

## SANFORD'S DELEGATION GETS PROMISES GALORE ON AID FOR OUR ROADS

Some of Which May  
Materialize in the  
Near Future

### ROCK FOR ROAD

TO MAKE SHOULDERS ON STATE  
ROAD NO. 5 WHICH IS SAN-  
FORD-ORLANDO ROAD

The meeting of the State Road Department held in Tampa yesterday developed into what could be construed as a filibuster on the part of adherents of State Road No. 5. It was not until late in the afternoon that representatives from other counties had the opportunity of presenting their requests and grievances to the board.

Nothing developed from this unusual amount of verbosity, except promises—none of which can be fulfilled until the revenue from 1923 tax money is received. The most definite assurance received by any delegation was that given by the members from Sanford—representing Seminole county. This delegation brought the Board's attention to the condition of the Orlando-Sanford road and the necessity of immediate repairs being made to prevent its further disintegration. After a thorough discussion of this matter the members of the Department unanimously voted to furnish sufficient rock to be placed 3 1/2 to 4 feet on the shoulders of the present road as a temporary expedient, and which will meet the heavy traffic until such time as funds are available for the widening of this road. The engineer of the Road Department assured the Sanford delegation that shipments of this rock would be made immediately upon receipt of advice of the county commissioners that they were ready to handle it. Chairman Brunley, of the county commissioners, advised that he would immediately call a special meeting of the county commissioners to accept this offer from the Road Department and much needed repairs to this important artery will begin within the next thirty days.

The rock will be laid sufficiently thick so that when it has been evened by traffic it will increase the width of the present roadway from 9 feet to approximately 17 feet. At that time an oil coating can be applied which will further improve it.

Estimated costs for the Road Department for these improvements will amount to at least \$15,000.00.

Estimated costs to the Road Department was the first to be heard by the Road Department, after the lengthy discussions on Road No. Five, they were very much elated at this definite action. No definite action has been taken by the Road Department in the way of making appropriations up until the time Seminole county was heard.

E. A. Douglass was spokesman for the Sanford delegation, which consisted of Forest Lake, L. A. Hramney, Geo. W. Knight, C. W. Entzinger and Secretary R. W. Pearman.

### BETWEEN DUBLIN AND BELFAST GOVERNMENTS—SITUATION ALARMING

(By The Associated Press)  
BELFAST, April 26.—A breach between Dublin and Belfast governments which Ulster political quarters declare may entail rupture of London agreement indicated by a statement issued by provisional government in Dublin announcing it was unable to co-operate with Belfast government in inquiry into Irish railways.

### SWISS WAITER DEPORTED FELL IN LOVE WITH MILLIONAIRES DAUGHTER

(By The Associated Press)  
WASHINGTON, April 26.—August Probst, Swiss waiter, who charged he was kidnapped on account of his romantic interest in the daughter of a wealthy member of fashionable Rolling Stock Country Club near Pittsburgh, will be deported from the United States under order issued today by the Labor Department.

## VAUDEVILLE AT MEN'S CLUB WELL ATTENDED

CLUB ARRANGED FINE PROGRAM THAT WAS APPRECIATED BY ALL

The vaudeville entertainment given by the Men's Club of Holy Cross Parish assisted by the Legion Saxophone band, was well attended and those present thoroughly enjoyed the various stunts. They demonstrated beyond any doubt that Sanford has some of the best talent to be obtained anywhere and any time they want to put on a vaudeville sketch it will be something as good as any professionals. Every number on the program last night was first class, the sax band making its first appearance in public after seven weeks practice of one night each week made such a creditable showing that they were roundly applauded every time they made their appearance. Bandmaster Ball has certainly whipped the boys into shape in a short time and the thirty players with all sizes and shapes of saxophones made a fine stage setting. The readings by Mrs. Newberry, the negro dialect sketch by Bob Herndon always good, the quartette that turned out to be a trio of Tom Martin, Bud Allison and Maurice Heaton, Johnny Schirard in cornet solos, S. Samuel Baumel in song and dance, Mrs. Lucille Aspenwall Takach in solo, the duet on cornets by the Ball twins, the acrobatic stunts of Ed. Ward, the xylophone duet of James Robson and his little sister, Pearl, the toe dancing of Jennie May Brown and the violet dance of little Mary Wight and all the many and varied numbers were away above the average vaudeville attractions of the big cities and were all heartily enjoyed. In fact the program was repeated so often that it took about three hours to play it out but the audience never became tired as so many and varied stunts were carried out that the entire program was full of punch and pep and was most successful in every way. The show was given by the Men's Club to obtain funds for the many improvements in the Parish House and other parts of the plant that the club now offers the public and every man in Sanford who enjoys the fellowship of his fellow man, who wants to see the young boys in good company and who is anxious to help his city should become a member of the Men's Club and assist in this great work.

The Men's Club is anxious to enroll the names of all the old men, the middle-aged men and the young men in the club in order to get a large and enthusiastic crowd of men ready and willing at all times to create a larger plant in Sanford for the benefit of the men of the city and the boys and give them a good clean place where they can have good, clean sports and amusements every night in the week if they desire. The club now has bowling alleys, pool rooms, shower baths, a big theatre building, basket ball court, trapeze and other athletic apparatus and next season hopes to have a stage all set with good scenery and curtains and have a place where the entire city of Sanford can congregate and play and have a real community house that is so badly needed here.

### MALAGA FIRE SWEEP GOVERNMENT BUILDINGS —TWENTY PERSONS DEAD

(By The Associated Press)  
MALAGA, Spain, April 26.—Twenty persons are known to be dead and thirty injured by a fire which swept Government buildings last night, and still burning today. It is feared the fire would spread to the Customs House in which great quantities of ammunition destined for use of the Spanish forces in Morocco is stored.

DUBLIN, April 26.—Efforts to secure peace in Southern Ireland was renewed this morning with reassembling of Free State and Republicans leaders and after discussions which continued into the afternoon the conference adjourned until Saturday.

## SEARCH FOR MISSING IN BIG TEXAS FLOOD WHEN TRINITY RIVER OVERFLOWS

Unofficial Death List Now Stands at Twenty But  
List May Grow

(By The Associated Press)  
FORT WORTH, Tex., April 26.—Search for thirty-six persons carried on unofficial list of dead and missing today as the result of yesterday's overflow of Trinity river started at daylight when squads of searchers were sent out to comb the district where the flood waters began to recede. Unofficial death list now stands at twenty.

Property damage estimated at approximately one million dollars, is the toll of a flood which swept Fort Worth early yesterday, carrying before it scores of residences and small buildings, overflowing hundreds of acres of land and inundating several city streets.

John J. McCain, Fort Worth city engineer, issued a statement last night in which he declared that the levees around the rivers, which broke here early yesterday and flooded lowlands of the city, were "dynamited by unknown parties," and that an investigation by a grand jury would be demanded immediately.

DALLAS, April 26.—Forty-seven persons are unaccounted for or known dead as the result of a flood and one windstorm in Texas within the last twenty-four hours.

## AGAINST 44-HOUR WEEK IN NEWSPAPER OFFICES, NO ADVERTISING REDUCTION

Or Lowering of Subscription Rates at This Time,  
Says President of Association

(By The Associated Press)  
NEW YORK, April 26.—Placing the full weight of the American Newspaper Publishers' Association against any effort to introduce the forty-four hour week in the newspaper shops and declaring there cannot be any reduction in newspaper advertising or subscription rates at this time T. R. Williams, of the Pittsburgh Post and president of the association, called on members at the opening of the annual convention today to eliminate waste in the newspaper plants and get behind apprenticeship school movement in order to prevent shortage of skilled help in newspaper work.

## POLICEMAN KILLS TWO, ONE OF THEM POLICEMAN, AT ANNISTON, ALABAMA

And Then Carried Both Bodies to Undertaking  
Establishment

(By The Associated Press)  
ANNISTON, Ala., April 26.—Policemen Joe Holiday and C. B. Hurst were shot and killed today by Policeman Marshall Welch. After slaying the two policemen, who were riding in an automobile, Welch drove the car containing the bodies to an undertaking establishment and then surrendered. Police said Welch declared he shot Holiday in self-defense and the shooting of Hurst was accidental.

## SANTA MARIA IS SAFE AT WILSON'S ISLAND, ACCORDING TO WIRELESS

Passengers Will Be Taken to Nassau By Boat as  
Plane is Damaged

(By The Associated Press)  
MIAMI, April 26.—The Santa Maria is safe at Wilson Island according to a wireless from Havana at 11:30 today. The message was from the Havana Company owning the Santa Maria. The message was sent by a naval plane which stated the passengers on the Santa Maria were taken to Nassau by a small boat while the pilot and mechanic remained with the plane. The Santa Maria encountered such heavy winds after leaving Key West she was forced to use all her fuel and had to stop at the island at 1:30 Monday afternoon. None of the passengers are any the worse for the experience.

### Naval Planes Search For Missing Santa Maria That Left Monday

Waters Off Coast Combed Without  
Result Yesterday.

(By The Associated Press)  
KEY WEST, April 26.—Naval and commercial planes at daybreak resumed search for Santa Maria, missing with six persons, since it left here at six ten, Monday morning for Nassau. Waters off the coast were combed yesterday without result. One plane went over Key West-Nassau route and the Santa Maria planned to follow.

TOKIO, April 26.—A heavy earth shock was centered in Tokio at 10:15 this morning. There was considerable damage to buildings in the city and suburbs.

### Kenneth Williams New Swat King on St. Louis Team

Six Home Runs in Four Days Has  
Chance at Ruth's Record.

(By The Associated Press)  
ST. LOUIS, April 26.—With six home runs in four days, Kenneth Williams, St. Louis American, left fielder today leads all the Major Leagues in the home run column. In making six homeruns in four days, Williams has a chance at the record now held by Ruth, who scored seven in five days last year.

### FLORIDA PYTHIANS BEGIN PROCEEDINGS IN GRAND LODGE

ORLANDO, April 26.—The Grand lodge of Florida Knights Pythias began their annual convention here today.

## GENOA CONFERENCE BREAK WILL COME IN A FEW DAYS SAYS LONDON NEWSPAPERS

### ROTARY CLUB ELECT OFFICERS ENSUING YEAR

BIG MEETING HELD YESTERDAY  
AT NOON-DAY LUNCHEON—  
OFFICERS ELECTED

Sanford Rotary Club held a most interesting meeting at noon yesterday at the Valdez Hotel at their regular mid-day luncheon. Aside from the regular business to be transacted was the annual election of officers and the following directors were elected for the ensuing year: J. G. Ball, F. E. Roumillat, Edward Higgins, E. F. Housholder, A. E. Yowell, D. L. Thrasher, R. J. Holly, Chas. Britt, S. O. Shinholser. The directors met after the meeting and elected the following officers who will also be ex-official members of the board: D. L. Thrasher, president; E. F. Housholder, vice-president; W. M. Haynes, secretary; Chas. Britt, treasurer; J. D. Davison, H. R. Stevens as past president, will be a member of the board, sergeant-at-arms.

