Gun Control No Answer, Experts Say

By SYBIL MITCHELL GANDY
And CINDY MOOY

In the wake of the assassination attempt on President Reagan, renewed cries for stiffer gun control legislation are being heard.

But according to law enforcement officers in Seminole County, the answer to violent crimes involving firearms lies with courts, not in gun control statutes.

"According to state law, a judge is required to give a convicted felon using firearms a mandatory sentence of three years in prison," says Sgt. Herb Shea Jr., armorer at the Sanford Police Department.

But, Shea and others point out, the judicial system tends to circumvent this mandate through the plea-bargaining process. Many times by court date, the defendant's plea is guilty and the sentence is considerably less than three years.

From what county law officers say, the courts themselves are not using existing laws to the best possible advantage.

"A significant percentage of the felons involving the use of guns aren't given the three-year mandatory sentence

after the plea-bargaining process, said Police Chief Barry Cook of Altamonte Springs.

"Stiffer gun control legislation would probably be futile. For instance, no waiting period exists in the Florida Statutes for purchasing a handgun.

"But no period of waiting could be an effective deterrent here unless it is instituted state-wide or nation-wide. Anyone who desires to buy a gun can simply drive a few miles outside the jurisdiction of the county," Cook said.

Officials were pretty much in agreement on one point: there is no magic number for mandatory sentencing — not three years, not five years, and not 10. The answer is in the courts, they say.

Although Casselberry Police Chief George Karher declined to comment on gun control legislation or the judicial system in Florida, he did express support for a mandatory prison sentence of some kind.

In 1980, more than 1,387 murders were reported by law enforcement agencies throughout Florida, according to the 1980 Crime In Florida Report issued by the State Department of Law Enforcement. Eight occurred in Seminole County: 3

in Sanford, 1 in Casselberry, 1 in Altamonte Springs, and 3 in the unincorporated area of the county. All with firearms.

Of that state-wide murder figure, more than 60 percent involved the use of firearms. Some 190 occurred among family members — and more than half that number involved spouse murder. "I am personally against plea bargaining to a lesser crime when a firearm is used in a criminal offense," said Seminole County Sheriff John Polk. "Without plea bargaining, Polk said, the judges are following the mandatory law."

Polk said he is opposed to gun registration. "The honest people are

going to register their guns anyway. A gun never commits a crime, it's the people who have the gun that commit the crime."

The sheriff said he does favor a law the legislature has considered the last few years requiring a 72-hour "cooling off" period between the time of purchase and the pick up of a purchased firearm.

"I think that is a good law," Polk said.

Polk said the sheriff's department confiscated 30 weapons in 1980 including handguns, rifles and a few automatic weapons. Polk said the weapons were taken in drug raids and from unlawful hunters.

"The drug people sometimes have automatic weapons," Polk said, "but there haven't been that many."

All "Saturday Night special"-type handguns are destroyed by the department with two witnesses to the procedure. If a weapon is in good condition, the department may use it, Polk said. Most confiscated weapons are melted down or thrown into a river or the ocean, Polk said. He added the department gets rid of weapons no longer wanted.

See GUN CONTROL, Page 2A

A handgun costing anywhere from \$50-\$700, may be purchased in a matter of minutes anywhere in the state since Florida law requires no waiting period.

Outlook Favorable For Friday Launch Of Space Shuttle

CAPE CANAVERAL, Fla. (UPI) — The countdown for the maiden flight of the space shuttle Columbia began smoothly today toward the Friday launch that would make John Young and Robert Crippen the first Americans in space since 1975.

A late-hour countdown snag was bypassed and even the weather appeared to be cooperating. Forecasters' initial outlook called for good conditions at the scheduled launch time shortly after sunrise.

Although Young says he and Crippen are "40 percent" trained for the mission, they had more flight rehearsal in a spacecraft simulator on today's schedule at the Johnson Space Center in Houston.

Today's countdown work included pressurization of helium tanks used to push propellants into the Columbia's twin orbital maneuvering engines and 44 little control rockets mounted in the ship's nose and tail sections.

The start of the countdown today marked the start of the final phase in the nation's long and often-troubled effort to get the revolutionary shuttle ready for the

ambitious 36-orbit test flight.

The long sequential series of flight preparations began almost routinely at 11:30 p.m. EST on the signal of test conductor Andy Brown.

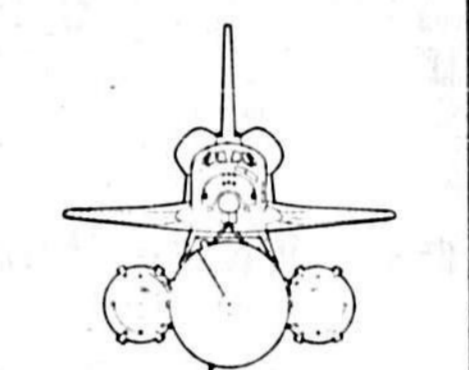

Barring delays, the countdown will end when computers monitoring 1,000 different measurements send the signal that will ignite the Columbia's three engines and twin boosters at 6:50 a.m. EST in four days.

The countdown consists of 73 hours of specific jobs, but it has 30 hours and 20 minutes of "hold" periods interspersed in six places to give technicians a rest and time, if necessary, to catch up on lagging work.

The launch of the Columbia will be America's first manned spaceflight since three astronauts flew an Apollo to an Earth orbital rendezvous with two Soviet cosmonauts in July 1975.

Since then Americans have been grounded while NASA's attention turned to the \$9.5 billion shuttle development.

The Soviet Union, meanwhile, has mounted a steady manned spaceflight project and two cosmonauts, Vladimir Kovalyov and Viktor Savinykh, have been in orbit for three and a half weeks in the Salyut 6 space station.

