THE EASTER STORY

John 20:1-17

The first day of the week cometh Mary Magdalene early, when it was yet dark, unto the sepulchre, and seeth the stone taken away from the sepulchre.

Then she runneth, and cometh to Simon Peter, and to the other disciple, whom Jesus loved, and saith unto them, They have taken away the Lord out of the sepulchre, and we know not where they have laid him.

Peter therefore went forth, and that other disciple, and came to the sepulchre.

So they ran both together: and the other disciple did outrun Peter, and came first to the sepulchre.

And he stooping down, and looking in, saw the linen clothes lying; yet went he not in.

Then cometh Simon Peter following him, and went into the sepulchre, and seeth the clothes lie,

And the napkin, that was about his head, not lying with the linen clothes, but wrapped together in a place by itself.

Then went in also that other disciple, which came first to the sepulchre, and he saw, and believed.

For as yet they knew not the scriptures, that he must rise again from the dead.

Then the disciples went away again unto their own home.

But Mary stood without at the sepulchre weeping: and as she went, she stooped down, and looked into the sepulchre.

And seeth two angels in white sitting, the one at the head, and the other at the feet, where the body of Jesus had lain.

And they say unto her, Woman, why weepest thou? She saith unto them, Because they have taken away my Lord, and I know not where they have laid him.

And when she had thus said, she turned herself back, and saw Jesus standing, and knew not that it was Jesus.

Jesus saith unto her, Woman, why weepest thou? whom seekest thou? She, supposing him to be the gardener, saith unto him, Sir, if thou have borne him hence, tell me where thou hast laid him, and I will take him away.

Jesus saith unto her, Mary. She turned herself, and saith unto him, Rabboni, which is to say, Master.

Jesus saith unto her, Touch me not; for I am not yet ascended to my Father: but go to my brethren and say unto them, I ascend unto my Father, and your Father; and say unto God, and your God.

"He who gives himself with his alms, feeds three: himself, his hungry neighbor and ME." Our presence at God's House is necessary to our neighbor and HIS cause on earth.

Judge R. W. Ware

I was glad when they said said unto me, Let us go into the house of the Lord. Ps. 122:1.

Jno. D. Jenkins

Therefore the son of man is Lord also of the Sabbath. Mark 2:28

Bombing Raids Are Continued On Jap Bases

Doolittle Predicts Americans Will Hit Japan Itself Again In Near Future

WASHINGTON, Apr. 22. (AP)—The occupation of islands in the Ellice group in the South Pacific by United States forces was disclosed by the Navy today in a communique following an enemy bombing raid on American installations there, about 1,100 miles east of the Solomon.

Japan's main base in the Gilbert Islands, a strategic outpost guarding the southern approach to the great Truk base in the South Pacific, was heavily damaged Wednesday by Army bombers in a long-range daylight attack.

(By Associated Press)

Major Gen. James Doolittle's prediction that American fliers will bomb Japan again "soon" was followed by news of widespread aerial blows against the Japanese in the Southwest Pacific and in Burma.

The Berlin radio reported the Japanese government in a note to the United States, April 17 declared its intention "to punish severely those members of the aircraft crews who, following the attack on Japanese territory, Manchukuo and on the area of Japanese military operations, have fallen into the hands of the Japanese authorities and have been found guilty of having committed crimes and offenses."

Every Japanese aircraft plane in the Southwest Pacific and in Burma is being kept ready to be sent to Japan to be used as a bomber. Japanese reconnaissance planes are being used to locate and report on the movements of United States air forces and prevent repetition of the attack on the island empire last April.

It followed a Doolittle news agency broadcast beamed at the United States two days ago which referred to the execution of some of Major Gen. James H. Doolittle's captives. "This news policy will continue to be enforced (Continued on Page 2)

Barbecue Will Be Held At Evansdale For Sailor Men

A barbecue for men of the Sanford Naval Air Station and their families will be given by Frank Evans of Lake County, in conjunction with the USO, on Sunday, May 2, at Evansdale Park. Frank Shames, chairman of the Recreation Committee of the Sanford Defense Council, announced today.

A special treat for those who have never tasted it before will be the alligator steaks which Mr. Evans says are rare delicacies when properly barbecued and flavored in their texture and serve healthful steaks.

Cold drinks will be furnished by the USO and the alligators will bring merriment and cheer to themselves and sailor friends. Transportation will be furnished by the Naval Air Station for men at the station and their wives. Swimming and boating will be available for all.

Those who wish to contribute to the party should contact Mrs. M. L. Wright, chairman of the hostess committee, at telephone No. 908, or William Welkoff of the USO headquarters at telephone No. 751.

Funeral Services Held For Mrs. Cameron

Funeral services for Mrs. Evelyn Katherine Cameron, who died early Wednesday morning, were conducted Wednesday afternoon at 2 o'clock at the home of Mrs. George Cameron, 117 W. Taylor street.

Interment was in the Woodlawn cemetery and the services were conducted by Rev. George Cameron, pastor of the First Baptist church.

Doolittle's Token For Tokyo

Major General James H. Doolittle wires a Japanese medal to the fin of a 500-pound bomb which shortly thereafter was returned to the Japanese makers in a blast of destruction. The ceremony took place on the deck of the U.S.S. Hornet, Navy aircraft carrier from which the planes took off in bomb Japan on April 18, 1942. Official U.S. Navy photo. (International Soundphoto)

Wide Variations Are Being Shown In Potato Prices

Lehman Says Ceilings Will Be Clarified Soon, He Hopes

ATLANTA, Ga., Apr. 22. (AP)—The national PPA today announced that it has received information from potato growers in the South that prices were limited at a point no higher than the highest charged during the week of Apr. 4 to 10. It also announced fixed minimum prices for country shippers of lettuce and spinach in the southeast effective to (Continued on Page 2)

Augusta Officials Seek Information At Local Market

Mayor W.D. Page and Chamber of Commerce Secretary L.L. Moody of Augusta, Ga., visited the Sanford State Farmers Market Wednesday and stated that they were seeking information on markets preparatory to establishing one in their home city. They were accompanied by James McGee of the Florida State Marketing Bureau.