The new officers will be duly installed at the next meeting and at the first meeting in the month of May the new members will be initiated with a big meeting to be held at night.

B. J. Starling was taken in as a member yesterday and Ralph Bronson a visiting Rotarian from Key West, was asked for a few words and made a good talk on the Boy Scout movement that was given in yesterday's Herald.

### RUSSIANS FINDING OUT THEY CAN'T DO WITHOUT MONEY

(By The Associated Press)  
MOSCOW, April 26.—While its delegation at Genoa is trying to reach an agreement with the European powers for economic aid for Soviet Russia, the Bolshevik government is seeking to bring its financial and other affairs to a sounder basis by work at home.

The All Russian Communist party congress has been the preliminary fields where the international struggle to bring out order from chaos in Russia's finances has been fought. Against the few remaining groups of the communist party who still cling to the idea that money should be eliminated, M. Sokolnikoff, assistant to the commissioner for finance, supported by the majority, carried his point that a sound monetary system for Soviet Russia can be gained only by curtailing the issue of paper money, on one hand, and by collecting taxes, to bring the money back to the government, on the other.

Up to the last of March, twenty-five trillion paper rubles had been issued in 1922, it developed in the conference. Hitherto the government, while paying out huge sums in paper scarcely ever received any of it back, as there were no taxes in money to be paid no tram fares, railway fares or postal or other revenues. Now, the income will be an effort to check the outgo.

From April the gold standard attempt was abandoned, and all taxes railway fares, etc., calculated on the basis of the paper ruble.

Municipalities must support themselves under the new plan. All government budgets are to be cut to the bone, and new budgets arranged every three months.

The council of commissars has appointed a special commission in line with the new policy, to eliminate bureaucracy in the state institutions by 50 per cent of the government employees.

### LAST COMBAT UNIT COMING FROM GERMANY TO SAVANNAH IN MAY

(By The Associated Press)  
WASHINGTON, April 26.—Eighth infantry, last combat unit will arrive at Savannah from Germany the latter part of May, Senator Harris, of Georgia, suggested that Savannah prepare to welcome the home coming celebration and invite Harding, Weeks and Pershing.

### Lloyd George's Enemies Say the Meeting is a Failure

### SOVIET THREAT

REDS PROTEST POLAND'S ACTION CONCERNING RUSSO-GERMAN PACT

(By The Associated Press)  
LONDON, April 26.—Probable early breaking up of Genoa conference was more than hinted at in some of London newspaper editorials today. Northcliffe Journals, which consistently opposed conference and Lloyd George's advocacy thereof, declare meeting a failure.

GENOA, April 26.—Soviet Russia, contributed another sensation to the economic conference yesterday by sending a note to the Polish delegation remonstrating against Poland's action in joining with the Allied powers in protest against a separate treaty between Russia and Germany. Russia claimed that the peace treaty between herself and Poland covers all relations between the two countries so that Poland, like Germany, should not participate in the discussion of Russian affairs, even intimating that Poland by her present action in the conference has abrogated the treaty signed at Riga on March 18, 1921.

Russia has a strong Red army encamped near the Polish border, and for this reason the Russian remonstrances are regarded by some of the delegates as equivalent to almost a threat against Poland.

The experts on the Russian question sitting without the soviet delegates, yesterday compared notes on the new proposals presented by the Russian delegates at Tuesday's session, and decided to forward their report to their respective governments. It is expected that when the answers are received from the various capitals the powers will submit counter proposals to the soviet couched in firm language in an endeavor to reach a working basis for an accord.

"We cannot stay here forever," said a French delegate last night. The French are disturbed over the manner in which the English have interpreted Premier Poincaré's address. The French spokesman made it clear that all Frenchmen are alarmed over future military possibilities of the Russo-German treaty and that M. Poincaré was merely voicing France's genuine disquietude. There are certain indications here that France with her dwindling population is fearful of the constantly increasing German population, united with mighty Russia. The French attitude toward Russia is described as like that of Japan toward China—each wants an organized and prosperous neighbor, but does not desire that that neighbor be so strong as to loom up as a possible menace.

### ELKS CONVENTION AT JACKSONVILLE BRINGS BIG CROWD

(By The Associated Press)  
JACKSONVILLE, April 26.—The city was crowded today with Elks from all parts of the state, here for annual State Convention of Elks, which opened this morning, and will continue through Friday.

### GILCHRIST ANNOUNCED TODAY FORMALLY GIVING PLATFORM

(By The Associated Press)  
JACKSONVILLE, April 26.—Gilchrist formally announced today for the United States Senate from Florida, and made public his platform of twelve points, principal of which is, advocacy proper federal bonus for disabled service men and their dependents; less interference of state rights by the Federal government; more business in government; less government in business.

There is more profit in keeping a few good cows than in keeping many poor ones. Keep milk records and find out which of your milkers are loafing on the job.

SANFORD'S TEMPERATURE

You know as much about the rain as we do and therefore you have three guesses about the weather. It may rain tomorrow and W. J. Bryan may be elected president of the United States next time, yea.

THE WEATHER

For Florida: Generally fair tonight and Wednesday.

PERSONALS

Looks like rain but we are afraid to say so.

Don't forget the Memorial Day exercises at the Central Park tomorrow afternoon at 3:30 P. M.

The Legion Sax band will make its first appearance tonight at the Parish House Vaudeville performance.

The Sanford section is suffering the least of any in the state but a good rain would be fine for everything.

Forest Lake, G. W. Knight and R. W. Penman attended the meeting of the State Road Department at Tampa today representing the Sanford Chamber of Commerce.

The first show was given at the Princess last night since the Star outfit was moved over there and Manager Herndon announced that all the seats would be in place tonight and ready for business.

B. A. Howard of Okeechobee City is home today visiting his wife and family and expects to return to Okeechobee tonight. Mr. Howard says that the great Okeechobee country is booming and many big improvements are contemplated.

The many Sanford friends of M. J. Dactwyler of Orlando will extend sympathy in the death of his wife which occurred at his Orlando home yesterday. She left husband and three children to mourn her loss and the Orlando Chamber of Commerce called off their meeting yesterday as a mark of respect to the former president.

(c) The extension and enlargement of the drainage and sewerage system of the City of Sanford, Florida.

(d) The construction of paved, macadamized and other hard surfaced streets in the City of Sanford, Florida.

(e) The funding and paying of the outstanding floating indebtedness of the City of Sanford, Florida, evidenced by the vouchers heretofore issued by the City of Sanford, Florida.

Therefore,  
**BE IT ENACTED BY THE PEOPLE OF THE CITY OF SANFORD, FLORIDA:**

Section 1.—That a bond issue in the sum of \$625,000.00, for the municipal purposes enumerated and specifically set forth in the preamble of this ordinance, be, and the same is hereby authorized, provided, however, that before said bonds, or any part of said bonds shall be issued, this ordinance shall be first approved by a majority vote of the electors of the City of Sanford, who are qualified to vote as shown by the registration and tax books of the City, at an election called and held for that purpose, at such time and in such manner as prescribed by law and the ordinances of the City of Sanford, Florida.

Section 2.—That said bonds shall be of the denomination of One Thousand Dollars each, bearing interest at the rate of six per centum per annum, interest payable semi-annually on the 1st days of July and January, said bonds to be numbered consecutively from 1 to 625, both numbers inclusive, said bonds to mature in the following manner, to-wit: bonds to be numbered from 1 to 300, both numbers inclusive, shall be serial bonds; the maturity dates of bonds of this issue to be numbered from 1 to 300, both numbers inclusive, shall be as follows, to-wit:

- Bonds numbered 1 to 30 to mature July 1st, 1925.
  - Bonds numbered from 31 to 60 to mature July 1st, 1926.
  - Bonds numbered from 61 to 90 to mature July 1st, 1927.
  - Bonds numbered from 91 to 120 to mature July 1st, 1928.
  - Bonds numbered from 121 to 150 to mature July 1st, 1929.
  - Bonds numbered from 151 to 180 to mature July 1st, 1930.
  - Bonds numbered from 181 to 210 to mature July 1st, 1931.
  - Bonds numbered from 211 to 240 to mature July 1st, 1932.
  - Bonds numbered from 241 to 270 to mature July 1st, 1933.
  - Bonds numbered from 271 to 300 to mature July 1st, 1934.
- bonds to be numbered from 301 to 625, both numbers inclusive shall bear same date of maturity, bonds numbered 301 to 625, both numbers inclusive, shall mature 30 years after date of the issuance thereof; this entire issue of bonds to be dated July 1st, 1922, both principal and interest of said bonds to be payable at some bank in the City of New York, State of New York.

Section 3.—That it is the determination of the City Commission that the sum of \$15,000.00 will be required to pay the cost of building and constructing the municipal building for the housing of the municipal library of the City of Sanford, and that the construction of said library building is a necessary public improvement and will be of great benefit in its relation to the municipality of the City of Sanford, Florida.

Section 4.—That the amount of bonds required for the purpose set forth in Section 3 of this ordinance is the sum of \$15,000.00, and the sum of \$15,000.00 of said proposed issue of bonds is hereby appropriated for the exclusive use and purpose of constructing and building said municipal building referred to in Section 3, of this ordinance.

Section 5.—That it is the determination of the City Commission that the sum of \$67,000.00 will be required to pay the cost of the extension of Park Avenue northward into the waters of Lake Monroe to enable the public to avail themselves of the right of commerce and transportation afforded by water, and to furnish the means of access from the highway by land to the highway by water for the use of the public, and that the extension and construction of Park Avenue northward into the waters of Lake Monroe is a necessary public improvement and will be of general benefit in its relation to the municipality of the City of Sanford, Florida.

Section 6.—That the amount of bonds required for the purpose set forth in Section 5, of this ordinance is the sum of \$67,000.00, and the sum of \$67,000.00 of said proposed issue of bonds is hereby appropriated for the exclusive use and purpose set forth in Section 5, of this ordinance.

