did not import engi-

Gettlenapers Enter San Quentin Prison

SAN QUENTIN, Calif., May 18.—(AP)—With the remark "Kidnapping is a lousy racket; it wasn't such a saying proposition as we thought," the three self-confessed kidnapers of William F. Gettlen entered San Quentin prison yesterday to begin serving life sentences.

Heavily shackled and surrounded by armed officers, James F. Kirk, Roy A. Williams and Larry Kerrigan stopped their bantering and smiling as the prison gates opened then clanged shut.

The power of both the state and federal governments had been put in action to prevent any possible parole.

The Chancellor, speaking before the German Labor conference, asserted that the communist ideals were the most primitive in the world.

Admitting that he was an "idealist" when he first entered politics fifteen years ago, Hitler declared that "practice has taught me the opposite; never halt the march, if somewhere a trifle is wrong. Always keep on."

The Junior High School pupils will have a recital at 8:00 P. M. at the school auditorium. The public is invited.
Miss Thelma Benson Honored At Supper
In honor of her daughter, Miss Thelma Benson, a member of the 1934 graduating class of Seminole High School, Mrs. J. C. Benson entertained with an informal chop suey supper last night at her home on Park Avenue. Quantities of roses and other garden flowers were used to decorate the rooms where the guests were entertained.
Miss Benson wore for the occasion an informal pink cotton

Personals

Shelby Gaskin of Orlando spent this morning here on business.
Dr. and Mrs. W. T. Langley have moved from the Langley Apartments to their home in Mayfair.
Friends of Julian Haemel will regret to learn that he is ill at the home of his mother, Mrs. Sadye Moses, Palmetto Avenue.

Miss Elsa Buttell of Jacksonville is visiting her sister, Mrs. D. D. Colcock, at her home in Mayfair.
Mrs. M. C. Cameron and children, Johnny and Gene of Jacksonville are visiting relatives here for a short time.
Miss Emma Owen is spending a few days as the guest of Mrs. Stella P. Arrington at her home on Magnolia Avenue.

The Rev. John Humphreys of Jacksonville will have charge of the morning and evening services at the First Christian Church Sunday.
Mr. and Mrs. O. P. Pison of Newnan, Ga. and Dr. and Mrs. Melvin E. Smith of Grantville, Ga. are the guests for several days of Mrs. R. B. Wright at her home on South Sanford Avenue.
Mr. and Mrs. C. T. Parker have arrived here from Gainesville to make their future home and are residing at the Montezuma Hotel. Mr. Parker is local manager for the Coca-Cola Bottling Company.
Mrs. R. G. Kanan and son, Robert, of Birmingham, Ala. arrived today to spend a few weeks here with the farmer's parents, Mr. and Mrs. H. C. DuBoise, 600 Oak Avenue.

Miss Emily Priest and friend, Miss Emily Wheeler of Stetson University, and Clarence and Vernon Priest of Anthony spent last week end here with Mr. and Mrs. C. C. Priest at their home on Sanford Avenue.
matelasse frock made with a long skirt. Interesting feature of the dress was a large collar of white organdy with a velvet bow.
Supper was served buffet style from the dining room table which was overlaid with a linen cloth centered with a bowl of Michaelmas daisies. Pink candles in silver holders were used to light the table. After the guests were served they repaired to the living room and porch where they were seated at small tables bearing red hibiscus place cards.
Those present were: the Misses Thelma Benson, honor guest, Virginia Gillon, Martha Bishop, Kathleen Laney, Betty Wheelless, Carolyn Cogburn, Dorothy Marshall, Rebecca Wilson, and Charles Palmer, Leonard Miller, John Coleman, Wilson Smith, Claude Herndon, Richard Deas, John Dighton, and James Henry Dyson.

YEAR OF BUMPER CROPS PROMISED ALL OVER SOUTH

Growers Need Not Fear Drought, Insects Survey Indicates

ATLANTA, May 18.—(AP)—Farmers of the South were apparently headed for a year of good crops and abundant yields with no fear of drought and insect pests that are plaguing the farmers of the Middle West.

