Sunland 'Users' Plan Water Fight

Sunland Estates' residents are gearing for battle, in court if necessary, to protest the 200 per cent increase in water and sewage rates that have been passed by the Sanford City Commission and will go in effect Oct. 1.

Fred Leone, attorney for the group of over 200 who have formally protested so far, says that he is examining material and further investigating the possibility of filing suit against the City of Sanford. He contends that the increase is illegal.

Over 200 residents overnight the home and lawn of Mrs. Vivia M. Smith last night as they met to organize their strategy, said John R. Ferris, spokesman for the group. "Taxation without representation is the complaint," said Ferris. "That we will try to avoid the suit by a formal protest to the Commissioners next Monday," he said. There are 400 hundred homes in Sunland, he added, and in two days, seven of us have "walked our feet into the ground" getting signatures on a petition which will be presented to the Commissioners.

The most poignant moment of the effort to unify the residents and raise money to bring legal suit came when an eight-year-old girl gave the volunteers eight cents she had saved for the rate protest. "My Daddy's out of work," she sobbed. Her Mama's expecting a baby shortly, too, said Ferris, and they are one of the many families who would be hard pressed by the water rate increase which will bring the average homeowner's bill to about \$20 a month.

County Building Program Estimated Cost - \$3/4 Million

By FRED VAN PELT

County Commission this afternoon approved a resolution of necessity for construction of four new county government buildings. Action was taken after county attorney Harold Johnson and special attorney William Hotchkiss expressed option bonds could be sold without a referendum. An estimated cost of three quarters of a million dollars was expressed for the four proposed county government facilities by architects before the county commission this morning.

The architects broke down the building costs as follows: county branch office, \$224,000, if started by next Mar. 1. The building would cost \$148,000; two acres of land, \$40,000 and other extras would bring total to \$224,000. The two-acre site would be located within one and a half miles of the intersection of SR 438 and Hwy 17-92.

The proposed agricultural center would cost \$142,000 and would be constructed on the present site of the County Agriculture Center (the old county home). The schematic planning for the county branch office and the agricultural center was presented by Schweizer Associates of Winter Park.

The juvenile detention center, designed for 18 persons, would cost \$180,000. This would be \$100,000 for the building and \$20,000 for the site, to be located within 1 1/2 miles of courthouse. The original building would house an apartment suite for the superintendent, a kitchen, laundry, and individual rooms. It was estimated that expansion would be necessary for an additional 12 persons by 1975 and still another 18 by 1980.

It was recommended that at a later date, a juvenile courthouse be placed on the same site.

Three recommendations were made for a mental incompetent detention facility. A six room building at Seminole Memorial Hospital was estimated at \$180,000. A six room facility with a medical unit adjacent to courthouse was estimated at \$180,000.

The Sanford Industrial Commission, lessors of airport property for the city, at their meeting yesterday approved the lease of Building 120, a 74,000 square foot structure for \$3,500 per year.

Don Rathel, industrial commission director, in explaining the lease to the industrialists, stated the utility would bring power here from all over the state for training. They will live in quarters at the airport, he added. The utility would be approved a 37 month lease to A. A. Freight Leasing Company of Orlando for a 429 square foot building in which to store seats removed from an airplane.

A trade-out with the Seminole Junior College was approved at Rathel explained that an old Navy barracks was needed by the college to house athletes. Building 140 will be leased to the college for \$2,500 a year with the athletes to do 30 hours weekly labor at the facility for the rent.

Rathel said the college would have to furnish their own insurance and liability and further informed that a full time contractor will be at the barracks at all times.

Regarding a future lease, Rathel said he had been contacted by a firm about leasing a building in which to locate an existing helicopter repair operation. The industry would employ about 15 persons, he said and would lease a facility at \$2,500 a year.

No action was taken to a request from Florida Public Utilities to lease or buy the pipeline now running to the airport from Lake Monroe.

The group indicated a need for more information before continuing with negotiations. In another action, the commission approved a \$6,800 utility budget for the airport for next year.

Area covered by trees and smoke (No. 1) will be the barge basin, itself. Sixty-foot concrete pilings have been driven to test for footings for wharf and warehouse. Picture is looking east with Florida Power and Light Company (No. 2) and Lake Monroe Park and harbor (No. 3) just beyond the St. Johns River bridge.

Non-Profit Corporation Seen Casselberry Utilities Plan

By TOM ALEXANDER

Utilities operation was the subject of much conversation last night at a planning session of the Casselberry Council where City Fathers were presented with three different proposals on taking over present utility operations in the South Seminole municipality.

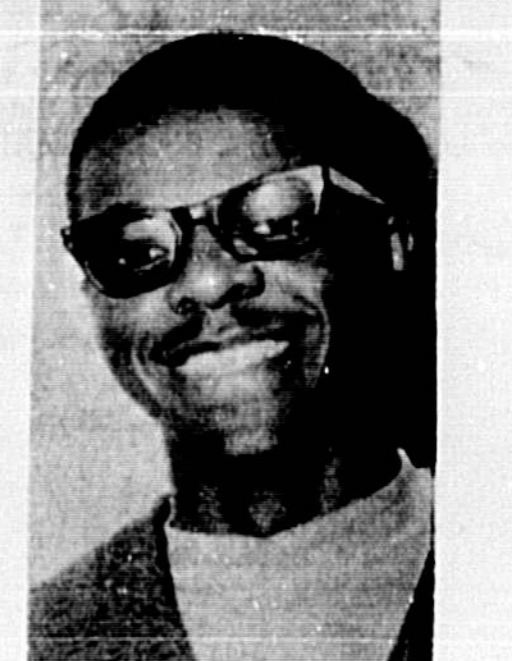

City Attorney Ken McIntosh told of three proposals that were suggested by Stone and Youngberg Corporation, a municipal planning agency. McIntosh stated that the city could acquire the utilities operation by either long term financing, a federal loan, or by forming a non-profit corporation. The latter of the three suggestions met with immediate appeal to the assembly and also to attorney McIntosh.

McIntosh explained to the governing body that the operation would have to follow guidelines set up by state and federal agencies on non-profit organizations and would also have to meet Internal Revenue requirements governing such corporations.

In explaining the features, McIntosh pointed out that financing for the venture could be made through tax-free bonds and also additional bonds that could be issued for the "orderly increase" of the utilities operation. This "orderly increase" would be necessary due to the boom presently taking place in the South Seminole region according to recent surveys.

The non-profit organization would be controlled by a five man "Blue Ribbon" board, probably consisting of a representative of the present utility company, members of the city governing body and outstanding citizens in the Casselberry area. McIntosh pointed out that these are similar to guidelines presently used by the Orlando Utilities Commission.

The attorney suggested to the council that the quickest way to initiate this program would be to have a meeting with a representative of Stone and Youngberg, discussing setting up a non-profit corporation to run the utilities commission.

He recently represented eight area colleges at an international convention of Circle K in Portland, Oregon. (Doris Thomas Photo)

First It Goes Down; Bounces Back Up . . .

By HILL SCOTT

Sparked by appearances from Robert Besserer, Seminole Memorial Hospital administrator, and M. L. Raborn, former city commissioner and operator of a city laundry, the Sanford City Commission last night changed their minds on raising water rates for heavy users and sought a thousand to all users of over 25,000 gallons a month, before finally agreeing to hold new rates which become effective October 1.

Besserer complained that hospital uses between 1.4 to 1.5 million gallons a month and the new increases would mean an average 41 per cent increase for the hospital.

Raborn said his rates would increase by 31 per cent, instead of the 29 per cent increase which had been previously announced.

City Manager W. E. Knowles reported it costs the city from 21 to 23 cents to produce and make available a thousand gallons.

Commissioner Earl Higginbotham reported home users were paying 68 cents per thousand and gallons.

Commissioner A. L. Wilson moved to lower the costs for heavy users to 20 cents a thousand gallons and Higginbotham seconded.

At this point Commissioner Vincent Roberts blasted the commission for its action and exclaimed, "We have raised water rates on those persons who can least afford it, but we are going to sell water to volume customers for less than it costs the city to produce."

Construction Study Set

By NEIL GILBRIDE
AP Labor Writer
ATLANTIC CITY, N.J. (AP) — Union leaders cautiously promised today to help a new White House commission study inflation in the construction industry. But they said high interest rates and soaring prices of raw materials and building materials are far more to blame than wage hikes.

"They talk about labor costs and ignore the skyrocketing prices of land, materials, fixtures and equipment," said President C.J. Haggerty of the AFL-CIO Construction and Building Trades Department. "They condemn our wage rate increases and blame the bonanza engineers for themselves, although interest rates that the Nixon administration has con-

Wives Winning?

By WAYNE EISENMAN
AP Business Writer
NEW YORK (AP) — Housewives who conducted local surveys last month say their campaigns to get men to do more housework are paying off. In a survey of 100 women in the New York area, 60 percent said their husbands had done more housework in the last month than they had in the month before. The women preparing for a men's drive, she said.

"Fifty women over a telephone call can create a tremendous stir," Mrs. Dilorenzo added. "In Melbourne Beach, Fla., Fort Collins, Colo., Arlington, Va., and another in Florida, the women prepared for a men's drive, she said.

"We still urge women to just have one husband do the housework," she said. "When demand is high, prices are high."

'Don't Sit There Fat, Dumb And Happy'

Miami's Future Pictured As Ugly, Broke

MIAMI (AP) — America's sprawling cities are forever being themselves beyond their constantly changing boundaries — could find themselves broke, overworked and ugly when the future becomes the present, city planners say.

