Glenn May Be Next Commission Chairman

By MICHAEL BEHA
Herald Staff Writer

Robert Sturm will step down Tuesday as chairman of the Seminole County Board of Commissioners and his successor will likely be Sandra Glenn.

Sturm, who has been chairman for the past two years, said he will not seek the post this year. "It's time for me to step down," he said.

And although Mrs. Glenn hasn't actively campaigned to become chairman, at least one commissioner believes she should assume the leadership post.

"It's Sandra's turn to take it," Barbara Christensen said. "It's her fifth year on the board. She should be the first-ever

woman to serve as chairman."

Mrs. Glenn downplayed the importance of the chairman's role. "As they say at the conventions, if elected I would serve," she said.

The chairman is responsible for setting the tone of the commission's work. The chairman controls the debate in meetings and work sessions, determines what issues the board will discuss and sets meeting and work session dates, she said.

But she doesn't feel there is a significant difference between the chairman and the other commissioners. "It has not made a difference. You both have one vote," she said. "It doesn't

make you a stronger commissioner," Mrs. Glenn said.

Sturm said Mrs. Glenn would make a fine commission chairman but stopped short of endorsing her. "I'm sure she would do a good job."

'It's time for me to step down.' — Robert Sturm

Robert G. "Bud" Feather said he is interested in being chairman. But he is not actively campaigning for support. "I would consider it an honor to be elected chairman," Feather said. He has

been vice chairman of the board this year.

Commissioners are expected to approve another leadership change as well. Interviews were held this weekend with four candidates to succeed County Administrator Roger Neiswender who will conclude his service with Seminole County on Tuesday.

Neiswender still has several weeks to go before he is eligible for the state's retirement plan but because of his accumulated leave time, Tuesday will be his final day.

Commissioners will choose between Assistant Seminole County Administrator Jim Easton; Lawrence

Arrington, assistant Leon County administrator; David Collier, consultant with Kelton & Associates; and T. Duncan Rose, assistant Alachua County administrator.

Fred Cremeans is expected to be named acting Manpower Manager by commissioners. Leonard Carswell, who was named acting facilities, parks and recreation manager last week, recommended Cremeans be appointed acting Manpower Manager.

Carswell was taken from the position of administering Comprehensive Employment Training Act programs to supervise the parks division pending a reorganization.

SANDRA GLENN

Mental Health To Charge All \$2 Fee

A \$2 minimum charge for clients of the Seminole County Mental Health Center has been approved by the agency's directors.

The charge will take effect next week, beginning Dec. 1, for all new clients and on Jan. 1 for the agency's existing clients. The fee is expected to generate an additional \$13,000 for the center.

Dr. George Lindenfeld, executive director of the center, said the charge is mainly therapeutic. He said patients who pay at least a token amount for their treatment are more likely to keep their appointments, place importance on their sessions and improve.

Doctor quits with patients in waiting room

The center charges clients on a pay-what-you-can basis. The mental health center cannot discriminate against clients who are unable to pay, its charter says.

About 60 percent of the center's 1,057 patients now pay nothing, Lindenfeld said. Those people can pay with goods or services if they are unable to pay the \$2 minimum fee, Lindenfeld said.

Meanwhile, another person associated with the agency has resigned because of differences with Lindenfeld.

Dr. R. E. Ballentine resigned last week because his hours of consultations with clients had been reduced. Ballentine had his hours cut from 12 to eight so another physician could also consult for the center.

A further cut to four hours was planned, Ballentine said, a move he claimed would "create chaos and confusion" for clients.

Lindenfeld criticized Ballentine's actions. The executive director of the agency said Ballentine left the facility with patients still in the waiting room.

Ballentine said he was not under contract when he left the center.

The center's community support program manager, John Rape, resigned from the agency in October, citing management difficulties.

In September, Outpatient Services Director David Fleischmann resigned. — MICHAEL BEHA

SCC CHAMPS

Seminole Community College's David Gallagher (middle) was the man of the hour Saturday night as the Raiders knocked off Miami Dade North on Gallagher's shot at the buzzer to win the SCC Raider Tournament. Rudy Kulper (left) and Luis Phelps give Gallagher a post-game ride for his exploits. See Sports, page 5A for the rundown of SCC's 81-82 victory.

Herald Photos by Tom Vincent

NICE CATCH

Give a kid a bamboo pole, worms and a fishin' hole and what do you get? Fun, more fun, and a couple "big ones." Youngsters had a good time Saturday at Lake Carolla in Sanford. It was the annual fishing derby sponsored by the Sanford Jaycees. And the kids, assisted by moms, dads and a few grandparents, enjoyed themselves — almost as much as the adults did. The look on Selby Johnson's face is typical of the joy the youngsters had when some of the "big ones" didn't get away. The 7-year-old Sanford boy, minus a front tooth, is all smiles as he proudly holds up his catch.

Lake Mary Officials Concerned

Water System 'Disaster ... To Happen'

By DONNA ESTES
Herald Staff Writer

Lake Mary's water distribution system "is a disaster waiting to happen," according to City Councilman Pat Southward.

City Manager Phil Kulbes has the statistics to prove it, and Fire Chief Jim Orioles agrees a major problem could happen at any time.

Mrs. Southward brought the issue to light two weeks ago when she asked Kulbes to prepare a report on the condition of the water system.

In his report, Kulbes said the city has 8.4 miles of water lines, with 79 percent of the galvanized lines two inches or smaller.

He said the two-inch and smaller lines, installed in the original system, purchased by the city soon after its incorporation in 1973, have a life expectancy of about 30 years.

Only four years are left before they will reach the 30-year mark, Kulbes said.

Kulbes estimated that it would cost \$250,000 to replace the aging pipes.

Mrs. Southward's major concern with the pipes two inches and smaller is that under heavy pressure, especially during a fire fighting situation, the lines could cave in or burst.

Orioles, changing his hat to public works superintendent, agreed the possibility is a very real one. He added that now after pressure is put on the lines, the water velocity within the pipes breaks loose rust, which winds up coming out of the taps of customers' homes.

Kulbes reported that when \$400,000 in water system improvements were made several years ago, larger lines were installed in some places. In some areas where the larger lines were installed, however, homes were left on the old, small lines.

In overall water system improvements, money would also be needed to correct this problem. Further complicating the issue, he said, is the fact that the system does not have a complete valve network, meaning if a problem crops up with a burst line in an old part of the system, the entire system must be shut down during repair.

Additional lines must also be extended to give services to new areas.

Kulbes said the city also cannot depend forever on the city of Sanford as its source of water. Lake Mary, he said, should be considering creating its own water supply. When this is done, a one million gallon water storage tower will have to be installed at a cost of about \$270,000.

All of the improvements could be made in phases and need not be completed at one time, he said.

No action has been taken on Kulbes' report.

Sanford, Longwood Eye Tax Measure

The Sanford and Longwood city commissions are slated to be the first of Seminole County's seven cities to consider adopting resolutions at meetings tonight endorsing the recommendations of a cities-county double taxation committee.

The committee last week after some 2½ months of weekly meetings concluded that double taxation does exist in county government in the areas of the Sheriff's Department road patrols and investigations.

The Sanford Commission at a 7 p.m. meeting and the Longwood Commission at 7:30 p.m. will talk about asking the county to find a way to correct the situation whereby the cities are receiving "no real or substantial benefit" from these two county law enforcement functions.

And both cities, in the view of their mayors, will adopt the resolutions, giving the county time to solve the problem rather than go to court.

"I think it's a start in the right direction," said Sanford Mayor Lee P. Moore. "I'm not in favor of litigating the problem if we can get some equitable adjustment. I don't see any reason why we shouldn't adopt the resolution."

Longwood Mayor June Lornann said, "I think it's the right approach to take." She added she is sure the resolution will be supported at the Longwood meeting tonight.

Meanwhile, city officials in the county's other five cities are also supportive of cooperation rather than a court battle to put to rest the long-standing dispute between the county and city governments in Seminole County.

Casselberry Mayor Owen Sheppard said the resolution will be considered at a Casselberry Council meeting on Monday, Nov. 29. He noted that the city still has the option of going to court against the county if the county refuses to cooperate. Sheppard said he wasn't totally satisfied with some of the committee's conclusions, but overall is supportive of cooperation. "It looks good at this point," he said.

Winter Springs Mayor John Torcaso said City Manager Dick Ruzansky will bring the issue before the City Commission there at Tuesday night's meeting. "I think we ought to give the county a chance to get everything working. I see no reason in trying to rush things. I think everything will work out fine eventually."

Oviedo Council President Ralph Neely said he supports the committee's findings and believes the Oviedo City Council will adopt the resolution at its Dec. 6 meeting.

NATION IN BRIEF

Congress May Resist More Defense Spending

WASHINGTON (UPI) — With larger deficits in the offing and Democrats claiming an election mandate to slow defense spending, President Reagan can expect more difficulty in getting Congress to approve his military buildup.

Although Reagan so far has gotten what he wants for defense, the debate over his policies has intensified. Even some of his most loyal supporters in Congress now seem reluctant to continue defense spending at its present rate.

The recent elections, in which Democrats picked up 26 House seats, are seen by some administration critics as proof that the public wants defense spending slowed.

"The American people are growing increasingly more intolerant of our unrestrained defense spending binge," Rep. Pat Schroeder, D-Colo., said.

UAW, Chrysler Talking

DETROIT (UPI) — Chrysler Corp. and the United Auto Workers resume contract talks in the United States and Canada with the company hoping to stop a costly Canadian strike and the union seeking pay raises for workers in both countries.

Negotiations open today first in Detroit and later in Toronto. Bargainers say they will seek settlements at the same time but a contract offer would be put before Canadian workers first in an effort to end their two-week walkout.

Wage increases for the 10,000 Canadian workers and 45,000 American workers is the toughest issue on the agenda. But the union said it will negotiate first on non-economic issues such as absenteeism, seniority and supervisory levels.

Early Tax Cut Debated

WASHINGTON (UPI) — A key Republican senator and President Reagan's top economic adviser both are wary of proposals to accelerate the scheduled tax cut by six months and suggest that attention should be focused on reducing the ballooning federal deficit.

Martin Feldstein, chairman of the President's Council of Economic Advisers, said Sunday on NBC's "Meet the Press" that speeding up the July 1983 tax cut to January, as Reagan has considered proposing, has "pluses and minuses," but when pressed said, "I tend to think the pluses are outweighed by the minuses."

But in a separate interview, Senate Finance Committee Chairman Bob Dole, R-Kan., said moving up the 10 percent income tax cut, would create even a larger budget deficit.

By Fiscal 1984

Despite Reagan's Promises, Deficit May Hit \$170 Billion

WASHINGTON (UPI) — President Reagan, who had trumpeted a goal of balancing the federal budget by 1984, instead will preside that year over a record deficit of about \$170 billion, internal administration estimates show.

Administration officials said Sunday the broad budget plan now being worked out by Reagan and his top advisers would produce a deficit in the range of \$185 billion to \$195 billion without spending cuts or tax increases.

Although general parameters have been established for the budget Reagan will submit to Congress early next year, one official said budget director David Stockman is proceeding on the basis of "basic judgments" by the president.

During the campaign, Reagan promised to balance the budget — a goal that steadily moved farther out of his grasp. Officials said Stockman is working on \$20 billion to \$30 billion in domestic spending reductions, which still would produce a deficit substantially larger than the latest projections by either the administration or Congress.

Alice Rivlin, director of the Congressional Budget Office, said Stockman's latest figures suggest "I seem to have lost my position as resident pessimist" to Reagan's own budget director.

Ms. Rivlin said the latest CBO projection of a \$152 billion deficit in 1984 "is clearly out of date," but declined to speculate on what the next estimate will show in January.

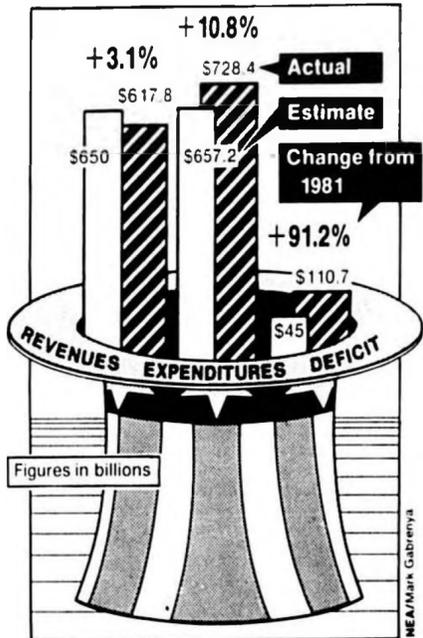

The deficit for fiscal 1982, which ended Sept. 30, was a record \$112 billion and Martin Feldstein, chairman of the president's Council of Economic Advisers, said earlier this month the 1983 deficit, which the CBO projects at \$155 billion, "is now essentially beyond our control."

Feldstein, on NBC's "Meet the Press," said Sunday that deficits in the years immediately ahead will be \$150 billion to \$200 billion without "significant action" to cut domestic spending.

Budget analysts in Congress and the administration have said the recession and declining inflation would lead to higher deficits, presenting Reagan with an increasingly difficult set of budget decisions.

The president, despite pressure even from within his own party, has refused to scale back the sharp growth he proposed in defense spending or back away from scheduled tax cuts that will further erode the revenue side of the budget equation.

In a speech in New Orleans last week, Reagan branded as "propaganda" suggestions that huge deficits are the result of excessive defense spending and his "massive" tax cut.

Sanford Eyes Double Tax Measure

Continued From Page 1A

"As long as we get tax equity, that's the important thing," Neely said. "I was not surprised at the committee's findings. There is an inequality in the way the county money is spent."

Mayor Walter Sorenson said the Lake Mary council will take up the resolution at a Dec. 2 meeting. "I'll recommend they adopt the resolution. It's reasonable."

Sanford did the same thing.

The resolution notes the cities will work cooperatively with the County Commission to resolve the differences in law enforcement and will withhold earlier resolutions putting the county on notice that the cities jointly were going to sue the county on double taxation.

