New Teacher

Here is Raleigh Valentine Reese, who has been chosen to succeed John T. Scopes as a high school teacher at Daytona, Tenn. It is a safe bet that he is a Fundamental and won't mention monkeys during the coming school year.

WEST VIRGINIA
BOY IS SLAIN BY
GIRL'S FATHER

Tarpon Springs Man Shoots Boy in Hotel Where They Had Gone to Locate Girl To Prepare For Marriage

Self-Defense Given
As Reason For Deed

"I Took Him Into My Home And He Betrayed My Girl Yoder Says After Shooting

TAMPA, Aug. 22.—(AP)—Clarence Settle, 21, of Fayetteville, W. Va., was shot to death in a rooming house of Tampa last night by J. L. Yoder, Tarpon Springs, father of a girl with whom he had run away last Monday. Yoder fired five shots at Settle in a dark room. Three bullets took effect. The daughter, Sylvia Yoder, almost 18, two officers and W. T. Hamilton, grandfather of the girl, were witnesses. "I took him into my home and he betrayed my girl," Yoder said at the City Jail, where he was being held last night. "We offered him our hospitality and he ruined our lives."

Stands by Son

When his son was arrested as a slayer, Henry Adams of Wilmington, O., hurried to Sedalia, Mo., to be with the boy when he went to trial. The son, Everett Adams, has confessed killing A. R. Clawson, Lodi, N. Y., in a robbery after the latter had given the boy a ride.

COOLIDGE BACK

HIS SHORT TRIP

Wadsworth to Ask President For Support of Senators In The Coming Legislative Races; Several Need Help

May Converse With
Hilles on Army Fund

Policy of Administration Aid In Senators' Races Fixed; May Talk on World Court

SWAMPSCOTT, Mass., Aug. 22.—(AP)—President Coolidge is back at White Court where he will pick up the threads of government dropped for his visit with his father in Plymouth and his reunion with home town friends in Northampton. Important engagements made by his secretary, Everett Sanders, called him back to Swampscott before the week-end. Postmaster General New will be at White Court early in the morning to review office department affairs. Later the president will meet Senator Wadsworth, who will be followed by a New Jersey delegation headed by Senator Edge. The conference with Wadsworth is expected to pave the way for administration cooperation in the empire state senatorial campaign. Mr. Coolidge is closely interested. It has been anticipated throughout the summer, and particularly since the call of Charles D. Hilles, Republican national committee man of New York, that Wadsworth would visit the president. The president's desire to affirm his friendship with the president. The New York senator, with Mrs. Wadsworth, is visiting William Gordon Means at Beverly Farms, on the north shore. He said today he desires to pay his respects to Mr. Coolidge and will be prepared, if the president desires to take up the subject, to discuss army appropriations, with which he is concerned as chairman of the senate military affairs committee. Mr. Coolidge probably will devote more particular attention, however, to the world court, and Mr. Wadsworth, who supported the original Pepper compromise plan, is not rated as a likely antagonist to the president's desire to affirm his friendship with the president. President Coolidge's indirect assistance to Senator Butler (R., Mass.) in the contest the latter is warring to hold his seat from former Senator David L. Walsh, a Democrat, has been watched closely. It is known here, by the many other Republican senators who will be up for re-election next year. At least one of these has taken the view that the president can do nothing less than offer administrative support to all senators who are his friends. With excellent chances that this belief may become contagious, the president undoubtedly will be solicited to return to Washington with requests for assistance when the campaign gets under way. It is pointed out that Mr. Coolidge has served Senator Butler throughout the summer entirely by indirect methods. Senator Wadsworth's conference must afford some gauge on the degree of administrative cooperation the senators may expect, for it is generally accepted the president will exert his influence as freely as upon his Wadsworth. The latter must run merely as an administration candidate, which he can do by favoring the president with support on the World Court and other issues in the next session, or may obtain definite endorsement, and assistance by the president, remaining to be seen. It is recognized the 1926 congressional campaign will present unusual conditions for Mr. Coolidge to face as leader of the party, because of the more than a face the possibility of a high score, compared with the virtual certainty that the democrats can hold nearly all of their present ground.

Immense Power Plant
Costing \$2,000,000 To
Be Built Near Sanford

Building permits issued at the office of City Clerk L. R. Phillips thus far during August total \$122,942 and with the contract price for the initial work on the new county jail make the construction total for the first 21 days of this month \$288,942. It is believed that with a number of additional large permits which are contemplated by Sanford residents the building total for August may reach a record mark for the first seven months of 1925. Swelling the total for the first 21 days of August was the \$110,300 permit for the Melander Arcade, construction of which started this week as did work on the new county jail. A permit for buildings to the extent of \$6,000 has been issued to the Texas Oil Company which is beginning a number of improvements on its property and holdings in Sanford. A permit for the new Sanford Laundry is not yet shown on the city building record. This permit for the laundry is to the present time in August approximately \$300,000.

ITALY WILL SEEK
EASY TERMS FOR
PAYING ITS DEBT

Country's Poverty Given As An Excuse to Ask For Settlement Easier Than That Promised to the Belgians

ROME, Aug. 22.—(AP)—Belgium's debt settlement was a complete surprise to Italy and the official announcement of the United States that Italy and France must respect such lenient terms has met with general disapproval. The administration as well as the official press comments widely on the matter. As when Winston Churchill raised the new debt question in the house of commons, all political parties now voice agreement that Italy cannot pay and should not be expected to pay the full amount of her debts and that she must be granted a moratorium for a considerable period. Cities Italy's Poverty The Messenger, representing big industrial interests supporting the government, in a first page editorial compares Italy's condition with Belgium's. It argues Italy should have more favorable terms because she is poor in natural resources. Belgium is rich in coal and iron. Belgium's per capita wealth, it points out, is \$1,337, while Italy's is only \$568. Belgium is enriched by her colonies, it says, while Italy got none in the partition of German colonies. Belgium's industrial, are far ahead of Italy's. The official French regrets that France in her pre-occupation with the Rhine left slip a chance for European debtors to present united front to the United States and Britain. "It is sad to confess, but true," it says, "that Anglo-Saxon finance is bringing us one by one to our knees exploiting our reciprocal rivalry as well as every day adding its demands not only to economic but to the political field. England's attitude each time she notes how the United States gains its object by showing teeth. However, we still refuse to believe the situation desperate since we are aware of our own obligations and the necessities are limits to our concessions, especially since the United States has committed against us real acts of economic war, raising tariffs and closing immigration. England marching toward protection, pursues a similar policy. Nevertheless we do not wish to forego the sure failure of negotiations but merely desire to prepare public opinion not to take tragically this possibility."

Building In Sanford
May Set New Mark
For Present Month

Building permits issued at the office of City Clerk L. R. Phillips thus far during August total \$122,942 and with the contract price for the initial work on the new county jail make the construction total for the first 21 days of this month \$288,942. Florida Corporation
Announces Project
As Unit Which Will
Link State Plants

Site Is Located
In Volusia County

Concern Has Acquired
Florida Properties
Valued at 30 Million

The site for a \$2,000,000 super-power plant to be erected on Lake Monroe about 5 miles west of the city, according to information received here late Friday afternoon from officials of the Florida Power and Light Company. The announcement comes from Miami where officials of the power company are in conference with engineers who have recently completed a survey and preliminary testings for the location of the immense plant here. While it has been generally known for some time that such a plant was contemplated, it was not definitely known until yesterday that it was to be located near this city. Although he has not been authorized to give out the story, C. A. Byrd, local manager for the Southern Utilities Company, a subsidiary of the Florida Power and Light Company, stated today in answer to a query that the site which has been definitely chosen is located about a mile from the Monroe bridge, lying along the St. Johns river in Volusia county. According to Mr. Byrd, efforts were made to secure a site near this city and located on the south side of Lake Monroe but no suitable property was available. Later the engineers making the survey here were compelled to recommend the property in Volusia county, which is said to be about 23 feet above the river level and adapted in every respect to the needs of the project. When the local unit it completed, it will link virtually every producing plant in the state into one giant unit, it is declared. While the engineer's lowest estimate on the plant is \$2,000,000, those who are familiar with the plans, declare that by the time the unit is completed it will have cost upwards of \$3,000,000. The plant will be a unit in the Electric Bond and Shares National Power Project. The Florida Power and Light Company, a subsidiary of the Electric Bond and Share Company, owns or controls virtually every power and allied utility in the state, it is declared. Recently it purchased the Miami Electric Light and Power Company, the Miami Beach Railway Company, the Miami Gas Company, the Southern Utilities Company, the St. Johns Electric Company, the DeWitt Public Service Company, the Ormond Supply Company, the Lakeland Gas Company and the Oliver Ice Company. It is understood that negotiations are under way for the purchase or lease of the plants in Jacksonville, Tampa and St. Petersburg. According to word received here, the districts affected by the merger into one unit include those surrounding Miami, Miami Beach, Fort Lauderdale, Daytona, St. Augustine, Sanford, Okechobee, Stuart, Titusville, Palatka, Live Oak, Lakeland, Bradenton, Palmetto, Manatee, Arcadia, Fort Myers and several smaller places. Since its entrance into the Florida field, the Electric Bond and Share Company has acquired utility properties aggregating more than \$30,000,000, it is said.