Section 7.—That it is the determination of the City Commission that the sum of \$40,000.00 will be required to pay the cost of the extension and enlargement of the drainage and sewerage system of the City of Sanford, Florida, and that the extension and enlargement of the drainage and sewerage system of the City of Sanford,

Florida, is a necessary public improvement and will be of general benefit in its relation to the municipality.

Section 8.—That the amount of bonds required for the purpose set forth in Section 7, of this ordinance is the sum of \$40,000.00, and the sum of \$40,000.00 of said proposed issue of bonds is hereby appropriated for the exclusive use and purpose set forth in Section 7, of this ordinance.

Section 9.—That it is the determination of the City Commission that the sum of \$468,000.00 will be required to pay the cost of constructing certain paved, macadamized and other hard surfaced streets in the City of Sanford, Florida, and that the said proposed paving and hard surfacing of certain streets in said City is a necessary public improvement and will be of general benefit in its relation to the municipality.

Section 10.—That the amount of bonds required for the purpose set forth in Section 9, of this ordinance is the sum of \$468,000.00, and the sum of \$468,000.00 of said proposed bond issue is hereby appropriated for the exclusive use and purpose set forth in Section 9 of this ordinance.

Section 11.—That it is the determination of the City Commission that the present outstanding floating indebtedness of the City of Sanford, Florida, amounting to the sum of \$35,000.00 should be funded by the issuance of bonds, and that said outstanding floating indebtedness should be paid, thereby improving the financial condition of said city, and that the payment of said floating indebtedness will be of general benefit in its relation to the municipality.

Section 12.—That the amount of bonds required for the purpose set forth in Section 11, of this ordinance is the sum of \$35,000.00, and the sum of \$35,000.00 of said proposed bond issue is hereby appropriated for the exclusive use and purpose set forth in Section 11, of this ordinance.

Section 13.—That, in accordance with Section 7, of the Revised Ordinances of the City of Sanford, Florida, the Mayor of the City of Sanford, Florida, is hereby instructed, authorized and empowered to call an election to determine the question of the issuance of the bonds provided for by this ordinance.

Section 14.—That the form of the ballots for said election shall be as follows, to-wit:

"For the Approval of that certain ordinance of the City of Sanford, entitled

"An Ordinance Providing for an Issue of Bonds by the City of Sanford, Florida, in the sum of \$625,000.00 for Municipal Purposes; the Proceeds Derived from the Sale Thereof to be Used for Building and Constructing a Municipal Building, for the Extension of Park Avenue Northward into the Waters of Lake Monroe, for the Extension of the Drainage and Sewerage System, for Constructing Paved, Macadamized or Other Hard Surfaced Streets, and for Funding and Paying the Outstanding Floating Indebtedness of the City of Sanford, Evidenced by Vouchers Heretofore Issued, and Authorizing the Mayor of the City of Sanford, Florida, to call an Election to Determine the Question as to the Issuance of Said Bonds for the Aforesaid Purposes"

and FOR BONDS."

"Against the approval of that certain ordinance of the City of Sanford, Florida, entitled,

"An Ordinance Providing for an Issue of Bonds by the City of Sanford, Florida, in the sum of \$625,000.00, for Municipal Purposes; the Proceeds Derived from the Sale Thereof to be Used for Building and Constructing a Municipal Building, for the Extension of Park Avenue Northward into the Waters of Lake Monroe, for the Extension of the Drainage and Sewerage System, for Constructing Paved, Macadamized or Other Hard Surfaced Streets, and for Funding and Paying the Outstanding Floating Indebtedness of the City of Sanford, Evidenced by Vouchers Heretofore Issued, and Authorizing the Mayor of the City of Sanford, Florida, to Call an Election to Determine the Question as to the Issuance of Said Bonds for the Aforesaid Purposes,"

and AGAINST BONDS."

Section 15.—That this ordinance shall become effective immediately upon its final passage and adoption. Adopted on this the 10th day of April, A. D. 1922.

CHAS. E. HENRY,  
S. O. CHASE,  
FOREST LAKE,  
City Commission of Sanford, Florida.

Attest:  
L. R. PHILIPS, (SEAL)  
City Clerk, Sanford, Florida.  
4-12-10-20; May 3-10-17

Perhaps this thing could be compromised by accepting the bonus in principle.

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

"They Satisfy"

**FIREMAN LOSES SIGHT OF ONE EYE WHEN FIRE HOSE HIT HIM**

(By The Associated Press)  
ST. PETERSBURG, April 25.—Carl Bell, member of the local fire department, has lost the sight of one of his eyes as the result of being struck in the face with the full force of water from a fire hose.

The accident occurred while the department was fighting a blaze at the city incinerator recently. The fireman holding the neck of the hose became unbalanced when a piece of footing slipped from under him. The hose swung and its stream struck Bell nearby. Although he suffered an immediate swelling of one side of his face he did not consider the hurt serious until a subsequent pain developed in the eye.

His mishap has prompted Chief McNulty to request Mayor Pulver to arrange for blanket insurance to protect members of the department, disabled in line of duty. Several years ago, the chief said, a new fireman broke his leg, sliding down a pole in answering his first alarm.

**MIAMI SCENE OF TWO STATE CONVENTIONS**

(By The Associated Press)  
MIAMI, April 25.—Two state conventions are scheduled to open here today and delegates to each were arriving in large numbers last night.

The 30th annual convocation of the Episcopal missionary diocese will take place in Trinity Episcopal church. Bishop Cameron Mann, of Orlando, is the principal speaker on the opening day's program. He will address the session this evening and present a review of the last year's work. About 150 delegates are expected to attend.

The Florida Furniture and Storage Association will open its convention this morning with a business session.

The Hollywood custom of taking "nightcaps" at a neighbor's house may be excused; but having night-gowns there is a little too much.

**JACKSONVILLE POPULATION GROWS IN FIVE YEARS ACCORDING TO DIRECTORY**

(By The Associated Press)  
JACKSONVILLE, April 26.—Jacksonville's 1922 directory just off the press contains 50,736 names, and the statistician by figuring 2 1-2 persons to each name concludes the city has a population of 126,840.

The Smith and the Browns, as usual are vying for the numerical honors, with the former showing no loss in its perennial lead. The Smiths are two pages ahead of the Browns 14 to 12. This follows the usual polyglot of nomenclature from a fair representation of the funny tribes through the royal household to Lords and Kings.

**TOMATO WORM BOTHERS THE GROWER —CAN BE KILLED**

(By The Associated Press)  
GAINESVILLE, April 26.—Tomato growers are greatly exercised because of the inroads being made by the tomato worm and numerous requests for a remedy are being received by the Experiment Station here. The reply in each instance has been, "Spray with lead arsenate."

The spray according to Professor J. R. Watson, entomologist, should be composed of lead arsenate powder and water in the proportion of one pound of powder to fifty gallons of water. The milk obtained by slacking 2 pounds of fresh lime should be added to the spray in order that it might have good sticking qualities and to prevent burning the plants.

The first spraying should be done when the earliest tomatoes are the size of peas. A week later, if there is no rain, make a second application. Should it rain shortly after the first spraying, it would be advisable to apply the second application within three or four days. Even a single application will greatly reduce the percentage of infestation.

# RADIO

## PROGRESS OF RADIO THROUGH THE YEARS

Wireless Research Began Long Ago, But Development Has Been Swift Lately.

Wireless research started many years ago, as far back even as 1827. Even the radio telephone is not a recent perfection; rather it is that introduction to the layman of the human voice and music has suddenly popularized something that wireless men had thought a pastime or amusement. Here is the chronological record of wireless:

1827—It was found that the magnetic discharge from a leyden jar would magnetize a steel needle.

1831—Electro-magnetic induction was discovered between two entirely separate circuits by Michael Faraday.

1837—Cook and Wheatstone of London, England, and Morse of the United States take out first patent for electric telegraph.

1838—K. A. Steinheil of Munich suggested that a system of wireless telegraphy could be established after his discovery of the use of the earth return.

1840—Joseph Henry (U. S. A.) produced the first high-frequency electric oscillations, and stated that the condenser discharge is oscillatory.

1842—Wireless experiments were made by S. F. B. Morse by electric conduction through water across Washington canal and across wide rivers.

1843—A wireless system for transatlantic communication was suggested.

1845—Water was used as a conducting medium in wireless experiments across a wide river.

1848—Intelligible signals were actually sent across a river 4,500 feet wide in India, but the cost was found prohibitive for commercial use.

1847—The electric waves that are now utilized in wireless telegraphy and telephony were predicted in an

distance of 60 miles by radio signals. 1901—Radio communication started with five islands in the Hawaiian group. The first British ship is fitted with the wireless telegraph.

1902—Radiograph signals received aboard vessels at sea at 1,500 statute miles. Signals received from a distance of 2,000 miles.

1903—King Edward receives a radio message from President Roosevelt. High-power stations were ordered by the Italian government. First transatlantic radio message sent. Telegraphic news service for ships at sea is started. Marconi knighted in Russia.

1904—The first press message was sent across the sea.

1905—Patent suit started in New York between the Marconi and De Forest company.

Patent for horizontal directional aerial is taken out. This was a great step forward in long-distance work.

1906—International conference is held in Berlin, at which most of the countries of the world are represented.

1907—The use of steel disks for producing notes were successfully tested.

Radio stations in Ireland and Nova Scotia were opened for limited public service.

1908—Radio stations opened for unlimited public service between Great Britain and Canada.

1909—Steamship in collision with another off the coast of Florida succeeds in calling assistance by radio.

1910—Marconi receives messages 8,700 miles while on board ship going to South America.

Spanish radio company formed.

1911—Canadian government leased radio stations for 20 years.

1912—Radio distress signals from the Titanic bring assistance and save lives of 700 passengers.

1913—Tests were made between the Eiffel tower in France and the station at Washington. During the trip into Central Asia an explorer received his longitude and time signals from a distant radio station.

1914—Marconi and radio officials start test of wireless telephone between vessels of the Italian fleet. The test was continued between vessels on the high seas and voices were heard with clarity at a distance of 44 miles. One day radio telephone communication was kept up constantly for 12 hours. Great Britain declared war

### I. C. C. CONSIDERS MERGING OF ROADS INTO 19 SYSTEMS

(By The Associated Press) WASHINGTON, April 25.—Consideration of the plan for the consolidation of all major railroads of the United States into 19 great systems was inaugurated yesterday by the interstate commerce commission.

The plan as it affects the south-east quarter of the United States was taken up first, and commissioner Hall, assisted by examiners, opened the hearings with a request of interested parties present for an exchange of views as to how the general study should proceed.

