

U.S. And State To Air Everglades Oil Question

TALLAHASSEE (AP) — Some of the troublesome questions about restrictions on drilling for oil in the Everglades National Park may be threshed out between the Florida Cabinet and the U. S. Department of the Interior.

The Interior Department owns and controls the park, which is a huge area in South Florida that was either given to the federal government by the state or bought with two million dollars furnished by the state.

Oil leasing and drilling is permitted on land bought with the state's money from private owners, but not on land which the state gave directly to the federal government.

The issue may come to a head as early as next Tuesday on a proposal by the Commonwealth Oil Co.

The company holds leases on 960 acres within the park boundaries. It acquired them from the state before the park was established, and can drill on them as it pleases.

But agents for the company claim they can't get their well on the 960 acres financed unless they get a contract with the state for lease of 34,000 adjacent acres if and when the federal government releases its restrictions on the larger area.

The federal government owns the 34,000 acres by deed from the state. Terms of the deed provide for the state to get a royalty of one-eighth of any oil produced on the land. They also provide that no new leases or changes in leases outstanding when the park was established shall be made without

mutual agreement between the state and federal governments.

The Interior Department has protested the contract between the oil company and the state.

So the board of trustees of the State Internal Improvement Fund Tuesday held up acceptance of Commonwealth Oil's bid of \$1,050 for the contract, plus a dollar an acre annual rent whenever a lease might be entered.

Cheating On Federal Operations Charged

WASHINGTON (AP) — An investigator testified today the government was defrauded of at least three million dollars by inclusion of sand and waste materials in flaxseed bought under price support programs. And he declared an Agriculture Department official squelched an order designed to halt the frauds.

The testimony came from Kirk Johnson, chief of the St. Paul Office of Investigation for the General Accounting Office (GAO), at a hearing before the Senate Agriculture Committee.

Johnson named George Prichard, chief of the Fats and Oils Branch of the Production and Marketing Administration (PMA) in Washington, as the man who vetoed an order aimed at tightening the program.

He said cheating had become so widespread during the 1948-49 flaxseed support programs that James A. Cole, regional director of the PMA Purchasing Office at Minneapolis, halted purchases and recommended tighter restrictions.

"Mr. Prichard told him to resume," Johnson added.

Prichard is to be a witness later in the hearings.

What was going on, Johnson said was this:

Some sellers of flaxseed to the government were dumping sand and other heavy waste materials into the bottoms of boxcars to run up the total weight.

Cut In Taxes

(Continued From Page One)
might have to consider a ban or limitation on nationwide bargaining. He said it's difficult to draw up a law dealing with that.

And, he said, he is not himself suggesting any such law.

At the moment, the senator said, he believes President Truman should invoke the Taft-Hartley Law in the steel strike.

The fiscal situation

The basic question the country and Congress have to face today, Taft told the business editors, is the fiscal situation.

"We have a tremendous budget that imposes tremendous burdens," he said. "I think it is inconsistent with the continued existence of a free economy if it goes on."

There is no psychology of war, no psychology of sacrifice in evidence now, the senator said, yet the country is asked to spend \$5 billion dollars in the year beginning July 1.

In 1948, Taft went on, the federal government cost 6 per cent of the income of the people, whereas the \$3 billion program that President Truman wants for the year ahead would cost 29 per cent. State and local governments, he said, would cost another 7 or 8 per cent.

In contrast, Taft said, he has seen analyses by economists that arrive at the general figure of 25 per cent of income as "about the limit you can take from people for government."

Great Britain is taking about 40 per cent, the senator said, and the result is a bogging down of the program and even Mr. Churchill seems unable to pull them back from a socialist state.

On actual proposals for trimming government spending, Taft saw himself and Gen. Dwight D. Eisenhower, his leader, "at the Republican north," as not too far apart.

While Eisenhower was quoted once as saying about a 40 billion dollar cut in taxes, Taft said, it seems he meant a 40 billion slash in spending instead.

The issue in cutting spending, Taft said, lies in "this tremendous

Don't be a press headline! Newspapers these summer days are filled with stories of water tragedies, involving non-swimmers who ignored the basic safety rule of avoiding unknown waters until they could swim well. You can enjoy the pleasures of water sports simply by playing safe. And a good way to play safely is to join a Red Cross life-saving class. Commander Gibbs Again Assigned To Sanford Station

The newly appointed skipper of Fighter Squadron 34, Lt. Comdr. Harry B. Gibbs, has returned to the Naval Auxiliary Air Station, Sanford, Florida, for the second time in his Naval career.

Formerly of Wheeling, West Virginia, Lt. Comdr. Gibbs was first stationed here during World War II from 1945 to early in 1946.

Lt. Comdr. Gibbs just recently relieved Lt. Comdr. R. A. Sweat of his duties as skipper of VF 34, as a Lt. Gibbs result of the latter being transferred to the Commander, Fleet Air Force in Norfolk, Virginia.

After graduating from the Naval Air Cadet Program in Pensacola, Florida, he was shipped to the Pacific where he operated aboard the USS Yorktown. Returning from one of his many missions, Lt. Comdr. Gibbs arrived just in time to see the "Big Y" going down, after being hit by the enemy. For his outstanding service during the last war, he was awarded the Distinguished Flying Cross, the Navy Cross, and an Air Medal.

Prior to his job as skipper of VF 34, he served as the squadron Executive Officer for 14 months.

His wife and two daughters are presently residing here in Sanford with him. Both of his daughters were born in this city during his last tour of duty at the Naval Air Station.

Helping him with his duties as head of Fighting 34 is Lt. Comdr. Haskell E. Toll, the present Executive Officer.

VF 34 was originally Fighter Squadron 20 of World War II fame. Early in 1945, VF 20 was reformed to make up Fighting 9 Able which also distinguished itself during the last war.

From Fighter Squadron 9 Able to VF 91 in 1948, and as a result of another change, the squadron became the present Fighter Squadron 34.

Steel Strike

(Continued From Page One)
on aimed at making arrangements for reopening some plants under a special union management agreement to produce steel for the most vitally needed munitions. Government officials said "considerable progress" had been made and some definite announcement might come later in the day.

3. There were signs the House might go along with the Senate and vote to request that President Truman use emergency provisions of the Taft-Hartley Law in an effort to get the mills reopened. The law permits the government to seek a court order, good for 90 days, against a strike which creates a national emergency. No House vote was expected before Thursday.

4. The House Labor Committee voted that the Wage Stabilization Board (WSB) should be abolished. The board has been under congressional fire for its recommendations in the steel case, particularly its proposal for a union shop — one requiring all steelworkers to join the union.

Putnam said that what steel price increases should be allowed is something that cannot be settled until management reaches a contract agreement with the union and brings to stabilization officials its reasons for a price boost.

* This is the local delivered price for the Buick SPECIAL 2-door, 6-passenger Sedan MODEL 40D (Illustrated)

Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities due to shipping charges. All prices subject to change without notice.

We put the price of this Buick in big type because we're proud of it.

It's the price of the six-passenger, two-door SPECIAL—ready to roll.

When you put this price against the local delivered prices of other cars that folks usually associate with Buick—you'll have a hard time finding a single one as low.

When you put this price against what you'll pay for cars with the reputation of being "lower priced"—you'll find why this Buick gives them such keen competition.

And—if you want to go in for extras—you can still add up what goes on the bill of sale of other cars and a Buick—you'll find out that Buick's an even greater buy.

We know that price is important to a lot of folks, especially with the price of groceries—and even baby shoes—where they are today. But you also want some fun for your money—and that's where a Buick really shines.

Just wait till you give a gentle nudge to the power that's under that big, broad hood and feel your shoulders sink back as this beauty takes off.

You'll feel like the million dollars it cost to perfect its ride, when you sample the steady smoothness of its gait.

It's eager, alert, alive—makes each mile a new experience.

Want to try it? Why not? We're willing to let this beautiful bundle of high-powered energy speak for itself.

Equipment, accessories, trim and models are subject to change without notice.

Save it true for '52

Howard Beffa Named Shrine Imperial Head

New Potentate Given New Car And Cake Weighing Two Tons Honoring Birthday

MIAMI — Harvey A. Beffa, St. Louis, was elected imperial potentate of the Ancient Arabic Order Nobles of the Mystic Shrine today on his 52nd birthday.

He was given a new car by members of Shrine Temple 51, St. Louis, and a cake weighing more than two tons by delegates attending the Shrine's 77th annual national convention.

Beffa succeeds Robert Gardner Wilson Jr., Boston, moving up from deputy imperial potentate according to Shrine custom. Other present officers also moved up a notch.

Immediately after Beffa's formal election by the Imperial Council Shrine members put on a colorful pageant showing highlights in the life of the new imperial potentate.

Then Beffa stepped outside Hayfork Park Auditorium and cut the first slice of the 4,865-pound cake. Selection officers highlighted today's business session. It will be followed by a mammoth 5-hour parade ending in the Orange Bowl tonight.

The only contest was for imperial outer guard, at the bottom of the list of officers. Voting was still in progress for this office.

Beffa cut the first slice outside Hayfork Park Auditorium and after those present had a piece the cake was hauled around the streets and helpings given to all comers.

Vic Roma, Miami, who baked the cake, claimed it was the biggest ever. It weighed 4,865 pounds, 20 feet long and 7 1/2 feet wide.

The cake was white, topped with a giant red flag of frosting which alone weighed 1,000 pounds. A black tassel of frosting tipped the beam at 120 pounds.

For the cake, Roma used 8,000 eggs, 945 pounds of sugar, 750 pounds of butter, 150 pounds of shortening, 150 pounds of butter, 140 pounds of milk, 60 pounds of vanilla powder, 25 pounds of salt and 2 1/2 gallons of vanilla.

Interest in the cake was high. More than 1,200 pounds of powdered sugar, 400 pounds of butter, 35 gallons of milk, 16 pounds of salt and 1 1/2 gallons of vanilla.

Jones

Lt. Clarence R. Jones, Jr., son of Mr. and Mrs. Clarence R. Jones, 309 West Fifth Street, has been commissioned a Second Lieutenant, Artillery, after completing 22 weeks of training at the Air-Cadet School at Fort Benning, Ga. He was a member of the third class to be graduated from the school. Following his graduation from the Officer Candidate School, Lt. Jones was assigned to the Medical Field Service School, Brook Army Medical Center, Fort Sam Houston, Tex.

U. S. Will End Up Fiscally Better Off By 3 Billion

Better Showing Still Leaves Nation Deep In Deficit Position

WASHINGTON — The government is going to wind up its year two to three billion dollars better off than it expected. But it still will be deep in the red.

Government experts, speaking privately, said today the deficit—the amount by which the government overpays its income—is likely to be less than \$4 billion when the fiscal year ends June 30, 1952, as low as \$1.4 billion.

President Truman, in his budget message last January, figured the government would go in the hole by \$2,200,000,000.

The President estimated total spending would jump 50 per cent above last year due to a huge expansion in rearming the U. S. and friendly foreign countries. But the military expansion hasn't taken place on that scale.

Officials say any spending will fall at least 2 1/2 billion, and possibly more than four billion, below Mr. Truman's \$70,000,000,000 estimate.

Whatever its effect on Western defenses, this dropoff will much more than compensate for a depletion of revenues below the expected total.

Taxes are up—ans who doesn't know?—but they look like falling some \$1 1/2 billion dollars short of the \$62,700,000,000 Mr. Truman budgeted.

On the spending side, slower-than-expected military deliveries are likely to continue and to keep outlays for the year beginning July 1 below the \$5,400,000,000 level aimed at by the President. Congress may trim that further by cutting appropriations.

