

# WILL THE RAILROAD MEN DECLARE FOR A STRIKE IS NOW THE QUESTION

### Railroad Commissioner Race Was in Doubt Yesterday

### CONGRESSMEN WIN SAY THAT MEN ARE WELL SAT- ISFIED WITH PRESENT ARRANGEMENTS

(By The Associated Press)  
CINCINNATI, June 8.—The ballots on the strike question were sent out yesterday by headquarters as stated in press dispatches to the 400,000 railway shompen of the country with an urgent appeal to vote and send back the ballots as soon as possible.

Following the release of the ballots by the executive council of the six federated shop crafts here yesterday, international headquarters of the six unions were instructed to send out a letter to all locals urging immediate action on the ballots.

"This is time for action and not talk or unnecessary delay," the letter said. "Every ballot is desired to be in Chicago at the earliest possible moment, and in no case later than June 30. While the ballots are marked returnable June 30, every local lodge should rush the return of the ballots as soon as the vote is taken, and if it is humanly possible, all ballots should be in Chicago before June 25, 1922, thus making it possible to advise the membership before July 1. This can and will be done if the membership will do their part as herein requested."

The letter was regarded as a certain forecast of a walkout on July 1, if the vote of the membership favors a strike. To facilitate taking the vote, every local lodge was instructed to call a special meeting immediately on receipt of the printed ballots, which are now on the presses in Chicago.

The locals were urged by the executive council to make "special effort to have every man eligible to vote cast his ballot." The letter was signed by the international heads, William H. Johnston, of the machinists; J. A. Flanagan, boilermakers; James Kline, blacksmiths; J. J. Hines, sheet metal workers; Martin F. Ryan, carmen, and B. M. Jewell, president of the railroad employes department of the American Federation of Labor. The action of the shop crafts follows a decision by all the railway unions affected by the wage reductions, issued and pending, from the railroad labor board, to call an immediate strike vote on the new pay cuts.

The triple-barreled attack on the shompen resulted from notification yesterday from the labor board that it had declined to order restoration of wages and working conditions declared to have been illegally changed on certain roads.

Two ballots, recently authorized by the shop crafts' convention in Chicago, but never sent out, were immediately ordered put in the mails. The vote will therefore be on these three propositions:

1.—Seven unsatisfactory rules recently promulgated by the labor board including rules wiping out time and one-half pay for overtime.

2.—"Farming out" of shop work to outside firms; alleged illegal installation of piece work, and alleged arbitrary and unauthorized reduction of wages by several roads.

3.—The \$60,000,000 pay cut, effective July 1.

### Railway Officials Say There Will Be No Strike

CHICAGO, June 8.—Declaring that there is no talk of a strike among railway workers, the presidents of six Chicago roads last night issued a joint statement charging that all the threats of a walkout were being inspired by union leaders.

The statement, which was signed by H. E. Byram, of the Chicago, Milwaukee & St. Paul; J. E. Gorman, Rock Island; C. H. Markham, I. C.; and S. M. Felton, Chicago Great Western, follows in part:

"Threats of a strike made by leaders of the railroad labor unions are appearing with such frequency that the time seems opportune for questioning the soundness of their talk. There is a very good reason for doubting whether the men themselves, that

## MAKE NO LOAN TO GERMANY IS CONCLUSION

### REACHED BY COMMITTEE OF BANKERS MEETING IN PARIS

(By The Associated Press)  
PARIS, June 8.—All idea of international loan to Germany was given up by the committee of bankers and they are meeting today to agree upon the form of their report to this effect which will be submitted to reparations commission.

### SENATOR REED BETTER TODAY

(By The Associated Press)  
CARUTHERSVILLE, Missouri, June 8.—Senator Reed appeared to be strengthened early today, after he was forced last night to cancel a speech here on account of sudden illness.

### SCHOONER OLYMPIC AND CREW OF FIVE LOST IN THE GULF

(By The Associated Press)  
BEAUMONT, Texas, June 8.—The schooner Olympic and a crew of five are lost in the gulf, according to Captain Conley, of the schooner Margrita, which arrived here last night from Santo Domingo. The two ships left Santo Domingo nine days ago and the Olympic has not been seen since the first night out.

The same qualities that made you a success in other lines will enable you to get that fly if you'll keep on awaiting.

is the railroad employes, really are in sympathy with resistance to the decisions of the United States railway labor board.

"The truth is that the men have been expecting a reduction in their wages and have made, or are making, preparations to meet the new scale. There is no talk of a strike among the men. The disturbing statements read by the public are prepared by leaders of the unions, whose viewpoint has been distorted by months of effort before the board to resist the inevitable downward trend of wages. The employes, on the other hand, are in the main sincerely interested in taking care of their jobs and homes, and few employes in any industry have more good reasons for doing so.

"B. M. Jewell, spokesman for these railroad labor unions, has severely criticized the decision of the railroad labor board awarding the reduction in wages to shop employes. Jewell says the decision will cause employes to believe the board is not an impartial court created to help the railroads carry out their labor policy. He attacks the wage award also on the ground that the proposed scale is lower than the minimum required to support the average family according to American standards.

"The public should not overlook the fact that in deciding the proposed wages of these employes, maintenance of way and shop, the labor board, which is a government body, said after the reductions made under this decision, 'these employes on the railroads will still be receiving as a rule a wage in excess of that paid to similar employes in other industries.' The board held in its opinion that measured by the present cost of living, the hourly wages of machinists, for instance, after July 1 will still have 19 per cent more purchasing power than in December, 1917; those of carmen, 46 per cent more purchasing power; and those of common laborers, 45 1/2 per cent more. That is to say measured by the cost of living, their wages will still be these percentages higher than at the end of 1917.

"An important fact which should not be overlooked by the public, because it may have a very important bearing upon its business and comfort, is that whereas rate reductions amounting to more than \$250,000,000 have been ordered by the Interstate Commerce Commission, the cut in wages, according to the decisions thus far rendered amounts to only \$110,000,000."

## BRITISH MILITARY COLUMN ADVANCES INTO BELLEEK ON DONEGAL'S BORDER

### With Reported Intention of Occupying The Belleek Sector

(By The Associated Press)  
BELFAST, June 8.—Belleek was occupied today by British troops which advanced this morning to take the salient from the Irish irregular forces who were holding it. The fort overlooking Belleek was first captured by the British and the town then taken. The engagement began at 1 o'clock this afternoon when the irregulars began firing on the troops. The British artillery then opened up.

BELFAST, June 8.—At Newtownards' military headquarters this afternoon it was stated that Belleek was retaken without loss of life and no prisoners were captured.

BELFAST, June 8.—The British military column, comprising artillery and infantry engineers advanced into the Belleek district on the Fermanagh-Donegal border this morning with reported intention of occupying Belleek by nightfall. The Republican forces are said to be falling back before the British advance.

