Chamber of Commerce Elected Officers for the Ensuing Year, Friday

Ap P. Connelly is Elected President at Meeting of Directors Held Friday

At the annual election of three governors to serve the Chamber of Commerce for the ensuing year the following were elected: S. O. Chase, A. P. Connelly and R. J. Holly.

The annual election of officers took place at the meeting of the board of governors Friday at the Valder Hotel and resulted in the following:

A. P. Connelly, president; R. J. Holly, vice-president; John Meisch, second vice-president; R. W. Pgarman, secretary and treasurer.

The election of the governors was by ballots sent to all the members and the votes were greatly scattered, almost every member receiving some votes and S. O. Chase receiving the greatest number of votes.

At the election of officers Mr. Connelly made a short talk pledging the Chamber of Commerce his earnest work and asking for the assistance of all the members and especially of the committees. Col. George W. Knight, the retiring president, thanked the members present for their unqualified support of his policies and the valuable assistance they had rendered him during his term of office.

The Chamber of Commerce starts off the new year with flattering prospects and new members are coming in every day and old members are paying up past dues. There is much work for the Chamber to do this year and every citizen in Sanford should become an active member.

DIED AT JACKSONVILLE

J. C. Flemister, father of Mrs. Nixon of this city died in Jacksonville this morning after a short illness. The remains will be taken to Starville, Georgia for interment.

The deceased was an old Confederate soldier having fought with General Robert E. Lee for four years and came from fighting stock being the grandson of Lewis Flemiston, who was one of the bodyguard of General George Washington in the Revolutionary War.

His friends said of him that "he owned no man anything but brotherly love."

Looking After Florida Harbors

Senator Fletcher Seeks Improvements

(By The Associated Press) WASHINGTON, June 5.—(Special.)—Senator Fletcher Saturday began a drive for rivers and harbors improvements in Florida. He submitted amendments for improvement work on the inland waterway from Pensacola bay and Mobile bay, Ala., in accordance with report submitted in the Sixty-third congress for a channel five feet deep and forty feet wide the route to be the most practicable and the most economical in final cost; St. John river from Jacksonville to Palatka, with a view of giving a twenty-foot channel to Palatka; St. Johns river from Palatka to Lake Monroe, with a view of making cut-offs and improve navigation; Blackwater bay and river and bayou Chico. The first named amendment is for the purpose of getting the project started so that if prospective commerce justifies it, it may be enlarged.

PHILADELPHIA, June 5.—John Cienzo, held by the police as a possible suspect in connection with the killing of Peters by Ward today made three attempts to leap from a patrol wagon taking him uptown to the police station to the central station in the city hall. He was shackled hand and foot and safely lodged in Central Station.

Two transports arrived Saturday morning from Blykenhead with the Scottish Borderers. The Manchester arrived Sunday while the Royal Fusiliers and the Liverpool regiment also are coming. They are proceeding to the Daily Kinder Camp, in County Down, which until last year housed nearly 2,000 interned men. Before the reinforcements began coming there were nineteen battalions in Ulster, far below the war strength.

The most interesting arrivals were a party of 12 officers and 97 men of the Royal Air service. It was understood that 12 Bristol fighting machines would fly from England for their use, probably to be housed at the Aldergrove Aviation ground, 18 miles from Belfast, used as a camp for the 17th Brigade, which recently arrived from Cork.

A howitzer battery also arrived Saturday morning. It left for Enniskillen, County Fermanagh, which is the center of military activity, not only the town itself, but the adjoining villages being garrisoned. Wholesale commandeering of vehicles is going on, especially of motor lorries. Many motor boats are also being taken, and officers have been inspecting other craft.

The popular belief is that the military is to be used to clear the Belleek salient, evacuated by the Ulster forces recently, of its republican occupants. Stirring events in this sector seemed to be presaged by the departure yesterday afternoon on Crossley tenders and commandeered motor lorries of large parties of the military, fully equipped and evidently prepared for a long stay. They had a great number of machine guns with them. The men have divided into two sections, one proceeding toward Pettigo and the other toward Belleek, on opposite flanks of the salient.

The most important naval unit yet sent to northern waters is the flotilla leader Wallace, sister ship of the Drake, with a speed of 36 knots. The Wallace reached Belfast yesterday morning. The Warwick, which is patrolling Lough Foyle, was the flagship of Rogers Keyes in the Zeebrugge raid.

