Union Pension Funds Are Under Federal Scrutiny

By DICK BARNES
Associated Press Writer
The Federal Pension Administration has made more than \$30 million worth of transactions in the past two years involving giant pension funds. The government officials who approved the arrangements, including one of the largest pension funds ever made by the FPA—since it has become president of a subsidiary of a corporation partly owned by the pension fund.

The transactions, which include the FPA's San Diego office, came to light during an Associated Press investigation. The FPA in Washington says it does not believe it knew at the time of the transactions that they involved the Transmitters Union's Central States, Southwestern and Southern Areas Pension Fund, the nation's largest labor-management pension fund.

The transactions include: —insuring a \$3.26 million loan at market interest rates for another such corporation.

The Transmitters pension fund, commonly called the Central States Fund, has been the subject of numerous government investigations.

Transmitters president James R. Hoffa was convicted of mail fraud in connection with Federal grand jury in probing the fund's financing of a massive Los Angeles land development project. A lengthy series of federal court trials in New York centered on alleged kickbacks paid to get fund loans.

Despite this attention from fund was able to benefit from government investigators. The FPA programs.

Total Agreement At DOT Meeting

There was total agreement at Tallahassee yesterday during the meeting between Department of Transportation (DOT) officials and Greater Sanford Area Chamber of Commerce representatives over the vertical and horizontal clearance for a new Osteen Bridge.

This was stated today by Harold Kastner, sub-chairman of the Sanford Chamber's Long Range Planning Committee, who with John Krider, chamber executive director and chairman of the St. Johns Indian River Canal District, met with the transportation department on the bridge replacement.

Kastner said the following agreements were unanimously approved:

The new bridge will be designed with a vertical clearance of 25 feet above high water and horizontal clearance between fenders of 55 to 60 feet.

The structure will be designed so as to enable the road department to convert the facility at a later date to a haque-type bridge to provide for future use in commerce when the St. Johns-Indian River Canal is constructed.

Transportation engineers anticipate that preliminary bridge designs will be completed within 90 to 120 days no a request can be made to the U.S. Coast Guard before the end of 1970 for a permit to start construction on the new facility in the 1971-72 fiscal year.

Kastner further stated that he would present these recommendations to his full chamber committee and to the Seminole and Volusia County Commissioners.

Cubans Reuniting For Attack

By HILL SCOTT
"We Cubans have a funny idea about wanting our former country to be free." These words expressed in fluent English by Jose Torriente, a former Cuban business executive, highlighted the conversation between a Sanford Herald newspaper reporter and the originator of the new plan to liberate Cuba from communism and Fidel Castro.

Torriente, a slim, quick-minded and outspoken foe of Castro and communism explained that soon there would be another invasion of his former homeland by patriots now living in various parts of the country. According to Torriente, they are now in the process of uniting for the big day, when Cubans of the United States, in their effort, but determined to free Cuba," he added.

Torriente said the U.S. passed a resolution in 1962 to end all trade with Cuba and that this resolve has never been repealed. "I have advised the U.S. State Department of this plan in their effort, but they want to help us," he added.

Approximately four weeks ago, the Sanford Herald's "Around The Clock" column broke this news... the first newspaper in the country, and predicted that this invasion would occur within six months.

would return to Cuba with or without this country's approval. "We have gotten 90 per cent of all Cubans (living outside of Cuba) together on this objective," Torriente advised.

He went on to explain that the next step is to get the backing of other Latin American nations. "We are creating a new climate in which to start a war in Cuba," he said and we hope to be able to invade by the first of the year," Torriente continued.

The leader said he hoped the U.S.A. would not interfere, but just leave us alone as the assault will take place despite any opposition from the U.S. State Department. "We just hope no one gets in our way and is hurt inside of it, as we are determined to free Cuba," he added.

Torriente said the U.S. passed a resolution in 1962 to end all trade with Cuba and that this resolve has never been repealed. "I have advised the U.S. State Department of this plan in their effort, but they want to help us," he added.

