

VOLUME I

FIGHTING AT FIUME HAS COME TO SUDDEN END WITH WOUNDING OF POET

D'ANNUNZIO WILL SIGN THE ARTICLES OF SURRENDER

SPECTACULAR WAR

ROME DISPATCH STATES DELEGATES HAVE BEEN APPOINTED TO MAKE TERMS

(By The Associated Press)
PARIS, Dec. 29.—Fighting at Fiume has been suspended. Rome dispatch states delegates appointed by Mayor of Fiume met the commander of the Italian regulars yesterday and agreed to the terms for the surrender of the city. D'Annunzio expected to sign them today.

FIUME, Dec. 29.—D'Annunzio has relinquished his authority to command council of Fiume.

FIUME, Dec. 29.—Conference for arranging final cessation of hostilities between Italian forces and D'Annunzio's troops set for this morning.

NORWEGIAN SCHOONER ON FIRE REPORTED OFF CHARLESTON

(By The Associated Press)
NORFOLK, Va., Dec. 29.—Radio message announce Norwegian schooner Koronado on fire eight miles off Charleston, S. C. Twelve members of crew taken off last night. Coast Guard cutter Seminole standing by.

EASTMAN KILLED IN GANG ROW

NEW YORK, Dec. 29.—The veil of mystery hitherto surrounding the murder of Monk Eastman, former notorious gangster, who was supposed to have "gone straight," after being decorated for heroism on the battlefields of France, was partly lifted early today with a definite announcement by the police that he was slain in a gang fight on his old East Side stamping grounds last Sunday. The police further claimed they had trailed his murderer through the devious windings of the underworld and they expect to make an early arrest.

MENDENHALL WITHDRAWS PARDON BECAUSE HUNDREDS OF PROTESTS WERE LAUNCHED

FLORIDA TO CALIFORNIA IN 24 HOURS BY PLANE

SAN ANTONIO, Tex., Dec. 29.—An attempt to fly 2079 miles, from Florida to California, in an airplane in twenty-four hours, will be made February 22d by Lieut. Alexander Pearson, Jr., Maj. Henry C. Pratt, air officer of the Eighth Corps Area, announced today. Lieutenant Pearson won the transcontinental air race last winter.

The flight will be made in three "hops." The starting point will be Pablo Beach, Jacksonville, Fla.

The first hop of 804 miles will be made to Ellington Field, Houston, Tex.; the second from Ellington Field to El Paso, a distance of 660 miles, and the third is scheduled from El Paso to Rockwell Field, San Diego, Calif., 615 miles.

The flight will be the first attempt to cross the continent for a continuous record, the two necessary stops only requiring forty-five minutes.

PAY TRIBUTE FOR RECORD SERVICE

CONGRESSMAN CANNON HAS THE CHAMPIONSHIP BELT NOW

(By The Associated Press)
WASHINGTON, Dec. 29.—House stopped work one hour today to pay tribute to Uncle Joe Cannon. His establishment of new record for service in congress occasion for celebration. He set a new mark yesterday, surpassing service of Justin Smith Morrill, Vermont, who previously held record of forty-three years, nine months and twenty-four hours in house and senate.

LABOR TROUBLE IN ENGLAND CALLS PREMIER

(By The Associated Press)
PARIS, Dec. 29.—On account of the labor situation which makes necessary the presence of Premier Lloyd-George in London, the next conference of Allied premiers will be in London or Paris, not Nice, as was planned, according to newspapers here.

EDISON TO CLOSE DOWN PHONOGRAPH WORKS

WEST ORANGE, N. J., Dec. 29.—The phonograph works of Thomas A. Edison, Inc., will close today and remain closed indefinitely, it was said. The record department will not be affected.

"General business conditions throughout the country" were given by company officials as the reason for the close of the factory, which affects 200 employees.

BIG WHOLESALE AUTOMOBILE EQUIPMENT COMPANY TO MAKE SANFORD ITS HOME

TEXTILE WORKERS' UNIONS ACCEPT BIG REDUCTION IN WAGES

FALL RIVER, Mass., Dec. 29.—The six textile unions of the American Federation of Textile Operatives at meetings tonight voted to accept the wage reduction of 22 1/2 per cent recently announced by the manufacturers, effective January 3, 1921. The action of the union affects practically 25,000 employes in 110 cotton cloth and yarn mills in this city.

The unions of the loom-fixers and the slasher-tenders voted unanimously to accept the reduction, and the carders' and weavers' unions accepted under protest. The spinners' union indicated that its members thought the reduction too great. The yarn finishers' union accepted by a close vote.

MENDENHALL WITHDRAWS PARDON BECAUSE HUNDREDS OF PROTESTS WERE LAUNCHED

PUBLIC SENTIMENT BACKED BY WOMAN'S CLUBS OF THE STATE STOPPED ACTION

THAT MIGHT HAVE BEEN TAKEN BY MENDENHALL AND HIS ATTORNEYS

TALLAHASSEE, Dec. 29.—John J. Mendenhall, convicted and sentenced to life imprisonment for murdering Miss Susie Elliot and her mother of Tampa, has withdrawn his application for a pardon hearing Dec. 29.

The application for a hearing was made to the pardoning board early in the month, by Mendenhall himself, and the board desiring to comply with every detail of the law, set December 29 as the date for the hearing. This was done so Mendenhall might comply with the strict letter of the law relative to advertising his intention of appearing for a hearing and the date on which the hearing had been set.

The law requires that the notice must be published at least twice, the publications covering a period of 10 days. Where a person is not able to publish the notice in a newspaper the publication can be by posting, one of the notices to be posted near the crime. In Mendenhall's case the board required newspaper publication rather than posting.

That those opposed to his pardon might have ample opportunity to present their side of the case all persons having filed a written protest were notified by the board relative to the date that had been set for the hearing.

Since the application for a hearing was made, it has been the private opinion of the members of the board that the opposition would develop (Continued on page 6).

BOY BANDITS HOLD UP TRAIN ONE KILLED

TWIN BOYS GO WRONG AND TAKE UP LIFE OF CRIME

(By The Associated Press)
KANKAKEE, Dec. 29.—One of the two youthful bandits who held up the New Orleans-Chicago flyer of the Illinois Central, near here last night, was killed in a battle with the police and railroad detectives near here this morning, the other surrendered. The youths were Joseph and Jacob Scott, twins, twenty-four years old, residents of Greenville, Ill. Several hundred dollars in cash and a few thousand in jewelry were recovered.

INCENDIARIES TRY MORE FIRE IN PENNSYLVANIA

(By The Associated Press)
UNIONTOWN, Pa., Dec. 29.—Armed guards early today frustrated an attempt to burn hotel at Star Junction near here. They drove off two men who fired quantity of inflammables placed in room on first floor. Guests awakened by shots joined in chase, but incendiaries escaped.

CHEAPER FREIGHT RATES AND CENTER OF STATE THE CHIEF ASSET

IS SANFORD'S GAIN

WILL SOON BE CHIEF CITY IN THE STATE FOR DISTRIBUTING CENTER.

The Chamber of Commerce has concluded successful negotiations with Mr. A. B. Cheney, of the Automobile Supply Company, whose headquarters are in Augusta, Georgia, for the location of a branch in Sanford for the distribution of their line of automobile supplies and garage equipment.

Mr. Cheney, in an interview with a representative of the Herald stated that he was most favorably impressed with the possibilities Sanford offered as a distributing center for the central and southern portions of the state. He also stated that the advantages Sanford possesses in the matter of freight rates was an important factor in his decision to locate here.

The Automotive Supply Company is an exclusively wholesale jobbing and shrdlu etanol shrdlu un shr house at present covering South Carolina and Georgia. They are distributors for Swinchart Tires and carry a full line of standard automobile supplies, accessories, garage equipment, tools, etc.

Mr. Cheney has for some time been impressed with the rapid development of this section of Florida and believes that by putting in a stock of supplies at Sanford they will be able to give the dealers in their line quick shipments and efficient service which will supply a real demand, insuring a volume of business comparing favorably with other sections of their territory.