## BONUS BILL BLOCKED BY WILLIAMS IN SENATE, WHEN McCUMBER LED

### Chairman Gave Notice He Would Make Another Effort Late Today

(By The Associated Press)  
WASHINGTON, June 8.—An effort to present the bonus bill to the senate today was blocked by Senator Williams, Democrat, of Mississippi. Chairman McCumber, of the Finance Committee gave notice he would make another attempt later in the day to get the measure on the calendar.

WASHINGTON, June 8.—The bonus bill was ready to be presented today in the senate by Chairman McCumber, of the Finance Committee with accompanying report placing the probable cost to the federal government at \$3,845,659,481, spread over 43 year period from next January first. This is approximately \$250,000,000 less than estimated under the house bill, which was payable over twenty years. The senate bill was based on the theory that 75 per cent of the veterans would request adjusted service certificates, twenty-two and one half per cent, farm, home and land settlement aid and two and one-half per cent vocational training aid.

### LOS ANGELES OFFICERS WANT WILLIAM COBURN FOR KU KLUX ACTS

(By The Associated Press)  
LOS ANGELES, June 8.—It was indicated today that Los Angeles authorities will seek to arrest and detention of William S. Coburn, a former official of the Ku Klux Klan, believed to be in Atlanta, pending extradition proceedings of thirty-four alleged members of the Klan who were indicted yesterday in connection with a raid near here.

### GIANT ZEPPELIN WILL BE BUILT WHEN GERMANY MOVES

(By The Associated Press)  
GENEVA, June 8.—Zeppelin works at Friedrichshafen are planning to build an airship with a capacity of one hundred thousand horsepower and capable of flying from Munich to Chicago in twenty-four hours. The ship will be built when the Allies remove restrictions on the manufacture of aircraft in Germany.

### BUTLER'S FRIENDS SAY HE WAS "RAILROADED"

NEW YORK, June 8.—August Probst, young Swiss butler, whose heart affairs with Pittsburgh society girls at the exclusive Rolling Rock Club were alleged by his friends to have moved others to railroad him out of the country, was deported Tuesday on the Mauretania. The government engaged an attendant to accompany Probst who attempted to commit suicide by slashing his wrist at Ellis Island the day before. The attendant is to report on the butler's physical condition and bring back a receipt from his parents showing that the prodigal has returned to his home in Switzerland. It was charged that Probst came to America without a passport and therefore had no right to remain.

Just because the Churchwell Co. is the most persistent advertisers in the city should cause the buying public to read their advertisements daily. They have new bargains every day and give you the prices to prove it. Look for their advertisement today.

Love is the quality that makes a girl give up a job that pays \$25 a week and work for her board and clothes.

## 300,000 SHRINERS ATTEND 'FRISCO CONVENTION

SAN FRANCISCO, June 8.—Three hundred thousand Shriners and their friends are expected in San Francisco June 13-16. Ninety-odd temples will send uniformed patrols of them. All will have bands and chanters in the parades. They will come from every state in the union, from Canada, from the Hawaiian Islands and from Mexico.

Medinah Temple of Chicago, which has a membership of 23,000, will send its delegation in five or more trains; other temples will send organizations on the five or six steamers coming through the Panama canal from Eastern ports. Thousands of automobiles will cross the hot sands of the desert, bringing individual Shriners along the trails of the Argonauts, many of the into camp near Fort Mason, in San Francisco.

One million board feet of lumber is being erected into grand stands in the civic center, and along Market street and Van Ness avenue for accommodation of 40,000 spectators of three gorgeous pageants. Islam Temple, host of the visiting Nobles, and citizens of San Francisco, have raised \$400,000 to do them honor. The city is to be beautifully decorated.

Ten thousand uniformed Shriners with seventy-five bands and drum corps, will escort Imperial Potentate Ernest A. Cutts, of Alec Temple, Savannah, Ga., June 15, to the Civic Auditorium, where the Imperial Council will formally receive Shriners and their friends.

### POSTAL DEPARTMENT REPORTS BIG GAINS

WASHINGTON, June 8.—An increase of nearly fifteen per cent in the business of the postoffice department during May as compared with the same month last year was regarded yesterday as an indication of the steadily increasing prosperity throughout the country, especially as it related to business. Assistant Postmaster-General Clover stated that this increase was the greatest in the past seven years. Receipts by 50 of the largest postoffices in the country for May totaled nearly \$22,000,000 as compared with \$19,000,000.

## A FEW MORE COUNTIES RETURNS ARE NOW IN SHOW EATON ELECTED

## KING ALEXANDER OF JUGOSLAVIA, MARRIED TODAY

### ENTIRE ROUTE OF BRIDAL PARTY LINED WITH DOUBLE ROW OF SOLDIERS

(By The Associated Press)  
BELGRADE, June 8.—Elaborate precautions were taken to guard King Alexander and Princess Marie, of Rumania during their wedding festivities today. The entire route of bridal party from palace to Cathedral was lined with double rows of soldiers and gendarmes with loaded rifles and fixed bayonets. One line of troops faced outward, other inward. Their orders were to shoot immediately if they noticed any suspicious movement among spectators.

BELGRADE, June 8.—Medieval pomp and splendor marked the wedding here today of King Alexander of Jugoslavia and Princess Marie of Rumania. Nearly every nation in the old and new world was represented at the ceremony, which linked the dynasties of three Balkan countries, forming a powerful barrier against future wars in this turbulent part of Europe. The event probably will remain unmatched for a long time in Balkan annals for its political significance; the lavishness and beauty of its setting; the enthusiasm and fervor of the people; the picturesqueness of the processions, and the quaintness of the presents to the bride and groom.

The bridal gown was an antique creation of white crepe Georgette, with long court train, embroidered in pure silver and crystals, and the Princess wore over her tulle veil a shower of scintillating gold strands. She was a picture of girlish beauty, dignity and grace as she was escorted to the altar by her father, King Ferdinand of Rumania. From her shoulders fell a large court mantle in brilliant silver, at the lower end of which the double arms of Rumania and Jugoslavia were embroidered in silver and gold. King Alexander presented his bride with a massive crown of gold, set with diamonds and rubies, each province of Jugoslavia having contributed a precious stone to the diadem.

The king, who entered the church arm in arm with Queen Marie, his future mother-in-law, wore the bright full-dress uniform of a Serbian General. His best man was the Duke of York, son of King George of England.

The queen of Rumania, who has come to be known as the "Mother-in-law of the Balkans," looked almost as youthful as the daughter she gave in marriage. She dominated the entire ceremony and next to the bride was easily the most conspicuous and charming figure in the cathedral. When she was not receiving the congratulations of her friends, she was busy giving directions for the execution of the wedding.

The marriage was solemnized by the Serbian Patriarch in the ancient Byzantine Cathedral of Belgrade. In accordance with Serbian custom, there was no civil ceremony. As the bride and groom walked up the aisle a Te Deum was sung. The marble altar, resplendent in porphyry and gold, was tastefully decorated with lilies and roses, among which the national colors of Rumania and Jugoslavia were intertwined.