Even if the government goes six billions in the red this year, it will be ahead for the postwar period. Taking the 6-year outcome as a whole, federal income will have exceeded outlays 1 1/2 billion. For the fiscal years 1947-51, there was a cumulative surplus of 7 1/2 billion.

Steel Allocation For Florida Bridge Work Is Increased

TALLAHASSEE — Florida has received an allotment of 25 per cent increase in its steel allocation for bridge and road building.

Freeman Seay, engineer of construction for the State Road Department, said the increase in steel allocation today on his return from Washington where he discussed the state's steel needs with the U. S. Bureau of Public Roads.

Seay said Florida has been allocated 8,156 tons of bridge steel for the fourth quarter of 1952, an increase of 1,811 tons over the allotment for the third quarter.

The steel allocation will meet the state's needs for the year on the two major projects now underway, the Jacksonville Expressway and the Lower Tampa Bay Bridge.

It also will provide any steel that might be needed in the latter end of the year on the Southeast 17th Street Bridge in Fort Lauderdale, first unit in to be constructed in the proposed Broward County bridge and tunnel project.

Seay stressed, however, that while the state's situation is "favorable on paper," there is a question of whether the steel actually can be obtained.

"Whether we can get delivery of the steel will depend on settlement of the steel strike," he said.

Jury Asks Warren To Re-instate Spicola

TAMPA — The 6-man jury which heard the case of a suspended justice of the peace and his chief clerk asked Gov. Warren to put the ousted official back in office.

Joseph G. Spicola, who was removed by Warren, was cleared of 11 charges of extortion, embezzlement and conspiracy upon order of Circuit Judge Truman G. Futch.

Then Judge Futch ordered a verdict of acquittal on 10 of the same counts for A. S. (Shorty) Millan, Spicola's chief clerk. The jury freed Millan on the remaining count after deliberating only 10 minutes.

In its telegram to the governor, the jurors said "We feel an injustice has been done this man." Spicola and Millan were charged with taking money from defendants to fix cases in justice of the peace court.

It is believed a powerful political figure in Hillsborough County, in the 1948 Democratic primary, he received more votes than any other candidate in the county.

Sanford Herald Vacation-Pack

No matter how far away from home you may go your vacation you can readily catch up on the home town news by reading the Sanford Herald when you return. You can arrange with your carrier, bus, or through Charlie Morrison, circulation manager, by telephoning 144, to have your regular issues of the Herald saved for you while you are away, to be delivered to your home in Mississippi or wherever you return. There is no extra charge. The regular weekly subscription rate will include all regular services to this additional service. Before leaving on your vacation, simply call your carrier or telephone the circulation department.

Living Costs Move Upward To 1952 High

Government Index Is Now 189 Percent Of 1935-39 Average; Rents And Food Up

WASHINGTON — The government's latest cost-of-living barometer moved up today under pressure of rising food and rent costs to within 1 1/2 per cent of the record high reached last January.

The living cost index, measuring prices of food, clothing, shelter and a host of other things climbed during the month ending May 15 two-tenths of one per cent to 189 per cent of the 1935-39 average. That is 4 1/2 per cent over the mark of 18 months ago when price and wage controls took effect. The peak figure last January was 192.1.

A million and a quarter rail workers will get an automatic 2 cent hourly wage boost as a result of the latest increase in living costs. Their work contract ties wages to the cost-of-living index and adjustments are made each three months.

Another 100,000 wage earners in textiles, aircraft and oil refining industries also get at least a one-cent boost.

Leading the over-all living cost rise was a boost of four-tenths of 1 per cent in rent across the country. The price of food at the grocery store moved up three-tenths of 1 per cent.

But the price of clothing, of fuel and electricity and of house furnishings all dropped fractionally.

Although prices on most items have climbed, Office of Price Stabilization (OPS) officials announced Wednesday ceilings would be suspended this week and on bottled whisky and on winter clothing. They have been selling for months below ceiling levels.

The price drop in these items was attributed to big stocks and lagging sales. The decline in sales has been sharp since a new federal tax went into effect.

Academic Liberty Power Company Defended By Dean To Move Location At Jaycee Meet During Weekend

Group Announces Bar-Formal Opening Will Be Held At Country Club Friday Night

Speaking at the Junior Chamber of Commerce luncheon today, Hols Dean, a student at Yale University, spoke on the subject "A Reply to Buckley", in which he defended American colleges and universities against the charge that they are "infested" with communists and failing in their duty to inculcate the basic principles of Americanism.

Introduced by T. E. Tucker, program chairman, Mr. Dean said that the Buckley book, entitled "God and Man at Yale", attacked the "superstitions of academic freedom" and urged the establishment of an official orthodoxy of Americanism to prevent the teaching of un-American ideas by university professors.

Mr. Dean denied that there is an orthodox "American" creed and said that Buckley's proposal "does not correspond with the one belief which deserves to name American, the belief in the free formation and expression of individual conviction."

The American way of life, Mr. Dean said, cannot be propagated by the university since it consists, so far as education is concerned, in the presentation of a variety of points of view, a variety of opinions, a variety of non-nephotical attitudes, from which the individual student is to make his own selection, but in "a religious, economic and political dogmas."

Mr. Dean concluded with the assertion that the real danger to liberty is not so much "the worst and full of passionate intensity, but that the best lack all conviction." He added: "I am not a Communist."

Blood Donations Day To Be Held At Navy Air Station

Armed Forces Blood Donor Day will be observed Tuesday at the Sanford Naval Auxiliary Air Station, and Navy wives headed by Mrs. J. L. Chittenden will serve as voluntary workers for the blood donation program which is sponsored by the Reminco Chapter of the American Red Cross, Mrs. Velma Gonzalez, executive secretary, announced today.

Lt. J. R. Miller will be in charge of recruitment of donors. The volunteer group will include staff aides, nurses and enlisted workers. Wives of officers of Squadron No. 85 will donate cookies and other refreshments. All other supplies will be donated by the Navy.

Thomas Stringer, chapter safety chairman, is conducting Junior and senior lifesaving classes at the Municipal Pool Tuesday through Friday of each week at from 9:00 to 11:00 a.m. Those completing the course will be eligible to receive Red Cross lifesaving certificates. Those desiring to register for the course are advised to telephone Red Cross headquarters.

The annual meeting of the Chapter will be held next Thursday night at 8:00 o'clock at the Youth Club.

Chases Re-elected In Shippers League

ORLANDO — Directors of the Growers and Shippers League of Florida Wednesday re-elected R. D. Keene, Winter Garden, president for a 14th term at the league's 20th annual meeting here.

Gordon Stedman, Orlando, was reappointed secretary; manager Randall Chase, Sanford, elected elected first vice president; Phil C. Peters, Winter Garden, elected second vice president, succeeding Fred W. Davis, Tampa; J. C. Hutchison, Sanford, elected third vice president, a new post; S. G. Chase Jr., Sanford, re-elected treasurer.

Stedman recommended that a study be made of the entire ratification on fresh citrus fruit in bringing it down to a more reasonable, workable and practical basis and that "our every effort be expended to defeat any legislation proposed to Congress that would in any way restrict the transportation facilities we now have."

Increase Reported In Polio Sickness By Health Service

WASHINGTON — The Public Health Service today reported an 18 per cent increase in infantile paralysis cases so far this year.

The number of cases last week was 83 per cent above the same week one year ago.

The report listed 290 cases of infantile paralysis last week, compared with 218 in the preceding week and 102 cases in the similar week a year ago.

The 5-year (1947-51) median for the week was 236 cases.

The service said California and Texas have been reporting about half of all the cases in the nation since the "disease year" started with the week ended April 5.

For this "disease year" the service listed 2,850 cases, compared with 2,377 in this date a year ago. Texas had 103 cases last week and California 40.

Eight states and Hawaii have had significantly more cases of poliomyelitis this year than last, the service said. They are Ohio, 24 cases this year and six up in this time a year ago; Iowa, 30 and 9; Missouri, 15 and 8; Florida, 12 and 5; Mississippi, 8 and 1; Louisiana, 8 and 6; Texas, 47 and 27; California, 202 and 108; and Hawaii, 30 and 1.

Kefauver In Capital Campaign

DOING SOME STREET CAMPAIGNING before the District of Columbia's Democratic Presidential primary, Sen. Estes Kefauver (Tenn.) stops to chat with Mrs. Eugene Archuleta and her daughter, Rita Kefauver, who was opposed in the primary by W. Averell Harriman, Mutual Security Director. Taft And Ike To Cut Taxes If Victorious

Kefauver Confident Of Victory Next Month, Denounces Isolationist GOP

By The Associated Press

The top contenders for presidential nomination were on record today to cut taxes if elected. The Democratic front runner, President Truman, said isolationism would dominate their part of either gets to the White House.

Taxes were a topic in talks Wednesday by Ohio Sen. Robert Taft and Gen. Dwight Eisenhower, running one-two in the race for Republican presidential nomination.

They, in turn, were a topic in an address by Sen. Estes Kefauver of Tennessee, who has more delegate votes lined up than any of his rivals going into the Democratic presidential nominating convention.

In Denver, Eisenhower told Oregon's GOP convention delegates he would advance the national interest if he were President. This, plus the fact that the Allies are an militarily strong as Russia, would make tax reduction possible, he said. He estimated the amount that would come from a "steady shrinkage" in the tax load.

Taft, in a Washington speech, said that if he becomes President he will seek a straight 15 per cent cut in taxes and a 25 billion dollar cut in federal spending.

Academic Liberty Power Company Defended By Dean To Move Location At Jaycee Meet During Weekend

Speaking at the Junior Chamber of Commerce luncheon today, Hols Dean, a student at Yale University, spoke on the subject "A Reply to Buckley", in which he defended American colleges and universities against the charge that they are "infested" with communists and failing in their duty to inculcate the basic principles of Americanism.

Mr. Dean concluded with the assertion that the real danger to liberty is not so much "the worst and full of passionate intensity, but that the best lack all conviction." He added: "I am not a Communist."

Chases Re-elected In Shippers League

ORLANDO — Directors of the Growers and Shippers League of Florida Wednesday re-elected R. D. Keene, Winter Garden, president for a 14th term at the league's 20th annual meeting here.

Gordon Stedman, Orlando, was reappointed secretary; manager Randall Chase, Sanford, elected elected first vice president; Phil C. Peters, Winter Garden, elected second vice president, succeeding Fred W. Davis, Tampa; J. C. Hutchison, Sanford, elected third vice president, a new post; S. G. Chase Jr., Sanford, re-elected treasurer.

Stedman recommended that a study be made of the entire ratification on fresh citrus fruit in bringing it down to a more reasonable, workable and practical basis and that "our every effort be expended to defeat any legislation proposed to Congress that would in any way restrict the transportation facilities we now have."

Increase Reported In Polio Sickness By Health Service

WASHINGTON — The Public Health Service today reported an 18 per cent increase in infantile paralysis cases so far this year.

The number of cases last week was 83 per cent above the same week one year ago.

The report listed 290 cases of infantile paralysis last week, compared with 218 in the preceding week and 102 cases in the similar week a year ago.

The 5-year (1947-51) median for the week was 236 cases.

The service said California and Texas have been reporting about half of all the cases in the nation since the "disease year" started with the week ended April 5.

For this "disease year" the service listed 2,850 cases, compared with 2,377 in this date a year ago. Texas had 103 cases last week and California 40.

Eight states and Hawaii have had significantly more cases of poliomyelitis this year than last, the service said. They are Ohio, 24 cases this year and six up in this time a year ago; Iowa, 30 and 9; Missouri, 15 and 8; Florida, 12 and 5; Mississippi, 8 and 1; Louisiana, 8 and 6; Texas, 47 and 27; California, 202 and 108; and Hawaii, 30 and 1.