There are hopes of peace on the Strabane-Lifford front, though the deputation of clergymen and others who waited on the republicans are maintaining great secrecy as to the result of their interview. They will draw up their report, they say, and submit it to the town council which took the initiative in the movement, leaving it to the latter to make the report public.

Belfast had comparatively a quiet week-end. Two soldiers and three civilians were wounded in the course of yesterday afternoon's shooting. The record since Monday last is 18 killed and 74 wounded in disturbances in this city.

There has been a considerable renewal of the looting which featured the rioting of July and August, 1920, and the authorities have issued a warning that they will put it down with a strong hand.

BABSON ON STOCK MARKET

Wellesley Hills, May 27th, 1922. In view of the peculiar way that the stock market has been acting the past few days and the various rumors that are about regarding the great steel mergers, we have sought the opinion of Roger W. Babson concerning the same. "So far as the long swing goes," says the statistician, "everything looks well, both for the bond market and for the stock market. We are entering into a period of low money rates which may extend over some years. If so, the bond market will continue to climb upward for a similar length of time. This does not mean that bonds will advance as much next year as they have advanced this year, nor as much in 1921 as they will be in 1923. Moreover, reactions will occur now and then. The general tendency, however, should be for a strong bond market for several years.

COL. HARRISON HEADS GEORGIA BAR ASSN. (By The Associated Press) SAVANNAH, Ga., June 3.—Over his solemn protest, Colonel Z. D. Harrison, for 32 years treasurer of that organization, was yesterday elected president of the Georgia Bar Association at its meeting at Tybee. He declared the head of the organization should be a lawyer, but his words fell on deaf ears. He was chosen by acclamation. Colonel Harrison has been clerk of the supreme court of Georgia for fifty years. Other officers elected were: W. M. Howard, Augusta, first vice-president; Harry S. Strozier, of Macon, secretary; Logan Bleckley, Atlanta, treasurer.

"The stock market has not yet reached its zenith. Those who have bought securities and have them in their boxes should not worry about present market movements, or conflicting rumors. We have only started on a great broad movement in the security markets which will take both bonds and stocks to much higher prices. The United States of America has always been a great country; but today it is the center of the world's production, distribution, and financing. If it is two years before we are back again in another period of prosperity, it will be two years before the stock market turns on its great trip downward.

"The stock market, however, is like the ocean. In addition to the great tidal movements, there are squalls, storms, and periods of calmness and of roughness. The stock broker watches a certain barometer as does the mariner at sea. This barometer strongly suggests today that there may soon be a storm in the stock market. It looks rather cloudy and at points there is pressure which is not natural. The optimistic tone which has been characteristic of the market for many months has temporarily gone. The rumor-mongers and tipsters are again doing business. Insiders who have been accumulating for some months are known to have distributed their holdings. They are now waiting for a shake-down and another chance to get aboard before the next upward movement.

"Regarding the reported steel merger," continued Mr. Babson, "I will say that there has been much talk about this, so much so that it looks as if certain parties were using it for window dressing. The capitalization of the combined Bethlehem and Lackawanna companies is about \$200,000,000. The combined capitalization of Midvale, with Republic, Youngstown, and other companies proposed to merge is about \$350,000,000. Thus if the entire consolidation goes through it would mean a capitalization of about \$550,000,000. It is preposterous to claim that this is an equal revival of the United States Steel corporation which has today a clear investment of about one billion and a half dollars. "When the earnings are considered a similar condition will be found. For instance, for an average period of years the Bethlehem and Lackawanna show gross earnings of about \$350,000,000 while the Independents mentioned above show gross earnings of about \$150,000,000. Thus the total gross earnings of the combined companies would be not exceeding \$500,000,000, including Bethlehem, Lackawanna, Midvale and the rest. For the same period of time the United States Steel Corporation did a gross business of \$1,750,000,000.

"Considering the poor condition of the steel business at the present time, it rather looks as if a concerted effort was being made by certain parties to get out of the stock market or at least to get out of steel and into copper or something else. Some one asked the other day for my opinion regarding a certain New England railroad stock and my reply was, "Show me the stock books and I will give you an answer. If the widows and children still have their holdings the low point has not yet been reached; but if the small investors have been shaken out, then the stock is due for a good rise." The same principle applies to American Sugar and various other investments. Apparently an expedition has been organized to get the public out of certain stocks—such as rails—and into certain other stocks such as the poorer steels. If the public is wise, it will stand pat or else it will do exactly the opposite from what certain big operators are trying to make it do. He on the lookout for squalls in the stock market during the next few weeks. Remember when you see a real estate man having a house painted, that he usually is preparing to sell it. "The Babson chart tells the real story as to business conditions. This