Without a system to dampen the oscillations, they can build up to dangerous levels. Such vibrations nearly ruined the unmanned Apollo 6 test flight in 1968. Surface pieces of the aluminum honeycomb structure enclosing a dummy spacecraft flaked off under the severe forces and two engines failed.

A National Aeronautics and Space Administration official at the time likened the structure of the rocket to a tuning fork. If you strike it right — in this case by engine thrust fluctuations — it will vibrate up and down.

The launch of the Columbia will be America's first manned spaceflight since three astronauts flew an Apollo to an Earth orbital rendezvous with two Soviet cosmonauts in July 1975.

Since then Americans have been grounded while NASA's attention turned to the \$9.5 billion shuttle development.

The Soviet Union, meanwhile, has mounted a steady manned spaceflight project and two cosmonauts, Vladimir Kovalyov and Viktor Savinykh, have been in orbit for three and a half weeks in the Salyut 6 space station.

Troops Pour In Poland: Next Step Is War, U.S. Says

WARSAW, Poland (UPI) — Soviet motorized troops were reported pouring in for extended Warsaw Pact maneuvers in and around Poland and Soviet President Leonid Brezhnev attended a Czech meeting today that warned Poland's neighbors are prepared to stop "disruption by anybody and anything."

In Washington, a U.S. intelligence source said Soviet military preparations have been raised to the highest possible levels and the "next step from where they are now is to go to war."

The situation is at a "decisive point," he said. "We are not hiding the fact that our people are following the events in fraternal Poland with disquiet," Czech communist leader Gustav Husak told his party congress in Prague.

The situation in Poland continues to disturb us greatly," Brezhnev sat in the place of honor directly behind the rostrum listening intently as Husak warned that those causing unrest must understand "our clear standpoint."

"The protection of the socialist system is the concern of each socialist state, but also the joint concern of the states of the Socialist Community, which are deter-

mined to defend their interests and the social achievements of the people.

"The legacy of the past and an obligation for the future is to ... guard and fortify the unity and fraternal cooperation between our nations and nationalities, to prevent their disruption by anybody and anything."

As Brezhnev suddenly departed Sunday for the Prague emergency talks with East bloc officials, the Soviet Tass news agency raised the prospect of "fraternal" help for Poland — a code term for intervention — for the first time in its commentaries on the Polish crisis.

The mounting tension found two of America's most powerful officials abroad on trips — Secretary of State Alexander Haig in Jerusalem on the second stop of a Middle East tour and Secretary of Defense Caspar Weinberger in London on the first stop of a trip to meet NATO allies.

"We are watching it minute by minute," Haig said in Jerusalem of the military situation around Poland, characterizing it as "somewhat ominous" than earlier.

Weinberger said in London that

military activities around Poland were reaching a "worrisome" level, and in an interview published today in U.S. News and World Report, warned that the Soviet Union would suffer "enormous" strategic losses if it invaded.

In Berlin, the East German news agency ADN said fresh units have been brought for the extended Warsaw Pact maneuvers and hinted their duties might extend beyond the war games.

"In the staging and deployment areas the troops were briefed politically and militarily on the impending combat mission," ADN said of the maneuvers, which were scheduled to end two weeks ago.

"The commanders and their staffs deployed the new forces quickly," ADN said, while not specifying where the Soviet, East German, Czech and Polish troops taking part in the maneuvers were operating.

But the report said that the news troops landed on the coast, presumably the Baltic coast where the Polish labor movement began in Gdansk, and the sparse details offered indicated a logistical undertaking that could put equipment and staff in place for an invasion.

"Covered by air defense troops, the motorized forces, artillery, missiles, infantry, engineers, and intelligence forces were brought in by rail and road and other units were landed on the coast by landing vessels," ADN said.

In a surprise move, Poland dispatched to Prague hard-line leader Stefan Olszowski, who has been at odds with party chief Stanislaw Kania's moderate policy of seeking to work with the Solidarity union. There was no word on whether Kania would go.

Olszowski ostensibly headed a delegation to Czechoslovakia's Communist Party Congress, which begins today. But with Brezhnev in Prague the real topic was expected to be Poland.

A senior Western diplomat said sending the Politburo member to Prague could be a strategy to show the East bloc that Poland's Communist Party is united. "He will have to defend the party line," the diplomat said.

Referendum Urged For 4 New Libraries

By DONNA ESTES
Herald Staff Writer

A consultant who has completed a preliminary study on the library needs in Seminole County is recommending a special referendum be called to seek voter approval for construction of four new full service libraries.

Estimated cost to build, furnish and supply the four proposed new facilities is set at \$4.5 million.

The study, being conducted by Richard L. Waters, assistant director of the Dallas (Texas) Public Library, is to be completed and in final form for presentation to the Board of County Commissioners in the next few weeks.

Waters conducted a preliminary survey of county library needs in 1974 before the county first contracted for library service with the Orlando Public Library. Seminole went into its own library system with branches in Sanford and Casselberry in October, 1978, based on Waters' recommendations.

The recommendations in the current study, according to Waters should be implemented by 1986.

He recommends that a new full service library be built in Sanford, the Forest City-Wekiva area, the Casselberry area and in the Lake Howell-Tuskawilla area. He also argues that the new facilities be built in or adjacent to shopping centers.

The county Commissioners will receive a separate report next week from architects, Greenleaf-Telesco of Orlando, on the feasibility of expanding the current downtown Sanford library housed in the old post office building on First Street. Waters, however, recommended the Sanford library be more centrally located, but not in the downtown area.

