LEAGUE NATIONS TO FINISH WORK NEXT WEEK

CZECHO-SLOVAKIA IS THE ONLY OPPOSITION FOR AUSTRIA IN THE LEAGUE

(By The Associated Press)
GENEVA, Nov. 27.—Official predict the League of Nations assembly complete work next week, ten days ahead of schedule, the Czecho-Slovakia is the only opposition to the admission of Austria in the league.

GENEVA, Nov. 27.—The attitude among delegates to the assembly of the League of Nations toward the appeal of the league to President Wilson to act as mediator in the Armenian situation appears to be one of hope without expectation that the United States will relieve Europe and the league of an embarrassing question.

Acceptance by France, however, it is understood, would be only on condition of full support from the other nations.

Activities of the assembly have been transferred for the time being from the hall where the meeting has been held to the offices of the secretariat. Here the committees and sub-committees were holding sessions throughout the day. They will continue their labors until Tuesday night when the assembly will reconvene, hear the first reports of the committees and take up the resolution of George Nichol Barnes, of Great Britain, asking the council to explain why it did not intervene to prevent the clash between the Poles and the Russian bolsheviks last summer.

WASHINGTON, Nov. 27.—The weather bureau last night ordered storm warnings displayed along the Gulf coast from Bay St. Louis, Miss., to Carrabelle, Fla.

Reports to the bureau indicated there was a disturbance over the West Gulf moving east-northeastward and that it will be attended by increasing east winds and rain.

State Board Curbs "Irregular" Physicians

WINTER BRINGS MANY SO-CALLED DOCTORS TO THIS STATE.

JACKSONVILLE, Nov. 27.—A measure to curb the promiscuous activities of "irregular" doctors from other states who seek to capitalize on the misfortunes of humanity and the climatic advantages of Florida will be presented to the next legislature at the suggestion of the Florida State Board of Health. The bill contemplated will have as its object the regulation of hospitals and sanatoria within certain practitioners of the "irregular" class.

The State Board of Health is constantly receiving inquiries from physicians out of the state requesting information regarding the possibilities of starting hospitals for the treatment of Tuberculosis, Nervous and mental disorders and drug addicts. In many instances investigation by the board reveals that the physicians making such inquiries are not of such standing as to assure the proper operation of institutions under their care, and it is in an effort to prevent the operation of such people that the board will father the measure indicated.

Under the present statutes there is the most general state supervision of medical institutions and any person who successfully passes a medical board examination has the right to operate a hospital or sanatorium. Such a law as contemplated would make it possible to require adequate facilities both with regard to physical plants, staffs and nursing forces.

Such a bill, if enacted into a law, would work a great benefit to the entire state and would safeguard unfortunates from imposition, according to Dr. Ralph N. Greene, state health officer.

Dr. Greene will present to the next legislature a program the adoption of which will insure the greater efficiency of the State Board of Health at no increased cost to the commonwealth.

119 Cars This Week at Very Good Prices

NEED COOL WEATHER

BRINGING \$2.50 PER HAMPER HERE IN SANFORD TODAY

Lettuce continues to move from the Sanford section and while the price has fallen considerably since the first of the week it is still very good, the quotations yesterday being \$4 and \$4.25 yesterday in the northern markets and it is said to be bringing \$2.50 per hamper here which will let the growers out although it costs more to raise it this year than ever before.

Lettuce is always a profitable crop as it costs considerably less than celery to grow and ship and while the growers never expect high prices to prevail during the season they usually count on getting a good price at the first or during the holiday season and after that they figure on celery and other crops bringing them out if they lose on the lettuce crop. The weather is not so good today being very cloudy and with signs of rain. Should the rain be light and turn off with a cold spell the lettuce will head and ship fine but should the rain continue any time and have foggy weather or warm weather the lettuce does not grow as well or carry as well in shipments. The weather has to be reckoned on all the crops and the growers here have learned to take things philosophically and today their prospects are as bright or brighter than any season in the past ten years.

This week there will be 119 cars of lettuce and romaine that will have gone forward from the Sanford section which is a fine record and one that will probably top any similar season in many years. There is much lettuce to go next week if the weather conditions and market conditions are favorable and from this time until after Christmas there will be considerable lettuce moved from here. There are also beans, cabbage, and some peppers in the sections near here that will be moving soon although hardly enough for much in the car lot shipment line.

