

Visit Results In Purchase Of Home

Brilliant sunshine of a typical Florida morning recently found Fred Parlow putting snow tires back on his car in preparation for the long trip back to the snow and cold of Minnesota.

Parlow and his wife, Marian, left St. Paul intending to spend a long anticipated visit with her brother and family, Mr. and Mrs. Robert Haney, in Deltona.

In the words of Don McNeill of Breakfast Club Radio fame, "They came, they saw and Deltona conquered." Just one week from the day they arrived at the Haney home on Hartley Avenue, the Parlows consummated the deal on a new home on West Wellington Drive. Anxious to return home and settle business affairs there so they could return to Florida, they left Deltona with the admission of new neighbors to "Hurry back—Y-hear?"

Residents of the community are sure the deep tan acquired by the Parlows in the Florida sun and the news of the purchase of their new home will be the envy of their friends in St. Paul.

Twenty-one twirlers, 12 in the A-Corps and 9 in the B-Corps, participated from Seminole High School. Both groups placed second in their fields. (Herald Photo)

232 Things Orbiting The Earth

WASHINGTON (UPI) — As of today 232 objects fashioned by man are orbiting in space at distances ranging from a few hundred to many millions of miles from earth.

Most of them are junk—dead satellites, burned out rockets, and fragments of rockets or spacecraft which broke loose after launch but remained in orbit.

They represent what is left in orbit of the 576 pieces of hardware which have been hurled into space by the United States and the Soviet Union since Sputnik 1 was launched on Oct. 4, 1957.

Of the 232 still orbiting objects, 209 were lofted by the United States and 23 by the U. S. S. R. Of these, five U. S. and three Soviet spacecraft, all long since mute, are in endless planetary orbits around the sun.

One of the others, launched by Russia on April 2, 1963, is a mystery. It is revolving not around the earth or the sun

but around the earth-moon system in what is called a barycentric orbit.

Among the 209 U. S. launched objects still in space, only 17 are officially recorded as being, so to speak, still alive. They are still able to transmit radio signals to earth.

By Jane Casselberry
More than 100 varieties of hybrid roses will be on display Saturday from 9 a. m. until 4 p. m. at Florida State Bank in Sanford at a Rose Show being sponsored by the Lyman High Distributive Education Class in cooperation with Deltona Nursery.

Many nationally known figures will be speaking at the convention which will be attended by representatives from every state in the union. Florida's delegation will include 42 students.

Lloyd Barnes is Distributive Education co-ordinator at Lyman.

ONE ACT to be presented at the Oviedo High Student Talent Show this month will feature "The Beatles Cousins." Harriet Henson on drums and Kay Wiggins and Connie Morgan, left to right. Also appearing with the group is Linda Kusell, not shown. Date and time for the show will be announced. (Herald Photo)

GOP Rights Bill Support Cited

WASHINGTON (UPI) — Sen. Jacob K. Javits, R-N.Y., cited messages today from six Republican governors, including three presidential possibilities, as examples of "positive and clear" GOP support for the civil rights bill.

Javits and Sen. Wayne Morse, D-Ore., were the scheduled Senate speakers in debate on the bill's provision authorizing the Justice Department to file suits to desegregate public facilities such as parks and libraries.

In a prepared speech Javits hailed the role of Republican lawmakers in getting the bill through the House and to the Senate floor. He declared "rumors" that Republicans would support amendments designed to weaken the bill.

"On the contrary, there is every reason to expect that Republicans in the Senate, notwithstanding their relative size as a group, will be the indispensable means to attain a meaningful civil rights bill with every title in it preserved and adequately covered as they were in the House of Representatives," Javits predicted that GOP senators would support all phases of the bill and back an expected attempt later to shut off Senate debate.

Jury Tampering Case Speeded

NASHVILLE, Tenn. (UPI) — The prosecution expected to rest its case today in the trial of Lawrence Medlin, charged with jury tampering in the 1962 conspiracy trial of James R. Hoffa.

James Tappens, a prospective juror in the 1962 trial, testified Wednesday that Medlin offered him \$10,000 for a vote of acquittal in the case of the Teamsters Union president.

Medlin, operator of a sandwich packaging firm, was indicted with Hoffa and five other persons by a federal grand jury called into session after the conspiracy case ended in a mistrial.

Tappens, a neighbor of Medlin, said he was approached by the defendant Oct. 23, 1962, the second day of the trial. He said Medlin told him "there's a lot of money involved... \$10,000."

Tappens testified that Medlin said, "We have a chance to make big money. No one will know where it came from. It will take only one vote. Maybe not even that."

Tappens said he reported the incident to U. S. District Court Judge William E. Miller the next day and was excused from the jury panel.

The Sanford Shopping Plaza buildings are going up . . . the Palms Hotel and the Woodruff buildings are coming down. That's life!

Chamber Manager John Kridler reports his office is processing another 500 or so requests for information resulting from an advertisement in Field & Stream magazine about fishing in these parts. If Kridler could only tell them about a new marina with hotel, motel and cafeteria accommodations right on the lakefront.

A box, sealed in the cornerstone of the old Times Tower in New York's Times Square was opened the other day. Leading stories in 12 newspapers, dated Jan. 18, 1904, included:

Bloody uprisings in Africa, trouble in Panama and the Far East, commuters complaining of congestion, Broadway box office practices were being criticized, plus editorials pointed out the dangers of smoking. What kind of a day was Jan. 18, 1904? Like any other day—then and now.

Sanford Kiwanians have scheduled a pancake supper on May 2.

Did you know that when mothers are helping out at the Little Red School House their children are kept free of charge at the Pinecrest Kiddie Korner?

That photo of Burt Thomas and the string of 13 bass, appearing in Monday's Herald, was caught near John Crim's fish camp.

The last occupant of the old Woodruff Building is moving. The John E. Fox Realty Company is occupying new quarters at 206 North Park in the Edwards Bldg. The Woodruff location will become a city parking lot.

Ten years ago Johnnie Elam expressed a desire for an English bulldog. Now she has it—a 66-pound, pug-nosed canine which came as a "Mother's Day" gift from son, Jack Elam, home on vacation from Gordon Military Academy at Barnesville.

Mrs. E. D. Thornton, 306 Magnolia, Sanford, is hunting for \$100 she donated several years ago when the Seminole County Humane Society was driving for funds. For lack of support, the society never got off the ground. Someone has told Mrs. Thornton the money is being returned to donors. So, to anyone holding society funds, Mrs. Thornton would like to have her \$100. The then president has remarried and left Sanford, and Mrs. Thornton has been unable to locate anyone else who was associated with the society.

Former Herald society scribe Helen Gleason, and now public education chairman of the Seminole County unit of the American Cancer Society, says her office has some new films on cancer. "We're anxious," she says, "to reach as many as possible to show these films and perhaps get to just one person in time to save a life." Any groups, from a few to hundreds, can see the films any time, anywhere. Helen adds that a physician is present to answer questions.

To the dog lover who telephoned: Chico's grave marker is missing from the vacant lot next to the public library in Sanford. The lot is to become a parking lot. Seems the marker disappeared about the time the flagpole was moved to the front of the library. To the uninitiated, Chico was a pet of postal personnel when the postoffice was situated in the building now occupied by the library.

Thousands At Auto Show

Several thousand persons were on hand Thursday afternoon and night for the opening day of the fourth annual Auto Show of the Sanford Automobile Dealers Association at Fort Mellon Park.