Some of the country's top urban experts asked 40 of Miami's top businessmen whether they would rather live in a 1960 house than in a 1980 house.

"Unplanned" projections of government projects alone showed that \$15 billion will have to be spent by 1985, said Reginald Walters, Metro planning director, but he added that less than half that amount is projected as available.

David Crane, another urban planner, said new building types, new loans, new approaches to zoning and new uses of expressway rights-of-way are needed.

"So is money."

Panhandle Termed A 'Mini-Disaster'

QUINCY, Fla. (AP) — The rains let up Monday night in the panhandle, but the muddy seas were termed a "mini-disaster" by a state official who spent hours surveying flood damage from the area.

"I don't think this was a major disaster," said State Transportation Secretary Michael O'Neil, who placed road damage at \$200,000.

"I guess you could call it a mini-disaster," O'Neil said.

The flood waters, based from a tropical depression that skirted inland from the Gulf of Mexico early Sunday, shifted over roads and bridges as rivers swelled and creeks gushed from nearby 19 inches of rain in two days.

"I think we can hold our own now," said Dick Lettin, forecaster at the Tallahassee Weather Bureau.

"The rivers are beginning to crest, but at least the seas have let up and we can guess what we are up against," he said.

Sections of Gadsden and Leon counties, hardest hit, were still blocked off. Quincy, eyeing the rising Little River, prepared for a 22-foot crest on Sept. 24.

Quincy, soaked by 18 1/2 inches of rain since Saturday night, was cut off from Tallahassee, 20 miles to the east, as State Road 29 remained closed to traffic.

NPW at the faculty at Lorton Elementary School in Oviedo has Mrs. Betty Archer, Mrs. Susan Todd, Mrs. Gail Smith, Mrs. Beverly McMillan, and Mrs. Nancy McChler.

Florida's Roads Must Escape Political Trap

Roads are entirely too important an issue for the people of Florida to allow it to continue to be treated as a political football.

This is obviously true! It is also obviously factual that this is the treatment which has been given and is being given by those in authority whose good judgment is warped out of all reason by the political fires that engulf the state.

We could cite instance after instance where roads have been seized on by the Republican government and the Democratic legislative leaders as an issue and the grave need for action has been acknowledged.

Yet both before and during the regular session of the 1968 state legislature neither the Republican administration or the Democratic controlled legislature had the courage to stand up and take the onus of calling for a special session to deal with the

ways, despite safer cars, better drivers and improved funding of adequate roads to meet the needs of the state's growth.

Even today it is being kicked around. Take the speech which Governor Claude R. Kirk, Jr. (R) delivered at the dedication of 1-75 as the American Memorial Highway on last Sunday.

Here was an audience of importance. Here were ears quite in tune with the highway complexities. And Governor Kirk took off in a drive for a political touchdown.

Charging into the Democratic opposition, the Republican said he had wired both House Speaker Fred Schultz (D) and Senate President John Matthews (D) urging them to "stop playing politics with special sessions" and call for one which would deal with the 16-year road plan which has had favorable reception.

At issue is the matter of funding. Using the

colorful and effective language which is a Kirk characteristic, he further termed the Florida road system as a "network of political potholes" and them as "refugees from the pothole gang."

The legislators, for their part, would like a special session.

We know this would be the result if they tried to drive over the hills of Sorrento on S-46 and find a parked truck blocking the way, the driver motioning traffic to come by and then barely escape a zooming auto coming over the top at a speed which barely allowed escape in the two-lane highway.

Or, even more so, try to use the two-lane, narrow bridge over the St. Johns River at Osteen and negotiate the sharp turn which defies even the most careful driver at the lowest speeds to do so safely!

Roads, roads, roads! This is an issue which must be faced now or more tragedies, more accidents, more sorrow is in store for Floridians and tourists who will soon come driving down!

Perhaps if the governor or the legislative leaders would take to the roads instead of the airways they would dismiss this squabble and move towards a special session.

All this is understandable from the point of view of political hopefuls. Roads need money. State funds come from taxes or bond sales. Neither are attractive now. Thus we have the Republican-Democratic stand-off.

But this is not a matter of finances. It is not even properly a matter of debate. Florida roads are not only inadequate but, in entirely too many spots, are dangerous-unsafe for travel.

Every week-end there are the dead and the injured who are part of the toll levied by the high-

Footballingly!

Let's face it! Football has taken over the TV screen, the massive stadiums and is breeding a new and quite fascinating kind of Monday Morning Quarterback.

This is a product of the times. For the accent on physical education, growing rapidly since the 1950s, has not only allowed the young and enormously fit youngsters to play the game so that the oldsters are challenged in every position, but has encouraged a perceptive analysis that is evident before.

Looking at it from the point of view of those in the stands — and those number the hundreds of thousands — the improved equipment on the stadium billboards helps accuracy.

But it is the chair-bound fan in the living rooms, eyes glued on the TV screen, fascinated and enamored by the incredibly helpful "instant replay," who can concentrate on the game and the players and, let's be clear about this, the officials.

For if the "instant replay" has been helpful to the viewers during the contests and to the coaches and players after the games, it has also been a new booby-trap for some officials.

Of course the others who are very much part and parcel of this invasion of the week-end hours are the wives and family of the football fan.

To them goes the heartfelt sympathy of almost everyone. There is the lot of so many who, for one reason or another, at one time or another, find change a fact which takes a great deal of character and understanding to meet with equanimity.

In this first blush of a new professional and college football season, it may seem that all the cards are stacked against those who would rebel.

However this is not so! By March (believe it or not) the football season will be ending. But long before that what now looks like a surfeit of football games — especially on television — may solve this problem just as you would like!

It Was a Quiet Summer, Almost, That Is

Crane's Worry Clinic:

Hardboiled Good Parents

By GEORGE W. CRANE, PH.D., M.D.

CASE 1-514: Bill G., aged 16, is a problem.

"Dr. Crane," his worried mother begins, "Bill doesn't want to go to school."

"He has run away from home for the 3rd time this year."

"That we have given him everything we could afford, for we aren't rich."

"His daddy even bought him his own car a month ago, but Bill thinks we have no right to tell him when to come home at night for he says he is old enough to do as he pleases."

"He refuses to go to church with us and acts like the typical spoiled brat much of the time."

"Let us love him and want to help him, so what can we do?"

Good parents must be hard-boiled on many occasions.

And never let a temper tantrum break up psychological blackmail on you, for children soon realize that because of your love for them, you parents will often give in to their demands.

Woodrow Wilson thus offered us a maxim that applies to modern parents as well as to our "free enterprise" system, when he said:

"All any American should desire is a free field and no favors!"

Our Declaration of Independence likewise states that we Americans are endowed by our Creator with certain inalienable rights, namely "life, liberty and the PURSUIT OF HAPPINESS."

"We observe that none of us is entitled to 'happiness' unless we 'pursue' it hard enough to 'catch up' with it via our hard work and 'sweat glands,' plus strict discipline to duty and long hours of study."

It was folly, therefore, for Bill's parents to give him his own car!

He didn't earn it nor remotely deserve it. In fact, he wasn't

working enough even to buy a ticket of passage for it!

So why will you parents be such nitwits as to subsidize your children in such a vicious fashion?

And I use that word "vicious" advisedly, for this is exactly what has produced the hippie generation, namely, your excessive permissiveness and showing of your children with unearned cash allowances, plus other favors they have never merited.

Bill's problem began back before kindergarten, when his daddy and mother should have encouraged him to earn pennies and nickels via simple tasks around the house.

For the children who work for their own money, become frugal in spending it.

Remember, it is the free cash handouts that are squandered in Prodigal Son fashion!

"Easy come, easy go," is a maxim that has been true ever since Adam and Eve, yet thousands of college graduate parents violate that basic axiom.

Hal Boyle Says:

Better Movies!

By HAL BOYLE

NEW YORK (AP) — "American" has been making the best pictures in the world for the last two years," said Terence Young, one of Britain's top directors.

"I believe that makes it one of the top five or six film hits in the world," remarked Young, who has just finished "The Christmas Tree," starring William Holden and 11-year-old Brooklynn Prichard, a tall, unshredded Irishman, who used to be in Cambridge University and had four tanks shot out from under him as an officer in the Irish Guards' armored regiment during World War II. He showed up for lunch wearing a turbanlike head bandage.

"What Until Dark" and three of the James Bond pictures, "The American," "From Russia With Love," and "Operation Thunderball," which has taken in more than \$60 million.

"I believe that makes it one of the top five or six film hits in the world," remarked Young, who has just finished "The Christmas Tree," starring William Holden and 11-year-old Brooklynn Prichard, a tall, unshredded Irishman, who used to be in Cambridge University and had four tanks shot out from under him as an officer in the Irish Guards' armored regiment during World War II. He showed up for lunch wearing a turbanlike head bandage.

Interpretive Report:

Washington Is Center-Stage

WASHINGTON, D. C. — Hubert Humphrey once made the shrewd observation that private conversation that future presidential candidates would continue to be drawn from the Washington scene. His reasoning is simple.

Washington is set up to give instant access to the means of modern communication to presidential aspirants. It is premature because the television media places such heavy emphasis on other qualities than the requisite qualifications of a presidential candidate. Television helped Richard Nixon make people forget that he had been defeated in 1960. It is premature because television made it possible for him to bury the old Nixon and create a new one.

The idiot boy may be able to do as much for a personable senator whose behavior following the tragic accident in which he was involved left much to be desired. The question is not that he was riding with a single girl that night but the integrity of his behavior under stress.

