

## Students Stage Blood-For-Peace

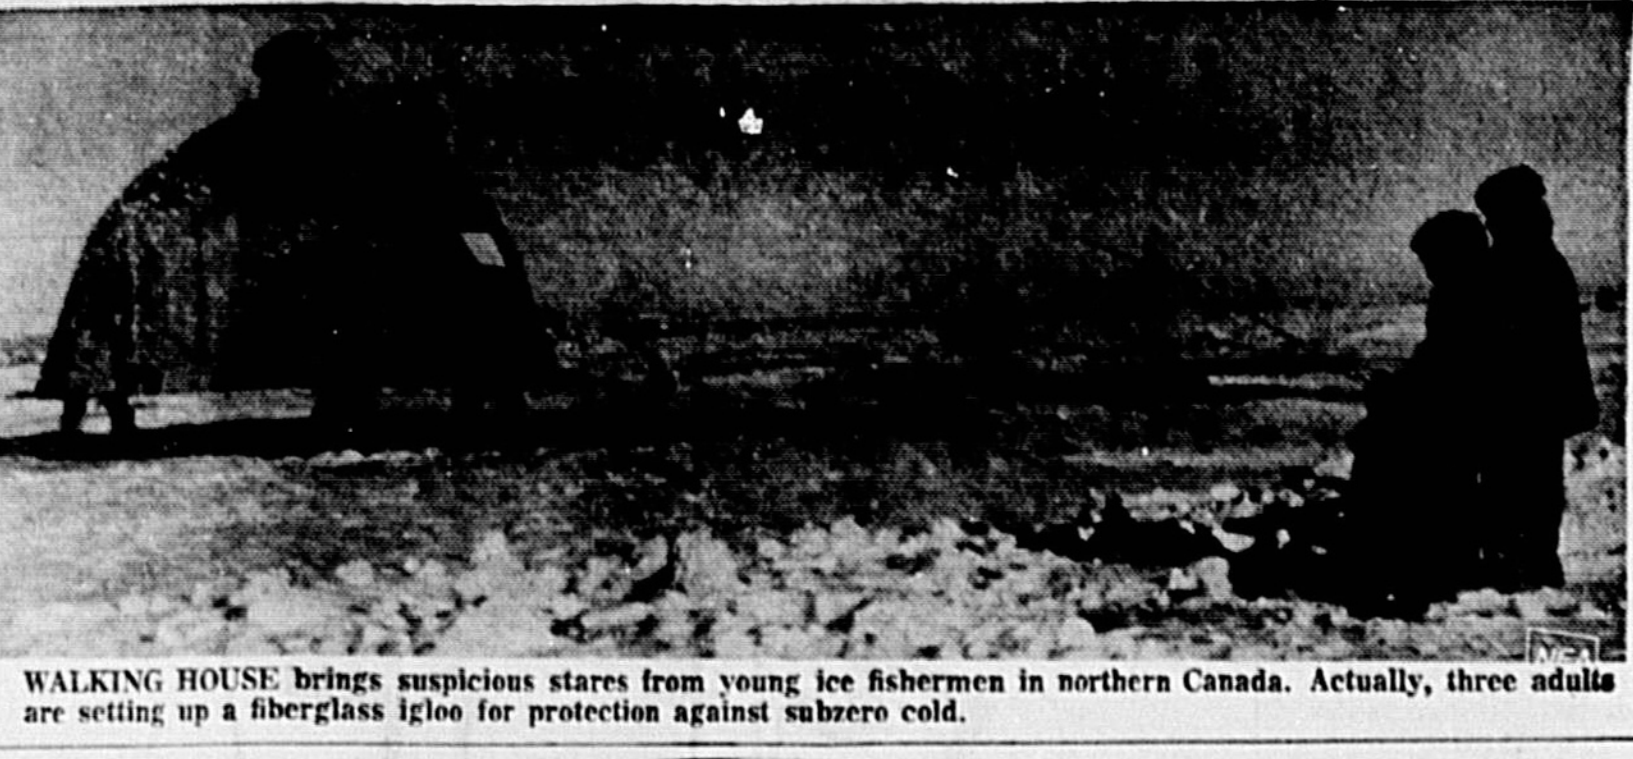

By JANE CASSELLBERY  
The Oct. 15 so-called Vietnam moratorium affected different people in different ways, prompting many to express feelings both pro and con. At Florida Technological University students have conceived a plan where they can show support of our service men in Vietnam while desiring peace through truly meaningful involvement.