Well over 100 models of 1964 and 1964½ automobiles and trucks, along with foreign sports cars, are on display.

The show will continue though 9 tonight and from 2 to 9 p. m. Saturday.

Participating in the event are Brass Motors, Bill Hemphill Motors, Holler Motor Sales, Hunt Lincoln-Mercury, Sanford Motor Company and Strickland-Morrison.

Capt. Sol Solomon, world champion high diver, thrilled Thursday night's visitors with a plunge from a 118-foot ladder into less than six feet of water. He was forced to cancel the afternoon dive because of high winds.

An African ring-tailed monkey pleased the kiddies with his act, including puffing a cigar and playing a guitar. There also is a canine act slated for Saturday.

Captain Solomon performs his high dive at 4 and 8 p. m., with the evening performance a "fire dive."

Two bands are on hand nightly for musical entertainment while the Junior Chamber of Commerce dispenses refreshments.

Mac Battling Uremic Poison
WASHINGTON (UPI)—Doctors worked steadily today to save Gen. Douglas MacArthur from the onslaught of uremic poisoning.

The 64-year-old general of the Army, who slipped a little Thursday in his fight for life, is being gradually infused with wastes his kidneys fail to flush from his body.

The old soldier has undergone three major abdominal operations since entering Walter Reed Army Medical Center on March 2.

A hospital spokesman attributed MacArthur's stamming "to his heart, his constitution and his will to live." The general was conscious, although under sedation.

Physicians resorted to dialysis and peritoneal dialysis to take over the kidney function of cleansing the system of impurities.

Makarios May Scrap Treaties
NICOSIA, Cyprus (UPI)—President Makarios today was reported on the verge of nullifying Cyprus' 1960 treaties with Britain, Greece and Turkey in a move aimed at ousting Turkish troops from the war-scared island.

Such a unilateral abrogation of the treaties by the Greek Cypriot archbishop, diplomatic sources said, would almost certainly bring bitter reaction from Turkey and create a new crisis even before United Nations mediator Sakari S. Tuomioja begins his peace efforts.

ETV Meeting
TALLAHASSEE (UPI)—The monthly meeting of the Florida Educational Television Commission will be held April 14 at the University of South Florida, executive secretary James Etheridge said today.

Improved Ties With Mazzilli Regime Seen

WASHINGTON (UPI)—Secretary of State Dean Rusk today indicated U. S. readiness to give increased aid to the new Brazilian government to help it with economic and social development.

Rusk told a news conference he believes Brazil's military leaders, state governors and congress had warded off a threat to the country's constitutional system by ousting President Joao Goulart.

Rusk said there was concern that the leftist Goulart was leading Brazil toward some authoritarian form of government before his overthrow.

Rusk echoed and expanded on President Johnson's expressions of hope for strengthening relations and improving cooperation between the two countries in the wake of the overthrow of the Goulart regime.

Rusk told newsmen he did not think the ouster of Goulart was a precedent for other military coups in Latin America which would not keep democratic constitutions in force, as he said Brazil did.

Rusk made clear that U. S. recognition of the Brazilian government continues—and was not interrupted during the revolt.

He categorically denied charges in the Cuban press that Brazil's revolution was prepared and paid for by the United States. "There is just not one iota of truth in this," the secretary said.

Johnson Thursday night sent a message to the provisional president of Brazil, Ranieri Mazzilli, to whom he extended "warmest good wishes." It was the first U. S. statement on the Brazil changeover.

Hunt Pushed For Kidnaper

HALLANDALE, Fla. (UPI)—Police and FBI agents intensified the hunt today for an ex-convict wanted for the kidnaping of a 10-year-old South Carolina boy whose skeleton was found in a swamp near here.

Hallandale police said they planned to file murder charges against the fugitive, 25-year-old Joseph Francis Bryan, already wanted by Mount Pleasant, S. C., police for kidnaping and by the FBI for interstate flight to avoid prosecution.

Three youngsters hunting Monday in the sands of a mangrove swamp for lizards found the skeleton, a pair of brown shoes and a kitchen knife nearby.

U. S., Panama In Accord On Plan

WASHINGTON (UPI)—The United States and Panama have reached agreement on a formula for resuming diplomatic relations and discussing a settlement of their dispute over the Panama Canal, authoritative sources said today.

An announcement from the White House, Panama City and the Organization of American States (OAS) is expected within a matter of a few hours, the sources said.

Cape Pickets Still On Job

CAPE KENNEDY (UPI)—Picketing guards and striking iron workers kept major space construction at a crawl today while government labor specialists sought ways to end the three-day labor flareup.

"The iron workers are still 100 per cent off today," said a spokesman for the Army Corps of Engineers. He said other building trades workers were trickling back to their jobs but many remained away.

Hevia Dies

The contest will be staged April 23-25, at the Civic Center. Miss Russell is being sponsored by Kaler Jewelers, Sanford.

Russia Moves Toward Open Chinese Break

MOSCOW (UPI)—The Soviet Union, charging that Communist China had "passed all limits" in its attacks on Premier Nikita S. Khrushchev and Soviet policy, today called for a summit meeting of the world's Communist parties that could lead to a final break with Peking.

The Communist party newspaper Pravda broke five months of silence, hitting back at charges made by Peking this week that Khrushchev had abandoned communism in Russia, had capitulated to the capitalists abroad, and ought to be ousted.

Pravda published a secret speech by party ideologist Mikhail Suslov, made Feb. 14 but withheld until now, and coupled with it answers to Chinese attacks made since that time.

It called the Chinese demand for Khrushchev's ouster "a terrible insult to our party and the entire Soviet people."

There was speculation that the meeting might be held as early as April 17, Khrushchev's 70th birthday. Suslov's speech said only that it would discuss the problem of Peking, but the new exchange of attacks appeared to put the two Communist giants on collision course, and China's expulsion from the Moscow-led Communist camp was not ruled out.

School Group Dines Tuesday

The Diversified Cooperative Training Program organization at Seminole High School will present its annual employe-employer banquet at 7:15 Tuesday night in the Student Lounge.

LT. Cdr. Paul S. Folger, commanding officer of the Naval Air Maintenance Training Detachment at SNAS, will speak on "Training Men for Today's Naval Aviation." The banquet is given annually by student employes to honor their employers.

White Dolphin From Black Sea

MOSCOW (UPI)—Russian fishermen caught a white dolphin in the Black Sea, the official Soviet news agency Tass said Thursday.

The rare albino fish weighed more than 130 pounds and was the first of its kind caught in the Black Sea in more than 20 years, according to Tass.

Floridan Sues Drug Company

TAMPA (UPI)—James H. Ball, editor of the Bradenton Herald, filed a \$500,000 damage suit in federal court here Thursday against a national drug manufacturer.

Hall alleged in his suit that he had taken a drug made by the Viek Chemical Co. and that use of that drug caused him to have cataracts on both eyes.

The suit contended that Hall took daily doses of the drug Triparanol, also called MER-29, on doctor's orders from June of 1960 to January 1962, where he complained of blurring vision and skin irritations.

On April 9, 1962, an ophthalmologist diagnosed Hall's vision trouble as posterior subcapsular cataracts in each eye, the suit said. The cataracts were removed by surgery, but the suit contends Ball lost all of his side vision, making it nearly impossible for him to drive a car.