Yesterday, Mr. Lehman was visited by J.H. Kramer of Lake Wales, and chairman of the Agriculture and Livestock Division of the State Defense Council of Florida.

"Mr. Kramer stated that he thought that in some ways, farmers were fortunate at the present time, but in other ways, were handicapped by a shortage of farm machinery and crates," Mr. Lehman said.

An additional situation, especially at the present time, prevailed at the market, Thursday, however, were few, and ship boats plentiful. Hamper were quoted at \$2.50 to \$3.00. Cucumbers from Sumner County were being put through the washing and polishing machine and were bringing \$4.25 to \$5.00 a hamper. Celery was scarce at \$8.00 to \$9.50 a crate. Canned peeled squash brought \$1.00 a hamper. Bags of cabbage were bringing \$2.50, and bushes of beets, 20 cents a dozen.

Miss Jean Hardy Joins The WAACS

Miss Jean Hardy, a member of the Women's Army Auxiliary Corps (WAAC), has been assigned to the Fourth Station of the Florida Defense Force, was given at the regular weekly drill of Company C at the station.

Civic Work Of Trade Body Is Highly Lauded

Many Letters Are Received Promising Aid In Annual Membership Campaign

Mayor Edward Higgins, as secretary of the Seminole County Chamber of Commerce, today appealed for a mass membership drive in the meeting of officers, directors and campaign workers to be held in the Commissioners' room this evening at 8 o'clock for the purpose of organizing the annual Chamber of Commerce membership drive.

The work of the Chamber of Commerce in helping to solve the problems of business and agriculture in a war period is a commendable effort. The establishment here of the Naval Air Station which has contributed so much to the economic life of the community is well attested in letters received by the Chamber of Commerce from numerous Sanford business men pledging their aid and support in the membership drive next week.

The letters released for publication by Secretary Ed Higgins today revealed that the value of the Chamber of Commerce as an essential organization in war as well peace is appreciated in the business community and lend encouraging support to the belief that the drive next week for \$5,000 with which to operate during the coming year will meet with enthusiastic support.

Indicating that farmers as well as merchants have benefited from the trade body's efforts, Henry Thurston, prominent West Side farmer, writes "About a year ago I renewed my membership in the Chamber of Commerce and since that time have in fact received many benefits. The letters released for publication by Secretary Ed Higgins today revealed that the value of the Chamber of Commerce as an essential organization in war as well peace is appreciated in the business community and lend encouraging support to the belief that the drive next week for \$5,000 with which to operate during the coming year will meet with enthusiastic support.

Bill Is Adopted To Abolish State Laundry Board

TALLAHASSEE, Apr. 22. (AP)—The legislature voted yesterday to abolish the state laundry and dry cleaning board and its price fixing powers.

The Senate passed, 30 to 5, a House-approved bill ending the life of the board, created in 1935 to establish minimum prices for the laundry and dry cleaning in the industry.

If Governor Holland signs the bill, he will end the career that had the board in court many times, particularly in its efforts to enforce minimum prices in the Miami area.

Ensign Stovall Is Officer On Heavy Cruiser

Ensign Walter Stovall, former Sanford resident and now an engineering officer aboard a heavy cruiser in the Pacific, spent a few hours here Wednesday visiting friends.

A graduate of Seminole High School in 1938, Ensign Stovall made a high scholastic standing both in high school and at the University of Florida where he received a Bachelor of Science degree.

5 Women Are Needed To Pack Parachutes

Five more women, school teachers or others, are needed at once to complete formation of a class of 15 in parachute packing, which will be held evenings in Orlando, for the next six weeks starting Monday, Apr. 26, Supt. T.W. Lawton, said today.

Arrangements have been made with OPA Director George H. Cochran, of Region 8, for use of a school bus and allowance of gasoline to transport this class daily to and from Orlando, after the close of school, providing 15 members volunteer, said Mr. Lawton, adding that applicants might call him at telephone No. 143.

By attending this class, six evenings a week for the next six weeks, teachers will be qualified for remunerative employment during the summer months, Mr. Lawton added, but he stated that the class was not limited to teachers but that any women might apply.

Co. C, F.D.F., Issued U. S. Gas Masks

A lecture on munitions and the proper handling of shotguns by Major D. E. Wray, of Mount Des Moines, was given at the Fourth Station of the Florida Defense Force, was given at the regular weekly drill of Company C at the station.

E. E. Laney Receives Discharge From Army

E. E. Laney, who has been in the Army since February 1942, has been honorably discharged. He was assigned to the 1st Cavalry Division at Fort Benning, Ga.

Annual Easter Sunrise Service Will Be Held Sunday At 6:45 A. M.

The annual Easter Sunrise Service at the Boardwalk at 6:45 A.M. is the first celebration of the sort in Sanford since World War II. The service will be held at the Boardwalk at 6:45 A.M. and 9:00 A.M. All denizens of Sanford are invited to attend. The service will be held at the Boardwalk at 6:45 A.M. and 9:00 A.M. All denizens of Sanford are invited to attend.

Monkeys To Hunt For Oranges On Easter Sunday

Monkey Island in the Sanford Municipal Zoo will be the scene of a monkey hunt for oranges on Easter Sunday. The hunt will be held at 10 A.M. and a large crowd is expected to be on hand.

"Eggs and Park Supt. James Moughton, are too expensive and too valuable to be fed to monkeys during wartime, and therefore we are using oranges," Mr. Moughton stated.

At this moment, Mr. Moughton stated, about a monkey which has just fished a basket mirror out of the water and dived to it in an effort to make it stop.

Good Citrus Crop Is Predicted Next Year

Forecast of a good crop of citrus fruit coming season was made today by H.E. Tonke, manager of the Sanford Fruit Company at the Sanford State Farmers Market. Groves are in full bloom and spraying, dusting and fertilizing is going on, he said.