Mr. Cheney is now stopping at the Valdez Hotel.

EARTHQUAKE IN CALIFORNIA THIS MORNING

SEVERE ENOUGH TO SHAKE FOR THE DRINKS

(By The Associated Press)
WILLOWS, Calif., Dec. 29.—Earthquake so severe that inhabitants were aroused occurred here at two-fifteen this morning. No damage reported thus far.

BRITISH LABOR WILL SUPPORT IRISH HOME RULE

(By The Associated Press)
LONDON, Dec. 29.—Movement to place full weight of British organized labor in support of Irish self-determination claim began with conference of parliamentary labor party today.

HAMES UNABLE TO TELL WHO WAS IN MOB

YOUNGER HAMES DIES OF GUNSHOT WOUNDS AT DAYTONA

DAYTONA, Dec. 29.—Arthur Hames, who was kidnapped and badly beaten Sunday night, testified this afternoon at the inquest into the death of his son, Grady, killed by his assailants, that one of the men who attacked him said that his name was "Anderson" and that he was "Federal district attorney at Jacksonville."

Hames testified that he could identify this man and one other, both of whom were unmasked. The other six were masked, he said. No arrests have been made. The inquest was adjourned until Saturday, following Hames' testimony.

Grady Hames, who died yesterday, was shot three times. It is said there were eight men in the mob that went to the Hames' home. The younger man was shot down while defending his father.

The elder Hames was taken to the woods and given a severe beating with straps. He was tied to a log before the beating was administered.

The trouble grew out of stories to the effect that Hames was intimate with his own daughter. Also remarks alleged to have been made by Hames about other women of this section are said to have caused trouble to pile up for him.

Some ten days ago, it is said, a group of men visited Hames' home and warned him that if he did not mend his ways he would be summarily dealt with.

Sunday night about 10:00 o'clock the men went to the apartments of the Hames. The younger man was not at home but arrived in time to take part in the struggle. Guns were drawn and young Hames was shot three times. The elder man was subdued and carried out of the house and placed in an automobile and taken several miles into the woods, where he was tied to a log and severely beaten. Then he was taken into an automobile again and carried to a point near DeLeon Springs where he was released. Later he made his way back here and complained to the officers.

No arrests have been made.

THE HIGH FREIGHT RATES AND THE PRICE OF LABOR STRANGLING THE GROWERS

FRUIT AND VEGETABLE BUSINESS IS SUFFERING

GROWERS PROTEST

IN BIG MEETING AT ORLANDO YESTERDAY CALLED FOR THAT PURPOSE.

ORLANDO, Dec. 28.—Declaring that the citrus and vegetable industry of Florida was being quickly strangled to death, on the one hand, by excessive prices demanded by and paid to labor in the field and packing houses, an was as well tottering to its rapid dissolution under the bludgeoning blows of unwarranted high freight rates on the other hand, and that between the two a category of elements of participation cost was eating its vitals away, over 400 leading and representative men of Florida, interested every phase of the twin agricultural pursuits as well as representatives of allied interests, met this morning at the Orange county court house. The seriousness of the situation confronting the industry and the appreciation of where the heroic remedy lay was voiced in the impassioned expression by Mr. R. P. Burton, of Leesburg, that "the patriotism of the labor of this country during the war was measured by their pockets," and he threw down the gauntlet of open challenge by asserting that the present exorbitance of rate demands by the carriers could as well be traced to the selfishness of that element. The logic of his argument brought to his standard the unanimous approval of the assembly.

He was not alone in expressing his views, and the trend of statements on the floor indicated that the results of the meeting finally would be a radical revolution in the basis of compensation.

(Continued on page six)

HOUSE CENSUS COMMITTEE CONTINUES HEARINGS ON APPORTIONMENT BILLS

EPWORTH LEAGUE MEETS ST. LOUIS ALL THIS WEEK

(By The Associated Press)
ST. LOUIS, Dec. 29.—Epworth League leaders from throughout the jurisdiction of the Southern Methodist church met here today to consider plans for extending the scope of organization. Appointment of two field secretaries for each state was urged by the speakers.

SECRETARY COLBY HAS GREAT WELCOME IN MONTEVIDEO

(By The Associated Press)
MONTEVIDEO, Dec. 29.—Great throngs lined the streets to welcome Secretary Colby. American residents declared it the most enthusiastic greeting ever given foreign visitor in years.

HOLY CROSS RECEPTION

GENERAL PUBLIC INVITED TO HOLY CROSS PARISH HOUSE TO RECEPTION

The Holy Cross Parish House will be the scene of the annual reception given by the rector to the members of the church; the various organizations in connection with the church and the general public on Saturday evening, January 1, 1921. It is the custom of the rector to give one of these general receptions each year and this is the eighth of its kind. The Men's Club of the parish have the reception in charge and they are planning on a large gathering and will entertain with music, dancing, cards and a lunch.

You are earnestly requested to be present on the mentioned date anytime between the hours of 8:00 and 11:00 o'clock and enjoy a social evening.

EXAMINATION REVEALS POSSIBLE MANNER IN WHICH OCCUPANTS GOT OUT SEDAN

ST. PETERSBURG, Dec. 28.—Examination of the sedan auto in which Henry Kramer, his wife and sister, Miss Emily Kramer, went into Boca Ceiga bay, disclosed how the occupants of the car escaped from it when it plunged into the main channel under the Pass-a-Grille bridge. The top of the car, a sedan, was torn almost entirely off when it broke through the bridge railing and it is believed that the two women and the man were thrown clear of the car as it struck the water, the car probably going on its side. But for this it is likely all three of those in the car would have been carried to the bottom of the bay and would never have come up alive, Mr. Kramer is getting along all right now and has about recovered from the exposure and shock to which he was subjected. He was told yesterday that his wife and sister were dead and took the news much better than had been expected as he said he had expected it. The car was taken to the Ford service station this afternoon. It is not badly damaged. Mr. Kramer drove the car off the bridge near Long Key and his wife and sister met death Christmas day. Mr. Kramer was saved.

WILL FORTIFY PANAMA CANAL IN GREAT SHAPE

WASHINGTON, Dec. 28.—Adequate protection for the Panama Canal from attacks from the air, the land or the sea is to be provided for in a bill soon to be drafted by the house committee on appropriations for fortifications and sea coast defenses. Members of the committee now are virtually agreed on the upon a plan to make the canal impregnable.

It has been suggested unofficially to those members of the house in charge of appropriations that the canal must be given the best of modern defenses. These suggestions were said today to have resulted directly from the recent inspection of the canal fortifications by President-elect Harding and his party.

Plans to meet these suggestions and at the same time adhere strictly to the rules of economy laid down by house leaders have been tentatively agreed to. They involve the sending of necessary ordinance, including the largest calibered artillery pieces to the canal as soon as they are produced.

(Continued on page six)

COLORED ASSOCIATION EXPECTS TO GET FUNNY AGAIN

TO REAPPORTION

IN SOUTHERN STATES WILL COME UP FOR DISCUSSION AGAIN

(By The Associated Press)
WASHINGTON, Dec. 29.—House census committee continued hearing on congressional apportionment bill, among witnesses expected were representatives of National Association for Advancement of Colored People who expected to urge reduction of representation from Southern States on ground of alleged refusal to allow negroes to vote. Bill recently introduced in house provides for reduction of representatives from Southern States where it was found enfranchisement of negroes denied.

WASHINGTON, Dec. 29.—Charges by representatives of the association that negroes are unlawfully prevented from voting in the South led to somewhat exciting scenes. Southern members of the committee took issue with witnesses and Representative Bee, of Texas, declared he was tired of the Southern states being insulted on the strength of hearsay evidence. One of the spectators insisted on getting into a discussion and Chairman Siegel finally told him if he did not sit down he must leave the room. Declaring nothing in the laws of the Southern states discriminating against negro voters representatives from Southern states suggested that the spokesman of the association take their complaints of alleged discrimination against negroes to the courts rather than to congress.