Mississippi Legislation Seen As Anti-GOP Pattern In Dixie

Rev. Grover Sewell

Who Is The Boss?

Almost two thousand years ago the Apostle Paul began a voyage. Paul boarded a ship that would carry him to Rome as a prisoner. The terrible judgment of the Roman authorities awaited him and it concerned, not some lowly crime, but his faith in God.

The ship was sailing in the Adriatic Sea where it faced a fierce storm. In Florida we feel very mistreated if a "cold snap" catches us with an empty oil tank or a hurricane prevents us from an extra fishing trip, but Paul faced a fourteen day storm when his comparatively frail ship was tossed about as a feather in a breeze.

One can read the details of this storm in the Book of Acts and it records high adventure, indeed. The roaring waves and howling wind made everyone realize what danger he faced. One can feel the panic and terror of the passengers of this ship. The material goods piled into insignificance as life was threatened. Not only the cargo but the gear of the ship was thrown overboard in an effort to save the people.

As the storm tossed the boat to and fro the passengers, soldiers, and crew, were frantic with fear, weak with hunger, and exhausted from lack of sleep.

One would think that if a single person remained calm it would be the captain, but this was not true. The person who took command of the situation was the Apostle Paul.

It was not merely the human strength or bravery of Paul that allowed him to comfort those who were frightened. Paul stood in the name and power of His God. He was able to calm the people that might survive the predicament which they faced.

How we need people today who can bring peace and calm to a world so full of storm and strife. We continue to find ways to raise more food and invent more machines which is fine, but perhaps we will all admit that a far greater need in our world today is comfort and peace that can come only as we have faith in God.

The Apostle Paul faced fear more to bring fear to his heart than most people do.

Robert A. Macks Dies In Orlando

Robert A. Macks, 60, of 218 E. Fifth Street, Sanford died Thursday afternoon at Orange Memorial Hospital. He came here eight years ago from Pensacola.

Survivors are his wife, Mrs. Donnie Macks of Sanford; three sons, Clarence James and Eddie Karl, both of Sanford and Elvin Russell of Washington State; four stepsons, Allen, Albert L. and Ed Capps, all of Sanford and Loron Capps of Pensacola; three step-daughters, Mrs. Thelma Singleton of Pensacola, Mrs. Willie Mae Chark of California and Mrs. Lorene Cutchner of Sanford; 48 grandchildren and 13 great grandchildren.

Funeral services will be held at 2 p.m. Monday at Gramkow Funeral Home with Rev. H. C. Smith officiating. Burial will be in the Paola Church of Christ Cemetery.

Westminster To Celebrate Communion

The Sacrament of Holy Communion will be celebrated by Westminster Presbyterian Church at Sunday's 11 a.m. worship service in the chapel on SR 436 at Howell Park. Rev. John N. Montgomery, pastor, will speak on the subject "When Eyes Are Opened." The choir will sing "Come Ye Disconsolate," an arrangement by Peery.

There will be a nursery for the care of small children during the service.

There were the angry crowds who would kill him, the courts that would convict him, the friends who would desert him, and even a family who wanted him no more, yet he could still take command of life as he demonstrated time after time.

Paul said, "For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind." (1st Timothy 1:7). Can we carry on in the fine heritage that we have as Christians and take command of life in the name of Jesus Christ, our Saviour and Lord? If our faith is mature we can.

If it is not such that can face the storms unafraid, let us have a spiritual check up. If something is wrong physically you should see your medical doctor. If something is wrong spiritually you should contact your clergyman. He will be glad to help you find God's guidance until life is at your command.

Rev. Jack Lindsey, pastor of the Longwood church, has invited the public to attend the daily 7:30 p.m. meetings. Special music is provided for each service and a nursery is provided for the care of small children.

Other features of this year's all-new show include the sensational riding Santiago, Carmacosta Del Tado—Spain's lovely goddess of balanced flight, the Aguilare—Europe's supreme exponent of perch pole equilibrium, the Paulos—Germany's world champion masters of acrobatic adagio and contortion, Claudine Freriks—a Danish plate spinner, and Michellety—a French unicyclist.

JC Speaker Tells Of Proposed Amendment To Constitution

An amendment billed to "make the Constitution of the United States the supreme law of the land" was explained to Sanford-Seminole Jaycees Thursday noon at their Civic Center Luncheon.

Speaking was Alfred H. Nelson, president of the Liberty Amendment Committee of Florida.

Nelson insisted the amendment, among other things, would "remove the government from competing with private industry." It also would abolish the income tax which, his committee asserts, is in direct violation of the Constitution.

The speaker, assisted with colored slides, detailed the trend to "socialism" and emphasized how the government agencies are sidestepping the Constitution.

Other visitors to the meeting were Don Asher of Orlando, Fourth District vice president who reported on the district's activities during the past year, and Rick Hall of Clearwater, candidate for

About Sports

Thinking Out Loud

By JULIAN STENSTROM

There's nothing like a warm, balmy Florida afternoon and the chance to relax in the sun while chewing the fat with a fellow such as Ernie White, director of field operations for the New York Met farm system now based at Sanford's Memorial Stadium.

White, also manager of the Williamsport entry in the AA Eastern League, perhaps ought to be in politics. He's a good talker, let's you know what he thinks, and does it in a convincing way.

And not only that, in eight years of managing baseball teams since he closed out his own major league playing career, he's slippedper four clubs in state capitols. He managed the Sacramento Solons of the old Pacific Coast League one season, spent another year as pilot of the Austin club of the Texas League, led the Charleston, W. Va. outfit one season, and for five years was at the helm of the Columbia, S. C. club of the Sally League.

Before that, Ernie spent 10 years in the majors. He was with the old Boston Braves three years and spent seven years with the Cardinals. He was with St. Louis when they copped the National League flag in 1948 and 1949. On both occasions the Cards went on to take the world's championship. In '48 they knocked off the Yankees and in '49 they edged the Boston Red Sox.

During the 1963 season Ernie spent the year with Casey Stengel as the Met's pitching coach.

We asked Ernie what we could expect from Casey and the Mets this season.

"He's going to go with his youngsters, just as he said he would," White declared. He added, "Stengel's got some fine young talent. What they'll do under fire remains to be seen. But if some of 'em come through the Mets will be a much better ball club."

What about the future of minor league baseball? We asked.

"I don't know," explained White. "Most of the major league clubs are down to four or five farm clubs. We (the Mets) have only four teams. Buffalo, Auburn, Williamsport, and Salinas of the California League.

"Major league baseball has ruined a lot of areas for minor league play," said White. "There's Sacramento, for example. For \$8 you can get transportation from Sacramento direct to Candlestick Park, your lunch, see a ball game, and transportation home . . . all on a new freeway. The Giants took the minor league baseball never again will pay it way in the California capital.

"The best minor league area today is the Pacific northwest in cities such as Seattle and Portland. But as soon as a major league team goes into that area it'll be the end of minor league baseball as a paying proposition there."

Then White floored us while we were discussing the time when the old PCL.

"Now," he said, referring to the fact that the PCL is scattered from Minneapolis, Dallas and Little Rock to Hawaii, "I don't understand how they can pay the freight for transportation.

"Did you know," he asked, "that it's further from Minneapolis to Hawaii than from Minneapolis to Paris—and I mean Paris, France?"