In World War II, GABRESKI shot down 11 German planes and destroyed 34 on the ground during 766 combat missions. (International Soundphoto)

Academic Liberty Power Company Defended By Dean To Move Location At Jaycee Meet During Weekend

Speaking at the Junior Chamber of Commerce luncheon today, Hols Dean, a student at Yale University, spoke on the subject "A Reply to Buckley", in which he defended American colleges and universities against the charge that they are "infested" with communists and failing in their duty to inculcate the basic principles of Americanism.

Introduced by T. E. Tucker, program chairman, Mr. Dean said that the Buckley book, entitled "God and Man at Yale", attacked the "superstitions of academic freedom" and urged the establishment of an official orthodoxy of Americanism to prevent the teaching of un-American ideas by university professors.

Mr. Dean denied that there is an orthodox "American" creed and said that Buckley's proposal "does not correspond with the one belief which deserves to name American, the belief in the free formation and expression of individual conviction."

The American way of life, Mr. Dean said, cannot be propagated by the university since it consists, so far as education is concerned, in the presentation of a variety of points of view, a variety of opinions, a variety of non-nephotical attitudes, from which the individual student is to make his own selection, but in "a religious, economic and political dogmas."

Mr. Dean concluded with the assertion that the real danger to liberty is not so much "the worst and full of passionate intensity, but that the best lack all conviction." He added: "I am not a Communist."

President Truman Says No Democrat Can Reduce Taxes

Acc Back In U. S.

By The Associated Press

The top contenders for presidential nomination were on record today to cut taxes if elected. The Democratic front runner, President Truman, said isolationism would dominate their part of either gets to the White House.

Taxes were a topic in talks Wednesday by Ohio Sen. Robert Taft and Gen. Dwight Eisenhower, running one-two in the race for Republican presidential nomination.

They, in turn, were a topic in an address by Sen. Estes Kefauver of Tennessee, who has more delegate votes lined up than any of his rivals going into the Democratic presidential nominating convention.

In Denver, Eisenhower told Oregon's GOP convention delegates he would advance the national interest if he were President. This, plus the fact that the Allies are an militarily strong as Russia, would make tax reduction possible, he said. He estimated the amount that would come from a "steady shrinkage" in the tax load.

Taft, in a Washington speech, said that if he becomes President he will seek a straight 15 per cent cut in taxes and a 25 billion dollar cut in federal spending.

THURSDAY, JUNE 19, 1952

TODAY'S BIBLE VERSE
Twenty-five hundred years after
Isaiah died his prophecy is
taking form. At long last God has
his way. Instead of the thorn shall
come up the fir tree.—Is. 55:13.

How an unnamed Swedish plane
can shoot first is a problem only
the Russians can solve.

Smoke-filled rooms shouldn't be
too hazardous at the national con-
ventions about to pop. For the first
time, we hear, the place will be air
conditioned—with the cool variety,
we hope.

What is so rare as a day in
June? Well, a day in June is won-
derful to look at but not so good
to feel when the thermometer gets
to 96 and the humidity about a
million.

Vacations are supposed to be
welcome interludes. But by the time
the woman of the house gets every-
thing and everybody ready to go
away she usually feels like quietly
collapsing and taking a vacation
from the vacation.

The Baptists of Lakeland have
taken a fine step in establishing a
\$3300 Seminole Indian mission
between Brighton and Lake Okre-
chobee. Whatever the people of
Florida can do for these distressed
people is little enough in light of
the debt which we owe them.

Sanford friends of Earle Kipp,
former principal of the Sanford
Grammar School, and Junior High
School, will be glad to learn that
he has been promoted to principal
of the new Boone High School in
Orlando. Mr. Kipp is a graduate
of Seminole High School, and the
University of Florida and began
his school work in Sanford. He
moved to Orlando in 1945 where
he has achieved outstanding distinction.

President Truman is the answer
to Harlem's prayer as far as the
Democratic convention is concern-
ed. "It is interesting to note," says
the Tampa Tribune, "that only one
of the avowed candidates for Pres-
ident stands with President Truman
in his implacable demand (for civil
rights legislation)—Averell Harri-
man. Truman is practically alone
in his headstrong declaration for
going all the way." It is not that
the other candidates are against
civil rights; it is only that they
realize you can't abolish prejudice
by legislation.

The United States has given
away or loaned over \$40,000,000,
000 as of the end of this month,
a recent survey has disclosed. This
is about \$256 for every man, woman
and child in America. We wonder
how much money we would have
raised for this purpose if we had
passed the hat around. We wonder
too how much of it was spent for
the purpose for which it was
intended, and how much of it
was stolen, or lost through graft
and wasted through red tape. Prob-
ably it has saved the lives of the
Europeans, but we wonder how
long we can keep it up, and what
will happen when we cut it off.

These are the days when every-
one goes fan-happy, when every-
one breathes copiously in quest of
the future breath of air by pur-
chasing fans in case quantities
and the atmosphere becomes so
thick and sticky that one is re-
minded of a couple of jet planes
suffering from bronchitis. Our ef-
fort has just been invaded by this
fog and as of the moment we
have an assortment of circulating
rumors that do more things to us
than you would think it pos-
sible to do to the air. We have fan
fever. It is, fans to take it out
of us. The warm climate and the
hot ceiling and come the fans to
cool the ceiling. We have fan
fever. It is, fans to take it out
of us.

War — There is no new note
of urgency to be detected in his
warning about new Korea, anti-
aircraft defenses and statements that
the international situation is very
serious.

Industrial Frontier

It is often difficult for the average American to realize that this is still the land of opportunity, that the geographic frontier has been replaced by the industrial frontier. The case of the synthetic textile industry is an example of the new opportunities being created by American industrial genius.

This industry, which began to boom after the last war, is being carried on in 50 plants, owned by 28 different companies. Sales of man-made fibers are advancing above the billion-dollar-a-year mark, and the industry is new and growing industry already amount to more than \$250,000,000 annually.

These synthetic textiles, fabricated in the laboratories from oil refinery products, are being put to new uses every day. Already they are being used to make shoes, gloves, imitation-fur coats, handbags, bathing suits, raincoats, lamp shades, belts, shoes, hats, and umbrellas. The fabrics produce fashionable products, superior in many respects to conventional materials. In men's suits they are found to be wrinkle-proof, able to withstand rainstorms without losing press.

Originating in chemical companies, where they are blended from distasteful-looking and foul-smelling petroleum, these fibers are sold to textile mills, which weave them into cloth, which in turn is sold to manufacturers who use them in making the final product. New types of plants had to be built to accommodate this industry and new machines had to be devised. Workers had to develop new skills.

Thus has technology given America a new and thriving business which will undoubtedly grow for many years, creating new jobs and a new source of dollars for American business.

Books For Children

The country's largest library has no collection of children's books. This surprising discovery was made by Mrs. Frances Clarke Sayers, retiring as head of work with children in the New York Public Library. There are plenty of children's books in the Library of Congress, the nation's largest collection, but they are mostly intermingled with those for adults. The juveniles should be put by themselves.

The idea is not to have children use them directly, but to make the book resources of the Library of Congress available for writers of children's literature, or for librarians of other institutions who might seek to enlarge their own collections. Makers of television programs might also gain inspiration.

There is danger nowadays that children will neglect reading of good literature for comic books or television programs of an inferior character. Parents should see that their offspring have good books available, within their range of interest. Advice on this score is readily obtainable from the local library.

Night Driving Hazard

Most drivers know how dangerous it can be to fail to dim headlights when another car is approaching in the opposite direction. Police and safety groups warn, however, that keeping headlights high when behind a car going in the same direction can have the same blinding effect on the other driver.

Failing to dim headlights when needed is not only rude and inconsiderate but can be fatal. Cars traveling at the legal maximum speed can go out of control in a matter of a few feet and a driver blinded by headlights from another car may have a hard time regaining control.

The business of staying alive on the highways calls for concentration, consideration and a little ordinary politeness. It takes only an instant to dim headlights. The driver who doesn't may have a long time in a hospital to regret that he didn't.

Truman Taxes

(Continued From Page One)
use of the law as "purely per-
missive," as a reporter put it,
rather than mandatory.

And he commented that he is
pretty hard to force when he does
n't want to do anything and pretty
hard to hold back when he wants
to do something.

"If steel production is so es-
sential," a questioner inquired,
"why don't you take the 80 days
Taft-Hartley injunction would
provide?"

Ninety-nine days have been used
already, Mr. Truman replied and
80 more would just prolong the
agony.

One reporter said, "You'd get
production for 80 days."
Mr. Truman snapped: How do
you know that?

When asked whether he was im-
plying that steelworkers would not
obey an injunction, Mr. Truman
said, sure. He said they did obey
seizure.

The conference was largely po-
litical and produced at least a
nod in the direction of Averell
Harriman, one of the Democratic
presidential hopefuls. Mr. Truman
said Harriman's victory in the Dis-
trict of Columbia primary Tuesday
couldn't be anything else than
what a reporter termed a "clear-
cut victory for the New Deal-Fair
deal."

But Mr. Truman repeated that
he doesn't intend to express him-
self on a Democratic candidate
until the national convention meets
and probably not until after the
nomination is made.

On other subjects Mr. Truman
had this to say:
Reorganization — His proposals
to put postmasters, U. S. marshals
and customs officials under Civil
Service, rejected Wednesday by
the Senate, should have been al-
lowed to stand.

Taft And Ike

(Continued From Page One)
from 85 to 60 billions — within
two years.

Talking to CIO Communications
Workers in Cleveland, Kefauver
said:

"No matter what Republican is
in the White House, the Republican
isolationists will dominate the
party."

Kefauver said Taft and Eisen-
hower may agree on foreign pol-
icy, but he said he doubts Eisen-
hower shares "the isolationist sen-
timents of most of the leaders of
his party." He added: "I don't
think that will do Gen. Eisenhower
much good."

The Tennessee told newsmen
earlier he is confident of winning
the presidential nomination at the
Democratic convention July 21 in
Chicago. Perhaps on the first bal-
lot, he said, but more likely on
the fifth or sixth.

But Averell Harriman, who beat
Kefauver about 4-to-1 in the Dis-
trict of Columbia's primary Tues-
day, predicted just as confidently:
"I will win the nomination."

Democratic nomination requires
610 delegate votes. The Associated
Press pre-convention tally gives
260 to Kefauver, Sen. Richard Ru-
sell is in second spot with 114, H.
followed by Harriman's 91.

Taft's nation-wide total of 466
is tops in the Associated Press Re-
publican score sheet. Eisenhower
has 223. Nomination at the GOP
convention July 7 in Chicago calls
for 604.

The last 10 GOP delegates will
be named in Illinois Monday at a
Springfield convention. All are ex-
pected to go for Taft, although
Eisenhower forces are seeking an
even split.

Utah's 14 delegates Wednesday
signed a letter reaffirming their
support of Taft. The action was
aimed at quieting a campaign
stirred by GOP State Chairman A.
Frait Kessler's comment that six
of the group might back Eisen-
hower on the second ballot.

The Utah delegation, officially
unpledged but avowedly pro-Taft,
voted Eisenhower at Denver
Tuesday. Kessler's statement fol-
lowed that meeting.

The Republican National Com-
mittee, meanwhile, is scheduled to
hold hearings starting July 1 in
Chicago on formal charges level-
ing 72 delegates in Texas and six
other states. This formidable total
could swing a tight nomination
race either way.

Taft the Eisenhower backers
this week are demanding the
nomination be held on the spot
convention.

