than our county and embraces all of Central Florida. There is no question that new industrial plants are being constructed, older industrial facilities are being expanded and growth-conscious managements are looking at us with sharp eyes.

of a movement which is bigger than our city, greater

There is no question, unhappily, that in all this there is one important situation which remains unresolved-the future of the vacated Naval Air Station. Ever since the then Mayor Joe Baker spoke out on Jan. 4, 1967 and publicly made the "industrial potential" of SNAS a key project for his administration, the base has had a tough time.

A meeting in City Hall in the spring of 1967 saw

gather for a general discussion, General Services Administration and the Federal Aviation Authority were the main federal participants.

Guide lines were laid down. On the local level there have been the efforts of the Seminole County Chamber of Commerce, long-time channel for in-coming industries, and the more recent drive of the city's Industrial Board to bring industries here to fill the base when July 1, 1968 rolled around and the Navy

The base and its airport are, of course, most attractive facilities. During the intervening months they have attracted all sorts of attention. Spotlighted by a proposal to locate a skilled training school there at one time, the base also was considered by the Sem- er Sanford. inole County Board of Public Instruction, as a desirable location for its administrative headquarters.

DISTURBANCE IN THE CHICKEN COOP

Three Groups Asking Change

"turn America upside he would fashion a society The revolutionary would

false values around him and and energies of individuals

believing only in that which and groups, the same old hum-

Finally, however, the unravelling of some red tape in Washington by friendly hands and the persistent push from City Hall to keep it unwound appeared to

clear the decks for action. Now we understand that on Oct, 15th the city will have possession. This should liberate the base so that those who have been talking about locating their industries there can take action. For it is action that is needed. Sanford has a fine

asset in the base facilities and acreage. Our economy

is getting some welcome payrolls and new citizens who will be part of our future growth, part of Great-But the lessons we are learning in this travail of

have alternately raised hopes and dashed them down. city's to control and manage, this responsibility must be faced boldly and specifically. From a layman's point of view it would seem

that now is the time for our city government to discuss and determine the way and the rules which will govern any new industrial uses the base will provide. There are two obviously different components at the base. One is the airport, runways and buildings. The other is the acreage itself. There is, however, something more which must be considered in broad

That is the future of our area, not only the city but the county. In this the Sanford Air Park will play a major role. But the extent of it will depend largely on the vision now of those controlling its destiny and giving birth to a new industrial complex need not be their willingness to take firm positions!

### Big Tree Boost

When the Sanford-Seminole Jaycees have picked a target and aimed their manpower at it, there is usually a bull's eye! Thus we are indeed happy that this organ-

ization of positive, action-minded young men (with a low bow to the Jaycee-ettes) have drawn a bead on Big Tree Park. The full use of the present park is the immediate need to bring this unusual and notable

natural attraction of Seminole County into the spotlight for all to know about and to enjoy. Big Tree Park, off 17-92 on Gen. J. C. Hutchison Parkway near Longwood, is the home of "The Senator," massive cypress tree and the spot where a green belt, following Soldier Creek

to Lake Jessup, is envisioned. Now the Seminole County Commission has given the operation of the park over to the Jaycees. These civic-minded young men will operate the park with the help of a permanent caretaker and supervisor.

We are not, of course, aware of what the private counsels of the Jaycees were that spurred the Jaycees to this responsibility. But we have known this organization in many cities and many areas but have yet to

witness the zeni, the spirit, the devotion to community good that exists here in Sanford.

So Godspeed to you in this project. All of us who are deeply interested in the preservation and the expansion of such great natural resources of beauty and charm with which are lake-river area is blessed are happier for your interest and easier for your record of achieve-

U.S. COAST GUARD AUXILIARY

Members of Flotilla 41 and the writer submit a vote of thanks to Shiriey Rhiner for the professional manner in which she handled this feature while your scribe was sojourning in salt-steeped Nove Scotia, birthplace of the modern Bounty and many racing fishing schooners. Shirely, Coast Guard auxiliarist par excellence, proved not only her mastery of rhetoric but as well her being thoroughly conversant with pleasure eraft and nautical lore. Undoubtedly will her literary skill be summoned in the future.

An honored guest at the monthly flotilla meeting this month was QM 3 F. Schooler, U. S. Coast Guard Reserve, stationed at the Reserve Training Center in Orlando. Petty Officer Schooler will be the instructor in an advanced training rourse in communications for flotilla members to start October A new public course open to all and treating of boating

safety and basic seamonship will be instituted October 3 at the Monroe Harbor Lounge. Classes start at 8:00 p.m. This is the popular 8-lesson course. We are happy to pipe aboard Ed Dagner, Seminole Coun-