In surveying the library needs of the entire county, Waters recommends:

- No branch is needed for the Markham-Paola area. Books-by-mail service should be continued there.
- No branch is needed in the Lake Monroe area and books-by-mail service should also be continued there.
- Sanford should have a new 8,000 square feet full service library and needs an additional 3,000 square feet to house library administrative offices. He recommends that a new library be constructed within the city limits but in a more central location than the downtown area. He estimated costs for a new facility in Sanford at \$971,000.
- The Big Tree area should have a full service library by 1990. He said that facility should be about 8,000 square feet, with estimated costs at \$850,000.
- In the Forest City-Wekiva area Waters recommends a full service library of about 12,000 square costing \$1,223,000 for construction, furniture and basic library materials.
- For the Casselberry-Altamonte Springs area, called the South Core, Waters said the county should build a facility of about 12,000 square feet with 2,000 additional square feet to house the bookmobile service. He estimated costs at about \$1,181,000.
- In Lake Howell-Tuskawilla he recommends a 12,000 square feet full service facility costing \$1,233,000. Until the new library can be built he recommends extended bookmobile service.
- Currently the county is leasing facilities at Seminole Plaza in Casselberry for a branch facility.
- Econ-Oviedo area—Currently, according to Waters, the area is adequately served by bookmobile, but he said the bookmobile hours should be expanded. By 1990, he said, a 1,200 to 1,500 square foot portable structure should be built at an estimated cost of \$150,000.
- For the Lake Jessup area books-by-mail service should be continued.
- For the Geneva-Chukota area bookmobile service and books-by-mail should be provided.
- He recommends the county begin a search for sites as soon as possible. The four new libraries — Sanford, Casselberry, Forest City-Wekiva and Lake Howell-Tuskawilla are needed "now," he said.
- Jean Rhein, county librarian said today that when the completed study is submitted by Waters, its recommendations will be considered by the county's library advisory board. The library board's recommendations and staff comments will be presented to the county commission.

Reagan 'Doing Fine' Under Close Watch

WASHINGTON (UPI) — President Reagan's temperature was back to normal as he began his second week in the hospital today, and doctors reported he is "doing fine" in his recovery from a would-be assassin's bullet.

Doctors keeping a close watch for possible medical complications are hopeful Reagan may be able to return to the White House this week.

"The president was 'doing fine' when he awoke today and his temperature — which had fluctuated Friday and Saturday — was normal again, an early medical report said today. "He slept well."

Reagan was shot in the chest during an assassination attempt a week ago that also injured his press secretary and two

lawmen. The man charged with trying to kill him, John W. Hinckley Jr., 25, is undergoing psychiatric tests in a federal prison in North Carolina.

Doctors said Sunday new X-rays showed traces of dried blood and dead tissue in Reagan's injured lung, but smears of sputum and cultures found no indication of infection.

There have been no signs of pneumonia, a complication that could logically arise from the lung damage Reagan suffered.

"We're watching very closely and covering all eventualities," said Dr. Dennis O'Leary, a spokesman at George Washington University Medical Center, where Reagan has been hospitalized since the shooting.

The president's temperature, which has run as high as 102 in recent days, was described as "normal" in a medical report issued by the White House Sunday.

Acting White House press secretary Larry Speakes disclosed that the president's first words Tuesday, when the tubes were taken out of his chest, dealt with his assailant.

"Boy, what's his beef?" Reagan asked. Speakes said Reagan has been briefed on the shooting and the accused attacker, 25-year-old John Hinckley of Evergreen, Colo.

Reagan was described by the White House as "alert and in good spirits" as he chatted with visitors and took walks down a hospital corridor Sunday.

Break-Out Is Blast For Dignitaries TODAY

FORT MADISON, Iowa (UPI) — Lee County Sheriff Don Arnold dared his 18 "prisoners" to escape from the new \$1.8 million county jail — so they did.

Fortunately, the jailbreak occurred in a test of the new facility and the "prisoners" were reporters, local officials and dignitaries invited for an overnight stay at the jail so they could see for themselves just how escape-proof it was.

They found its security was easily breached.

Lowell Junkins, minority leader of the Iowa Senate, was apparently the ring-leader in the break-out.

Junkins said he realized he and the other prisoners could escape detection on the jail's television monitors. Then, he said, he simply walked to an intercom, told a guard on the other end he was the sheriff and asked that the doors to the building be opened. The guard unquestioningly complied and the prisoners made their dash to freedom.

Junkins, Judge David Hendrickson and a probation officer even meandered around the countryside for several hours after their bust-out and telephoned newsmen to brag about their success.

Embarrassed officials said security measures would have to be modified before the jail is put into operation.

WORLD IN BRIEF

Soviets Hint 'Fraternal Help' May Be Needed In Poland

MOSCOW (UPI) — The Soviet press, warning that Poland's Communist government is in grave danger, for the first time raised the prospect of "fraternal" help that could mean a Warsaw Pact invasion of the nation. In the commentary Sunday that raised the possibility of armed intervention, the national Soviet newspaper Pravda lauded "the foundations of the socialist system in Poland are still in grave jeopardy."

The term "fraternal" help in the Communist vocabulary has been used to describe actions such as the 1968 invasion of Czechoslovakia and the liberalization of Communism there and the 1979 intervention in Afghanistan when a pro-Moscow government was installed.

Manville Soviet leader Leonid Brezhnev's unexpected arrival at Czechoslovakia's Communist Party Congress has raised fears he is consulting his Warsaw Pact allies on intervention in Poland.

Jerusalem (UPI) — U.S. Secretary of State Alexander Haig today voiced fresh American concern over Soviet military steps in response to later unrest in Poland and said the United States was taking some "unprecedented measures" to influence a cease-fire in Lebanon.