CRASH INTO RAILING TORE TOP OFF AUTO

EXAMINATION REVEALS POSSIBLE MANNER IN WHICH OCCUPANTS GOT OUT SEDAN

ST. PETERSBURG, Dec. 28.—Examination of the sedan auto in which Henry Kramer, his wife and sister, Miss Emily Kramer, went into Boca Ceiga bay, disclosed how the occupants of the car escaped from it when it plunged into the main channel under the Pass-a-Grille bridge. The top of the car, a sedan, was torn almost entirely off when it broke through the bridge railing and it is believed that the two women and the man were thrown clear of the car as it struck the water, the car probably going on its side. But for this it is likely all three of those in the car would have been carried to the bottom of the bay and would never have come up alive, Mr. Kramer is getting along all right now and has about recovered from the exposure and shock to which he was subjected. He was told yesterday that his wife and sister were dead and took the news much better than had been expected as he said he had expected it. The car was taken to the Ford service station this afternoon. It is not badly damaged. Mr. Kramer drove the car off the bridge near Long Key and his wife and sister met death Christmas day. Mr. Kramer was saved.

The accident is one of the queerest that ever took place in this section. Kramer said he did not know what caused the car to swerve toward the bridge rail. Several theories have been advanced for the cause of the fatal plunge, but nothing of a positive nature could be learned. A bent radius rod, or striking some small object on the bridge are the most likely theories advanced. The car was traveling at a moderate rate of speed when it started upon the bridge. Mr. and Mrs. Kramer and Miss Emily Kramer, his sister, were thrown from the car it appears, as they were all three in the water when rescuers reached them.

The pulmotor was applied to all three victims of the accident, but was effective only on Mr. Kramer. Funeral arrangements of the women, are pending Mr. Kramer's sufficient recovery. It is said the bodies will be shipped to New Jersey for burial.

FLETCHER FAVORS CHANGE IN THE IMMIGRATION LAW

WOULD ALLOW BAHAMA LABOR HERE IN PROPER SEASON

WASHINGTON, Dec. 27.—Senator Fletcher is hopeful, he said today, of getting action on amendments to the immigration bill which he has just offered, permitting laborers from the Bahama Islands to come to Florida. The house passed the bill without this provision, but as soon as the situation was brought to Senator Fletcher's attention he drew up the necessary amendment and has just offered it.

"The object and purpose of my proposed amendment," Senator Fletcher said today, "is to make it possible for the vegetable growers of Florida to secure the services of laborers from the Bahama Islands from about November 1st to about June 1st each year, to assist in planting, cultivating and harvesting the enormous crops which are grown in my state. During the past few years I have been able to have the secretary of labor permit laborers from the Bahama Islands to come to Florida for the sole purpose of rendering assistance to the vegetable growers, and I do not wish that authority abridged."

Another important bill which Senator Fletcher introduced today is that requiring persons who trade in contracts not to be allowed to charge off losses in settlement of their income taxes. Asked for a statement Senator Fletcher said that the following provision of the bill would explain his purpose:

"That for the year 1921 and subsequent years, in computing net income no deduction shall be allowed a person, firm, association or corporation on account of loss sustained by reason of any agreement or contract to purchase stocks, bonds or agricultural products, except for cash or its equivalent at the time of entering into an agreement or contract to purchase."

The amendments to the immigration bill as proposed by Senator Fletcher do not as yet, it appears, cover the situation that is of most interest to Tampa. The bill proposes to bar all immigration for the period of about one year. This would seriously interfere with the flow of cigarmaking labor between Havana and Tampa. The Tampa Board of Trade and the Tampa Rotary Club have adopted resolutions asking all members of the Florida delegation to have the immigration bill amended in this particular also, so that there may be a free flow of cigarmakers here from Havana as the industry here demands. These resolutions have not reached Senator Fletcher yet, however.

DEPARTMENT OF PUBLIC INFORMATION IS AT WORK

To assist in finding answers to a hundred and one perplexing problems which confront citizens and communities of Florida, the General Extension Division of the University of Florida has established a clearing house for all kinds of information. In speaking of the work, B. C. Riley, director of the General Extension Division, says:

In dealing with questions it is the purpose of the bureau to acquaint the inquirer with his rights in asking for information and to put him in touch with the agencies that can help him. The General Extension Division will not attempt to answer questions concerning agriculture and home economics because these questions are taken care of by the agricultural college and experiment station; neither will it be possible for the division to take up questions which would ordinarily involve the necessity of hiring an attorney, an engineer or some specialist who must be on the job in order to handle the situation. Questions coming through the division must be more or less of a general nature, nevertheless, much information in form of bulletins, circulars and letters will be secured by the division and supplied directly to the individual requesting the information as well as direct answers to questions which can be taken care of by the force of specialists found on the campus of the university of the State College for Women.

All kinds of questions concerning community development, public service and welfare have already passed through the hands of the extension division staff and have been answered for people living in Florida or those interested in the state. Since the establishment of the extension division last October, many people have gotten the impression that general extension work consists mainly of correspondence study; however, many other activities have been established in a very short time.

HAVE KEEN EYE FOR DANGER

Hunter Asserts That It is Practically Impossible to Surprise the Mountain Sheep.

"The mountain sheep is one of the most difficult of all our American game to approach in the open," says Charles L. Smith in an article on the "Rocky Mountain Sheep" in Boys' Life. "It has eyes like a telescope for keenness and can discover and make out a man farther away than any other animal of which I have any knowledge, and where any considerable herd have been feeding one will see usually one or more standing on some prominent point where they can get a view of the surrounding country. I know of no more inspiring sight than one of those old rams with his massive horns outlined against the sky, standing as motionless as a statue. And it is a wonder to the hunter how they get across the rock slopes with such ease and grace. There has been much written of the mountain sheep, of its wonderful feats of springing from ledges and lighting upon its head and horns, which is without foundation in fact. While it is true they can stand an immense shock in battle, yet if one of those sheep weighing 300 pounds should drop from a ledge of any considerable height and land on his head his neck would be broken. I spent several years in the sheep country in the Canadian Rockies and was near the sheep or among them during all seasons of the year and they seem to be less sensitive to the rigors of winter and the ever-changing elements of the high altitudes than any other animal except possibly the mountain goat, and of these animals I think they have the advantage, because I have a number of times found mountain goats yarded in the deep snow in places where food was scarce, but I have never yet found mountain sheep in this condition."

BOARDING HOME FOR BABIES

Institution in England Had its Inception in the Shortage of Houses and Housemaids.

A small private hotel for babies is the latest idea of domestic life. The baby gets a change and the mother gets a rest.

The baby's hotel or boarding house is the product of the shortage of houses and nursemaids. Parents have been forced into hotels and furnished apartments, and as many hotels have not the conveniences of the nursery, the baby's hotel, where he or she may be received as a paying guest, is making its appearance. There is, of course, accommodation for the baby carriage.

Two certified nurses conceived the idea. They have established a nursery in Hampstead, London. The walls are decorated with ducks and chickens, and each little guest has a white cot with curtains. A medical man and a dentist are in attendance. The tariff is about \$18 a week. The little guests may stay a week, a year, or merely for the week end, while their parents go house hunting or holiday making.

"A young war widow, who has resumed her former post as secretary, brought her baby to the nursery, and Saturday afternoon and Sunday they spend happy hours together, while another woman left her little one in our charge while she rejoined her husband in the tropics."—Continental News.

For European Children.

Italy and neighboring countries, especially Switzerland, at the end of October held at Milan a conference on child welfare to discuss, more specifically, seaside and country homes for needy children, placement of children in foreign countries; vacation camps; also provision of institutional care in cities; state, local and international organization of child welfare; better training of social workers engaged in child welfare service, and improvement of technique generally. The public welfare department of the city of Milan, which called this conference, is especially concerned over the duplication of efforts, the lack of proper care in the smaller communities and interaction between town and country. One definite aim is that of making international co-operation in this field a means of encouraging closer relationship between the peoples.