"Although citrus boxes are hard to get, we have been able to move the crop here," he said, adding that demand for fruit was very heavy orders being booked far ahead. He estimated that this movement would continue for the next 30 days.

Brothers Have Visit When Trains Stop

An odd coincidence of timing, when two trains, one going west and the other going east, stopped at Flemington, Ala., recently, gave two brothers, both from Sanford and stationed far apart in the Army, a chance to see each other for the first time in three years.

Corp. James Duncan Robinson was going west to his station in Battery C of the Field Artillery at Yuma, Ariz., after having visited his mother, Mrs. William Robinson, of Sanford, who has been very ill. Sanchez, who joined the army in January, 1937 and was transferred to the finance department in January, 1940. He is a former resident of Danville, Ill.

Warrant Officer From Sanford Is Promoted

Warrant Officer James D. Beck, M. J. James, and William H. Beckett of the Fourth Service Command at Fort Benning, Ga., have been raised to senior grade it was announced at post headquarters today.

Mr. Beck and Mr. Beckett both have been assigned to Benning since entering the service, and formerly served with the 20th Infantry. Mr. Beck, a native of Huntville, Ala., enlisted in September, 1938 and came to post headquarters in May, 1941. At present he is one of the assistant quartermasters. Mr. Beckett joined the army in January, 1937 and was transferred to the finance department in January, 1940. He is a former resident of Danville, Ill.

USO DIRECTOR VISITS

USO program director Frank McGarvey of Atlanta yesterday visited William Welkoff, Sanford USO director, and program plans for entertaining services for the USO members at the station.

Allied Fliers Wipe Out Every One Of 20 Large German Troop Transports

BERN, Switzerland, Apr. 22. (AP)—The anti-aircraft Yugoslav guerrilla army, reinforced with planes, tanks and armored trains, is now waging a full-scale war against Axis troops in the territory adjoining Adriatic, according to a dispatch from Budapest. Quoting a Zagreb report to the newspaper "Mlada Zemlja," the dispatch declared a "terrible war" is under way in the Bosnia and Herzegovina regions of western Serbia.

Strong Axis operations against the guerrilla forces of Gen. Draza Mihailovich are "necessary to safeguard the bastion of the continent against possible Allied invasion," the report said.

Senate Approves House Measure On Prostitution

TALLAHASSEE, Apr. 22. (AP)—A broad definition of prostitution, incorporated in a bill designed to attack the spread of venereal disease, was approved by the Senate today.

The Senate voted 41 to 2 in favor of the bill which cleared through the House Wednesday. It now goes to the governor, who asked for its passage.

Prostitution, by its definition, includes licentious intercourse whether for hire or not. Men and women are equally subject to fine up to \$100 or jail sentence up to six months for violation of its provisions.

Plan To Increase State Welfare Is Explained By Hiatt

TALLAHASSEE, Apr. 22. (AP)—Expansion of the state welfare program to include the 22,000 dependent children now eligible for assistance and to increase old age assistance payments to an average of \$18.75 monthly would require \$7,050,180 annually in state funds compared with \$5,108,000 under the present program. State Welfare Commissioner Hiatt told a Senate committee yesterday.

Hiatt, addressing the welfare committee headed by Senator Barker of Umatilla, and the present program provided old age assistance payments averaging \$14.47 a month to 41,542 persons, an average of \$15.35 monthly to 2,058 persons in aid to the blind, and an average of \$11.35 a month to 9,000 dependent children.

Under the expanded program, Hiatt said 42,000 persons would receive an average of \$18.75 monthly in old age assistance, \$28.00 a month to 120 in aid to the blind, and 22,000 dependent children an average of \$14.50 a month.

Mrs. Malcolm McClellan of Jacksonville, chairman of the Children's code advisory committee appointed by Governor Holland, told the Senate committee that expansion of the welfare program to care for the 13,000 dependent children now receiving no assistance was one of the main points in her committee's recommendations.

This would raise the appropriation for dependent children to \$20,000 annually compared with \$25,000 under the present program. State funds for dependent children as well as old age assistance and aid to the blind are provided by the state.

Warrant Officer From Sanford Is Promoted

Warrant Officer James D. Beck, M. J. James, and William H. Beckett of the Fourth Service Command at Fort Benning, Ga., have been raised to senior grade it was announced at post headquarters today.

Mr. Beck and Mr. Beckett both have been assigned to Benning since entering the service, and formerly served with the 20th Infantry. Senate Approves House Measure On Prostitution

(Continued from Page One)

Both parties to prostitution are subject to fine. The Senate talked last week at passing a similar bill, and held it for later consideration.

Sets Up Penalty

The prostitution definition bill sets up penalties of \$500 fine or imprisonment up to six months for violation. Senator Lewis of Maryland told the Senate it would "put more people in the penitentiary than John ever saw."

The bill also makes it unlawful to maintain any place for prostitution, to aid or abet prostitution, or to be in any place for prostitution.

The Senate passed a bill appropriating \$150,000 for establishing a venereal disease hospital near Avon Park, in Highlands county. The House has not voted on it.

But the women of Florida are not going to serve on court juries right away, because the House today killed, 60 to 38, a bill that would have made them eligible.

Shakespeare, Kipling and other ancient and modern writers were quoted in floor debate about the rights and rights of women before the bill sponsored by Representative Mary Lou Baker, St. Petersburg woman lawyer, was thrown aside.

Anticipated Defeat

She even had anticipated defeat. "I may go down in defeat," she said, "but my cause is destined to win for women will not long tolerate the unjust discrimination against their sex."

Very duty was the No. 1 in the women's rights program legislation sponsored by the only woman member of the House. She also is seeking for women the right to handle and manage their own property, to make contracts, to sue and to be sued, and to have the power of attorney. Other bills have not been voted upon.

Baker declared women would raise the intelligence level of juries. "One can hardly overestimate the ignorance of the average juror in our juries composed solely of males," she said.