Known as "Blood For Peace," the plan is being spearheaded by Darryl Bannister, of Tau Fraternity, and John Davis, a blood to go to military hospitals with the other 25 per cent of the Blood Bank was on hand on the day of the moratorium to receive blood donated by students and faculty with a good response.

It was back on the campus Wednesday and will be for the next four weeks. The plan calls for 75 per cent of the blood to go to military hospitals with the other 25 per cent of the Blood Bank was on hand on the day of the moratorium to receive blood donated by students and faculty.

FLORIDA TECHNOLOGICAL University students are donating their blood for servicemen wounded in Vietnam. The Blood Bank first came to the campus Oct. 15 and will return each Wednesday for six weeks. (Staff Photos)

## Farmers Mart Needs \$500,000 Building

By FRED VAN PELT  
Expansion of agri-business in Seminole County and Central Florida was revealed by Leo Butner, manager of the Sanford State Farmers Market, before 50 persons attending a public hearing for improvement of State Road 46 between the Wokiva River and Interstate 4. Butner was speaking in favor of the road improvement to lure northern produce trucks to the Sanford market. He said that most northern trucks by-pass Sanford or travel a circuitous route to the market.

Butner said the gathering that the farmers market needs double its present floor space now and, in the near future, will need three more buildings.

Quered by The Sanford Herald this morning, Butner said the present building is 80 feet by 140 feet, two stories, and cost \$275,000 to build. He added that a new building, the present site, with needed added refrigeration, would cost \$500,000.

Butner has recommended the construction of the second building at the Sanford State Farmers Market to his superior, W. O. Whittle, chief of all State Farmers Markets in Florida.

Whittle, of Winter Haven, was interviewed by the Herald. He said that Butner's recommendation will be considered with the 1970-71 budget, which becomes effective next July 1. He said he had been apprized by Butner that Harold H. Kaster, of Sanford, and a Jacksonville firm have agreed to each lease half of the new building. Butner said that if the Jacksonville firm cannot find space here it will open in Orlando.

# 1-Textbook Plan Urged

By BILL SCOTT  
The problem of too few textbooks for Seminole County schools took up at least one hour of the school board meeting held last night for the first time at Lyman High School auditorium.

Elzie Griffith, a Pine Crest Elementary school teacher aide, was on hand to bring the issue to the attention of board members after having first pointed out the problem by informing The Sanford Herald of her own plight in getting an English grammar book.

Last night she further stated that beginning in the seventh grade, the youth had been subjected to being without school textbooks.

She advised the lack had caused her son learning problems, which she felt could have been averted had he been properly supplied with books.

She paid \$2.34 last week to the school depository for the book, which was unavailable at Seminole High School.

John Colbert, textbook manager, said the book in question was being taken off the state adoption list and additional books could not be purchased, even if school wanted.

Carlton Henley, Lyman principal, said his school had changed to another book because he knew the book was going off the adoption list.

Mrs. Griffith said she had been told that only 32 books for the 10 English classes were available at the high school.

Andrew Bracken, school aide, stated the lack of money prevented the schools from having enough books.

Henley said some of the problem could be averted if the county would adopt one book for use by all schools instead of (Continued on Page 1B, Col. 1)

NEW WEST STATE ROAD 46 ON THE WAY!  
FIFTY INTERESTED persons heard A. A. Davis, district planning engineer at Deland, State Department of Transportation, promise that construction and improvement of west SR 46 would be started before July 1. Engineers will commence immediately to determine alignment for a future four-lane highway, with two lanes to be built now. Pictured from the left: John Alexander, chairman of the County Commission; Davis, Sanford Mayor Lee Moore, George Holder, state district urban engineer, and County Commissioner Robert Parker.

