SANFORD, FLORIDA, SATURDAY, MARCH 31, 1923

EASTER

GERMAN WORKERS WERE KILLED IN CONFLICT WITH FRENCH SOLDIERS

THE KRUPP PLANT IN ESSEN WHERE TROUBLE IS EXPECTED ORDER STRIKERS

Go Back to Work on Railroads or Pay Penalty of Being Expelled From Country

(By The Associated Press) BERLIN, March 31.—Six German workers at the Krupp plant in Essen were killed and twenty injured in a conflict with French military, a central news-dispatch says.

ESSEN, March 30.—A proclamation by General Degoutte, commander in chief of the occupational forces, ordering all the striking railroad officials and trainmen to resume work under penalty of expulsion was posted throughout the Ruhr and Rhineland yesterday.

The order affects 500,000 Germans and the families of those refusing to return to their posts will accompany them into unoccupied Germany.

Approximately 125,000 men are directly affected by the order. All the Ruhr and Rhineland railway systems are now held by the French. Belgians except the line in the Cologne bridge head, which is in the hands of the British. The Germans have continued to work on this line.

The task of expelling the strikers and their families will require several weeks. Special train arrangements will have to be made for conveying the families of the men to the front.

It is said the German government has anticipated the expulsion order and arranged for distributing the men and their families throughout the country. The men will be given work by the government.

Under a decree by the Inter-allied Rhineland commission the railway workers were notified a week ago by the French that those who refused to serve under the French and Belgians would be expelled from the occupied territory the first week of April. It is said that 1,843 Germans have agreed to return to work.

The sum of 268,000,000 marks has been sent into occupied territory up to date by the Berlin government for the striking railway men and those who have been prominent in passive resistance although not on strike.

BERLIN, March 31.—Trouble occurred through the French unexpectedly proceeding to occupy certain of the Krupp's Motor Works whereupon workers stopped machinery and went outside to offer opposition a message states. Four machine guns opened fire, adds the message, and the six workers fell dead while twenty were injured. The remainder scattered and the French proceeded to occupy the plant.

CHAUTAUQUA SEASON TICKET SALE CLOSES TONIGHT

The season ticket sale has progressed rapidly the last two days, and the local committee feel that Sanford will go over the top. Tickets will be on sale at the tent until the opening of the program at 8 o'clock. Save \$3.25 by having a ticket. Help bring good, clean, wholesome entertainment to our community.

EASTER PARADE IN HYDE PARK WILL BE SOBER

COMPARED TO SMARTNESS AND BEAUTY OF FIFTH AVENUE

(By The Associated Press) LONDON, March 31.—The Easter parade on Hyde Park in recent years hasn't approached in smartness or beauty that on Fifth Avenue and tomorrow American tourists are likely to meet with the usual disappointment as this year styles themselves are likely to be the greatest damper to Easter brilliance. English modiste being concerned over simply women's dress, while men seemingly are determined to be drab dreary in grays and browns.

CELERY MARKETS

Experience is the Harvest of Life---Every Harvest is the Result of Sowing

Experience is the harvest of life, and every harvest is the result of a sowing. The experience which young people most crave is that of success in some service for which they are naturally fitted. And they wish it at once—immediately. Youth wishes to touch a magic button and command success without apprenticeship. But nothing ripens that is not first planted, and the very desires, the impatience, the dreams, the ambitions of youth are by way of a planting which shall come to fruition—sometimes after these desires are abandoned and forgotten. For the sown seed goes on growing whether we remember it or not. The wisdom of life is to keep on planting. Some men never plant after youthful imagination dies, and they reap only the one crop which they planted in youth. Plant every season and life will be a succession of harvests.—Henry Ford in Dearborn Independent.

THIRD ANNUAL REDPATH CHAUTAUQUA OPENS TODAY AT FOUR O'CLOCK IN THE BIG TENT ON PARK AVENUE

Fine Features Have Been Arranged for Big Five Days Program

The third annual Sanford Redpath Chautauqua opened this afternoon at 4 o'clock in the big tent on the city lots west of the court house.

After introductory remarks by our congenial popular platform manager, "Bill" Wright, who has been associated with the Redpath Lyceum and Chautauqua Bureaus for the past ten years, and chosen by the general manager of this great Gulf Five DeLuxe circuit in opening this circuit the past two seasons at Orlando, expressed his pleasure in coming here and asked for the fullest co-operation of the citizens of Sanford in making this year's program the best we ever had, saying every city to date had not one word of criticism to offer against this program but endorsed it as the best ever brought to their city. Mr. Wright brought greetings and best wishes from Mr. Calley, our platform manager last season, who was so well received here.

The Di Giorgio concert orchestra opened the week's festivities, a company of real artists, in a grand concert, both classical and popular. Signor Di Giorgio, has been associated with the musical life of Minneapolis for over forty years, soloist with the leading orchestras and great bands of this country, playing the Alpine horn, the only one of its kind in this country. He is a well known composer—many of his compositions appearing in their program. Mrs. Di Giorgio, is without question, the greatest lady cornetist living, being favorably ranked with Bohmier Kryn, the famous cornetist; their two talented daughters who play the violin, piano, mandolin and guitar, made their first public appearance at the ages of seven and eight years. This family has ten

years of uninterrupted concert work together. Tonight at 8 o'clock this company of artists will open the program, entirely different from their afternoon program, followed by one of the South's well known public men from Arkansas, Granville Jones, who will speak on "The Philosophy of a Hill Billy," a lecture teeming with gems of literature, patriotism and right living, with veins of humor plowing through it, one that should be heard by every man, woman and child in Sanford. Mr. Jones has been most cordially received by every city on this circuit since he appeared in Orlando on the 15th of this month, a big treat awaits those who avail themselves of the opportunity of hearing Granville Jones tonight.

There will be no Sunday program at the Redpath tent, but on Monday afternoon at 2:45 o'clock, Havelock, the funny clown-juggler will thrill the youngsters as well as the grown-ups with his clever antics. Then at 4 o'clock Everett Kemp, foremost dramatic reader of famous plays, will present "That Printer of Udell's."

Wage Increase Agreement Affects Ship Workers Today

(By The Associated Press) NEW YORK, March 31.—A wage increase agreement with steamship owners committee affecting workers at Portland, Boston, New York, Newport News and Norfolk was announced today by Vice President Ryan of the Long Shoremen's association.

SUGAR PRICE SITUATION ENGAGES PRESIDENT TODAY DURING LAST DAY'S VISIT

CONFESSION OF WILSON IS A RUSE

ALLEGED BOMB-MAKER WANTS STAY OF EXECUTION

(By The Associated Press) NEW YORK, March 31.—New York police today expressed the belief that the bomb "confession" of Herbert Wilson, of Los Angeles, convicted of murder, and former evangelist that he manufactured explosive for bomb which killed 39 in Wall Street in 1920 was a ruse to stay his execution for murder. They've asked Los Angeles officials for Wilson's Bertillon record.

WINTER PARK BANKER FOUND IN N. ORLEANS

BARZEE HAD CLOT ON THE BRAIN AND KNEW NOTHING

(By The Associated Press) ORLANDO, March 31.—Roland Barzo, Winter Park banker who disappeared March 2, was heard from by his family this morning. Barzo telegraphed that he had been suffering from a blood clot on his brain and had been under the care of New Orleans physicians.

Beautification Main Highways Discussed Meeting Big Meet

(By The Associated Press) MIAMI, March 31.—The beautification of the main highways of Florida will be discussed at the convention of the state association of County Commissioners opening at Tallahassee next Tuesday.

MIAMI, March 31.—The four remaining army airplanes took the air at 7:45 this morning on the flight to the north and were expected to end their 5,365 mile test flight in Washington Tuesday. The flyers expect to spend Sunday at Savannah.