Included in the resolution is the "understanding that the Seminole County

Commission will respond to the findings of the committee by Jan. 15, 1983," by outlining their approach to the resolution in the time schedule set by the committee.

The committee asked the county by May 1, 1983, tell the cities how it plans to solve budgetarily the dispute and cities in turn will respond to the county plan by June 1. — DONNA ESTES

Rectal Cancer Losing Its Stigma

NEW YORK (UPI) — A new consumer survey by the American Cancer Society has produced evidence the stigma of colon and rectum cancers is disappearing.

This is based on how freely people interviewed talked about the two malignancies once called "the cancer that nobody talks about."

Dr. Robert V. P. Hutter, national president of the American Cancer Society and a pathologist from St. Barnabas Medical Center in Livingston, N.J., said the fact that people talk about

the once unmentionable cancers today is a step toward better and earlier detection — when the cancers are most subject to successful treatment.

Twenty-five years ago, he noted, people didn't talk about cancer, per se, out in the open. But in an evolutionary process, all of that has changed — except for colon-rectal cancer, the last types to lose their stigma.

Hutter was pleased that the survey also found people more talkative about the cancers.

The 1982 fiscal year, which closed Sept. 30 and was the Reagan administration's first full year, was a record-setter in all respects. Total revenues were up 3.1 percent over 1981, but some \$33 billion short of the original budget estimate. Actual expenditures, up 10.8 percent, were \$71 billion more than budgeted. The result was a deficit almost double 1981's and more than twice as large as budgeted.

FBI Agent Expects To Be Indicted

WASHINGTON (UPI) — A veteran FBI agent, whose clandestine missions helped build cases against a mob kingpin and a union leader, said he expects to be indicted today on charges involving diamond theft and tax evasion.

FBI agent Edward Tichel said in a telephone interview Sunday night he expects to be indicted by federal grand juries in Washington and nearby Alexandria, Va., for interstate transportation of stolen diamonds, tax evasion, attempted burglary, obstruction of justice and soliciting perjury.

But Tichel said he is innocent and plans to surrender and fight all charges.

WEATHER

NATIONAL REPORT: Frigid temperatures and light snows chased a lingering Indian summer out of the northern plains early today. Thunder-showers pounded Northern California and fog settled over the Gulf Coast and mid-Atlantic states. Thunder and lightning ushered in Seattle's first snow of the season in an area that normally receives only two or three snowfalls each winter. About 50 miles east of Seattle, ski areas opened early Sunday at Snoqualmie Pass, where unusually early storms have dumped 60 inches of snow. In eastern Washington, 3 inches of snow fell in a few hours at Spokane. Sub-zero air edged across the Canadian border into the extreme north central United States, dropping the mercury in Havre, Mont. to 9-below zero as of midnight. Readings in the single digits were recorded across the rest of the northeast quarter of Montana and western North Dakota. Snow accompanied the cold temperatures from Montana to Minnesota.

AREA READINGS (9 a.m.): temperature: 70; overnight low: 64; Sunday high: 82; barometric pressure: 30.08; relative humidity: 90 percent; winds: north at 7 m.p.h.; rain: none; sunrise 6:52 a.m., sunset 5:29 p.m.

TUESDAY TIDES: DAYTONA BEACH: highs, 12:51 a.m., 1:18 p.m.; lows, 8:36 a.m., 7:34 p.m.; **PORT CANAVERAL:** highs, 12:43 a.m., 1:10 p.m.; lows, 8:27 a.m., 7:25 p.m.; **BAYPORT:** highs, 5:18 a.m., 8:00 p.m.; lows, 12:12 a.m., 12:55 p.m.

BOATING FORECAST: ST. AUGUSTINE TO JUPITER INLET, OUT 50 MILES: Small craft should exercise caution. Wind northeast 15 occasionally 20 knots decreasing gradually today becoming northeast to east 10 to 15 knots by tonight and variable mostly northerly 10 knots Tuesday. Seas 4 to 6 feet today and 3 to 4 feet tonight. Chance of rain with areas of fog mostly north part. Otherwise isolated showers.

AREA FORECAST: Partly cloudy and mild today. High near 80 or low 60s. Wind east to northeast 10 occasionally 15 mph. Tonight and Tuesday partly cloudy and continued mild. Lows near 60 or low 60s. Highs around 80. Variable light wind tonight.

EXTENDED FORECAST: North portion variable cloudiness with a chance of showers Wednesday through Friday. Otherwise partly cloudy and mild. Lows in low 60s north to upper 60s south, except low to mid 70s along the southeast coast. Highs in the 70s extreme north and low to mid 80s elsewhere.

4 Nabbed In Cocaine, Marijuana Bust

By TENI YARBOROUGH
 Herald Staff Writer

A Sanford man was being held in the Seminole County jail today while three other people were released on bond after being arrested by undercover agents who purchased about \$5,000 worth of cocaine and marijuana at a Sanford home Sunday.

Kevin Wayne Cummings, 27, of 500 Palmetto Ave., Sanford, was being held under \$5,000 bond following his arrest on three counts of sale and delivery of cocaine, conspiracy to deliver cocaine, possession of less than 20 grams of marijuana and drug paraphernalia, sheriff's deputies said.

Agents also arrested Pamela Lee Collins, 27, of 500 Palmetto Ave., Sanford; Douglas Gray Vickers II, 22, of 162 S. Fifth St., Lake Mary; and Roderick Boyd Hall, 23, of 349 Evansdale Road, Lake Mary.

Ms. Collins was charged with two counts of sale and delivery of cocaine, conspiracy to deliver cocaine and possession of drug paraphernalia, agents said. Vickers was charged with delivery of cocaine, marijuana and possession of cocaine paraphernalia. Hall was charged with possession of marijuana and drug paraphernalia and delivery of cocaine, agents said.

Agents served a search warrant at the Palmetto Avenue home early Sunday morning after undercover narcotics officers said they purchased cocaine and marijuana there on three separate occasions.

At the time the raid was made, two undercover agents were inside the home finalizing a drug deal which they said netted about \$2,000 worth of cocaine and about \$3,000 worth of marijuana.

MAN ROBBED OF \$950
 A 66-year-old Sanford man was robbed of \$950 after two knife and club-wielding men attacked him along Airport Boulevard and 20th Street at 5 a.m. Sunday.

David King, of 2715 Hughey St., told deputies he was walking along the street toward a grocery store where he planned to make a telephone call when two men drove up beside him. King said the men stopped their vehicle and ordered him to hand over his money to them, deputies said.

King said when he told the men he didn't have any money, one produced a knife and the other hit him with a club, knocking him to the ground. King told deputies the men then took his cash and fled.

DUI ARRESTS
 The following people were arrested in Seminole County on a charge of driving under the influence (DUI) of alcoholic beverages:
 — Ray Keough Anderson, 21, of Orlando, arrested today. Anderson was arrested by Altamonte Springs police along Longwood Ave. and North Street.
 — Joel Martin Heath, 24, of Union Park, arrested 3 a.m. Sunday. Heath was arrested by deputies along State Road 46

AREA DEATHS

MRS. IOLA M. NOLTEE
 Mrs. Iola M. Noltee, 66, of 192 Mobile Ave. in Longwood died Thursday at Florida Hospital-Altamonte. Born Oct. 8, 1916, in Perry, N.Y., she moved to Longwood from Rochester, N.Y., in 1979. She was a homemaker and a Baptist.

Survivors include her husband, Donald A.; two sons, Bruce J. and David A., both of Rochester; her father, George Miller, of Rochester; a sister, Leona Cummings, of Rochester; and two grandchildren.

Semoran Funeral Home, Altamonte Springs, is in charge of arrangements.

IN BRIEF

Jurors To Decide Today If Henderson Should Die

TAVARES (UPI)—Confessed killer Robert Dale Henderson has been found guilty of three counts of first-degree murder for killing three hitchhikers in Hernando County, part of a five-state crime spree he described to police.

Henderson, a 37-year-old laborer turned drifter turned outlaw, showed little emotion late Saturday when the jury returned the guilty verdict after two hours of deliberation. He just rocked gently back and forth in his chair.

During the second stage of the trial today, jurors were to decide if Henderson should die in the electric chair or be sentenced to life in prison on each of the three first-degree murder counts. The final decision will be made by Fifth Circuit Judge L.R. Huffstetler.

'Nude Is Not Lewd'

KISSIMMEE (UPI)—A group of "free beach" supporters, claiming "nude is not lewd," say they will fight a state indecent exposure law both in the courtroom and on Florida's beaches.

The group says it plans to openly oppose the indecent exposure law that has been used to arrest nude beachgoers through civil disobedience, by sunbathing nude and fighting the expected arrests as a test case.

Free beach proponents say some Florida sheriffs are perverting the intent of state indecent exposure laws by including simple nudism under a heading of lewd and lascivious conduct.

Bush's Fate To Be Decided

FORT MYERS (UPI)—Jurors considering the fate of John Earl Bush, who convicted Bush for his part in the kidnap-murder of teenage Evinrude heiress Frances Julia Slater, now have to decide if he deserves to die.

Circuit Judge C. Pfeiffer Trowbridge ordered the 12 jurors who found Bush guilty Friday to return to the Lee County Courthouse today to recommend whether Bush should be sentenced to die in the electric chair or spend the rest of his life in prison.

EARLY ARRIVAL

Santa Claus arrived in Winter Springs Saturday for the town's Christmas parade. The Navy's Color Guard and Drill Team also participated in the holiday procession along with several floats and marching bands.

Reagan Opts For MX 'Dense Pack' Plan

WASHINGTON (UPI) — President Reagan, intent on countering a Soviet military buildup, tonight will outline a plan to deploy the MX missile in a "dense pack" formation, administration officials said.

Reagan, in what aides described as "a major address on defense and arms control," will deliver a televised speech from the Oval Office at 8 p.m. EST, several hours after announcing his choice of a basing mode for the MX.

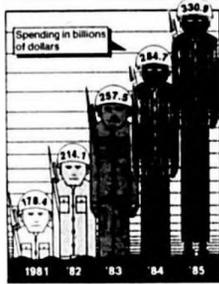

Administration officials said Sunday the president, in accord with the recommendations of Defense Secretary Casper Weinberger, had chosen a plan that would place 100 MX missiles in closely spaced launch canisters in the West.

The concept, known as "dense pack," assumes the bulk of the MX force would survive a Soviet attack because the first explosions of incoming warheads would destroy or deflect others that followed.

Weinberger has estimated the "dense pack" option could cost \$25 billion.

The missiles would be located in a field 14 miles long near a military base in Wyoming, Nevada or New Mexico. Critics

The Total Military Budget 1981-85

As proposed by the administration, annual military spending would almost double in the five-year period 1981-85. Figure for 1981 is actual budgeted spending authority. Following years are estimates.

contend the plan offers no greater protection than other deployment options.

The question of how and where to base the MX — the newest

Sanford To Take Over Youth Baseball Program

Sanford's youth baseball program which traditionally has some 600 young people, 7 to 15 years old, involved during the spring-summer season isn't going to falter because of lack of volunteers.

Sanford Recreation Director Jim Jernigan is expected to report to the Sanford City Commission at its 7 p.m. meeting today that the city's recreation department will take over the full operation of the program.

The department totally ran the program until four years ago, Jernigan said, when a volunteer Youth Baseball

Association (YBA) began handling the program with assistance and cooperation from the city.

But, Jernigan said, the association has turned the program back to the city because of a lack of volunteers.

Jernigan said the YBA had been responsible for fund-raising and finding sponsors for the various teams.

The city youth baseball season generally begins the second week in April and extends through league playoffs in mid-July and then the post-season tournaments when local teams qualify

for state competition.

For more than 20 years the city has provided facilities, lighting and money for umpires to fund the 350-400 games held during the season, Jernigan said, noting that even though the city is taking over the program again, it will still be necessary to have volunteer assistants to aid regular recreation department employees and part-time city assistants next season.

Jernigan said the Youth Baseball Association did a good job, but the job got to be a "grind for some parents and volunteers." — DONNA ESTES

Biologists Help Animals Fight Man's Onslaught

GAINESVILLE (UPI) — About 15 biologists at Florida's Wildlife Research Laboratory are helping endangered animals battle extinction as civilization gobbles up the state's wilderness areas.

"We work with everything from birds to alligators to panthers," chief biologist Tommy Hines said. "We deal in management problems — problems caused mainly by a lack of knowledge about a species or group of animals."

The laboratory, a division of the Game and Fresh Water Fish Commission, develops projects to protect the rare animals roaming the state. It also assists in safeguarding more common species of wildlife.

"I'd say we've got more endangered species here in Florida than anywhere else in the mainland United States," Hines said. "There might be more in Hawaii or somewhere else. But if we don't have the most, we're close."

Researchers blame the decline of animals such as panthers, crocodiles, wood storks and whooping cranes chiefly on land development.

"That's the root cause of most of our problems," Hines said. "It's by far worse in south Florida than in other parts of the state, because there are more people living there and that's where the population is growing

fastest.

"If you have more people, you're going to have more problems," he said. "The trouble comes from not only the outright loss of land to development, but the severe modification of the land that's left."

"If something isn't done to turn back the tide of development in this state, we're going to have a very difficult time maintaining certain wildlife populations," he said. "We're going to see our wildlife and wild land values severely compromised."

Florida panthers probably are more scarce than any creature in the state, Hines said.

"We're down to about 20-plus animals," he said. "You don't have to use much imagination to realize that those 20 panthers' chances for survival are threatened by increasing land development."

Hines said changes in the land could rapidly force the big cats into extinction.

"Wild communities are elastic and have withstood man's onslaught surprisingly well, but that comes to an end after a while," he said. "And there's continuing development around the panther range."

The wildlife lab has equipped five panthers with radio collars "so we can keep track of them and possibly keep them from being killed

off," he said.

In another project, state biologists are trying to determine whether Florida's sandhill cranes can serve as surrogate parents for endangered whooping cranes.

"We're checking to see whether the sandhills will hatch whooping crane eggs and raise the young," Hines said. "If it works, there's a possibility we might be able to establish a resident whooping crane population."