B. B. Cain, vice-chairman of the American Short Line Railroad Division ruled that evidence concerning the interests of the short line would be sought and taken as each district was concerned. John E. Benton, counsel for the Florida railroad commission said he would desire present a protest against the tentative plans for consolidation as laid out.

Acting under provisions of the transportation act of 1920, the commission had prepared some months ago by President Wm. Z. Ripley of Harvard University a complete proposal under which the railroads of the United States would be formed into 19 groups. The plan would retain the principle of competition, between the vast new systems by giving all of the important areas so far as possible to two or more of the new railroads. The law does not provide for the consolidation but sets forward the principle that under federal rate regulation weak railroads should be linked with stronger lines in order to maintain transportation efficiency under controlled rates.

The chairman said yesterday he expected the hearing to continue several months.

### FLOOD SITUATION SAID TO BE WELL IN HAND

(By The Associated Press) MEMPHIS, April 25.—With the crest of the third rise in the Mississippi expected at Cairo this evening, accurate predictions on the height the flood waters will attain in the central and lower rivers can be made. Tuesday night, United States weather bureau officials said last night. The Cairo gauge recorded 53

feet last night. The fight to hold the embankments at threatened points, between Cairo and Vicksburg had still been successful up to last night and engineers expressed confidence of the central river levees holding safely.

The most serious situation last night is apparently seven miles south of Hickman, Ky., where a swift current is undermining the banks outside the levee and where caving has occurred for several days. Farming operations in that section are practically suspended and every available man is at work on the river front, where the situation last night was said to be well in hand.

South of Arkansas City, Ark., the situation is still critical, although engineers claim a break there will be prevented.

### CANAL TOLLS ILLEGAL SAYS SUPREME COURT CANNOT BE COLLECTED

(By The Associated Press) MIAMI, April 25.—Boat owners who paid tolls to the state prior to the enactment of legislation in June 1919, making the collection of the tolls legal may have the money refunded, under a recent decision of the Supreme Court of the United States in the case brought by the Pioneer Boat Line against the Internal Improvement Board, according to the interpretation of the tribunal's ruling by legal authorities here. The United States Supreme Court reversed the decision of the Florida Supreme Court in the case.

The case brought by the Pioneer Boat Line was to recover \$1,000 paid as tolls for passage through the canals between Fort Lauderdale and Moore Haven and West Palm Beach and North Haven through the New North River and Palm Beach Canals. The toll was 10 cents per lineal foot for craft at each end of the lock. Circuit Judge Branning ruled that the improvement board had a right to collect the tolls but his ruling was reversed by the State Supreme Court.

The same day the opinion was handed down, however, the state legislature enacted a law legalizing the collection of the tolls. This turn of events again brought the Pioneer Line's complaint before the Supreme Court of this state where it was then held that the col-

lection of the tolls had been legalized and no recovery could be made. The United States Supreme Court held in effect, that any intention of the legislature to have previously enacted a law legalizing such tolls could not be considered as to deprive the plaintiff of his right to a refund of monies paid to the improvement board before the passage of the legislation.

### SCHOOL PRINCIPAL SLAPPED PUPILS FACE AND NOW IS IN JAIL

(By The Associated Press) PENSACOLA, April 25.—Prof. A. A. Merbler, principal of the school, at Brane, a town in this county north of here, has made bond for his appearance in court to be tried on a charge of assaulting one of his pupils.

Prof. Merbler, in a communication to the Pensacola Journal in explanation of the incident, said Letitia Merritt had been ordered to his room by a teacher for violating a school rule. Instead of reporting to him, however, the girl went home and returned next day with a note from her mother saying the parent realized the girl had done wrong but

asking that he not punish her. "That evening," said Prof. Merbler's communication, "I interviewed the child who, realizing what the contents of the note were that her mother had sent to me, doubtless was of the opinion that she was beyond punishment, and became disrespectful when I questioned her concerning her offense whereupon I slapped her face once and sent home a letter that evening notifying the parents that if I was not allowed to punish her I would have to suspend her from school, and she is now in a condition of suspension."

The warrant for the arrest of the principal was sworn out by the father of the child.

### FLOODS IN TEXAS REFUGEES IN TREES NEAR FORT WORTH

(By The Associated Press) FORT WORTH, Texas, April 25.—A boat picking up flood refugees from housetops and trees, capsized here today. Two women and one man are known to have drowned. With the reports of four previous drownings, the death list here now is seven.

M. G. Corcoran of Washington, D. C., Needs No Aerial for His Radio Outfit, His Receiving Wire Being Connected to the Wire Springs of His Bed.

address before the Royal Society in London, England:

1850—The sending of an electric current through earth was systematically studied by John Trowbridge of Harvard. It was found that signaling might be carried on over large distances between places not connected by wires.

1855—It was found that telephonic speech could be conveyed by induction over a space of quarter mile. This experiment took place in England.

1855—Electric waves were suggested as being particularly suitable for the sending of signals through fog.

1892—An instrument for the detection of electro-magnetic waves was discovered which was given the name of a "coherer."

1894—A scientist of Berlin signaled through three miles of water.

1895—High frequency waves excite curiosity of Senatore Marconi.

1895—First patent for practical wireless transmitting system is taken out in London by Marconi. Afterward, successful signaling was carried out over distances as great as one and one-quarter miles. Sir William Preece of the British postoffice system interested his cohorts in Marconi's wireless experiments.

1897—Marconi establishes communication between points four miles distant. Balloons were used to suspend antennae.

Marconi demonstrates his wireless system before the king of Italy, communicating with two Italian warships nine miles distant.

The first Marconi station is erected on the Isle of Wight and experiments conducted over a distance of 14 miles.

Near the end of the year the first floating wireless station was successfully operated.

1898—The first paid marconigram was sent from the Isle of Wight station.

1898—Reports made on lighthouse accident by radio. First French gunboat is fitted with radio apparatus. In Vienna communication between two balloons is established. New York Herald receives radio report of international yacht races. The British war office introduces Marconi apparatus into the South African battlefields.

1899—German vessel communicates a

upon Germany August 4 and all private radio telegraphy and telephony suspended.

1915—Radio communication between America and Japan is completed. The stations were located at San Francisco and Tokyo with a relay station at Honolulu.

The American Telephone and Telegraph company succeeded in radio telephoning from Arlington station at Washington to Hawaii, a distance of nearly 5,000 miles.

Secretary Daniels of the United States navy transmitted telephonic messages from Washington to the Brooklyn navy yards.

1916—President Wilson and the misdo of Japan exchange messages over the new transpacific radio service, which is formally opened.

1917—Senatore Marconi visits the United States and aids greatly in recruiting for radio operators for the United States army.

1918—Wireless telephony progressed rapidly, being used to a great extent in the equipment of airplanes.

Several new long range stations were erected in the United States, it being claimed for one built at Annapolis, Md., that it was capable of communication at 4,000 miles. The United States government also opened a high-power station at Bordeaux.

In September of this year radio signals sent from a point 12,000 miles away were received in Sydney, Australia.

1919—With the exception of the three transatlantic flights—that of the U. S. NC-4, and the British flights of Alcock and Brown and the dirigible IT-34, in which radio communication played an important part in keeping the ships of the air on their courses—no very great progress was made in radio telegraphy, although radio telephony was being pushed along quietly.

Restrictions upon amateur receiving and sending were lifted by the American government.

1920—This was the year of the radio telephone, more attention probably being paid to this branch of radio than to its elder brother, telegraphy. Several broadcasting stations were opened.

1921—This year was another radio telephonic year. It was marked by the opening of numerous broadcasting stations.

## First to establish the \$10.90 price—Usco

**THE makers of U. S. Tires made this announcement last November—**

"Hereafter the price of the 30x3 1/2 'Usco' is \$10.90."

The lowest price ever quoted on a tire of quality reputation and standard performance.

And now, with the opening of Spring, there seem to be quite a number of "New and Special tires" coming into the market in the \$10.90 price range.

Perhaps you are wondering just what there can be either "new" or "special" about these tires.

It can't be the \$10.90 price—"Usco" established that five months ago.

Nor quality reputation and standard performance—for it takes more than one full season for any new tire to demonstrate where it stands in quality and value.

With so many tires rushing into this \$10.90 price

**\$10.90**

*and even better than the price*

United States Tires are Good Tires

Copyright 1922 U. S. Tire Co.

field (now that the season promises business from the American car-owner), it is worth remembering that "Usco" showed its good faith by announcing this price last fall.

The same intent to serve that has made "Usco" a standard value for years.

The "Usco" Tire was never better than it is today—with its established quality, its time-tested performance, and its price closely figured in tune with the times.

And attend the memorial exercises this afternoon.

The Men's Club of the Parish House is doing a great work in this city.

Floods in Texas and floods in other parts of the country are taking all the water and leaving none for Florida.

Radio is sweeping the country but few know whether their outfits will work or not and whether the music and speeches now being broadcasted will continue after all the outfits are sold.

They are doing things with a high hand in Ireland these days and no one knows just where it will end. To shoot men in cold blood will bring retribution in its wake on either side and wholesale killings will be the result.

Seminole's delegation to the State Road Department meeting at Tampa yesterday brought back all the bacon there was to be had. It may have a streak of fat and a streak of lean in it but it is better than nothing and our people can congratulate themselves that they received anything at all.

A big cut in railroad rates will be given out by the interstate commerce commission in a few days say dispatches from Washington. After we have shipped the bulk of winter vegetable crop but welcome nevertheless and our people will know what to depend upon next season.

There have been so many offers made for Muscle Shoals that the committee on military affairs in the House have decided they know nothing, never did know anything and cannot possibly accept any offers on account of their confusion.

Our county commissioners have acted on the ten per cent increase levied by the state equalizer and have decided to stand pat and refuse to make any raise in Seminole taxes.

The building program mapped out in Sanford by men who are well able to build fine edifices is an ambitious one and will make Sanford one of the

real cities of central Florida. For many years our principal corners have been handicapped by frame buildings that were not commensurate with the growing city and now these corners will correspond with the rest of the business portion of the city of 25,000 people in 1927.

Albert Gleichert says that his friends have been so insistent that he just had to get in the race for U. S. Senator. Well, Albert will add much humor to the campaign and we certainly need some. It is positively the driest campaign we have ever been through.

The campaign is quiet and will be quiet and there is no need for anyone to get heated up over it. This is really an off year in politics and no chance to get up an argument so why worry? The men in the race are all good men and will no doubt make good in the places to which they aspire.

In attending the vaudeville at the Mens Club last night we were struck with the fact that Sanford has a wonderful array of home talent that is as good if not better than the professionals. It would be a good idea to get out our home talent at least twice each year in some of these affairs and keep them in trim.