LIGHTNING HITS
HOUSE, KILLING 3
GEORGIA PEOPLE

Sought Refuge From Storm When Bolt Strikes Place; Storms And Rain Cause Heavy Damage to Property

CAMILLA, Ga., Aug. 22.—(AP)—Three persons were killed near Sales City late Friday afternoon when a house in which they were seeking refuge from a storm was struck by lightning. The dead: Julian Gregory, 11; Mrs. Albert Pitts, 20, and Tony Webb, 10. They are all the children of Charles W. Webb, prominent citizen of Sales City. Rain and wind did serious damage to the crops. In Colquitt county a negro church and several farm buildings were blown down and trees uprooted by a severe wind and rain storm. No injuries were reported. During the storm the garage of Bert Bennett was destroyed by fire as a result of being struck by lightning. An automobile housed in the structure was destroyed. Heavy damage to crops was reported. Storm Lasts 2 Hours The storm which continued for nearly two hours, did considerable damage to crops in the southern section of the county, the loss of which has not yet been checked. As far as it has been learned the damage to property and crops was confined to this county. The children killed were on their way home and had just stepped into the house when it was struck. They were instantly killed. Fire followed destroying the home but the bodies were rescued before they were charred.

Clothes of Camera Man Are Found in Boat Off Miami; Had Been Trying to Get "Scoop" For Key West Call

KEY WEST, Aug. 22.—(AP)—Probably murdered at sea when he attempted to get exclusive pictures of rum runners activities for his paper, The Key West Morning Call, and his body thrown to the sharks, the sail boat Sea Hawk, picked up five miles from Miami, gave evidence of the tragic death of Frank Vasquez, staff photographer for the Call. Vasquez disappeared from here recently and at the same time the Sea Hawk, owned by E. H. Dutch, president of the Key West Publishing Company, missed also. Following a futile search, three theories were advanced by local officials; that he was drowned while bathing, was attacked by a shark or had committed suicide. The mystery was cleared up today when a tramp yacht picked up the Sea Hawk, five miles out in the Atlantic, and towed the smaller boat into Miami. The sails of the boat were set, and the debris partially identified as belonging to Vasquez, was found on the vessel. A camera and other photographic supplies also supported the murder theory. Miamians immediately got in touch with friends of Vasquez here in an effort to fully identify the clothing and camera. It was known that Vasquez was anxious to obtain a "scoop" on actual rum running activities at sea, and it is believed he took his picture camera and other photographic supplies on his fishing boat to go to the scene of liquor operations. The fact that he did not explain his purpose beforehand was explained by his eagerness to surprise other members of the staff with exclusive snap-shots.

Man Charged With
Poisoning Woman,
Asserts Innocence

MIAMI, Aug. 22.—(AP)—John Gabel, held in the county jail in connection with the death by poisoning of Mrs. H. B. Hunt, announced Friday his counsel would be R. B. Shallen, assisted by Norman Prauet and John H. Carr, local attorneys. Gabel is held as a result of a former's jury hearing which asked he be remanded without bail and bound over to the grand jury. Mrs. Gabel, their son, Stewart, and a brother-in-law, Don Riddle, of Cleveland, Ohio, are expected in Miami in the first of next week to stand trial in his defense. Gabel had little to say regarding the circumstances before the arrest and later death of Mrs. Hunt, and he denied any knowledge of her past life, stating that he knew her but ten days. He denies also that he expressed himself as quoted by sheriff's deputies as saying, "I'm sorry I did it, I'm sorry."

American Flyer Is
Injured In Morocco

CASA BLANCA, French Morocco, Aug. 22.—(AP)—The American flying squadron volunteering for service with the French against the Riffians suffered its first casualty yesterday when Lieutenant Colonel Charles W. Kerwood of Philadelphia fell during a training flight. He was painfully but not seriously injured.

Campaign Against Motor Oil Frauds
Is Opened By Better Business Bureau

WASHINGTON, Aug. 22.—(AP)—The first step in what they call a national campaign against "motor oil frauds" was taken here Friday by the Better Business Bureau's local office and the Vacuum Oil Company. They filed suit in the district supreme court against the Penn Oil Company, asking injunctions to stop the alleged foisting of inferior oils upon motorists. The Vacuum Oil Company charges that in nine service stations here oil sold to motorists as high grade and under the plain trade name proved to be an inferior grade, and in some cases was the old used drainings from crankcases. Evidence has been gathered over a period of months, the bureau said. An automobile with a dummy crankcase was used, and the oil vendors filled what they supposed to be the real crankcase. Chemists analyzed the oils thus purchased.

Two Reds Reported
Killed By Chinese

SHANGHAI, Aug. 22.—(AP)—Aroused to a pitch of ill feeling against the Bolsheviks a crowd of strikers armed with knives and sticks tonight attacked the headquarters of the Shanghai Labor Association in the Chinese section of the city. Several were wounded on both sides and it is reported that two Reds were killed.

Body of Bancroft Is
Due In America Today

SAN FRANCISCO, Aug. 22.—(AP)—Bearing the body of Edgar Bancroft, late American Ambassador to Japan, the cruiser Tama of the Imperial Japanese navy is due in San Francisco today. The United States destroyer will meet the boat and a salute by Fort will be fired as the harbor is entered. After military ceremonies the body will be transferred to the San Francisco Overland Limited in which it will be transported to Chicago for burial.

Seaboard Purchases
Florida Railroad

NEW YORK, Aug. 22.—(AP)—The Seaboard Air Line Railway Co., today closed a contract with the American Agricultural Chemical Company for the acquisition of the Charlotte Harbor and Northern Railroad under a three year lease with an option to purchase the line at the expiration of that time, and subject to the approval of the Interstate Commerce Commission. The Charlotte Harbor line has been used by the American Agricultural Chemical Company to connect its phosphate mines in Florida with its deep water terminal. The lease will be linked with the next construction by the Seaboard to form a short line from Jacksonville and other North Florida points to Fort Myers and contiguous territory.

Five Cases Are
In City Court

W. E. White in police court today fined costs and bonds totaling \$34. The John Smith, charged with driving an automobile while under the influence of intoxicating liquor, was continued until next day. George M. expert on handwriting, was called to identify the Emory letter, the writing on which was on page three.

Asserts Innocence

MIAMI, Aug. 22.—(AP)—John Gabel, held in the county jail in connection with the death by poisoning of Mrs. H. B. Hunt, announced Friday his counsel would be R. B. Shallen, assisted by Norman Prauet and John H. Carr, local attorneys. Gabel is held as a result of a former's jury hearing which asked he be remanded without bail and bound over to the grand jury. Mrs. Gabel, their son, Stewart, and a brother-in-law, Don Riddle, of Cleveland, Ohio, are expected in Miami in the first of next week to stand trial in his defense. Gabel had little to say regarding the circumstances before the arrest and later death of Mrs. Hunt, and he denied any knowledge of her past life, stating that he knew her but ten days. He denies also that he expressed himself as quoted by sheriff's deputies as saying, "I'm sorry I did it, I'm sorry."

# Tobacco Magnate Transforms Orphans' Poverty Into Riches

ABOVE ARE ESSIE LEE AND JESSIE BARTON, PLAYING WITH TWO DOLLS AND A LONG TEXAS SHOTGUN. GRANDMA SIMPSON, WHO HAS CARED FOR THEM IS AT THEIR RIGHT. BELOW IS THE TINY SHACK WHICH IS THEIR PRESENT HOME.

WELLINGTON, Tex., Aug. 21.—Amid the squalor of a tiny shack on the broad plains of the Texas panhandle, an old white-haired grandmother once told two little orphan girls the childhood story of Cinderella.

With poverty on all sides, the little girls, Essie Lee Barton, 6, and Jessie Barton, 4, never dreamed that some day they would suddenly have wealth and all that it buys thrust upon them, almost in the fairylike fashion of Cinderella.

But a wealthy uncle back in North Carolina is making the Cinderella story come true for them.

He is Buck Duke, son of Washington Duke, who made millions in tobacco. Buck Duke is a brother of J. B. Duke, who recently gave \$10,000 to a North Carolina college and is said to be as wealthy as his brother.

Recently Buck said he intended

to make all his relatives rich before his death. And he has just found that the two poor little orphan girls out on the Texas plains are distantly related to him by marriage.

So he has sent \$1000 to Grandma Simpson, who cares for the children, to gather information about them and to end their poverty.

Already Duke has sent \$10,000 each to R. W. and James Duke, two second cousins, who have ranches near here.

One grandmother of the orphans who died at Wellington several years ago, Mrs. Sally Barton, was related to Washington Duke by marriage and used to help him pick tobacco on his North Carolina plantation before he amassed his huge fortune.

When the great emigration to the west began, the Barton fam-

ily and one branch of the Duke family resolved to seek their fortunes in Texas.

But while the Duke family was making millions in North Carolina, their relatives out west were having a long, hard struggle for existence. Misfortunes seemed to pile on misfortune, and a few years ago the two little Barton girls were left orphans.

Buck Duke has suggested that the girls be put in one of his orphan homes in North Carolina, but Grandma Simpson immediately wrote she wouldn't stand for that.

"I'll raise them here in poverty and give them a schooling myself before I'll send them to a home," she says.

Grandma Simpson is not the children's "grandma" but they always call her that because she has cared for them since babyhood.