Given three years it is not beyond speculation that Kennedy may be able to restore at least a significant margin of the public confidence he lost. Having in view the weaknesses of other Democratic presidential possibilities, it could conceivably happen that Kennedy would remain the most electable candidate for Democrats could pick in 1972. There is some indication of this in the public opinion polls and more evidence of it in the attitude taken by some Democratic leaders.

But it still is not politically logical that the Senate should be the sole starting area for presidential candidates. The main need now is to be re-elected, but the Senate has not produced yet a president other than the one who was elected on the basis of his record, winning down the acres as a great president. Perhaps former Senator Nixon will be able to correct that deficiency.

The presidential selection process lacks a good deal of it becomes a pure reflection that a leader shall have to grasp national attention as a United States Senator. There is nothing intrinsic in the senatorial job which qualifies a man for the presidency. A senator does not have to have executive talent. He does not need to be an organizer. He does not need to have a deep understanding of basic issues.

But it is true that he needs to be a generalist and to know a little about almost everything, to the extent at least that he can convince television listeners that he has reasonable competence and an agreeable personality.

A state governor, on the other hand, must initiate broad programs on his own. He is confronted by maintaining order, quelling riots, organizing judges, levying taxes. The most electable candidate for the qualified man for the presidency is to look at United States senators who have been successful state governors.

Helen Fuller Says:

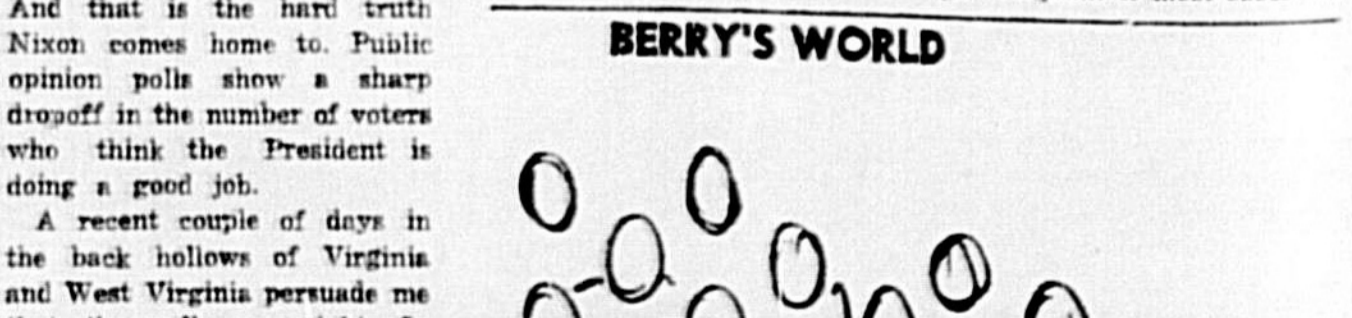

Nixon's Tough Predicament

WASHINGTON — Richard Nixon is stuck between a rock and a hard place. After a well-received tour and a month in the California sun, the President returns to bad news.

The worst thing an American head-of-state can hear is that he is losing public confidence. And that is the hard truth Nixon must face. Public opinion polls show a sharp dropoff in the number of voters who think the President is doing a good job.

A recent couple of days in the back hollers of Virginia and West Virginia persuade me that the polls are right. In leisurely visits and talks with country people, I found a surprising awareness of the score in national and international affairs.

In part this is because so many sons and brothers have been fighting in Vietnam, the standing guard in Korea and Western Europe. "Aerogram" letter forms are big sellers even in one woman's community. A lot of the men are very close to everyday home to the war in Vietnam; the fighting goes on and only token removal of American fighting men has happened. Ordinary Americans are not dumb. They do not fall for shell games as some of the less sophisticated ancestors occasionally did. They see the difference between

promise and performance.

Add to the disillusionment over ending the Vietnam war the continuing—and probably continuing—rise in the cost of living, the growing shortage of jobs for all but the best educated, a sharp cut in health and welfare services, and you have the popular dissatisfaction that is plaguing Richard Nixon, and

'Damned Must Be The Nation That Surrenders Ideals'

Letters To The Editor

September 18, 1969

Editor

Sanford, Florida

Dear Sir:

We are not advocates for violent solutions when pacifism means are of some avail, but when not, we always remember the words of an old teacher of international political sciences, who used to say: "The wars must be condemned and damned. Condemned and damned must be the nation that backs off it and surrenders ideals and principles without a fight."

Yours very truly,

Luis M. Perez, M.D.

Editor, Herald

Public Thanked

Editor, Herald

We would like to thank the public who helped bring the football season at Seminole High School in such a fine way. The support shown by the community in the Thursday night opener shows the continued interest that fans for Seminole High School have had over the last years. For the school and the athletic program. Public support through their attendance at our games will show to the Sanford Herald for their coverage leading up to our first Thursday night game. Combined and cooperative efforts by The Herald, the public, the fine coaching staff headed by Tom Perrin and an outstanding group of young athletes promise an excellent football season.

Very Truly Yours,

Nick Barrett

(Principal)

Revival Slept

An "old-time" revival will be held on Sept. 26-28. At the First Baptist Church of Lake Monroe.

Rev. Ed Hamill, pastor of the church, will preach at each service, which will begin at 7:30 p. m. There will be singing of all the old favorite hymns, and a special message each evening.

Gala Reception Opens Seminole Mutual Concert Association Season

AMID LUXURIOUS SURROUNDINGS, more than 250 workers and promoters of Seminole Mutual Concert Association were honored at a "kick-off" reception Saturday night at the Belair home of Mr. and Mrs. Randall Chase to officially launch the opening of the 1968-70 concert season in Seminole County.

It was a night when glamour and gaiety reigned as associates gathered and were recognized for their efforts in promoting the best concert season ever for the organization.

As president of SCMA, Mrs. Kay Bartholomew and the board of directors have arranged for exceptional entertainment artists to appear during the concert season for the cultural benefit of the entire area.

The drive is currently underway with membership plans now open and available to the public.

ARRIVING IN typical Hollywood fashion at the Randall Chase home Saturday night, guests were given the full red-carpet and VIP treatment. One of the butlers assists from left, David Wright, Miss Miriam Rye and Miss Valerie Rye as they arrive at the scene of the festive fete.

MRS. RALPH Austin Smith, Miss Ollie Reese Whittle, Mrs. Arthur Lee and Mrs. Jack Burney, above photo.

MR. AND MRS. BOYD Coleman and Dr. and Mrs. Orville Barik, upper photo. Mr. and Mrs. Fred Leone and Mr. and Mrs. F. Gams, lower photo.

MR. AND MRS. JACK Horner and Mr. and Mrs. Pete Bukur, upper photo. Dr. and Mrs. Gonzalo Humano, lower photo.

DeBARY WOMAN'S CLUB began the Fall Season with an outstanding program which attracted 82 members. Relaxing at the meeting site, DeBary Community Center, are from left, Mrs. Eugene Heimert, publicity; Mrs. William Green, president; Mrs. Frances Lee Albert, guest speaker; and Mrs. Charles Crosey, program chairman. (Howard Middleton Photo)

Sparkling Lecture Opens Season For DeBary Women

By ALICE BEHRETT
 The introduction of guest speaker, Mrs. Evelyn Albert of Diamond Beach by Mrs. Charles Crosey, program chairman, was the highlight of the evening. Mrs. Albert, who has a charming personality, a well-traveled background and wholesome sparkling humor. She is the wife of a senior retired Navy chaplain and as such, traveled to many foreign countries and met large cities in the United States. She spoke on her experience in raising four children and their problems and advised the audience not to draw down the curtain between our youth and ourselves.

Her "Laugh, Love and Live" was really a treat and reminded members of their younger days. At the next meeting, Friday, Oct. 17, at Civic Center, a movie "The Power of a Woman," sponsored by the General Federation of Women's Clubs and the Sears Roebuck Foundation, will be presented at 7:00 p. m.

Sex Education Aired By Republican Women

By MARION BETHA
 Letters from 30 congressmen regarding the pilot sex education program in the schools was read to a recent meeting of the Sanford Women's Republican Club held at the home of Mrs. Ruth Boutwell, 107 Pine Lake Drive.

The letters were in a response to resolutions against the program by the club. Sentiment among the legislators ran 10-1 against the sex education in schools. Resolutions were also read to members from the Republican state executive committee for a bi-cameral legislature and for the anti-ballistic missile system.

Club president, Mrs. Dot Meadors, was elected as a delegate to the Florida Federation of Republican Women fall conference to be held at Cocoa Beach in October.

Mrs. Meadors and Mrs. Dot Feddersen, Ruth Boutwell and Pat Olmstead will also represent the club at a luncheon meeting of the Republican Women's club of Winter Park to be held at the Villa Nova restaurant, Lt. Gov. Ray Osborne, who has announced his candidacy for the U. S. Senate will be the guest speaker.

The next meeting of the club will be held Oct. 16, at 10:30 a. m. at the home of Mrs. Kat Noel, 127 Linda Lane.

Hosts and hostesses were their daughter and son-in-law, Brenda and Lee Nixon, and Janet's brother, Archie McCormick, and Pat Altman.

Mrs. Walter will be retiring from the Navy next June having served for 23 years. The Walter's reside with their four daughters, Patty, Cindy, Debbie and Barbara in Sanford.

Guests were Bob and Linda Shull, Buddy and Irene Boyles, Bob and Shirley Barbour, Doug Wall and Marcia Meyers, Lamar and Kathy Downer and Marie and Polly Price.