Art Inspires Soldiers On Alaska Highway

SEATTLE (AP)—Now it's art that inspires the men who maintain the 1,200-mile international highway to Alaska.

Lieut. Richard L. Neuberger, aide to the Northwest Service Command commander, Trip Gen. James A. O'Connor, said the pictures were being received at the Westland posts from professional artists and amateurs. "The pictures," he said, "will help to brighten the living places and furnish headquarters for the men posted to one of the most lonely wildernesses on the continent."

Children Turn 'Jeeps' To Assist Farmers

CANDLER, N. C. (AP)—Farmers, any work today? That's the question of the "JEeps."

The JEeps are members of the Junior Emergency Everyday Production-Picking Services. Purpose: To help defeat the Axis by helping the farmers in their community to meet increased food production goals.

The JEeps were organized by J. Howard Sparks, vocational agriculture teacher at the Candler high school, in response to a plea from farmers in the area for relief from a labor shortage. He enlisted every able bodied school child in the community in the service group. Now farmers in the community are planting a record crop.

Army Engineers May Change Views On River Canal

TITUSVILLE, Apr. 23. (AP)—The Army engineers will look with favor on the long-antiated Titusville-Sanford canal in the future, war made this week by Frank A. Kennedy, Washington correspondent for several Florida newspapers.

The canal extending from Lake Harney to the Indian River just north of Titusville, would form a connecting link between the important inland waterway along Florida's east coast, and the St. Johns River which is navigable to Lake Harney.

Kennedy wrote this week: "For many years, army engineers contentedly have turned down the Titusville-Lake Harney barge canal on grounds that the trip from Titusville through Lake Harney and the St. Johns River actually paralleled the existing waterway down the east coast from Jacksonville."

"Last Summer's enactment by Congress of the Mansfield bill, authorizing the St. Johns-Oklawaha-Withloosechee barge canal will change the engineer's attitude on the Titusville canal, according to waterways experts here.

"The experts point out that the engineers already have approved a 12-foot depth from Jacksonville to Miami, with this depth of water in the east coast waterway along north-bound traffic destined for Gulf coast ports will require the Titusville link which in effect would become the southern leg of a "Y" in the northern leg of the canal route from the mouth of the Oklawaha at Palatka to Jacksonville. The lower east coast then will have a stake in the north Florida canal, a stake which that part of the State so far has scorned.

Old manuscripts show that the manufacture of writing ink had reached a high degree of perfection in the middle ages.

A SENTRY PRESENTS ARMS SNAPPILY AS U. S. Gen. Dwight Eisenhower (branch coat), allied commander in chief, passes him during a tour of the fighting front in Tunisia. Lieut. Gen. George S. Patton, Jr. (starred helmet), Second Corps chief, follows Eisenhower. Official U. S. Signal Corps photo. (International)

Home Demonstration Notes

Many inquiries have been made about canning non-acid vegetables in water bath. The following gives the reason for the use of the pressure cooker.

The United States Department of Agriculture has said that the use of the steam pressure canner is the only method that can insure the canning of certain types of vegetables. In response to numerous requests by individuals and agencies interested in the canning of Victory Garden products, the department made it clear that it can recommend only one method considered universally safe, since its published material is used in all parts of the United States.

Certain spoilage organisms, as well as the spores of Bacillus botulinum, are not readily killed by boiling temperatures in non-acid products, but are destroyed by the high temperatures developed in a pressure cooker corrected by use of botulinum spores are present in a non-acid food and are not destroyed, they may grow and generate a fatal poison or toxin.

The non-acid foods include such vegetables as beans, peas, corn, spinach, other greens, and asparagus, as well as meats. It is for these products that the department recommends the use of a steam pressure canner. In acid products such as fruits and vegetables, the high temperatures developed in a pressure cooker corrected by use of botulinum spores are present in a non-acid food and are not destroyed, they may grow and generate a fatal poison or toxin.

U-Boat Sinkings Reported To Be More Serious

WASHINGTON, Apr. 23 (AP)—Secretary of the Navy Frank Knox declared today that the United States navy would win complete victory over Germany until the Atlantic U-boat menace is utterly destroyed.

"Higher in power of this fleet," he told a press conference. "As a consequence, the Navy is using every resource, every base, every air base, in an effort to strip the U-boat menace before it can be aimed at our throat."

Situation Described As Equivalent To Big Allied Defeat

WASHINGTON, Apr. 23 (AP)—Capital military observers are positive that in spite of military success we are going to hear plenty about the Nazi U-boat menace in coming months.

Military officials have admitted that the sinkings in the Atlantic are again on the upgrade. One observer, not connected with the government, recently described the situation to me as the equivalent of a major defeat for the Allies. It does amount to that if we can't get men and material to Africa, Russia and Great Britain in sufficient quantities, offensive action is held to a standstill. The losses in equipment and shipping are just as crippling as losses in battle would be.

How far out of gear our offensive timetable has been thrown by our losses in the Battle of the Atlantic probably won't be known until after the war, but that there has been some disruption has already been openly conceded.

Why greater progress hasn't been made in whipping the U-boat menace is no secret.

The Navy, having no great surface fleet at the outset, put all their faith in submarines. They started early. It is estimated now that they have nearly 500 U-boats with perhaps 100 of these operating in the Atlantic as a threat.

By the time Great Britain had built up her bomber force to the point that they could blast the sub works in Germany and along the channel coast those works had been put under layers of concrete. In spite of the blasters of these bases recently, the Germans still may be turning out around 20 subs a month.

They, too, for own destroyers, fast, speedy little DE's against the sub works in Germany and along the channel coast those works had been put under layers of concrete. In spite of the blasters of these bases recently, the Germans still may be turning out around 20 subs a month.

Civic Work Of Trade Body Is Highly Lauded

(Continued from Page One)

The good work and accomplishments of this organization are well known and too numerous to mention. The organization itself has become an indispensable part of our plans for progress and I feel confident that our citizens will readily come forward in support of a necessary institution.