## United States Crop Yield Per Acre May Be Low During '25

TALLAHASSEE, Aug. 20.—(AP)—Low yields per acre are to be expected this year for the principal crops of the United States, the Department of Agriculture announces. Published figures show that a yield of all crops combined are 4.5 per cent under last year's crops and 6.4 per cent below the ten year average in the outlook, judging by present conditions.

Only once in the past 12 years has the prospect for yields been so low at this time of the year, the exception being in 1921. Drouth in the cornbelt and southwestern states is the principal cause of the poor showing.

The figures issued by the Crop Reporting Board, based on the condition of crops on Aug. 1, show that yields of various crops are expected to be below their ten year average by the following percentages: Cotton 9 per cent, potatoes 3.5 per cent, hay 16.2 per cent, corn 0.9 per cent, oats 3.2 per cent, sweet potatoes 12.12 per cent, tobacco 6.1 per cent, sugar beets 9.3 per cent, apples 11 per cent, barley 1.7 per cent, grain sorghums 15.7 per cent. The only crops for which increased yields per acre are expected are spring wheat,

which is expected to run over the five-year average yield per acre by about one-tenth of a bushel, and a few crops which are concentrated in limited areas, the list including citrus fruits, olives, walnuts, hops, sugar cane, buckwheat, and some vegetables.

The total production of all crops combined is expected to be about 3 per cent lower than last year, and lower than in any other recent years except 1911 and 1921.

## Further Business Condition Reports Show An Increase

TALLAHASSEE, Aug. 20.—Further early reports on business conditions to the United States Department of Commerce indicate substantial increases in July over a year ago in most lines, including the production of pig iron and steel ingots, production of zinc, value and area of building contracts awarded, bank clearings, postal receipts, imports and exports of merchandise, deliveries of tin, receipts of wool at Boston, loadings of freight cars and sales of leading ten cent chains.

Compared with June, 1925, increases occurred in awards for concrete paving, and building contracts measured in area, zinc production, tin deliveries, imports and exports of merchandise, receipts of wool at Boston, and bank clearings outside New York City. Declines occurred from June in the production of pig iron and steel ingots, unfilled steel orders, bank clearings in New York city, the value of building contracts, postal receipts, loadings of freight cars and sales of ten-cent chains.

Palmetto—"The Palmetto News" installs new Model A Duplex press.

## German Refugees Flee Poland

Because they refused to renounce their allegiance to their fatherland in a recent plebiscite held in Poland, 30,000 Germans were forced to flee from Poland back to Germany. This shows the refugees huddled together in a primitive "Ellis Island" on the German border waiting to be examined by customs officials.

## FLORIDA TO HAVE PRETTY GROUNDS AROUND CAPITAL

When Work Just Started Is Completed, Grounds Will Be Among Most Beautiful In Entire United States

TALLAHASSEE, Aug. 21.—(AP)—When work just begun on the capital grounds is completed Florida's state house will have one of the prettiest surroundings of any state in the Union. The large, evergreen oaks which line the grounds on all sides are being trimmed, pruned and treated, while the entire lawn is being dug up and re-sodded before new grass is planted.

The care of the Capital building and grounds is in the hands of H. Clay Crawford, Secretary of the State, who, as authorized by appropriations of the 1925 legislature has employed an expert landscape architect to carry on the work. L. B. Redding, landscape artist, who is familiar with the needs of trees and soil in this section of the country and who is recommended by twenty years of such work, has been employed by Mr. Crawford and has already begun operations. Mr. Redding plans to trim and treat every oak on the grounds immediately, as he has observed that insects have already injured a number of them due to poor care having been exercised during them in the past.

At the same time work is progressing Mr. Redding has three helpers who are at work on the soils and who are up-turning it with picks and rakes preliminary to making of it a pulverized mixture of soil and fertilizers. Mr. Redding finds, he says, that in some spots the present soil is totally dead and he attributes this to the effects of builder's lime having been mixed with the soil at the time the old capitol building was remodeled two years ago.

The work on the capital grounds, Mr. Redding estimates, will be completed in about six weeks. When this has been completed he will move on to the Supreme Court grounds where he will continue his work. From there he goes to the Governor's Mansion.

The 1925 legislature appropriated money to employ a landscape architect permanently to care for these three grounds, and money to employ three negro laborers to help. Formerly care of the capital grounds has been in charge of the city sanitary commission but this method did not prove a satisfactory one, Mr. Crawford states.

WELCOMING CLUB VIENNA, Aug. 21.—(AP)—An organization known as the "Welcome to Austria Club," has been formed under the patronage of Dr. Michael Hainisch, the President of the Austrian Republic. The members make it their task to receive foreigners coming to Austria, to show them about the town, arrange social meetings and act as interpreters for them. The federal chancellor, all ministers and the captain-generals of the provinces are honorary presidents of the club. It is the duty to render the stay of foreigners in Austria as pleasant as possible.

From the fingerprints on file in the identification bureau of Scotland Yard, some 260,000 positive identifications have been made.

## Girl Is Jailed for Speeding

Thirty days in jail was the sentence given Rene Larondeau, Hollywood artist model when she speeded her car through Los Angeles. Rene says her father is a banker, somewhere in France.

## Admits Killing

Everett Adams, 17, of Wilmington, O., has confessed that he killed A. R. Clawson, Lodi, N. Y., in a robbery near Sedalia, Mo., after the latter had given him a lift in his automobile. He was captured at Garden City, Kas., and returned to Sedalia.

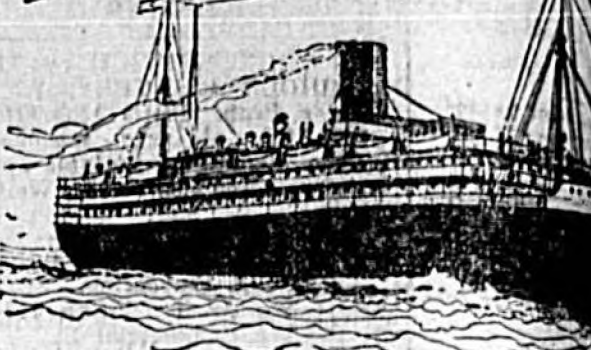

## ADAPTED TO FASTING

TOKYO, Aug. 21.—(AP)—Hideo Takahira of the Tokyo Nutrition Laboratory, recently achieved the degree of Doctor of Science from Keio University for presenting a thesis on "The Anamnesis of the Body of a Japanese." For many years Mr. Takahira has been studying the subject and has experimented on himself, abstaining from food for from three to four weeks. In his thesis the scientist argued that a Japanese is able to fast, without harm, for a period of 60 days.

The sun rises in the Pacific and sets in the Atlantic in the Panama Canal, because the east end of the canal points toward the Pacific and the west end toward the Atlantic.

Twenty-one million letters went to the Dead Letter Office last year.

ADVERTISEMENTS TELL YOU WHAT MANAGE OF BUSINESS IS DOING FOR YOU

THE BETTER A PRODUCT IS THE SO WILL SEE IT ADVERTISED.

# Who Bought the Brooklyn Bridge TO-DAY?

ALMOST EVERY DAY the Brooklyn Bridge is sold to some gullible visitor to New York. Every day someone is swindled. Selling this famous old bridge has become a national joke.

Suppose, however, the City of New York decided really to sell the Brooklyn Bridge—to give the buyer the privilege of placing toll on all who crossed it. They would advertise it for sale. And the prospective purchaser would know the offer to be genuine.

He would know that the paper would not accept the advertisement if it were intended to defraud. He would know that the advertiser would not dare advertise unless his offer were honest.

The advertisement would give the world confidence in the enterprise.

Just as the advertising of all merchandise gives the world confidence in that merchandise. Only honest products can tell their stories where all may read.

That is why it pays to read advertisements. You can rely on advertised goods. You know that a worthy manufacturer stands back of them. They are a guide to better buying. They teach you to spend wisely—economically—and with the knowledge that you are buying merchandise which is minus all vain regrets or misrepresented values.

Read the Advertisements every day.

ADVERTISING IS A BRIDGE—SPANNING THE RIVER OF DOUBTFUL VALUES—TO THE SHORE OF WORTHY MERCHANDISE

Opera Star Prefers Simple Food  
Cecil Arden Gives Gelatine Recipe

Foto Tapiro, Inc.

FEW of the music lovers who have delighted in the rare quality of Miss Cecil Arden's beautiful mezzo soprano voice realize that this brilliant young singer who for three seasons has appeared with the Metropolitan Opera Company and on the concert stage in that rare product, a true American. Through her North Carolinian father and Kentucky mother, Miss Arden has a straight American lineage and doubtless it is from these simple forebears that she inherits her love of the practical things of life as well as the artistic. As an artist who must carefully preserve her health, Miss Arden avoids rich heavy desserts and chooses instead light dishes with a delicate flavor which because of the introduction of gelatine as one of the ingredients have added nutritional value. These she often makes herself, and one of her favorite recipes is Custard Ice Cream:

- 1 teaspoonful Granulated Gelatine
  - 1 quart Milk
  - 2 Eggs
  - 1 cup Sugar (scant measure)
  - 1 teaspoonful Vanilla
  - Few Grains Salt
- Soak gelatine in two tablespoonfuls of milk. Make a custard of the milk, yolks of eggs, sugar and salt, and dissolve the gelatine in the hot custard. Strain, and when cold add flavoring and freeze to mush. Add whites of eggs, beaten until stiff, and continue the freezing.