That was our geography lesson for the day. We didn't realize it. In discussing the subject further, we both agreed that it was a probability that someday—subject to the arrival of mach III aircraft—there'll be major league baseball teams from Japan and other big cities of the world competing in the major leagues.

For the past few weeks White has been in Mexico where the owner of the Mexico City Reds and the Tigers has been operating baseball schools for hundreds of pro-

2-Run Homer In 11th Beats Pirates 7-5

By Tim McIarty
UPI Sports Writer

Maybe all members of the Milwaukee Braves should have spent the first month of spring training in Brooklyn.

That's where Joe Torre remained until March 20—and now rival pitchers can't get him out.

The bushy-browed catcher-first baseman from Flatbush unhooked a two-run homer in the 11th inning to earn the Braves a 7-5 victory over the Pittsburgh Pirates Thursday at Fort Myers. It was Torre's fourth hit of the game and raised his spring batting average to an even .500, based on nine hits in 18 at bats.

Torre showed up at the Braves' camp three weeks late after a prolonged contract squabble with club President John McHale. Big Joe complained he "was not treated well" when he finally signed for an estimated \$25,000. But his bitterness apparently hasn't affected his hitting.

Jim Wynn of the Houston Colt .45s matched Torre's heroics Thursday in an 8-4 victory over the New York Mets. He, too, collected four hits, including a two-run homer in the eighth inning that tied the score at 4-4 and a grand slammer in the 12th that dealt the Mets their 12th defeat in 20 matchups.

Ed Baute, who had allowed only two hits and no runs in eight innings of toil this spring, was the victim of Wynn's game winning blow. Dick Smith hit a two-run homer for the Mets.

Six of the seven other exhibitions Thursday were decided by one-run margins. Only the Reds won with ease, whipping the Tigers, 6-3, to break a five-game losing streak. The "squeakers" were the Indians over the Giants, 4-3; the Cardinals of the Dodgers, 2-1; the White Sox over the Orioles, 8-7; the Phillies over the A's, 2-1 and the Angels over the Cubs, 6-5.

Frank Robinson collected a single and a double and Vada Pinson added a homer to pace the Reds' 10-hit attack. Rookie Sammy Ellis, who pitched the first seven innings, and lefty Bill Henry limited the Tigers to seven hits.

A home run by Willie Mays ignited a three-run spurge by the Giants in the fourth inning but it was Dick Dietz' infield single in the ninth that accounted for the winning run. It was the Giants' eighth victory in eight meetings with Cleveland this spring.

Gerry Arrigo gave up only a pair of singles to Phil Lins over the first six innings to feature the Twins' victory over the Yankees. . . . Minnie Minoso's sacrifice fly capped a three-run ninth inning to carry the White Sox to victory over the Orioles. . . . John Herrstein's ninth inning single enabled the Phillies to beat the A's.

The Cardinals, limited to one hit by Sandy Koufax over the first six innings, erupted for two runs in the seventh off the Dodgers ace. . . . The Angels jumped on rookie Paul Jaxcel of the Cubs for six runs in the first two innings and then hung on to win in the face of consecutive homers by Billy Williams and Ron Santo in the fifth.

Walter Beasley has been named the probable starting hurler, although he may be backed up by Leo righthander Danny Gammage. Brooks will tie up the other end of the battery, with Colbert holding down first. Stewart at second and Partin at third. Courler, Mikler and Gammage will hold down the outfield positions.

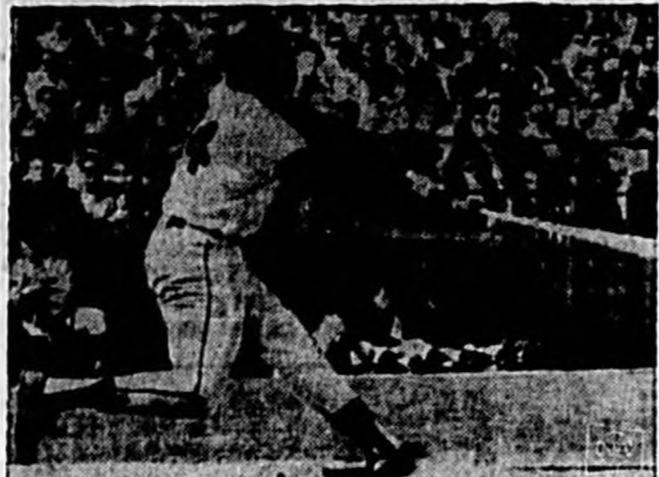

Game time is 4 p.m.

White Likes Looks Of Met's Farm Hopefuls

By Julian Stenstrom

Ernie White, manager of the Williamsport club of the Class AA Eastern League and director of field operations here at the New York Met farm base, said today that "we've got a good looking group of more than 50 ball players from which to select rosters for the Williamsport club as well as the Auburn en-

Oviedo Takes On Cardinals

By Joe Warden

Oviedo's hard hitting Lions take to the road today to battle the tough Ocoee Cardinals. The Cardinals, who lost to the powerful Lyman Greyhounds, have turned in a good season thus far. Ocoee has been in tough competition and the experience gained by the Orange County nine could prove to be a big advantage.

One of the best ball clubs in this area, Ocoee is sparked by a lead named Atkinson, who has received plaudits for his moundwork. Today's game will be the first of two scheduled tilts with the Cards. Oviedo will host the Redbirds April 17.

The Lions, now 4 and 1, have been improving in the batting department even though the Oviedo squad has been up against tough competition recently, notably the Lyman Greyhounds and hurler Donnie Smith. Coach Paul Mikler is satisfied with the team effort and especially has complimented the boys for their hitting.

Walter Beasley has been named the probable starting hurler, although he may be backed up by Leo righthander Danny Gammage. Brooks will tie up the other end of the battery, with Colbert holding down first. Stewart at second and Partin at third. Courler, Mikler and Gammage will hold down the outfield positions.

Snead In Lead, Smiles With Satisfaction

GREENSBORO, N. C. (UPI)—Sam Snead, the durable slammer from White Sulphur Springs, W. Va., carried a satisfied smile and a three-stroke lead into the second round today of the \$35,000 Greater Greensboro Open (GGO).

Snead, 51, gave younger golfers a target to shoot for Thursday with a sizzling seven-under-par 64 which tied the tournament and course record set by Byron Nelson in the 1941 GGO—the rich warmup for the even richer Masters.

"You just don't play any better than that," grinned Snead, who has won here seven times previously. He won the first GGO in 1938 and last tasted victory here in 1960.

Trailing Snead with 67s were Billy Dunk of Gosford, Austria, and George Bayer from Incline Village, Nev. National Open champion Julius Boros of Mid Pine, N. C., was third with 68 over the par 71, 7,029-yard Sedgfield Country Club course.

Six others tied for fifth with 69 each and seven had 70, including par busters Jack Nicklaus, defending Masters and PGA champion from Columbus, Ohio, and Arnold Palmer, the biggest money winner in modern golf.

Finishing with 69s were Billy Maxwell of Indianapolis, Ind.; Bob Charles of Sarasota, Fla.; Rod Punnett of Spokane, Wash.; Al Johnson of Markland Wood, Canada; Gene Litterer of La Jolla, Calif.; and Sonny Bidenhour of Fayetteville, N. C.

Matching Palmer were Jerry Barber of Los Angeles, Calif.; young Tommy Aaron of Gainesville, Ga.; Wilf Homshuk of Winnepeg, Canada; Gordon Jones of Orlando, Fla.; and Dean Refram from Boca Raton, Fla.