F. E. Hummel came the following comment: "We would like to take this occasion to commend the work that the Chamber of Commerce has done for this community. Our business has been better than at any period since the lamented Florida boom and we have occasion to know that the Chamber of Commerce assisted very materially in bringing about the things that brought this change in business."

The Florida Power & Light Co. writes: "The Chamber of Commerce is to be congratulated on the manner in which you and your staff have handled so many of Seminole county's war-time problems. War time emergencies, as we understand them today, have come at mean emergencies in materials, labor merchandise and services, and utilization for obtaining maximum benefits for Seminole County. It seems to us that the Chamber has acted well in this capacity as a "catalyst" in obtaining co-ordination of people's efforts with essential things."

According to W. W. Bitting of Touche's Drug Company, the Chamber of Commerce should be commended on the work it has done in the past year or two. "I am satisfied that the efforts of this organization have been beneficial to every citizen in our county."

J. L. Ingley of the Sanford Atlantic National Bank says, "In my opinion the extensive and effective advertising campaign conducted by the Chamber of Commerce drew to Sanford many people who would have gone elsewhere. Hence the need of keeping our name before the traveling public if we expect to share in Florida's biggest business—tourism."

According to W. H. Scott of the American Fruit Growers, the Chamber of Commerce has been especially active in helping the farmers of Seminole County solve their problems in connection with labor, fertilizer and packages. The County crate situation has been to the Chamber of Commerce's credit. We are indebted to you for obtaining a favorable rating on crates, which enabled the mills to continue making crates.

A. E. Towell, pointing out the importance of the war effort, says: "There are several factors that have brought this about: however, the need of keeping our name before the traveling public if we expect to share in Florida's biggest business—tourism."

Wide Variations Are Being Shown In Potato Prices

Continued from Page One
Officials said the new levels should hold the prices down.

Prices on vegetable season in the state, with wide variations in price that growers and shippers have stated and others disputed are unable to predict what will come next. Prices, which were held by the OPA, are showing a big headwind.

FRIDAY, APRIL 23, 1943.

THERE IS A GREAT HOPE FOR ONE WHO REALIZES HIS SINS, THEN HE IS APT TO REPENT AND SEEK HELP FROM ON HIGH. THE SMUG PERSON WHO OMITTS DOING DECENT THINGS EVERY DAY AND REGARDS HIMSELF AS A GREAT SAINT IS IN WORSE STATE THAN THE ONE WHO SEES HIS SINS AND IS ASHAMED OF THEM. Mine iniquities are gone over my head, as an heavy burden they are too heavy for me. Psalm 38:4.

Senator Holds Army is Waste of Manpower. Headline. Yeah, we hope it will be German manpower that will be wasted.

And then there was the fellow who thought he was doing his full duty to his country by spending his money on War Bonds.

The Fort Myers News Press suggests that in order to save paper government releases should be boiled down. And then canned.

Adolf Hitler celebrated his birthday the other day and as if to prove he wasn't dead he had Goebbels make a speech for him.

Mrs. Woodrow Wilson, wife of America's World War I president, sold her automobile the other day to buy War Bonds. You too could buy more War Bonds.

Sanford Herald says that the stepless kitchen comes predict in the future will be hard to imagine. Sort of like a futuristic future, as we get it. — Titusville Star Advocate.

One thing that brooks no good for the peace of the post-war world is the way we Americans get along so well among ourselves. Rubber Administrator Affairs and OWI Chief Davis, for instance.

SCOOP

"Are you going to marry my sister," asked little Laura. "I don't really know yet," replied the man in uniform.

"Well, I do," confessed the helpful cherub, "and it's going to be a military wedding."—Exchange.

The Chamber of Commerce needs help for its annual membership campaign. Many of the most tried and trusted campaigners are now in the service. Many more are snowed under with their own business problems.

So if you can spare the time go down to meeting in the City Hall tonight and offer your services. You will be doing your community a good turn.

Frank Miller's resignation from the City Court bench makes enactment of the lawyer's resolution limiting the judiciary to the legal profession and raising the pay rather unnecessary. There is nothing to prevent the City Commission now from employing a lawyer for this job if a good one can be found who will accept it and nothing to prevent the City from increasing his pay.

Before the year is out Selective Service will have to draft nearly as many men in Sanford as have already been drafted since the war started. With practically all the single men already in the Army with many married men gone either on draft or other ventures and with other factors, the local County Agricultural Agent.

POOR IN MONEY BUT RICH IN OPPORTUNITIES. I received recently one of the rare solicitations — an expression of appreciation. It is an appeal for help. I believe any reader will be interested. The Commission will be interested. The Commission will be interested. The Commission will be interested.

Books For Mexico

Even during the war there is and should be time for peaceful gestures to draw our neighbors closer. One such has just been made to Mexico. Harvard University, the Massachusetts Institute of Technology and the American Philosophical Society have combined to give Mexican institutions 200 valuable books on astronomy and mathematics.

This recognition of cultivated tastes is particularly appreciated by Mexicans. As Dr. Carlos Graef, the scientist who accepted the gift, says, "Most North Americans go around believing that Mexico is a land of guitar players and romanticists, incapable of intellectual effort." The Mexican War, with its loss of Texas, New Mexico, Arizona and California, left with Mexicans a deep distrust of the United States. This natural fear of a stronger neighbor was largely wiped away by President Wilson's insistence that the Mexicans be allowed to settle their own civil wars without interference. This accounted for the failure in 1917 of the Zimmerman note, whereby Germany tried to tempt Mexico into war on her side, by promising the restoration of the "lost provinces" in the southwestern United States.

Next-door neighbors, whether nations or individuals, are happier if they are good friends. Our recognition that Mexico has a real intellectual life as well as a sensitive heart should forward this friendship.