Reports from state agencies indicate the condition of Dixie's crops generally is excellent with some reporting the best prospects in years.
Three states had some dry weather but the outlook was not alarming while in three others the only complaint the farmers had was too much rain.
Commissioner of Agriculture J. C. Holton of Mississippi said the outlook was "the best I have ever seen" with ideal rainfall and the vegetable crops further advanced than in several years. Bug infestation was not serious.
Arkansas had 95 percent of its land planted or ready under just the proper amount of sun and rain, Charles S. Bouton, federal-state statistician, said conditions were "very reassuring" and the fruit prospect "wonderful." Hardly a boll weevil or a potato bug had raised its head.

Georgia, Louisiana and Florida said there had been a little too much rain. Cotton planting in Georgia had been delayed by wet weather and the late winter killed half the peach crop.
All Louisiana needed was a little warm weather for its cotton, corn and sugar cane, to catch up and the weather was in prospect.
Truck crops in Central Florida suffered more from too much rain but otherwise wet and dry conditions in the state suited the growers and no insect pests were in evidence.
Virginia crops were generally good although retarded by a severe frost.
The only hint of dryness were in the Carolinas and Tennessee.

A portion of the cotton crop in south and central Alabama was so retarded by cold weather that it had to be replanted but the north-south section did not suffer so much since planting time is later. Corn, oats, pastures and gardens were "good."

Presbyterian Group Has Swimming Party

The members of the Senior Christian Endeavor Society of the First Presbyterian Church enjoyed a swimming party and picnic at San Lando Springs near Longwood. The party left from the president's home early in the afternoon and motored to the spring where swimming was enjoyed until a late hour when the picnic luncheon was served.

Those present were Mrs. S. E. Andrews, Mrs. G. H. Brown, the Misses Laura Mae Brown, Ann Belle Brown, Harriette Brown, Halle Walker, Ada Singletary, Georgena Hart, Marjorie Torrance, Margaret Bennett, Sybil Boyd, Evelyn Wilkinson, Mary Frances Andrews, and Sam Dighton, Jr., Ronald Murchison, Drayton Butler, Jack Wilkinson, and Rudman Lehman.

September, were in attendance. A chicken picnic dinner was served. Guests were Mr. and Mrs. George A. Pelley, honor guests, the Rev. and Mrs. James Thompson, Mr. and Mrs. C. H. Cooley, Mr. and Mrs. H. T. Wagg, Mr. and Mrs. William Tice, Mr. and Mrs. R. E. True, Mr. and Mrs. Harry Wing, Mr. and Mrs. E. A. Douglas, Mr. and Mrs. Robert Lewis of Deland, Mrs. Arthur George of Westwood, Mass., Mrs. Roy Howell, Mr. and Mrs. Frank Evans, the Misses Frances Thompson, Charlotte True, Natalie True, Clara Evans, Peggy Ann Howell, and J. D. Evans, James Thompson Jr., William Evans, and Jack Evans.

73RD CONGRESS NEARS RECORD IN WORK CONCLUDED

Score Of Major Bills Have Been Put On U. S. Statute Books

WASHINGTON, May 17. (AP)—The 73rd Congress, despite its share of rows and controversy, has jogged steadily along until its legislation approaches a big bill record.

It has put a score of major bills into the statute books, and its leaders, jockeying for the stretch drive, have a few more husky and far-reaching laws in mind before the finish wire is reached.
President Roosevelt has just signed the \$417,000,000 tax bill. A few hours before he signed the important sugar production control bill.
Within a few hours more he may drop a final measure into the legislative works—a \$150,000,000 relief bill.
Here are some of the big bills the regular session of the 73rd has passed along to the White House: The \$2,000,000,000 farm loan bond guarantee.
The \$2,000,000,000 home loan bond guarantee.
The \$950,000,000 Civil Works employment relief bill.
Devaluation of the gold dollar; The \$500,000,000 Vinson naval construction legislation; The Philippine independence bill; The \$10,000,000 crop production loan.
The Johnson bill prohibiting loans to countries that have defaulted in their obligations.
The \$250,000,000 bill making cattle a basic commodity under the Farm Adjustment Act and The temporary air mail bill.
Nine regular annual supply measures calling for \$1,000,000,000 have become law, including the independent offices bill passed

over President Roosevelt's veto. Almost ready for the White House trip are the stock market regulation and reciprocal tariff measure, already passed by the House and slated for early Senate approval. The communications commission bill is due for consideration in both branches next week.
Only Senate-House differences remain to be settled on permanent air mail legislation, a dozen anti-crime bills, and new municipal and corporate bankruptcy laws.
New silver legislation is due for action, and authors of a dozen more big measures are pushing for a place for their pets before the session ends.