TOP LEADERS OF MOVEMENT
CUBAN LIBERATION is foremost in the mind of former Cubans, by American citizens, from left, Dr. Luis Perez of Sanford and Jose Torriente, Miami resident and originator of the plan to liberate Cuba. Torriente was a recent guest of Dr. Perez and is now engaged in making final plans for the announced arrival of Cuba to rid that island nation of Fidel Castro and communism. (Bill Scott Photo)

Soldier's Wife Appeals Decision

By MARION BETHEA
An appeal against a decision of the Board of Adjustment denying a trailer parking permit at the Sylvan Lake area has been continued until Sept. 8.

Mrs. Patricia Stanton appeared before the County Commission and said she had no objection to the trailer, but she wanted to see the information that she was only speaking for the family of Mrs. Stanton who had parked upon her property. She said that her husband was in the armed forces, and that upon his return they anticipated building a home on the property.

Mrs. Robert Thomas asked the commission why the county would have an objection to a person who could not afford a conventional home, and owned property, placing a trailer which they could afford upon the property.

Commissioner Sid Vihlen suggested granting of a temporary permit to be renewed every two years, and which could be renewed if the property develops.

Alexander contended that this sounded practical, but did not work that way. He said that the Board of Adjustment maintained that the area was not conducive to trailers and that once a permit was granted it would set a precedent which would see a mobile home district in two years. Alexander contended that the Board of Adjustment felt that there were enough mobile homes in the area. Vihlen said that he was "not convinced one way or the other" and that the "ladies had the basis for an argument." Vihlen said that he would like to continue the hearing so that he could research the matter and meet with the individuals concerned.

Counter-Suit Considered By Georgetown Residents

A counter suit by certain residents of Sanford's Georgetown section is being considered in an effort to resume a scheduled attempt to levy property assessments to fund the paving of that area's north-south streets.

This was revealed during last night's meeting of the city's zoning and planning board, during a discussion of the federal suit filed a week ago by a few dissident property owners, who opposed the added tax assessment over a five-year period to pay for the paving costs.

Edward L. Blackshear, zoning board member, said he had attended a meeting of persons from the affected community, who want the streets paved, and that a counter suit was discussed as a possible way to get the project underway.

Blackshear said a representative of the group was told to contact the city hall to get more information on how to proceed with the action.

City Manager W. E. Knowles acknowledged that the representative had contacted the city, but since no official notification of the court action had been forthcoming as yet, it might be best to wait until a federal marshal as served the injunction.

Who's To Raise Sunken Docks?

By CHARNER LEONE
"We've tried to avoid the question of who is at fault," said Lee P. Moore, Sanford's mayor. He leaned back in his chair in his Chase and Company office and added seriously, "We'll avoid name calling—it can come up in court and we'll let the judge decide the blame."

He was referring to the sunken docks at the Sanford Marina.

Both sides—Ashland Oil Company and the City of Sanford—had been considering a compromise solution to the problem of what should be done about restoring the docks to their proper floating positions. "But Ashland Oil flatly turned us down," said the mayor. "In July they notified us that we were going to court."

The date for the trial, which will probably be heard in the judge's chambers, has not been set.

In their suit Ashland Oil is demanding that the city pay for the docks.

The docks were installed by Cuba Beatz, who has since sold out to Ashland Oil. The waterfront home of Ashland Oil is known as Monroe Harbour. Harold Slama was the chairman of the board of Cuba Beatz when the docks were installed, explained Moore.

It's Inhumane To Expect Senior Citizens To Tote Cans

Editor, Herald: According to a statement in the newspaper, the city commission is considering curbing garbage pickup. What this means to the elderly is just this, you will have to carry your garbage cans from the back of the house to the street line. The federal, state, county and city governments have all started a program of anti-pollution on land and in the air and water. Now we will bring the commission on top of this instead of "pulling the garbage." This will mean that the majority of the people in town who are...