The various crops in this part of the state never looked better and the growers are looking forward to a fine season.

MIAMI TO ELECT A CHARTER BOARD

MIAMI, Nov. 27.—January 21 has been set by the city council as the date for the election of a charter board of fifteen members with a view to drafting a charter providing for a change in the present form of city government—in accordance with petitions bearing 1,176 names which were presented to the council by Mayor W. P. Smith at a recent meeting.

This action was taken following the certification by City Clerk W. B. Moore to a report stating that 1,076 of the names signed to the petitions had been found to be qualified voters, or 16 more than the required 20 per cent. The total registration in the new city books is 5,301, the city clerk certified.

Under the resolution calling the election, which was drafted by the mayor, applications by any qualified voter for the purpose of having his or her name placed on the official ballot will close on or before December 23. Applications must be filed with the city clerk. The registration books will be open for a period of thirty days, closing not later than fifteen days before the election.

PORK A-PLenty AND HITS PRE-WAR PRICES IN THE BIG MARKETS

CHICAGO, Nov. 26.—Pre-war prices for live hogs became general today throughout the United States. Big receipts from the farms seemed to be the immediate cause, the total supply of hogs on sale today at the ten principal markets of the country being estimated at 182,000 head, as against 124,000 a week ago.

In Chicago the market closed at the bottom figures of the day, the lowest since Dec. 16, 1916, and at an average drop of \$1 a hundred weight as compared with yesterday. The practical top at the finish was \$10 a hundred-weight, whereas on July 31, 1919, hogs commanded \$23.60, the pinnacle point on record. Five years before the current price was \$8.15.

MEN'S BOWLING CLUB

The weekly meeting of the Bowling Club was staged Wednesday evening at the Parrish House. Five members of the club were absent and substitutes played and their score was added to the individual score of the club member not present. In the future, it requested and urged that each member furnish a substitute when it is not possible to be present and in this manner the club will have sufficient players to stage a contest each Wednesday night. Several new players have signified that they will join the Men's Club and enroll in the bowling tournament.

Everybody get out and boost for the many good things for Sanford.

The nations of the earth want the United States in some kind of a League and the United States should climb in.

The many sales being put on in Sanford are bringing the people here to trade in big numbers. Stimulate business by special inducements.

The St. Johns river will get part of the big appropriation that is coming to Florida. Being the greatest river in Florida it should get the greatest part of the appropriation.

We should all go to church tomorrow. This is a church-going city and there are more men in the Sunday Schools here than any city of similar size in the state. Sunday is the day to attend some church at least once during the day.

A little oil sprinkled on the railroad crossings on First street would keep the dust from flying and make a crossing that would last for years whereas now the crossing is being gradually blown into Lake Monroe much to the discomfort of the passerby. Some oil used on many of our clay and rock side streets would make much better streets and much more durable streets.

WOODROW WILSON—WAR VICTIM

The press dispatches recently told us that President Wilson sat on the south portico of the White House and enjoyed the rays of the warming sun—which gives us an opportunity to remark that nature is benignant and comforting, though the heart of man be sold.

For now the election is over, and the great object for which the storm of hatred against the President of the United States was stirred up, is attained, Woodrow Wilson sits alone, broken in health, draped in shawls, awaiting not alone the end of his term of office, but the rising of the last sun his earthly eyes shall behold.

He has served his day and generation as few men in all history have been permitted and able to observe. He led first his state and then his country far and safely along the pathway of progress and justice. He became in his second term, the voice incarnate of the embattled democracy of the world, giving to its ideals not only form but definite purpose and crowning them in the end with victory splendid and untarnished. His frail body has housed high courage, a noble vision and indomitable will. He has laid upon the altar of humanity all he had to give except—as yet—life itself.

Stricken and unable to defend himself, he has been assailed in his last days, with a viperous malignity artfully and scientifically inflamed by partisan craft for a partisan purpose. The purpose as has been said is accomplished.

The president remains, yet awhile

longer: He is, our president—the president of the United States. It is too much to hope that, while there is yet time, the better nature and truer patriotism of American will find a way to express to the heart of this—one of the many victims of war—the solacing thought that humanity is not ungrateful.—Daytona Morning Journal.