Firestone LEADERSHIP

"The Ultimate Test of Leadership is Performance"

FIRESTONE has maintained its leadership in tire development by producing a new tire for 1934 with a wider tread, flatter contour, deeper non-skid, greater thickness, and more and tougher rubber, which gives greater non-skid safety, more traction, greater blowout protection, and more than 50% longer non-skid mileage.

These achievements are made practical by the Firestone patented process of Gum-Dipping, providing greater adhesion between the piles of the high stretch cords and between the Gum-Dipped body of the tire and the tough, massive non-skid tread. It also provides greater strength, longer flexing life, and greater protection against blowouts.

Gum-Dipping made it possible for Firestone to design, develop and put on the market the first successful balloon tire in 1923. This tire was the pattern used by all others and completely revolutionized the tire industry and set new standards for the automobile industry.

Firestone also developed the first all-rubber non-skid tire, and has always been first to give motorists the benefits of new discoveries in non-skid design, providing more traction and greater blowout protection.

For fourteen years leading race drivers have driven to victory on Firestone tires, built with Gum-Dipped high stretch cords. They have trusted their lives to Firestone Leadership—as they know that the patented Firestone non-rubber tires provide them with greater safety—longer mileage—and greater blowout protection.

SIZE	PRICE	SIZE	PRICE

5.25-18	101.30	6.90-20 1/2	106.40
5.50-17	117.30	6.50-21 1/2	117.50

Protect yourself and family by driving in today and replacing your smooth, thin, dangerous tires with the new Firestone High Speed Tires for 1934.

MORE THAN 50% MORE NON-SKID MILEAGE

Firestone Tires are Track Tested on the greatest proving ground in the world—they have won this classic for fourteen consecutive years.

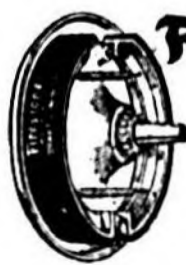

Firestone Tires are ROAD TESTED on the large fleet of Firestone test cars which travel every day in the year, over all kinds of roads and highways.

See these new Firestone High Speed Tires made at the Firestone Factory and Exhibition Building at "A Century of Progress"—Opening May 26

Free Brake Testing

CENTRAL FLORIDA OPENERS RAINED OUT THURSDAY

Kissimmee Had Single Run Lead Over Feds When Clouds Burst

All opening day games in the Central Florida Baseball League were rained out yesterday afternoon, but a deluge of rain failed to dishearten at least one member of the organization. Manager Sam Rive of the Sanford Cubs noted:

Manager Rive took his young squad down to Kissimmee yesterday afternoon in face of adverse weather conditions. He found up his men in the rain at just about game time, and, with only a handful of people in the stands, both managers decided to start the contest.

With Joe Sparkman, the winning pitcher, the Feds saw the light before another downpour halted a further play in the third inning.

Neither team made a hit during the three innings, the Feds seeming unable to do a thing to the wifings of old Larry Chubb of Winter Park, while the Kowboys also had their hands full trying to do something to Sparkman.

Kissimmee scored, when, after the first man was walked, the next two were infield outs, and the runner went to third to score when Catcher Leslie Harnage allowed one of Sparkman's fast balls to get by him on the next pitch.

Rive has named Biggs, Owens of Deland, Ray B. of Sanford, and Ed Abbott of A. Beville, for the first day in Beach and Deland.

O. J. will be in the outfield with Bill and Paul Mansfield. It will coach, Sparkman, and Eds, Evans, Smith, and Kelly will constitute the remainder of the infield.

In order to make room for the three new players Rive announced that he had let Bill Adick, Elmer Matton, Graham, and Bobby Knight from his list of eligible players.

He also has added Bryant Bonner, brother of Paul Bonner of the 1933 club, although he was not seen in time for Sunday's game.