## Bills Will Be In Mail Oct. 31 County Tax Roll \$5 Million

By MARION BETHA  
The fact that Seminole County is growing like a "green bay tree" is particularly evident after reviewing facts and figures of the county tax roll from Tax Collector G. Troy Ray. The tax roll for 1969 is \$5.25 million, as opposed to \$4.53 million in 1968.

The tax bills, which will be mailed to county residents on Oct. 31, are now being data processed. The old bills were processed by an addressograph machine. The comparable efficiency of IBM over the old system was approved by the board that it took 18 weeks previously, whereas now the bills are prepared in a matter of hours. The new system processes 600 lines per minute.

The new bills also contain considerably more information to the taxpayer, such as section, township, range, subdivision, block, lot, assessment number, amount of mortgage, map number, and tax district. There is room on the bill for every type of exemption. Another innovation is the exact amount of discount allowed each month from November through April is shown.

Ray feels that data processing is particularly necessary since the county will be collecting municipal taxes next year. The collector added that this is only the first phase of the system, and as additional costs are justified, the system will be applied to other departments, such as tags, licenses, etc.

It has taken four years to put the new system into operation, which, since it is a data processing service, necessitated no purchase of equipment.

School bond mileage is 12.57, school general tax, 9.34, and county millage, 6.33. Exception to the figures is noted for those included in a fire control district.

Ray further states that 44,873 bills have been processed upon real estate parcels. Seminole County residents are prompt in payment, according to Ray, in

Lyman Stadium Promised  
Lyman High School will have a football stadium by the 1970 football season. This was the promise made to Lyman High Boosters during last night's meeting of the county board of education in the new facility's auditorium by John Evans, school board chairman.

Evans and the board had just heard Garth Myers, a member of the school's Boosters Club, challenge the board to match dollar-for-dollar the amount that boosters would raise by next football season.

Evans and other board members did not accept Myers' challenge but Evans indicated the board is "on the same team with the boosters" and wanted a suitable football facility as Lyman would not have to play all 10 season games on the road.

Evans then found his challenge at the board asking if he would raise \$30,000 for lighting system already had been approved by the board for a Lyman field. Myers replied, "This is appreciated, but seats and other facilities also are needed."

Myers then found his challenge at the board asking if he would raise \$30,000 for lighting system already had been approved by the board for a Lyman field. Myers replied, "This is appreciated, but seats and other facilities also are needed."

Evans promised there would be a stadium. (Continued on Page 1B, Col. 3)

TROOPER BUDDY SMITH tapes distance car was knocked by a freight train after the vehicle containing a 16-year-old youth and his year-old cousin, was struck at 18th Street railroad crossing near Southwest Road. Smith said Bernard Eady, 1510 1/2 W. 13th Street, and Angela Doe of Alandale, S.C. were hospitalized with injuries after the mishap. Eady is listed in "fair" condition and is reported in "good" condition at Seminole Memorial Hospital. (Staff Photo)

## Disorderly Charges

Seminole County Sheriff John E. Polk and Sanford Police Chief Ben Butler today arrested a 27-year-old Sanford man on disorderly conduct charges two weeks after a 26-year-old Miss woman claimed a man tried to make improper advances after first motioning that her car's brakes were faulty, causing her to stop her car on SR 46 east in Volusia County.

Chief Butler stated the woman identified a photo of William Dean Back, 1918 Summerlin Avenue, Sanford, as the man. Back was released to Volusia County authorities where the alleged incident occurred.

UNITED FUND Campaign Chairman Jack Horner called Orlando and informed them that Seminole County had gone 124 per cent of quota during last night's Victory Dinner at the Sanford Garden Club building. Total amount collected was \$62,710, making it the first time that Seminole has gone over the goal. (Photo by Don Vincent)

# Football Centennial At The Sanford Stadium Tonight

Editorial Comment

Democratic Gubernatorial Race And Mathews

Formalizing his known ambition to be the Democratic gubernatorial standard-bearer in the 1970 elections, Senate President John E. Mathews, Jr., has taken to the field in characteristic manner...