The bride's maids were Princess Hlyena, the 13-year-old sister of the bride; her cousin, Grand Duchess Cyril of Russia, 14 years old; and the little 8-year-old daughter of Princess Helen of Russia, sister of King Alexander, whose husband was killed by the Bolsheviks.

The wedding was followed by a gala luncheon at the palace, at which the representatives of the foreign royal families, cabinet members, and government officials were guests. In the afternoon there was a procession of deputations from the various Serbian provinces, dressed in national costumes. The day's events closed with a sam-

### Votes Are Being Taken By the Six Unions On Strike

### EXECUTIVES DOUBT

### AND LATER RETURNS SHOW A LARGER MAJORITY FOR TRAMMELL

(By The Associated Press)  
JACKSONVILLE, June 8.—With five small counties missing and the remainder virtually complete, unofficial returns of Tuesday's primary were compiled today by the Jacksonville Journal:

Trammell, 49,615; Gilchrist, 23,914; Railroad commissioner, Eaton, 20,314; Campbell, 16,801; Bowden, 13,083; Congress, Sears, 20,468; McWilliams, 11,252; Clark, 9,242; Davis, 4,117; Smithwick, 8,057; Hancock, 5,300.

JACKSONVILLE, June 8.—There seemed to be no disposition in any quarter last night to dispute the claim of Senator Park Trammell that he had been renominated over former Governor Albert W. Gilchrist, of Punta Gorda, in Tuesday's democratic primary by a majority of 20,000.

Newspaper tabulations on incomplete returns indicated the senator had won by a three to one majority. These tabulations also left no doubt as to any of the three contested congressional offices, in which the three incumbents were retained by substantial margins.

On the face of incomplete returns compiled by the Tampa Tribune from 46 out of the 61 counties, Senator Trammell received 41,286, while his opponent polled 18,052.

Congressional returns tabulated by the same paper for the fourth district with only one county missing, gave Representative W. J. Sears 18,058 and W. A. McWilliams, president of the senate, 9,729. In the third district, incomplete returns compiled by the Florida Times-Union for five out of 14 counties gave Representative J. H. Smithwick 6,076; Ben S. Hancock 4,523.

The Times-Union's compilation of incomplete returns from eight out of 15 counties in the second district gave Representative Frank Clark, 5,871; Colonel Robert W. Davis, 3,104.

In the state interest now centers on the result of the three-cornered race for railroad commissioner, in which it is probable a count of the second choice votes will be necessary to determine the winner.

PENSACOLA, June 8.—Complete but unofficial returns compiled by the Pensacola Journal from Tuesday's primary showed that State Senator John P. Stokes, whose re-election was extremely doubtful on the face of Tuesday night's tabulations, defeated his opponent, W. C. Fillingim, by a scant of 122 votes. The final unofficial count was, Stokes, 2,629; Fillingim, 2,507.

Senator Stokes is considered one of the leaders of the state senate and has announced his candidacy for its presidency at the next session. As the early returns came in last night, his strongest supporters lost heart, with Fillingim, who is a Pensacola barber, leading in every precinct to report. Outlying districts, however, yesterday carried the incumbent over to the winning side with a bare margin.

### HOTTEST DAY TAKES TOLL IN BOSTON

(By The Associated Press)  
BOSTON, Mass., June 8.—Two deaths from heat and a number of prostrations were reported here last night at the close of the hottest June day in the annals of Boston weather bureau since 1884. The highest temperature officially recorded was 99 degrees at 1 o'clock. Unofficial thermometers registered several degrees higher.

nificent banquet at the palace in the evening on plates of gold, the King and new Queen leaving shortly after for their castle in Beed, Slovenia, for their honeymoon.

Notice is hereby given that the City Commissioners of the City of Sanford, Florida, will receive sealed bids up to the night of June 26th, 1922, from all persons desiring to bid on the following improvement proposed to be made by the City Commissioners, namely:

On 12 to 20 ton per day capacity Incinerator or Cominator, latest improved; price to be on manufacturers specification, and to include all costs of erection. The Commissioners reserve the right to reject any and all bids that are not satisfactory. Address all communications to C. J. Ryan, City Manager, Sanford, Florida. 6-7-ow-1m

VOTE ON PIER BONDS

SARASOTA, June 7.—Sarasota will vote on the question of issuing bonds in the amount of \$75,000 for reconstructing the city pier. This was decided at the last meeting of the city council and July 3 was set as the date for the election.

Have you read the want ads today?

SPORTS

PAIS TAKE TWO—HAVE FAST TEAM

Yesterday, in spite of the threatening weather a large crowd of the Sanford fans gathered to witness the opening games at the ninth street park. The first of the two games was won by Palatka, seven to four. Chapman was on the mound for the local boys, and although this was his first game of the season, and he by no means in his proper form held this fast club to six scattered hits. The Colery Feels played well behind him but when the smoke had rolled away they were on the wrong end of the 7-4 score.

Amann, Sanford's iron man, gave up but three hits in the second game, a five inning affair, and if the breaks had been with Sanford instead of Palatka, Sanford would not have let the Pais get away with the double header. As it was the second game went to Palatka by the close score of one to nothing.

In the last frame an argument arose over a misjudgment of the Palatka umpire when he called a hit off McLucas's bat fair, when all that were in position to see, knew it rolled back of the rubber and should have been called foul. This resulted in a double play retiring the side, with a Sanford man on base and a good chance to tie the score.

One of the very noticeable events at these games was the way the Sanford fans, or most of them, refused to pay their admission price because there was no way to make them pay. Most of the old timers paid their fifty cents to see these two games but the largest majority refused to pay their share, which has caused the management to make arrangements to have an enclosure before the next game and will see that the ones witnessing the next game either pay or will not be permitted to enter the park.

Either one or two fast clubs will be brought here next week, and from now on Sanford will be given a good clean brand of base ball and no one is going to be asked to do any more than their share. It will not be run as the games yesterday and last year, that is, open to the public, depending upon the fans to pay their share without an inclosure around the park, but a fence will be erected at once and admission charged at the gate.

There are a few more season tickets to be sold and then they will be taken from the market and if you still want a chance to save some money this season, get yours at once.

The following is the box score of yesterday's games:

Box score for the first game between Palatka and Sanford. Includes statistics for Callahan, cf; Robinson, 1b; Wynne, c; Peters, lf; Lindsey, 3b; Larzo, ss; Holden, 2b; Valdez, rf; Sanford, p. Totals: 31 7 6 21 6 1.

Box score for the second game between Palatka and Sanford. Includes statistics for Callahan, cf; Robinson, 1b; Wynne, c; Peters, lf; Lindsey, 3b; Larzo, ss; Holden, 2b; Sanford, rf; Valdez, p. Totals: 19 1 3 15 6 1.