Rive had high praise today for Wilson Smith, the former Seminole High School football star who is at shortfield. "I'm telling you that Smith is a sweet prospect," Rive said, "and if he goes as good as I think he will, not even Paul Bonner could get his place as far as I'm concerned. He and Kelly and Evans and Rive make up a nice looking infield, and I'm going to give them every chance to come through."

No word had been received today from Vera Beach as to the news there except that it was rained out.

Sunday, Vera Beach comes to Sanford for a game that is to start at 2:30 o'clock. Weather permitting, Kowboys travel to Ocala for its opener, with Chubb scheduled to pitch against Link Smith of Clyde Wright.

NEW YORK, May 18.—Cass Gilbert, one of the foremost architects in America, who designed the Woolworth Building and other famous structures, died yesterday in England according to word received by his associates.

Gilbert, who was 74, died at Brookhurst. He made his home in Richfield, Conn., and was a native of Zanesville, Ohio.

DAVIS BITTER IN ATTACK ON ARMS MAKERS

U.S. Representative En Route To Geneva To Attend Conference, Assails Pro-fiteers

NEW YORK, May 19.—(A.P.)—Leaving behind him a statement bitter in tone against "those who profit from traffic in armaments," Norman Davis, United States Ambassador-at-large, started back to Europe today to attend the resuming international disarmament conference.

He said a crisis had been reached in the negotiations, and he added the prospect of agreement at an early date are not encouraging.

At Geneva the Council of the League of Nations today unanimously adopted a resolution authorizing its Chaco committee to consult arms exporting countries for an embargo on the shipment of arms and munitions to Bolivia and Paraguay.

Hope was raised here yesterday that Soviet Russia, once scornful of Geneva efforts for disarmament, would save the day for the weary statesmen still striving at this international meeting place to reach an accord.

It was inspired by the unexpected arrival of Maxim Litvinoff, Russian commissar for foreign affairs, thought by many to be the result of alarm in Moscow over rumors that the world conference would be allowed to collapse.

Discussion in interested circles even swung to a possibility that the Soviet Union is considering advances to be admitted to membership in the League of Nations.

Litvinoff had no time after his arrival in making contact with representatives of other powers meeting here. He had a talk with Louis Barthou, French foreign minister yesterday afternoon, but refused to discuss the subject of their conversation.

Disarmament, however, is known to have been taken up. It was a far cry from the old days, when Russian statesmen openly pooh-poohed the chances of an agreement coming out of the Geneva negotiations.

Prior to Litvinoff's coming League circles gave indications of deep discouragement over the apparent impasse in moves toward an arms accord. Now the comment has taken on a more optimistic tone.

An international pact of non-aggression as proposed by President Roosevelt was said in well-informed circles to be one of the suggestions Litvinoff planned to put forward.

Also in an attempt to keep the disarmament conference alive, he would urge concentration on the elaboration of a pact of mutual assistance and security to fortify the organization of peace.

An attempt would be made in such a pact to define aggressor nations.

On the question of League membership the opinion was rife that the British and French attitude toward admitting Russia may have encouraged her to express willingness to join.

Darrow NRA Reports Under Police Guard

WASHINGTON, May 19.—(AP)—A police guard was stationed yesterday around the printing division of the commercial department where the Darrow board on NRA and Hugh S. Johnson's answer were being prepared for publication.

This extraordinary precaution was taken to prevent smuggling of copies of the two documents which are to become public Monday.

Although many NRA confidential papers have become public in the past, no such strict measures have been taken previously to prevent any of them.

The principal reason was understood to be that the reports are usually in the hands of President Roosevelt. They were not distributed for press distribution at the White House because of their great bulk.

Pay Your Poll Tax

A last minute rush of citizens seeking to pay poll taxes which will make them qualified to vote in the June primaries was reported at the Court House offices of Jno. D. Jenkins this morning, where it was said that from every indication, the office will be crowded until 9:00 o'clock tonight, closing time. During the 24 hour period that ended at 1:00 o'clock this afternoon, 253 tax receipts had been issued—105 for 1933 poll taxes and 148 for 1933 poll taxes. At 1:00 o'clock, 1426 receipts for 1933 had been issued, and 1592 receipts for 1932 had been issued. Positively no tax money will be accepted by Collector Jenkins after 9:00 o'clock tonight, he stated. Persons should call as early as possible before that hour, he added.