STEWART'S WASHINGTON LETTER  
By CHARLES P. STEWART

WASHINGTON, Aug. 21.—(AP)—When President Coolidge succeeded himself last March everybody thought he was going to make his official family all over, to suit his own ideas of what a cabinet ought to be. Up to that time he avowedly had been running things, as nearly as he could, the way President Harding had started them. On his own election to the presidency, however, it generally was taken for granted he'd want advisors chosen by himself. Then Bascom Sloop retired in Everett Sanders' favor, as presidential private secretary, and it was assumed the shakeup had begun.

Hughes quit, much against the chief executive's wishes, to make some money practicing law. The other six department heads are the ones President Harding picked originally. Secretary Mellon, for one, is absolute boss of the treasury. He asks nobody's advice. He dictates and his dictation is gratefully received. President Coolidge's utterances on money matters are much admired in financial circles. Mellon's their author, so gossip says. Nobody tells Secretary Hoover anything about the commerce department. He tells others. For instance, in the midst of all that talk about the president's "firm policy" in the row between the coal operators and miners, this bit of information leaked out—in reality the president had no such thing as a "coal policy"—he didn't know what he'd do in the event of a strike—he'd do whatever Hoover told him to do. "More business in government and less government in business" is of Hooveresque origin, too.

Orlando To Spend Two Millions For Paving Of Streets

ORLANDO, Aug. 22.—(AP)—Orlando will be assured of having the greatest number of miles of paved streets for any city in Florida with the completion of the fifty mile paving program which will necessitate an expenditure of \$2,000,000. Building permits are averaging \$200,000 per week and give promise to make August a million dollar month. Interesting facts regarding Orange Avenue business property values is shown in the traffic count by the Orlando Realty Board more than 17,000 people passing at Central Avenue in ten hours. Real Estate conveyances for the first six months in Orange county totaled \$20,087,090. Building permits in Orlando for the first six months totaled \$2,263,320, which is a material gain over the first six months of 1924. An analysis of the building permits show that on the average construction of three new homes is being started every day in the year in Orlando. Special steel shipments are now being received to construct what is believed to be the largest garage in Florida. It will accommodate 500 cars and the roof will be supported by single steel truss 110 feet long giving an unobstructed storage area. The garage has been leased to C. E. Riddle for 99 years involving a total rental settlement of \$1,780,000.

England's Prisons Are Being Emptied By Reform Measures

LONDON, Aug. 20.—(AP)—Probationary for adults and the "Borstal" treatment for young people have been responsible for a marked decrease in the population of British prisons. So much so that more than 20 jails in England and Wales, or one third of the total, have been closed since 1914. There are now only about 40 prisons in use throughout the country and these are not fully occupied. A Home Office official says that fewer and fewer people are being committed to prison because the tendency now is to reform a man or woman if it be at all possible. The increased use of probationary methods has worked well and in the opinion of the official the time is not far distant when prisons will be used only for habitual criminals with whom all attempts at reform have failed. During the first few years of the century approximately 500 out of every 100,000 of the population were sent to prison each year. Today the percentage is just over 100 in the 100,000. The greatest drop has been in convictions for drunkenness and similar offenses.

Irish Horse Show Is Well Attended

DUBLIN, Aug. 22.—(AP)—Entries for the annual horse show of the Royal Dublin Society, in August, created a new high record this year with 916. Despite the growth in popularity of the automobile, there has been a considerable increase in interest in harness horses. For the bloodstock sales more than 800 horses were entered. Miami—Building permits issued recently in one day totaled \$5,000,000.

**GREATER MIAMI MAY EXCEED \$100,000,000 IN BUILDING IN 1925**

Permits So Far Place Magic City Ahead of New York With Many More Projects To Be Started in Near Future

By FRANK H. PHILAN, Chief Writer Miami Daily News

Five seven-story projects in the Miami building field were started in the first six months of 1925, and experts predict a total of \$100,000,000 in building for the year. The program of building in Miami is being carried out in other cities in the State. There are four other projects in the building field.

SUNDAY, JULY 26, 1925

**MORE THAN \$2,000,000 BEING SPENT FOR CITY STREETS DURING 1925**

Many Contracts Being Fulfilled—Construction Here Justified by Climatic Advantages—Huge Building Boom Continues

THESE few headlines, selected from hundreds of similar ones in that world-record 504-page edition of the Miami Daily News of July 26, present evidence of Miami's tremendous growth and prosperity that compels conviction.

Where great corporations after careful appraisal are spending their millions—where the city is rising to its responsibilities by appropriating huge sums for municipal improvements—where a building program is under way which may place Miami among the first three American cities in amount of 1925 construction—where the population is growing faster than in any other city in the world—there you may place your investment and know that you are on the road to financial independence.

And Miami Shores, located on Biscayne Bay, just as is Miami, offers to you today similar opportunities to those Miami offered years ago.

And more than that—Miami Shores is being builded following a carefully laid out city plan with wider streets and avenues, and restricted business and residential areas. Fronting on Biscayne Bay for nearly six miles, and lying across every artery of travel leading into Miami from the North, Miami Shores occupies a commanding position in regard to Miami expansion. Pioneer Miamians from the first have been among the heaviest investors at Miami Shores. Follow their lead and you will not go wrong.

Sanford Needs City Bus Lines

All of a sudden the outlying sections of Sanford are showing a sensational growth. Houses are springing up by the dozens. Home-seekers coming to this section are buying property in sections adjacent to the city and constructing homes. An enormous building program is under way and the records show that as the fall approaches, the building activity increases with the possibility that by the beginning of the actual winter season hundreds of new homes will be seen in and around this city.

And the real estate developers are largely responsible for the building up of the surrounding country. Land that was considered almost worthless a few years ago has been developed, streets have been put down, and improvements made until some of the most beautiful residential sections of the city may now be found in the suburbs.

The time is coming and it is not far distant when some provision will have to be made to furnish transportation facilities to and from the various residential districts outside of the city proper. How are people who live two or three miles from the business districts of the city, going to do their shopping unless some means is afforded them by which to come to the downtown sections where the stores may be found? Usually there is an automobile in almost every family but this car is nearly all of the time in use. There are hundreds of residents however, who do not own automobiles and they are the one who complain of the lack of transportation facilities to be found here.

Some enterprising men could, at a minimum of expense, establish jitney lines or bus lines, maintaining a half hour schedule from such places as Lake Monroe, Ginderville, East Sanford, and developments in the southern and western sections within a radius of three or four miles of the city. A nominal charge of perhaps ten cents each way ought to result in good patronage and a money making transportation company. And in addition to rendering service to those who are living in the suburban districts that are so rapidly expanding, a transportation system would result in greater numbers of residents in newly developed points.

It is a matter that will have to be worked out before long. The Herald brings it up today and hopes some person or some organization or some far sighted developer, will come along and inaugurate some plan for giving more transportation conveniences to the people of Sanford and by so doing, not only make money, but also contribute largely to the already fast growth and development of some of the most desirable residential sections within a few miles of the city.

Do You Hide In the Closet?

When the sharp flashes of lightning comes, how do you act? Are you afraid of it? Are you one of those millions who seeks safety in a feather bed or hides in some dark closet for fear of being struck by a bolt of lightning? If you are, perhaps you will be interested in information recently given out by insurance companies and interestingly told by J. Earle Miller in an article in Popular Mechanics Magazine.

When lightning begins to play, says Mr. Miller, get under cover, but that doesn't mean a tree out in the woods or fields. It is far safer to stay in an open prairie than to seek protection from the storm, under a tree. Likewise, you must keep away from wire fences, hill tops, small sheds and shelters, or other isolated objects that may attract the discharge.

Discussing the subject further, Mr. Miller says, "Thick timber is fairly safe, on the theory that, with so many trees around, the chances are the bolt, if one comes, will strike some other tree instead of the one that you are standing under. If you are caught in a storm, a cave or depression in the ground, a deep valley or canyon or the feet of a steep or overhanging cliff will afford fairly good refuge from a possible stroke of lightning."

If you are in the house when a thunder storm comes up, you do not have to seek the feather bed, Mr. Miller assures us. The fact that it has never been recorded that anyone has been struck by lightning while in a feather bed, he declares, is no reason that it is the safest place in the house. There are plenty of other places that are much safer and in this connection he says, "One of the safest places is in the center of a downstairs room, well away from the open doors or windows and as far removed as possible from a chimney, stove, electric light wire, telephone or any metal object that projects through the walls or roof of the building."

All these places are reasonably safe from lightning but the question arises whether there are any that are absolutely safe the underwriters declare the safest place in a thunder storm is "inside a metal building or one protected by lightning rods." The metal building, like the properly installed lightning rod, draws off the accumulated electricity during every storm and passes it into the ground without harm to the building or its occupants. An example of how lightning may be tamed with lightning rods is the Washington monument, whose high shaft has been struck no less than eight times since it was equipped with them. Not once has it been damaged. Standing on a broad, treeless hill, the monument offers a good target for every bolt but its protection against lightning is guaranteed by the use of the rods.

There are few who enjoy heavy thunders storms. The individual who is usually the loudest in his expressions of bravado, is frequently the fellow who shuts himself in a dark room during a bad storm in which the sharp claps of lightning sound alarmingly close.