The agency also is concerned with solving

conflicts between humans and wild animals.

"We had a problem with bears and beekeepers a while back," Hines said. "We have black bears in areas where honey is raised. All the beekeepers' work was being ruined when the bears would sneak in and raid the hives."

"We looked at the problem and investigated several possible solutions," Hines said. "What it boiled down to was electric fences. Put an electric fence around your beehives and the bear stays out."

WORLD

IN BRIEF

More Changes Expected In Russian Leadership

MOSCOW (UPI) — Soviet leader Yuri Andropov set the scene for expected high-level changes in the Politburo with the Central Committee expected to meet today to discuss key appointments within the Communist Party hierarchy.

The Central Committee was expected to debate the problems of the Soviet economy, staggering under the burden of four consecutive poor harvests, plus inefficiency and waste in both agriculture and industry.

Andropov, who is linked with the economic reforms in Hungary where he served as ambassador from 1954 to 1957, appeared Sunday to be marshaling the ideological justification he needed for sweeping reforms.

Soviet Weapons Studied

United Press International

Pentagon experts today began studying the military lessons of Israel's war in Lebanon, including a look at Soviet-made hardware captured in the conflict and the technology that shattered Syria's air defense system.

In Lebanon, U.S. envoy Philip Habib met Sunday and today with the leaders of Lebanon's Moslem groups in an effort to ease mounting factional fighting.

Guard Hijacks Plane

BERLIN (UPI) — A militia man assigned to guard a Polish airliner against hijackers forced it to fly to West Berlin today, firing shots of joy into the air on his arrival at a U.S. Air Force base, a U.S. Army spokesman said.

The guard, who was assigned to the Polish national airliner at the last moment, used the opportunity to flee to the West, the spokesman said.

The man hijacked the LOT AN-24 carrying 31 passengers and a crew of four while on a flight from Warsaw to Gdansk, the spokesman said.

'Army Of God' Members Charged With Extortion

SPRINGFIELD, Ill. (UPI) — Three Texans who waged a battle against abortion as the "Army of God" have been charged with federal extortion in the abduction of an abortion clinic founder and his wife, the FBI says.

One of the men, Wayne A. Moore, 18, New Caney, was arrested at a friend's house on the north side of Springfield early Sunday, officials said. He was scheduled to appear in federal court today.

Moore was being held at the Sangamon County Jail in lieu of a \$1 million cash bond. The other two men remained at large and are considered armed and "extremely dangerous," FBI special agent Joseph E. Ondrula said.

Moore, his 20-year-old brother, Matthew M., New Caney, and Don B. Anderson, 41, Pearland, were charged with obstructing the business of abortion clinics owned by Dr. Hector Zevallos.

Zevallos and his wife, Rosalie Jean, were kidnapped from their home in Edwardsville, Ill., home Aug. 12 and released unharmed eight days later. Zevallos, 53, operates the Hope Clinic for Women in Granite City and owns the building that houses another clinic in Shreveport, La.

Ondrula said Madison County authorities plan to file state charges against the three men for kidnapping.

A group calling itself the "Army of God" took credit for the abduction in a ransom letter and tape-recording left at a St. Louis park. The communication listed "Epistles" discussing the group's views on abortion and the U.S. Constitution.

"From the indication that we have, the Army of God — as the press has reported it in the past — is most likely comprised of these three individuals. The motive, as was stated in the Epistles, is

the abortion issue," Ondrula said at a news conference.

However, he said there was no evidence to link the three with another letter from the "Army of God" claiming the group had burned two Florida abortion clinics. That letter was delivered to a television station in Tampa last May.

U.S. Attorney Frederick Hess said money also was a motive but declined to reveal the amount the trio had sought.

Ondrula said a tip from a concerned citizen last month led the FBI to the men, who he described as "transients" from Texas.

Moore was arrested just 20 miles away from the concrete and steel bunkers in which the Zevalloses were held during the abduction. The bunkers, in a desolate field near Illinois, had been used to store ammunition during World War II.

The elder Moore was

believed to be in Texas. Anderson, who was last seen in Springfield a few days ago, also is wanted in Texas on two felony charges, the FBI said.

Moore was described as 6 feet tall, weighing 175 pounds, with brown hair and hazel eyes. Anderson was said to be about 5 feet 9 inches tall, weighing 225 pounds, with brown hair and blue eyes.

The men were charged under the federal Hobbs and Travel acts. One act bans individuals from obstructing interstate commerce by

extortion while the other prohibits travel between states for an illegal act.

If convicted of both crimes, the men could face a maximum penalty of 30 years in jail and a \$15,000 fine.

Both Sides Playing Nicaragua Hardball

The Soviet bloc is playing political and military hardball in its effort to transform revolutionary Nicaragua into a second Cuba. It should come as no surprise, therefore, that the Reagan administration has reverted to a little hardball of its own to prevent the establishment of another Soviet base in the Western Hemisphere.

Specifically, the administration is providing limited amounts of arms and funds to anti-communist Nicaraguan exiles operating from bases along the Nicaraguan-Honduran border.

The administration is also embarked upon an ambitious program of military assistance to Honduras, a poor, underpopulated country whose democratically elected civilian government feels very threatened by the flow of Soviet bloc arms into neighboring Nicaragua.

Some administration critics are viewing all this with alarm and worrying aloud that Mr. Reagan is heading directly for a second Bay of Pigs-style debacle. They also charge that U.S.-sponsored covert actions along the Nicaraguan border combined with the buildup of Honduran forces could drag the latter into open conflict with Nicaragua's Cuban-trained army.

For the most part, these fears strike us as overwrought. Nicaragua's shaky Sandinista regime is not likely to provoke a war with Honduras so long as the Hondurans enjoy strong and unequivocal support from Washington. Conversely, a wavering U.S. commitment to Honduras could well prompt the Nicaraguans to incite and supply an insurgency in Honduras as they are already doing in nearby El Salvador.

Which brings us to the administration's covert action program in support of Nicaraguan exiles.

The original intent of this relatively modest effort was to equip a force of anti-communist guerrillas capable of stopping the flow of arms from Nicaragua across the rugged terrain of southwestern Honduras to Marxist insurgents in El Salvador.

In recent months, the Nicaraguan exiles have also been staging raids into Nicaragua itself. If these raids help to keep the Sandinistas off balance and encourage opposition groups inside Nicaragua to oppose their country's drift into the Soviet orbit, then legitimate U.S. interests will be well served.

The one danger the administration must guard against is an exclusive reliance on and identification with the Somocistas, the remnants of the late Nicaraguan dictator Anastasio Somoza's armed forces. There is good reason to believe that these former members of Somoza's national guard are still feared and hated by many Nicaraguans, who nevertheless have come to detest the Sandinistas as well.

Regrettably, many and perhaps most of the recruits for anti-Sandinista guerrilla activities are coming from the ranks of the Somocistas in Honduras. The Reagan administration must broaden the political base of the Nicaraguan exiles if a covert operations strategy is to be truly effective.

But with that caveat, we see nothing improper or ill-advised in countering Nicaragua's aid for Marxist-led guerrillas in El Salvador and Guatemala. The alternative, after all, is to do nothing effective against a Sandinista regime clearly bent on subverting its neighbors and remaking all of Central America into a string of Soviet-Cuban satellites.

BERRY'S WORLD

"I had to get out of the house. My daughters are driving me nuts with 'Valspeak'!"

Winners of October's School Bus Safety Week coloring contest were announced last week by Seminole County School officials.

More than 3,000 entries were submitted by Seminole County students. About 200 entries were expected, Karen Coleman, administrative trainee, said.

Winners in the Kindergarten-Grade 2 contest were: first place, Lisa LaSalle, second grade, Lake Mary; second place, Kevin Barreto, kindergarten, Sterling Park; third place, Adrienne Nephew, second grade, Altamonte Springs.

Winners in the Grade 3-Grade 5 contest were: first place, Glenn Green, fifth grade, Lake Mary; second place, Sean Clifford, fourth grade, Lake Orienta; third place, Tina Henderson, fifth

grade, Geneva.

Seminole County also sent two teams of bus drivers to the Suncoast Safety Road-e-o in Sarasota. The teams placed fourth and sixth in the 10-team competition.

Competing for the district were Debbie Riggall, Gary Ledford, Kathryn Rittling, Flora Fambro, Dorothy Palmer, Darlene Haffner, June Boyles, Susan Hicks, Kim Akins, Sylvia Hittell, Clara Ripley, Betty J. Smith, Cynthia Pratt, Carol Ross, Deborah Burkhardt, Philip Hallemeier, Jackie Ensrud, Julie Blount, Patricia Bowen, Beverly Hughes, Dixie Flanagan.

School Superintendent Robert Hughes was placed in an unusual situation at this week's re-organizational meeting when he was made acting chairman. As a result, he kept forgetting to ask the board members for a vote on things, like who the new chairman would be.

Hughes was also called upon to serve as keynote speaker at a Tuesday afternoon reception for retired educators. A former teacher and principal, Hughes told the gathering that it was hard to get their attention because "as typical teachers" they all wanted to talk and didn't want to listen to anybody.

At that gathering were teachers with a combined total of 1,918 years of experience.

ANTHONY HARRIGAN

Elections And Economics

For months to come, Americans will be pondering the meaning of the mid-term elections.

While a definitive reading of the elections may be premature, there is considerable evidence to support the view that they amounted to a draw. The electorate definitely didn't repudiate President Reagan and his policies. On the other hand, he did not receive an unqualified endorsement.

The voting public isn't prepared to return the federal government to the liberals who created the mess in the first place. They are unhappy, however, with the steep downturn in the economy.

This suggests that the Reagan administration, while holding to its general course, needs to seek fresh approaches to economic difficulties.

While seeking new approaches, the administration must stand firm against liberal panaceas. The first to be advanced is a mammoth federal jobs program. Such a program would do nothing to strengthen the economy. Instead, it would be an updated, more expensive version of the old New Deal WPA program.

A program of make-work jobs isn't what Americans need. Their future lies with a revival of general business prospects. This, in turn, depends on less government, not more.

The administration also has a duty to hold firm on national defense. The armed forces are suffering from years of neglect.

The liberals will insist that defense spending should be cut in order to finance new social programs. Assuring the survival of the American people is the No. 1 social program for the nation.

At the same time, Congress and the Executive must endeavor to reduce personnel costs in the armed services, which account for 57 percent of the defense budget. They should scrap antiquated military bases that are sacred cows for individual congressmen. And they should curb spending on military pensions. Military retirees should not have a better break than other citizens.

Both Congress and the Executive will be hard put to find the political will and stamina to put a cap on cost of living increases for Social Security recipients. That step is necessary, proper and just, however.

One new element that the Reagan administration should insist upon is strengthening of trade laws in order to achieve fair trade. Large numbers of Americans are out of work because of unfair foreign competition. More Americans will be jobless unless action is taken. The administration must make sure that the liberals don't steal this vital issue from them.

Andropov's Rise Means Detente's End

WASHINGTON — Despite the Kremlin's not-so-subtle disinformation campaign to paint Yuri Andropov as a moderate, or even a liberal, the new boss of the Soviet Union is a hardliner whose elevation means rough times ahead for the long-suffering Russian people and the rest of the world.

Actually, anyone who thinks a man who ran the KGB for 15 years could be a liberal must also believe in the Tooth Fairy. The KGB is a combination of the CIA, the FBI and the Bureau of Prisons — but without any legal restraints whatsoever. The head jaller is now in charge of the entire country.

For years, our intelligence agencies mistakenly thought that no one with a KGB background could hope to rise to the top of the Kremlin heap. At most, they believed, Andropov would have veto power over any would-be successor to Leonid Brezhnev.

As I reported three years ago, the CIA evaluated Andropov's position this way: "Any serious contender for the job of general secretary must ensure that he has the tacit approval of the security organ if not its active support."

Within the last year, however, Western intelligence began to rethink its assessment of Andropov's chances. In fact, as early as last May, I reported my intelligence sources' hunch that Andropov would be the one to grab

the brass ring on the Kremlin merry-go-round.

The CIA may have been slow to consider the possibility that Andropov would be Brezhnev's successor, but it was never under any illusions about the nature of the beast. In November 1979, sources told my associate Bob Sherman that Andropov is "an astute, ruthless party bureaucrat whose cold and calculating attitude" fit him well for his job as KGB boss. Any notion that he has softened since then is dangerously wishful thinking.

What this means for Soviet-American relations is that detente is dead. As long as Andropov is in charge at the Kremlin, the United States can expect a tough Soviet policy on all fronts. The man who supervised the crushing of the Hungarian uprising as Soviet ambassador in 1956 can hardly be expected to take a lenient position on Poland or other restive satellites.

The big question now is how long Andropov will remain in charge. I've seen secret CIA reports on his health; he is far from robust.

At 68, Andropov is a relative strapping by the standards of the Soviet gerontocracy. But he has serious health problems. In 1968, he suffered a heart attack, and in the mid-1970s he required surgery so major that he spent 10 weeks in the hospital, according to the CIA.

Power, as Henry Kissinger fondly believed, may be the ultimate aphrodisiac; it may also be the ultimate tonic. Brezhnev was in frail health for years, yet he never relinquished his grip on the Soviet power apparatus. Andropov can be expected to be every bit as tenacious now that he has reached the pinnacle.

In the Byzantine atmosphere of the Kremlin, no one can relax in the top job. The other old men Andropov beat out will not give up easily.

But Andropov still has the ace in the hole that put him where he is: the loyalty of the KGB. The men who run the Gulag Archipelago now have one of their own in control for the first time in Soviet history, and they're not likely to abdicate their newly enhanced power and prestige.

DRESS RIGHT! Starting Dec. 1, the 110 inspectors in the Interior Department's Office of Surface Mining will be required to wear uniforms, and some of them aren't at all pleased by the gum-up effort.

One inspector sourly suggested that if the field troops have to wear uniforms, then the director of the office should also be required to. And another filed this complaint with his bosses:

"The OSM inspectors would be similar to Park Rangers chasing the elusive Yogi Bear. We would be likened to zookeepers with whips

ROBERT WAGMAN

Bradley's Race Issue In Defeat?