Money Talks

An Ohio man named Harry W. Hosford, a former sailor who made money but lived quietly and never talked about it, surprised everybody the other day by buying \$21,000,000 worth of war bonds. When a radio station finally persuaded him to speak a few words, he got something off his chest as follows.

"I've noticed," he said, "that the American people have lately developed the habit of using up. They line up for sugar, coffee, meat and liquor. What I recommend is that there be much longer line-ups for War Bonds."

Asked what he thought of post-war prospects, he gave this answer: "I think the youth of this country will not only have as many privileges as before, but they will have even greater opportunities and a greater standard of living in the future."

The improvement he recommends in line-ups is very timely, and his faith in the future is inspiring. There is too much pessimism lately—most of it among people who have been thinking too much of themselves rather than their country, and talking with their mouths rather than their pocketbooks.

He Beat Red Grange

"There will never be another 'galloping ghost.'" So football followers in the early '20's talked about Red Grange, the University of Illinois halfback whose long runs used to dazzle the fans. He made 31 touchdowns in three years. Everyone was sure that there would never be another Red Grange.

But there was. Tom Harmon of the University of Michigan, All-American back from 1938 to 1940, beat Grange's touchdown mark by two, and became the greatest scorer in Big Ten history.

Tom Harmon has lately been playing in a bigger game, and was reported missing in South America, but bobbed up again all right. He has been a fine, clean young athlete.

England's floundering in the 20 years between wars has been attributed to her unduly heavy load of young country in the '30's. Instead of forcing England to rely on Baldwin and Chamberlain, Americans can only hope that our toll will not be so heavy, nor its consequences so serious.

Poetry

A new "Unabridged Rhyming Dictionary" has appeared, professing to be the most complete work of the kind ever issued. It is a large book. There is a "Vocabulary of Poetry," a "Complete Form Book for Poets," a section entitled "The Mechanics of Rhyme" and a treatise called "Versification Self-Taught."

This work will doubtless be a boon to the poets. Or at least to those who believe in the old-fashioned system of rhyme, rhythm and a reasonable amount of regularity, instead of the "free verse" that was dumped upon this country after the last war. Most of that output seemed to have neither rhyme, rhythm nor reason.

Poetry of course, doesn't need rhyme or even regular rhythm like blank verse. The Psalms prove that. But it seems as if there must always be at least some obvious rhythm in English verse, for this reason if no other—that lines without it are like music without measure, and cannot be easily learned, and are quickly forgotten.

WEEKLY NEWS COLUMN

By JOE HENDRICKS

INFORMATION — The arrival in the State of the first contingent of farm labor from the Bahamas has prompted several inquiries to my office as to the details of the program. While the final details have not been completed, the present plan is to import from the Bahamas and other islands about 5,000 men and to allocate them where needed. The program is under the direction of Chester Davis, Administrator for Food Production and Distribution, but all applications must be made to the local County Agricultural Agent.

YEAR OF THE BIG WIND

TOO LATE TO CLASSIFY

By RUSSELL KAY

It is doubtful if there ever was a more sober and serious legislative group than the one now in session at Tallahassee. From the opening day it has been all work and no play on the part of most members of both the House and Senate.

Tallahassee night spots have derived very little benefit from the lawmakers so far and if it were not for the patronage of soldiers they would be in a bad way. Hotel lobbies and hallways are surprisingly quiet. The rooms that in previous years echoed with riotous laughter and throned conversations, or an occasional shrill "Whoops," are strangely silent. Heliboyas dose at their bench and only on rare occasions is one seen coughing and sneezing, or yawning with bottles of gingerale and sparkling water.

Chamber maids who used to spend half the morning gathering up such debris as broken glass, empty bottles and a mass of cigarette butts, now find rooms neat and tidy.

A large percentage of the legislators are living in private homes, while a few more fortunate are able to obtain houses. The number quartered in hotels

draws a mathematically straight line from an unwarranted assumption to a foregone conclusion.

A professor is a man whose job it is to tell students how to solve the problems of life which he himself has tried to avoid by becoming a professor.

A consultant is a man who knows less about your business than you do and gets paid more for telling you how to run it than you could possibly make out of it if you ran things right.

A specialist is a man who concentrates more and more on less and less, so unwarranted assumption to a foregone conclusion.

An economist is a man who can make a simple subject complex, a complex subject simpler, or other words, an economist is simply simple.

CIVIL SERVICE EXAMINATIONS — The U. S. Civil Service Commission announces the following examinations: Aircraft Factory Inspector \$3,500, Analyst Business and Industry \$2,000 to \$5,000 a year (plus overtime pay), Agricultural Specialist \$2,500 to \$5,500 a year (plus overtime pay), Social Scientist Historian Specialist \$2,500 to \$5,500 plus overtime pay.

Governor and Mrs. Holland will hold a reception for legislators and attendees at the Mansion on the 27th. Just about everybody will attend, from page to the President of the Senate, and from stenographers to the Speaker of the House. Ice will tinkle in punchbowls but the spike will be absent. The routine calls for a lot of handshaking and "pleased-to-meet-you's." The crowd will surround the mansion like cattle in a stockade, step on each other's feet, terrorize whomever left their hat, satisfy their curiosity, thank their hosts and depart. The only grace of the Pin Lady, coupled with the cordial dignity of the Governor, will insure the success of the affair.

Travel restrictions have put a real crimp in week-end jaunts that were so popular during previous seasons. Like trips to St. Arches, Wakulla Springs, Dark-hall or other nearby points, I

He is counting upon his customers to cooperate with him by having his money ready when he calls. Your carrier sacrifices his beauty sleep, goes out in the cold, heat, rain or shine to bring you the latest news of the world. If he should fail to give you the service you expect kindly discuss it with him when he comes to collect, he will appreciate suggestions. Please do not ask him to come back 3 or 4 times to collect as his time is limited. We will highly appreciate your cooperation. THANKS'

Blood Bank Story To Be Told Over Radio Saturday

"Blood Story", a series of short dramatic sketches written by the author of the radio series, "Lightning Out", Arch Oboler, will go on the air from 8:00 to 8:30 p.m. Saturday night, via station WDBO, Orlando.