The Lu-Beth Cafeteria, Sanford's only Cafeteria and one of the finest to be found in the state, is calling your attention to their excellent Sunday dinners that they serve at their place in the new Meisch building, in today's paper are a few of the items that they will serve tomorrow and there are so many different kinds of dishes that it would take up a whole page to list them all so they only list a few in the menu for those who are hungry for something different in the way of eating. At the Cafeteria you see what you get before you get it and you have the greatest array of foods to choose your dinner from. If you will look at their ad in the paper today you will see a few of the specials that they have to offer, then go down there tomorrow for your Sunday dinner and get one of the best meals you ever had for a price that will surprise you at the low cost of such food, and it is cooked well. Try some and see.

Gen. Maunchury Created Marshal of France by Proxy

(By The Associated Press) PARIS, March 31.—General Maunchury, a hero of the battle of Oued, was posthumously created Marshal of France by President Millerand today. He died last Wednesday.

ASSISTANT SEC. HOUSTON EXPECTS TO SEE PRESIDENT DURING DAY WITH INFORMAT'N

That He Has Obtained and That Points to Speculation as Responsible for Rise

(By The Associated Press) ST. AUGUSTINE, March 31.—The sugar price situation seemed likely to engage the attention of the president during his last day here. C. H. Huston, until two weeks ago assistant secretary of commerce, was to see the president during the day and lay information in his position before the executive. Huston is of the opinion that speculation alone is responsible for advanced prices.

WASHINGTON, March 31.—In announcing today's estimates of the world production of the best sugar can for the crop year of 1922-23 at 20,450,000 tons, the department of agriculture said it was not prepared to estimate the probable consumptive demand. The department which pointed out in estimating the supply of stock on hand should be considered that added statistics of stocks for foreign countries are incomplete and unrealized.

ST. AUGUSTINE, March 31.—The president postponed his morning round of golf today to visit the Florida state school for the deaf and made a brief talk to the faculty and students. He shook hands with each of the 300 or more students.

SIMMONS ISSUES ORDERS ABOUT KLAN

DECLARES RIGHT TO PARTICIPATE IN AFFAIRS OF KAMELIA

(By The Associated Press) ATLANTA, March 31.—William Joseph Simmons issued a proclamation here today as "founder and emperor of the Knights of the Ku Klux Klan" declaring that Klansmen had a right to participate in the affairs of Kamekia, a Woman's organization he founded. "Proclamations from the imperial palaces to the contrary notwithstanding."

Many Buildings at Bolling Field Destroyed by Fire

(By The Associated Press) WASHINGTON, March 31.—A photographic laboratory, a hangar and two airplanes were destroyed in a fire today at Bolling field. The damage to war contract records stored in the burned structure was not ascertained.

LOCALS

Buy your Chautauqua Season Ticket Now.

Save \$3.25 by buying a Chautauqua Season Ticket.

"Put Sanford Over the Top." Buy your ticket today.

Showery weather for Easter Sunday.

Good Friday was good for the bank clerks today, giving them a holiday.

13 highest class entertainments for 23c each at the Chautauqua, if you have a season ticket.

If you have not been approached to buy a ticket, remember that they are on sale down town.

When the mosquito campaign begins in Sanford many a good citizen will find out that he has been lax in keeping his premises free from breeding grounds for the pests.

Sheriff Francis Karell and Deputies Peel and Carruthers of Orlando were in the city today. Sheriff Karell is a former resident of Sanford and so is Deputy Floyd Peel and their many friends were glad to see them again.

Chief of Police Ovarstreet of Winter Park was in the city today, and we opine that he was looking for some of the officials of the Winter Park Publishing Co. who published the editor of the Herald in a sewer the other night.

Sheriff Merritt of St. Lucie county was in the city today and this being his first trip to Sanford in several years he was pleasantly surprised at the rapid growth of the city. And in his own city of Ft. Pierce he also has one of the fast growing cities of the east coast.

Remember that you can purchase your Chautauqua tickets at the Herald Office. Get them today and tomorrow or get them Monday if you forget about the Chautauqua starting tomorrow afternoon and night. The big tent is pitched on Park avenue opposite the court house.

William S. Wright, better known as "Bill" Wright, to his many friends all over the county has arrived in the city and will be platform manager of the Chautauqua here. Bill is an American Legion member and one who has been active in all kinds of work for the World War veterans and his "buddies" here will give him a warm welcome.

WOMAN'S CLUB COLUMN

Mrs. Henry Wight, Reporter Phone 345-W

There will be a business meeting of the Woman's Club at 3:30 p. m. Wednesday, April 4, in the lobby of the Welaka building. The regular board meeting will be held Tuesday morning, April 3, at 9:30 at the home of the president, Mrs. R. E. Tolp.

At the meeting of the Social department to be held on April 10, in the Welaka lobby, there is much business of importance to be transacted. Officers are to be elected, and many interesting matters to be discussed, as Mrs. Newman, department chairman, earnestly requests every member to be in her place.

The literature department held its regular meeting at Comfort Cottage Wednesday afternoon.

Mrs. Arrington, finding it impossible to accept her election as chairman, the present devoted head of the department, Mrs. Margaretta Martin was re-elected. With Mrs. C. G. Woodruff as vice chairman and Mrs. S. O. Shindler as secretary-treasurer the literature department is well equipped for the incoming club year. Tentative plans are being made for a program of quick and vital interest. The matter of the death sentence for Percy Bayless was feelingly discussed and after consideration it was voted to wire Governor Hardee for a commuted sentence.

The program of the afternoon was unusually delightful, a fine talk on Current Events by Mrs. R. C. Maxwell and a review of the Religions of China wonderfully well adapted by Mrs. E. B. Browline.

The Social department gave the Bridge party as scheduled for March 26, and it was reported in Wednesday's paper.

When one reads a particularly bad story, one usually—and most unwisely—tells about it, and thereby advertises it. It is a joy to read a story of the type of Timberline, by Temple Bailey in the Saturday Evening Post, of March 24. It is pure in thought and tone and breathes a most wholesome idealism. Speaking of things one sees in the magazine it is interesting to watch Clifford Pinchot in his new job as Governor of Pennsylvania. He has declared himself unequivocally that he will not permit Pennsylvania to stop appropriating money she has not got and get back on the pay-as-you-go basis. I want to see the state government reorganized until it becomes an economical, up-to-date machine for doing the business of the people and I want to see the saloon driven out of our state, and Pennsylvania made unhealthy for bootleggers, both high and low.

Mrs. Pinchot is of the same mind with her husband and is making a fine effort to rally the club women of her state to the strong support of law enforcement.

The Ocala club through some of its members gives annually a subscription and party for the benefit of the Ocala Home for the aged. The Ocala club through some of its members gives annually a subscription and party for the benefit of the Ocala Home for the aged. The Ocala club through some of its members gives annually a subscription and party for the benefit of the Ocala Home for the aged.

Of exceptional interest was the game of bridge played during the evening, those holding high score at each table were given rainy vanities. Those winning these were Mesdames Frank Miller, J. C. Bennett and D.P. Drummond.

OUTLAWS DROPPED TO DEATH

Mexican Authorities Alleged to Have Devised Unique Punishment for Murderers and Robbers.

Thrilling stories of his experiences with Mexican bandits are told by E. W. Hammond, who has charge of the Humboldt Oil and Refining company. He has been traveling through the wilds of that country for many years and has come into close contact with many bands of brigands. On several occasions he was captured by outlaws and his life threatened but he always managed to come through unscathed. One of his interesting statements a few days ago was that the government authorities of the Tampico district had adopted a new method of putting bandits and revolutionists to death. Instead of standing the condemned men in front of a firing squad, as has been the usual practice, the prisoner is tied to an airplane and taken to an altitude of 4,000 or 5,000 feet and there the rope is cut and the man falls to his death. It is asserted that this unusual form of meeting out the death penalty has thrown terror into the hearts of the criminal element and that there has been a very noticeable decrease of murders and robberies since the aerial route of dealing out death was adopted.