A Reminder

Editor, Herald: The first part of my letter in the editorial and his wife and fellow workers at the newspaper, whom I have personally visited on all of you were pleased to wait on and were also thoughtful in showing my gratitude for services rendered, which were not the picnic that has not been in any of this area or Orlando area either. This is the reason I have finally decided to try to do something about our ungrateful public. I think they need their eyes opened and should be insulted into thinking of someone else rather than their own gain and pocket the servant down and keep him or her there. I'm sending a copy of my letter to our Governor Kirk and also one to President Nixon. Not that it will do any good right now — but maybe it will help others even if it doesn't help me. I know you will be good enough to publish the following for me. Sometimes our public needs to be reminded that this is 1970, not 1920 or before. Like many waitresses I have a family to support. Due to our income of the lack of decent tips I am interested in the commission and what they get for their taxes whether it is on the commission, off the commission or from the commission. Many waitresses and waiters have this problem. We love our work and love trying to please people. Many of us have no other trade and haven't had the opportunity to acquire any other trade. So, we do the best we can, with little thanks or none from the public.

Rig Neighbor

Our big neighbor to the South seems to be determined to push their favorite down the throats of Central Florida. Their Sunday editorial in favor of Gov. Kirk covered half a page. The frustrating part of it is that they won't publish letters for or against candidates. It's a new policy they say, to prevent "unfairness." I think it is to prevent an exchange of opinion. They were probably getting too many letters disagreeing with them and they don't trust their readers. I hope Mr. Spolaki and the Miami Herald are right about the gubernatorial elections. But we can expect absolutely anything from our Master Politician at right at the last. He told his fans in Orlando he liked being governor. (Of course, I would remember how often he has been vice-president without being a governor.) The offending editorial claims the governor listens to people. He is very sensitive to voter getting issues. But characters who can be as insulting as Kirk has been on many occasions have a very poor opinion of people in general. Edward does seem to be gaining the governor. His money target for both Kirk and Spolaki is about the worst thing they can find to say about him. He is not an extravagant man and has been very generous through the years. It is a bit ridiculous for one who got to be governor through the aid of so many rich men to be shocked by a lot of money. For a change I like a man who spends his OWN money.

Missed Reunion

The writer has just received a clipping from your paper covering the 50th Anniversary Reunion of Sanford High School Class of 1920. First, let me say that I'm very sorry that I was not notified of the event. The reason is very evident. Am very pleased to relate that I'm still enjoying good health and still active as a District Supervisor of Fruit and Vegetable Inspection in this area. Am very disappointed that I didn't know of this event as it would have been an enjoyable occasion. Glenn Whitcomb

Attention Called

Editor, Herald: Now that you have called attention twice to the \$70 million being spent to maintain Pres. Nixon's residence, will you now call the taxpayers' attention to the fact that certain organizations maintained or organized the Care and Feeding of Retired Army Corps of Engineers Engineers. \$12,000 a year legislators — plus other emoluments, \$42,000 plus, congressmen and a few of the other various and sundry ways the taxpayer is being bleed white, and I don't mean the Vietnam War, out salaries, military welfare, farm subsidies, etc. S. B. "Jim" Crowe

Help Alaskans

Editor, Herald: Alaska's Natives — Eskimos, Aleuts and Indians — are fighting to protect their land rights. Only Congress can grant them security of title to the land that has been theirs since time immemorial. Congressman James A. Haley of Florida will have a great deal to say about the final settlement of Alaska Native land rights since he is Chairman of the U.S. House of Representatives' Subcommittee on

Thank You

Editor, Herald: Thank you very much for your courtesy in printing my announcement for reelection. At the same time that I thank you, I must admit that I was disappointed as to the brevity of the article compared to what I had prepared as a release and compared to the information printed in regard to the other candidates. I am, particularly because I use your morgue "mug" of me as my official photograph for all purposes, I was disappointed that you did not use it to give the people of Seminole County a chance to admire my face. On second thought, maybe you did me a real favor by cutting the picture out! In any case, again thank you for your assistance. Best personal regards. Very truly yours, Cecil L. Rothwell Jr. P.S. — I should also mention that I enjoyed your Editorial

'Gambling Extension Not Good'

By THE ASSOCIATED PRESS Gubernatorial candidate Earl Faircloth says pressures on state legislators to extend Florida's gambling laws would prove of little consequence if he were governor, because he'd veto them all. "I fully expect great pressure to be exerted on members of the 1971 Legislature to introduce and adopt bills which would extend gambling to certain areas of Florida to include casino-type operations," the Democratic cabinet member said. "I do not believe the extension of gambling is good for Florida," said Faircloth who added as governor he'd veto any such proposal. Former Dade County Mayor Chuck Hall questioned Florida Senate President John Mathews,

Communist Divisions Are Moving To Launch New Viet Offensive

By JOHN T. WHEELER
Associated Press Writer
PHNOM PENH (AP) — Up to 16 Communist divisions are now in Cambodia or moving down the Ho Chi Minh trail through Laos with orders from Hanoi to launch a major new offensive in South Vietnam, senior Communist diplomatic sources report.