LABOR TROUBLES IN TWIN CITIES EASED BY TRUCE

New Strikes Develop In Cincinnati, Toledo Industrial Shops

(By The Associated Press) Temporary truces today relieved the strain of strikes in several cities, but new labor troubles bobbed up in others.

Tentative agreements were reached to end a strike of truck drivers in Minneapolis and St. Paul where the movement of food, gasoline, and other necessities had been affected.

A tugmen's strike at Buffalo was ended by arbitration of their wages and hours grievances.

New strikes arose in Toledo and Cincinnati.

At Toledo the Central Labor Union voted approval of plans for a general strike in sympathy of the walkout of 1000 automotive workers.

Five hundred employees of the Toledo Edison Company tentatively authorized the strike.

A two-hour general strike at Cincinnati May 22 was urged by a steel and metal workers union in protest against the failure of the Furness Insulation Company to recognize a union of striking employees.

Shortage of food, gasoline and other necessities near an acute stage in the Twin Cities. Friday night as 6200 striking truck drivers tightened their picket lines.

Gasoline stations were stoned and their pumps wrecked, bakeries closed for want of deliveries, truck gardeners, grocers and other shippers hampered by an almost complete halting of motor transport in St. Paul and Minneapolis.

Scores of deputies were assigned to keep order, 84 persons were arrested, and an appeal was made to the postmaster general at Washington after the strikers stopped a truckload of gasoline destined for the Minneapolis postoffice. Beer deliveries stopped during the day and laundry and dry cleaning drivers announced they would join the walkout.

Vicious Alligator At Zoo Has Been Chained

His viciousness already having resulted in the death of six alligators penned at Sanford Municipal Zoo, "Old Black Joe," 150-year-old gator who is the "Boss" of the pen, was removed into special quarters this morning, and chained to prevent further damage.

The reptile began to show signs of activity about 10 days ago. Usually he lies immovable all day long, occasionally slaughtering off the sand bank into the pool where he is completely submerged except for his nostrils.

He became violent about a week ago, and his fierce attacks upon the smaller alligators have proven fatal in six cases. "Old Black Joe" has been in the zoo for the past six years. He is 14 feet long, having grown six feet during his local confinement.

1933 Tax Collections 26 Percent Of Total

Percentage of City of Sanford 1933 taxes collected through May 18 was reported at the City Hall today as being 26.22 percent of the entire assessment.

Total collections to May 12 was \$58,878.02, leaving an uncollected balance of \$187,246.91. The 1933 tax assessment is \$212,919.93.

DRASTIC CRIME LAWS SIGNED BY ROOSEVELT

Acts Held As Renewed Challenge By U. S. To Lawless Groups Throughout Nation

WASHINGTON, May 19.—(AP) A renewed federal effort to put down crime was inaugurated yesterday by President Roosevelt in signing six new law bills that gave justice department officials new steel with which to combat criminals.

There will be no relenting, said the President.

"These laws are a renewed challenge on the part of the federal government to interstate crime," Attorney General Cummings, who watched the signing of the bills, said their enactment came at a crucial moment.

"Kidnapers, killers and racketeers are a serious menace to life and property as well as to the supremacy of the law," he said. The laws enacted yesterday would:

Make it a federal offense for a criminal to flee across state lines to escape prosecution for a felony or to keep from testifying in a criminal case.

Permit a jury to bring in the death verdict for kidnaping unless the victim were returned unharmed.

Make sending of ransom demands and kidnap threats across state lines a federal crime.

Make it a federal crime to kill or assault various federal officers while they are on duty.

Provide 10 years imprisonment for anyone inciting a federal prison riot, aiding in an escape or smuggling arms or other contraband into government penal institutions.

Impose 20 years imprisonment for robbery of a bank in any way nationally affiliated.

The text of the President's statement follows:

"These laws are a renewed challenge on the part of the federal government to interstate crime. They are also complementary to the broader program designed to curb the evil doers of whatever class.

"In enacting them, the Congress has provided additional equipment for the department of justice to aid local authorities.

"Lacking these new weapons the department already has tracked down many major outlaws and its vigilance has spread fear to the underworld.