There's plenty new in the context of our concern for the readiness steps that are being taken by the military forces of the Soviet Union and its satellites," said Haig, whose middle East tour has been overshadowed by fears of a Soviet invasion of Poland.

Winding up a 22-hour visit to Israel with his second meeting with Prime Minister Menachem Begin before departing for Amman, Jordan, Haig called his series of meetings with Israeli officials "highly productive."

Rome (UPI) — In the sharpest blow against Italian terrorism in a decade, police believe they have captured the founder of the Red Brigades group who masterminded the killing of former Premier Aldo Moro three years ago.

Mario Moretti, 35, allegedly one of the group's "historic founders," was arrested along with three other suspected terrorists in northern Milan Saturday afternoon as he

Lebanon Near Civil War

BEIRUT, Lebanon (UPI) — Syrian troops fighting militia and Lebanese army regulars are fighting today, moving to the brink of civil war in artillery, tank and mortar battles. Police sources said up to Sunday night more than 150 people were killed and some 400 wounded in the fighting between the Syrians and Phalangites in Beirut and Zallah that began Wednesday.

Lebanon's pro-Syrian leftist militias, who stayed out of the latest round of fighting, ordered a general mobilization and said "there is no escape from the battle of destiny."

In an apparent warning to the Syrians, Israeli fighter jets broke the sound barrier over Beirut Sunday.

Thais To U.S.: Reject Asylum. BANGKOK, Thailand (UPI) — Thailand asked the United States today to reject a request for political asylum from the mastermind behind an abortive 56-hour military coup.

Senior Foreign Ministry officials said the U.S. embassy in Bangkok and the State Department in Washington had both been informed that "the Thai government would be displeased if coup leader Gen. Sant Chulapattana was granted refuge in America."

Sant's wife is already in the United States where her three children are going to college. Thailand is one of America's staunchest allies in Asia.

Khomeini OKs Peace Plan. BEIRUT, Lebanon (UPI) — Iranian leader Ayatollah Ruhollah Khomeini today accepted a three-point peace plan proposed by the Islamic Conference and set its seventh-month war with Iraq, Iran's state-run Paris news agency said.

The plan, which was carried by Habib Chatil, secretary general of the Organization of the Islamic Conference, calls for the formation of a committee to study the rival claims to the disputed Shatt al Arab waterway — the key area in dispute.

Dollar At Month's Best. LONDON (UPI) — The dollar opened at an all-time high in Milan and at its best rates in a month in other European money exchanges today. The price of gold rose in London and Zurich.

Gold opened in London at \$352.75 an ounce compared with \$353.50. In Zurich, gold opened at \$350.50, up from \$352.50 at the close Friday.

The dollar opened in Milan at a record high of 1,070.50 lire against 1,060.50. The previous opening high for the dollar was 1,063.50 lire on March 27.

Area Deaths. Alexander "Smitty" Smith, 74, of Route 4, Box 72-B, Sanford, died Sunday morning at his residence. Born in Woodbury, Ga., he moved to Florida in 1911.

He was an inventor with a number of patents to his credit including several government patents for sliding aircraft assemblies developed during World War I which he was working at Warner Robbins Air Force Base. He was best known for the invention of the Snapper lawn mower and later the Smitty Under Tree Hoe and Smitty's Ground Haul, which he manufactured in Sanford, both of these were used widely in the citrus and farm industries.

He was a member of the Sanford Alliance Church. Survivors include his wife, Mrs. Lilla Mae Hirt Smith, daughter, Mrs. B.D. (Joyce) Bagger, and son, Mickey A. Smith, all of Sanford; four grandchildren; three sisters, Mrs. Mildred Fraizer, Trenton, Fla., Mrs. Ethel Brierley, Salt Springs and Mrs. Georgia Mae Mann, Houlton, Tex., and one brother Dewey Smith, Montverde.

Gramkow Funeral Home, Sanford, is in charge of arrangements.

ALVAN ISELEER, 52, Alvah Irving Leiler, 81, of 236 Alvah Irving Village Winter Springs, died Friday night at Winter Park Memorial Hospital. Born in South Bend, Ind., he moved to Winter Springs two years ago. He was a retired transportation service representative with the Motor Car Transportation Company, Mich. He was Methodist and a member of Cedar Lodge 60 F&AM of Clarkston, Mich. and the Scottish Rite Bodies of Cleveland, Ohio. Survivors include two daughters, Mrs. Thelma Heber, of Winter Springs and Mrs. Betty Jane Mason, Mishawaka, Ind.; one sister, Mrs. Clara Beatty, Fort Myers; seven grandchildren and two great-grandchildren. Funeral services and burial

Burglary Suspects Shot At In Weekend Burglary Tries

MAN FACES 15 YEARS FOR DEALING A 19-year-old Sanford man faces 15 years in prison following his conviction Friday of dealing in stolen property. Sentencing for Anthony Roy of 121 Club Rd. was deferred.

It was a bad weekend for burglars in Seminole County. One was shot and another came close to being shot at the hands of armed property owners apparently not adverse to using their guns to protect hearth and home.

The first incident occurred Friday night when Darryl Payne discovered someone trying to break into the 140 Eden Gate Drive home in Longwood. Payne, 27, told sheriff's deputies that he heard noises outside his house around 11 p.m. and went to investigate.

Payne said he spotted a man trying to crawl in through his bathroom window and yelled at the bandit. The man fled, stopped near a wood pile and fired one shot, Payne said. Payne dropped to the ground, rolled and fired three shots at the fleeing gunman with a .45-caliber pistol. No one was hit in the exchange of gunfire.