American military sources in Saigon said they could not confirm or deny the report.

The sources said American warplanes have flown about 2,000 sorties against North Vietnamese positions in Laos and Cambodia during the past week to blunt any enemy plans for a massive offensive across the border into South Vietnam. But they said this was not unusual, that American planes have been waging such a bombing campaign for several months.

A sortie is one flight by one plane.

An American source in Phnom Penh said any enemy force of the size reported by the Communist source would never be permitted to mass on the Cambodian border as such forces have done for previous offensives. He implied that American ground forces might enter Cambodia as they did last May and June in the operation which the U.S. Command said cleared out many of the enemy base camps on the Cambodian side of the border.

Cambodian and Western military sources said there is clear evidence that the North Vietnamese are rebuilding their border bases in the remote jungles of eastern Cambodia, bordering South Vietnam. Some of these bases are said to be in the same position as those cleared by U.S. and South Vietnamese troops during their May-June action.

One Communist source with direct lines to Hanoi said the gathering force included North Vietnam's 1st, 2nd, 3th, 7th, 8th, 20th and 28th divisions. Cambodian intelligence already has reported the 1st, 3th, 7th, 8th and 28th divisions in the country.

Some sources believe the attack on South Vietnam will begin in about two months.

Communist sources say the plan for a major offensive in South Vietnam reflects a decision in Hanoi to make the main target South Vietnam again and not the destruction of Cambodian Premier Lon Nol's regime.

Possibilities were said to be the disruption of the Saigon government's increasingly strong military machine, reversal of the Vietnamization program and the inflicting of serious casualties on American troops to weaken the military sentiment in the United States.

Stunned Reaction Among Dissidents

By KEN HARTNETT
Associated Press Writer
WASHINGTON (AP) — Anti-war organizers reacted today in stunned disbelief to the announcement that Vice President Nguyen Cao Ky of South Vietnam plans to address a Vietnam victory rally in Washington Oct. 3.

"Wow!" said theology student David Hawk, who helped organize last October's nationwide Vietnam moratorium. "Is that right? Wow! That's really something."

Hawk gathered his thoughts and said, "My first impression is that we should let it happen. I think that would really speak to the American people as to what the goals of the government are in supporting in South Vietnam."

The news came as a thunderbolt to activists who had been floundering in attempts to stage a mass demonstration in the nation's capital this fall.

"Oh, you're kidding," said Ron Young, one of the leaders of the coalition that forged last November's massive antiwar demonstrations in Washington and San Francisco. "That's fantastic. That's interesting food for thought."

Young said the development is certain to be discussed Sept. 11 when activists gather in Milwaukee for a strategy conference.

Ky's office in Saigon announced Thursday that the vice president had accepted an invitation extended by fundamentalist radio preacher Dr. Carl McIntire to address a rally sponsored by McIntire's "March for Victory Association."

Rally sponsors say they hope 50,000 persons will gather.

Young shared Hawk's caution as to the wisdom of any counter-demonstration. "For Ky to associate himself with McIntire says not at all for Ky," Young said. "If Ky came at the invitation of the government that would be another thing."

MUDDY BUT HAPPY, this South Vietnamese farmer is looking forward to a good harvest as he plows a rice paddy in the Mekong Delta area. The Mekong River's flood has been good this year and the war seems to have receded from the rich farming region.

Only Nine Attend County Meeting

By MARION BETHEA
Public hearings on the 1970-71 county budget and part authority budget which were continued from Tuesday began this morning with the usual public apathy with only nine persons present.

There was an adjustment in the general fund which was advertised at 1.88 mills and is now 1.45. This is made possible through an adjustment in the food stamp program, which will now receive state funding.