Immense Herds of Caribou.

Late arrivals at Vancouver, B. C., from the Yukon report that wandering herds of caribou are appearing in immense numbers on the banks of that river. They declare there are millions of the animals. Two men who tried to get down the river just at the time of the first ice were held up for three hours by a multitude of caribou which were crossing the river below them. How long the migration had been going on when they were stopped they did not know. The stream of animals thickened the water on a space one-half mile wide and continued uninterrupted during the period the men were held up.

Egypt to Have Finest Hospital.

The Egyptian government has decided to build what is officially described as "the finest and most complete medical school and hospital in the world," in Cairo. It is to contain 1,225 beds, and will have accommodation for 3,000 out-patients a day. Attached will be a completely equipped medical school, which will be connected with the projected university, a special dental department, and departments for every branch of medical and surgical science.

Notice of Application for Tax Deed Under Section 575 of the General Statutes.

Notice is hereby given that D. D. Daniel, purchaser of Tax Certificate No. 176, dated the 6th day of July, A. D. 1914, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: S 15 acres of SE 1-4 of SW 1-4 of Sec. 11, Twp. 21 S., Rge. 31 E. The said land being assessed at the date of the issuance of such certificate in the name of Mrs. L. G. Starbuck.

Also Tax Certificate No. 423, dated the 6th day of July, A. D., 1915, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida, to-wit: NW 1-4 (less NW 1-4) of Sec. 17, Twp. 20 S., Rge. 32 E. 120 acres M-L. The said land being assessed at the date of the issuance of such certificate in the name of J. H. Bryce.

Also Tax Certificate No. 412, dated the 6th day of July, A. D. 1915, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: NE 1-4 and N 1-2 of SE 1-4 and SW 1-4 of SE 1-4 of Sec. 7, Twp. 20 S., Rge. 32 E. (Less E 1-2 of NE 1-4 of NE 1-4). The said land being assessed at the date of the issuance of such certificate in the name of J. H. Brice.

Also Tax Certificate No. 415, dated the 6th day of July, A. D. 1915, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: NW 1-4 of NW 1-4 of Sec. 9, Twp. 20 S., Rge. 32 E., 40 acres more or less. The said land being assessed at the date of the issuance of such certificate in the name of J. H. Brice.

Also Tax Certificate No. 186, dated the 6th day of July, A. D. 1914, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida, to-wit: SW 1-4 of Sec. 16, Twp. 20 S., R. 32 E., 160 acres more or less. The said land being assessed at the date of the issuance of such certificate in the name of R. D. Vandecarr.

Also Tax Certificate No. 339, dated the 3rd day of July, A. D. 1914, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: SW 1-4 of SE 1-4 of NW 1-4 of Sec. 20, Twp. 21 S., R. 32 E., 10 acres more or less. The said land being assessed at the date of the issuance of such certificate in the name of Unknown.

Also Tax Certificate No. 413, dated the 6th day of July, A. D. 1915, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: NE 1-4 (less SE 1-4) and NW 1-4, and SE 1-4 of SW 1-4 of Sec. 8, Twp. 20 S., Rge. 32 E., (less W 1-2 of NW 1-4 of NW 1-4, and less W 12 acres of E 1-2 of NW 1-4 of NW 1-4). The said land being assessed at the date of the issuance of such certificate in the name of J. H. Brice.

Unless said certificates shall be redeemed according to law, tax deed will issue thereon on the 18th day of January, A. D. 1921.

Witness my official signature and seal this 13th day of December, A. D. 1920.

(SEAL) E. A. DOUGLASS, Clerk Circuit Court, Seminole County, Fla. 215-6tc. By V. E. Douglass, D. C.

Palm Beach Beans, eggplant and peppers are being shipped by express from Boynton, Delray, Yamato, and Boca Ratone, and are bringing good prices. Seed beds for tomatoes are being rapidly made and fields are being prepared for spring crops.

Fifty thousand people gathered at Miami to see the hundred thousand dollar show. The flower pageant was one of the most brilliant affairs ever pulled off in any portion of the country.

The Southern Cattle Loan Company has been organized at Jacksonville to assist the development of the cattle industry in Florida. It is capitalized at \$500,000.

Office supplies at the Herald.

SOCIAL CALENDAR FOR THE WEEK

Wednesday Evening—
D. A. R. Bridge at Valdez Hotel, Miss Wilkey, hostess.
Friday Evening—
"13" Club give dance at Hotel Valdez.
Mrs. A. R. Key gives dance for Miss Serita Lake.

BURNES-KRENKRE

Mr. and Mrs. Robert Burnes announce the marriage of their daughter, Miss Mavola Bell Burnes to Mr. Elmer Krenkre on Thursday, December 23rd at Beloit, Kansas. They will be at home in Topeka, Kans.

Mrs. Krenkre was a very popular teacher in Sanford two winters ago and has a host of friends here who wish her happiness.

FOR MISS WIGHT

Mrs. C. R. Kirtley entertained at luncheon Tuesday for her sister, Miss Sarah Wight.

The apartment of Mrs. Kirtley, "The Nest," was artistically decorated in cut flowers.

Luncheon was served on small tables to sixteen young ladies who are all of the college set.

POULTRY EXPERTS IN SANFORD

Mrs. L. Jenkins and Miss L. Gray will be in Sanford for some time, making a survey of the poultry raised in this vicinity.

These ladies made a special study of poultry culture and are prepared to help poultry raisers in and around Sanford on such problems as culling, feeding of moulting hens and other such poultry problems.

While in Sanford they will call on all poultry raisers to take up these important problems.

The enterprise of the Cates Crate Company has made it possible for the poultry keepers to get the benefit of the experience of these experts.

The eighteenth amendment may be considered a joke by some but a lot of others are not doing any laughing over it.

MASONS INSTALL NEW OFFICERS

Last night being the night of the anniversary of St. John and one of the principal anniversary nights of the Masonic order, was the occasion of the installation of the newly elected and appointed officers of the Masonic bodies of the city. While the installation ceremonies were not public, they were very informal, and as is usual might easily have been open to the public.

The Masonic bodies of Sanford are both in a good healthy condition, both having passed through very trying years under the able leadership of Jno. D. Jenkins of the blue lodge and W. T. Wheelless of the Chapter.

The officers of the blue lodge were installed first, the installation ceremonies being handled by Past Master C. J. Rumph. The following were installed: W. M. Haynes, W. M.; W. T. Wheelless, S. W.; D. S. Babbitt, J. W.; Ed. Randall, S. D.; Schelle Maines, J. D.; F. B. Adams, secretary; G. W. Spencer, treasurer; R. B. Chapman, S. S.; E. F. Lane, J. S.; F. P. Forster, Chaplain; C. O. Bradbury, Tiler.

Of the Chapter the following were installed: R. B. Chapman, H. P.; John Musson, King; D. S. Babbett, Scribe; Jas. Moughton, Treasurer; C. J. Rumph, secretary; L. B. Hodgins, cap. of Host; John Gove, prin. soj.; Morris H. Spencer, R. A. capt.; I. Bartlett, Mas. 3rd V.; T. W. Jones, Mas. 2nd V.; Schelle Maines, Mas. 1st V.; C. O. Bradbury, Sentinel; Geo. Hyman, Chaplain.

The installation ceremonies were conducted by Past H. P. L. R. Phillips.

DEATH OF ED. GRAMLING

Died—Ed. Gramling, aged 31 years, died Sunday at the residence of his parents after a lingering illness. Burial yesterday in Lakeview cemetery. Deceased was born and spent his life here in Sanford, and was a well-known colored barber.

Fort Meade is to have an auto tourist camp. A splendid lot near the north side of town on the Dixie highway has been chosen. Water, lights and a load of firewood will be placed there this week. The city is supplying these and the board of trade will do the advertising.

DEFECT IN EXISTING MAPS

That They Are Not Drawn to Uniform Scale is Felt to Be an Educational Handicap.