Darrell R. Ballard, 18, of 500 E. 4th St., Chuluota, wasn't so lucky. He was shot once in the right elbow while allegedly trying to burglarize the home of Richard D. Carpenter, Lake Mills Road near Oviedo.

Deputy Jim Engelbrecht said he responded to a call of a burglary in progress with shots fired about 10:44 p.m. Sunday. Upon arrival, he found Ballard lying on the ground outside Carpenter's house.

Carpenter, 51, said he had discovered Ballard trying to break in through a sliding glass door and fired one shot, hitting Ballard in the elbow. Ballard was listed in stable condition this morning at Winter Park Memorial Hospital. No charges have been filed.

It could have been a lot worse. Thieves broke into Donald Zimmerman's home at 120 Cambridge Drive in Longwood Saturday, but all they did was eat some potato chips, drink some Coke and left \$10 in the kitchen.

Zimmer told sheriff's deputies that someone entered his home between 11:15 a.m. and 7:20 p.m. by crawling through an open front porch window. Once inside, the thieves searched on some potato chips, poured themselves two glasses of cola, then went into a bedroom and stole \$10 from a purse.

However, Deputy Steve Walther said the bandits "seemed more interested in eating whatever they could find in the house" than thievery. "The \$10 was left in the kitchen."

Quarter Burglary. Sheriff's deputies were canvassing local coin dealers and precious metals merchants today looking for clues to the bandit who stole \$3,000 in silver quarters from a Casseberry home Sunday.

Lavera Davis, 60, of 1138 Frangipani Lane, told deputies the theft must have taken place between 9:30 a.m. and midnight. Taken were 25 rolls of silver quarters.

Two persons were injured in the crash, the firm's third helicopter accident in a month.

Search For Bodies Continues. WEEKI WACHIE (UPI) — The number of female skeletons unearthed in the littered yard of a Florida family haunted by sex offense charges stands at three, and officials believe the total could double.

"We shall stay there until we are completely satisfied there are no more bodies out there. We're looking for two, maybe three, more bodies at this time," said sheriff's Maj. C.E. Crosby.

Reagan Team To Japan For Auto Plans Briefing. WASHINGTON (UPI) — The Reagan administration is sending an advance team to Japan to brief the government of the latter setting as an "air cap" operation to screen the paratroopers on the ground as well as to strike all major airbases in Iran.

Under the reported plan, the 82nd Airborne Division was to make an air drop and seize the Mehrabad airport at Tehran. F-15 and F-16s and other combat aircraft were to be used, along with the latter acting as an "air cap" operation to screen the paratroopers on the ground as well as to strike all major airbases in Iran.

The plan also called for elements of the "Delta Unit" and other top commando groups to arrive at various sites in Tehran and other locations in Iran to free the scattered hostages. It would have included 1,800 Marines who would have attacked the main signal of Iranian oil on the Persian Gulf, Kharg Island.

FLORIDA IN BRIEF

Feds Round Up 14 In Gun-Running Raids

JACKSONVILLE (UPI) — Federal authorities are continuing their roundup of 14 persons charged with illegal dealing in guns and drugs in a two-month investigation called "Operation Flying Circus" that officials say will cripple the supply of weapons to drug smugglers.

U.S. Attorney Gary Betz said Sunday that the operation — directed in Jacksonville but spreading into Georgia — has brought the seizure of submachine guns apparently stolen from U.S. military bases, silencers and explosives.

By late Sunday night, 10 of the 14 persons charged had been arrested. The federal raids included one in which agents were confronted with loaded submachine guns and another in which a Drug Enforcement agency plane flipped over.

MIAMI (UPI) — A "very unusual" number of crashes recently has brought the Federal Aviation Administration to investigate the operations of a Miami helicopter company.

Roger Jones, FAA area chief of operations, announced the investigation of Dade Helicopter Services Inc. over the weekend — following the crash of one of the firm's copters on the roof of a building in downtown Miami.

Two persons were injured in the crash, the firm's third helicopter accident in a month.

Search For Bodies Continues. WEEKI WACHIE (UPI) — The number of female skeletons unearthed in the littered yard of a Florida family haunted by sex offense charges stands at three, and officials believe the total could double.

"We shall stay there until we are completely satisfied there are no more bodies out there. We're looking for two, maybe three, more bodies at this time," said sheriff's Maj. C.E. Crosby.

NATION IN BRIEF

Reagan Team To Japan For Auto Plans Briefing. WASHINGTON (UPI) — The Reagan administration is sending an advance team to Japan to brief the government of the latter setting as an "air cap" operation to screen the paratroopers on the ground as well as to strike all major airbases in Iran.

Under the reported plan, the 82nd Airborne Division was to make an air drop and seize the Mehrabad airport at Tehran. F-15 and F-16s and other combat aircraft were to be used, along with the latter acting as an "air cap" operation to screen the paratroopers on the ground as well as to strike all major airbases in Iran.

The plan also called for elements of the "Delta Unit" and other top commando groups to arrive at various sites in Tehran and other locations in Iran to free the scattered hostages. It would have included 1,800 Marines who would have attacked the main signal of Iranian oil on the Persian Gulf, Kharg Island.

At the hearings, the customers of Southern Bell may be heard on any and all issues in the case relating to the proposed increases in charges or the adequacy of the company's services. All telephone companies in Florida operate under a long distance charge schedule which is the same throughout the state. Therefore, the charges which Southern Bell is proposing in long distance service would affect the customers of all telephone companies in Florida. Customers of all other telephone companies may be heard on the issues of whether the long distance service is adequate and whether certain proposed charges in long distance service should be implemented.