MONTH OF ROSES

Taft Eisenhower's camp said all
28 were elected from the state at
large, meaning all 28 contests re-
quired settlement on the national
level.

The GOP National Committee
Wednesday upheld this latter view-
point. A few hours earlier, Taft
himself said he thought the Texas
case should go to the convention for
settlement.

The 34 other at-large delegate
disputes, to be acted upon by the
National Committee, involve 18 in
Florida, six in Louisiana, four each
in Georgia and Mississippi and one
each in Missouri and Kansas.

Guam is the largest of the Mar-
iana Islands and is 1,600 miles
east of Manila.

**Catching Turtles
In Shallow Water
Is Ruled Illegal**

TALLAHASSEE — The "un-
sportsmanlike" hunter who can
capture a green or loggerhead turtle
during the breeding season while
it is relatively helpless in shallow
water is violating Florida law.

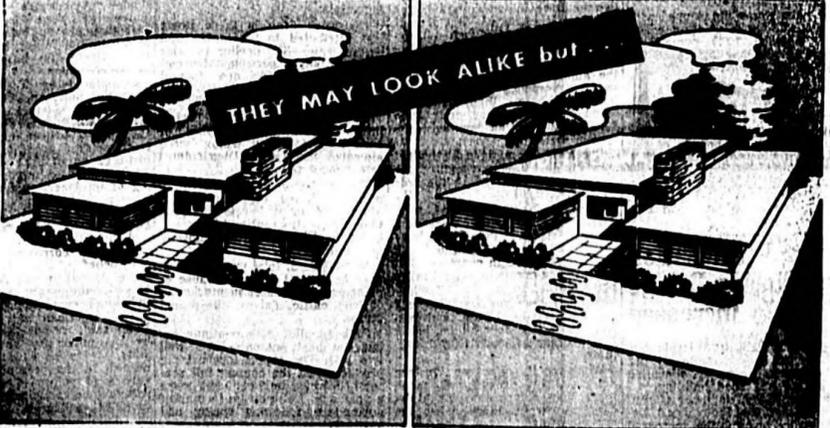

Atty. Gen. Richard Ervin said
today the law prohibits taking log-
gerheads in the water or on the
beach in May, June, July and
August.

Answering a query from Bre-
vard County Prosecuting Attorney
A. Max Brewer, the attorney gen-
eral said:

"While in water deep enough
in which to swim, these turtles
are not easy to catch or kill. While
on shore they are slow, lumbering

GAS made the difference**

A GAS outfit was specified
and installed parallel with the
electric outfit at the time of
construction by a far-sighted
architect. This long range per-
spective resulted in increased
resale value of the house be-
cause not only did it afford a
choice of fuel services, it per-
mitted installation of the con-
struction equipment on the origi-
nal budget plan.

For this flexible, fast-recovery
fuel never fails under adverse
weather conditions... operates
efficiently and economically
year in and year out.

So remember... specify GAS
outlets at time of construction
for modern comfort and maxi-
mum value. It's your dollars
's worth spending.

At the time this factor
of service was factored the
cost of the house by affording
maximum value for dollars in-
vested.

Further... GAS makes your
home comfortable and bright
according to your needs. Call
GAS INSTITUTE CENTRAL FLORIDA
for a free literature.

and... almost helpless.
"They seldom ever come out of
the water on to shore except dur-
ing the months that they custom-
arily lay eggs."
It should be obvious, Ervin said,
that any interpretation of the law
which "would allow a person to
take, seize or destroy these turtles
as soon as they first entered the
water or immediately preceding
their emergence from the water"

Woman's Club Group Honored At Party

Mrs. B. B. Crumley, immediate past president of the Sanford Woman's Club, entertained yesterday at 10:00 a.m. with a card party and luncheon honoring members of the club who served with her for the past two years. Various summer flowers were used in decorating the rooms of the Crumley home on Silver Lake.

Samba was enjoyed by the guests and at the conclusion of the games, prizes were won by Mrs. E. C. Harper and Mrs. George Wells. A delicious luncheon was served at noon.

Those enjoying the party were Mrs. P. T. Meriwether, Mrs. Ben F. Wade, Mrs. Francis Bolt, Mrs. Howard Montleth, Mrs. W. B. Ellerbe, Mrs. Harper, Mrs. Wells, Mrs. C. E. Carlton, Mrs. Robert W. Williams, Mrs. Miriam Russell, Mrs. C. M. Flowers, Mrs. Ralph Austin Smith, Mrs. Brodie Williams, Mrs. John Eick and the hostess.

Party Given For Miss Betty Cagle

Mrs. J. A. Raer entertained on Monday night at 8:00 o'clock honoring Miss Betty Cagle. The party was in the form of a miscellaneous shower at the Raer home on French Avenue.

Summer flowers in various bright shades were used in decorating for the occasion. Several games were played during the evening with prizes being awarded to Mrs. B. F. McWhorter and Miss Dea Sheppard. Punch and ice cream were served with cookies and small sandwiches after Miss Cagle had been given many lovely gifts.

Those enjoying the evening with Miss Cagle were Mrs. Walter Fender, Mrs. M. N. Cleveland, Mrs. C. L. Hewson, Mrs. J. O. Andes, Mrs. T. W. Mero, Mrs. W. D. Gardiner, Mrs. Billy Watt, Mrs. Harry Watt, Mrs. S. C. Graham, Mrs. McWhorter and Mrs. W. A. Cagle. Also the Misses Bobbey Morton, Ella Bolton, Dea Sheppard, Jane Ford, Betty Cullum and the hostess.

FARM BUREAU
 The Seminole County Farm Bureau is sponsoring a fish fry at Rock Springs Saturday for all members and their families. The fish fry will be served at 1:30 p.m. and is free to the members.

Miss Betty Cagle, who is being honored at a party given by Mrs. J. A. Raer.

Miss Nancy Williams Honored With Party

Mrs. C. W. Baker and her daughter-in-law, Mrs. Joe Baker, entertained last evening with a bridge party honoring Miss Nancy Williams, whose engagement and approaching marriage was recently announced. The party was held at the C. W. Baker home on Phoenix Drive at 8:00 o'clock.

Unusual flower arrangements included a graceful bouquet on the mantel of yellow gladioli and blue hydrangeas. Philodendron climbing a moss stick was studied with red gladioli lilies, and on the dining table were bright vari colored zinnias and baby breath.

Several progressions of bridge were enjoyed and after scores were added prizes were awarded to Miss Dilon Baker, Miss Mary Ann Galloway, Mrs. Donald Jones and Miss Margaret Dingfelder. Miss Williams was presented with two brass wall plates by the hostesses.

Following the bridge games a salad course was served by the hostesses. Those enjoying the evening with Miss Williams were Mrs. Gerald Lonsing, Mrs. George Andrew Spear, Mrs. Wight Kirtlev, Mrs. Harold Chapman, Mrs. Jones, and the Misses Shirley Moreland, Elton Baker, Mary Ann Galloway, Margaret Dingfelder, Nita Kirchhoff.

Miss Williams Will Wed Edgar Wolfram

Mrs. Esther Brant Williams of Oklawaha announced today the engagement of her daughter, Lois Virginia, to Edgar G. Wolfram, foster son of Mr. and Mrs. S. F. Long, former residents of Oklawaha now living in Oklawaha.

Miss Williams is the daughter of Clarence H. Williams of Moss Bluff and a granddaughter of Mrs. George W. Brant and the late George W. Brant. She attended East Marion and Ocala Schools, graduating with the class of 1950. She then attended Lanning College in Williamsport, Pa., where she was a member of the A Cappella Choir.

Mr. Wolfram received his schooling in Minnesota and served four years with the United States Air Force during World War II. He is now a partner in S. F. Long and Company.

The wedding will be an event of July 17 and plans will be announced later.

When you are cleaning milk bottles pour a little baking soda into them, add water, soak and shake to hasten the cleansing action.

Mrs. Gallant Honored By Mrs. S. O. Chase

Mrs. Dan Gallant was honored yesterday afternoon with a party given by Mrs. S. O. Chase Jr. at her home on Mellonville Avenue between the hours of 4:00 and 6:00 o'clock. Mrs. Gallant plans to leave over the weekend to join her husband who is stationed with the United States Army in California.

The hostess was assisted in serving by her daughter, Miss Sally Chase. During the afternoon the honoree received a gift from the hostess.

Those enjoying the afternoon with Mrs. Gallant were Miss Rebecca Stevens, Miss Carol Stone, Miss Mary Earle, Miss Dorothy Ann Whitner, Mrs. Robert Brown, Mrs. E. C. Mitchell, Mrs. Nancy Brock, Mrs. Roy Mann, Mrs. Evans McCoy and Mrs. Chase.

Interior Decorator Speaks In Sanford

Interior Decorator, Miss Sanchez, of Cox O'Neal Furniture Store in Orlando, was the guest speaker for the monthly luncheon of Air Group wives of the Sanford Naval Air Station held Tuesday at the BOQ at the Station. About 80 wives were present for the affair which was under the direction of Mrs. Ray Thorpe. Hostesses were wives of VP31.

During the short business meeting the group voted to continue their monthly luncheons throughout the summer with the next one to be held at Sanlando Springs on July 15. Wives of VP32 will serve as hostesses.

Christian Church Scene Of Supper

The Christian Women's Fellowship of the First Christian Church met for a covered dish supper on Monday evening at the church, 1501 Sanford Avenue. Installation of officers was held with Mrs. Charles Grieme being chosen as president for the coming year.

Those enjoying the evening were Mrs. E. G. Fox, Mrs. J. R. Richards, Mrs. R. W. Casabue, Mrs. E. C. Dobson, Mrs. H. J. Bass, Mrs. Grieme, Mrs. V. H. Grantam, Mrs. R. Brink, Mrs. G. Ellsworth, Mrs. W. H. Young, Mrs. D. P. Miller, Mrs. R. Kuhn, Mrs. M. H. Billingsley, Mrs. C. Vall and Mrs. A. P. Bandy.

When you are preparing tea greens at home remember to set the temperature control of the refrigerator at the coldest position for freezing; then turn the control half way back to normal for holding the dessert until serving time.

Personals

Miss Myrtle Floyd of Thomasville, Ga. has arrived to visit Mr. and Mrs. James Williamson.

Miss Betty Moore has left for Shelby, Mich. where she plans to serve as a counselor at Camp Minnowan.

Miss Harry Silby and children are spending the summer months at their home near Hendersonville, N. C.

Miss Dorothy Morrison has returned to Emory University in Atlanta where she plans to study for her master's degree.

Dr. and Mrs. Shrewsbury Jacobson and small daughter Mag of New York City are visiting Dr. Jacobson's parents, Mr. and Mrs. Manual Jacobson.

Mr. and Mrs. Ralph Moran of Hamburg, N. Y. and children, Joan and Michael, are the guests of Mr. Moran's parents at Lake Helen.

Dr. and Mrs. Walter M. Haynes have returned to Boston, Mass. after spending a short time in Sanford with Dr. Haynes' parents at their home on Magnolia Avenue.

The Misses June Lane, Ann Vance, Faye Ashley, Jeanne Lane Miller, Louise Benton, Martha Clissey, Nancy Rountree and Dorothy Holloway returned from the Baptist Assembly in De Land.

Leaving tomorrow for Greenwood, S. C. is Miss Peggy Fraser. She has been teaching for the past two years at the South Side Primary School and after visiting her family for the summer plans to join the faculty in Winchester, Va.

Miss Jackie Cameron, student nurse at Crawford W. Long Hospital School of Nursing at Atlanta, Ga. is spending a month with her parents, Mr. and Mrs. J. M. Cameron on Cleary Avenue.