Variations on this major theme will be coming forth as the Mathews campaign expands and intensifies. But Candidate Mathews will be talking in a party atmosphere which is far from stabilized.

In 1964 he ran fifth in the Democratic primary and suffered from lack of exposure and the fact that the tragedy of President Kennedy's assassination took place on the day Mathews announced his candidacy.

The value of which has lost its traditional one-party state's worth, has these two front-running candidates in action.

Yardners Corner

A Very Popular Flower

By DAVID DEWELL

Extension Agent

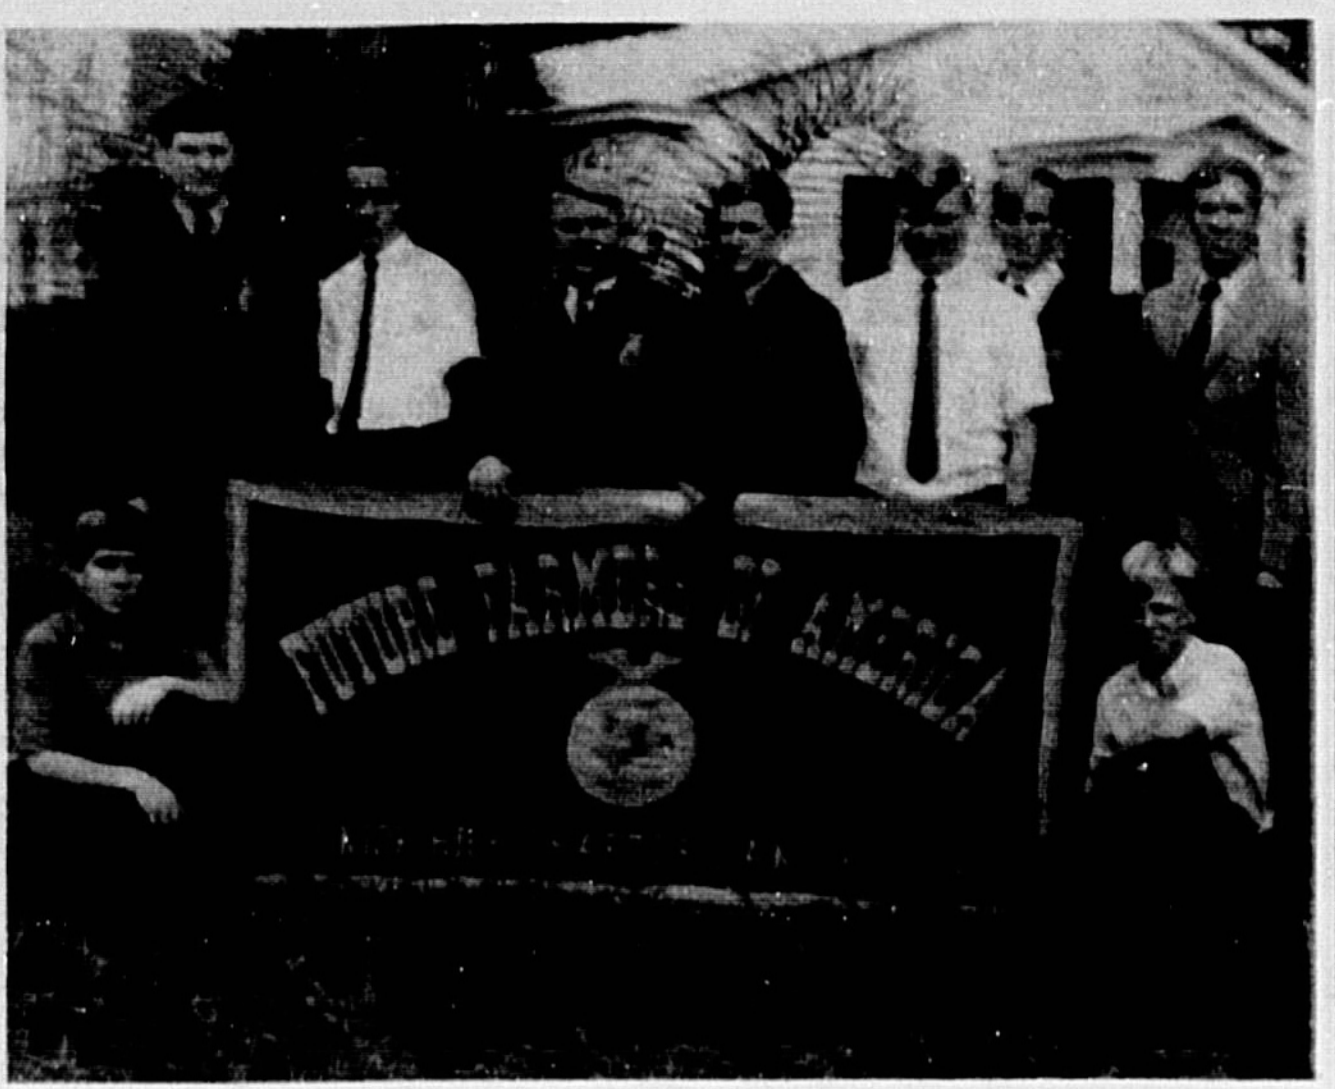

Now is the time to plant the bulbs of the Easter Lily (Lilium longiflorum). This lily is a native of the Far East and is a very popular flower for Easter. The bulbs should be planted 6 inches deep and 8-12 inches apart in enriched beds which are well drained. Easter lilies do best in full sunlight and are hardy in Florida. Bulbs planted now will bloom in March and April. Bulbs are always wanted for Easter, yet it is almost impossible to have garden-grown lilies this year because of low night temperatures during the spring months. If there are to be lilies for Easter there must be glass or plastic to grow them under.

After lily plants form strong rootlets of foliage, much the best with leaves on other organic matter, and do not compact the soil by walking upon it. An occasional fertilization with 6-6-6 or similar fertilizer is satisfactory.

Virus diseases which are transmitted by aphids are the major problem with lilies. It is best to start with certified bulbs of top size, then as the plants grow, keep the foliage free of insects by frequent spraying. Once lilies become infected with virus, no cure is possible. Fleck, the most violent disease, results when two different viruses are present in combination.

To have lilies in the spring, bulbs need to be planted now.

Cork oak continues to produce cork for about 250 years.

Agricultural News & Views

It's The Season For Fairs

By FRANK J. JASA, County Agent  