Society Coverage

For photo coverage of Sanford social events, the society editor should be notified at least a week in advance. Hostesses are asked to have a name list compiled, clearly printed or typewritten, of guests and assistants available for the photographer.

Engagement and wedding forms are available at The Sanford Herald, to be accompanied by a black and white photo, if desired. Deadlines for engagements, three days in advance of publication date, weddings, six days.

For county social news coverage, call your area correspondent whose name appears daily in The Sanford Herald masthead.

Jack & Jean's BEAUTY SALON
 SANFORD PLAZA 322-2041

Miss Patricia Pruitt Bride Of Lt. Leo Watson, Jr.

The Cameron Baptist Church of Lakeland, Fla., was the site of the double wedding ceremony which united in matrimony, Miss Patricia Pruitt, daughter of Rev. Don Pruitt and Mrs. Pruitt and Lt. Leo Watson Jr., son of Mr. and Mrs. Leo Watson Sr., South Daytona, former residents of Sanford.

The Aug. 16, 8 p. m. ceremony was officiated by Rev. Hoyt Abshire, of Hartsch, Okla.

The church was decorated with seven branched candleabra holding white tapers and an archway trimmed with greenery and accented with pink daisies. The family pews were marked with greenery.

Mrs. John Leach, church organist, played traditional nuptial music and John Leach, music minister, sang "Thy Word Was You" and "The Hawaiian Wedding Song."

The bride, given in marriage by her father, wore a formal gown of white crepe featuring a sweetheart neckline trimmed with tiny pearls, which she designed and made. The long bell-shaped sleeves were of lace, trimmed with pearls, and the lace train, which was attached at the waist, was outlined with pearl trim. The gown featured a princess bodice and a fitted waist with the skirt gathered at the sides.

MRS. LEO WATSON, JR.

The bride wore a fingertip veil of alonon attached to a crown of pearls, net and sequins. She carried a bouquet of white gladiolus and foliage.

Maid of honor was Miss Joseph Williams, Houston, Texas. Mrs. Jerry Wheeler, Verna, Okla., Mrs. L. D. Pickens, Memphis, Tenn., and Mrs. Elizabeth Hogg, Cousin of the groom from Sanford, were the bridesmaids. Misses featuring bell sleeves of pink embroidered silk organza, length A-line dresses of pink. The maid of honor carried three

long-stemmed pink roses tied with pink ribbons and the bridesmaids each carried a single pink rose.

Best man was Leo Watson Sr., father of the bridegroom, and the ushers were Hugh Patterson Jr., Springfield, Tim Richardson, Snyder, Okla., and Tom Parish, a cousin of the bridegroom from Oklahoma City.

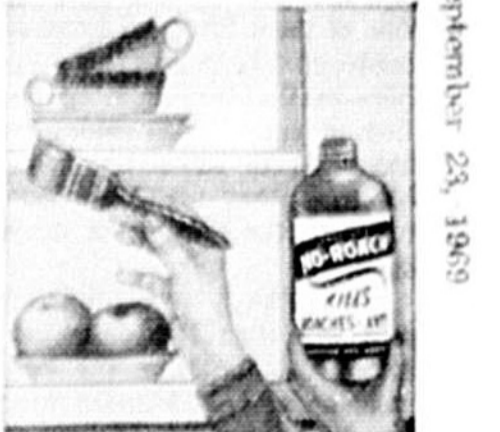

Dee Ann Patterson was flower girl and the candle lighters were Linda Kaye and Chad Linton, all cousins of the bride.

Mrs. Pruitt chose for her daughters wedding a pink tulle lace dress with matching accessories. With it she wore a corsage of pink gladiolus. Mrs. Watson, mother of the groom, wore an A-line dress of pink crepe and lace with white and pink corsage of pink roses.

The reception, given by the bride's parents, was held in the Fellowship Hall of the church. The bride's table was covered with a white lace cloth. The centerpiece was an arrangement of pink satin flowers and outcups candleabra with pink tapers. The three-tiered wedding cake was beautifully decorated with the pink motif and was topped with the traditional bride and groom.

Mrs. H. G. Toulson and Mrs. E. W. Rogers, grandmother and aunt of the groom from Sanford, were among the guests at the wedding.

Medicare, Medicaid S Probed

Editor's Note: Chaos, confusion and charges of fraud are leveled throughout Medicaid and Medicare, the huge government programs that pay for most of the nation's health care.

By JAMES R. POLK
Associated Press Writer
WASHINGTON (AP) — A nursing home operator in the California coast, old John Sutar lay near death. The nursing home operator and a lawyer teamed over him. One of them lifted his hand and made an "X" on a piece of paper—the lawyer later testified in court. John Sutar was too weak to write. So, holding his hand, they added his signature on the paper, the lawyer said.

The feeble, 75-year-old man died less than two days later, just about the time the banks were opening on Monday morning.

Mrs. Gertrude G. Thomson, the nursing home operator, took the signed paper, according to court testimony and withdrew John Sutar's \$22,000 from his savings account.

The last hours of John Sutar, dismissed from a hospital by a Medicare committee as a futile case and sent to a nursing home where he died only nine days later, are a tragedy fragmenting thousands of America's aged. So is the cold, unmerciful death of Robert S. Warfield.

At Sutar lay dying in El Granada, Calif., Warfield already lay dead, unattended, in a dark room at an eight-story nursing home half a continent away in Cleveland, Ohio.

On a chilly winter day Warfield, a former metal pattern, had wandered away from his room and disappeared into a nearby crawlspace. No one found him, and he died.

For more than a year and a month, Warfield's body remained in the crawlspace, undiscovered and decomposing. Coroner's records show that he was a worker at the Midtown Nursing Home before he entered the room, the body found this spring.

The 72-year-old man after his disappearance, according to welfare records, the nursing home had continued to collect Medicare payments for Warfield's care.

The home repaid the full \$100 when Cleveland welfare officials finally uncovered the payment error.

But even after that mistake, welfare authorities were sending Warfield's \$1 spending allowance to the nursing home for him each month until his body finally was found.

In California, Mrs. Thomson is now awaiting trial on theft charges. The coroner's office in Cleveland found no wrongdoing by the Midtown Nursing Home. Chaos, confusion and charges of fraud are leveled throughout Medicaid and Medicare, the two huge federal programs that pay for most of the nation's health care.

No one really knows how much of the \$1 billion in tax money each year may be going astray. But estimates start in the tens of millions of dollars.

Senate investigators have laid out all "mass visits" by some doctors, optometrists, foot specialists, X-ray operators and others giving unneeded care to the captive audience of nursing home patients.

Kickbacks and markups on investigation files. A Los Angeles nursing home owner said, "I even had a minister come in and say he would serve as a spiritual consultant under the program for \$100 a month."

A nationwide check by the Associated Press found cases that included:

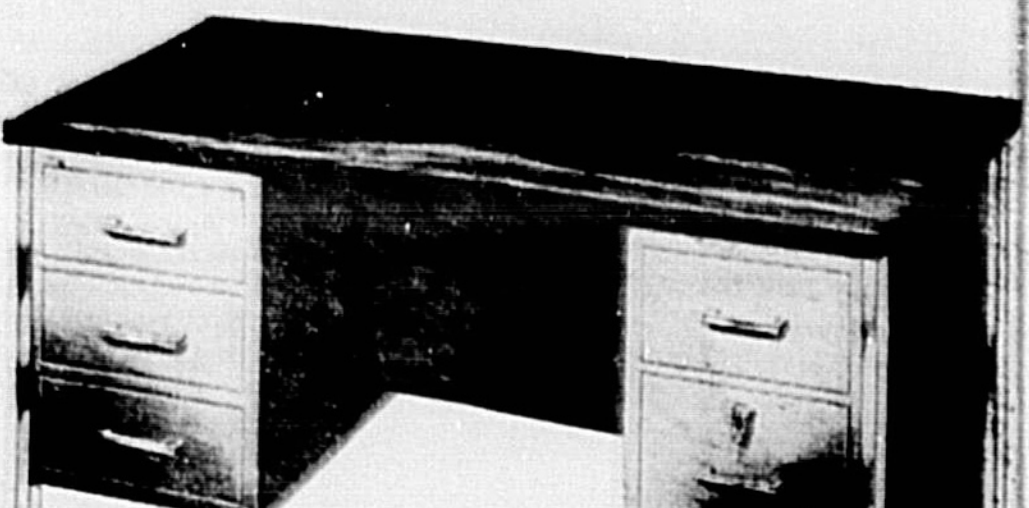

—In the quiet county seat of Jefferson, Tex., Medicare records showed a physician, Dr. B. D. Douglas, who operates the Douglas Memorial Nursing Home, billed Medicare last year for 4,860 visits to 81 patients—an average of more than 60 visits to each. He also billed for a total of 4,875 injections to just 140 patients. Douglas, who was paid more than \$62,000, is now under Medicare investigation.

—The state's Casa Costanza West home in Panoramita City, Calif., is alleged in a state document to have subcontracted and kept discounts on many visits by a foot specialist to its Medicaid patients each month. The state attorney general's office said it is investigating other dealings by the home with an X-ray operator, a pharmacy, a linen firm and beautician.

Spending Is Questioned

By BILL SCOTT
Sanford City Attorney W. C. Hutchison at city commission meeting last night explained that Mayor Lee P. Moore was within his rights when he contracted with a Washington attorney for help in getting the Sanford Naval Air Station from the government without commission approval.