"With additional resources, I am confident that it will make still greater inroads upon organized crime.

"I regard this action as an event of the first importance. So far as the federal government is concerned, there will be no relenting.

"But there is one thing more. Law enforcement and gangster extermination cannot be made completely effective so long as a substantial part of the public looks with tolerance upon known criminals, permits public officers to be corrupted or intimidated by them or applauds efforts to romanticize crime.

"Federal men are constantly facing machine gun fire in the pursuit of gangsters, lawless citizens, individually and as organized groups to recognize the facts and meet them with courage and determination.

"I stand squarely behind the efforts of the department of justice to bring to book every law breaker big and little."

Claude Pepper Addresses Local Audience In Interest Of Candidacy For Senate

Claims qualifying him to serve as one of Florida's two senators in Washington, were outlined before an audience on a downtown street corner last night by Claude Pepper of Tallahassee, one of four persons opposing the incumbent Senator Park Trammell.

Introduced to the audience by Fred R. Wilson, local attorney, Mr. Pepper summed up his recent whirlwind tour over Florida and declared that sentiment favoring him is growing stronger each day. He told of having spoken before fully 2000 residents of Lake county in five meetings in that area Friday, and he said that he had been promised a majority in the first primary in Lake county.

At the outset, he stated his views in connection with citrus and vegetable freight rates from Florida. He advocated the abolishment of the present practice of regulation of freight rates by the Interstate Commerce Commission, and he claimed that Florida growers and shippers are being discriminated against under the "differential" system of

regulation now in effect.

Illustrating the point that the rate on citrus fruits from California to New York is identical with the rate from Florida although California is 1500 miles further away, Mr. Pepper said it would be just as fair to hold a train bound from New York to Florida in the Carolinas for two days, so that its passengers might arrive in Florida at the same time as passengers on board a train from New York to California would arrive at the same destination.

Mr. Pepper also attacked the present plan of shipments of Florida products on consignment to commission houses. He said that in many instances the shipper must remit the freight, in addition to getting no returns.

He urged a federal regulation, as an emergency measure, requiring payment for all shipments, F. O. B. loading platform.

In advocating federal relief for public schools, Mr. Pepper said that he would have the government appropriate the money only, having no control over its

U. S. PROGRAM TO AID SUFFERERS IN WEST PLANNED

South Dakotans Would Be Moved To Better Farms Under Plan

WASHINGTON, May 19.—(AP) More money and food for the drought-stricken plus removal to better farms from 3000 to 4000 of South Dakotans, were integral phases of the relief program that took definite shape here yesterday in a series of conferences.

Federal relief forces will head for the sun parched areas of the Dakotas, Minnesota and Wisconsin next week to prevent undue suffering.

The emergency relief, farm and farm credit administration, the department of agriculture and the surplus relief corporation joined hands with state and local officials in working out the relief program.

Harry L. Hopkins, relief director, said the program could be spread to any area as soon as a serious situation developed. The program will proceed along these lines:

The emergency relief fund will buy cattle in the dry areas. The bureau of animal industry will examine every cow in the area and confiscate and pay for every one found with tuberculosis.

The relief administration will supply funds to buy food for farmers and to provide seed for orange crops. It also will supply funds for deepening wells and digging new ones.

The farm credit administration will relax its rules regarding loans already made or which can be made.

From 3000 to 4000 farm families may be moved in South Dakota from farms which have proved insufficient for a decent living to some of the 4000 farms now owned by the state.

Pasco Duncan Suffers Broken Leg On Road

Pasco Duncan, local painter, suffered a broken leg and other injuries when he was run over by a automobile near the Blue Bird bus stop, on the Sanford-Orlando highway at about 10:30 last night. He is confined in the Foreland Loughton Memorial hospital.

It was reported at the sheriff's office this morning that Mr. Duncan was injured by an automobile that was being driven to Sanford from a political rally at Altamonte Springs by Mrs. C. E. Rawson. The sheriff's office reported that Mr. and Mrs. H. R. Jackson were passengers in the automobile and that Mr. Duncan was placed in the car and brought to the hospital, after which the party reported the accident at the County Jail.