It has long been the dream of geographers to make a series of maps of the world on a uniform scale. Indeed, it is considered unfortunate for school children that the geographies do not show all countries by maps on a single, uniform scale, for unless a student observes very carefully the figures showing the scale of each map or the figures showing the area of the country mapped he is likely to get the impression that certain distant lands, which are generally mapped on a small scale, are smaller than those with which he is most familiar. Take Australia, for example: The maps in the geographies now used in most of our schools show it on a small scale—about one-third as large as that used for the map of the United States; yet Australia is, in fact, nearly as large as the United States—only about one-fourth (2 1/2 per cent) smaller. China is generally shown smaller in area than the United States, yet it is about one-third larger.

The work of preparing maps of the entire world on a uniform scale of one to one million—that is, maps on which one unit (any unit—inch, centimeter, millimeter, etc.) represents one million like units on the ground—has been under way for several years, and the United States geological survey, Department of the Interior, has made considerable progress in its work on the parts of this map that were assigned to the United States. The principle used in preparing these maps, if adopted by the publishers of school books, will give the children accurate impressions of the relative sizes of the countries of the world.

TEMPTED BY BRIGHT LIGHTS

Adventurous Bossie Attempted to Make Her Way into Vaudeville in City of Dallas.

Gentle Bossie, tired of the humdrum life of giving milk and butter for the hungry mouths of some family, and bored with the pastoral quiet of the farm, determined the other night to have a taste of the gay life of the big city at least once before she crossed the River Styx. Accordingly she sought out the brightest lights of the city, a vaudeville house.

But first her bovine majesty sauntered gaily up Elm street from Lamar, gazing in the show windows as she roved. While in this vicinity she even attempted to enter a street car. Then, pursuing her primrose course, she plodded on toward the center of the city until she was confronted with the gray, yellow lights brightening the front of a vaudeville show. Not considering whether she would be a welcome guest, Bossie walked into the lobby of the show, thereby nearly causing the head usher to be smitten with hysterics. He finally recovered, and, taking courage and a stick, he rushed at Bossie. Feeling that she was not wanted there, Bossie walked out again.

At the door she was met by a reception committee consisting of two policemen who had been summoned and without ceremony she was roped and led away to the city pound, where she brooded over the sights of the big city as she had seen them.—Dallas News.

Expect New Boom in Yukon.

That, with the discovery of the large silver areas in the vicinity of Keno Hill, the Yukon is entering on a new industrial era, is the statement made by Colonel Thompson, M. P. for the territory, who recently arrived in Ottawa after a three months' absence in the Northland. He expresses the opinion that the new silver find will take the place of the gold that first put the Yukon country on the map. Keno Hill is on the Mayo river, a tributary of the Stewart, 250 miles southeast of Dawson. The camp has a population of about 500. The ores are galena, carrying very high values of lead and silver, the latter running from 80 to 250 ounces to the ton. Discoveries have been made over an area 50 miles in extent.

Madonna and Child on Stamps.

Religious subjects are not commonly used as the basis of stamp designs, although figures of the Madonna are known on the early stamps of the Virgin Islands and more recently on the high values of Bavaria. A set of three special postage stamps, newly issued in the small principality of Lichtenstein, in honor of the eightieth birthday of the reigning prince, Johann II, represent the vision of the Virgin and the Holy Child appearing in the heavens above the capital town of Vaduz. The stamps are lithographed in large format, and comprise the denominations 50 heller green, 20 heller carmine and 2 kronen blue.

Woman Beat Hunger Striker.

Could a woman set the world's record for hunger striking? Reports from Vienna, where the American relief administration European children's fund is feeding 100,000 boys and girls a day, indicate that a woman can live longer without food than a man.

"Girls show more resistance in fighting malnutrition than boys," said Ignatz Panzer, representative of the New York Produce exchange, who has just returned from Austria. "Physicians have found that a girl can go longer on less food with less serious results than a boy of the same age."—New York Sun.

HOT WATER ALWAYS AT HAND

Continuous Flow of Boiling Liquid and Steam From the Innumerable Geysers of Iceland.

The hot-water fountains of Iceland are on mounds averaging seven feet in height, the top of each of which forms the edge of a sort of basin. From these basins the steam of boiling water can be seen rising and the overflow of water is continuous. The contents of these basins is as clear as crystal and one can see to a great depth, while just below the surface are many wonderfully beautiful white incrustations, to obtain samples of which many a visitor to Iceland has burned his fingers. The petrifications caused by the boiling water streams from the geysers include birch and willow leaves, grass and rushes seemingly converted into marble.

At no time is it entirely safe to loiter in the vicinity of one of these bottomless basins, for the geyser has a way of spouting and gives no advance warning. Sometimes there will be a shot of boiling water to a height of 15 feet, followed by a succession of jets. The highest shoot of which there is any record was 90 feet.

Occasionally a basin will for some unexplained reason become entirely empty, or will give forth a "steam shoot," which, in the form of a column of spray and vapor at least 60 feet in height, presents a really magnificent spectacle.

TO REMOVE TATTOO MARKS

Process is by No Means Easy, Though Modern Science Has Shown It to Be Practicable.

Tattooing is the mechanical introduction of pigments under the skin and a very well-known process. The pigments employed are carbon, cinabar, carmine and indigo.

Most methods employed to remove these marks, says Science and Invention, are by a reactive and a destructive inflammation which will result in the formation of a crust, later cast off together with tattooed markings. One method is to retattoo the marks with a solution of 30 parts of zinc chloride and 40 parts of water. A mild inflammation will result; a crust forms and about a week later this falls off, leaving a scar which gradually heals. Later a repetition of this may be necessary. This may be done by the professional tattooer.

The second method is to tattoo again, making the punctures close together after the design has been drawn over with a concentrated solution of tannin. A stick of silver nitrate is then firmly drawn over the surface and after a period of several minutes it is then wiped off. This is far more effective than the first and less scar forms. Two other substances, perhaps more efficient than either of the above, and applied in the same manner as the first, are caroid and glycerole of papoid.

St. Mark's Church, New York.

The site of St. Mark's church is the oldest church site in New York and has been consecrated to religious service for 200 years. Peter Stuyvesant, the Dutch governor of New Netherlands, erected the first little private chapel in 1600. He and his wife, Judith, were buried underneath the chapel. In her will she left the church to the Dutch Reformed Church of New York, providing that the tomb be preserved. The building was allowed to fall into decay until 1703, when Petrus Stuyvesant, a great-grandson, proposed to the vestry of Trinity church that an Episcopal church be erected on the site, the cornerstone of which was laid in 1705 and the church completed May 9, 1709. The steeple was added in 1820 and the porch a few years later. Since 1830 no material changes in the present appearance of the church have been made, and the church proper is identically the same as it was one hundred years ago. Peter Stuyvesant and his wife are buried in the vault beneath the porch of the church.

The Right Way to Read.

The only way to read with any efficiency is to read so heartily that dinner time comes two hours before you expected it. To sit with your liver before you and hear the geese cackling that save the capital, and to see with your own eyes the Carthaginian sutlers gathering up the rings of Canaan and heaping them into bushels; and to be so intimately present at the actions you are reading of that when anyone knocks at the door it will take you two or three seconds to determine whether you are in your own study or in the plains of Lombardy looking at Hannibal's weather-beaten face—that is the only kind of study that is not tiresome, almost the only kind that is not useless.—Sydney Smith.

Amber as Medicine.

The medicinal uses of amber have recently been discussed, and it is somewhat curious to find the belief in the curative virtue of amber necklaces, in cases of cold in the head, still seriously held in China. One correspondent reports such a cure in a case that had refused to yield to any other treatment, and attributes it to the action of amber so worn on the mucous membrane. Another goes only so far as to suggest that since amber had apparently a curative value as used internally by the old physicians, its use in necklaces had a rational basis "according to the views once in vogue," which is reasonable enough.

Christmas Time

And your thoughts turning to gifts and something for friends, for family, for some one somewhere. What a wonderful idea that

Christmas Savings

In our Bank has become and how fine it is now for those who had a Christmas Savings Account with us this year to come in now and get their money for gifts or for some good cause.