For the convenience of the public the Florida Public Service Commission has scheduled service hearings as follows: Tuesday, April 14, 1981—10:00 a.m. - 4:30 p.m. and 5:30 p.m. - 8:30 p.m. Alllander Auditorium, 4800 Palm Avenue, Hialeah, Florida

Wednesday, April 15, 1981—12:00 - 4:30 p.m. and 5:30 p.m. - 8:30 p.m. Ramada Inn, 8700 South Orange Blossom Trail, Orlando, Florida

Thursday, April 16, 1981—12:00 - 4:30 p.m. and 5:30 p.m. - 8:30 p.m. Holiday Inn, 100 Datura Street, West Palm Beach, Florida

Friday, April 17, 1981—12:00 - 4:30 p.m. and 5:30 p.m. - 8:30 p.m. Country Commission Chambers, Alachua County Courthouse, Room 209, 21 East University Avenue, Gainesville, Florida

Legal Clock Is Stopped For Hinckley

WASHINGTON (UPI) — Mental examinations have stopped the legal clock for President Reagan's accused assailant, John W. Hinckley Jr., described by his parents as "a sick boy."

The court-ordered psychiatric tests, which could take up to three months, supercede Hinckley's constitutional right to a speedy trial, a Justice Department spokesman said Sunday.

Hinckley, 25, the son of a Denver oilman, is charged with the assassination attempt one week ago today that left four persons, including Reagan, wounded. If convicted, he could receive up to a life sentence.

Hinckley's parents, John and Anne Hinckley, met with their son's lawyers in Washington Saturday. Afterward, they issued a statement expressing prayers for the wounded and requesting prayers and understanding for their son.

"We simply ask that you realize John is a sick boy, and that you give him the benefit of the doubt until the true facts concerning his mental condition are known," they said.

Hinckley is undergoing up to 90 days of psychiatric examinations at the Federal Correctional Institution at Butner, N.C. The tests are to determine if he is mentally competent to stand trial.

"The court order stopped the clock," Justice Department spokesman Tom DeCar said Sunday.

Normally, the grand jury would have had 30 days from the time the case was referred to it last Thursday in which to return an indictment. No later than 10 days after that, an arraignment to formally charge the suspect would have to be held. A trial then would be scheduled.

Talk Show Host Admits Psychic Prediction A Hoax

LAS VEGAS, Nev. (UPI) — Talk show host Dick Mauree now admits he faked a videotape showing what appeared to be psychic Tamara Rand's chilling prediction of the attempted assassination of President Reagan.

"I am sorry," Mauree confessed in front-page copyright story appearing in Sunday's Las Vegas Sun newspaper. "I've committed a terrible wrong. I have committed the cardinal sin of the columnist."

"I have perpetrated a hoax on the public and feel very much ashamed."

Mauree, a Las Vegas Sun columnist, said the interview he and Rand had claimed was originally taped in January was instead taped March 31 — the day after the assassination attempt.

Mauree, in a statement from her Tamara Rand Institute in Los Angeles, said the taping on March 31 was done "for use by Dick Mauree in a future show reflecting past predictions made by me that had occurred."

"Whatever you might think at this moment, I am not what is important here," she said. "What is important is that I continue to see dangers to the president over the next few months, both for his health and safety."

In her prediction, Miss Rand said Reagan would be shot in the chest at the end of March or in early April by a fair-haired man acting alone.

Both she and Mauree had insisted the original prediction was made as early as Jan. 5 on a radio show and then repeated in a taped interview Jan. 5 on the KTNV-TV show "Dick Mauree and Company."

Mauree has been suspended from his radio and KTNV-TV talk show as well as the Cable News Network in Atlanta, which carried his featured column.

Lake Mary Pay Up Zoning Board Postpones Site Plan Consideration

The Sanford Planning and Zoning Commission has recommended to its April 16 meeting consideration of a site plan for the proposed expansion of S&H Fabricating and Engineering Inc. in the John Kridler Industrial Park.

Consideration was delayed until the 16th after a representative of the firm failed to show up at the board's meeting Thursday night.

S&H Fabricating and Engineering Inc. plans to construct two new buildings in the industrial park to expand its operations. The concrete block buildings are to house a brazing shop and an automotive air-conditioning assembly plant for the Detroit-based firm.

In other business, the planning and zoning board approved a request from Fonseca Plumbing to conduct a telephone service from a home at 3014 Park Ave.

A site plan for a proposed quadruplex at 301 W. 8th St.

Needed as trial evidence about every six months. Manning said he feels the present gun control laws are effective.

"You're not going to make the bad guys obey the law," Manning said. "Whether you have registration or a cooling off period, they're still going to get a gun if they want it. There may be some decrease in family disputes, but the major crimes are still going to occur."

Manning said law enforcement needs to be backed by the state's attorney's office and the courts with "more severe punishment."

"The punishment needs to be followed through when they've been found guilty, not when they've been arrested, but when they've been tried and convicted. Police are the middlemen," Manning said.

"If they're more straight on sentencing, it will make a lot of difference," Manning said. "There should be no plea bargaining. If found guilty, defendants should get the full sentence for the crime and the weapons used."

Winter Springs Police Chief John Covatta said the courts should be more effective in sentencing criminals. "In too many cases throughout the state and throughout the country, we put them in jail today and they're back on the streets tomorrow."

He said registration is helpful in tracing a gun that has been stolen or lost, but would not make people any safer because criminals can get guns if they want them and not register them.

Elks Battles Knights Of

Columbus In Junior Opener

Two teams expected to be strong in the Sanford Junior League square off against each other at 8 p.m. today in the league's season opener at Chase Park on Celery Avenue.

Knights of Columbus, coached by Alvin Whitted, will be playing the Elks entry of Coach Reginald Walton in the game. Knights of Columbus finished second last season and has several key players returning.