As Brisbane Sees It

Another First Man \$1,000 for Each of Us. Very Modern Crime. When is Man Old? BY ARTHUR BRISBANE (Copyright 1925)

IN DEEP piles of sand thrown up along the shores of a lake, long since vanished. The American Museum of Natural History expedition, of which the late Dr. Hayden, the earliest animal of human shape. Those "dune dwellers of Shabarak" wore ornaments made from pieces of the shell of dinosaur eggs. The dinosaurs had vanished long before the dune dwellers appeared.

SCIENTISTS affirm that man first appeared on this earth in Asia. Some of them say that the first men, Mongolians, had orange hair and eyes. They give for grandfather to the Caucasian race which calls itself intelligent animal. You need not believe them.

THE PEOPLE of America have about doubled their incomes in a few years. The cash that Americans earn, or receive from investments, rents, from inherited property, etc., is not far from ONE HUNDRED THOUSAND DOLLARS A YEAR, almost a thousand dollars for every man, woman and child.

WHAT A wonderful prize this nation would be for any Asiatic conqueror, flying through the air and ransoming the cities. And what a ransom the cities would pay. It would be cheaper to buy enough flying machines.

BERLIN SUPPLIES a very modern crime. A young woman in the household of Murnau, greatest German director of moving pictures, is murdered by her lover, a Russian, at her own request. She wrote to a friend that she wanted to die because she was "broken by drugs and riotous living."

THE POLICE who arrested the murderer were protected by shirts of mail, steel helmets and carried bullet-proof shields. And Herr Murnau, stepping from a flying machine that had just brought to see the battle. That is modern crime, in modern civilization.

WHEN is a man old? A Civil war veteran of Illinois, aged 88, is told by the judge that a man 88 "has no business to get married."

A Pennsylvania man of 91 settles property on his children, then marries a woman of 45, who says her new husband is "old in years only."

Jacob Wettler, Swiss embroiderer, only 74 years old, shot himself, saying life wasn't worth while at that age.

"WHEN HE IS forsaken, withered and shaken, what can an old man do but die?" So a Frenchman as old as fifty as anybody can be. Molke, at ninety, was younger than many of the junior officers that stood in still respect about him. A man is old when his mind stops working along new lines.

A FRENCH scientist, convinced that diving at a high altitude is dangerous, took to the top of Mount Blanc a healthy young squirrel in a cage, with a revolving wheel in it. At a low level the squirrel turned the wheel 6,500 times every 24 hours, and only 900 times at the top of Mount Blanc.

THAT IS interesting, but doesn't prove that human beings cannot acclimatize themselves to high altitudes and be benefited by them.

WOMEN OF TIBET carry heavy loads over passes of the Himalayan mountains at heights that make it necessary for Europeans to have an artificial oxygen supply. The marvelous thing about man is his capacity to adapt himself to the equator or the north pole, the sea level or the mountain top.

THIS COUNTRY settles its debt with Belgium, and Uncle Sam, pictured in European papers as the great money-lending Ogre, is not such an awful Ogre after all. We gave Belgium sixty-two years in which to pay her debt of \$27,000,000. The interest rate is low, 3-1/2 per cent, and on the money we lent Belgium before the armistice there is to be NO interest charge.

HARVEY S. Firestone manufacturer of tires, has contracted for a million-acre rubber plantation in Liberia. A \$100,000,000 corporation will be formed to grow an adequate rubber supply for the United States manufacturers. That is the kind of "reaching out" that the country needs. We build and use 30,000,000 rubber tires a year, and should be independent of foreign control.

AN ARDENT British radical, who thinks he believes in communism, urges men of the British army and navy to mutiny. "Throw off their chains," and "drive the government from the tyrants that control it." British soldiers and sailors will not throw off their chains because they wear none.

Outside of Russia, the world at large is farther from communism than it was before the war. And it's a long way from it in Russia.

NEARING THE END OF HIS ROPE

JUST IN PASSING

BY R. J. HOLLY

According to press reports gasoline has dropped one cent in New York and Orlando. It will probably take several months for the drop to find Sanford and by that time it will have gone up again. But the amount I buy even at one cent reduction I would save over a million dollars more or less in the year.

Orlando folks now have a "wild game preserve" on the upper St. Johns river. We suppose they will eventually serve all the "wild women" and have them in the archive of modern and ancient history for the benefit of the future generations, as it were.

Of course it sounds nice to say that the summers are cool in Florida. They were cool in the years gone by but it is hardly necessary to say that this summer has not been cool primarily because we have missed out daily rains. And when we miss our rains we miss the cool weather for the rains keep us from getting the hot wave.

Glad to see the swimming pool getting along so nicely and the great interest being manifested in the same. If we can put over the swimming pool and the tourist headquarters and the amusement park on the lake shore we will have something that few cities in Florida can surpass. And while we are spending some money let us have more benches.

Few people know that Geneva has a real abattoir and meat packing house and it is one of the neatest and cleanest slaughter houses in the state. It is known as the Geneva Packing Co., under the management of Levy Bros., and if we could have our meats killed and cooled at the Geneva Packing Co., plant we would have something real. All the meat shops should patronize this firm that is trying to give the people the right kind of meat killed and butchered and put on cold storage in the right way. Visit this plant and see what I saw.

Every hamlet, village and town in Seminole county is growing and getting prices unheard of a few years ago for their property. And when you sum it all up Seminole county really has more to offer than the majority of counties. We literally have everything that anyone could want for kinder homes, for farms, for real living.

Leading editorial in Leesburg Commercial says: "Shall Leesburg Shed Her Swaddling Clothes? Well knowing the exact age of the lady we would say it is about time she was shedding her swaddling clothes for when an infant gets gray hair it is rather hard to keep up appearances."

If you want to see some of the finest natural scenery and beauty in Florida visit the Eponathus Creek. You can get it either at Chulouta or Oveido as it winds around that part of the county with a grapevine twist. A swift flowing stream, with good fishing and good water at all times it presents a natural beauty that is hard to beat.

My old friend, Victor Lawson, of the Chicago Daily News, died the other day of heart trouble. He was 75 years old and stuck to his desk to the last. And yet what was the use of all this hard work when he could have enjoyed himself for a few years. He was one of those hard workers that thought he could not quit but now that he has quit—what did it avail him? My motto is to work hard part of the time but after you are fifty spend some of time fishing in Florida.

"Twenty-four Dry Chiefs Will Cover the Entire Country" says headlines in daily newspapers. And they could use dry of them in parts of Florida. The reorganization of the dry forces may help some but the present prohibition law does not seem to get results and in the opinion of many writers of note it never will.

The mercury soared to 101 in Macon the other-day and Macon is supposed to be in the hills of Georgia. It only goes to show that the south has been hot this summer—all except the mountains of North Georgia and North Carolina. Those folks have the same thing we have in winter—Climate—and we need their summer climate just as they need our winter climate.

Visitors to Miami are sleeping on park benches. It seems that Miami is getting more like New York every day.

The causeway in Miami is now known as the Jewish Pass-over and other points of interest have been nicknamed in honor of the new citizens.

When the First National Bank building was started many folks said the offices would never be rented. They are, who was wise in this instance?

MY FAVORITE STORIES

By HEVIN S. COBB

Formerly, in one of the Southern States the insane were not always sent to an institution. Sometimes they were formally awarded into the custody of someone, usually a parent or a guardian, and for the purpose of such an unfortunate the State paid one hundred dollars a year. This amount, in certain sections, was regarded as a handsome addition to the family income. One summer a citizen from the lowlands was up in the hill country of his native State taking title to coal lands for an Eastern syndicate. In a canoe, with a native to guide him, he was proceeding down a creek that penetrated into one of the wildest and most desolate recesses of the mountains.

"Who lives here?" inquired the stranger. "Judging by the looks of his place," said the lowlander, "he must be a forehanded man." "He certainly is," said the native. "He's forehanded, but he's had eight of luck in his time, too. He's got seven children and all of 'em is ijtsos."

SATURDAY, AUG. 22, 1925

THE HERALD'S PLATFORM

- 1.—Deeper water route to Jacksonville.
2.—Construction of St. Johns-Indian River canal.
3.—Extension of white way.
4.—Extension of local amusements.
5.—Swimming pool, tennis courts, etc.
6.—Augmenting of building program—houses, hotels, apartment houses.
7.—Extension of street paving program.
8.—Construction of boulevard around Lake Monroe.
9.—Completion of city beautification program.
10.—Expansion of school system with provision for increased facilities.

BIBLE VERSE FOR TODAY
REFUGE, STRENGTH, HELP:
—God is our refuge and strength, a very present help in trouble. Psalm 46:1.

TO A VAIN LADY

Oh, heedless girl! why thus disclose,
What ne'er was meant for other ears?
Why thus destroy thine own repose
And dig the source of future tears?

Oh, thou wilt weep, impudent maid
While lurking envious foes will smile,
For all the follies thou hast said
Of those who spoke but to beguile.

Vain Girl! thy ling'ring woes are nigh,
If thou believ'st what striplings say:
Oh, from the deep temptation fly,
Nor fall the spacious spoiler's prey.

Do not repeat, in childish boast,
The words man utter to deceive;
Thy peace, thy hope, thy all is lost,
If thou canst venture to believe.