Ammon, p. 2 0 0 0 1 0; Spencer, cf. 2 0 1 2 0 0; Rive, c. 1 0 0 7 0 0; McColl, rf. 1 0 0 0 0 0; McLucas, rf. 1 0 0 0 0 0; Chittenden, 1b. 1 0 0 6 0 0; Totals: 16 0 2 15 5 0.

Score by innings: R. H. E. Palatka 100 00-1 3 0; Sanford 000 00-0 2 0.

Summary: Two base hits, Spencer, Callahan; stolen bases, Vaden; base on balls, off Ammon 2, off Valdez 1; double play, Wynne, Holden, Robinson; struck out, by Ammon 7, by Valdez 5; left on base, Palatka 5, Sanford 4.

Umpires—Epperson and Roper. Time: 1:20.

CARD OF THANKS

To my friends who stood by me so loyally yesterday, I wish to express my thanks, and to those who did not vote for me I wish to state that I have none but the kindest of feelings and will be a commissioner for all the people all the time. JOHN MEISCH.

TO SALVAGE SUBMARINE SANK LAST JUNE NEAR HAMPTON ROADS

(By The Associated Press) WASHINGTON, June 7.—The naval salvage ship Falcon has been ordered to Cape Henry to salvage the former German submarine U-11, which sank last June while being taken to Hampton Roads to serve as a target. Under an agreement with the Allies the United States pledged to destroy the submarine or sink it in deep water. The vessel is now lying in twenty feet of water and a menace to navigation.

Russia may have wasted her substance in riotous living, but she has on hand enough fattened calves to assure a welcome back into the family.

What a relief when it is all over.

The sun is shining today and we can all get down to real business again.

Another Thursday afternoon to allow the boys to go fishing and enjoy themselves after a morning's hard work.

The Chinese nation is in danger of another split and civil war. Looks like the breaking of China is bound to occur.

We suppose all the candidates that did not win will now congratulate the ones that did win and also congratulate themselves upon staying at home and enjoying real life without any worries.

Somebody fooled poor old Gilchrist badly. Just where he got that stuff about sweeping the state is a mystery and he is or ought to be a sadder and poorer man. It is time the "has-beens" realized the fact and stayed out of politics.

Press dispatches say the "old political ring" of Volusia county is wiped out. It is to laugh. That same statement is made after every election and the big puzzle is to find the "old political ring" and then the big job is to wipe it out. However it is a new joke each year, so laugh.

Seminole County has a good board of county commissioners now and will have a good one next year when the new commissioners take their seats. The new board will be composed of C. W. Entzinger, John Meisch, G. L. Bledsoe, Endor Carlett and B. F. Wheeler. All good men, business men and successful farmers and men who have property interests and a big interest in their own county.

WOMEN IN POLITICS

The editor of the Herald has always been in favor of women voting, first because they were citizens of the United States, and second because we always gave them credit for having just as much sense as the men, in many cases, much more sense. We never thought the women voting would change the complexion of politics except that in the smaller cities it might exert a purifying influence on some of the candidates who might have in one or more isolated instances played fast and loose with the morals of the community. The late election in which the women voted has not changed our opinion any. We still believe it was right to allow the women to vote and we still think they will have a good influence in politics. We have not up to this time thought that women should cast their spring bonnet into the political ring except for the position of school board and positions of this sort where they could do a whole lot of good. We think that later on they might aspire to the higher positions and we believe they will and that they will be elected. In other words we wanted them to get

into politics with both feet and thoroughly understand the game before they tried to cop all of the prizes. We do not see that they made any special difference in the elections held Tuesday but we do think that indirectly their influence was felt to no small degree. The Jacksonville Journal touches the subject as follows:

"According to a Washington dispatch Monday a survey made by the national woman's party shows more women will seek high political offices this fall than ever before, and while the woman's party has decided not to campaign for women candidates as an organization, Miss Alice Paul, head of the party, is quoted as saying 'it will seek the election of women, simply because they are women.'"

"Simply because they are women" is not qualification. If the national woman's party intends to base its endorsement entirely on the sex of candidates it is going to be a joke. The editor of the Jacksonville Journal has fought for woman's suffrage for twenty-five years. He fought for it openly and vigorously when it was a most unpopular task to perform. But this he did because he believed firmly in the justice of the cause. It was never rationally argued by anyone that the enfranchisement of women was going to so change the political complexion of the country that we would be free from all our ills,—nor was it ever rationally argued that a government by women would be any more efficient than a government by men. Equal suffrage is right because by your schools and policy of education we have lifted our women above the status of either wards or drudges. We have made citizens of them. The Supreme Court of the United States, repeatedly requested to do so, has never DARED to hand down a decision that women were not CITIZENS of the country and if they are "citizens" then by the reading of the constitution itself they were entitled to vote. It was only ancient usage that kept them from it. We amended the constitution to change the ancient practice that had crystallized into prejudice.

We honor Alice Paul and all the women of her Woman's Party for the persistent and consistent fight they made for their just cause. But when they vote for Aunt Emma just because Aunt Emma is a woman they are nothing short of a joke. Give them the Ha-Ha. They are side-splittingly funny. Imagine us fellows voting for any old Tom, Dick or Harry that throws his hat in the ring just because he is a man.

NEW LIGHT ON TRANSPORTATION

In the making of institutes there is no end. The first announcement of a new one, therefore, creates no great flurry unless there is something specific and vital about it. The public is little interested in mere economic or scientific monasteries. But there is an institute in the making in Washington—in fact, soon to be born—which challenges national attention and gives promise of great accomplishment. It will be about as far removed from the idea of a monastery as a research institute could well be. First modestly suggested last January by B. M. Robinson, of the Short Line Railroad Association, it has undergone a critical examination by such men as Sydney Anderson, H. J. Waters, T. C. Atkeson, J. R. Howland, and Milo D. Campbell for its agricultural bearing, and by the leading men of other industries.

And now this institution, sponsored by representatives of all industries including agriculture and railroads, is about ready to make its bow and to be christened "The National Transportation Institute." The task which this new institute will inherit is nothing less than the solution of the freight rate muddle, which has grown the worse instead of better in recent years. The railroads have apparently proceeded on the theory that they must make money without regard to the welfare of the shipper. And the shipper has often thought that he should get the greatest possible service from the railroads at the lowest rate that could be forced upon them and without regard to the effect on the service of the carriers.

As a result of this failure to see our mutual interest in the maintenance of adequate national transportation service, we have thus far hardly scratched the surface of the freight-rate problem. We have been busily studying rates in their relation to the immediate revenues which the railroads could expect from them. But all these efforts have thrown only faint streaks of light into a dense wilderness. What we need to know is the effect of rates upon business and their relation to business development and national welfare.