DUCKS KILLED BY OIL WASTE

Polluted Waters, It is Declared, Have Destroyed Thousands of the Finest Game Birds.

The destruction of thousands of game birds each season by their alighting in oil-polluted waters has been before the attention of sportsmen for some time, and many efforts have been made to remedy conditions in different sections of the country. A bulletin of the American Game Protective association says that if the oil-burning transatlantic and coastwise steamers would take the same view of the matter as the Northern Pacific railway we would have little cause to worry about the oil menace on tidal waters.

For years many birds have been killed by the oil waste at a round-house jump of the Northern Pacific system at Las Vegas, Nev. The United States bureau of biological survey took the matter up with the company and has been advised that conditions will be remedied immediately. The railroad company is installing an all-copper plant at considerable cost, which will not only eliminate the menace to water fowl, but will prove a source of revenue to the company in utilizing materials that up to this time have gone to waste.

"Plastic Wood" is New Product.

A new product, made by colloidal processes and just put on the English market, is announced by the Chemical Age. The interesting thing about this product is that it may be used to repair broken or worn wooden articles. A pattern is made of the article and the plastic wood is filled into the mold and allowed to set hard. This takes but a few hours, and the product obtained is said to be extremely hard and possesses of all the characteristics of wood except that it will not absorb moisture as wood does. This hard plastic wood can be worked with the usual carpenter tools, and nails, screws, etc., can be driven into it without fear of splitting.

Man of Her Own.

It was a conversation on the bus. "Yes, she's a good girl, satisfied to work hard as long as she gets one afternoon off a week. But last week she changed her day. It was a little awkward for me, but I didn't like to refuse her."

"She had planned to get married on her afternoon off, but she had had a special delivery letter from her young man telling her he couldn't make it and change it to Sunday. So she took Sunday off."

"Back again? Oh, yes, she's back. And they've got it fixed now so they both get off at the same time. She says it's so much nicer to have a man of her own when she goes out than to go out with the other girls."—Chicago Journal.

Urge Adoption of Metric System.

In a report made to the house of representatives by the committee on coinage, weights and measures which favored the adoption of the metric system by the government of the United States it was pointed out that, according to estimate made by the bureau of education and others, two-thirds of a year would be saved by the adoption of the metric arithmetic. It is also averred as a matter of evidence that the metric system and its application to the solution of problems may be learned in one-tenth of the time required for gaining equal facility in the use of the English system of weights and measures.—Washington Star.

A Dash of Salt With This One.

Here's a fish story about a dog. It's the dog "Doc" again, who lives out Grand river. His master says that after "Doc" backed up against an electric heater a few days ago and singed his tail he has understood perfectly the mission in life of the heater. "The dog came into the house the other morning when he was cold," relates his owner, "and darned it he didn't go up to that heater, and back to have the current turned on—he could get warm." Some dog!—Detroit

Perfect baking is the art of producing fine foods. Our master bakers construct a loaf of bread that appeals to every family's sense of food value. Our pastries will make you wonder why meal-times don't come closer together. When you write out your next grocery order write the name of our bread upon it and insist that you get it.

O. K. BAKERY

Orlando - Florida

TO THE FATHERS AND MOTHERS OF SANFORD.

You are all eager, I know, to give your children every educational advantage possible. Some of them may not be able to go to college, but right here in Sanford they are going to have ten (10) opportunities of broadening and deepening their education and of developing their taste for the right kind of entertainment. This will be at the low price of 17 1/2 cents per entertainment or less.

This is the CHAUTAUQUA which will be held at Sanford beginning March 31st and lasting five days. All students under 12 years may buy a season ticket for \$1.00 and those over a special student ticket for \$1.75. This is a reduction allowed usually to college towns.

Do you think you can allow your child to miss such an opportunity? These tickets are on sale by the Doy Scouts, at the Grammar and High Schools. The Special Student Tickets (\$1.75) are on sale only at the High School, but may be had on application by any student over 12 years. Special arrangements will be made with school work so that the pupils may be able to attend every entertainment.

HAVE YOU BOUGHT A TICKET FOR YOUR CHILD? 310-51d; 11w-c.

FOR THE MOVIE FAN

One fine picture last night.

It has the town a talkin'.

Peter Kyne writes some real novels, and the company that put his best book of the screen, knew their business.

"The Pride of Palomar" will be shown again tonight for the last time in Sanford. Don't miss it.

Two families get the free tickets for this fine picture tonight. Fred R. Wilson and family and Mr. and Mrs. Geo. L. Hoy are invited, and the management expects them to be there.

"Heroes of the Street" for Monday night, and then one of the strongest programs of the season follows throughout the week. Get your copy of the program and don't miss any more than you just have to, as next week will be real Easter specials.

HUMBLE WORK IS RESUMED

New York "blim" Reported to Have Gone Back to Occupation That Pays Little.

In all New York the "blim" has doubtless the humblest profession. Without capital or skill, he has long followed his career with more or less profit. Years ago, he was a familiar character throughout the city, but the war drove him from his accustomed haunts. With the increase in building activities throughout New York he is once more appearing in considerable numbers.

The "blim," if it may be necessary to explain to newcomers to the city, is usually a tramp or some one reduced to want, who collects wood from new building enterprises or from buildings being demolished, and prepares and sells bundles of fire wood. The profession requires no capital or skill, nor indeed any tools. The wood is usually broken by the simple expedient of smashing it to pieces with a paving stone.

Any "blim" who would save from his income and purchase a modern tool, like a hatchet or axe, could greatly increase his output, but such efficiency is not expected of the tribe of "blims." Hundreds of these men could be seen in vacant lots in past years, laboriously and clumsily breaking up cast off timber. His product found a ready sale. The price of common cypress for a bundle of such kindling in the past was 10 cents, no more or less. Since the war the income of the "blim," like that of so many other workers, had taken a jump. The same product today commands a price of 20 cents.

WILLIAM E. HOPPE WILLIE HOPPE RUNS 300

CHICAGO, March 31.—For the first time in 17 years, during a performance here, Willie Hoppe, champion of the world at billiard players, has run a string of 300. In 1906 Hoppe ran 300 in a match here with Jack Schaeffer, Sr., whose son, "Young Jake," recently lost the world's title to Hoppe.

Jap or Chinese.

The eldest son of the mayor of Jap, a 14-year-old boy, who is about nine years old, is a shrewd observer and no doubt knows what his elders say. He can, however, find his own way of expressing himself. He was in a newspaper office a few days when an eastern "drummer" came in, showed his wares and said he would call again. A discussion ensued in the office whether the visitor was a Chinese or Japanese, when Hiram spoke up: "He said he would come back. If he does, he is a Chinese, but if he doesn't come back you can know he is a Japanese." Evidently the Chinese have an enviable reputation in Hiram's judgment, for "truth and veracity."—Indianapolis News.

TRAIN SCHEDULE

CORRECTED NOV. 14TH, 1922

Table with columns for Southbound, Northbound, and Ovidio Branch, listing arrival and departure times for various train numbers.

Mrs. Mallory Once More is Defeated

CANNES, March 31.—Mrs. Molla Bjurstedt Mallory yesterday ended her tennis campaign on the Riviera by again meeting with defeat—this time in the mixed doubles. Paired with Baron DeMorphurgo, the American Champion lost to Mrs. Satterthwaite and Jack Hillyard, 5-7, 5-7.