SANFORD'S TEMPERATURE

After sitting up all night and reading several encyclopedias on the subject, we are convinced that unless the skies clear soon there will be more rain and if there is more rain there will be more rest. Anyhow tomorrow is Sunday and everybody will go to church and since the churches all have good roofs, it makes no difference about the rain. However, it makes one nervous to hear it on the roof especially when you figure there is no roof over your spring crops. 5:10 A. M. AND TOMORROW IS ELECTION

Tomorrow is election day and many candidates and their friends are grooming for the fray. We will be glad when it is all over. Elections are necessary but they are so numerous that they interfere with all our public affairs. People become so wrought up over elections that they cannot see anything else or talk about anything else for days afterward and days before and naturally they waste a lot of valuable time that should go toward public improvement.

The Herald long ago came to the conclusion that it would not dabble in local politics. The only real enemies we have are political enemies and it seems they will never get over it and we do not care whether they do or not but the game is not worth the candle and the politicians seem to forget about the newspaper so easily after they win or after they lose and the newspaper pays the freight every time.

No we would ask the general public after Tuesday to forget the election and pursue our policy of looking at the matter calmly and dispassionately and not making it the most important thing in the world. When the election is over let it be over for all time to come and remember that friends and enemies are all the same the day after the votes are counted.

What we need here more than any one thing is the cooperation of all the people, the getting together of all the people, the unity and strength of a united commonwealth to go forward and under the banner of the Chamber of Commerce get these big projects that mean a million times more for us than any mere election results. Forget it after Tuesday. But on Tuesday vote and don't forget to vote and vote for the men who in your estimation would make the best officials.

After that go to work.

FLORIDA AS A SUMMER RESORT

To many of our Northern readers the above caption must seem strange. For to many who do not know Florida in the summer time, it seems only natural to suppose this state to be about the hottest place in the United States during the summer months.

Before learning better by actual experience, we too, subscribed to that belief—a belief not founded on fact. Experience has taught us, as it is fast teaching many others, that Florida is in fact much cooler in the summer than our Northern states, and that summer is one of Florida's most delightful seasons.

The Christian Science Monitor, published in Boston, Mass., and generally considered a conservative and reliable journal, called attention over a year ago to Florida's summer, saying in part:

"The progressive people of Florida have awakened to the fact that they have a delightful summer as well as a delightful winter climate to offer the people of the States and provinces of the North. Visitors who have spent the summer months in the beautiful southern peninsula, the Italy of America, have been reporting complete satisfaction with the experience for the past year. Every year more tourists from the North have taken up summer residence in the winter resorts of Florida."

"Those familiar with the tropics and subtropics will tell you that the air in those climates is always cool in the shade. This is particularly true of Florida, which catches air currents from the Atlantic as well as those from the Gulf of Mexico. As a matter of fact, breezes from the ocean and gulf cool every part of Florida and the temperature on an average is ten degrees lower than it is through more northern States and the central States."

We believe the day will come when Florida will be just as famous as a summer resort as it is now famous as a winter resort. Thousands upon thousands of business and professional men take their annual vacation some time during the summer. If they knew the real facts in regard to Florida's summers, they would spend those vacations here. But they must be educated out of the erroneous belief that Florida is the hot state in summertime. Florida should advertise her summer attractions, and above all her wonderful summer climate.

THE PRESS AND SCHOOLS

The closing date for the schools of most Southern cities is at hand. Generally speaking the accomplishment of the past session have been well worth while. Modern system, thought and aims have changed the curricula of most institutions of learning, until today we find too much of the intent to supply the immediate need for practical efficiency, instead of the sound preparation for a future's foundation which will withstand the waves of passing whim and fad.

There is little doubt but the press of the country is largely responsible for the shallow draughts now permitted from the Pierian spring. Instead of being an educator as were the papers of the past century, and earlier, the press has become a mere informer. There is more than a pleasant in the reported definition of a "newspaper man" given by the country boy who said, "A newspaper man is one who sits around watching for somebody to do something and then tells it on him."

The awakened, enlightened press of today is a necessary and usable potency in the moulding of mind and manner for the young citizen, because the press is an invaluable asset to the educator in building up respect and reverence for law and government. The awakened, enlightened press is the safeguard of the school system of the nation. There is no single factor that can do so much for education as the press if it will fairly and fearlessly set forth the shortcomings of "systems" and propose common sense changes and betterments for much of that which now merely cumbers the ground.