Defending champ Kiwanis makes its 1981 debut at 7 p.m. tonight against Masters Cove Apartments. Kiwanis is coached by Eversed Archer, while Dave Sullivan is at the reins of Masters Cove, which was formerly sponsored by V.F.W.

The league's other two teams, Moose and Rotary, are identical. They play each other at 8 p.m. Wednesday. Moose is coached by Bill Dube, while Bob Rowe is the Rotary coach.

Junior League games are played at 5 and 7 p.m. on Monday, Wednesday and Friday at Chase Park.

Bagley Fly Gives Tribe Split

Sue Bagley's sacrifice fly in the second inning brought home Robin Riggins as Seminole dropped DeLand for a split of a Saturday double-header at Ft. MeLan Park.

The loss averted an earlier 7-4 setback to Seabreeze in which the Lady Sandracas exploded for five first-inning runs and never trailed.

Seminole mustered only four hits in the first game. Jackie Link had two singles and a run batted in. Lark Hitting also helped Seminole against the Bulldogs, but of the three blows, two figured in the two-run second inning.

Tony Hardy earned the frame by reaching on an error by the DeLand second baseman, Riggins promptly chased home Hardy with a booming triple to center field.

Bagley then followed with a lengthy fly ball to left field which plated Riggins with the eventual winning run.

Defensively, shortstop Johnnie Bennett and second baseman Cindy Pandaris corroborated on an excellent double play to shutout a DeLand threat.

Bennett went to her knees for a ground ball, rifled the ball to Pandaris from her prone position and the quick second sacker relayed to first for the twin killing.

"Johnnie made a great great stop and throw, then Cindy really got rid of the ball in a hurry to first base," said Coach Beth Corso. Matt Warner also turned in a nice catch at first for the game's final out.

Tuesday Seminole travels to Lyman to play Cindy Henry's Lady Greyhounds at 3:30 p.m. The Tribe beat Lyman in the bottom of the seventh in the first meeting of the two teams.

Lakers 'Magic' Missing; Kings, Celtics Post Wins

By United Press International

A funny thing happened on the way out of the Forum Sunday — the Los Angeles Lakers were not smiling.

With Houston trailing 86-85 after Magic Johnson could make only 1-of-4 free throws, Mike Dunleavy sank a 15-foot jumper with 15 seconds remaining to put the Rockets ahead. After a Laker timeout, Johnson missed an off-balance shot and Moses Malone added two insurance free throws to lift Houston to an 89-86 triumph — sending Los Angeles packing off to the quickest exit for a defending NBA champion in 11 years.

The 1983-84 Boston Celtics won their second consecutive NBA title, but couldn't even make the playoffs the next season following the retirement of the legendary Bill Russell — who cackled a little louder than usual in providing the reason for Sunday's nationally televised game.

The Rockets, who entered the playoffs with a 40-42 record, won the best-of-three miniseries by taking two games in the Forum where the Lakers posted a 56-11 Western Conference semifinal series record. Houston opens its best-of-seven Western Conference semifinal series in San Antonio Tuesday night against the Midwest champion Spurs.

Dunleavy was an unlikely hero Sunday. He had committed five fouls while scoring just 8 points in 14 minutes and watched most of the game from the bench because of foul trouble.

The Lakers were led by Kareem Abdul-Jabbar, who scored 30 points and grabbed 18 rebounds in outplaying Malone, who had 21 points and 15 rebounds.

Portland Coach Jack Ramsay also has a void to fill after another Pacific Division club was shockingly eliminated at home by a Midwest foe in the miniseries.

Reggie King was the star for Kansas City in Game 3, scoring 20 of his 28 points in the second half to help the Kings eliminate the Trail Blazers 104-95. The Kings, who also won two games on the road, came from 15 points behind to a 49-48 halftime lead on King's two free throws.

Kansas City opens up a best-of-seven Western Conference semifinal series Tuesday night in Phoenix against the Pacific Division champion Suns.

Los Angeles (UPI) — For 71 days, boxing promoter Harold J. Smith lived in hiding, intensifying the mystery of a \$23.3 million bank embezzlement and claiming he'd be killed if he appeared publicly.

Today, following his weekend arrest at gunpoint by nearly 30 federal agents, Smith is expected to appear in federal court to be arraigned on passport violation charges.

Also, FBI Agent Jack Jackson said a "hold" has been placed on Smith by North Carolina authorities.

And while Jackson refused to offer details or say if it was related to the bank fraud, the hold would normally mean Smith could not be released on bail following his arraignment.

That's when charges in the bank fraud case could be leveled against the flamboyant Smith. He and a business partner were expected to be named in federal grand jury indictments, a federal official said several weeks ago.

"The mystery will be resolved (at the arraignment)," Jackson said Sunday.

Smith was arrested Saturday in a motor home by a swarm of FBI agents near the Los Angeles Police Academy and Dodger Stadium on a warrant charging him with making a false statement in applying for a U.S. passport.

He spent the weekend in county jail pending today's appearance before the U.S. magistrate.

The penalties for filing a false passport application include a \$2,000 fine or five years in prison, a federal official said.

The Wells Fargo Bank branch in Beverly Hills reported last January that it had \$21.3 million which had been siphoned from accounts over a two-year period. As the investigation progressed, former bank

Game Cancelled

The basketball rematch between the Tampa Bay Bucs and the Seminole faculty has been cancelled due to poor pregame ticket sales.

"We have to guarantee them a \$1,000," said Seminole Business Manager Gay Alling Monday morning. "We're not close to doing that."

In the first meeting the faculty whipped the Bucs by 22 points. The game was scheduled for Tuesday evening.