While now amongst thy female peers
Thou tellest again the soothing tale,
Canst thou not mark the rising sneers
Duplicity in vain would veil?

These tales in secret silence oush,
Nor make thyself too public gaze;
What modest maid without a blush
Recounts a flattering coxcomb's praise?

Will not the laughing boy despise
Her who relates each fond conceit?
Who, thinking Heaven is in her eyes,
Yet cannot see the slight deceit?

For she who takes a soft delight
In those amorous nothings in revealing,
Must credit all we say or write,
While vanity prevents concealing.

Cease, if you prize your beauty's reign!
No jealousy bids me reprove;
One, who is thus from nature vain,
I pity, but I cannot love.
—Lord Byron.

President Coolidge is reported to have suffered with the toothache. It's consoling to know that he's just a human being after all.

Today's best laugh: An opportunist is one who meets the wolf at the door and appears the next day in a fur coat. Gargyle.

HE WANTED FUN

MIAMI HERALD

Being a cripple is about the hardest luck that can befall a boy. The things that boys delight in doing require full use of arms and legs. Running, playing ball, swimming, climbing trees—these demand physical perfection and boys who are shy in any particular are indeed to be pitied.

Having been boys themselves the Jersey City Elks appreciate the conditions of crippled children, so the other day they planned to give an outing to 160 crippled boys and girls. Automobile busses gathered to an amusement park and the children anticipated great pleasure at the picnic and for a time perhaps they forgot their misfortune. The busses stopped at the entrance to the amusement park and the children alighted and limped into the line formed so they could enter the park. Standing a short distance away was a newsboy, Nick Torquato. He asked questions and learned what was in store for the children. He had long wanted to go inside the park and ride on the roller coasters, merry-go-rounds, shoot the chutes and other devices for thrills and fun.

Alas for Nick, he was not a cripple. He was merely a poor boy. But Nick was resourceful and he decided that if being a cripple was all that was needed he would pretend to be one. So he limped over toward the queue being formed. He was a good actor and he limped with skill, hobbling along as if every step was painful.

WHERE WE LEAD

Blue Book Published by Manufacturer's Association

At the present time the United States is producing:
Fifty-five per cent of the world's iron ore.
Fifty-one per cent of the world's pig iron.
Sixty-six per cent of the world's steel.
Fifty-one per cent of the world's copper.
Sixty-two per cent of the world's petroleum.
Eighty-three per cent of the world's coal.
Fifty-two per cent of the world's timber output.
Sixty-five per cent of the world's naval stores.
Forty-two per cent of the world's phosphate.
Eighty per cent of the world's sulphur.
Sixty-three per cent of the world's mica.
Sixty-two per cent of the world's lead.
Sixty-four per cent of the world's zinc.
Sixty per cent of the world's talc and soapstone.
Forty-five per cent of the world's barytes.
Fifty-five per cent of the world's cotton.

Broadly speaking, it may be said that at the present time the United States is producing largely more than one-half of the leading products of the world.

We have far more than the rest of the world. We are better off, better housed, better educated, and enjoying a higher standard of living than any other people in the world's history.—Blue Book of the Manufacturers' Association.

THE OTHER SIDE

TAMPA TIMES

Much has been written about the demands that the community may make of the teacher. Not so much has been written upon the other side of the question—the teacher's side. That there is another teacher has the right to ask certain questions of the community regarding its ability to furnish her with comfortable living conditions.

It is encouraging to find that school officials are giving increased attention to the teacher's side of the subject. A good example is found in the latest report of the state board of education of New Hampshire. In discussing the subject of the home for rural teachers certain questions are found which, it is stated, a teacher has the right to ask of her school community. Among them are the following:

Is the community split by a neighborhood feud which is likely to engulf the teacher, or is it one which defends the teacher against idle gossip?
Is there a boarding home within a mile of the school in a family of refinement?

A COLD TRIAL

MACON TELEGRAM

When Dr. John Roach Straton attempts to revive the agitation over evolution by a series of debates with modernists in seventeen cities of the country, he is blowing life into a dead horse. Nothing will come of his efforts. We make the prediction that he will not even be able to arrange the series of debates.

The truth is, that already the country is tired of the discussion that raged about evolution. The clamor is some from the fray. Feyn is dead and Darwin is not supposed to join issue with any of the lesser lights of Fundamentalism. The issue has been stripped of its trappings and it no longer appeals to the general public.

The Dayton trial and the common it caused were result of the human nature, of the appeal of the novel and the susceptibility of the public to being worked into a near hysteria of excitement over something new. The excitement attending the Frank trial and the subsequent events; the emotions that were aroused during the Floyd Collins episode; the Florida boom and many other recent events testify to that trait in human nature.

## Social Calendar

**Saturday**—Shinholzer will entertain at home in honor of Miss Powell of Tampa.

**Sunday**—Class of the church will entertain at home in honor of Mrs. W. Turner at 3 o'clock.

**Monday**—The Methodist church will entertain at home in honor of Mrs. W. Turner at 3 o'clock.

**Tuesday**—Mrs. C. E. Jones was over from the city spending the week at home.

**Wednesday**—Mrs. Hasty went to St. Petersburg to enter a hospital for nurses.

**Thursday**—Mrs. R. C. Long, their children and Miss Kanger, enjoyed Sunday at home.

**Friday**—Mrs. Kanger left for her home in W. Va. Thursday evening.

**Saturday**—L. Lowe of Beck Ham returned home next week after a visit with the Robson family.

**Sunday**—The efforts of John the East Side is well advanced. Attractive signs are being placed to protect the neighborhood.

**Monday**—C. Smith returned to Geneva Avenue Friday after a two months visit with Mrs. Ferguson in E. Chorpensing's store.

**Tuesday**—Mrs. I. D. Hart and her daughter, Mrs. Hervey, returned to Geneva Avenue Friday.

**Wednesday**—Mrs. W. M. Haynes with her family, left in Thursday for Jacksonville.

**Thursday**—Mrs. Stevenson, Miss Dorland and a few days, will visit points in the city.

**Friday**—Mrs. William Walter, Mrs. Booch and Jeanne Walter returned Tuesday from a shopping tour.

**Saturday**—Mrs. Josephine Tarbell has returned from Troy, N. Y., where she has been spending the summer.

**Sunday**—Mr. and Mrs. Paul Dooley and Mr. and Mrs. W. M. Bozlan of Geneva were in the city Friday on a shopping tour.

**Monday**—Mrs. J. P. Budrow returned to her home in Lakeland Friday after a shopping tour.

## Miss Cox Entertains At Bridge Honoring Miss Miriam Powell

Quantities of fragrant pink roses were used in charming profusion to decorate the lovely home of Mr. and Mrs. T. J. Miller, when Miss Margaret Cox entertained Friday afternoon at bridge, honoring Miss Miriam Powell of Tampa, the attractive house guest of Miss Margaret Zachary.

Scores were kept on dainty floral tables, and the card game proved most interesting. After a number of progressions, scores were counted and prizes awarded. Miss Francis Dutton, holding high score, was given a hand painted bud vase. The consolation, a dainty hand made handkerchief, fell to the lot of Miss Nonie Williams. Miss Powell was presented a perfume bottle as memento of the occasion.

Following the game the hostess served a tempting salad course.

Those enjoying the cordial hospitality of Miss Cox were: Miss Miriam Powell, honoree; Misses Margaret Zachary, Lillian Shinholzer, Marion Belk, of Fort Pierce, Fernie Lee Bell, Dorothy Fletcher of Dade City, Nonie Williams, Marion Hand, Frances Dutton, Mrs. O. T. Alford and Mrs. Hassell Brown.

## Mr. and Mrs. J. E. Baker Entertain at Dinner Honoring Newlyweds

A charming courtesy of Thursday evening was the dinner given by Mr. and Mrs. J. E. Baker, honoring Mr. and Mrs. Troy Ray, whose marriage was a recent event.

A profusion of roses and hibiscus were used in decorating the rooms, the dainty color scheme of pink and green being carried out in every detail.

The table was centered with a beautiful crystal bowl filled with roses and ferns. A sumptuous course dinner was served at 7:00 o'clock.

Cover was laid for Mr. and Mrs. J. E. Baker, Mr. and Mrs. Troy Ray and Mr. and Mrs. J. I. Miller.

## Personals

C. T. McCully of Oviedo was a business visitor here Friday.

Ben Monroe left yesterday for Gainesville on a business trip for several days.

G. B. Ross and Pierce Griffin were business visitors in New Smyrna Friday.

Miss Claire Zachary is visiting her grand-parents in Jacksonville for several weeks.

J. R. Balding and family have gone to Coronada Beach for the remainder of the summer.

Miss Josephine Tarbell has returned from Troy, N. Y., where she has been spending the summer.

Mr. and Mrs. Paul Dooley and Mr. and Mrs. W. M. Bozlan of Geneva were in the city Friday on a shopping tour.

Mrs. J. P. Budrow returned to her home in Lakeland Friday after a shopping tour.

## visiting Miss Weima Graves for the past week.

Miss Ruth Hand is at home, after spending several weeks at Coronada Beach as the guest of Mrs. R. B. Chapman.

Mrs. E. D. Tyler, who has been the guest of her mother, Mrs. Mac G. Carraway, left today for her home in Live Oak.

Mrs. H. M. Mabry and son, Harlow, have returned from a motor trip to Chatsaugua, N. Y., and other points of interest.

