Fox: illness A Lie

LAS VEGAS, Nev. (AP) — Comedian Redd Foxx says reports that illness forced him to drop out of television's "Sanford and Son" show were "a lie."

Foxx said Tuesday in a taping for the Mike Douglas Show that he wanted a better salary, was disenchanted with working conditions and didn't want to revert to what he called "Amos 'n' Andy."

The Douglas show will be aired March 26.

The 51-year-old entertainer has missed four segments and is expected to be out the remainder of the season.

Foxx spent five days in a hospital last week and his attorney and manager said the entertainer was suffering from a nervous condition.

In Los Angeles, executive producer Bud Yorkin said Wednesday that Foxx' complaints were unjustified. He said Foxx was one of the highest-paid men in television. He declined to name the salary.

"He's a talented and funny man and I hope he will be back with us next year," Yorkin said.

Ehrlichman, Colson Indicted

WASHINGTON (AP) — A federal grand jury today indicted former White House aides John D. Ehrlichman and Charles W. Colson on a charge of violating the civil rights of Daniel Ellsberg's psychiatrist.

Also indicted on the same charge were Watergate conspirators G. Gordon Liddy, Bernard L. Barker, Eugenio R. Martinez and Felipe De Diego.

The indictment charged that the defendants broke into the Beverly Hills office of Dr. Lewis J. Fielding "with intent to search for confidential information concerning Daniel Ellsberg."

The burglary took place on Sept. 3, 1971, when Ellsberg was under indictment in connection with the leak of the Pentagon Papers.

The grand jury also indicted Liddy on two counts of refusing to testify before a House committee.

Liddy already is serving a sentence for contempt of court for his refusal to testify before a grand jury.

Liddy was sentenced to serve a maximum of 20 years for his role in the June 17, 1972 break-in at Democratic National Committee Headquarters.

WORLD TODAY

Allegiance Sworn

KAMBOL, Cambodia (AP) — A group of 742 former insurgents swore loyalty to President Lon Nol's government today in the largest defection of anti-government forces since the Cambodian war began in April 1970.

The group — nationalist Khmer Bundons — said they had become disenchanted with fighting the rebel ranks along with Khmer Rouge communists and North Vietnamese soldiers. A government official said at the ceremony, 15 miles west of Phnom Penh, that 10,000 more rebels might change sides in the next few months.

Meanwhile, the military command said insurgent forces shelled the capital today for the first time in three weeks, killing one person and wounding another.

Spain Frees Bishop

BILBAO, Spain (AP) — The Franco government released Bishop Anton Anovera from house arrest today so he could go to Madrid to confer with Pope Paul VI's top representative in Spain.

The 64-year-old prelate was released from a Madrid hotel late Wednesday night by the Most Rev. Luigi Dadaglio, the papal nuncio to Spain, who returned from Rome Monday after talks with Pope Paul VI after the confrontation between church and state over the bishop, who urged more freedom for the Basque people of northwest Spain.

Oil Ministers Meeting

CAIRO (AP) — Arab oil ministers are scheduled to meet in Cairo on Sunday to review their policies, a Egyptian Oil Ministry spokesman said. The lifting of their oil embargo against the United States is expected to be the main topic.

"The meeting was scheduled to convene in Tripoli but due to accommodation difficulties it has been switched to Cairo," the spokesman said. An industrial fair in Tripoli made the hotel situation difficult, he explained.

Egypt invited ministers to meet "to review all policies. Our policy is based on adapting ourselves to changing circumstances," the spokesman said. He would not elaborate.

Egypt was expected to propose the embargo be lifted as a way of thanking the United States for helping to disengage Egyptian and Israeli troops along the Suez Canal front.

Ethiopian Strike Spreads

ADDIS ABABA, Ethiopia (AP) — Hundreds of students chanting anti-government slogans marched through Addis Ababa today as a general strike spread across the country.

Unarmed police carrying rifles and tear gas forced the students to return to Haile Selassie University after an hour of demonstrations. There was no violence.

"Land for the tillers! Work for the workers! Down with the prime minister!" the demonstrators shouted. Thousands of other students looked on quietly.

The Confederation of Ethiopian Labor Unions claimed near 100 per cent effectiveness for the strike, planned to continue until the government meets demands for pay increases and labor reforms. But shops were open and taxis were operating in both Addis Ababa and Asmara, Ethiopia's second largest city. Buses were running in Asmara.

Senate Sustains Nixon Vetoes Rollback Of Oil Prices

WASHINGTON (AP) — President Nixon vetoed an oil price rollback Wednesday, praised Senate acceptance of the veto, and then predicted energy prices would stop rising and begin to fall.

The steep rise of food prices also should slow down, Nixon told a news conference, promising once more to avoid an economic recession this year.

By sustaining his veto of emergency energy legislation including the oil price rollback, Nixon said, the Senate "vetoed longer gas lines and vetoed nationwide rationing."

The White House has argued that a price rollback would discourage oil production and make fuel shortages worse.

But the rollback immediately popped up again as the House added a modified version to a bill for establishing a Federal Energy Administration.

Sen. Henry M. Jackson, D-Wash., author of the vetoed energy bill, said he would try again to roll back oil prices, but said he would work with the administration toward a stripped-down emergency bill authorizing gasoline rationing and other fuel-saving measures.

Nixon declined, in his news conference, to speculate on a lifting of the Arab oil embargo against the United States, but said the chances were improved by diplomatic progress toward disengagement of Arab and Israeli forces in the Middle East.

An administration energy official told newsmen earlier, however, that the present federal allocation of wholesale gasoline probably must continue through the summer even if the embargo is lifted soon.

John C. Sawhill, deputy administrator of the Federal Energy Office, said newsmen invited to a group interview that economists estimate the price of gasoline may fall between 60 and 70 cents per gallon.

Nixon said the way to drive

gasoline prices back down is to increase production, and he urged Congress to pass administration proposals intended to encourage oil production increases and development of energy resources.

Nixon vetoed the energy bill Wednesday, saying the price rollback "would result in reduced energy supplies, longer lines at the gas pump, minimal, if any, reduction in gasoline prices, and worst of all, serious damage to jobs in America."

Its net effect, he said, would "make compulsory rationing of gasoline much more likely."

Within hours, the Senate voted 88 to 40 in favor of the bill, falling eight votes short of the two-thirds majority needed to override a veto.

Meanwhile, the House added an oil price-rollback amendment to its bill for a Federal Energy Administration but modified the proposal to exempt new crude oil from the smaller producers, whose output was less than 30,000 barrels a day.

More 'Gate Charges Expected

WASHINGTON (AP) — President Nixon has moved dramatically to blunt the impact of the Watergate cover-up indictments and secret grand jury report. But charges in another Watergate case are expected by week's end.

A special grand jury investigating the break-in at the Beverly Hills, Calif., office of Daniel Ellsberg's psychiatrist was believed ready to return indictments.

Last Friday, a federal grand jury indicted seven former administration and campaign aides on charges they conspired to block the investigation of a diplomatic passport, said Dan Liddy, Watergate break-in. It also gave the judge a secret report, which sources later said dealt with Nixon's role in Watergate.

Full Tanks Result Of Fuel Crisis

NORTH HOLLYWOOD, Calif. (AP) — The average motorist now keeps twice as much gasoline in his tank as he did before the fuel shortage, an industry researcher says.

Three defendants included former White House aides, H.H. Haldeman, John D. Ehrlichman and Charles W. Colson and former Atty. Gen. John N. Mitchell.

Ehrlichman recently rejected an offer from special Watergate prosecutor Leon Jaworski to plead guilty to a single charge of violating the civil rights of Dr. Lewis Fielding, Ellsberg's psychiatrist.

Part of the offer would have been a commitment from Ehrlichman to become a government witness in future Watergate cases.

Egill Krogh Jr., former boss of the White House investigative unit known as the plumbers, pleaded guilty to the same charge and is serving a six-month sentence at the federal prison farm at Allenwood, Pa. Krogh agreed to tell the prosecutors all he knew about the plumbers.

Immunity Protection Challenged

WASHINGTON (AP) — On President Nixon's orders, the Justice Department is trying to draft legislation intended to strip away one of the news media's principal shields against libel suits by public officials or public figures.

The presidential move was disclosed by ranking White House officials, who said Nixon's objective was to give political candidates better defenses against slanderous or libelous campaign attacks.

As outlined by these officials in interviews, the White House plan is to present a proposed law intended to overcome a landmark 1964 Supreme Court decision granting newspapers virtual immunity against libel suits by public officials.

