

Flora Hurls Brilliantly To Beat Feds 3-1 With 2 Hits; DeLand Downs Cocoa, 14-2

By PETER SCHAAL

Held hitless until one man was out in the eighth, Manager Joe Barnes' Sanford Celeryfeds dropped their third straight Central Florida Baseball League game before about 500 fans at Municipal Park yesterday afternoon by the score of 3 to 1.

The Daytona Beach Islanders furnished the opposition for one of the most unusual games ever seen in Sanford.

While the Islanders' ace flinger, Lefty Flora, was standing on their heads, allowing only two singles during the entire nine innings, the Islanders took advantage of four Sanford errors to score the three runs which gave them an unearned ball game.

Lefty Sam Galloway, a trifle wild, also hurled two-hit baseball, but he was forced to retire at the end of the seventh when he cut a finger on his pitching hand while retwisting a roller.

Dog Harden, blonde right-hander who starred here in 1933, finished

the tilt for the Feds, holding the Islanders hitless.

While Flora's hurling was the outstanding feature of the game, a triple play which the Feds produced to nip an Islander rally in the second shared the highlight in the weird game. It was the second triple play in four years of Central Florida League play.

The Islanders were handed two runs without getting the ball out of the infield when the Fed infield collapsed in the first inning.

Tete Newcomb, first up, was safe on Shepherd's bobble of an easy roller. Bryant Bonner sacrificed Newcomb to second and Barnes' sharp knock to Asken was batted and Newcomb pulled up at third on the play.

On the third pitch to Coops, Bob Burkhardt, the Feds' new catcher from Pensacola, hit Newcomb in trying to tip him off, third, the ball rolling into foul territory as Newcomb scored and Barnes wound up at third.

Coppa drew a walk and Charlie Abbott laid down a bunt which permitted Barnes to score and Coppa to go to second. Marty walked but Manager Raleigh Peet fouled out to end the inning.

The triple play was the next unusual event of the tilt. Don Williamson had been walked to open the second. Flora hit to Shepherd who bobbled the ball, permitting Williamson to reach third.

An attempted bunt and was the infield pulled in, Newcomb's ball was caught by Barnes who threw to Shepherd on third catching Williamson off the bag. Shepherd pitched the ball across the field to first where Asken took the throw to complete the triple play.

The Islanders last run came in the third with two out. Coppa was safe when Asken bobbled in the dirt trying to tip a roller. Asken's throw to first was wide and Coppa went to first on the play. It later developed that Asken sprained his ankle on the play and he quit the game when the inning ended with Fred Goodman new left field prospect from Melton going second and Howard Davis of Seminole going in center field.

Charlie Abbott singled through the left center gap in the fifth and Barnes followed with a single to left. Asken to center, Barnes to right and the visiting side the Islanders.

After that nothing but genders reached first. W. A. Barnes who singled through the left in the fourth, Barnes who was at the back of the fifth and Barnes who was walked by Harden in the eighth.

McGinnis, Flora, who had been the star of the Sanibel team, was the only other player to get a hit. He had a double in the fifth and a single in the eighth.

Burkhardt, who had never been in the C. F. L. before, was the only other player to get a hit.

Changes In Currency,

NEW YORK, Apr. 27.—(AP)—A rise of more than 100 percent in the cost of living was forecast to the American Chemical society yesterday by Dr. Marvin T. Copland, professor of marketing in the Graduate School of Business Administration, Harvard University.

"Such men," said Alsop, "tend to retard progress of the South."

The man, who is president of coastal states co-ordinated and vice president of the southeastern development board, described the present attack of Talmadge on President Roosevelt as "unfortunate and uncalled for."

Claiming a deep interest in the

chemical industry, he

said, "will not be able to dodge those influences which at the present time seem certain to cause the cost of living at least to double during the next 10 years or thereabouts, possibly much sooner."

"Given time to become effective, the changes that have been made in our currency and credit situation since Mar. 4, 1933, are sufficient to bring about a rise of that magnitude."

The devaluation of the dollar was undertaken on the theory that prices would rise immediately in the same proportion that the gold content of the dollar was diminished. Although that rise has not yet taken place, it will come in the course of time.

Hits At Persons
Hinting Secession**

ATLANTA, Apr. 27.—(AP)—Any man who breathes the suggestion of secession was branded a "traitor" yesterday by a Georgia orator as three states observed Confederate Memorial Day.

Nelson M. Shipp, editor of the Columbus Ledger, speaking at Cordele, while not mentioning the name of Commissioner of Agriculture Thomas M. Linder, who recently attacked President Roosevelt and spoke of secession if the "Roosevelt" was not lifted in Georgia, said:

"Any man, especially in high office, who would breathe the suggestion of secession in this day and hour must be regarded for no less than he is—a traitor to his state and his nation; and worse of all, a traitor to civilization and to humanity."

"Men who have been honored by our people are today talking such dangerous trash and nonsense; and they are far more a peril to our country and civilization than is the fascist or the communist."

Trammell Seeks Cash
To Build Armory Here

According to a press release from Washington yesterday, \$90,000 is being sought from the Public Works Administration to cover the cost of erecting a National Guard Armory in Sanford.

The armory would be one of several to be erected with funds from the \$4,000,000,000 works relief funds recently made available in the President's Budget.

Frank Trammell is reported as being in pursuit of the allocation of approximately \$1,000,000 to advance National Guard units and interests in Florida.

Senate Heeds PWA Warning On Okey Of Moratorium Act

Ickes Tells Sholtz
State Would Suffer
By Enactment Of
Denison-Butt Bill

TALLAHASSEE, Apr. 27.—(AP)—Delaying further action on a bill to outlaw chain stores until Monday, the Senate today heeded a Public Works Administration warning that the enactment of the so-called debt moratorium would stop loans to taxing units and agreed to reconsider the measure.

The House, after wrangling for an hour and a half, finally passed a bill to fix the fees for recording a farm loan mortgage.

When Tillman of Tampa, introducer of the chain store bill asked that it be postponed until Monday, the Senate agreed and both began passing minor bills mostly relief measures and road resignations.

As passed by the House and Senate, the moratorium measure would direct the courts for the next two years to issue WPA requiring taxing units to pay bond obligations in excess of the unit's ability to pay.

Governor Sholtz had read in the Senate today a letter to him from Secretary Ickes, federal public works administrator, saying, "If this bill is enacted into law it will have the effect of restricting and modifying securities now available to the holders of Florida municipal bonds. This will undoubtedly affect the market for such securities and detract from their desirability as investments. It will be impossible for the Public Works Administration to ignore the effect of such legislation in connection with our study of the applications of Florida municipalities for loans."
