Docks May Load Soviet Grain Shipment

MIAMI BEACH (AP) - The re-elected president of the International Longshoremen's Association says there is a good chance that dock workers will not refuse to load U.S. grain on ships bound for the Soviet Union.

But Thomas W. Gleason, unanimously re-elected Thursday to his fourth term as ILA president, said he would order the loading only if union leaders were convinced the grain sale won't create food shortages and higher prices in the U.S.

FLORIDA **IN BRIEF**

Investigator: Girl Found On Beach Was Murdered

NEW SMYRNA BEACH (AP) - Investigators whose body was found on an isolated beach four days ago was murdered. Jack Lynady, chief investigator for the Volusia County

State Attorney's office, acknowledged Thursday that he ordered the information withheld in hopes of giving the killer a feeling of confidence. "I have no doubt it was murder," Lynady said. "Any

death look like an accidental drowning by throwing her

The girl's identity, however, remained a mystery today despite telephone calls from hundreds of parents who thought the body might be that of a missing daughter. Lyandy acknowledged that the girl was a murder victim after Arthur Schwartz, Volusia County Medical Examiner, made the disclosure on his own. Schwartz said the girl, whose age has been put a anywhere from 14 to 18, did drown but his autopsy had uncovered "good evidence" that she would have died of injuries received in the beating.

TALLAHASSEE (AP) - Atty. Gen. Robert Shevin will oppose attempts to hire an attorney outside of his office to fight a raise in telephone rates that will cost the state \$1.75 million, a spokesman says.

Deputy Atty. Gen. Baya Harrison III said Thursday that if the General Services Department requests Cabinet approval for hiring an outside attorney, "we will try to help by assigning Asst. Atty. Gen. Tom Beason who does

extra cost to taxpayers, Harrison said. However, Shevin's approval will not be required, because four other Cabinet members can approve spending the \$25,000 sought by General Services to fight the proposed \$1.75 million hike in state telephone rates. The hike would result if a rate increase is granted the Central Telephone Co., which serves Tallahassee. General Services officials agreed at a meeting Thursday that an outside attorney was needed because of the complexity of the legal question, said executive assistant

"This is not an ongoing problem in government. We just don't keep people with that kind of expertise employed full time in government," Seale said.

Security Officer Charged

MIAMI (AP) - A security officer has been charged with robbing \$30,000 from the downtown bank he was supposed to be guarding, FBI agents say. Agents said they arrested Angel Luis Arroyo, 27, of Miami. Thursday in the attic of a house in nearby Hollywood nearly seven hours after a bank drivein teller was robbed by a man wearing a security guard's uniform. Arroyo was charged with bank robbery, a spokesman said. He said nearly all the money was recovered.

The teller, in her mid-20s but otherwise not publicly identified, was briefly held hostage by the robber, said police spokesman Angelo Bitsis. Gonorrhea 'Out Of Control'

TALLAHASSEE (AP) - Gonorrhea is "completely out of control" in Florida, state health officials

The officials said Thursday that syphillis and gonorrhea rates rose sharply across the state in the first six months of this year despite declines in some counties.

The rate for infectious syphillis rose 29.2 per cent and the gonorrhea rate jumped 12.3 per cent during the first six months in 1974, officials said. "Volusia County dropped from second to 17th in the ranking of counties with over 100,022 people," Dr. Clifford Cole, administrator of the health divisions veneral disease

control section said. "The rates of Pinellas, Manatee, Polk and Sarasota counties have declined considerably, seemingly because of an intensive campaign of casefinding in that part of the state," he added.

Fourth Amendment Means What It Says

No federal agent operating within the jurisdiction of the U.S. government should be allowed to violate the provisions of the Fourth DON OAKLEY Amendment in any circumstances whatsoever.

That means no searches of private living quarters or offices or papers, no wiretaps and no bugging without a judge's finding that the search is justified and his issuing a court warrant to authorize it.

This should be the rule without exception within the territory of the United States, whether or not the investigation being conducted relates to the activities of foreign nations within the United

It is already the rule so far as investigation of domestic matters is concerned. That was laid down in the Keith decision of the U.S. Supreme Court in

But the court explicitly reserved a decision on warrantless wiretapping that is based on threats to the national security involving foreign powers. The government continues to contend it has

inherent power to conduct such warrantless wiretapping. Attorney General Edward H. Levi said last month that the Justice Department authorized warrantless national security wiretaps on 148 persons last year and installed hidden microphones to eavesdrop on 32 others. FBI director Clarence M. Kelley now contends

he has the legal authority to order surreptitious entries (burglaries) in the national interest.

The Supreme Court and the Congress should end these practices if the executive branch refuses to do so. Our reading of the Fourth Amendment does not reveal that it provides for any exceptions. As a practical matter, the obtaining of warrants need not impede our counterintelligence

efforts in this country. And requiring warrants will protect the citizen against the kind of secret surveillance that can occur when federal agents do not have to answer to Companies. "Tomorrow it will be manufacturers anyone except their own bosses in the executive of vital consumer products such as pharbranch.

Three years after Watergate we are now fully aware of the abuses against constitutional liberty that are possible under color of the inherent power of the executive to protect national security.

What the Capitol needs besides self-service elevators is self-service senators and congressmen. often in a position to "do something" are The problem is not only the kids who run the elevators, but also members of the legal profession. And the the other 20,000 congressional employes riding up and down with "something" generally involves further them every day.