Another student nurse, Miss LaTrelle Joyner of Miller, Ga.

Class Holds Supper And Swimming Party

A fish fry and swimming party was held by the R. W. Ware Bible Class of the First Methodist Church at Blue Springs on Tuesday. Swimming and games were enjoyed prior to the delicious supper. The menu consisted of fish, hush puppies, corn on the cob, cole slaw, baked beans, pickles, watermelon and cold drinks.

Following supper a shoe business meeting was conducted by the president, W. W. Tate. Those enjoying the occasion were Mr. and Mrs. Tyre, Mr. and Mrs. P. H. Wyatt, Mr. and Mrs. E. L. Hughey, Mr. and Mrs. Wade, Mr. and Mrs. R. U. Hutchison, Mr. and Mrs. Joe Azatello, Mr. and Mrs. Jack Hurney, Mrs. Billy Shirley and Linda Roberts, Tommy and Phyllis Wyatt, "Chuck" Walsingham, J. Ann Hughey, Judy Horton and a guest, Richard Allen Wood of Winter Park.

Bible School Opens At Baptist Church

The Vacation Bible School of the First Baptist Church opened Monday morning at 9:00 o'clock with a very fine attendance, 271 children. Tuesday the attendance was 293 and Wednesday the attendance was 318. This is the largest attendance in the history of the Vacation Bible School work at the church here in Sanford.

The boys and girls enjoy the Bible stories, mission studies, character stories, music, handwork, and games, and refreshments.

The church has makes the program as it does on Sundays, however with an earlier schedule. Any boy or girl who desires to attend will be welcomed. The school will last through June 27 with a session each morning from 9:00 to 12:00 noon, except Saturdays.

If grant butter and salad dressing are used regularly, they may be stored on a cupboard shelf. But if you are keeping an open jar any length of time store it in the refrigerator to prevent rancidity.

Youth Social Club To Form Tomorrow

A Youth Club will be formed at 8:00 o'clock on Friday evening at the Clergy Canteen, Tommy Stringer, recreational director, announced this morning. The club will be for all youths 14 years of age and over.

What's The RIGHT PRICE?

There is a right price for everything that is made. To pay more, is to waste money; to pay less, is to invite trouble because seldom is it possible to lower a price without lowering quality. The right price for a prescription is one based upon the cost of the precise ingredients prescribed by the physician plus a nominal fee for the professional services of the compounding pharmacist. That is the method by which we determine the RIGHT PRICE for every prescription we fill.

Thurs. June 19, 1952 Page 3

TOO BIG FOR MARINES
MIAMI BEACH — Addie Herit has been a big boy ever since he weighed in at 13 pounds when he was born 18 years ago.
"But I never realized I was THAT big," he said Wednesday after the Marine Corps turned him down for enlistment.
Addie weighs 238 pounds—reduced from 296 less than a year ago—and stands 6 feet 4. He wears size 16 double E shoes which cost \$12 a pair made to order.
The Navy, Coast Guard and Air Force have turned down his application to enlist and the Marines keep telling him to take off 20 more pounds.

Early birds of which fossils have been found had long, reptile-like tails and teeth.

 a sink. The firm also installed the glass inclosure. It is enclosed office space in the rear which Mr. Coleman will occupy.
 New aluminum cases show windows have been installed by the Senkerik Glass and Paint Co. The exterior of the building has been painted light gray by Clarence Wynn. Interior walls are of em-plooming of terrazo la by Ste-ward-Mellon, Orlando. Ray-Hof, Inc., Orlando, installed the cell-ling "acoustitone" in areas not covered by the lighting fixtures. A small, concrete addition in the rear houses the Carrier air condi-tioning equipment installed by Falkner, Inc., Orlando. Masonry pipe green, a soft, pleasing shade of paint supplied by Sanford Paint and Glass Co.
 For the addition was by W. O. Bridges.

Two rest rooms have been provided with plumbing installations by Leo Bros. A store room is provided with ample shelving.
 All contracts were awarded on a competitive basis, said Mr. Yel-vington. Among the companies re-presented were: Ocala Rock Wool Insulation Co., for insulation; Ault Roofing and Heating Co., Orlando, for roofing and sheetmetal work; Dunn Bros. Hardware Co., Day-tona Beach for hardware.
 Millwork was by Mutual Mill-work Co., Orlando; Plastering and stucco by E. Edwards, San-ford. Material suppliers included Hill Hardware Co., Stine Machine and Supply Co., Sherman Con-crete Co., and Hill Lumber and Supply Yard.

Jaycee Meeting

(Continued from Page One)
 tacked "those who dare not ex-press an opinion for fear it will ef-fect their popularity," declaring that "these are the most danger-ous men in the community."
 William Hunt urged all Jay-cees to attend tomorrow night's Jaycee installation barbecue at the Seminole Country Club. He said the dinner will be served promptly at 7:30 p.m. and that he expects from 60 to 60 people to attend.
 President Tim Crawford urged the Jaycees to be behind a move-ment to encourage Alexander Smith, Sanford farm implement inventor, to establish a factory in Sanford.
 Mr. Crawford appointed Elton J. Moughton Jr. to head a com-mittee to see Mr. Smith and try to arrange a demonstration of his farming innovations. Mr. Smith invented the "Snapping Turtle" lawn mower. He has more recently created a new citrus cul-tivator. John Kader volunteered to serve on Mr. Moughton's com-mittee.

Blues In The News

From all indications, the "Funel" Party held at the Navy Center Tuesday night proved to be an overall success. Led by Mr. and Mrs. Ed Lane, the many party-goers enjoyed a fun filled evening.
 Adding much brightness to the festivity, the Center was decorated with colors of pink and green, along with a beautiful display of flowers and palms which truly depicted a picture of spring. Refreshments were served, which included a delicious concoction of punch, along with a large assort-ment of homemade cakes. A sample package of cigarettes was given to all attending.
 Bill Anderson and Miss Jean Tripp of Lakeland, have recently announced their engagement and approaching marriage. The wed-ding is to take place during the month of September. At the present, Bill is averaging two trips a week to Lakeland, and we feel sure that he is anxiously awaiting the day when he will no longer have to journey so great a dis-tance to see Jean.
 Carl Misch, Metallmith Third Class of the Faxon Metal Shop, is another of the many new fathers at the Naval Air Station. Wil-liam Anthony Misch arrived via the stork last Saturday morning at the Coxon Air Force Base Dis-pensary, Cocoa. Carl tells us that both the baby and his wife June are doing fine, and are expected back from the hospital soon. As usual, cigars were passed out by the proud papa, honoring the blessed event.
 The romantic month of June appears to have taken an over-whelming effect on quite a few of the men here at the Air Station. The latest development in that department is the announcement of the approaching wedding of Frank Donofrio, Yeoman Third Class, of the Carrier Air Group Staff Office, to Miss Kathryn Cul-lum of this city. Miss Cullum is the daughter of Mrs. E. H. Cullum of 215 West Fifth Street. Al-though there are no immediate plans for the nuptials, it is fig-ured to happen in the very near future.
 Jacksonville Naval Air Station Dispensary has taken quite a toll from this heat. Two of the latest additions to the Sick Bay are William Woot of the Station, Florida Coast, and Ray Gatten, ADM of the Coast Guard. Gatten is to undergo minor surgery during his stay here. The seriousness of their ail-ments has not been disclosed.

Arches were used in building in the Florida-Tennessee valley at only an 4.000 G.C.

 least 70,000 the number of inmates relocated since Operation Breakup started 10 days ago. Koje holds 80,000 prisoners.
 One Communist POW in another compound was accidentally shot in the hip today by a Canadian guard cleaning his gun, camp officials reported. The wound was described

as not serious. An investigation was ordered.
 It took about four hours to empty once - notorious Compound 62, where 85 prisoners and one Ameri-can soldier were killed in a bloody Feb. 18 riot.

MUNSAN, Korea (U)—Not a single official word was exchanged today at Panmunjom in the second day of a 3-day recess the United Na-

STATION POLICE CAMP DELAND (Special) — Twenty-two students of Stetson University will leave tomorrow and Saturday for the Military Police Reserve Camp at Fort Belvoir, Ill., for training.
 The Command called in the stalled Korean truce negotiations. By nightfall the Communists had not even asked for a meeting of liaison officers. These officers met daily during an Allied-called recess last week.

Officers Training Corps summer encampment at Camp Gordon, Ga. Cadets from 20 colleges and uni-versities in the nation will be re-presented at the National training camp scheduled to start June 20 and continue for six weeks, according to Lt. Col. Ira P. Mosley, profes-sor of military science and tactics at Stetson who also will be on the camp staff.
 These senior ROTC cadets will

receive valuable experience in dis-playing qualities of leadership as well as other necessary require-ments which go into the makeup of an efficient and well-informed officer of the United States Army, Colonel Bouffay said.
 A water molecule consists of two atoms of hydrogen combined with one atom of oxygen.

FLOATING MINE

NAPLES, Italy (U)—A big floating mine was exploded by gunfire out-side Naples Harbor today. In the harbor area was a large concen-tration of U. S. warships, including the carrier Coral Sea and two light cruisers.
 Motorboats armed with small cannon went out to destroy the mine as soon as it was spotted this morning.

FLAGPOLE SITTER

EVERETT, Wash. (U)—A painter was rescued Wednesday after dan-gling head downward for nearly an hour from the top of the 100-foot Snohomish County Courthouse flagpole.
 The painter, Dave E. Kerr, ap-parently suffered no ill effects. He was hospitalized for observation.
 The planet Mars is red in colo-

Gifted Hollywood Couple Consider Writing Problems

By BOB THOMAS
HOLLYWOOD — How do writers write?

This is a topic which has always intrigued me. I was delighted to learn that it was also a favorite subject of Garson Kanin and Ruth Gordon.

The gifted married couple rank among the most successful writers in the country. Separately, Kanin, a top film director, wrote "Born Yesterday," which drew a million dollars from the film rights alone. Miss Gordon, one of Broadway's foremost actresses, penned two hit plays, "Over 21" and "Years Ago."

Together they have turned out six screen plays, including "A Double Life," "Adam's Rib" and "The Marrying Kind."

The Kanins are here to put the finishing touches on the screen play of "Years Ago," which will star Spencer Tracy and Debbie Reynolds. I called to inquire about their writing habits, and found they were as interested in the subject as I was. Kanin especially.

"I must say that the business of writing intrigues me," he remarked. "I've only written since the war, and that's the reason I don't direct pictures any more. I'm so much in love with writing through the good fortune of being married to Miss Gordon. I have been able to ask a lot of writers. I always ask them about their habits."

"We have become good friends of Thornton Wilder. He told us that every author has some kind of warm-up period before he can write. Wilder takes a walk, which

is physiologically helpful in circulating the blood and stimulating thought. Willa Cather used to read a chapter of the Bible before starting to write.

"Ernest Hemingway writes long-hand with a pencil. When he finishes, he breaks all the pencils. When he starts again in the morning, he warms up by sharpening all the pencils with a knife.

"When we were in France last summer, we called on Somerset Maugham and fired all kinds of questions at him. He said he got up every morning of his life and wrote for four hours, no more, no less. But supposing you get sick?"

"When we were in France last summer, we called on Somerset Maugham and fired all kinds of questions at him. He said he got up every morning of his life and wrote for four hours, no more, no less. But supposing you get sick?"

"When we were in France last summer, we called on Somerset Maugham and fired all kinds of questions at him. He said he got up every morning of his life and wrote for four hours, no more, no less. But supposing you get sick?"

"When we were in France last summer, we called on Somerset Maugham and fired all kinds of questions at him. He said he got up every morning of his life and wrote for four hours, no more, no less. But supposing you get sick?"