G. O. P. LEADERS ASSAIL TARIFF BILL IN DEBATE

Democrats Seek Limit On Arguments With Hope Of Bringing Passage By Friday

WASHINGTON, May 19.—(AP) Republicans denounced the Administration tariff bill with vigor last night in the Senate. Senate Democratic leaders began laying plans for a limitation of debate to bring passage by next Friday.

Senator Harrison (D., Miss.), in charge of the bill, said in an interview off the floor, the Democrats, constituting 60 of the membership of 96, would lose three or four votes but would pick up a Republican independent for every Democrat who left the reservation.

The Republican after another took the floor yesterday to call the measure everything from "reckless folly" to "damning and detestable grant of power."

In the two days of debate, only one Democrat, Long of Louisiana, who admitted he was a protectionist and was willing to vote for tariffs on goods of other states to get support for protection for his own had spoken against the bill which would authorize the President to negotiate tariff reduction agreements with other nations without ratification by the Senate.

While the Republican baying was in full swing Senator Johnson (R., Calif.) offered two amendments which the Democratic leaders said would be adversely affected.

One would prevent any foreign trade pact from taking effect until it had been submitted to Congress and approved by law.

The other would exempt from the operation of the proposed law all agricultural and horticultural products except apples.

African Lioness Will Be In Zoo Tomorrow

Queenie, a three-year-old African lioness who has been exhibited in a Tampa zoo for some weeks, will become a part of Sanford Municipal Zoo tomorrow, it was announced by James Moughlin, Superintendent of Park.

Queenie was purchased out right, and she will be brought to Sanford late today on a light River Line Co. truck. The lioness, which was donated by Mrs. E. C. Well, local manager of the Tampa zoo, recently occupied by Jerry, the Honolulu baboon who has been moved into a larger cage near the north entrance of the zoo.

Sharon To Preside Over Honor Court

County Judge J. G. Sharon will preside over the May Court of Honor which is to be held at the Chulabata school house on Monday night at 8:00 o'clock. It was announced today.

Boy Scout Commissioner H. N. Brown, III, of Orlando, also will be present to assist in awarding medals and other forms of recognition to over a dozen Scouts from the several troops in the county. The public is invited to attend the court.

Robles Girl Fails To Identify 2 Suspects

TUCSON, Ariz., May 19.—(AP) Two unnamed suspects in the kidnaping of June Robles was determined by authorities for further questioning yesterday despite failure of the six-year-old girl to identify either.

One of the men, taken into custody yesterday morning had been sought since June was found last Monday entombed in a sheet iron box buried in the desert. Officers described him as the "most prominent" suspect they had rounded up. The girl studied his face calmly, but was unable to recognize ever having seen him or heard his voice.

The other man, who had been questioned and released Thursday when June could not establish his identity, was brought in again for further examination.

BULGARIA COMES UNDER MILITARY DICTATORSHIP

PARLIAMENT DISSOLVED
By Royal Decree As
Cabinet Crisis Ends

SOFIA, Bulgaria, May 19.—(AP) A coup d'etat today established a military dictatorship of Bulgaria as a climax to a cabinet crisis.

Shortly before dawn, troops rushed from the Sofia barracks, occupied all public buildings, and took up positions at all strategic points in the capital.

Simultaneously troops in provincial cities executed similar maneuvers.

Strong detachments of the police and soldiers, patrolled the streets and kept the public indoors.

Members of the outgoing cabinet were arrested and kept under heavy military and police guard.

King Boris issued a royal decree dissolving parliament, and approved the nomination of Kimon Georgiev as premier. He likewise approved the new cabinet selected by the Premier.

The new government issued a manifesto, announcing the creation of "Authority" government "independent of political passions."

There will be no parliament from now on and even mayors of Bulgarian cities will be appointed from the capital.

Parachutist Raymond Dies In Fall At Tampa

TAMPA, May 19.—(AP) Jack Raymond, parachute jumper, of Tampa was killed here yesterday afternoon in a fall of more than 1200 feet when his parachute became entangled and failed to open. He fell at the municipal airport.

Raymond, formerly of Grand Rapids, Mich., leaped from a plane piloted by J. M. Stephenson. Seeking to test a parachute he had just repaired. He apparently attempted a delayed jump and did not try to open the parachute until he had dropped 200 feet. Several witnesses saw the parachute open to the size of a barrel, but it opened no further.