THING THAT REALLY COUNTS

First Punch Always the Effective Agent, in Life as Well as the Squared Circle.

Georges Carpenter is a smart fellow—that is, he is something more than a fighter. One might even call the Frenchman a prophet.

"The one that gets in the first punch will win," he said, referring to his coming match with Dempsey.

We'll let it go at that so far as the next world's championship heavy-weight fight goes. But just look around and see if you have a punch in your system and if you can land it first. How hard can you sock at your job? What is your batting average in the a. m. Or can you take a punch as well as give one?

They called Tris Speaker a miracle pilot because he put the punch into a ball club that copped the world title. He always made it a point to land first on the scoreboard and when he didn't he kept slugging away until he usually had his lead at the end of the game.

Man o' War is called the greatest horse the world has ever had. But the Biddle colt is just a horse that puts the best he has into every race and always Man o' War finishes ahead of the dust.

The football star who "hits 'em first" is usually on the honor roll when the cleats are hung up at the end of the season.

It's the punch that counts, from marbles to K. O.—Chicago Evening Post.

IMITATE CUSTOMS OF WEST

Manchu Women on Streets of Peking Use Rouge, but in Manner Pronounced Clumsy.

The first strikingly surprising custom among the citizens of Peking is that the women wear skirts, James A. Muller writes, in the National Geographic Magazine. To a traveler fresh from America, this would seem as it should be, but to one resident in the land of trousers women it appears almost immodest!

They not only wear skirts; they further approximate western usage by painting their faces. Broadway is nature itself in comparison; for in Peking there are no light, artistic touches, but bold cheek circles of red upon frankly whitened faces—cosmetic unabashed.

These are the Manchu women.—The Manchu men, descendants of the roving Tartars, go futilely about this spacious city of their fathers balancing trick birds upon their wrists; for, now that the empire is no more, their only occupation, that of ruling, is gone, and the conquered Chinese, immemorial city dwellers, are masters of the capital. It is a significant illustration of the age-old ability of the Chinese to absorb and enervate their conquerors.

LOST

LOST—One tub of mackerel. Put in Ford truck in front of Yowell's store Tuesday, Dec. 21, by mistake. Party who got same please return to L. P. McCuller. 224-tfc

FOR RENT

The One You Have Been Waiting For

MOLLE

THREE - UNIT - MACHINE

Possesses every essential feature of larger, heavier and more costly typewriters. Three unit machine: base, carriage and action. Many troublesome parts eliminated. The machine for both office and home. Does the work of any typewriter regardless of cost.

For foreign languages, especially equipped with from one to five dead keys—does not interfere with standard keyboard.

MOLLE

WHERE PRICE AND QUALITY MEET
And that must determine your choice of a typewriter. You have no place for the cheaply constructed machine nor will economy permit the outlay of an extravagant sum. Good business sense finds the solution in the MOLLE. The MOLLE incorporates every essential feature you find in any machine at any price. Yet it is unusually simple, both in construction and operation. Built in three units—base, carriage and action—many extra parts are eliminated. This means a saving in repairs and a bigger saving by keeping it on the job. The MOLLE lightest of touch, speediest of action, will do anything that a writing machine is called upon to do with the least amount of noise and effort.

AMERICAN BLUEJACKETS HAVE OPPORTUNITY TO PURCHASE CHRISTMAS PRESENTS IN JERUSALEM

The wonderful pictures and the beautifully colored illustrations of the pamphlets describing the wonders of Jerusalem lead the tourist to believe that he or she is about to enter a veritable paradise with wide streets and majestic edifices adorning the landscape. This belief is soon shattered for on the streets of the Holy City will be found numerous beggars, crippled and maimed, all soliciting alms. They have come to the birthplace of our Lord with the undying faith that some day they will be cured by a miracle at one of the many sacred shrines.

In the majority of cases bluejackets ashore from American warships at anchor off Jaffa travel to Jerusalem over the native railroad, but there are a number of men who prefer the jog of the horse to the continual rattle of the coaches and take the carriage road from Jaffa to Jerusalem, a distance of 41 miles. Every step of the way one will find religious shrines and statues that draw pious pilgrims from all parts of the world. Along the road one passes many quaintly costumed farmers, taking their products to the market for the benefit of the tourists.

The many beautiful churches in the city attract the visitor; on the Mount of Olives is the Russian Church, tower and hospice, and nearby the Chapel of the Ascension; the French Paternoster church; the Carmelite nunnery and the Russian church of St. Mary Magdalene, near Gethsemane. From early times doubts have arisen as to whether the tomb discovered by Bishop Macarius was the veritable sepulchre. As early as 754, when the pilgrim Willibald visited Jerusalem, he remarked in describing the Holy places, that "Calvary was formerly outside the city, but that the Empress arranged that place so that it should be within the city of Jerusalem."

The photograph above shows two sailors of the United States Navy standing before the reputed sepulchre of our Saviour. When they have secured photographs and notes regarding this sacred place, they will get astride of the slow moving donkey and travel to some other place of interest.

The only industry in Jerusalem is the manufacture of olive-wood and mother-of-pearl goods. Many of these articles have found their way to the homes of the American sailors and have proven very acceptable as Christmas gifts. Modern Jerusalem has changed little since the days of our Saviour. The hills over which the Lord walked and the places where he worked miracles are preserved as sacred ground for pious pilgrims who yearly travel from all corners of the world to view the birthplace of our Saviour.

STOCKHOLDERS MEETING

To the Stockholders of Sanford Building & Loan Association:

The annual meeting of the stockholders of the Sanford Building & Loan Association will be held at its office, 10 Magnolia avenue, Sanford, Florida, at eight p. m., Saturday, January 8, 1921, for the purpose of electing directors for the ensuing year, and to transact such other business as may legally come before it.

In a book just issued W. B. Hale says that President Wilson is a sufferer from "echolalia." Hale is the man that the president sent to Mexico some years ago to smooth things over there. Later he went to Germany as a preter... neutra lcorrespondent and was exposed as a pro-German. This word, "echolalia," which he uses refers to a nervous ailment which makes the victim repeat words in a purposeless way. Everyone has it more or less.—The Pathfinder.

Member of the Associated Press

The Sanford Herald is talking to their readers about veying the vegetable blues. We are wondering if it is any relative of the grapefruit and orange blues...

The Times-Union says holly is especially pretty at this time of the year. Couldn't be referring to Bob Holly of the Sanford Herald.

JUST RECIPROCIITY, THAT'S ALL.

Did you ever stop to think what a wonderful word that "reciprocity" is? Regardless of what old man Webster may say about it we say that reciprocity really means "I'll tickle you if you tickle me" and it is the finest principle that governs our actions...

Reciprocity is the thing. We tickle you and get tickled in return, and so it goes right on down the line. The Herald gives away yards of space to some fellow who turns around and throws his business somewhere else...

J. P. SAYS: It is not good luck or chance or the help you may receive from others that will cause you to succeed. It is within yourself and if you have power and determination within, there is nobody without that can keep you down...

ing elsewhere to buy what he wants and out of town at that. Reciprocity is the jewel of the ages. Practice it now and resolve to make it one of your New Year's resolutions.

TODAY EXTENDS CAUSES APLENTRY FOR OPTIMISM

Under the title, "If you have the money"—The Manufacturers' Record sounds a message of sensible civic advice, which is touched with delightful optimism, and folks everywhere may wisely paste it in their hats and refer to it without the slightest fear of injury.

"Build that needed house now. Paint that dwelling, that church, that school. Repair that highway. It is badly needed. Pave that street. It will help your town.

"Improve the waterworks and extend the sewerage system, for they better the health of your town. Build that church, that school, that court house, and go ahead with everything that shows you are a red-blooded American, with faith in your country.

"Now is the time for men—real men—to lead off and do things. Cowards only are slackers. The patriot can do as much in this time of peace for his country as he could do in war. Let's play ball!"