Straw Vote Planned

Sanford voters will get the chance to express themselves in a straw vote over a projected \$5.5 million capital improvement program during December. City Commission last night voted to have the seven capital improvements listed on the ballot for voters to give an indication of preference placed on each project.

Youngsters Cautioned

Sanford Police Chief Ben Butler today gave warning to the dozens of young people who congregated at the Sanford Plaza. Butler said he intended to enforce a request from Plaza merchants to prohibit the gathering of young people who are gathering in large crowds night after night at the Plaza and prevent shoppers from being annoyed by the noise and businesses starting this weekend.

Skop Throws Hat Into City Commission Race

Harry Skop today became the second Sanford businessman to qualify for the city commission post to be voted on in December. The operator of Ruben's Restaurant and Pizzeria Bank Store was on hand at the opening of the city hall this morning and handed Harry N. Tamm, city clerk, the \$90 fee to run against Gordon Meyer, insurance man, for the seat on the commission now held by A. C. Wilson and Earl Higginbotham.

The Rains Came...

SMOOTH SAILING... but unfortunately, this is supposed to be a road and not a canal.

AND AFTER THE RAINS drained, it caused extensive damage like this area on County Road, North of Orange Boulevard.

THE SMALL SIGN SAYS... Private Property — No Hunting or Fishing! And the area is St. Johns River Estates...

INSTEAD of the water flowing through the small culverts, debris clog the entrance to the pipe, forcing the water to overflow causing this major washout in the Lake Monroe area, adjacent to I-4. (Staff Photos by Bill Vincent).

South Vietnamese Get Clobbered...

By GEORGE ESPEY
Associated Press Writer
SAIGON (AP) — A company of 130 South Vietnamese civilian irregulars led by American Green Berets suffered more than 30 percent casualties in heavy fighting six miles south of the Cambodian border, military spokesmen reported today.

Seven of the South Vietnamese civilian irregulars were killed and 62 were wounded in the six-hour fight Monday. Three South Vietnamese lieutenants, Ngon Special Forces camp. Four Green Berets were wounded.

American fighter bombers and artillery came to the rescue of the embattled company and South Vietnamese headquarters said 35 North Vietnamese bodies were found afterward.

The U.S. Command sent its biggest bombers against the bases along the border in an attempt to break up preparations for a new offensive expected in November.

U.S. spokesmen said the South Vietnamese hit North Vietnamese bases and supply and staging areas between a mile and a mile and a half from the border. The target area stretched from 65 miles north-northwest of Saigon to 85 miles north of the Gulf.

Earlier, four American observation helicopters were shot at in the same general area. 40 miles north-northwest of Saigon. The helicopters returned the fire with machine guns and directed artillery onto the enemy positions.

The helicopters returned the fire with machine guns and directed artillery onto the enemy positions. 16 enemy soldiers were killed. No U.S. casualties were reported, and the helicopters returned to their base.

Gen. Creighton W. Abrams, the commander of U.S. forces in Vietnam, reported two days ago that "a lot of prisoner of war statements and other documents indicate there will be a winter-spring campaign." It would be a continuation of the enemy's autumn campaign, which has been marked by periods of committal heavy attacks alternating with longer stretches of light activity.

In the past, the heaviest attacks have been made northwest of Saigon and have been staged from camps along the Cambodian border.

Again today only light, scattered action was reported across the country. A reconnaissance patrol from the 1st Marine Division, which is being withdrawn from Vietnam by Dec. 15, was hit by hand grenades and small arms fire from an estimated 30 North Vietnamese soldiers just south of the demilitarized zone. The Marines returned the fire, then called in artillery. Five North Vietnamese soldiers were killed and two Marines were wounded in the brief fight. U.S. headquarters said.

Israeli-Jordan Secret Dealings

By THE ASSOCIATED PRESS
Water is flowing through Jordan's Ghior irrigation canal again as the result of another secret deal between Jordan and Israel.

Informed sources said Israel for the second time had agreed to let Jordan repair the canal unimpeded in return for Jordanian agreement to enforce the Arab-Israeli cease-fire in the Jordan and Hebron valleys. Eyeswitnesses reported that a 30-man crew began temporary repairs Monday and that the water was flowing again by late Monday afternoon.

The United States acted as the go-between in the negotiations, which Jordan requested, the sources said.

The 40-mile canal transports water from the Yarmouk River to northern Jordan's fertile valleys. Israeli commanders view a section of it on June 23 in U.S. Soviet talks on curbing the nuclear arms race.

This message from Foreign Minister Andrei A. Gromyko to Secretary of State William P. Rogers Monday night fell short of U.S. hopes. It meant indefinite further delay on the already much-delayed disarmament talks.

Despite the new agreement, an Israeli spokesman reported a rocket attack Sunday night from Jordan on a kibbutz four miles south of the Sea of Galilee as residents observed Yom Kippur, the Jewish Day of Atonement.

The spokesman said Israeli forces returned the fire. The Israeli said "a few" rockets also were fired from an imprecisely located area of the Zafarani, 15 miles southwest of Jerusalem. No damage or casualties were reported.

'Fair Shares' Boost UF Kickoff

By CHARLES LEGG
Mrs. W. Vincent Roberts announced that the Women's Division and Bert Hollingsworth, treasurer of the campaign for the morning of the official drive.