The establishment of this new transportation institute is a frank recognition of the vital importance of basic and reliable data on transportation by steam roads, electric roads, waterways and motor trucks.

MICKIE SAYS

HOLLER WHEN YA GOT SUM PRINTIN' TO DO 'N I'LL COME RUNNIN' WE PRINT ANH OLE THING YA WANT CUT WE GOT INK 'N TYPE 'N PAPER 'N BRAINS 'N WE KNOW HOW TO MIX 'EM! 'Y'BEYCHA!

SHAPES A SOURCE

The doing of this job will require big men, considerable time and a generous supply of funds. Perhaps twenty-five or more organizations are to be invited to participate in the institute's support, the railroads to the extent of ten to fifteen per cent and other interests proportionally. Research will be the main business of the institute, under the direction of a board of governors composed of ten public-spirited men who are not railroad officials, and with the help of an advisory committee of some fifty men representing all industries.

With a budget of \$1,000,000 a year, with a corps of investigators of national standing and acknowledged ability and with the active moral support of the leaders of all important industries, the National Transportation Institute should soon begin to throw new light on the fundamentals of transportation and distribution. And the public may with some confidence look forward to the time when without the aid of a lawyer, a rate clerk or a table of logarithms, the ordinary wayfaring man can figure out the freight charges on a crate of celery from Kalamazoo to Chicago.—Country Gentleman.

FEW STATES ARE AS PROSPEROUS AS FLORIDA

Florida, this summer, is the watched, and wondered at, of all the states in the country, because it has showed no indication of being hard up, or of suffering a business depression.

There are some very real reasons why this is so. One of them is told in a paragraph from the Sarasota County Times: "With fifty millions of dollars coming into the state from its shipments of fruit and vegetables this season gives little prospect of Florida suffering from business depression this summer. Few states are as prosperous."

Fifty millions coming into a state in one fruit and vegetable season means those millions being distributed into every other channel.

The deposits in the Tampa banks alone approximate \$26,000,000 and the four banks of St. Petersburg, according to the Independent of that city, had, a few days ago, \$2,250,000, on deposit.

And money is still coming in! During the twenty-four hours ending June 5, we sent out via all-rail through three points in the state alone, 664 cars of fruit, vegetables and melons. Phosphate is moving as not before in years; naval stores are in demand and at a good price; lumber is being called for. All these are money bringers and the story told by the Tampa and St. Petersburg banks is the story told by the banks of every town and other city in the state.

This money means development. The war period of accretion has passed. The man with money has now time to search out investments. He is putting out for return the cash he gathered during the fat years of gathering. So we find Orlando with a million and a half a month building permit record, and Miami with a six hundred thousand dollar building record in a month, and Tampa building at the rate of thirty thousand a day. In addition to these, there are foreign investors buying tracts of land equal to a European kingdom in extent, and far more valuable. Great developments of parks and hosteleries are under way, railroads are being built or proposed across the state, while counties are voting road bond issues as high as \$3,000,000 each for extending their highway systems into parts of the counties where the light of development has just begun to find way.

Three-quarters of a million dollars from strawberries from a few hundred acres at Plant City! Three million dollars for the Hastings potato

crop! Five million dollars for the tomatoes of Mandee and as much more for the tomatoes of the lower east coast! Millions for Sanford celery, and for Moore Haven cabbage, and for Wauchula cucumbers! There's a reason why Florida is prosperous! —Tampa Tribune.

CULTIVATE FAITH AND SUCCEED

Sergeant Alvin York, "greatest hero of the World War," again is in a run of good luck.

A few months ago it looked as if he would lose his farm through inability to meet payments on its \$13,000 mortgage.

A month in vaudeville would have brought York enough money to handle the mortgage.

But he said, "I would far rather lose my farm, and go back to work upon it as a common day laborer, than to commercialize the fame which was only incidental to an act of Providence."

Many have marveled at Sergeant York's modesty. The explanation is, he has faith in Divine Guidance, which carried the early pioneers thru many a hard time.

York's corn crop last year was a bad one—low in bushels, low in dollars. Like millions of others, he was a victim of deflation of prices.

This did not discourage York. He kept repeating:

"Religious faith sustained me in my danger and removed my fear. And He will see me through."

At times it seemed that there was no hope, no way out.

But never did York's faith waver. Now the mortgage is gone, paid off by the Nashville Rotarians.

Some will call it a windfall. Cynics will call it chance.

The spiritually wise will call it the fruit of faith.

Faith is the mightiest power we possess. It takes various forms, ranging from confidence in self or luck to belief in Divine Guidance.

No human career can be carried through to success without faith, the mover of mountains. This is a universal belief, shared by all religions among people in all stages of barbarism or civilization, and it is the force behind all prayer.

It is an unhappy individual who has no faith in creed, Creator, human nature and fellow-man.

Without faith, the world would be a rotten one in which to live, and life would be drab and futile.

Cultivate faith, to hasten arrival at your goal.—Tampa Times.

GOLF LINKS GREAT ASSET

The editor of the Herald has contended all along that golf links and a country club would make Sanford a big city next season and we believe it for already the tourists that have never come to Sanford are inquiring about the splendid links and the club that will appeal to them so strongly. The Jacksonville Journal sizes it up as follows:

The Palm Beach Post thinks the establishment of country clubs and golf links by the various communities in Florida would be a source of great pleasure to homefolks and a big drawing card in attracting winter tourists. The Post is right. Golf is now a national pastime, played by both sexes and by youth and old age alike, and the terrain in this state is ideal for the establishment of courses at comparatively small cost and, strictly as a business proposition, the suggestion made by the Post is worthy of consideration. In those cities where municipal links are in operation results have been most satisfactory. Residents have found diversion at a minimum cost and tourists have been attracted.

Elaborating on its suggestion the Post says:

More and more northerners setting out for a winter in Florida are bringing along their clubs and they are bound to be disappointed if they do not find an opportunity to use them at their journey's end. At the same time permanent residents are realizing that they have not been making the most of the chances nature gives them for enjoying out-of-door play. A country club with a good golf course is one way to kill these two birds with one stone.

Just as Florida now attracts skilled golfers from all over the country, it should be developing skilled golfers of its own and it will as golf becomes more popular locally. Players having hung up records in their own clubs will sigh for new courses and scores to conquer and inter-clubs will follow until eventually an east coast tournament will produce a champion who can go out and uphold the glory of Florida in the great national and international contests.

The influence of country clubs, especially in smaller cities, is to bring

home folks into closer associations, to cement their interest more firmly in things of common interest, which make them worth while assets to both large and small communities.

We who live in Florida are here for a long time and anything to make the routines of our lives more pleasant and congenial is to be encouraged. And if while doing this we can make things more pleasant and congenial for our visitors, it is better still.

THANKS THE VOTERS

Now that the election is over I wish to thank all my friends for their support during the campaign and hope to see them again some time in the future. The best man won in the race for commissioner and he suited the greatest number of people or he would not have been elected and we all bow to the will of the great majority. The country is safe and our city continues to grow and now that the election is over we will all forget it and help to build Sanford.