The presentation of this series of sketches which depict instances of life-saving through the use of blood plasma, is under the auspices of the Central Florida Blood Bank and is produced by the Drama and Radio classes of Rollins College in Winter Park. The Central Florida Blood Bank serves the Fifth Congressional District with headquarters in Orlando.

The Red Cross is the largest producer and distributor of dried plasma in America. A phenomenal number of persons owe their lives to this miracle of modern medicine—blood plasma. The nearest Red Cross receiving station for blood to be converted into dried plasma is Atlanta.

It was obvious that a receiving station in the heart of Florida could better serve the state in times of disaster and relieve the dried plasma for use elsewhere, say officials of the Central Florida Blood Bank which was established last year and has handled nearly a thousand units of plasma since then. By supplying the military areas in this section with liquid plasma, the dried plasma is released for overseas use.

The Central Florida Blood Bank serves the 12 counties of Brevard, Citrus, Flagler, Marion, Lake, Orange, Osceola, St. Johns, Seminole, Sumner, Putnam and Volusia. At intervals the three technicians go out into the counties and receive blood from groups of donors gathered there for the purpose. This blood is subsequently processed and a supply of plasma is returned to the county for storage. While there in storage it is available for the medical men in the section for use to be returned.

The uses of the plasma for civilian defense purposes are so vital that the National Office of Civilian Defense in Washington created the Section on Blood Plasma as a primary item in that project.

The radio program to be presented on Saturday evening depicts the many uses of plasma in civilian life and should be a pointer on the uses of plasma after peace is declared in our everyday existence.

VICTORY GARDEN

In order to make a success of your victory garden your plants must be properly fed. Do not forget to fertilize your plants. If no fertilizer was used before planting an application should be made about the time that the second pair of leaves are developing. If you applied some fertilizer before you planted them you can wait another week or ten days before making another application. The best way to apply your fertilizer is in a narrow band on each side of the row about two inches from the plants. Be careful not to get the fertilizer against the plants as it may kill them. If no fertilizer was used before planting put on about 2 1/2 pounds of fertilizer per 100 square feet or 100 feet of row. If fertilizer was used before planting then use only half as much now. After applying the fertilizer scratch it into the soil lightly but be careful not to go too deep or you will injure the roots of the plants.

Most home gardeners have a tendency to plant their garden too thickly. While you can have closer in the home garden than in a commercial planting, if they are too close they will not make normal growth or produce a satisfactory yield. If your plants are coming up too close to each other do your thinning before they get too big, or you will injure the remaining plants. Bush beans should be thinned to 2-3 inches apart in the row with rows from 1 1/2 to 2 feet apart. Pole beans need more room and plants should be about two feet apart in the row with rows three feet apart. Do not forget to give them something to climb on. Okra should be thinned to 12 inches apart with 30-36 inches between the rows. New Zealand spinach can be spaced about the same as Okra. Mustard greens can be planted close leaving only 2 inches between plants and two feet between rows. Sweet corn should be thinned to about 1-1 1/2 feet apart in the row with rows 30-36 inches apart. Roasting ear corn should be spaced a little further apart as the plants grow larger than sweet corn. If you see that you seem to be disturbing the roots of adjacent plants when you do your thinning it would be better to break off the plants you are thinning out instead of pulling them out. Right after you have thinned your plants is a good time to apply your fertilizer and to give them a good watering.

After the first application of fertilizer subsequent applications can be made either immediately following a heavy rainfall or if no rain occurs then about two weeks after the first application. For practically all crops now growing two side applications will be enough to carry them through unless we get some heavy rains shortly after the fertilizer has been applied. Do not neglect to cultivate your garden. It will not only keep the weeds from getting the fertilizer that your plants need but will also make conditions more favorable for the soil bacteria to get in their good work making plant food available.

If you have not yet planted your garden bear in mind that there are only a few crops that can still be planted. Do not waste seed and fertilizer planting crops to which are almost sure to be a failure. Field peas, sweet potatoes and okra can still be planted while egg plants and pepper plants can be set out.

Watch out for the first signs of disease or insect injury. It is much easier to control both disease and insects if you start before they get a good start.

Bombing Raids Are Continued On Jap Bases

(Continued from Page One)

A statement from the war department in Washington said that a further raid on Tokyo was "a decided possibility."

Stressing ominously that Japan would "leave nothing undone" to prevent future aerial attacks the latest English-language yarn from Tokyo said: "And by the way, don't forget, America—make sure that every flyer that comes here has a special pass to hell and rest assured it's strictly a one-way ticket."

President Roosevelt's protest against the execution of some of Doolittle's men was contended by Doolittle with the assertion that the Japanese were perfectly justified in severely punishing American flyers who were found guilty of purposely carrying out wanton attacks on innocent civilians, hospitals and schools.

The Japanese home and empire broadcast did not include the President's denunciation of the executions as "an act of barbarity" nor did it mention his solemn promise that all officials connected with the crime against military law would be punished. Instead, they called Roosevelt's statement a "protest full of complaints" and said it was made to "provoke the fighting spirit of the American people."

The broadcast said the President was "completely ignoring the inhuman deeds of this air force unit of his own nation" in a "desperate attempt to unify the national effort which often tends to become demoralized, by making entirely rootless accusations."

All the Japanese broadcasts elsewhere took the same propaganda line—that Americans were disappointed in the results of last April's raid on Tokyo and that the government was taking counter-measures to allay that feeling.

General Doolittle, the Tokyo radio said, "had assumed the false colors of hero in conspiracy with Roosevelt, Doolittle, Doolittle, commander of the raid on Japan one year ago, failed to do any thing, so we have the pleasure of offering him the title of 'Did-Nothing'."