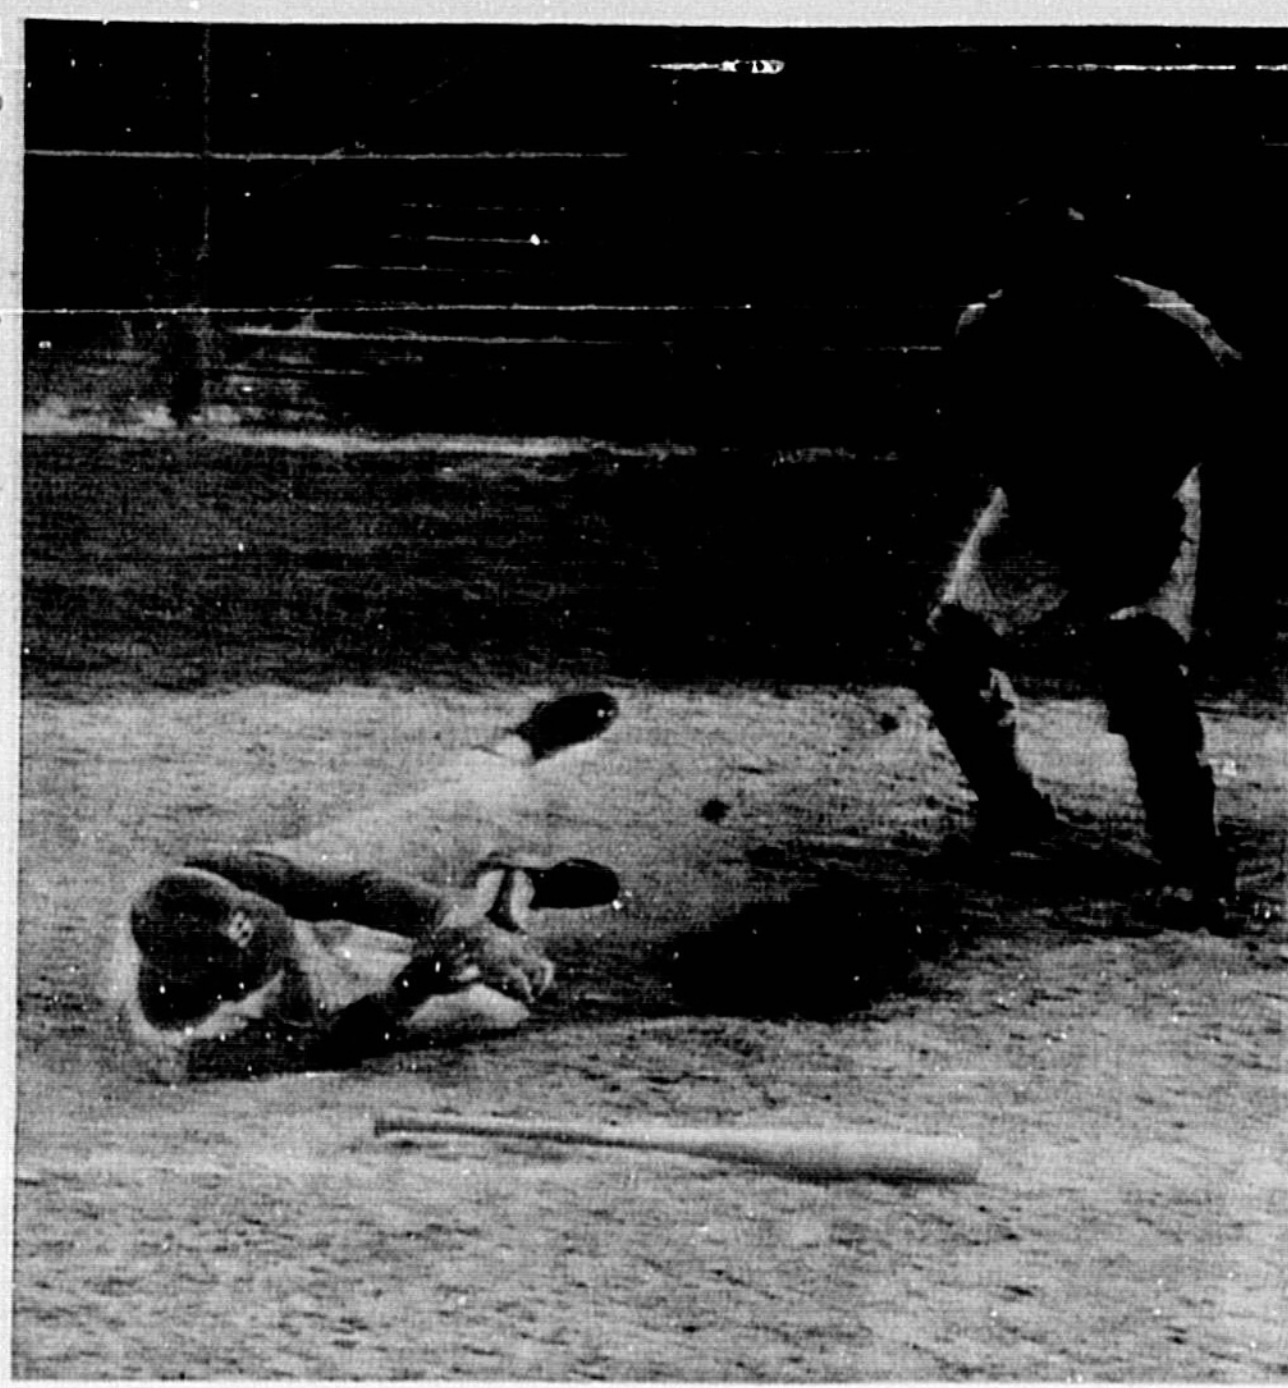

Treasurer Bert Hollingsworth said that several pledges have come directly to his office. A combined total of \$1,300 has been pledged by Jack Owens, Salvation Army Captain, who was the first person to pledge to the fact that there are no geographical boundaries on assisting people, and that Seminole County will unite further in the campaign to assist people in need.

Sanford's Mayor Lee Moore former UF Chairman presented plaques to call attention to the efforts put forth in behalf of the United Fund Campaign in past years by three men. Form-er chairman of the drive, Gene Ketrige and Wendell Spring-ett and Bert Hollingsworth, treasurer of the campaign for the several years, were singled out for the honor.

Attorney Joe Davis, Campaign Vice Chairman brought attention to the fact that there are no geographical boundaries on assisting people, and that Seminole County will unite further in the campaign to assist people in need.

Bergman Impressed With Practices

Raider 9 Goes Through Workouts

By GARY TAYLOR
Herald Sports Writer

The Seminole Junior College Raider diamond nine just finished their fall practice session consisting of four weeks of hard work under the direction of head coach Jay Bergman.

Fall baseball has the same purpose as Spring football which the schools hold each year. It helps to keep the boys in shape over the long winter. It also gives the coach a chance to observe the boys and to see just what he has in addition, the boys develop a way of thinking and a way of doing things to go with the coach's style of coaching.

Coach Bergman feels the team this year has probably the best potential ever far as the boys recruited are concerned. The pitching last year was very good, but Bergman feels this year's staff is even stronger than last year's.

SJC should have five winning pitchers. Ron Harry and Dennis Pitts give the squad capable pitching as they return from last season's team that finished third in the state championships. Three fine additions to the pitching staff are Steve Shumaker, Bob Sherman and Chip Gierke. Shumaker, a standout at Seminole High, finished with an overall record of 10-2 in high school pitching, with an ERA of .67. In addition, Shumaker had a three year batting average of .302. Sherman was a pitcher for Apopka High. Last year he posted a record of 10-0 while striking out 127 batters in 66 innings. While doing this he allowed only 12 walks and fired seven shutouts and four one-hitters. At one time he struck out 27 in a single game.

Gierke, an ace from Edge water High, posted a 7-0 record last year. In 80 innings he struck out 121 while walking only 10. His ERA for the season was .60.

A big change-over has been attempted during the fall practice sessions. Skipper Senkarik, who held down third base while also performing mound duties for Seminole High last year, is trying out the catching position. Senkarik has the arm to make a good catcher.

The Raiders will have work to do when the spring practice seasons open, then the team will be ready. The talent is there, and the Raiders could easily go all the way this year.

OVER GOES A PANTHER with the ball (arrow) as he picks up a big first down during the game with the Chicago Owls Saturday at Soldier's Field in Chicago. The Panthers won 21-10. (Sports Photo by Gary Taylor)

Prep Forecast

By TOM ALEXANDER
Herald Sports Editor

It's a big week in football for area prepsters and ye old crystal ball has been warming up to give you some insight as to who should achieve victory. After having an extremely successful week of predictions which showed us with three rights against one wrong or a 750 percentage it appears that things will be much tougher this week.

Our only miss last week was the game between Lake Placid and Sanford Naval in which we picked Lake Placid, but called the game close. The Panthers pulled a stunning upset, 14-12, and things look much better for the midshipmen this week as they meet always tough Bunnell. But we are not going to take the chance of missing again and the boys from SNA should continue to roll by putting down Bunnell. SANFORD NAVAL ACADEMY 15 — BUNNELL 6

Another big intra-county game is set this Saturday night as powerful Lyman meets improving Crooms in the Sanford Memorial Stadium. The Hornets didn't do as well as expected against surprising Winter Garden Lakeview but look out this week. The game could be close but the Panthers will have to stop Rick Browne and Charlie Mathews before that will happen.

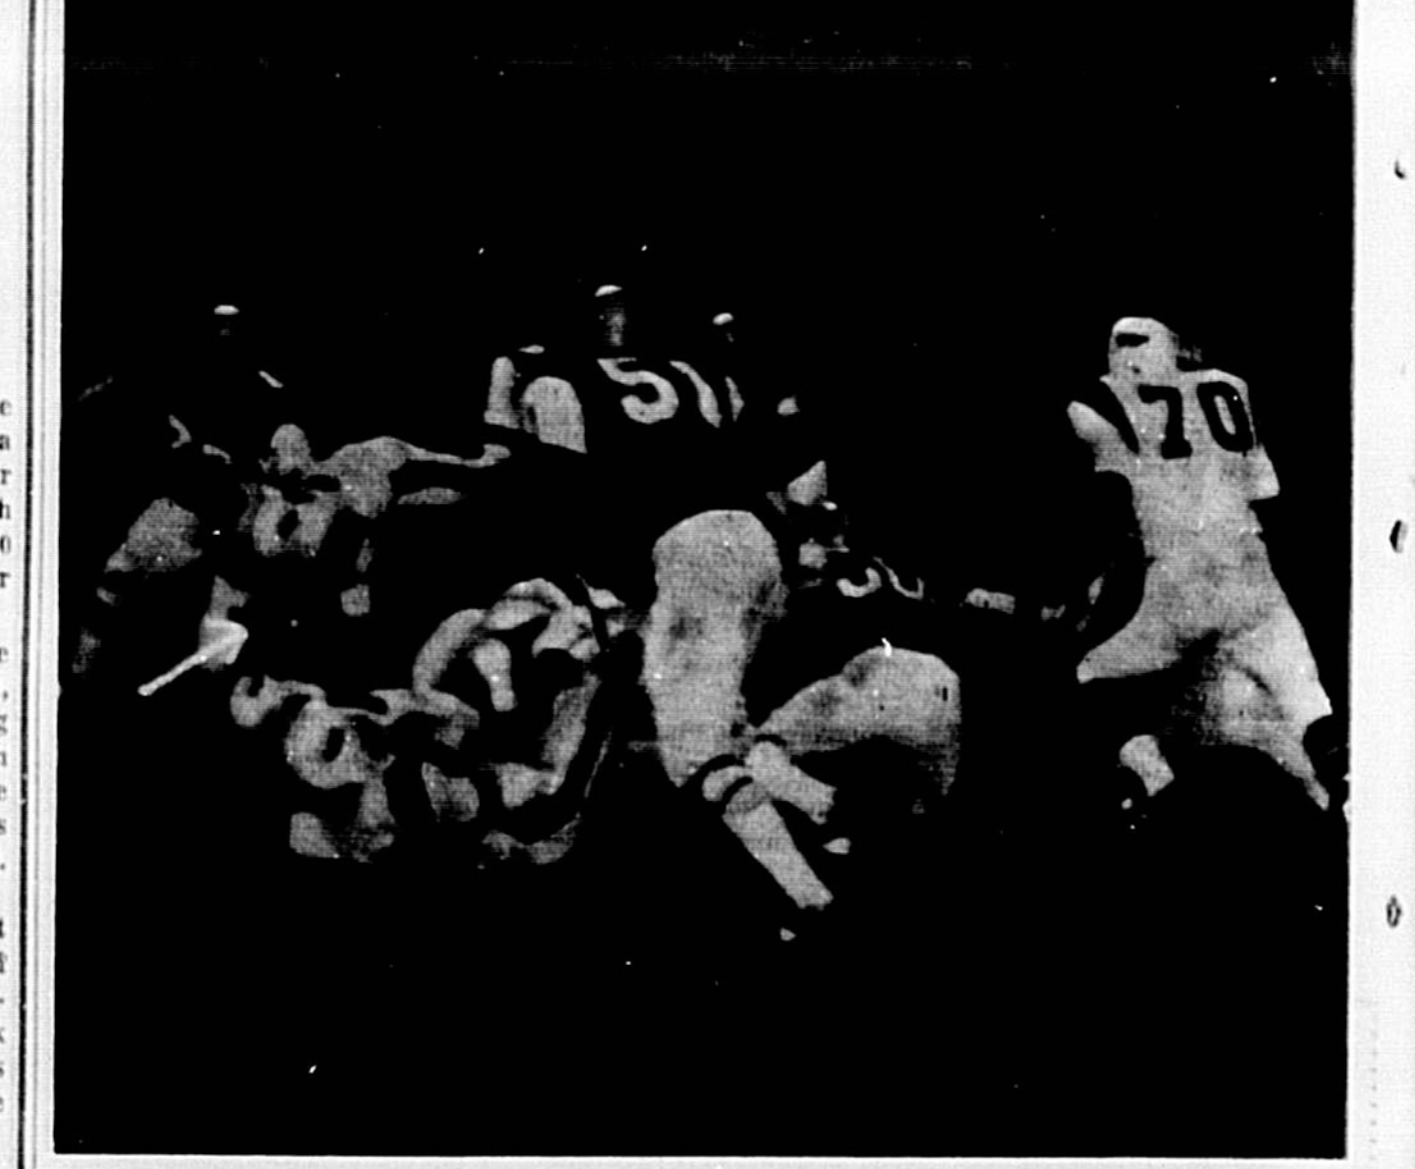

LYMAN 20 — CROOMS 7

Sanford fans are well pleased with the way the Seminoles looked against Oviedo. They were impressive and they should continue to impress many people. Seminole is a young team and this week they will face veteran Palatka, a squad that the Seminoles seem to be mixed by. Sanford hopes to revenge last year's walkover by the Palatka 11 and it is very possible they will. It could go either way but I have to stick by the ranked Palatka team.