It is puzzling, then, that President Ferdinand Marcos of the JACK ANDERSON Philippines should be taking a course that strains rather than strengthens the ties with the United States on which his country's security depends. It is hard to see how his plan to assert more national control over U.S. bases in the Philippines can do anything but diminish their effectiveness.

Activity for the day starts at 9 a.m. with a parade forming at Casselberry Square Shopping Center on Semoran Boulevard and Winter Park Drive. The parade is scheduled to end around 11

a.m. at Secret Lake Park. There will be a bicentennial theme attached to the 'fun day' with Seminole County Bicentennial Committee Director Jack Horner presenting the official bicentennial flag to city officials. There will be prizes for the best patriotic

costume in the parade. The entire day's activities are being sponsored by the city recreation department, which would like

to see it become an annual event. Talented entertainers will headline the festive day, including Life Unlimited Youth Singers, belly dancers, Hawaiian dancers and Rogers School of Dance. Also on the agenda are square dancers, clowns, acrobats, blue grass music and various

The nice thing about all this is there will be no admission fee, although food and drink items will be for sale, including hot dogs, pizza, corn-on-the-cob

This is the type of activity we'd like to see more of throughout the county, especially right here in Downtown Sanford.

It's long been our contention that there is not enough community-spirited activity during the summer months and we'd like to see it happen here. For instance, we could have an old-fashioned

community fair' type thing with various fire departments throughout the county holding a barrel' contest, amusements for children, hot dog stands, cotton candy, fair-type booths displaying various wares made by area residents, etc.

All of these activities, we feel, tend to bring people closer together in a friendly atmosphere. The July Fourth activities at Fort Mellon Park were great, but we wonder why something like this couldn't be staged more often. Seems it would contribute a lot to our community. Meanwhile, a doff of the derby to Casselberry

Now that the Downtown Business Association of Sanford (DBA) has adopted a set of by-laws which clearly gives the organization something to work with, we sincerely hope that all factions of the community throw their support behind it and help. To renovate and redevelop Downtown Sanford should receive top priority from every concerned

citizen and we hope that all groups, committees and civic-minded organizations will contribute to seeing that the DBA's goals are accomplished. There should be no bickering about who's doing what, no petty jealousies and, most importantly, no apathy connected with the redevelopment of our

A community effort is needed to make things function smoothly and we thust that one and all will provide solid input into any and all plans that might develop to help make Sanford a more attractive, and better place in which to work and live.

Says one from Pittsburgh: "I you're in trouble with your landlord, and he threatens eviction, would you rather have an

Intellectually, the argument is a fair one. Even Judge Hare admits he cannot keep up on the law as much as he would like: "We usually receive notification from Harrisburg concerning changes in the law, but the problem is when. Sometimes I get the literature six months late." Hare recalls one time when he charged two people \$50 apiece for the same motor vehicle offense. American officials are more

than a trifle defensive when they discuss the declaration that President Ford and leaders of 34 other governments will sign next week in Helsinki. After two decades of prodding, the Soviet Union will finally gain acceptance of the postwar map of eastern Europe. In return, the West mostly gets some high-sounding but tenuous "human rights" principles. The document, which is not legally binding, allows for peaceful changes in borders. .Do Or Die For Yankees Against Sox

It's the Boston Red Sox who are hot ... but it's the New York ankees who are sweating in the American League East. The Red Sox hold an eightgame lead over New York and intend to enhance it as they confront the Yankees tonight in the start of a four-game series.

"New York's eight games behind us and they've got to get a split with us this weekend or it doesn't do them a bit of good." said Carl Yastrzemski after the Red Sox stopped the Minnesota Twins 6-2 Thursday for their 14th victory in 16 games.

"With the starters we've got, I think we're in pretty good shape. This is by far the best Red Sox team I've played on." Luis Tiant, one of the premier starters referred to by Yastrzemski, will pitch the series opener in Shea Stadium against New York's Rudy May. Rick Wise, another of those excellent Boston pitchers, stopped the Twins on nine hits Thursday while the Yankees were losing a doubleheader to the Chicago

Wood May Be Named Bell Head Coach

By THE ASSOCIATED PRESS The Green Bay Packers, once the kingpins of the National Football League, dominate the profootball scene again...but not with the Pack.

Willie Wood, a former All-Pro safety with the Packers when the Green Bay team captured the first two Super Bowls, is expected to become pro football's first black head coach since Fritz Pollard led several teams in the early 1920s when the NFL was an infant. Wood is "the prime candidate" to succeed

Ron Waller, who resigned Wednesday as head coach of the World Football League's Philadelphia Bell. Wood joined the Bell this

year as Waller's defensive coordinator. When Waller resigned, he recommended Wood be named his replacement.

Gale Gillingham, Wood's teammate on the Packers, announced his retirement Thursday. The 31-year-old offensive guard was a fourtime All-Pro selection during his nine-year

PREVENT FARM ACCIDENTS

DON'T BE A STATISTIC, CHECK YOUR FARM FOR SAFETY HAZARDS TODAY!...

Most farm accidents can be avoided if a little time is taken to remove obstructions, fill hazardous field depressions and check machinery

for unsafe operating conditions. Safe farming conditions are as much a part of farming as cultivating or planting.

Don't gamble with chance, remove the cause of an accident promptly!