While some Justice Department lawyers and other libel attorneys question whether such legislation can overturn a Supreme Court decision, the move appears certain to kindle new controversy in Nixon's relations with the media.

And it could lead eventually to a historic legal confrontation on the Constitution's freedom of the press clause.

The President himself volunteered fleeting mention of his proposal in his Wednesday night news conference, but he didn't divulge his instructions to the Justice Department. Aides said he planned to make that disclosure Friday when he sends Congress his campaign reform package.

At the news conference, while responding to a question about his plan to regulate campaign financing, he added, "We believe candidates should have a right to defend themselves against false charges that are made during the campaign, whether by their opponents or by the press."

According to White House officials familiar with Nixon's views on the issue, the President believes the Supreme Court has gone too far in interpreting the Constitution to protect the media against libel suits by public officials and public figures.

Area Deaths

MRS. MARY MORRIS member of the freshman football team.

Survivors include his mother, Mrs. John A. Lyles, Columbia, S.C.; wife, Louise; sister, Miss Mary Lee Lyles, Columbia, S.C.; daughters, Mrs. Sandra Fraser, Sherman Oaks, Calif. and Mrs. Rodney Farmer, Manhattan Beach, Calif. and four grandchildren.

MRS. MATTIE MANN

Mrs. Mattie L. Mann, 80, of Lake Monroe, died Wednesday morning at Seminole Memorial Hospital. Born in Stone Mountain, N.C., she lived in Lake Monroe for the past 20 years and was a Baptist.

Survivors include her husband, L. B. Mann, Lake Monroe; two sons, Phil Murray, Lake Mary; Jack Whitmore, Virginia A. Collins, Sanford; Mrs. Nannie Hobbs and Mrs. Alice Whittington, both of Daytona Beach; Mrs. Stealy Hartwig, Mrs. Lee Hardy, Houston, Texas; Mrs. Barbara

HENDRIX LYLES Funeral service for former Sanford resident Hendrix Capers Lyles, of 714 E. Ross Rd., San Gabriel, Calif., will be held at 11 a.m. in Chapel of Rose Hill Cemetery, Whittier, Calif.

He was president of R. L. Smith Co., manufacturers' representatives in Los Angeles. The Lyles family lived in Sanford 1925-1934 and he had been a resident of San Gabriel for the past 23 years.

As a member of the Sanford High School Football Team Lyles received the Peter Schaal Trophy in 1932 and in Schaal's book, "Sanford as I Knew It" 1912-1932, he was listed on his "All Time" All-Star Sanford High School Football Team 1914-31, which Editor Schaal announced Dec. 4, 1931, and on his 1969 selection when he updated the "All Time All-Star" team on the 100th anniversary of football.

After leaving Sanford, Lyles attended the University of South Carolina where he was a

Diplomatic Passport Sought By Vesco?

NEW YORK (AP) — Financier Robert L. Vesco has been pictured as yearning for a diplomatic passport, and hoping a secret \$200,000 contribution to President Nixon's reelection campaign would earn it for him.

The government says he was lobbying for far higher stakes in return for the contribution, an indictment says that former Atty. Gen. John N. Mitchell and ex-Commerce secretary Maurice H. Stans impeded a Security and Exchange Commission fraud investigation into Vesco's multibillion dollar financial empire.

Harry L. Sears, one-time Republican campaign manager in New Jersey, returns to the witness stand today for a third straight day of questioning as a key government witness in the trial of Mitchell and Stans. He is a status symbol he very badly wanted."

The final sentence was ordered struck by U.S. District Court Judge Lee P. Gagliardi as opinion, and the jury was told to disregard it.

Stans was brought into Sears' testimony for the first time when the witness said original plans called for delivery of the \$200,000 Vesco contribution no later than April 7, 1972. That was the date a new law took effect, requiring all contributions over \$100 to be publicly reported through the General Accounting Office.

She Likes 19th Century

By VIRGINIA SPILLER
Copley News Service

DEL MAR, Calif. — "What energy crisis!"

Lilly Barnes, 19, can open her big eyes and run a hand through her straight blonde hair and ask that question with a straight face.

Lilly lives in a century-old two-story home with a wickered second-floor porch, flanked by two giant cypress trees, at the end of a dirt lane near Del Mar.

There is no telephone and no electricity. A hand-pump in the kitchen brings water from a storage tank supplied by a well.

The cookstove, on which rests an old-fashioned iron, burns wood which is cut on the place.

A fluffy cat drowns on a shelf above the stove, and a black dog wanders in and out. A pumpkin pie sits on the table waiting, Lilly says, for its toppings.

The only concessions to the 20th Century are a small butane gas stove, a gas refrigerator in the pantry, and a compact car to bring home supplies.

A steep, narrow stairway leads to the second floor where stained glass designs adorn the old windows, and one of Lilly's feather ticks is the coverlet on a high, old-fashioned bed.

Most of the living, especially in winter, is done in the kitchen, where a skylight has been installed in the steep, slanting roof to add light for Lilly's needlework. There also is a big kerosene Aladdin lamp, with wick and mantle, which can be raised and lowered on a chain to put light where needed.

It has about the same brightness as a 100-watt electric bulb, Lilly says.

She washes and cards her own wool, spins, quilts, embroiders, and sews by hand.

"I would like to find a treadle sewing machine," she remarks, "although I have learned to sew almost as fast by hand as on a machine."

She makes patchwork and embroidered quilts, (some are sold by special order) but "the most elegant are like the old marriage quilts, all white, with the beauty in the intricate quilting designs."

She hand-carves the wool for the batting used in her quilts. She takes a wad of washed wool, catching it between two

WHAT ENERGY CRISIS? Lilly Barnes does without some, anyway."

Currently, her most popular work is Levi's skirts in which the legs of jeans are split open and a patchwork panel fitted into the front. Usually intricate embroidered designs are added. Such skirts sell for \$45 to \$100 or more, depending on the work.

"I can make a simple skirt in four or five days if I work straight through," says Lilly, "but it is such close work, it is hard on the eyes to just keep going."

The family visited California annually for several years, and came to stay when Lilly was 14.

orders.

"I do not want a bunch of people coming to my house," she says, shrugging and running a hand through her hair.

She does not work with, or through, the shop. The owner just holds messages for Lilly. Lilly's parents are Mr. and Mrs. Eldon Barnes. She grew up in Windsor, Ont., Canada. Her mother, Monique, insisted her daughter learn all types of needlework.

Bottlenecks Haven't Hurt U.S. Capital Spending

By DONALD C. BAUDER
Copley News Service

In the fourth quarter of last year, when economists were trying to predict the disruption which the energy crisis would wreak on American industry, there was widespread fear that lack of energy would throw a monstrous monkey wrench into the whole industrial apparatus.

Some predicted that problems would multiply in quantum leaps. The tale went like this: small plants making plastic knobs would shut down for lack of petrochemicals.

The Detroit assembly lines would close down for lack of plastic knobs for the dashboard. And so it went. Dealers would close down for lack of autos and, presumably, the banks would ultimately close down for lack of auto dealers, to whom loan money, etc., etc.

Washes was to be a factor. Offices would close for lack of heat. Then the company's plant would close because the office personnel couldn't do the paper work.

And so on. And so forth. The input-output economists, who follow goods as they move along each step of the manufacturing process, were gloomiest of all. Some foresaw a depression.

Happily, it hasn't worked out that way. At least, yet. Interviews with economists from the industrial East see some smaller plants closing temporarily or taking extended vacations, and they are still concerned about utilities getting through the winter, but thus far, the massive bottlenecks just aren't in evidence.

The biggest worry economists had was that these bottlenecks would disrupt big capital spending plans. Thus far, they haven't.

From Newark, J. Robert Farrar, vice president and chief economist for the Prudential Life Insurance Co. of America, said, "We have talked with some individual businessmen and find that

larger companies are in reasonably good shape. They have long, established relationships with suppliers.

"Some smaller companies are having delivery problems, however. And one can see in the continued building of industrial backlogs that these are not due to exorbitant demand, but to problems of raw materials. Our real estate fellows report back increasing shortages of petrochemical-derived building materials, such as asphalt shingles," he said.

"There were horror stories back in December but we never knew whether they were real or whether manufacturers wanted to get in line so they could get allocations. Thus far, we haven't seen these stories materialize."

"Consolidated Edison (New York City's beleaguered utility) has cut back but it hasn't been drastic. It's more for conservation measures than for businessmen cutting back their plant operations. Basically, the consumer is using less electricity," he said.