TOO MUCH "THANK YOU"

We honestly believe that in the matter of doing things for a mere "thank you" the weekly newspapers of this country hold the record. We say it with no desire to discriminate, for we believe Branford people are no different from those to be found elsewhere, but we feel that on reflection they will agree it is true, that for the number of favors rendered no other institution is as poorly paid as the newspaper. The church has a bazaar, the school has a concert, a club brings a paid speaker or musician to town and does so to make money, and yet in almost every instance the newspaper is called on to announce the date, boost the attraction, get out the crowd—and then be satisfied with a free ticket. And often, very often, the promoters overlook even the free ticket.

It is hard for some people to understand that about all a newspaper has to sell is its space, or at least that part of its space not devoted to actual news happenings. If it gives away its space, where is it to get money for more white paper, more ink, more type—for type wears out—and for rent and heat and light and the scores of other things that it is forced to pay out good money for? They wouldn't go to the merchant and say, "We're going to hold a bazaar to make some money; give us some of your goods to sell that night." Yet they say to the editor, "We're going to hold a bazaar, give us your advertising space so we can get a crowd that will spend its money." And yet there's no difference.

The newspapers are here to boost every worthy institution—and this one expects to keep on doing it. But we'd get down on our knees and thank the good Lord right now if we could make every one see that it takes money to run a newspaper just as it does anything else.—Branford Herald.

So great has been the early travel to points along the East Coast of Florida, the officials of the Florida East Coast railroad have been compelled to put on addition train service to accommodate the unusual number of visitors and winter residents.

Vulcanite Shingles

Just Lay Them Down and Nail—That's All There is To It

The Shoulder of Protection keeps hot or cold air—rain, sleet, etc., from forcing its way through the roof. The Shoulder of Protection is also the Self-Spacing Device. Makes laying easy and rapid—thus saving time and money. These Asphalt Shingles are surfaced with natural colored Red or Green Crushed Slate. Each rain washes away the accumulated dust—reviving perpetually the original rich colors. Where these shingles are used the insurance rate is lowered—because they are fire-resisting. Give us the dimensions of your roof. We will estimate the cost free of charge. Samples and prices furnished free.

FALL IN PRICE FARM PRODUCE CAUSES MORE DAKOTA BANK FAILURES

FARGO, N. D., Nov. 27.—Two more North Dakota banks closed their doors today as a result of depleted reserves, bringing to fifteen the number of financial institutions that have shut down for similar reasons in the past two weeks. Those closed today were the Farmers' and Merchants' Bank at Sherwood, and the Farmers' State Bank at Rhame.

The closing of state banks at this time is owing to withdrawals exceeding collections to a point where the reserves have become depleted, according to O. E. Lofthus, state bank examiner.

"The primary cause is the sudden drop in prices of grain and stock to a point where if sold now will be a severe loss to the producer, and he refuses to sell," he said.

TRIAL OF FITZGERALD GOES OVER TO APRIL

DeLAND, Nov. 27.—With the adjournment of circuit court yesterday, it became known that T. E. Fitzgerald, editor of the Daytona Daily News, held on a charge of criminal libel, would not be tried until the April term.

Hugh C. Sparkman, editor of the Daytona Morning Journal, is the aggrieved party. Fitzgerald was indicted last week. Judge James W. Perkins decided that he should not try the case inasmuch as the defense had raised the question of prejudice. The trial was set to have been started yesterday.

TY COBB BOOED OUT OF CALIFORNIA BALL PARK

SAN JOSE, Calif., Nov. 27.—"Ty" Cobb was booed out of the ball park by indignant fans who came to see him play here, when he quit the game yesterday at the end of the sixth inning after an argument over an emery ball. The umpire and the San Jose team refused to take the ball to which he objected, out of the game. He declined to go to bat and left the park. Cobb's All Stars were defeated, 7 to 2.

ODESSA: PARIS OF THE UKRAINE

Before the war no city of the Near East save Bucharest so nearly resembled Paris and Vienna in its hectic night life as did Odessa, conspicuous in the fighting of Ukrainians, Poles and Bolsheviks.