PALATKA 21 — SEMINOLE 16

Oviedo will have problems all season as they are a very young and inexperienced team and Friday night it appears that those problems will continue as they meet Dunellon at Corner Field in Oviedo. Fumbles have cost the Lions and mistakes plagued their defense during their opener against Seminole. The Lions should fare better this week but Dunellon will probably be just a little too much for Oviedo.

DUNELLON 20 — OVIEDO 14

OVER GOES A PANTHER with the ball (arrow) as he picks up a big first down during the game with the Chicago Owls Saturday at Soldier's Field in Chicago. The Panthers won 21-10. (Sports Photo by Gary Taylor)

Volusia Educator Leads Racing Life

By FRED COXON
Herald Racing Staff

DELANE—Would you believe that the Deland Raceway into the mid season point champion is a member of the Volusia county school board? You bet your sweet hippy! Bob Bradley, assistant in finance for the Volusia county school board, has more points at the mid-season break than such Deland hot-shots as Bob Whitaker, J. F. Pascoe and Bill Jones. Bradley drives No. 7, a '62 Fairlane powered by a 281 engine. Although the hauler was a feature race this year Bob has been the most consistent driver at Deland in finishing in the money almost every week. Bob is sponsored by Joe D. Smith, Post Control and The Little Red Hen both of Deland.

Bradley builds and maintains his own cars and is often helped by his wife Judy. Judy is the Powder Puff champion of Deland raceway. They have two boys age eight and three who love racing and talk about it constantly. Don is the chairman and first vice president of the Person Lions Club.

Once a boat racer Bradley, with the help of his brother-in-law, Don Dixon (now the start year Bob has been the most

KNEE DEEP in OUTDOORS
by BILL VINCENT JR.

With the Seasonal Speckle Perch season just getting under way, there have been some real nice catches despite the heavy rains we have been having.

With the river rising as fast as it is, the specks are still pretty well scattered with only a small number of large limit catches being reported.

Dun's forged the fish fry sponsored by the Seminole County Sportsman's Association on Saturday night, Oct. 25 at the Sportsman's Park. The main feature will be all the fish you care to eat for a minimum charge. Bob Thomas, Association president says that the funds made on fish fries and stock suppers go back into the preparation of the Seminole County Sportsman's Association. This year's Dove season will be in three parts, with the first starting Oct. 4 to Nov. 2; the second part from Nov. 15 to 30, and the third part from Dec. 15 to Jan. 5.

Local dove hunters will have the opportunity to hunt on two managed dove fields in Central Florida this season, according to Major J. W. Rickerstaff, Central Regional Manager for the Game and Fresh Water Fish Commission.

The T. O. Lee Field is located five miles south of Orlando on State Road 419. Hunting will be allowed on Saturday afternoon only on this field.

A two dollar daily permit is required in addition to a valid hunting license. Permits can be purchased at the checking station on both fields.

Shooting hours are from noon until sundown. The daily bag limit is 18 doves.

Pills Continue To Win

MEN'S WINTER SOFTBALL LEAGUE

Game on PHS 15 Park and Show 6

Gordon Pills remain undefeated. Park and Show showing improvement. For Gordon Pills, Johnson was four for five including a triple. Holman and Dandridge were three for four; one of Dandridge's was a triple. Last had a home run. Winning pitcher, Holmes, lower, 7 Games.

Seminole Heavy Equipment 14 vs. Sears 6

For Seminole Heavy Equipment, Holcomb and Metz were both five for five. For Sears, Hensley was four for four. Kirkland, Chavis and Tucker were all three for four, one of Kirkland's was a home run. Winning pitcher, Ellis, lower, Chavis.

Packers Nip Wildcats

Jayhawks 18 Hawks 6

The big difference in this game was the Jayhawk quarterback, Randy Brown who could do nothing wrong. On the first series of downs with the Rams in possession of the ball Brown intercepted a Rams pass from Rams quarterback, Bill Jones. Bradley drives No. 7, a '62 Fairlane powered by a 281 engine. Although the hauler was a feature race this year Bob has been the most

OUR CAMERA CAUGHT Don Williams, as he returned home with a satisfying catch of the murreling. The two fish weighing 7 1/2 and 4 1/2 pounds (they really looked like they weighed more) were caught by Don in one of the adjacent spring fed lakes in Deltona, using shiners as bait.

Hunting Vehicles Must Have Proper Markings To Assist In Control

TALLAHASSEE — Sportsmen are reminded that their hunting vehicles must be identified. Vehicles that do not bear a current license plate must be plainly marked with the name and address of the owner.

According to the Game and Fresh Water Fish Commission, identification of hunting vehicles will be beneficial to the sportsman and to the wildlife officers who patrol the Florida wilderness.

The regulation provides that the name and address must be painted in contrasting colors, and at least two inches in height.

The new regulation will apply to swamp buggies, half tracks, and some four wheel drive hunting vehicles that are used in the hunting scene.

The Commission also reminded sportsmen of the regulation that limits the height of hunting stands or towers on conveyances. The maximum height is 10 feet.

Arizona's football squad includes nine junior college transfers since last season.

CROSS COUNTRY TEAM from Seminole Junior College is off to another successful season. The team is shown in the picture. From left to right: Steve Christie, Stormy Richards and Julius Walker. Second row, Rob Caldwell, Barry Mesa, Jim Deuring, Mike Varnum and Rick Clark. Bob Nault is missing from the picture. The team is coached by Roger Thomas. (Herald Sports Photo)

AND THIS IS HOW Willie Maas looked when it all began, as a sensational 1961 performer at Minneapolis, where a 477 average the first month earned him a quick promotion to the Giants.

Wonderful Wonderous Willie

SAN DIEGO (AP) — Willie Maas gave his best performance yet when he pitched a no-hitter on Sept. 25 at St. Louis. He became the second major league pitcher to hit no home runs.

The pressure was building up. I had been trying too hard to hit home runs," said the 29-year-old wonder after he pitched no. 66 as a pinchhitter Monday night on one of the clearest nights to give San Francisco a 4-2 victory over Atlanta.

"The big thing is that it was the game," said Maas after leaving the Atlanta home run. "I was just trying to relax and enjoy the game. I was just trying to relax and enjoy the game. I was just trying to relax and enjoy the game."

Giants Continue Fast Pace; Didier Pulls Trick To Win

By MIKE RECHT Associated Press Sports Writer

Rob Didier has become perhaps the first catcher ever to pull off the hidden ball trick, but no one—except Babe Ruth—has ever been able to make them disappear.

MAJOR LEAGUE Standings

Teachers League Organizes

The Seminole County Classroom Teachers Department held a meeting on Thursday, Sept. 25, at the Jet Lane conference room.

Purpose of the meeting was to decide if enough interest could be generated among the teachers to form a bowling league.

The President of the classroom teachers group, Howard Harrison, invited the idea in an effort to get the teachers out for a relaxing fun session each week.

Enthusiastic players for a league have already signed up to help the group planning to hold a brief meeting on Thursday, Sept. 25 at 9 p.m. and to start bowling immediately following the business session.

Sports In Brief

Ready To Go FOUNTAIN, Colo. (AP) — The first Sunday horse racing in Colorado's history was held at Pike Peak Turf Club, just four days after Gov. John Love signed a legislative bill legalizing Sabbath racing.

Record Set DENVER (AP) — Larry Jones of the Denver Rockets became the highest scorer in American Basketball Association history by scoring 21.33 points in 75 games in the 1968-69 season.

Air Force End AIR FORCE ACADEMY, Colo. (AP) — Charlie Longenecker was an all-state basketball player at Hall High, Little Rock, Ark., but at the Air Force he has developed into a fine split end for the football team.

Dear Abby:

DEAR ABBY: I would like your opinion of a little incident that happened to us. This day I still can't believe it.

First, let me explain that I am 22. My husband is 24, and we have a four-month-old baby. My husband and I set out for a drive in town, and we took our baby with us.

Outside the drive in theater was a sign saying "NO ONE UNDER THE AGE OF 17 ADMITTED."

Well, a policeman stopped us outside the gate and said we couldn't take our daughter into the theater because she was under 17.

Now, Abby, I mean, what is a four-month-old baby going to see and tell? Wouldn't you say that was going a little far?

LOUISE'S MOTHER DEAR MOTHER: Not only are you wrong, I doubt if you can do it. You could demand that Louise date other men, but that's not your business.