Miss Viola Kloecker of Tampa has been the attractive guest of Miss Bertha Takach at the Pico Hotel for the past week.

Dr. and Mrs. Ben Caswell returned from Atlanta, Ga., Saturday where they have been visiting Mrs. Caswell's parents for a fortnight.

Miss Ellen Telford and L. M. Telford, Jr., have gone to Live Oak for several weeks where they will be the guests of friends and relatives.

Miss Hazel Garverick who has been the guest of her sister, Mrs. John Stemper, for the past two weeks, left Friday for her home in Miami.

## have as their guest, Mr. Harvey's sister from Charleston, S. C.

Wesley Sturdivant and Clarence Priest attended the Orlando-Oviedo baseball game in Oviedo on Thursday afternoon.

Mrs. Stanley Walker and little daughter, Jean, left today for a visit of several weeks with relatives and friends in Davenport, Fla.

Misses Esther Louise and Frances May Hughey, whose birthdays were Tuesday and Friday, were entertained by the Rebekahs with a picnic at Lake Mary on Thursday afternoon.

Word has been received from Mrs. J. B. Crawford who was recently called to Harrisburg, Pa., because of her mother's illness, saying her mother's condition is not serious and she is recovering very nicely.

Last Sunday morning the following nine new members were received into the church: Mrs. Pearl Brown, Mrs. Annie Caswell, Mr. and Mrs. Finley Hodges, Mr. and Mrs. O. G. Russell, Miss Jewell Russell, Clifford and Etta Russell.

Miss Willard Bishop and Homer Stemple of St. Petersburg were married on Thursday afternoon at the parsonage, Dr. T. J. Nixon officiating. The bride has been the guest of Misses Sarah Lou and Fanny Bell Priest for the past two weeks. The young couple left for Gainesville Friday.

## At The Churches

**FIRST BAPTIST CHURCH**  
Sunday School 9:30 a. m.  
Morning worship and sermon 11 a. m. Subject of sermon, "The Richest Man in Seminole County." Young People's Unions, 7 o'clock. Evening Service 8 o'clock. Subject, "The Man Who Came Back Different."  
Church Family Night and Prayer Meeting Hour Wednesday evening 8 o'clock.

**ALABAMA NIGHT**  
Tomorrow evening will be Alabama Night at the First Baptist Church. As a sermon prelude the story of some of Alabama's achievements will be briefly told. The size of her cities, the length of her rivers and the products of cities and soil will be mentioned. Former residents of Alabama will be honor guests for the evening.  
The First Baptist Church extends a most cordial greeting to citizens and visitors.

**ALL SOULS CHURCH**  
August 23, Twelfth Sunday after Pentecost. Mass at 8 o'clock a. m.

**CHRISTIAN CHURCH**  
Rev. H. I. Bolton  
Services at American Legion Home.  
Bible school at 9:45 p. m.  
Lord's supper and sermon at 11 a. m.  
Prayer meeting Wednesday at 8 p. m. at the home of Mrs. R. A. Terheum.

**CONGREGATIONAL CHURCH**  
Sunday Services.  
Sunday School, 9:45 a. m.  
Morning Service, 11 o'clock.  
Evening Service, 8 o'clock.

## Methodist Notes

By Mrs. J. S. Ward

W. T. Lewis of Macon, Ga., is the guest of his niece, Mrs. O. J. Pope.

J. C. Locke of Haines City come Tuesday as the guest of his son, C. C. Locke.

Miss Monnie Hancock from Palatka, is visiting her sister, Mrs. O. W. Gilbert.

There will be special music at the church services both morning and night on Sunday.

There was a good attendance and a fine interest at the prayer meeting on Wednesday night.

Mr. and Mrs. O. J. Pope and family, and guest, Mr. Lewis spent Thursday at Daytona Beach.

Mr. and Mrs. James P. Harvey

A cordial welcome for all. Thos. J. Armstrong, Pastor. Reception of new members at the evening service. Visitors and strangers cordially invited.

**FIRST METHODIST CHURCH**  
Rev. J. J. Nixon, Pastor  
Sunday School (Missionary Day) 9:30 a. m.  
Morning worship sermon by pastor, special music by Mrs. C. W. Earnshaw and Raymond Nixon 11 a. m.  
Epworth League service 7 a. m.  
Preaching by the pastor. Solo by Raymond Nixon 8 p. m.  
Reception of new members at the evening service. Visitors and strangers cordially invited.

**PRESBYTERIAN CHURCH**  
The following will be the service at the church Sunday:  
9:45 a. m. Sunday School.  
11 a. m. Preaching.  
7 p. m. Senior Christian Endeavor.  
Winter Haven—Hundred new residences to be constructed here.

**J. H. JACKSON**  
Long Time Loans on Residences and Business Property.  
Easy Repayment Plan  
Office in new Merriweather Building  
2nd Street. Phone 611

**How's Your Health?**

You are no doubt well and feeling fine. And that's the way to be. However, if sickness should attack you—be prepared—have a reserve fund to pay doctors bills, the druggist, etc. Keep an account with the Seminole County Bank.

## Tampa Takes Loose Game From Sanford; Feds Make 6 Errors

Crawford, Sanford Hurler, Fined \$100 by Umpire Baxter Following Argument Concluded By A Fight

### Celerymen Do Best Work In Last Innings

### Play Final Game With Tampa Today and Go to Lakeland Monday For Three Games

TAMPA, Aug. 22.—(P)—Tampa baseball fans went out to Plant Field yesterday afternoon to see a ball game but they saw a fist fight instead. The affair in which the Smokers beat the Celerymen by a 9 to 2 score could hardly be called a game. The losers didn't even try after the fourth inning and were charged with six errors while the Smokers garnered thirteen hits, many of which should have been handled if the Sanford players had gone after them.

The excitement came in the fourth inning after Manager Hardy of Sanford had gone to the field to protest to Umpire Baxter for what he said were wrong decisions on balls and strikes. After several minutes of argument between the manager and umpire the official ordered Hardy from the field and started away. While they were talking Pitcher Crawford of Sanford had also gone on to the field and he then took up the argument.

Baxter waved the player off the field and, after a few words were passed, Crawford suddenly ran up to Baxter and hit him twice on the head knocking him down. Baxter made no attempt to strike Crawford and still had his protector on and was not in any position to even defend himself. Crawford was restrained by the players on the field until the police officers got to him and placed him under arrest.

Police Lieutenant Meeks made the arrest and required Crawford to post a twenty-five dollar bond for appearance in police court this morning. Umpire Baxter then fined Crawford one hundred dollars and ordered him from the field.

Crawford said that Baxter had called him a name that generally calls for a fight but the umpire emphatically denied having done so. None of the players who were close to them were found who had heard the words that Crawford said had been used.

Acting President Ray Parnely said last night that he had suspended Crawford pending an investigation which will be held this afternoon. He will be given a fair hearing as everyone is entitled to and all witnesses to the occurrence will be examined before the league head makes a final ruling.

### Alvarez Pitches Good Game

Alvarez pitched his usual good game for the Smokers, holding the Celerymen to three singles for the first seven innings. Two bases on balls in the fourth inning filled the bags after Joyner had singled but third was as far as the runners got as Al made the next one foul out to Jesmer. That was the inning in which the trouble occurred. Everybody was a little nervous and Al could not find the plate for two of them.

Casas let up in the eighth when he had a 9 to 0 lead and as a result Frisbie clouted the ball on the nose for a two-bagger and McQue followed with another one to send him across.

Two more hits in the ninth sent another runner over the plate. Bailey singled to right but was forced by Kinsey. The runner took second on a passed ball and scored when Hardy, pinch hitting for Alford, got a two-bagger to left. The Sanford manager stole third but was stranded there when Kidd ended the game by striking out.

The Sanford pitcher would have pitched a good game with any kind of support behind him but as it was he was touched for thirteen bingles and six errors were committed by his team. Bailey at first was responsible for half of them while McQue contributed two with Frisbie making one.

Snead got in on the first on a base on balls and advanced two bases on infield outs. Weik also walked but Lee lifted one to Joyner.

The first scores came in the second when Casasas led off with a single and Lopez was safe on Frisbie's wild throw. Jesmer drew a base on balls to fill the bases with nobody out. Alvarez popped to Levy and Snead struck out. Hicks was safe at first on Bailey's boot and Casasas scored. Stockman sent a high one to Dumas in right field with the bases still loaded.

Two singles in the third did the Smokers no good as one was forced at second and the other was stranded when Jesmer was called out on strikes.

The Sanford team went up in the air in the fourth and the Smokers batted around sending five runs over the plate. Alvarez was up first and drove a single to center field. Three players went after it but Dumas couldn't quite reach it. Snead beat out a bunt which Kidd circled around the ball and didn't even pick it up. Hicks forced Alvarez at third and the double steal advanced both runners.

Stockman walked to fill the bases. Weik beat out a grounder down the first base line and Snead scored

when Bailey juggled the ball, failing to throw to the plate. Lee brought both Hicks and Stockman over with his single to left. Casasas singled through the box and Weik scored when McQue threw wild to the plate. Nance fled out to Dumas and Jesmer ended the inning by fouling out to Levy who made a fine catch behind third base.