The Wells Fargo Bank branch in Beverly Hills reported last January that it had \$21.3 million which had been siphoned from accounts over a two-year period. As the investigation progressed, former bank

operations official Lloyd Ben Lewis, an official of Muhammad Ali Professionals Sports (MAPS) headed by Smith, was named as the mastermind of the scheme.

Bank officials claimed the fraud was carried out after a method was found to bypass the bank's auditing system. It involved the writing of false debit and credit checks, a bank official said.

The funds flowed out of the accounts in the names of MAPS, Muhammad Ali Amateur Sports, Inc.; Harold J. Smith Productions; Bodak Productions.

Harry Postko, another guest, and 53, married, was given this trip by his wife for his birthday. He is a salesman for a concrete water proof company, lives in Hamburg and speaks no English.

It was cold—in the 40s—and raining all but two or three days while they were there. This did not dampen their spirits, however.

Before leaving Orlando, the Florida Citrus Growers gave each traveler a bag of oranges as a gift to the host family. All reported that the Florida oranges were well received.

Each traveler had wonderful, different experiences with his host family—never to be forgotten.

Mrs. Joe (Donnaellen) White, pianist for the families who were part of the first Friendship Force originating in the Orlando area were: Alda Rose, director of Seminole Singers; Donna Pratt and her daughter, Penny, who is a student at Rollins; Sarah Knutson and her sister, Caroline Garrison; Florence Smith and her granddaughter, Laura Lenz, who was given the trip as a graduation present; Pat Rodgers, Wanda Hansford and daughter, Dana; Jan Menzies, Ruth Johnson; Phyllis Parker, Joy McFarland; Brunhilde Naktusis and her husband, Bronius; Gladys Massett husband, Joe; Vivian Hall, Joan Riddilla and Mildred McLendon.

Friendship Force: Americans, Germans Exchange Countries

The Friendship Force, a non-profit organization originated by Roslyn Carter, has just completed the first tour from Orlando.

This is an exchange program where the fare and from a country is paid by the traveler, who is then a guest of volunteer hosts in the country visited.

This travel program started in 1976, and has proven to be a successful method of establishing a friendly relationship.

Alma and Avery Harrison, Longwood, agreed to take two German men as guests for about two weeks.

When the Harrisons arrived at Bob Carr Auditorium to meet their guests, there were 170 residents of Germany and not enough hosts to take care of them all. They ended up taking four men. It turned out well, however, since the last two men were able to speak English.

On arrival in Hamburg, the Americans were given an official welcome at the Hamburg City Hall. There was a royal-like reception with free champagne, cigars, cigarettes and other refreshments.

While there, the Seminole Singers put on four programs: three that raked" performances and one religious. The religious program was held in a beautiful church with marvelous acoustics, just outside the city of Hamburg. The doctor recorded the performance, and Brunhilde said she could not believe it was them—the sound was so beautiful!

It was cold—in the 40s—and raining all but two or three days while they were there. This did not dampen their spirits, however.

It was cold—in the 40s—and raining all but two or three days while they were there. This did not dampen their spirits, however.

Before leaving Orlando, the Florida Citrus Growers gave each traveler a bag of oranges as a gift to the host family. All reported that the Florida oranges were well received.

Each traveler had wonderful, different experiences with his host family—never to be forgotten.

Mrs. Joe (Donnaellen) White, pianist for the families who were part of the first Friendship Force originating in the Orlando area were: Alda Rose, director of Seminole Singers; Donna Pratt and her daughter, Penny, who is a student at Rollins; Sarah Knutson and her sister, Caroline Garrison; Florence Smith and her granddaughter, Laura Lenz, who was given the trip as a graduation present; Pat Rodgers, Wanda Hansford and daughter, Dana; Jan Menzies, Ruth Johnson; Phyllis Parker, Joy McFarland; Brunhilde Naktusis and her husband, Bronius; Gladys Massett husband, Joe; Vivian Hall, Joan Riddilla and Mildred McLendon.

Who's Killing Whom?

TALLAHASSEE, Fla. (UPI)—Although the number of murders in Florida broke a record last year, the pattern of killing in the state remained largely unchanged.

Analysts at the Florida Department of Law Enforcement go beyond counting homicides in their annual crime reports to search for hints at whose killing whom, why, where and when.

A comparison of 1980 trends finds little statistically significant differences from those spotted in recent years.

Florida recorded 1,367 murders last year—every 4.3 hours. The figure was up 20 percent over the previous year and broke a record of 1,190 set in 1974.

The murder rate—considered the most important figure by law enforcement specialists—was 14.9 per 100,000 population, an increase over the 1979 figure of 11.7 and 1978's 10.6.

Delving into the broad statistics, analysts found:

Handguns were responsible for 50.6 percent of all murders last year; rifles, 4.2 percent; shotguns, 5.7 percent; knives, 1.6 percent. About 75 percent—466—were between the ages of 20 and 34.

Seventy-six percent of the victims were men and 54 percent were women.

Police "cleared" 886 murders—or 65 percent—either through arrests or other means (such as when an alleged murderer killed himself). This is down from the 70-plus percent figures of recent years.

Males accounted for 87.7 percent of the suspects for murder and 18.7 percent of those arrested between 25 and 29. The suspects

Legal Notice

NOTICE TO PUBLIC
Notice is hereby given that a Public Hearing will be held by the Planning and Zoning Commission on Thursday, April 11, 1981, at 10:30 A.M. in Room 200 of the Seminole County Courthouse, 200 N. Park Ave., Sanford, Florida, to consider the following change and amendments to the Zoning Ordinance of the City of Sanford, Florida, as amended.

Repealing from MR-2, Multiple-Family Residential District.

To that of RM-D, Multiple-Family Residential District.