From Pittsburgh, James Burnham, senior economist for Mellon National Bank & Trust Co., said, "There have been some layoffs at plants connected with the auto industry, and a portion is due to the shift away from heavy autos — a trend related to the energy crisis."

"Even though we haven't had major plant closings we are concerned about heavy power users. New England utilities use residual fuel, which are thick and difficult to ship. There is a concern over whether the utilities will get the residual oils they need," she said.

"I'm very impressed to the extent to which the majority of firms prepared themselves for this. Our utilities generally burn coal and have been well supplied," he said.

"One area which does give me concern is the small manufacturer who is thinking of setting up a plant in a new area of the country. The allocation is set up, he has a problem over whether he can get fuel for a new plant," Burnham said.

From Boston, Karen Horn, economist for First National Bank of Boston, said, "We have found shortages of power closing down plants yet."

"We have seen a number of examples of shortages of petrochemical feedstocks causing a temporary closing of the doors in plastics plants. Also, among our textile customers in the South we've seen extra-long plant vacations related to a shortage of synthetic fibers, which come from petrochemical feedstocks," she said.

Can Solzhenitsyn Save His Family?

Copley News Service

A Kremlin water cooler for half a century says exiled Soviet author Alexander I. Solzhenitsyn might never have seen his family again if he had refused to mute his verbal broadsides at the Russian government after being banished from the Soviet Union.

The Nobel Prize-winning writer said earlier from his Switzerland retreat that he would continue to write "the truth" about the Kremlin masters.

Fortunately, however, Solzhenitsyn has been more circumspect in his talks with newsmen in Norway, where he is visiting, observes Isaac Don Levine.

At 82, Levine is the author of many books on Soviet political history and the only surviving foreign correspondent who was in Moscow when Nikita Khrushchev launched the de-Stalinization drive in 1956.

Soviet leaders might well detain Solzhenitsyn's wife and four children in Russia if he further incurs their anger, Levine warns.

"Those devils (in the Kremlin) are like sharks," he observes. "You give them a hand and they eat your arm."

In an interview, he expressed the hope that Solzhenitsyn maintains a discreet silence concerning Soviet political affairs, at least until his family joins him. The Russians have said the family may leave the Soviet Union, but haven't

Yet at the same time, in the deepest secrecy, the President's boom friend Bebe Rebozo was arranging to receive a \$100,000 cash contribution from Hughes. Subsequently, two \$50,000 contributions for President Nixon were delivered at San Clemente and Key Biscayne by Hughes emissary Richard Danes.

We dug out and published the story of the secret \$100,000 gift on August 6, 1971. Our story, according to Senate investigators, caused panic inside the White House.

After his political comeback and triumphant takeover of the White House, Nixon remained so sensitive about Howard Hughes that he had his own brother bugged and followed in 1969. Don Nixon, an amiable but bumbling wheeler-dealer, was consorting too openly with Hughes aides John Meier and Tony Hatals.

Don Nixon, an amiable but bumbling wheeler-dealer, was consorting too openly with Hughes aides John Meier and Tony Hatals.

What did the White House bargains hope to find that would justify breaking into the Watergate? Why would they take such foolish risks to burglarize and bug the offices of a Democratic party factotum like Larry O'Brien?

The investigators, who have been piecing together the Watergate puzzle, think they know the answers. The key to the puzzle, they now feel sure, was the celebrated \$205,000 which billionaire industrialist Howard Hughes loaned to President Nixon's brother Don on December 10, 1968. The loan, secured by a \$11,000 family lot that no bank would have accepted as security for a loan of that size, was never repaid.

We learned about this curious transaction in 1969. Our disclosure coincided with Richard Nixon's first campaign for the presidency. He complained afterward that the loan story had helped to defeat him. Two years later, the \$205,000 loan became the biggest issue in his inglorious defeat for governor of California.

Washington—Senate investigators have come up with a theory which may explain the greatest Watergate mystery of them all.

What did the White House bargains hope to find that would justify breaking into the Watergate? Why would they take such foolish risks to burglarize and bug the offices of a Democratic party factotum like Larry O'Brien?

The investigators, who have been piecing together the Watergate puzzle, think they know the answers. The key to the puzzle, they now feel sure, was the celebrated \$205,000 which billionaire industrialist Howard Hughes loaned to President Nixon's brother Don on December 10, 1968.

We learned about this curious transaction in 1969. Our disclosure coincided with Richard Nixon's first campaign for the presidency. He complained afterward that the loan story had helped to defeat him.

Mar. 12—Oviedo High School PTO, 8 p.m., school, comment. Principal Keith Stone will speak on school zoning, four-day week and double sessions.

About 1971 Fundraiser Official Says Gurney Warned

MIAMI (AP) — North Florida FHA Director Forrest Howell has testified that he warned Sen. Edward Gurney, R-Fla., about a fundraiser's activities in the summer of 1971, the Miami Herald says.

Gurney, a member of the Senate Watergate Committee, has said that he was first told of the activities of former fundraiser Larry Williams in June 1972.

In its Thursday Edition, The Herald also quotes sources as saying that Howell informed Gurney during the conversation that an FHA builder had accused Williams of

collecting \$5,000 in return for FHA influence. Gurney has said that he initially learned of the influence-peddling allegation in October, 1971 during an FBI interview.

Howell's recent testimony came before an FBI-IRS task force, the newspaper said. The task force and federal grand juries in Miami and Jacksonville are investigating a secret \$400,000 slush fund reportedly collected for Gurney by Williams in 1971 and 1972, the Herald said.

The Herald quoted Howell as saying that he and Gurney discussed Williams' activities for approximately five minutes. The newspaper's sources did not describe Gurney's reaction during the conversation.

Asked to comment on Howell's statements, Gurney said, "I have repeatedly underscored my innocence of any wrongdoing, my staff and I have fully cooperated with the federal prosecutors in their investigation and we have provided all documentary material requested."

"I have volunteered to testify, and expect to be appearing soon before both of the federal grand juries. To speak of any area in this investigation at this time would be highly ill advised."

Gurney has said that Williams, who has since resigned, collected \$100,000 for his next campaign. Gurney said he demanded that the fundraising be stopped, but did not report the money to the Florida secretary of state because he was not a candidate at the time.

Williams, 29, was sentenced to a year in prison last month after pleading guilty to charges of attempting to evade federal income taxes and helping a contractor accept a bribe.

Growth Pressures Spread To Panhandle

TALLAHASSEE, Fla. (AP) — The pinewoods and white sand country of Florida's Panhandle soon could be subjected to the growth pressures occurring in other parts of the state, a state report says.

The Bureau of Land Planning released a report Wednesday on large developments, noting "the beginning patterns of urbanization along the Northwest Florida Gulf Coast."

The report, based on the first six months of the bureau's supervision of some large developments, said the heaviest concentration of other growth is in

Some 73 developments of regional impact, projects that meet certain size criteria and affect more than one county, have been reported to the bureau. The list includes 37 housing subdivisions, 10 shopping centers, three phosphate mines, one office park, one oil tank farm and one port.

Pit Stop

By CARL VANZURA

The March 10th Daytona 200 motorcycle race at Daytona International Speedway has attracted more foreign competition to the United States than any other professional sports event in history. Thirty-eight competitors, headed by many-time world champion Giacomo Agostini of Italy, have pushed the list of entries for the rich American Motorcycle Association event to an even 100, the largest in the 23-year history of the famed road race. It will mark Agostini's first competitive appearance in this country.

Sixty-one riders from the U.S.A. are among the entries for the \$50,000 road race. Other competitors in the 100-man field are from England, France, Holland, Switzerland, Italy, Finland, Japan, Australia, Venezuela, Canada and Scotland. The U.S.A. list includes a strong lineup of Yamaha competitors topped by defending national champion Kenny Roberts, former national titleholder Gene Romero and talented Don Castro. Yamaha, with Agostini in the camp, will field the most impressive number of riders.

Canadian Leads Kawasaki Effort

Canadian ace Yvon Duhamel and Art Baumann of California will lead the Kawasaki effort. Ex-national champ Gary Nixon and Paul Smart, a former English champion who now lives in California, will carry the Suzuki colors. Riders representing Honda, Norton, Triump, BSA, Harley-Davidson, BMW, Ducati and Benelli have also entered the Daytona race.

The upcoming events at Daytona, in order to conform with the AMA's energy reduction announced last month will be shortened. The Novice and Junior road races set for Friday, March 8, will both be 30-minute in distance. The Combined Lightweight race Saturday, March 9, will also be a 30-minute. Sunday's Expert road race will be 180 miles.