Nance led off in the seventh with a single and Jesmer beat out his bunt that hardly went four feet in front of the plate. It was not even fielded. Alvarez struck out. Snead took first on McQue's second error, and Hicks brought Nance over with his single to right. Bailey got Kidd's throw go by him and Jesmer and Snead scored for Tampa's final runs.

Casasas again led the Tampa hitters with three hits out of five times up. This makes ten hits this player has gotten out of the last fifteen times at bat. Every Smoker hit safely, except Lopez, who was up only once. Lee kept up his average with two out of five while Weik also came through with a pair.

Sanford and Tampa play the final game of the series here this afternoon which will also be the last game these two teams play against each other this season.

The Smokers start a week with the Saints next Monday at St. Petersburg with the final three days here. The six game series with Lakeland week after next will end the 1925 Florida State League season.

### Cops Title

Presenting the newly crowned national public links golf champion. In other words, meet Raymond McAduliffe, familiarly known as "Red from Buffalo." He beat William Sherrick of New York in the final round at Garden City, L. I., the other day, 6 and 5. He's been playing golf for quite a while around New York state.

## LAKELAND TEAM TAKES SAINTS IN CAMP FRIDAY, 8-4

### Both Teams Score Three Runs in First Inning; Houston, And Brower Unable to Stop Onslaught of Highlanders

LAKELAND, Aug. 22.—(P)—The Highlanders beat the Saints, 8 to 4, in the second game here Friday in the home series. Both clubs scored three runs in the first inning. Brower's triple with two on and a wild pitch giving the Saints their, while Brazier's triple with two on gave the Highlanders their runs. Brazier scoring in a long fly.

### MAY ENTER SHOOT

HAINES CITY, Aug. 22.—Harry E. Johnson, president of the Haines City Gun club, and runner up for state champion, has been notified by letter this week from the American Trap Shooters association that he is entitled to represent Florida in the shoot to be held at Dayton, Ohio, beginning August 21.

Johnson is entitled, according to the letter, to enter the five man race team at the Grand American Trap meet.

### AUSTRALIANS BEAT JAPS

BROOKLINE, Mass., Aug. 22.—(P)—Australia Friday won from Japan in the American zone Davis cup match. The victory qualified the Australian to meet France, European zone winner, to decide which nation will meet the United States in the challenge round for the possession of the famous tennis trophy.

## BOTH SENATORS AND ATHLETICS LOSE CONTESTS

Tigers Blank Washington 1 to 0 While White Sox Trounce Philadelphia 8 to 2; Indians Trim Yankees; Browns Win

DETROIT, Aug. 22.—(P)—Wingo's triple off Coveleski in the eleventh, followed by three successive bases on balls by Marberry, who relieved him, gave Detroit a 1 to 0 victory over Washington Friday in the series opener. Aside from a double by Bassler, the triple was the only worth while hit Detroit got off the veteran Senator Joe Judge, Washington first baseman, is in a hospital tonight with a concussion of the brain and a possible fracture of the skull from being hit by a pitched ball in the second inning.

Score by innings: Washington 000 000 00—0-8-0 Detroit 000 000 01—1-11-1 Coveleski, Marberry and Ruel; Whitehill and Bassler.

INDIANS DOWN YANKS CLEVELAND, Aug. 22.—(P)—Cleveland won the opening game of the series with New York, 2 to 1, Buckeye having the better of a pitchers' battle with Jones. Three consecutive hits by the first three batters up in the first inning gave New York its only run. Jamieson tied the score in the seventh on his pass and steal and Summa's single, while he scored the winning run in the ninth on his double and Summa's single.

Manager Spiker of the Indians is out of the game as a result of being hit on the right elbow by Pitcher Marberry of Washington Friday.

Score by innings: New York 000 000 00—1-6-1 Cleveland 000 001 2—2-8-0 Batteries: Jones and Bengough; Buckeye and Myatt.

BROWNS BATTER BOSTON ST. LOUIS, Aug. 22.—(P)—The St. Louis Browns strengthened their hold of fourth place by defeating the Boston Red Sox Friday, 9 to 5, in the first game of the series. Fair was batted often and timely. Kenesaw Mountain Landis, commissioner of baseball, attended.

Score by innings: Boston 022 000 300—7-11-4 St. Louis 411 200 108—9-13-1 Batteries: Fahr, Ruffing and Heving; Bush and Rego, Hargrave.

ATHLETICS JOINED CHICAGO, Aug. 22.—(P)—Chicago handed the Philadelphia Athletics another jolt in their pennant aspirations Friday by defeating them 8 to 2 in the first game of the series.

It was the fifth successive defeat for Connie Mack's club. Ed Rummel, star of the Philadelphia twirling staff, was wild and ineffective when the White Sox had men on base. He gave way to a pinch hitter and Lefty Baumgartner was likewise unable to check the hitting of the Sox.

Groves succeeded Baumgartner and checked the scoring in the eighth. The Athletic defense, apparently working under a strain, contributed three errors, all of which figured in the scoring of the Chicago club.

Score by innings: Philadelphia 000 000 00—2-8-0 Chicago 300 311 008—8 Batteries: Baumgartner, Groves, Rummel and Cochrane, Perkins; Faber and Schalk.

## JUPITER PLUVIUS CAUSES DELAYS IN SPORT REALM

All National League Games Are Postponed Account of Rain; Many Boxing and Tennis Matches Rained Out

NEW YORK, Aug. 22.—(P)—Rain Friday caused cancellation of various important events in the eastern realm of sport. Tennis and boxing schedules were hit hard.

Finals matches in the women's national championship tournament at Forest Hills, N. Y., were found impossible with the courses soft and the downpour continuing at the time play was scheduled to start. The program will carry finals over to Monday with Helen Wills, the champion and her British rival, Kathleen McKane, favored to meet for the title.

It was also necessary to put off until today the semi-final matches in the invitation tennis tournament at Newport.

Pittsburgh and New York, ready to be at each other's baseball throats, were compelled to desist, the entire double header being thrown over to Sunday.

This will bring a double today, another the next day and a single game on Monday, which is an open date on the schedule. Since this is the last appearance of the Pirates in New York this year all games must be played off during the series.

All other National League games were postponed.

Promoters of the Coney Island stadium boxing show also postponed their card until tonight when a 12-round clash between the former light-heavyweight champion, Mike McTigue, and Tony Marullo, of New Orleans and a six-round contest between Jimmy Slattery, light-heavyweight of Buffalo and Maxy Rosenbaum of New York, will be featured.

Today's Games FLORIDA STATE LEAGUE Sanford at Tampa. St. Petersburg at Lakeland.

NATIONAL LEAGUE Cincinnati at Boston. Chicago at Brooklyn. Pittsburgh at New York. St. Louis at Philadelphia.

AMERICAN LEAGUE Philadelphia at Chicago. Boston at St. Louis. Washington at Detroit. New York at Cleveland.

Of 28,000 Christian missionaries working in foreign fields, 19,000 are from the United States, while American annual contributions to the work amount to \$10,000,000 out of a total of \$45,000,000.

## Lakeland Protest Upheld By State League President

TAMPA, Aug. 22.—(P)—Defeat was erased from the percentage column of the Lakeland team and a victory from the Sanford club as a result of a ruling by Ray Parnley, acting president of the Florida League, sent out to club presidents Thursday and announced here Friday, upon a formal protest entered by the Lakeland manager, Bill Brazier.

The protest was based upon a violation of the playing rules by the Sanford club in taking out a

## Summer Resorts

Hon. Ed. Walthall, Care Seminole Hudson-Essex Co., Sanford, Fla.

Dear Ed: These are the days when most people are pouring over fiction trying to uncover a few secrets. In other words, to come right down to brass tacks, people are very much occupied just now with the printed matter sent out by the so-called summer resorts, trying to find out where they can go so they can come back and tell their neighbors and friends that they have been somewhere.

It's a funny thing, but most of us are afflicted with a "keeping-up-with-the-Joneses" complex, and many kind of a complex is had, each, if not worse.

It takes people lots of time to learn that they can be more comfortable at home during the summer than they can be anywhere else. Where can a man go where he can wander around the premises in his pajamas, and where can a woman go where she can spend her afternoons strolling about in what ever the modern version of a mother Hubbard happens to be?

Laura Jean Libby and Jules Verne used to be considered some class when it came to turning out fiction that was all imagination—plus, but the author of any of the booklets describing real modern summer resorts makes either Libby or Verne seem like an accurate historian.

If a fellow can recognize any summer resort from the illustrations and descriptions he ought to be awarded the first prize in an intelligence test. He could solve a cross word puzzle with a pen and ink.

The only time it ever gets hot at a summer resort is the week you happen to spend there. The only mosquitoes that ever appear at a summer resort are those which happen to follow you from home. The only time it rains at a summer resort is all the time. With these few exceptions, any of them is all right, provided you can sleep on a wash board and have no preferences as to what you eat.

I have tried all kinds of summer resorts and my advice to anybody who wants to go away and come back with something really pleasant to talk about is to load the family up in an Essex Coach and just keep going from place to place. You might not enjoy the places so much but the going certainly will be fine and dandy. Yours, BILL.

## TO REACH BUYERS or sellers of Florida real estate advertise in the St. Petersburg Times. One cent a word daily, two cents a word Sundays.

## THERE'S A DIFFERENCE

My prices on Tires and Tubes are lower. Oil prices are lower too.

And there's more push in the gas.