Snead shot eight birdies Thursday and his game only faltered once, on the fifth hole when he three-putted from 20 feet out for his only bogey. He shot a 33 on the par 36 front nine and carded a 31 on the par 35 back nine.

Our Aviation Industry wings freedom round the world

America's airlines fly travelers from the four corners of the earth to freedom's shores... and speed our own citizens to distant lands.

Their operations throughout the world are effective demonstrations of individual initiative and free enterprise at work... making new friends for freedom wherever they go.

Designing and building aircraft... charting and flying air routes... inspired by the hope of earning a profit under our competitive free enterprise system, our Aviation Industry has become the world's largest, most efficient and is one of our most important forces for freedom.

Even so, we hear pleas, not only for wider government controls, but for outright federal ownership of certain businesses.

Today, we must be constantly alert to the dangers of this creeping socialism. We must at all times maintain our freedom of individual initiative and enterprise if we are to keep America Powerful.

As part of the world's greatest power system, investor owned Florida Power & Light Company spends expansion to keep abreast of our growing need for more power. Our past achievements have been possible only because our Nation has been free of socialist dictatorship. We hope, through even more outstanding performance, to encourage the trend in America today which proposes more freedom for private enterprise so that industry may serve our Country even more efficiently.

'Charade' Featured At Movieland

Gary Grant and Audrey Hepburn are starred in the color movie, "Charade," to be featured Sunday, Monday and Tuesday at the Movieland Drive-In Theatre. Co-featured will be "This Earth Is Mine," and Lucille Ball.

THE LOVE AFFAIR of a team of sophisticates in Paris is smartly told with a debonair Cary Grant and a worldly-wise Audrey Hepburn in the Technicolor film "Charade." The film is a delightful blend of comedy, romance and murder with a dash of spice and an insoluble mystery. It is featured Sunday through Tuesday at Movieland Drive-In Theatre.

Three of John Wayne's greatest hits will be the fare for Friday and Saturday, April 10-11: "The Comancheros," "Sands of Iwo Jima" and "Donovan's Reef."

Debonair and charming Gary Grant has romanced many of the most glamorous actresses in the world during his screen career. "Charade" is Gary's 61st motion picture, and the comedy murder mystery teams him romantically for the first time with lovely Audrey Hepburn. It's a whimsical, frivolous, give-and-take screen love affair, and it's certain that Gary and Audrey will ignite new sparks as a movie love team.

The list of charmers whom Cary has wooed and won since he first appeared before the cameras includes the Who's Who of the screen's lovely ladies. Grant, in his first Hollywood picture, "This Is The Night," appeared opposite the vivacious French charmer, Lily Damita, and the blonde and statuesque Thelma Todd. The slinky, seductive Max West spotted Cary on the Paramount lot and asked for him as her leading man in "She

TABLE HOPPING

The weekend forecast for Seminole County: Good fun in all varieties for those wishing for a night out. There's plenty to do for everyone, whether you like a quiet relaxing time or the more exciting rhythmic evening.

Folks at the Capri expect a busy weekend as the mood and pace of the "change of command" events at Sanford Naval Air Station spills over. There'll be music again by the Jack Rosman Trio and the superb cuisine offered by Joy Monroe and her group.

Freddie's Steak House is continuing to cater to those with appetites set for Freddie's specialty. Also featured is a menu containing most everything a diner could want. Central Florida's oldest steak house serves its meals in the subdued atmosphere, one which allows for leisurely dining.

For a quick snack served in your car stopping at the Whataburger. You'll like the prompt, courteous service, the piping hot coffee or real cold drinks. And, if you prefer, you can take your snack along and eat it at your favorite roadside spot. Seminole's highways offer a number of these well-kept roadside rest areas for your convenience.

For cafeterias, and many like to select their own items for their trays, it's recommended that you try the new Trade Winds. You'll enjoy crisp, appetizing salads, garden-fresh vegetables and an assortment of main courses that will delight everyone. And every Thursday night is "family night" with free desserts to all.

For the ultimate in congeniality, sparkling drinks and atmosphere be sure to stop in at the Caribe Lounge in the Valdez Hotel. Here you'll find "your kind" of people — people out for a pleasant evening of relaxation and enjoyment. And remember, the Caribe now is staying open till a.m. nightly. Closed Sunday, of course.

Things are different at the new Cypress Room, formerly known as the Deck Bar or the Dog Track Inn. Under new manager Marco LaSanza, entertainment and dancing to the music of "The Virginians" will be a feature every Friday and Saturday night. A cocktail hour from 5:30 to 7 p.m. daily is also a new feature.

That delicious spaghetti made as only Jean and Rocco Morillo can make it is especially featured at Jean's Spaghetti House this week. This famous Orange City restaurant serves both lunch and dinner.

EXTRA WALT DISNEY'S "ARIZONA SHEEP DOG"

'A Tiger Walks' At Ritz

Never knowing when or where a 400-pound Bengal tiger will strike after he escapes from a traveling carnival to panic the citizens of a fogbound American community, makes Walt Disney's "A Tiger Walks" a suspenseful and exciting feature motion picture. But the meaningful element of the story is a man's soul-searching conflict between his daughter's simple faith in justice for all—even a dangerous wild animal—and his sworn duty as sheriff and protector of his community.

To bring this provocative tale to the screen, Walt Disney signed one of the largest and best-known casts in studio history. Brian Keith once more demonstrates his versatility and talent as the thinking Sheriff. Beautiful Vera Miles is a sheer delight as Brian's understanding wife. And Pamela Franklin, a bright-eyed British lass of 13, plays the compassionate daughter who starts a nationwide "Save The Tiger" campaign.

NEW IBERIA, La. — Navy lieutenant junior grade James B. St. John Jr., son of Mr. and Mrs. James B. St. John of 220 Crystal Dr., Sanford, was designated a naval aviator and received his "Wings of Gold" Feb. 28, during ceremonies held at the Naval Auxiliary Air Station, New Iberia, La.

While attached to Training Squadron 27 at New Iberia, St. John received ground and flight training which qualified him for all-weather flying and primary air anti-submarine missions.

He completed flight training by qualifying with eight landings aboard the Anti-Submarine Warfare Support Aircraft Carrier USS Lexington in the Gulf of Mexico.

A graduate of the University of South Carolina, Columbia, S. C., St. John entered the Navy in September 1958.

Dear Abby: By Abigail Van Buren

DEAR ABBY: I am the mother of a 16-year-old daughter. She is kind, thoughtful and helpful around the house. She wears the boy to her diary on a chain around her neck. The other day she forgot it. I don't know what made me do it, Abby, because I have always trusted her but I did an unforgivable thing. I opened her diary and read it. What a shock I got! I was sick inside. You would never believe the things she does outside the house. My problem is, how do I let her know that I know these things about her without telling her that I read her diary? Should I tell her dad about her going out? It would break his heart as she is my only child.

DEAR ABBY: My mother-in-law is a very outspoken person. When she invites my husband and me to her home for dinner she asks us to leave the children home. She says too much "commotion" makes her nervous. Ours are 5, 7, and 10, and they aren't any worse than anybody else's. She lets us bring them every Sunday for supper when she has all her other grandchildren there. There are eleven in all, and I wonder why the "commotion" doesn't make her nervous then. I am ready to tell my husband if his mother doesn't want my children during the week, she doesn't have to put up with them on Sundays, either. Am I wrong?