It is not, alone more salaries for teachers, consolidation of more schools into central units, longer terms in the rural sections, or better school buildings everywhere, but it is an enlightened public consciousness of the needs of developing mind and body and morals of youth, which is needed, and this need can be largely ministered to by the press.

If the press of the nation would but devote a tenth part of the time it gives to politics and business affecting the adult, to the fitting and development through better school methods, of the future citizen, there would not be, after a few generations, the same apathy toward college and university training, nor would there be the great horde of ill-fated, barely able to get by, young women and men such as today is attempting to take the place of the trained experienced older head stepping out of harness.

MICKIE SAYS

ONE THING ABOUT TH' SMALL NEWSPAPER THESE DAYS IS THAT IT'S CLEAN AN' BAW BE READ BY EVERY MEMBER OF TH' FAMILY, WHILE TH' CITY PAPERS ARE FILLED WITH CRIME 'N SCANDAL! THEY SURE AINT FIT PER US KIDS TO READ!

There is no other topic so "live," so filled with "human interest," so capable of "bringing out the best in a writer" for papers or magazines, than that which affects the future of the twenty-seven million boys and girls of America.

When we know that far more is spent annually in this country for cigars and cigarettes than is spent on public education, and that nearly as much goes for paints and powders, it is evident the public schools of this land are not the expensive luxuries some would have us believe, or that the salaries of the teachers are already so high as to encourage sloth on their part, as some critics aver.—Tampa Tribune.

CONCENTRATE YOUR MIND This is an editorial which might be headed "Keep your mind on the one important thing." It is an editorial about concentration, about putting your real thought on some real work and has been published twice in the Cleveland Leader.

You don't need the editorial and ought not to waste time reading it if you are quite sure that the best that is in you is being used every hour, and used to give you the best chance possible.

Among a million men there may be one or two that really play the game of life as a good player plays the game of chess, one or two men in a million do not need to talk, or think of the importance of concentration—but all the rest of us do need to realize what intense concentration might mean to us.

There is n't a man who doesn't want something that he hasn't got. There isn't a man that isn't planning in some aimless way to do something to get something, to be something. And there really is not one that could not succeed fairly well, at least if he could only keep his mind on real things and off of other things.

Have you ever seen two men play chess, a good player and a bad player? The bad player begins apologizing for himself before the thing starts, apologizes all the way through and loses in the end, even though the queen or other pieces be given him in advance.

The good player sits down, looks good naturally at his opponent, watches his first move. The thing out and wins smoothly and easily. But his mind has been on the game. Life is a game. You must play it whether you want to or not. And everyone plays the game with the same old game.

At life's table, you sit, Time with his scepter, and his elbow the stake—success or failure. Anything that takes your mind off the game is sure to take your time advantage. That is to say, anything that does not at the same time add to your power of work and thought.

Time plays against us, and he nearly always wins. Millions of men and women in the world are saying every day, "If I were younger I would do this" or "I would do that." Every man thinks of what he would do if he had to live over the hours during which he let time win while he lost.

There is no use going back over the moves that have been made foolishly. The game is still on and it is never too late to win if you will make up your mind, concentrate your mind and brush aside interruptions. Time is a good natured old man, he

plays fairly and leniently; he is relentless in his steady onward pace; he never gives you back the day that you have given him for nothing—that is one day off the board.

But you can win and beat him in the days that remain, if you will. Lectures on concentration are needed by young men especially, for their temptations are most numerous. Much intelligence is used up trying to get their minds away from real work.

You cannot succeed in the big thing if you let the little things take up your mind and your time. If your best thought goes to the selection of a straw hat, and your second best thought to the selection of your clothes, and your third best to some profound speculation on the races or the result of baseball competition, what kind of thought is left for the real work?

When you wake up in the morning say to yourself, "I am going to keep at my work and think of nothing else today." Don't think how little work you can get through today, but, on the contrary, how much work you can get into it. Whatever you have undertaken to do, do it better than the next man, but as well as it is possible for you to do it.

We do not share the comfortable theory that any man can achieve anything he desires if he will work hard enough. That is not true. Edison could not possibly have patented his Sargant and Sargant could not possibly have developed Edison's inventive genius.

But neither Edison nor Sargant, nor any other man that you hear about, would have made a success if he hadn't kept one thing in his mind all the time. Your mind is the toll you have to work with. Hands and feet are the small tools, the servants of the working brain, the real tool. Keep your brain clear, clean and concentrated. Don't load it up with unnecessary burdens. Towards life's frivolities and useless discussions—excepting those that really improve the mind—let your mental attitude be "I don't know and I don't care. I am playing a game against time and life. I have got to win it and I can't let other things interfere with it."