Mile Vinco defeated Senorita de Alvarez 2-6, 6-4, 6-4, in the women's singles. Mile Vinco is the remarkable young French girl, not yet 20 years old, who defeated Mrs. Mallory in the singles Thursday, 8-6, 9-7. Senorita de Alvarez is a sensational 18-year-old Spanish player. She has taken one set from Miss Elizabeth Ryan, the Californian, in each of the two matches in which they have met. Both Mile Vinco and Senorita de Alvarez are considered by the experts as contenders.

Sandspur League is Name of New Loop Just Organized

Palatka, Geah and Lake City Already Signified Intentions of Joining. Others Coming in.

Once more Sanford is forced to pass up an opportunity of joining an independent league on account of the base ball park we haven't got. This new league will be known as the Sandspur League, which by the way is the name of the Old Sanford and Orlando League of years past, and this new league will have some of the state's best independent clubs lined up, such as Palatka, Lake City, Ocala and others.

J. R. Boaz, we believe, is the daddy of the new league. Mr. Boaz is the big magnet of Palatka. C. G. Rose is the new president and J. R. Lake is secretary-treasurer. The season will open April 16, and close Labor Day, with a split season in vogue.

As these new leagues organize around us it brings home more forcibly than ever the urgent need of a base ball park and play ground in Sanford. The Herald fully realizes that there is a committee working hard towards this project, but it does seem that with the many real big things being put over by Sanford all the time, this one need could be filled without any unusual effort on the part of the Sanford people. And if Sanford wants a big league club hanging its hat in Sanford next year, that base ball park should be started now, so that it could be ready for next season.

With the fine material right here at home, Sanford could have a club that could easily compete with any of the teams that are joining these new leagues, and a base ball park would assure Sanford of base ball this season. But if something is not done soon in the way of getting that park, the fine material that Sanford now has will be out of the game on account of old age. Let's start something!

The Valdez Grill, now under new management, offers the public a better food service; in their ad today they have a special Easter Sunday dinner and if you will look at the menu in the ad you will not only be surprised at the low cost of such a fine dinner but if you are hungry you will sure have your dinner there tomorrow.

For quick results try a want ad.

Sanford High Plays Its First Game—Rain Stops Things in Sixth

Lake Monroe Had Edge on Feds When "Old Sol" Said Good Night

The Sanford High School opened their season yesterday at Lake Monroe, playing against the fast team of that place, and when the rain came in the sixth it found the Monroe lads on the long end of a 3 to 2 score.

With some practice and a little more work out the Feds will look much better and should get at least an even break in their games this season.

The Moge Brothers, Mutt and Ed, were the batteries for the Feds and they both looked good. The game was played on the Lake Monroe diamond before a fair sized crowd and from the way both teams performed, something good is in store for both of these teams before the season ends.

AGE MATTER OF COMPARISON

Actual Passing of the Years Really Has Little to Do With Coming of Deceitfulness.

John R. Voorhis, president of the board of commissioners of New York city, recently celebrated his ninety-third birthday by doing his usual day's work. He arose at 4:30, his usual time, and after his usual hearty breakfast walked as usual to his office more than a mile away.

Being ninety three doesn't mean anything unusual to this man whose span of life has been two-thirds as long as that of the American republic. Age is, after all, remarks Thrift, greatly a matter of comparison. A few days before Mr. Voorhis' birthday he said that, while walking briskly to his office one morning, he noticed a seventy-five-year-old man feebly hobbling along the street, tottering with every step and seeming to have a terrible time to navigate even at the slowest pace.

"It was a great pity," commented Mr. Voorhis, on this sad spectacle, "to see such a young man so nearly disabled by old age."

Yes, it's largely a matter of comparison. At sixteen, forty is old age; at ninety three, seventy-five is youth. The actual years count for naught. More and more we find this out.

CALLED ON FOR MUCH WORK

Amount of Labor Performed by the Human Heart is Almost Beyond Power of Description.

The heart of one man in a lifetime pumps as much blood through the body as the blood weight of the 10,000,000 men killed during the war, according to Dr. J. Pleisch, a professor in the Berlin Medical school, an authority on blood circulation and the first man to perfect a system for measuring the blood content of the human body.

"The heart of a man weighing 133 pounds and living sixty years," he said, "pumps during the course of his life 161,500,000 quarts of blood. The World war cost 10,000,000 lives. Estimating the average weight of a man's body at 133 pounds and the weight of the blood content at 5 per cent of the total, some 21,400,000 quarts of blood were shed during the war."

Professor Pleisch used this illustration to show how much more powerful is this marvel of nature than the destruction which mankind with the most ingenious instruments of warfare was able to inflict upon itself in five years of desperate effort.

Wheeler Finds Florida "Wet" in 18-Day Tour

Anti-Saloon Leader Approves Bills To Go To Capitol

The Florida Journal says: Florida's failure to enforce the prohibition laws resulted in a 20 per cent increase in the state's penal population during the period when other states were showing decreases ranging as high as 50 per cent and more.

Other states have been enjoying the benefits of prohibition to a much greater degree than Florida for the reason that this state's extensive coast line has made it easier for rum runners to land their cargoes.

If the Florida legislature will enact the legislation necessary to enforce prohibition, this state can get practically the same results as other states are now enjoying.

These statements were made by Wayne B. Wheeler, general counsel for the Anti-Saloon League of America, who passed through Jacksonville Wednesday night, en route to Montgomery to join members of the headquarters committee of the league.

Mr. Wheeler spent several hours

between trains, and held a conference with C. W. Crooke, superintendent of the Florida Anti-Saloon League during which he discussed legislation which Mr. Crooke plans to submit to the legislature.

Mr. Wheeler commended proposed Florida legislation providing jail penalties for violations of the prohibition laws, and several other bills that will be introduced in the legislature. Among these are a law to make it a felony to sell poison liquor, and a measure looking to the establishment of a state constabulary.

"The state constabulary bill is very important," Mr. Wheeler said. "It would provide protection for sparsely settled districts, and would provide highly effective in the better enforcement of prohibition laws."

"There would be no additional tax burden upon the people as a result of the constabulary, for under terms of the bill the expenses would be paid from the fine and forfeiture fund, which is maintained by violators of the law. It is quite just and proper that those who make necessary the establishment of enforcement agencies should be required to pay for their maintenance."

"And even if the taxpayers had to pay the expenses it would still be a good investment."

to a large degree in prosperity and happiness. The two breweries that formerly operated here, now are manufacturing soft drinks and are prosperous. The profits of prohibition to Florida, however, have not been as great as to other states where smugglers do not operate as here.

"Florida's penal population increased over 20 per cent in the face of decreases everywhere else in the country. There were 35 deaths due to alcoholism in Florida during 10 months of 1922. This record is exceptional and is due largely to the open coast line, offering rum runners a good opportunity to distribute contraband."

Mr. Wheeler was in Florida 18 days and made 18 addresses. He visited the more important cities down state, and had planned to deliver an address here but his schedule prevented it. He will meet with the national headquarters committee in Montgomery on Thursday and go on to Washington from the Alabama capital.

MAGIC NAMES...

The influence of advertising is apparent in every turn of my daily life. I find I cannot disregard it. It is always with me, guiding me in my pleasures and in my duties, telling me what I should eat, wear, and use and what I should buy for my family.

I find that there is on the tip of my tongue a multitude of names the mention of which will bring from some shelf nearly everything that I can use in my daily life and in the daily life of my family.

In every instance that name means a very definite promise and assurance of something substantial and which will make me feel completely satisfied about having exchanged my money for it.

Let me say a few things which these names—these old friends of the newspaper and magazine pages—mean to me.

They mean good taste. For certainly I desire to

do the thing that I believe discriminating people have judged best.

They mean convenience. It is not necessary to describe the thing I want. Even the most intimate articles may be purchased without embarrassment since the advertisers have given us handy names.

They mean assurance in shopping. There is no indecision. Even before I enter the shop I know what I want to buy.