The last sentence is particularly buoyant; it is undeniably American—"Let's play ball!" That is a delightful way of saying: "Let's put our shoulders to the wheel; let's work; let's dig our toes into the crevices and push over the boulders which are holding up our progress; let's forget this talk of pessimism and be optimistic; let's be strong, virile, enthusiastic Americans, all united in a single purpose!"

There is too much idle talk in this country. The dyspeptics, the professional glooms, the dolorous near-sighted are sitting cross-legged in the midst of their little personal doubts and writing all sorts of pitiful messages with dead sprigs, never once referring to the facts, much less playing the slightest attention to them.

FLORIDA NEGROES PROGRESSING AGRICULTURALLY

Negro club work in Florida is beginning to attract attention. Many state papers commenting upon the remarkable showing made by the negro extension exhibits at the state fair in Jacksonville. Prizes were awarded to negro boys and girls because of excellence in their products, showing the importance the fair authorities are placing upon this work.

The negro club work of Florida is a part of the program of the Agricultural Extension Division of the University of Florida and the Florida State College for Women, co-operating with Negro Agricultural and Mechanical College at Tallahassee. The report of A. A. Turner, local dis-

trict agent for negro extension work in Florida, reveals much that is interesting concerning negro club work in the state. The boys are organized into "Farm Makers' Clubs," and the girls into "Home Makers' Clubs."

Among the club members have been placed 126 purebred pigs. Twenty-three hog postures and nine hog wallows have been made by club members. Home maker members have filled 134,708 containers with fruit, vegetables and meats. Waste fats have been saved and converted into 8890 bars of soap. They have made 338 fireless cookers. They have screened 106 houses and covered 138 wells. They have painted 56 houses and remodeled 21. Upward of 910 dozens of eggs have been preserved for home use.

During September and October a series of schools were held in eleven counties. Special lecturers were obtained for this work. They traveled 1481 miles and held 20 meetings, reaching 915 club members and demonstrators. During these schools and contests (the contests were made a feature of the schools) the following were awarded to winners: 23 purebred pigs, 14 yearly subscriptions to agricultural papers; 16 tris of purebred chickens, 5 purebred roosters, and 12 canning machines. These prizes were given by business men of the state.

IN DREAMS THERE IS TRUTH

One's Visions While Asleep Are Said to Be of Things He Would Like to Do.

When you dream that you are slaughtering a flock of potatoes it's more than probable that you're unconsciously expressing a repressed desire to kill your mother-in-law. In dreams a man does the things he secretly desired to do in waking life, but did not dare.

This was the interpretation of the Freudian theory of psycho-analysis given by Dr. William J. Durant, former instructor of philosophy in Columbia university, in a lecture the other night in Milwaukee.

"The mask of morality is taken off in dreams, and man acts in the primitive animal fashion," Doctor Durant said. "In dreams there is truth. Man was not meant for cold deliberation, but for the immediate reactions of the animal. By nature we would knock other persons down without thinking about it."

"Civilization, according to Freud, is built on the two great repressions of pugnacity and sexuality. Monogamy as a marriage form, in Freud's view, is after all a terribly artificial thing and a great strain on all of us."

"We love children because they have no repressions, whereas, we know we're lied to nine times out of ten with adults." The conclusion, he said, is that "hypocrisy and polite mendacity constitute the essence of civilization."

SURVEY WORLD BY WIRELESS

Scheme to Be Tested in Determining the Boundary Between South and West Australia.

It is proposed to utilize wireless telegraphy in determining the exact position of the boundary between South and West Australia. The boundary is fixed by act of parliament as the 129th degree of longitude east of Greenwich. The exact position of the longitude will be ascertained by the use of time signals from a high-power wireless station situated at some point between Greenwich observatory, in England, and Sydney, in Australia, the signals being received simultaneously at both stations.

Most of the great observatories of the world are now collaborating in a redetermination of the longitudinal division of the earth's surface by means of wireless time signals, and this is one of the earliest uses of the system to settle a disputed position.

Given favorable static conditions, it has been found that signals from the Lyons wireless station, in France, can be received in Australia as well as at Greenwich, and signals from other stations, more favorably situated, are also being tested. The co-operation of the United States as well as the British government has been invited. The scheme is the first step toward a comprehensive determination of the whole longitudinal survey of Australia.

Whenever we read about the wonderful blessings that must surely accrue to mankind through the guiding hand of woman in world affairs we always hope for the best, trembling with fear at the same time as we recall how the wife of Gustavus Adolphus guided Gus that time and caused him to get the stuffing beaten out of him temporarily when, at her suggestion, he paused in his triumphant march to set up a glittering court in order that the haughty leaders of society in those parts might not be left under a false impression as to who really was who.—Tarpon Springs Leader.

Henry McLaughlin, president of the Gulf Ports Terminal railway, told a group of Pensacola business men at the Chamber of Commerce that if he were provided with sufficient funds to connect his railroad with Mobile bay he could guarantee a reduction of 20 per cent in freight rates to Pensacola from practically every Mississippi valley point. The rate on coal and iron from the Birmingham district would be cut to but a fraction of what it is at present, he declared.

WEATHER REPORT

For Florida—Fair and slightly warmer tonight. Thursday fair and warmer.

Mrs. Ray Chapman of Jacksonville and sister, Miss Alice Dinkle of Longwood, are in the city today the guests of Miss Mildred Huston.

J. T. Wade, manager of the Farmers Exchange, attended the meeting of the citrus and vegetable growers at Orlando yesterday.

Many out of town people attended the Woman's Club dance at the Valdez last night. The music was furnished by the Million Dollar orchestra.

Mr. and Mrs. Reginald Holly and Oliver Murrell attended the dance at the Orlando Country Club last night given by Misses Drew and Yowell of that city.

Sanford was represented in Orlando today by the following well-known citizens: F. P. Foster, T. I. Hawkins, J. C. Hutchinson, J. G. Ball, S. O. Chase and W. B. Ahern.—Reporter-Star.

The Herald office is now equipped with the best of machinery and type and type-setting machines for the printing of stationery of all kinds. No job too small or too large for this office to handle. Give us your job printing if you want it printed right.

A. D. Zachary brought four heads of lettuce to the Herald office yesterday that beat the world for fine lettuce. It was the new strain of "sugar lump" or whatever it is that Albert Dornier has named his new lettuce and it is good enough to bring a fine price on the market even when ordinary lettuce is down.

The "13" Club held their regular weekly luncheon at the Valdez Hotel yesterday at noon and over the elegant menu discussed matters of moment to the city and the members. All arrangements to handle the Johnny J. Jones shows next week were made and it will require the services of every member of the club all week to take tickets and assist in putting on the big show.

Mr. and Mrs. Harry Brown and sons, Bob and Joe, and Walter Neal, were in the city today en route to Lakeland from their former home in St. Augustine. Harry Brown is one of the most popular newspaper men in the state and for many years was editor of the St. Augustine Record and head of the Record Publishing Company. Recently he purchased the Lakeland Telegram and will make his home in that city. Walter Neal is the head of the Record printing department and will continue in that capacity.

INJUNCTION AGAINST INTIMIDATING CIGAR WORKERS PERMANENT

JACKSONVILLE, Dec. 28.—The temporary injunction against the Cigar-makers' Union of Tampa, granted December 17, at the instance of the cigar manufacturers, has become a restraining order. The injunction was returnable within ten days from date and as the unions had not replied to it today at 2 o'clock, which was the tenth day, it became in effect, a permanent injunction, though still subject to modifications.

Judge Rhydon M. Call, of the United States district court, signed a temporary injunction against the unions and a score or more individuals connected with the unions on December 17. The unions and the individuals, under the terms of the decree, were restrained from intimidating or attempting to intimidate employees or any one seeking employment at the factories of the complainant companies.

The temporary injunction does not become officially permanent by reason of the failure of the unions to reply to it, Judge Call states today. It merely becomes a restraining order, and is in effect until further proceedings may cause a new decree to be issued.