Odessa had hundreds of sidewalk cafes, its municipal opera and its palaces of chance. It had more than half a million population, yet it is one of the newest cities in Europe. Moscow's history extends over a thousand years, that of Odessa only a little beyond a century.

There is a unique analogy between Odessa and the capital city of the United States. Both were started at about the same time—during the last decade of the eighteenth century—and both were begun because of the far-seeing wisdom of the chief executives of the two nations.

Perhaps the oddest coincidence is the fact that they both were planned by foreign civil engineers of the same nation. While Major L'Enfant was devising the "city of magnificent distances" to be erected on the banks of the Potomac, Voland, also a Frenchman, laid out Odessa on the shore of the Black sea. While President Washington was dreaming into being the beautiful city which bears his name, Czarina Catherine the Great was sponsoring the upbuilding of a municipal stepping stone toward the chief object of the Russian Bear's stealthy tread—Constantinople.

Like Washington, Odessa was laid out in the midst of a virtual wilderness and swamp. An isolated Turkish fort, Khaj-Bey, stood on the site of the present city at the time, 1789, when it passed to Russia. In early years of the Christian era Greek colonists had taken advantage of the bay of Odessa.

Until five years ago the railway distance between Odessa and Moscow was more than a thousand miles, but a new line, via Bakhmach, reduced that distance to 814 miles. The steamship distance between Odessa and Constantinople is 360 miles.

From its history it is evident why Odessa was far from a typical Russian city. Mark Twain found the only Russian things about it to be the shape of the droshkies and the dress of the drivers. He might have mentioned the gilded domes of a few churches. There the Russian likeness ends.

A few miles to the north and also to the southwest are three "limans," or lagoons, famous for mud baths believed to benefit persons with rheumatism, gout and skin diseases. The most popular of these is 20 miles long, a mile wide, 10 feet deep and lies 16 feet below the level of the Black sea.

Mr. P. LaDuke, Farmer, Says, "You Bet Rats Can Bite Through Metal."

"I had feed bins lined with zinc last year, rats got through pretty soon. Was out \$18. A \$1.25 pkg. of RAT-SNAP killed so many rats that I've never been without it since. Our collie dog never touched RAT-SNAP." You try it. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Company.

Suits

It can hardly be described being, as it is, expressed in new lines, new colors and new fabrics. PLANT CITY VEGETABLES ARE SCARCE

The vegetable market in Plant City has been marked by a falling off in the amount of vegetables marketed this week. All vegetables are getting scarce. Few vegetables were sold Thanksgiving day, which makes the week's receipts far below the average. The prices are about the same as they were the first of the week, with a slight rise in squash.

Prices quoted by local buyers today: Cukes, \$3.25; egg plants, \$3; lettuce, \$2; okra, \$3.25; Irish potatoes, \$2.50; pepper, \$2.50; squash (yellow and white), \$2.—Plant City Courier.

The many friends of Henry McLaughlin, Jr., are glad to have him back home after spending the summer in Chicago where he was studying optometry. He will be here this winter but will finish his course in Chicago next summer. In fact Chicago is no place for a Sanford boy when the chilly breezes begin to blow from Lake Michigan. Henry made a fine record at school and his friends here are proud of him.

The boys and girls are home this week from the various schools and colleges and among them are Edwin Meisch and Allen, Jones, from the Florida State University at Gainesville. Oliver Murrell is home from Stetson as is Norma Herndon, who will spend Sunday with home folks.

That Friendly Feeling

That permeates this bank makes our regular customers and our new patrons feel that it is their bank and they come again because they like our treatment. We endeavor to treat all alike and are here to counsel and advise you at all times. It is nothing in this workaday life but

It Makes the Whole World Kin

And there is no reason why banks should be places other than friendly places where we are never too busy to hear your story and to lend our aid and assistance to a worthy project. It is our business to take this interest in all your affairs and

We are Your Friends all the Time

And not just fair weather friends. When you need a bank you usually need it badly and you need something aside from money—you need the friendly hand, the good advice, the experienced banker, the systematized bank, the proper connections, the business ideas of business men, the business connections of big business and last but not least, the real spirit of helpfulness that goes with

The Friendly Bank

And when one speaks of the Friendly Bank in Sanford there is one that stands out above the rest for our motto has ever been,—Service, Courteous Treatment, Friendship, Business Methods and More Service. If you are not one of our customers now you will be eventually. They all come here for they like our methods.