DON'T LOSE YOUR SECOND CHOICE VOTE

Where there are more than two candidates for any office, no voter should neglect to cast a second choice vote. Too many voters fear their second choice vote is a vote against their first choice vote.

Such is not the case. Your second choice vote is counted only if your first choice vote is cast for a candidate who is hopelessly defeated. Your second choice vote is merely the equivalent of your vote in a second primary, after the candidate for whom you vote in the first primary has been defeated.

It works like this: A, B and C are candidates. You would like to see A elected, so you cast your first choice vote for A. But if A happens to receive less votes than B and C, he is hopelessly defeated and you have no choice between B and C, if you do not cast a second choice vote. After A is defeated you prefer B and if you voted a second choice vote it would be counted for B.

Under no circumstances does a second choice vote count against your first choice. Be sure to cast a first and second choice vote Tuesday where there are more than two candidates for any office. Do not vote first and second choice for the same candidate, for if you do your second choice vote will not be counted.

The official ballot will show columns for first and second choice votes to the right of the name of the candidate. Put your cross mark in the box provided.

SELECTING CANDIDATES

Bob Holly, a few weeks ago, made some observations in the Sanford Herald regarding the selection of candidates for local office that are sound in principle and, if followed would prove safe in practice.

In effect, the Herald's plea was for the exercise of common, ordinary business sense in the selection of candidates, especially for local offices where there is less need of politics and more of good judgment. The Herald urged the laying aside of prejudices that the citizens of Seminole county might get together on good candidates for county office. There is good sense in this. Why should a man let a matter of personal prejudice so influence him that he can not act for the best interests of the community when casting his ballot? Too, often a man is guided by prejudice rather than judgement in casting his ballot.

What was said by the Herald for Seminole County, is very applicable to Orlando city. Now that the primaries are over for county and state offices, it is well to turn attention to city offices. Orlando is in the midst

of the largest building campaign in its history, and has a larger public improvement program laid out than any city of its size in the south. Men of experience in public affairs and of recognized capacity for handling large propositions are in demand for mayor and city commissioners. It is as important that we have capable men for commissioners as for mayor. It is a lopsided affair if the mayor is the only big man on the job. Nor must men be selected for commissioners simply because they think themselves big enough for the place. They should be men of proven ability.

Thus far only three names have been mentioned in connection with the mayor's office. These are Mayor Duckworth, the present incumbent; M. O. Overstreet and James L. Giles, former mayor. All of these men are discussed for the office and it is a good omen when the public has its mind centered on three of the best qualified men in the community. No three men in the city of Orlando have such an intimate knowledge of the city's affairs as these three men. They are all men deeply interested in Orlando. It would occur to the unbiased mind that here are three men who ought to manage the city government during this important period of its development. And why not? They can't all be mayor, of course. But why need that deter two of them from surrendering personal pride to the unselfish service of their fellow citizens? Outside of the small appointive power conceded to the mayor and the distinction that comes with the office, the two commissioners are just as important as the mayor. If some plan could be hit upon for inducing these three men to accept the positions and no other candidates appear against them, it would be a decided victory for good and efficient government in Orlando.

Perhaps if it were left to a vote at a mass meeting an understanding might be brought about whereby the man receiving the highest vote be the candidate for mayor and the other two the candidate for commissioners. Or, perhaps the general primary laws would admit of some such arrangement. In all events here are three men that could be of great service to the city and it might be a good idea to draft them into the service at this time.—Orlando Reporter-Star.

Representative A. W. Young of St. Lucie believes in the Federal Government taking over and improving the East Coast Canal. In an address he cited as one example of the high freight rates prevailing on the railroad that canned goods can be shipped from Los Angeles to Jacksonville

for \$1.04 a case, while the rate on the same case from Jacksonville to West Palm Beach is 87 cents—in other words, the freight charge is almost as much for transporting the item 300 miles over the Florida East Coast railway as the other railroads charge for transporting it 3,000 miles.—Titusville Advocate.

Is love won readily by flattery or pity? We don't know; ask Bob Holly.—Reporter-Star. All according to the subject upon which you are working. Some of them want flattery and some want pity and some want money, you just want plain loving, some want fancy loving and some want sigh and lofty loving. This of course is based on what they wanted 25 years ago. Just what they want now we cannot and will not tell and neither will you, you old son of a gun.