This is the season for fairs in Florida, including the Seminole County Fair in November. These fairs range from small county fairs to the large area fairs and the State Fair. The institution of the county agricultural fair predates the Constitution of the United States. It was established originally as an educational medium for farmer and farm home-makers. From its "seed" comes a prize call, home, potato and grain looked like. The homemaker learned what a well made garment, cherry pie or other products of the kitchen looked like. Slowly the onlookers admitted themselves to go home and do likewise.

Dade Crime Fighter Holds Impromptu Meet

A renowned Dade County crime fighter and aspirant to the post of Florida Attorney General came to Sanford Monday for an impromptu conference with potential backers and a news reporter at a local restaurant. Sen. Robert L. Shewin, Democratic member of Dade County's legislative district and sponsor of several bills aimed at fighting crime in the state, confided his intention to qualify for the post being vacated by Earl Faircloth, who is seeking the Democratic nomination for governor. Shewin related his backing of Faircloth in the action against several hotels in the South Florida city, which are purportedly operated by members of the Mafia, international crime syndicate. "I am delighted the cases are ready for filing against the syndicate and hope something can be done about the situation," he added. Shewin said that, he has been canvassing the state in an effort to determine his political support. He found much backing, particularly from sheriffs and law enforcement agencies who are waging war against the criminal element. "We have gained much support in the panhandle section and believe it will continue as we meet with the people around the state," Shewin said. Refusing to embrace either conservative or liberal label, Shewin stated his desire to serve all the people in the highest law enforcement office in the state. "I will not my formal abandonment for the post until the date for the primary is announced," he revealed. Shewin headed a committee composed of interested investigating organized crime and stated if elected he would use the state office for an all-out fight against crime. "The senator is 35-years of age, married to former Myrna Breshaw and has two daughters and a son.