WEATHER REPORT

For Florida: Local rain probably tonight; Sunday cooler in North portion.

Weather report says more rain.

Horse and mule sale today brought many buyers to town.

Christmas cards, post cards of all kinds at the Herald office.

Several Sanford people attended the dance at Eustis last night.

Albert Dornier has returned from a trip to Fernandina and other points.

The Buick Garage on Park avenue is going up gradually and will soon be ready for occupancy.

Have you seen that elegant box stationery at the Herald office. The real gift for Christmas.

Mrs. F. B. Langley and son, Frank, are spending a few days with friends in Jacksonville.

Most of the camping parties have returned home. Ralph Chapman is the only one who brought home a deer.

Hartell's orchestra were here today enroute to Orlando from Eustis where they played for the dance last night.

The stores are putting out their holiday stuff and soon the windows and the store aisles will look like Santa Claus.

A Kanner has a new advertisement in this issue calling attention to several special bargains that he is offering at his Sanford avenue store.

Paul Winsor, of Bradentown, is a visitor to the city. He is connected with the Manatee Growers Association, being engaged in trucking and fruit raising.

Earl Carr is in the city again and is connected with the Young Company, buyers and shippers of vegetables. Mr. Carr operated here last year in the express business.

C. E. Secrest and wife, of French avenue, entertained at Thanksgiving dinner, Mrs. C. E. Frances, Mrs. Lillian Deyoreo, Mrs. R. M. Armistage and Milton and John Graham of Kissimmee.

Mr. and Mrs. Forest Lake are taking in the state fair at Jacksonville and spending a few days with friends and relatives. They will also hear Billy Sunday before returning home.

Mrs. G. Bassett Smith and two children, Harold and Dorothy, have arrived in Sanford from St. Petersburg, so our job compositor, G. Bassett Smith, is happy once more. They will occupy the Speer cottage at 411 Palmetto avenue.

Perkins & Britt opened their big sale this morning and the police reserves were called out to restore order shortly, after the doors were opened. It was necessary to resuscitate Charlie Britt after waiting on the trade continuously from nine till twelve but he rallied after dinner and came back stronger than ever. Read their ad and attend the sale today.

Mr. and Mrs. George Hoy have arrived in the city from their home in Michigan and will be here for the winter months being comfortably located at the Gables. Mr. and Mrs. Hoy have been coming to Sanford for many years where Mr. Hoy has been engaged in the buying and selling of vegetables and have many friends who are always glad to see them.

PLAN BIG ROAD BOND ISSUE IN LAKE COUNTY

TAVARES, Nov. 27.—A largely attended meeting of representative business men of the third and fourth road districts was held in Tavares on Thursday night to consider the question of merging the two road districts and calling for a bond issue sufficient to hard surface the main roads in these sections.

The fourth district petitioned the county commissioners some weeks ago praying for the creation of a special road district and the construction of a lake shore drive from Mt. Dora through Tavares to Eustis, to connect with a highway via Cassia to the St. Johns river. The new district would have taken in a small portion of the third district, and when presented to the county commissioners a unanimous vote was recorded by that body in favor of the project.

Later a large number of citizens of the third road district expressed a desire to merge with the fourth and call for a bond issue sufficient to hard surface the roads of the two districts.

Pursuant to the request of the citizens of the third district, a large delegation met in mass meeting at Tavares Tuesday night.

A committee composed of the following was appointed to get information regarding cost of various materials to be used in constructing roads, and thus be in a position to have an intelligent conception as to approximate amount of bond issue necessary to complete the work:

Dr. T. S. Kennedy, J. C. LaDue, F. S. Battle, C. O. Roe, H. P. Carpenter, and Judge E. M. Tally.

A VOLCANIC BARNUM AND BAILEY

Young America will drop anything to run to a fire. In some parts of the world—Hawaii, for example—one also drops everything to run to a volcano eruption, unless he already is too close for comfort. Then he runs from it.