Since it was rumored that Bryan might run in Florida for U. S. Senator there have been 67 million people in the north and half that many newspapers that have come out in support of his candidacy and asking and urging Florida people to vote for the great commoner. Now if he is that popular in the north why in the summer breezes didn't they elect him to the presidency when they were given so many opportunities?

EDUCATION IN MOVING PICTURES

There is either so much that is good or so much that is bad in moving pictures that it behooves every parent to study out some method to get better pictures. The Tampa Times has the following excerpts from people who are making a study of the moving picture censorship:

When former Postmaster-General Will H. Hays said he expects a "see movies in every school and church in this country," his idea was not so Utopian as one might suppose at first thought, declares Wyndham Phinny, who has been making for the Society for Visual Education a study of the motion picture needs of the non-theatrical field.

"It is estimated that 15,000 schools and churches have already adopted motion pictures as a means of instruction and entertainment. Most of the remainder, some 500,000 will undoubtedly follow suit as soon as there are enough suitable films to supply them and as soon as the prejudice which exists in certain quarters is dispelled. Signs that this prejudice is already giving way are apparent in the action of Yale university, which has begun production of one hundred reels dealing with every important stage in the development of America. The editors-in-chief of the series are Dr. Max Farrand and Dr. Frank E. Spaulding.

The educational movie has been seriously discussed for at least twenty years, some claiming too much for it and others too little. According to Mr. Phinny, however, "we are just beginning to glimpse the true breadth of its mission. In addition to the exposition of the three R's and all their ramifications, its great power can be systematically utilized for character-building. The movie's influence for good or evil, as the case may be, is well illustrated by the way in which children answered a query put by a New Hampshire school teacher.

"Whom do you most wish to resemble when you grow up?" she asked. Out of twenty-six third and fourth-grade classes the largest number of girls answered 'Teacher.' No one else received more than one vote—not even mother. When the same question was put to thirty-four classes in the seventh and eighth grades, however, the answers indicated a very different trend of thought. The majority voted for stage favorites, with a tie between Pearl White, the movie actress, and Anna Case, the operatic star."

Very little children do not see many movies. Teacher, father and mother hold first place. But the older boys and girls widen their horizon and "grow by what they feed on." "Why not see to it that the right kind of mental food is prepared and fed to these young, impressionable minds while children are under the control of parents and teachers?" pertinently asks Mr. Phinny. "With the screen's help the schools can accomplish wonder sin this direction without the expenditure of extra time and without having to add new subject to the curriculum." To bear out this point, Mr. Phinny quotes a recent address given by Dr.

UNCLE HANK

Judgin' from appearances, I should say th' more prominent a doctor becomes, th' duller his razor gets.

Spaulding of Yale university. According to Dr. Spaulding, every important development which makes up the educational progress of the last quarter-century has represented a business demand, and has justified itself chiefly in terms of its contribution to material prosperity.

"With the annual expenditure of a billion dollars," declared Mr. Phinny, "we have achieved industrial success but in this all we want our educational methods to achieve? In the words of Dr. Spaulding, 'is this overwhelming color of individual, material success satisfactory? Is it a safe color in which to prepare our youth to see the facts of life?'"

Histories and school teachers have told children about the great men who have built up our country; they have given the facts about useful inventions, and they have explained the revelations of science. Our boys and girls have salted down these facts as they have the multiplication tables; they have become potential bread winners.

"But let us show them American history on the screen," says Mr. Phinny, "let us picture for them the lives of great statesmen, scientists and inventors, and the sacrifices such men made to achieve. Given such vitalized teaching, boys and girls will do more than simply catalogue data. There will be a spiritual awakening, an inspiration from the contemplation of these high ideals. True values will be taking the place of sham, and good will be so deeply implanted that it will find expression in action. Boys who see and understand a film like 'Bats Off' will gain a deeper love of country and never forget to salute the flag. Youngsters who see nature study films like 'The Monarch Butterfly' and 'Toads' will never again be possessed of a desire to kill helpless creatures.

"Children who come under the influence of such pictures as we are planning will be found aligning themselves with the good in our democratic government and assisting it to approach their own high ideals. It is hardly possible to expect too much good to result, for from the motion picture emanates a suitable influence which verbal preachments often fail to put over, and which comparatively few children extract from books alone."

RING LARDNER CRITICISES FLORIDA ROADS

Ring W. Lardner, the alleged humorist, whose specialty is distorting the English language, spends his winters at Belleair, being a devotee of golf. Lardner has confessed to his admiration of our delightful climate, but he is evidently not very favorably impressed by the narrow brick roads he found in Pinellas county. A friend has sent us a marked copy of a recent issue of the San Francisco Examiner containing an article by Lardner on the subject of automobile travel in Florida, and particularly describing a trip from Belleair to Tarpon Springs.

Lardner holds nothing sacred, and he is not at all careful to be fair if it suits his purpose to magnify or distort. He gives the state no credit for any really good roads, but rather would create the impression that all of our roads are but nine feet in width, and rough—when, as a matter of fact, some of the finest roads in the United States or in any other country are to be found in Florida, and particularly Hillsborough county and the humorist has seen and driven over these roads, because he has visited Tampa.

A portion of Lardner's article is hereby reproduced: "Now days motoring in Florida is a different game and people with chicken hearts is advised to stay out of it. The 9 foot boulevards is O. K., as long as you don't meet nobody, but when you do, you have got to do one of three things, either run into them and take a chance that they will get the worst of it, or else move off of the road, or else cancel your arrangements for the day and back up to wherever you started from."

Florida automobiles has all, most all of them, got a plate inscribed with the name of the town where they came from, so if they happen to meet another car that won't give ground why the survivor will know where to mail the parts. They have also got their weight stamped on their license plate which is done as a kind of alibi for whatever happens to them in a collision, like for instance, suppose there was a big car from Philadelphia met a little car from Florida and they wouldn't neither of them jump off of the road or back up and the little Florida car got all smashed up, why the man that owned it could show you the license plate where it tells what the car weighs and then he could say no wonder he licked me as he outweighs me 2300 pounds.

A Florida man told me a while ago that the state was jam full of automobile tourists clubs which I suppose corresponds to our suicide clubs up north. Joking to one side it takes a good game guy to go touring in Florida let alone make a habit of it and personally I got pretty tired enough of same on two short trips one of which was on a Sunday P. M., which they's no reason for the northern tourists to gum up the roads on a Sunday any more than any other day as they are down here on their vacation and all days is alike. But I suppose habit is as strong with Florida as anybody else and if you leave them shut up in the barn on a Sunday they get restless and raise hell.

Well, the trip I took on a Sunday was from Belleair to Tarpon Springs which somebody told us we should ought to go there and see the sponge lay out. It seems that Tarpon Springs is the biggest sponge fishery in the world which as far as I am concerned they's no argument, but anyway the sponge fishermen is all Greeks and a man told me that sponge fishing was one of the biggest industries in Greece and when the Greeks heard that they was a school of sponges sponging off Tarpon Springs why they all left their own happy sponging grounds and flocked over here. It struck me as kind of funny that Greeks should be leaders in this amusement as I never yet seen a Greek that looked like a sponge lover, but I suppose it is the same like other professions like that for instance you don't hardly ever see a sales gal in the ladies hosiery that ain't got a run in her stocking. But anyway we went over to see Greeks and sponges on their home grounds and the Greeks looked just like all other Greeks and the sponges the same only that they cost more here than anywhere else on acct. of this being where they catch them.

But what I started out to say was that we made the return trip after dark and we had to have our head lights all lit up and so did the other cars coming towards us and when you take a 13 mile ride on a 9 ft. road on a Sunday evening with a constant line of head lights staring you in the eye, why I haven't no words to describe same though our driver had a good supply and used the most of them.

WHY PICK ON YOUR GROCER

The woods are full of amateur economists who claim that prices of groceries will shortly return to pre-war levels. Will they? Yes, they sure will—

- WHEN railroad fares are back to 2c per mile; WHEN gasoline is back to 10c per gallon; WHEN house rent is back to \$20.00 per month; WHEN a square meal can be had for 10c a quarter; WHEN farm labor is back to \$15.00 per month; WHEN shaves are back to 10c; WHEN clothes are back to \$15.00 a suit; WHEN money is back to 5 per cent; WHEN cooks are back to \$3.00 per week; WHEN hair cuts are back to a quarter; WHEN movies are back to a nickel; WHEN ice cream is back at a dime; WHEN doctor's bill is back at two bucks.

For the love of mike, why expect the manufacturer, wholesaler and retailer of groceries to go the route alone? Why expect us and no one else to go back to pre-war prices? Why pick on us? We are away ahead of the procession. Now let the barbers and the movie houses and the soft drink parlors and the landlords, and the hotels and restaurants and the draymen and the bankers, cut their prices and catch up with us.

Pick on somebody else. We've been the goat long enough.

CATTLE ARE DYING ON KISSIMMEE PRAIRIE

B. P. Whidden, a local citizen who owns a large herd of cattle on the Kissimmee prairie, returned yesterday from a long trip in that district and told some very interesting facts regarding the way the cattle in that part of the country are suffering for the want of water.

Mr. Whidden said: "I went practically all over the prairie looking over my cattle and found them greatly in need of water. In some places there were small mud holes full of water but it was so black with mud that it was only fit for drinking purposes after being boiled. In one of these holes we found twenty-four cows stuck in the mud they had perished before reaching the main body of water. Thousands of cattle and hogs are scattered all over the prairie and it would be impossible to drive these in reach of water as they are now so frantic for the need of it that they hardly know what they are doing. When they get stirred up they start to running and this makes it very hard to do anything with them."

"My father told me that he had seen a number of large boats come up the Kissimmee river some few years ago, but now it would be impossible for even a small one to pass through the stream as it is so very low.

"The only means we had of watering our horses was an old dipping vat that had several gallons of rain water in it, but had been deserted and never put into use. The prairie is very dry and in a number of places the tall wire grass is burning.

"The cows could stay along the river bank and be supplied with water if there was enough grass to keep the malive. There is such a large number of cattle on this vast plain that it is next to impossible to keep in touch with each herd."—Orlando Sentinel.

Dancing at Parish House Friday night. \$1.00 per couple. 26-3tp

DR. GEORGE HYMAN WILL DELIVER THE BACCALAUREATE ADDRESS

The many friends of Dr. George Hyman will be delighted to learn that he has accepted an invitation extended him by Supt. Lawton and the board of school trustees to deliver the baccalaureate sermon for the graduating class of the Sanford High School on Sunday, May 28th. It is expected that this will be a unique service as has been our custom during past years. The services will be held in the high school auditorium as usual.