Band members are raising money to go to Jamaica, where they will again give benefit concerts with proceeds to go to the Andrews Memorial Hospital.

The Long View

Check Your Heating Equipment

By LOUISE LONG, Home Economics Agent  
Along with autumn and the brisk, chilly weather comes the need to check all heating equipment for safety and efficiency. If you have a flame-type space heater—either an oil or gas heater for the home—get your fuel supplier to clean the heating equipment and check flues and fuel lines to make sure that they are safe and in good working condition. Electric heaters are relatively trouble-free, but a few trouble spots should be watched. Wall, baseboard, and portable heaters collect lint and dust. This should be removed once or twice each season. Always unplug the heater or disconnect the heater circuit before cleaning. In most cases it is also necessary to remove the front grill to get to the dust and lint accumulations. This cleaning with a vacuum cleaner, but be careful not to give the internal wiring rough treatment. Wall heaters must have a reflector behind the heating coils. In some cases these reflectors have been known to lose their reflective properties, thus allowing heat to get through the back of the heater to combustible wall materials. Be sure to check these reflectors for evidence of breakdown and replace if necessary.

U. S. Air Losses In War \$6 Billion

By GEORGE ESPER, Associated Press Writer  
SAIGON (AP) — The U. S. Command announced today that American aircraft losses in Vietnam have reached 6,000, representing an estimated \$6 billion. A list of aircraft losses shows 3,114 helicopters, half a dozen types and 2,886 fixed-wing aircraft, including fighter-bombers and transports lost in North and South Vietnam since Jan. 1, 1961. The summary said 1,333 helicopters had been destroyed by enemy gunners across South Vietnam and 16 shot down over North Vietnam. Another 1,751 helicopters have been lost to such other causes as rocket, mortar and ground attacks, collisions in the air and mechanical trouble. In the fixed-wing category, 851 planes were shot down over North Vietnam and 332 over South Vietnam. The summary said 1,133 planes were lost due to all other causes. Military spokesmen said there are now about 3,300 U.S. helicopters and more than 1,000 fixed-wing planes, operating from bases in South Vietnam. The U.S. Command also announced that the American soldier who returned Monday after being a captive of North Vietnamese troops for 4 1/2 months was freed by his captors. A spokesman said Pfc. Jesse B. Harris Jr., 26, of Port Chester, N.Y., told officers at the Long Binh hospital he was released and did not escape. Harris walked into an allied base 3 1/2 miles south of Da Nang on Monday. He was suffering from malaria and a slight wound in the right arm and is expected to leave for the United States in a week. The spokesmen said he had no information on why the enemy freed Harris. The fall in the Vietnam war was completed its seventh week today, but the U.S. Command reported slightly increased enemy activity along the Cambodian and Laotian borders. Responding to the possibility that the Viet Cong and North Vietnamese are positioning troops for a winter-spring campaign, U.S. B52s attacked enemy staging areas 78 miles north of Saigon near the Cambodian border and infiltrated corridors leading from Laos into the A Shau Valley west of Da Nang. Life in the area written by William Lambert to appear in the Oct. 13 edition, identified the lobbyist and alleged fixer as Nathan Voloshen, a 71-year-old "purported lawyer in Maryland who is a close friend of the speaker."