DEAR SPRINGFIELD: I think you're right. I don't believe you're a "babe in arms" dude tacked on to the military world.

DEAR ABBY: We have a wonderful daughter whom we have not permitted to date until she reached 16.

Wes Kay Has Many Firsts

R. D. Wesley, better known as Wes to the many patrons of the WES-KAY WASHETERIAS, seems to always be coming up with a "FIRST AND ONLY."

Here are some of his past "FIRST and ONLY's":

1. FIRST and ONLY coin laundry in Sanford to offer DOUBLE LOAD WASHERS for the SAME PRICE as all other single loads.
2. FIRST and ONLY to offer air-conditioned comfort to his customers at the French Ave. location.
3. FIRST and ONLY laundry to offer SINGLE LOAD WASHERS for 40 per cent LESS THAN ANY OTHER coin laundry.
4. FIRST and ONLY to offer dyeing service at the French Ave. location.
5. The FIRST dollar bill changer in SEMINOLE COUNTY was installed at Wes-Kay on French Ave.
6. There are many others but this will give you an idea as to why people drive right by one, two, and three coin laundries to go to Wes-Kay!

Since Wes recently started operating the WES-KAY II WASHETERIA at 111 W. 27th St. (near Pinecrest School), he has been constantly improving the facilities offered, and NOW HE HAS AIR CONDITIONED COIN LAUNDRY IN SANFORD. THIS IS ANOTHER FIRST AND ONLY! Not only can you wash in air conditioned comfort, but you can save at least 40 to 50 per cent of the cost of doing your laundry anywhere else in Sanford! You can't beat that, can you?

WES KAY WASHETERIAS now are operating at two central locations in Sanford. One of the laundromats is located on French Avenue South of 20th Street while the other is located on 27th Street near the Pinecrest School.

Sanford County Seat, Supreme Court Rules

Bonds OK'd For New Building

Herald's Prediction On Decision Upheld

TALLAHASSEE, Fla. (AP) — A lower court decision which declared Sanford to be the permanent seat of government of Seminole County was upheld today by the Florida Supreme Court.

The high court, in a 4-1 decision, stated: "After more than 30 years, during which Seminole County has functioned with Sanford as the county seat, it is now too late to question the permanent nature of the seat of county government."

The court in the same opinion upheld the validation of \$2.9 million in bonds to be used for construction of a courthouse and jail in Sanford. A suit had been filed against the bonds, contending that the bonds were not the permanent county seat.

"Infinitely more mischief and harm would result to the public from now declaring such location to be temporary than would result from approving the location as permanent, a status which has existed for more than half a century, with the acquiescence of the public."

(Continued on Page 2A, Col. 7)

LIGHTNING STRIKES SANFORD

THE HEAVENS' protechnical show last night may be construed as a forerunner of today's Supreme Court decision favoring Sanford as the seat of Seminole County. The Herald's editor, John Spelberk, was experimenting with time exposure when he captured this shot.

By FRID VAN PELT

The Florida Supreme Court's ruling today — that Sanford is the permanent seat of Seminole County and upholding the validation of bonds — opens the door for the County Commission to commence construction of a new court house, at an estimated cost of \$3.2 million.

The high court's decision, released this morning, was forecast on Sept. 17 in The Sanford Herald in an exclusive page 1 news article.

"Preliminary building plans have been completed for the new court house, to be located on Park Avenue, between the present court house plant and the lakefront. All planning had been halted pending the Supreme Court's decision."

"I am tremendously pleased, of course, with the decision," said John Alexander, chairman of the County Commission, who continued: "I will call an early meeting with the county attorney, architect and fiscal agent to proceed with construction now that this legislative question is out of the way."

The Supreme Court's decision today upholds the original decision by Circuit Judge Roger Dykes and arguments advanced by Harold Johnson, county attorney, and William C. Hutchison Jr., special counsel, representing Seminole County.

Robert F. Tucker, for himself, and others similarly situated, represented by Harlan Turk, filed the original suit in 1966 in the local court, claiming it had never been determined legally that Sanford is the county seat.

Another suit was filed, Seminole County vs. the State of Florida, seeking validation of \$2.9 million in bonds for the court house construction.

Judge Dykes ruled in favor of the county, that Sanford is the county seat and approved validation of the bonds.

The District Court of Appeal reversed Judge Dykes' decision.

Hutchison and Johnson carried the court house suit to the Supreme Court. C. Vernon Mize, as a taxpayer, represented by Mack N. Cleveland Jr., carried the bond validation to the high court.

Charges Dropped; Son With Mother

An 18-year-old Sunland Estates mother accused of trying to drown her 14-month-old son under a bathtub faucet last August will not be prosecuted.

Assistant State Attorney Thomas Speer confirmed today that Virginia Joiner will not be tried due to insufficient evidence and the baby has been returned to the mother.

Mrs. Joyce Kelley, Family Services supervisor, refused to discuss the situation with the press or to relate why the child had been returned to the mother.

Speer said Mrs. Joiner and her son are residing with her parents, and no information charges will be filed.

Mrs. Joiner was arrested Aug. 5 by Seminole County authorities after she allegedly took Christopher, her son, into the bathroom and placed the infant under a faucet.

The woman was ordered bound over to Circuit Court by Judge Wallace Hall after the jurist reduced the \$1,300 bond to \$500.

The child's 19-year-old father had just entered the Marines the day before his wife was arrested, and it was reported that a custody hearing would be held to determine who should receive the child.

Scores Orlando Newspaper Photo

Angel 'Pot Shots' News Media

By BILL SCOTT

School Superintendent John Angel took a picture taken of him and published in an Orlando newspaper seemed to represent him as "chewing somebody" in connection with a parents protest of busing children to Spring Lake School.

Angel said the photo misrepresented the facts and accused the newspaper of using a photo which was not in line with the true situation.

"Several pictures were taken, but only the one showing me looking mad was published," he complained.

The superintendent said there had been no confrontation and the parents, opposed to overloading the buses, were courteous and nobody was angry.

Walter Feagles, school finance officer, said he was sitting on the \$1.8 million bond issue and did not know that reason the bonds were not sold was the bond market and the credit rating of the county.

Angel defended the spending of \$18,000 for lighting the Lyman athletic field and pointed out that athletics is an important part of the education picture.

County Cattle Under Test

TALLAHASSEE (Sp.) — Florida's 35 counties which have modified certified status in the State-Federal brucellosis program for cattle could lose their status unless certain steps are taken to comply with Federal regulations which became effective Aug. 1.

Dr. John B. Healy of Jacksonville, Federal veterinarian in charge for the U. S. Department of Agriculture, said today that cattle in a non-tested herd in Florida is not certified.

"Our situation (in Florida) is not hopeless," Dr. Healy said, "but it is not certain whether Florida can continue participation in the livestock brucellosis testing program."

Complicating the testing program is USDA's removal last week of Federal matching funds for brucellosis testing at livestock markets. Dr. Clarence Campbell, state veterinarian and director of the DAI, said it is not certain whether Florida can continue participation in the livestock brucellosis testing program unless an equitable payment arrangement can be worked out with veterinarians.

PTOs Face Problem On Carnival Sites

By ANN HILBY

The first Longwood Parent-Teacher-Organization meeting of the new school year was held Tuesday night and the main concern was how to raise additional money since the last Legislature removed the liability immunity from the schools.

Hendeloth, the local PTOs are curtailed in their big money making project of the year, the carnival.

The question is now where the money is coming from to provide the things that the PTO has purchased in the past. It was even in doubt whether the PTO was legally entitled to hold a meeting on school property after school hours.

Committee chairman were introduced by David Tilson, president.

Mrs. Anetta Cuberly and James Neville presented a program of slides and tapes on "Learning Unlimited."

Prior to the program, parents were invited to visit their child's room. Following the meeting refreshments were served.

Military Wood

By CHARNER LEONE

An effort to interest retired military personnel in the civic affairs of the community and attract other retirees to Seminole County will be made by a special committee of the Chamber of Commerce hopes to set up soon.

The Projects Development Committee will make an effort to reactivate the Armed Forces Committee that disbanded when the Sanford Naval Air Station left Sanford.

Committee member A. J. Peterson stressed that the new committee will encompass all retired military personnel in the area. Those from DeBary, Deltona, and other nearby areas will be encouraged to join, too, he said.

An organizational luncheon for the retired military will be held to set the committee up, said John Kridler, manager of the Seminole County Chamber of Commerce. A retired officer will be asked to help set up the organizational luncheon. No dates have been set yet.

Thanks, Dad...

MIAMI BEACH, Fla. (AP) — Vice Mayor Joseph Malek reports a strong start in his efforts to raise money for a reelection campaign.

"A man walked into my office, told me what a great job I had done on the council, promised to support me for re-election and handed me a check for \$500," Malek said. "I looked at the check, looked at the man and said, 'Thanks, Dad.'"

one of the 12 counties in the state which have not reached modified certified status, must go to slaughter or to a quarantine feed lot if they enter interstate or interstate trade.

An exception would be establishing a qualified herd in one of those counties by special testing, he said.

Modified certified means the incidence of the disease has been reduced to the point that not more than one per cent of the cattle and not more than five per cent of the herds are affected.

The 12 Florida counties are Alachua, DeSoto, Glades, Highlands, Hillsborough, Marion, Martin, Polk, St. Johns, St. Lucie, Seminole and Hardee.

The Aug. 1 USDA regulations involve interstate and intrastate shipment of cattle from non-