"When we were in France last summer, we called on Somerset Maugham and fired all kinds of questions at him. He said he got up every morning of his life and wrote for four hours, no more, no less. But supposing you get sick?"

Port Improvement Passes Half-way Point This Week

WASHINGTON, D. C. — (Special) — Ports—both sea and inland have passed the half-way mark of the biggest port facility improvement program ever undertaken in the history of water transportation in the United States.

A survey made by The American Waterways Operators, Inc., the national association of the barge and towing vessel industry, shows more port improvement projects undertaken this year than in any previous year on record. Projects in the planning stage also are more numerous.

Growth of the nation's foreign and domestic waterborne commerce has made these improvements necessary.

The Port of New York is working on a two-year program involving the expenditure of 75 million dollars in municipal and private funds.

Port improvement funds totaling \$30,000,000 will be required to complete the Port of Baltimore program.

The Port of Philadelphia has adopted a port improvement program to cost more than four million dollars.

Georgia's Port Authority will complete in November an improvement program at the port of Savannah for which 20 million dollars were appropriated.

Boston, Mass., is expanding and improving its port facilities at a cost of 7 million dollars.

Next September North Carolina will complete a five-million-dollar improvement program at the twin ports of Wilmington and Morehead City.

The Port of Mobile, Ala., recently placed in operation a new \$3,500,000 grain elevator as a part of its \$35,000,000 port plant.

At the Port of New Orleans, La., the municipal grain elevator is being doubled in capacity and new wharves have been built under a twenty-million-dollar improvement program.

All ports on the Pacific Coast are augmenting the shipping facilities and formulating plans for additional channels, dock and terminal capacity.

Houston, Texas, has a long range improvement program calling for the expenditure of thirty-two million dollars. New wharves have been built and the channel is being deepened and widened.

The Gulf ports of Brownsville, Beaumont, Gulfport, Pensacola, Galveston, Port Arthur, Corpus Christi and Lake Charles all have port projects and the new port of Harlingen, Texas, on the Gulf Intracoastal Waterway is adding docks, warehouses and terminals.

A second deep-water channel and turning basin and elimination of a traffic bottleneck are covered by the Corpus Christi program.

The Brazos River Harbor Navigation District has financed a deep-water port for Freeport, Texas, at an estimated cost of \$2,600,000.

Jersey City has approved a water-rail-truck terminal to cost \$15,000,000. Port of Albany, N. Y., is seeking a deeper ship channel and additional port facilities. Buffalo, N. Y., has an expansion program.

Sanford, Fla., on the St. Johns River is planning to build a barge terminal and warehouse.

Inland, the most ambitious port-improvement project completed this year to date was the closing of the Tennessee chute of the Mississippi River at Memphis, Tenn., to create an off-river harbor and 6,800 acres of flood-protected sites for new industries.

An engineering firm has mapped for the Port of Baton Rouge, La., a comprehensive port development program comprising a new public wharf for ocean shipping and barge traffic, an off-river barge harbor and two large areas for industrial sites.

Other major projects on the Mississippi River are the barge docks costing \$1,500,000 on the new Chain of Rocks Canal at Granite City near St. Louis, Mo., and large harbors at Minneapolis and St. Paul, Minn. St. Louis has approved municipal wharf improvements.

ACCUSED ATTENDS FUNERAL
MIAMI — Niklas Causal, accused murderer of services Wednesday for the wife he is accused of stabbing to death with a butcher knife.

Causal was flanked by two sons, a son-in-law and a deputy sheriff as he listened to the brief services, read in his native Hungarian, in a funeral chapel.

Causal, 65-year-old retired cabinet maker, broke into sobs at several points during the services and nearly broke down when he was led to view his wife's body.

Causal is charged with first-degree murder in the fatal stabbing of his wife of 37 years, Mrs. Juliana Causal, during a violent quarrel in their home here Sunday.

He was taken to the funeral home from the Dade County Jail where he has been held since the slaying. Causal asked that he be permitted to attend the funeral.

Bergman Weeps As She Catches Sight Of Twin Daughters

ROME — A wan and weary Ingrid Bergman shed tears of joy today as she got her first good look at her day-old twin daughters.

Landstrom testified that Rossellini had a reputation as a drug addict and a man of loose morals. The U. S. State Department was expected to decide today whether to grant a visa to Rossellini so he can fly to Los Angeles to answer Landstrom's accusations.

Jenny Ann told the court she doesn't want to come to Rome, testimony which saddened and depressed her mother.

Miss Bergman and Rossellini have a son, Robertino, born in February, 1950, before they were legally free to wed.

The twins, two weeks overdue were born Wednesday night at the fashionable Salvatore Mundi Hospital.

The 35-year-old mother was reported doing well.

Dr. Pier Luigi Guidotti, who assisted in the birth, said the film star "cried when she saw her babies and was happy because they were perfect babies and just what her husband wanted."

The doctor said she was serene and showed no fear during the tense period before the births.

Marring the hour of Rossellini's happiness was a legal battle with

Animal Population Of Farms Is Decreasing

WINTER PARK (Special) — The world's farm animal population is decreasing, while the human population is increasing, according to the research department of the Florida Farm Bureau.

Figures compiled for the period 1938-1948 show that farm animals and poultry decreased by one-sixth, the Bureau points out. In 1938 the estimated world population of farm work animals, food animals and poultry was 4.3 billion. In 1948 it shrank to 3.6 billion for a net loss of 704 million.

At the same time the human population was increasing at the rate of about 20 percent, it said.

Money Pinch Is Beginning To Hit Steel Workers

Philip Murray's CIO Strikers Having Financial Difficulty

PITTSBURGH (AP)—Philip Murray's CIO United Steel workers are beginning to show signs of financial hardship as the 18-day-old walkout bites ever deeper into the national defense program.

Walter Kils, president of a big Steelworkers local at Jones and Laughlin Steel Corp. in Pittsburgh, says several requests for financial assistance have been received from Steelworkers' families.

The powerful union does not provide strike benefits. However, most of its locals are reported in healthy financial condition and ready to aid any hardship cases.

Referring to his members, Kils said:

"They're just running out of money. So far we have referred them to state and county welfare groups but we plan to set up our own welfare organization this week."

In addition to the 60,000 striking steelworkers, more than 100,000 in allied industries have been laid off as a result of the strike.

Most of the 100,000 are employed by railroads and coal mines, but a crippling strike is also being felt in other fields.

The effect of the hardest hit sections in Alabama where more than 25,000 steelworkers and coal and iron miners now are idle. The steelworkers union says there are "thousands" of hardship cases among strike workers.

Wollens Manufacturing Co. at Warren, O., said it will not produce as much as it has in the past because of a 3-day work week basis at its plant in Warren and at its plant at Salem, O.

Ford Motor Co. is starting a 4-day week for most of its manufacturing operations and assembly plants. It will close each Friday.

Only Ford's Lincoln Mercury plants, its steel mills and certain operations not requiring steel will maintain open Friday. Vice President D. S. Harder said cutting the work week will postpone a target of Ford's 100,000 production workers.

Geiger Refrigerator Co. at Evansville, Ind., notified workers it will close indefinitely July 1 because of a steel shortage. The company did not say how many workers would be affected.

Truman's Plan For Re-organizing U.S. Jobs Snowed Under

WASHINGTON (AP)—Three of President Truman's government reorganization plans are dead, in the wake of a Senate vote that congressional control over 21,542 federal jobs.

With many who normally support administration policies, the Senate Wednesday defeated in one two-hour session his proposals to eliminate Senate confirmation of city postmasters, U. S. Marshall and customs collectors.

The program would have gone into effect automatically Friday midnight if neither the House nor the Senate had acted. It called for filling the jobs by department heads through Civil Service centers.

Opponents argued that the three plans would merely transfer the politics of appointments from members of Congress to the administration in power.

The Senate department heads, especially the postmaster general, would get a chance to build a powerful political machine.

Backers of the program said it would wipe out the political spoils system.

The big fight was over the postmaster general, who would be elected by popular vote. A majority of the full Senate voted to kill the proposal, the vote was 50 to 39.

Debate on the measure was held.

Valparaiso, Ohio, (AP)—A bill to abolish the postmaster general has passed in the House. It would give to the postmaster general the power to build the most corrupt political machine in American history.

Sen. Humphrey (D-Minn.), who led the fight for the plan, told the Senate that by approving them, it could make the greatest advance in the federal Civil Service system in 70 years.

Ensign F. E. Wilson Is Assigned To Warship

Ensign Francis L. Wilson, USN, of the USS O'Brien (DD-833), has been assigned to the heavy cruiser USS O'Brien (DD-833) as an anti-aircraft gun battery officer and a senior watch officer, according to an official news release.

The O'Brien, a veteran of two cruises off the enemy-held Korean peninsula, is at present undergoing a major overhaul at Long Beach, Calif., the home port of the cruiser.

Wilson was graduated from the U. S. Naval Academy at Annapolis, Md., in 1947. He served on the USS O'Brien (DD-833) during the Korean conflict.

Dulled Reflexes And Fatigue Are Accident Causes

Highway Hypnosis' Is Blamed For Many Automobile Mishaps

NEW YORK (AP)—The motorist with dulled reflexes is a danger to the public, according to a report issued by the National Highway Traffic Safety Council.

The report, which is based on a study of 100 highway accidents, says that the most common cause of such accidents is "highway hypnosis," a condition in which the driver becomes drowsy and loses control of his car.

The report also says that the most common cause of such accidents is "highway hypnosis," a condition in which the driver becomes drowsy and loses control of his car.

Mr. Stricker suggested that a "highway hypnosis" test be developed to determine if a driver is fit to drive. He also suggested that a "highway hypnosis" test be developed to determine if a driver is fit to drive.

Crackpots Seem Always To Flock To Paper Offices

By HAL BOYLE
NEW YORK—The place where I work is full of desks but this stranger in the soiled white shirt naturally had to walk up to my desk.

"I been up all night," he said belligerently. "You don't expect me to stay up all day, too, do you?"

"No indeed," I murmured.

"Well, I'm going to stay up until I get the rules clarified," he said.

"Does a baseball fan have legal rights or doesn't he?"

"Of course, he does."

"They can't throw a fan out of the ball park just for hollering, can they?"

"Oh, no, indeed."

"That's what I told them after they threw me out of the park last night," said the stranger. "I knew I was right all along."

And he walked out of the office, completely happy.

My visitors was obviously slightly screwball, and I fell to thinking: "Why, out of all the ears in sight he could bend with his tale of woe, did he pick on my ears?"

The only answer I could find was that in me he instinctively recognized a kindred soul.

Screwballs seem to love me, and I must confess I find them fascinating, too. Looking back on 20 years of newspaper work, I expect I must have spent at least 15 of them listening to screwballs.

Every newspaper office is visited by an almost daily parade of mildly daff crackpots, and the man assigned to the chore of hearing them is sometimes known as "the screwball editor." I always loved this title myself, although it makes some reporters nervous, particularly if the visitor is carry-

ing a small parcel that could turn out to be a homemade bomb.

My trouble with crackpots is that I usually end up on their side. If an addled inventor shows up with plans for a flying submarine, he has no trouble at all convincing me submarines should have wings. I remember the fellow who wanted to launch a crusade to get raspberry-flavored stamps. That seemed so sensible to me that I sat down and helped him draft a letter to the post office.

My favorite screwball, however, was a lady we came to know as "Rambling Mary." Every week she wrote a long rambling letter, telling of her fight with the landlord and the neighbors, and the small children down the hall who teased her.