WASHINGTON (NEA) — In the race to succeed California Gov. Jerry Brown, Los Angeles Mayor Tom Bradley lost by a razor-thin margin to George Deukmejian, the state's attorney general. Although Bradley is black, most news accounts have dismissed racism as the reason for his defeat.

The preferred reading of the returns is that Bradley was done in by the unusually heavy conservative voter turnout generated by Proposition 13, an initiative to limit private ownership of handguns. The gun-control initiative was California's "hot" issue this year, and those on both sides spent about \$6 million to air their views. The initiative was overwhelmingly defeated by a margin of more than 2 to 1 — due primarily to a very heavy voter turnout in traditionally conservative areas, such as Orange County and the central valley.

This heavy anti-gun-control vote undoubtedly gave the conservative Deukmejian many more votes than otherwise might have been expected — but there is striking evidence that race was a pivotal factor in the voting, and that Bradley's defeat was not due solely to Proposition 13.

Bradley was 12 points ahead in the polls three weeks before the election, yet he was defeated by seven-tenths of a percent on Nov. 2, losing by some 52,000 votes out of 7.5 million cast. California's Democrats have a registration advantage of almost 1 million; for Bradley to have lost, it is estimated that more than 500,000 Democrats and independents had to cross over and vote for Deukmejian. Had fewer than 30,000 of these voters not done so, Bradley would have won.

To attribute Bradley's defeat to the heavy conservative turnout, one must ignore the defection of these Democrats and independents. And to say that racism was not a factor is to ignore the results of several polls that were conducted as voters left the voting booths.

These polls indicate that most of the 500,000 Democrats and independents who crossed over were not so much voting against Bradley as they were voting against Bradley. Their reasons varied considerably — but on the issue of race, some of the polling results are striking.

The most startling result was obtained by the respected California Poll. One of the questions it asked those leaving the polls was whether they had voted against Bradley because he is black — and 3 percent said they had. Pollsters are accustomed to getting "socially acceptable" (that is, not truthful) answers to this type of question. Therefore, for 3 percent to admit to a stranger using a clipboard that race was any factor at all — let alone a major or deciding factor — is amazing. It indicates that the number of those voting against Bradley because of his race probably was far greater than this 3 percent.

In another exit poll, commissioned by the Los Angeles Times, voters were asked if they believed that government was doing too much for blacks and other minorities. Of registered Democrats and independents who said they voted for Deukmejian, 8 percent answered affirmatively. It must be reasonably assumed that race played some role in the voting decision of this 8 percent.

One inspector even complained that he was allergic to the \$250 polyester uniform. It did him no good; he was issued a cotton one.

HEADLINES AND FOOTNOTES: When the Arthritis Foundation took over a two-story building in Atlanta for its new national headquarters, it had to install an elevator to accommodate arthritics who can't negotiate the stairs. What's odd about the lack of an elevator is that the building's previous owner was the Otis Elevator Co. The elevator installed was an Otis.

— "Blue Monday" is evidently a well-founded expression. According to the National Center for Health Statistics, more people commit suicide on Monday than on any other day of the week. Saturday has the lowest score in suicides — but the highest in motor-vehicle deaths, 83 percent more than on Tuesday, the lowest day. Saturday is also the day when most murders occur; its average is 74 percent higher than Wednesday, the lowest in that respect.

Evening Herald, Sanford, Fl. Monday, Nov. 22, 1982—5A

Gallagher's Shot Lifts SCC Past Dade North

By SAM COOK
Herald Sports Editor

J.C. Basketball

When Seminole Community College's Raiders needed a take-charge guy Saturday night at SCC, sophomore David Gallagher stepped backward, then forward.

The pencil-thin guard from Edgewater drew an offensive foul with 23 seconds left to play at one end of the court and then tossed in an off-balance shot from 19 feet out at the buzzer to give the Raiders a dramatic 84-82 victory over Miami Dade North.

"It wasn't even a jump shot," said first-year SCC coach Bill Payne. "David just stepped between two guys and threw it up. Somehow it went in."

The shot set off a wild post-game celebration as the jubilant Raiders paraded Gallagher around on their shoulders before settling down to accept the first-place trophy. On Friday, SCC trimmed Edison while Miami took care of Palm Beach in the first night of the SCC Raider Tournament.

The double-night success gives Payne a 2-0 start in his first year as a junior college coach. Miami, runnerup at the national championships last year, is 1-1. In Saturday's consolation game, Palm Beach ripped Edison, 84-61.

Palm Beach, 5-1, will be SCC's next opponent. The Raiders take on Palm Beach Tuesday night in Lake Worth at 7:30.

Although Gallagher grabbed the hero's role at the end of the game, Payne pointed to the play of freshman Delvin Everett as making the difference.

"Delvin played like he was possessed," said Payne. "He was tough on the offensive boards too."

The 6-5 Apopka graduate hit 8 of 12 field goals and 8 of 11 free throws for 24 points. He also nabbed 13 rebounds, eight coming from his own backboard.

SCC (84)	FGM-FGA	FTM-FTA	TP
Phelps	2-4	2-4	6
Everett	8-12	8-11	24
Kuiper	5-12	6-8	16
Sutton	4-7	8-10	16
Whitney	2-10	3-4	8
Koldenhof	1-3	0-0	2
Merthie	2-5	0-0	4
Gallagher	2-3	4-5	8
Wright	0-1	0-0	0
	26-57	31-42	84

Dade North (82)	FGM-FGA	FTM-FTA	TP
Williams	7-14	8-10	23
Walker	3-14	4-6	10
Rodriguez	0-2	0-0	10
Innocent	4-13	2-4	10
Fernandez	1-2	6-7	8
Fairley	2-6	3-4	7
C. Davis	2-2	0-0	4
B. Davis	7-11	2-2	18
Clarke	0-0	2-2	2
	26-64	27-35	82

Three point goals — Whitney, B. Davis, Williams.

Halftime: Seminole 44, Miami Dade-North 41; Fouls: Miami Dade North 31, Seminole 27; Fouled out: Fairly, Rodriguez, Kuiper, Phelps.

"Delvin's been a very pleasant surprise," continued Payne. Everett wasn't originally slated for a starter's role, but when Kevin Jerry Smith didn't take enough hours at one school last year, he moved into the picture.

The Raiders outbounded Miami, 43-24, which took the sting out of 29 turnovers. Dade North turned the ball over 17 times. Rudy Kuiper, Seminole's 6-10 center, collected seven rebounds and tossed in 16 points. Sanford's Bernard

'It wasn't even a jump shot.

David (Gallagher) just stepped between two guys and threw it up. Somehow it went in. — Bill Payne

Merthie came off the bench to grab seven boards.

It was Merthie's dunk on a follow up shot at the first half buzzer which gave the Raiders a 44-41 halftime advantage. The final 20 minutes were touch-and-go. Each team took the lead at different intervals, although the spread was no more than six points.

The Raiders trailed, though, by three points with 30 seconds left until Sanford's Keith Whitney threw in a three-point goal for an 82-82 deadlock.

"It must have been from 30 feet and it banked in," said Payne.

Gallagher took over from that point, drawing the charge with 23 seconds to go. The Raiders ran down the final seconds until the 5-11 guard stepped between two defenders and pumped in the 19-footer.

Everett and teammate Kuiper joined Miami's Brad Davis and Malcolm Williams and Palm Beach's Mike Guthrie on the All-Tournament team.

RAIDER RAP — Point guard Jimmy Payton will miss at least 10 days with ligament damage in his knee, Payne said Monday.

Payton, who played at Spruce Creek last year, was injured in a collision underneath the backboards during Friday's victory over Edison Junior College.

The freshman guard was replaced by Luis Phelps who joins Everett, Kuiper, Whitney and Ricky Sutton in the starting lineup.

Herald Photo by Bonnie Wieboldt

Delvin Everett, SCC's 6-5 forward, converts one of his eight offensive rebounds for a bucket over Miami Dade North's Wesley Davis. Raider guard Ricky Sutton (right) waits for the rebound. SCC whipped Miami, 84-82, on a last-second shot by David Gallagher to win the SCC Raider Tournament.

Rotary Plans Work Perfectly

This bowl picking can be a sticky business, even on the high school level.

George Grant, chairman of the Rotary Bowl football committee, matched up Lake Howell and Oviedo a couple weeks ago for Saturday's game at Lyman High School.

He extended the invitations last Friday. Oviedo, on a hot streak, snapped up the chance to play. Lake Howell, disillusioned by a tough loss to Apopka, took a little longer, but after a team vote, accepted.

The parring, of course, is a natural. Lake Howell and Oviedo shared the same school while the Silver Hawks' complex was being constructed. They haven't played in a couple years, though, because former Oviedo coach Joe Montgomery discontinued the rivalry.

It will be the first time in a long time that two Seminole County teams make up the bowl. It took some foresight, however, on the part of Grant. He reasoned that Lyman, probably the county's best team, would win the district and earn a spot in the state playoffs.

The Greyhounds didn't disappoint him when they nipped Lake Brantley, 6-0, Friday. It was the first district and Five Star Conference championship for Lyman. The winner of District 4A-10, nevertheless, has not been determined.

Tonight at 8 in Satellite Beach, Merritt Island, Vero Beach and the host team will use the tiebreaker system to determine who plays the 'Hounds. All three teams finished tied for first during the regular season.

Anyway, everything worked out as Grant had expected. If Lake Howell somehow had made the playoffs, Lyman was to be the backup team.

"We think it should be one of the best Rotary Bowl matchups ever," said Grant. "We're expecting a big crowd."

Kickoff is 8 p.m. Saturday.

While Lyman, Oviedo and Lake Howell are concerned with bowls and playoffs, there are a few other teams in the county which didn't mind the season drawing to a close.

Seminole finished its worst season ever. The Tribe lost all 10 games. Lake Mary, stepping into its first varsity schedule, lost 9 of 10. The Rams whipped Wymore Tech, 27-0, in the fourth game of the year. Lake Brantley, starting mostly sophomores and juniors, won two games. The Patriots came on at the end of the season. Those two wins, coincidentally, were over Seminole (15-14) and Lake Mary (34-6). — SAM COOK

Herald Photos by Bonnie Wieboldt

Jason Varitek, Rock Lake Green running back, straight arms an opponent on his way to a big gain Saturday against the Tuskawilla Rams. Rock Lake lost to Tuskawilla, 6-2, in Junior Peeewe action. See Wednesday's Evening Herald for a complete rundown of SYSA action from Saturday.

Kush Calls Colts A Disgrace

NEW YORK (UPI) — Are you starting to get the feeling the professional football season is dragging a little?

I am. Particularly after seeing Sunday's atrocity at Shea Stadium where the New York Jets would've been far more merciful had they pulled the plug on the comatose Baltimore Colts before torturing and butchering them the way they did in a 37-0 blood bath.

If it wasn't the worst football game I've ever seen, then it had to come close, and when I offered that thought to Frank Kush, the Colts' coach, without really trying to demean his young, inexperienced ball club, he didn't argue with me at all, he merely confirmed my opinion.

"It was a lot worse than it looked," he said.

Coming off the strike, Kush was openly disgusted at how the Jets had rubbed the Colts' noses in the dirt. By the intermission, the Jets had built themselves a 27-point lead without hardly exerting themselves and I heard one fan ask another if he knew where to go to get refunds.

"They could've scored another 20 points if they had wanted to run it up," Kush said about the Jets, who looked surprisingly sharp in gaining a total of 476 yards. "They scored practically whenever they wanted. Our defense couldn't stop 'em. The only thing that did was the goal posts."

It was second victory in three games for the Jets and the third straight loss for

Milton Richman

UPI Sports Editor

the Colts dating back to before all the players went out on strike eight weeks ago.

In his first season as Baltimore coach, Kush is going about it properly in remodeling the Colts. Unquestionably, they'll be one of the better teams in the NFL some day. Sunday wasn't that day. Not the way they played following four days of practice after the strike was settled last Tuesday night.

"I thought it was a disgrace to football," Kush said of his team's performance. "Especially our defense. We were pathetic. They scored practically whenever they wanted. Our tackling was inept to say the least. We all stunk out the joint."

Kush wasn't talking behind the Colts' backs, either. Only a few minutes before, he had talked to them behind closed doors and told them the same thing he was telling all the media outside the dressing room now.

The Jets made a few mistakes but they hardly showed in contrast with the Colts' general ineptitude. Jets' back Freeman McNeil ran up and down the field almost

at will, scoring their first touchdown less than a minute and a half after the game started with a 34-yard romp and their last one in the third quarter on a 32-yard pass from Richard Todd, who also tossed another payoff pitch of 23 yards to Lam Jones in the second quarter.

While all this was going on, Pat Leahy, the Jets' place kicker, was chipping in with three field goals of 43, 37 and 19 yards, and fullback Mike Augustyniak was capping another 87-yard scoring drive with a one-yard touchdown run.

Things got so bad for the Colts that at one point free safety Nesby Glasgow couldn't help but plead with one of the officials, "how about giving us a break?" It didn't help. The official, referee Fred Wyant, just looked at him.

There were some light moments, too.

McNeil netted 123 yards in 22 carries but on some of the occasions when he was stopped, his Colt tackler would greet him with a cheerful "hello." And when the Jets were penalized 15 yards for unnecessary roughness because tackle Marty Lyons hit Pagel on the side of his helmet trying to get at him, Pagel looked over at Jets' end Mark Gastineau and said to him, "bad call."

A somewhat disappointing crowd of 46,970 was on hand to see the Jets and Colts resume the season after the strike. The no-shows numbered 13,402.

Generally, they were to be envied. They didn't miss much unless they enjoyed watching mistakes.

Brantley Girls Finish 4th In State

The Lake Brantley girls turned in an impressive team effort Saturday and ran to a fourth place finish in the 4A State Cross Country Championships at the DeLand Airport.