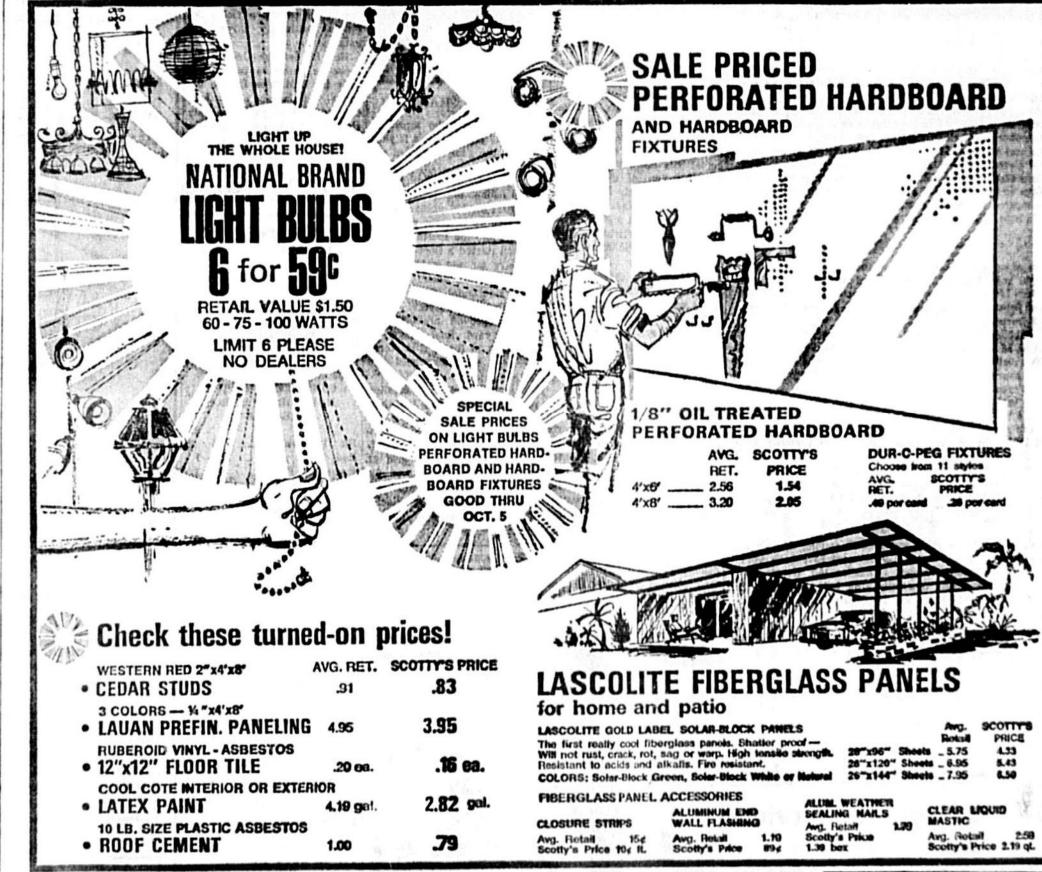

ty dweller who is transferring his Auxiliary membership from 4-11, Orlando-Winter Park, to the local unit.

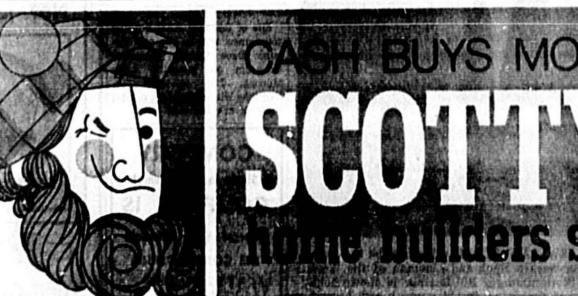

Amiable Cruisemaster Bob Cushing reports that five boats participated in a recent pleasure cruise to Ponce de Leon Springs. Among those participating, besides Bob and Marie, were his parents, Helen and Howard Cushing; the seafaring McDonalds, June and Bill Wilkins, Curtis and Alma Dunaway and their daughter; Bud and Mary Davis, Ed and Inez Dagner and their lass, and Joey McElvey. No recreational pursuit excels boating.

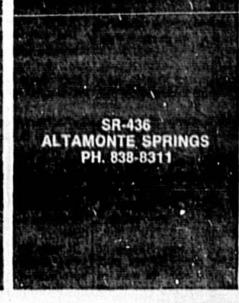

A flurry of activity is beheld these days in the new headquarters which ere long will house Flotilla 41, such edifice to be a credit to Sanford and boating devotees. The remodelling s under the able supervision of Bos'n Norm McElvey, otherwise known as VC McElvey of Flotilla 41. The formal opening of the new HQ will coincide with the first birthday of the floilla on October 26. A gala occasion this will be.

Flotilla members are unanimous in that FC Vince Holmwood should remain at the helm rather than divert his enerries to a Division post in the Coast Guard Auxiliary. This was he sentiment expressed among all members at the last monthy meeting. As an impartial observer, the writer submits that while no one individual is responsible for the progress or refrograde motion of any organization or human endeavor, Vince has labored long and hard in his dedicated contribution to the ffectiveness and growth of Flotilla 41.

Recently shirley Rhiner whote of the value of nautical charts to the boatman. An intriguing subject, these marins maps. We will resume the subject next week,

# How To Stitch Up A Second Skin

All fashion-conscious women either the real thing-leather-

or its man-made counterpart. leather-look vinyl With both these materials available in department stores throughout the country, home dressmakers can be right in style in their own creations. Since sewing techniques vary somewhat from those used with ordinary fabrics, experts at the Singer Company offer tips on how to achieve best results. -Selecting a Pattern: Because of the shape and varying size of leather skins, such fashions should have a number of seams, using patterns with many small pieces. For vinyl

choose simple straight-line designs with a minimum number -Altering the Pattern: For both leather and vinyl, alter the paper pattern before cutting. and trim the seam allowance to

-Pinning the Pattern: Pin marks will show, so pin within the seam allowance For leather, select the most uniform skins for fronts and sleeves, lay ling the pattern pieces on a sin gle layer of skins, either all lengthwise or all crosswise. For vinyl follow the pattern dia-

darts and other lines on the wrong side with tailor's chalk.

PATTERNS USING SMALL pieces, such as this pantskirt and vest, are good choices when using and clip notches outward. Make real leather. For vinyl, a minimum of seams is ad-

Baste carefully before stitching, able at Singer Centers, Stitch length selector at 8 or 10 backed vinyl hem; are usually (Pin-baste within seam allow length should be 6-10 stitches Thread should be No. 50 mer-machine-stitched % to 1 inch per inch; thread should be No. cerized. For both, use normal, from hem fold. They can also be--Sewing: Sew leather with a 50 embroidery.