Further the board of county commissioners received a letter from the State Division of Family Services relative to foster home care in which the state has appropriated additional funding therefore making it unnecessary for the county to supplement the program in as high an amount as had previously been the case. Mr. J. J. Moore, the food stamp program is set at \$6 and for foster home program at \$4 making a total of 13 mills reduction.

The building fund which is also a combination of the interest and sinking fund as relates to courthouse construction was advertised at 1.90 mills and this morning was cut back to 1.51 mills. Commissioner Greg Lyman High schedules 2 sessions.

FAA Approval Required To Sell Airport Land

Continued From Page 1
The vice president and treasurer of this northern company is a personal friend of Moore's.

"They've indicated that in their long-range program they would like to come to Sanford. The southern regional office of the company is in Atlanta, and covers seven states."

About 50 per cent of their business is in Florida, and another regional office, to open here, seems a likely prospect, and the labor market here seems satisfactory, said Moore.

"But nothing concrete has happened," he ended.

FRIDAY BARBS

By PHIL PASTORET
Any secretary who recalls shaving the wax cylinders of the dictating machines each morning is very foolish to do so unless she wants to date herself in the eyes of the other girls.

No, Gwendolyn, "bigamy" doesn't mean it was generous of you.

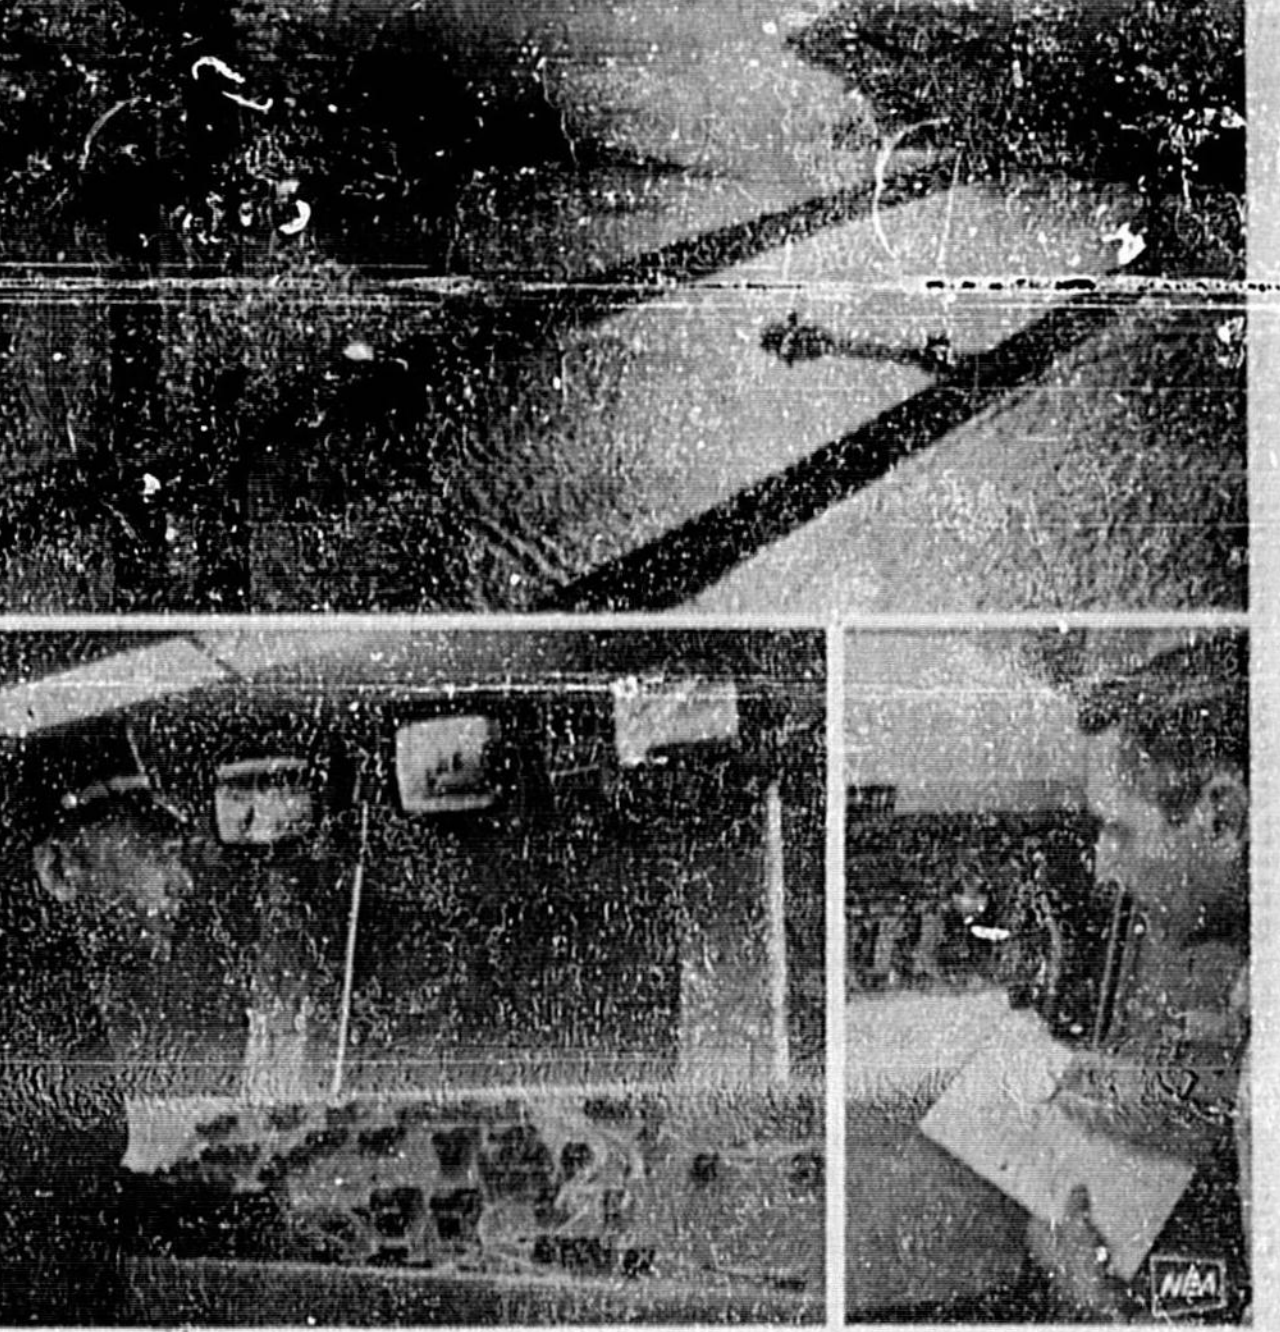

One thing never changes: the dried-out peanut butter in the tots' school lunches.

You have to stoop pretty low to find work that's truly beneath your dignity.

FUNNY BUSINESS

By Roger Bollen