"Super Series" Moto-Cross

Highlight of this year's AMA SPEED WEEK Classics will be the opening round of the Yamaha International Invitations "Super Series" Moto-Cross set for Saturday afternoon, March 9, on the grass between the pit road and the main grandstand area. On Tuesday of this week Hideo Kanaya of Tokyo zoomed through a practice run at 191.88 mph on a Yamaha. Yvon Duhamel of Montreal, on a Kawasaki was second fastest of the day at 186.32 followed by Gene Ramero at 184.04 on his Yamaha.

Petty Wins Carolina 450

Richard Petty dominated the Carolina 450 Sunday finishing more than a lap ahead of Cale Yarborough. Petty winner of the Daytona 400 last month pulled his Dodge around Yarborough for one lap lead with about 50 miles remaining. Yarborough started in the pole position and led 150 miles after Petty suffered a cut tire early in the race and had to make an unscheduled pit stop. After the 150-mile mark Petty moved into first place when Cale pitted, and his Dodge was not seriously challenged the remainder of the race.

Bobby Allison, who edged Petty in the Richmond 450 last week, finished third in a Chevrolet five laps behind Petty. Charlie Glotzbach and Ford driver George Follmer took the fourth and fifth positions eight laps back. Local driver Richie Panch finished 14th winning \$1,370 in his bid for "Rookie of the Year". The next race on the NASCAR schedule is at Bristol, Tenn. on March 17.

Brown Enters Gatornationals

Johnny Brown owner of Johnny's Standard Station on Airport Blvd., has entered his beautiful Pearl 1962 Corvette in the 1964 Gator Nationals to be held March 15-17 at Gainesville Dragway in Gainesville, Florida. Brown's car is powered by a highly modified 306 cubic inch chevy motor and will run in the G-class class. The record for this class is 10.87 at 128.84 mph. Johnny stated that he feels that the car will have to go at least a 10th under the record to qualify for the prestigious event.

Dragway officials announced that a record field of entries has been received and expect over 500 cars on hand.

Polk sports a solid 18-3 record and has beaten the Raiders twice this season but only by a margin of five points each time. Those losses came before the Christmas break and Seminole has changed their style somewhat after getting used to playing with Shaw who started late this year.

Taking a good, but not overwhelmingly impressive 18-11 record into the tournament, the Raiders feel they can pull it off but it will take a total team effort.

The Raiders will be one of the smaller teams in the journey and will have to receive superlative performances from Shaw and company. Shaw is once again leading the state in scoring with a 34.3 ppg average. He clips the nets at a 57 percent

rate from the floor. Chip Crawford who will take a seat beside Sterling at the tip-off of today's game, owns the state's leading free throw percentage with a 90 percent effective rate.

Starting along side Shaw and Williams will be Robert Horze, Gerald Owens and Robert McCullum. Crawford though, is expected to see his share of the action.

Polk is led by super frosh Kent Glover. He and Shaw as well as several other state stars will draw attention from major college scouts.

The other six teams in the eight team tournament are host school Lake City, Brevard Community College, Chipola CC, Broward CC, Pensacola and Palm Beach Atlantic.

If Seminole tops Polk today, they will play the winner of the Chipola-Broward contest at 7:00 p.m. Friday.

It is expected that the Raiders will draw attention from major college scouts.

Drops DeLand, Oviedo, Seminole Hound Cindermen Win 5-Way Meet

By JOHN CHERWA Herald Correspondent

Going into the final event the Hounds were five points ahead and had to finish in at least fourth position in the Mile Relay. As it turned out they took second with DeLand taking third in that event.

All squads were suffering from injuries. Notably missing from Oviedo was Greg Washington. From Lyman Tom Herron and Mark Bousquet were sidelined with Tom Cegash and Eddie Esch each suffering from injuries yet competed in the meet.

In the long jump it was John Jackson continuing with his excellence in this event taking first with a distance of 21'10". DeLand's Stucky took second

with a jump of 21'3" and Lyman's James Mikell was third at 21'2 1/2".

In the shot put Dave Barkley of DeLand was first with Glenn Hill and Charlie Meetz both of Lyman in second and third. The 120 high hurdles was taken by Sanford's Steve Littlejohn with Thom in second and Jimmy Brinker of Lyman in third. The winning time was 15.4.

Off like a flash in the 100 yard dash was Jackson with a winning time of 1:4 with Floyd DeLand in second and Nat Perkins of the Tribe in third. Perkins completed the stretch in 10.5.

In the mile run it was battle of former cross country runners with Glenn Hill taking first, Charlie Meetz second and Jerry Human taking third. The two mile event was won by Kenny Duncan with Jay Gerre in second and Young in third. Steve Vick of the Sanford Naval Academy took fourth with a time of 10:39.5 a new school record.

In the last field event, the pole vault, Caltry from DeLand was first with Lyman's Tom Cegash taking second. Al Stanley was fourth for the Hounds establishing a new sophomore record.

In the final event of the day, the mile relay, Seminole took first, the mile second and DeLand third.

The 300 intermediate hurdles was captured by Thom with Littlejohn in second. Brinker broke his own record in this event with a 42.0 good enough for third position.

Terry Travis was the 800 yard run in 2:40.3. Travis is coming into excellent form after a long layoff due to foot problems. He is expected to be one of the strong links in the Hound chain.

Oviedo's Tom Sivert was second and Dennis Burns was third. The sprint medley was won by DeLand with Sanford in second and Lyman in third. The Hounds swept the discus event,

with Glenn Hill taking first, Charlie Meetz second and Jerry Human taking third.

CLIPPING THE SECONDS HIGH HURDLES is like shaving, the closer you get, the smoother you get. Rather, the closer to the hurdle bar you get the faster time you get, and all the form this young cinder runner shows gives him a much closer time.

Just Normal For Pearl; Outstanding

By JOHN NELSON AP Sports Writer

"Earl Monroe had a normal game for Earl Monroe," said New York Knicks Coach Red Holzman. "For anyone else it would have been an outstanding game."

The Knicks beat the Atlanta Hawks 96-94 in a National Basketball Association game Wednesday, but, in so doing, they blew an 18-point second-quarter lead and then had to call on Monroe to bail them out.

The Knicks led 32-14 early in the second quarter and 54-43 at the half, with Monroe contributing 14 of his 20 points before intermission.

But Herm Gilliam got 10 of his 20 points in the third quarter, and the Hawks took a 72-68 lead entering the final frame.

Elsewhere in the NBA, the Philadelphia 76ers surprised the Capital Bullets 114-99, the Chicago Bulls downed the Houston Rockets 105-83, the Milwaukee Bucks defeated Kansas City-Omaha 111-99, and the Los Angeles Lakers defeated the Boston Celtics 116-111.

In the American Basketball Association, the Indiana Pacers got by the San Antonio Spurs 92-82. Utah Stars defeated the San Antonio Spurs 119-103, and the New York Nets bombed the San Diego Conquistadors 123-87.

Bulls 112, Celtics 99

Larry Cannon, newly acquired from the ABA's Pacers, made himself a welcome addition to the Philadelphia roster by adding eight assists to the 27-point performance of Steve Mix.

Bulls 105, Rockets 93

Mickey Davis, in an infrequent starting role caused by the absence of Bob Dandridge, equalled his career best by scoring 22 points and making the difference for Milwaukee.

Lakers 116, Celtics 111

Gail Goodrich had 29 points and spent the rest of his time gathering eight assists to lead the Lakers. The victory, the Lakers' eighth in their past nine contests, moved Los Angeles into a tie with Golden State for the lead in the NBA's Pacific Division.

Pacers 92, Spurs 82

Freddie Lewis (who was responding to a challenge, and he responded well, with 24 points, to lead Indiana.

Stars 119, Tams 103

James Jones and Ron Boone led a second-half comeback surge that overcame a 13-point deficit and sent the Tams packing.

WEST PALM BEACH, Fla. (AP) — The Atlanta Braves said utility infielder Chuck Goss returned to Atlanta for further examination of a back injury sustained Tuesday. He may have to undergo surgery, a spokesman said Wednesday.

NEW YORK (AP) — Hank Greenberg, who once chased Babe Ruth's record himself, says it's ridiculous that so much fuss is being made over the decision to keep Hank Aaron out of action until the Braves play in Atlanta.

NEW ORLEANS (AP) — Outside linebacker Ray Hester has been traded to the St. Louis Cardinals for an undisclosed draft choice, the New Orleans Saints have reported.

NEW HAVEN, Conn. (AP) — Yale's Mike Baskauskas of Brockton, Mass., was named Wednesday the Eli's most valuable player by his fellow basketball teammates, a spokesman said. Goalsie Ken MacKenzie Jr. of South St. Marie, Ont., was named the hockey team's most valuable player.