BOND ELECTION TO ASSUME INDEBTEDNESS IN CITY ST. PETERSBURG

(By The Associated Press) ST. PETERSBURG, April 25.—A bond election has been set for June 6 at which the proposal to assume a city indebtedness of \$365,000 for municipal projects will be passed upon.

The election was originally announced for May 16 but some doubt arose to the legality of any action on that date because of insufficient time having been given the voters to decide the question.

The voters will ballot on three separate projects. It is proposed to issue bonds in the sum of \$300,000 with which to build and equip a municipal power plant, a \$15,000 for sewerage extension and \$50,000 to be expended on the Bayboro harbor.

ATTENTION, CONCRETE MEN Colonial Block Machine, makes two blocks per minute; makes twenty-four different styles of blocks; can be moved to different jobs. Price \$232.50. Agents wanted. Write for circular and general information.—CARL DANN, Orlando, Florida. 24-3tc

NOTICE! N. H. Garner will sell better cars when they are made. The Oldsmobile 4 and 8; the Buick 4 and 6, just arrived in car load lots. See me before you buy. I will save you money on your gas, oil and repairs.—N. H. Garner. 24-6tc

## IS MARRIAGE A FAILURE?

By Mrs. Henry Wight, Sanford, Florida.  
A marriage is not so bad a thing as some would like to make it. It depends on how we take it. "Taking" is our main desire. In getting self or leisure, each taking truly will conspire to rob the bond of pleasure.

"Giving" has its free appeal. And eyes look out for mutual aid, all then will enjoy the compact seal. And marriage a success be made. For give and take is aye the rule. For every joint endeavor a life's grand old experience school. And will be so forever.

But what's the use of argument, Since wedlock's here to stay? So long as lover woo and mate There is no other way. For this is true beyond dispute, Divorces notwithstanding, Thousands of happy married folks No changes are demanding.

Now we all know that life is good. Despite some nights of sorrow, We should snap its thread today. We'd miss its joy tomorrow. Life's here—we make the best of it, Nor judge it by its stresses; Love's here and marriage, home and child, Its sequences, God blesses. —From Orlando Sentinel.

D. E. Becker of Clearwater is spending a few days here with his daughter Mrs. Peurifoy.

O. P. Burroughs of Jacksonville, representing the Herty Cup Co., is in the city attending to business.

W. S. Jones of Atlanta, Ga., representing the Robinson Neckwear Co., is in the city calling on his local customers.

Mrs. Rousseau of Jacksonville arrived last evening and is the guest of her sister, Mrs. A. W. Smith, at her home on Palmetto avenue.

**B. & O. MOTOR CO.**  
209 PARK AVE., SANFORD, FLA.  
Distributors for  
LEXINGTON and HUPMOR.

Mr. and Mrs. R. T. Thrasher left today for Tampa where they will spend a few days with the former's brother-in-law and sister, Mr. and Mrs. F. S. Daiger, Sr.

Mr. and Mrs. C. Boyce Bell left in their car Tuesday for North Carolina for the summer, where their son, Wallace, who is attending school at Hendersonville, N. C., will join them later.

Mr. and Mrs. Victor Check will leave soon on a trip to Mrs. Check's home, Topeka Kansas. Mr. and Mrs. Check are enthusiastic Sanford boosters and will return in July to become Sanford citizens and build their handsome bungalow on their French Avenue lake front farm.

Mrs. Bart Peterson and little son, Robert of Jamestown, N. Y., who have been visiting her parents, Mr. and Mrs. B. J. Starling for the past two months, leave today for Jacksonville where they will spend a short time before returning home. They were accompanied as far as Jacksonville by Mrs. B. J. Starling, who will spend a week there with her sister, Mrs. Robert Simms.

One of the largest and most pleasant stag fishing parties of the season was given last Sunday, under the direction of Captain Victor Check, ably assisted by his worthy crew, Jimmy Ridge, Dr. Brown, Billy Hunt, Jim Reardon, Tom Terry, Pervis Garrett, Bill Lester, Noble Gillion Bro. King and Lynch, J. B. Little and Tom Jones.

Leaving port on the worthy ship they went into the far regions of the Wekiwa, whence they put forth their best fishing efforts with the result that each married man brought home a goodly fish supply and the Gables had an abundance from the bachelor guests. A noon day feast was served by the Steward and Victor's reputation as a fisherman is yet to be beaten.

**PUPILS RECITAL**  
Friday evening at 8 P. M. at the Welaka Lobby, the pupils of Miss Daphne Wimbish and Mrs. Dick Brown, will give a pupils recital, to which the public is most cordially invited, there will be no charge.

This will be the first recital of its kind given in Sanford, and will be especially interesting from start to finish. Among numbers will be the Interpretive, to classic, Greek groups, Russian, and Ballet dances, especially pretty is the dance of "Youth and Beauty."

Don't fail to see the dance of the powder puff, and see how to improve nature. There will be dances suitable for all moods, so come and see.

**KATHLEEN MALLORY CIRCLE**  
Mrs. L. B. Hollar was hostess to the Kathleen Mallory Circle on Tuesday afternoon. The attendance was splendid and the meeting extremely interesting. Devotional exercises were conducted by Mrs. Sarah Smith and the program for the approaching Southern Baptist Convention, which meets in Jacksonville in May, was read by Mrs. Jarns. Many and varied business matters were discussed among them a rummage sale to be held in the near future. At the close of the session delicious refreshments were served.

Next week instead of the regular meeting, each member will perform some kindly deed of personal service to those who are in need.

**PIPE ORGAN CLUB**  
Mrs. Charles Ryan was the hostess for the regular weekly meeting of the Pipe Organ Club on Monday afternoon.

Several matters were taken care of and the members completed the plans for the May Day Party, to be given on the afternoon of May 1st, on the Fox Gatchel lawns on Onk avenue. This is an annual affair and is looked forward to with much interest by friends of the club.

After adjournment of the business session, Mesdames Maines and Farrell sang two lovely vocal duets. Late in the afternoon, the hostess assisted by Mrs. Phillips and Mrs. Craig Harris, served an iced drink with sandwiches. Club members present were Misses Stewart and Laing and Mesdames Pitts, Farrell, Gatchel, Hall, Estridge, Moore, Maines, Phillips, Methvine, Harris, McAllister and Merriweather.

**HELSTON SANG**  
**PEARMAN'S SONG**  
Maurice Helston, the popular singer of Sanford sang the song recently written by Secretary R. W. Pearman at the Vaudeville at the Parish House last night. The song has catchy words and a wonderful lilt in the music and Maurice put it over in great shape. The author was not present to hear it but he can rest assured that it took the crowd. The song is entitled "I'm Going Right Back to My Dear Old Florida Home"

and is a great advertisement for Florida and especially for Sanford since every copy has Sanford on it below the author's name.

## LIEUTENANT HARRY CARLSON IS HERE

The many friends of Lieut. Harry Carlson are glad to see him here today enjoying a brief furlough from his duties in the Naval Air Service. Harry is a Sanford boy and we are all proud of the record he has made in the naval air service in which he has been doing duty for the past four years, making a fine record in his work. He was with a bunch of navy flyers on the way from Key West to points on the north Atlantic and stopped over to see his father and mother here and also his many Sanford friends. We are all hoping that after Lieut. Harry gets tired of seeing the world that he will settle down in Sanford for life.

## LORD'S PURITY WATER

Sanford, Fla., Mar. 15th, 1922.  
Geo. W. Simons, C. S. E., State Board of Health, Jacksonville, Fla.

Dear Sir:—  
The bottom joint of tiling in my well, has come loose and dropped down, leaving a space of about a foot, just where my suckson pipe sucks up the water, thereby at times, bringing up clay in the water. This tiling is 6 inch, as you know. I wish to remove it and replace with 8 or 10 inch, as this one does not give us enough room.

If you could conveniently do so, I would like for you to send your inspector, to look over the situation before we started the work.

When we hear from you, we will send in samples from another supply, nearby, which we wish to use from— with your permission—till we can finish this work.

Trusting this will meet with your approval, I am,  
Very truly yours,  
M. M. LORD,  
of Lord's Purity Water.

Jacksonville, Fla., March 20, 1922.  
Mr. M. M. Lord,  
Sanford, Florida.

Dear Sir:—  
We are in receipt of your favor of the 15th, relative to the repairs necessary on your Purity Spring Water supply.

Our inspector will be unable to reach Sanford until some time during the third week of April. However, at that time he will be instructed to call upon you in order to conduct the necessary survey at the water supply.

If you are desirous of using water from another source while the repairs are being made, let us have samples in order that you may be permitted to do this.

Very truly yours,  
GEORGE W. SIMONS, Jr.,  
Chief Sanitary Engineer,  
Fla. State Board of Health.

Jacksonville, Fla., March 27th, 1922  
Mr. M. M. Lord,  
Sanford, Florida.

Dear Sir:—  
On Saturday, March 25th, we received from you two bottles of water for bacteriological examination and fitness for drinking purposes. These samples were taken from a well supply from which you desire a permit to sell water temporarily.

Examinations have been concluded upon these samples and the results indicate that the water possesses a good sanitary quality and is suitable for drinking purposes. You are thereby granted a temporary permit for the use of this supply while the repairs are being made on your Purity Spring supply.

Our inspector will visit your plant at an early date and investigate the conditions existing.

Very truly yours,  
GEORGE W. SIMONS, Jr.,  
Chief Sanitary Engineer,  
Fla. State Board of Health.

Jacksonville, April 22, 1922.  
Mr. M. M. Lord,  
Sanford, Florida.

Dear Sir:—  
This acknowledges your telegram of even date.

On April 19th our Sanitary Inspector, Mr. D. H. Osburn, of Tampa, visited your plant in accordance with instructions from that office. Mr. Osburn reports to me that he found your plant all torn up, the curbing removed and no improvement completed. He reported that he was unable to find you at home.

Some considerable time has elapsed since you started remodeling your spring. We are this day revoking your temporary permit granted under date of March 27th our file No. 11632, until such a time as you are able to put your plant in a satisfactory working condition. We advise you to get busy immediately, remodel your plant, get the curbing in shape and do such work as is necessary to put the plant

in proper sanitary condition. Until such a time your permit is revoked.  
Very truly yours,  
GEORGE W. SIMONS, Jr.,  
Chief Sanitary Engineer.