Buses are scheduled to arrive at school the following times approximately: 7:30 a.m., 11:30 a.m., and 12:30 p.m. Buses will depart from school at the following times: 12:30 p.m., 1:30 p.m., and 5:30 p.m.

Lyman High is not operating a hot lunch program this year. However vending machines with a wide selection of hot and cold sandwiches, milk and other beverages, and other snacks are available in the cafeteria.

ELECTRONIC BRAIN assists traffic flow on New York's Verrazano-Narrows Bridge. Watching all lanes of bridge's two decks, battery of television cameras sends information to sophisticated control room (bottom left) where operator can close off lanes, detour traffic around an accident scene and clear routes for emergency use. At bottom right, a bridge official takes count from recording machine that separately tallies passenger cars and trucks coming through toll gates.

Counter-Suit Considered By Georgetown Residents

Continued From Page 1
four of the members attended last night's session.

A hearing into a request from Garfield Walker to rezone from R-2, multiple family, to C-1, neighborhood commercial, property located at 118 West 23rd Street was postponed until Sept. 17. The hearing advertising will have to be repeated so affected area property owners can be given the opportunity to attend the session.

Darwin Nutt, developer of Halfmark Subdivision, new government 235 subsidy housing unit, was given unofficial approval to proceed with engineering after his preliminary plans were reviewed by the board.

Now You Know
International Law, the body of rules and principles which nations consider legally binding, derives its modern features from the late 16th and early 17th centuries when it was used to define the conduct of new European sovereign states.