The Lady Patriots finished with 159 points, edging the fifth and sixth place teams (John I. Leonard and Brandon) by just one point. The powerful Orange Park girls ran away with the state title with 71 points. Spruce Creek's Carmen Gardner claimed the individual title with a time of 11:11.6 in the two mile event.

Lake Brantley was led by senior standout Ellen Stern, who, in her last meet for the Patriots, turned in her best performance of the year with a time of 12:13 and a 20th place finish. Stern's previous best time was 12:18.

Behind Stern, Kathryn Hayward clocked in at 12:30 in 29th place, Joanne Hayward was 33rd at 12:42, Barbara Holmes beat her best time with a 13:03 and 47th place (her previous best was 13:04), Laura Barnhill was 64th at 13:24, Kim Pacetelli was 86th at 13:54, shaving a second off her previous best, and Melissa Meghdadi was 96th with a time of 14:22.

Cross Country

"They (Brantley girls) ran as a total team," Lake Brantley coach Jim Marshall said. "It was a good effort, they ran really well."

In the boys meet, Lake Howell's Kenny Cheeseman finished second with a time of 14:43.6, 11 seconds behind the state's best, Winter Park's Brian Jaeger. Tampa Leto edged Largo, 103-106 for the state team title. Lyman's boys finished ninth with 228 points.

In the A-3A meet, Trinity Prep's girls finished 10th while the Saints' boys team did not finish in the top 10. The Lady Saints should be strong again next year as its two top runners, Adrienne Pollitowicz (ninth grade) and Katie Sams (eighth grade) will return.

Jacksonville Episcopal cruised to the state crown with 81 points while Daytona Beach Father Lopez was a close second with 89 points. Trinity Prep wound up with 285 points. — CHRIS FISTER

Cowboys Survive Tampa Bay Rally

IRVING, Texas (UPI) — Since he had played his share of football, he felt he knew the real thing when he saw it.

So Roger Staubach, sitting in a broadcasting booth at Texas Stadium Sunday, did not hesitate to share his opinion with those who had tuned in. "They started off with some intensity," said the former Dallas Cowboys quarterback. "But the play is not of NFL caliber."

The problem with Tampa Bay, however, was that it needed to play a little better than it did Sunday, even though the Buccaneers performed at a more efficient level than did the Dallas Cowboys.

Playing before more empty seats than they have seen at home in seven years, the Cowboys somehow survived against Tampa Bay Sunday, 14-9, thus resuming the strike-interrupted season on a winning, if unimpressive, note.

Dallas is now 2-1 in the nine-game season and Tampa Bay has yet to pick up a victory.

The Bucs outgained Dallas, 382 yards to 185, suffered only one turnover and controlled the ball for almost 36 minutes to just over 24 minutes for the Cowboys. But even though Tampa Bay quar-

terback Doug Williams completed 23-of-42 passes for 258 yards, he could not push it into the end zone.

The Bucs had to settle for field goals of 26, 27 and 26 yards by Bill Capece, who also missed a 24-yard attempt in the fourth quarter that would have moved his team within another three-pointer of victory.

Dallas, meanwhile, had just two reasonable opportunities to score and did so both times — on a 9-yard pass from Danny White to Drew Pearson late in the first half and on a 3-yard run by player representative Robert Newhouse with 3:57 remaining in the third period.

Newhouse's touchdown turned out to be the game winner, although the Bucs threatened time after time to pull the game out.

Tampa Bay took over for the last time at its own 43 with 1:15 to play and Williams threw 10 straight passes. One of them was caught by flanker Kevin House just out of the end zone and the last one was grabbed by tight end Jimmie Giles at the 10-yard line. But Giles fumbled as he was falling to the turf and Dallas safety Michael Downs scooped up the ball at the 1-yard line to preserve the victory.

GREAT SCOTT Chuck Scott, Vanderbilt University wide receiver, was one of the key reasons the Commodores have turned it around this year with a 7-3 record and a berth in the Hall of Fame Bowl against the Air Force Academy at Birmingham, Ala. Scott, a sophomore starter, played for the Lake Howell Silver Hawks' district championship team two years ago.

Fans Stay Away As NFL Returns

United Press International
National Football League players came back to the playing fields Sunday. The same was not true for NFL fans.

After settling a strike that wiped out eight weeks of play, players returned to action Sunday to continue the abbreviated NFL season and were greeted by less-than-enthusiastic audiences. It appeared that many fans were soured by the players' walkout and decided to show their displeasure by not appearing at games.

The most notable cases were in New Orleans, Cleveland and Buffalo but even football-crazed Dallas was caught up in strike apathy. There were 31,989 empty seats in the 71,330-seat Superdome in New Orleans, where only 39,341 fans showed up. Cleveland's Municipal Stadium, which holds 80,322, had 29,041 empty seats and Rich Stadium in Buffalo, which holds 80,020, had 24,814 empties.

A string of 44 consecutive sellouts at Texas Stadium was broken on the NFL's reopening Sunday following the strike and there were 15,523 empty seats on an almost balmy afternoon.

Play was expected to be sloppy on the first day back since most clubs had only two or three days to prepare themselves after settlement of the strike on Tuesday. But the play generally was better than expected, considering the long layoff, with notable examples such as Joe Montana of Washington, Terry Bradshaw of Pittsburgh, William Andrews of Atlanta and Freeman McNeil of the New York Jets.

Montana threw for a career-high 408 yards and had three second-half touchdown passes to lead the NFL champion San Francisco 49ers to their first victory of the season, 31-20 over the Cardinals. Montana hit Russ Francis with a 6-yard TD pass midway through the third period to wipe out a 13-10 St. Louis lead, then added a 33-yarder to Dwight Clark and a 17-yarder to Earl Cooper in the last period to break open the game. He hit 26-of-39 passes.

Theismann threw two first-half TD passes to lead unbeaten Washington to a 27-17 victory over the winless New York Giants. He was 16-of-24 for 185 yards for a 67 per cent completion mark through three games.

Pro Football

Bradshaw threw TD passes of 17 yards to Greg Hawthorne, 17 yards to Bennie Cunningham and 27 yards to Jim Smith to power unbeaten Pittsburgh to a 24-10 victory over Houston. Overall, Bradshaw hit 16-of-40 passes for 228 yards.

McNeil ran 34 yards for one TD and caught a 32-yard scoring pass from Richard Todd for another as the Jets scored on all five of their possessions in routing Baltimore 27-0.

McNeil, who rushed for 123 yards on 22 carries to become the first Jet ever to have three straight 100-yard rushing games, also scored in the third period when he took a pass from Todd and raced 32 yards for a TD.

Andrews had 119 yards rushing — including a 19-yard TD burst — and caught seven passes for 88 yards to lead Atlanta to a 34-17 victory over the Los Angeles Rams.

In other games, it was Cincinnati 18 Philadelphia 14; Chicago 20 Detroit 17; New Orleans 27 Kansas City 17; Miami 9 Buffalo 7; Green Bay 26 Minnesota 7; Cleveland 10 New England 7; Dallas 14 Tampa Bay 9; and Seattle 17 Denver 10. San Diego is at the Los Angeles Raiders tonight.

Theismann played like he never missed eight weeks of work.

"I'd have to say this is the best groove I've been in during my NFL career," he said after hitting 16-of-24 passes for 185 yards. "It's always nice to be 3-0 when you play a nine game schedule. In a regular 16-game season, a 3-0 start doesn't mean so much."

Bradshaw, however, said the rust was evident at times.

"At times, I really felt comfortable, and at other times, I felt a little bit confused," he explained. "The Oilers are always tough for us, so anytime we can win here, we have to be tickled."

Montana was happy with his performance and the 49ers' first victory.

"It's a good way to come back," said Montana, who hit 26-of-39 passes. "My timing wasn't there early and I made a lot of mistakes. I thought we played well but I wasn't surprised. We looked like we were in good shape in practice."

Gators, FSU Gain Bowls

United Press International
Florida won its way into the Blue Bonnet Bowl, Florida State lost its way into the Gator Bowl and Miami spent Sunday sitting and waiting.

Florida (7-3) jumped on Tulane 30-17 at the Superdome Saturday night and then accepted the Blue Bonnet invitation to face Arkansas. That door was open for the Gators by the Air Force, which upset Notre Dame, 30-17, to knock the Irish out of the bowl picture.

Florida State (8-2) had its eye on the Orange Bowl but LSU took the bid away from the Seminoles with a 55-21 rout. The consolation prize turned out to be the Gator Bowl bid to face West Virginia.

Miami and its two freshmen quarterbacks, Mark Vanderwende and Winnie Testaverde, took it to North Carolina State, 41-3, but the hoped-for bowl invitation didn't come Saturday.

College Football

Hurricane Coach Howard Schnellenberger said Sunday, "I'm disappointed that the (bowl) committees did not extend an invitation to us, but sometimes that's the way the ball bounces. Now we go into earnest preparation for the Cincinnati's game this Saturday."

At New Orleans, the Gators were never able to put the Green Wave away as expected, but the victory and bowl invitation ended the day on a satisfying note.

Florida A&M and Bethune-Cookman finished their seasons in their annual game Saturday and FAMU prevailed, 29-14. Florida A&M wound up at 6-5 and Bethune-Cookman closed with a 5-5 mark.

Virginia Tops Poll

NEW YORK (UPI) — The University of Virginia begins its tour this season offering a last look at one of college basketball's show-stopping acts.

With the Ralph Sampson stage spectacular entering its fourth year, the Cavaliers enter the 1982-83 season as the No. 1 team in the country. "It's nice and, again, it's flattering being No. 1 in the preseason," says

Virginia coach Terry Holland

"But it means you haven't earned it at all." Virginia received 23 first-place votes and 572 points over the weekend from the UPI Board of Coaches.

Defending NCAA champion North Carolina, with eight first-place votes and 562 points, was second followed by No. 3 Georgetown (seven first-place votes and 479 points), No. 4 Kentucky (one first-place vote and 397 points) and No. 5 Louisville (376 points).

SPORTS IN BRIEF

Acre Impressive At State, Howell Girls Finish 8th

Karen Acre recorded two third-place finishes to lead the Lady Silver Hawks of Lake Howell to eighth place at the 4A State Swimming Championships Saturday in Gainesville.

Lake Howell finished the meet with 58 points, Winter Park's girls won with 140 points.

Acre posted a 1:34.29 for third place in the 200 free and she finished third in the 500 free with a time of 5:03.5.

Winter Park also claimed the boys championship with 240 points. Lyman's boys finished 13th with 27 points.

In the class A 2A and 3A state meet at the Sharidan Aquatic Club in Longwood, the Trinity Prep boys finished seventh with 54 points. Jacksonville Bolles won the meet with 147 points.

Oviedo's Andy Gill finished second in the 100 backstroke with a time of 52.70 while Trinity's Roger Brill was third in the diving competition with 397.10 points.

Sonics' Streak Ended By Nets

United Press International
The 1948-49 Washington Capitols, whose roster included the likes of Clarence Hermesen and Sidney Hertzberg, can rest easy.

The Seattle SuperSonics have lost a game. Looking to set the record for most victories at the start of the season, the SuperSonics ran into an unexpected roadblock Sunday night. The New Jersey Nets, behind 23 points by Buck Williams, rolled to a 111-91 victory to stop the Sonics' winning streak at 12.

The Capitols, of the infant days of the NBA, won their first 15 games. The 1967-68 Boston Celtics started the year 14-0.

How bad was Seattle, usually untouchable at home? "We didn't play well, we didn't shoot the ball well, we didn't play loose," said Seattle coach Lenny Wilkens. "It's hard to figure why everyone goes cold."

In other games, Milwaukee defeated Indiana 109-98, Portland blitzed Cleveland 129-79 and Los Angeles beat Denver 143-128.

Stastny Brothers Too Much

United Press International
Wayne Gretzky, who ought to know about scoring, has a theory about the success of the skating Stastny brothers.

"They all play the exact same style. You can change their sweaters around and not know the difference. Every one of them knows what the other will do because that's what they would do in the same situation," Gretzky said Sunday night.

Gretzky had ample opportunity to analyze the Stastny's motion during the Quebec Nordiques' 9-7 shootout victory over his Oilers at Edmonton, Alberta. Peter and Marian Stastny scored (two goals each and along with brother Anton combined for 11 points and five goals.

Porter Tires Out, Rogers Wins 200

NEW SMYRNA BEACH — After speedy officials found that the tires on apparent first place finisher LeRoy Porter's car were illegal, David Rogers was declared the winner of the 50 lap "Cracker 200 Tune-Up late model race on Saturday night at New Smyrna Speedway.

Rogers, along with Butch Landle, Junior Hanley, Gary Balough, Jim Tuning, Jim Cope, Rick Wilson and Duane Pierson will be among the favorites to win this Sunday afternoon's Fifth Annual "Florida Cracker 200" Late Model Championship here on the high-banked half-mile of pavement.

Following Rogers were Don Biederman, Duane Pierson, Chris Dellarco and Danny Bowman.

Just like he did the previous week, Joe Coupas drove the Terry Taylor Ford thunder car to victory ahead of fastest qualifier Bruce Lawrence, with Chuck Burkhalter, Barry Ownby and quickly improving young pilot Mike Fitch rounding out the top five. Heat winners were Coupas and newcomer Tony Alliere from the Tampa Bay area.

Steve Lokey won the street stock finale, with Orle Smith, the 1982 track champion, taking the runner-up spot ahead of Rick Clouser, Johnny Grainger and second heat winner Doug Howard.

Top five four-cylinder finishers were W. G. Watts, Gene Van Alstine, Stan Eads, Eddie Tovot and Ralph Zelich.

Top Eliminator (One on One) — Dale Clouser, Melbourne. Feature (5 laps) — 1. Clouser.

Richmond Wins Western 500; Waltrip Takes Winston Cup

RIVERSIDE, Calif. (UPI) — Tim Richmond won the season-ending Winston Western 500 on the NASCAR circuit Sunday while Darrel Waltrip finished third to defend his Winston Cup championship at Riverside International Raceway.

Waltrip entered the final stop on the 30-race circuit just 22 points ahead of Bobby Allison, who could have won the championship with a strong showing and a poor showing by Waltrip.