MORSE PARDON PETITIONS INCREASE MORAL TURPITUDE

The attempt of Attorney General Daugherty to shield himself in the Morse case by getting behind the petitions for Morse's pardon signed by Senators and Representatives and other prominent men has not created the favorable impression evidently hoped for and expected. These petitions were obtained by the wife of Charles W. Morse based upon representations that Morse was in a dying condition, and few men are able to resist the appeal of a sorrowing wife and mother in such circumstances.

Instead of strengthening the Attorney General's position, it has strengthened the case against him in the minds of those who had taken the trouble to analyze it. It is admitted now that President Taft was deceived as to Morse's condition, and these senators and Representatives obviously were deceived. Therefore the moral turpitude of those who practiced the deception is all the greater because it was practiced upon such a great number of men actuated by humane feelings and motives.

SHIPPERS OF FLORIDA PRODUCTS In the Business 30 Years

SOUTH FLORIDA'S SHIPMENTS OF FRUITS AND VEGETABLES ALMOST 10,000 MORE CARLOADS

(By The Associated Press)

TAMPA, June 5.—South and Central Florida's shipments of agricultural products this season total nearly 10,000 cars more than the movement to this date last year, according to records of the railroads and marketing organizations, the aggregate to date, since last September 15 being 61,522 cars. The total includes the solid carload movement and does not include the countless thousands of shipments in less than carloads of produce.

Central Florida's shipments of vegetables, watermelons and melons is just beginning to get underway and authorities here expect that the total for the season, when the movement is completed, will be at least 70,000 cars.

Comparative figures on shipments to date and for the same period last year in carload lots:

	1922	1921
Citrus fruits	33,764	33,369
Mixed vegetables	2,291	2,584
Lettuce	2,285	2,657
Tomatoes	8,468	4,894
Celery	4,245	4,152
Irish Potatoes	4,410	2,314
Cabbage	2,866	1,406
Watermelons	2991	105

ARE YOU A PUSHER?

Friends, where do you belong? Are you pushers or do you have to be pushed?

In every city there are those men and women who commonly answer to the name of leaders. These are the pushers. They do things of their own accord—for the public good—most of them act without thought of personal benefit, except as that benefit comes from good accomplished for all.

Then there are those other folks who never do anything unless they are pushed.

Is it plain?

Being a pusher does not necessarily mean that you must spend your time shoving someone else along whether he wants to be shoved or not, but it does mean that you are laboring in season and out for the good of the public.

Being pushed does not necessarily mean that you are literally forced to do a thing for the good of your community, but that you never do it without thought of personal benefit, except as that benefit comes from good accomplished for all.

Be a pusher! Don't wait to be pushed!—St. Petersburg Times.

LADIES! DARKEN YOUR GRAY HAIR

USE GRANDMA'S SAGE TEA AND SULPHUR RECIPE AND NOBODY WILL KNOW

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect.

But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.—Adv.

I believe Ferraline is the best remedy on earth and that it will cure stomach trouble and rheumatism.—Adv.

Richmond is Ready to Greet Veterans

Richmond, Va., June 5.—(Special)—Richmond has called for the remnants of that army which defended her for four years and by the thousands will be the survivors answer the summons to be here on June 19, 20, 21 and 22. The last three days are those fixed for the welcoming and entertainment of the United Confederate Veterans at their 32d annual reunion. June 19 has been set as the date for beginning the ceremonies which will engage the attention of the Confederated Southern Memorial Association and of Sons of Confederate Veterans.

Preparations are now complete for taking care of the enormous number of visitors who are expected to attend the reunion. The veterans will be made comfortable at the hotels, with friends or relatives and in private homes.

Provide Comfortable Quarters.

Upon their arrival at the railroad stations in this city, each veteran will be met by a member of the Reunion Committee, given an identification card and assigned to quarters. If previous arrangements for accommodations have not been made. However, Brigadier-General Jo Lane Stern, chairman of the Reunion Committee, urges that all visitors make their reservations before coming to Richmond, applying to the hotels or to the Information and Quarters Committee, Postoffice Box No. 685, Richmond for quarters in private homes and boarding houses.

Reasonable cost, from \$1.25 to \$2 per day for lodging and breakfast, will prevail in private homes. Dinner and supper, with the compliments of the City of Richmond and the Commonwealth of Virginia, will be supplied Confederate veterans who desire them on June 20, 21 and 22.

Elaborate Program.