Have you ever wondered what a volcano, in action, looks like? Here is a description, not by a scientist, but by a young Washington woman who went to Hawaii to live just before Mauna Loa's terrific eruption last year:

"It seems as if Hawaii, though small, must have just so much attention, and so ever so often she explosively projects herself into the arena of the world's happenings," wrote Mrs. Shirley Foster Allen. "Not content with her share in the 'Big Show' in Europe, she decided to stage a first-class side show all her own—and the two volcanoes, Mauna Loa and Kilauea, have certainly done their best to make it the 'biggest show on earth.'"

"Just a word about the geography of the place. In the first place so many people seem to think the word 'Honolulu' embraces all there is to the islands; and in the second place, the general conception seems to be that the volcano is located in Honolulu's back yard, as it were, and that we Honoluluans take our daily exercise by running up to the crater every morning before breakfast. Honolulu is located on the island of Oahu, third island in size in the group, while the volcano, or rather volcanoes, are located on Hawaii, the largest and youngest island, with an area of more than 4,000 square miles, which lies nearly 200 miles southeast of Oahu.

"The first indication of volcanic activity was the presence of a peculiar cauliflower-shaped cloud hanging over the mountain. Three days later, on September 29, the whole heavens were lit up with an apricot glow when, from a huge vent in the mountain's side, a flood of molten lava was belched forth. Spreading out into a great shallow stream, it came roaring down the mountain slope, burning forests, carrying huge trees and immense boulders on its surface—sweeping everything before it. With a speed varying from one to twenty miles an hour, according to the country it was passing over, it broadened out until it was nearly a mile in width. After wiping out the government belt road, razing telephone poles and destroying a vast amount of property, the red-hot lava tumbled over a high precipice and plunged hissing into the sea.

"A number of excursions were made in October from Honolulu, and, in approaching the flow from the sea in the early evening, the glow from the lava was visible for many miles before Alike was reached.

"Drifting within 200 yards of the point where the liquid rock was rushing into the sea, the scene stretching before one was awe-inspiring. Slowly the smoky haze, from the burning forests, which hung over the source 20 miles away, lifted and the river of fire stood out in its full glory, holding one speechless and spellbound. Leaping from pall to valley, rushing uphill and roaring down, the fiery flood thundered down the mountain slope, carrying on its bosom rocks as big as houses that were tossed about as if they were mere pebbles. As the stream of blazing lava neared the coastline, it appeared to gather more speed, taking a final plunge over a 100-foot cliff at a terrific rate, and looking for all the world like a fiery Niagara. As the red-hot lava came in contact with the water, great columns of steam and gas, like huge water-spouts, were forced hundreds of feet into the air. Huge boulders, hurled into space, exploded with thunderous reports into auras of red and green lights, while flashes of what looked like lightning added to the chaos."

GENERAL PRICES KEEP DECLINING

(By John W. Hill, Financial Editor
Iron Trade Review.)

All eyes in trade circles are turned upon the retailer. The next move in the procession toward lower living costs is expected to come from him. Producers and wholesalers have cut prices and taken losses. Now, they say, it is up to the retailer to follow suit.

Sellers every week are becoming more convinced that the consumers are in the saddle. On Nov. 1 Bradstreet's index number was 70 per cent above pre-war levels. Apparently this does not satisfy the public. It is now giving an amazing exhibition of its ability to refrain from buying essentials as well as luxuries.

Some better movement of seasonal good is reported, however. This is due to the colder weather and to price concessions. In the main, trade continues under the influence of price uncertainty and the deadlock between buyers and sellers.

The snapping back of wheat prices within the last few days to 1916 levels has carried American wheat below Canadian quotations. This has revived buying here by England. The visible supply of American wheat Nov. 1 was 54,000,000 bushels less than last year. The world's visible supply is 163,000,000 bushels less. Large crops in Argentina, Australia, and India, however, are expected to provide ample wheat for the world next year.

With flour nearly back to pre-war levels, bread prices have begun to tumble in some cities. In New York a number of hotels have cut food prices 10 per cent. A large chain of restaurants has announced reductions of from 10 to 28 per cent. Many lines of fabrics and clothing have registered sharp declines within the last two weeks.