And certainly they mean satisfaction. For the advertiser whose product is not good cannot continue to advertise. The fact that I have seen a name repeated over and over again assures me that it stands for a product of quality. In speaking that name to the clerk I know I am asking for the best.

I am a more judicious shopper because I buy advertised goods. I patronize the shop that sells them.

(This was written by a woman)

NO SUMMER IN SIGHT FOR CANADIANS IS THE NEW PROSPECT

TORONTO, Can., March 30.—Shivering Canadians who follow the forecasts of local weather prophets, were all worked up today over predictions that this year would pass without any summer.

With the temperature at or below zero, throughout this section, local forecasters harked back to 1810, for a parallel for the summerless year they are predicting. In 1810, historical records say, there was frost in every month of the year. Birds were killed. Corn and other crops failed to ripen and the Northern United States, they say, was treated to a June snowstorm.

Sir Frederick Stuart, director of the meteorological service, asked concerning the predictions, refused to guarantee a 1923 summer, though he thought there would be one.

The Daily Herald, 15c per week.

LEADS MILLIONAIRE'S LIFE FOR WEEK, DOES NOT SPEND A NICKEL

NEW YORK, March 30.—His only source a suit case containing two telephone directories, and a bundle of old newspapers, and a thorough knowledge of the ways of hotels, Wm. Liefer, former bell boy, lived the life of a millionaire for a week at the Vanderbilt hotel, without even spending a nickel for tips, it was disclosed today.

Liefer was arrested at the end of his gorgeous week, just as he was about to move on, and admitted in court today that he was a mighty poor rich man. He pleaded guilty of defrauding the hotel and was sentenced to from six months to three years in the penitentiary.

Besides his bill for rooms, Liefer ran up accounts for theatre tickets, taxis, cigars and food—and even had his dining room tips added to his checks and collected by the waiters from the cashier, the probation officer said.

EASTER SUNDAY AT THE CONGREGATIONAL CHURCH

There will be special services at the Sunday school at 9:45 a. m. At eleven o'clock there will be special music and the Communion service, besides a short message upon

VICAR'S FATE IS UNKNOWN, MAY BE KILLED

MOSCOW, March 31.—The death sentence imposed on Vicar General Butchavitch, the commutation of which was denied by the general executive committee has not yet been carried out it was said at 5 o'clock this afternoon.

In today's paper the Churchwell Company have something special to offer in Men's Suits and straw hats, also men's, Ladies' and children's slippers, so if you want to save money and get the most out of every dollar that you spend for their line be sure and call at their store, even if you do not want to buy. They will be more than pleased to have you pay them a visit and will show you anything that you wish to see in our store.

Conjecture As To Whether Soviet Killed Him Or Not

(By The Associated Press)
 MOSCOW, March 31.—Inquiry at a number of government departments today failed to reveal whether Vicar General Butchavitch already had paid the death penalty. The general impression last night seemed to be that there is slight probability of the central executive committee changing its decision to grant no clemency to the prelate.

The Herald delivered six times a week for 15c.

SANFORD HIGH SCHOOL NOTES

Test week for the Fifth Month! Some of us are just beginning to realize that we have "some studying" to do—if we don't want to "flunk."

Mr. Callaway, Advancing agent of the Republic Chautauqua, gave us some "inside dope" on the Chautauqua in Chapel Tuesday morning. We learned that we are of the privileged class. We get Chautauqua tickets at \$1.75. "Prof." adds that if 100 of us buy tickets we'll get out at 3 p. m. How about the 100? Let's go "over the tip."

Almost everybody attended school Friday, as Wednesday in chapel the "death warrant" was read.

We have learned to expect all kinds of things! Wednesday morning, "the morning after the day before," Tuesday being faculty meeting.

The members of our S. H. S. Orchestra are showing us what they are made of. They have played for us to march in by every morning and on Thursday morning gave us a selection.

Miss Gray hasn't forgotten the Victrola this week. We have been entertained by the following numbers:
 "Chimes" by Samaroff.
 "The Hem of His Garment," (Rod-heaver)
 "Tannhauser," (Philadelphia Symphony orchestra).
 "The Sweetest Story Ever Told," (Sophie Braslau)
 "Carry Me Back to Ole Virginia" by Alma Gluck accompanied by male chorus.

"Sally" goes to press in a few days and we're all busy getting material for her. Rodman, Ralph and Elizabeth have gotten a goodly number of "Ads" for her and the list of advertisers on the board grows larger every day. If you want your "Ad" in this world known and widely read publication, "Hurry Up."

New Easter Records.—J. H. Wintermister Piano Co. 2-11c

EARLY HISTORY OF DETROIT

Interesting Now to Read of Fort Erected for Protection of Citizens Against Indians.

For nearly twenty years following the American occupation of Detroit in 1700 the Indians of the Saginaw valley harassed the citizens by threatening attacks upon the town, and by stealing their cattle from the public common through which Washington boulevard was afterward surveyed. Fort Shelby, which then centered about the present site of the post office, did not intimidate the Indians from invasions of the common, so a circular earthwork fort was constructed just east of where High and Park boulevard now converge for additional protection. The work was performed by soldiers from the fort during the year 1800-7.

When finished this fort enclosed a circular space of half an acre. The walls were ten feet high, with an inside parapet half way up. It was surrounded by a broad ditch about six feet deep, which the swampy ground kept filled with water. For several years a small detail of soldiers went out from Fort Shelby in this post to stand guard against cattle thieves, but nothing ever happened, so the inhabitants called it Fort Nonsense.

Years later Rev. George Duffield, D. D., bought the land and built his residence on the Woodward avenue front. Streets were laid out on each side of this lot. That on the south side was named George street and that on the North, Duffield street. The old fort was razed and graded level. For some reason George street was renamed High street.—Detroit News.

SNOW HOUSE NEEDS CARE

Constant Changes Necessary in Roof to Keep Interior Heat as It Should Be.

The Eskimo makes constant changes in the thickness of the roof of his snow house, or igloo, to keep its interior heat uniform.

Vilhjalmar Stefansson, the Arctic explorer, tells about a snow hut built at 50 degrees below zero. Each block of snow used in its construction was necessarily of the same temperature and contained what might be wrongly termed a great deal of "latent cold." To neutralize this cold it was necessary to keep the inside of the hut for a considerable time at a temperature of 00 degrees Fahrenheit.

Snow is so nearly a non-conductor of heat that, once the "latent cold" had been neutralized, the heat of human bodies alone kept the temperature well above the freezing point, even when a hole in the roof was open for ventilation. Sometimes when the heat rose too high the roof would begin to melt. Then the roof had to be shaved on the outside anywhere from two to four inches thinner so that the cold from the outside would penetrate the snow blocks.

TO HELP HARVEST TOMATOES AT MOORE HAVEN, FLORIDA

PACKING HOUSE OPENS APRIL 10TH

When you arrive at Moore Haven apply to Mayor Daniels

To the man who likes to putter around with tools

When you want a piece of lumber "just so," let us furnish it. You'll be building a house some day, and we want to make you acquainted with our quality and service now. Don't hesitate to "bother us with a little order." Just tell us what you need and we'll fix you up. We've lots of friends, but not enough to suit us.

HILL LUMBER COMPANY
 PHONE 130 — SANFORD, FLORIDA

Ask Me Again.

A few days ago a friend called me up to ask how to make a mint julep. Writes Russell Seeds, in the Indianapolis Star. On being assured that he was not joking, but really had the makings, I scented possibilities and called in with enthusiasm. I told him how to crush the ice fine and pour it into the tall glass, then put in a couple of sprigs of smashed mint and the granulated sugar and add a stiff tumbler of genuine bourbon and shake it up, and then decorate the top with a bouquet of fresh mint and watch until the frost had formed on the glass.