The program of exercises and entertainments probably will make this the greatest reunion in the history of the United Confederate Veterans. One of the most impressive exercises in which the veterans will take part will be the laying of the corner stone for the Matthew Fontaine Maury monument.

Addresses will be delivered by some of the South's greatest orators, there will be a great parade and review, band concerts, a Confederate ball and dozens of other features designed particularly to entertain and please the Old South's heroes.

TO STOP COUGHING AT NIGHT

A summer bronchial cough keeps not only the sufferer but other members of the family awake. Alfred Barker, 1061 Avondale St., E. Liverpool, O., writes: "I consider it my duty to write and tell the results of Foley's Honey and Tar, which I used for my boy who had been suffering from a bronchial cough for 7 or 8 weeks. Foley's Honey and Tar has done him wonderful good, and I shall always recommend it." It soothes and heals. Sold everywhere.—Adv.

New Developments in the Ward Case Blackmail Mystery

(By The Associated Press) WHITE PLAINS, N. Y., June 5.—The eighteenth day of the Ward shooting mystery brought three sharp developments. The first was the discovery in Philadelphia of a wounded man giving the name of John Cienzo, of New York, suspected of being the companion of Clarence Peters, alleged to have been shot by Walter S. Ward, at the time the wealthy baker's son claims to have killed the ex-sailor in self defense. Unsuccessful search for a wounded man was conducted yesterday in Stamford, Conn.

The second development was the discovery that a man known as 'Jack' had been seen, late Thursday night, at the Mills hotel in New York where Cienzo claims to have stayed. He was said to have driven up in a red automobile of the same make and color of the car alleged by Ward to have been used by the mysterious 'Charley Ross' and 'Jack' when, he asserts, they met him and Peters at a black-mailers' tryout near Kensico reservoir on the night of May 15. It was not definitely established whether the 'Jack' seen at the Mills hotel actually met Cienzo who it is suspected may turn out to be the real 'Charley Ross.'

The third development was the announcement that the baker's wife, her two servants and a score of other witnesses had been summoned to appear today before a Westchester grand jury. Not until today did there come from District Attorney Weeks a positive statement that he would lay the case before the jury, although he complained that he had been unable to obtain any information from the servants at the Ward home in New Rochelle, and would not force them to talk unless they were formally subpoenaed.

The local authorities indicated that they believed Cienzo's arrest was important, for if he turned out to have been shot with Peters, instead of in a row in Greensburg, Pa., as he claims, his arrest will have an important bearing on the Ward case in connection with the story told by James J. Cunningham, race track tout, now lodged in jail here after professing some knowledge of the manner in which Peters came to be shot.

Ward's story was that he had gone to Kensico reservoir to keep a date with a band of blackmailers, including Peters, and that he had been forced to fire to save his own life.

Cunningham on the other hand, told a circumstantial story to the effect that the shooting occurred in the Ward home when the baker, in league with the blackmailers against another person, had fired in anger when he found he was being double crossed.

VERBAL FIGHT OVER PROBE IN STEEL MERGER

(By The Associated Press) NEW YORK, June 5.—The sparks flew again Saturday at the Lockwood committee investigation of the latest steel merger, with Samuel Untermyer committee counsel, swinging on the unvill and Mortimer L. Schiff, of Kuhn, Loeb & Co., flaring in anger at his interrogations. Their verbal fusillade got so hot one time that Untermyer warned the banker he might go to jail for refusing to answer questions. Schiff quickly intimated that if he did Untermyer would keep him company behind the bars.

The discussion centered around the part Kuhn, Loeb & Co., are to take in merging the Republic, Midvale and Inland companies into the North American Steel Corporation. Schiff insisted the relationship of his firm was purely open of banking. They were "financially fathering" the enterprise, he said and were to head a syndicate to underwrite \$75,000,000 in preferred stock at \$90 and \$44,000,000 in common at \$43, and then raise another \$20,000,000 in cash to purchase additional Midvale paper.

TRAIN CRASHES INTO AUTO; FOUR KILLED

(By The Associated Press) UNION S. C., June 5.—Four people were killed and two others possibly fatally injured Saturday when a Southern Railway passenger train crashed into an automobile where a community road crosses the railroad. The dead are: James Vaughan, B. J. Vaughan, Miss Laura Austin and Miss Minnie Austin. John McKeown and Ben Alton Whitlock are thought to be fatally injured.