Sanford, Fla., April 23, 1922.  
Mr. Geo. W. Simons, Jr.,  
Jacksonville, Fla.

Dear Sir:—  
Yours of the 22nd to hand. It is true that your inspector found conditions as you stated, but I did not begin work until some ten days after I got your permit and then it is in the middle of our rush season in celery shipping and it is practically impossible to control labor just now. I have used seven men on this job already and will start with two new ones tomorrow. I have done the very best I could under the circumstances. Hope to have work completed by tomorrow night.

Your inspector never called at my business address here in town, neither did he inquire of any one about my home, or visit the temporary supply on which you gave me the permit.

Now, my dear Sir, it appears that a great injustice has been done me and it is ruining a business that I have spent some three years to build up. I should not have made these repairs without your consent for me to use another supply, and now after I have gone through what I considered the proper method, and tried to comply with the letter of the law and with your consent and instruction, you condemn the whole proceedings and damage my business, possibly beyond repair.

My customers will have to buy from my competitor and thereby I will lose many of them.

If you will kindly extend this temporary permit this week, I believe that I can have you samples for examination before the week is over from my supply that we are working on.

If you will not, then I feel that my business is ruined.

Please wire me at once at my expense.

Yours,  
M. M. LORD.

On Tuesday Mr. Newman, of the Engineer's office arrived, visited both supplies, saw repairs complete on our supply, pronounced every thing O. K. and bid us proceed with our business.

The first three letters were shown the sheriff before this work was begun. We thought that we had complied with the letter of the law, in every respect. Just why this, we are unable to say. We call upon the water-drinking people of Sanford, to give us a fair verdict.

LORD'S PURITY WATER has as good an analyses as the state affords. We give good service and sell it for less. Sample bottle for 35c and a ticket of twelve bottles for \$4.00. Give us a trial and see if we don't convince you.

Waiting your verdict, I am  
Very truly yours,  
—Adv. M. M. LORD.

## OLD GREEK TOYS ARE LIKE TODAY'S

Modern Children Find Dolls 2,000 Years Old Very Much Like Their Own.

### HAD TOPS AND MARBLES ALSO

If Children of 2,000 Years Ago Could Come to Life They Could Play in Complete Understanding With Children Today.

London.—Do you know London's 2,000-year-old toy shop? Go through the terra cotta room in the British museum and ask the kind, fatherly-looking attendant to point it out to you. It goes right to the heart. Here the most human little comedy was played by three little girls and a small boy.

They came wandering in, rather tired of the Pharaohs, thinking, no doubt, more about eating than antiquity.

Father, too, looked bored. His general knowledge evidently had given out. Suddenly they saw something which spoke to them down 20 centuries; they saw dolls and little horses and cars, tiny bronze chairs for a doll's house, little animals which might have been saved from last year's Noah's ark, tops, marbles and—sinister touch—a slate with a 2,000-year-old multiplication table scratched on it.

Ancient Greek Toys.

All these once belonged to Greek children in Athens, in Corinth, in Kal-dos, Naucratis, Cyrenata.

"Oh, how perfectly sweet!" cried one of the girls, as the four fair heads were bent over the case. "I say, dad," remarked the boy, "that looks like a fine top."

Dad apparently quite unconscious that the far-off ancient world had suddenly become alive and palpitating, solemnly read out the museum labels:

"That," he said, "is a doll found in a child's tomb in Athens 2,000 years ago."

"And its arms move, too!" cried the girls. "And do look, daddy, at those dear little shoes that come on and off! I'd simply love it!"

Shadow Children There.

The girls went into raptures over a doll in a red peaked cap. . . . Was it just imagination, or was there really a crowd of children there? Who were those others—a little shy, perhaps slightly annoyed? Just shadows, no doubt.

One thing is certain. If the children of 2,000 years ago had suddenly come to life these four little Londoners could have sat down and played with them in complete understanding.

A full-grown Greek might have staid at sight, but a six-year-old Corinthian would have met his children as friends and contemporaries on all matters of doll welfare.

REPAIR BRIDGE TO AID STORK

Neighbors Lay Planks and Officers Open It for Doctor to Reach Patient.

Philadelphia, Pa.—When Dr. Robert T. Elmer of Wayne the other night received a telephone call from a farmer living back of Newton square, informing him that the stork was hovering around and that the physician was desired to greet the bird, the only road that was not blocked by snow was one leading over a bridge, across Darby creek, that was condemned and closed to traffic two weeks ago.

Neighbors of the anxious farmer communicated with the Delaware county commissioners and obtained permission to open the bridge, with the proviso that Dr. Elmer use it at his own risk.

The farmers laid planks upon the structure and the doctor drove his car carefully over it and hurried to his patient, to be there when the stork arrived.

TO PLAY CHRIST ON STAGE

For the First Time an Impersonation of Christ on the English Stage Is Permitted.

London.—An impersonation of Christ has been permitted for the first time on an English stage in the production here of Stringberg's symbolic play, "Advent." A fourteen-year-old girl appeared as the Redeemer.

Dramatic critics are inclined to take the view that the English stage censorship is broadening in regard to religious plays, probably owing to the fact that representations of Christ have appeared often in the films.

In the past years, several plays have been refused licenses because they included Christ as one of the characters. Others received permission on condition that no character should appear symbolic of Divinity in human form.

Dogs Guard Frozen Boys.

Kalkaska, Mich.—Their two dogs standing faithfully by their side, despite the cold, Leonard and John Gilde, thirteen and nine years old, respectively, were found frozen to death in fifteen inches of snow, about six miles west of South Boardman. The boys, sons of Cornelius Gilde, a farmer, had left home with their dogs to hunt rabbits. They apparently lost their way in the snowstorm that came up late in the day, and, overcome with exhaustion lay down to sleep, cuddling against their dogs.

## SHOWS WAR'S RAVAGES

Astrakhan Much Like New Orleans After Civil War.

Russian City Trying to Regain Its Former Prosperity, but Process Is Slow—Communism Not Liked There.

Astrakhan, Russia.—Once prosperous but now ravaged by revolution, the situation of this city reminds the visitor of the condition of New Orleans after the Civil war. It is trying to regain its former prosperity, but the process is slow. In its position Astrakhan resembles New Orleans in some ways. The city is pitched on an island at a point where the Volga river divides into many smaller streams, forming a delta that extends sixty miles to the Caspian sea.

The commerce of Astrakhan was once comparable with that of St. Louis, Memphis or of New Orleans. It was rich in furs, in fish, in caviar and busy handling freight which traversed the Volga. There was once food for every mouth and clothes for every back, with work a plenty for every man.

Today are seen the wrecks wrought by combat between the imperial and revolutionary forces, but no sympathy is expressed with communism. "We have had enough," said one of the workmen who, together with thousands of his fellows had for eighteen days, just after the Petrograd and Moscow risings in 1917, took to arms and besieged the Cossack troops and the wealthy people of the city, gathered in the Kremlin walls, in soldier barracks and other points at the heart of the business district.

The immediate result of these eighteen days of carnage was the destruction of the duma buildings, the governor's house, the great bazaar and several blocks of stores filled with dry goods and Persian and Turkestan carpets, silks and other articles.

The ultimate result is indicated by the bare, fire-burned walls today standing gaunt and cheerless, with no work on the river and no food in the homes for these workmen. The people have little money to buy anything.

The spirited horses which once filled the horse market at the riverside have gone to the wars not to return or have been requisitioned for the present Budenny cavalry, a few troops of which are quartered here.

In the provincial hospital where 300 patients lay there was practically no broth for famine refugees nor quinine for fever sufferers. Doctor Zakatowsky, the woman surgeon in charge, said American relief was promised, but so far it had not come.

The only public gathering places opened seemed to be the moving-picture theater, which was crowded with young people and soldiers of the Budenny cavalry watching an utterly villainous Italian tragedy.

### GIRL LOVES WILD ANIMALS

This girl prefers wild animals for her playmates. She is Gladys Dittmars, seventeen-year-old daughter of Dr. Raymond Dittmars, curator of the Bronx zoo in New York. She knows every species in the zoo by their first and last names. The kinkajou and woodchuck are small enough to be real pets and they always can be found around Gladys, who makes a great fuss over them.

Nearly 55 Years a Teacher.

New York.—Miss Alice Elizabeth Cranfield retired as a teacher in the New York public schools after a continuous service of fifty-four years six months and sixteen days. When she was first employed her salary was \$182 a year. Her salary last year was \$1,820.

### Man Fights for Life With Wolf in St. Paul

St. Paul.—Arthur Laner, twenty-seven, appeared at city hall with a 60-pound gray wolf he killed with his bare hands, within the city limits. He was going home early in the morning when the wolf, which he first thought was a dog, sprang on him. Laner grasped it and bore it to the ground. Getting hold of its hind legs, he beat its brains out on the pavement.

## FLORIDA FERTILIZER RATES UNDER ATTACK

Tallahassee, Fla., April 24, 1922. The Railroad Commission of Florida, with its Counsel and Rate Expert will be represented in Atlanta on April 27, where the Interstate Commerce Commission will hear the complaint of the Blackshear Fertilizer Company of Blackshear, Ga.

In this case the Blackshear Fertilizer Company complains that the rates of the Atlantic Coast Line and its connections on fertilizer from Blackshear, Ga., to points in the State of Florida are unjust and unreasonable in and of themselves, and in violation of the Act to Regulate Commerce, approved Feb. 4, 1887, and acts amendatory thereof and supplementary thereto.

It is further alleged that the rates on fertilizer on intrastate traffic from Jacksonville to Florida points give undue and unreasonable preference and advantage of the city of Jacksonville, Fla., and subjects the complainant and the town of Blackshear, Ga., and the traffic moving therefrom to undue and unreasonable prejudice and disadvantage, in violation of the Act to Regulate Commerce.

It will readily be seen that this case involves in some degree the so-called Shreveport principle. In the Shreveport case it was alleged that the Texas intrastate rates gave undue and unreasonable preference and advantage to the shippers of Texas as against the interstate rates of the carriers from Shreveport, La., to Texas points. In this case the Commission found the preference and advantage to exist as alleged, and ordered the removal of the discrimination, which was accomplished by increasing the Texas intrastate rates.

Similar action in the Blackshear case would materially increase all rates on fertilizer in the State of Florida, and for that reason the Commissioners are attending this hearing for the purpose of showing that the interstate rates on fertilizer are too high.

The outcome of this case will be of considerable importance to the fertilizer manufacturers and users of this State.

We can't understand why jazz bands have so long overlooked the possibilities of the saw file.