WALTER S. HAND.

TRAMMELL IS GRATEFUL

Senator Park Trammell on the night of the election expressed his gratitude to the voters of Florida in the following statement:

"From returns received up to 12 o'clock it is conclusive that the people of Florida have by an overwhelming majority elected me to serve them for a second term in the United States Senate. This renewed expression by the Democratic voters of Florida of their confidence in me is profoundly appreciated and I wish to assure every voter who made possible the sweeping victory of my most sincere gratitude. It is a distinguished honor to be a senator from the great State of Florida in the United States Senate. In the future as during my present term my constant aim and purpose shall be to serve my state faithfully and efficiently. To me the token of confidence expressed at the ballot box today is the greatest and most treasured reward which could be bestowed upon my be the people of my state."

## AL DETECTOR BY TO CONSTRUCT

Condenser and Re-  
Can Better Be Pur-  
Mounting the Set.

Material needed to construct a  
detector is as follows:

- 1. Silicon or galena molded bottom, 25 cents.
- 2. Binding posts, 20 cents.
- 3. Strips of shellacked or stained copper wire, 1/2 inches.
- 4. Slip of sheet copper or tin, 2 inches wide by two inches long.

The two binding posts on the  
shown, fastening on  
a strip of copper  
and under the  
a spring  
copper or brass wire.  
the button of metal con-

The Crystal Detector.

Set Mounted on Base, With Connections Shown.

ments, the tuner, the crystal detector and the telephone condenser, can be mounted on a stained base of wood, say, eight inches square and one-half inch thick. This will keep the component parts of the set together, making a compact unit of the whole and also be advantageous in that it will hold the instruments while adjustments are being made.

The sketch shows how the instruments are connected with each other and to the ground. The condenser is connected to one side of the tuner and to the crystal detector. The ground is connected to the other side of the phones and the condenser and the tuner.

Lamp cord is excellent for connecting up small radio sets of this kind—it being a good conductor, well insulated and easy to handle.

### HOW TO LISTEN IN

There are two variables in our radio receiver that require adjustment when it is desired to listen-in; first, the detector, and second, the slide position on the tuner. Once the slider position has been determined for any given transmitting station, it is only necessary to adjust the detector to pick up that same station again.

To operate the receiver for the first time it is best to wait until some station like KDKA is transmitting between 8:30 and 9:30 p. m. Then ad-

### P. S. U. PLAYS BALL.

The Junior Chapter of the Brotherhood of Saint Andrew played a spirited and fast game of base ball at Monroe yesterday. The "ups-and-downs" of the score made the interest great and especially when reverses came for what had been the winning team. The score at the end of the 9th inning was 14 to 9 in favor of Monroe. The Brotherhood fellows played well. The Brotherhood players were: Morris Moye, John Higgins, John Terwilliger, Irvin Fleischer, Earl Niblack, George Wilson, Henry Wimlish, C. B. Sutton, William Gillon and Umpires James Hoolihan and Lyle Tapp.

### BREAK JAIL.

(By The Associated Press)  
LYNCHBURG, Va., June 8.—A dispatch to the Advance from Martinville says that four prisoners escaped from the Henry county jail about midnight last night. The fugitives were held in connection with the Mitchell murder. Bloodhounds from Lynchburg were put on the trail and Elmer Lewis was recaptured early this morning. Walter Holden, white, and Robert Taylor and Sam Ingram, negroes, who were awaiting removal to the state penitentiary at Richmond, are still at large.

### TO ENLARGE BUSINESS.

(By The Associated Press)  
PARIS, June 8.—The allied reparations commission in the semi-official Temps dispatches voted 3 to 1 today to enlarge the powers of the bankers who are considering a loan to Germany authorizing them to make any loans desirable.

The Daily Herald Delivered to your door six days a week for 15 cents—

## Daily Fashion Hint

### SMART STREET MODES

The tailcoats of the present season are designed with a double purpose, for sport and general wear. The model illustrated may be acceptably developed in tweed, serge, flannel, etc. The two-piece gathered skirt is finished with a deep hem and simple, straight belt. Having a convertible collar, the neck of the jacket may be fastened in high or low effect. The form of adjustment that requires the service only of a single button is exceedingly popular. Medium size requires 3 1/2 yards 54-inch material.

Fashion has put her cachet upon satin, taffeta and a number of the heavy knit silk crepes for coats. They are trimmed with broad or fancy stitching, and confined to very simple lines. The coat to the left has large sleeves and a narrow belt of self-material. Medium size requires 4 1/2 yards 40-inch satin.

First Model: Pictorial Review Jacket No. 9890. Sizes, 34 to 44 inches bust. Price, 35 cents. Skirt No. 9666. Sizes, 24 to 38 inches waist. Price, 30 cents.

Second Model: Coat No. 9876. Sizes, 34 to 46 inches bust. Price, 35 cents.

## SAGE TEA TURNS GRAY HAIR DARK

ITS GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Adv.

We deliver the goods.—Quick Service Transfer. 60-tfc-m

LAKE MARY CASINO WILL BE POPULAR TODAY

KIWANIS CLUB WILL HAVE CHICKEN PILLAU AND DANCE

The Sanford Kiwanis Club will hold their regular weekly meeting at Phillips' Casino at Lake Mary this afternoon at six o'clock instead of the Valdez Hotel at noon as their regular custom has been. They want to give all the members and their wives and sweethearts an outing for one thing and they also want to show Manager Phillips that they appreciate his efforts to give the people a place of clean and wholesome amusement. The Kiwanians will dance and have an evening of enjoyment.

The dance is open to the public and is not a Kiwanis affair as many have thought and all who want to dance are invited to go out this evening and enjoy the fine floor and a good orchestra.

The Herald wishes to congratulate Manager Phillips upon his decision to eliminate the dancing at the pavilion on Sunday afternoons and nights. The pavilion will be open to the public and the bathing beach will be open on Sundays but there will be no dancing except on week nights and the usual schedule as published in this paper will be carried out. The best of order will prevail at all times and the new casino and pavilion is made and operated especially for the children and everything done for their safety and pleasure.

The new casino and bathing beach will prove very popular for Sunday school picnics and Thursday afternoon affairs as well as for private parties at all times and already several churches are making arrangements to hold their annual picnic at the Lake Mary resort, thus giving the children a fine outing close home and keeping the money in Seminole county.

Klan Officials Are Indicted By California Jury

(By The Associated Press) LOS ANGELES, June 8.—Three high officials and thirty-four alleged members of the Ku Klux Klan were indicted by the Los Angeles county grand jury today on five counts of felony charges in connection with a raid at Inglewood, near here on April 22 last.