Nixon-Thieu Pact Pictured

By SPENCER DAVIS, Associated Press Writer  
WASHINGTON (AP) — Asian diplomatic sources say there are strong indications a private understanding has been reached between President Nixon and South Vietnam President Nguyen Van Thieu on a timetable for withdrawing American troops from Vietnam. The sources report the problem is not of figures but one of good will to go along with the replacement policy. Assurances have been given here to the Nixon administration of the good will of the Vietnamese government. In the event they step up attacks or if there is a slowdown in the training of Vietnamese forces, the withdrawal pace would be slowed. Given the continued lull and the swift training of South Vietnamese fighting men, Nixon could pull out a total 300,000 Americans by the end of 1970 including the 60,000 already on duty. The Asian sources say it would be difficult for South Vietnamese to stick to the schedule, but the South Vietnamese are determined to do their best to meet the target. The sources report the problem is not of figures but one of good will to go along with the replacement policy. Assurances have been given here to the Nixon administration of the good will of the Vietnamese government.

Lyman High Stadium

By FRED S. HOFFMAN, AP Military Writer  
WASHINGTON (AP) — Horrified Army lawyers are scrambling to plug an apparent hole in the legal case against conflict of interest action by enlisted men. What it boils down to is this: The Army's regulations barring conflicts between private interests and official duties do cover enlisted men. But officials say the federal laws on which those Army regulations are based do not apply to enlisted personnel.

Taxes Go For Schools

By MARION BETHEA  
The educational system in Seminole County is the prime recipient of tax money collected, with 67 per cent going to schools. Guy Allen, county tax assessor, stated that the office has just completed a recapitulation of the tax rolls. Total real valuation is \$416,179,786. In 1968, the figures were \$383,912,772, amounting to an increase of \$32,267,014. Total taxable valuation this year is \$277,772,097, an increase of \$18,899,585 over the 1968 total of \$258,872,512. An increase of \$18,916,421, an increase of \$482,126.71.

House Speaker Linked With Tax Evasion Case

NEW YORK (AP) — Life magazine charges that a Washington lobbyist received \$5,000 in cash to wield influence in a tax evasion case while sitting in House Speaker John W. McCormack's chair in the speaker's private office. McCormack was not present at the time, Life says. The article also describes several other alleged fixes and fix attempts involving both the lobbyist and McCormack's suspected chief aide and claims "the evidence is that McCormack was more than naively involved in whatever took place in his office." Life in the article written by William Lambert to appear in the Oct. 13 edition, identified the lobbyist and alleged fixer as Nathan Voloshen, a 71-year-old "purported lawyer in Maryland who is a close friend of the speaker."

McNulty Is Elected To Fla. Bank Board

By FRED VAN PELT  
C. Howard McNulty, president of Florida State Bank of Sanford, was elected to the board of directors of the Florida Bankers Association last evening at Orlando. McNulty, as chairman of the association's 11-county group 5, was host at the group meeting. McNulty succeeded J. Denham Hill Jr., of Cocoa, on the board of directors of the Florida Bankers Association. McNulty is chairman of the board of directors of the Florida State Bank of Sanford and group chairman of the association. (Don Vincent Photo)

First Lady Announces New Aide

By FRANCES LEWINE, Associated Press Writer  
WASHINGTON (AP) — The First Lady has a new \$30,000 a year press secretary-staff director and as a result the Richard Nixon have the first husband-wife team in their official family. White Constance Cornell Stuart, 31, is guiding Mrs. Nixon's public relations in the East Wing of the White House, her husband Charles, 32, is at work in the West Wing as a staff assistant to presidential counsel, John Ehrlichman. Mrs. Nixon announced Thursday that Mrs. Stuart, an attractive redhead, would be her new "chief of staff."

U. S., USSR Ponder Arms Talks

By JOHN M. HIGHTOWER, AP Special Correspondent  
WASHINGTON (AP) — The United States and the Soviet Union reportedly have resumed a tacit discussion of plans for opening talks on halting the nuclear arms race. Some diplomatic informants said it now seems possible the long delayed U.S. Soviet conference could get under way in a month or so. Soviet Ambassador Anatoly Dobrynin met with Secretary of State William P. Rogers at the State Department Wednesday. The session was followed by reports that Dobrynin had brought fresh word from Moscow bearing on the arms talks.