COLUMBIA, S.C. (AP) — The South Carolina House has passed a resolution honoring the Furman University basketball team for winning the Southern Conference title — and calling on the Paladins to beat the University of South Carolina in the first round of the NCAA tournament.

Combanks Adds Two Directors

Albert H. Chubb, president of ComBank-Fairville, has announced that Roy S. LeTourneau and Bob Scott have been named to the ComBank-Fairville Board of Directors. Roy S. LeTourneau is president of LeTourneau Tractor Company. He is a graduate of North State University with a Degree in Business Administration and was awarded the Honorary Degree of Doctor of Laws from Warner Pacific. He is president of LeTourneau Foundation and a Trustee of LeTourneau College in Longview, Texas, which was founded by his parents in 1946.

LeTourneau is an active member of the First Alliance Church in Orlando and is a member of the International Board of Managers for the Christian and Missionary Alliance. He and his wife have four children. Bob Scott serves as executive vice president at Florida Hospital. Born in Wisconsin, he is a graduate of Loma Linda University with a B. S. Degree in Business Administration. He also graduated from the Trinity University with a Master of Science Degree in Hospital Administration. He is a member of the American College of Hospital Administrators, Florida Hospital Association and Texas Hospital Association. Scott is an Elder in the Seventh-day Adventist Church and is also a Youth Division Leader. He and his wife, Betty, have four sons.

Slowdown Predicted

WASHINGTON — Willis W. Alexander, executive vice president of the American Bankers Association (ABA), said the nation's economic slowdown can be expected to continue through most of 1974.

"Our professionals in the banking industry believe that we are slowing down economically, that we probably will be doing so for another six months or so, and then we expect a resumption of the rise," Alexander said.

He made the remarks in an interview on the CBS television network.

The ABA has charted an increase this winter in installment loan delinquency rates, Alexander said. "I think this is a reflection of two things: a reduction in the level of employment, and what's happened to the used car market, particularly to the value of the larger automobiles," he said.

Asked whether Americans should save their money in other countries for greater security, Alexander expressed hope that "we won't send our money abroad because that really raises the question of who it is, then, that will finance the American economy, and with what." He added, "I still have, and I think most of my associates still have, a great deal of faith in the American system and the American economy."

Environmentalist Blamed

Consumers throughout the nation — as well as farmers — have been put in a precarious supply position by stringent, unnecessary environmental controls, says the top official of the Agricultural Institute of Florida.

Asking "just who is the Environmental Protection Agency protecting?" Fred Y. Montasdeca, Institute president, says "excess, unwarranted controls have caused shortages in fuel, fertilizer and paper as well as in food — and will cause even more."

"I am sure," Montasdeca says, "the intent of each environmental regulation is good, but the fact remains we must base opinions on the results of these controls. We cannot completely halt production and progress to appease certain ecological crusaders who seemingly cannot see beyond the end of their noses."

"The result of continued, stringent environmental controls will be curtailed food production and possible starvation for thousands of people throughout the world."

Card Volume Climbs

WASHINGTON — More than three bank card transactions were made for every one of the nation's 216.5 million men, women and children during 1973.

Americans used their bank cards more than 632 million times last year to obtain more than \$13.8 billion in retail foods, services and cash advances, reports the ABA Bank Card Letter, which is published by the American Bankers Association (ABA).

This represents a jump of more than \$3.4 billion over 1972 when total dollar volume for purchases and cash advances amounted to less than \$10.2 billion, according to Letter statistics. Retail sale volume for 1973 totaled more than \$12 billion, an increase of 34.6 per cent over 1972 figures. Cash advance volume increased 31.3 per cent to total more than \$1.4 billion at year-end '73. Between 1972 and 1973, the amount of the average retail sale increased from \$19.76 to \$20.88.

The ABA Bank Card Letter also reported substantial gains in '73 fourth quarter figures as compared to the same three months in 1972. Bank card volume for the fourth quarter of last year totaled more than \$4 billion — a jump of over \$1 billion from the last quarter of 1972.

Willner Declares Dividend

IRVINGTON, N.J. — The Board of Directors of Willner Industries (NSE) has declared a four per cent stock dividend payable on March 18, 1974 to shareholders of record on March 8, 1974.

Company President William C. Willner revealed that in lieu of fractional shares, cash will be paid based on the closing bid price of the common shares on the National Stock Exchange on the record date. The stock dividend will be paid out of treasury shares and authorized but unissued shares of the company. The company holds 6,012 treasury shares, and the number of shares outstanding is 493,988. Thus, the stock dividend will comprise the 6,012 treasury shares plus 13,744 shares authorized but unissued, totaling 19,756 shares.

Customers Resent Clerk Harassment

By G. B. DENTON Copley News Service

Q. Three of us girls shop together regularly. We usually spend the entire day in retail stores with time out for lunch. These outings could be a lot of fun, but the sales people in stores we patronize are really making them irksome. On some occasions the sales clerks descend on us as soon as we enter their area. They feel free to contradict personal exchanges between us and to interject persuasive comments. On other occasions we can shop without harassment but clerks are not available after we have selected merchandise for purchase. We feel the store managers have the obligation of keeping an adequate sales staff on hand at all times and of discouraging the badgering of customers when store traffic is light.

A. Retail managers are working out techniques to safeguard their customers from harassment while they are shopping. One development is a green button stating "I'm just looking," that is clipped to the shopper's clothing. The shopper picks up the button when she enters the retail department and drops it off when she is ready to leave.

The second problem you mention is much more difficult to cope with. Most retail stores do the largest part of their business within a few hours each week. During these hours customers may greatly outnumber clerks. If the stores were to hire sufficient personnel to handle all transactions with dispatch during these periods the price of all merchandise would have to be increased sharply to cover costs.

Consumer alert: Shoppers are buying winter coats in July and bathing suits in March because they know pre-season buying will deplete the stock by the time the actual season arrives. Stores are becoming aware of this trend and will be adjusting their advertisements to get in step.

Forward your questions and comments to Consumer Forum, Copley News Service, in care of this newspaper. Please include a self-addressed, stamped envelope if you require a personal answer.

Just a drop, please.

Gasoline To Become A Welcome Gift?

By ANN RUDY Copley News Service

Pretty soon it won't be unreasonable to say, "Promise me anything, but give me gasoline."

So far, I haven't had to line up to fill my tank, but as the price of gas continues to rise, and it becomes in shorter and shorter supply, its very scarcity and expense will move it from the "fill 'er up" vernacular to "a whole gallon for me!" ... You shouldn't have!"

At Christmas, business firms will stop handing out free liquor to their clients and give them, instead, a couple of gallons of high octane all done up in red cellophane.

Of course there will be some clients who will drink it anyway simply because it is always difficult to teach an old drunk new tricks, but it will help them cut down on their smoking.

A wife, stuck for what to give her mother-in-law for her birthday, can present 10 gallons and a road map. Five gallons, even OK, a quart — if it will get her off the sofa and down the driveway.

But I hope nobody gives me gas as a present, because I think I may take to my bike and stop driving completely. I want to be the first woman on my block to park her car in the living room as an art object.

Then when the kids call from two blocks away and want me to drive them home, I'll say, "You know I've planted fern in our back seat. Walk."

And if they don't like it, I'll

NEW BANK NEARS COMPLETION. The building located on Geneva Avenue, will include 11,900 sq. ft. floor space. (Herald Photo by Liz Mathieux)

Bank Hosts Exec Meeting

By LIZ MATHIEUX Herald Correspondent

Friends, stockholders and guests were honored by the chairman of the board of the Citizens Bank of Oviedo at the recent annual executive meeting at the bank's newly completed building on Geneva Drive in Oviedo. A catered luncheon preceded the meeting which was followed by an inspection of the premises. After the introduction of new stockholders, staff members and guests L. H. Webb, executive vice president, introduced the general contractors, Eugene W. Kelsey and the job superintendent, Dave Kidd, who disclosed that there are some 11 thousand square feet of space involved in the two-story precast concrete building. It was designed with space for expansion in the future when the need arises and there are six drive-in teller windows with pneumatic tube system which will enable three tellers to control all of the lines from the building through voice control. It also boasts the only elevator in the city of Oviedo.

A cost of approximately \$400,000 is involved in the building, alone with a possible \$11,000 for the office furnishings. W. I. Webb is the architect and Joseph D. Van Brackle serves as the public relations liaison.