"Thank you so much! Come down some time and we'll have one together."

But do you think I let him get away? On your life, no! They have slipped me that "some time" stuff for the last time. I have seen too many enchanting visions of house parties and week ends fade and die on the waiting list. I thanked him profusely and told him I'd be there in fifteen minutes. And I was!

NO MORE LOCAL HANGINGS

Now that the matter of public executions has been brought very forcibly to the people of this county, the efforts of the Federation of Women's Clubs should be backed up by a number of representative citizens. It is the thought of the best citizens in the state that either capital punishment should be abolished altogether or all of the executions should take place at the state capital or at some other central point in the state.

CONGRATULATIONS TO OUR SHERIFF

There is one man in Seminole county who has had a big load lifted from his shoulders since yesterday and that man is Sheriff Hand. Since the 20th of last September our big hearted, good natured sheriff has been worried from time to time over the safety of the negro who had killed his deputy sheriff. Torn between conflicting emotions, love for his under officer and devotion to his duty as an officer of the law the sheriff on the morning of the murder had to spirit the negro to Orlando and then to Tampa for safety and received the condemnation of many who were anxious to get the negro and hang him up.

WE SELL YOUR REAL ESTATE WHEN YOU LIST IT WITH US. We have several unusual bargains in real estate to offer at this time.

Maxwell & Britt AGENTS REAL ESTATE. Fire, Casualty, Auto Insurance. 108 W. First St., SANFORD, FLA.

opened. The sheriff was on a nervous strain for months for he knew not what the morrow would bring and then he had to take human life at any stage of the game and even though he had provocation enough he is human all the way through and is a real man as well as a sheriff.

CLEARWATER CHOOSES A CITY MANAGER

Clearwater, several months ago, voted to join the long list of Florida cities and towns adopting the commission-manager form of civic government and has now made selection of a city manager, going out of town to secure that official.

That very function of the new government has been one of the big problems—the choosing of the executive branch of the government. Since the first object of the commission-manager form is to divorce politics from government, it is essential to select as the contact man, for that is what a city manager really is, one who is unbiased and who has no strings attached, no rewards to make good and no favors to bestow.

In the earlier days of the new system it was difficult to convince the people that they could be better served by a stranger than by a home man and then, too, the situation was further complicated by the trouble experienced in getting trained men. Today there is an improvement because some of the best men in the country are now undergoing schooling in civic affairs with the object in view of ultimately entering this very useful occupation or profession, that of city manager or executive.

CHAUTAQUA ENTERTAINMENT AND WHAT IT MEANS TO A COMMUNITY

Everybody everywhere is in pursuit of that will-o-the-wisp phantom called Happiness. Some find it (and Peace) in Service. Others try to find it in Jazz, and end up in Discard, giving the world nothing and gaining little for themselves.

The Chautauqua is more than an entertainment. It is a thought-force at work as positive and constructive for the better things of civilization, as jazz nights or idle revelry are negative forces that put a veto on up-building of any sort.

From a musical and dramatic standpoint a Chautauqua program brings you in touch with the world's best. It is not in any sense a "high brow" affair, however; just clean, human entertainment with sparkling comedy, drama, popular classics or the love-play of Hawaiian music with its heart appeal—which is almost universal.

Chautauqua "weeks" make for better citizenship, by bringing to a community men of big vision, builders of character, men with a worth-while message which stimulates the host, gives an uplift to the entire community and helps the small town youth to "find himself."

The story is told of a country boy riding 25 miles to hear William Jennings Bryan give a Chautauqua lecture and how it awakened him to a realization that he, too, could do things worth while in the world's work.

Though not posing as reformers or preachers, they bring you as lecturers the type of men who make you want to do the things worth while. The governor Broughs, the Fletchers, the Ira Jones, the Bryans, the Roosevelts, the Harding's that sound your mental depths and measure your spiritual heights.

The Redpath Chautauqua has just recently branched out in a service which is national in scope. They have installed a department of scientific research at Chicago under the leadership of that eminent scientist, Milton Ira Jones. As an instance of what this service will mean, it is announced that amateur radio workers all over are at liberty to send in their problems to this Science Service, and they will receive gratuitous assistance.

President Harding states that "It has been to me a personal satisfaction, as well as an intellectual and spiritual opportunity, to be numbered among the lecturers who have carried the message of Chautauqua throughout the country in its effort to bring a message to those who seek illumination of public questions and the broadening of community vision."

BABSON COMMENTS ON PACIFIC COAST

GENERAL OUTLOOK GOOD—GIVES WARNING TO CALIFORNIA

MOUNTAIN LAKE, Fla., March 31.—Roger W. Babson is resting here having just completed his long trip of inspection throughout the different sections of the United States. He leaves here next week for his home in Wellesley-Hills, Mass. This morning he issued the following statement regarding the business prospects of the Pacific Coast. He added, however, that he was unfortunately unable to visit the coast on this trip and this statement is based upon statistical data and reports from his correspondents.

"The Pacific Northwest," says Mr. Babson, "is looking forward to better business. Prospects are encouraging for lumber, fishing, shipping, and agriculture. Practically all of the large sawmills of Washington and Oregon are now operating, and production is above normal. A number of mills are even operating two or three eight-hour shifts. Orders for lumber are averaging larger than production in spite of strengthening prices. Many mills have sufficient business on their books to keep them running at capacity for some months. On the whole the lumber outlook is good for some time. Of course, the building boom is largely responsible for this active demand. Later, there may be a let-up, but I look for active residential building throughout the greater part of 1923."

"Salmon canning has a fairly good outlook. Plans have been made for a substantial increase in the pack this year. The employment of more men, and the purchases from ships' chandlers, can-making plants, machinery houses, and food and clothing establishments, will continue to contribute towards better business. From an agricultural standpoint, Washington and Oregon are in a 'better' position than most states. Crop diversification is an outstanding feature. Moreover, the crop yield each year is exceptionally heavy. Apples, hops, berries and small fruits all bring wealth to the grower. Under these conditions, the farmer of the Pacific Northwest enters the new crop year in a strong position. This year's crops cannot be fully forecast, but wheat came through the winter in excellent shape and the canneries appear to have contracted for a large amount of berries and small fruit."

"With lumber production at high levels, with more active canneries operations than a year ago, with considerable ready cash in the fruit, sheep, and farming country, and with an increase in shipping trade, the Pacific Northwest is headed towards a gratifying increase in business. Uniform and complete prosperity cannot be expected for some time and there will be intermediate reactions. The outlook is relatively good, however, and advertising and selling campaigns in this section should produce generously. The prosperous Wenatchee Valley is most attractive; but Seattle, Tacoma, Portland and other Washington and Oregon cities also merit attention."

"Regarding California," Mr. Babson says, "the northern part of California has been settling down with the rest of the country. Lumbering, mining, stockraising, wool growing, canning and other lines, have been quite thoroughly liquidated. San Francisco and the Bay region have been dull for over a year. For this part of the state a slow but steady improvement is in prospect. Southern California, on the other hand, did not reach the peak of the present cycle until the latter part of 1921. It will doubtless escape the critical phases of the depression; nevertheless, it may not have completed its period of readjustment."

"Many factors suggest this outlook for Southern California. I see nothing in any of these factors, however, to occasion alarm. The great diversity of crops and industries upon which California depends and the efficient marketing characteristic of the state should tend to prevent any serious depression. I emphasize the probability of further moderate liquidation, as I know from my correspondence that many look for uninterrupted expansion. For the long pull, California is unquestionably sound; but during 1923, business may mark time. Southern California should be included in all sales campaigns, but as the years progress both sales and credit departments should proceed carefully."