But Allison was hampered by car trouble throughout the 118-lap race and was forced to drop out six laps short of the checkered flag.

Richmond of Doolie, N.C., averaged 99.823 mph in his Buick to finish 7.85 second ahead of Ricky Rudd of Chesapeake, Va. The former sprint car driver and 1980 Indianapolis 500 Rookie of the Year earned \$24,730 for his victory.

Allison, 44, of Hueytown, Ala., had his best chance to win the NASCAR title he has sought for almost two decades.

In And Around Winter Springs

Kiefers Win 'Yard' Award

The Tuscawilla Pioneer Garden Club's Yard of the Month Award for November was presented to Joseph and Lois Kiefer, 1107 Cheetah Trail. The Kiefers did their own landscaping and cleared off everything except for the palm trees.

This was the last judging until next April.

There's no need to be lonely on Thanksgiving for residents at Hacienda Village. The residents will have a Thanksgiving dinner at the clubhouse. Several merchants have donated gifts for door prizes.

Brownie Troop 907 had a display at Coral Gables Bank in honor of Juliet Lowe's birthday. Juliet was the founder of the Girl Scouts.

On Tuesday night at 7:30 the Brownies will be putting on a skit for family, friends, or anyone interested in attending, at the Winter Springs Elementary School. The skit is entitled "Gus the Ghost and Thanksgiving." Brownie leader, Meta Porter, found this poem in a craft book and has adapted it into play form for the children to present.

All the units in the Merigold Unit will participate in the "Helping Hands Day for the Salvation Army." The girls will be given shopping bags to distribute to family and friends and will collect used reusable items to put in them. On Dec. 4 the girls will deliver the items to a Salvation Army designation point. Each girl participating will receive a badge.

South Seminole Middle School had a fantastic turnout for open house during Education Week.

The chorus and band participated in the Winter Springs Parade, with the chorus riding on a float.

The eighth graders took their big field trip of the year by going to St. Augustine on Nov. 18.

Red Bug Elementary could use more volunteers to work with the children on the computers from 11-12:30 daily. They also could use a substitute for the program. Also needed are people interested in being Dividend Scientists. Mrs. Bettie Palmer, Consultant-Coordinator for Science Programs in Seminole County Schools will be going to Red Bug to explain the program. The volunteers will be trained to do simple experiments in the classrooms.

Anyone interested may call Evelyn Adair, Dividends Chairman, at 699-1047. You don't have to be a parent to volunteer.

Dee Gatrell
Winter Springs
Correspondent

What a fun day at Winter Springs Elementary School last Friday. The children and teachers dressed like their favorite book character to celebrate children's book week.

The next PTO meeting will be Dec. 14 at 7 p.m. in the commons.

Mrs. Marianne Pauley's gifted class from Tuskawilla Middle School took a field trip to the Radio Shack today.

There is some good and bad news from Sterling Park Elementary. The good news is that principal Marion T. Giannini has been accepted for the position of Director of Elementary Education for Seminole County which she'll begin on Dec. 20. The bad news is that the students and staff will miss Mrs. G., as she is affectionately known.

Birthday wishes go to Jeff Puryear who will be 18 on Nov. 24, and Daryl Fetterhoff, who turned 19 on Nov. 17.

Daryl has been so excited at turning 19 that he has been planning his birthday party for months. He lives "out in the country" so he invited everyone to spend the night if they wanted to.

Mr. and Mrs. Fetterhoff had wall to wall kids everywhere (Daryl invited approximately 25).

A "Happy Birthday" wish also goes to my father-in-law, Dick Gatrell, who turned 60 on Nov. 24, and who, along with his wife is visiting with us from Cape Coral for the Thanksgiving holidays.

My husband, Larry, and children, Diana and Doug, recently visited our ex-neighbors, Joyce, Bear and Cub Baila in Miami. The Bailsas took us to the Florida Renaissance Fayre at Crandon Gardens in Key Biscayne. If you've never been to one and can get to Miami by Nov. 30, it is well worth attending.

All the participants are donned in the attire of the day, and they all speak the King's English.

LEADERSHIP BREAKFAST

The Lake Mary Woman's Club held a Leadership Breakfast Thursday morning at Buck's Restaurant, Sanford. Vivian Buck, center, conducted a leadership seminar assisted by DeLores Lash, club vice president, left, and Kathleen Beale, president.

Herald Photo by Tom Vincent

'False' Language Barrier Halts Unwanted Attention

DEAR ABBY: When I was a student nurse in Chicago, I used an effective method of dealing with unwanted attention, whether it came from an obscene phone call, men trying to pick me up in the Loop or panhandlers who hung around the train station. I pretended I couldn't understand English!

Dear Abby

No matter what was said to me, I rattled off two sentences I had learned in my high school German class. The ones I used were, "Let us go to the library" and "I would go with you but I don't have my notebooks."

I kept repeating these sentences in a perfect German accent as though I really knew what I was talking about, and I was left alone immediately. This worked with telephone solicitors, people trying to sell me siding, roofing, magazine subscriptions, etc.

The only difficult part was keeping my face straight while delivering this spiel in German. (I heard some unusual comments from people as they hung up or walked away.)

Any high school student who is currently learning a foreign language could teach you a sentence or two for this purpose. So many people speak Spanish today, I think it might be wise to pick some other language. Auf Wiedersehen!

SHERRY IN WATSEKA, ILL.

DEAR SHERRY: Bitte spreche kein Deutsch in Milwaukee (or parts of Pennsylvania) or your little kуст will be kaput!

(Translation: Please don't speak German in Milwaukee — or parts of Pennsylvania — or your little trick will be finished!)

DEAR ABBY: Over a year ago I met a retired gentleman (I'll call him George). He is 75, I am 71 and have been a widow for three years. George was married a very short

time when his wife died. He's been living with his sister ever since. He is handsome, refined, charming and well-educated. (Would you think me terrible if I told you that he is also a wonderful lover?)

George has told me that he has known a lot of women but he has never wanted to marry again — until he met me. The feeling is mutual, but we have been getting a lot of resistance from our families.

His sister tells me (behind his back) that George is too set in his ways to marry now. And my children warn me that although George is in good health now, if he should get sick I will spend the rest of my life being a nurse for an "old man."

I think I've made up my mind to marry him, Abby. All

I need is a nod from you.

YOUNG AT HEART
DEAR YOUNG: I'm nodding. (Now, please don't say, "Thanks for nodding.") Good luck and God bless you both.

DEAR ABBY: Will you please say something in your column about letter-writing? Some people seem to think that they cannot send a letter to a friend or relative unless it is long, so they put off writing until they have time to write 10 or 12 pages.

I don't know about others, but to me, a short letter now is a lot more appreciated than a long letter later.

DEAR DOTTY: I agree. Most long letters are so long the recipients put off reading them until they have more time.

Ancient Scandinavian Tradition Is To Offer Christmas Goodies To All

Scandinavians share their good things from the kitchen in a unique way: with a Christmas tree-shaped lattice decorated with cookies, apples and a small sheaf of wheat at the top.

Once friends and family have eaten the goodies, the tree is put outside so birds can feast on the wheat.

The ancient Scandinavian custom is offering something good to eat to everyone, friend or stranger, who comes to your door during the Christmas season.

Enjoy baking, serving and eating the following treats from Scandinavia.

PEPPARKAKOR

- (Swedish Gingersnaps)
 1 cup sugar
 1/2 cup shortening
 1/2 cup (1 stick) butter or margarine
 2 eggs
 1/2 cup molasses
 3 1/2 cups sifted plain flour
 2 teaspoons soda
 1 1/2 teaspoons ginger
 1/2 teaspoon cloves
 1/2 teaspoon cinnamon
 1/4 teaspoon nutmeg
 1/4 teaspoon salt

Ornamental icing, candied fruit and colored sugar for decoration

Mix together sugar, shortening, butter, eggs and molasses. Sift together dry ingredients and stir into sugar mixture. Cover and chill several hours or overnight. Heat oven to 375 degrees. On lightly floured board or pastry cloth, roll out a small amount of dough about 1/4-inch thick. (Keep remaining dough refrigerated.) Cut with floured cookie cutters. Place on ungreased baking sheet. Bake 6 to 8 minutes. Cool and decorate, if desired. Makes 8-9 dozen cookies.

For use on Christmas Tree:

Choose baked cookies to be used on tree and place on cookie sheet. Reduce oven temperature to 225 degrees. Return cookies to oven and allow to dry for 1 hour. Use a straw to make a hole in the top of each cookie. Cool; decorate as desired. Thread ribbon or twine through hole.

NORWEGIAN BUTTER WREATHS

These rich, buttery cookies are brushed with egg white before baking. This makes the colored sugar cling to the dough and a shiny glaze on the baked cookies.

- 1 cup (2 sticks) butter or margarine
 1/2 cup sugar
 1 egg, separated
 1/2 teaspoon vanilla
 2 1/2 cups sifted plain flour
 red sugar

Cream butter; gradually add sugar. Beat until light and fluffy. Beat in egg yolk and vanilla. Stir in flour.

Heat oven to 350 degrees. Pinch off walnut-sized pieces of dough. On lightly floured board or cloth, roll dough with hands into a 6-inch rope. Form in a circle on ungreased baking sheet overlapping about 1 inch from ends. Lightly beat egg white and brush over cookies. Sprinkle with red sugar. Bake 10 to 12 minutes. Makes about 3 dozen cookies.

Christmas cut-out cookies

The Norwegian Butter Wreath dough also makes delicious, crisp cut-out cookies. Make dough as directed above, except add the whole egg to the dough. On a lightly floured board or pastry cloth roll dough about 1/4-inch thick. Cut with floured cutters and place on ungreased baking sheet. Bake at 350 degrees for 10 to 12 minutes. Remove to wire rack to cool. Decorate as desired.

SOUR CREAM POUND CAKE

Butter and sour cream give this pound cake a rich flavor and moist texture.

- 1 cup (2 sticks) butter
 3 cups sugar
 6 eggs
 2 teaspoons vanilla
 1/2 teaspoon almond extract
 3 cups plain flour
 1/4 teaspoon salt
 1/4 teaspoon soda
 1 cup (8 ounces) dairy sour cream

Heat oven to 325 degrees. Grease and flour a 10-inch tube pan or 12-cup Bundt pan. In large mixer bowl, cream butter. Gradually add sugar; beat until light and fluffy. Add eggs, one at a time, and flavorings. Sift together flour, salt and soda. Add to creamed mixture alternately with sour cream. Pour batter into prepared pan and bake for 1 hour 15 minutes or until a wooden pick inserted in cake comes out clean. Cool about 15

minutes in pan.
ORNAMENTAL ICING FOR COOKIES
 1/2 cup shortening
 1 teaspoon vanilla

4 tablespoons hot tap water
 1 box (1 pound) unsifted confectioners' sugar
 food coloring, if desired
 Blend shortening and

vanilla with electric mixer
 Beat in 2 tablespoons hot water, then gradually add sugar. Add 2 tablespoons more hot water and beat until

smooth. For tinted icing, stir in a few drops of food coloring.
CRANBERRY COFFEECAKE

A moist sour cream coffee cake, topped with pools of cranberry sauce. Bake ahead and freeze for a special holiday brunch.

1 cup (2 sticks) butter or margarine
 1 cup sugar
 2 eggs
 1/2 teaspoon almond extract

2 cups sifted self-rising flour
 1 cup (8 ounces) dairy sour cream

Standby Meatloaf All Gussied Up

This French main course may require special shopping, but it's time to pamper yourself and your family. Pate Villageois, otherwise known as that reliable standby, meatloaf, has some interesting ingredients.

PATE VILLAGEOIS
1 can (2 pounds, 2 1/2 ounces) Strasbourg liver pate
2 pounds ground round, ground 3 to 4 times
1 1/2 cups French biscotte crumbs (biscuit)

2 teaspoons herbes de Provence
1 small onion, grated
1/2 pound sliced bacon
1 clove garlic, mashed
1/2 cup French Beaujolais wine
2 eggs, well beaten
2 teaspoons salt
1/2 teaspoon ground black pepper

Evening Herald-Sanford, Fl. Monday, Nov. 22, 1982

Combine all ingredients in a large bowl except bacon. Mix well and pack tightly into a well greased 1 1/2 quart mold. Place mold on a shallow baking pan to catch drippings. This mixture can also be shaped into a loaf on a foil-lined shallow baking pan. Place bacon slices over top of loaf. Bake in preheated 350-degree oven for 1 1/2 hours. Drain off excess fat. Serve hot or cold, cut into slices.

PRICES EFFECTIVE THRU WED., NOVEMBER 24, 1982.

Cont'd From Page 2B

1 can (8 ounces) whole berry cranberry sauce
1/2 cup chopped almonds
Confectioners' Glaze below
Heat oven to 350 degrees. Grease a 13 x 9 x 2-inch sheet cake pan. In large mixer bowl, cream butter. Gradually add sugar, beat until light and fluffy. Add eggs, one at a time, beating well after each addition. Mix in almond extract. Stir in flour alternately with sour cream. Pour batter into prepared pan. Spoon cranberry sauce evenly over batter; spread slightly, but do not try to cover batter. Sprinkle with almonds. Bake 35 to 40 minutes or until cake pulls slightly away from sides of pan. Drizzle with Glaze. Serve warm. NOTE: If using white plain flour, sift 2 teaspoons baking powder and 1/2 teaspoon salt with flour.
Confectioners' Glaze:
1 cup confectioners' sugar
2 tablespoons milk
1/2 teaspoon vanilla
Combine all ingredients and stir until smooth.

DANISH RASPBERRY BARS

A traditional Scandinavian favorite, these crisp but cookies are layered with raspberry jam.
1 1/2 cups sifted plain flour
1/2 teaspoon baking powder
1/2 cups quick cooking oats
1/2 cup granulated sugar
1/2 cup firmly packed brown sugar
3/4 cup butter or margarine, melted
3/4 cup red raspberry preserves
1/4 cup chopped almonds
Confectioners' sugar

Heat oven to 375 degrees. In mixing bowl, combine flour, baking powder, oats and sugars. Add melted butter and stir to blend. Press about two-thirds of oat mixture into the bottom of an ungreased 9-inch square cake pan. Spread evenly with preserves. Add almonds to remaining oat mixture and sprinkle over preserves. Pat down lightly.