Operating income reached an all-time high of \$780,095.28, which was a 32.7 per cent increase over the amount of \$589,654.16, net operating earnings for the year amounted to \$130,441.12, a 129 per cent increase over 1972. Earnings per share after provision for federal and state income taxes and loan losses amount to \$3.27. This is based on 36,000 shares now authorized and outstanding

and includes the additional 12,000 shares sold last January. Dividends of \$36,000 or \$1 per share were paid to stockholders during the current year as compared to 75 cents per share in 1972. Year-end book value per share amounted to \$32.10. The continuing growth of Oviedo and the surrounding area during 1973 has provided The Citizens Bank of Oviedo with an environment for the most successful operations since it opened for business in 1946. The Citizens Bank of Oviedo is a full service bank whose board of directors include, James W. Abell, vice president; C. R. Clonts, chairman of the board; John P. Gore, vice president, Florida Technological University; Ben F. Ward Jr., Insurance and Real Estate, Harold A. Ward Jr., Investments, B. F. Wheeler, Jr., Nelson and Company, Inc., Edward Yarborough, Cattle and Citrus, Honorary Director of G. S. Lee, the late Ben Jones was director of Citrus and Investments; also officers, C. R. Clonts, chairman of the Board, and President; B. F. Wheeler Jr., vice chairman of the board, L. H. Webb, executive vice president;

James W. Abell, vice president; Mrs. Marie Burch, vice president; Mrs. Pennie M. Oltz, vice president; Mrs. Edith Dishman, cashier; Mrs. Lynda Hickson, assistant cashier; Mrs. Patricia Vinson, assistant cashier; Mrs. Billie Laws, administrative assistant; the staff includes James Alford, Lilah Axline, Carole Becker, Barbara Bangor, June Case, Lola Cudby, Marvyn Cox, Judy Elmore, Flo-Ann Kibicki, Sandy McGregor, Janet Mackall, Jane Simmons, Helen Slavik, Patricia Wick, Dorothy Wheaton and Patricia Wood.

U.S. energy czar William Simon should be encouraged by the way a big slice of American industry is responding to his call for saving power.

Some companies, for example, like General Telephone Co. of Florida, sponsor contests among employees to come up with energy-conserving ideas which make sense.

General Telephone, a subsidiary of General Telephone & Electronics Corp., of Stamford, Conn., asked its 11,000 workers to submit ways to reduce consumption of fuels and electrical power.

More than 500 ideas were turned in during a two-week contest. The 25 employees who were judged to have made the best suggestions won — you guessed it — energy-saving, nonpolluting bicycles.

Belgium is a little kinder, with \$3,961 left from a \$5,000 income after taxes; \$65,097 survives \$200,000 in earnings, and if you earn \$20,000 you can take home \$13,157.

BUSINESS AND PROFESSIONAL WOMEN CELEBRATE ... (l to r) Jill Gongwer, June Woodruff, June Foley, Thea Whitcomb, Karen Westmark (Herald Photo by Cecelia Farmer)

Sanford BPW Club Silver Tea 25th Anniversary Observed

Members of the Sanford Business and Professional Women's Club observed their 25th anniversary with a tea, March 3, 1974, at the Sandwood Villas Club House, from 3 to 6 p.m. The beautiful new club house was adorned with potted palms and a large arrangement of yellow roses in a hand painted vase. A game table in the center of the room was overlaid with a hand made lace cloth and centered with two ceramic peacocks, sprayed gold and studded with glittering jewels. Also on the table were the club flags and a scrap book of clippings from activities the past three years. Displayed near the entrance was a tall billboard with awards won by the club during the past 25 years. Two tea tables were set up in the South end of the building, overlaid with white cloths. Guests were served coffee and tea along with dainty party cookies from the other. In the receiving line were Karen Westmark, club president; Jill Gongwer, June Foley, June Woodruff and Thea Whitcomb, chairman of the tea. They were assisted by other members of the club. Invitations were sent to City Commissioners, County Commissioners, District of

Flower Show To Highlight "DeBary Beauties" Theme

Others serving are Mrs. Everett Dirksen, judge; Mrs. Harry Shook, hostess; Mrs. Ardo Whittier, clerk; Mrs. William Sautter, records; Mrs. Alfred Marvel, clerk; Mrs. Peter Schulz, awards and trophies; Mrs. John Boffi, treasurer and tickets; Mrs. Donald Middleton, publicity and printing; and Mrs. H. M. Giblin, guest book. The Sanford BPW Club was organized in October, 1948 and meet once a month for a business meeting and program. They sponsor a dental clinic which gives treatments to indigent children and adults. This is their main project but they also sponsor an annual contest for "Little Miss BPW" among girls 5 to 7 years of age.

Junior Women's Department Plans Youth Art Festival

Mrs. Virginia Singer of DeLand, who is a former art teacher at Daytona Beach Junior College, was the speaker at the last meeting of the Junior Women's Club of Sanford. The program, "A Creative Experience in Art" was under the direction of The Arts Department. Each club member was given ten minutes to create a picture using red, blue and yellow finger paints. Numbers of the pictures were then drawn, and Mrs. John Crabtree, Mrs. Robert Karns, Mrs. David Berrien, Mrs. Irving Gussow and Miss Kate Moocrief had their pictures analyzed by Mrs. Singer. Much can be revealed about personality through the use of color and through the techniques used in creating with finger paints. In addition to the program on art, music was played during the entire presentation. The Arts Department also announced plans for the upcoming Youth Art Festival on March 23, at Sanford Plaza from 10:00 a.m. to 5:30 p.m. The theme for the exhibit is "What Florida Means To Me," and will involve youth in the first through eighth grades in Sanford schools. Department members are now in the process of distributing information to all schools in Sanford.

BRIDAL TEA (l to r, seated) Miss Frances Williams, Mrs. R. W. Williams, standing, Miss Mary Beth Williams, Mrs. Ted Williams, Mrs. F. R. Darland, Mrs. C. E. Carlton and Mrs. R. A. Tuttle. (Herald Photo by Cecelia Farmer)

Frances Williams Honored

The Ted Williams home, 400 Phumos Drive, was the scene of a recent bridal tea honoring Miss Frances Williams, bride-elect of James H. Riser. Co-hostesses with Mrs. Williams were Miss Mary Beth Williams, Mrs. Robert Tuttle and Mrs. C. E. Carlton assisted by Mrs. D. M. Paul. A color scheme of pink and green was used in decor with lovely arrangements of pink and white orchid corsage, a gift and white carnations, a gift chosen from the hostesses. Orchid corsages were also presented to the bride-elect's mother, Mrs. R. W. Williams, and to the mother of the future bridegroom, Mrs. F. R. Darland. Hostess gift was two place settings in the bride's place pattern of china. Mrs. Jack Burney greeted the guests at the door. Assisting with the serving were Misses Marion Roberts, Jay Bolton, George Hughes, Walter Fester, Gordon Bradley, Rose Marie Carlton, Bill Bridges and Miss Ethel Riser. Floating hostesses were the Misses Sara Lee Roberts, Lisa and Jeana Hughes, Christy Burney, Deborah Williams, Karen, Sheila and Laurrell Johnson, Mrs. Michael Morgan, Mrs. James Morris and the Misses Patty and Judy Carlton. All hostesses were attired in long hostess gowns. Guests were served refreshments of open face sandwiches, party cookies, petit fours, nuts, colorful home made mints, coffee and pink pineapple sherbet punch. The table overlaid with a white embroidered Madera cloth, over pink was centered with an elaborate arrangement of pink sweetheart roses, and baby's breath in a four branch silver candelabra with pink candles, held erect by three pink doves. All silver appointments were used. Approximately 150 friends and relatives were invited to call during the appointed hours of 4 to 6 p.m.