Despite the adverse exchange rates, latest export figures show that Europe has been buying cotton freely. October exports were the largest for the month since 1915. At the same time consumption by American mills was the smallest in October since the war began.

Prices are falling because of under demand and not overproduction. Prices were pushed so high during inflation that buyers either rebelled or were unable to pay them. In addition banking credit has been temporarily exhausted. Money rates are high and loan renewals difficult. As a result business houses have accumulations of goods. They must make

concessions to get cash and pay their debts. Also, too much faith was pinned in autumn trade prospects and a post-election boom. It is now realized that excessive prices have gone not to return.

Sellers have abandoned as useless the high-cost-of-production argument to keep up prices. Instead, they are endeavoring to bring down costs for 1921. No general reduction in wages have occurred. Chief economies will be effected through cheaper raw material and fuel and increased efficiency of labor.

The decline of foreign exchanges continues to be a matter of concern in the country. From Argentina, Brazil and other South American countries American exporters are receiving returned goods and unpaid drafts. The European situation also continues grave. In Cuba financial conditions are growing more involved as sugar prices continue to decline.

Everyone Wants What Everyone Else Wants

That is the condition which confronts us in the case of the New Reo Six.

Because of its outward beauty and its inherent mechanical excellence;

Because, in a word, this new Six is a Reo with all the term implies of stability, dependability and low upkeep;

The demand is almost hopelessly in excess of the possible supply.

Our quota is insufficient to supply the local needs--and such is the demand everywhere else, the factory assures us we cannot hope for an additional Reo.

Among discriminating buyers--experienced motorists--the new Reo Six is first choice.

There are many reasons for this.

To enumerate them one would have to mention every detail of this model beginning with that wonderfully simply, wonderfully certain oiling system and ending with the last coat of varnish on the body.

For the excellence of this Reo is uniform excellence.

Attention to little details is the Reo idea of creating a perfect whole.

This latest Reo is also the best Reo--hence the tremendous popularity.

NEW SMYRNA HAPPY OVER MUNICIPAL PLANT WORKING SMOOTHLY

With electric lights burning brightly in all parts of the city after five months of battling with kerosene lamps and candles and semi-darkness, the people of New Smyrna were in position this week to observe Thanksgiving in a spirit of real thankfulness.

The new municipal electric plant is established and working. The current is steady and strong and the new machinery is all working in splendid style. Here are still some small changes and adjustments to be made and these are being taken care of as rapidly as possible.

It was to be expected some difficulties would be encountered when the plant was first started up and that readjustments would be necessary, but the only real trouble was in the switchboard, a part of which did not work as it should after it had been installed and attached. Several trials were necessary to definitely establish this trouble, but after it was located the defective part was removed and a similar part borrowed from Ormond to be used until another part could be sent here and permanently attached.

The lights were first tried out Saturday night, but it was soon found the service could not be maintained under the circumstances and they were turned off again. They were tried out again Sunday and Monday nights and the trouble rectified Tuesday, so that real service was furnished the patrons until midnight Tuesday night. By Wednesday night the plant was working beautifully and no further trouble is anticipated.

The people of New Smyrna are happy over the definite solution of the lighting problem and justly proud of the new municipal plant. It has been established in almost record time since it was definitely decided there was no way to get lights except to build our own plant.

The second unit to be operated parallel with the unit now in service has been ordered and will be installed and ready for use soon after the first of the new year. Until this second unit is in operation it is probable no effort will be made to furnish continuous service.—New Smyrna News.

Get More Butter

Mrs. Hattie Meace of Glenn, Missouri, says: "I was not making enough butter from my cow's milk production for a family of two. After using Dr. LeGear's Stock Powders a short time, she gave a half gallon more milk a day, and a pound of butter a day."

Dr. LeGear's Stock Powders give to milk cows just what is needed to keep the digestive organs in proper condition, so that they get the most possible good from their feed. Give equal wonderful results when used for horses, hogs, and sheep, because they are a tonic, appetizer and worm expeller.

It matters not what ailment you may have among your stock or poultry, it will pay you to get the proper Dr. LeGear Remedy from your dealer. They are the Doctor's personal prescriptions, compounded during his 28 years of Veterinary Practice and Expert Poultry Breeding. They must satisfy you, or your dealer will refund your money.