DEAR ABBY: I live in a small town and would like to know how one goes about making a donation to the HEART FUND or the CANCER SOCIETY at the time of death when the family requests a donation instead of flowers. How is the family made aware of the donations? I am sure there are others who would like to know, too. Thank you.

Declarer is not given a monopoly on the use of the word "Arch." The defenders should analyze the lead, review the bidding, count winners and losers, and finally decide how they may beat the contract.

We The Women: By Ruth Millett

"Other girls make friends so easily," writes a 16-year-old. "What can I do to make myself popular?"

They can make something of themselves and win a few good friends who like them for what they are and because they share the same interests.

Women Hear Views Of 9 Candidates

ORLANDO (UPI) — Florida's nine gubernatorial candidates flashed their best smiles and rehearsed their campaign platforms Wednesday night before the powerful League of Women Voters.

The six Democrats and three Republicans were each given six minutes to outline their platforms for the ladies, and then were called on to field questions from the floor.

The women did manage to pin down the candidates on one issue. They asked each for a yes or no answer to whether they would put a severance tax on minerals and timber if elected.

Haydon Burns replied he wasn't sure such a tax would be justified; Fred Karl said yes to phosphates and no timber; Scott Kelly said no to both as did Fred Dickinson. John Mathews said yes to phosphates and minerals if relief was granted to the industry in real estate taxation; and Robert King High said yes to both.

In the Republican camp, Ken Folks said no to both and so did Charles Holley, but H. B. Foster answered yes to both questions.

Florida Homes Feature 'Gracious Living'

New homes reflect the "gracious living" that one enjoys in the Sunshine State. In fact, "Florida homes" is synonymous with "gracious living" in any state.

But there is something different about owning a "Florida home" in Florida... It points the way to a mode of living that is entirely different and more enjoyable than in any other state, and that includes California.

Kingswood Builders and Shoemaker Construction Company have all the answers to your home problems. Beautiful, spacious residences on large, spacious lots. What more could anyone ask for "gracious living?"

For example, Kingswood now is nearing completion two beautiful homes on citrus studded lots in the last available area in Grove Manor, at Mellonville Avenue and Washington Drive.

While nearly completed, these homes have not yet reached the stage of interior decoration... and purchasers may select their own wall colors.

The corner house has a completely screened, covered patio. The other has a carport at the rear, with a turn apron.

Kingswood also has two new homes at Greenbriar of Loch Arbor, facing the golf course. These residences contain fully equipped General Electric kitchens.

The home at 109 Highland Court has what has been described as "a gorgeous kitchen, with an abundance of cabinet and closet space, especially designed for the discerning housewife."

The second, on Par Place, facing the 12th green, is of Colonial architecture, with used brick.

Three homes are available for occupancy in Ravenna Park and are offered by Shoemaker Construction Company through Stenstrom Realty.

The homes have central heat and air conditioning ducts, fully-equipped General Electric kitchens and central water and sewerage systems. Stenstrom Realty also reports three other homes under construction and that they have reached the stage where the purchaser can choose his paint colors, tile, and bath fixtures.

Lots are also available for custom-built homes. VA, FHA and conventional financing are available.

Two homes are also available through Stenstrom Realty in the Idyllwilde area of Loch Arbor. One is a two story, four bedroom home with two and a half baths. The other is a single story, three bedroom, two bath structure.

The residences have sidewalks, central heat and air conditioning and also feature hand-made, custom built cabinets.

Other features for gracious Florida living include carports, large utility room, beautifully landscaped lot enhanced by stately pines, sidewalks, paved streets, sewer and water systems.

Wheels Disarm Wheels

Last year the U.S. Arms Control and Disarmament Agency was granted \$7.5 million by Congress. This year for fiscal '65, the agency is asking \$11 million.

It would be nice to think that this rise in the budget is a symptom of a developing peace race. This is not necessarily so.

It's obvious how money is spent on armament, but how do you spend it on Disarmament? One example is a \$40,000 grant recently made by the agency to Dr. Sebastian de Grazia, professor of political science at Rutgers University.

De Grazia fears that the hydrogen bomb and other massively destructive modern weapons could destroy democracy — even though they are never used. He proposes to use the money to finance a five-year study of the problem.

Weapons have had a profound influence on political systems in history. According to De Grazia, the invention of the stirrup may have

been a major cause of the rise of feudalism.

Before the stirrup, it was difficult for a man to fight on horseback. With it, the horseman became the most effective weapon of the time and the maintenance of the feudal system was based on mounted shock troops.

Another invention, the cannon, helped end feudalism.

The dilemma facing us today, says De Grazia, is that a government which possesses incredibly powerful weapons may no longer need the support of large numbers of its citizens, either as soldiers or workers. It may thus become less and less responsive to the wishes of the people.

"A country," he says, "may go along ignoring the political changes that stem from weapons until one day it wakes to find itself so changed as to be no longer recognizable."

Forty thousand dollars might be enough to buy a very small, used cannon today.

Long Way To Go

A recent spate of stories concerning encouraging advances in cancer research gives reason once again to caution against undue optimism for an early lifting of one of mankind's most grievous crosses.

The day that a true solution to the scourge of cancer becomes a certainty, no newspaper will have type big enough to set the headline announcing it, so eagerly is this boon to mankind awaited.

Meantime, "constant alertness" is the watchword to go by. Regular physical checkups and immediate investigation of irregularities in the

body's functions are the best safeguards available.

Thought For Today

But he knows the way that I take; when he has tried me, I shall come forth as gold.—Job 23:10.

Never give a man up until he has failed at something he likes.—Lewis E. Lawes.

Helen Fuller Says

U. S. Loses

WASHINGTON—When Lyndon Johnson served in the Senate, one of his close friends was J. William Fulbright of Arkansas. As moderate Southerners, the two men thought and voted alike on many matters.

Then and later Mr. Johnson has been open in his admiration for the erudite Fulbright's grasp of the foreign policy matters and his performance as chairman of the powerful Senate Committee on Foreign Relations.

Many in Washington believe that it and when Dean Rusk leaves the Johnson cabinet Fulbright will be the President's choice to step in as the next Secretary of State.

The major speech which Fulbright delivered in the Senate last week attacking recent U.S. foreign policy is

therefore the current subject of serious study by foreign embassies and American experts on international affairs.

Both an anonymous "White House authority" and Fulbright were quick to announce that the Senator had not consulted the President or the Executive Branch about his speech in advance. This was proper protocol whether or not the statements are true. But the double denial did not still two lines of speculation: Was Fulbright's speech a "trial balloon" for the Johnson Presidential campaign, to test how safe or unsafe it might be to take a new tack on foreign policy when Johnson goes out on the stump? Or was the Senator, a former college president, entering on his own personal campaign to educate the public and there-

by influence the President?

Either would presage sharp changes if Fulbright came in to the center of the picture as regards U. S. actions abroad. If neither theory proves true, so frank a difference of opinion as Fulbright expressed with current policies is still of more than a little moment, coming from him.

The chairman of the Senate Foreign Relations Committee says that the "Cold War" between the U. S. and the USSR, as we have known it since soon after the end of World War II, is over. Fulbright did not declare that things are better, only that, in his opinion, they are different. Both sides, he says, have implicitly repudiated "total victory." The Soviet Union, the Senator states, has presumably accepted the fact of American strategic military superiority in return for the assurance that we will exercise it with responsibility.