PLANNING FOR 'WOMAN OF THE YEAR' SEMINOLE COUNTY Federation of Women's Clubs met in the Civic Building, in Longwood, kicking off the "Woman of the Year" annual contest. Two awards will be given, one in the 20-40 age group, and one in the 41 and up, age group. Only one woman's name from each of the 17 clubs in the federation may be submitted for judging with the awards to be made at the May meeting. Preparing for big event are (l to r) Rae Artman, first vice-president of Altamonte Homemakers Club; Beverly Freeman, president of Seminole Federation of Women's Clubs; and Penny Wilson, president of Homemakers County Council. (Herald Photo by Erika Nichols)

Oviedo Personals

By LIZ MATHIEUX Herald Correspondent It is that time of the year again when all of those good cooks who belong to the Oviedo Woman's Club get out their finest ingredients and their tastiest recipes and set out to create some very tempting dishes which they will set forth for your gastronomical pleasure on March 8, between the hours of 11:30 a.m. to 1:00 p.m. Tickets are available from any club member or may be purchased at the door. Special attention will be given to working persons on a limited lunch hour. Cookbooks with delicious recipes will be available. See you there and if you have any questions, don't hesitate to call Martha Goree or any other club member. Afterward, delicious refreshments were served to all present from a most beautifully appointed table. Those attending the meeting were Mrs. Bernard Blackwood, Mrs. Elizabeth Blackwood, Mrs. C. H. Clonts, Mrs. Ross Dunn, Mrs. M.L. Gary, Mrs. James Koenig, Mrs. G.S. Moon, Mrs. Aubrey Myers, Mrs. John Ridenour, Mrs. Frank Ruble, Mrs. Paul Slavik, Mrs. R.W. Whittier, Mrs. Judy Berger, Mrs. Alva Jernigan and Miss Ruth Davidson. It was a pleasure to see Ann and Skip Hendrix at the bank gathering a few days ago. They both looked well and Ann was especially lovely in her handsome woolen capelet which Skip brought back home after a recent tour of duty in Scotland. Speaking of happy young people, have you noticed the extra radiance about Beverly Hughes and Arthur Evans? The big day in June gets closer every day. You will be glad that you did. I have never seen anything to equal their beauty! From what L.H. Webb tells me the opening day for the new Oviedo Citizens Bank will be mid-March. It is a truly beautiful building and one we can all be justly proud of. The Oviedo Garden Club met at the home of Mrs. C.R. Clonts for their regular monthly meeting. Mrs. Paul Slavik assisted Mrs. Clonts as co-hostess. The meeting was opened with a devotional program, led by Mrs. Lynn Mosier, after which the members answered roll call with the name of their favorite camellia. During the business meeting, Mrs. M.L. Gary reported that she had planted a crab apple tree on the triangle near the cemetery for the club and plans were made for various members to water and care for it. The club also decided to enter a booth at the Woman's Club Fair in May for the purpose of selling plants and hanging baskets donated by the members. A program on landscaping was presented by Mrs. C.R. Clonts and followed by a tour of her gardens which were in full bloom with many brilliant shades and varieties of camellias and azaleas. Afterward, delicious refreshments were served to all present from a most beautifully appointed table.

Dear Abby Pregnant Teen Has Nowhere to Turn

DEAR ABBY: I hope to God you can help me. I am 16 years old and pregnant. I really can't understand how this happened. My friend promised he would be real careful.

I have got to find a place to go real quick, because there are four girls in our family, and my mom said if any of us ever got that way we may as well pack up and leave home.

My boy friend is joining the Navy and says he will come back and marry me if I wait until May, but I can't wait that long.

What I want you to tell me is where I can go to have my child? I'd like to keep it if possible and come back and finish school. I don't have five cents to my name, but I am willing to work like a horse as long as I can. Please help me. You see, you may God bless you.

DEAR ALL: There is a Booth Memorial Home near you. It's run by the Salvation Army, and a more kind and generous group of people would be hard to find. Tell them Abby sent you. May God bless you.

DEAR ABBY: My daughter was a young bride when her husband went overseas in the service. She wrote to him every day. She was lucky if she got a letter from him once every three weeks, and when he did write he said things like, "I am leaving my wedding ring in the drawer and am having myself a good time." She used to cry herself to sleep every night.

I said to her, "Don't be a fool. Don't write to him for three weeks. Then write that you decided to leave your wedding ring in the drawer, too, and you are also having a good time. In the next letter, write and tell him you met a lovely man who is making you forget your loneliness."

Abby, it worked like a charm. Her husband started to write every day, asking her questions, and telling her how much he loved her.

Everything worked out just like I thought it would. By the time he got home, they were madly in love. I believe in fighting fire with fire.

MAMMA KNOWS BEST DEAR MAMMA: Not all sick marriages respond to the same treatment. In your daughter's case, it worked. But usually when people fight fire with fire, they end up with ashes.

DEAR ABBY: Will you please tell the reading public that millions of otherwise perfectly normal people have a hearing loss and all they expect from their friends and relatives is a little consideration. Example: I have had people discovering that I wear a hearing aid and speak to me as if I am mentally deficient and unable to comprehend normal language. Some even shout at me, amplifying the sound to such an excruciating pitch, I nearly faint from the thundering noise!

A few tips: Speak distinctly... don't mumble, but don't shout either. Don't everybody talk at once. If someone else is talking, wait until he has finished. When talking to me who has a hearing loss, talk to him—not at him, or around him.

And please remember—we are not stupid—only hard of hearing.

DEAR SAID: Your "any" was well worth repeating. I'll pass it along.

PA: Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abigail Van Buren, 122 Lasky Dr., Beverly Hills, Calif. 90231.

Sex Desire Depends On Training

Dr. Dee is worried about the homosexual murders at Houston. The best way to prevent homosexuality is to create happy affectionate marriages between the parents of youth in the "gang" stage of their emotional growth. And stress co-educational activity!

My boy friend is joining the Navy and says he will come back and marry me if I wait until May, but I can't wait that long.

What I want you to tell me is where I can go to have my child? I'd like to keep it if possible and come back and finish school. I don't have five cents to my name, but I am willing to work like a horse as long as I can. Please help me. You see, you may God bless you.

Highlights TV Time Previews

8-9 CBS THE WALTONS "The Five-Foot Shelf" An itinerant book salesman talks the Waltons out of their last \$1 in cash as down-payment for a set of the Harvard Classics. But they soon discover he didn't put the order through. They learn he bought a big doll with the money at the general store in this poignant story.

8-30 ABC CHOPPER ONE "Copperhead" When a rare Copperhead gun believed to have been dumped in the ocean turns up again in possession of a robbery suspect, there is belief that someone in the police department is selling confiscated weapons. The airborne team of Foley and Burdick take to their helicopters to keep the prime suspect, a sergeant nearing retirement, under surveillance.

8-30 ABC FIREHOUSE "Tide of Terror" It started as a wonderful, and romantic evening for Sony Caputo with his girl friend. They went to a nice restaurant for dinner, and Sony rushed to aid another

8-11 CBS THURSDAY NIGHT MOVIES "Marriage Times Four" Here are half-hour situations comedies, project developments that have been strung together for audience reaction. One story is about parents trying to hid from their kids the fact the mother was pregnant before they got married, another is about a couple in their mid-30s who suddenly fear life is passing them up, another about a mistaken impression when a priest shows up at the house and the kids think one of their parents is seriously ill. Fourth story is about a divorcee who returns from New York to her home town with her 8-year-old son and finds her father is an old-fashioned as ever.

9-11 NBC IRONSIDE Chief Ironside and Det. Ed Brown leave their home base tonight, on an assignment to take a syndicate hit man back to San Francisco. Needless to say, the trip is fraught with danger, particularly when the three are forced to stay in one place longer than expected. This gives the hit man the chance he's been waiting for.

9-11 ABC ABC THEATRE "Pueblo" (Rerun) This factual account is fascinating although ponderous, dramatic. Nevertheless, it reports the incidents of the Pueblo surrender to North Korea by Comdr. Lloyd Burcher with a passionate regard for the records. An excellent performance by Hal Holbrook as Burcher, a man caught in a horrible dilemma of Navy dogma and moral obligation. A fine supporting cast includes George Grizzard, Gary Merrill, Richard Mulligan, Andrew Dugan and Mary Picket.

Retirement How Does Income Affect Benefits?

By FRANK CORRICK
Copley News Service

Q. My interest from certificates and stocks is over \$6,000 per year. Will it still be able to draw my Social Security checks when I retire? — J.E.

A. The interest you receive does not count against you. Neither do pensions or other types of retirement income. The only income that counts against you is wage or self-employment income and the

first \$2,400 earned in those two categories doesn't cause loss of benefits.

Q. What is "The Life Saving Emblem?" — Mrs. T.H.W.

A. When a person has an existing health problem, a simple tag identifying their condition could mean the difference between life and death, reports the Institute of Life Insurance.

The emblem's purpose is to alert doctors, nurses and

other individuals who administer aid in emergency situations that the person they are treating is suffering from any one of some 200 "hidden" health conditions — such as heart problems, diabetes, epilepsy, glaucoma and severe allergies. In such situations, the person may be physically unable to tell the medical people that there is a condition they should know about.

A sufferer from diabetes or epilepsy, for example, could be neglected because he or she was mistakenly considered to be intoxicated or on drugs. Other likely victims of "hidden" health problems are individuals who are allergic to antibiotics or other drugs — a shot of penicillin administered to them could be fatal.