Balloon Race Ended Yesterday; Florida Man Third

Brought His Balloon Down Safely in the Ozark Mountains

(By The Associated Press) MILWAUKEE, Wis., June 5.—Lieutenant W. F. Reed, navy pilot, of Pensacola, Fla., and the last of the 13 airmen to leave Milwaukee in the national air race last Wednesday, was reported in dispatches to the Wisconsin Aero Club to have landed Friday in the Ozark mountains in Southern Missouri.

The United States coast guard service announced last night that Lieut. Reed had covered 535 miles, making him third in the race and one of the American contenders in the international event to be held at Geneva.

The telegram from Lieutenant Reed follows: "Salem, Mo.—Navy balloon landed very gently in valley cornfield in Ozark mountains at 10:55 a. m., June 2, 18 miles north of Eminence, Mo. Without ballast and wind coming from west. No means communication. Balloon equipment by wagon to Salem. We came by horseback thru mountains and valley trails to Rector, automobile Rector to Salem."

In a second telegram Lieut. Reed placed his distance from Milwaukee at 445 miles. Officials of the coast guard, weather bureau and aero club estimated the distance variously from 475 to 550 miles. Until official announcement of the distance made by the various contenders is made local aero club men said they would do nothing toward distributing the prize money.

If Lieut. Reed's own estimate of his distance is correct, it was pointed out, he will be placed fourth instead of third, dropping behind Van Orman.

WASHINGTON, June 5.—The bureau of aeronautics of the navy department received a dispatch last night from Lieut. Reed, the naval balloonist, announcing his landing in the Ozark mountains. The text was identical with that given in the dispatch to Milwaukee club officials.

Eighty Perished on Steamer Yesterday on Parana River

Steamer Carried Oil Cargo and Ill Up Without Warning

(By The Associated Press) BUENOS AIRES, June 5.—Eighty persons are believed to have perished in sinking yesterday of the steamer Villa Franca on the Parana river near Posadas; at that point the river forms the boundary between Argentina and Paraguay. The vessel carried one hundred passengers. One hundred drums of naphtha in the cargo. One survivor said the sleeping passengers were awakened at 1:40 o'clock yesterday morning and rushed to deck to find the vessel in flames. A few seconds later there was a heavy explosion. The vessel sank a few minutes later one mile from shore.

American Steamer Seized by British, Had Ammunition

For Irish So the Officials Seemed to Think

(By The Associated Press) LONDON, June 5.—The American steamer Seattle Spirit, bound from New York for Genit, County Kerry, with corn and mixed cargo, was held up in Tralee Bay by British sloop says Tralee Dispatch. Large quantity of ammunition in barrels was seized.

R. R. STRIKE VOTE TO BE TAKEN AUGUST 3

(By The Associated Press) CHICAGO, June 5.—Strike votes affecting 1,200,000 of American railroad workers returnable on the same date, probably about August 3, will be decided upon at the railway labor conference in Cincinnati this week, in the opinion of B. M. Jewell, president of the railway employees' department American Federation of Labor.

The employees expected to vote are those affected by the new wage reduction orders already announced or pending from the railroad labor board.

"We are certain that the general committees would reject the new wage reductions," he said. "So there is little necessity of placing the matter before the committees as a strike vote of the membership will determine what action is to be taken."

Eleven standard railway union heads will gather in Cincinnati Tuesday to take some definite steps regarding the board's new wage cuts.

What time does the sun go down is now the question that agitates the public mind.

MEAT CAUSE OF KIDNEY TROUBLE

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS OR BLADDER BOTHERS

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.

FRENCH BRIDGE CABARET

Of exceptional interest and pleasure was the French Bridge Cabaret given last evening at the Parish House, under the auspices of the Women's Guild.

The Parish House was most attractive with its decorations of palms, ferns and cut flowers.

Bridge was played during the first part of the evening the prize for high score, a bead necklace and pendant, was won by Mrs. E. P. Morse.

After the bridge games, the cabaret, in charge of Mrs. A. E. Hill and Miss Daphne Wimbish was greatly enjoyed.

Little Mary Wight, the winsome little daughter of Mr. and Mrs. Walter Wight wearing a petal costume of white satin, interpreted the graceful dance, "Narcissus."

"Alice Blue Gown," danced by Dorothy Parker, wearing an old fashioned costume, while R. E. Griffin wearing an alic blue gown, sang, "Mary Helen Morse, was especially graceful in the "Queen of Sheba" dance.

After the cabaret, refreshments consisting of apricot sherbert and several kinds of home made cake were served by Mary Elizabeth Paleston,

Emily Griffin, Pearl Robson and Sarah Evelyn Williams. This entertainment was a success both from a financial and social standpoint.