He chides our country, and our leaders — of his and the other political party — for sticking to what Fulbright, in his inside knowledge, considers an old-fashioned concept that the world remains divided between "good guys" and "bad guys."

He says that the realistic view of Cuba is that Castro is here to stay, at least for a little while, and that although this is "a nuisance," it is not a "grave threat" to the might of the United States.

The Senator from Arkansas went on to wish that we, as a nation, would be more "flexible" in our thinking about how to resolve the problem of China and Chiang Kai-shek — taking note of the fact that for a public official in this country to do so is likely "to provoke a vehement public outcry" against it.

Fulbright even thinks that what General De Gaulle is doing in the way of entrepreneur diplomacy "may serve a constructive long-range purpose."

Coming from some politician of the extreme left, this "new thinking" would not raise eyebrows. Coming from a conservative son of the Old South, to the right of LBJ, it does.

Dr. Crane's Worry Clinic

Father Paul presents a challenging idea that is not limited to parochial or partisan thinking. View it with an open mind. For our lush natural resources are dwindling and taxes are becoming harder to raise, so we face a crisis. It costs taxpayers every year just for free public schools.

CASE S-429; Father Paul is a Catholic priest with whom I dine occasionally.

"Dr. Crane," he began, "we have literally millions of students in our Catholic parochial schools."

"And we do not receive a penny from taxes, for our pupils are all enrolled on a voluntary basis."

"The Lutherans and some other church bodies likewise operate schools without any assistance from the taxpayers."

"Yet we are then taxed to support free public schools in competition with our own institutions."

"That doesn't seem quite fair, do you think?"

"Suppose we were running grocery stores for customers who paid for their purchases."

"Would it then be fair to tax us private grocery operators to finance free grocery stores where the public could get its bread and meat and vegetables for nothing?"

"Yet that is exactly what is happening in the field of education."

"In our church, as well as all the private schools and colleges, the parents of our pupils voluntarily pay for their education."

"But then those same hard working parents are taxed to support rival and free public schools that operate in direct competition."

"So why shouldn't all education be conducted on the sound, 'free enterprise' plan of pay-as-you-go?"

"As you pointed out in an earlier column, George Washington and all the other pioneer Americans had no access to free public schools."

"Yet they were unusually well read men. They produced our Declaration of Independence and Constitution, which I doubt if we could duplicate afresh even now."

"So what is wrong with eliminating all free education and putting schools on a business-like or pay-as-you-go plan?"

"Challenge Outdated Customs. In this educational column, I present ideas that often challenge outdated customs. And it may be possible that free public schooling is now

outmoded as too costly and inefficient.

Remember, it wasn't till the last century that free schools were offered as one of the many "welfare" inclusions of government.

The full eight grades in free public grammar schools didn't arrive till about 1850.

And it wasn't until 1872 that the Supreme Court affirmed the right of a state to tax its citizens to support free public high schools.

So free schooling is a recent innovation in mankind's civilization, but if it becomes too costly, we may need to curtail it, at least above the sixth grade.

Americans would NOT become illiterate if all free schools were eliminated, for parochial and private schools would mushroom to meet the need, and at no cost to taxpayers!

Moreover, children would then get more English and math instead of gymnastics and frill courses on "bowling, Squash, Badminton," etc.

Then we'd not see any teachers' strikes. And teachers would then show far more interest in their pupils, for their salary would depend on every new pupil!

(Always write to Dr. Crane in care of this newspaper, enclosing a long stamped, addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.)

—John W. Dyckman of U. of California.

The bear is always more dangerous when its arms are outstretched in a gesture of friendship. If you get too close to it, it will crush you.

Bruce Blossat — Ray Cromley

Political Notebook

WASHINGTON (NEA) — "The principals in this thing (President Lyndon B. Johnson and Attorney General Robert F. Kennedy) are behaving like complete professionals."

"It's the camp followers who are causing the trouble." Thus spoke one official who now has strong ties to both men.

The matter of the relations between the two has become the subject of some of the most bizarre speculation to arise in this capital in many years.

The rumors simply will not die. They not only have Bob Kennedy continuing to promote himself for the 1964 vice presidential nomination but fostering a pro-Kennedy, anti-Johnson cell in the White House as well.

To seasoned, top echelon administration men who insist they have a good political gauge on both men, these reports are sheer nonsense.

In fact, they regard as akin almost to insanity the no-

tion that a man of Kennedy's acknowledged political acumen—or anyone else—would try to pressure Johnson heavily on the vice presidency or any major question.

"You just don't issue ultimatums to the President of the United States," was a summary comment.

Similarly, these sources indicate that the top bracket White House holdovers from the John F. Kennedy regime are giving the new President their manly loyalty. Says one such man:

"Some of us offered him a continuing commitment. We gave him our word. We would not be worth much as men if we went back on it."

Another holdover found the idea of a "Kennedy cell" preposterous:

"We're not here serving just some rival politician. We are working for the President."

It is felt that Johnson would be less than human if he did not suffer some twinges of doubt as a result of the incredible welter of rumor and

suspicion that engulfed Washington. No one forgets the pre-nomination bitterness of 1960.

But the President is viewed by key Kennedy holdovers as a tough realist who will make the vice presidential choice this August with the same cool judgment John Kennedy exercised in picking Johnson.

The belief is that neither the President nor the attorney general will allow rumor mongering camp followers to poison the waters seriously.

If Johnson thinks Kennedy the best choice, a leading Democrat says, he will name him—even though the two may never indulge in a public love feast.

"The list the President will choose from will be small," this source adds. "Inevitably, however, Bobby will be on it."

Not, this man suggests, because Kennedy will be pushing for the job, but because he, like all the surviving Kennedys, is the beneficiary of a truly astonishing popular ground swell of interest and open affection. Where Kennedy walks today, there go crowds.

"This is something that may be uncontrollable," the Democrat says. "It could present the President with a unique situation when the time for his choice comes."

Example of the ground swell's force: United Auto Workers' President Walter Reuther barely was able to "put the cap" on the union's explosive urge to endorse Bob Kennedy for vice president.

If the great tide rises higher, obviously rumor will go on tracing its source to tremors generated in the attorney general's office. The sober correctives offered by hard-eyed Kennedy and Johnson professionals may never quite catch up.

Letters

To The Editor

Editor, Herald:
Now that the Tenth Annual Bombing Derby has reached its successful conclusion and an optimistic note has sounded on the future of NAS Sanford, it is time for Navy men and their families based here to thank those who contributed heavily to both conditions.

We are indebted to the citizens of Sanford and Seminole County, whose selfless donations of time and resources demonstrated time and again these past weeks their loyal support of our work. We are especially grateful to The Sanford Herald and other members of the news industry who published such lucid and generous coverage of the Bombing Derby while presenting an exacting treatment of surrounding events. Due largely to responsible news handling, a potentially volatile situation was kept in perspective; the public was informed rather than alarmed.

As a result, Navy and community leaders were given an optimum atmosphere for working toward mutual goals. Policy makers in Washington and elsewhere were able to study the advantages of continued operations in Sanford in a clear, objective light. The people of this area can indeed be proud of their community and its leadership just

as the Navy is proud of its membership in the community.