Army Lawyers Hie To Plug Loopholes

By FRED S. HOFFMAN, AP Military Writer  
WASHINGTON (AP) — Horrified Army lawyers are scrambling to plug an apparent hole in the legal case against conflict of interest action by enlisted men. What it boils down to is this: The Army's regulations barring conflicts between private interests and official duties do cover enlisted men. But officials say the federal laws on which those Army regulations are based do not apply to enlisted personnel.

Jack Bethurem

JACK BETHUREM, president of Continental Marine Engineering Company, Inc., signs temporary lease for 7,500 square foot building at Sanford Airport while Don Rathel, director of Sanford Industrial Commission (seated, left), John Kridler of Seminole Chamber of Commerce, and Jim Ryan of the Sanford Port Authority look on. The firm plans to build a 10,000 square foot plant at new port site on 3.5 acre site. (Staff Photo)

# Meyer Speaks On Zoo

By JANE CASSEBERRY  
"Either move it and upgrade it or close it," Gordon Meyer, candidate for the Sanford City Commission race advocated at the Sanford-Seminole Jaycee meeting Thursday, on the subject of the zoo. But he added, "I don't want to see it closed. If there is no other better lo-

GEORGE H. WEDGORTH (left), Belle Glade, was named as recipient of Florida Fruit and Vegetable Association's annual Distinguished Service Award. Presentation was made by Sydney G. Chase, Jr., Sanford, retiring president of the association. The award is presented to the individual or organization which is considered to have made the greatest contribution to the agricultural industry over a period of years.

# Narcotics Investigator Resigns Local Post

Seminole County Sheriff John E. Poli said today that examinations will be given to seven deputies Saturday to replace Tom Simmons, resigned county narcotics investigator. Poli, P. H. Schriener, Edward Faren, Clarence W. Smith, D. R. Schriener, Carl Barker, Tony Galante and George Altier, deputies, will be given the opportunity to succeed Simmons, who resigned effective Oct. 21 for personal reasons. Poli said Simmons resigned in an effort to further his career. The investigator told The Herald he was taking a job with the state. Tests results will be graded on three factors including written examinations, oral interview and evaluation. Test score count 60 per cent; interview 20 per cent.

TOM SIMMONS

Highway Safety  
"Operation Safe Space — 80" will be presented by the Florida Highway Patrol by one of the safety officers sent to Volusia and Seminole counties to speak on Highway Safety. They have set aside this week, the first in November, to carry out this program. The program will be presented Thursday, Nov. 6, at noon at Otis's Haffner Haus, to the Sanford-Seminole Jaycees.

Art Show Scheduled  
The Maitland Arts and Crafts Show, co-sponsored by the Maitland Association of Fine Arts and the Maitland-South Seminole Chamber of Commerce, is scheduled for Nov. 6-30 at the Maitland Art Research Studio. An open house will be held Sunday, Nov. 8. On Nov. 22, the Maitland-South Seminole C. C. will co-sponsor with the Maitland Civic Center a free concert by the Naval Training Center Band at the center.

state of Kentucky. She started her own band and worked club dates before signing a contract with a record company and scoring a hit with her first platter — "I'm a Honky Tonk Girl."

# Looks Like Another Missing Letter

By NEU GILBRIDE  
AP Labor Writer  
WASHINGTON (AP) — Either AFL-CIO chief George Meany isn't on President Nixon's list of labor leaders, or the mail is fouled up again—Meany hasn't received Nixon's letter urging wage restraint. "We've been waiting and waiting," said a spokesman for Meany, referring to the Nixon letter the White House said was being mailed to 2,300 labor and business leaders. "We make it a policy never to answer letters we haven't received," said the spokesman from the White House. Meany's spokesman conceded it's possible the letter could have gotten caught in a slow mail delivery. Although the AFL-CIO headquarters is just one block across Lafayette Park from the White House, Meany's spokesman said he was told Meany would be invited to the entire 35-man AFL-CIO Executive Council to the White House next Wednesday. Meany reportedly wasn't told the news until Monday.