Swofford Proposes Budget

By ANN HILEY
ALAMONTE SPRINGS — Mayor W. Lawrence Swofford announced today his recommendations for the 1970-71 budget for the City of Altamonte Springs, holding the line against any tax increase.

With approval of this unbalanced budget, this becomes the 11th successive year Altamonte Springs has expanded city services without a tax increase, Swofford said.

The city operates on a five mill tax structure.

Recommendations include expanded vital services within the present tax structure, and provisions for a meaningful capital outlay program.

Included among the expanded services are:

- Fire Department: From \$27,503 last year to \$46,229. Service additions include an additional paid engineer, extensive additional firefighting equipment, and expanded volunteer benefits.
- Police Department: From \$48,257 to \$71,511 in the coming year. Service additions include a radio dispatcher, one additional patrolman, jail construction and maintenance, and a new patrol vehicle.
- Economies in clerical and administrative management will result in savings of approximately \$1,000.
- Street Department: Budget increases from \$8,826 to \$21,999.
- Sanitation Department: Will receive approximately \$1,000 increase, allowing for an expanded work force.

The new budget will also allow preliminary and construction plans for a new city administration building.

Masked Men Blamed For Car's Damages

By BILL SCOTT
Two unidentified masked men were blamed by a 16-year-old youth with attacking his father's new 1970 model automobile last night causing extensive damages.

Daniel R. Buxton, son of J. W. Buxton, 3416 Balsama Drive at Eastbrook in South Seminole, told his father the two men assaulted the car shortly before 11 p.m. as he sat in the vehicle, which was parked on Howell Branch Road, opposite the Lake Ann Road.

The youth stated he leaped from the car and managed to escape unhurt when the air started smashing the headlights, windshield and body of the car with heavy blunt objects.

Escaping to Semoran North Apartments, located in the county authorities. Deputy W. S. Vinton filed a report on the incident after checking the youth's story.

A complaint has been filed with the sheriff's department by Al Davis, county commission candidate, after four of his political signs were knocked down last night.

Davis reported the campaign signs located at Altamonte Springs on SR 436; in Longwood at intersection of SR 431 and U.S. 17-92; at Cassberry in Seminole Boulevard and 17-92 and in West Cassberry at SR 436 and Oxford Road intersection were knocked down.

Davis and other candidates' signs were also demolished at the Longwood location, including those bearing Howard Williams, Sidney Wilson and Robert Parker's names.

'A Nation Welded Together ...'

By ROBERT WISCHMEYER

The role of garbage men is as important in one way, to the nation's health as that of doctors.

And although many Americans feel they can do without the Apollo moon rocket and its costly technicians, few will deny the need for good auto mechanics.

And many a white-collar executive has called a blue-collar plumber late one night to ask him to repair a sudden leak.

And would a lawyer at the bar have cases to try if it were not for the policeman in his patrol car making arrests?

And would we who write editorials ever see them in print if many skilled men did not

turn their hands to machines that create the printed page?

On this Labor Day, when the nation ends its summer respite and begins to gear up for the fall and winter months, Americans of all professions and all skills look at their brothers in office and factory to acknowledge that we all need each other to make our world go around.

Even those hippie types who cop out of the "rat race" and do their thing while relying on other men's labor to provide food and shelter must eventually admit that although man does not live by bread alone he soon finds himself needing it.

America is a workman's nation, a nation welded and hammered and dug and planted and bolted together in the sweat of

many brows and the intellect of many brains.

On this Labor Day, we can take note of the forces in our free enterprise system which have permitted too many Americans to live a subpar existence; flaws which exclude too many Americans, through no fault of their own, from meaningful employment within that system; flaws which have alienated many of our idealistic youths.

We can resolve that we will remedy those flaws—and we must, for they cannot be ignored.

But even as we note our shortcomings, we can justifiably praise the total achievement of America's workers, and we can vow that what Americans have labored hard to achieve will be preserved.

27,890 Are Eligible To Cast Ballots

Voters To Pick Nominees Tuesday

By MARION PETHEA

Seminole County's voters will go to the polls tomorrow in primary elections to determine nominees for U.S. senator, governor and lieutenant governor, state representatives, county commissioners, state committeemen, precinct committeemen, county judges and Supreme Court justices. There are 27,890 registered voters.