Bake 30 to 35 minutes or until golden brown. Sift confectioners' sugar over top. Cool and cut into bars.

Chicken For All Seasons

CHICKEN BREASTS HOLLANDAISE

2 whole broiler-fryer chicken breasts, halved, boned and skinned
1/2 cup wheat germ
2 tablespoons butter
1/2 lemon, juiced
1/2 teaspoon salt
1/4 teaspoon white pepper
1 small bunch seedless grapes
Hollandaise Sauce: recipe follows
2 tablespoons minced parsley

On hard surface with meat mallet or similar flattening utensil, pound chicken to 1/4 inch thickness. In shallow bowl, place wheat germ; add chicken, one piece at a time, dredging to coat. In large frypan, place butter and melt over medium heat. Add chicken; saute over medium high heat 4 minutes or until brown on all sides. Reduce heat; add lemon juice, salt and white pepper. Cover and cook 20 minutes. Cut grapes in half; add to chicken and cook 10 minutes or until grapes are soft. Serve chicken with pan juices and Hollandaise Sauce. Garnish with grapes and parsley. Makes 4 servings.

Hollandaise Sauce: In saucepan, place 3 egg yolks. Add juice of 1/2 lemon and 2 drops of hot pepper sauce. Beat well with wire whisk. Place saucepan over very low heat for about 2 minutes, beating constantly. Remove saucepan from heat and beat in 1 stick of butter, which has been cut in 1/2-inch slices. Return sauce to heat for 30 seconds before serving, if necessary.

HOROSCOPE

By BERNICE BEDE OSOL

For Tuesday, November 23, 1982

YOUR BIRTHDAY November 23, 1982
You're likely to be more successful this coming year with ventures or projects already well under way than you will be in starting up something new. Be a finisher.

SCORPIO (Oct. 24-Nov. 22) This could be one of those days when you'll attempt to do too many things, and be unable to complete any one satisfactorily. New predictions for the year following your birthday are now ready. Send \$1 to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date. Send an additional \$2 for the NEW Astro-Graph Matchmaker wheel and booklet. Reveals romantic combinations and compatibilities for all signs.

SAGITTARIUS (Nov. 23-Dec. 21) Prejudging situations could cause you problems today. They may be the opposite of what you expect. Be ready to make on-the-spot adjustments.

CAPRICORN (Dec. 22-Jan. 19) Keep a tight rein on your finances today, or your spending could get out of hand. If you're doing things with friends, let everybody share the cost.

AQUARIUS (Jan. 20-Feb. 19) You're capable of worthwhile accomplishments today, provided you don't take on more than you can handle. Be very selective about your goals.

PISCES (Feb. 20-March 20) You could have a few more responsibilities than usual today. Make more of them than they really are and they may become overwhelming.

ARIES (March 21-April 19) Financial transactions with friends could lead to problems if not handled properly today. Be careful about making loans, or borrowing.

TAURUS (April 20-May 20) Unless those you deal with today feel they'll somehow benefit from what you hope to accomplish, you're not likely to gain their support.

GEMINI (May 21-June 20) To avoid mistakes with new tools or products today, read the directions carefully or have someone knowledgeable explain in detail how the should be used.

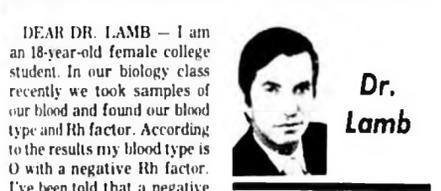

CANCER (June 21-July 22) You are basically enterprising and adventurous. These qualities often contribute to your success. However, today beware of taking foolish risks.

LEO (July 23-Aug. 22) Resolve minor squabbles with your mate as promptly as possible today. There's a chance additional disagreements could cause a serious chain reaction.

VIRGO (Aug. 23-Sept. 22) You're very observant today. It will be easy to spot flaws in others. However, keep what you see to yourself or they'll point out your shortcomings.

LIBRA (Sept. 23-Oct. 23) An inexpensive shopping excursion today could turn into an extravagant spree if you let your impulses dominate your purchases.

Negative Rh Factor Can Cause Problems

Dr. Lamb

DEAR DR. LAMB — I am an 18-year-old female college student. In our biology class recently we took samples of our blood and found our blood type and Rh factor. According to the results my blood type is O with a negative Rh factor. I've been told that a negative Rh factor could cause problems if I were to have children.

What type of problems could occur? Are there ways to avoid these problems? What bearing would the father's Rh factor have? I am concerned about any problems that could arise when I want to start a family.

DEAR READER — It is good that you know you are Rh negative. The fact that you are type O makes no difference.

As you probably know, being Rh negative means you contain no Rh factor. If you have a baby that is Rh positive the baby will have the Rh factor. As some of the Rh factor leaks through the placenta it will be received by your body as a foreign substance. Your body then forms antibodies to this foreign factor. This will not hurt you; it is a body defense mechanism.

But the antibody your body develops against the Rh factor can react with the baby's Rh factor. This will cause destruction of the baby's red blood cells and other problems.

This usually will not happen with the first pregnancy because your body will not be exposed to the Rh factor from the baby long enough to cause your body to form Rh factor antibody in large quantities. But with each succeeding pregnancy with an Rh positive baby your antibody titer will get higher and the risk of problems for the baby increases.

If the baby is Rh negative there will be no Rh factor to react with and nothing will happen. It follows that if your baby's father is Rh negative too there will be no Rh positive baby and no problems.

These points are included in The Health Letter 64, Blood Type, Rh Factor and Transfusions, which I am sending you. Others can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P. Box 1551, Radio City Station, New York, NY 10019.

DEAR DR. LAMB — I am now 28 years old. I served in the Army in Europe and the Orient. I found that European and Oriental women are more sexually responsive than most American women I've taken out. Is it true that Musk Oil perfume and other body powders and creams have hormones that arouse the female sex or is that a lot of baloney? My friends claim they work but with me they rate zero.

DEAR READER — Perhaps your sampling technique leaves something to be desired. You will find all levels of sex drive in both sexes in most societies. Such generalizations as you make seldom apply across the board; what counts is the individual.

Scents are important in sexual arousal. But what turns one person on turns another one off. A lot of sexual response is in the mind. The brain is one of the most important sexual organs we have. And speaking of that, your own attitude toward American women as opposed to Oriental or European may have a bearing on what happens.

WIN AT BRIDGE

the bidding. Count! How can I make my contract?"

Oswald: "In other words, you want to stress counting."

Jim: "Let's start with a Fred Karpis hand from a recent 'Popular Bridge' issue. Not that it is a new hand. It has appeared in one form or another in columns and books since the days of Edmond Hoyle."

Oswald: "West starts with king, ace and a small diamond. East ruffs and leads back a club to South's ace. South starts on trumps and is surprised when East shows out."

Jim: "The countdown has started. West has dealt six diamonds and three spades and has followed to one club. South draws West's trumps. Plays dummy's king of clubs and ruffs dummy's last club. He sees West continue to follow so that 12 of West's cards have been other than hearts."

Oswald: "This leaves West with just one heart. If any. If that heart is the queen or 10. South can make his contract. He leads the six of hearts to dummy. West produces the 10."

Jim: "The count has paid off. South takes the sure thing finesse against East's queen and is home."

STUDENTS

GET A

TASTE OF WAR

Woodland Elementary School in Longwood was the scene of a living history lesson last week as Vern Crofoot, a member of the Historic Florida Militia, displayed weapons and uniforms of the American Revolution. At left, Crofoot lets teacher Bill Young test fire a muzzle-loading musket. At right, he demonstrates the use of a bayonet in combat. As part of the program, students also were shown how 18th Century women made bread at home.

Gore: Gene Splicing Must Be Monitored

NASHVILLE, Tenn. (UPI) — Advances in genetic engineering, which one day could transform animals into subhuman slaves, are developing much faster than expected and Congress must monitor the field, says Rep. Albert Gore Jr., D-Tenn.

Gore, chairman of the subcommittee on investigations and oversight of the House Committee on Science and Technology, said he will propose legislation to give Congress such a

monitoring role.

"Our legal and ethical structures are unprepared for the questions that will be forced upon us by human genetic engineering," Gore said during the weekend.

"It is imperative that we monitor these new developments and accelerate the creation of a new body of ethics to guide us in making the decisions we will confront."

Gore's subcommittee heard testimony

last week on the application of genetic engineering on humans.

The lawmaker said the applications of genetic engineering are developing much faster than anyone predicted and Congress needs the machinery to keep abreast of developments.

A special presidential commission has reported that development of sub-human slaves by genetic transfer is a possibility and must be guarded against.

It's something to be shared ...

it's the newspaper habit!

HOW TO ERASE A GOOD PART OF YOUR FUTURE...

SHOPLIFT

Here it comes again... another shoplifting pitch. We know you've heard it before, but read on. Shoplifting is stealing. It is punishable by law and it labels you a criminal. It can wipe out your hopes for the future. It gets you a court record that can't be erased. Say goodbye to college plans or landing a job. Employers will think twice before they hire a thief. Is that wallet, necklace or lipstick you pocket worth the price you must pay in the end?

A Community Service Message From The Herald

Retired 70-Year-Old Feels Socially Secure

APOLLO BEACH (UPI) — Walter Sala has collected about \$26,000 in Social Security payments and now he plans to pay it back. With interest.

Sala, 70, has made the financially strapped Social Security system the beneficiary of a time deposit savings account worth \$34,000. Next week, he plans to go to his bank and make it an even \$40,000.

"Everybody tells me I'm crazy, but I'm just trying to satisfy myself," he said. "All I want is when they put me in the ground, I want them to say I was no leech. I was no deadbeat."

Sala said if more people were giving instead of taking, Social Security and the United States would be in much better shape.

"The way I see it," said Sala, who lives in a waterfront mobile home park, "I'm an American and that's like being born a billionaire."

Sala, who had a successful career in the concession business, went to the Social Security office in Tampa about a month ago to find out how much the system had given him.

It amounted to about \$26,000, but he told officials he would leave the agency \$40,000. The \$40,000 is not a gift, Sala said.

"I'm just going to give it back," he said. "I wish I had a trillion dollars or whatever it is Social Security is in the hole. I'd give every penny of it."

CITY OF CASSELBERRY PLANNING AND ZONING COMMISSION

NOTICE IS HEREBY GIVEN that the City of Casselberry Planning and Zoning Commission will hold a Public Hearing to review and make recommendations on the proposed enactment of Ordinance No. 475 entitled:

AN ORDINANCE OF THE CITY OF CASSELBERRY, FLORIDA, AMENDING SECTION 157.128 OF THE CITY CODE TO CORRECT A SCRIVENER'S ERROR CHANGING A REFERENCE FROM C1 TO C2; PROVIDING FOR CONFLICTS, SEVERABILITY, AND EFFECTIVE DATE.

Public Hearing will be held on Wednesday, December 8, 1982, at 7:30 P.M. in the Casselberry City Hall, 95 Lake Triplet Drive, Casselberry, Florida, or as soon thereafter as possible. At the hearing interested parties may appear and be heard with respect to the proposed ordinance. Copies of the proposed ordinance are available at the City Hall with the Clerk of the City and the same may be inspected by the public during normal business hours.

Dated this 18th day of November, A.D. 1982.
Mary W. Hawthorne, City Clerk

ADVICE TO THE PUBLIC: If a person decides to appeal a decision made with respect to any matter considered at the above hearing, he will need a verbatim record of all proceedings, including the testimony and evidence, which record is not provided by the City of Casselberry (Chapter 80.150, Laws of Florida, 1980).

ATTENTION VOTERS OF CITY OF LAKE MARY

THREE IMPORTANT ISSUES WILL APPEAR ON THE BALLOT IN THE CITY ELECTIONS OF DECEMBER 7, 1982. VOTERS WILL BE AFFORDED THE OPPORTUNITY TO ADOPT OR REJECT THE FOLLOWING PROPOSITIONS RELATING TO THE AMENDMENT OF THE CHARTER OF THE CITY OF LAKE MARY.

ORDINANCE NO. 157
Provides for a General Revision of the City Charter but does NOT change the terms of office of elected officials and does NOT change the general provisions for election of Council (Commission) Members.

This General Revision DOES provide for the following changes in the Charter:

1. Consolidates and abbreviates the legal description of the City's corporate limits — does not change the city limits.

2. Changes designation of Council and Council Member to Commissioner and Commissioners.

3. Changes number of votes required to override Mayor's veto from two thirds to four fifths.

4. Provides for removal of City Manager, City Treasurer, City Attorney and City Clerk by three fifths vote rather than four fifths vote and eliminates necessity for severance pay for City Manager.

5. Provides restrictions on power of City Manager to remove appointed Administrative Officers.

6. Transfers responsibility for preparation of City budget from City Manager to City Treasurer.

7. Renumbers and reorganizes various sections of the Charter.

8. In the event that multiple candidates shall qualify for election to a single office, that candidate receiving a plurality of votes cast shall be elected. There shall be no runoff election.

9. Make the appointment of the City Manager mandatory.

ORDINANCE NO. 158
Provides for the increase of length of terms of office for Mayor and Council (Commission) Members from two (2) to four (4) years.

ORDINANCE NO. 159
Provides for the election of four City Commissioners (Council Members) from four separate single member districts in which the candidate must reside; temporary districting procedures; procedures and guidelines for periodic redistricting on population basis and establishment of Redistricting Committee.

The foregoing description is an abbreviated statement of the major points involved in each of the three proposed Amendments. Copies of the full text of each proposed Amendment are available in the City Hall of Lake Mary, Florida. The registered voters of the City are invited to review said documents and to obtain a free copy thereof from the City Clerk during usual working hours of 8:00 a.m. to 4:30 p.m. Monday through Friday.