## Mother Nature Makes Ferraline

Mother Nature is the greatest of physicians. For every ill to which men and women are heir she has provided a relief.

It is the hand of Nature that is alone responsible for the wonderful curative properties of FERRALINE. No man can successfully imitate it.

## FERRALINE

is a pure mineral product derived from the world famous earth that is found at Hatchatigbee Bluff, on the Tombigbee River. This earth is rich in iron, magnesium, calcium, sodium and other health giving elements. These elements are taken from the earth by filtering the purest of water through it. The water carries off all of the minerals in solution. FERRALINE has all the wondrous properties of the earth from which it is obtained. Nothing is lost. It contains no alcohol or habit forming drug. It is simply Nature's own remedy, made by Nature and delivered unchanged to you.

Our files are filled with letters from grateful users who have been restored to health by the use of FERRALINE.

Your druggist will tell you of the remarkable virtues that it possesses. If you are suffering from indigestion—if you are listless, run-down and unambitious—let Mother Nature bring you back to health through FERRALINE. If you are suffering from headaches and back pains caused by ill-functioning kidneys, or are suffering from the poisons thrown out by a liver not performing its duties properly, start on the road to returned health by taking FERRALINE.

**BOWLING LEAGUE NOTES**

**Rotary Club Loses**

Last night in a regular match, the Rotary Club lost their first game out of the last six, the Congregational boys walloping them with a nice majority of nearly four hundred pins.

Since the last publication of averages, there has been four games played which resulted as follows: Congregational defeated Kiwanis; Mens Club defeated Kiwanis; Rotary Club defeated Kiwanis and the Congregational defeated Rotary.

The Rotary Club and Mens Club are now tied for second place, with each of them one more game to go before the season closes. The Mens Club has a shade the best of it, as their last game is with the tail enders, while the Rotary has to battle with the Congregational Club. The results of these two games will decide who ends the season in second place.

The clubs now stand as follows:  
 Standing of the Clubs.

Club	W.	L.	Pct.
Congregational Club	12	3	.800
Rotary Club	7	8	.467
Mens Club	7	8	.467
Kiwanis Club	4	11	.267

**Individual Averages**  
 The individual averages, including the game last night, of the players who have participated in ten or more games, show very little change since the last publication, with the exception of Belding closing in on Bower. Each of these two will decide who is to be the league leader. Stvenson, of the Congregational Club is bowling the highest average now, but he has only played in six games and it is impossible now for him to play in the required ten in order to have his averages figured with the rest. This, however, doesn't keep him from being the best bowler.

The averages are as follows:

Player	G.	TP.	Ave
Bower, Kiwanis	39	6184	158
Belding, Cong.	45	7031	156
May, Mens Club	14	2071	147
Britt, Rotary	45	6400	142
Pennington, Cong.	42	5803	140
Anann, Mens Club	31	2955	139
Renaud, Cong.	40	5590	139
Betts, Mens Club	43	5931	137
Knight, Rotary	45	6145	136
Lloyd, Kiwanis	44	5950	135
Overlin, Mens Club	44	5974	135
Householder, Rotary	41	5333	130
Carter, Kiwanis	26	3375	129
R. E. Stevens, Rotary	32	4064	127
Bennett, Mens Club	42	5367	127
Bully, Cong.	33	4123	124
J. C. Smith, Kiwanis	40	4950	123
Dean, Rotary	13	1607	123

H. P. Smith, Kiwanis	15	1571	104

**HELPED HER MOTHER WONDERFULLY**  
 In these days of "flu," coughs, colds, croup and whooping cough, it is well to know that every year there are used more bottles of Foley's Honey and Tar than of any other cough medicine. Mrs. S. L. Hunt, 515 W. 6th St., Cincinnati, Ohio, writes: "Foley's Honey and Tar relieved me of a hacking cough, tickling in the throat, wheezing and pains in the chest. It is helping my mother wonderfully." That's why druggists recommend Foley's. Sold everywhere.—Adv.

**NOTICE!**

THE CITY REGISTRATION BOOKS ARE NOW OPEN AT THE CITY HALL AND WILL REMAIN OPEN UNTIL TUESDAY, MAY 2, 1922.  
 L. R. PHILIPS,  
 20-10tc City Registration Officer.

**NOTICE OF BOND ELECTION**

Whereas, The City Commission of the City of Sanford, Florida, on the 10th day of April, A. D. 1922, duly passed and adopted a certain ordinance entitled,

"An Ordinance Providing for an Issue of Bonds by the City of Sanford, Florida, in the sum of \$625,000.00 for Municipal Purposes; the Proceeds Derived from the Sale Thereof to be Used for Building and Constructing a Municipal Building, for the Extension of Park Avenue Northward into the Waters of Lake Monroe, for the Extension of the Drainage and Sewerage System, for Constructing, Paved, Macadamized or Other Hard Surfaced Streets, and for Funding and Paying the Outstanding Floating Indebtedness of the City of Sanford Evidenced by Vouchers Heretofore Issued, and Authorizing the Mayor of the City of Sanford, Florida, to call an Election to Determine the Question as to the Issuance of Said Bonds for the Aforesaid Purposes,"

and Whereas said ordinance provides for the issue of bonds by the City of Sanford, Florida, for municipal purposes in the total sum of \$625,000.00, the proceeds derived from the sale of said bonds to be expended in the following manner, to-wit:

\$15,000.00 for building and constructing a municipal building for housing the municipal library of the city.  
 \$67,000.00 for the extension of Park Avenue Northward into the waters of Lake Monroe to enable the public to avail themselves of the right of commerce and transportation afforded by water, and to furnish the means of access from the highway by land to the highway by water for the use of the public.  
 \$40,000.00 for the extension and enlargement of the drainage and sewerage system of the City.  
 \$48,000.00 for the construction of paved, macadamized and other hard surfaced streets in the City, and \$35,000.00 for funding and paying the outstanding floating indebtedness of the City of Sanford, Florida, evidenced by vouchers heretofore issued by the City of Sanford, Florida.

Said bonds to be of the denomination of One Thousand Dollars each, bearing interest at the rate of six per centum per annum, interest payable semi-annually on the 1st days of July and January, said bonds to be numbered consecutively from 1 to 625, both numbers inclusive, said bonds to mature in the following manner, to-wit: bonds to be numbered from 1 to 300, both numbers inclusive, to be serial bonds; the maturity dates of bonds of this issue to be numbered from 1 to 300, both inclusive, to be as follows, to-wit:

Bonds numbered from 1 to 30 to mature July 1st, 1925.  
 Bonds numbered from 31 to 60 to mature July 1st, 1926.  
 Bonds numbered from 61 to 90 to mature July 1st, 1927.  
 Bonds numbered from 91 to 120 to mature July 1st, 1928.  
 Bonds numbered from 121 to 150 to mature July 1st, 1929.  
 Bonds numbered from 151 to 180 to mature July 1st, 1930.  
 Bonds numbered from 181 to 210 to mature July 1st, 1931.  
 Bonds numbered from 211 to 240 to mature July 1st, 1932.  
 Bonds numbered from 241 to 270 to mature July 1st, 1933.  
 Bonds numbered from 271 to 300 to mature July 1st, 1934.  
 Bonds numbered from 301 to 625, both numbers inclusive, to bear the same date of maturity, bonds numbered from 301 to 625, both numbers inclusive, to mature 30 years after the date of the issuance thereof; this entire issue of bonds to be dated July 1st, 1922, both principal and interest of said bonds to be payable at some bank in the City of New York, State of New York.

Whereas, prior to the issue of the bonds above described, under the charter of the City of Sanford, Florida, the said ordinance proposing said issue of bonds must be approved by a majority vote of the electors of the City of Sanford, Florida, who are qualified to vote as shown by the registration and tax books of the City, at an election called and held for that purpose.

Therefore, I, C. E. Henry, as Mayor of the City of Sanford, Florida, under and by virtue of the authority in me vested by the ordinances of the City of Sanford, Florida, and we, C. E. Henry, S. O. Chase and Forest Lake, as Com-

missioners of the City of Sanford, Florida, comprising the City Commission of Sanford, Florida, do hereby call an election to be held in the City of Sanford, Florida, on the 17th day of May, A. D. 1922, to determine the question by said election then and there to be held, whether the said ordinance proposing said issue of bonds shall be adopted, approved and confirmed by the electors of said City, and whether the bonds provided for in said ordinance shall be issued by the City of Sanford, Florida, in the manner and for the purposes in said ordinance provided and set forth.

And I, C. E. Henry, as Mayor of the City of Sanford, Florida, and we, C. E. Henry, S. O. Chase and Forest Lake, as Commissioners, appoint H. E. Tolar, C. L. Britt and F. P. Rines, Inspectors of said election, and W. M. Haynes, as Clerk of said election.

The said election hereby ordered and called to be held on the said 17th day of May, A. D. 1922, shall be held and the ordinances and charter of the City of Sanford, Florida.

WITNESS the hands of C. E. Henry, as Mayor of the City of Sanford, Florida, and C. E. Henry, S. O. Chase and Forest Lake, as Commissioners, composing the City Commission of the City of Sanford, Florida, attested by L. R. Philips, Clerk of the City of Sanford, Florida, and the corporate seal of the City of Sanford, Florida, on this the 10th day of April, A. D. 1922.

CHAS. E. HENRY,  
 As Mayor of the City of Sanford, Florida.  
 CHAS. E. HENRY,  
 S. O. CHASE,  
 FOREST LAKE,  
 As the City Commission of the City of Sanford, Florida.

Attest:  
 L. R. PHILIPS, (SEAL)  
 City Clerk of the City of Sanford, Florida.  
 April 12-19-26; May 3-10-17.

**NOTICE OF ADMINISTRATOR (For Final Discharge)**

In court of County Judge, Seminole County, State of Florida  
 In re Estate of  
 W. T. Humphrey.  
 Notice is hereby given, to all whom it may concern, that on the 10th day of May, A. D. 1922, I shall apply to the Honorable E. F. Housholder, judge of said court, as Judge of Probate, for my final discharge as Administratrix of the estate of W. T. Humphrey, deceased, and that at the same time I will present to said Court my final accounts as Administratrix of said estate, and ask for their approval.  
 Dated March 7th, A. D. 1922.  
 ROSA L. HUMPHREY,  
 3-7-u.a.w-9wc Administratrix.

**NOTICE OF FINAL ACCOUNTING BY ADMINISTRATRIX**

Robert T. Humphrey, William L. Humphrey (sometimes known as L. H. Humphrey), and Rosa L. Humphrey, Complainants,  
 vs.