Equally danger-prone in an emergency situation is the person wearing undetected contact lenses. If left in the eyes for 24 hours or more, the lens can cause a marked impairment of vision or even blindness.

Reasons For Listing Weights By Ounces

By LIZETTE L. MURPHY
Consumer Education
Florida Cooperative Extension

Q. Some packaged and canned foods have a net weight in fractions of an ounce — for example, 1/4 oz. or 3/32 oz. Why? I find this very confusing when comparing prices.

A. There are several reasons for this. To save in production cost manufacturers use one size container for more than one product. Since many products vary in weight per cubic inch, there will be a variation in the net weight of the contents. And, some of them may be fractional. However, to protect the consumer, the label must show the actual net weight.

Consumers prefer to buy some products based on the amount which constitutes a serving, they multiply this times the number of servings in the container. This determines the net weight in each package which may be fractional. In this instance, the label provides added guidance for consumers by showing both the net weight and the number of servings.

The octane rating stickers on gasoline pumps are very confusing. Which kind do you buy if your car owner's manual says your car should use 95 octane? There seems to be several choices.

A. The octane rating you see posted on the gasoline pumps is required by the Dept. of Energy. At present, there are three ways of determining octane rating: the research method, motor test, and road test. The octane rating in an owner's manual is based on research methods. CLC requires the rating posted on pumps to be an average of the research and motor ratings. This is about 4 points less than a research rating alone. For example, a pump labeled with an octane rating of 95 would actually be equivalent to a 91 rating in your manual.

The octane rating stickers on gasoline pumps are very confusing. Which kind do you buy if your car owner's manual says your car should use 95 octane? There seems to be several choices.

A. I'm assuming you were born in 1911. In that event your monthly benefit rate would be about \$100. This takes into account recent legislation which will increase Social Security benefits by 11 per cent by July, 1974.

362 Million Gallons For March Gas Allocation Short: Askew

TALLAHASSEE, Fla. (AP) — Gov. Reubin Askew says an increase of 20 million gallons in Florida's March gasoline allocation is still not enough to meet demand.

Askew announced the allocation from Washington where he is attending the National Governor's Conference. The governors met Thursday with federal energy chief William Simon. Askew said all states were rationed enough gasoline by Simon to bring

March gasoline supplies up to at least 85 per cent of the anticipated demand. Florida's revised share, according to Askew, is 362 million gallons.

But Askew said in a press release he pointed out to Simon that Florida and 30 other states fall below the national average of 89.6 per cent of the anticipated March need.

The governor urged Simon to boost the 31 states to the new national average.

Noting that the national gasoline reserve totals about 9 billion gallons, Askew said it would take only 350 million gallons to raise the 31 states "closer to parity" with the other states.

He said Simon took the request under consideration.

Askew won at least some concessions from the Federal Energy Office as Simon's revised March allocation included a growth factor

based on the increase in motor vehicle registrations between 1972 and the first of this year. During that time, Florida's registrations increased more than 10 per cent.

"I am encouraged that the Federal Energy Office is now recognizing the tremendous growth which Florida has experienced," Askew said.

He said Florida is entitled to more gasoline and he will continue to push for increased allocations.

The Sanford Herald

Friday, March 8, 1974 - Sanford, Florida 32771
6th Year, No. 170 Price 10 Cents

Streakers Show Scintillating Side

Central Florida college and high school students are joining bands of skinny, fat, goosebumpy, sweaty bodies — all nude — across the country who are competing with the heroes of college athletics for title to the biggest spectator sport in the country.

Thousands upon thousands of collegians, male and female, stripped to the buff Thursday night for a zany frolic of "streaking" that provided more entertainment than television or the local movies.

The craze of romping around the campus in the nude has been building in numbers and imagination for weeks, but the fad burst into unprecedented dimensions Thursday as danced, paraded, biked, walked and imagined of student affairs.

Central Florida included.

Drug Law Advocate Fights Bond

A recently defeated candidate for Mayor of Maitland who campaigned for decriminalization of the drug laws has found himself at the center of a fight over apparently arbitrary and unfair bond practices.

Wilbur D. Selley, an inventor and civil libertarian, was arrested late Thursday night as he prepared to climb the Maitland water tower in protest against what he claims is harassment by authorities.

Weather

Yesterday's high 67 low this morning 57. Mostly fair through Saturday and warm with highs around mid 80s. Lows tonight lower to mid 60s.

Thunderstorms, high winds and hail hit portions of the nation's interior today, with a late-winter storm bombarded Southern California.

Hail the size of golf balls pelted Lipscomb, Tex., Thursday night.

Jobless Rate Stable; Road Work 'Safe' From Gas Crisis

WASHINGTON (AP) — The nation's unemployment rate held steady at 5.2 per cent of the work force in February despite the energy crunch, the government said today.

The Bureau of Labor Statistics, reporting the surprise statistic, said total employment remained unchanged at 90.3 million while the number of people out of work held at 4.7 million.

Specialists in the bureau could offer no reason for the sudden halt in unemployment, which has risen from 4.6 per cent of the work force since last October, primarily because of job layoffs caused by the energy crisis.

The bureau estimated that from November through February 125,000 and 200,000 jobs were lost directly because of fuel shortages.

One reason for the apparent strength of employment in February was shown in a separate survey of industry employment, showing that non-farm payroll jobs posted a net increase of 173,000 last month.

This survey showed that even though 181,000 people were laid off in February in the manufacturing field, mainly because of the energy crisis, another 218,000 found jobs in service producing industries and 101,000 in the construction industry.

The unemployment rate had been expected to go up again as the economy continued an apparent slowdown and the Arab oil embargo cut into industry production.

One bureau official said that one possible explanation is the margin of error built into the monthly statistics. He said that perhaps the January rise was overstated or the February report understated.

Senate Approves Wage Bill

WASHINGTON (AP) — The Senate for the second time in this Congress has passed a bill raising the minimum wage from \$1.60 to \$2.20 an hour for 56 million U.S. workers.

Sponsors said the time, however, they believed there was a fair chance either President Nixon would sign the legislation or that his veto could be overridden.

Nixon vetoed the 1973 bill, almost identical to the one passed Thursday, and was sustained in the House by a comfortable 23-vote margin.

But a number of Republicans who voted to uphold him last year reportedly have changed their minds.

The 69-30-2 vote sent the legislation to the House, where a Labor subcommittee already has approved a similar measure.

Its version would fix an eventual \$2.30 minimum but its steps would be more gradual than under the Senate bill.

The full House Labor Committee and then the House itself are expected to act soon on the legislation.

The Senate vote for the bill was substantially greater than the 64-33 margin by which the 1973 bill passed.

In addition to raising the wage floor, the bill would extend coverage of the wages and hours act to seven million additional workers, repeal overtime pay exemptions which apply in several industries and lighten present law on child labor on farms.

In three days of Senate debate, Republicans made several attempts to alter the bill to make it conform to Nixon's views but all of their amendments were defeated.

LOVE IS - BETTER THAN BANANAS... Sukari and trainer, Prince Rudolf Alexander

Campaign Limits Proposed

WASHINGTON (AP) — President Nixon today proposed new restrictions on campaign contributions and new steps to outlaw so-called "dirty tricks," saying that "campaign abuses recently publicized... proclaim that the electoral process needs reform."

"I am doubtful that any legislation can provide the panacea that some seek to guarantee absolute integrity in the electoral process," he said.

But he proposed a series of reforms — and stated his opposition to some other suggestions — which if enacted would change the face of American elections.

Old Zoo Ending Zoo Park Opens Saturday

By DONNA ESTES
Herald Staff Writer

Sanford will lose a zoo Saturday, but Seminole County will gain a zoological park.

The old Sanford Zoo will officially close at 10 a.m. Saturday, and the Seminole Zoological Park will come into existence.

The ceremonies will take place at the old zoo site on the corner of Seminole Boulevard and Park Avenue.

The zoo, which has been closed for a week for renovations, will move to the park site on U.S. 17-92 northwest of Sanford sometime in July, according to Jack Hanna, zoo director.

Workers are expected to turn the midnight oil tonight completing last minute details, he said.

Grand re-opening ceremonies are slated for 1 p.m. Saturday with special guests including children's petting zoo, pig, sheep, chickens and other small animals. Cages are also set up for owls and talking mynah birds.

"Daisy," the African lion, due to have a cub in April, has arrived and arrangements are being made to acquire a Bengal tiger as a mate for "Jacques," Hanna said.

A 50 cents admission fee will be charged to pay for no operation with any extra funds allocated toward development of the new zoo, Hanna said.