On the Democratic side for U.S. senator, voters will choose among Ferris Bryant, Lawton Childs, Joel T. Daves III, Al Hastings and Fred Schultz. For Supreme Court justice the ballot includes Hal P. Deale and Leo Foster. For governor and lieutenant governor, Reubin Askew, Tom Adams, Earl Faircloth, George Topper, Chuck Hall, Pat Thomas, John Matthews, Edna Giesendanner.

For secretary of state, J. L. McMullen, Richard Stone, Stan Tait, attorney general, Elmer Friday, William Meadows Jr., Robert Shevin; state treasurer, Thomas O'Malley and Broward Williams; public service commissioner, Al Allister, William Bevis, Harold Chancy, Dominic Koo, Wilson Wright.

State representative district 38, C. S. Barco, Jim Reed; state representative district 29, Tim Adams, Margaret Murray, Martin Sullivan; state representative district 41, Bill Carter, Gene Piazza Jr., and state representative district 43, Leland Hardy, A. S. Johnston, Hoyt Webb.

For county commission; District Two: Carroll Burke, W. Garrett White; District Three: Al Davis, W. Lawrence Swoford; District Four: Tim King, Robert Parker, Richard Wirtz; District Five: John Fitzpatrick, Rub Gallagher.

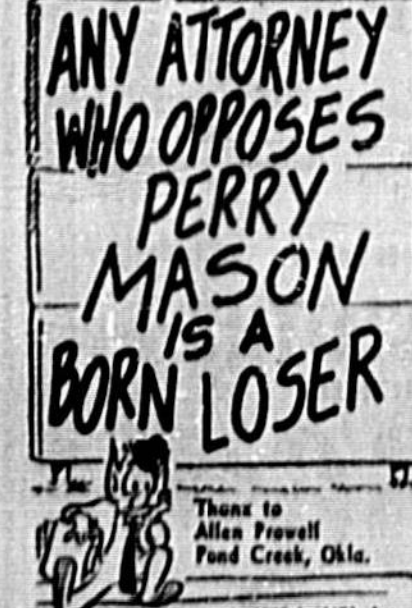

State committeeman, William Austin, Robert Billheimer, A. T. Peterson Jr., and committeemen precinct 22, George Hees III, and John Kimbrough; District Four: C. L. Cooper, Greg Drummond, Clifford Jordan; District Five: Dan Meadows, Sid Yiblen Jr., Harold Carwell, Bill Cramer; State committeeman, Charles Lansing, Domielack Salfi, and state committeewoman, Geraldine Keeth, Ann Pincock.

There are 19 precinct committeewoman posts contested in the election on the GOP ticket and 11 committeeman posts.

Thieves Hit 2 Stores; Woman Is Electrocuted

By BILL SCOTT

Burglars last night took \$110 in change, undetermined amounts of whiskey and cigarettes and a .25 caliber pistol from Seminole Package Store, located on SR 46 east.

County Detective Tony Calangelo reported the rear door to the establishment was removed by the intruders who escaped from Bill Rivera, proprietor, neglected to set the burglar alarm.

Calangelo added, "This was the second entry to the liquor store in a month."

In a second county report, Deputy Harold Smith reported the robbery at gun point by two masked men Sunday of the Jiffy Food Store on SR 434.

According to Smith's report, two girl shoppers were held hostage by one of the robbers while the other man drew a gun on Lillian Kidd, store manager, and asked for the day's cash receipts.

When Mrs. Kidd refused to give the money, the robber told her his partner was holding two girls outside at knifepoint.

After receiving an unspecified amount of money, the two girls, reported to be Terry and Bonnie Mathewson, were released as the two youths escaped on a motorcycle.

A Sanford woman was electrocuted Saturday afternoon as she took a light bulb from a pickup truck parked in her front yard.

Marie Thompson, 54-year-old wife of Jimmy Thompson, was reportedly electrocuted when she attempted to retrieve a regular 110 volt light bulb which had been mounted on a metal stand in the truck bed.

The woman had been wearing a swimming suit and had been standing barefoot in water in her yard of her Sanford Avenue home.