The Klan officers were William S. Coburn, grand goblin of the Pacific domain, and supreme attorney of the order, G. W. Price, king kleeagle for the state of California, and N. A. Baker, kleeagle or organizer for the county of Los Angeles.

Baker is under arrest here while Coburn and Price are understood to be in the East.

Six other persons were indicted, each as "John Doe." The charges are false imprisonment, two counts; kidnapping, two counts, and assault with intent to commit murder, one count.

Although the three officials have been suspended, according to word from Atlanta, headquarters of the Klan, they have continued to function here and have been recognized by klansmen as having possession of all the authority of their offices.

Bail was fixed for each of the defendants in the amount of \$1,000 except in the case Nathan A. Baker, self-admitted leader in the raid, in whose case it was set at \$10,000. He is in custody in the psychopathic ward of the county hospital owing to a mental breakdown.

An attorney for the klansmen announced that the other indicted klansmen would appear in the superior court tomorrow, and in view of this no warrants were issued. Walter Mosher and Ruegg are under a \$10,000 bail on complaints charging assault with intent to commit murder, filed in the township court soon after the raid. It was stated at the district attorney's office these complaints probably would be dismissed.

AMERICAN GOLFER ELIMINATED TODAY BY ENGLISH CHAMP

(By The Associated Press) GLEN EAGLES, Scotland, June 8.—Jock Hutchison, the only American competitor remaining in the play in thousand guineas golf tournament here, was eliminated today by A. G. Havers, of England, one up.

EIGHT AMERICAN SOLDIERS DROWNED AT VLADIVOSTOK WERE ON THE NEW ORLEANS

VLADIVOSTOK, June 8.—Eight enlisted men from the United States gunboat New Orleans believed drowned in Siling mishap at Amurday, Siberia. No trace of the men since Sunday.

Bargains found each day by reading the Herald Ads.

BISHOP KILGO WILL GO HOME TODAY IF CONDITION WARRANTS

(By The Associated Press) MEMPHIS, Tenn., June 8.—Bishop Kilgo will be taken to his home in Charlotte, North Carolina tonight, unless there is a turn for the worse. He spent a restless night after yesterday's rally and is somewhat weaker today. Fairfax Harrison, President Southern Railway, sent his private car here to take the Bishop home. Kilgo is a member of the board of directors, Southern Railway.

GEORGIA RATES CUT

(By The Associated Press) ATLANTA, Ga., June 8.—A 10 per cent horizontal reduction in intrastate freight rates in Georgia was ordered yesterday by the state railroad commission.

The order was passed in order that freight rates in Georgia might be in accord with the rates in other states which July 1 will be reduced 10 per cent horizontally by an order of the Interstate Commerce commission. The intrastate reduction is effective July first.

COTTON MARKET UP

NEW YORK, June 8.—The cotton market experienced a strong upturn yesterday on a renewal of heavy speculative and trade buying based on rain news from all parts of the belt and bullish spot advances. October sold at 21.20, a new high for the season, and 9.2 points above Tuesday's close.

ABOUT BATHING BEACHES.

The matter of bathing facilities, easily accessible, should now be given careful attention by every community in Florida. We spring the words, "BATHING, BOATING AND FISHING" glibly in all our literature sent out from every board of trade and chamber of commerce in the state. Of course, there is "boating, bathing and fishing" within reach of those who can afford to go after them—but—and this should sink in—there are a great many cities and towns in Florida that have not bathing facilities within their borders, although well equipped by nature with ideal bathing waters—and the boys and girls and men and women of these communities are not getting what is coming to them—an opportunity to enjoy one of Florida's greatest blessings—a bath in lake, or inlet, or stream, or bay, within walking distance of home.

As I write this the merry voices of girls and boys diving, swimming and splashing happily in the waters of Ruskin inlet come to me, and I myself am able to have a plunge in the early morning and as often through the day as I take the notion. I have just dropped one of my exchanges which commented on the difficulty Orlando is having in keeping small boys out of the water in the city limits. The little lads, it seems, will go in swimming in spite of the devil. And it is a real, sure-enough devil who would want to keep them out.

I was once when a small boy over in Canada chased through a field of Canadian thistles in my bare pelt by a constable who was bound to prevent up small boys from going swimming on Sunday. I took refuge in a hay mow, and escaped—but the constable and the community did not escape, nor did the church I was supposed to attend. I hated them all forever after and so did my boyhood chums.

I notice that Mr. Dora, in Lake county, is awake to the necessity of providing community bathing facilities, and also I notice with pleasure that the Eustis Lake Region is urging the importance of providing community bathing facilities within the city limits as part of the advantages made possible by the bulkheading of Lake Eustis now in progress, which, when completed, will make it one of the most beautiful water fronts to be found anywhere.

The summer weather is here. That is the time we home folks get an opportunity to enjoy ourselves. Every village, town, city or hamlet should provide suitable bathing facilities, easily accessible.

If they fail to do this, they should cut out the "bathing" ads. from their literature.—Rube Allyn in the Florida Fisherman.

WORK IN NAVY YARDS WILL PROCEED SLOWLY BUT WITH FULL POWER

(By The Associated Press) WASHINGTON, June 8.—Work on all naval vessels permitted the United States under the arms conference treaty would proceed at about the present rate with no reductions of forces at any of the private or government yards, under the revised naval appropriation bill as completed yesterday by the senate appropriations sub committee.

Requests of the navy department for funds with which to begin on three new Pacific coast naval bases

were denied by the sub committee, which excluded proposals for a new fleet base at Alameda, Cal., a new torpedo base at San Pedro, Cal., and a new aviation base at Standpoint, Wash.

About half of the \$32,000,000 increases over the house bill asked for by Secretary Denby were granted. The most important was \$10,000,000 for naval construction and in addition the transfer of \$8,000,000 of indebtedness from the shipping board.

A LINK WITH CARUSO

Late Singer's Last Retreat Shown in "The Man From Home"

During their stay at Sorrento, Geo. Fitzmaurice and his company, who spent almost two months in Italy filming "The Man From Home" for Paramount, made their headquarters at the Hotel Vittoria. It was at this hotel that the late Enrico Caruso passed the closing weeks of his life, in the vain hope that the climate of his beloved Italy would restore him to health and strength.

Thus those who see "The Man From Home," which is coming to the Princess Theatre tonight, will know that in one scene at least they are looking at the identical spot on which Caruso spent his last days.

Also a two-part Century comedy.

IF BACK HURTS BEGIN ON SALTS

FLUSH YOUR KIDNEYS OCCASIONALLY IF YOU EAT MEAT REGULARLY

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This

famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

TO STOP COUGHING AT NIGHT

A summer bronchial cough keeps not only the sufferer but other members of the family awake. Alfred Barker, 1061 Avondale St., E. Liverpool, O., writes: "I consider it my duty to write and tell the results of Foley's Honey and Tar, which I used for my boy who had been suffering from a bronchial cough for 7 or 8 weeks. Foley's Honey and Tar has done him wonderful good, and I shall always recommend it." It soothes and heals. Sold everywhere.—Adv.