The letters, bearing no return address and signed only "Mary," came year after year, and I got so I felt I knew the lonely old lady real well. When the letters finally ceased, I missed them for a long time. I was like losing a friend, and I never learned whether death had taken Mary or they had just shut her away.

I suppose the most interesting screwball was "Operative X-37." He was a distinguished-looking young man laboring under the delusion he was an FBI agent engaged in counter-spy work.

Every few nights he would slink up to my desk and whisper, "Operative X-37 reporting." I would give him a typewriter and he'd write a detailed account of the spies he was shadowing, then slink out mysteriously.

One evening "Operative X-37" showed up with his sister. While he was pouring out his report, she said: "My brother is harmless. I hope he isn't too annoying."

"Not at all," I told her. "But he only shows up at night. What does he do during the day?"

"He keeps office hours," she said. "He's a psychiatrist."

Heavy water is about 10 per cent heavier than ordinary water.

THIS MAY NOT BE "the unkindest cut of all" as far as the Reds go, but the Communists in East Berlin didn't like it overly much when this West Berlin worker chopped the cable linking Red Radio and the Russian Zone. The incident occurred after the British sealed off the Soviet-controlled station in retaliation for hostile Red acts. (International)

Red Tide Lab That Studies Sea Plague Will Leave Tampa

SARASOTA (AP)—The Red Tide Research Laboratory set up here to study the sea plague that kills fish is to be moved to Galveston, Tex.

Dr. L. B. Slobodkin, chief of red tide research for the U. S. Fish and Wild Life Service, said the laboratory would be moved about July 1. At the laboratory are two scientists and several technicians.

He explained a more elaborate laboratory would be established at Galveston. One of the big reasons for the move, he said, is to take advantage of the Marine Laboratory at Texas A. & M. and government research facilities in the region.

The laboratory staff has been seeking out the red tide and what causes it in East Gulf waters. The move means that Western Gulf waters now will be studied.

Dr. Slobodkin said he hoped to be able to work out a formula

for predicting when the red tide would strike.

He said preliminary studies had shown these conditions appear to favor the incubation period of red tide: Very hot weather, a dead calm followed by a heavy rainfall.

The laboratory was established here several months after the disastrous red tide along the Florida West Coast in 1947. Tons of fish were killed then.

Marine life experts say the fish were killed by a minute organism which entered gills of fish and strangled them.

The interior of continents usually have greater extremes of heat and cold than do islands surrounded by the sea.

The New York State Thruway from New York to Buffalo is scheduled to be completed in 1954, according to the State Thruway Authority.

Farming Grows Faster Than Most Industries In U.S.

By SAM HAWSON
NEW YORK (AP)—The American love of good food is making farming one of the nation's fastest growing industries.

Despite all the grumbling about food prices, Americans are eating more and better food than did their parents. Since prosperous 1929 the food consumption in this country has doubled, the Federal Reserve Bank of Cleveland concludes, after adjusting food dollar volume to price changes. Neither the auto nor home building industries can show a unit volume gain equal to that in agriculture as a "growth industry."

If the population continues to grow at its present rate, and if Americans find the money to maintain their present high dietary standards, the market for American farm products in 1975 will be twice what it was just before Pearl Harbor, the bank figures.

Only if the birth rate drops and Americans go back to their diet standards of 10 or 15 years ago will the future demand for agricultural products fall below present high capacity to produce, the bank says.

Taking a shorter-term view, the American Institute of Food Distribution says almost all retail food store operators expect to go right on the rest of this year at least, selling more food than last year. They credit the continued heavy spending of prosperous consumers.

Chief factor in recent years has been the ability of lower income groups to enlarge their buying of food, both in the amount they buy and the better quality they can afford.

The sharp increase in total food sales in this country is due in part to the big baby crops which push population totals higher. But other factors are more important.

Chief is the change that has come over the national diet. Since the Depression years the lower-priced bulky and starchy foods have lost ground, relatively, to meats, eggs, milk, fresh fruit and vegetables. Over the years Americans also have tended to spend more of their income on choicer meats and better quality vegetables and groceries.

All in this can change quickly if incomes drop, due to unemployment or other reasons. Families

quickly trim food budgets when the pay check shrinks.

Also they shift away from certain foods when they get too costly. One example was the cutback by many families in meat buying when meat prices were at their highest. A more recent one is the shying away from potatoes when they temporarily became collectors' items.

Another large factor in increased

Treasury Is Scored For Failure to Get Costello's Taxes

Delaware Senator Declares Gangster's Tax Returns Were Not Even Audited

WASHINGTON (AP) — Sen. Williams (D., Del.) said today the Treasury failed for years to collect delinquent income taxes from racketeers Frank Costello and Philip Kastel and has now "marked off" \$315,150 of taxes due from Kastel.

In a Senate speech, Williams said the Treasury claimed it was unable to locate any assets of these men, even though, Williams said, both were known to be raking in hundreds of thousands of dollars from slot machines and other enterprises.

Williams said he had learned that Costello's income tax returns were not even audited during the World War II years. But he said the Internal Revenue Bureau is now checking into them.

Williams said that for more than 15 years the government allowed a tax claim of about \$25,000 against Costello to remain outstanding. He said it was collected on Feb. 5, 1947, only after the government filed a lien on \$27,000 in cash that Costello left in a New York taxicab.

As for Kastel, Williams said the record shows that "this racketeer has had very little respect for our income tax laws and that the government has an equally poor record of collection of taxes from him."

"Altogether during the past 15 years the total of \$315,150 representing income taxes due from Kastel has been marked off for an average of over \$20,000 per year."

"This does not include the \$148,045 which was marked off by the government in 1942 as representing cancellation of proposed penalties."

Costello, a New Yorker, was named by Senate crime investigators last year as one of the nation's gambling and underworld kingpins. Kastel, whose operations are centered on New York

Edward S. McCall Installed As New Lions President

Chicken Barbecue Is Held By Group At Bear Lake Grounds

Members of the Sanford Lions Club welcomed their "King Lion" or president, Edward S. McCall, after he and other new officers of the club had been installed at a meeting following a chicken barbecue and outing at Bear Lake last night.

The installation was performed by Hoke Johnson, Daytona Beach Lions International Councilor and past district governor of District 36-0, to which office Henry Witte was recently elected.

Other officers installed included Jack Morrison, first vice president; Carl Williams, second vice president; Vile Williams Jr., third vice president; J. Hamilton Bishop, secretary; Harry Robson, Lion tamer; J. N. Robson Jr., treasurer. Heavy horsing greeted the installation of the smiling tall twister, Jack Steiner, who had fished about everybody during the evening.

Four directors were installed: Wallace Phillips, Clarence Welch, John Mearns and Ben Wade. The meeting was held in the hall of the Florida Power Corp., and was attended by wives of the Lions, one of whom, Mrs. Marcel Faller, was commended by Mr. Johnson on her ability in assisting the tall twister in leaving lines of 10 cents. Lions were fined both for and for not wearing neckties, and seven wives were not spared from fines.

Henry Witte, district governor, was congratulated upon his election by Mr. Johnson, and by Cecil Carlton, retiring president, who had charge of the meeting until he pinned the president's pin on King Lion McCall, and later received from him a past president's pin.

Major achievements of the club were reviewed during the past 12 months by Mr. Carlton. He told of the success, whereby \$865 was received to carry on projects, and called upon Clyde Ramsey, chairman of the night conservation committee to report. The latter disclosed that 25 pairs of glassed children, and that the club had financed two eye operations.

Other club achievements listed by Mr. Carlton were donations to the Red Cross, the Tourist Club Fund, and the Boy Scouts, and the Boy Scout Drive. Managers and umpires of the Lion Junior Baseball League were commended by him for their work. The end of the season is marked by a picnic at Blue Springs. Dinners and social evenings of the year were mentioned by Mr. Carlton.

President McCall commended outgoing President Carlton for his achievements, and stated that the club would miss Henry Witte as an active member, due to the fact that he will be busy as district governor. He expressed the club's appreciation for his work.

Rent Control Board

Members of the Rent Control Board of Seminole County serve as a board of rent stabilization in the county. From left to right are Frank Ashdown, Raymond M. Hall, chairman of the board; W. R. Williams, area rent director; O. K. Gott, recently appointed member, and Mrs. Gustav Oechner, contact representative of the area rental office. Leo R. Fisher, another member of the board, is not shown.

Spivey Is Killed In Auto Accident On Paola Hiway

Car Goes Out Of Control On Curve Hitting Sign And Tree

Benjamin Franklin Spivey, 41-year-old box maker, was killed shortly after 1:30 o'clock yesterday afternoon when his 1951 Mercury sedan, traveling west on Highway No. 16, at a high rate of speed, went out of control and crashed into a pine tree about one mile west of Paola.

State Highway Patrolman R. D. Harrison, who with Sheriff P. A. Gill and Constable Howard Gordi, Ala. McCall, is a junior and physical education major at Florida State University in Tallahassee. Constable Gordi is a graduate of Stetson University in DeLand and coach of the Sanford Junior High School.

The second City playground is located at the Seminole High School gymnasium and operates under the supervision of Mrs. F. C. Wynn, girls' athletic director. The high school playground is provided for those 13 and over and offers handcraft, archery, weekly cookouts, and softball.

The two colored playgrounds are located at Hopper Academy in Goetzville and Crocus Academy in Goldboro. They are both for all ages and provide basketball, volleyball, and handcraft, crafts and baseball.

The Hopper playground is under the direction of Thelma Shepherd, assistant director in charge of colored recreation, and Julia (Continued on Page Four)

Summer Recreational Program Is Going Full Blast Under Stringer

A wide and interesting variety of sports, crafts and activities of all kinds is being provided this summer for the white and colored citizens of Sanford. City Recreation Director Tommy Stringer said today.

Four City playgrounds are open every day from 9:00 to 12:00 in the morning and from 2:00 to 5:00 in the afternoon. Mr. Stringer said the playground at the Fort Mellon Park (shaded) court specializes in providing shuffleboard, handcraft, croquet and softball for children in the six to thirteen age group.

The Fort Mellon playground is under the direction of June McGill and Coach Howard Gordi. Mrs. McCall is a junior and physical education major at Florida State University in Tallahassee. Constable Gordi is a graduate of Stetson University in DeLand and coach of the Sanford Junior High School.

Civil Defense Head Says U.S. Is Unrealistic

Caldwell Addresses VFW Encampment In Jacksonville On Bomb Vulnerability

JACKSONVILLE (AP) — "Atomic ostrichism and Buck Rogers mentality" could leave the U.S. open to a smashing attack that would result in casualties up to 75 million, Millard Caldwell, federal civil defense administrator, said today.

The former Florida governor, talking to the Veterans of Foreign Wars encampment here, said the casualty estimate is based on the best available intelligence.

He said in his prepared speech that "atomic ostrichism is hiding our heads in the sand and pretending this kind of thing can't happen to us because it never has happened to us before."

"Buck Rogers mentality causes too many people to have a touching but unimposed confidence in the so-called 'atomic weapons,' and the present ability of our armed forces to keep attacks from your cities."

But he added, "We will not get the best of anything if we leave the vast field of civil defense to those people who are willing to let Georgia do it. Federal and local officials, passing the buck back and forth."

"Of casualties from all out attack," Caldwell said, "about five million people are willing to let Georgia do it. Federal and local officials, passing the buck back and forth."

"We are not here to give you a lecture about the supply and equipment needed to care for the many casualties."

"I don't take pompous attitude to get ready to handle the medical and other civil defense problems. We are laying our heads open to the kind of crushing attack that would make Pearl Harbor seem as insignificant as the broken knees and cut fingers of a Sunday school picnic."

"The stronger we are in civil defense, the more atomic bombs the enemy will have to build in order to launch a successful attack."