FERA Will Take Steps To Finish School Work

JACKSONVILLE, May 19.—(AP) The Florida Emergency Relief Administration has informed county boards of public instruction that school relief projects can be completed only if the board furnish the killed labor necessary.

Commitment of allotments, the administration said, had left only funds for relief.

But the boards were told, "If you will agree to furnish the skilled labor needed to complete these projects, we will endeavor to secure an appropriation to furnish the material which is lacking and will furnish the necessary unskilled or common labor."

Chicken Pilau To Be Served Cracker Day

It'll be chicken pilau instead of fried fish that will be served by members of the Elks Lodge Auxiliary in the Arcade Building next Saturday noon as one of the features of second annual Cracker Day celebration, it was announced today.

After combing the area to find fishermen who would guarantee a sufficient quantity of fish for the luncheon, it was discovered that it would be impossible to furnish enough to provide for the large number of persons expected to attend the lot.

The committee in charge of this feature of the program is as follows: chicken pilau, Mrs. C. H. Moss, Mrs. Rex Fairbaird, Mrs. P. C. Fullerton, Mrs. R. A. Howard, ice water, Mrs. Henry Thurston, tickets, Mrs. A. S. Beck, Miss Josephine Tarbell, Mrs. June Rounhill, tables and chairs, Mrs. J. G. Leonardy, Mrs. Rodney Ashdown, coffee, Mrs. Henry Thurston; pies and cakes, Mrs. Leonardy; cola drink, Mrs. M. D. Reel, Mrs. C. R. Reel, rolls, Mrs. Porter Leasing.

U. S. INDICTS DILLINGER ON NEW CHARGES

Desperado Held With 9 Others As Having Harbored Persons Sought By Police

MADISON, Wis., May 19.—(A.P.)—A Federal grand jury today indicted John Dillinger, Indiana desperado, and nine companions, four of whom are women, charging them with harboring and concealing persons sought by the department of justice.

Although accused of bank robberies, shootings, jail break, jail delivery, and other criminal acts the only federal charge against Dillinger heretofore was a violation of the Dyer Act prohibiting transportation of stolen automobiles.

Balance Not Reached In Lumber Industry

WASHINGTON, May 19.—(AP) Despite increased consumption of lumber during the first six months of operation of the lumber code, a report of the timber conservation board of the Department of Commerce said yesterday there was "no national progress toward balancing production and consumption."

"Consumption has increased, particularly as compared with the low points of early 1933 but production has moved at a still faster pace," the report said, "partly in anticipation of a building recovery which has been disappointingly slow in materializing."

Kidnap Aide Will Be In Graduating Class

ATLANTA, May 19.—(AP) Pryor Bowen, the young man who aided in the kidnaping of John K. Otley, Sr., prominent Atlanta banker, will graduate from Lanyon high school, June 1.

Young Bowen, who served six months for his part in the kidnaping, promised to continue his school work if released. Len B. Guillebeau, his attorney, said yesterday that Bowen has maintained a high scholastic average and at the same time caught up with work he missed while serving his sentence.

Georgia Hosiery Mill Held As NRA Violator

GAINESVILLE, Ga., May 19.—(AP) The Richmond Hosiery Mills of Rossville, Ga., yesterday was indicted by the federal grand jury on charges of conspiracy to violate the hosiery code and of an overt act to violate the National Recovery Act. Five officials of the mills also were named in the conspiracy indictment.

The Standard Production Company, of Rossville, also was named in the conspiracy indictment.

Lawrence Camp, United States attorney, said the government contended that the companies conspired to operate three shifts in violation of the hosiery code and described the alleged overt act as a charge that the hosiery mill set up the Standard Production Company which the government called a "dummy" corporation, with the purpose of leasing the mill to it to run the third shift.

JUNGLE WAR ENDS

RIO DE JANEIRO, May 19.—(AP) The Peruvian contest for the jungle border village of Letelca, which threatened at times to break into open war, ended today with the acceptance of a Brazilian formula. The formula, which ends a bitter 20-month-old dispute, was drafted by Afranio de Mello, Foreign Minister of Brazil.