You might get as good a loaf as you won't find any better loaf than Butter-Crust and Poinsett's Split Bread. If you haven't a treat has been missed. Try then eat O. K. BREAD milk and pure shortening.

The Seminole County Bank

STRENGTH—PROGRESS—SERVICE

The World is Working for You

The manufacturer who makes your shoes is working for you. So is the store that sells you shoes, your grocer, your clothier and every concern or person who makes or sells anything you buy.

Often these people have messages for you. They want to tell you about new goods, new styles, new prices or other new things they think you should know about. They can't speak to you personally because they have so many customers to serve. So they put their messages in the newspaper in the form of advertisements. It is to your interest to read the advertisements. They are published for your benefit. They keep you informed as to what these folks are doing for you. They help you buy the right goods at the right time and to make the most of your money.

Moreover, you'll find that business concerns that tell you frankly what they are doing are the most dependable. Stores that advertise are progressive stores that have something real to say to you. Manufacturers who advertise their products have confidence in them, because it does not pay to advertise anything that is not good.

Reading the Advertisements is both Interesting and Profitable

PRETTY SHRUB ALMOST GONE

Mountain Laurel, Once Plentiful Everywhere, Has Been Destroyed Through Public Carelessness.

Many years ago, when the American Indians were the only inhabitants of the United States, the mountainlaurels in springtime were almost white with the blossoms of chaymoun, the Indian name for mountain laurel.

Nowadays the laurel is not so plentiful. People have broken down too many plants and pulled up too many others by the roots. Still you may find some of these low, scraggly bushes if you are familiar with the countryside.

The roots of these particular plants reach out for surprisingly long distances, seeming to enjoy prowling about in the loose soil of the mountainsides. Yet, with all the roving tendencies of the roots, the patches of plants do not spread, but remain about the same size from year to year.

WAS DEITY OF ANCIENT EGYPT

Amen One of the Chief Gods—In Hebrew Word Signifies Strength or Trustworthiness.

A wealth of significance is stored up in the word "Amen."

Amen was one of the oldest deities of the Ancient Egyptians, and one of their chief gods. His emblem was a man wearing a red crown, surmounted by the disk of the sun.

His name meant "hidden" or "concealed," while one of his titles was "Amen-ka-mut-f," the husband of his mother, thus signifying that the deity in question was at the time the oldest and the youngest of created beings.

In the Hebrew language "Amen" signifies strength or trustworthiness—the "God of Truth," referred to in Isaiah being literally the "God of Amen." In using the word at the end of our creeds and prayers, therefore, we not only exclaim "So be it!"—which is the generally accepted meaning of the term—but affirm the truth of what has been recited.

Sunbeams Destroy Bacteria.

Experiments in various quarters have shown that sunbeams are able to destroy bacteria in water at a depth of at least twenty inches beneath the surface.

The slaughter of the bacteria is by far the greatest when both perpendicular and oblique rays enter the water uninterrupted. Like a ship in action, the sun is most powerful when it can rake the enemy with a cross-fire.

Mice as Travelers

When Robert Burns called a mouse a "wee, sleekit, cowrin', tim'rous beastie," he was probably not aware that a mouse isn't the frail, helpless little creature it looks to be.

Independence.

"Should a physician give his wealthy patients harmless powders when they insist on being treated, although he knows they are quite well, or should he tell them frankly there is nothing the matter with them?" asked the young doctor.

Pets Provided For by Will.

Cat legions are not peculiar to France. England has had them, and in our own country only a few years ago died the second of two cats, Blackie and Pinkie, that belonged to Benjamin F. Dille of Wilkes-Barre, Pa.

Terms of Proposed Steel Merger Are Now Made Public

(By The Associated Press) NEW YORK, June 8.—The terms of the proposed merger of Midvale Steel and Ordnance Company, Inland Steel Company and Republic Iron and Steel Company, with issued capital of \$132,814,587 were made public last night in a letter to stockholders.

It was signed by W. E. Corey, L. E. Block and John A. Topping, chairmen of the boards of the three companies. They stated that details of organization had not been definitely settled and that the plan was subject to changes to meet conditions and the opinion of counsel.

The Midvale and Inland companies will consolidate and take the name of the North American Steel Corporation the letter explained, and this corporation will acquire, subject to its liabilities, the assets of the Republic company.

Capitalization, under the consummated plan, comprises \$79,175,500 in bonds and other fixed charge obligations; \$50,331,475 new preferred stock of 100 par value and \$3,309,612 in shares of new common stock without par value.

The bonds and fixed charges obligations will consist of \$60,599,500 bonds and guaranteed obligations of the Midvale company or its subsidiaries; \$13,557,000 and other obligations of Republic or its subsidiaries and \$5,217,000 bonds and other obligations of Inland, all of which, in addition to the other liabilities of the three companies, are to be assumed by the corporation.

The preferred stock is to be 7 per cent cumulative and convertible until July 1, 1931, into common stock, four shares of preferred for five of common, and is to be redeemable at the option of the corporation at 115 per cent and accrued dividends.

RETAIL FOOD PRICES INCREASED IN MAY

(By The Associated Press) WASHINGTON, June 8.—Retail food prices increased in 15 cities and decreased slightly in 10 others from April 15 to May 15, according to compilations made public yesterday by the department of labor involving 25 of the principal cities of the country.

The following increases were noted: Richmond, Va., 2 per cent; Atlanta, Baltimore, Birmingham, Butte, Cincinnati, Milwaukee, Norfolk, Philadelphia, Savannah, St. Louis, Seattle,

and Washington, 1 per cent, and Chicago and Omaha, less than five-tenths of one per cent.

For the year ending May 15, retail food prices in Norfolk, Va., decreased 8 per cent.

AMERICAN COTTON EXCHANGE CONVICTED OF BUCKETING ORDERS

(By The Associated Press) NEW YORK, June 8.—The American Cotton Exchange was convicted of a charge of bucketing orders by a supreme court jury late yesterday. The jury deliberated just one hour.

KIWANIS CLUB MEETS AT LAKE MARY THIS AFTERNOON

The members of the Kiwanis Club and their wives or sweethearts will meet at Lake Mary this afternoon at four o'clock for a good swim in the placid waters of the beautiful Lake for which the village is named. After the swim has given the bunch a good appetite mine host George Philipps will feed them with chicken pillau and accessories to match.

DAUGHERTY WILL NOT RESIGN FROM OFFICE

(By The Associated Press) WASHINGTON, June 8.—Attorney General Daugherty called on President Harding yesterday about a matter of official detail and was asked when he came out for his view on various reports that he would resign office.

"You can say," he told newspaper men, "that there never was a time when I would give thirty cents to get the office of attorney general, but that I wouldn't take a million dollars for it now."