"In explaining the reason for this," Mr. Babson continued, "if you picture the country as a placid lake and imagine that somebody drops a rock into New York, you will get a vivid idea of how an economic movement begins and develops. The ripples of depression and prosperity spread to the North, the West and the South. Take the recent depression, for example. It started in the Northeast, with a decline in the stock market and a slowing down of New England factories. Then came the crash in the agricultural west and the South. Canada held up for some time after depression appeared in the states. The Pacific Coast was among the last areas to be affected. Improvement is going to follow much the same course."

"The northern parts of the Pacific Coast district is running true to economic form. There was a distinct decline in Washington, Oregon, and Northern California. Moreover, this decline did not develop until some time after the onslaught of the depression in the Northeast. All this was entirely typical and easily forecast. In the southern section of California, however, the trend has been greatly modified. Reaction has taken the form of a pause in growth rather than any prolonged downward movement. In Los Angeles, for example, during the boom year of 1919, business nearly doubled. But in 1921 and 1922 it about held its own. It is possible, of course, that some weakness may develop later; but in view of the industrial progress of the locality, such a recession should not be severe."

"I hesitate when in Florida," continued the statistician, "to forecast definitely for California. First, because I am apt to be misquoted by some of the Florida enthusiasts; and secondly, because I love and believe in the Pacific coast. California may some day have a population of 25,000,000—or perhaps more. It has the possibilities of a great empire. On the other hand, it has no monopoly of sunshine and its more rapid growth is due to the fact that Florida has been asleep. However, I say this as a friend of California because I want California to realize that during the next ten years it will have more competition than it has had during the past ten years. Trees do not grow to the skies and this applies to orange trees as well as to every other specie. Little does California realize the tremendous orange plantings in Florida during the past few years. These will come into bearing almost at one time—about 1927. Beginning then, there is bound to be a tremendous struggle for eastern markets between these two states. I want my friends in California to be prepared for the flood when it comes."

California has been far less fortunate or immune from the great business depressions," added Mr. Babson in conclusion. "This is due to the great influx each year of new people with money. People who made money in other states have been carrying it to California. When business in California would have fallen off, this natural decline was offset by new people and new money coming from other states. Can this always continue? I simply ask the question and urge my good California friends to think about it. In the meantime, let me say that business, taking the country as a whole, is making an exceptionally good showing. The Babsonchart stands today at 5 per cent above normal compared with 12 per cent below normal a year ago today."

WHO SHALL JUDGE THE SCHOOL?

It is a perfectly natural interest—this wanting to know what our schools are teaching. This country last year spent a billion dollars for education. How was it spent? But it is quite another matter to assume to judge whether it is properly spent or not, whether it is fitting our boys and girls for what we ask of them, whether it is meeting the needs of the present. Who is to say what are the needs of the present? Surely our educational system is just as scientific, just as sensitive to meddling as our tariff law ever was. We are all interested in the tariff, how it affects our table or our business. But we are coming to talk in terms of a scientific tariff board rather than of political log-rolling. It is dangerous business to adopt methods for our educational surveys that are already pretty well discredited in other lines.

The old system of education has two thousand years of history behind it; the newer way has only forty or fifty years. Naturally there is not much to show yet in specific accomplishments. But the underlying principle is the same: that elementary education should consist of the "fundamentals."

But who is to say the fundamentals of yesterday are the fundamentals of today. To impose such a dictum upon our public schools would set up a class distinction as between the well-to-do children and those parents would provide the broader culture and those whom a narrow trade training would keep forever in the social stratum of their parents.

Variety, even multiplicity of courses, is not necessarily frills and extravagance in education. This thing of experimentation can be carried too far or too fast in education as in anything else. But variable education is essential so that out of the experience of the present and need of the future all the children that can be urged into school will be educated more nearly to fit the individual rather than class.

Another point against the convict leasing system. Walter Higginbotham, a private convict guard in the employ of the Putnam Lumber Co., of Perry, Fla., is in the Dixie County jail charged with first degree murder in connection with the death of young Martin Tabert, of Munich, N. Dak., more than a year ago. Young Tabert was arrested and fined on a charge of vagrancy, the specific offense being that he was riding a freight train. He was with other county convicts, was leased to the Putnam Lumber Co. and sent to the company's Dixie county camp. He died about fourteen months ago as a result, it is alleged, of a flogging administered by one of the company's convict guards. The affair was passed for the time with but little notice, but about two months ago attention was focused on the matter by a resolution passed by the North Dakota legislature demanding an investigation. The resolution formed the basis for an exchange of letters between the governor of Florida and the governor of North Dakota, the former claiming that the resolution served no useful purpose, as an investigation had already been started. Recently an organization styling itself the Defense League of Chicago, has been circulating literature concerning the affair and reproducing affidavits gathered in connection with it, and it is said to be raising money to prosecute those responsible for Tabert's death. The net results, thus far, of this publicity and the investigation started by Governor Hurdee is that Higginbotham has been arrested upon an affidavit sworn out by the state's attorney, who acted in lieu of grand jury action, the Dixie county circuit court not being in session. This unfortunate affair will hasten the abolition of the damnable convict leasing system. In fact, its doom is already sealed. Those employers who have lined their pockets at the price of human slavery and human blood are hearing the end of their road. The system has brought a stigma upon the fair name of the state of Florida that it will take years to remove. It ought to be

MORE ACTION NEEDED AND LESS POSTPONEMENT

Nearly every county in the state is a unit as to the calling of meetings to discuss the matter of ridding the community of mosquitoes. The sentiment for action is almost unanimous. In some issues of county papers there will be as many as four calls and articles extremely pertinent to the project. Yet there has been practically nothing done. Florida has been paying out a considerable sum to interest the entire state in ridding each county of the plague. The state board of health has demonstrated what active work or methodical action can bring about; at the same time it has frankly declared that co-operation between the state and the county and the city must take place before there can be accomplishment to a marked degree. Up to this time all that has been brought about has been talk. Men who have studied the matter of elimination have explained, although it is to be regretted that the percentage of those who have listened has been small; scientists have succeeded at a great cost in securing the pictorialization of the birth and continuation of the pest—although it might be mentioned, parenthetically, that in no wise has it ever been disclosed that any mosquito, once having attained its majority, has ever died. In fact, most of the advice and the suggestions and the pleadments for its extinction have commenced at the infant stage. If one might be permitted to use a slang expression the ad-

Great Comedy, "Turn to the Right," a Chautauqua Feature

"Turn to the Right," notable comedy success, presented by a cast of New York actors, will be one of the outstanding features of the coming Redpath Chautauqua. "Turn to the Right" runs over with bubbling fun and is replete with startling surprises and complications. It tugs at the heart-strings, and tears start to the eyes only to be washed away by the clearest of laughter. "Turn to the Right" is one of the great American comedies.

IN THE CIRCUIT COURT, SEVENTH JUDICIAL CIRCUIT, IN AND FOR THE COUNTY OF SEMINOLE, FLORIDA, IN CHANCERY. J. MOIR, FERTILIZER WORKS, A Corporation, Complainant, vs. L. W. WALLACE and ESTELLA WALLACE, his wife, J. M. PETERS, and W. V. WALLACE of Charlotte, N. C., Respondents. NOTICE TO NON-RESIDENTS TO: W. V. WALLACE, of Charlotte, North Carolina. You are hereby required and ordered to be and appear before our said Circuit Court at the Court House in Sanford, Florida, on the first Monday in May, 1923, being the 7th day of said month, then and there to answer the Bill of Complaint filed herein against yourself and others, wherein the following described property is to be sold, to-wit: Lots five (5) and six (6) Block "D" and Lots One (1) and Two (2) Block "E" of Brown's subdivision of Block Hammock, according to plat thereof duly recorded in the Public Records of Seminole County, Florida, in Book of Plats 1 at page 82. And fail not, else said Bill will be taken as confessed against you, to be followed by a Final Decree. It is further ordered that this Notice be published in the Sanford Herald once each week for four consecutive weeks. WITNESS My hand and the seal of said court this 23rd day of March, A. D. 1923. E. A. FOURGLASS, Clerk Circuit Court, Seminole County, Florida. By: A. M. WEEKS, D. C. George C. Herndon, Solicitor for Complainant.