CONNIE MAJOR, CITY CLERK
Publish November 15, 22, 29, & December 6, 1982. DEB 45

Legal Notice

NOTICE OF PROPOSED AGENCY ACTION

The Department of Environmental Regulation gives notice of its intent to issue a permit to Brown Boveri Electric, Inc. for construction of a 256 ft x 2 evaporation pond. Proposed location 201 Hickman Drive, 14 Industrial Park, Sanford, Florida.

A person who is substantially affected by the Department's proposed permitting decision may request a hearing in accordance with Section 120.57, Florida Statutes, and Chapters 171 and 285, Florida Administrative Code.

The request for hearing must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32301, within fourteen (14) days of publication of this notice.

Failure to file a request for hearing within this time period shall constitute a waiver of any right such person may have to request a hearing under Section 120.57, Florida Statutes.

The application is available for public inspection during normal business hours, 8:00 A.M. to 5:00 P.M., Monday through Friday, except legal holidays, at the Department of Environmental Regulation, 51 Johns River District Office, 3319 Maguire Boulevard, Suite 332, Orlando, Florida 32803.

CITY OF CASSELBERRY PLANNING AND ZONING COMMISSION

NOTICE IS HEREBY GIVEN that the City of Casselberry Planning and Zoning Commission will hold a Public Hearing to review and make recommendations on the proposed enactment of Ordinance No. 476 entitled:

AN ORDINANCE OF THE CITY OF CASSELBERRY, FLORIDA, AMENDING SECTION 157.128 OF THE CITY CODE TO CORRECT A SCRIVENER'S ERROR CHANGING A REFERENCE FROM C1 TO C2; PROVIDING FOR CONFLICTS, SEVERABILITY, AND EFFECTIVE DATE.

Public Hearing will be held on Wednesday, December 8, 1982, at 7:30 P.M. in the Casselberry City Hall, 95 Lake Triplet Drive, Casselberry, Florida, or as soon thereafter as possible. At the hearing interested parties may appear and be heard with respect to the proposed ordinance. Copies of the proposed ordinance are available at the City Hall with the Clerk of the City and the same may be inspected by the public during normal business hours.

Dated this 18th day of November, A.D. 1982.
Mary W. Hawthorne, City Clerk

ADVICE TO THE PUBLIC: If a person decides to appeal a decision made with respect to any matter considered at the above hearing, he will need a verbatim record of all proceedings, including the testimony and evidence, which record is not provided by the City of Casselberry (Chapter 80.150, Laws of Florida, 1980).

SEMIMOLE COUNTY BOARD OF COUNTY COMMISSIONERS

NOTICE OF PUBLIC HEARING
DECEMBER 14, 1982 7:00 P.M.

The Board of County Commissioners of Seminole County, Florida, will hold a public hearing to consider the following:

1. SHOP & GO, INC. — BA110 18 821 38E — C3 Commercial Zone — Appeal against the Board of Adjustment in denying a Special Exception to permit gas pumps as an accessory use to convenience store on the following described property:

Begin at SE corner of Section A 21 30, run N 275 ft, thence W 450 ft, thence S 275 ft, thence E 450 ft to POB. Less R.W. for roads. Subject to easements or restrictions of record. Further described as located on the Northeast corner of Charlotte Street and County Road 427.

This public hearing will be held in Room 200 of the Seminole County Courthouse, Sanford, Florida, on December 14, 1982, at 7:00 P.M. or as soon thereafter as possible.

Written comments filed with the Land Management Manager will be considered. Persons appearing at the public hearing will be heard. Hearings may be continued from time to time as found necessary.

Further details available by calling 323-4130, Ext. 159.

Persons are advised that if they decide to appeal any decision made at this hearing, they will need a record of the proceedings, and, for such purpose, they may need to insure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based, per Section 286.0105, Florida Statutes.

Alachua Official Succeeds Neiswender

Seminole Selects New County Administrator

T. Duncan Rose, 36, has been named to succeed Roger Neiswender as Seminole County administrator. Commissioner Robert Sturm announced today.

Rose, who is now assistant county administrator in Alachua County, has agreed to assume the position effective Jan. 17 at a \$44,000 per year salary.

In addition to his responsibilities in Alachua County which have included both supervision of key operating departments as well as working closely with staff agencies to develop sophisticated computerized operations and management improvement systems, Rose formerly worked in the office of the city manager of Dallas, Texas, supervising the financial and management activities related to dealing with the extremely high growth experienced by that city.

Rose's educational background includes an undergraduate degree in economics and management from Grove City College in Pennsylvania, as well as a Master of Science in Planning from the University of Tennessee and Master of Arts in Public Administration from Ohio State University.

Commissioners approved Rose's appointment at today's meeting. They also appointed Assistant County Administrator Jim Easton as acting administrator until Rose takes over.

Easton also agreed to stay on as assistant under Rose. He was one of four finalists interviewed this weekend by commissioners.

Rose said today from his Alachua County office in Gainesville that he applied for the administrator job here because the "rumor among the professionals is that Seminole

County is a good county to work for and it has sharp county commissioners who work well as a team.

"I was looking for that kind of challenge," he said, adding that "Roger (Neiswender) has done an excellent job."

Rose said he plans to "lay low for the first six months" as Seminole County administrator.

"I plan to listen to folks and go around talking to employees about their problems and talk to each commissioner individually to work out an action agenda setting priorities for problems and opportunities," he said.

Rose praised Neiswender for the job he has done the past seven years and said Seminole County has an efficient reputation.

Sturm said the deciding factor was the "opportunity for

additional leadership abilities Mr. Rose can bring to the county in the next five years.

Sturm indicated county officials judged Rose was the most innovative of the four finalists.

Rose declined an offer two years ago from the Altamonte Springs City Commission to become that city's first city manager. Instead, he accepted the position in Alachua County. At that time, he said Gainesville's progressive, college-town atmosphere was more in line with his professional goals.

Today was Neiswender's last day on the job after 10 years of employment with Seminole County, the last seven as administrator.

Neiswender, who was paid about \$50,000 a year, has accepted a position with an Orlando consulting firm.

Officials Scratching, Scraping Every Cent

TALLAHASSEE (UPI) — State agency managers must reduce their spending by \$139 million to balance the budget, so they are trying to decide what — and in some cases, whom — to cut.

Many programs will be cut back or eliminated. Many vacant positions won't be filled. And some state employees will lose their jobs, with probably most of the layoffs coming in education and the Department of Health and Rehabilitative Services, which have the biggest budgets in state government and, therefore, are seeing the largest dollar reductions.

"Oh, it's tight," Pam Davis, an assistant secretary for the Department of Corrections, told the Tallahassee Democrat. "We've scratched and scraped for every little penny we can find."

Although the cutting is creating problems, the reductions are not as severe as once seemed likely.

Up to a 10 percent cut for HRS and other agencies appeared likely at one point. That would have meant the firing of as many as 3,000 people in Florida's social services agency.

Gov. Bob Graham and the Cabinet ordered a 2.5 percent across-the-board spending rollback last week as part of a plan to offset a projected \$300 million deficit in the \$10 billion state budget.

The recession has lasted longer than expected, causing state taxes to lag and not produce enough to fully fund the budget.

Agency managers have to report to Graham by the end of the week on how they plan to reduce spending.

IT'S BEGINNING TO LOOK...

You know it's time to prepare for Christmas when crews start to put Christmas decorations on street poles and elsewhere. This crew is working in downtown Sanford, despite the 80-

plus degrees. Bert Harry is being hoisted in the bucket to make adjustments on the colorful decorations.

Utilities Mystery Industry To Get Sanford Water, Sewer

By DONNA ESTES
Herald Staff Writer

A mystery industry is "working on something very nice" for the 10 acres of industrially zoned property adjacent to Rush-Hampton off Silver Lake at its intersection with Mellonville Avenue.

And the city of Sanford is doing its part by providing water and sewer service to the site in a cooperative agreement with Tom McDonald, representing the trust which owns the property.

At the same time, City Manager W.E. "Pete" Knowles is searching for a site in the same area for an overhead water storage tank to provide better service and to handle future growth.

With the city's water and sewer service expansion, city officials are boasting that the city charges its customers the lowest water and sewer rates in the county. That information was found in a study of 16 public and private utilities operating in the area.

McDonald declined today to name the single industry that is purchasing 10 acres of the trust's 251 acres in the Silver Lake area. He noted the industry is planning "something nice and clean with no smokestacks."

He said it will be providing jobs for the area, but couldn't estimate how many. "They intend to build a high quality building," McDonald said.

The Sanford City Commission Monday night approved a plan to extend water and sewer service to the McDonald property. Under the arrangement, it will cost \$11,334.09 for materials, \$2,787.40 for labor and \$1,380.60 for equipment.

The total cost of the project is \$15,502.09.

McDonald is to pay the \$11,334.09 in materials' cost with the city picking up the balance.

The utility service extensions will include installation of 6-inch sewer force mains and installation of 8 and 10-inch water lines.

Knowles is searching in the same general area for a site for an elevated water storage tank.

Noting the city is "prophesying future water pressure needs in the system," he said the city needs only a 100-foot-square piece of property for the storage tank.

The tank, when built, would be filled from the water main to maintain pressure, not just to have a quality of water in reserve, but also to help with fire flows.

Meanwhile, Knowles in a report to the City Commission said the city has the lowest water and sewer monthly costs in Central Florida.

Noting these statistics were compiled after a survey of neighboring utilities, Knowles based the costs on an average customer use of 10,500 gallons of water per month. A cost comparison of these 16 utilities for water and sewer service is as follows:

Greenwood Lakes, \$47.06 per month; Utilities, Inc., \$35.05; Southern States, \$30.48; Casselberry Utilities, \$30.44; Orange County, \$28.87; Seminole County, \$27.83; North Orlando Utilities, \$27.47; City of Winter Park, \$26.49; Seminole Utilities, \$25.38; Central Utilities, \$25.21; city of Altamonte Springs, \$24.62; city of Orlando, \$23.82; Sandalco, \$19.43; Deltona Utilities, \$19.18; city of Longwood, \$18.59; city of Sanford, \$16.98.

Of the 16 utilities, nine are publicly-owned and seven are privately owned, Knowles said. Of the 16, the three highest charges are by privately-owned, but the next five are publicly owned.

The difference between the high and the low rate is \$30.08 per month or \$360.96 annually.

Reorganization

Facilities-Parks Division May Be Split

By MICHAEL BEHA
Herald Staff Writer

Seminole County commissioners are studying a plan to separate the facilities, parks and recreation division into two divisions and add eight more positions.

The plan, submitted Monday by John Percy, director of public services and development, calls for the parks and recreation division and a facilities maintenance division.

The division has been troubled over the past few months with labor problems. Two workers were fired and several more resigned following an investigation into practices within the division.

Percy said the re-organization plus the addition of eight employees will allow the county to solve the problems that have plagued the division and meet maintenance needs at county parks.

Over the past three years, the number

of employees working in the division, which is responsible for the county's parks, buildings and recreation programs, has declined from 95 to 63. The number of full-time employees has increased by two but 34 Comprehensive Employment Training Act employees have been cut out of the division.

"Supervisors cut corners to make ends meet," Percy said. "Frankly, we think we made a mistake."

The plan devised by Percy, Personnel Director Lois Martin and Assistant County Administrator Jim Easton calls for elimination of the facilities and parks coordinator and facilities, parks and recreation manager positions. Two new positions — managers of the separate divisions — would be created. Three new positions would be created in parks and recreation and five new posts in facilities maintenance. Several other jobs would

get new titles to better reflect the type of work called for.

"I don't think the board lowered its expectations one bit after we lost a whole slew of CETA workers," County Administrator Roger Neiswender said.

Robert G. "Bud" Feather said he liked the reorganization but felt fewer jobs could be added.

Barbara Christensen was opposed to the addition of any new jobs. She complained that Percy's plan has "too many chiefs and no Indians."

Mrs. Christensen criticized the division, saying she often goes by county facilities and workers aren't doing their jobs.

Her comments angered Neiswender. "You've never once reported it to me. Vague aspersions are no help. The others

come and tell me when they see something."

Neiswender said feedback is necessary to let the employees know the commissioners are concerned about the quality of the work being performed.

Robert Sturm and Bill Kirchhoff said they favor a plan to make three divisions, separating parks and recreation.

Neiswender and Acting Facilities, Parks and Recreation Manager Leonard Carswell said such a separation would cause problems in staffing.

Various county crews now do work on a rotating basis at various parks and facilities. Under the three divisions, some of the duties would be duplicated, Carswell said.

Commissioners said they want more time to study the plan and directed Carswell to bring more information on use of county facilities and staffing.

SLAM DUNK

Seminole Community College's Delvin Everett slams home two points during a practice session.

The former Apopka High standout poured in 24 points Saturday to help the Raiders whip Miami-Dade North. Everett was lingering on the bench two weeks ago.

See Sports, page 5A for the strange circumstances for his move into the starting lineup.

Second Youth Hospitalized

Sanford Youth Dies After Wreck

By TENI YARBOROUGH
Herald Staff Writer

A 17-year-old Sanford youth is dead and another Sanford man is in critical but stable condition today at the Central Florida Regional Hospital in Sanford following a traffic accident Saturday near Paola.

Raymond E. Palmer Jr., 17, of 204 Ridge Road, died Monday night at Winter Park Memorial Hospital from injuries he received when he apparently lost control of his motorcycle along Lake Markham Road, near Paola at about 11:30 p.m. Saturday, officials said.

In addition, Palmer's passenger, Steven Davis, 18, of 2413

Marshall Ave., was listed in critical but stable condition at the Sanford hospital where he is being treated for injuries sustained in the crash, hospital officials said.

Florida Highway Patrol officers investigated the accident, which resulted in the 31st traffic-related fatality in Seminole County this year, but few details of the accident have been released. Troopers said the crash involved only Palmer's vehicle.

Palmer, the son of Mr. and Mrs. Raymond E. Palmer Sr. of Sanford, was a student at Seminole Community College and had six sisters and one brother, including a twin sister.