The Military Order of Eagles and the Catholic Club held a torchlight parade and decorated officers Thursday.

Sherman F. Bennett, Lt. Col. Wood was elected state grand commander of the Order in Sanford. He is a resident of Jacksonville. He is a graduate of the University of Florida and a member of the state committee. He is a member of the state committee. He is a member of the state committee.

House Votes End Of Price Controls Upon Almost All Goods

Plans To Relax Building Curbs Are Postponed

Steel Strike Which Is "Strangling Production" Seen As Cause

WASHINGTON (AP) — The House today voted to end price controls on virtually all consumer goods. The vote was subject to reconsideration.

By a vote of 116 to 88, the House decided there should be no price controls on items which are not rationed or allocated.

Only a few metals are being allocated.

The effect of the amendment, if it remains in the bill, would be to remove just about all price controls of future the Office of Price Stabilization in order rationing of things it wants kept under price ceilings.

The amendment was offered by Rep. Talle (R. Tex.) and supported fervently by Republicans. Democrats almost solidly opposed it, but many were absent.

Talle said the amendment would encourage free enterprise.

Opponents, led by Chairman Banking Committee, claimed it would amount to killing controls. Controls could be reimposed whenever materials are allocated or rationed.

"The essence of this is saying there will be no price control law," declared Rep. Hays (D. Ohio), who opposed the amendment.

Spence said the House should face squarely the issue of price controls and not destroy them by "just shuffling away."

The Talle amendment, Spence added, would destroy the machinery of the controls administration by abolishing the reports on which controls are based. Other controls were lifted under the Talle provision, reports now required by dealers would no longer have to be made.

The amendment directed the lifting of controls on all materials which are not in short supply or which have been selling at below ceiling prices for at least three months.

That it says materials shall not be considered in short supply unless they are being rationed or allocated for civilian use.

Belief in adopting the Talle amendment, the House way a committee (Continued on Page Four)

Seminole Audubon Society Reported Growing Rapidly

The Seminole chapter of the Florida State Audubon Society, organized in 1949 by Mrs. H. C. Heisel, has reached a total membership of 60. Mrs. Heisel said today. The local chapter is headed at present by Mrs. S. C. Dickerson, as president, Mrs. D. C. Howard, treasurer, and Mrs. Don Norton of Geneva, secretary.

The club has held monthly meetings and monthly field trips and is especially interested in the educational work undertaken by the state society, Mrs. Heisel said.

The society retains a paid naturalist, Russell Mumford, who conducts classes in the appreciation of natural life in some 20 schools throughout the state, among them the Sanford Junior High School.

Mrs. Mumford's course includes a variety of natural subjects such as "Birds — Your Neighbors," "Florida Reptiles," "Frogs and Toads, How They Live," "Ocean Life," and "Weather and Wild Life."

The state society also publishes "The Florida Naturalist," a quarterly magazine which chronicles the affairs of the society and stimulates interest in nature and conservation. A state-wide meeting is held every year. The one at Rollins College this year was the fifth.

Naturalists from the entire nation congregate for these meetings of the Florida Audubon Society, Mrs. Heisel said. The highlight of the meeting this year was a field trip up the Oklawaha River from which so many were turned away that two additional trips had to be scheduled.

Mrs. Heisel noted that the economic help of birds and animals is as important to society as their aesthetic value. She also mentioned their very significant value to the tourist industry.

20-Year-Old Youth Takes Own Life In Despondency Fit

A 20-year-old Sanford man took his own life shortly after 8:30 o'clock last night, Deputy Sheriff Howard Hood, reported today. The young man was thought to have been despondent over ill health.

He was Owen J. Abney, whose body was found by his parents in a bedroom of their home at 1214 French Avenue, following the sound of the blast of a single barrel shotgun. The body was found on the bed.

The death was investigated by Sheriff P. A. Mero, Deputy Sheriff W. E. Watson. They were informed by Mr. and Mrs. Junie Abney, the parents, that they had been present in an adjoining room when the shot was heard.

Owen Abney, who was popularly known as "Happy," had worked until recently as an employee of the Southward Fruit Co. He was born June 15, 1931, in Sorrento, and had lived here for 11 years. He formerly attended Seminole High School and was active as a member of the Seminole Chapter of Future Farmers of America. Several years ago he was honored by the Chapter in being chosen to represent it at the National Convention of Future Farmers at Kansas City, Mo. He was faithful as a reporter for the Chapter and a number of his articles appeared in The Herald. He was a member of the Congregational Church.

Survivors include the parents, Mr. and Mrs. Junie Abney, three brothers, Cpl. Curtis Abney who is serving in the Army at Camp Stewart, Ga., Delbert and Keith of Sanford, and two grandfathers, Tom Abney of Bushnell and Isaac Journeaux of Ft. Pierce.

Funeral services for Mr. Abney will be held Sunday afternoon at 2:00 o'clock at the Congregational Church with the Rev. J. B. Root officiating.

Woodmen of the World, of which organization Mr. Abney was a member, will conduct graveside services in Evergreen Cemetery, and they will also act as honorary pallbearers.

Flying Cross Given To Lieut. W. H. Mero

The late Lieut. (J.G.) W. H. "Bob" Mero, son of Sheriff and Mrs. P. A. Mero, who was killed in action in Korea last September while flying a mission from the U. S. Navy carrier, was posthumously awarded the Distinguished Flying Cross today.

The award was made to Lieut. Mero's widow, Mrs. Frances Mero, by the captain of the Jacksonville station, Lieut. Mero was shot down by heavy anti-aircraft fire while flying his Navy Corsair with his squadron.

He was born Oct. 2, 1928, in Sanford, attended local elementary schools and Seminole High School, graduated from Marion Military Institute in Alabama in 1946. He joined the Navy on his 17th birthday immediately following his graduation.

Following his release from the service in 1946, he worked for two years at Stetson University and served as deputy sheriff under his father in his spare time. Called back to active duty in December, he continued his training and received his wings at the Pensacola Naval Air Station.

Sherwood Jacobsons Visiting In Sanford

Sherwood Jacobson, Mr. Jacobson and their young daughter, "Meg," are visiting with Dr. and Mrs. P. A. Mero, for 10 days.

Dr. Jacobson graduated from Seminole High School in 1942. He has attended Tulane University, the St. Louis Scientific School at Yale University, and the Tulane Medical School. He returned following his graduation at the Jewish Hospital of Brooklyn, after which he took a year of surgery at the medical Flower and Fifth Avenue hospital in New York City.

Dr. Jacobson's specialty is neurosurgery, the surgery of the brain and nervous system. After leaving Sanford he expects to go to the Columbia University Medical Center. He has also practiced at the Kingsbridge Veterans Hospital in the Bronx.

The Jacobsons came to Sanford in 1951 and Dr. Jacobson made his residence here until his marriage in 1949.

British Ambassador Helps Put Out Fire

WASHINGTON (AP) — British Ambassador Sir Oliver Franks got out of bed to watch a midnight fire on the embassy grounds and wound up helping to put it out.

The 30,000-gallon fire, which did an estimated \$10,000 damage, was quelled in about 25 minutes. More than a dozen pieces of fire-fighting equipment answered the call Thursday night.

None of the embassy residents left the main chancery. The only injury was to a fireman whose hand was burned. The blaze, which threatened the chancery and scorched an oxen, was believed to have started in a supply shed.

Sir Oliver, wearing a topcoat over his pajamas, turned firefighters when he ordered the chancery and the roof sprinklers turned on in wet down the main building.

HEAVY RAINFALL. Rainfall in the heavy shower yesterday afternoon amounted to 1.11 inch, E. J. Moughton Jr., weatherman, announced this morning. Maximum temperature was 94 degrees and the low reading was 70. Mother's Store was flooded with several inches of water in the rear of the building, following the downpour.

ROSE TRANSFER ENDS KOJE ISLAND, Korea (AP) — The Army said tonight all major shuffling of Red prisoners of war on Kojima Island is complete.

The Kojima Command, under Brig. Gen. Hayden E. Boatner, said well over 70,000 prisoners had been shifted in 13 days.

Give Servicemen A Ride

Two "Servicemen Ride Shelters" have been erected on Federal Highway 17-92 at the north and south edges of Sanford. The work was contracted by the Naval Air Station's Public Works Department.

The shelters are expressly for the convenience of those servicemen desiring transportation from the city of Sanford to the many other towns and cities along route 17-92. Lt. C. L. Sullivan explained today.

Above are Donald E. Evans (left) and John J. Hain as they wait patiently for someone to stop and give them a ride. Both men are stationed here in Sanford.

Jebb Calls Soviet Germ Move Astute But Not Workable

UNITED NATIONS, N. Y. — Britain's Sir Gladwyn Jebb called today that the Soviet's latest germ warfare move was astute, but he warned that such tactics could not split the Western Allies.

Jebb referred to the proposal of Soviet delegate, Lash A. Malik, that the U. N. Security Council appeal to the United States and five other countries to ratify the 1925 Geneva protocol prohibiting use of biological weapons.

Jebb summed four other delegates — Greece, Turkey, Brazil and the Netherlands — in supporting a U.S. proposal that the Soviet demand be referred to the U. N. Disarmament Commission.

The British delegate declared Malik had greatly exaggerated the influence of the Geneva treaty in World War II. He had to be asked correspondence between Prime Minister Stalin and Winston Churchill in which Stalin agreed that gas should be used against the Germans if Hitler used it first.

Speaking in the Security Council, Jebb said Churchill had written Stalin in 1942 telling him Britain had come upon evidence that isolated Germany might use gas against Russia. He assured Stalin that Britain had large stocks of gas and was ready to use it against the Germans if Hitler used gas first.

Stalin expressed gratitude for Churchill's promise and did not express the view that possession of large quantities of gas bombs was a crime, Jebb said. But new Malik suggests it is a terrible crime for the United States to carry on research in germ warfare.

"Even the Russians can't have it both ways," Jebb declared.

Mrs. Billie Cawley Dies After Illness

Mrs. Billie W. Cawley, wife of Fred L. Cawley, died at her home, 422 Palmetto Avenue early this morning after a long illness.

Mrs. Cawley was born in Princeton, W. Va., and had lived here for the past six years. She was a member of the Central Baptist Church and of the Rebekah Lodge No. 43.

Surviving in addition to the husband is one son, Bobby L. Cawley, and one sister and brother. Services will be held at Brison Funeral Home at 11:00 a.m. tomorrow with Rev. B. L. Whalley officiating. The remains will be taken to Dunbar, W. Va. tomorrow accompanied by the husband. Interment will be held there in Grandview Cemetery.

FEW DIE ON BEACH

GULF SHORES, Ala. (AP) — Thousands of scrap fish dumped by shrimp boats working close offshore littered Gulf beaches here today driving bathers away.

Owners of business establishments pointed to the Alabama Conservation Department and State Highway Patrol that the dumping activities of shrimpers were destroying their beach business.

They said the dead fish first began to appear last Thursday morning. Operators of summer beach cottages reported vacationers were checking out "by the hundreds."

A Mobile Press reporter said thousands of dead fish littered the beach for a 1/2-mile stretch from Alabama Point to Fort Morgan.

Sanford Herald Vacation-Pack

No matter how far away from home you may go on your vacation you can readily catch up on the home town news by reading the Sanford Herald when you return. You can arrange with your carrier, or through Charlie Morrison, circulation manager, by telephoning 144, to have your regular issue of the Herald saved for you while you are away, to be delivered to your home in one package upon your return. There is no extra charge. The regular weekly subscription rate will cover all regular subscriptions to this additional service. Before leaving on your vacation simply notify your carrier by or telephone the Herald circulation department.