THIS IS TO CERTIFY that on this 25th day of March, A. D. 1923, at a special meeting of the stockholders of SANFORD BUILDING AND LOAN ASSOCIATION, a corporation organized and existing under the laws of the State of Florida, due notice having been given as prescribed by law and by the by-laws of said corporation, to each and every stockholder of said corporation, by a vote of 1,432 shares of stock, said number of shares of stock being more than three-fourths of the total number of shares of stock subscribed, it was deemed expedient to amend ARTICLE VI of the Charter of the SANFORD BUILDING AND LOAN ASSOCIATION in the manner hereinafter stated. Therefore, Notice is hereby given that the SANFORD BUILDING AND LOAN ASSOCIATION, a corporation, intends to apply to the Honorable Cary A. Hardee, Governor of the State of Florida, at Tallahassee, Florida, on the 30th day of April, A. D. 1923, for the purpose of obtaining an amendment of ARTICLE VI of the Charter of the SANFORD BUILDING AND LOAN ASSOCIATION, to read as follows, to-wit: "Article VI.—The highest amount of indebtedness or liability to which this corporation shall subject itself shall be the sum of Two Hundred and Fifty Thousand Dollars (\$250,000)." IN WITNESS WHEREOF, SANFORD BUILDING AND LOAN ASSOCIATION, a corporation, has caused this notice and certificate to be signed in its corporate name by its President, and sealed with its corporate seal, attested by its Secretary, on this the 25th day of March, A. D. 1923. SANFORD BUILDING AND LOAN ASSOCIATION. By THEO J. MILLER, President. (SEAL) Attest: A. P. CONNELLY, Secretary. Mar 21-Apr. 6-13-20-27 For quick results try a want ad.

Sealed proposals will be received by the City Commission of Sanford, Florida, at their office in the City Hall, at or before 3 p. m. April 23, 1923, for grading, draining and paving the following streets, to-wit: Second Street from Oak to French, 3625 sq. yards. Third Street from Sanford to Magnolia and from Oak to Avocado, 10,871 sq. yards. Avocado Avenue from First Street to Third Street, 1168 sq. yards. Fifth Street from Magnolia to Myrtle, 2229 sq. yds. Ninth Street from Cypress to Park, 2732 sq. yds. Thirteenth Street from Sanford to French, 6679 sq. yds. Central Street from Sanford to French, 6357 sq. yds. Palmetto Avenue from Central to Hughey, 1493 sq. yds. Palmetto Avenue from Commercial St. to Lake Monroe, 1935 sq. yds. Oak Avenue from Tenth St. to Thirteenth St., 3454 sq. yds. Laurel Avenue from Sixth St. to Thirteenth St., 4460 sq. yds. Bids will be received on the following types of pavement: Sheet Asphalt, Asphalt Concrete, Asphalt Block and Vitrified Brick. Proposal to be presented in a sealed envelope, endorsed on the outside "Bid for Paving," Sanford, Florida, and the name of the bidder or bidders. Each proposal must be accompanied by a certified check, made payable at sight, to the order of the City Auditor & Clerk, of Sanford, Florida, for 3 per cent of the amount of their bid. The successful bidder or bidders will be required to give a bond equal to 50 per cent of his or their bid, and such bond to be executed by a surety company licensed to do business in the State of Florida, said bond to be approved by the City Commission. Copies of the plans and specifications may be seen at the office of the City Manager, or at the office of Fred T. Williams, Engineer. Specifications may be obtained at either office on deposit of \$10.00 which will be returned if a bid is made. The City Commissioners reserve the right to reject any, or all bids, or to accept any bid they deem to be for the best interest of the city. W. B. WILLIAMS, City Manager. 3-17-31; 4-7-14

diverted over other routes due to the practically impassible condition of the road, that some action must now be taken to alleviate the present condition. Protests have been received from seven American Automobile clubs, three Chamber of Commerce and hundreds of individuals. R. W. Pearman, Jr., secretary of the Sanford Chamber of Commerce, advises that much of his time is lost in listening to complaints of motorists who have traveled over this road. Richard H. Edmonds, editor of the Manufacturers' Record, and regarded as one of the most brilliant editorial writers of America, recently passed over this road while touring Florida and quoting from a communication from R. W. Pearman, Jr., secretary of the Sanford Chamber of Commerce, concerning this road, he says: "Can not you get that horrible road between Orange City and the bridge improved?" Mr. Edmonds is greatly interested in Florida and in Volusia county especially and his great experience in road development work makes readily apparent to him the great economic loss this section is suffering as the result of the present condition of this road. What the Commercial club is especially agitated about, however, is that the leading tour books of America have had so many reports of a detrimental nature concerning this road that they are seriously considering omitting DeLand and Orange City from their routes through Florida. This would mean an immeasurable loss to DeLand, Orange City and Sanford not only during the time the road is in bad condition but for the duration of the time covered by the publication of these motor guides and in addition would establish other routes as through routes which would be hard to change for many years to come. Certainly the county commissioners either through agreement with the state road department or from their own resources must take immediate action and place this road in a state of repair prior to the publication of the National Road Guide in June and July. The Commercial club has requested the representatives of the Motor Associations not to log this road until the last moment possible prior to publication in order that the board of commissioners may make repairs or arrange for repairs to be made to this road. This section of road is at present the worst stretch between Jacksonville and Tampa and due to lack of attention it is rapidly growing worse. If repairs are made at once they can be made economically but if further delayed the base will be so far gone as to cause a heavy expenditure. The people of DeLand will undoubtedly back up the county commissioners in any actions that they may take towards the immediate betterment and improvement of this stretch of road linking up state road No. 3. If steps are not taken soon many

Floridians will be discouraged from coming to this county to spend the summer.—DeLand News.

Grass in New York Streets. It is literally true that grass is growing in scores of Manhattan's streets. The crop is especially green on streets running off Riverside drive. The practice of watering them daily by the street cleaning department keeps the grass fresh and hearty. Many of these streets are comparatively steep and are paved with blocks instead of cement. The traffic is not heavy enough to wear it down. The seed from which this crop of grass springs is spilled from the nose bags of horses drawing milk wagons and other vehicles that wait in these streets while their supplies are being distributed. The daily sprinkling helps them to sprout quickly and develop rapidly.

Unpopular English Statesman. Anoporus of the death of Sir William Harcourt, who had long outlived the intense unpopularity of his early years. Sir David Hunter Blair says that at the time of his passing it seemed almost legendary to recall how three members of parliament had once resolved to invite to dinner the individual they disliked most in the world. Covers were laid for six; but one guest turned up—Sir William Vernon Harcourt, who had been invited by all three.

Cubans Honor British Admiral. Word comes from Santiago de Cuba that posthumous honors were paid there in the form of a bus and a tablet to Sir Lampton Lorraine, British rear admiral, who in 1873 is credited with having averted war between the United States and Spain by threatening to shell Santiago if the Spanish authorities executed any more of the crew and passengers of the Virginia, captured while running arms and volunteers to the Cubans in the Ten Years' war.

Massey & Varlow, Solicitors for complainants. 3-3-10, 17, 24, 3-3, 10-17, 24, 31.

Bohemian Pearl Culture. The scientific culture of pearl-bearing oysters has been carried on for a number of years in the Otava river, in Southern Bohemia. The oysters are opened once in eight years. The last examination of the oysters, which took place this year, resulted in the finding of five white pearls that may be classed as precious, 25 less valuable ones and 200 colored pearls.