We always knew the report about the killing of 30 negroes down at Ocoee, in Orange county, was a hugely exaggerated thing. Now Col. Herbert S. Phillips of Tampa, United States district attorney, has, by direction of the department of justice, made careful investigation and reports that only five persons were killed and two of these were white.—Gainesville Sun.

SANFORD AND ORLANDO HAD GOOD MEETING

SANFORD CHAMBER OF COMMERCE COMMITTEE HAS LUNCHEON

Sanford and Orlando trade bodies had a meeting yesterday in Orlando when the transportation committee of the Sanford Chamber of Commerce met with the Orlando Board of Trade at a luncheon and talked over many matters of interest to both cities. The Orlando Reporter-Star has the following account of the luncheon:

"The Sanford Chamber of Commerce was well represented at the meeting by the presence of its president, Mr. J. G. Ball; Mr. R. W. Pearman, secretary; Mr. A. P. Foster, president of the First National Bank of Sanford; Mr. L. A. Brumley, T. I. Hawkins, A. P. Connealy, S. O. Chase, D. C. Marlowe and other prominent citizens of the Celery City. These gentlemen had come to Orlando to assist the Citrus Growers in solving their problems, which are discussed at length in other columns of today's paper.

"Mr. Ball struck the keynote of cooperation when he stated that Sanford wanted to assist Orlando in every way possible to grow bigger, more beautiful and prosperous, and asked for a reciprocal attitude from that city, which he said he knew, would be cheerfully given. 'We realize the ultimate future of Sanford as a big city is linked very closely with the success or failure of Orlando. Likewise, we believe Orlando cannot grow and prosper as it should without the co-operation of Sanford. We have come to understand each other better and while there is a great civic feeling of 'get there first' existing in each of us, yet we realize that we must pull together, extending aid when assistance is needed if we are to build a greater Central Florida.'

Mr. Foster and Mr. Pearman both made complimentary addresses, praising the spirit of Orlando, marveling at the growth which this city is enjoying and pledging Sanford's support in every effort which will lead to bigger Central Florida."

SHIPPERS TO MEET IN JACKSONVILLE TONIGHT

Shippers of citrus fruits and produce of the state will meet in Jacksonville tonight in a preliminary gathering prior to convening with executives of southern and eastern railroads, who will confer with them in Jacksonville tomorrow morning in regard to proposed changes in diversion and reconsignment rules. Many proposed changes were made in the rules by the railroads some time ago, but these were fought by the shippers, and were suspended by the Interstate Commerce Commission until a hearing can be held in Jacksonville January 22d. If the shippers and railroad executives agree on a set of rules to be submitted to the I. C. C., the public hearing will not be necessary and the matter will be amicably adjusted without that formality. It is with the latter result in view that the conference is to be held and it is expected that it will be very largely attended by shippers from all over the state.—Tampa Tribune.

NIECE OF LATE CZAR ESCAPES AND BRINGS WORD OF KILPATRICK

PARIS, Dec. 29.—Miss Irene Knignvetch, an interpreter for the American Red Cross, who was captured by the Bolsheviks with Capt. Emmitt Kilpatrick, of Uniontown, Pa., at Novo Alexievski, November 29, when a detachment of Budenny's infantry swept down from the west coast of the Sea of Azov and surrounded the town, has arrived in Constantinople after escaping from her captors, says a dispatch received at Red Cross headquarters here today.

When Miss Knignvetch last saw Captain Kilpatrick he was in good health and was being taken to Moscow, the dispatch adds. The Bolsheviks planned to transport him northward from Moscow for release in return for Russians whom the Bolsheviks alleged are being held by the United States government. Kilpatrick expects to leave Russia by way of Viborg, Finland, within a few weeks. Miss Knignvetch is a daughter of Maurice Knignvetch, of the Russian Red Cross, a niece of the late emperor.

MILLION DOLLAR BAND CONCERT AT PRINCESS

OPPORTUNITY TO HEAR WONDERFUL ORGANIZATION IN CONCERT WORK

Sanford people have been enjoying the Million Dollar Band this week but the rain and inclement weather has not been conducive to enjoyment of the band to the fullest and it will be good news to those who have not heard the band and to those who have heard the band to know that they will give a concert of special numbers in the Princess theatre Thursday night (tomorrow) at 8:00 o'clock. This concert is given at the special request of many who could not listen to the band on the street and others who have not contributed to the band and as there is special music that cannot be given in an open air concert the special arrangement whereby this excellent band can be heard in the theatre will be a great enjoyment to the music lovers of Sanford. Popular and novelty numbers will be interspersed in the regular program numbers and the lovers of jazz music are promised their fill of the latest jazz music.

Two hours brim full of entertainment for everyone. The real beauty of this band cannot be appreciated until it has been heard in a theatre where the softest and most beautiful tones passages are distinctly audible.

The price of admission will be \$1 per seat and no reserved seats. This opportunity is given to the people of Sanford who wish to hear this band in concert work where they demonstrate some of their best work and where the music can be enjoyed while comfortably seated in the theatre building. The concert has been arranged by special request of many of the people here who have not had the opportunity of hearing the band in open air concerts and have not had the opportunity of contributing toward paying the expense of the band. Everyone can pay a dollar, help along the band fund and enjoy a real concert at the same time. Any description of the Million Dollar Band is unnecessary after having heard them in several open air concerts. The following program for the concert in the Princess is given below:

1. Marche—Oriental—Orlando
 2. Overture—Maritana—Wallace
 3. Violin Solo—5th Air Variations—Berlioz Erling Sodahl
 4. American Sketch—Down South Myddelton
 5. Xylophone Solo—The Waterfall—Stobbe Emil Feflin
 6. Suite—Indian Summer—M. L. Lake
- (a) Morning—(b) Dance of the Pumpkins.
(c)—Love Song—(d) at Twilight. Intermission
1. Descriptive Suite—The Destruction of Atlantis—Safranck (Atlantis is a continent which is supposed to have existed in prehistoric ages and to have sunk in the Atlantic ocean. The Azore Islands are presumed to be the remains of its once lofty mountain tops.)
 - (a) Nocturne and Morning Hymn of Praise.
 - (b) Gavotte—A Court Function.
 - (c) A Love Scene—Duet by Messrs. Bruce and Lower.
 - (d) The Destruction of Atlantis.
 2. Soprano Solo—Boy O' Mine—Walter Kelley
 3. Celebrated Minuet—Paderewski
 4. Violin Solo—Spanish Dance—Rehfeld Erling Sodahl
 5. Grand Selection—The Bohemian Girl—Balfe
 - Incidental Solo—"Then You'll Remember Me."—Walter Kelley
 6. Finale—"The Star Spangled Banner."

As soon as the new fireproof hospital of at least twenty-five rooms to be erected on McGregor Boulevard, Ft. Myers, at the cost of about \$35,000 is completed, a private room will be fitted up and maintained as a memorial to Capt. R. C. M. Page, who with G. Hunter Bryant and Thomas H. Colcord lost his life in the tragic hydroplane accident which occurred at Everglade on March 21.

Julian Lillenthal, "the mad poet of Fort 'Dade," blamed moonshine for his theft of \$350 from Harry Thornburg, a cigar merchant. He was brought back to St. Petersburg Monday, two weeks after he disappeared with his employer's money while on his way to a St. Petersburg bank, and following his apprehension in Mobile.

Seminole: Two carolads of drainage tile and three traction spray machines have recently been purchased co-operatively by farmers of this county through the county agent.

Thursday Night

there will be a special concert, given by the Million Dollar Band, at the Princess Theatre. There will be added attractions for that night and it will be well worth your while to hear this concert. A small admission will be charged, the proceeds to be used to raise the balance necessary to pay for the Band, and we are all going to be there.

IT IS NECESSARY

that we again call to your attention the fact that a complete line of Full Dress Clothes are at our place right now. Every bit of this line is new and fresh, just having been received from the Society Brand people. You are sure to get the very best and latest at the lowest price, if you get them from