"Two can play at the same game of bombing," another Tokyo commentator said, adding, "You know, you said you and we said you. It's all part of the war, Americans." It was this point

Trans-Florida Pipe Line Begins Operation

WASHINGTON, Apr. 23 (AP)—Secretary of Commerce Jones announced yesterday that the 200-mile \$4,144,000 Trans-Florida pipe line made its first delivery of gasoline at Jacksonville early Thursday.

The eight-inch government-financed pipe line, extending from Carrabelle on the West Coast to Jacksonville, will have a daily capacity of approximately 25,000 barrels of petroleum products.

These products will be conveyed in barges through the intra-coastal canal system along the Gulf of Mexico to the Carrabelle terminus of the pipe line. After emerging from the tube at Jacksonville, they will be transported northward along the Atlantic intra-coastal canal.

Bay Of 13 Admits He Stole Pocketbook

A youth of 13 was yesterday turned over to Judge R.W. Ware of the Juvenile Court, after admitting to police that on Monday he had stolen a pocketbook from the room of J.D. Hoppgood at 608 Laurel Avenue yesterday.

The pocketbook, which had contained 25 cents in change with social security card and other papers was returned to Mr. Hoppgood by Mrs. L.F. Lodge of Lodge's Store on Elm Avenue, who sitting in the front of the store, stated that she had seen the youth remove the change from the pocketbook with the youth had thrown near a hedge, and which was found and other children brought in the scattered papers. Mr. Hoppgood was then notified.

THE SANFORD HERALD

LEGAL NOTICES

IN THE COURT OF THE COUNTY OF SEMINOLE COUNTY, FLORIDA

IN RE: ESTATE OF ELLIOTT L. LINDQUIST, Deceased.

TO ALL CREDITORS AND PERSONS HAVING CLAIMS OR DEMANDS AGAINST SAID ESTATE:

You and each of you are hereby notified and required to present any claim or demand in writing to the undersigned, or to file the same in the court house of said county at Sanford, Florida, within the time specified in the notice. Each claim or demand shall be in writing and shall state the name of the claimant, and shall be sworn to by the claimant, agent or attorney, and each claim or demand not so filed shall be void.

ELLIOTT L. LINDQUIST & HILMER LINDQUIST

Attorneys of the Last Will and Testament of Mrs. Ethna Lindquist, Deceased.

First publication April 22nd, 1942.

THE SEMINOLE COUNTY CHAMBER OF COMMERCE

What Does It Mean To You?

Lea R. Leshar, general chairman of the membership committee says:

- If you have had a job during the past year at the Naval Air Station, you can thank the Chamber of Commerce for if there had been no Municipal Airport, there would be no Air Station, and if there had been no Chamber of Commerce there would have been no Municipal Airport.
- If you have a house to rent and it has been rented during the past year, you too have benefitted from the location here of the Naval Air Station and the families of the men stationed there. And you have benefitted from the advertising program of the Chamber of Commerce which brought down many visitors and some permanent new residents.
- If you are a farmer, you can be thankful that you have a live wide-awake organization in your town which has assisted you in getting a favorable priority rating on celery and has helped with your crate, labor and fertilizer problems, and has also worked for more favorable price ceilings on farm crops.
- If you are a business man, you know that the Chamber of Commerce has played its part in bringing more new money to town than we have had at any time since we have been here and that the Chamber of Commerce is constantly looking for new ways and means to help you solve your problems.

Bank Holiday Notice

Monday, April 28, 1942 CONFEDERATE MEMORIAL DAY, being a LEGAL HOLIDAY in the State of Florida, these banks will not be open for business on that date.

Provision for currency, payrolls, or transfers of funds may be made on Saturday, Apr. 24, 1942.

During The Coming Year You Will Need Our Help More Than Ever Before.

We Need Your Help Now If We Are To Continue To Grow On.

THE EASTER STORY

John 20:1-17

The first day of the week cometh Mary Magdalene early, when it was yet dark, unto the sepulchre, and seeth the stone taken away from the sepulchre.

Then she runneth, and cometh to Simon Peter, and to the other disciple, whom Jesus loved, and saith unto them, They have taken away the Lord out of the sepulchre, and we know not where they have laid him.

Peter therefore went forth, and that other disciple, and came to the sepulchre.

So they ran both together: and the other disciple did outrun Peter, and came first to the sepulchre.

And he stooping down, and looking in, saw the linen clothes lying; yet went he not in.

Then cometh Simon Peter following him, and went into the sepulchre, and seeth the clothes lie.

And the napkin, that was about his head, not lying with the linen clothes, but wrapped together in a place by itself.

Then went in also that other disciple, which came first to the sepulchre, and he saw, and believed.

For as yet they knew not the scripture, that he must rise again from the dead.

Then the disciples went away again unto their own home.

But Mary stood without at the sepulchre weeping: and as she wept, she stooped down, and looked into the sepulchre.

And seeth two angels in white sitting, the one at the head, and the other at the feet, where the body of Jesus had lain.

And they say unto her, Woman, why weepest thou? She saith unto them, Because they have taken away my Lord, and I know not where they have laid him.

And when she had thus said, she turned herself back, and saw Jesus standing, and knew not that it was Jesus.

Jesus saith unto her, Woman, why weepest thou? whom seekest thou? She, supposing him to be the gardener, saith unto him, Sir, if thou have borne him hence, tell me where thou hast laid him, and I will take him away.

Jesus saith unto her, Mary. She turned herself, and saith unto him, Rabboni, which is to say, Master.

Jesus saith unto her, Touch me not; for I am not yet ascended to my Father: but go to my brethren, and say unto them, I ascend unto my Father, and your Father; and to my God, and your God.

"He who gives himself with his alms, feeds three; himself, his hungry neighbor and ME." Our presence at God's House is necessary to us, our neighbor and HIS cause on earth.

Judge R. W. Ware

I was glad when they said said unto me, Let us go into the house of the Lord. Ps. 122:1.

Jno. D. Jenkins

Therefore the son of man is Lord also of the Sabbath. Mark 2:28