A special tip of the hat to The Sanford Herald and its conscientious news staff.

J. O. Mayo, Commander Heavy Attack Wing One Sanford Naval Air Station

Editor, Herald:
The pictures appearing in The Herald are a credit to the photographers and to the operator of the engraver.

Probably because adequate lighting is provided by proper flashbulbs and a taken-for-granted professional approach to the other intricacies of shutter-clicking, the detail work is impressive.

The engraver is bringing all of this onto the Herald pages in some fine cuts. Congratulations to you and to the members of the staff who are responsible for this effective work.

Come to Church Every Week

THE Twenty-Third PSALM

You've got to have your arms around a warm, woolly, wobbly lamb before the real meaning of the Twenty-third Psalm grips you.

You begin to realize how awkward, bewildered, helpless a lamb really is.

David wasn't merely singing of the Lord's faithfulness. He was confessing his own helplessness!

The key to religious faith is not simply the discovery of God's power. It is the discovery of our own need.

The Lord is OUR Shepherd.

- 1 The Lord is my shepherd, I shall not want;
- 2 he makes me lie down in green pastures. He leads me beside still waters;
- 3 he restores my soul. He leads me in paths of righteousness for his name's sake.
- 4 Even though I walk through the valley of the shadow of death, I fear no evil;
- 5 for thou art with me; thy rod and thy staff, they comfort me.
- 6 Thou preparest a table before me in the presence of my enemies; thou anointest my head with oil, my cup overflows.
- 7 Surely goodness and mercy shall follow me all the days of my life; and I shall dwell in the house of the Lord for ever.

New Owner Of North Orlando To Tell Plans

NEW YORK (UPI)—A soldier of the long gray line, Douglas MacArthur of Samar, St. Mihiel, Bataan, Corregidor, Inchon—and a thousand battlefields—was home today, in death, in the city he once called the greatest in the world.

The withered body of the old fighter and statesman lay in custody of the Army he loved, watched over by members of the armed services of which he was the senior ranking officer.

It was received by Lt. Gen. Garrison H. Davidson, commander of the First U. S. Army, and was to remain for the day at a funeral chapel only two blocks from the starting point of General MacArthur's triumphant homecoming parade here 13 years ago.

It was on city hall steps in that parade—New York's biggest, with 7 1/2 million persons cheering the general on—that MacArthur began his speech: "This is the greatest city in the world."

He had said that New York "is my home by choice."

Sunday night he came home again. The cortege that traveled the superhighways through the night from Washington arrived here shortly before 11 p. m., eight and one-

GENERAL of the Army Douglas MacArthur is shown, above, as he is perhaps best remembered.

Burns Hits Back At Candidates' Attacks

United Press International
Democratic candidate for governor Haydon Burns accused his rivals this weekend of making political hay out of Jacksonville's racial problems.

Four other candidates took turns snapping political arrows at the Jacksonville mayor. Fred O. (Bud) Dickinson of West Palm Beach, went on a Jacksonville television station (WJXT) Saturday night and charged that Burns could claim "major credit for bringing armed conflict to Jacksonville."

And in Tampa Miami Mayor Robert King High compared his city with Jacksonville.

"There has never been one word of scandal connected with my office as mayor of Miami."

Sen. John Mathews of Jacksonville told a Miami group that Burns' reported justification of the reluctance of some policemen to talk to officials "was shocking."

Burns, in southeast Florida, defended his actions and said "the greatest damage that has been done in the field of human relations has been the untimely, unfortunate remarks such as the ones made by gubernatorial candidates... made for obvious political reasons and not to contribute to any solution to racial or community problems."

Rep. Fred Karl of Daytona Beach told an audience in Tampa the Jacksonville racial strife was caused by a breakdown in communication. Karl said his administration will be dedicated to an open line of communication on racial and other subjects.

Sen. Scott Kelly of Lakeland spoke of Bible reading and the high cost of license tags during his weekend campaigning. Brazil Congress May Close To Seat New Chief

RIO DE JANEIRO (UPI)—Military leaders of the anti-Goulart revolt today were reported considering the closing of congress as a means of installing Gen. Humberto Castelo Branco as provisional president immediately.

Castelo Branco, the army chief of staff who led the rebellion, was chosen to be the next chief executive by seven state governors and a majority of army generals who supported Goulart.

Goulart was toppled last week in a swift and bloodless uprising by the military leaders who feared he was moving Brazil toward communism. He went into exile in Uruguay where he denied he is a Communist.

In the wake of the coup, the government launched a drive against leftists. Authorities said at least 600 suspected Communists had been arrested in Rio de Janeiro alone, although some unofficial figures went as high as 3,000.

Though Castelo Branco was the chosen leader of the revolt, his installation immediately was blocked by a constitutional provision. And it was unlikely that congress could pass special legislation before a week.

Castelo Branco would replace interim President Raniere Mazzilli whose provisional mandate expires next month. There was an undercurrent of military distrust of Mazzilli, who helped guide Goulart's reform programs through congress.

Cdr. Barton W. Bartholomew stepped up from a year as the squadron's Executive Officer to assume command of the 425-man unit, relieving Cdr. John F. Barlow, who led the squadron since March of 1963. Under Barlow, VAH-11 won the coveted Navy 'E', which denotes over-all excellence in combat readiness among Heavy Attack units of the Atlantic Fleet.

Arriving shortly before the full-dress ceremonies was Captain Gerald E. Miller, Commanding Officer of the attack carrier USS Franklin D. Roosevelt aboard which VAH-11 is deployed when at sea.

Before coming to VAH-11, he served with VAH-1 as Safety Officer and Operations Officer. In April of 1963, he reported to VAH-11 as Executive Officer. He will be succeeded at this post by Lt. Robert W. Kennedy.

Patman Urges Breakup Of Du Pont Estate

WASHINGTON (UPI)—Rep. Wright Patman, (D-Tex.) proposed today that the Du Pont estate which controls 31 banks be placed under the bank holding act to break up its "vast concentration of power."

Patman, who is chairman of the House Banking Committee, suggested the estate could use its banks to discriminate against borrowers who compete with its other non-banking enterprises.

"Consider the position of a builder who wants to put up a new building in competition with some of the city property owned by the Du Pont empire," Patman said in a prepared speech.

"Would a Du Pont bank finance his payroll for that job... these are some of the dangers of concentrated control over both banking and non-banking enterprises."

Du Pont owns 31 banks in Florida with assets totalling \$700 million, according to Patman.

High Court OKs Barnett Trial Without Jury

WASHINGTON (UPI)—The Supreme Court ruled today that the criminal contempt case against former Mississippi Gov. Ross R. Barnett and present Gov. Paul B. Johnson Jr. may be tried by a court without a jury.

The charges stemmed from the activities of the two officials in the fall of 1963 when James H. Meredith, a Negro, was attempting to enroll in the University of Mississippi. The 5th U. S. Circuit Court of Appeals directed the Justice Department to bring the contempt action.

Barnett, then governor, and Johnson, then lieutenant governor, were accused of violating a circuit order prohibiting all state officials from interfering with Meredith's admission. On Sept. 25 Barnett, who was then governor, stood in the doorway of an office in Jackson, Miss., and kept Meredith from registering.

The two were also charged with failing to preserve law and order on the campus at Oxford which exploded into rioting after Meredith's admission.

The Fifth Circuit certified the jury issue to the Supreme Court after a tie vote.
